☐ Who to contact at the DSS Autism Unit  pg.18

CAC/NC Revised 01/25/2019
Early Intervention

CT Birth to Three System

The Connecticut Birth to Three System is a state program operating under the requirements of Part C of the federal “Individuals with Disabilities Act”. Its mission is to strengthen the capacity of families to meet the developmental and health-related needs of their infants and toddlers who have delays or disabilities.

All children in Connecticut up to age 3 who have significant delays in development, or certain medical conditions that can cause delays, are eligible for services.

The team from the early intervention program will work with your family and your doctor in choosing the kinds of support and interventions that can best help you help your child.

Services are provided in places that are natural for your child, including your home, child care setting, and other places where your child usually spends time, so that these new ways of teaching your child become part of your family’s daily routine.

Anyone who is concerned about a child’s development may call Child Development Infoline toll free at 1-800-505-7000 (TDD accessible) to make a referral, including parents, guardians, health professionals and child care providers. If someone other than the child’s parent or guardian makes the call, the parents will be contacted for their permission to proceed further.

Prepare to Transition from CT Birth to Three System to the Local School System

Moving from program to program is called transition. Support from Birth to Three ends when your child turns age 3. He or she may “transition” to preschool special education offered by your local school
district. It is essential that families, Birth to Three service providers, and school district personnel walk through this transition process together.

To insure that the process is smooth and that services are in place no later than your child's third birthday, it is essential that families, Birth to Three service providers, and school district personnel walk through this transition process together, one step at a time.

To plan ahead:

**Your family can:**

- Begin to discuss what types of programs or services you would like for your child and family after Birth to Three services end
- Talk about transition with your service coordinator
- Give written permission to your Birth to Three program to notify your school district about your child at least six months before your child turns three. If you prefer, you may contact your school district yourself by phone or letter at any time. Starting the process early offers the best opportunity for a smooth transition.

**Birth to Three Staff will:**

- Provide your family with information about transition
- Begin the process by developing the transition plan section of the IFSP and identifying outcomes with your family
- Assist you in referring your child to your local school district for an eligibility evaluation
- Schedule a transition planning meeting with your family and the school district staff up to six months, but at least 90 days before your child's third birthday.

**School District staff will:**

- Work with your family and the Birth to Three staff on transition planning
- Introduce your family to the school district's planning and placement team members and school staff
- Describe the process for determining whether your child is eligible for preschool special education.

**Transitioning out of Birth to Three**

**What is a transition meeting?**

With your permission, Birth to Three staff will convene a meeting to discuss services your child may receive after you and your child leave the Birth to Three program. For children who may be eligible for preschool special education, the meeting will include your family, Birth to Three staff and preschool special education staff. This meeting will take place at least 90 days before your child's third birthday. At the meeting, the transition plan section of the IFSP (Individualized Family Service Plan) will be completed. The plan will outline the steps that your family, your Birth to Three program staff and school district staff will take to address the end of Birth to Three services and the transition to new programs, services and people.

**Some questions to ask at the Transition Meeting:**
• How will the school district decide if my child is eligible for special education?
• What kind of testing will be needed?
• Who can we call if we have questions?

At the Transition Meeting:

Your family can:

• Share your hopes for your child
• Participate in the transition process at the level that feels comfortable to you
• Ask questions about anything that is unclear

Birth to Three staff will:

• Share information about your child's progress in the Birth to Three program
• Participate in transition planning
• Help write a transition plan with specific steps for transition
• Help you identify additional community resources and supports

School District staff will:

• Participate in the transition planning process
• Explain your child's and your rights as a parent
• discuss eligibility for preschool special education and determine whether additional evaluation information is needed
• If your child is determined eligible, discuss the options for providing the special education services needed by your child. If additional information is needed in order to determine your child's eligibility, the school district planning and placement team will describe the kind of testing that will be done. It may be formal or informal. Some of the information may be gathered in natural, play-like situations. Other tests may require specific activities. Your permission will be required for this testing.

Information about preschool contacts and the contact person for scheduling a Transition conference in each town, please visit https://www.birth23.org/locations/

Health and Medical Care, and Related Therapeutic Interventions

Understand the Current Diagnostic Criteria for Autism Spectrum Disorder
The DSM-5 is now the standard reference that healthcare providers use to diagnose mental and behavioral conditions. Understand the current diagnostic criteria for ASD by visiting Autism Speaks website at https://www.autismspeaks.org/dsm-5-criteria

Learn about Evidenced-based Practices and Therapies

The EBP is an intervention and instructional practices or programs having scientific evidence that shows that they are effective. To know more please visit the Organization For Autism Research website at https://researchautism.org/use-of-evidence-based-practices/.

