- Household Telephone Survey with 1,100 community residents
- Focus Group Discussions with 24 health care providers and 33 community residents
- Key Informant Interviews with 205 community leaders and partners
- Prioritization Session
- Hospital Implementation Plans
- Community Health Improvement Plan (CHIP)

Prioritized Health Issues

Based on the feedback from community partners including health care providers, public health experts, health and human service agencies, and other community representatives, the Greater Waterbury Health Improvement Partnership plans to focus community health improvement efforts on the following health priorities over the next three-year cycle:

- Access to Care
- Mental Health/Substance Abuse
- Overweight/Obesity
- Tobacco Use

Documentation

A final report of the CHNA was made public in September 2013 and can be found on the partner's websites. Hospital Implementation Plans, as well as a Community Health Improvement Plan (CHIP), were developed and adopted by each appropriate authority in September 2013.

COMMUNITY HEALTH NEEDS ASSESSMENT OVERVIEW

Background

The Greater Waterbury Health Improvement Partnership is made up of a group of not-for-profit organizations serving the residents of Waterbury, Connecticut and surrounding communities. The Greater Waterbury Health Improvement Partnership defined their current service area as the City of Waterbury and the surrounding communities served by Saint Mary's Hospital and Waterbury Hospital. The area encompasses southwest Connecticut and is relatively large with a population of approximately 313,000 residents. The geographic area was defined by primary service area (PSA) and secondary service area (SSA). The PSA is the area that the partnership predominantly serves and the hospitals main catchment area. It comprises all of Waterbury and has a population of approximately 110,000 residents. The SSA includes portions of the surrounding communities served by the two hospitals and has a population of approximately 203,000 residents. The conclusions drawn from the various research components focus on the primary service area, the town of Waterbury, Connecticut.

CHNA Partners

- The City of Waterbury
- Connecticut Community Foundation
- Saint Mary's Hospital
- StayWell Health Center
- Waterbury Department of Public Health
- Waterbury Hospital
- The United Way

Methodology

The CHNA was comprised of both quantitative and qualitative research components. A brief synopsis of the research components is included below with further details provided throughout the document:

Quantitative Data:

- A Statistical Secondary Data Profile depicting population and household statistics, education and economic measures, morbidity and mortality rates, incidence rates and other health statistics for Waterbury, Connecticut and surrounding cities was compiled.

- A Household Telephone Survey was conducted with 1,100 randomly-selected community residents. The survey was modeled after the Center for Disease Control and Prevention's Behavioral Risk Factor Surveillance System (BRFSS) which assesses health

status, health risk behaviors, preventive health practices, and health care access primarily related to chronic disease and injury.

Qualitative Data:

- Six Focus Groups were held with 24 health care providers and 33 community residents in February 2013.

- Key Informant Interviews were conducted with 205 community leaders and partners between February and April 2013.

Research Partner

The Greater Waterbury Health Improvement Partnership contracted with Holleran, an independent research and consulting firm located in Lancaster, Pennsylvania, to conduct research in support of the CHNA. Holleran has 21 years of experience in conducting public health research and community health assessments. The firm provided the following assistance:

- Collected and interpreted secondary data
- Conducted, analyzed, and interpreted data from the household telephone survey
- Conducted focus groups with community members
- Conducted key informant interviews with community leaders and partners
- Facilitated a Prioritization and Planning Session
- Prepared all reports

Community Representation

Community engagement and feedback were an integral part of the CHNA process. The Greater Waterbury Health Improvement Partnership sought community input through focus groups with health care providers and community members, key informant interviews with community leaders and partners, and inclusion of community leaders in the prioritization and implementation planning process. Public health and health care professionals shared knowledge and expertise about health issues, and leaders and representatives of non-profit and community-based organizations provided insight on the community, including the medically underserved, low income, and minority populations.

Research Limitations

It should be noted that the availability and time lag of secondary data may present some research limitations. Additionally, language barriers, timeline, and other restrictions may have impacted the ability to survey all community stakeholders. The Greater Waterbury Health Improvement Partnership sought to mitigate limitations by including representatives of diverse and underserved populations throughout the research components.

Prioritization of Needs

Following the completion of the CHNA research, the Greater Waterbury Health Improvement Partnership prioritized community health issues and developed an implementation plan to address prioritized community needs.

SECONDARY DATA PROFILE OVERVIEW

Background

One of the initial undertakings of the CHNA was to create a Secondary Data Profile. Secondary data is comprised of data obtained from existing resources and includes demographic and household statistics, education and income measures, morbidity and mortality rates, health indicators, among other data points. The data was gathered and integrated into a graphical report to portray the current health and socio-economic status of residents in the Greater Waterbury Health Improvement Partnership service area.

Secondary data was collected from reputable sources including the U.S. Census Bureau, Centers for Disease Control and Prevention (CDC), Waterbury Department of Health, and the Connecticut Department of Public Health. Data sources are listed throughout the report and a full reference list is included in Appendix A. The data represents a point in time study using the most recent data possible. When available, state and national comparisons are provided as benchmarks.

The profile details data covering the following areas:

- Demographic/Socioeconomic Statistics
- Mortality Statistics
- Maternal & Child Health Statistics
- Sexually Transmitted Illness & Communicable Disease Statistics
- Mental Health Statistics
- Cancer Statistics
- Environmental Health Statistics
- Health Care Access Statistics
- Crime Statistics

Secondary Data Profile Key Findings

This section serves as a summary of the key takeaways from the secondary data profile. A full report of the findings is available through the Greater Waterbury Health Improvement Partnership.

Demographic Statistics

According to U.S. Census Bureau estimates (2009-2011), the total population in Waterbury, Connecticut is 110,075, a decline of 2.55% since 2000. The majority of residents identify as White (58.2%), indicating a less diverse population when compared to peer cities, but a more diverse population when compared to all of Connecticut. Approximately 19% of residents identify as Black/African American and 30.1% identify as Hispanic or Latino. The primary spoken language is English, but 31.6% of residents speak a language other than English at home. The median age in Waterbury is 35.2, which denotes a younger population when compared to Connecticut, but an older population when compared to most peer cities (U.S. Census Bureau, 2012).

Table 1. Overall Population (2009-2012)[a]

	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
White	78.6%	58.2%	32.2%	46.7%	48.6%	59.6%
Black/African American	9.8%	19.4%	37.2%	34.4%	34.5%	14.8%
Asian	3.8%	1.7%	2.5%	4.9%	3.6%	8.05%
Two or more races	2.3%	5.6%	4.0%	2.9%	1.9%	1.7%
Hispanic or Latino (of any race)[b]	13.0%	30.1%	42.4%	26.3%	36.7%	24.4%

Source: U.S. Census Bureau, 2012

[a] Percentages may equal more than 100% as individuals may report more than one race

[b] Hispanic/Latino residents can be of any race, for example, White Hispanic

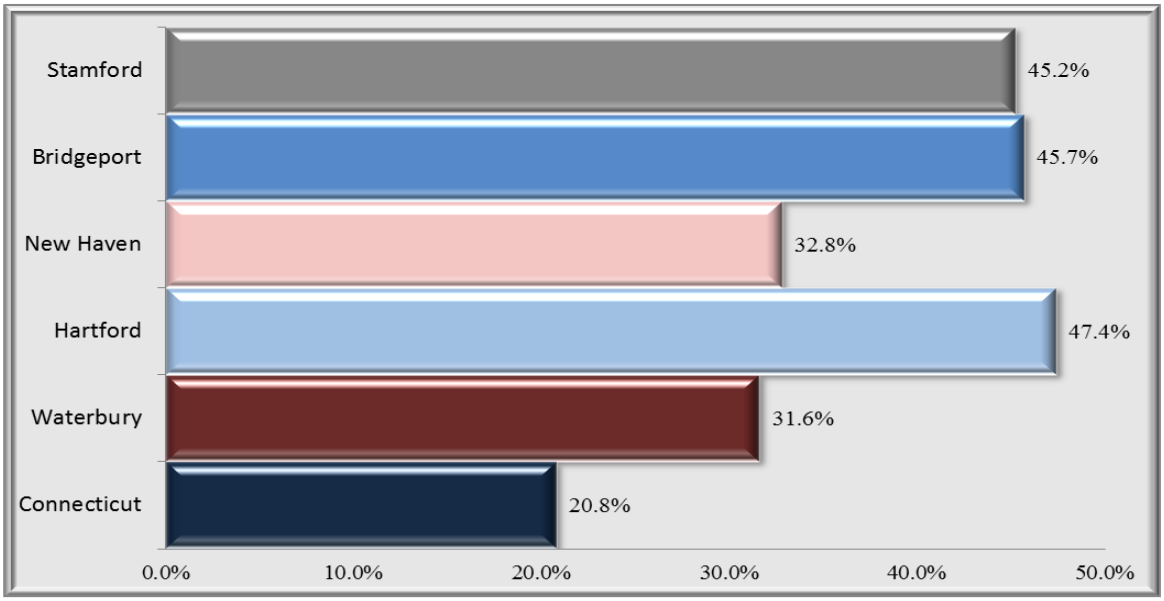

Figure 1. Percentage of population speaking a language other than English, 2009-2011
Source: U.S. Census Bureau, 2012

Waterbury is comprised primarily of family households (63.2%), which are defined as more than one person living together, either as relations or as a married couple. These households and nonfamily households are less likely to live in owner-occupied units (49.6%) compared to Connecticut (68.9%), but more likely to live in owner-occupied units compared to most peer cities. The median value for owner-occupied units is $164,000, which is lower than the median value across the state ($293,100) and all peer cities (U.S. Census Bureau, 2012).

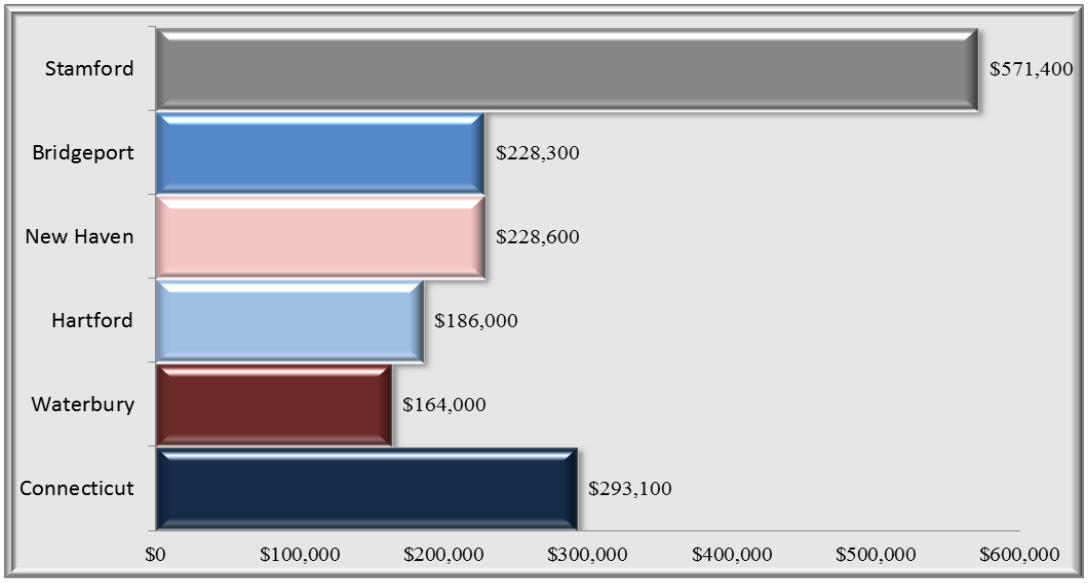

Figure 2. Median value for owner-occupied unit, 2009-2011
Source: U.S. Census Bureau, 2012

Approximately 40% of Waterbury residents aged 15 years and over have never been married. This is greater than the percentage across Connecticut (31.8%), but lower than the percentage across most peer cities. Among those residents who have been married, a higher percentage are divorced (11.6%) compared to Connecticut (10.2%) and all peer cities (U.S. Census Bureau, 2012).

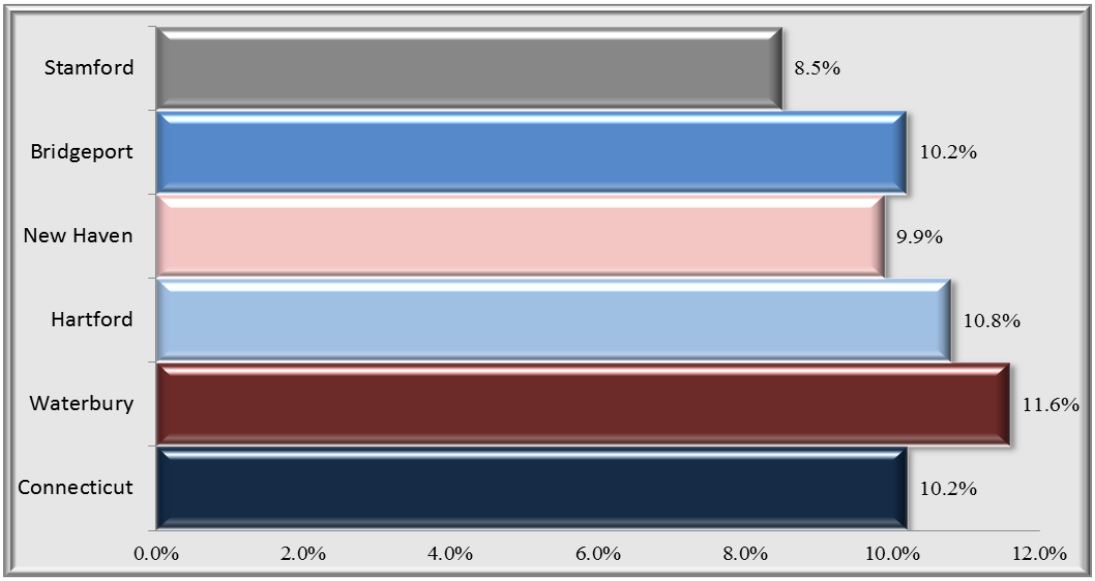

Figure 3. Divorce Rate, 2009-2011
Source: U.S. Census Bureau, 2012

The median income for households and families across Waterbury ($41,499 and $49,059 respectively) is lower than across all of Connecticut ($69,243; $86,395). However, it is higher when compared to most peer cities. The same trend is true of the median income for workers. The percentage of families and individuals living in poverty in the past 12 months is higher in Waterbury than in all of Connecticut (U.S. Census Bureau, 2012). More residents in Waterbury are also enrolled in social assistance programs like Temporary Family Assistance and Medicaid when compared to Connecticut and most peer cities. Between the years 2011 and 2012, 28.2% of residents were enrolled in Temporary Family Assistance and 38.1% were enrolled in Medicaid. Medicaid enrollment has been on the rise across all of Connecticut and its cities since 2006 (Connecticut Department of Social Services, n.d.).

Table 2. Poverty Status of Families and People in the Past 12 Months (2010)

	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
Families	6.7%	17.1%	29.9%	20.8%	18.0%	7.5%
With related children < 18 years	10.8%	26.3%	39.3%	30.0%	25.3%	11.6%
With related children < 5 years	12.5%	22.4%	46.1%	21.3%	20.6%	12.7%
Married couple families	2.3%	5.6%	9.3%	7.4%	7.3%	3.4%
With related children < 18 years	3.1%	7.7%	12.1%	11.2%	10.7%	4.5%
With related children < 5 years	3.4%	7.5%	11.3%	9.2%	6.0%	3.8%
Families with female householder, no husband present	22.9%	35.5%	44.5%	36.9%	34.1%	22.1%
With related children < 18 years	30.8%	44.3%	51.6%	44.9%	40.8%	30.4%
With related children < 18 years	40.1%	47.7%	60.8%	42.7%	41.1%	35.8%
All people	9.5%	20.6%	32.9%	26.3%	21.9%	11.0%

Source: U.S. Census Bureau, ACS estimates

According to the U.S. Census Bureau (2012), the unemployment rate in Waterbury is 12.7%. This rate is higher than the unemployment rate across Connecticut (8.5%). It is favorable or comparable to peer cities. Of the residents who are employed, the majority work in management, business, science, and arts and are private wage and salary workers. A notable percentage of residents are also employed in a service occupation.

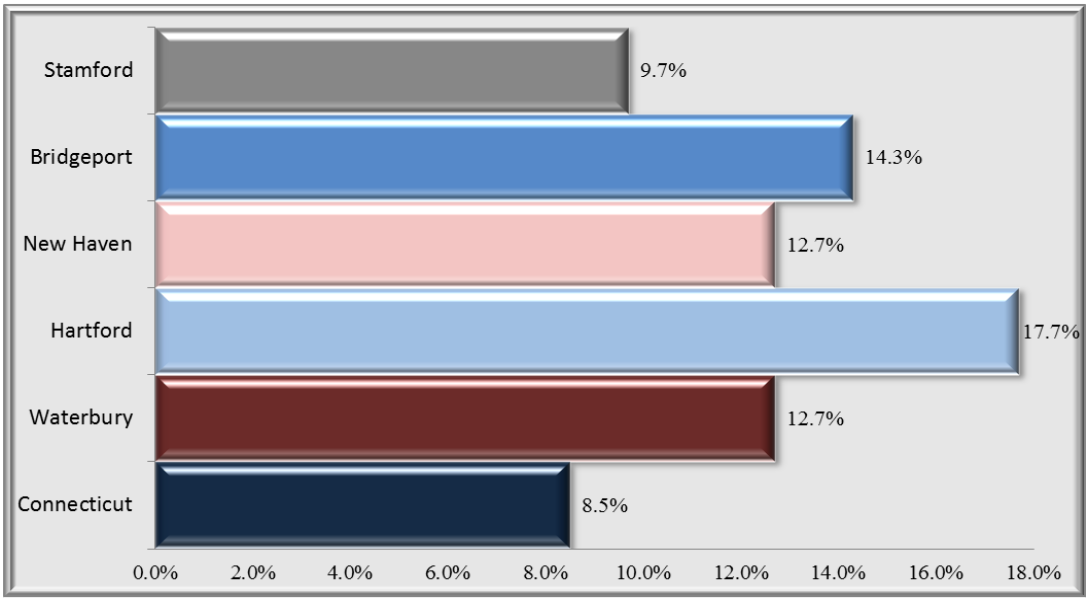

Figure 6. Unemployment rate for civilian labor force, 2009-2011
Source: U.S. Census Bureau, 2012

Education is an important social determinant of health. Studies have shown that individuals who are less educated tend to have poorer health outcomes. High school and higher education graduation rates are lower in Waterbury (78.7% and 17.2% respectively) than in Connecticut (88.6% and 35.7% respectively) and comparable to peer cities (U.S. Census Bureau, 2012).

Health Status Indicators

Mortality Rates

The overall crude mortality rate for Waterbury, Connecticut is 9.2 per 1,000. This is higher than the mortality rate for Connecticut (8.1 per 1,000) and peer cities. A contributing factor to the higher overall mortality rate in Waterbury compared to peer cities may be its slightly older population. However, this does not apply when comparing to all of Connecticut as the state has a higher median age (Connecticut Department of Public Health, 2011).

The graphs below detail the age-adjust deaths rates per 100,000 for three of the leading causes of death in Waterbury. For all causes, Waterbury has a higher death rate than Connecticut. For chronic lower respiratory disease, Waterbury has a higher death rate (37.2) than Connecticut and all peer cities. Death rates due to heart disease and cancer in Waterbury are comparable to peer cities, but are still of concern as the top two leading causes of death (Connecticut Department of Public Health, 2011).

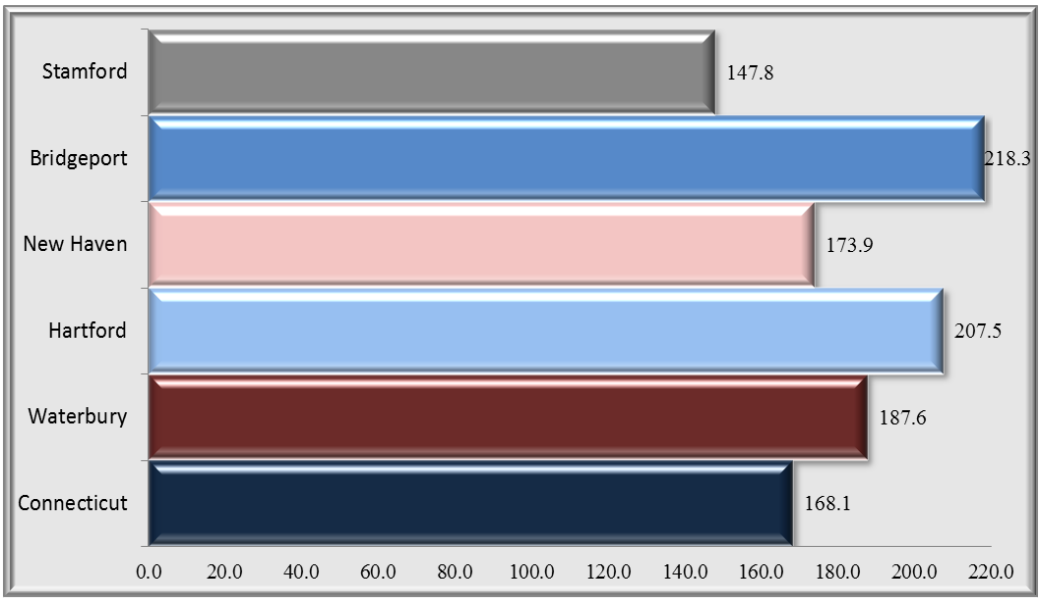

Figure 8. Deaths due to diseases of the heart per age-adjusted 100,000, 2005-2009

Connecticut Department of Public Health, n.d.

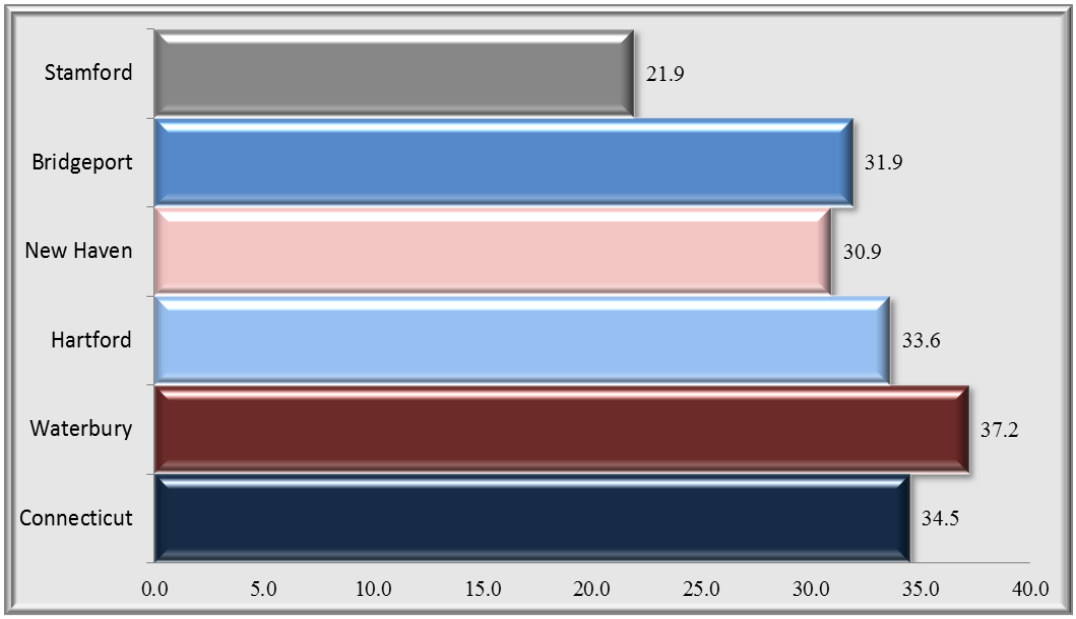

Figure 10. Deaths due to chronic lower respiratory disease per age-adjusted 100,000, 2005-2009
Sources: Center for Disease Control and Prevention, 2011
Connecticut Department of Public Health, n.d.

Maternal & Infant Health

The birth rate per 1,000 in Waterbury (15.7) is higher when compared to Connecticut (11.0), but similar to or lower than peer cities. Of the births that occur, 4.9% are to mothers less than 18 years of age and 14.5% are to mothers less than 20 years of age. These percentages are higher than what is seen across Connecticut (2.0% and 6.8% respectively) and all peer cities, excepting Hartford. The majority of teenage births are to mothers of Black and/or Hispanic race/ethnicity. Overall, the findings for teenage birth for the most recent year of data are negative, but births to teenagers less than 18 years of age have been trending downwards since 2005 (Connecticut Department of Public Health, 2011).

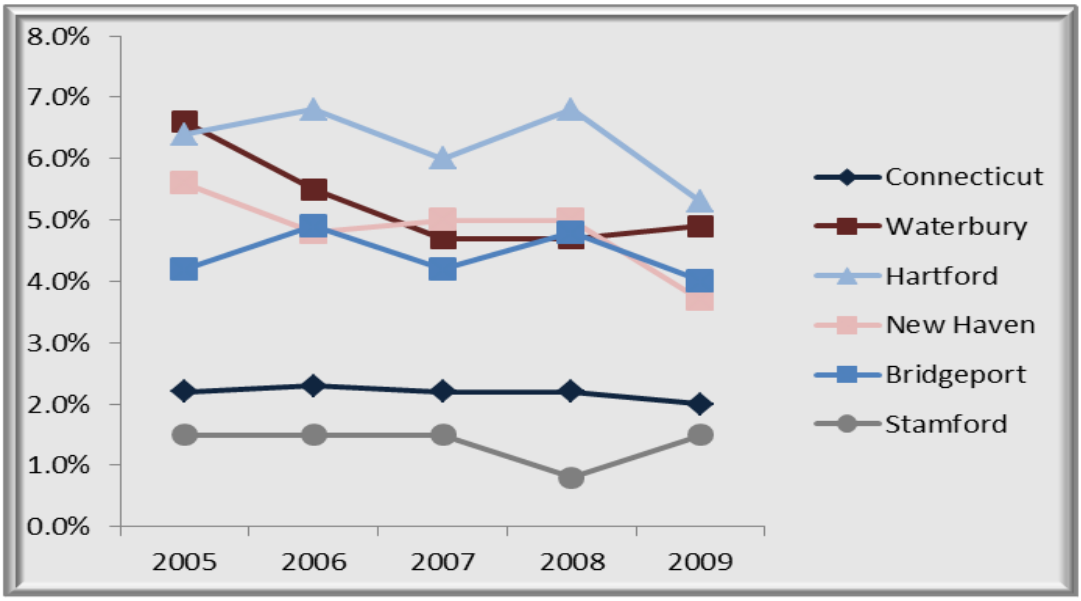

Figure 11. Births to teenagers less than 18 years, 2005 - 2009
Source: Connecticut Department of Public Health, 2007 - 2011

A total of 16 infant deaths occurred in Waterbury for a rate of 9.5 per 1,000 live births. This is higher when compared to Connecticut (5.6) and the Healthy People 2020 goal (6.0). The majority of infant deaths was among White infants (11 deaths, rate of 8.6) and occurred in the neonatal phase (within the first 27 days after birth). Seven Hispanic infant deaths also occurred in Waterbury for a rate of 10.4. This compares to a rate of 7.1 across all of Connecticut. In general, infant mortality has trended upwards in Waterbury since 2005 (Connecticut Department of Public Health, 2011 & Healthy People 2020, 2012).

Related to infant mortality is birth weight. The percentage of infants born with low birth weight in Waterbury (10.0%) is higher when compared to Connecticut (8.1%), the Healthy People 2020 goal (7.8%), and every peer city except Hartford (10.5%). In particular, the percentage of Black infants born with low birth weight (14.6%) and very low birth weight (4.1%) is notably higher compared to Connecticut (12.0%; 3.2%) and all peer cities. Low birth weight has been on the rise in Waterbury since 2005, particularly for Black infants (Connecticut Department of Public Health, 2011 & Healthy People 2020, 2012).

Despite primarily negative findings related to teenage birth, infant mortality, and birth weight, Waterbury mothers are more likely to receive adequate and intensive prenatal care than mothers across Connecticut. This is true for mothers of White, Black, and Hispanic race/ethnicity. Mothers receiving late or no prenatal care has been on the decline in Waterbury since 2005 (Connecticut Department of Public Health, 2011).

Sexually Transmitted Illnesses

Sexually transmitted illness rates per 100,000 are notably higher in Waterbury than in Connecticut, particularly for chlamydia and gonorrhea. The chlamydia rate is 720.5 in Waterbury compared to 344.9 in Connecticut and the gonorrhea rate is 225.9 in Waterbury compared to 72.6 in Connecticut. The Waterbury rates are more favorable compared to peer cities. The chlamydia rate alone is as high as 1,220.3 in New Haven and 1,513.8 in Hartford (Connecticut Department of Public Health, n.d.). The following chart illustrates this difference.

Table 3. Sexually Transmitted Illness Cases per 100,000 (2009, 2010)[a]

	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
HIV	11.4	17.2	54.5	31.6	33.3	11.4
Gonorrhea	72.6	225.9	403.0	363.3	239.6	37.2
Chlamydia	344.9	720.5	1,513.8	1,220.3	863.8	268.5
Primary/Secondary Syphilis	1.8	1.9	6.4	3.2	4.4	2.5

Sources: Connecticut Department of Public Health, n.d.

[a] All statistics represent 2009 data with the exception of HIV, which represents 2010 data

Mental Health Statistics

The suicide rate is considered to be an indicator of the mental health status of an area. The suicide rate per 100,000 in Waterbury is 8.6, which meets the Healthy People 2020 goal of 10.2, but is higher than Connecticut (7.8) and all peer cities (5.5 – 8.4). The suicide rate is a negative finding, but it should not be considered an all-encompassing indication of the mental health status of Waterbury. Additional indicators from the household telephone survey, focus groups, and key informant interviews should be considered for a more comprehensive understanding (Connecticut Department of Public Health, n.d. & Healthy People 2020, 2012).

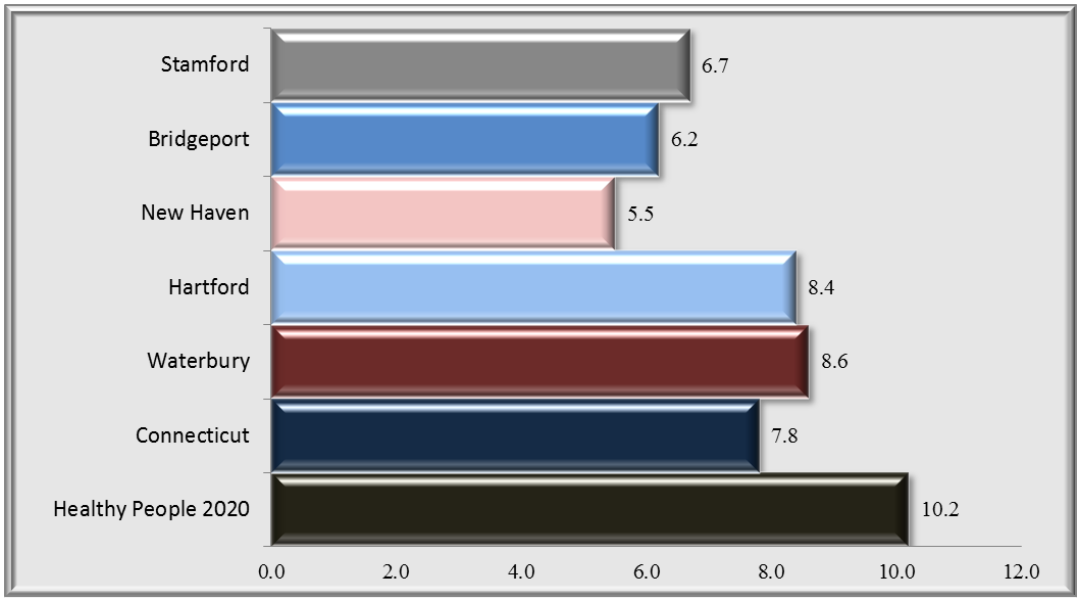

Figure 12. Suicide rates per 100,000, 2005 - 2009
Sources: Connecticut Department of Public Health, n.d.
Healthy People 2020, 2012

Cancer Statistics

Cancer affects Waterbury residents at a rate of 484.3 per 100,000 and is the second leading cause of death. Overall, the total cancer incidence rate of 484.3 is similar to or lower than that of Connecticut and peer cities. However, lung cancer disproportionately affects Waterbury residents at a rate of 81.2 compared to 74.3 across Connecticut and a range of 45.0 – 67.5 across all peer cities (Connecticut Department of Public Health, n.d.). The following chart depicts incidence rates for all reported cancer types.

Table 4. Cancer Incidence by Site per 100,000 (2007)

	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
Female breast	155.6[a]	134.8 [a]	83.7 [a]	118.9 [a]	107.8 [a]	155.8 [a]
Colorectal	51.3	51.3	33.7	37.9	43.2	65.0
Lung	74.3	81.2	45.0	55.7	64.4	67.5
Prostate	173.3[a]	76.2 [a]	119.5 [a]	116.8 [a]	128.6 [a]	178.8 [a]
All sites	**561.6**	**484.3**	**335.6**	**445.4**	**443.3**	**534.3**

Source: Connecticut Department of Public Health, n.d.
[a]Rates based on 2010 population counts

In contrast to the overall cancer incidence rate, the overall cancer mortality rate is higher in Waterbury than in Connecticut and all but one peer city, New Haven. The mortality rate per 100,000 for all cancer types is 181.6 in Waterbury compared to 170.1 across Connecticut and a range of 155.1 – 167.1 across Bridgeport, Stamford, and Hartford. Lung cancer presents as an area of concern again as the mortality rate for this condition is notably higher in Waterbury

(53.5) compared to Connecticut (45.0), Healthy People 2020 (45.5), and all peer cities (36.5 – 44.1) (Connecticut Department of Public Health, n.d.).

Table 5. Cancer Mortality by Site per 100,000 (2005 - 2009)

	HP 2020	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
Female breast	20.6	N/A	12.8	11.0	17.9	14.5	11.7
Colorectal	14.5	14.6	15.9	16.4	18.5	13.8	12.8
Lung	45.5	45.0	53.5	42.2	44.1	43.3	36.5
Prostate	21.2	N/A	7.7	8.9	11.8	7.2	9.1
Skin	N/A	2.6	N/A	N/A	N/A	N/A	N/A

Sources: Connecticut Department of Public Health, n.d.
Healthy People 2020, 2012

Environmental Health Statistics

The environment that residents live, work, and play in can have a profound impact on their health. An indicator of the environmental health of an area is the prevalence of asthma. In Waterbury, the rate per 100,000 for emergency department visits due to asthma is 144.0 in adults 18 years and over and 197.3 in children under 18 years. This is notably higher than Connecticut's rates for adults and children (44.7 and 61.3 respectively) and most peer cities. Among adults in Waterbury, females, Blacks/African Americans, and Hispanics are more likely to have visited an emergency department for asthma. Among children in Waterbury, males, Blacks/African Americans, and Hispanics are more likely to have visited an emergency department for asthma (Connecticut Department of Public Health, 2009).

Table 6. Emergency Department Visits due to Asthma per 10,000 (2001 – 2005)

	Connecticut	Waterbury	Hartford	New Haven	Bridgeport	Stamford
Population 18 +	44.7	144.0	182.8	108.8	126.7	41.5
Population <18	61.3	197.3	241.7	213.8	165.9	80.8

Source: Connecticut Department of Public Health, 2009

Another indicator of the environmental health of an area is the presence of food deserts, which are defined by Census tracts. Food deserts are areas that have little or no access to fully-stocked grocery stores that offer fresh, healthy, and affordable foods. In Waterbury, a number of census tracts have large populations living in food deserts. However, census tract 9009352400 is of particular concern. It has the highest percentage of residents living in a food desert across four out of the five reported categories (United States Department of Agriculture, 2010).

Table 7. Food Deserts by Census Tracts in Waterbury, Connecticut (2012)

	Population with low access to nutritious food sources	Population with low income and low access	Population 0-17 years with low access	Population 65+ years with low access	Population with no vehicle and low access
9009352400	100.0%	12.7%	31.6%	9.7%	16.4%
9009352300	21.3%	2.5%	5.2%	2.5%	3.4%
9009352200	55.1%	18.5%	24.2%	2.9%	14.2%
9009352100	33.7%	5.4%	9.5%	4.7%	3.6%
9009351800	57.7%	3.6%	10.8%	9.5%	3.7%
9009351500	45.9%	5.6%	11.7%	7.4%	7.0%
9009352800	33.4%	2.8%	11.4%	2.4%	4.3%

Source: United States Department of Agriculture, 2010

Secondary Data Profile Summary of Findings

The secondary data profile provided valuable context regarding how socioeconomic factors like income, education levels, and housing may influence local health outcomes. In Waterbury, the median income for households and families is higher; fewer residents live in poverty when compared to most peer cities. Residents are also less likely to rely on social assistance programs like Medicaid and State Administered General Assistance medical. In terms of health outcomes, Waterbury has lower rates of stroke mortality and sexually transmitted illness incidence. Waterbury has a number of strengths and assets, but it also has some areas to improve upon. In particular, Waterbury residents have more respiratory health issues and issues related to maternal and child health. In relation to respiratory health, residents are more likely to have visited an emergency department for asthma complications and to have died from lung cancer and chronic lower respiratory disease. Related to maternal and child health, the infant mortality rate is higher, infants are more likely to be born with low or very low births weight, and the number of teenage pregnancies is higher. Additional areas of concern in Waterbury are the suicide rate and food deserts, particularly in census tract 9009352400.

HOUSEHOLD TELEPHONE SURVEY OVERVIEW

Background

A statistical Household Telephone Survey was conducted based on the Centers for Disease Control and Prevention (CDC) Behavioral Risk Factor Surveillance System (BRFSS). The BRFSS is a national initiative, conducted annually at the state level. The survey assesses self-reported health status, health risk behaviors, preventive health practices, and health care access primarily related to chronic disease and injury.

For the Waterbury study, trained interviewers conducted telephone interviews between May and June 2013 by trained interviewers. Participants were randomly selected for participation based on a statistically valid sampling frame that included landline and cell phone telephone numbers. Only respondents who were at least 18 years of age and lived in a private residence were included in the study. A total of 1,121 individuals who reside within specific Zip codes served by the Greater Waterbury Health Improvement Partnership were interviewed by telephone. Select participant demographics are included in Appendix C.

The customized survey tool consisted of approximately 100 factors selected from BRFSS tool. A few customized questions were added to gather information about health issues specific to the service area. Depending upon interviewees' responses, interviews ranged from approximately 15 to 30 minutes in length.

