40+	5	31.3

**This table presents HIV Infection cases using the year the person was first diagnosed**

**The term HIV Infection is used to refer to three categories of diagnoses collectively:**

**1 - persons with a diagnosis of HIV infection (not AIDS)**

**2 - a diagnosis of HIV infection and a later diagnosis of AIDS**

**3 - concurrent diagnoses of HIV and AIDS**

**Note: other risk includes perinatal and presumed heterosexual contact**