Select an evidence-based practice to access a module about the practice at https://autismpdc.fpg.unc.edu/evidence-based-practices

Explore Behavioral Supports if Necessary

People with Autism may display behaviors that are challenging to understand or manage. Autism Speaks offers The Challenging Behaviors Tool Kit which provides strategies and resources to address challenging behaviors and help support you during difficult times. To download a FREE toolkit, visit https://www.autismspeaks.org/tool-kit/challenging-behaviors-tool-kit

Develop a System to Organize Your Paperwork

Raising a child with Autism has its rewards and has its challenges. To assist parents with the overwhelming amount of paperwork your child may have, Pathfinders for Autism developed a template you can use to help organize all that paperwork http://pathfindersforautism.org/wp-content/uploads/2017/01/A-Guide-to-Organizing-Your-Paperwork.pdf

Assistive Technology

Learn about Assistive Technology Devices and Adaptations

Assistive technologies can be used to support and enhance communication for people with autism with or without speech impairments. Autism Speaks offers an Assistive Technology for Communication Roadmap to help individuals learn how to start using assistive technologies for communication https://www.autismspeaks.org/worksheet/assistive-technology-communication-roadmap or call the Autism Response Team at 1-888-288-4762.
NEAT Marketplace (New England Assistive Technology Center)- Provides information, assistive technology assessments, instruction and demonstration of the latest adaptive equipment
www.neatmarketplace.org

Assistive Technology Corner at State Education Resource Center (SERC)- Displays of low, mid and high tech AT devices Contact them at 860-632-1485 x4 or library@ct.serc.org

Augmentative and Alternative Communication (AAC) Connecting Young Kids (YAACK)- Provides information and guidance to families and professionals, covering a wide range of topics dealing with AAC for children at various ages and stages of communicating abilities
http://www.childdevelopmentprograms.ca/resource_category/augmentative-and-alternative-communication/

Center on Technology and Disability- Assists families and professionals in advocating, acquiring and implementing effective assistive and instructional technology practices, devices and services as well as offers an extensive library and an interactive learning center
www.ctdinstutie.org

Explore Financial Assistance for Assistive Technology

Aid for Autistic Children & Families- If you need help paying for autism related hospital bills, therapies, early intervention, adult late intervention or any obstructive debt resulting from decisions made in an effort to structure one's life routine around care for an autistic child or loved one.
http://www.aacfinc.org/contact.html

Autism Care Today- Provides financial assistance for services that the person would otherwise not be able to afford. Areas of support include but are not limited to: ABA Therapy, Assistive Technology, Medical Testing & Treatments, Speech and Occupational Therapy, Safety Equipment, Summer and Social Programs, and Quality of Life Supports http://www.act-today.org/our-funds/autism-care-today/

Autism Family Resource Grants- One-time $500 grants are awarded to families in financial need; household income may not exceed $50,000 per year. All funds awarded are paid directly to the vendor or service provider to pay for therapy equipment, safety equipment or services. Email requests for an application along with name, address, phone number and email address to:
info@autismfamilyresources.org

Jaden’s Voice- Provides funding to families affected by Autism Spectrum Disorder. Our assistance supports a family's immediate expenses related to the well-being of the family member diagnosed with autism on a case-by-case basis. Examples include: effective treatments, assessments, adults who are actively looking for employment or need additional supports, graduate minority students specializing in autism in the areas of speech, behavior or occupational therapy, parent groups, etc.
http://jadensvoice.org/jadens-voice-cares-grant-program/
Medic Alert Foundation- Autism Medical IDS & 24/7 wandering support services  
https://www.medicalert.org/autism#importance-of-autism-wandering-support-services or 1.800.432.5378

National Autism Association- Provide Communication devices to individuals with autism who are non-verbal or minimally verbal, and whose communication challenges put them at increased risk of injury or harm  
http://nationalautismassociation.org/family-support/programs/naas-give-a-voice-program/

Organization for Autism Research- provides a tool kit and assist with fundraising for services needed. 1-866-366-9710

Pervis Jackson Jr Autism Foundation- Pervis Jackson Jr Autism Foundation helps needy parents of children with disabilities to get respite or other support services. Grants can be used for Camp Sessions, Respite of Parent's Choice, Cleaning Help, Cooking Help, Spa Day, Urgent Bills, Other Parent Needs.  
www.pjjraf.org

Education

Learn About the Special Education Process and IEP’s

People with autism have a number of legal rights and protections. It is important to understand these rights to ensure that you or your child is being treated fairly and given access to all of the services and supports to which you are entitled. For more information, visit Autism Speaks website  
https://www.autismspeaks.org/your-childs-rights . Here you will get a quick overview of your child’s rights for public information, what is free and appropriate public education, early intervention services, how to get services started, rights to assistive technologies, and more.