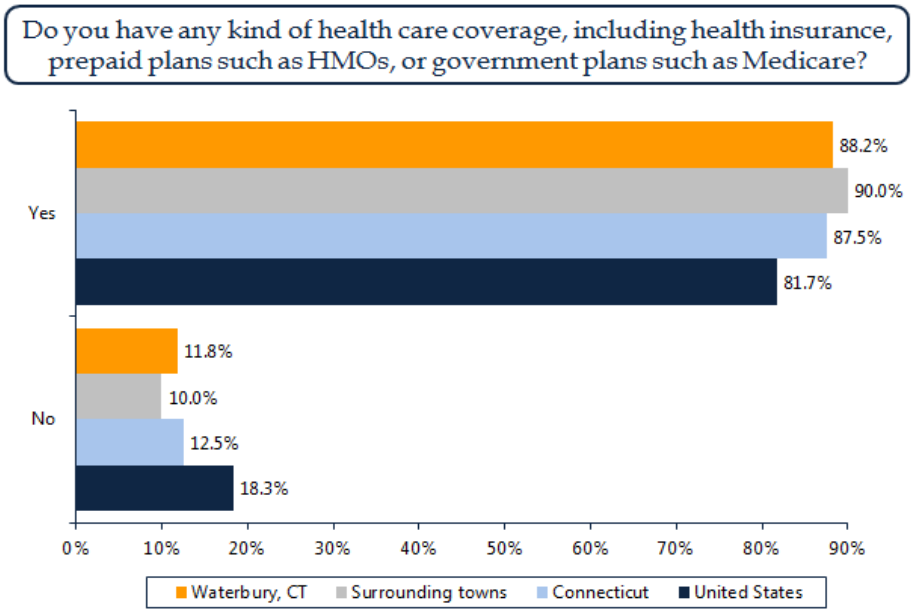
Statistical considerations for the study can be found in Appendix B. The following section provides a summary of the Household Telephone Survey results. A full report of the Household Telephone Survey results is available in a separate document.

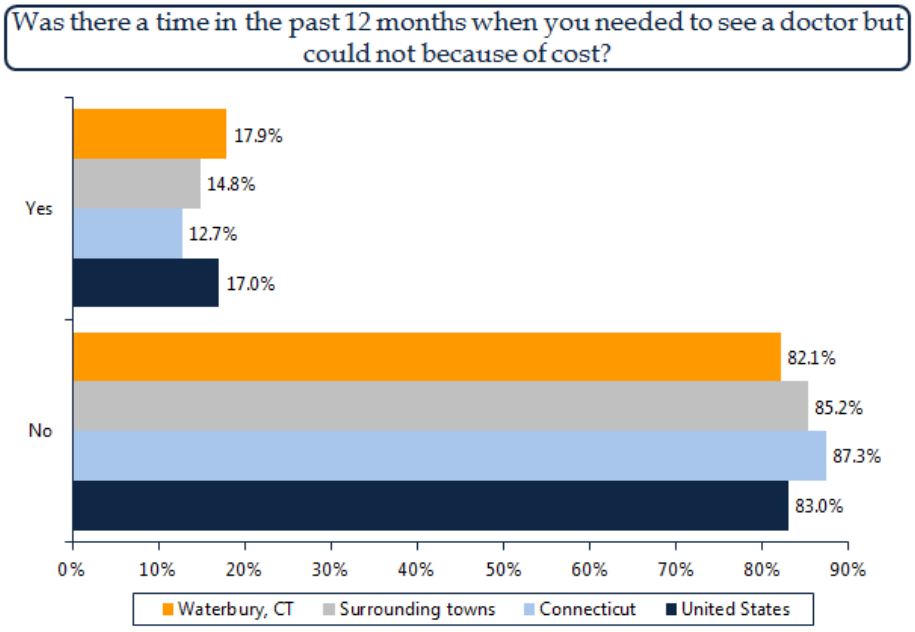
Household Telephone Survey Key Findings

The following section provides an overview of key findings from the Household Telephone Survey including highlights of important health indicators and health disparities.

Access to Health Care

Overall, residents of Waterbury are just as likely or more likely to have health care coverage (88.2%) and at least one person who they think of as their personal doctor or health care provider (84.1%) when compared to the state (87.5%; 85.2%) and the nation (81.7%; 78.0%). Local residents are also more likely to have received a routine checkup within the past year (76.6%) compared to the state (70.4%) and the nation (66.9%). Despite primarily positive findings regarding health insurance and access to primary care, residents of Waterbury still cite the cost of care as a barrier. Nearly 18% of respondents said that there was a time in the past 12 months when they needed to see a doctor but could not because of cost. This may be an indicator that out-of-pocket expenses that are not covered by insurance (e.g. copays) are preventing residents from seeking care when they need it.

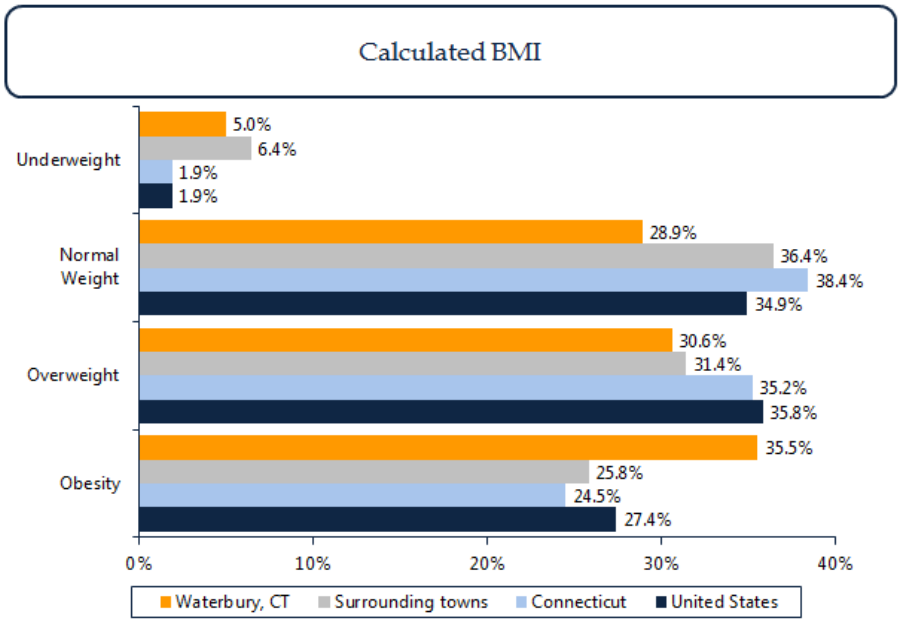




Health Risk Factors

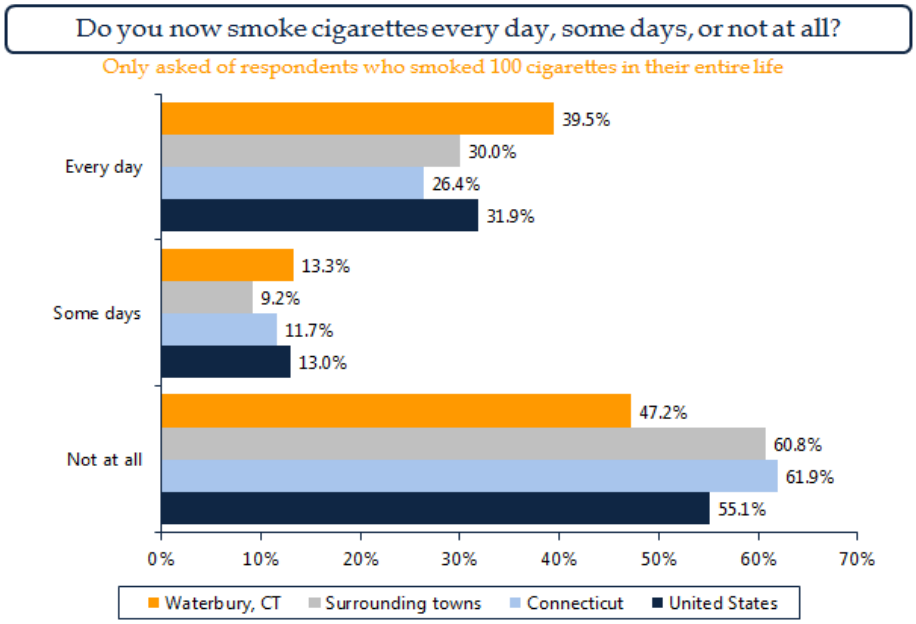
Obesity & Physical Activity

Obesity and its connection to serious medical conditions has become a national concern. In the latest BRFSS study, 63.2% of the nation and 59.7% of Connecticut was considered overweight or obese. Waterbury surpasses both with 66.1% of respondents considered overweight or obese and 35.5% considered obese. In addition, fewer respondents (68.9%) reported engaging in physical activity during the past month compared to the state (74.5%) and the nation (74.3%).

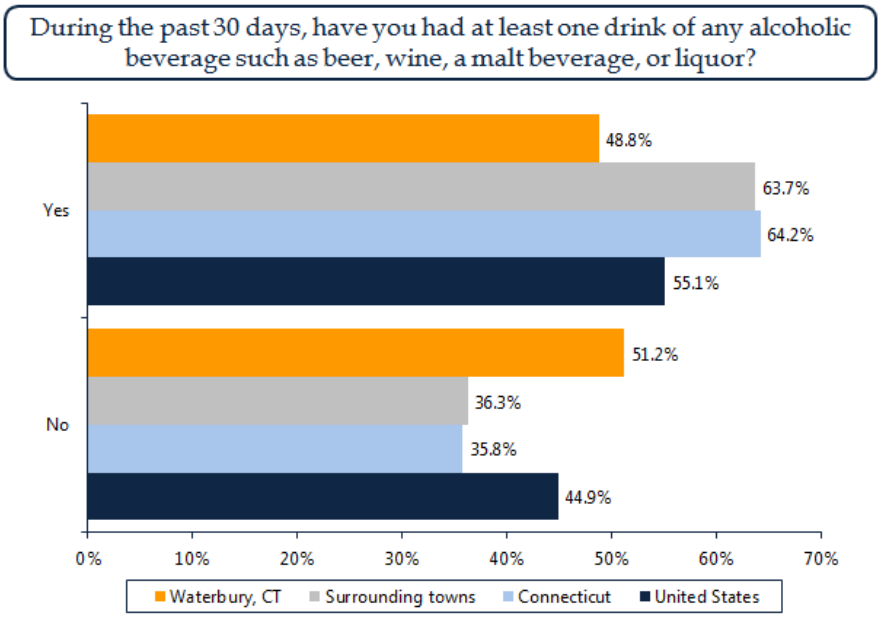


Tobacco & Alcohol Use

Tobacco use is a concern in Waterbury for both the proportion of residents who initiate smoking and the proportion who continue to smoke on a daily basis. More than half (51.1%) of Waterbury respondents have smoked at least 100 cigarettes in their lifetime compared to 45.0% across the state and 44.8% across the nation. In addition, more than half (52.8%) of the respondents who initiated smoking at some point in their lifetime still smoke every day or some days compared to the state (38.1%) and the nation (44.9%). A positive finding is that respondents are more likely to have attempted to quit smoking during the past 12 months.



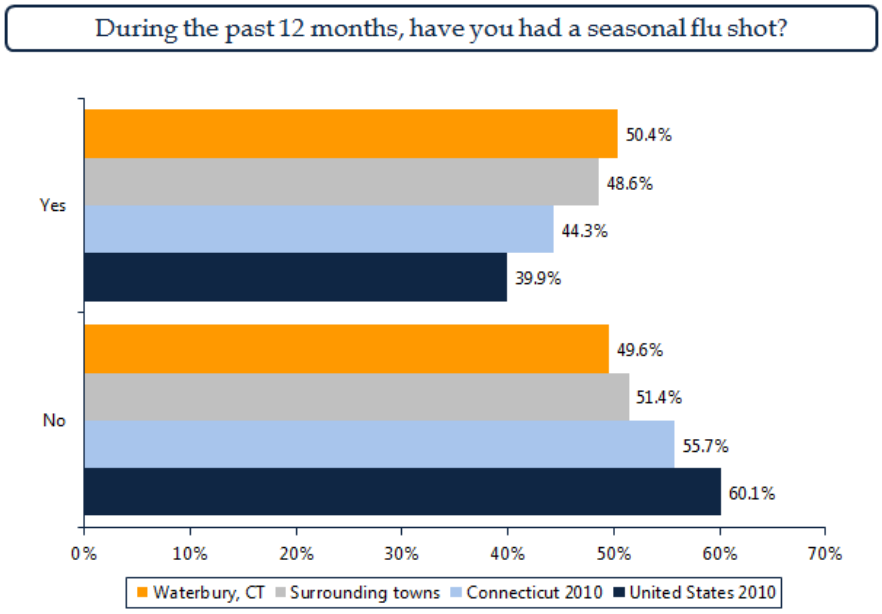
Alcohol use and abuse is not as prevalent. Only 48.8% of respondents had an alcoholic beverage during the past 30 days compared to 64.2% across Connecticut and 55.1% across the nation. Of the individuals who did consume alcohol, fewer did so on a daily basis or participated in binge drinking, and more than half had a maximum of one to two drinks at a time.



Preventive Health Practices

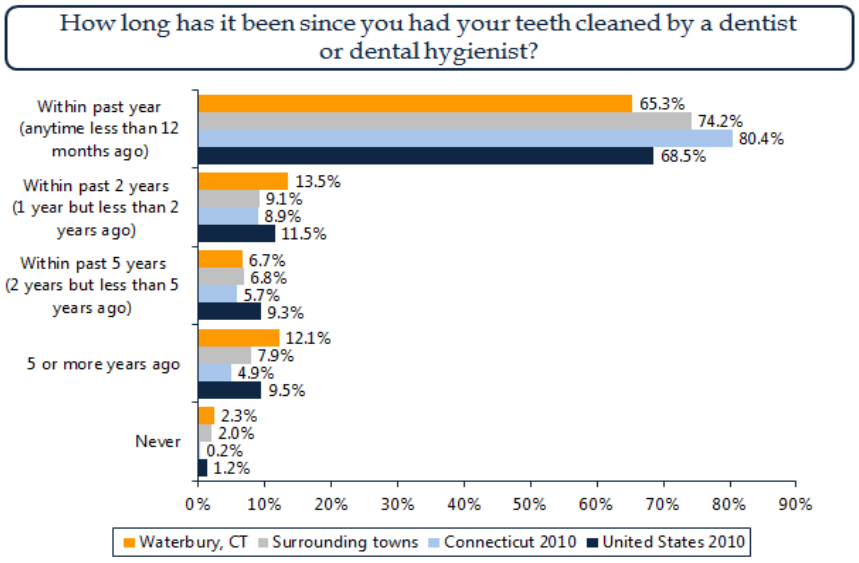
Immunizations

A positive finding among Waterbury respondents is the prevalence of immunizations. In the past 12 months, 51.8% of respondents received a flu vaccine either as a shot or a nasal spray compared to 45.2% in Connecticut and 41.3% in the nation. In addition, 35.5% received a pneumonia shot compared to 30.9% in Connecticut and 30.6% in the nation.

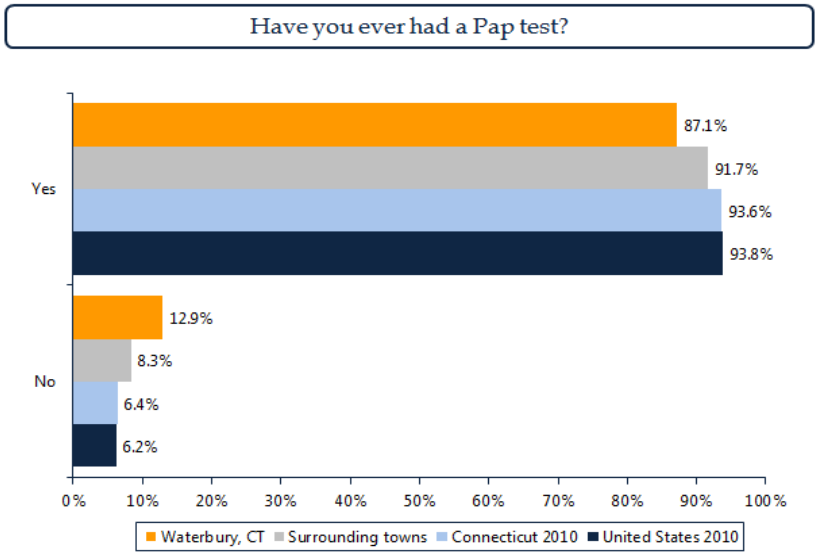


Screenings

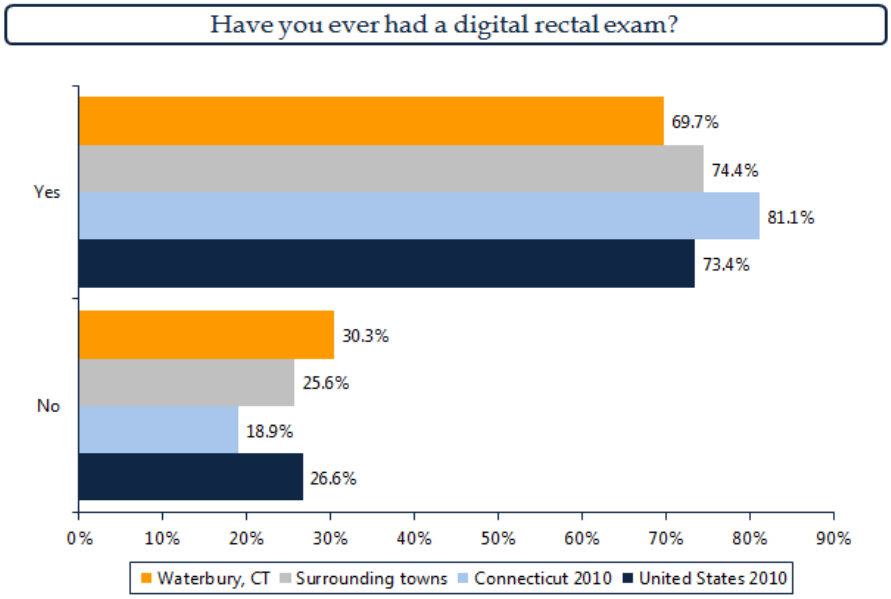
In general, Waterbury residents are less likely to engage in preventative oral health practices. Only 60.8% of respondents visited a dentist or a dental clinic within the past year. This is consistent with the nation (68.1%), but notably lower when compared to Connecticut (80.6%). Waterbury respondents are also less likely to have had their teeth cleaned (65.3%) within the past year when compared to both the state (80.4%) and the nation (68.5%).



Female preventative screenings are also less prevalent among Waterbury residents. Women are less likely to have ever received a mammogram, clinical breast exam, or Pap test when compared to women across Connecticut and the nation. The percentage of Waterbury women receiving a Pap test is of particular concern as only 87.1% have ever had one compared to 93.6% in Connecticut and 93.8% in the nation. The percentage of women receiving clinical breast exams (87.8%) is also concerning when compared to all of Connecticut (92.4%).



Men ages 39 and older have a greater risk for prostate cancer and should receive regular diagnostic screenings. Male respondents in Waterbury are more likely to have had one of the suggested screenings, a prostate-specific antigen test (57.5%), when compared to men across the nation (51.1%). However, they are less likely to have the second suggested screening, a digital rectal exam (69.7%), when compared to men across Connecticut (81.1%) and the nation (73.4%). In addition, of the men who have had a digital rectal exam, fewer had it within the past year. This is a potential health concern since male respondents in Waterbury are more likely to have prostate cancer (6.0%) when compared to the nation (3.5%).



Colorectal cancer can be screened for through home blood stool tests and sigmoidoscopies/ colonoscopies. Waterbury respondents are slightly more likely to have had a sigmoidoscopy/ colonoscopy when compared to the nation, but notably less likely to have had a home blood stool test (27.7%) when compared to the nation (45.4%). Of those respondents who have had a home blood stool test, a large proportion last had one five or more years ago (35.0%).

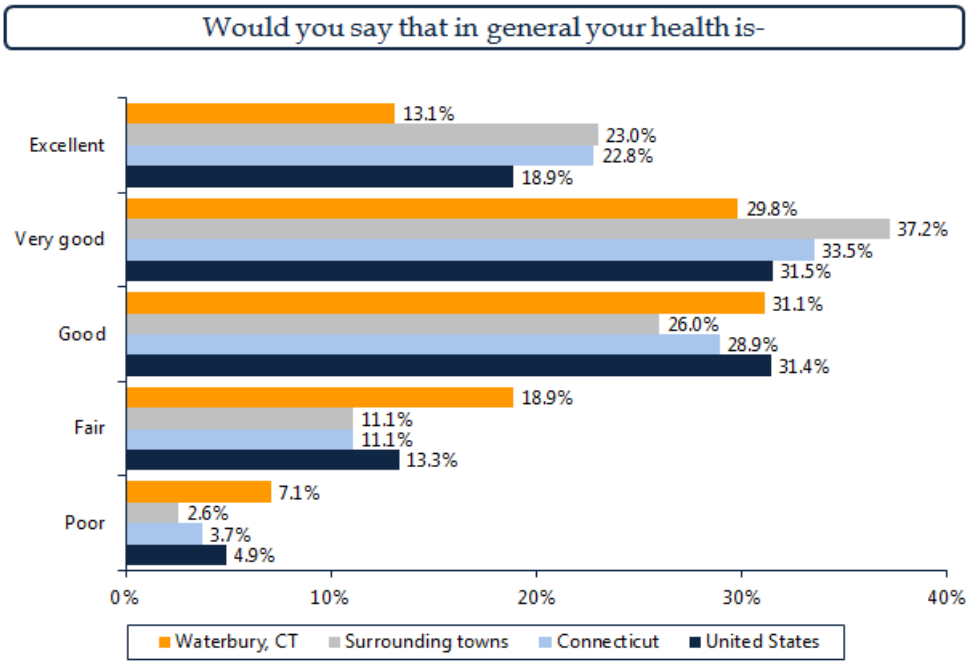
Residents in Waterbury are more likely to have been tested for HIV (55.7%) when compared to residents across Connecticut (36.7%) and the nation (37.4%). By itself, this is a positive finding. However, additional data suggests that a possible reason for higher screening rates is the prevalence of high risk behaviors. Approximately 7% of Waterbury respondents said that high risk situations like intravenous drug use and sexually transmitted diseases apply to them. This compares to 3.6% across Connecticut and 3.8% across the nation.

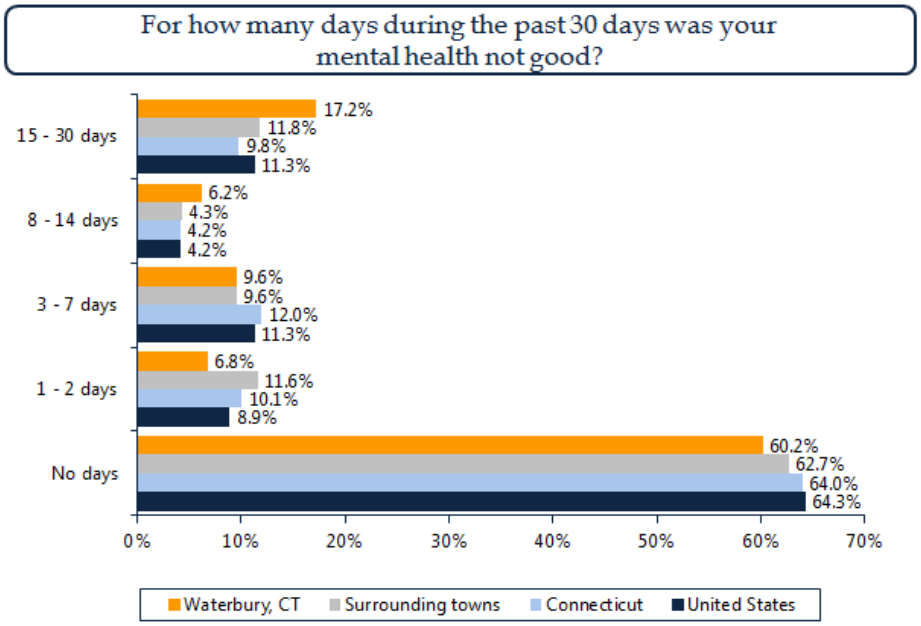
Health Status & Chronic Health Issues

Physical & Mental Health

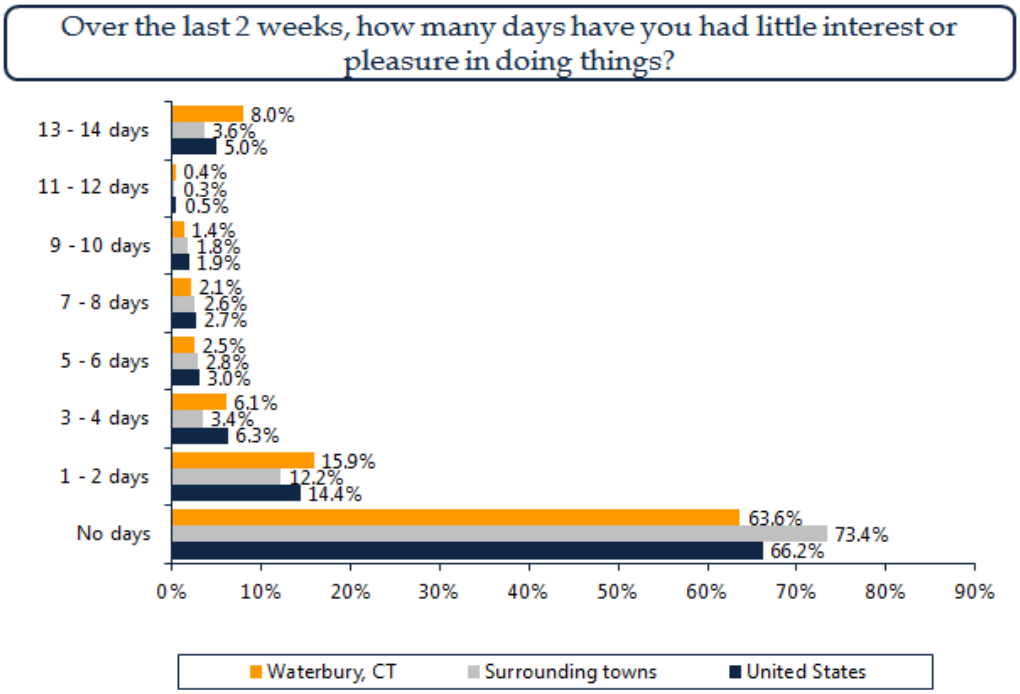
Residents of Waterbury are more likely to report having fair or poor health in general. Only 13.1% of respondents said that their health was excellent, compared to Connecticut (22.8%) and

the nation (18.9%). In addition, during the past 30 days, 40.8% of respondents said that they had at least one day of poor physical health and 39.8% said that they had at least one day of poor mental health. Of particular concern is the 17.2% of respondents who said that they had 15 – 30 days of poor mental health during the past 30 days. This compares to 9.8% across Connecticut and 11.3% across the nation. The combination of poor physical and mental health days kept 45.3% of respondents from doing their usual activities on at least one of the past 30 days.





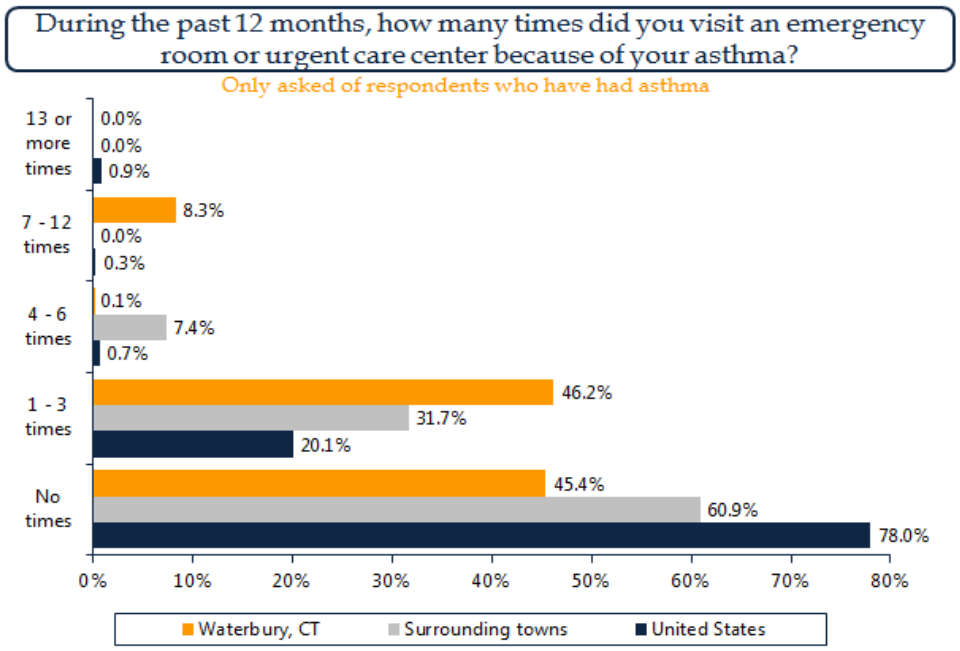
In addition to having more days of poor mental health, Waterbury respondents are more likely to have been diagnosed with an anxiety disorder and to have felt depressed and had little interest in doing things. The percentage of Waterbury respondents who have been diagnosed with an anxiety disorder is 19.7%. This compares to 16.7% across the nation. Over the last two weeks, 36.4% of respondents had little interest or pleasure in doing things and 34.3% felt down, depressed, or hopeless. A positive finding is that more respondents (16.4%) are taking medicine or receiving treatment from a health professional for their mental health condition when compared to the nation (12.5%).



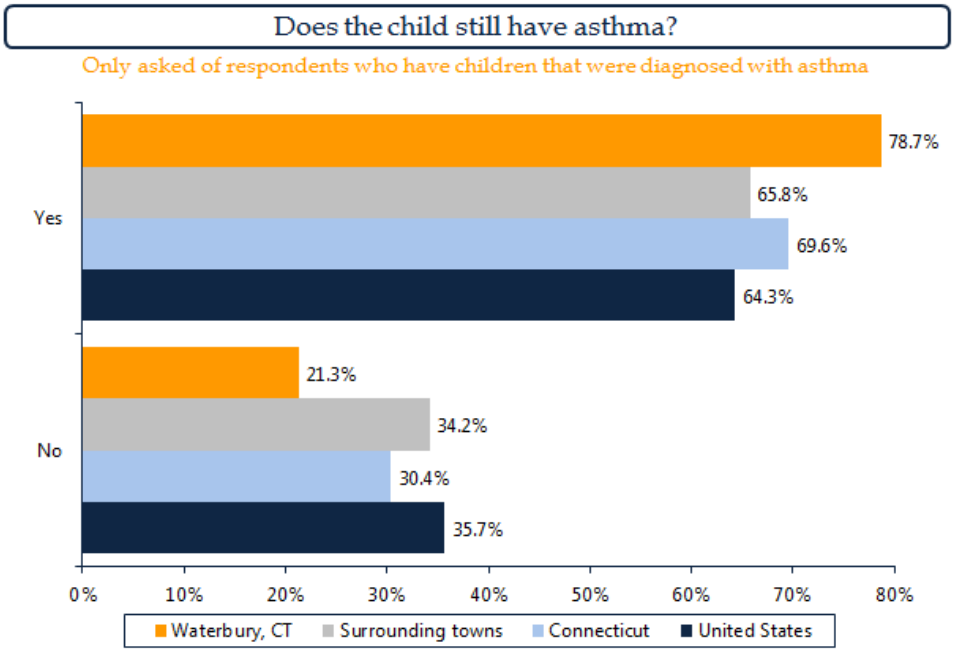
A contributing factor to the poor mental health status of Waterbury residents may be the proportion of residents who are acting as caregivers for friends or family members. During the past month, 27.1% of respondents provided caregiver services compared to 15.6% across Connecticut and 16.8% across the nation.

Chronic Health Issues

A number of chronic conditions are of concern in Waterbury, including asthma, cardiovascular disease, and diabetes. Approximately 22% of Waterbury respondents had been told that they have asthma. This compares to 14.8% in Connecticut and 13.5% in the nation. Additional data also suggests that asthmatics in Waterbury are not managing their condition as well. A higher proportion have had an asthma attack (59.2%) and visited an emergency room or urgent care center in the past year (54.6%) when compared to the nation (43.0%; 22.0%). A higher proportion has also been unable to carry out their usual activities because of their asthma (39.5%) when compared to the nation (23.8%).

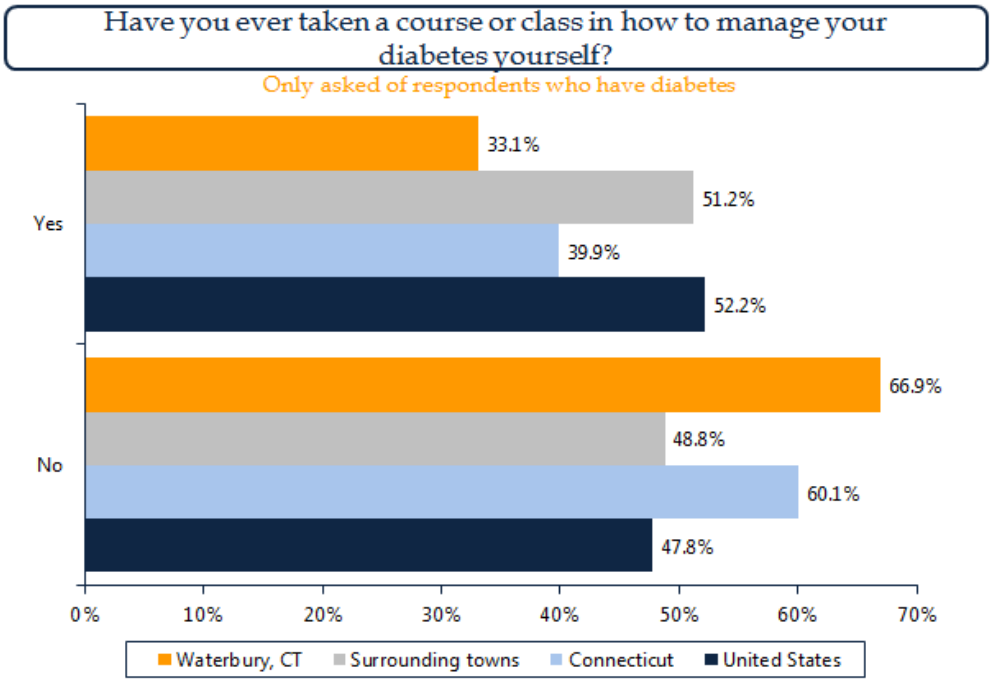


Children in Waterbury are also disproportionately affected by asthma. Slightly more than 21% have been diagnosed with asthma compared to 15.0% in Connecticut and 13.4% in the nation. They are also more likely to still have asthma (78.7%) when compared to Connecticut (69.6%) and the nation (64.3%).



Residents in Waterbury are more likely to have cardiovascular health issues like heart attacks (6.6%), angina or coronary heart disease (5.9%), and stroke (5.4%). A contributing factor (other than obesity and lack of physical activity) may be high blood pressure. A higher proportion of Waterbury residents have high blood pressure (33.6%) when compared to Connecticut (29.7%) and the nation (31.6%) and fewer are taking medicine for it.

A higher proportion of residents in Waterbury have been diagnosed with diabetes (14.8%) when compared to Connecticut (9.3%) and the nation (9.8%). This is a concern for the community in terms of prevention, but even more concerning is that diabetics in Waterbury are less likely to manage their condition. Fewer diabetics are taking insulin, checking their blood glucose levels on a daily basis, seeing a health professional for their condition, having a health professional conduct an A1C test or foot check, and attending self-management courses. Specifically, only 33.1% of diabetic respondents have taken a course in how to manage their diabetes compared to 39.9% of diabetics across Connecticut and 52.2% of diabetics across the nation.



Household Telephone Survey Summary of Findings

A number of areas of opportunity were identified through the household telephone survey. The first area was access to care. Residents are more likely to have trouble affording out-of-pocket expenses despite having equitable health insurance coverage. They are also less likely to receive preventive screenings related to oral health and women's health. The second area was chronic health conditions. Respiratory conditions presented as an issue with a higher proportion of residents saying that they and their children have asthma. A contributing factor to asthma rates may be the proportion of residents who smoke cigarettes. Cardiovascular disease and diabetes

also presented as concerns among residents. Contributing factors to these conditions may be the proportion of residents who are overweight or obese and have high blood pressure. The third area was the mental health status of Waterbury. Residents have more days of poor mental health, are more likely to experience depression and be diagnosed with an anxiety disorder.

FOCUS GROUPS OVERVIEW

Background

A total of six focus groups were held at various locations throughout Waterbury in February 2013. Two of the groups were conducted with health care providers associated with the two hospitals; four groups were conducted with members of neighborhood associations. Focus group topics addressed access to care, cultural competency, physical activity, nutrition/healthy eating habits, weight/obesity, and health information. Each session lasted approximately 90 minutes and was facilitated by trained staff from Holleran.

Participants were recruited through the CHNA partners. In exchange for their participation, health care providers were given a $25 gift card; community members received $25 cash. Two discussion guides developed in consultation with the Greater Waterbury Health Improvement Partnership, were used to prompt discussion and guide the facilitation.

In total, 57 people participated in the focus groups. It is important to note that the results reflect the perceptions of a limited number of providers and community members and may not necessarily represent all providers and residents of Waterbury.

The following section provides a summary of the focus group discussions including key themes and select comments.

Health Care Provider Focus Groups Key Findings

Access to Care

Access to care was an area of shared concern among Saint Mary's and Waterbury Hospital physicians. Physicians agreed that the greatest barriers to accessing care in Waterbury are an inadequate number of physicians, particularly primary care physicians, and health insurance-related issues. The primary care shortage in Waterbury has prohibited patients from having assured and timely access to care, even if they are insured. Many patients with medical homes are still using the ED due to the limited hours of clinics and the overwhelming demand for limited appointment slots. Participants also pointed out that primary care physicians are the lowest paid providers and care for the most challenging payer mix.

Participants shared that low Medicaid reimbursements limit the number of patients that primary and specialty physicians are willing to see. One physician stated, "It costs us more to see the

patients than what we receive in reimbursement." Additional barriers to accessing care included a lack of awareness of available services among eligible patients, limited bilingual services for non-English speaking residents, transportation, and co-payments. Another physician stated, "Even residents with health insurance are financially stressed and don't follow through on their care due to copayment costs."

There was general consensus among providers that patients with mental and/or behavioral health issues are underserved. It is difficult for these patients to receive the care that they need because providers are hesitant to "take responsibility for them" and services are limited. Providers are reluctant to be the "physician of record." Other underserved populations included the seasonally insured, service industry workers, and minority populations.

Participants listed a number of resources for uninsured and underinsured residents. The Waterbury Health Access Program (WHAP) was seen as particularly successful in linking needy patients with volunteer physicians and insurance. Lack of funding could jeopardize the future of the program.

Key Health Issues and Challenges

Mental and behavioral health issues were seen as key health issues in the community. One physician suggested that there was "widespread emotional despair" within the city. Other concerns were that elderly patients suffered from dementia, late-stage breast cancer diagnoses, and obesity.

