

# Connecticut State Innovation Model Work Stream Update

- Contracts with all 9 PCMH+ Participating Entities were finalized (Kudos to DSS!!!).
- DSS officially received approval on the State Plan Amendment, which grants Medicaid the authority needed to make supplemental payments to FQHCs and shared savings payments to all Participating Entities.
- Stakeholder engagement activities continued to assess statewide Health Information Technology needs.
- The eCQM Design group [kicked off](#) with the goal to identify and recommend the objectives and requirements of an efficient, shared, statewide health IT-enabled eCQM solution in the context of Alternative Payment models.
- Qualidigm developed readiness assessment tools to begin their work with the CCIP Participating Entities as they work toward achieving the CCIP Standards.
- Qualidigm continued its research and stakeholder engagement focused on Primary Care Payment Models. Interviews have been taking place with payers and provider and models were discussed with the [Practice Transformation Task Force](#) (and already in March with the CHW Advisory Committee, the Consumer Advisory Board, and the Steering Committee). Primary Care Payment Reform presents an opportunity to enable and sustain care delivery reform initiatives launched through SIM.
- Recruitment efforts continued for Wave 1 of the AMH Program, with 28 applications received to date. [Applications are still being accepted.](#)
- The Community Health Worker Advisory Committee released a final draft of their [Certification Recommendations](#).
- The Consumer Advisory Board welcomed three new members with an orientation meeting and held a meeting to discuss consumer-oriented health information technology solutions.
- The UConn Evaluation Team finalized the VBID assessment tool which has been distributed to all health plans to assess VBID penetration across the State.
