The security and protection of patient records is very important. The CT WiZ Public Portal uses 'two-factor authentication' by texting or emailing a code to confirm your identification. An exact match in CT WiZ of the name, date of birth, and cell phone or email used at registration are required to receive the code. The CT WiZ Public Portal is a free service by Connecticut Department of Public Health Immunization Program.

## Public Portal FAQs

**Q: I am receiving an error message that my record was unable to be found. What happened?**

A: An exact match is required when you search. This includes the name, date of birth and email or cell phone used. Tips: Please use the exact name you used during registration at the clinic. You may have used a nickname or alternate name you go by. Use the email or cell phone you used at the clinic registration. Please ensure you correctly typed the information when searching. You won't find the record if the contact information does not match what the provider reported to CT WiZ. You can contact the State Immunization Program for assistance.

Note: Parents/Guardians cannot pull up their adult children's records.

**Q: My record is incomplete/missing vaccination doses. Why?**

A: Your provider may not yet have reported the vaccination doses to CT WiZ. Contact your provider for assistance. If you cannot reach your provider, you can contact the State Immunization Program for assistance.

**Q: I can't access the portal. What can I do?**

A: You must use a supported browser. The portal is supported in:

Microsoft Edge

Google Chrome

Mozilla Firefox

**Q: I received the following error message saying that I have exceeded my log-in attempts and am now locked out. What happened?**

A: If you exceeded the search attempt limit, you will be temporarily locked out. You will be able to try again later.
