Good Morning,

***Sent on behalf of Terry DeVito, Education & Training Coordinator:***

**To All EMS Instructors:**

It has come to the attention of OEMS that there have been a few EMS Instructors attempting to take the EMT refresher exam.

***No one should be taking an exam that is not required for personal certification.***

The EMS Instructor renewal process is based on CEUs, and their EMT/EMR certification is renewed automatically with their EMSI renewal , therefore there is no reason for EMS Instructors to take the EMR/EMT certification/re-certification exams

Exam Proctors will be carefully monitoring this and have the permission from OEMS to refuse EMS Instructors from taking the exams.

Please contact [Terry DeVito](#) if you need further clarification.

Thank you for your anticipated and immediate cooperation in this matter.

Thank you,

Jean C. Speck

Region 5 EMS Coordinator

CT. Department of Public Health

## Office of Emergency Medical Services
