**This table presents HIV Infection cases using the year the person was first diagnosed  
The term HIV Infection is used to refer to three categories of diagnoses collectively:  
1 - persons with a diagnosis of HIV infection (not AIDS)  
2 - a diagnosis of HIV infection and a later diagnosis of AIDS  
3 - concurrent diagnoses of HIV and AIDS  
Source: HIV Surveillance Registry for cases reported through December 23, 2020**
