The Affordable Care Act requires that individuals have qualifying health coverage (minimum essential health coverage) or pay an Internal Revenue Service (IRA) tax penalty.

New 1095 tax forms are required by the IRS to prove each month of enrollment in health coverage during the year.
Individual Mandates

- [https://www.healthcare.gov/fees-exemptions/fee-for-not-being-covered/](https://www.healthcare.gov/fees-exemptions/fee-for-not-being-covered/)

If you can afford health insurance but choose not to buy it, you must have a health coverage exemption or pay a fee. (The fee is sometimes called the "penalty," "fine," "individual responsibility payment," or "individual mandate.")

The fee for not having coverage in 2015

If you don’t have coverage in 2015, you’ll pay the higher of these two amounts:

- **2% of your yearly household income.** (Only the amount of income above the tax filing threshold, about $10,150 for an individual, is used to calculate the penalty.) The maximum penalty is the national average premium for a Bronze plan.

- **$325 per person for the year ($162.50 per child under 18).** The maximum penalty per family using this method is $975.
There are 3 types of 1095’s provided by different entities:

- **1095-A** – In CT, these are provided by Access Health CT for individuals enrolled in qualified health plans offered by the marketplace.
  - Last year (2014) was the first year of the requirement.

- **1095-B** – In CT, these are provided by DSS for Medicaid and the Children’s Health Insurance Program (CHIP) enrollees. They are also issued by the federal government for Medicare as well as by other issuers and carriers.
  - This year (2015) is the first year of the requirement

- **1095-C** – Issued by some types of large employers.
  - This year (2015) is the first year of the requirement