Related to obesity, participants saw a number of challenges for residents trying to stay physically fit and eat a healthy diet. Fresh fruits are expensive and not widely available following recent closings of several supermarkets. An increase in farmers' markets was seen as a positive development. Other barriers included residents' awareness of healthy diets, as well as their willingness to dedicate resources to costly fruits and vegetables (over less expensive fast food alternatives). Compounding challenges to maintaining health, a lack of accessible, safe recreational areas was noted.

Participants provided several recommendations for improving the health of the community. Better patient navigation, extended clinic hours to serve residents instead of the ED, and higher reimbursement for Medicaid patients, were among recommendations provided. Participants agreed that mental health treatment options also needed to be expanded. Investments to improve poor economic conditions in the city needed to continue.

Provider Resources

Providers agreed that insurance-related issues are one of the top obstacles that they face in providing care. The amount of paperwork required by each plan burdens medical offices and takes away from direct patient care. Providers also stated that a merger between the two hospitals in Waterbury would create more seamless care and financial stability that would allow for more modern technology.

Local health departments were viewed as helping to meet the needs of the Waterbury community; however, most participants were not aware of specific activities. The general consensus was that more support from entities across the community was needed. One participant stated, "It comes down to shared responsibility. Everyone needs to take a part."

Community Resident Focus Groups Key Findings

Access to Care

A number of issues were identified by community residents as barring people from accessing health care. Many issues were centered on the cost of care. Participants identified lack of health insurance, the cost of copayments and medications, and increasing premiums and deductibles, specifically. They also expressed concern that Husky Care (Medicaid) was often not accepted by providers and that people were "looked down upon" for having it. Other issues included transportation, clinic hours of operation, language barriers, lack of awareness of services, and legal status. Participants stated that it can "take all day" to see the doctor due to the limited number of bus stops and long wait times between rides. They also stated that the only place to receive care after hours was the ED since clinics and private medical offices were closed. Hispanics/Latinos and Albanian residents were viewed as most impacted by language barriers.

Participants felt that a number of populations within the community were not being adequately served by local health services. These included African Americans, Hispanics/Latinos, single mothers with children, the homeless, mentally ill residents, seniors, and teens. Participants explained that for those seniors who need assistance with Activities of Daily Living (ADL), traveling to the Veteran's Administration Hospital in West Haven (45 minutes away) is a burden. They also expressed that teens are often not able to afford medication and are struggling with issues like sexually transmitted diseases. Resources identified that cared for underserved populations included hospital EDs, health clinics, Planned Parenthood, and the Malta House of Care van.

Dental care and mental health care were viewed as lacking services in the community. Participants agreed that dental care is largely unavailable without insurance. There was general consensus that there was "no place to go" for mental health care services. One person stated, "You have to commit a crime to get mental health care."

Key Health Issues and Challenges

More than 10 health issues were identified as major concerns in the community. Among the issues, mental and behavioral health issues were mentioned several times. In particular, participants noted wide-spread abuse of medicines like Nyquil and addictions to pain medication. Several factors were seen as contributing to addictive behavior including long delays in getting appointments and automatic refilling of pain medication prescriptions. Participants also noted tobacco use as a major concern. They observed that "Everyone smokes

cigarettes." An increased popularity of small cigars due to the lower cost compared to cigarettes was noted.

Participants noted a number of challenges for people in the community trying to stay physically fit and eat healthier. There was broad agreement that Waterbury does not offer adequate opportunity for physical activity. Comments included: "There are no safe parks." "Sidewalks are not in good condition." "Streets are of an old design; they are not wheelchair or stroller friendly." "There are no bike trails." "Today's parks have crooked slides and broken sprinklers." "There are syringes on the ground."

Programs that are available for recreation have a cost associated with them. Two organizations, the Police Athletic League (PAL) and the YMCA, were seen as positive entities, although both have fees for participation. Participants agreed that fresh fruits and vegetables were available year-round, but that barriers like cost, transportation, and location keep residents from accessing them widely. The farmer's market was seen as a step in the right direction; however, one participant said "You have to fight your way through panhandlers and the homeless to shop there." One solution was to increase the number of community gardens in Waterbury.

A number of weaknesses related to the socio-economic and physical environment of the community were identified. Participants stated that there was a lack of jobs in the area and that youth didn't have work opportunities. Poverty conditions often caused parents to "hop from apartment to apartment" to avoid paying rent, causing school transfers and disruption to children's education. Blight, littering, and poor school conditions were also concerns. One participant stated, "Residents are not invested in the areas where they live."

Community Aspirations & Capacity

Participants offered a number of suggestions for improving the health of the community. Specific examples included expanding access to care by "bringing back" the StayWell Health Center van; sponsoring free dental clinics; offering more health screenings and smoking cessation programs; and promoting on-going health education campaigns. Cleaning up the city park, improving the transportation system, sponsoring more community gardens, and providing safe and clean public restrooms in the downtown area were suggested to improve the city environment.

Participants urged community organizations to concentrate on the city as a whole and work to improve the socio-economic factors burdening residents. They also cited the need for more general counseling services and community mentors for the youth. Participants thought that efforts needed to be made to "instill more pride in the city" in an effort to encourage more community involvement and advocacy. Religious organizations were seen as untapped resource in these efforts.

Focus Group Summary of Findings

The focus group participants were grateful for the opportunity to share their thoughts and experiences; many expressed support for community-wide efforts to improve the health status of Waterbury. Identified community strengths included area healthcare providers, specifically the hospitals, health clinics, and local health departments. Areas of opportunity included expanding access to care for residents, availability of resources to improve physical activity and healthy eating, and concerns of blight and community investment.

KEY INFORMANT INTERVIEWS OVERVIEW

Background

An online survey was conducted among area "Key Informants." Key informants were defined as community stakeholders with expert knowledge including public health and health care professionals, social service providers, non-profit leaders, business leaders, faith-based organizations, and other community leaders.

Holleran staff worked closely with the Greater Waterbury Health Improvement Partnership to identify key informant participants and to develop the Key Informant Survey Tool. Two-hundred and five (205) completed surveys were collected between February and April 2013. A listing of key informant participants can be found in Appendix D.

The questionnaire focused on gathering qualitative feedback regarding perceptions of community needs and strengths across three key domains:

- Key Health Issues
- Health Care Access
- Challenges & Solutions

It is important to note that the results reflect the perceptions of some community leaders, but may not necessarily represent all community representatives within Waterbury.

Key Informant Study Findings

Key Health Issues

The first section of the survey focused on the key health issues facing the community. Individuals were asked to select the top health issues that they perceived as being the most significant. The issues that were most frequently selected were:

1. Mental/Behavioral Health
2. Overweight/Obesity
3. Access to Health Care/Uninsured/Underinsured
4. Substance Abuse/ Alcohol Abuse
5. Heart Disease

The following table shows the breakdown of the percent of respondents who selected each health issue. Issues are ranked from top to bottom based on number of participants who selected the health issue as one of their top five issues. The first column depicts the total percentage of respondents that selected the health issue as one of their top five. Respondents were also asked of those health issues mentioned, which one issue is the most significant. The second column depicts the percentage of respondents that rated the issue as being the most significant of their top five.

Table 1: Ranking of Key Health Issues

Rank	Health issue	Percent of respondents who selected the issue	Percent of respondents who selected the issue as the most significant
1	Mental/Behavioral Health	78%	32%
2	Overweight/Obesity	66%	14%
3	Access to Health Care/ Uninsured/Underinsured	63%	26%
4	Substance Abuse/Alcohol Abuse	61%	7%
5	Heart Disease	42%	5%
6	Diabetes	41%	2%
7	Cancer	34%	7%
8	Caregiver Needs	30%	4%
9	Dental Health	21%	0%
10	Tobacco	20%	1%
11	Maternal/Infant Health	16%	1%
12	Stroke	11%	1%
13	Sexually Transmitted Diseases	7%	0%
14	HIV/AIDS	6%	1%

Figure 1 shows the key informant rankings of all the key health issues. The bar depicts the total percentage of respondents that ranked the issue in their top five.

"What are the top 5 health issues you see in your community?"

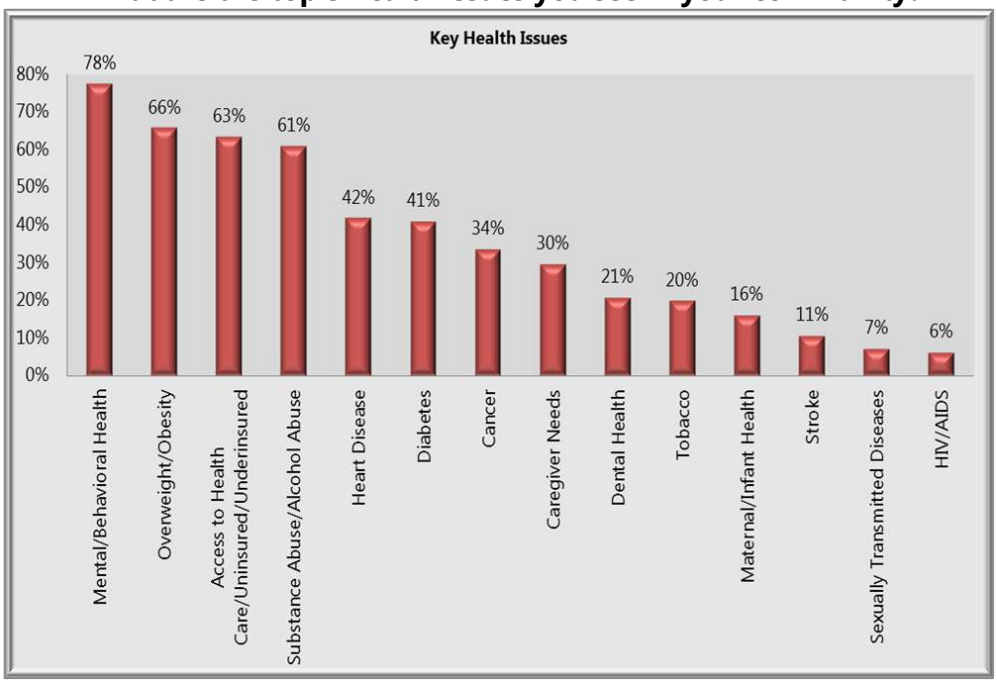


Figure 1: Ranking of key health issues

Health Care Access

Availability of Services

The second set of questions concerned the ability of local residents to access health care services such as primary care providers, medical specialists, dentists, transportation, Medicaid providers, and bilingual providers. Respondents were provided with statements such as: "Residents in the area are able to access a primary care provider when needed." They were then asked to rate their agreement with these statements on a scale of 1 (Strongly Disagree) through 5 (Strongly Agree). The results are displayed in Table 2.

Health care access appears to be a significant issue in the community. As illustrated in Table 2, none of the informants strongly agree to any of the health care access factors. Most respondents 'Disagree', with community residents' ability to access care. Availability of mental/ behavioral health providers garnered the lowest mean responses (2.06), compared to the other factors.

"On a scale of 1 (Strongly Disagree) through 5 (Strongly Agree), please rate each of the following statements about Health Care Access."

Table 2: Mean Responses for Health Care Access Factors

Factor	Mean Response	Corresponding Scale Response
Residents in the area are able to access a primary care provider when needed (Family Doctor, Pediatrician, General Practitioner)	3.19	Neither agree nor disagree
Residents in the area are able to access a medical specialist when needed (Cardiologist, Dermatologist, Neurologist, etc.)	2.90	Disagree
Residents in the area are able to access a dentist when needed.	2.93	Disagree
There are a sufficient number of providers accepting Medicaid and medical assistance in the area.	2.33	Disagree
There are a sufficient number of bilingual providers in the area.	2.40	Disagree
There are a sufficient number of mental/ behavioral health providers in the area.	2.06	Disagree
Transportation for medical appointments is available to residents in the area when needed.	2.53	Disagree

Barriers to Health Care Access

After rating availability of health care services, the informants were asked about the most significant barriers that keep people in the community from accessing health care when they need it. The barriers that were most frequently selected were:

- Inability to Pay Out-of-Pocket Expenses (co-pays, prescriptions, etc.)
- Lack of Health Insurance Coverage
- Inability to Navigate Health Care System

Table 3 shows the breakdown of the number and percent of respondents who selected each barrier. Barriers are ranked from top to bottom based on the frequency of participants who selected the barrier. The third column in the table depicts the percentage of respondents that rated the barrier as being the most significant facing the community.

"What are the most significant barriers that keep people in the community from accessing health care when they need it?"

Table 3: Ranking of Barriers to Health Care Access

Rank	Barrier to Health Care Access	Number of respondents who selected the issue	Percent of respondents who selected the issue	Percent of respondents who marked it as the most significant barrier
1	Inability to Pay Out of Pocket Expenses	151	80%	19%
2	Lack of Health Insurance Coverage	135	71%	20%
3	Inability to Navigate Health Care System	131	69%	26%
4	Lack of Transportation	107	57%	4%
5	Language/Cultural Barriers	86	46%	1%
6	Basic Needs Not Met (Food/Shelter)	80	42%	8%
7	Time Limitations	82	43%	3%
8	Availability of Providers/Appointments	80	42%	14%
9	Lack of Child Care	45	24%	1%
10	Lack of Trust	42	22%	2%

Figure 2 shows a graphical depiction of the frequency of selected barriers to health care access.

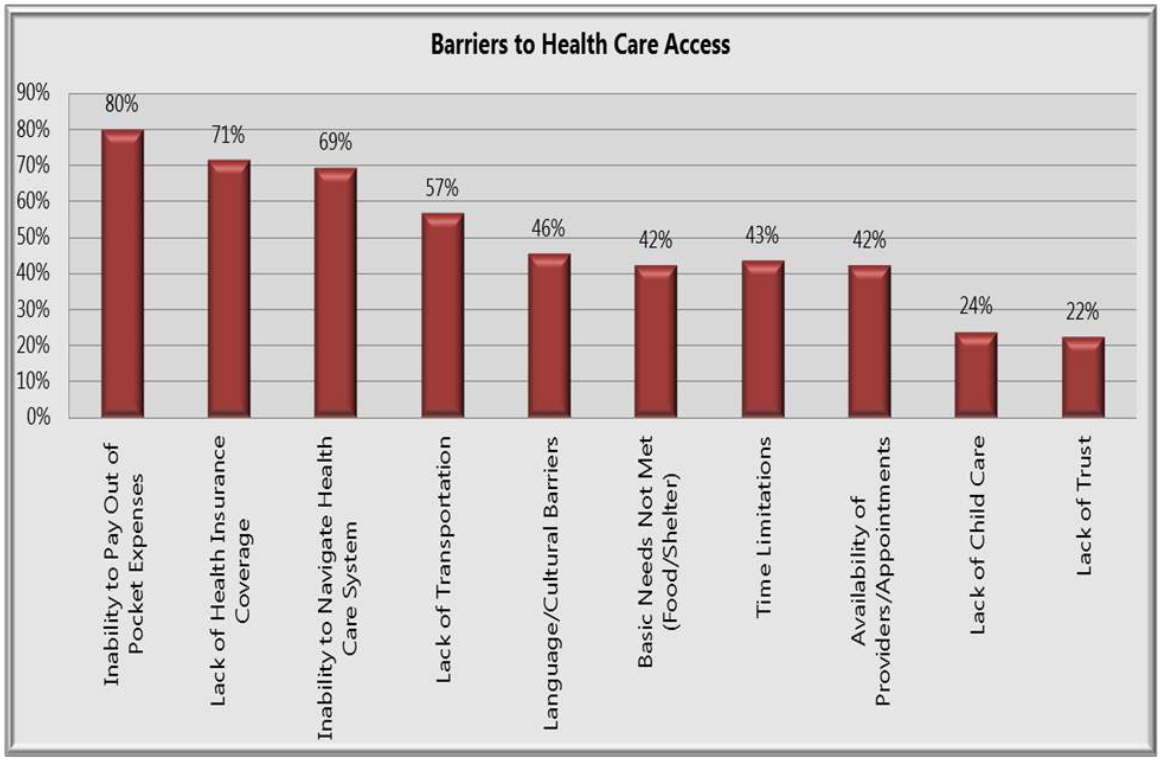

Figure 2: Ranking of barriers to health care access

Underserved Populations

Informants were then asked whether they thought there were specific populations who are not being adequately served by local health services. As seen in Figure 3, the majority of respondents (82%) indicated that there are underserved populations in the community.

"Are there specific populations in this community that you think are not being adequately served by local health services?"

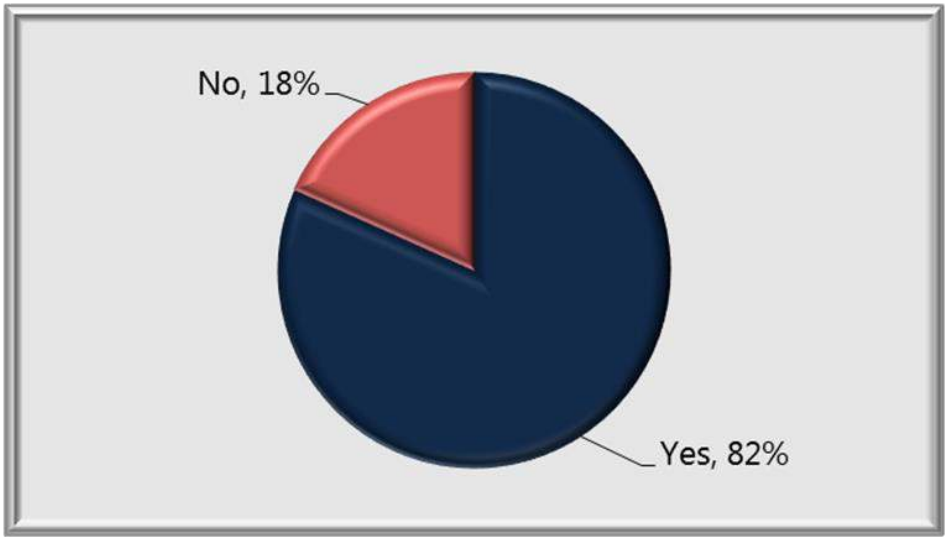

Figure 3: Key informant opinions regarding underserved populations

Those respondents were asked to identify which populations they thought were underserved. The results can be found in Table 4 below. Uninsured/underinsured and low-income/poor individuals were considered underserved populations along with homeless individuals and seniors/aging/elderly individuals. In addition, several respondents felt that racial/ethnic minorities and immigrant/refugee population were underserved.

Table 4: Underserved Populations

	Underserved population	Number of respondents selecting the population
1	Uninsured/Underinsured	98
2	Low-income/Poor	82
3	Homeless	64
4	Seniors/Aging/Elderly	41
5	Hispanic/Latino	35
6	Immigrant/Refugee	33
7	Black/African-American	31
8	Children/Youth	29
9	Disabled	28
10	Young Adults	22
11	Lower Middle Class	3
12	Mental Health/Addicts	1
13	Veterans	1
14	LGBT	1

Health Care for Uninsured/Underinsured

Next, the informants were asked to select where they think most uninsured and underinsured individuals go when they are in need of medical care. As shown in Figure 4, the majority of respondents (81%) indicated that uninsured and underinsured individuals go to the Hospital Emergency Department for medical care.

In general, where do you think MOST uninsured and underinsured individuals living in the area go when they are in need of medical care?

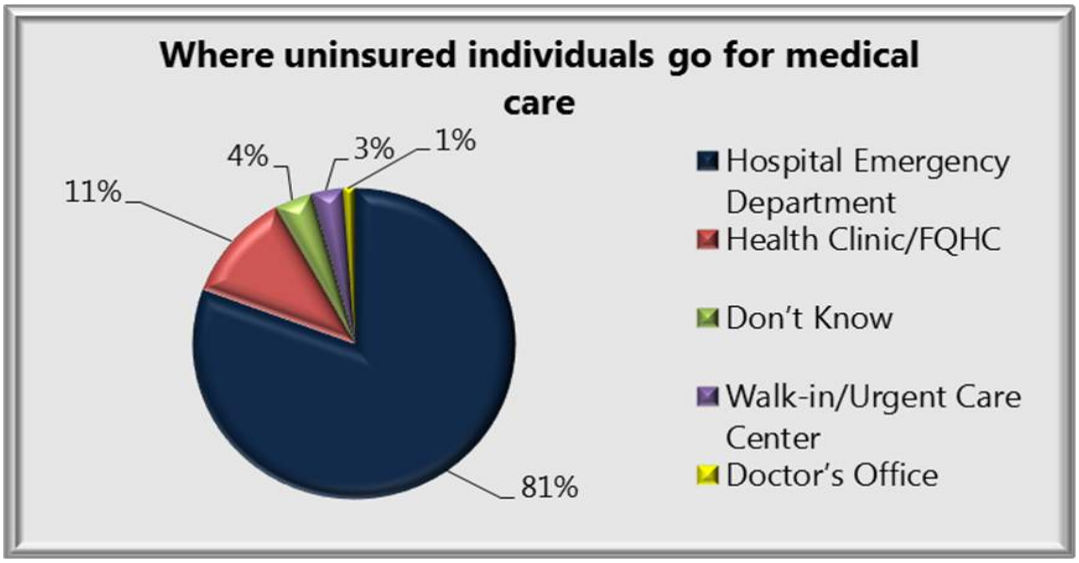

Figure 4: Key informant opinions of where uninsured individuals receive medical care

Resources Needed to Improve Access

Respondents were asked to identify key resources or services they felt would be needed to improve access to health care for residents in the community. Many respondents indicated that free and low cost medical and dental care, and mental health services are needed. In addition, informants want to see more health education and outreach and more transportation/assisted transportation. Table 5 includes a listing of the resources mentioned ranked in order of the number of mentions.

Table 5: Listing of Resources Needed in the Community

Rank	Resources Needed	Number of Mentions
1	Free/Low Cost Dental Care	111
2	Mental Health Services	108
3	Free/Low Cost Medical Care	93
4	Health Education/Information/Outreach	78
5	Transportation/Assisted Transportation	69
6	Health Screenings	63
7	Bilingual Services	58
8	Prescription Assistance	58
9	Substance Abuse Services	52
10	Primary Care Providers	39
11	Medical Specialists	32
12	Free/Low Cost Dental Care	111

Challenges & Solutions

The final section of the survey focused on challenges to maintaining healthy lifestyles, perceptions of current health initiatives, and recommendations for improving the health of the community.

When asked what challenges people in the community face in trying to maintain healthy lifestyles like exercising and eating healthy, participants suggested the following common challenges:

- Cost/Access
- Motivation/Effort
- Education/Knowledge
- Chronic Conditions/Diseases
- Cultural Norms
- Environment/Safety

Next, key informants were asked "What recommendations or suggestions do you have to improve health and quality of life in the community?" Several major themes emerged from the comments including the following:

- Increased Awareness/Education/Community Outreach
- Increased Collaboration/Coordination
- Improved Access to Medical Care, Dental Care, and Mental Health Services
- Improved Access to Affordable Exercise and Nutrition Programs
- Need For Patient Navigation
- Enhanced Programs/Outreach for Youth and Seniors
- Enhanced Community Space

Key Informant Interviews Summary of Findings

Key informants acknowledged that mental/behavioral health, overweight/obesity, and access to care are the most significant health issues in the community. Related to access to care, informants agreed that residents do not have sufficient access to providers and experience a number of barriers in seeking care. In particular, they felt that residents are not able to see specialists, dentists, and mental/behavioral health providers when they need to. They also felt that there are not enough bilingual providers and providers accepting Medicaid and medical assistance. Additional barriers for residents seeking care are out-of-pocket expenses, lack of health insurance coverage, and the inability to navigate the health care system. Informants recommended a number of resources to improve access to care. Among these, free/low cost dental care, mental health services, and free/low cost medical care were cited the most.

Eighty-two percent of informants agreed that there are underserved populations living in Waterbury. Of these populations, they felt that the uninsured/underinsured, low-income/poor, and homeless are the most underserved. When seeking medical care, these populations were thought to most often utilize hospital emergency departments and federally qualified health centers/clinics.

The last portion of the survey asked key informants to identify challenges in the community in maintaining healthy lifestyles and to make recommendations or suggestions for improving health and quality of life. In addition to issues related to access to care, informants listed motivation/effort, education/knowledge, cultural norms, and environment/safety as challenges in the community. To address these issues, informants recommended increasing awareness, education, community outreach, and community collaboration and coordination. They also suggested that more programs for youth and seniors be offered and that the community space be enhanced.

IDENTIFICATION OF COMMUNITY HEALTH NEEDS & PLANNING

Prioritization Session

On June 17, 2013, approximately 40 individuals representing the Greater Waterbury Health Improvement Partnership gathered to review the results of the 2013 Community Health Needs Assessment (CHNA). Among the attendees were representatives from local health and human service agencies, area non-profit organizations, health providers, and public health representatives. The goal of the meeting was to discuss and prioritize key findings from the CHNA and to set the stage for the development of the hospital's Implementation Strategy. A list of attendees can be found in Appendix G.

Process

The prioritization meeting was facilitated by Holleran Consulting. The meeting began with an abbreviated research overview. This overview presented the results of the primary and secondary research and key findings of the CHNA.

Following the research overview, participants were provided with information regarding the prioritization process, criteria to consider when evaluating key areas of focus, and other aspects of health improvement planning, such as goal setting and developing strategies and measures. In a large-group format, attendees were then asked to share openly what they perceived to be the needs and areas of opportunity in the city. Through facilitated discussion, attendees developed the following "master list" of potential priority areas for the implementation plans. Master list of community priorities (Presented in alphabetical order)

- Access To Care
- Cancer
- Diabetes
- Heart Disease
- Infant Mortality/Low Birth Weight
- Mental Health/Substance Abuse
- Overweight/Obesity
- Respiratory Disease
- Smoking

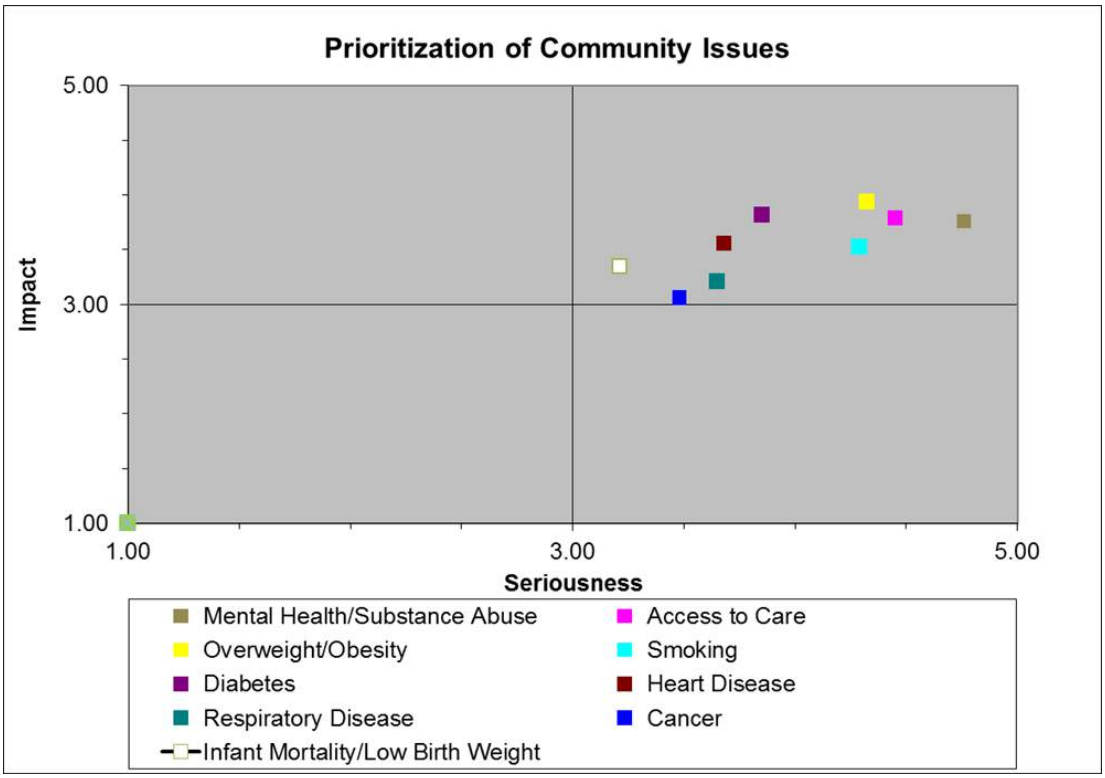
Key Community Health Issues

Once the master list was compiled, participants were asked to rate each need based on two criteria. The two criteria included the seriousness of the issue and the community's ability to impact the issue. Respondents were asked to rate each issue on a 1 (not at all serious; no ability to impact) through 5 (very serious; great ability to impact) scale. The ratings were gathered instantly and anonymously through a wireless audience response system. Each attendee received a keypad to register their vote. The following table reveals the results of the voting exercise.

Master List	Seriousness Rating (average)	Impact Rating (average)	Average Total Score
Mental Health/Substance Abuse	4.76	3.76	4.25
Overweight/Obesity	4.32	3.94	4.13
Access to Care	4.45	3.79	4.12
Smoking	4.29	3.53	3.91
Diabetes	3.85	3.82	3.84
Heart Disease	3.68	3.56	3.62
Respiratory Disease	3.65	3.21	3.43
Infant Mortality/Low Birth Weight	3.21	3.35	3.28
Cancer	3.48	3.06	3.27

The priority area that was perceived as the most serious was Mental Health and Substance Abuse (4.25 average rating), followed by Overweight and Obesity (4.13 average rating), and Access to Care (4.12 average rating). The ability to impact Overweight and Obesity was rated the highest at 3.94, followed by Diabetes with an impact rating of 3.82.

The matrix below outlines the intersection of the seriousness and impact ratings. Those items in the upper right quadrant are rated the most serious and with the greatest ability to impact.



Identified Health Priorities

Attendees reviewed the findings from the voting and discussed cross-cutting approaches to further hone the priority areas. Ultimately, the following four priority areas for Waterbury were adopted:

- Access to Care
- Mental Health/Substance Abuse
- Overweight/Obesity
- Tobacco Use

Goal Setting

Following the prioritization session, The Greater Waterbury Health Improvement Partnership representatives met to review the identified priorities and develop goal statements to guide community-wide health improvement efforts. The following goals were adopted for each priority area:

Access to Care

Goal: Improve access to comprehensive, culturally competent, quality health services.

Mental Health and Substance Abuse

Goal: Improve mental health and reduce substance abuse through awareness, access to services, and promoting positive environments.

Overweight and Obesity

Goal: Promote health and reduce chronic disease through healthful eating and physical activity.

Tobacco Use

Goal: Reduce illness, disability, and death related to tobacco use and secondhand smoke exposure.

Action Planning

To set a course for ongoing community health improvement activities and evaluation, a Community Health Improvement Plan (CHIP) was developed by the Greater Waterbury Health Partnership. Additionally, in line with requirements set forth in the ACA, specific Implementation Strategies, outlining how each hospital would work to address the identified needs, were created.

The CHIP and Hospital Implementation Strategies were adopted in September 2013. These documents, as well as a report of the CHNA are available on the partner websites.

APPENDIX B: Household Telephone Study Statistical Considerations

The Household Telephone Study sampling strategy was designed to represent Waterbury and its surrounding towns. The sampling strategy identified the number of completed surveys needed within each ZIP code based on the population statistics from the U.S. Census Bureau in order to accurately represent the area. Call lists of household land-line telephone numbers were created based on the sampling strategy. The final sample (1,121) yields an overall error rate of +/-2.9% at a 95% confidence level. This means that if one were to survey all residents of Waterbury, the final results of that analysis would be within +/-2.9% of what is displayed in the current data set.

Data collected from the 1,121 respondents was aggregated and analyzed by Holleran using IBM SPSS Statistics. The detailed survey report includes the frequency of responses for each survey question. In addition, BRFSS results for Connecticut and the United States are included when available to indicate how the health status of Waterbury residents compares on a state and national level. All comparisons represent 2011 BRFSS data unless otherwise noted. It is important to note a few questions on the survey did not have comparisons to Connecticut and/or national data because of survey modifications.

It is common practice in survey research to statistically weight data sets to adjust for demographic imbalances. For example, in the current household survey, the number of females interviewed is above the actual proportion of females in the area. The data was statistically weighted to correct for this over-representation of females. It should be noted that the national dataset (from the CDC) is also statistically weighted to account for similar imbalances.

APPENDIX C: Household Telephone Study Participant Demographics

Gender and Age

Demographic Category		Waterbury CT 2013 BRFSS (n = 743)	Surrounding Towns 2013 BRFSS (n = 378)
Gender	Male	36.7%	35.4%
	Female	63.3%	64.6%
Demographic Category		**Waterbury CT 2013 BRFSS (n = 735)**	**Surrounding Towns 2013 BRFSS (n = 374)**
Age Group	18 - 24	2.9%	4.8%
	25 - 34	9.0%	5.3%
	35 - 44	10.2%	12.8%
	45 - 54	17.0%	22.7%
	55 - 64	24.4%	21.7%
	65 years and over	36.6%	32.6%

Race and Ethnicity

Demographic Category		Waterbury CT 2013 BRFSS (n = 737)	Surrounding Towns 2013 BRFSS (n = 378)
Hispanic/Latino	Yes	13.0%	2.6%

Tina Herman	Assistant Director of Critical Care	Waterbury Hospital
Arlene G. Herrick	Property Manager	Grace Meadows Elderly Housing
Chris Hibbs	Health & Wellness Director	Greater Waterbury YMCA
Stephen Holt	Assistant Professor	Yale Primary Care Residency
Geralyn Hoyt	Chief	Southbury Ambulance
Lucia Hughes	Manager	Waterbury Hospital
Stephen Huot, MD	Director	Yale Primary Care Residency Program/ Waterbury Hospital
Silvia Hutcheson	Director of Strategic Planning & Business Development	Saint Mary's Hospital
Eric Hyson, MD	Attending Physician	Waterbury Hospital
Sandi Iadarola	Chief Nursing Officer	Waterbury Hospital
Azhar Imam, MD	Chief of Psychiatry	Saint Mary's Hospital
Kristen Jacoby, MPH	President/Chief Professional Officer	United Way of Greater Waterbury
Donna Johnson	Community Relations Liaison	Diagnostic Radiology Associates
Mark Johnson, LMFT	Program Director	Wellspring Foundation
Jan Kennedy	Executive Director	Cardiology Associates of Greater Waterbury, LLC
Elizabeth Korn, APRN	Nurse	Saint Mary's Hospital
Lisa Labonte	SNS Director	New Opportunities, Inc.
Leo Lavallee	Principal	Waterbury Arts Magnet School
Stephen Lewis	Chief Executive Officer/President	Thomaston Savings Bank
The Rev. Jeanne Lloyd	Minister	Mattatuck Unitarian Universalist Society
Ben Loveland	Assistant Director	Waterbury Hospital
Vanessa Lucewicz	Practice Manager	Franklin Medical Group
Frederick Luedke	Chairman, Board of Greater Waterbury Health Network Inc.	Waterbury Hospital
Neal Lustig	Director of Health	Pomperaug Health District
Robin Marino	Clinical Manager	Saint Mary's Hospital
Judith Martin	Program Coordinator	Child & Adolescent Behavioral Health
Kate Mattias	Executive Director	National Alliance on Mental Illness Connecticut
Bahar Matusik	Clinical Pharmacy Manager	Waterbury Hospital
Jennifer McGarry	Patient Services Manager	Leukemia and Lymphoma Society
Patricia A. McKinley	Strategic Volunteer to Non-Profit Organizations	Waterbury Health Home Coalition; United Way Greater Waterbury; Connecticut Community Foundation
Kathleen McManamy, LCSW	Regional Supervisor	Connecticut Community Care, Inc.
Kathleen McNamara	Community Resident	
Emmett McSweeney	Library Director	Silas Bronson Library
Sandra Micalizzi, APRN	Clinical Nurse Specialist	Heart Center of Greater Waterbury
Chris Miller	Administrative Fellow	Saint Mary's Hospital

Thomas Missett	Chief Development Officer	Waterbury Hospital
Alan C. Mogridge	Executive Director	Valley YMCA
Peg Molina	Director of Social Services	Town of New Milford
Patrick Morgan	Interim Director Surgical Services	Waterbury Hospital
Drew Morten	Physician Assistant	Connecticut Academy of Physician Assistants
Luci Moschella	Nursing Supervisor	Waterbury Health Department
Lois Mulhern	Nursing Supervisor	Waterbury Health Department
Melanie Nachajska, LCSW		YNA Health Care
James O'Rourke	CEO	Waterbury YMCA
Peggy Panagrossi	Executive Director	Safe Haven of Greater Waterbury
Kim Pernerewski	President	National Alliance on Mental Illness Waterbury
Peter Porrello, MD	Physician	Waterbury Hospital
Pamela Pratt	Manager, OP Behavioral Health	Saint Mary's Hospital
Fenn Quigley	Community Resident	
Ernst Racine, Jr.	Family Center Coordinator/Fatherhood Specialist	Catholic Charities
Loryn Ray, MPH	Director of Elderly Services	Town of Woodbury
Pamela Redmond	Public Affairs Officer	VA Connecticut Healthcare System
Thomas E. Reinahrdt, MD	Chief of Psychiatry	Waterbury Hospital
Laurie Reisman	Director of Operations	Family Services of Greater Waterbury, Inc.
JoAnn Reynolds-Balanda	VP Community Impact	Untied Way of Greater Waterbury
Diane Rokosky, R.N		Public Health Deptartment
P. Russell	Community Resident	
William Rybczyk	Director Research, Development, & Planning	New Opportunities, Inc
Linda Sapio-Longo, APRN	Family Nurse Practitioner	Waterbury Hospital Infectious Disease Clinic
John A. Sarlo	Director	Mattatuck Senior Center, Inc.
Donita Semple	Senior Manager, Performance Improvement	Waterbury Hospital
Loraine Shea	Director	Waterbury Hospital
Frank Sherer	Senior Vice President	Timex Group
Carl Sherter, MD	Chief of Staff	Waterbury Hospital
Catherine Sousa	Supervisor of Patient Transport	Saint Mary's Hospital
Linda Spadaccini	Library Director	Waterbury Hospital
Susan Stauffacher	Chairman	Roxbury Council on Aging
Gary Steck	Chief Executive Officer	Wellmore Behavioral Health
Monica Stokes	Assistant Manager Customer Support	Waterbury Hospital
Christine Thomas-Melly	Benefits Manager	Waterbury Hospital
Donald Thompson	Chief Executive Officer	Staywell Health Center
Joseph M. Tuggle, MD	Physician	Complete Newborn Care, PC
Paula Van Ness	President & Chief Executive Officer	Connecticut Community Foundation
Kara Vendetti	WIC Program Coordinator	Waterbury Health Department-WIC Program
Deborah Vitarelli	Executive Director	Waterbury Arc, Inc.
Kathy Volz	Practice Manager CFHC	Franklin Medical Group at Saint Mary's Hospital
Chad Wable	President & Chief Executive Officer	Saint Mary's Hospital
Julie Weidemier	Assistant Director	Waterbury Hospital
Claude E. Williams	Executive Director	Mount Olive A.M.E. Zion Senior Citizens Center, Inc.
Jeffrey Williams	Grant Writer	Waterbury Hospital
Eileen Woods	Assistant Director Telemetry	Waterbury Hospital
Kathy Woods	Executive Director	Living in Safe Alternatives, Inc.
D. Woolley	VP Human Resources	Waterbury Hospital
Randy York	Infant Immunization Coordinator	Waterbury Health Department
Mary Zasada	Clinical Informatics Manager	Saint Mary's Hospital
Melissa Zwang	Program Director	New Opportunities, Inc.
Patricia Zuccarelli	Director	Department of Children & Families

Yadiris Vega	Volunteer	Bridge to Success
Barbara White	Marketing Manager	Saint Mary's Hospital

EXHIBIT Q22-2

CHNA IMPLEMENTATION PLAN

Waterbury Hospital

CHNA IMPLEMENTATION STRATEGY

BACKGROUND

Waterbury Hospital was the first hospital in the city of Waterbury and has served the area since 1890. In its first year, Waterbury Hospital served 85 patients and had a staff of 21. It is now licensed for 357 beds and employs more than 2,000 people. The hospital serves approximately 15,000 inpatients, 160,000 outpatients, and 58,000 emergency department visits annually. The mission of Waterbury Hospital is to provide compassionate high quality health care services through a family of professionals and services. The vision of Waterbury Hospital is to be the health care organization of choice by providing superior customer service to patients and physicians.

