Percentage of High School Students Who Rarely or Never Wore a Seat Belt,* by Sex,† Grade,† and Race/Ethnicity,† 2015

*When riding in a car driven by someone else
†M > F; 9th > 12th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN9
Percentage of High School Students Who Rarely or Never Wore a Seat Belt,* 1997-2015†

*When riding in a car driven by someone else
†Decreased 1997-2015, decreased 1997-2007, no change 2007-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Rode with a Driver Who Had Been Drinking Alcohol,* by Sex, Grade, and Race/Ethnicity,† 2015

*In a car or other vehicle one or more times during the 30 days before the survey
†H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Rode with a Driver Who Had Been Drinking Alcohol,* 1997-2015†

*In a car or other vehicle one or more times during the 30 days before the survey
†Decreased 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Drove When Drinking Alcohol,*
by Sex,† Grade,† and Race/Ethnicity, 2015

*One or more times during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey
†M > F; 12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Drove When Drinking Alcohol, * 2013-2015 †

*One or more times during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey
†Decreased 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Texted or E-Mailed While Driving a Car or Other Vehicle,* by Sex, Grade,† and Race/Ethnicity,‡ 2015

*On at least 1 day during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey
†11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th, 12th > 11th; W > H (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Texted or E-Mailed While Driving a Car or Other Vehicle,* 2013-2015†

*On at least 1 day during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey

†Decreased 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Carried a Weapon on School Property, * by Sex, † Grade, and Race/Ethnicity, † 2015

*Such as a gun, knife, or club on at least 1 day during the 30 days before the survey
†M > F; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Carried a Weapon on School Property,* 1997-2015†

*Such as a gun, knife, or club on at least 1 day during the 30 days before the survey
†No change 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).] Question not included in the survey in 1999, 2001, 2003.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Go to School Because They Felt Unsafe at School or on Their Way to or from School,* by Sex, Grade, and Race/Ethnicity,† 2015

*On at least 1 day during the 30 days before the survey
†B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Go to School Because They Felt Unsafe at School or on Their Way to or from School,* 1997-2015†

*On at least 1 day during the 30 days before the survey

†Increased 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Threatened or Injured with a Weapon on School Property,* by Sex,† Grade,† and Race/Ethnicity,† 2015

*Such as a gun, knife, or club one or more times during the 12 months before the survey
†M > F; 9th > 10th, 9th > 12th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Threatened or Injured with a Weapon on School Property,* 1997-2015†

*Such as a gun, knife, or club one or more times during the 12 months before the survey
†No change, 1997-2007, no change, 2007-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were in a Physical Fight,* by Sex,† Grade,† and Race/Ethnicity,† 2015

*One or more times during the 12 months before the survey
†M > F; 9th > 10th, 9th > 11th, 9th > 12th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were in a Physical Fight,* 1997-2015†

*One or more times during the 12 months before the survey
†Decreased 1997-2015, no change 1997-2007, decreased 2007-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Ever Physically Forced to Have Sexual Intercourse,* by Sex,† Grade, and Race/Ethnicity, † 2015

*When they did not want to
†F > M; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Ever Physically Forced to Have Sexual Intercourse,* 2007-2015†

*When they did not want to
†No change 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Physical Dating Violence,* by Sex, Grade, and Race/Ethnicity, 2015

*One or more times during the 12 months before the survey, including being hit, slammed into something, or injured with an object or weapon on purpose by someone they were dating or going out with among students who dated or went out with someone during the 12 months before the survey.
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Physical Dating Violence,* 2013-2015†

*One or more times during the 12 months before the survey, including being hit, slammed into something, or injured with an object or weapon on purpose by someone they were dating or going out with among students who dated or went out with someone during the 12 months before the survey.

†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Sexual Dating Violence,* by Sex,† Grade, and Race/Ethnicity, 2015

*One or more times during the 12 months before the survey, including kissing, touching, or being physically forced to have sexual intercourse when they did not want to by someone they were dating or going out with among students who dated or went out with someone during the 12 months before the survey
†F > M (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Sexual Dating Violence,* 2013-2015†

*One or more times during the 12 months before the survey, including kissing, touching, or being physically forced to have sexual intercourse when they did not want to by someone they were dating or going out with among students who dated or went out with someone during the 12 months before the survey.

