Highlights

- CHW Advisory Committee held its first meeting, setting the tone for the work ahead: developing a model for CHW integration and sustainable funding, and developing toolkits to support integration.
- Planning for the Behavioral Health Forum and 2nd Rural Health Forum continued- Behavioral Health Forum will now be held on May 19, and the Rural Health Forum is scheduled for June 3.
- Solicitation for the Population Health Council was extended, no date set for first meeting.
- Design groups of the V-BID Consortium further developed the V-BID templates. An employer survey was developed and distributed to gain a better perspective on existing V-BID initiatives.
- Qualidigm and Planetree presented an update on the AMH Vanguard Program to the Practice Transformation Task Force.
- The UConn HIT Team finalized the Zato demonstration for the HIT Council which is scheduled to take place May 17 and May 23.
- The Connecticut Health Council hosted a “SIM Symposium,” highlighting SIM’s work and the opportunities ahead.
- The UConn Evaluation team updated the data dashboard with new updates on Population Health.

• The solicitation period for membership to the Population Health Council was extended to the end of April. It is anticipated that membership will be approved in May.

• The PMO and the DPH Population Health program helped to organize a SIM Symposium sponsored by the Connecticut Health Council. The symposium explored the transition and necessary improvement of the health system from accountable care (2.0 model) to an accountable community (3.0 model) that seeks rewards for better health.

• The Advisory Council for the State Health Improvement Plan (SHIP) was convened to review progress of the action agenda from the first year implementation. In reviewing the crosscutting issue of approaching providers, the council determined most working groups were engaged with specific partners to advance their 2016 strategies. Among others, the council recommended aligning activities with SIM objectives, reaching out to professional organizations, and examining areas not reimbursed for broader populations and through private insurance. DPH Commissioner Raul Pino identified several critical areas to address including teen pregnancy, housing, chronic disease management, HIV prevention, and coordination with primary care. Commissioner Pino shared the importance of the SIM and SHIP initiatives and the need to address population health in order to improve health outcomes.

• Submit nominations for Population Health Council membership to the Healthcare Innovation Steering Committee.

• Continue expanding conversations about SHIP/SIM alignment considerations.

• Contribute to UConn resolution of trends and baseline measures for project evaluation.

| Value-based Insurance Design | • The template design workgroup met twice to further develop the V-BID templates which will be ultimately made available to employers wishing to implement V-BID plans  
  • One meeting of the learning collaborative design group was held to begin planning for the learning collaborative, now set to take place in September  
  • A third meeting of the consortium was held on April 27 to provide additional feedback on the template design  
  • An employer survey was developed and distributed to employers in order to gain additional insight into unique V-BID approaches already being implemented. Surveys are due back May 4. | • An employer focus group will be held to gain additional insight into existing employer V-BID initiatives on May 12  
  • An optional conference call will be held for those Consortium members who wish to provide additional feedback on the V-BID templates on May 24  
  • A fourth Consortium meeting will be held on June 1 to finalize the V-BID templates  
  • Development of complementary materials to the templates, including employer guidance and toolkits for implementation, will begin in May | 6/1/16 |
**CHW Initiative**

- Convened well-attended and very positive first meeting of the CHW Advisory Committee on 4/19.
- Hired Luisa Casey to fill one of the initiative’s two CHW positions.
- Identified two CHWs to participate in 211 instructional video for CHWs.
- Made significant progress on the design of CHW and employer survey instruments and strategies for implementing them.
- Met with CT DOL to explore further the possibilities for creating CHW apprenticeships. Presented on the SIM CHW Initiative to the Metro Hartford Alliance for Health Careers (MACH), part of Capital Workforce Partners.
- Met with clinicians, researchers, and other stakeholders to discuss how CHWs can help address issues ranging from childhood asthma and other pediatric conditions to health-insurance illiteracy and mental illness in older adults.

**Non-SIM-Funded Related Activities**

- Planning a “boot camp” CHW core competency training in Hartford from 5/4 – 6/17 for existing members of the healthcare workforce.
- Discussed strategy development with the Community Health Center Association of CT about working together on training the CHW workforce in FQHCs.
- Attended the DMHAS Training and Technical Assistance Service Center (TTASC) Advisory Meeting and began initial discussions about collaborating about core-competency training of the prevention workforce.
