RE: Orenco Systems Effluent Filters

Dear Mr. Schaefer:

This Department has reviewed your request for approval of four effluent filters that have designation numbers of PSCS0621-18, PSCW0621-18, PSCPS0621-18, PSCPW0621-18. The Technical Standards for Subsurface Sewage Disposal Systems (Technical Standards) stipulates that new septic tanks must be installed with an effluent filter that is approved by this Department. Approved effluent filters are listed in Appendix B of the Technical Standards. Your submission included technical drawings, specifications, and product literature for the Orenco Systems, Inc. effluent filters.

The information submitted documents the Orenco Systems, Inc. effluent filters with the above noted designation numbers meet the minimum requirements in the Technical Standards for effluent filters. This Department hereby APPROVES the Orenco Systems, Inc. effluent filters with the cited designation numbers. Attached is an updated Appendix B that includes the approved Orenco Systems, Inc. effluent filters which will be included in the upcoming Technical Standards revision of January 1, 2023.

The approval will be e-mailed to local health officials, professional engineers and to our Code Advisory Committee. This approval will also be posted on our program website. This letter may be reproduced as a means of notifying other parties of this Department's approval. As with all product approvals, this Department's approval should not be considered an endorsement of the product.

Sincerely,

A handwritten signature in blue ink that reads "Matthew A. Pawlik".

Matthew A. Pawlik, PE, RS
Supervising Sanitary Engineer
Environmental Engineering Program