†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Bullied on School Property,* by Sex,† Grade,† and Race/Ethnicity, 2015

*During the 12 months before the survey
†F > M; 9th > 12th, 10th > 12th, 11th > 12th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN24
Percentage of High School Students Who Were Bullied on School Property,* 2011-2015†

*During the 12 months before the survey
†Decreased 2011-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Electronically Bullied,* by Sex,† Grade, and Race/Ethnicity,† 2015

*Including being bullied through e-mail, chat rooms, instant messaging, websites, or texting during the 12 months before the survey
†F > M; H > B (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Electronically Bullied,* 2011-2015†

*Including being bullied through e-mail, chat rooms, instant messaging, websites, or texting during the 12 months before the survey.
†Decreased 2011-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Felt Sad or Hopeless,* by Sex,† Grade,† and Race/Ethnicity,† 2015

*Almost every day for 2 or more weeks in a row so that they stopped doing some usual activities during the 12 months before the survey
†F > M; 11th > 10th; H > B, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Felt Sad or Hopeless,* 2005-2015†

*Almost every day for 2 or more weeks in a row so that they stopped doing some usual activities during the 12 months before the survey

†No change 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Seriously Considered Attempting Suicide,* by Sex,† Grade, and Race/Ethnicity,† 2015

*During the 12 months before the survey
†F > M; H > B, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Seriously Considered Attempting Suicide,* 1997-2015†

*During the 12 months before the survey
†Decreased 1997-2015, decreased 1997-2007, no change 2007-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Percentage of High School Students Who Ever Used Methamphetamine,* 2005-2015†

*Also called "speed," "crystal," "crank," or "ice," one or more times during their life
†Decreased 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Ever Used Ecstasy,* by Sex,† Grade,‡ and Race/Ethnicity,‡ 2015

*Also called "MDMA," one or more times during their life
†M > F; 12th > 9th, 12th > 10th; H > B, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Used Ecstasy,* 2005-2015†

*Also called “MDMA,” one or more times during their life
†No change 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Ever Used Synthetic Marijuana,* by Sex,† Grade, and Race/Ethnicity, 2015

*Also called "K2", "Spice", "fake weed", "King Kong", "Yucatan Fire", "Skunk", or "Moon Rocks", one or more times during their life
†M > F (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN55
Percentage of High School Students Who Ever Took Prescription Drugs Without a Doctor's Prescription,* by Sex, Grade,† and Race/Ethnicity, 2015

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times during their life
†11th > 9th, 12th > 9th, 12th > 10th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Injected Any Illegal Drug,* by Sex,† Grade, and Race/Ethnicity, 2015

*Used a needle to inject any illegal drug into their body one or more times during their life
†M > F (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Injected Any Illegal Drug,* 2013-2015†

*Used a needle to inject any illegal drug into their body one or more times during their life
†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Offered, Sold, or Given an Illegal Drug on School Property,* by Sex, Grade, and Race/Ethnicity, 2015

*During the 12 months before the survey
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Offered, Sold, or Given an Illegal Drug on School Property,* 1997-2015†

*During the 12 months before the survey
†No change 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Had Sexual Intercourse, by Sex, Grade, and Race/Ethnicity, 2015

10th > 9th, 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th, 12th > 11th; H > W (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.
Percentage of High School Students Who Ever Had Sexual Intercourse, 1997-2015*

*Decreased 1997-2015, decreased 1997-2011, decreased 2011-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Had Sexual Intercourse Before Age 13 Years, * by Sex, † Grade, and Race/Ethnicity, ‡ 2015

*For the first time
†M > F; H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN61
Percentage of High School Students Who Had Sexual Intercourse Before Age 13 Years,* 1997-2015†

*For the first time
†Decreased 1997-2015, no change 1997-2011, decreased 2011-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Had Sexual Intercourse with Four or More Persons,* by Sex, Grade,† and Race/Ethnicity, 2015

*During their life
†10th > 9th, 11th > 9th, 12th > 9th, 12th > 10th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Had Sexual Intercourse with Four or More Persons,* 1997-2015†

*During their life
†Decreased 1997-2015, no change 1997-2007, decreased 2007-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).] Question not included in the survey in 1999, 2001, 2003.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Currently Sexually Active,\(^*\) by Sex, Grade,\(^†\) and Race/Ethnicity, 2015

*Sexual intercourse with at least one person during the 3 months before the survey
\(^†\)10th > 9th, 11th > 9th, 12th > 9th, 12th > 10th, 12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Currently Sexually Active,* 2007-2015†

*Sexual intercourse with at least one person during the 3 months before the survey
†Decreased 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Drank Alcohol or Used Drugs Before Last Sexual Intercourse,* by Sex,† Grade, and Race/Ethnicity, 2015

*Among students who were currently sexually active
†M > F (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN64
Percentage of High School Students Who Drank Alcohol or Used Drugs Before Last Sexual Intercourse,* 2007-2015†

