**ATTORNEY GENERAL TONG ANNOUNCES FALSE CLAIMS  
ACT SETTLEMENT WITH MED TECH LLC**

(Hartford, CT) – Connecticut Attorney General William Tong today announced a \$467,090 settlement with Orange-based Med Tech LLC and its owner Thomas Macre, Sr. resolving False Claims Act violations related to improper billing for durable medical equipment.

The settlement was reached jointly with the Connecticut U.S. Attorney's Office following an investigation by the Office of the Attorney General, the U.S. Department of Health and Human Services (HHS), Office of the Inspector General/Office of Investigations and the Medicaid Fraud Control Unit of the Office of the Chief State's Attorney. The investigation followed a referral from the Connecticut Department of Social Services (DSS) Office of Quality Assurance.

The investigation found that Med Tech had billed the Medicaid program for transcutaneous electrical nerve stimulator (TENS) devices and back braces that were not medically necessary. The investigation also determined that Med Tech billed the Medicaid program for TENS devices and back braces that were not provided to Medicaid recipients. The settlement will reimburse both the federal and state shares of the Medicaid program, with the state receiving 60 percent of the settlement funds.

**"Med Tech inappropriately overcharged the state for medical equipment that was either not provided or not medically necessary. The Office of the Attorney General will aggressively pursue these types of schemes in order to deter this conduct and protect taxpayer funded healthcare programs,"** said Attorney General William Tong.

**"This False Claims Act settlement will help reimburse taxpayers for unacceptable actions taken by this durable medical equipment firm in billing the Medicaid program. We join Attorney General Tong in commending his staff, DSS Quality Assurance investigators and our partners at the Chief State's Attorney's Office and Department of Health and Human Services,"** said DSS Commissioner Roderick L. Bremby.

Attorney General Tong thanked the U. S. Department of Health and Human Services, Office of the Inspector General and the Office of the United States Attorney for their coordination in this case. Attorney General Tong also thanked the DSS Office of Quality Assurance for the considerable assistance they provided.
