Part 1 - Line Instructions

Line 1 - Enter total number of items of prepaid wireless telecommunications service sold at retail during the period.

Each item of prepaid wireless telecommunications service sold is subject to the fee.

Example: If two prepaid phone cards are sold to a consumer the retailer must collect E 9-1-1 fees from the consumer in the amount of \$1.36 (\$0.68 for each item sold).

For the E 9-1-1 fee, prepaid wireless telecommunications service means wireless telephone service that a consumer pays for in advance, allows the consumer to access the E 9-1-1 system by dialing 9-1-1, and is sold in predetermined units or dollars that decline with use.

Line 2 - The fee applies to each item of prepaid wireless telecommunications service sold. The amount of the fee is determined annually by the Public Utilities Regulatory Authority and effective July 1.

Line 3 - Total fees collected from customers for retail transactions of prepaid wireless telecommunications service. Multiply Line 2 by Line 1.

Line 4 - A prepaid wireless telecommunications service retailer may retain 1% (.01) of the fees collected on retail transactions of prepaid wireless telecommunications service. Multiply Line 3 by 1% (.01).

Line 5 - Subtract Line 4 from Line 3.

Line 6 - Late Payment Penalty: If a fee is due, the penalty for underpayment of the fee is 15% (.15) of the fee due or \$50, whichever is greater.

Late Filing Penalty: If no fee is due, the Commissioner of Revenue Services may impose a \$50 penalty for the late filing of any return or report required by law to be filed.

Line 7 - Interest: If this is a late or amended return, compute the interest at the rate of 1% (.01) per month or fraction of a month from the due date until the date of payment. Interest is based on the amount that should have been remitted on time.

Line 8 - Add Lines 5, 6, and 7.