Waterbury Hospital primarily serves the city of Waterbury and its' surrounding towns. In 2013, Waterbury Hospital conducted a comprehensive Community Health Needs Assessment (CHNA) to evaluate the health needs of individuals living in these communities. The CHNA was done in collaboration with the Greater Waterbury Health Improvement Partnership. The partnership consists of Waterbury Hospital, Saint Mary's Hospital, Waterbury Department of Public Health, City of Waterbury, StayWell Health Center, Connecticut Community Foundation, United Way, and other community organizations. Waterbury Hospital views community health improvement as an ongoing effort that requires leadership through example and partnership with other community organizations to improve the health status and quality of life of community residents.

The purpose of the assessment was to gather information about health needs and behaviors. A variety of indicators were examined including risky health behaviors (alcohol use, tobacco use) and chronic health conditions (diabetes, heart disease). The current assessment will guide Waterbury Hospital's ongoing work to improve community health and comply with new requirements for tax-exempt health care organizations to conduct a CHNA and adopt an Implementation Strategy aligned with identified community needs. Waterbury Hospital contracted with Holleran, an independent research and consulting firm located in Lancaster, Pennsylvania, to conduct research in support of the CHNA.

THE CHNA PROCESS

A comprehensive CHNA was conducted and included a variety of quantitative and qualitative research components. These components included the following:

1. Secondary Data Profile
2. Statistical Household Survey
3. Focus Groups
4. Key Informant Interviews
5. Prioritization of Identified Community Needs

Holleran compiled a **Secondary Data Profile** using data collected from sources such as the U.S. Census Bureau, Connecticut Department of Public Health, and Centers for Disease Control and Prevention. The information profiles the most recent year health indicators, census figures, household statistics, morbidity and mortality rates, and socioeconomic measures for the city.

A **Statistical Household Survey** was completed with 1,100 community residents. The survey aligns with the Behavioral Risk Factor Surveillance System) study promoted by the Centers for Disease Control and Prevention (CDC). The survey assessed indicators such as general health status, prevention activities (screenings, etc.), and risky behaviors (alcohol use, etc.). The results were examined by a variety of demographic indicators including age and gender. Special attention was given to identifying the needs of underserved individuals, including low-income, minority, and chronic condition populations in the county.

Holleran conducted six **Focus Groups** to better understand health issues related to access to care, health education/communication, healthy behaviors, and community health infrastructure. A total of 24 health care providers and 33 community residents participated in the six focus groups. Holleran analyzed the results of the findings to determine commonalities between populations and uncover themes to aid Waterbury Hospital in addressing the identified barriers.

Key Informant Interviews were collected via an online survey administered by Holleran. A total of 205 community leaders, including public health experts, health and human services providers, and representatives of underserved populations participated in the survey. The content of the questionnaire focused on perceptions of community needs and strengths across three key domains: Perceived quality of care, key health issues prominent in the community, and quality of life issues.

A **Prioritization Session** was held on June 18, 2013. Approximately 40 individuals representing the Greater Waterbury Health Improvement Partnership gathered to review the results of the 2013 CHNA and prioritize key health needs. Among the attendees were representatives from local health and human service agencies, area non-profit organizations, health providers, and public health representatives. Please see Appendix A for a listing of individuals who attended the session.

SELECTION OF THE COMMUNITY HEALTH PRIORITIES

In June 2013, individuals from healthcare organizations, community agencies, social service organizations, and area non-profits gathered to review the results of the CHNA data. The planning meeting was initiated and facilitated by the Greater Waterbury Health Improvement Partnership. The goal of the meeting was to discuss CHNA findings in an effort to prioritize key community health issues.

The objectives for the day were outlined as follows:

- To review recently compiled community health data and highlight key research findings;
- To initiate discussions around additional key health issues not represented in the CHNA;
- To prioritize the community health needs based on select criteria

Prioritization Process

The prioritization meeting was facilitated by Holleran Consulting. The meeting began with an abbreviated research overview. This overview presented the results of the primary and secondary research and key findings of the CHNA.
Following the research overview, participants were provided with information regarding the prioritization process, criteria to consider when evaluating key areas of focus, and other aspects of health improvement planning, such as goal setting and developing strategies and measures. In a large-group format, attendees were then asked to share openly what they perceived to be the needs and areas of opportunity in the city. Through facilitated discussion, attendees developed the following "master list" of potential priority areas for the implementation plans.

Master list of community priorities (Presented in alphabetical order.):

- Access To Care
- Cancer
- Diabetes
- Heart Disease
- Infant Mortality/Low Birth Weight
- Mental Health/Substance Abuse
- Overweight/Obesity
- Respiratory Disease
- Smoking

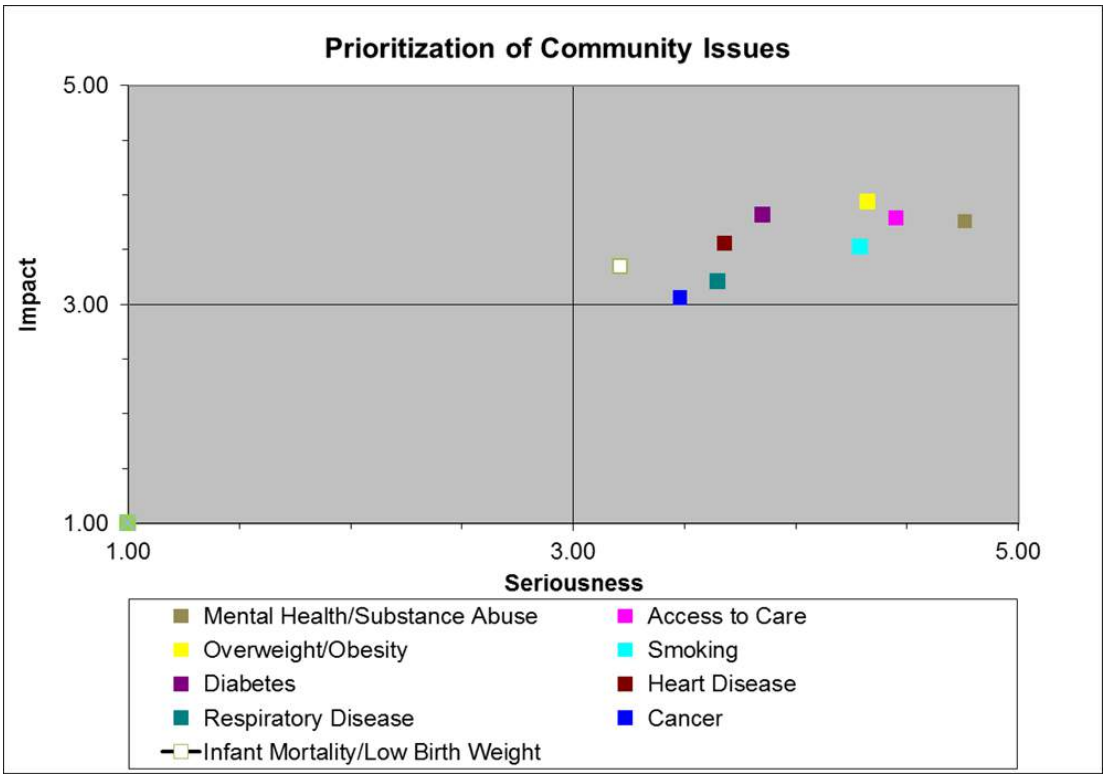
Key Community Health Issues

Once the master list was compiled, participants were asked to rate each need based on two criteria. The two criteria included the seriousness of the issue and the community's ability to impact the issue. Respondents were asked to rate each issue on a 1 (not at all serious; no ability to impact) through 5 (very serious; great ability to impact) scale. The ratings were gathered instantly and anonymously through a wireless audience response system. Each attendee received a keypad to register their vote. The following table reveals the results of the voting exercise.

Master List	Seriousness Rating (average)	Impact Rating (average)	Average Total Score
Mental Health/Substance Abuse	4.76	3.76	4.25
Overweight/Obesity	4.32	3.94	4.13
Access to Care	4.45	3.79	4.12
Smoking	4.29	3.53	3.91
Diabetes	3.85	3.82	3.84
Heart Disease	3.68	3.56	3.62
Respiratory Disease	3.65	3.21	3.43
Infant Mortality/Low Birth Weight	3.21	3.35	3.28
Cancer	3.48	3.06	3.27

The priority area that was perceived as the most serious was Mental Health and Substance Abuse (4.25 average rating), followed by Overweight and Obesity (4.13 average rating), and Access to Care (4.12 average rating). The ability to impact Overweight and Obesity was rated the highest at 3.94, followed by Diabetes with an impact rating of 3.82.

The matrix below outlines the intersection of the seriousness and impact ratings. Those items in the upper right quadrant are rated the most serious and with the greatest ability to impact.



Identified Health Priorities

Attendees reviewed the findings from the voting and discussed cross-cutting approaches to further hone the priority areas. Ultimately, the following five priority areas for Waterbury were adopted:

A. Access to Care
B. Mental Health/Substance Abuse
C. Overweight/Obesity
D. Smoking

WATERBURY HOSPITAL'S STRATEGIES TO ADDRESS COMMUNITY HEALTH NEEDS

Waterbury Hospital's Implementation Strategy illustrates the hospital's specific programs and resources that will support ongoing efforts to address the identified community health priorities. This work will be supported by community-wide efforts and leadership from the executive team and board of directors. The goal statements, related objectives and strategies, and inventory of existing community assets and resources for each of the four priority areas are listed below.

A. ACCESS TO CARE

Goal: Improve access to comprehensive, culturally competent, quality health services.

Objectives:

- Increase the proportion of persons with health insurance
- Increase the proportion of persons who have a specific source of ongoing care
- Reduce the proportion of persons who are unable to obtain or delay in obtaining necessary medical care, dental care, or prescription medicines
- Increase the number of health providers that accept Medicaid and Medicare

Strategies:

1. Increase the number of patients screened and enrolled in insurance programs by WHAP case managers by 10% at the 6 sites in the City of Waterbury by utilizing Certified Assisters to access the CT Health Exchange in response to the Affordable Care Act.

2. Increase the number of patients enrolled in Project Access by 10% for donated, primary and specialty care, reduced prescriptions and Medicare copay assistance, and donated lab and radiology hospital-based services.

3. Provide technical assistance to WHAP sites at St. Mary's Hospital and StayWell Health Center to enable them to track recidivism in the ED for non-emergency codes.

4. Offer 2 onsite bi-lingual medical Spanish classes for 15 clinical staff per class to improve communication with patients.

5. Introduce the CultureVision database to enable healthcare professionals and facilities to provide culturally competent patient care.

Existing Resources:

Underserved Populations
Waterbury Hospital works closely with local healthcare providers and community-based organizations to identify healthcare needs for underserved patients throughout the Waterbury community. Through these collaborations, Waterbury Hospital works to develop key programming for the city's vulnerable populations such as: the Waterbury Hospital Infectious Disease Clinic, which provides comprehensive HIV care to ~500 People Living with HIV/AIDS; and The Waterbury Health Access Program, which provides comprehensive case management services to over 3,000 uninsured and underinsured patients annually; and the Waterbury Hospital Chase Diabetes Disease Management Clinic, is one of the many free clinics offered at Chase Outpatient Center; others include Rheumatology, Surgery, Gastroenterology, Dermatology, Podiatry, and Psychiatry.

During 2012, Waterbury Hospital's spectrum of services continued to have a positive impact on the welfare of Waterbury's citizens. To remain consistent with Waterbury Hospital's mission, many of our services are targeted for vulnerable members of our community, including those who are uninsured or underinsured. In order to provide access to continuing high quality professional health care in the Greater Waterbury area, Waterbury Hospital is a site for 40 clinical programs for new health professionals including: Primary Care Residents, Surgical Residents, Nurses, Physician Assistants, Pharmacy Residents, and Radiology Techs. In addition the Waterbury Hospital Youth Pipeline Initiatives target the emerging workforce in area elementary, middle and high schools.

Health Professions Education

Yale Primary Care Internal Medicine Residency Program
During 2012, our Yale Primary Care Internal Medicine Resident activities included:

- Participation in research days at Yale and Waterbury/St. Mary's Hospitals;
- ACP regional and national meetings;
- The annual Health Fair held at the Waterbury YMCA;
- Home/office visits for clinic patients; and
- Educational seminars held at Waterbury Hospital and Yale University.

At Waterbury Hospital, we seek to train physicians who desire a generalist background to their careers in medicine. This program is unique in that it provides the medical residents the opportunity to work each year in a tertiary medical center at Yale-New Haven Hospital, a community hospital at Waterbury Hospital, and outpatient practice sites that include private practice offices and community health centers is unique in residency training. Our graduates are

highly sought after by private practice offices, hospitalist programs, and fellowship programs throughout the country.

Student Nurse Intern Program (SNI)
The SNI program is available for nursing students entering their senior year. The program provides these student nurses with shadowing opportunities so they can apply their content knowledge to authentic patient care situations. Staff RNs serve as the students' mentors as the students accompany them on their medical rounds. The goals of the program are: (1) to provide the student nurses with the knowledge and skills necessary to pass the NCLEX exam and (2) to socialize the student nurse in an attempt to decrease the stress of assimilating into the hospital's work environment, should they be hired as Graduate Nurses at Waterbury Hospital.

Physician's Assistant (PA) Students
P.A. students from Quinnipiac University completed clinical rounds in several departments around the hospital, including the Operating Room, Emergency Department, Behavioral Health, and Radiology. The experience is designed for the student to learn to apply the knowledge gained from didactic course work in medicine, surgery, and the basic and behavioral sciences into the clinical arena resulting in the ability to successfully manage patients in a thorough and comprehensive manner. The primary goal of clinical rotations is to expose the student to patients of all ages, patients in a variety of different settings, and patients with a broad range of medical, surgical, and psychosocial problems.

The P.A. students participate in:

- History taking;
- Examining the patient;
- Assisting in and/or performing diagnostic testing;
- Assisting in and/or performing therapeutic tasks;
- Oral presentations;
- Medical documentation of the patient encounter;
- Formulating a differential diagnosis and problem list;
- Formulating a treatment plan; and
- Counseling of patients regarding medication, diet, and lifestyle changes such as smoking cessation, exercise, and well-being.

Radiology Students from NVCC
The Naugatuck Valley Community College (NVCC) Radiology students are involved with many activities while assigned to Waterbury Hospital. Under the supervision of a NVCC clinical instructor and hospital radiologic technologists, the students are assigned to the various radiographic suites and modalities. During their assignment, students are performing or assisting with radiographic procedures, including chest x-rays, skeletal exams, fluoroscopic procedures, mobile x-rays in the various patient units, and surgical cases. The students also increase the number of individuals available in the department to assist in moving and transporting patients as well as chaperoning sensitive exams. In addition to the diagnostic

radiology the students are assigned to experiences in Interventional Radiology, CT, MRI, Nuclear Medicine, and Ultrasound. Students work in these modalities under the direct supervision of the hospital staff.

Waterbury Hospital's affiliation with NVCC as a clinical site for students has many benefits. Perhaps the single most important benefit is the hospital has a continuous stream of potential radiology employees. Students are in the program for 22 months and in that time become very familiar with the hospital equipment, routines, personal, and mission. This provides Waterbury Hospital with new employees who have a strong skill set and proven dedication to the hospital community.

Waterbury Hospital Youth Pipeline Initiatives

The Waterbury Hospital Youth Pipeline Initiatives were established in 2001 as a partnership between Waterbury Hospital and Waterbury Public Schools. The mission of the program is: "to close the achievement gap for minority and economically disadvantaged students in Waterbury so they can matriculate and compete nationally for placement in post-secondary education programs in preparation for health careers". Waterbury Hospital is committed to enhancing and enriching the academic opportunities and personal journeys of our youth, who are the emerging workforce of tomorrow. To this end, during 2012, Waterbury Hospital continued to provide 383 students and parents in Greater Waterbury with unique educational programs that will enhance the overall welfare of our community. The WH Youth Pipeline Initiatives had four focus areas during FY 2012, including:

Providing Early Acquaintance with Careers in Healthcare (PEACH)

Since its inception in 2004, Waterbury Hospital's Providing Early Acquaintance with Careers in Healthcare (PEACH) Program has engaged administrators, teachers, and students at Waterbury's North End Middle School and West Side Middle School to address projected shortages of healthcare workers and to close the achievement gap for students in Waterbury Public Schools. Through the PEACH Program, students engage with healthcare workers in a non-emergency setting and are informed of the variety of healthcare career opportunities available in our community. Each spring, approximately 100 seventh graders from Waterbury take part in a day-long PEACH tour at Waterbury Hospital, during which they visit at least six hospital departments and complete hands-on learning activities with hospital staff. Annually, Waterbury Hospital also offers its PEACH Spring Break Exploration Camp, this year 38 middle school students from Waterbury took part in: shadowing and hands-on learning activities at the hospital; CPR certification; and educational sessions at Bridgeport's Discovery Museum.

Parent Leadership Training Institute (PLTI)

In 2012, twenty four individuals from Greater Waterbury successfully completed Waterbury's PLTI, a 20-week curriculum teaching leadership and advocacy skills. Waterbury Hospital has hosted the Waterbury PLTI since 2000, and the program has trained and graduated over 175 area parents. PLTI's core mission is to impart leadership and advocacy skills to parents while simultaneously educating them about volunteerism, civic life, and the process by which state

and local governments enact and change laws. Each participant completes and implements a community project; examples of projects from 2012 include: a "High School Driving Education" program (a City-wide initiative to introduce safe driving techniques in high schools) and "The C.H.I.P. Forum" (Children Having Involved Parents—a series of workshops to underline the importance of giving encouragement and support to our children so they can succeed in life).

Parents Supporting Educational Excellence (PSEE)
In 2012, twenty-one individuals from Greater Waterbury successfully completed Waterbury's PSEE, a 13-week curriculum co-created by the Connecticut Center for School Change and the Connecticut Commission on Children for parents (defined broadly as parents, guardians, family members and grandparents) to instill leadership skills in education and to facilitate partnerships between school staff and parents to improve student learning.

WH Summer Bridge Program
During the summer of 2012, twenty-eight students from Waterbury, grades 6-11, participated in the WH Summer Bridge Program. 100% of meals were secured for the program from City of Waterbury Summer Food Program and 8 local restaurants/businesses. Students completed the following modules:

- 78.5 hours of Academic preparation
- 15 hours of job shadowing sessions (Radiology, Nuclear Medicine, Nursing, MRI, Case Management, Dr. S. Aronin (ID Inpatient Rounding), ICU Medical Rounds, Health Information Management, Access Rehab, Behavioral Health, Respiratory Therapy, Finance, WH ID Clinic, Security, Orthopedics, Pharmacy, Infection Control and Surgery.
- 14 hours of Photography instruction
- 4 hours of computer sessions
- 2 full-day field trips completed: one to Yale University for an admissions info session and campus tour and one to Hammonasset State Park including three educational sessions at Meigs Point Nature Center
- 3 hours of healthcare career searches
- 3 hours of college admissions presentations completed by UCONN Waterbury & Yale ROTC
- 1 hour of individual academic advising
- 2 hours of team building activities
- 2 hours of health topics presentations completed, including HIV 101 and Healthcare Jeopardy.

Waterbury Health Access Program
Waterbury Hospital is aware of the economic needs many patients in our community, and, as a result, we remain committed to the Waterbury Health Access Program. Founded in 2003 as a partnership between Waterbury Hospital, St. Mary's Hospital, StayWell Health Center (FQHC), and the Waterbury Health Department, the Waterbury Health Access Program improves access to high-quality medical care by providing comprehensive case management, pharmacy

assistance, and access to primary and sub-specialty medical care for the uninsured and underinsured residents of the Greater Waterbury region. During FY 2012, the Waterbury Health Access Program had over 4,700 active clients. Additionally, Waterbury Hospital provided $784,879 worth of donated services to WHAP's patients.

Waterbury Hospital Infectious Disease Clinic (WHIC)
The WHIC offers a comprehensive "one-stop shopping" model that provides patients with on-site primary and specialty services, medical case management, individualized medication adherence services, mental health and substance abuse services, nutrition counseling, individualized HIV education, laboratory testing, and radiology services. WHIC's providers include three board-certified/board-eligible Infectious Disease specialists as well as an Advanced Practitioner Nurse and a Registered Dietician, all with expertise in the management of patients with HIV/AIDS. In FY 2012, WHIC served around 500 People Living with HIV/AIDS (PLWHA).

WHIC's staff members actively participate in statewide and area collaboratives, such as the Connecticut HIV Planning Consortium (CHPC) and the Ryan White Part A Planning Council, and WHIC facilitates the Greater Waterbury HIV Consortium. WHIC has a very active Consumer Advisory Group (CAG), which organizes social and testing events for the community and facilitates the Waterbury Hospital Photography Group.

The WHIC also has a Hepatitis C clinic, run by an Advanced Practitioner Nurse. From October 2004 to Present, nearly 200 Hepatitis C mono- and co-infected (Hepatitis C and HIV) patients have been evaluated at the ID Clinic. The Hepatitis C clinic provides a consultation with a nutritionist to advise on healthy eating; coordination with mental health services; and educational sessions on side effect management, the importance of hydration and adherence, and positive coping strategies.

Be Well Bus
In order to ensure that patients have access to medical appointments, at the hospital and at local physicians' offices, Waterbury Hospital's Be Well Bus provides transportation services to patients from Waterbury and eleven of its surrounding towns. During FY 2012, the Be Well Bus completed over 4,170 transports to and from medical appointments. Waterbury Hospital has contracted with a transportation provide to offer the bus service, and area providers pay a small fee to participate.

Diabetes Disease Management (DDM) Clinic
The DDM utilizes a multidisciplinary case management approach to develop treatment plans and monitor patient progress. The DDM Clinic provides >150 diabetics with self-management skills and clinical care. The clinical team meets weekly on Wednesdays to develop treatment plans for new patients and collaborate on the progress of existing patients.

Evergreen 50 Club
Waterbury Hospital's Evergreen 50 Club is an organization comprised of over 15,000 members over the age of 50. The Club offers wellness programming, Medicare counseling, and health education presentations on a variety of topics are presented by health care professionals. Presentation topics include: holistic health, varicose vein treatment, heart disease, summer skin care, weight loss, blood pressure, bladder screenings, joint care and replacement, nutrition, and resolving adverse outcomes with patients and families. Annually, the Evergreen 50 Club hosts a health fair for its members, which provides free flu shots and healthcare screenings.

Family Birthing Center
Providing a child-centered focus, Waterbury Hospital's Family Birthing Center offers expectant parents a variety of classes to prepare them for their baby's arrival. Between breast feeding, childbirth, infant care classes, and nutritional presentations at our Family Birthing Center provided vital instruction to over 120 persons last year.

Heart Center of Greater Waterbury
Formed in collaboration with Saint Mary's Hospital, the Heart Center of Greater Waterbury provides diverse medical support initiatives to help educate residents in the Greater Waterbury community about pertinent health and wellness issues. This past year, the Heart Center conducted a series of health fairs and various health and wellness education sessions, including "Ask the Nurse," which provides patients with complimentary blood pressure screenings and health awareness education and a "Freedom from Smoking" series to help our residents kick the habit. During FY 2012, the Heart Center's programs served over 3,280 residents from the Greater Waterbury Area.

Thank God I'm Female
For the past 20 years, Waterbury Hospital's "Thank God I'm Female" has served as an annual women's wellness forum that features 40 educational booths and health-related giveaways. The ultimate goal of the forum is to educate attendees about stress, mental well-being, heart health, diet, healthy cooking, osteoporosis and bone health, change of life, and more. In 2012, over 400 area residents attended the event.

Waterbury Research Day
Through collaboration with St. Mary's Hospital in Waterbury, CT, Waterbury Hospital hosted its annual Waterbury Research Day. During the day, resident physicians, pharmacy residents, and medical students present research projects to the physician community. High school students are also encouraged to participate in the activities.

B. MENTAL HEALTH AND SUBSTANCE ABUSE

Goal: Improve mental health and reduce substance abuse through awareness, access to services, and promoting positive environments.

Objectives:

- Increase the proportion of adults with mental health disorders and/or substance abuse who receive treatment
- Increase mental health and substance abuse screening by primary care providers
- Increase cultural competency among mental health and substance abuse providers
- Increase number of points of access for referral to services
- Reduce stigma of mental health and substance abuse disorders
- Increase community support structures and individual resiliency skills
- Increase the proportion of adolescents never using substances
- Reduce illegal substance use

Strategies:

1. Establish bi-annual education/family support seminars which would be available to clients, families and community members.

2. Expand student/intern program to provide clinical training rotations throughout the Department of Behavioral Health. Up to 5 academic year internships would be offered annually to master's level students pursuing education in addictions and mental health.

3. Initiate specialized programming on the inpatient adolescent unit to incorporate Dialectical Behavior Therapy (DBT) skills as well as goal setting to decrease the rates of seclusion and restraint.

4. Maximize resources within the Access Center to increase number of individuals served by 10% by providing assistance and "bridge" treatment to ensure continuity of care between services, and urgent/emergent assistance where needed to prevent decompensation and unnecessary hospitalization.

Existing Resources:

Behavioral Health

Waterbury Hospital's Behavioral Health Department is one of the region's largest service providers offering a full continuum of care for children, adolescents and adults. Our services also outreach to the community through regular participation in health fairs, elected membership in the Northwest Regional Mental Health Board, as a host site to numerous twelve-step meetings and the provision of case management as well as acute services to the homeless within the City of Waterbury.

Grandview Adult Behavioral Health
Grandview Adult Behavioral Health is the adult component of the Behavioral Health Department ambulatory care services. Comprehensive psychiatric treatment is offered to individuals ages eighteen and up who suffer from a variety of psychiatric or emotional disorders including, but not limited to, affective disorders, psychotic disorders, anxiety disorders, and adjustment disorders. Specialty services include the use of evidence based interventions in particular; gender specific programming, cognitive therapy and DBT (Dialectical Behavior Therapy). Services provided in the Intensive Outpatient and traditional Outpatient Programs include comprehensive psycho diagnostic assessment and evaluation, group therapy, milieu therapy, and pharmacotherapy

West Main Behavioral Health
West Main Behavioral Health is a component of the Behavioral Health Department ambulatory care services. Comprehensive psychiatric treatment is offered to individuals' age eighteen and up who suffer from a variety of substance use disorders as well as concurrent psychiatric or emotional disorders including, but not limited to, affective disorders, psychotic disorders, anxiety disorders, and adjustment disorders. Specialty services include the use of evidence based interventions in particular; motivational interviewing, cognitive therapies and suboxone induction/maintenance.

Services provided in the Partial Hospital include comprehensive psycho diagnostic assessment and evaluation, ambulatory detoxification, group therapy, milieu therapy, and pharmacotherapy. Individual therapy, family therapy and multifamily therapy are also provided when clinically indicated. The Partial Hospital Program provides a minimum of four hours of direct clinical service per day.

Center for Geropsychiatry
The Center for Geropsychiatry is one of the adult components of the Behavioral Health Department ambulatory care service. Comprehensive psychiatric treatment is offered to individuals age sixty and up who suffer from a variety of psychiatric or emotional disorders including, but not limited to, affective disorders, psychotic disorders, cognitive/dementia, anxiety disorders, and adjustment disorders.

Services provided in the Outpatient Program include comprehensive psycho diagnostic assessment and evaluation, family therapy, group therapy, milieu therapy, and pharmacotherapy. Individual and Family Therapy is provided as needed.

Child and Adolescent Behavioral Health
Child and Adolescent Behavioral Health is a component of the Behavioral Health Department ambulatory care services. Comprehensive psychiatric treatment is offered to individuals' age ten to eighteen who suffer from a variety of psychiatric or emotional disorders including, but not limited to, affective disorders, psychotic disorders, anxiety disorders, and adjustment disorders.

Limited outpatient services are provided to individuals aged 12-21 who are transitioning to outpatient and/or adult services. Intensive ambulatory services are organized to promote recovery from psychiatric disorders through active treatment outside of an inpatient setting. Services provided in the Partial Hospital include comprehensive psycho diagnostic assessment and evaluation, group therapy, milieu therapy, and pharmacotherapy. Individual therapy, marital, family therapy and multifamily therapy are also provided when clinically indicated. Transportation services are available to patients for partial hospital visits as needed. The Partial Hospital Program provides a minimum of four hours of direct clinical service per day.

Services provided in the Intensive Outpatient Program and Outpatient Service include comprehensive psycho diagnostic assessment and evaluation; group therapy; milieu therapy; and pharmacotherapy. Individual therapy, marital, family therapy and multifamily therapy are provided when clinically indicated.

Crisis Center/ Access Center

The Crisis Center provides urgent/emergent evaluations and short term treatment to all individuals presenting to the Emergency Department and/or Crisis offices with immediate and acute behavioral health needs. Consultation services are provides on the inpatient medical floors when ordered by an attending physician. Evaluative services are provided for any individual regardless of their age.

Services are provided to individuals who suffer from a variety of psychiatric or emotional disorders including, but not limited to, affective disorders, psychotic disorders, substance use disorders, cognitive/dementia, anxiety disorders, and adjustment disorders.
Active collaboration and coordination of care occur with the patients, the crisis clinicians and community provides to ensure a smooth transition from crisis services to the next appropriate treatment setting.

Program hours are Seven days per week between 8 am and midnight. Services are open and available 365 days per year.

Center for Behavioral Health

Behavioral Health Services provided include psychiatric evaluations, OT/AT evaluations, family therapy, group therapy, didactic educational groups, individual counseling and recreational services all within a milieu framework offering twenty four hours services within an inpatient hospital setting. Inpatient services are available within separate subunits to adolescents (ages 12- 18) as well as adults age 18 and over. Diagnostic services are available when indicated within the general hospital and include clinical laboratory, radiology and medical/service allowing for comprehensive consultations.

Our efforts are aimed at promoting the benefits of clinical treatment as well as positive lifestyle choices. Every effort is made to educate clients, their families and the community about mental

illness and the impact treatment can have on one's illness. The ultimate goal is to help people feel better, reduce or resolve symptoms and to minimize the stigma of mental illness.

Support Groups
During 2012, Waterbury Hospital hosted several support groups for its patients and their families, including:

- Behavioral Health's parent and sibling support group, which offers emotional assistance to families who have children in treatment; and
- Alcoholics Anonymous, serves over 4,000 people annually, meets weekly throughout the year, and is coordinated by our Behavioral Health Department.

C. OVERWEIGHT AND OBESITY

Goal: Promote health and reduce chronic disease through healthy(ful) eating and physical activity

Objectives:

- Reduce percent of overweight and obese residents
- Increase access and consumption of healthy foods
- Increase food security by addressing/reducing hunger
- Increase access to and use of safe areas for physical activity
- Increase residents knowledge/awareness of a balanced diet and physical activity
- Reduce risk factors for chronic disease

Strategies:

1. The WH Wellness Committee initiates events and activities focused at supporting the physical and mental wellbeing of the WH staff and residents in the county. Initiatives include: (1) Establish a weekly Farmer's Market in conjunction with Waterbury's Brass City Harvest on Hospital grounds to increase access to and encourage consumption of healthful foods. (2) Establish a "Get Moving" program to encourage physical fitness for employees, patients, and community members.

2. Increase nutritional education within the child and adolescent Behavioral Health program as well as the implementation of a "low ropes" program to increase self-awareness, skill building, and physical fitness.

3. Increase the number of patients receiving nutritional counseling and self-management education at WH ID Clinic, and WH DDM Clinic by 10%. Referrals to the WH outpatient dietitian are made when clinically indicated.
4. Publish calorie counts for all foods in the WH Cafeteria by December 2014.

5. Conduct an employee health risk assessment in January 2015 to 100% of WH employees with health insurance through WH to encourage positive health engagement with a discount deductible incentive.

6. Expand the physical fitness program in collaboration with the Waterbury YMCA at the DDM Clinic to include 20 patients of the WH ID Clinic.

Existing Resources:

Nutritional Counseling
Patients admitted to WH (inpatient) are screened within 24 hours to assess for nutrition risk; those patients that are at high nutrition risk trigger a consult to the Registered Dietitian. MDs and other providers can order an RD consult for any patient they feel should be seen by an RD (including diet education). In addition, all patients of WH DDM Clinic and WH ID Clinic are seen by a Registered Dietitian and are provided with appropriate nutritional counseling and self-management training. Patients at both clinics are seen as often as necessary to teach nutrition concepts and help them to make desired lifestyle changes; these patients are seen at least annually.

Supporting Community Need
The WH ID Clinic runs a Food Pantry for HIV patients. WH also routinely responds to requests from the community through organized campaigns for specific items run by its employees ie the annual Thanksgiving Turkey drive in November and the annual Cereal drive in May, to help families prepare to feed children breakfast during the summer months when school is out.

Patient Fitness
The DDM Clinic has established an established an arrangement with the Greater Waterbury YMCA to provide monthly memberships to DDM patients to promote a regular exercise regime; 21 patients were referred from January through November 2012.

Employee Fitness
WH maintains an onsite Fitness Center for employee use, open 24 hours a day, seven days a week. Employees pay a one-time, $10 life-time membership fee. WH employees also receive a discount on Waterbury YMCA memberships. Additionally, WH supports on-line participation in Weight Watchers programs for its employees.

Community Fitness
The Evergreen 50 Club offers multiple 'keep fit' programs for community members and staff over 50 years old. Classes include Pilates and weight training.

D. TOBACCO USE

Goal: Reduce illness, disability, and death related to tobacco use and secondhand smoke exposure.

Objectives:

- Reduce smoking and overall tobacco use among adults, adolescents and children
- Reduce the initiation of tobacco use among children, adolescents, and young adults
- Increase smoking cessation attempts and recent successes by smokers
- Increase tobacco screening, counseling, and education about health risks of using tobacco
- Increase tobacco free environments

Strategies:

1. Provide tobacco screening to 100% of patients and education to 100% of patients who smoke before their discharge from WH.
2. Increase tobacco screening and education to 100% of outpatients seen in the primary care medical practice for continuity visits at the Chase Outpatient Center. Provide smoking cessation education and information about the CT Quitline (1-800-QUIT-NOW) to 100% of tobacco users.
3. Screen 100% of patients in the WH ID Clinic for tobacco use. Provide smoking cessation education and information about the CT Quitline (1-800-QUIT-NOW) to 100% of tobacco users.
4. Participate in the American Lung Foundation's annual 'Great American Smoke Out' program through the WH Wellness Committee.

Existing Resources:

WH successfully transitioned to a Tobacco free campus in November 2010.

Tobacco screening is provided to 100% of patients in the WH Behavioral Health Department and education is provided to 100% of patients who tobacco users. Resource information on smoking cessation is provided in all patient waiting areas.

WH is collaborating with the Regional Mental Health Board and will be providing smoking cessation groups along with one to one telephonic coaching.

RATIONALE FOR COMMUNITY HEALTH NEEDS NOT ADDRESSED

Waterbury Hospital plans to address all four of the prioritized community health needs identified through the 2013 Community Health Needs Assessment and prioritized by community representatives.

APPROVAL FROM GOVERNING BODY

The Waterbury Hospital Board of Directors met on September 26, 2013 to review the findings of the CHNA and the recommended Implementation Strategy. The board voted to adopt the **2013 Waterbury CHNA Final Report**, the **2013 CHNA WH Implementation Plan**, and the **2013 CHNA WH Implementation Plan Summary**, and provide the necessary resources and support to carry out the initiatives therein.

Appendix E: Prioritization Session Participants

Name	Title	Organization
Maryangela Amendola	Director	Chase Family Resource Center
John Bayusik	Emergency Preparedness Coordinator	Waterbury Health Department
Christine Bianchi, MSW, LCSW	Chief Development Officer	StayWell Health Center, Inc.
Kathy Caiazzo	Commissioner	Waterbury Board of Public Health

Barbara White	Marketing Manager	Saint Mary's Hospital

EXHIBIT Q25-1

CURRICULUM VITAE/BIOGRAPHICAL PROFILES: GWHN

DARLENE STROMSTAD, FACHE
President and Chief Executive Officer

Darlene Stromstad assumed leadership of Waterbury Hospital in July 2011 after serving as President and CEO of Goodall Hospital in Sanford, Maine, for six years. Prior to that, she was Senior Vice President at Catholic Medical Center in Manchester, N.H., and Vice President at St. Joseph's Healthcare in Nashua, N.H. Last year, she was elected to the national Board of Governors of the American College of Healthcare Executives, and is a past board member of the Maine Hospital Association, the York County United Way, and has chaired the American Heart Association's Red Dress Campaign for York County. She is a native of North Dakota who received her BA from the University of North Dakota, Grand Forks, and her MBA from Rivier College in Nashua, N.H.

Michael Cemeno, VP and CIO

Mike joined us in 2012 and is a nationally recognized CIO who has led Waterbury Hospital to 3 consecutive Most Wired Awards. He is responsible for IT, Telecom, Clinical Engineering and Facilities. Over the last 3 years his team was responsible for implementation of CPOE, Nursing Documentation, and now Physician Documentation moving the hospital from HIMSS Level 4 to HIMSS Level 6. We also achieved MU II certification in the same time frame. Barcode Med Administration and Medical Device Integration are just two areas of IT that were implemented for enhanced patient safety.

