

## Environmental Issues Referral Form For Daycare Center Inspections

The following Inspection Referral Form is intended for use by daycare inspectors during regularly scheduled inspections of daycare centers (not family daycare or group daycare homes). The form includes property and building attributes that could suggest a former or current industrial, manufacturing and/or agricultural use and which may warrant follow-up by EOHA. The form also includes businesses using hazardous chemicals that could impact a daycare center if the business is co-located in the same building or complex as the daycare.
