

Office of Health Strategy

Medication Reconciliation Hackathon

Presented by UConn Health

April 5th & 6th 2019

9am-5pm

Purpose:

- Increase awareness of Medication Reconciliation (Med Rec) challenges
- Increase awareness of how a Health Information Exchange (HIE) in CT might facilitate effective, efficient and user-friendly Med Rec
- Refine a Med Rec Use Case by identifying requirements
- Education and experience in Health IT standards such as Fast Healthcare Interoperability Resources (FHIR) and Substitutable Medical Applications, Reusable Technologies (SMART) on FHIR
- Development of a simple diagrammatic and software prototype

Hackathon Target Participants:

- Prescribing clinicians
- Pharmacists
- Analysts
- Informaticians
- Software engineers
- Developers & Programmers
- Students in medicine, pharmacy, & engineering
- Patient advocates
