

### The following project activities are eligible for DWSRF funding:

**Planning Phase** – Includes pilot/feasibility study, environmental study, surveying, and other related engineering study to conceptualize the project and support the preparation of engineering report and other relevant project report(s) required by the DPH

**Design Phase** – Preparation of project design (plans and specifications), value engineering (VE), flood management investigation, and other related project design work.

**Construction Phase** – Listed below are examples of eligible construction projects

- a. Water Quality
  - Improvement/modification to existing sources
  - Development & water quality testing of replacement sources of supply
  - Improvement/modification to existing treatment system
  - Installation of new treatment system
  - System automation
  - Other related activities to improve water quality
- b. Water Quantity
  - Development & water quality testing of new sources of supply
  - Water meter installation/replacement
  - Leak detection development program
  - Booster pumping installation
  - Storage tank(s) installation
  - Other related activities to increase water quantity
- c. Upgrade Infrastructure
  - Improvement/replacement of pumping station, storage tank, water main, and related appurtenances
  - Water treatment plant (WTP) improvement/modification
  - Other related activities to improve the condition of the existing infrastructure
- d. PWS Acquisition/Transfer/Consolidation
  - Interconnection of PWS
  - Consolidation of individual water systems
  - Acquisition of systems (satellite system)
- e. Source Protection
  - Acquire easements, purchase of land\*, signs, postings, fencing, video camera, and other related security measures \*Only land that is integral to a project
- f. Emergency Power Provisions
  - Installation/replacement of stand-by power generators and associated accessories
- g. Other Projects
  - Treatment residual disposal
  - Water main extension to existing private wells with Public Health Code Violations
  - Telemetry
  - SCADA improvement

Examples of projects ineligible for DWSRF funding are included in the [Priority Ranking Criteria document](#).
