Rounding

You must round off cents to the nearest whole dollar on your returns and schedules. Round down to the next lowest dollar all amounts that include 1 through 49 cents. Round up to the next highest dollar all amounts that include 50 through 99 cents. However, if you need to add two or more amounts to compute the amount to enter on a line, include cents and round off only the total.

Example: Add two amounts (\$1.29 + \$3.21) to compute the total (\$4.50) to enter on a line. \$4.50 is rounded to \$5.00 and entered on the line.

Line Instructions

Line 1: Enter the total amount of gross earnings during the calendar quarter from transmitting video programming by satellite to subscribers, both inside and outside Connecticut. Do not deduct commissions, rebates, or other payments (except refunds arising from errors or overcharges).

Line 2: Enter the average number of subscribers in Connecticut during the calendar quarter. The average is determined by adding the number of subscribers in Connecticut on the first day of the calendar quarter and the number of subscribers in Connecticut on the last day of the calendar quarter, and dividing the total by two.

Line 3: Enter the average number of subscribers, both inside and outside Connecticut, during the calendar quarter. The average is determined by adding the number of subscribers both inside and outside Connecticut on the first day of the calendar quarter and the number of subscribers both inside and outside Connecticut on the last day of the calendar quarter, and dividing the total by two.

Line 4: Divide Line 2 by Line 3.

Line 5: Multiply Line 1 by Line 4.
