SUBJECT: Application for a Well Permit Exception

The Department of Public Health (DPH) Drinking Water Section (DWS) has developed a new application for requesting a well permit exception pursuant to the Regulations of Connecticut State Agencies (RCSA) section 19-13-B51m. The application has been designed to empower the affected parcel's owner to gather the information required for DPH review. It also includes a simplified section for Director of Health input on the application request. This new application may be found on the web by going to www.ct.gov/dph/publicdrinkingwater and clicking on Forms/Applications on the left hand side of the page. Please refer property owners to this application form for future requests.

Eric McPhee or Pat Bisacky of the DWS Source Assessment and Protection Unit are available to answer any questions regarding this new application form and the Well Permit Exception process. They may be contacted at 860-509-7333 or via email at Eric.McPhee@ct.gov or Patricia.Bisacky@ct.gov.