*Among students who were currently sexually active
†Decreased 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Used a Condom,* by Sex,† Grade,† and Race/Ethnicity, 2015

*During last sexual intercourse among students who were currently sexually active
†M > F; 10th > 12th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Used a Condom,* 2007-2015†

*During last sexual intercourse among students who were currently sexually active
†No change 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

Percentage of High School Students Who Used Birth Control Pills,* by Sex, Grade,† and Race/Ethnicity,† 2015

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†11th > 10th, 12th > 10th; W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Used Birth Control Pills,* 2007-2015†

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†No change 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Used an IUD (e.g., Mirena or Paragard) or Implant (e.g., Implanon or Nexplanon),* by Sex, Grade,† and Race/Ethnicity, 2015

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†12th > 10th, 12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QNIUDIMP
Percentage of High School Students Who Used an IUD (e.g., Mirena or Paragard) or Implant (e.g., Implanon or Nexplanon),* 2013-2015†

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

Percentage of High School Students Who Used a Shot (e.g., Depo-Provera), Patch (e.g., Orthoevra), or Birth Control Ring (e.g., Nuvaring),* by Sex, Grade,† and Race/Ethnicity, 2015

*During last sexual intercourse among students who were currently sexually active
†12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Used a Shot (e.g., Depo-Provera), Patch (e.g., Orthoevra), or Birth Control Ring (e.g., Nuvaring),* 2013-2015†

*During last sexual intercourse among students who were currently sexually active
†Decreased 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Used Birth Control Pills; an IUD or Implant; or a Shot, Patch, or Birth Control Ring, * by Sex, Grade, † and Race/Ethnicity, ‡ 2015

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†11th > 10th, 12th > 10th, 12th > 11th; W > H (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Used Birth Control Pills; an IUD or Implant; or a Shot, Patch, or Birth Control Ring,* 2013-2015†

*Before last sexual intercourse to prevent pregnancy among students who were currently sexually active
†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

Percentage of High School Students Who Used Both a Condom During and Birth Control Pills; an IUD or Implant; or a Shot, Patch, or Birth Control Ring Before Last Sexual Intercourse,* by Sex, Grade, and Race/Ethnicity, 2015

*To prevent STD and pregnancy among students who were currently sexually active
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Used Both a Condom During and Birth Control Pills; an IUD or Implant; or a Shot, Patch, or Birth Control Ring Before Last Sexual Intercourse,* 2013-2015†

*To prevent STD and pregnancy among students who were currently sexually active
†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Use Any Method to Prevent Pregnancy,* by Sex, Grade, and Race/Ethnicity,† 2015

*During last sexual intercourse among students who were currently sexually active
†H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Missing bar indicates fewer than 100 students in this subgroup.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Use Any Method to Prevent Pregnancy,* 2007-2015†

*During last sexual intercourse among students who were currently sexually active
†No change 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Obese,* by Sex,† Grade, and Race/Ethnicity,‡ 2015

* ≥ 95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts
†M > F; H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Obese,* 2005-2015†

* ≥ 95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts
†No change 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Overweight, * by Sex, Grade, † and Race/Ethnicity, † 2015

* ≥ 85th percentile but <95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts
† 9th > 10th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Overweight,* 2005-2015†

* ≥ 85th percentile but <95th percentile for body mass index, based on sex- and age-specific reference data from the 2000 CDC growth charts

†No change 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Described Themselves As Slightly or Very Overweight, by Sex,* Grade,* and Race/Ethnicity,* 2015

*F > M; 12th > 10th; H > B (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Described Themselves As Slightly or Very Overweight, 1997-2015

*No change 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Trying to Lose Weight, by Sex,* Grade, and Race/Ethnicity,* 2015

*F > M; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Trying to Lose Weight, 1997-2015

Increased 1997-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.

Connecticut - YRBS, 1997-2015 - QN70
Percentage of High School Students Who Did Not Drink Fruit Juice,* by Sex, Grade, and Race/Ethnicity,† 2015

*100% fruit juices one or more times during the 7 days before the survey
†W > H (Based on t-test analysis, p < 0.05.)

