*Stone Academy – Approval of Program Manager*

Pamela Pelletier-Stevens presented a request from Stone Academy for the approval of Peter Keast as Program Manager.

Mr. Keast and Gina Holdstat were present from Stone Academy.

Mary M. Brown made a motion, seconded by Jennifer Long to approve Mr. Keast as Program Director at Stone Academy, West Haven Campus pending a final review of documentation the Department of Public Health. The motion passed unanimously.

**CHAIR UPDATES**

Chair Bouffard provided the following updates:

1. **NCSBN Endorses Act which would Expand Telehealth Services through Medicare**

   NCSBN has endorsed the recently introduced Creating Opportunities Now for Necessary and Effective Care Technologies (CONNECT) for Health Act. The legislation would expand telehealth services through Medicare, improve care outcomes, make it easier for patients to connect with their health care providers and help cut costs for patients and providers. The proposed legislation is an approach to increase the use of telehealth and remote patient monitoring through Medicare.
Specifically, the legislation would:
• Create a program to help providers meet the goals of the Medicare Access and Children’s Health Insurance Program Reauthorization Act and the Merit-based Incentive Payment System through the use of telehealth and remote patient monitoring;
• Expand the use of remote patient monitoring for certain patients with chronic conditions;
• Increase telehealth and remote patient monitoring services in community health centers and rural health clinics; and
• Make telehealth and remote patient monitoring basic benefits in Medicare Advantage. The CONNECT for Health Act is supported by more than 50 organizations.

2. Amendments to Saskatchewan Licensed Practical Nurse (LPN) Regulatory Bylaws Approved
The Saskatchewan Association of Licensed Practical Nurses (SALPN) recently announced that the proposed SALPN Regulatory Bylaws have been approved by the Minister of Health. The proposed bylaws pertain to three specialized practice areas for LPNs: advanced orthopedics, hemodialysis and perioperative care. SALPN will release information pertaining to updated practice standards for the specialized practice areas and the processes for implementation in the near future. The approved bylaws have been published in the Saskatchewan Gazette and are effective immediately.

3. New York Pharmacies to Provide Over-the-Counter Naloxone
The New York State Department of Health (DOH) announced an agreement with CVS/pharmacy that authorizes 479 CVS/pharmacy locations across the state to provide naloxone to their customers without a prescription, effective Jan. 2, 2016. Naloxone is a medication that reverses opioid overdose when administered either through injection or by nasal spray. According to the DOH, pharmacists are currently receiving training and ordering the drug for their stores.

In addition to dispensing Naloxone, CVS pharmacists are now able to provide training to consumers on administering the medication. The DOH stresses that all individuals who are given Naloxone should go to the hospital for emergency medical care afterwards. Naloxone is effective in blocking the effects of an opioid for 30 to 90 minutes, but when the medication wears off, the patient may revert back into a life-threatening overdose.

4. Proposed Regulation Allowing Full Practice Authority for Advanced Practice Registered Nurses (APRNs) Submitted for Final Review
The U.S. Department of Veterans Affairs (VA) recently submitted draft regulation for final review that would allow APRNs full practice authority in Veterans Health Administration facilities. The Office of Management and Budget (OMB) is facilitating the final review and will publish the proposed rule in the Federal Register for public comment. Reports note an excerpt from the OMB's regulatory agenda posting that states, "the VA is proposing to amend its medical regulations to permit the full practice authority of all VA APRNs when they are acting within the scope of their VA employment ... this rule would permit VA to use its health care resources more effectively and in a manner that is consistent with the non-VA health care sector, while maintaining the patient-centered, safe, high quality health care that veterans receive from VA."

APPROVAL OF MINUTES

NOVEMBER 2015
Lisa Freeman moved to approve the minutes as written. The motion was seconded by Geraldine Marrocco and passed unanimously.
DECEMBER 2015
