Product is WIC approved, but not scanning

A WIC customer or manager can contact the State WIC Office.

The following information is needed:

*The entire UPC number/all of the numbers or a photo of UPC bar code

*Product Name or photo of the front of the product

*Size of container

*Send the information to:

*Email: ctwic@ct.gov

The product may be WIC approved; however, the UPC number is not listed in the WIC Program's Approved Product Listing.

Once approved, products will appear in the Approved Product Listing within 48 hours.

Common situations with food purchases

Food will not scan

- The product is not WIC approved.
- The size is not allowed. Any size other than 16 ounce bread, or smaller than 12 ounce boxes of cereal.

Complete the sale for the items that do go through. Participants can try another brand or wait to purchase at a later date. If the UPC does not scan, you should refuse to sell the item.

Food will not come off benefit balance

- The WIC customer does not have enough benefits for the purchase.
- A juice benefit of 32 oz. or 16 oz. cannot be redeemed. When mixed, 12 oz. concentrate equals 48 oz. of fluid juice, therefore any amount under 48 oz. cannot be redeemed.
- A cereal benefit of 11.9 oz. or less cannot be redeemed. Only boxes or bags that are 12 oz. or larger are allowed.
- The product is not allowed on their benefit. (Participant is issued Low Fat Milk, and trying to purchase Whole)

If the issue cannot be resolved, WIC customers can call their local WIC office.

What are your
experiences?

Appendix C-Requirements for WIC Transactions

- Never ask for or enter the cardholder's PIN. The PIN, along with a valid WIC card is the only identification needed.
- Scan the actual item's Universal Product Code (UPC) that is affixed to the item, unless the item is a fresh fruit or vegetable.

Requirements For Pricing-Appendix D

- Your store is assigned a peer group based on the size of your town (population density) and the number of cash registers you have. Charge prices that are fair and competitive.
- A vendor must meet established competitive pricing criteria, which involve the ranking by peer group of the price index of all vendors.
- The price index is calculated by using each vendor's redemptions for WIC food items. Each vendor's price index is then compared to the average price index for their peer group.
- There is a **maximum not to exceed (NTE) price**. The maximum not to exceed prices are based on average vendor prices for WIC food items within a peer group and are used by the WIC Program to determine the reimbursement level for each food item.
- Prices charged by a vendor that are higher than the peer group average will be reduced to the not-to-exceed (NTE) price during the WIC transaction. Vendors paid the reduced price is indicated by an asterisk next to the price on the receipt.
- Never seek payment for the difference between the price charged and the maximum price paid.
- Never charge customers a surcharge or a fee.

- Store Promotions
- Savings Cards

from WIC customers if offered to non-WIC customers.
