Mr. Richard Iozzo  
Department of Public Health, Drinking Water Section  
410 Capital Avenue  
Hartford, CT 06134

Dear Richard Iozzo:

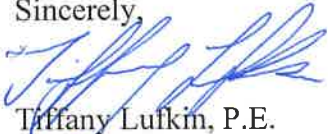

The South Central Connecticut Regional Water Authority (RWA) appreciates the opportunity to provide comments supporting the adoption of the Water Utility Coordinating Committee (WUCC) Coordinated System Plan. The RWA is a non-profit corporation that provides our customers with water at a reasonable cost while promoting the preservation of watershed land and aquifers. We provide high-quality water and services to some 430,000 consumers in the Greater New Haven region. The source of this water is a reservoir system that covers about 120 square miles within 24 municipalities.

The RWA supports the WUCC Plan as a critical component for future water planning in Connecticut. I serve as the recording secretary for the Western WUCC section, and several of my RWA colleagues have also served on various committees throughout the process. We've been active participants by providing assistance, data, and comments during the development for the Western and Central section WUCC plans. As active contributors, we've attended the majority of meetings, reviewed all supporting documents, assisted in the draft plan development and provided feedback on the Integrated Report and Executive Summary to the WUCC chairs.

The RWA recognizes that the WUCC coordinated plan is integral to meeting the future water supply needs of our region. The RWA will continue to be involved in the process, participate on the committees and support the proposed actions of plan.

Thank you for the opportunity to provide comments on this important document. If you have any questions, please contact me at 203-401-6710 or [tlufkin@rwater.com](mailto:tlufkin@rwater.com) or Lori Vitagliano, Government and Public Relations Specialist, at 203-401-2720 or [lvitagliano@rwater.com](mailto:lvitagliano@rwater.com).

Sincerely,

Tiffany Lufkin, P.E.  
Asset Management Engineer  
South Central Connecticut Regional Water Authority