Review Connecticut’s State Department of Education “A Parent Guide to Special Education in CT”

This publication, from the CT State Department of Education, provides a clear explanation of the laws, regulations and policies affecting special education programs and services  

Prepare to Transition from CT Birth to Three System to the Local School System

Refer to pages 4

Explore Child Care and Preschool Options

Refer to page 4

Understand Your Child’s Educational Needs
The document that spells out your child’s needs and how these needs will be met is the Individualized Education program (IEP). To know more about the IEP, the IEP meeting, teacher/staff requirements, goals and objectives, visit the Autism Society website at http://www.autism-society.org/living-with-autism/academic-success/individualized-education-plan-iep/

You can also review “A Parent Guide to Special Education in CT” which is a publication from the CT State Department of Education. It provides a clear explanation of the laws, regulations and policies affecting special education programs and services. Within the publication is information on IEP’s https://portal.ct.gov/-/media/SDE/Special-Education/Parents_Guide_SE.pdf

Read “Educational Options for Children with Autism” by Verywell Health. Provides information about Individuals with Disabilities Education Act (IDEA), mainstreaming and autism, inclusion and autism, support in the classroom, public, private, and home school options https://www.verywellhealth.com/educational-options-for-children-with-autism-260393

Develop Positive Behavioral Interventional Plans

If your child exhibits behaviors that impede learning for themselves and others, you can incorporate a Behavior Intervention Plan (BIP) into your child’s Individualized Education Program (IEP). For more information visit the Car Autism Roadmap website at https://www.carautismroadmap.org/behavior-intervention-plan/

Did you know any use of restraint is to be documented in the child’s educational record and, if needed, in the child’s school health record?

Inclusion Evolution provides information on providing your child’s school with a “No Consent” letter for restraint and seclusion. As part of positive behavioral plan, you can request this letter be included in your child’s official records https://www.inclusionevolution.com/child-needs-no-consent-letter-restraint-seclusion/

Get involved in your local Special Education Parent Organizations (SEPTO)

Be part of your school districts Special Education Parent Teacher Organization (SEPTO). These organizations typically focus on the needs and issues encountered by special education students and parents/guardians. For more information, call your local school district.

Contact your local Family Support Network
Connecticut Family Support Network (CTFSN) is a parent-to-parent organization offering support groups, training, email list serve, information and advocacy www.ctfsn.org

Develop a System to Organize Education Records

Having a child with special educational needs will generate loads of documents. Knowing what to save, throw away or make a priority is challenging. Visit the Wrightslaw website and find tips on how to organizing your child’s special education documents by visiting https://www.wrightslaw.com/info/organize.file.htm

Help Your Child Learn About Appropriate Social Skills

Autism Speaks offers literature on social skills and autism. Within the reading you will find tips to personalize a template to teach your children of appropriate social skills in various settings such as going to a restaurant, going to the store, handling bullying, potty training, and much more. Visit https://www.autismspeaks.org/social-skills-and-autism

Another website you can use is Raisingchildren.net.au. This website provides information about ASD and teaching parents how to teach children social skills through role-play and video-modelling. Visit https://raisingchildren.net.au/autism/communicating-relationships/connecting/social-skills-for-children-with-asd#strategies-for-developing-social-skills-nav-title

Engage in Recreational and Leisure Activities that your Child and Family Enjoy

Leisure activities are an important part of life for everyone. Finding fun and enjoyable activities for an autistic child may be more challenging due to difficulties in behavior, social interaction and communication. Visit Autism Awareness Centre Inc. and read “Developing Leisure Activities for Individuals with ASD” to learn about leisure activities https://autismawarenesscentre.com/developing-leisure-activities-for-individuals-with-asd/

Autism Speaks provides information about the benefits of recreation and provides answers to frequently asked questions. Visit https://www.autismspeaks.org/recreation-0

Safety

Teach your Child about the ‘Uh-Oh’ feeling and “Tricky People”

