### Drinking Water Section

#### DWS Circular Letter# 2020-03

TO: Local Health Directors

FROM: Lori Mathieu, Branch Chief, Environmental Health and Drinking Water Branch

DATE: March 30, 2020

RE: Updated Public Water Screening Form

Handwritten signature of Lori Mathieu in blue ink, dated 2020.

In cooperation with local health officials and the Connecticut Environmental Health Association ([www.cteha.org](http://www.cteha.org)), the Public Water System Screening Form and Instructions have been updated. This **form** is used to determine if a proposed project with an on-site water system or a change in operation at an existing facility with an onsite water system will result in the creation of new public water system or change the classification (Community, Non-Transient Non-Community, or Transient Non-Community) of an existing public water system. The form has been modified to address common questions, capture some additional information and include local health sign off (similar to well permit exception form).

If you have any further concerns or questions regarding this form please to not hesitate to contact Vicky Carrier, P.E. or any other team members in the Drinking Water Section.

- c. Deputy Commissioner Heather Aaron, MPH, LNHA, Department of Public Health
