<b>Unknown</b>	3	8.1

This table presents HIV Infection cases using the year the person was first diagnosed. The term HIV Infection is used to refer to three categories of diagnoses collectively:  
 1 - persons with a diagnosis of HIV infection (not AIDS)  
 2 - a diagnosis of HIV infection and a later diagnosis of AIDS  
 3 - concurrent diagnoses of HIV and AIDS.  
 Other risk includes perinatal and presumed heterosexual contact
