Female	28	4	14.3
Other ^d			
Male	24	12	50.0
Female	15	2	13.3
Total	219	59	26.9

^a Stage 3 classification is based on first CD4 test performed or documentation of an AIDS-defining condition ≤ 3 months (≤ 91 days) after a diagnosis of HIV infection.

^b Transmission category data presented based on sex at birth and include transgender persons.

^c Heterosexual contact with a person known to have, or to be at high risk for, HIV infection.

^d Other transmission category includes persons whose infection was attributed to hemophilia, blood transfusion, perinatal exposure or whose risk factor was not reported or not identified. Data not displayed because the numbers were too small to be
