Form CT-1041ES - Instructions

Please note that each form is year specific. To prevent any delay in processing your return, the correct year’s form must be submitted to DRS.

Nonresident Trusts and Estates and Part-Year Resident Trusts: Nonresident trusts and estates are subject to Connecticut income tax on their Connecticut-sourced income. Part-year resident trusts are taxed on all income received while a resident trust of Connecticut and on income received from Connecticut sources while a nonresident trust. Connecticut-sourced income includes but is not limited to income from a business, profession, occupation, or trade conducted in this state as well as income from the rental or sale of real or tangible property located in Connecticut.

Who Must Make Estimated Payments: In most cases, a payment of estimated income tax is required if:

1. Your Connecticut income tax, after taking into account your Connecticut income tax withheld, and any Pass-Through Entity Tax Credit (PE Tax Credit) you are allowed to claim, is $1,000 or more; and
2. You expect your Connecticut income tax withheld (including any PE Tax Credit) to be less than your required annual payment for the 2022 taxable year.

The required annual payment is the lesser of:

- 90% of the income tax shown on the 2022 Connecticut income tax return; or
- 100% of the income tax shown on the 2021 Connecticut income tax return if the fiduciary filed a 2021 Connecticut income tax return that covered a 12-month period.

The fiduciary does not have to make estimated income tax payments if:

- The trust or estate was a resident trust or estate during the 2021 taxable year and did not file a 2021 Connecticut income tax return because the trust or estate had no Connecticut income tax liability; or
- The estate or trust was a nonresident estate or nonresident or part-year resident trust with Connecticut-sourced income during the 2021 taxable year, but did not have a 2021 Connecticut income tax liability.

If a nonresident estate or trust or part-year resident trust did not have Connecticut-sourced income in 2021, the fiduciary must use 90% of the income tax shown on the 2022 Connecticut income tax return as the required annual payment.

Except as provided below, a trust created in 2022 must use 90% of the income tax shown on the 2022 Form CT-1041, Connecticut Income Tax Return for Trust and Estates, as the required annual payment.

Exceptions

Decedent’s Estates: For any taxable year ending before the date that is two years after a decedent’s death, the decedent’s estate is not required to make estimated payments and no underpayment interest will be charged.

Certain Grantor Trusts: For any taxable year ending before the date that is two years after a decedent’s death, the trust is not required to make estimated payments and no underpayment interest will be charged if:

- The trust was created under Internal Revenue Code (IRC) §§ 671 through 679, inclusive, as owned by the decedent and will receive the residue of the decedent’s estate under the will; or
- If no will is admitted to probate, the trust is primarily responsible for paying debts, taxes, and expenses of administration.

When to File: Estimated payments for the 2022 taxable year are due April 15, June 15, September 15, 2022, and January 15, 2023. Fiscal year filers should follow federal filing due dates. If the due date falls on a Saturday, Sunday or legal holiday, your estimated payment will be considered timely if filed on the next business day. An estimate is considered timely filed if received, or if the date shown by the U.S. Postal Service cancellation mark is, on or before the due date.

Your return will meet the timely filed and timely payment rules if the U.S. Postal Service cancellation date, or the date recorded or marked by a designated private delivery service (PDS) using a designated type of service, is on or before the due date. Not all services provided by these designated PDSs qualify. This list is subject to change. See Policy Statement 2016(4), Designated Private Delivery Services and Designated Types of Service.

How Much Should I Pay: Complete the 2022 Estimated Connecticut Income Tax Worksheet on Page 1 to calculate your required annual payment.

Estimated Payment Rules for Farmers or Fishermen: If the trust or estate had income from farming or fishing as provided in IRC § 6654(i)(2), the required installment is the lesser of 66 2/3% of the Connecticut income tax shown on the 2022 Form CT-1041 return or 100% of the Connecticut income tax shown on the 2021 Form CT-1041 if a 2021 Form CT-1041 was filed and it covered a 12-month period.

If the trust or estate is required to make 2022 estimated income tax payments, you must do one of the following:

- Pay the required installment on or before January 15, 2023; or
- File Form CT-1041 for 2022 on or before March 1, 2023, and pay the full amount computed on the return. In this case, do not make estimated tax payments for 2022.

Annualized Income Installment Method: If the income from the trust or estate varies throughout the year, using the annualized income installment method may help you reduce or eliminate the amount of the estimated tax payment for one or more periods. See Informational Publication 2018(11), A Guide to Calculating Your Annualized Estimated Income Tax Installments and Worksheet CT-1040 AES.

Interest: You may be charged interest if you did not pay enough tax through withholding, estimated payments, or both, by the installment due date, or if any PE Tax Credit reported to you on Schedule CT K-1, Member’s Share of Certain Connecticut Items, Part 3, Line 1, or Schedule CT-1041 K-1, Beneficiary’s Share of Certain Connecticut Items, Part 4, Line 1, is not sufficient to cover your tax liability by the installment due date. This is true even if you are due a refund when you file your tax return.
Interest is calculated separately for each installment. Therefore, you may owe interest for an earlier installment even if you paid enough tax later to make up for the underpayment. Interest at 1% per month or fraction of a month will be added to the tax due until the earlier of April 15, 2023, or the date on which the underpayment is paid.

If you file your income tax return for the 2022 taxable year on or before January 31, 2023, and pay in full the amount computed on the return as payable on or before that date, you will not be charged interest for failing to make the estimated payment due January 15, 2023.