Mike was the Associate CIO for Yale New Haven Health System for the previous 8 years and CIO of a 4 hospital system (Greater Hudson Valley Health System) in Mid-State New York for 5 years prior to that. Mike has a BBA from Temple University.

David J. Pizzuto, M.D. - Vice President of Medical Affairs/CMO

Dr. Pizzuto became the Vice President of Medical Affairs/CMO in June 2011. A graduate of The Waterbury Hospital Internal Medicine Residency Program (1987), he has been a member of the Attending Medical Staff since January 1988. In addition to his administrative duties, Dr. Pizzuto also continues to practice Internal Medicine full time. Additionally, Dr. Pizzuto has held various leadership roles at Waterbury Hospital including Chairman Department of Medicine (1997-2007), Chief of Staff (2008-2010), and member of the Board of Trustees (2011 – present).

Dr. Pizzuto holds an M.D. from New York Medical College (1984), a Master of Science from the University of Minnesota (1980), and a Bachelor of Science from the University of Connecticut (1977). He is certified by the American Board of Internal Medicine (1996 and 2006 –recertified).

MARK HOLTZ, MS, FACHE

Mark Holtz is Currently Senior Vice President and Chief Operating Officer of the Greater Waterbury Health Network in Waterbury Connecticut. In this role, Mark's current responsibilities are for Patient Care Services, Contracted Services, Hospital Outpatient Services, Laboratory, Pharmacy, Alliance Medical group, and the Cardiology Service line including the Cardiology Associates of Greater Waterbury. Mark's prior positions include, SVP/COO of Glens Falls Hospital in NY, COO of Overlook Medical Center which is part of the Atlantic Health System, and SVP of Operations for Lehigh Valley Health Network. Mark received his Bachelor of Arts in Psychology from Herbert H. Lehman College of the City University of New York in 1979, and Master of Science in Healthcare Systems Management from Iona College in New Rochelle NY in 1984. Mark is also a Fellow of the American College of Healthcare Executives.

James Moylan
Interim Chief Financial Officer

Jim has spent his entire 43year professional career in healthcare finance in CT. Currently he is self- employed as a consultant and interim executive manager. In 2012 he retired from Griffin Hospital as its CFO for 12 years and prior to that was the CFO of Bristol Hospital for 14 years. He received his bachelor's degree from Bentley University, and his masters from Rensselaer-Hartford.

John Camus

Current:
Vice President Physician Practices
Alliance Medical Group / Waterbury Hospital

Previous Experience:
Vice President Operations
Delphi Of TeamHealth
Vice President Physician Services
Mountainside Hackensack UMC
Director Physician Practice
Newport Hospital
Chief Executive Officer
Olean Medical Group
Vice President Operations
Hampden County Physician Associates
Vice President Operations
RiverBend Medical Group

Education:
Western New England University - MBA
University of Massachusetts - BA Japanese Language
Assumption College - BA Sociology

Sandra A. Iadarola, RN, MBA, CPHQ
Chief Nursing Officer/Vice President of Patient Care Services

Sandra had worked in this role since early 2011. She has operational accountability for 38 departments, including all inpatient and several outpatient services. These include Behavioral Health, Critical Care services, Family Care services and Surgical services. She oversees all Nursing functions within the organization. She has also serves as Chairperson of the Board of Directors for our affiliate, the VNA Health at Home. From 2002 to 2011, Sandra was the Administrative Director of Med/Surg and Critical Care Services at Waterbury Hospital. She served as the implementation project lead for the initiation of the open heart surgery program and as the clinical transformation lead for the electronic medical treatment record implementation. Prior to 2002, Sandra was the Vice President for Patient Care Services at Charlotte Hungerford Hospital in Torrington, CT.

Dr. Richard P Kropp, Ed.D. SPHR, SHRM-SCP
Principal Consultant

Dr. Kropp is Vice President for Human Resources for Waterbury Hospital and has been a principal consultant at The Kropp Group, a full-service management consultancy servicing an international client base. He has also been also affiliated with NRS Global Partners which is a search and technology consulting firm. Dr. Kropp is a human resource and organizational development executive with extensive success in the comprehensive leadership of large human resource organizations.

He has proven success in the conceptualization, implementation and administration of corporate universities. Dr. Kropp has demonstrated expertise in business, analytical, and negotiation skills. In addition, he is a motivational team leader with a track record of effectively leading and managing organizations of one to more than a hundred members. He has also published several books on such subjects as team building, team leadership, and business communication

He has also served as the Chief Human Resource Officer for Cape Cod Healthcare, Steward Healthcare, and Lourdes Health System.

Dr. Kropp has consulted and trained for companies in the health care, finance, high tech and educational fields on the design and implementation of human resource management systems. He has progressive experience in line and staff management, project management, organization development and sales telemarketing education. Dr. Kropp spent ten years in various training and organizational development positions at Wang Labs, where he created and implemented programs to select, develop, and appraise the top 300 managers, developed Executive Compensation and Succession Management Systems, and developed corporate-wide selection processes.

He has also held training management positions at the First National Bank of Boston and The Bell Telephone Company of Pennsylvania. In addition, he developed and facilitated open enrollment and on-site programs in project management, management development and continuous improvement for Boston University Corporate Education Center. Dr. Kropp has also served as a Program Manager/Facilitator for a service excellence standards program implemented by General Motors at hundreds of automotive dealerships in the United States.

Education:

He earned his doctoral in Industrial and Humanistic Psychology from Boston University. He holds a Bachelor's degree from the Mansfield University of Pennsylvania and a Masters in Human Resources from The Pennsylvania State University.

Patricia Gentil, MS, RHIA, CHC

Patricia Gentil is the Compliance and Privacy Officer at Waterbury Hospital. Patricia is responsible for the compliance program and compliance reporting systems. She is also responsible for the specific policies and procedures related to corporate compliance and HIPAA privacy. In addition she is responsible for the compliance committee and manages regulatory compliance audits, as well as conducts compliance and Privacy investigations. Patricia also oversees the HIM and Case Management Departments. She plays a key role in revenue cycle management and most recently has led the ICD-10 implementation efforts at Waterbury Hospital. Patricia is certified in Healthcare Compliance through the CCB and is also certified as an RHIA through AHIMA.

EXHIBIT Q25-2

PMH BIOGRAPHICAL PROFILES

RESPONSE TO QUESTION #25
BIOGRAPHICAL SUMMARIES

Sam Lee is Chairman of the Board of Directors and Chief Executive Officer ("CEO") of Prospect Medical Holdings, Inc. ("PMH"). Mr. Lee was appointed as PMH's CEO on March 19, 2008 and as Chairman of PMH's board of directors on May 14, 2008. Mr. Lee was previously appointed as a member of PMH's board of directors and as CEO of Alta Hospitals System, LLC ("Alta Hospitals"), the current corporate hospital segment and a subsidiary of PMH, on August 8, 2007. In 1998, Mr. Lee co-founded Alta Hospitals (formerly Alta Healthcare System, Inc.) with David Topper (see below) after acquiring seven (7) Los Angeles area hospitals from Paracelsus Healthcare Corporation ("Paracelsus"). Previously, he served as the President of Alta Hospitals from January 2002 until PMH acquired Alta Hospitals. Mr. Lee's background involves healthcare and technology related private equity investment management, operational leadership, entrepreneurship, mergers and acquisitions, and leveraged financing for various corporations. Prior to joining Alta Hospitals, Mr. Lee was a General Partner with Oline Hawkes & Co., a $500 million private equity firm located in Brentwood, California, that focuses on healthcare, technology, and business services.

David Topper is President of Alta Hospitals, a position he has served since 2007. He previously served as Alta Hospitals' CEO and a member of its Board of Directors between 1998 and 2007. In 1998, Mr. Topper co-founded Alta Hospitals with Mr. Lee. Prior to his involvement with Alta Hospitals, Mr. Topper served as Senior Vice President of Development and Hospital Operations for Paracelsus. Additionally, Mr. Topper has held healthcare executive management positions as a Hospital Administrator with Ramada Medical Corporation and as a Regional Vice President with Community Psychiatric Centers.

Dr. Mitchell Lew is President of PMH. Previously, Dr. Lew served as CEO of PMS since May 2012 and as the designated physician shareholder since February 1, 2013. He served as the Chief Medical Officer for PMS from December 2008 through December 2012. Prior to joining PMS, Dr. Lew was the CEO of Genesis HealthCare of Southern California, Inc. ("Genesis") from 1999 to 2006. In November 2005, Genesis was acquired by a company affiliated with PMS. From 1991 to 2001, Dr. Lew was the President of Lew Medical Group Inc., a medical group in which he also maintained a medical practice specializing in General Obstetrics and Gynecology.

Stephen O'Dell is Senior Vice President, Coordinated Regional Care for PMH. In this role, Mr. O'Dell leads the Company in its efforts to integrated our regional delivery systems among physicians, hospitals and payors. He is responsible for the development, implementation and oversight of the Company's coordinated regional care delivery systems in each of its regional markets. Prior to joining PMH, Mr. O'Dell served as Senior Vice President, Growth and Corporate Development, at Molina Healthcare. Before that, Mr. O'Dell held managed care senior executive positions with Blue Cross Blue Shield, United Healthcare, FHP International and First Consulting Group.

Steven Aleman is Chief Financial Officer of PMH, a position he has held since 2013. Prior to that appointment, Mr. Aleman, who is a certified public accountant, served as PMH's Vice President, Finance and Development since August 2010. Between May 2009 and July 2010, Mr. Aleman served as the CFO of SCH at Culver City, formerly known as Brotman Medical Center, Inc., a hospital subsidiary of PMH. From July 2008 through April 2009, Mr. Aleman held the position of Vice President of Internal Audit at PMH. Between 1998 and 2008, Mr. Aleman served in several positions ending as the Staff Vice President of Compliance with Wellpoint, Inc.

Ellen Shin, Esq. is General Counsel and Secretary of PMH, a position she has held since 2008. Ms. Shin is responsible for overseeing the legal and regulatory affairs of PMH and its affiliates, including corporate governance, regulatory compliance, litigation, transactions, government affairs and public policy activities. Prior to serving in her current position, Ms. Shin was the General Counsel and Secretary of Alta Hospitals from June 2006 to March 2008, where she oversaw the sale of Alta Hospitals to PMH. Prior to joining Alta, Ms. Shin was in private practice at several national and regional law firms in Los Angeles, California.

Cindra Syverson is Senior Vice President, Chief Human Resources Officer. Previously, Ms. Syverson spent seven years with Seattle-based Providence Health System as the corporate SVP, Chief Human Resources Officer. She also was the principle consultant of Syverson Consulting, Inc., which supported organi□ations talent and success management strategies, human resource operations improvement, culture change management and employee engagement and labor relations strategies. She has also held senior executive human resources positions with St. Joseph Health System, and PacifcCare□FHP.

Von Crockett is Senior Vice President, Corporate Development of PMH. Prior to that appointment, Mr. Crockett served as the Chief Executive Officer of SCH at Culver City from 2009 to 2012. Prior to joining SCH at Culver City, Mr. Crockett was the President and Chief Executive Officer, beginning in 2007, of Centinela Hospital Medical Center, a hospital with 369 licensed beds, 500 affiliated physicians, 1,500 staff and □260 Million annual net revenue, located in Los Angeles, California. From 2004 into 2007, Mr. Crockett served as the System Chief Operating Officer of Centinela Freeman Health System in Los Angeles, California. Between 2002 and 2004, he served first as the Chief Operating Officer and then the Chief Executive Officer for Doctors Medical Center San-Pablo□Pinole in San Pablo, California. He also served as the Chief Financial Officer of Sutter Healthcare, in Antioch, California, and Sharp Healthcare Corporation, in San Diego, California, from 2000 through 2002 and 1991-1999, respectively. Prior to those positions, he served in several finance related positions within the industry.

Hoyt Sze is Vice President, Chief Compliance Officer and Privacy Officer for PMH. Mr. S□e oversees and manages the compliance and privacy programs for the Company and its affiliates. Previously, Mr. S□e was a partner at McDermott Will & Emery LLP, a deputy

federal public defender at the Office of the Federal Public Defender and an associate at Latham & Watkins.

EXHIBIT Q38-1

ASSUMPTIONS UTILIZED IN DEVELOPING FINANCIAL WORKSHEET (C)

Assumptions Utilized in Developing Financial Worksheet (C):

Waterbury Hospital:

FY15: October through August actual results annualized.

FY16:

Revenue and Volume annualized 5 months of actual results (February through June). Included additional revenue for anticipated increase in outpatient visits and known revenue increases from Medicare and Commercial Insurances.

Expenses annualized 7 months of actual results (October through April). Included any projected increases.

Both revenue and expenses reflect expected changes due to the impact of the recent State Supplemental Pool payment cuts.

FY17 and FY18:

FTEs and Volume was kept the same as the budget. No increases.

Only revenue increase was for known Commercial Insurance revenue increases.

Expenses remained the same as budget with a few increasing by 2-3 each year.

Alliance Medical Group:

For FY15 revenue, we took an average of the previous 11 months for individual government and non-government revenue. For everything else that fiscal year, we used the 11 month year to date plus the month of August 2015 again.

FY 16 is based on potential visit volumes for the upcoming year, with expected changes due to the impact of the recent State Supplemental Pool payments.

FY17 and FY18 is based on the expected increase of 1 and 2 year to year due to the primary care recruitment which will include opening offices in new markets. Expenses stayed the same as FY 16.

For the new fiscal years, there has been extensive evaluation of the expenses associated with the hospital and all affiliates. The hospital engaged the Camden Group to look at opportunities to remove expenses from the organization and we have begun or about to begin implementing many of these based on the data analyzed. Our goal moving forward and starting in FY 2016 is to increase our revenue capability but also make significant changes that will allow us to decrease our expenses where appropriate.

Prospect Incremental Assumptions

FY16 Incremental:

Assumed Conversion date of April 1st, 2016

Revenue and Volume Increases of 1□

Expenses: Loss of 340B Pharmacy Pricing, efficiency on GPO Purchasing Contracts, Volume increases.

Interest Expense related to assumed Capital Leases.

Does not include associated Property and Sales Tax Increases.

FY17 & 18 Incremental:

Revenue and Volume Increases of 3□ and 4□ respectively.

Expenses: Loss of 340B Pharmacy Pricing, efficiency on GPO Purchasing Contracts, Volume increases.

Interest Expense related to assumed Capital Leases.

Does not include associated Property and Sales Tax Increases.

PMH STATEMENTS OF DEFICIENCY AND PLANS OF CORRECTIONS

PMH Response to Question 47
Summary of Statements of Deficiency/ Plans of Correction
PMH-Owned Rhode Island Hospital Facilities

ST. JOSEPH HEALTH SERVICES OF RHODE ISLAND – COMPLAINT VALIDATION SURVEY

On June 23, 2014, a complaint validation survey at St. Joseph Health Services of Rhode Island was completed by the Rhode Island Department of Health (the "DOH"). Several deficiencies were noted involving the failure to implement hospital policies for "Medical Marijuana;" "Documented Informed Consent for AIDS/HIV and Confidentiality;" "Patient Search Policy;" "Constant Observation;" "Universal Protocol Policy;" "Annual Performance Competency Review Process;" and failure to report reportable incidents, in writing, to the DOH within 72 hours of incident. The complaints were substantiated. Corrective actions were implemented and a plan of correction was submitted to and accepted by the DOH.

ST. JOSEPH'S HEALTH SERVICES OF RHODE ISLAND – COMPLAINT VALIDATION SURVEY

On March 6, 2013, a complaint validation survey was completed by the DOH. Several deficiencies were noted involving the failure to implement hospital policies for "Constant Observation;" "Fall Precaution Policy;" failure to provide care, in accordance with community standard, for bowel care; failure to ensure less restrictive interventions and/or alternatives had been employed and ineffective prior to chemically restraining a patient; and failure to report reportable incidents, in writing, to the DOH within 72 hours of incident. The complaints were substantiated. Corrective actions were implemented and a plan of correction was submitted to and accepted by the DOH.

ROGER WILLIAMS MEDICAL CENTER – COMPLAINT VALIDATION SURVEY

On August 20, 2013, a complaint validation survey was completed by the DOH. Several deficiencies were noted to include failure to report reportable incidents, in writing, to the DOH within 72 hours of incident; failure to perform peer review on a reportable incident; and failure to submit a follow-up report to the DOH following a reported incident. The complaints were substantiated. Corrective actions were implemented and a plan of correction was submitted to and accepted by the DOH.

Re: HOS00110, survey completed 6/23/2014

Dear Mr. Rusin:

Enclosed please find Prospect CharterCARE SJHSRI's Plan of Correction for citations received on August 15, 2014, in the Statement of Deficiencies from the Rhode Island Department of Health, for a visit May 22, 2014 through June 23, 2014.

Sincerely,

Thomas Hughes, FACHE
President

Z 160	Continue From page 1 sample patients, ID # 26; 6. "Annual Performance Competency Review Process", for 6 of 12 relevant sample employees, ID's A, B, C, D, E and F. Findings are as follows: I.The hospital policy, "Medical Marijuana", dated 10/2012, under "Policy Statement" states, under item b: "If the patient is determined to be a licensed card holder, the material in question will be sent home with the patient or the patient's family. In the event that no family members are available to receive the material, it will be disposed of and destroyed...The pharmacist will contact the patient's prescriber to recommend Marinol (dronabinol) as an oral, FDA (Food and Drug Administration) approved alternative medication to use while the patient is admitted." Review of the clinical record for patient ID #4 reveals that the patient was admitted to the hospital on 3/14/13 for a psychiatric evaluation. The patient presented with a Medical Marijuana Card, and a small amount of marijuana. The patient told staff that there was no significant other to remove the marijuana from the facility, therefore the marijuana was disposed of in the presence of the patient and pharmacy staff in accordance with hospital policy. The record lacked evidence that the patient's physician was contacted by a hospital pharmacist to recommend Marinol during the patient's admission in accordance with the hospital policy.	Z 160	**I. Hospital Policy: Medical Marijuana (#04-953-281)** a. Members of Pharmacy staff will complete and read & sign the above policy and related departmental specific notes of process. **MOS: 100% compliance.** Signature pages will be submitted to Risk Mgt. b. RNs (hospital) will complete read & sign of above policy and departmental specific notes of process. **MOS: 100% compliance.** Read and sign recording will be kept electronically by Nsg Ed. A report will be generated & submitted to Risk Mgt (staff who performed the read & sign.) c. Security Guards will complete a read & sign of above policy and departmental specific notes of process. **MOS: 100% compliance.** Signature pages will be submitted to Risk Mgt. d. **Audit:** All charts of patients admitted with Medical Marijuana will be audited for 6 months to determine compliance with hospital policy and appropriate documentation of intervention & notification to Dir/Mgrs Pharmacy. If goal achieved, a determination will be made as to need for further audits. **MOS: 100% compliance.**	**Pt Safety/ Ethics & P & T Committees** 9/30/2014 10/15/2014 10/15/2014 11/1/2014 – 5/1/2015

STATEMENT OF DEFICIENCES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER:	(X2) MULTIPLE CONSTRUCTION	(X3) DATE SURVEY COMPLETED
	HOS00110	A. BUILDING:_____ B. WING_____	C 6/23/2014

NAME OF PROVIDER OR SUPPLIER	STREET ADDRESS, CITY, STATE, ZIP CODE
ST. JOSEPH HEALTH SERVICES OF RI	200 HIGH SERVICE AVENUE NORTH PROVIDENCE, RI 02904

(X) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC INDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	(X5) COMPLETE DATE
Z 160	Continued From page 2 During an interview on 5/27/14 at approximately 2 PM with the Lead Operational Pharmacist, who was present when the marijuana was destroyed, it was revealed that contact with the patient's physician regarding prescribing Marinol did not occur. II. The hospital policy, "Documented Informed Consent for AIDS/HIV and Confidentiality", dated 3/2011, under "Policy", item A states: "AIDS tests will only be done with the documented informed consent of the patient..." A review of the clinical record for patient ID #6 reveals the patient was admitted to the facility on 8/2/13 with a question of stroke. While in the hospital the patient had blood work completed which included testing for HIV (human immunodeficiency virus). The medical record lacked evidence of documentation of an informed consent of the HIV testing in accordance with hospital policy. When interviewed on 6/12/14 at approximately 8:30 AM, the ordering physician revealed, "I may have discussed the HIV testing with the patient, but I did not document it; there is an informed consent policy, I usually write it in the record." Review of 4 additional relevant clinical records for patient ID #s 39, 40, 41 and 42 revealed no evidence that informed consent for HIV testing had been obtained in accordance with hospital policy.	Z 160	**II. Hospital Policy: "Documented Informed Consent for AIDS/HIV & Confidentiality" (#04-711-41 aka IP & IC Manual A-2b)** a. Revise above policy to include required HIV Consent Form to be completed by ordering MD/LIP & signed by MD/LIP & patient. Prepare & attach a new HIV Consent Form to be used (available in Meditech.) Add a verification process for completion of above Consent Form & counseling/education prior to HIV test order to be placed in Meditech & accepted. **MOS: Completion of Policy revisions & prepare Consent Form by 10/1/14.** Once above policy is completed, the HIV (Aids) Tests Umbrella Plan IP & IC Manual A-2f will be revised accordingly. b. Create stop gap in Meditech to prevent HIV testing without compliance with policy requirements. **MOS: Completion in Meditech 10/15/14 to begin 11/15/14.** c. Focused physician and healthcare worker education in high volume areas re: policy revisions & stop gap. Areas include: ED, BH, SJHSRI clinics, & Infectious Disease: • MDs/LIPs & MD (involved in citation) • Nurses & Unit secretaries - Skills Fair • SJHSRI Clinic (RN, LPN, MA, Unit secretaries) – Skills Fair **MOS: 100% completion by high volume**	**Patient Safety Committee** 10/1/2014 10/15/2014 10/15/2014 – 11/15/2014

Z 160	Continued From page 3 III. The hospital policy, Patient Search Policy", dated 8/2010, under "Procedure", Item II, "Patient Search" states: "A patient search is performed by two people in the following circumstances: any patient who demonstrates symptoms which suggests the use of contraband drugs." "The patient search is performed as follows": Item b. "The patient removes clothes and will be placed in a hospital gown and the staff member searches the clothing item…" Review of the clinical record for patient ID #18 revealed that the patient was brought to the ED (emergency department) by EMS (emergency medical services). The patient had been found in respiratory arrest after injecting heroin. The patient regained consciousness after treatment. The physician's clinical impression was "heroin overdose". While being monitored in the ED, the patient became unresponsive. The patient responded to	Z 160	**MDs/LIPs, MD involved in citations & healthcare workers of above areas.** Sign-in sheets/report will be submitted to Risk Mgt. d. **Audit:** All HIV orders entered into Meditech (answer: yes & no) will be reviewed monthly for 3 months. If healthcare worker has to contact MD/LIP for consent, it will be tracked & MD/LIP will be re-educated. If compliance goal is reached, a random audit will continue as appropriate. **MOS: 100% compliance.** **III. Hospital Policy: "Patient Search" (C- 52)** a. Revise above policy to eliminate "Emergency Department", as searches will be detailed in a newly created Risk Assessment Policy & obtain approval. **MOS: Policy will be revised.** b. Draft policy "Emergency Risk Assessment for Behavioral Health Patients" (Risk Assessment Policy) & attached "Emergency Risk Assessment Guide." Risk Assessment to be completed by MDs &/or ED Clinicians - for all patients presenting with psychiatric concerns, substance abuse issues, detox requests &/or overdoses. To be piloted in ED before final approval. **MOS: Pilot implemented.** c. Risk Assessment created in Meditech for ED Clinicians and ED RNs to access & document on patients that meet the policy requirements. **MOS: Risk Assessment completed in Meditech.** d. Risk Assessment created in the EMR for MDS/LIPs to access & documentation on patients that meet policy requirements. This documentation comes with color coding in Meditech & with visual representation	12/1/2014 – 2/1/2015 **Patient Safety Committee** 9/30/2014 Pilot began 6/1/2014 – 10/1/2014 Clinicians: 8/18/2014 RNs: 10/30/2014 8/31/2014

Z 160	Continued From page 4 treatment. The physician's note reveals, "Patient states s/he found a bag of drugs on the way to the bathroom and used them in the bathroom. Patient still has pants on so it is possible that something was in a pocket..." When interviewed on 6/17/14 at approximately 11:30 AM, the ED Chief revealed, "I feel the care was not optimal, the patient should have been searched." It was determined that the patient was allowed to keep pants on while wearing a hospital gown, and a search for contrabands had not been performed in accordance with the hospital policy. IV. The hospital policy, "Constant Observation", dated 6/2013, under "Policy" states:	Z 160	outside patient's rooms for staff awareness of risk level. **MOS: Risk Assessment completed in EMR.** e. Emergency Risk Assessment Guide will be posted in LSU & Core of ED – quick reference. f. Z 160	Continued From page 5 "It is hospital policy to institute a level of Constant Observation for the patient who manifests one or more of the following criteria": Item #2 "Imminent threat to physical or emotional well-being including but not limited to: Reported suicidal/homicidal ideation's." Under, "Definitions", it states: "Constant observation – process of visually monitoring (observing) a patient at all times, regardless of patient activity; goal is to prevent patient from leaving hospital and from causing injury to self or others; may be used with or without patient being in physical restraints." Under, "Procedure", item 5b it states: "Remain with the patient at all times including bathroom visits (door will be left cracked with consideration for privacy but must be visual) and when patients appear to be sleeping focus on visibility of mouth and hands, maintain no more than arms length distance unless otherwise directed…" 1. Review of clinical record for patient ID #2 revealed that the patient was on 1:1 observation. On 4/9/14 at approximately 7:30 AM, the patient could not be found. A search was conducted and the patient was found unharmed at approximately 8:00 AM, in a lower cabinet in the television room. During an interview on 5/28/14 at approximately 3 PM with the Director of Behavioral Health, it was revealed that the person who was assigned to	Z 160	a. Draft Risk Assessment Policy, as well as Meditech and EMR Risk Assessment documentation. Referred to in III a - e. Risk Assessment to be piloted in ED before final approval. Risk Assessment - addresses complex situations (sexual trauma, psychosis & complex grief.) ED to practice Trauma-Informed Care – allow patients self-determination, if appropriate, ability of patient to contract for safety (CFS) with psychiatrically-trained clinician. Risk Assessment addresses: disrobement, searches, medications, restraints & patient's ability to CFS thus negating need for 1:1 observation. b. Education concerning Risk Assessment Policy & documentation is discussed above in III f. c. Final approval of new Risk Assessment Policy - see III g. above. d. Edit and complete revisions of Constant Observation Policy (N-7) to reflect new Risk Assessment Policy," since Risk Assessment will address clinical needs of patient & determine the patient's immediate needs {medication, restraints, disrobement (forcible or not) after negotiations, as well as need for 1:1 or patient's ability to CFS. If patient is able to CFS in ED, then a 1:1 observation will not be required.} In addition, the Constant Observation 1:1 Report Form attached to policy was revised 6/5/2014 to meet the needs of BH Units to provide an increased level of communication between RN & constant observer to better meet patient's needs. It identifies specific behaviors & effective interventions, enhancing & encouraging	See III above See III above See III above 9/2/2014 - 10/14/2014

Z 160	Continued From page 6 the constant observation monitoring of the patient went to assist other staff when another patient had fallen. It was at this time that patient ID #2 was left unattended. The hospital investigation determined that based on the review of surveillance video, the patient was in the lower cabinet for approximately 27 minutes. 2. Review of the clinical record for patient ID #27 revealed that the patient presented to the ED after an attempted drug overdose. The patient has a psychiatric history of greater than 20 suicide attempts. The documented patient complaint was "major depression and suicidal ideas". The patient was triaged and placed in Room 7. The plan was for the patient to have a psychiatric evaluation. At approximately 11:55 AM, the patient eloped from the ED. A search by security staff found the patient standing at a bus stop across the street from the hospital. The patient was safely brought back to the hospital ED, and placed in the LSU (low stimulus unit) on 1:1 observation. During an interview on 6/16/14 at approximately 9 AM, the Risk Manager revealed that with hospital investigation the triage nurse had reported that the LSU was full when the patient arrived. It was also reported that the patient should have been on a 1:1 upon arrival to the ED, but there was not enough staff and no bed available in the LSU. When interviewed on 6/18/14 at approximately 1:30 PM, the ED nurse who cared for the patient revealed that the patient stated s/he wanted to	Z 160	therapeutic rapport between constant observer and the patient. This will become part of the policy for all units. e. Due to new ED policy concerning Risk Assessment, described above, the following policies will be revised & approved: • N-7 Constant Observation • N-19 Suicide Precautions • N-21 Elopement. f. Education of policy revisions of N-7, N-19 & N-21 for RNs & CNAs: • Mandatory Skills Fair. **MOS: 100% compliance with attendance with the exception of those who are on LOAs from the organization.** Sign-in sheets or Reports on attendance will be submitted to Risk Mgt. g. Any ED patient requiring a psychiatric evaluation is no longer allowed to use the hallway bathroom with 2 exit doors (in the core) but instead must use the bathroom in LSU. h. **BH Units (including 3 South, Geri Psych Unit):** Education of clinical staff on Constant observation policy and Constant Observation Report Form as follows: • CNAs educated at CNA skills Fair • BH Staff (RNs & CNAs) at Mandatory BH Skills Fair **MOS: 100% compliance with attendance.** Sign-in sheets or Report of attendance will be submitted to Risk Mgt. Any staff that does not attend by said date must complete training through Nsg Ed intranet with competency exam. Sign-in sheets to be submitted to Risk Mgt.	9/2/2014 – 10/14/2014 10/15/14 – 10/31/2014 5/1/2014 6/26/2014 7/2/2014 8/29/2014

Z 160	Continued From page 7 commit suicide. However, the patient was left in a room without 1:1 supervision, reportedly due to a lack of sufficient staff. 3. Review of the clinical record for patient ID# 34 reveals the patient was brought to the ED via EMS for making suicidal statements to his/her father. The patient has a past suicidal attempt in December of 2013. Review of the triage notes reveals the patient did express feelings of depression and thoughts of harming self. The patient was placed on suicide precautions and 1:1 observation. At approximately 2:15 AM the patient was accompanied to the bathroom by the registered nurse. While in the bathroom, the patient opened the other door to the bathroom and fled the ED. The local police were notified, found the patient, and brought him/her back to the ED. During an interview on 6/18/14 at approximately 10 AM with the Risk Manager, she revealed the patient was placed in the "core" area of the ED on arrival. A hallway bathroom was used that has 2 doors, one of which goes to the waiting area. Surveillance video shows the patient was escorted to the bathroom by the RN. The patient was allowed to close the door completely, putting the patient out of view of the RN and security officer. The patient then fled out of the other door leading to the waiting area. The patient was not in full view of staff in accordance with the hospital policy.	Z 160	i. **BH Units:** Educational program developed for BH Skills Fair will be reviewed during BH orientation for new hires. Also on the intranet. j. **3 South Audit:** Documentations of all patients on 1:1 observation will be reviewed for 3 months for compliance; then documentation of 50% of patients who are on 1:1 observation will be reviewed for compliance and will continue to be audited until goal is reached. **MOS: 100% compliance.** k. Hire consultant & hospital staff (ED & 3 South) to participate in RCA & corrective action plan on constant observation of patients	8/29/2014 8/1/2014 – 11/1/2014 11/1/2014 until compliance is reached. Z 160	Continued From page 9 Review of the clinical record for patient ID# 26 reveals on 5/22/13 the patient underwent a lumbar and sacral dorsal rami block for right lower back pain. The procedure documentation reveals, "Left L5 (lumbar) and sacral L1, L2, L3 and L4 dorsal rami block." The procedure documentation by the physician revealed that at the conclusion of the procedure, it was realized that a left sided injection was performed. This was done despite documentation in the patient's history and physical that his/her pain was principally right sided. Informed consent was for a right sided injection. It was confirmed with the patient that the right side was to be done. Review of the Procedure Assessment/Plan lacks evidence that the site was verified and marked. During an interview on 6/13/14 at approximately 12:15 PM, the Risk Manager revealed in the hospital investigation that it was realized that those involved in the procedure did not actively participate during the time-out. During the time-out, the radiological technician and physician had started the procedure, and the nurse was doing paperwork. There were no site markings in accordance with hospital policy. Additionally, the "Universal Protocol checklist Non-Operating Room" documentation was not used. When interviewed on 6/17/14 at approximately 12:30 PM, the Chief of Anesthesia revealed the site should have been marked per hospital protocol. During the time-out, everyone is to stop what they are doing and listen to the physician at this time; all in the room should participate during	Z160	f. When applicable, mandatory Universal Protocol in-service will be provided to new professional service groups as their contracts commence g. **Audit:** All needle puncture procedures in Special Procedures, Interventional Radiology, Mammography & Ultrasound will be completed monthly for compliance with the policy for 6 months. If goal is achieved random auditing will be determined. **MOS: 100% compliance.**	Anticipated 1/2015 11/1/2014 – 5/1/2015

RE: HOS00110, survey completed 3/6/2013

Dear Mr. Rusin:

Documents:

Enclosed please find St. Joseph Health Services of RI's Plan of Correction for citations received in the Statement of Deficiencies from the Rhode Island Department of Health for a survey beginning on January 22, 2013 that was completed March 6, 2013.

In addition, I would like to acknowledge Madeline Vincent & her staff who will be meeting with Pat Nadle on Thursday, April 25, 2013 to enhance our attached Action Plan.

Sincerely,

Kenneth Belcher
President & CEO
St. Joseph Health Services of RI

Z 160	Continue From page 1 well-being (Suicidal or Violent Behavior Precautions) including but not limited to: Reported suicidal/homicidal ideation's." Under ""Procedure" it states: "At no time should the patient be left alone or unobserved (exception: diagnostic testing)" A review of the clinical record for patient ID #49 revealed that the patient was transported to the hospital via EMS (Emergency Medical Services) for a psychiatric evaluation after a hanging attempt. The patient was evaluated by behavioral health services, and the case was discussed with a hospital psychiatrist. It was determined that the patient would be admitted for suicidal ideation. Physician's orders while in the ED revealed the patient to be placed on "one to one" constant observation. A review of the ED physician's note revealed "Appropriate security watch urgently ordered by me after the patient's arrival in ED; patient is a potential danger to self." Review of the ED documentation revealed that at approximately 9:30 AM the patient eloped from the hospital. The police were notified, and the patient was located and returned to the hospital. During an interview on 2/21/13 at approximately 9:30 AM with the Director or Security; he reported that the SO (Security Officer) assigned to constant observation of the patient was "watching 3 rooms at that time". He further reported that the patient was on constant observation for suicidal and elopement risk, and "should have been 1:1 with the officer". Additionally, the officer should not have been watching other	Z 160	(include per diem & float staff RNs, CNAs & MHWs), & Security.) **MOS: 90 - 100% Compliance**–Read & Sign policies which will be documented in API tracking software. 4. Z 160	Continued From page 3 family of the fall. This notification can be completed during regular business hours providing the patient has not been injured." Item #7. "Reassess fall risk; review fall prevention interventions that were in place, it any, and modify plan of care as indicated." Item #8. "Document that the patient has fallen on the Kardex, in the SAFETY/RISK FACTOR SECTION and include date and time." 1. A review of the clinical record for patient ID #15 revealed a 76-year-old developmentally delayed patient who was transferred to the hospital from a group home after falling and sustaining a bruise to the right thigh and hip area. The patient was noted to have right sided back pain with swelling and a contusion. Record review indicates a Schmid Fall Risk assessment done in the ED (emergency department) scored the patient as 4 – indicating a "High" falls risk. There lacked evidence of a yellow bracelet or yellow socks placed on the patient in accordance with hospital policy. Additionally, while in the ED on 6/7/12 at approximately 11:30 PM, the patient was being assisted to a wheelchair by a nursing assistant, and suffered a fall which resulted in a fractured femur. Review of the patient's Kardex lacked evidence of the date and time of the fall, and the numerical score from the Schmid Assessment. There also lacked evidence of a falls reassessment after the fall, or any modification to the patient's plan of care. 2. A review of the clinical record for patient ID #32 reveals that the patient was brought to the hospital after tripping and falling at home. The	Z 160	**MOS: Competency Test.** 6. Z 160	Continued From page 4 patient was complaining of right knee and hip pain as well as lower back pain. Although the Schmid Fall Risk assessment completed while in the ED revealed a score of 2 (low), the patient's fall risk was documented as "High," indicating that yellow socks and bracelet should be placed on the patient. The patient's ambulatory status was noted to be documented as "unable to ambulate". A "Standard Initial Care" ID Band was applied to the patient. There lacked evidence of a yellow band and yellow socks being placed on the patient. While in the ED the patient suffered a fall in the bathroom while being assisted to the toilet by a Registered Nurse. The patient complained of discomfort in the right lower leg. The patient was lifted from the floor back to a wheelchair and brought back to bed. Review of the ED nursing documentation reveals that the patient complained of right lower leg pain, with the anterior leg slightly red and warm to touch. Motrin was given for pain. The clinical record lacked evidence of a falls reassessment after the fall, with no new falls interventions and evidence that the family was notified of the fall. 3. A review of the clinical record for patient ID #8 revealed a 6/8/12 Schmid Fall Risk assessment which indicates a score of 2, a low risk for falls. At approximately 10:55 PM on 6/9/12 the patient fell while going to the bathroom, hitting her head. Review of the patient's Kardex reveals that the yellow bracelet and yellow slipper socks were not placed on the patient until 6/10/12 at 8:00 AM. The patient "Activity Assessment" following the fall on 6/10/12 at 8:00 AM indicates that the patient activity was "up ad lib." The Kardex also revealed a Schmid Fall Risk reassessment was not done until 6/10/12 at approximately 11:14 AM	Z 160	10. Develop plan & implement expansion of participation in post fall huddles & completion of fall huddle form. **MOS:** **Audit 100% of falls/mth** to determine if a post fall huddle is conducted & if post fall huddle form is completed. **Target 20% ↑/mth. Z 160	Continued From page 5 and indicates a score of 3 (high), however the Fall Risk is noted to be "low". 4. A review of the clinical record for patient ID #29 revealed that the patient was brought to the ED on 6/4/12 after an unwitnessed fall at nursing home. Review of the Schmid Fall Risk completed in the ED reveals a score of 5, indicating that the patient is a "High" falls risk. The ED documentation also indicates the patient has had multiple falls. The record reveals that a "Standard Initial Care" ID bracelet was placed on the patient. There lacked evidence of a yellow bracelet and yellow socks being placed on the patient in accordance with hospital policy. Review of the patient's Kardex lacked evidence of numerical score of the Schmid Assessment, and also lacked a date and time the assessment was done. 5. A review of the clinical record of patient ID #30 reveals that the patient was brought to the ED from a nursing home for projectile vomiting. The Schmid Fall Risk completed in the ED indicates the patient is a "High" falls risk with a numerical score of 3. A "Standard Initial Care" ID Band was applied. There is no evidence of a yellow band and yellow socks being applied to the patient. When interviewed on 2/19/13 at approximately 11 AM, the Director of Nursing Services and the Clinical Manager of the Emergency Department reported that appropriate interventions for falls risk were not in this patient's chart, and that more interventions should have been put in place, and also indicated there was no reassessment after the patient fell. During an interview with the Risk Manager on 2/27/13 at approximately 11:00 AM, it was	Z 160

Z 370	Continued From page 7 not administered. On the evening of 9/2/12 the patient vomited and was noted to have a markedly distended abdomen. An abdominal film revealed "extensive small bowel and colonic detention with stool in the rectal vault". The impression revealed "the findings may be chronic but this raises the concern of distal colonic obstruction." 2. A review of the clinical record for patient ID #43 reveals an admission to the hospital on 2/4/13 for increased depression. The patient has a physician's order for MOM 30 ml (milliliters) daily, PRN (as needed) for constipation. The patient's bowel movement record revealed that the patient did not move bowels on 2/8 2/9 and 2/10. The MAR (Medication Administration Record) for this patient lacked evidence that the PRN MOM was administered. The patient was discharged on 2/11/13. 3. A review of the clinical record for patient ID #59 reveals an admission to the hospital on 2/13/13 for depression and SI (suicidal ideation). The patient had a physician's order for MOM 30 ml daily, PRN for constipation. The patient's bowel movement record reveals that the patient did not move bowels on 2/14, 2/15 and 2/16. Review of the MAR for this patient lacked evidence that the PRN MOM was administered as ordered. When interviewed on 2/12/13 at approximately 1:30 PM, the Clinical Nursing Manager for the unit, reported that the expectation is for the nurse to assess the patient for bowel sounds and to check what medications are ordered for the patient. She indicated that the MOM should have been administered after the second or third day if no bowel movement.	Z 370

Z 375	Continued From page 9 This Requirement is not met as evidenced by: Based on review of the clinical record and staff interview it has been determined that the hospital failed to ensure that less restrictive interventions and/or alternatives had been employed and ineffective prior to chemically restraining 1 of 6 patients with a change in mental status. (ID#6) Findings are as follows: A review of the clinical record for patient ID #6 reveals a transport to the hospital on 9/9/12 from an Assisted Living Facility (ALF) for a change in mental status. Review of the COC (Continuity of Care) form from the ALF revealed "Patient change in mental status. Acting out upon staff and other residents even after PRN (as needed) Ativan given". The patient has a past medical history of HTN (hypertension), Bipolar disorder, Parkinsonism and Schizophrenia. The patient was placed on constant observation in the ED, and was evaluated by a behavioral health center. The assessment indicated that an inpatient admission would not be appropriate as the "...pt does not appear to be exhibiting extreme behaviors that are out of norm. Pt does not meet inpatient criteria at this time." The patient remained in the ED until his discharge on 9/10/12. The ED record reveals that the patient's behavior during his observation period was "alert and oriented and often times sleeping". When awake, the patient was noted to have appropriate behavior and was "relaxed and cooperative". On 9/10/12 at approximately 1920 (7:20 PM) the patient was noted to be yelling and swearing regarding not leaving the hospital. The patient requested to stay in the hospital "because he	Z 375	phys restraints. **MOS:** **Audit 100% of restraints used** (including chem restraint use) **in ED/mth for a min of 3 mths until compliance is 100%.** Then determination to be made for future monitoring. Z 375	Continued From page 10 likes it better here". Record documentation revealed "MD in to talk with Pt. and was yelled at. MD ordered 10mg Haldol IM (intramuscular) and given." The patient was noted to continue to yell and was subsequently administered 2 mg of Ativan and 50 mg of Dipenhydramine IM as ordered. The Haldol was administered at 7 PM and the Ativan and Dipenhydramine were both administered at 7:19 PM. The patient left the facility at 7:40 PM. When interviewed on 1/25/13 at approximately 12:30 PM, the nurse who administered the medications indicated the patient was fine during the shift. It was when the patient was told that he/she would be returning to the ALF that he/she became verbal and argumentative, but not physically aggressive. The nurse revealed that the patient calmed down after administration of all above medications, and remained non-combative and cooperative while waiting for the ambulance. Interview on 1/29/13 at 1:00 PM with the PA (Physician's Assistant) who ordered the medication, revealed that the patient was calm and non-combative, and receiving his regularly scheduled medications. The patient reportedly only became agitated when EMS (Emergency Medical Services) arrived, at which point the patient began yelling and escalated and was unable to calm down; he was medicated and did calm down after about 10 minutes. When asked if any of the patient's discharge medications were changed, the PA stated "no, all of the patient's medications he was receiving before coming to the ED remained the same". When interviewed on 1/31/13 at 9:00 AM, the licensed clinical social worker from the behavioral health center who evaluated the patient indicated	Z 375

Dear Mr. Belcher:

This office has received the Plan of Correction for the deficiencies cited as a result of our review completed on August 20, 2013. The provisions and time frames for your corrective action is determined to be acceptable.

