| Outpatient Screening Results (OAE/AABR) | | | |
| Left ear: | □ Incomplete | □ Failed Re-Screen<sup>h</sup>,<sup>c</sup> | □ Pass |
| Right ear: | □ Incomplete | □ Failed Re-Screen<sup>h</sup>,<sup>c</sup> | □ Pass |
| Date: | ____ / ____ / ____ |

- □ Pediatric Audiology Evaluation<sup>b</sup>
  - □ Hearing Loss
  - □ Normal Hearing
  - □ Document child and family auditory history
  - □ Report to State EHDI Program results of diagnostic evaluation
  - □ Refer to Early Intervention (IDEA, Part C)
  - □ Advise family about communication options and assistive listening devices (hearing aids, cochlear implants, etc.)
  - □ Medical & Otologic Evaluations to recommend treatment and provide clearance for hearing aid fitting
  - □ Pediatric Audiology for hearing aid fitting and monitoring
  - Date: ____ / ____ / ____

- □ Enrollment in Early Intervention (IDEA, Part C) (transition to Part B at 3 years of age)
  - □ Medical Evaluations to determine etiology and identify related conditions
    - □ Otolaryngology (required)
    - □ Ophthalmologist (recommended)
    - □ Geneticist (recommended)
    - □ Developmental pediatrics, neurology, cardiology, and nephrology (as needed)
  - Date: ____ / ____ / ____

- □ Ongoing Pediatric Audiology Services
  - Date: ____ / ____ / ____

---

(a) In screening programs that do not provide Outpatient Screening, infants will be referred directly from Inpatient Screening to Pediatric Audiologic Evaluation. Likewise, infants at higher risk for hearing loss (or loss to follow-up) also may be referred directly to Pediatric Audiology.

(b) Part C of IDEA* may provide diagnostic audiologic evaluation services as part of Child Find activities.

(c) Even infants who fail screening in only one ear should be referred for further testing of both ears.

(d) Includes infants whose parents refused initial or follow-up hearing screening.

---

OAE = Otoacoustic Emissions
AABR = Automated Auditory Brainstem Response
ABR = Auditory Brainstem Response
IDEA = Individuals with Disabilities Education Act
EHDI = Early Hearing Detection & Intervention

---

This project is funded by an educational grant from the Maternal and Child Health Bureau, Health Resources and Services Administration, US Department of Health and Human Services.
