

# How to Make Expiration Dates Adjustments in CT WiZ

# Moderna Look-Up Tool

**Shelf life extension:** Moderna continues to update data regarding extension of expired doses. A total of 78 lots have been approved for extension, and more may follow.

Moderna's [look up tool](#) remains the official indicator of product expiry.

## How to Change your Covid Expiration Date in CT WiZ

if the current expiration date has past and does not display in your vaccine on-hand screen:

If you need to update your expiration date due to manufacturer extension and you do not see the Lot number in your on-hand inventory screen because the expiration date has past, you need to change the on-hand inventory status to **Depleted/Expired**.

Follow these steps:

1. Go to Vaccines/Inventory/On-hand
2. Go to the Status Field and select the down arrow to change status from on-hand to Depleted/Expired
3. Select ACTION and then Edit next to the lot number needing adjustment
4. Go to expiration date field and update
5. Select Create