Please note that a member of the Facilities Regulation staff will make an unannounced site visit to the hospital to ensure compliance has been achieved.

If you have any questions, please contact Madeline Vincent at 401-222-2566.

Sincerely,

Raymond Rusin, Chief
Facilities Regulation

RE: Investigation completed on August 20, 2013

Dear Mr. Rusin:

This is in response to your correspondence to me dated August 29, 2013 in regards to our hospital not being in compliance with the Rules and Regulations for Licensing of Hospitals and corresponding citations noted on the enclosed Statement of Deficiencies (State Form).

Please see our plan of correction on the State Form (Provider's Plan of Correction) with the date of completion, signed and dated as per your request.

Should you have any questions please feel free to call myself at 456-2025 or Joyce Hackley, Director, Risk Management at 456-2405.

Sincerely,

Kenneth H. Belcher
President/CEO

This survey found that your facility was not in compliance with the Rules and Regulations for Licensing of Hospitals and citations are noted on the enclosed Statement of Deficiencies (State Form). A plan of correction is required and must be submitted to this office by September 13, 2013. Please enter, in the right hand column of the State Form (Provider's Plan of Correction), your response to each citation with a date of completion (X5 complete date), sign (X6 Date) and return to this office by September 13, 2013.

Your Plan of Correction must contain the following:

· What corrective actions will be accomplished for those patients/situations found to have been affected by the deficient practice;

· How you will identify other patients/situations having the potential to be affected by the same deficient practice and what corrective action will be taken;

· What measures will be put into place of what systemic changes you will make to ensure that the deficient practice does not recur; and,

· How the corrective actions will be monitored to ensure the deficient practice will not recur, i.e., what quality assurance program will be put into place.

If you have any questions regarding this issue, please call Deborah Massaniso RN SNCE at 401-222-4529..

Thank you for the courtesy extended to our survey staff during this investigation.

Sincerely,

Raymond Rusin, Chief
Facilities Regulation

Z 950	PATIENT CARE SERVICES 34.10 Reportable Incidents 34.10 The hospital shall ensure an appropriate committee or multidisciplinary group conducts peer review for all reportable incidents. The hospital shall notify the licensing agency of the outcome of the internal review as soon as this information is available but in no case later than six (6) months after the initial report and if the findings determine that the incident was within the normal range of outcomes, no further action shall be required. This Requirement is not met as evidenced by: Based on review of hospital reportable incidents and staff interview, it was determined that the hospital failed to notify the licensing agency, no later than 6 months after the initial report, of the outcome of the peer review for 1 of 7 relevant sample patients (ID #6) Findings are as follows: A review of the hospital's incident reports filed with the Department of Health revealed that the hospital reported the incident, but failed to submit to the licensing agency the " Follow-up Report" within the required time frame of 6 months. A " Follow-up Report " for an incident occurring on 1/4/2012, was not made available to the licensing agency until 8/12/2012. During an interview on 8/19/2013 at approximately 12 PM, the Director of Risk Management was unable to provide evidence that	Z 960

CHARITY AND COLLECTION POLICIES (WATERBURY HOSPITAL)

POLICY: CHARITY CARE		
CATEGORY: MANAGEMENT OF INFORMATION		PAGE (s): 3
OWNER: DIRECTOR, PATIENT ACCOUNTS & FINANCIAL SERVICES		ORIGINATED: 12/5/97 (From PAFS manual)
LAST REVIEWED: 11/11	LAST REVISED: 8/13	RETIRED:

SCOPE: Determination of when charity care is appropriate.
PURPOSE: To make provisions for situations in which charity care is appropriate based on aggregate balance and Encounter review.

POLICY: It is the policy of Waterbury Hospital to appropriately offer charity care in situations where the responsible party for the balance due does not have the financial resources necessary to satisfy their obligation within a reasonable period of time.

1. All patients who request consideration for charity care will be required to apply for public assistance in addition to completing a charity care application unless identified as ineligible by a qualified case worker.

2. In order to be considered for charity care, full financial disclosure is required including:
    a. All sources of income available at the time of application;
    b. Assets excluding;
        i. Primary Residence;
        ii. Vehicles required for commuting to or facilitating employment;
        iii. Retirement Accounts.

3. Responsible parties with assets of $7,500 or less ($15,000 for a couple) will receive the following discounts based on their annual household income and the published federal poverty guidelines in effect at the date of application:

Income as a % of FPL	Discount
<200%	100%
<= 225%	60%
<= 275%	40%
<= 300%	20%
<= 400%	10%

4. Charity care discounts are to be applied after the 50% uninsured discount from charges.

5. Documentation required to validate declarations made on the charity care application shall include:
    a. A credit report;
    b. Most recent 1040 tax return;
    c. Copies of all bank statements to include but not limited to:
        i. Checking accounts;
        ii. Savings accounts;
        iii. Investment accounts;
        iv. Certificates of deposit
    d. Proof of income for the immediate 12 months preceding the application date.
    e. Public assistance determination.

PROCEDURE:

1. The availability of charity care will be disclosed on all dunning notices issued prior to bad debt assignment.

2. Patients who indicate they are unable to pay for services rendered will be offered charity care;

3. Financial Counselors shall evaluate each applicant's eligibility.

4. Accounts determined to be eligible for charity care discounts shall require the following authorization based on amount to be adjusted:
   a. PAFS Manager < $5,000
   b. PAFS Director $5,000 or more
   c. Chief Financial Officer $10,000 or more

5. Patients shall be issued a determination letter within 30 days of receipt of a completed charity care application.

6. Patients who do not apply for or do not qualify for charity care will be expected to pay the balance due. For uninsured patients, this will be equivalent to 50% of charges. Insured patients will be expected to pay any deductible or co-payment due in addition to 50% of non-covered charges.

7. Patient who do not enter into a payment plan or pay satisfy the balance due will be placed with a collection agency for further collection efforts. The collection agency may report the balance due to credit reporting bureaus and/or initiate legal action to resolve the debt.

POLICY: POINT OF SERVICE COLLECTIONS

CATEGORY: MANAGEMENT OF INFORMATION		PAGE (s): 2
OWNER: DIRECTOR, PAFS		ORIGINATED: 10/01/2015
LAST REVIEWED:	LAST REVISED:	RETIRED:

SCOPE: This policy covers all elective and scheduled services.

PURPOSE: The purpose of this policy is to establish processes and procedures that will enable the facility to manage discretionary bad debt.

POLICY:

1. It is the policy of Greater Waterbury Hospital to treat all patients who require urgent care regardless of their ability to pay for services.

2. Patients who present for urgent care shall receive a medical screening examination and be stabilized prior to any discussion regarding payment for services.

3. Patients who wish to schedule elective services and have a history of bad debt, are likely to be responsible for 50% or more of the estimated cost of care, or will have an out-of-pocket balance due of $500 or more will be expected to establish satisfactory payment terms prior to being scheduled for services.

4. The hospital will continue to offer free care and discounted care to eligible patients based on the Federal Poverty Limits published annually (see Administrative Policy "Charity Care").

PROCEDURE:

Upon receiving a scheduling request, the scheduler shall evaluate the patient's estimated out-of-pocket balance, any current balances due, as well as bad debt balances due to determine if the patient will be required to enter into a satisfactory payment plan.

1. If a co-pay/deductible is required, the verification staff will require the following payment options:

   - If the patient's co-pay/deductible is over $500.00, the patient will minimally be responsible to pay 50% of the co-pay/deductible amount prior to the scheduled service date. The remaining patient balance may be placed into a payment arrangement of four to six months.

   - If the patient's co-pay/deductible is under $500.00, the patient will minimally be responsible to pay 50% of the co-pay/deductible amount. The remaining patient balance may be placed into a payment arrangement of up to three months.

2. If the patient has had previous bad debt accounts within the past two years, the patient will be classified as a credit risk and will be required to pay 100% of the co-pay/deductible prior to the scheduled admission/procedure date.

3. If any required payment is not satisfied, the patient will be informed that the physician's office will be contacted to determine whether the procedure can be rescheduled or cancelled. Patients will be notified within one day if the physician's office does cancel or reschedule the admission/procedure.

4. If the physician's office declines to cancel because of medical necessity, the admission/procedure will proceed as scheduled. All cases identified with this occurring will be subject for review by the hospital's utilization management staff.

5. Patients shall not be eligible for prompt pay discounts if they have prior outstanding balances or are making a partial payment for estimated balances due.

POLICY: UNINSURED PATIENT DISCOUNT		
CATEGORY: MANAGEMENT OF INFORMATION		PAGE (s): 2
OWNER: DIRECTOR, PATIENT ACCOUNTS & FINANCIAL SERVICES		ORIGINATED: 4/13
LAST REVIEWED: 4/15	LAST REVISED:	RETIRED:

SCOPE: All PFS and Patient Access staff.
PURPOSE: To align balances due from uninsured patients with payments received from insurance carriers

POLICY:

1. Uninsured patients shall be entitled to a discount of 50% of charges.
2. This discount shall be posted to the patient's account at the time a final bill is generated.
3. Any additional discounts such as prompt pay or charity care shall be calculated after the uninsured discount is applied.
4. Accounts forwarded to collections shall be placed net of the uninsured discount.

PROCEDURES:

1. Posting of the uninsured discount shall be automated through the HIS in place at the time the bill is generated.
2. In the event insurance coverage is identified after the uninsured adjustment has been posted, the adjustment shall be reversed and any applicable contractual allowance posted as per standing protocol for the specific payer.

POLICY: PROMPT PAY DISCOUNT		
CATEGORY: MANAGEMENT OF INFORMATION		PAGE (s): 2
OWNER: DIRECTOR, PATIENT ACCOUNTS & FINANCIAL SERVICES		ORIGINATED: 4/13
LAST REVIEWED:	LAST REVISED:	RETIRED:

SCOPE: Billing practices for uninsured patients.
PURPOSE: To establish an equitable method of billing uninsured patients considering insurance reimbursement practices.

POLICY:

1. In order to reduce the cost of collections and increase the availability of working capital, a 25% discount will be offered to patients who pay the estimated balance due on or before the date of service.

2. Uninsured patients shall receive this discount in addition to any uninsured discounts effective at the time of service.

3. Insured patients shall receive this discount if payment is received at time of service based on an estimate of their out-of-pocket expenses. This discount shall be extended to any additional balances due in the event the estimated balance is less than the actual amount due after the claim has been paid by the insurance carrier provided the remaining balance is paid within 30 days of the first patient bill.

PROCEDURES

1. Non-urgent patients shall be notified of their estimated balance due prior to receiving services to include open AR and unresolved bad debt balances.

2. Urgent patients shall be notified of their estimated balance due, including unresolved active AR and bad debt, after their medical condition has been stabilized.

3. A 25% discount shall be extended to any portion of the debt paid by the patient upon notification of the total estimated balances due to the hospital.

4. Upon collection of payment, a receipt for the amount tendered will be issued with the discount clearly documented.

5. The white copy of the receipt will be given to the patient for their records.

6. The pink copy will be forwarded to the cashier with the funds for posting both payment and the discount.

7. The yellow copy will be retained in the receipt book at the department.

8. Upon depletion of a receipt, it will be the department's responsibility to archive these books in accordance with existing document retention policies.

IRS TAX FORM 990 FILED BY GWHN FOR TAX YEAR 2014

MARCUM
ACCOUNTANTS ▲ ADVISORS

AUGUST 12, 2015

BARBARA HALLINAN
THE WATERBURY HOSPITAL
64 ROBBINS STREET
WATERBURY, CT 06708

DEAR BARBARA:

ENCLOSED ARE THE ORGANIZATION'S 2013 EXEMPT ORGANIZATION RETURNS. THE STATE EXEMPT ORGANIZATION RETURN IS ALSO ENCLOSED. THESE SHOULD BE SIGNED, DATED, AND MAILED, AS INDICATED.

SPECIFIC FILING INSTRUCTIONS ARE AS FOLLOWS.

FORM 990 RETURN:

THIS RETURN HAS QUALIFIED FOR ELECTRONIC FILING. AFTER YOU HAVE REVIEWED THE RETURN FOR COMPLETENESS AND ACCURACY, PLEASE SIGN, DATE AND RETURN FORM 8879-EO TO OUR OFFICE. WE WILL TRANSMIT THE RETURN ELECTRONICALLY TO THE IRS AND NO FURTHER ACTION IS REQUIRED. RETURN FORM 8879-EO TO US BY AUGUST 17, 2015.

FORM 990-T RETURN:

NO AMOUNT IS DUE ON FORM 990-T.

PLEASE SIGN AND MAIL ON OR BEFORE AUGUST 17, 2015.

MAIL TO - DEPARTMENT OF THE TREASURY
INTERNAL REVENUE SERVICE CENTER
OGDEN, UT 84201-0027

CONNECTICUT FORM CT-990T RETURN:

MAIL TO - DEPARTMENT OF REVENUE SERVICES
STATE OF CONNECTICUT
PO BOX 5014
HARTFORD, CT 06102-5014

PLEASE SIGN AND MAIL FORM CT-990T ON OR BEFORE AUGUST 17, 2015.

NO PAYMENT IS REQUIRED.

WE RECOMMEND THAT YOU USE CERTIFIED MAIL WITH POST MARKED RECEIPT FOR PROOF OF TIMELY FILING.

COPIES OF ALL THE RETURNS ARE ENCLOSED FOR YOUR FILES. WE SUGGEST THAT YOU RETAIN THESE COPIES INDEFINITELY.

VERY TRULY YOURS,

DOUGLAS FARRINGTON
MARCUM LLP

4a Form 990-PF check here ▶ [ ]	**b Tax based on investment income** (Form 990-PF, Part VI, line 5)	**4b**	
5a Form 8868 check here ▶ [ ]	**b Balance Due** (Form 8868, Part I, line 3c or Part II, line 8c)	**5b**	

Part II Declaration and Signature Authorization of Officer

Under penalties of perjury, I declare that I am an officer of the above organization and that I have examined a copy of the organization's 2013 electronic return and accompanying schedules and statements and to the best of my knowledge and belief, they are true, correct, and complete. I further declare that the amount in Part I above is the amount shown on the copy of the organization's electronic return. I consent to allow my intermediate service provider, transmitter, or electronic return originator (ERO) to send the organization's return to the IRS and to receive from the IRS **(a)** an acknowledgement of receipt or reason for rejection of the transmission, **(b)** the reason for any delay in processing the return or refund, and **(c)** the date of any refund. If applicable, I authorize the U.S. Treasury and its designated Financial Agent to initiate an electronic funds withdrawal (direct debit) entry to the financial institution account indicated in the tax preparation software for payment of the organization's federal taxes owed on this return, and the financial institution to debit the entry to this account. To revoke a payment, I must contact the U.S. Treasury Financial Agent at 1-888-353-4537 no later than 2 business days prior to the payment (settlement) date. I also authorize the financial institutions involved in the processing of the electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment. I have selected a personal identification number (PIN) as my signature for the organization's electronic return and, if applicable, the organization's consent to electronic funds withdrawal.

Officer's PIN: check one box only

[X] I authorize MARCUM LLP to enter my PIN 65979

ERO firm name

Enter five numbers, but do not enter all zeros

as my signature on the organization's tax year 2013 electronically filed return. If I have indicated within this return that a copy of the return is being filed with a state agency(ies) regulating charities as part of the IRS Fed/State program, I also authorize the aforementioned ERO to enter my PIN on the return's disclosure consent screen.

[ ] As an officer of the organization, I will enter my PIN as my signature on the organization's tax year 2013 electronically filed return. If I have indicated within this return that a copy of the return is being filed with a state agency(ies) regulating charities as part of the IRS Fed/State program, I will enter my PIN on the return's disclosure consent screen.

Officer's signature ▶ _____ Date ▶ _____

Part III Certification and Authentication

ERO's EFIN/PIN. Enter your six-digit electronic filing identification number (EFIN) followed by your five-digit self-selected PIN. 06411606103

do not enter all zeros

I certify that the above numeric entry is my PIN, which is my signature on the 2013 electronically filed return for the organization indicated above. I confirm that I am submitting this return in accordance with the requirements of **Pub. 4163,** Modernized e-File (MeF) Information for Authorized IRS *e-file* Providers for Business Returns.

4c (Code:) (Expenses $ including grants of $) (Revenue $)

4d Other program services (Describe in Schedule O.)
(Expenses $ including grants of $) (Revenue $)

4e Total program service expenses ▶ 192,231,293.

Part IV Checklist of Required Schedules

			Yes	No
1	Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? *If "Yes," complete Schedule A*	1	X	
2	Is the organization required to complete *Schedule B, Schedule of Contributors*?	2	X	
3	Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? *If "Yes," complete Schedule C, Part I*	3		X
4	**Section 501(c)(3) organizations.** Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? *If "Yes," complete Schedule C, Part II*	4	X	
5	Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? *If "Yes," complete Schedule C, Part III*	5		X
6	Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? *If "Yes," complete Schedule D, Part I*	6		X
7	Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? *If "Yes," complete Schedule D, Part II*	7		X
8	Did the organization maintain collections of works of art, historical treasures, or other similar assets? *If "Yes," complete Schedule D, Part III*	8		X
9	Did the organization report an amount in Part X, line 21, for escrow or custodial account liability; serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? *If "Yes," complete Schedule D, Part IV*	9		X
10	Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? *If "Yes," complete Schedule D, Part V*	10	X	
11	If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.			
a	Did the organization report an amount for land, buildings, and equipment in Part X, line 10? *If "Yes," complete Schedule D, Part VI*	11a	X	
b	Did the organization report an amount for investments - other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VII*	11b	X	
c	Did the organization report an amount for investments - program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VIII*	11c		X
d	Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part IX*	11d		X
e	Did the organization report an amount for other liabilities in Part X, line 25? *If "Yes," complete Schedule D, Part X*	11e	X	
f	Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? *If "Yes," complete Schedule D, Part X*	11f	X	
12a	Did the organization obtain separate, independent audited financial statements for the tax year? *If "Yes," complete Schedule D, Parts XI and XII*	12a		X
b	Was the organization included in consolidated, independent audited financial statements for the tax year? *If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional*	12b	X	
13	Is the organization a school described in section 170(b)(1)(A)(ii)? *If "Yes," complete Schedule E*	13		X
14a	Did the organization maintain an office, employees, or agents outside of the United States?	14a		X
b	Did the organization have aggregate revenues or expenses of more than $10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at $100,000 or more? *If "Yes," complete Schedule F, Parts I and IV*	14b		X
15	Did the organization report on Part IX, column (A), line 3, more than $5,000 of grants or other assistance to or for any foreign organization? *If "Yes," complete Schedule F, Parts II and IV*	15		X
16	Did the organization report on Part IX, column (A), line 3, more than $5,000 of aggregate grants or other assistance to or for foreign individuals? *If "Yes," complete Schedule F, Parts III and IV*	16		X
17	Did the organization report a total of more than $15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? *If "Yes," complete Schedule G, Part I*	17		X
18	Did the organization report more than $15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? *If "Yes," complete Schedule G, Part II*	18	X	
19	Did the organization report more than $15,000 of gross income from gaming activities on Part VIII, line 9a? *If "Yes," complete Schedule G, Part III*	19		X
20a	Did the organization operate one or more hospital facilities? *If "Yes," complete Schedule H*	20a	X	
b	If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?	20b	X	

Part IV Checklist of Required Schedules *(continued)*

			Yes	No
21	Did the organization report more than $5,000 of grants or other assistance to any domestic organization or government on Part IX, column (A), line 1? *If "Yes," complete Schedule I, Parts I and II*	21		X
22	Did the organization report more than $5,000 of grants or other assistance to individuals in the United States on Part IX, column (A), line 2? *If "Yes," complete Schedule I, Parts I and III*	22		X
23	Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? *If "Yes," complete Schedule J*	23	X	
24a	Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than $100,000 as of the last day of the year, that was issued after December 31, 2002? *If "Yes," answer lines 24b through 24d and complete Schedule K. If "No", go to line 25a*	24a	X	
b	Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?	24b		X
c	Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?	24c		X
d	Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?	24d		X
25a	**Section 501(c)(3) and 501(c)(4) organizations.** Did the organization engage in an excess benefit transaction with a disqualified person during the year? *If "Yes," complete Schedule L, Part I*	25a		X
b	Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? *If "Yes," complete Schedule L, Part I*	25b		X
26	Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? If so, complete Schedule L, Part II	26		X
27	Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? *If "Yes," complete Schedule L, Part III*	27		X
28	Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):			
a	A current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	28a	X	
b	A family member of a current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	28b		X
c	An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? *If "Yes," complete Schedule L, Part IV*	28c		X
29	Did the organization receive more than $25,000 in non-cash contributions? *If "Yes," complete Schedule M*	29		X
30	Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? *If "Yes," complete Schedule M*	30		X
31	Did the organization liquidate, terminate, or dissolve and cease operations? *If "Yes," complete Schedule N, Part I*	31		X
32	Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? *If "Yes," complete Schedule N, Part II*	32		X
33	Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? *If "Yes," complete Schedule R, Part I*	33	X	
34	Was the organization related to any tax-exempt or taxable entity? *If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1*	34	X	
35a	Did the organization have a controlled entity within the meaning of section 512(b)(13)?	35a	X	
b	If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? *If "Yes," complete Schedule R, Part V, line 2*	35b	X	
36	**Section 501(c)(3) organizations.** Did the organization make any transfers to an exempt non-charitable related organization? *If "Yes," complete Schedule R, Part V, line 2*	36		X
37	Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? *If "Yes," complete Schedule R, Part VI*	37		X
38	Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? **Note.** All Form 990 filers are required to complete Schedule O	38	X	

Part V Statements Regarding Other IRS Filings and Tax Compliance

Check if Schedule O contains a response or note to any line in this Part V ☐

				Yes	No
1a	Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable	1a	325		
b	Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable	1b	0		
c	Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?	1c		X	
2a	Enter the number of employees reported on Form W-3, Transmittal of Wage and Tax Statements, filed for the calendar year ending with or within the year covered by this return	2a	1842		
b	If at least one is reported on line 2a, did the organization file all required federal employment tax returns?	2b		X	
	Note. If the sum of lines 1a and 2a is greater than 250, you may be required to *e-file* (see instructions)				
3a	Did the organization have unrelated business gross income of $1,000 or more during the year?	3a		X	
b	If "Yes," has it filed a Form 990-T for this year? *If "No," to line 3b, provide an explanation in Schedule O*	3b		X	
4a	At any time during the calendar year, did the organization have an interest in, or a signature or other authority over, a financial account in a foreign country (such as a bank account, securities account, or other financial account)?	4a			X
b	If "Yes," enter the name of the foreign country: ▶ _____ See instructions for filing requirements for Form TD F 90-22.1, Report of Foreign Bank and Financial Accounts.				
5a	Was the organization a party to a prohibited tax shelter transaction at any time during the tax year?	5a			X
b	Did any taxable party notify the organization that it was or is a party to a prohibited tax shelter transaction?	5b			X
c	If "Yes," to line 5a or 5b, did the organization file Form 8886-T?	5c			
6a	Does the organization have annual gross receipts that are normally greater than $100,000, and did the organization solicit any contributions that were not tax deductible as charitable contributions?	6a			X
b	If "Yes," did the organization include with every solicitation an express statement that such contributions or gifts were not tax deductible?	6b			
7	**Organizations that may receive deductible contributions under section 170(c).**				
a	Did the organization receive a payment in excess of $75 made partly as a contribution and partly for goods and services provided to the payor?	7a		X	
b	If "Yes," did the organization notify the donor of the value of the goods or services provided?	7b		X	
c	Did the organization sell, exchange, or otherwise dispose of tangible personal property for which it was required to file Form 8282?	7c			X
d	If "Yes," indicate the number of Forms 8282 filed during the year	7d			
e	Did the organization receive any funds, directly or indirectly, to pay premiums on a personal benefit contract?	7e			X
f	Did the organization, during the year, pay premiums, directly or indirectly, on a personal benefit contract?	7f			X
g	If the organization received a contribution of qualified intellectual property, did the organization file Form 8899 as required?	7g			
h	If the organization received a contribution of cars, boats, airplanes, or other vehicles, did the organization file a Form 1098-C?	7h			
8	**Sponsoring organizations maintaining donor advised funds and section 509(a)(3) supporting organizations.** Did the supporting organization, or a donor advised fund maintained by a sponsoring organization, have excess business holdings at any time during the year?	8			
9	**Sponsoring organizations maintaining donor advised funds.**				
a	Did the organization make any taxable distributions under section 4966?	9a			
b	Did the organization make a distribution to a donor, donor advisor, or related person?	9b			
10	**Section 501(c)(7) organizations.** Enter:				
a	Initiation fees and capital contributions included on Part VIII, line 12	10a			
b	Gross receipts, included on Form 990, Part VIII, line 12, for public use of club facilities	10b			
11	**Section 501(c)(12) organizations.** Enter:				
a	Gross income from members or shareholders	11a			
b	Gross income from other sources (Do not net amounts due or paid to other sources against amounts due or received from them.)	11b			
12a	**Section 4947(a)(1) non-exempt charitable trusts.** Is the organization filing Form 990 in lieu of Form 1041?	12a			
b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year	12b			
13	**Section 501(c)(29) qualified nonprofit health insurance issuers.**				
a	Is the organization licensed to issue qualified health plans in more than one state?	13a			
	Note. See the instructions for additional information the organization must report on Schedule O.				
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b			
c	Enter the amount of reserves on hand	13c			
14a	Did the organization receive any payments for indoor tanning services during the tax year?	14a			X
b	If "Yes," has it filed a Form 720 to report these payments? *If "No," provide an explanation in Schedule O*	14b			

Part VI Governance, Management, and Disclosure *For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.*

Check if Schedule O contains a response or note to any line in this Part VI X

Section A. Governing Body and Management

			Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year 1a	15		
	If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O.			
b	Enter the number of voting members included in line 1a, above, who are independent 1b	10		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee? 2			X
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person? 3			X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed? 4			X
5	Did the organization become aware during the year of a significant diversion of the organization's assets? 5			X
6	Did the organization have members or stockholders? 6		X	
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body? 7a		X	
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body? 7b		X	
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:			
a	The governing body? 8a		X	
b	Each committee with authority to act on behalf of the governing body? 8b		X	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? *If "Yes," provide the names and addresses in Schedule O* 9			X

Section B. Policies *(This Section B requests information about policies not required by the Internal Revenue Code.)*

			Yes	No
10a	Did the organization have local chapters, branches, or affiliates? 10a			X
b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes? 10b			
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form? 11a		X	
b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.			
12a	Did the organization have a written conflict of interest policy? *If "No," go to line 13* 12a		X	
b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts? 12b		X	
c	Did the organization regularly and consistently monitor and enforce compliance with the policy? *If "Yes," describe in Schedule O how this was done* 12c		X	
13	Did the organization have a written whistleblower policy? 13		X	
14	Did the organization have a written document retention and destruction policy? 14		X	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
a	The organization's CEO, Executive Director, or top management official 15a		X	
b	Other officers or key employees of the organization 15b		X	
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year? 16a		X	
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements? 16b			X

Section C. Disclosure

17 List the states with which a copy of this Form 990 is required to be filed ▶ NONE

18 Section 6104 requires an organization to make its Forms 1023 (or 1024 if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.

☐ Own website ☒ Another's website ☒ Upon request ☐ Other *(explain in Schedule O)*

19 Describe in Schedule O whether (and if so, how), the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.

20 State the name, physical address, and telephone number of the person who possesses the books and records of the organization: ▶

SCOTT BOWMAN - 203-573-7333

Part VII Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated Employees, and Independent Contractors

Check if Schedule O contains a response or note to any line in this Part VII ☐

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.

- List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.
- List all of the organization's **current** key employees, if any. See instructions for definition of "key employee."
- List the organization's five **current** highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (Box 5 of Form W-2 and/or Box 7 of Form 1099-MISC) of more than $100,000 from the organization and any related organizations.
- List all of the organization's **former** officers, key employees, and highest compensated employees who received more than $100,000 of reportable compensation from the organization and any related organizations.
- List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than $10,000 of reportable compensation from the organization and any related organizations.

List persons in the following order: individual trustees or directors; institutional trustees; officers; key employees; highest compensated employees; and former such persons.

☐ Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

(A) Name and Title	(B) Average hours per week (list any hours for related organizations below line)	(C) Position (do not check more than one box, unless person is both an officer and a director/trustee)						(D) Reportable compensation from the organization (W-2/1099-MISC)	(E) Reportable compensation from related organizations (W-2/1099-MISC)	(F) Estimated amount of other compensation from the organization and related organizations

	34	Total liabilities and net assets/fund balances	170,955,068.	34	172,168,042.

Part XI Reconciliation of Net Assets

Check if Schedule O contains a response or note to any line in this Part XI X

1	Total revenue (must equal Part VIII, column (A), line 12)	1	234,229,162.
2	Total expenses (must equal Part IX, column (A), line 25)	2	231,828,540.
3	Revenue less expenses. Subtract line 2 from line 1	3	2,400,622.
4	Net assets or fund balances at beginning of year (must equal Part X, line 33, column (A))	4	86,138,702.
5	Net unrealized gains (losses) on investments	5	118,716.
6	Donated services and use of facilities	6	
7	Investment expenses	7	
8	Prior period adjustments	8	
9	Other changes in net assets or fund balances (explain in Schedule O)	9	-7,682,243.
10	Net assets or fund balances at end of year. Combine lines 3 through 9 (must equal Part X, line 33, column (B))	10	80,975,797.

Part XII Financial Statements and Reporting

Check if Schedule O contains a response or note to any line in this Part XII X

			Yes	No
1	Accounting method used to prepare the Form 990: ☐ Cash ☒ Accrual ☐ Other _____ If the organization changed its method of accounting from a prior year or checked "Other," explain in Schedule O.			
2a	Were the organization's financial statements compiled or reviewed by an independent accountant?	2a		X
	If "Yes," check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both: ☐ Separate basis ☐ Consolidated basis ☐ Both consolidated and separate basis			
b	Were the organization's financial statements audited by an independent accountant?	2b	X	
	If "Yes," check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both: ☐ Separate basis ☒ Consolidated basis ☐ Both consolidated and separate basis			
c	If "Yes" to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant?	2c	X	
	If the organization changed either its oversight process or selection process during the tax year, explain in Schedule O.			
3a	As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Single Audit Act and OMB Circular A-133?	3a		X
b	If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why in Schedule O and describe any steps taken to undergo such audits	3b		

SCHEDULE A (Form 990 or 990-EZ)

Department of the Treasury
Internal Revenue Service

Public Charity Status and Public Support

Complete if the organization is a section 501(c)(3) organization or a section 4947(a)(1) nonexempt charitable trust.

▶ **Attach to Form 990 or Form 990-EZ.**

▶ **Information about Schedule A (Form 990 or 990-EZ) and its instructions is at** *www.irs.gov/form990.*

OMB No. 1545-0047

2013

Open to Public Inspection

Name of the organization

THE WATERBURY HOSPITAL

Employer identification number

06-0665979

Part I Reason for Public Charity Status (All organizations must complete this part.) See instructions.

The organization is not a private foundation because it is: (For lines 1 through 11, check only one box.)

1 ☐ A church, convention of churches, or association of churches described in **section 170(b)(1)(A)(i).**

2 ☐ A school described in **section 170(b)(1)(A)(ii).** (Attach Schedule E.)

3 ☒ A hospital or a cooperative hospital service organization described in **section 170(b)(1)(A)(iii).**

4 ☐ A medical research organization operated in conjunction with a hospital described in **section 170(b)(1)(A)(iii).** Enter the hospital's name, city, and state: _____

5 ☐ An organization operated for the benefit of a college or university owned or operated by a governmental unit described in **section 170(b)(1)(A)(iv).** (Complete Part II.)

6 ☐ A federal, state, or local government or governmental unit described in **section 170(b)(1)(A)(v).**

7 ☐ An organization that normally receives a substantial part of its support from a governmental unit or from the general public described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

8 ☐ A community trust described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

9 ☐ An organization that normally receives: (1) more than 33 1/3% of its support from contributions, membership fees, and gross receipts from activities related to its exempt functions - subject to certain exceptions, and (2) no more than 33 1/3% of its support from gross investment income and unrelated business taxable income (less section 511 tax) from businesses acquired by the organization after June 30, 1975. See **section 509(a)(2).** (Complete Part III.)

10 ☐ An organization organized and operated exclusively to test for public safety. See **section 509(a)(4).**

11 ☐ An organization organized and operated exclusively for the benefit of, to perform the functions of, or to carry out the purposes of one or more publicly supported organizations described in section 509(a)(1) or section 509(a)(2). See **section 509(a)(3).** Check the box that describes the type of supporting organization and complete lines 11e through 11h.

a ☐ Type I **b** ☐ Type II **c** ☐ Type III - Functionally integrated **d** ☐ Type III - Non-functionally integrated

e ☐ By checking this box, I certify that the organization is not controlled directly or indirectly by one or more disqualified persons other than foundation managers and other than one or more publicly supported organizations described in section 509(a)(1) or section 509(a)(2).

f If the organization received a written determination from the IRS that it is a Type I, Type II, or Type III supporting organization, check this box ..... ☐

g Since August 17, 2006, has the organization accepted any gift or contribution from any of the following persons?

		Yes	No
(i)	A person who directly or indirectly controls, either alone or together with persons described in (ii) and (iii) below, the governing body of the supported organization?	**11g(i)**	
(ii)	A family member of a person described in (i) above?	**11g(ii)**	
(iii)	A 35% controlled entity of a person described in (i) or (ii) above?	**11g(iii)**	

h Provide the following information about the supported organization(s).

(i) Name of supported organization	(ii) EIN	(iii) Type of organization (described on lines 1-9 above or IRC section (see instructions))	(iv) Is the organization in col. (i) listed in your governing document?		(v) Did you notify the organization in col. (i) of your support?		(vi) Is the organization in col. (i) organized in the U.S.?		(vii) Amount of monetary support
			Yes	No	Yes	No	Yes	No	
Total									

Part II **Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)**

(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ▶	(a) 2009	(b) 2010	(c) 2011	(d) 2012	(e) 2013	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
3 The value of services or facilities furnished by a governmental unit to the organization without charge						
4 **Total.** Add lines 1 through 3						
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 **Public support.** Subtract line 5 from line 4.						

