This is a revision to include the modules to be covered in each training session.

The Department of Social Services (DSS) Electronic Visit Verification (EVV) system will be implemented on January 1, 2017 for non-medical providers and February 1, 2017 for Home Health providers. Training on the EVV system was provided to both non-medical and Home Health providers in July and August 2016. This training was recorded and can be found on the Learning Management System (LMS) located on the Electronic Visit Verification Implementation Important Message.

This bulletin invites all providers to attend refresher web-based EVV training. These EVV training courses are intended to educate new providers on the Santrax system, provide guidance on modifications specific to the Home Health provider community and act as a refresher for providers who previously completed the mandatory training.

Refresher training content for the EVV system will be divided into modules, as outlined below.

**Provider Training Modules**

- **Module #1: DSS EVV Project Overview**
  - Benefits
  - Core Functionality
  - Training Overview

- **Module #2: Telephony Process**
  *(Santrax Electronic Visit Verification™ with Assured Coverage™)*
