Data based on most recent known address as of 2019

This table presents HIV Infection cases using the year the person was first diagnosed

The term HIV Infection is used to refer to three categories of diagnoses collectively:

1 - persons with a diagnosis of HIV infection (not AIDS)

2 - a diagnosis of HIV infection and a later diagnosis of AIDS

3 - concurrent diagnoses of HIV and AIDS

Preliminary data from the HIV Surveillance Registry for cases reported through July 2020