For a long time, the ‘Stranger Danger’ concept taught children all strangers were potential dangers. Nowadays, studies show most abductions occur from someone the child knows. According to David Finkelhor (2013), “But children taken by strangers or slight acquaintances represent only one-hundredth of 1 percent of all missing children. The last comprehensive study estimated that the number was 115 in a year.”
The ‘Uh-Oh’ Feeling teaches children to trust their gut feeling when they know something is wrong, even if it’s unknown at the time. Teach your children to tell a parent, teacher, or trusted grownup. To learn more about the Uh-oh feeling, visit https://www.whenigrowupcoach.com/the-uh-oh-feeling/

Another article you can use to teach children about the ‘Uh-Oh’ Feeling and trusting their intuition https://www.kidpower.org/library/article/the-uh-oh-feeling/

‘Tricky people’ teaches children that a tricky person can be someone known or unknown to the child and does something that breaks a safety rule or asks you to do something that makes the child feel uncomfortable https://www.kidspot.com.au/health/family-health/safety/the-tricky-people-lesson-you-need-to-teach-your-kids/news-story/36dd4010c5f49a893948561e493f02fc

To learn more about teaching stranger safety to children with ASD, visit Autism http://blog.stageslearning.com/blog/teaching-autism-stranger-safety

Discuss What is Appropriate Talk and Touch

Learning about bodies and body parts can help your child with autism spectrum disorder (ASD) understand and feel comfortable with her body. It also lays the groundwork for teaching your child about personal boundaries and safety, including good and bad touch https://raisingchildren.net.au/autism/development/physical-development/bodies-boundaries

Parents and children can also view the following short clip video titled ‘Safe Touch/Unsafe Touch’ at https://www.youtube.com/watch?v=zNTUMNKSNhk

The Jacob Wetterling Resource Center also provides a guide for age appropriate conversation starters to teach your children about “bad touch” http://www.gundersenhealth.org/ncptc/jacob-wetterling-resource-center/keep-kids-safe/personal-safety/age-appropriate-conversations/

Address Wandering and Elopement

Wandering and Elopement is all too common among children with Autism. This puts families under a high level of stress and puts children with Autism at high risk of harm. Becoming familiar with these behaviors, planning and implementing safety strategies can prevent a preventable tragedy.

Autism Speaks offers wandering prevention, preparedness and response tips for families with a child with Autism. Visit https://www.autismspeaks.org/wandering-prevention-resources

Pathfinders for Autism provide literature, tips, and guides related to wandering and elopement. Visit https://pathfindersforautism.org/resources/safety/wandering-and-elopement/
Be Aware of Potential Household Dangers

Safety in the home environment for children in general is a major concern for parents and caregivers, let alone if a child in the home has Autism.

The Organization for Autism Research provides a guide composed from parents, first responders, educators, and community members, who shared their strategies and resources to address safety threats that commonly arise during childhood, adolescence, and adulthood. This autism safety resource will educate parents about how to prevent and mitigate emergency events, safety threats that may affect their child in the future, and how to teach safety habits that will build a foundation for safety in adulthood https://researchautism.org/resources/a-guide-to-safety/

Practice Street Safety

The Organization for Autism Research provides a guide composed from parents, first responders, educators, and community members, who shared their strategies and resources to address safety threats that commonly arise during childhood, adolescence, and adulthood. This autism safety resource will educate parents about how to prevent and mitigate emergency events, safety threats that may affect their child in the future, and how to teach safety habits that will build a foundation for safety in adulthood https://researchautism.org/resources/a-guide-to-safety/

The National Autistic Society provides social stories, toys, and interactive games to teach children with autism about road safety https://www.autism.org.uk/roadsafety

Enroll your Child in Swimming Lessons if Possible

Aquamobile offers an article titled “Autism and Drowning: Why Kids With Autism Are More Likely To Drown” which provides facts and reasons why children with Autism have a high mortality rate due to drowning https://aquamobileswim.com/autism-and-drowning-why-kids-with-autism-are-more-likely-to-drown/#.XEiP87LrvgG

Establish a Safety Network (including first responders) in Case of an Emergency

The Organization for Autism Research provides a guide composed from parents, first responders, educators, and community members, who shared their strategies and resources to address safety threats that commonly arise during childhood, adolescence, and adulthood. This autism safety resource will educate parents about how to prevent and mitigate emergency events, safety threats that may affect their child in the future, and how to teach safety habits that will build a foundation for safety in adulthood https://researchautism.org/resources/a-guide-to-safety/
Affect their child in the future, and how to teach safety habits that will build a foundation for safety in adulthood [https://researchautism.org/resources/a-guide-to-safety/]
