Provider Stamp or Address: _____	Fax: _____

The Connecticut WIC Program strongly endorses breastfeeding as the optimal method to feed most infants. For infants that do consume formula, Connecticut WIC standard formulas are **Enfamil PREMIUM Infant®** and **Enfamil Prosobee®** (soy). **Enfamil Gentlease** is approved in Connecticut as a standard contract formula not requiring a prescription. For more information or additional copies of this form please visit our website: www.ct.gov/dph/wic, then click on "For Medical Providers" tab in the left navigation bar.

In order to obtain an exempt/special formula from WIC, an ICD code(s) and qualifying medical condition must be identified. **Non-specific symptoms such as intolerance, fussiness, gas, spitting up, constipation and colic are not considered qualifying conditions.** A WIC Nutrition Professional will complete a dietary assessment to determine the need for the requested formula. Significant findings will be communicated to you with the participant's permission. It is WIC's policy to re-evaluate the continued need for the formula on a periodic basis. **The WIC Program does not provide whole cow's milk for infants.**