Note: This graph contains weighted results.
Percentage of High School Students Who Have Been Told by a Doctor or Nurse That They Had a Sexually Transmitted Disease (STD), 2009-2015

*No change 2009-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Percentage of High School Students Who Have Been Taught About AIDS or HIV Infection in School, by Sex, Grade, and Race/Ethnicity, 2015

*F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN109
Percentage of High School Students Who Have Been Taught in School About Birth Control Methods, by Sex, Grade,* and Race/Ethnicity,* 2015

10th > 9th, 11th > 9th, 12th > 9th, 12th > 10th; W > B, W > H (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN110
Percentage of High School Students Who Took Part in Organized After School, Evening, or Weekend Activities,* by Sex,† Grade, and Race/Ethnicity,‡ 2015

*Such as school clubs; sports; community center groups; music, art, or dance lessons; drama; church; or other supervised activities, on at least one day during the 7 days before the survey
†F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN111
Percentage of High School Students Who Took Part in Organized After School, Evening, or Weekend Activities,* 2005-2015†

*Such as school clubs; sports; community center groups; music, art, or dance lessons; drama; church; or other supervised activities, on at least one day during the 7 days before the survey.

†Increased 2005-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Percentage of High School Students Who Agree or Strongly Agree That Their Family Loves Them and Gives Them Help and Support When They Need It, by Sex, Grade, and Race/Ethnicity,* 2015

*W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Agree or Strongly Agree That Their Family Loves Them and Gives Them Help and Support When They Need It, 2007-2015*

*No change 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Reported Their Parents or Other Adults in Their Family Most of the Time or Always Ask Where They Are Going or with Whom They Will Be With, by Sex,* Grade, and Race/Ethnicity, 2015

- F > M (Based on t-test analysis, p < 0.05.)
- All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
- Note: This graph contains weighted results.
Percentage of High School Students Who Ever Lived Away from Their Parents or Guardians Because They Were Kicked Out, Ran Away, or Were Abandoned,* by Sex, Grade, and Race/Ethnicity,† 2015

*During the 12 months before the survey
†B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Usually Slept with Friends, Family, or Other People Because Their Parents or They Lost Their Home or Could Not Afford Housing,* by Sex,† Grade, and Race/Ethnicity, 2015

*During the 30 days before the survey
†M > F (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Usually Spend Four or More Hours After School Without an Adult Present,* by Sex, Grade,† and Race/Ethnicity, 2015

*On a school day
†12th > 9th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

Connecticut - YRBS, 2015 - QN116
Percentage of High School Students Who Usually Spend Four or More Hours After School Without an Adult Present,* 2005-2015†

*On a school day
†Decreased 2005-2015, decreased 2005-2009, no change 2009-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Percentage of High School Students Who Did Not Go to School 3 or More Days,* by Sex, Grade, and Race/Ethnicity,† 2015

*Not including days missed because they were sick, during the 30 days before the survey
†B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Reported There Is at Least One Teacher or Other Adult in Their School That They Can Talk to If They Have a Problem, by Sex, Grade,* and Race/Ethnicity,* 2015

*11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th, 12th > 11th; B > H, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Reported There Is at Least One Teacher or Other Adult in Their School That They Can Talk to If They Have a Problem, 2013-2015

Increased 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Connecticut - YRBS, 2013-2015 - QN118
Percentage of High School Students Who Are Receiving Special Education Services,* by Sex,† Grade, and Race/Ethnicity, 2015

*As part of an individual education plan or IEP
†M > F (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Are Receiving Special Education Services,* 2013-2015†

*As part of an individual education plan or IEP
†No change 2013-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Probably or Definitely Will Complete a Post High School Program,* by Sex,† Grade,† and Race/Ethnicity,† 2015

*Such as a vocational training program, military service, community college, or 4-year college
†F > M; 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Probably or Definitely Will Complete a Post High School Program,* 2005-2015†

*Such as a vocational training program, military service, community college, or 4-year college
†Increased, 2005-2009, decreased, 2009-2015 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Percentage of High School Students Who Gambled for Money or Possessions,* by Sex,† Grade,† and Race/Ethnicity, 2015

*Including buying lottery tickets, betting money on team sports, or play card games for money, one or more times during the 12 months before the survey
†M > F; 12th > 10th, 12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Gambled for Money or Possessions,* 2007-2015†

* Including buying lottery tickets, betting money on team sports, or playing card games for money, one or more times during the 12 months before the survey.
† Decreased 2007-2015 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Connecticut - YRBS, 2007-2015 - QN121
Percentage of High School Students Who Drank One or More Glasses Per Day of Water,* by Sex,† Grade, and Race/Ethnicity,† 2015

*During the 7 days before the survey
†F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Drank Two or More Glasses Per Day of Water,* by Sex,† Grade, and Race/Ethnicity,‡ 2015

*During the 7 days before the survey
†F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Drank Three or More Glasses Per Day of Water,* by Sex, Grade,† and Race/Ethnicity,† 2015

*During the 7 days before the survey
†12th > 9th, 12th > 10th; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
