

September 9, 2022

This communication is being sent to all key contacts at provider organizations administering JYNNEOS vaccine--please read this message in its entirety. Please feel free to share it with others in your organization who may benefit from the update. Note that all our communications will be archived on our [web site](#).

Dear JYNNEOS Vaccine Providers,

Many thanks to our network of vaccine depots and community vaccine providers. Please see important information below.

UPDATES

- The CT Department of Public Health updated the *Monkeypox Provider Manual (9/8/2022)*, which includes vaccine administration, strategies to avoid vaccine wastage, and updates to the current eligibility criteria. An appendix was added with guidance for clinics in a mobile setting. The updated sections are clearly indicated in the manual; the manual will also be posted [here](#).

Additionally, the slides from the provider update call are attached to this communication. These communications will occur every other Wednesday and present an opportunity for providers to ask questions and receive programmatic updates. For those who did not receive the invitation, the call information is below.

Thank you for all your ongoing work and support.

If you would like to unsubscribe from these communications, please send an email to Dph.immunizations@ct.gov with the subject line "Unsubscribe from monkeypox provider communications".
