- WORKGROUPS:

- 1) **Education and Research (Andemariam, Andrews & Prota)**

Goals:

- The word Palliative Care
- The use of Palliative Care
- Use the term “living” not “dying”

Recommendations:

- Educating Physicians at level of PCP’s
- Speak early in disease process to patients
- Educate the Public via existing networks
- Encourage Medical, Nursing & other healthcare professional schools to include in curricula
- Encourage teaching hospitals/residency programs
- Encourage Continuity of Care
- Palliative Medicine Fellowships
- Consider getting funding through Legislation

## 2) **Benchmark & Data (Patricia, Karen & Diane)**

- Survey Monkey- only 25 Home Health agencies responded
- Will reach out to Hospitals to send the request to those who handle Palliative Care- 17 Acute Care Hospitals- to go out within the next two days
- Biggest gap is Long Term Care- Wendy and Patricia will help in reaching out
- There are 24 accredited Cancer Centers- Patricia will verify which provide Palliative Care programs
- Taking a step back on PCP and education- Joseph provided some information and will help
- Working on a Report Card to gather data from different organizations

## 3) **Advance Care Planning (Wendy & Colleen)**
