2017
Connecticut School Health Survey
Youth Behavior Component
Student Questionnaire

This survey is about your habits and choices that you make about your health behaviors. It has been developed so you can tell us what you do that may affect your health. The answers you provide will be used to develop better public health and education programs for young people like yourself. Your answers are important and we want to hear from you. Your answers will be combined with responses from students around the state to help give an accurate picture of all Connecticut students.

**DO NOT write your name on this survey or answer sheet.** The answers you give will be kept private. No one will know what you write. Answer the questions based on what you really do.

Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. Not all the questions or behaviors mentioned in this survey may apply to you, but please read each one carefully and respond with the answer that best fits what you really do. If you are not comfortable answering a question, just leave it blank.

The questions that ask about your background will be used only to describe the types of students completing this survey. The information will not be used to find out your name. No names will ever be reported.

Make sure to read every question. **Use the pencil provided.** Fill in the ovals completely. When you are finished, follow the instructions of the person giving you the survey.
