

## Hypoallergenic Formulas for Infants

| Product Name                | Company Package size                              | Description  | Indications for Use   |
|-----------------------------|---|--|---|
| EleCare                     | Abbott Powder<br>14.1 oz. can                     | Amino-Acid Based<br>Hypoallergenic<br>Gluten-free, Soy-free<br>Fructose-free, Galactose-free, lactose-free, milk protein-free.<br>MCT 33% of fat<br>Halal<br>20 Calories per fluid ounce                                   | Intact or hydrolyzed protein intolerance, protein maldigestion, malabsorption, severe food allergies, short bowel syndrome, eosinophilic GI disorders, GI-tract impairment.<br>Galactosemia<br><b>For Infants 0-12 months</b>   |
| Neocate Infant with DHA/ARA | Nutricia Powder<br>14.1 oz. can                   | Amino-Acid based<br>Hypoallergenic<br>Lactose-free, sucrose-free, galactose-free<br>Halal & Kosher Pareve<br>20 Calories per fluid ounce   | Sensitivity to intact proteins such as Cow's milk protein allergy<br>Soy's protein allergy.<br>Multiple food allergies.<br>Food allergies associated conditions: Short bowel syndrome, food protein-induced enterocolitis syndrome, Eosinophilic esophagitis, Malabsorption, Gastroesophageal reflux.<br>Galactosemia<br><b>For Infants 0-12 months</b> |
| Nutramigen                  | Mead Johnson RTF <sup>^</sup><br>32 fl oz. Bottle | Extensively hydrolyzed protein (peptide based)<br>Hypoallergenic<br>Gluten-free, Galactose-free<br>Lactose-free, Sucrose-free<br>Iron-fortified<br>20 Calories per fluid ounce   | Cow's milk protein allergy<br>Soy's protein allergy<br>Lactose intolerance<br>Malabsorption problems<br>Galactosemia<br><b>For Infants 0-12 months<sup>^^</sup></b>   |
| Nutramigen with Enflora LGG | Mead Johnson Powder<br>12.6 oz. can               | Extensively hydrolyzed protein (peptide based)<br>Hypoallergenic<br>Gluten-free, Lactose-free, Sucrose-free, galactose-free<br>Probiotic Lactobacillus rhamnosus GG (LGG)<br>Iron-fortified<br>20 Calories per fluid ounce | Cow's milk protein allergy<br>Soy's protein allergy<br>Lactose intolerance<br>Malabsorption problems<br>Galactosemia<br><b>For Infants 0-12 months<sup>^^</sup></b>   |
| Pregestimil                 | Mead Johnson Powder<br>16 oz. can                 | Semi elemental with extensively hydrolyzed proteins<br>Hypoallergenic  | Fat malabsorption, steatorrhea, associated with cystic fibrosis, short bowel syndrome, intractable diarrhea, severe protein calorie malnutrition.   |

|  |  |  |   |
|--|--|--|---|
| Pregestimil<br>20 Cal<br>Pregestimil<br>24 Cal | RTF <sup>^</sup><br>6 – 2 fl oz. Package<br>6 – 2 fl oz. Package         | Gluten-free, Lactose-free,<br>Sucrose-free<br>MCT 55% of fat<br><br>20 Calories per fluid ounce<br>24 Calories per fluid ounce   | Sensitivity to intact proteins such as cow's milk protein allergy and soy protein allergy.<br>Galactosemia<br><b>For Infants 0-12 months<sup>^^</sup></b>                                       |
| Puramino                                       | Mead Johnson<br>Powder<br>14.1 oz. can                                   | Amino-Acid based<br>Hypoallergenic<br>Gluten-free, Lactose-free,<br>Galactose-free.<br>20 Calories per fluid ounce   | Severe cow's milk protein allergy not effectively managed by an extensively hydrolyzed formula. Multiple food protein allergies.<br>Galactosemia<br><b>For Infants 0-12 months<sup>^^</sup></b> |
| Similac<br>Alimentum                           | Abbott<br>Powder<br>12.1 oz. can<br>RTF <sup>^</sup><br>32 fl oz. bottle | Semi elemental with extensively hydrolyzed proteins (casein hydrolysate supplemented with free amino acids)<br>Hypoallergenic<br>MCT 33% of fat<br>Lactose-free, Gluten-free,<br>Ready to feed formula is corn-free.<br>Contains sugar and modified tapioca starch<br>20 Calorie per fluid ounce | Protein sensitivity, sensitivity to intact protein, severe food allergies.<br>Protein maldigestion<br>Fat malabsorption<br>Lactose sensitivity<br><b>For Infants 0-12 months</b>                |

<sup>^</sup> **Ready to Feed Formulas (RTF)** may be authorized when the CPA determines and documents that one of the following conditions are met: 1) The participant's household has an unsanitary or restricted water supply or poor refrigeration, 2) The person caring for the participant may have difficulty in correctly diluting concentrated liquid or powder forms; or 3) The WIC infant formula is only available in ready-to-feed. In addition to those conditions, RTF may be issue in Food Package III if 1) a RTF form better accommodates the participant's condition; or 2) if it improve the participant's compliance in consuming the prescribed WIC formula.

<sup>^^</sup> Could be used for supplemental nutrition beyond 12 months of age, for which when used as a milk substitute, the total calcium content of the diet should be assessed.