Section B. Total Support

Calendar year (or fiscal year beginning in) ▶	(a) 2009	(b) 2010	(c) 2011	(d) 2012	(e) 2013	(f) Total
7 Amounts from line 4						
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties and income from similar sources						
9 Net income from unrelated business activities, whether or not the business is regularly carried on						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part IV.)						
11 **Total support.** Add lines 7 through 10						

12 Gross receipts from related activities, etc. (see instructions) 12

13 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** ..... ▶ ☐

Section C. Computation of Public Support Percentage

14 Public support percentage for 2013 (line 6, column (f) divided by line 11, column (f)) ..... 14 %

15 Public support percentage from 2012 Schedule A, Part II, line 14 ..... 15 %

16a **33 1/3% support test - 2013.** If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization ..... ▶ ☐

b **33 1/3% support test - 2012.** If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization ..... ▶ ☐

17a **10% -facts-and-circumstances test - 2013.** If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part IV how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization ..... ▶ ☐

b **10% -facts-and-circumstances test - 2012.** If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part IV how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization ..... ▶ ☐

18 **Private foundation.** If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions ..... ▶ ☐

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 9 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ▶	(a) 2009	(b) 2010	(c) 2011	(d) 2012	(e) 2013	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 **Total.** Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of $5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 **Public support** (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) ▶	(a) 2009	(b) 2010	(c) 2011	(d) 2012	(e) 2013	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties and income from similar sources						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part IV.)						
13 **Total support.** (Add lines 9, 10c, 11, and 12.)						

14 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** ▶ ☐

Section C. Computation of Public Support Percentage

15 Public support percentage for 2013 (line 8, column (f) divided by line 13, column (f))	15	%
16 Public support percentage from 2012 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17 Investment income percentage for **2013** (line 10c, column (f) divided by line 13, column (f))	17	%
18 Investment income percentage from **2012** Schedule A, Part III, line 17	18	%

19a **33 1/3% support tests - 2013.** If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

b **33 1/3% support tests - 2012.** If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

20 **Private foundation.** If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions ▶ ☐

Part IV **Supplemental Information.** Provide the explanations required by Part II, line 10; Part II, line 17a or 17b; and Part III, line 12. Also complete this part for any additional information. (See instructions).

OMB No. 1545-0047

2013

Name of the organization	Employer identification number
THE WATERBURY HOSPITAL	06-0665979

Organization type (check one):

Filers of:	Section:
Form 990 or 990-EZ	☒ 501(c)(3) (enter number) organization
	☐ 4947(a)(1) nonexempt charitable trust **not** treated as a private foundation
	☐ 527 political organization
Form 990-PF	☐ 501(c)(3) exempt private foundation
	☐ 4947(a)(1) nonexempt charitable trust treated as a private foundation
	☐ 501(c)(3) taxable private foundation

Check if your organization is covered by the **General Rule** or a **Special Rule.**
Note. Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions.

General Rule

☒ For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, $5,000 or more (in money or property) from any one contributor. Complete Parts I and II.

Special Rules

☐ For a section 501(c)(3) organization filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi) and received from any one contributor, during the year, a contribution of the greater of **(1)** $5,000 or **(2)** 2% of the amount on (i) Form 990, Part VIII, line 1h, or (ii) Form 990-EZ, line 1. Complete Parts I and II.

☐ For a section 501(c)(7), (8), or (10) organization filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than $1,000 for use *exclusively* for religious, charitable, scientific, literary, or educational purposes, or the prevention of cruelty to children or animals. Complete Parts I, II, and III.

☐ For a section 501(c)(7), (8), or (10) organization filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions for use *exclusively* for religious, charitable, etc., purposes, but these contributions did not total to more than $1,000. If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Do not complete any of the parts unless the **General Rule** applies to this organization because it received *nonexclusively* religious, charitable, etc., contributions of $5,000 or more during the year ..... ▶ $ _____

Caution. An organization that is not covered by the General Rule and/or the Special Rules does not file Schedule B (Form 990, 990-EZ, or 990-PF), but it **must** answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it does not meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

SCHEDULE C
(Form 990 or 990-EZ)

Department of the Treasury
Internal Revenue Service

Political Campaign and Lobbying Activities

For Organizations Exempt From Income Tax Under section 501(c) and section 527

▶ **Complete if the organization is described below.** ▶ **Attach to Form 990 or Form 990-EZ.**
▶ **See separate instructions.** ▶ **Information about Schedule C (Form 990 or 990-EZ) and its instructions is at** *www.irs.gov/form990.*

OMB No. 1545-0047

2013

Open to Public Inspection

If the organization answered "Yes," to Form 990, Part IV, line 3, or Form 990-EZ, Part V, line 46 (Political Campaign Activities), then

- Section 501(c)(3) organizations: Complete Parts I-A and B. Do not complete Part I-C.
- Section 501(c) (other than section 501(c)(3)) organizations: Complete Parts I-A and C below. Do not complete Part I-B.
- Section 527 organizations: Complete Part I-A only.

If the organization answered "Yes," to Form 990, Part IV, line 4, or Form 990-EZ, Part VI, line 47 (Lobbying Activities), then

- Section 501(c)(3) organizations that have filed Form 5768 (election under section 501(h)): Complete Part II-A. Do not complete Part II-B.
- Section 501(c)(3) organizations that have NOT filed Form 5768 (election under section 501(h)): Complete Part II-B. Do not complete Part II-A.

If the organization answered "Yes," to Form 990, Part IV, line 5 (Proxy Tax) or Form 990-EZ, Part V, line 35c (Proxy Tax), then

- Section 501(c)(4), (5), or (6) organizations: Complete Part III.

Name of organization	Employer identification number
THE WATERBURY HOSPITAL	06-0665979

Part I-A Complete if the organization is exempt under section 501(c) or is a section 527 organization.

1 Provide a description of the organization's direct and indirect political campaign activities in Part IV.
2 Political expenditures ▶ $
3 Volunteer hours

Part I-B Complete if the organization is exempt under section 501(c)(3).

1 Enter the amount of any excise tax incurred by the organization under section 4955 ▶ $
2 Enter the amount of any excise tax incurred by organization managers under section 4955 ▶ $
3 If the organization incurred a section 4955 tax, did it file Form 4720 for this year? ☐ Yes ☐ No
4a Was a correction made? ☐ Yes ☐ No
b If "Yes," describe in Part IV.

Part I-C Complete if the organization is exempt under section 501(c), except section 501(c)(3).

1 Enter the amount directly expended by the filing organization for section 527 exempt function activities ▶ $
2 Enter the amount of the filing organization's funds contributed to other organizations for section 527 exempt function activities ▶ $
3 Total exempt function expenditures. Add lines 1 and 2. Enter here and on Form 1120-POL, line 17b ▶ $
4 Did the filing organization file **Form 1120-POL** for this year? ☐ Yes ☐ No
5 Enter the names, addresses and employer identification number (EIN) of all section 527 political organizations to which the filing organization made payments. For each organization listed, enter the amount paid from the filing organization's funds. Also enter the amount of political contributions received that were promptly and directly delivered to a separate political organization, such as a separate segregated fund or a political action committee (PAC). If additional space is needed, provide information in Part IV.

(a) Name	**(b)** Address	**(c)** EIN	**(d)** Amount paid from filing organization's funds. If none, enter -0-.	**(e)** Amount of political contributions received and promptly and directly delivered to a separate political organization. If none, enter -0-.

Part II-A **Complete if the organization is exempt under section 501(c)(3) and filed Form 5768 (election under section 501(h)).**

A Check ▶ ☐ if the filing organization belongs to an affiliated group (and list in Part IV each affiliated group member's name, address, EIN, expenses, and share of excess lobbying expenditures).

B Check ▶ ☐ if the filing organization checked box A and "limited control" provisions apply.

Limits on Lobbying Expenditures (The term "expenditures" means amounts paid or incurred.)	(a) Filing organization's totals	(b) Affiliated group totals
1a Total lobbying expenditures to influence public opinion (grass roots lobbying)		
b Total lobbying expenditures to influence a legislative body (direct lobbying)		
c Total lobbying expenditures (add lines 1a and 1b)		
d Other exempt purpose expenditures		
e Total exempt purpose expenditures (add lines 1c and 1d)		
f Lobbying nontaxable amount. Enter the amount from the following table in both columns.		

If the amount on line 1e, column (a) or (b) is:	The lobbying nontaxable amount is:
Not over $500,000	20% of the amount on line 1e.
Over $500,000 but not over $1,000,000	$100,000 plus 15% of the excess over $500,000.
Over $1,000,000 but not over $1,500,000	$175,000 plus 10% of the excess over $1,000,000.
Over $1,500,000 but not over $17,000,000	$225,000 plus 5% of the excess over $1,500,000.
Over $17,000,000	$1,000,000.

g Grassroots nontaxable amount (enter 25% of line 1f)		
h Subtract line 1g from line 1a. If zero or less, enter -0-		
i Subtract line 1f from line 1c. If zero or less, enter -0-		

j If there is an amount other than zero on either line 1h or line 1i, did the organization file Form 4720 reporting section 4911 tax for this year? ☐ **Yes** ☐ **No**

4-Year Averaging Period Under Section 501(h)
(Some organizations that made a section 501(h) election do not have to complete all of the five columns below. See the instructions for lines 2a through 2f on page 4.)

Lobbying Expenditures During 4-Year Averaging Period

Calendar year (or fiscal year beginning in)	(a) 2010	(b) 2011	(c) 2012	(d) 2013	(e) Total
2a Lobbying nontaxable amount					
b Lobbying ceiling amount (150% of line 2a, column(e))					
c Total lobbying expenditures					
d Grassroots nontaxable amount					
e Grassroots ceiling amount (150% of line 2d, column (e))					
f Grassroots lobbying expenditures					

Part II-B **Complete if the organization is exempt under section 501(c)(3) and has NOT filed Form 5768 (election under section 501(h)).**

For each "Yes," response to lines 1a through 1i below, provide in Part IV a detailed description of the lobbying activity.	(a) Yes	(a) No	(b) Amount
1 During the year, did the filing organization attempt to influence foreign, national, state or local legislation, including any attempt to influence public opinion on a legislative matter or referendum, through the use of:			
a Volunteers?		X	
b Paid staff or management (include compensation in expenses reported on lines 1c through 1i)?	X		
c Media advertisements?	X		
d Mailings to members, legislators, or the public?	X		
e Publications, or published or broadcast statements?	X		
f Grants to other organizations for lobbying purposes?	X		60,000.
g Direct contact with legislators, their staffs, government officials, or a legislative body?	X		
h Rallies, demonstrations, seminars, conventions, speeches, lectures, or any similar means?	X		
i Other activities?	X		48,506.
j Total. Add lines 1c through 1i			108,506.
2a Did the activities in line 1 cause the organization to be not described in section 501(c)(3)?		X	
b If "Yes," enter the amount of any tax incurred under section 4912			
c If "Yes," enter the amount of any tax incurred by organization managers under section 4912			
d If the filing organization incurred a section 4912 tax, did it file Form 4720 for this year?			

Part III-A **Complete if the organization is exempt under section 501(c)(4), section 501(c)(5), or section 501(c)(6).**

		Yes	No
1 Were substantially all (90% or more) dues received nondeductible by members?	1		
2 Did the organization make only in-house lobbying expenditures of $2,000 or less?	2		
3 Did the organization agree to carry over lobbying and political expenditures from the prior year?	3		

Part III-B **Complete if the organization is exempt under section 501(c)(4), section 501(c)(5), or section 501(c)(6) and if either (a) BOTH Part III-A, lines 1 and 2, are answered "No," OR (b) Part III-A, line 3, is answered "Yes."**

1 Dues, assessments and similar amounts from members	1	
2 Section 162(e) nondeductible lobbying and political expenditures **(do not include amounts of political expenses for which the section 527(f) tax was paid).**		
a Current year	2a	
b Carryover from last year	2b	
c Total	2c	
3 Aggregate amount reported in section 6033(e)(1)(A) notices of nondeductible section 162(e) dues	3	
4 If notices were sent and the amount on line 2c exceeds the amount on line 3, what portion of the excess does the organization agree to carryover to the reasonable estimate of nondeductible lobbying and political expenditure next year?	4	
5 Taxable amount of lobbying and political expenditures (see instructions)	5	

Part IV **Supplemental Information**

Provide the descriptions required for Part I-A, line 1; Part I-B, line 4; Part I-C, line 5; Part II-A (affiliated group list); Part II-A, line 2; and Part II-B, line 1. Also, complete this part for any additional information.

PART II-B, LINE 1, LOBBYING ACTIVITIES:

A PORTION OF THE CT HOSPITAL ASSOCIATION AND AMERICAN HOSPITAL ASSOCIATION FEES THAT ARE PAID BY THE WATERBURY HOSPITAL IS FOR LOBBYING ACTIVITIES. THE WATERBURY HOSPITAL ALSO PAYS ROY AND LEROY LLC FOR LOBBYING SERVICES TOTALING $60,000.

SCHEDULE D (Form 990)

OMB No. 1545-0047

2013

Open to Public Inspection

Name of the organization
THE WATERBURY HOSPITAL

Employer identification number
06-0665979

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts. Complete if the organization answered "Yes" to Form 990, Part IV, line 6.

		(a) Donor advised funds	(b) Funds and other accounts
1	Total number at end of year		
2	Aggregate contributions to (during year)		
3	Aggregate grants from (during year)		
4	Aggregate value at end of year		

5 Did the organization inform all donors and donor advisors in writing that the assets held in donor advised funds are the organization's property, subject to the organization's exclusive legal control? ☐ Yes ☐ No

6 Did the organization inform all grantees, donors, and donor advisors in writing that grant funds can be used only for charitable purposes and not for the benefit of the donor or donor advisor, or for any other purpose conferring impermissible private benefit? ☐ Yes ☐ No

Part II Conservation Easements. Complete if the organization answered "Yes" to Form 990, Part IV, line 7.

1 Purpose(s) of conservation easements held by the organization (check all that apply).
- ☐ Preservation of land for public use (e.g., recreation or education)
- ☐ Protection of natural habitat
- ☐ Preservation of open space
- ☐ Preservation of an historically important land area
- ☐ Preservation of a certified historic structure

2 Complete lines 2a through 2d if the organization held a qualified conservation contribution in the form of a conservation easement on the last day of the tax year.

			Held at the End of the Tax Year
a	Total number of conservation easements	2a	
b	Total acreage restricted by conservation easements	2b	
c	Number of conservation easements on a certified historic structure included in (a)	2c	
d	Number of conservation easements included in (c) acquired after 8/17/06, and not on a historic structure listed in the National Register	2d	

3 Number of conservation easements modified, transferred, released, extinguished, or terminated by the organization during the tax year ▶ _____

4 Number of states where property subject to conservation easement is located ▶ _____

5 Does the organization have a written policy regarding the periodic monitoring, inspection, handling of violations, and enforcement of the conservation easements it holds? ☐ Yes ☐ No

6 Staff and volunteer hours devoted to monitoring, inspecting, and enforcing conservation easements during the year ▶ _____

7 Amount of expenses incurred in monitoring, inspecting, and enforcing conservation easements during the year ▶ $ _____

8 Does each conservation easement reported on line 2(d) above satisfy the requirements of section 170(h)(4)(B)(i) and section 170(h)(4)(B)(ii)? ☐ Yes ☐ No

9 In Part XIII, describe how the organization reports conservation easements in its revenue and expense statement, and balance sheet, and include, if applicable, the text of the footnote to the organization's financial statements that describes the organization's accounting for conservation easements.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets.

Complete if the organization answered "Yes" to Form 990, Part IV, line 8.

1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide, in Part XIII, the text of the footnote to its financial statements that describes these items.

b If the organization elected, as permitted under SFAS 116 (ASC 958), to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide the following amounts relating to these items:

(i) Revenues included in Form 990, Part VIII, line 1 ▶ $ _____

(ii) Assets included in Form 990, Part X ▶ $ _____

2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain, provide the following amounts required to be reported under SFAS 116 (ASC 958) relating to these items:

a Revenues included in Form 990, Part VIII, line 1 ▶ $ _____

b Assets included in Form 990, Part X ▶ $ _____

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets *(continued)*

3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):

a ☐ Public exhibition
b ☐ Scholarly research
c ☐ Preservation for future generations
d ☐ Loan or exchange programs
e ☐ Other _____

4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.

5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? ☐ Yes ☐ No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" to Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII and complete the following table:

		Amount
c Beginning balance	1c	
d Additions during the year	1d	
e Distributions during the year	1e	
f Ending balance	1f	

2a Did the organization include an amount on Form 990, Part X, line 21? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided in Part XIII ☐

Part V Endowment Funds. Complete if the organization answered "Yes" to Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance	58,391,891.	54,791,385.	48,442,875.	51,457,624.	49,308,865.
b Contributions					20.
c Net investment earnings, gains, and losses	2,214,558.	4,160,381.	6,884,672.	-2,784,813.	2,729,359.
d Grants or scholarships					
e Other expenditures for facilities and programs	773,967.	559,875.	536,162.	229,936.	580,620.
f Administrative expenses					
g End of year balance	59,832,482.	58,391,891.	54,791,385.	48,442,875.	51,457,624.

2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:

a Board designated or quasi-endowment ▶ 5.54 %
b Permanent endowment ▶ 81.75 %
c Temporarily restricted endowment ▶ 12.71 %

The percentages in lines 2a, 2b, and 2c should equal 100%.

3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:

		Yes	No
(i) unrelated organizations	3a(i)	X	
(ii) related organizations	3a(ii)		X
b If "Yes" to 3a(ii), are the related organizations listed as required on Schedule R?	3b		

4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" to Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a Land		287,549.		287,549.
b Buildings		86,691,215.	71,666,585.	15,024,630.
c Leasehold improvements		654,276.	487,682.	166,594.
d Equipment		177,982,606.	162,263,411.	15,719,195.
e Other		2,683,579.	2,328,159.	355,420.
Total. Add lines 1a through 1e. *(Column (d) must equal Form 990, Part X, column (B), line 10(c).)* ▶				31,553,388.

Schedule D (Form 990) 2013

Open To Public Inspection

Name of the organization
THE WATERBURY HOSPITAL

Employer identification number
06-0665979

Part I **Fundraising Activities.** Complete if the organization answered "Yes" to Form 990, Part IV, line 17. Form 990-EZ filers are not required to complete this part.

1 Indicate whether the organization raised funds through any of the following activities. Check all that apply.

a ☐ Mail solicitations
b ☐ Internet and email solicitations
c ☐ Phone solicitations
d ☐ In-person solicitations
e ☐ Solicitation of non-government grants
f ☐ Solicitation of government grants
g ☐ Special fundraising events

2 a Did the organization have a written or oral agreement with any individual (including officers, directors, trustees or key employees listed in Form 990, Part VII) or entity in connection with professional fundraising services? ☐ **Yes** ☐ **No**

b If "Yes," list the ten highest paid individuals or entities (fundraisers) pursuant to agreements under which the fundraiser is to be compensated at least $5,000 by the organization.

(i) Name and address of individual or entity (fundraiser)	**(ii)** Activity	**(iii)** Did fundraiser have custody or control of contributions? Yes	No	**(iv)** Gross receipts from activity	**(v)** Amount paid to (or retained by) fundraiser listed in col. **(i)**	**(vi)** Amount paid to (or retained by) organization
Total ▶						

3 List all states in which the organization is registered or licensed to solicit contributions or has been notified it is exempt from registration or licensing.

Part II **Fundraising Events.** Complete if the organization answered "Yes" to Form 990, Part IV, line 18, or reported more than $15,000 of fundraising event contributions and gross income on Form 990-EZ, lines 1 and 6b. List events with gross receipts greater than $5,000.

		(a) Event #1 GALA (event type)	(b) Event #2 GOLF TOURNAMENT (event type)	(c) Other events 1 (total number)	(d) Total events (add col. (a) through col. (c))
Revenue	1 Gross receipts	142,035.	94,080.	39,660.	275,775.
	2 Less: Contributions				
	3 Gross income (line 1 minus line 2)	142,035.	94,080.	39,660.	275,775.
Direct Expenses	4 Cash prizes				
	5 Noncash prizes		5,940.		5,940.
	6 Rent/facility costs	34,350.	20,379.	14,550.	69,279.
	7 Food and beverages				
	8 Entertainment				
	9 Other direct expenses	54,732.	4,812.	15,109.	74,653.
	10 Direct expense summary. Add lines 4 through 9 in column (d) ▶				149,872.
	11 Net income summary. Subtract line 3, column (d) ▶				125,903.

Part III **Gaming.** Complete if the organization answered "Yes" to Form 990, Part IV, line 19, or reported more than $15,000 on Form 990-EZ, line 6a.

		(a) Bingo	(b) Pull tabs/instant bingo/progressive bingo	(c) Other gaming	(d) Total gaming (add col. (a) through col. (c))
Revenue	1 Gross revenue				
Direct Expenses	2 Cash prizes				
	3 Noncash prizes				
	4 Rent/facility costs				
	5 Other direct expenses				
	6 Volunteer labor	☐ Yes ____ % ☐ No	☐ Yes ____ % ☐ No	☐ Yes ____ % ☐ No	
	7 Direct expense summary. Add lines 2 through 5 in column (d) ▶				
	8 Net gaming income summary. Subtract line 7 from line 1, column (d) ▶				

9 Enter the state(s) in which the organization operates gaming activities: _____

a Is the organization licensed to operate gaming activities in each of these states? ☐ Yes ☐ No

b If "No," explain: _____

10a Were any of the organization's gaming licenses revoked, suspended or terminated during the tax year? ☐ Yes ☐ No

b If "Yes," explain: _____

11 Does the organization operate gaming activities with nonmembers? ☐ Yes ☐ No

12 Is the organization a grantor, beneficiary or trustee of a trust or a member of a partnership or other entity formed to administer charitable gaming? ☐ Yes ☐ No

13 Indicate the percentage of gaming activity operated in:

a The organization's facility	**13a**	%
b An outside facility	**13b**	%

14 Enter the name and address of the person who prepares the organization's gaming/special events books and records:

Name ▶ _____

Address ▶ _____

15a Does the organization have a contract with a third party from whom the organization receives gaming revenue? ☐ Yes ☐ No

b If "Yes," enter the amount of gaming revenue received by the organization ▶ $ _____ and the amount of gaming revenue retained by the third party ▶ $ _____ .

c If "Yes," enter name and address of the third party:

Name ▶ _____

Address ▶ _____

16 Gaming manager information:

Name ▶ _____

Gaming manager compensation ▶ $ _____

Description of services provided ▶ _____

☐ Director/officer ☐ Employee ☐ Independent contractor

17 Mandatory distributions:

a Is the organization required under state law to make charitable distributions from the gaming proceeds to retain the state gaming license? ☐ Yes ☐ No

b Enter the amount of distributions required under state law to be distributed to other exempt organizations or spent in the organization's own exempt activities during the tax year ▶ $

Part IV **Supplemental Information.** Provide the explanations required by Part I, line 2b, columns (iii) and (v), and Part III, lines 9, 9b, 10b, 15b, 15c, 16, and 17b, as applicable. Also complete this part to provide any additional information (see instructions).

OMB No. 1545-0047

2013

Open to Public Inspection

Name of the organization
THE WATERBURY HOSPITAL

Employer identification number
06-0665979

Part I Financial Assistance and Certain Other Community Benefits at Cost

		Yes	No
1a Did the organization have a financial assistance policy during the tax year? If "No," skip to question 6a	1a	X	
b If "Yes," was it a written policy?	1b	X	
2 If the organization had multiple hospital facilities, indicate which of the following best describes application of the financial assistance policy to its various hospital facilities during the tax year. ☐ Applied uniformly to all hospital facilities ☐ Applied uniformly to most hospital facilities ☐ Generally tailored to individual hospital facilities			
3 Answer the following based on the financial assistance eligibility criteria that applied to the largest number of the organization's patients during the tax year.			
a Did the organization use Federal Poverty Guidelines (FPG) as a factor in determining eligibility for providing *free* care? If "Yes," indicate which of the following was the FPG family income limit for eligibility for free care: ☐ 100% ☐ 150% ☒ 200% ☐ Other _____ %	3a	X	
b Did the organization use FPG as a factor in determining eligibility for providing *discounted* care? If "Yes," indicate which of the following was the family income limit for eligibility for discounted care: ☐ 200% ☐ 250% ☐ 300% ☐ 350% ☒ 400% ☐ Other _____ %	3b	X	
c If the organization used factors other than FPG in determining eligibility, describe in Part VI the income based criteria for determining eligibility for free or discounted care. Include in the description whether the organization used an asset test or other threshold, regardless of income, as a factor in determining eligibility for free or discounted care.			
4 Did the organization's financial assistance policy that applied to the largest number of its patients during the tax year provide for free or discounted care to the "medically indigent"?	4	X	
5a Did the organization budget amounts for free or discounted care provided under its financial assistance policy during the tax year?	5a	X	
b If "Yes," did the organization's financial assistance expenses exceed the budgeted amount?	5b	X	
c If "Yes" to line 5b, as a result of budget considerations, was the organization unable to provide free or discounted care to a patient who was eligible for free or discounted care?	5c		X
6a Did the organization prepare a community benefit report during the tax year?	6a	X	
b If "Yes," did the organization make it available to the public?	6b	X	

Complete the following table using the worksheets provided in the Schedule H instructions. Do not submit these worksheets with the Schedule H.

7 Financial Assistance and Certain Other Community Benefits at Cost

Financial Assistance and Means-Tested Government Programs	(a) Number of activities or programs (optional)	(b) Persons served (optional)	(c) Total community benefit expense	(d) Direct offsetting revenue	(e) Net community benefit expense	(f) Percent of total expense
a Financial Assistance at cost (from Worksheet 1)			1378274.	559,653.	818,621.	.36%
b Medicaid (from Worksheet 3, column a)		47,294	44947471.	37027473.	7919998.	3.47%
c Costs of other means-tested government programs (from Worksheet 3, column b)						
d **Total** Financial Assistance and Means-Tested Government Programs		47,294	46325745.	37587126.	8738619.	3.83%
Other Benefits

Part II Community Building Activities Complete this table if the organization conducted any community building activities during the tax year, and describe in Part VI how its community building activities promoted the health of the communities it serves.

		(a) Number of activities or programs (optional)	(b) Persons served (optional)	(c) Total community building expense	(d) Direct offsetting revenue	(e) Net community building expense	(f) Percent of total expense
1	Physical improvements and housing						
2	Economic development						
3	Community support		11,969	13,163.		13,163.	.01%
4	Environmental improvements						
5	Leadership development and training for community members		414	326,775.	131,908.	194,867.	.09%
6	Coalition building		430	50,405.		50,405.	.02%
7	Community health improvement advocacy						
8	Workforce development						
9	Other			45,672.	29,936.	15,736.	.01%
10	**Total**		12,813	436,015.	161,844.	274,171.	.13%

Part III Bad Debt, Medicare, & Collection Practices

Section A. Bad Debt Expense

				Yes	No
1	Did the organization report bad debt expense in accordance with Healthcare Financial Management Association Statement No. 15?	1		X	
2	Enter the amount of the organization's bad debt expense. Explain in Part VI the methodology used by the organization to estimate this amount	2	871,605.		
3	Enter the estimated amount of the organization's bad debt expense attributable to patients eligible under the organization's financial assistance policy. Explain in Part VI the methodology used by the organization to estimate this amount and the rationale, if any, for including this portion of bad debt as community benefit	3	0.		
4	Provide in Part VI the text of the footnote to the organization's financial statements that describes bad debt expense or the page number on which this footnote is contained in the attached financial statements.				

Section B. Medicare

5	Enter total revenue received from Medicare (including DSH and IME)	5	70,728,737.		
6	Enter Medicare allowable costs of care relating to payments on line 5	6	78,479,664.		
7	Subtract line 6 from line 5. This is the surplus (or shortfall)	7	-7,750,927.		
8	Describe in Part VI the extent to which any shortfall reported in line 7 should be treated as community benefit. Also describe in Part VI the costing methodology or source used to determine the amount reported on line 6. Check the box that describes the method used: ☐ Cost accounting system ☒ Cost to charge ratio ☐ Other				

Section C. Collection Practices

9a	Did the organization have a written debt collection policy during the tax year?	9a		X	
b	If "Yes," did the organization's collection policy that applied to the largest number of its patients during the tax year contain provisions on the collection practices to be followed for patients who are known to qualify for financial assistance? Describe in Part VI	9b		X	

Part IV Management Companies and Joint Ventures (owned 10% or more by officers, directors, trustees, key employees, and physicians - see instructions)

(a) Name of entity	(b) Description of primary activity of entity	(c) Organization's profit % or stock ownership %	(d) Officers, directors, trustees, or key employees' profit % or stock ownership %	(e) Physicians' profit % or stock ownership %

Part V Facility Information

Section A. Hospital Facilities
(list in order of size, from largest to smallest)

How many hospital facilities did the organization operate during the tax year? 1

Name, address, primary website address, and state license number	Licensed hospital	Gen. medical & surgical	Children's hospital	Teaching hospital	Critical access hospital	Research facility	ER-24 hours	ER-other	Other (describe)	Facility reporting group
1 THE WATERBURY HOSPITAL 64 ROBBINS STREET WATERBURY, CT 06708	X	X		X			X			

Part V Facility Information *(continued)*

Section B. Facility Policies and Practices

(Complete a separate Section B for each of the hospital facilities or facility reporting groups listed in Part V, Section A)

Name of hospital facility or facility reporting group THE WATERBURY HOSPITAL

If reporting on Part V, Section B for a single hospital facility only: line number of hospital facility (from Schedule H, Part V, Section A) 1

			Yes	No
Community Health Needs Assessment (Lines 1 through 8c are optional for tax years beginning on or before March 23, 2012)				
1	During the tax year or either of the two immediately preceding tax years, did the hospital facility conduct a community health needs assessment (CHNA)? If "No," skip to line 9	1	X	
	If "Yes," indicate what the CHNA report describes (check all that apply):			
a	[X] A definition of the community served by the hospital facility			
b	[X] Demographics of the community			
c	[X] Existing health care facilities and resources within the community that are available to respond to the health needs of the community			
d	[X] How data was obtained			
e	[X] The health needs of the community			
f	[X] Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups			
g	[X] The process for identifying and prioritizing community health needs and services to meet the community health needs			
h	[X] The process for consulting with persons representing the community's interests			
i	[X] Information gaps that limit the hospital facility's ability to assess the community's health needs			
j	[ ] Other (describe in Section C)			
2	Indicate the tax year the hospital facility last conducted a CHNA: 20 12			
3	In conducting its most recent CHNA, did the hospital facility take into account input from persons who represent the broad interests of the community served by the hospital facility, including those with special knowledge of or expertise in public health? If "Yes," describe in Section C how the hospital facility took into account input from persons who represent the community, and identify the persons the hospital facility consulted	3	X	
4	Was the hospital facility's CHNA conducted with one or more other hospital facilities? If "Yes," list the other hospital facilities in Section C	4	X	
5	Did the hospital facility make its CHNA report widely available to the public?	5	X	
	If "Yes," indicate how the CHNA report was made widely available (check all that apply):			
a	[X] Hospital facility's website (list url):			
b	[ ] Other website (list url):			
c	[X] Available upon request from the hospital facility			
d	[ ] Other (describe in Section C)			
6	If the hospital facility addressed needs identified in its most recently conducted CHNA, indicate how (check all that apply as of the end of the tax year):			
a	[X] Adoption of an implementation strategy that addresses each of the community health needs identified through the CHNA			
b	[X] Execution of the implementation strategy			
c	[X] Participation in the development of a community-wide plan			
d	[X] Participation in the execution of a community-wide plan			
e	[ ] Inclusion of a community benefit section in operational plans			
f	[ ] Adoption of a budget for provision of services that address the needs identified in the CHNA			
g	[X] Prioritization of health needs in its community			
h	[X] Prioritization of services that the hospital facility will undertake to meet health needs in its community			
i	[ ] Other (describe in Section C)			
7	Did the hospital facility address all of the needs identified in its most recently conducted CHNA? If "No," explain in Section C which needs it has not addressed and the reasons why it has not addressed such needs	7	X	
8a	Did the organization incur an excise tax under section 4959 for the hospital facility's failure to conduct a CHNA as required by section 501(r)(3)?	8a		X
b	If "Yes" to line 8a, did the organization file Form 4720 to report the section 4959 excise tax?	8b		
c	If "Yes" to line 8b, what is the total amount of section 4959 excise tax the organization reported on Form 4720 for all of its hospital facilities? **$**			

Part V Facility Information *(continued)* THE WATERBURY HOSPITAL

		Yes	No
Financial Assistance Policy			
Did the hospital facility have in place during the tax year a written financial assistance policy that:			
9 Explained eligibility criteria for financial assistance, and whether such assistance includes free or discounted care?	9	X	
10 Used federal poverty guidelines (FPG) to determine eligibility for providing *free* care?	10	X	
If "Yes," indicate the FPG family income limit for eligibility for free care: 200 %			
If "No," explain in Section C the criteria the hospital facility used.			
11 Used FPG to determine eligibility for providing *discounted* care?	11	X	
If "Yes," indicate the FPG family income limit for eligibility for discounted care: 400 %			
If "No," explain in Section C the criteria the hospital facility used.			
12 Explained the basis for calculating amounts charged to patients?	12	X	
If "Yes," indicate the factors used in determining such amounts (check all that apply):			
a [X] Income level			
b [X] Asset level			
c [ ] Medical indigency			
d [ ] Insurance status			
e [ ] Uninsured discount			
f [ ] Medicaid/Medicare			
g [ ] State regulation			
h [ ] Residency			
i [ ] Other (describe in Section C)			
13 Explained the method for applying for financial assistance?	13	X	
14 Included measures to publicize the policy within the community served by the hospital facility?	14	X	
If "Yes," indicate how the hospital facility publicized the policy (check all that apply):			
a [X] The policy was posted on the hospital facility's website			
b [X] The policy was attached to billing invoices			
c [X] The policy was posted in the hospital facility's emergency rooms or waiting rooms			
d [X] The policy was posted in the hospital facility's admissions offices			
e [ ] The policy was provided, in writing, to patients on admission to the hospital facility			
f [X] The policy was available on request			
g [ ] Other (describe in Section C)			
Billing and Collections			
15 Did the hospital facility have in place during the tax year a separate billing and collections policy, or a written financial assistance policy (FAP) that explained actions the hospital facility may take upon non-payment?	15	X	
16 Check all of the following actions against an individual that were permitted under the hospital facility's policies during the tax year before making reasonable efforts to determine the individual's eligibility under the facility's FAP:			
a [X] Reporting to credit agency			
b [X] Lawsuits			
c [X] Liens on residences			
d [ ] Body attachments			
e [ ] Other similar actions (describe in Section C)			
17 Did the hospital facility or an authorized third party perform any of the following actions during the tax year before making reasonable efforts to determine the individual's eligibility under the facility's FAP?	17		X
If "Yes," check all actions in which the hospital facility or a third party engaged:			
a [ ] Reporting to credit agency			
b [ ] Lawsuits			
c [ ] Liens on residences			
d [ ] Body attachments			
e [ ] Other similar actions (describe in Section C)			

Part V Facility Information *(continued)* THE WATERBURY HOSPITAL

18 Indicate which efforts the hospital facility made before initiating any of the actions listed in line 17 (check all that apply):

- **a** [X] Notified individuals of the financial assistance policy on admission
- **b** [X] Notified individuals of the financial assistance policy prior to discharge
- **c** [X] Notified individuals of the financial assistance policy in communications with the individuals regarding the individuals' bills
- **d** [X] Documented its determination of whether individuals were eligible for financial assistance under the hospital facility's financial assistance policy
- **e** [ ] Other (describe in Section C)

Policy Relating to Emergency Medical Care

		Yes	No
19 Did the hospital facility have in place during the tax year a written policy relating to emergency medical care that requires the hospital facility to provide, without discrimination, care for emergency medical conditions to individuals regardless of their eligibility under the hospital facility's financial assistance policy?	19	X	

If "No," indicate why:

- **a** [ ] The hospital facility did not provide care for any emergency medical conditions
- **b** [ ] The hospital facility's policy was not in writing
- **c** [ ] The hospital facility limited who was eligible to receive care for emergency medical conditions (describe in Section C)
- **d** [ ] Other (describe in Section C)

Charges to Individuals Eligible for Assistance under the FAP (FAP-Eligible Individuals)

20 Indicate how the hospital facility determined, during the tax year, the maximum amounts that can be charged to FAP-eligible individuals for emergency or other medically necessary care.

- **a** [ ] The hospital facility used its lowest negotiated commercial insurance rate when calculating the maximum amounts that can be charged
- **b** [ ] The hospital facility used the average of its three lowest negotiated commercial insurance rates when calculating the maximum amounts that can be charged
- **c** [ ] The hospital facility used the Medicare rates when calculating the maximum amounts that can be charged
- **d** [X] Other (describe in Section C)

21 During the tax year, did the hospital facility charge any FAP-eligible individual to whom the hospital facility provided emergency or other medically necessary services more than the amounts generally billed to individuals who had insurance covering such care? If "Yes," explain in Section C.	21		X
22 During the tax year, did the hospital facility charge any FAP-eligible individual an amount equal to the gross charge for any service provided to that individual? If "Yes," explain in Section C.	22		X

Part V **Facility Information** *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A, " "Facility B," etc.

THE WATERBURY HOSPITAL:

PART V, SECTION B, LINE 3: COMMUNITY HEALTH NEEDS ASSESSMENT AND IMPLEMENTATION (2013 - 2016)

IN 2012, SEVERAL COMMUNITY ORGANIZATIONS CAME TOGETHER TO CONDUCT A COMPREHENSIVE COMMUNITY HEALTH NEEDS ASSESSMENT (CHNA). THESE ORGANIZATIONS FORMED THE GREATER WATERBURY HEALTH IMPROVEMENT PARTNERSHIP (GWHIP). THE INITIAL PARTNERS OF GWHIP INCLUDED WATERBURY HOSPITAL, SAINT MARY'S HOSPITAL, STAYWELL HEALTH CENTER, UNITED WAY OF GREATER WATERBURY, CONNECTICUT COMMUNITY FOUNDATION, AND THE WATERBURY DEPARTMENT OF HEALTH.

THE 2012 CHNA INCLUDED BOTH QUANTITATIVE AND QUALITATIVE DATA COLLECTION. FOR QUANTITATIVE DATA COLLECTION, A HOUSEHOLD TELEPHONE SURVEY WAS CONDUCTED ALONG WITH A KEY INFORMANT ONLINE SURVEY AND A REVIEW OF SECONDARY DATA. FOR QUALITATIVE DATA, GWHIP CONDUCTED FOCUS GROUPS WITH BOTH HEALTHCARE PROVIDERS AND HEALTHCARE CONSUMERS. THE RESEARCH WAS PRESENTED TO A GROUP OF COMMUNITY LEADERS WHO VOTED ON COMMUNITY HEALTH PRIORITIES. WATERBURY HOSPITAL THEN DEVELOPED AN IMPLEMENTATION STRATEGY BASED ON THE COMMUNITY HEALTH PRIORITIES. THE IMPLEMENTATION STRATEGY WAS ADOPTED BY THE WATERBURY HOSPITAL BOARD OF DIRECTORS ON SEPTEMBER 26, 2013.

