

# Cases of HIV Disease: Prevalent, Newly Diagnosed, and Deaths, Connecticut, 2016-2020

Deaths in the most recent year are preliminary and may not be completely reported. Newly diagnosed cases based on residence address at diagnosis. Prevalent cases based on last known residence at the end of the reporting year.  
 Note: data for 2020 should be interpreted with caution due to the impact of the COVID-19 pandemic on access to HIV testing & care-related services.  
 Source: HIV Surveillance Registry for case reported through December 2021.
