## OCC FACT SHEET: ELECTRIC SUPPLIER MARKET, MARCH 2020 THROUGH FEBRUARY 2021

The following is an update to the Office of Consumer Counsel's (OCC's) Electric Supplier Market Fact Sheet, originally created in [2014](#). The numbers provided herein are based on data submitted as compliance filings in the Public Utilities Regulatory Authority's Docket Number 06-10-22.

- Retail suppliers serve 17.5% of Eversource Energy (Eversource) residential customers and 21.7 % of United Illuminating (UI) residential customers, in February 2021.
- In the month of February 2021, **six out of ten** residential supplier customers paid more than the Standard Offer in Eversource territory, and **five out of ten** residential supplier customers paid more than the Standard Offer in UI territory.<sup>1</sup>

- In the month February 2021, residential Eversource customers who chose suppliers paid in aggregate **\$1,680,827 more** than the Standard Offer for their electric generation, and residential UI customers who chose suppliers paid in aggregate **\$395,454 more** than the Standard Offer.<sup>2</sup>
- For the rolling year of March 2020 through February 2021, residential consumers who chose a retail supplier paid, in aggregate, **\$35,669,724 more** than the Standard Offer.

<sup>1</sup> This Fact Sheet only examines available data regarding pricing by electric suppliers. While some suppliers may offer products or services to customers such as airline miles or a product with additional renewable energy content, there is no data available to quantify the value of such offers. OCC recommends that customers look carefully at the fine print for offers for additional products or services that come with higher prices, to ensure they are getting sufficient value to justify the higher price tag.

<sup>2</sup> These calculations are based on an assumption of 750/month kWh usage.

- The Standard Offer for Eversource customers from January 1, 2020 through June 30, 2020 was 9.414 cents/kWh. For July 1, 2020 through December 31, 2020 the Standard Offer was 7.375 cents/kWh. The Standard Offer for January 1, 2021 through June 30, 2021 is 8.391 cents/kWh.
- The Standard Offer for UI customers from January 1, 2020 through June 30, 2020 was 10.5607 cents/kWh. For July 1, 2020 through December 31, 2020 the Standard Offer was 8.6672 cents/kWh. The Standard Offer for January 1, 2021 through June 30, 2021 is 9.3694 cents/kWh.
- As of July 1, 2020 customers coded as hardship were returned to standard service. Suppliers are no longer able to serve hardship coded customers going forward in Connecticut as a result of PURA ruling in Docket No. 18-06-02.