GWHIP ESTABLISHED A STEERING COMMITTEE TO ADDRESS THE FOUR COMMUNITY HEALTH PRIORITIES: (1) ACCESS TO CARE; (2) MENTAL HEALTH AND SUBSTANCE ABUSE; (3) OBESITY AND CHRONIC DISEASES; AND (4) TOBACCO USE. WATERBURY HOSPITAL LEADERS PARTICIPATE ON THE GWHIP STEERING COMMITTEE WHICH MEETS

Part V **Facility Information** *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A, " "Facility B," etc.

MONTHLY. OTHER WATERBURY HOSPITAL STAFF MEMBERS PARTICIPATE IN THE FOUR WORK GROUPS WHICH ALSO MEET MONTHLY. THE WORK GROUPS HAVE WORK PLANS, INCLUDING GOALS AND OBJECTIVES FOR THE THREE-YEAR PERIOD FOLLOWING THE INITIAL CHNA.

WATERBURY HOSPITAL IS PRESENTLY ADDRESSING THE IMPLEMENTATION STRATEGY THAT WAS ADOPTED BY THE BOARD ON SEPTEMBER 26, 2013. FOR EXAMPLE REGARDING THE OBESITY PRIORITY, WATERBURY HOSPITAL RECENTLY BEGAN OFFERING A FARMER'S MARKET ON-SITE FOR BOTH STAFF AND COMMUNITY MEMBERS. THE FARMER'S MARKET IS COORDINATED BY BRASS CITY HARVEST, WHICH IS A NON-PROFIT ORGANIZATION AND ITS STAFF MEMBERS ARE ACTIVELY INVOLVED IN GWHIP. WATERBURY HOSPITAL STAFF MEMBERS ARE ALSO INVOLVED IN THE PLANTING OF FRUIT AND VEGETABLE GARDENS ACROSS THE STREET FROM JONATHAN REED ELEMENTARY SCHOOL. STUDENTS AND PARENTS CAN HARVEST THE FRUITS AND VEGETABLES LATER IN THE SUMMER.

THE YOUTH PIPELINE PROGRAM IS ALSO TEACHING STUDENTS ABOUT FOOD AND HEALTHY EATING. THE HOSPITAL DIETICIAN LED A CLASS ON MAKING "EDIBLE ARRANGEMENTS." THE STUDENTS USED PINEAPPLES, STRAWBERRIES, GRAPES, AND BLUEBERRIES IN THIS EXERCISE. STUDENTS ALSO GOT HANDS ON EXPERIENCE PREPARING HEALTHY HOT AND COLD MEALS WHILE WORKING DIRECTLY WITH THE HOSPITAL NUTRITIONIST.

COMMUNITY HEALTH NEEDS ASSESSMENT AND IMPLEMENTATION PLANNING (2016 - 2019)

WATERBURY HOSPITAL HAS STARTED WORKING ON THE NEXT COMMUNITY HEALTH NEEDS

Part V **Facility Information** *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A, " "Facility B," etc.

ASSESSMENT (CHNA). WATERBURY HOSPITAL WILL WORK WITH GWHIP ONCE AGAIN ON COMPLETING THE CHNA. WATERBURY HOSPITAL HAS CONTRIBUTED FINANCIALLY TOWARD THE CONNECTICUT WELLBEING SURVEY. THE CONNECTICUT WELLBEING SURVEY IS A TELEPHONE SURVEY ADMINISTERED BY DATAHAVEN, WHICH IS A NON-PROFIT ORGANIZATION WITH THE MISSION OF IMPROVING THE QUALITY OF LIFE BY COLLECTING, SHARING AND INTERPRETING PUBLIC DATA FOR EFFECTIVE DECISION MAKING.

DATAHAVEN WAS ACTIVELY INVOLVED IN YALE-NEW HAVEN HOSPITAL'S CHNA IN 2013 WHEN THE FIRST WELLBEING SURVEY WAS CONDUCTED IN THE NEW HAVEN REGION. THE 2015 - 2016 WELLBEING SURVEY WILL COVER THE ENTIRE STATE OF CONNECTICUT. GWHIP, INCLUDING WATERBURY HOSPITAL, CONTRIBUTED FINANCIAL RESOURCES TO DATAHAVEN SO THAT AN ADDITIONAL 1,100 PHONE CALLS WOULD BE MADE TO RESIDENTS IN WATERBURY HOSPITAL'S SERVICE AREA. THE ADDITIONAL PHONE CALLS WILL ALLOW GWHIP MEMBERS TO UNDERSTAND HEALTH AND WELLBEING ISSUES AT THE NEIGHBORHOOD LEVEL.

THE WELLBEING SURVEY QUESTIONS COVER TRADITIONAL HEALTH RELATED TOPICS. FOR EXAMPLE THE PHONE SURVEYOR ASKS "HAVE YOU EVER BEEN TOLD BY A HEALTH CARE PROVIDER THAT YOU HAVE DIABETES?" ANOTHER QUESTION IS "HAVE YOU EVER BEEN TOLD BY A HEALTH CARE PROVIDER THAT YOU HAVE HIGH CHOLESTEROL?" IN ADDITION TO THOSE HEALTH-RELATED QUESTIONS, THE WELLBEING SURVEY ALSO COVERS OTHER INDICATORS AROUND THE SOCIAL DETERMINANTS OF HEALTH. QUESTIONS COVER THE FOLLOWING AREAS: HOUSING, HEALTH, EDUCATION, CIVIC VITALITY, PUBLIC SAFETY AND ENVIRONMENTAL ISSUES.

WHILE THE WELLBEING SURVEY DATA WILL PROVIDE THE MAJORITY OF QUANTITATIVE

Part V **Facility Information** *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A, " "Facility B," etc.

DATA FOR THE NEXT CHNA, GWHIP WILL ALSO DO A REVIEW OF SECONDARY DATA. WATERBURY HOSPITAL WILL WORK WITH GWHIP, INCLUDING SAINT MARY'S HOSPITAL, ON COLLECTING QUALITATIVE DATA SUCH AS FOCUS GROUP AND KEY INFORMANT INTERVIEWS. BOTH HOSPITALS TOGETHER WILL PRODUCE A CHNA THAT MEETS ALL IRS REQUIREMENTS. WATERBURY HOSPITAL WILL DEVELOP AN IMPLEMENTATION STRATEGY BASED ON THE QUANTITATIVE AND QUALITATIVE DATA COLLECTED. THIS IMPLEMENTATION STRATEGY WILL BE PRESENTED TO THE WATERBURY HOSPITAL BOARD OF DIRECTORS BY SEPTEMBER 30, 2016.

THE WATERBURY HOSPITAL:

PART V, SECTION B, LINE 4: ST. MARY'S HOSPITAL

THE WATERBURY HOSPITAL:

PART V, SECTION B, LINE 20D: ALL PATIENTS ARE CHARGED THE SAME.

Part V Facility Information *(continued)*

Section D. Other Health Care Facilities That Are Not Licensed, Registered, or Similarly Recognized as a Hospital Facility

(list in order of size, from largest to smallest)

How many non-hospital health care facilities did the organization operate during the tax year? 7

Name and address	Type of Facility (describe)
1 CARDIOLOGY ASSOCIATES OF GTR WATERBURY 455 CHASE PARKWAY WATERBURY, CT 06708	MEDICAL OFFICES, DIAGNOSTIC TESTING
2 BLOOD DRAW STATION 134 GRANDVIEW AVENUE WATERBURY, CT 06708	BLOOD DRAWING FACILITY
3 BLOOD DRAW STATION 1625 STRAITS TURNPIKE, SUITE 304 MIDDLEBURY, CT 06762	BLOOD DRAWING FACILITY/X-RAYS
4 BLOOD DRAW STATION 22 OLD WATERBURY ROAD, SUITE 201 SOUTHBURY, CT 06488	BLOOD DRAWING FACILITY
5 BLOOD DRAW STATION 130 SOUTH MAIN STREET THOMASTON, CT 06787	BLOOD DRAWING FACILITY
6 BLOOD DRAW STATION 51 DEPOT STREET, SUITE 212 WATERTOWN, CT 06795	BLOOD DRAWING FACILITY
7 BLOOD DRAW STATION 305 CHURCH STREET, SUITE 16 NAUGATUCK, CT 06770	BLOOD DRAWING FACILITY

Part VI Supplemental Information

Provide the following information.

1 **Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.

2 **Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.

3 **Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.

4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.

5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).

6 **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.

7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

PART I, LINE 3C:

N/A

PART I, LINE 6A:

YES, WATERBURY HOSPITAL DID PREPARE A COMMUNITY BENEFIT REPORT.

PART II, COMMUNITY BUILDING ACTIVITIES:

AS A LEADER IN THE DELIVERY OF HEALTHCARE SERVICES IN THE GREATER WATERBURY AREA, WATERBURY HOSPITAL (WH) IS COMMITTED TO STRENGTHENING THE WELFARE AND AWARENESS OF THE CITIZENS WITHIN ITS COMMUNITY. FROM STRENGTHENING THE CAREER PATHS OF WATERBURY AREA YOUTH; TO SUPPORTING THE UNINSURED AND UNDERINSURED THROUGH THE WATERBURY HEALTH ACCESS PROGRAM AND; PROVIDING TRANSPORT TO AND FROM MEDICAL APPOINTMENTS; WATERBURY HOSPITAL IS REMOVING THE BARRIERS TO QUALITY HEALTH CARE FOR ALL AND REMAINS FIRM IN ITS COMMITMENT TO A HEALTHIER, STRONGER, AND MORE PRODUCTIVE COMMUNITY.

Part VI Supplemental Information *(Continuation)*

KEY PROGRAMS:

YOUTH PIPELINE INITIATIVES: THE WATERBURY HOSPITAL YOUTH PIPELINE INITIATIVES WERE ESTABLISHED IN 2001 AS A PARTNERSHIP BETWEEN WATERBURY HOSPITAL AND WATERBURY PUBLIC SCHOOLS. THE MISSION OF THE PROGRAM IS TO CLOSE THE ACHIEVEMENT GAP FOR MINORITY AND ECONOMICALLY DISADVANTAGED STUDENTS IN WATERBURY SO THEY CAN MATRICULATE AND COMPETE NATIONALLY FOR PLACEMENT IN POST-SECONDARY EDUCATION PROGRAMS IN PREPARATION FOR HEALTH CAREERS. WATERBURY HOSPITAL IS COMMITTED TO ENHANCING AND ENRICHING THE ACADEMIC OPPORTUNITIES AND PERSONAL JOURNEYS OF OUR YOUTH, WHO ARE THE EMERGING WORKFORCE OF TOMORROW. TO THIS END, DURING 2014, WATERBURY HOSPITAL PROVIDED 129 STUDENTS AND PARENTS IN GREATER WATERBURY WITH UNIQUE EDUCATIONAL PROGRAMS THAT WILL ENHANCE THE OVERALL WELFARE OF OUR COMMUNITY.

THE WH YOUTH PIPELINE INITIATIVES HAD SIX FOCUS AREAS DURING FY 2014, INCLUDING:

- PARENT LEADERSHIP TRAINING INSTITUTE (PLTI) - IN 2014, SIX INDIVIDUALS FROM GREATER WATERBURY SUCCESSFULLY COMPLETED WATERBURY'S PLTI, A 20-WEEK CURRICULUM TEACHING LEADERSHIP AND ADVOCACY SKILLS, AS WELL AS INDIVIDUAL COMMUNITY PROJECT PLANNING. PLTI'S CORE MISSION IS TO IMPART LEADERSHIP AND ADVOCACY SKILLS TO PARENTS WHILE SIMULTANEOUSLY EDUCATING THEM ABOUT VOLUNTEERISM, CIVIC LIFE, AND THE PROCESS BY WHICH STATE AND LOCAL GOVERNMENTS ENACT AND CHANGE LAWS.

- PARENTS SUPPORTING EDUCATIONAL EXCELLENCE (PSEE) - IN 2014, SEVENTEEN INDIVIDUALS FROM GREATER WATERBURY SUCCESSFULLY COMPLETED WATERBURY'S PSEE, A 12-WEEK CURRICULUM CO-CREATED BY THE CONNECTICUT CENTER FOR SCHOOL

Part VI Supplemental Information *(Continuation)*

CHANGE AND THE CONNECTICUT COMMISSION ON CHILDREN FOR PARENTS (DEFINED BROADLY AS PARENTS, GUARDIANS, FAMILY MEMBERS AND GRANDPARENTS) TO INSTILL LEADERSHIP SKILLS IN EDUCATION AND TO FACILITATE PARTNERSHIPS BETWEEN SCHOOL STAFF AND PARENTS TO IMPROVE STUDENT LEARNING.

- UCONN PEOPLE EMPOWERING PEOPLE (PEP) OFFERED IN SPANISH AND ALBANIAN - BOTH FREE INAUGURAL PROGRAMS WERE HELD IN 2014. THE PROGRAMS INCLUDED A 10-WEEK PARENT LEADERSHIP AND ADVOCACY REGIMEN THROUGH WHICH 9 PARTICIPANTS SUCCESSFULLY COMPLETED THE ALBANIAN PORTION OF THE PEP COURSE AND 21 PARTICIPANTS COMPLETED THE SPANISH PORTION OF THE PEP COURSE. UCONN PEP IS A PERSONAL, FAMILY, AND LEADERSHIP DEVELOPMENT PROGRAM WITH A STRONG COMMUNITY FOCUS. PEP IS DESIGNED TO BUILD ON THE UNIQUE STRENGTHS AND LIFE EXPERIENCES OF PARTICIPANTS AND EMPHASIZES THE CONNECTION BETWEEN INDIVIDUAL AND COMMUNITY ACTION. BOTH UCONN PEP PROGRAMS ARE SIGNIFICANT FOR TWO REASONS; IT WAS THE FIRST TIME THAT A UCONN PEP COURSE HAS BEEN OFFERED IN BOTH ALBANIAN AND SPANISH AT WATERBURY HOSPITAL. HOWEVER IT IS ALSO THE FIRST TIME AN ALBANIAN AND SPANISH PARENT LEADERSHIP PROGRAM IS OFFERED WITH IN THE STATE OF CONNECTICUT. PARTICIPANTS OF BOTH PROGRAMS WORK INDIVIDUALLY OR COLLABORATIVELY TO CREATE A COMMUNITY PROJECT WHICH IS COMPLETED AS THE CONCLUDING PORTION OF THE PROGRAM. AN EXAMPLE OF A COMMUNITY PROJECT FROM 2014 INCLUDE: THE "UCONN ALBANIAN PEOPLE EMPOWERING PEOPLE (PEP) RESOURCE FAIR" THROUGH COLLABORATIVE EFFORT MEMBERS OF THE PLTI - ALBANIAN PEP ASSEMBLY REACHED OUT TO SENATOR JOAN HARTLEY IN AN EFFORT TO ADDRESS CHALLENGING LANGUAGE BARRIERS FACED BY MEMBERS OF THE COMMUNITY WHEN UTILIZING VARIOUS DMV SERVICES. TOGETHER THEY WERE ABLE TO BRING THESE CONCERNS TO THE ATTENTION OF CONNECTICUT LEGISLATIVES AND AS A RESULT ENACTED POSITIVE CHANGE FOR THE ALBANIAN COMMUNITY THROUGH THE CREATION OF A USER FRIENDLY COMMUNICATION INTERFACE ALLOWING THE OPTION OF

Part VI Supplemental Information *(Continuation)*

THE ALBANIAN LANGUAGE TO BE DISPLAYED ON VARIOUS FORMS AND WEB SERVICES.

- WH SUMMER BRIDGE PROGRAM - DURING THE SUMMER OF 2014, TWENTY-EIGHT STUDENTS FROM WATERBURY, GRADES 6-11, PARTICIPATED IN THE WH SUMMER BRIDGE PROGRAM. 100% OF MEALS WERE SECURED FOR THE PROGRAM FROM CITY OF WATERBURY SUMMER FOOD PROGRAM.

STUDENTS COMPLETED THE FOLLOWING MODULES:

- 12 HOURS OF MATH (PRE- ALGEBRA, ALGEBRA II, GEOMETRY AND CALCULUS) REVIEW SESSIONS

- 20 HOURS OF SAT WRITING AND VOCABULARY

- 18 HOURS OF PHOTOVOICE PROJECT, STUDENTS WERE INSTRUCTED ON PHOTOGRAPHY TECHNIQUES, COMPOSITION, AND EDITING USING ADOBE PHOTOSHOP SOFTWARE AND SLR CAMERAS

- 6 HOURS OF ESSAY WRITING

- 11 HOURS OF POETRY INSTRUCTION AND PARTICIPATION IN THE SECOND ANNUAL WH POETRY SLAM

- 8 HOURS OF JOB SHADOWING SESSIONS IN THE FOLLOWING DEPARTMENTS: NURSING, HEALTH INFORMATION MANAGEMENT, HUMAN RESOURCES, RESPIRATORY THERAPY, WATERBURY HEALTH ACCESS PROGRAM, MORRISON FOOD SERVICES & NUTRITION, FINANCE, INFECTIOUS DISEASES CLINIC, LAB, PHARMACY, CENTRAL SCHEDULING, PLANT ENGINEERING, HAROLD LEEVER REGIONAL CANCER CENTER, AMERICAN MEDICAL REPONSES, AND CLINICAL EDUCATION, WHICH INCLUDED PARTICIPATING IN CLASSES SPONSORED BY THE AMERICAN RED CROSS (CPR AND BABYSITTING).

- CPR & AMERICAN RED CROSS CERTIFIED BABYSITTING COURSE.

- 2 HOURS OF MS OFFICE COMPUTER SESSIONS

- 6 HOUR SCIENCE MODULE AT STONE ACADEMY

Part VI **Supplemental Information** *(Continuation)*

- 2 FULL-DAY FIELD TRIPS COMPLETED: ONE TO YALE UNIVERSITY FOR AN ADMISSIONS INFO SESSION AND CAMPUS TOUR AND ONE TO HAMMONASSET STATE PARK INCLUDING THREE EDUCATIONAL SESSIONS AT MEIGS POINT NATURE CENTER

- 2 HOURS OF COLLEGE ADMISSIONS PRESENTATIONS COMPLETED BY UCONN WATERBURY & NAUGATUCK VALLEY COMMUNITY COLLEGE

- 1 HOUR OF INDIVIDUAL ACADEMIC ADVISING

- 2 HOURS OF HR ORIENTATION & SOFT SKILLS TRAINING

- 10 HOURS OF SOCIAL DETERMINANTS OF HEALTH DOCUMENTARIES AND ACTIVE DISCUSSIONS WITH THE WATERBURY DEPARTMENT OF PUBLIC HEALTH

- PROVIDING EARLY ACQUAINTANCE WITH CAREERS IN HEALTHCARE (PEACH) - SINCE ITS INCEPTION IN 2004, WATERBURY HOSPITAL'S PROVIDING EARLY ACQUAINTANCE WITH CAREERS IN HEALTHCARE (PEACH) PROGRAM HAS ENGAGED ADMINISTRATORS, TEACHERS, AND STUDENTS FROM MIDDLE SCHOOLS IN GREATER WATERBURY TO ADDRESS PROJECTED SHORTAGES OF HEALTHCARE WORKERS AND TO CLOSE THE ACHIEVEMENT GAP FOR STUDENTS IN WATERBURY PUBLIC SCHOOLS. THROUGH THE PEACH PROGRAM, STUDENTS ENGAGE WITH HEALTHCARE WORKERS IN A NON-EMERGENCY SETTING AND ARE INFORMED OF THE VARIETY OF HEALTHCARE CAREER OPPORTUNITIES AVAILABLE IN OUR COMMUNITY. ANNUALLY, WATERBURY HOSPITAL ALSO OFFERS ITS PEACH SPRING BREAK EXPLORATION CAMP, THIS YEAR 48 MIDDLE SCHOOL STUDENTS FROM WATERBURY TOOK PART IN: SHADOWING AND HANDS-ON LEARNING ACTIVITIES AT THE HOSPITAL; CPR CERTIFICATION; BABYSITTING; AND EDUCATIONAL SESSIONS AT THE MYSTIC AQUARIUM.

SUPPORT GROUPS - DURING FISCAL YEAR 2014, WATERBURY HOSPITAL HOSTED SEVERAL SUPPORT GROUPS FOR ITS PATIENTS AND THEIR FAMILIES, INCLUDING:

- BEHAVIORAL HEALTH'S PARENT AND SIBLING SUPPORT GROUP, WHICH OFFERS EMOTIONAL ASSISTANCE TO FAMILIES WHO HAVE CHILDREN IN TREATMENT; AND

Part VI Supplemental Information *(Continuation)*

- ALCOHOLICS ANONYMOUS, SERVES OVER 4,000 PEOPLE ANNUALLY, MEETS WEEKLY THROUGHOUT THE YEAR, AND IS COORDINATED BY OUR BEHAVIORAL HEALTH DEPARTMENT.

PART III, LINE 2:

OVERALL COST TO CHARGE RATIO USED IN CALCULATION.

PART III, LINE 3:

FINANCIAL ASSISTANCE (CHARITY CARE) IS A SEPARATE NUMBER, AND NOT INCLUDED IN THE $871,605 ON LINE 2.

PART III, LINE 4:

THE HOSPITAL ACCEPTS ALL PATIENTS REGARDLESS OF THEIR ABILITY TO PAY. A PATIENT IS CLASSIFIED AS A CHARITY PATIENT BY REFERENCE TO THE ESTABLISHED POLICIES OF THE HOSPITAL. ESSENTIALLY, THESE POLICIES DEFINE CHARITY SERVICES AS THOSE SERVICES FOR WHICH NO PAYMENT IS POSSIBLE. IN ASSESSING A PATIENT'S INABILITY TO PAY, THE HOSPITAL UTILIZES THE GENERALLY RECOGNIZED FEDERAL POVERTY INCOME LEVELS, BUT ALSO INCLUDES CERTAIN CASES WHERE INCURRED CHARGES ARE SIGNIFICANT WHEN COMPARED TO INCOMES AND ASSETS. THESE SERVICES ARE NOT INCLUDED IN NET PATIENT SERVICE REVENUES FOR FINANCIAL REPORTING PURPOSES. EFFECTIVE OCTOBER 1, 2013, THE HOSPITAL CHANGED ITS CHARITY CARE POLICY TO DISCOUNT ALL SELF PAY RECEIVABLES BY 50% UPON FINAL BILLING.

PART III, LINE 8:

COSTING METHODOLOGY USED TO COMPUTE THE MEDICARE SHORTFALL AND ANY ASSOCIATED COMMUNITY BENEFIT IS A COMBINATION OF THE AMOUNT REPORTED ON LINE 7 AS WELL AS THE HEALTH PROFESSION EDUCATION LINE. A

Part VI Supplemental Information *(Continuation)*

TOTAL SHORTFALL OF $7,750,927 WAS DERIVED FROM THE 2014 MEDICARE COST REPORT USING AN AHA APPROVED FORM FOR SCHEDULE H WORKSHEET B PPS AND IPF HOSPITALS. ALL OF THIS SHORTFALL SHOULD BE REPORTED AS A COMMUNITY BENEFIT. THE HOSPITAL COST ACCOUNTING SYSTEM SHOWS A SHORTFALL FROM ALL MEDICARE PROGRAMS (INCLUDING MANAGED MEDICARE) OF $12,528,626 (NET OF BAD DEBT AND FREE CARE).

PART III, LINE 9B:

WE HAVE SEVERAL CREDIT AND COLLECTION PROGRAMS GOVERNING PATIENTS WHO QUALIFY FOR CHARITY CARE OR FINANCIAL ASSISTANCE; PROMPT PAY DISCOUNT; SLIDING SCALE; PAYMENT ARRANGEMENTS; CHARITY CARE AND FREE BED FUNDS. ANY PATIENT EXPRESSING DIFFICULTY PAYING A BALANCE IS ENTITLED TO APPLY FOR FINANCIAL COUNSELING ASSISTANCE. CUSTOMER SERVICE REPRESENTATIVES WORK WITH THE PATIENTS TO DETERMINE PROGRAM QUALIFICATION BASED ON THE COMPLETION OF A FINANCIAL APPLICATION. CASES ARE PREPARED AND PRESENTED TO THE PATIENT ASSISTANCE COMMITTEE. APPROVED CASES WILL BE EITHER FULLY OR PARTIALLY WRITTEN OFF TO FREE BED FUNDS OR CHARITY CARE.

PART VI, LINE 2:

WATERBURY HOSPITAL WORKS CLOSELY WITH LOCAL HEALTHCARE PROVIDERS AND COMMUNITY-BASED ORGANIZATIONS TO IDENTIFY HEALTHCARE NEEDS FOR UNDERSERVED PATIENTS THROUGHOUT THE WATERBURY COMMUNITY. THROUGH THESE COLLABORATIONS, WATERBURY HOSPITAL WORKS TO DEVELOP KEY PROGRAMMING FOR THE CITY'S VULNERABLE POPULATIONS, INCLUDING: THE WATERBURY HOSPITAL INFECTIOUS DISEASE CLINIC, WHICH PROVIDES COMPREHENSIVE HIV CARE TO ABOUT 500 PEOPLE LIVING WITH HIV/AIDS; THE WATERBURY HEALTH ACCESS PROGRAM, WHICH PROVIDES COMPREHENSIVE CASE MANAGEMENT SERVICES TO OVER 4,000 UNINSURED AND UNDERINSURED PATIENTS ANNUALLY; AND THE WATERBURY HOSPITAL

Part VI **Supplemental Information** *(Continuation)*

CHASE DIABETES DISEASE MANAGEMENT CLINIC, WHICH PROVIDES 60-70 DIABETICS WITH SELF-MANAGEMENT SKILLS AND CLINICAL CARE.

PART VI, LINE 3:

WE HAVE SIGNAGE, PT HANDBOOK, STATEMENT BACKERS & HANDOUTS THAT INFORM PATIENTS OF FREE BED FUNDS ETC. THE HOSPITAL ACCEPTS ALL PATIENTS REGARDLESS OF THEIR ABILITY TO PAY. A PATIENT IS CLASSIFIED AS A CHARITY PATIENT BY REFERENCE TO THE ESTABLISHED POLICIES OF THE HOSPITAL. ESSENTIALLY, THESE POLICIES DEFINE CHARITY SERVICES AS THOSE SERVICES FOR WHICH NO PAYMENT IS POSSIBLE. IN ASSESSING A PATIENT'S INABILITY TO PAY, THE HOSPITAL UTILIZES THE GENERALLY RECOGNIZED POVERTY INCOME LEVELS FOR THE STATE, BUT ALSO INCLUDES CERTAIN CASES WHERE INCURRED CHARGES ARE SIGNIFICANT WHEN COMPARED TO INCOMES. THESE CHARGES ARE NOT INCLUDED IN NET PATIENT SERVICE REVENUES FOR FINANCIAL REPORTING PURPOSES.

PART VI, LINE 4:

LOCATED IN A CITY OF 109,000 RESIDENTS, WATERBURY HOSPITAL IS CENTRALLY LOCATED IN WESTERN CONNECTICUT. IT IS ONE OF TWO HOSPITALS THAT SERVES THE CITY OF WATERBURY AND ITS SURROUNDING TOWNS, INCLUDING BEACON FALLS, BETHLEHEM, CHESHIRE, MIDDLEBURY, NAUGATUCK, PROSPECT, SOUTHBURY, THOMASTON, WATERTOWN, WOLCOTT, AND WOODBURY. OVERALL, THE CITY OF WATERBURY LAGS BEHIND THE STATE OF CONNECTICUT AND THE U.S. IN KEY MEASURABLE STATISTICS, AS SEEN IN TABLE 1, BELOW:

WATERBURY WAS ONCE A ROBUST MANUFACTURING CENTER. HOWEVER, OVER THE PAST 25 YEARS, THE INDUSTRIAL BASE THAT WAS THE CENTER OF WATERBURY'S ECONOMY FOR MOST OF THE 20TH CENTURY DWINDLED, LEAVING MANY UNEMPLOYED. ALTHOUGH THERE ARE JOBS AVAILABLE IN HEALTHCARE AND SERVICE SECTORS, HIGH UNEMPLOYMENT REMAINS A THREAT FOR MANY INDIVIDUALS IN THE GREATER WATERBURY AREA. THE CITY OF WATERBURY IS ALSO DESIGNATED A FEDERAL MUA

Part VI **Supplemental Information** *(Continuation)*

(MEDICALLY UNDERSERVED AREA) AND HPSA (HEALTH PROFESSIONAL SHORTAGE AREA) FOR PRIMARY CARE, MENTAL HEALTH, AND DENTAL CARE.

PART VI, LINE 5:

REALIZING THE DIVERSE NEEDS OF RESIDENTS IN OUR COMMUNITY, WATERBURY HOSPITAL REMAINS DEDICATED TO PROVIDING COMPREHENSIVE HEALTH SERVICES TO ENSURE EVERY INDIVIDUAL HAS ACCESS TO APPROPRIATE, QUALITY HEALTHCARE.

DURING 2014, WATERBURY HOSPITAL'S SPECTRUM OF SERVICES CONTINUED TO HAVE A POSITIVE IMPACT ON THE WELFARE OF WATERBURY'S CITIZENS. TO REMAIN CONSISTENT WITH WATERBURY HOSPITAL'S MISSION, MANY OF OUR SERVICES ARE TARGETED FOR VULNERABLE MEMBERS OF OUR COMMUNITY, INCLUDING THOSE WHO ARE UNINSURED OR UNDERINSURED.

KEY PROGRAMS:

WATERBURY HEALTH ACCESS PROGRAM: WATERBURY HOSPITAL IS AWARE OF THE ECONOMIC NEEDS MANY PATIENTS IN OUR COMMUNITY, AND, AS A RESULT, WE REMAIN COMMITTED TO THE WATERBURY HEALTH ACCESS PROGRAM. FOUNDED IN 2003 AS A PARTNERSHIP BETWEEN WATERBURY HOSPITAL, ST. MARY'S HOSPITAL, STAYWELL HEALTH CENTER (FQHC), AND THE WATERBURY HEALTH DEPARTMENT, THE WATERBURY HEALTH ACCESS PROGRAM IMPROVES ACCESS TO HIGH-QUALITY MEDICAL CARE BY PROVIDING COMPREHENSIVE CASE MANAGEMENT, PHARMACY ASSISTANCE, AND ACCESS TO PRIMARY AND SUB-SPECIALTY MEDICAL CARE FOR THE UNINSURED AND UNDERINSURED RESIDENTS OF THE GREATER WATERBURY REGION. DURING FY 2014, THE WATERBURY HEALTH ACCESS PROGRAM HAD OVER 4,370 ACTIVE CLIENTS. ADDITIONALLY, WATERBURY HOSPITAL PROVIDED $402,864 WORTH OF DONATED

Part VI Supplemental Information *(Continuation)*

SERVICES TO WHAP'S PATIENTS.

BEHAVIORAL HEALTH - WATERBURY HOSPITAL'S CENTER FOR BEHAVIORAL HEALTH IS ONE OF THE REGION'S LARGEST SERVICE PROVIDERS OFFERING A FULL CONTINUUM OF CARE FOR CHILDREN, ADOLESCENTS AND ADULTS. OUR SERVICES ALSO OUTREACH TO THE COMMUNITY THROUGH REGULAR PARTICIPATION IN HEALTH FAIRS, ELECTED MEMBERSHIP IN THE NORTHWEST REGIONAL MENTAL HEALTH BOARD, AS A HOST SITE TO NUMEROUS TWELVE-STEP MEETINGS AND THE PROVISION OF CASE MANAGEMENT AS WELL AS ACUTE SERVICES TO THE HOMELESS WITHIN THE CITY OF WATERBURY. BEHAVIORAL HEALTH CLINICIANS CAN ENGAGE CLIENTS TO HELP FACILITATE THEIR ENTRANCE INTO TREATMENT. WE PROVIDE PHONE SUPPORT, REFERRALS AND TRIAGING TEN HOURS A DAY SEVEN DAYS A WEEK. WITHIN OUR CRISIS CENTER WE OFFER SHORT TERM SERVICES TO HELP INDIVIDUALS OBTAIN MORE PERMANENT TREATMENT THAT BEST MEETS THEIR NEEDS. AMBULATORY SERVICES INCLUDE PARTIAL HOSPITAL PROGRAMS, INTENSIVE OUTPATIENT SERVICES, GROUP, INDIVIDUAL THERAPY AND MEDICATION MANAGEMENT TO PATIENTS EXPERIENCING MENTAL ILLNESS AND/ OR A SUBSTANCE USE DISORDER. FOR INDIVIDUALS EXPERIENCING ACUTE SYMPTOMS WE OFFER INPATIENT TREATMENT TO ADOLESCENTS AGED 12 AND UP AS WELL AS ADULT SERVICES. OUR EFFORTS ARE AIMED AT PROMOTING THE BENEFITS OF CLINICAL TREATMENT AS WELL AS POSITIVE LIFESTYLE CHOICES. EVERY EFFORT IS MADE TO EDUCATE CLIENTS, THEIR FAMILIES AND THE COMMUNITY ABOUT MENTAL ILLNESS AND THE IMPACT TREATMENT CAN HAVE ON ONE'S ILLNESS. THE ULTIMATE GOAL IS TO HELP PEOPLE FEEL BETTER, REDUCE OR RESOLVE SYMPTOMS AND TO MINIMIZE THE STIGMA OF MENTAL ILLNESS.

BE WELL BUS - IN ORDER TO ENSURE THAT PATIENTS HAVE ACCESS TO MEDICAL APPOINTMENTS, AT THE HOSPITAL AND AT LOCAL PHYSICIANS' OFFICES, WATERBURY HOSPITAL'S BE WELL BUS PROVIDES TRANSPORTATION SERVICES TO PATIENTS FROM

Part VI Supplemental Information *(Continuation)*

WATERBURY AND ELEVEN OF ITS SURROUNDING TOWNS. DURING FY 2014, THE BE WELL BUS COMPLETED OVER 4,170 TRANSPORTS TO AND FROM MEDICAL APPOINTMENTS. WATERBURY HOSPITAL HAS CONTRACTED WITH A TRANSPORTATION PROVIDE TO OFFER THE BUS SERVICE, AND AREA PROVIDERS PAY A SMALL FEE TO PARTICIPATE.

HEART CENTER OF GREATER WATERBURY - FORMED IN COLLABORATION WITH SAINT MARY'S HOSPITAL, THE HEART CENTER OF GREATER WATERBURY PROVIDES DIVERSE MEDICAL SUPPORT INITIATIVES TO HELP EDUCATE RESIDENTS IN THE GREATER WATERBURY COMMUNITY ABOUT PERTINENT HEALTH AND WELLNESS ISSUES. THIS PAST YEAR, THE HEART CENTER CONDUCTED A SERIES OF HEALTH FAIRS AND VARIOUS HEALTH AND WELLNESS EDUCATION SESSIONS, INCLUDING "ASK THE NURSE," WHICH PROVIDES PATIENTS WITH COMPLIMENTARY BLOOD PRESSURE SCREENINGS AND HEALTH AWARENESS EDUCATION AND A "FREEDOM FROM SMOKING" SERIES TO HELP OUR RESIDENTS KICK THE HABIT.

FAMILY BIRTHING CENTER - PROVIDING A CHILD-CENTERED FOCUS, WATERBURY HOSPITAL'S FAMILY BIRTHING CENTER OFFERS EXPECTANT PARENTS A VARIETY OF CLASSES INCLUDING: BREAST FEEDING, CHILDBIRTH, AND INFANT CARE CLASSES TO PREPARE THEM FOR THEIR BABY'S ARRIVAL.

THANK GOD I'M FEMALE - FOR THE PAST 20 YEARS, WATERBURY HOSPITAL'S "THANK GOD I'M FEMALE" HAS SERVED AS AN ANNUAL WOMEN'S WELLNESS FORUM THAT FEATURES 40 EDUCATIONAL BOOTHS AND HEALTH-RELATED GIVEAWAYS. THE ULTIMATE GOAL OF THE FORUM IS TO EDUCATE ATTENDEES ABOUT STRESS, MENTAL WELL-BEING, HEART HEALTH, DIET, OSTEOPOROSIS AND BONE HEALTH, CHANGE OF LIFE, AND MORE. IN 2014, OVER 500 AREA RESIDENTS ATTENDED THE EVENT.

EVERGREEN 50 CLUB - WATERBURY HOSPITAL'S EVERGREEN 50 CLUB IS AN

Part VI Supplemental Information *(Continuation)*

ORGANIZATION COMPRISED OF OVER 15,000 MEMBERS OVER THE AGE OF 50. THE CLUB OFFERS WELLNESS PROGRAMMING, MEDICARE COUNSELING, AND HEALTH EDUCATION PRESENTATIONS ON A VARIETY OF TOPICS ARE PRESENTED BY HEALTH CARE PROFESSIONALS. PRESENTATION TOPICS INCLUDE: HOLISTIC HEALTH, VARICOSE VEIN TREATMENT, HEART DISEASE, SUMMER SKIN CARE, WEIGHT LOSS, BLOOD PRESSURE, BLADDER SCREENINGS, JOINT CARE AND REPLACEMENT, AND RESOLVING ADVERSE OUTCOMES WITH PATIENTS AND FAMILIES. ANNUALLY, THE EVERGREEN 50 CLUB HOSTS A HEALTH FAIR FOR ITS MEMBERS, WHICH PROVIDES FREE FLU SHOTS AND HEALTHCARE SCREENINGS.

WATERBURY HOSPITAL INFECTIOUS DISEASE CLINIC (WHIC) -

CURRENT SERVICES: THE WHIC OFFERS A COMPREHENSIVE "ONE-STOP SHOPPING" MODEL THAT PROVIDES PATIENTS WITH ON-SITE PRIMARY AND SPECIALTY SERVICES, MEDICAL CASE MANAGEMENT, INDIVIDUALIZED MEDICATION ADHERENCE SERVICES, MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES, NUTRITION COUNSELING, INDIVIDUALIZED HIV EDUCATION, LABORATORY TESTING, AND RADIOLOGY SERVICES. WHIC'S PROVIDERS INCLUDE THREE BOARD-CERTIFIED/BOARD-ELIGIBLE INFECTIOUS DISEASE SPECIALISTS AS WELL AS AN ADVANCED PRACTITIONER NURSE AND A REGISTERED DIETICIAN, ALL WITH EXPERTISE IN THE MANAGEMENT OF PATIENTS WITH HIV/AIDS. IN FY 2014, WHIC SERVED AROUND 500 PEOPLE LIVING WITH HIV/AIDS (PLWHA).

WHIC'S STAFF MEMBERS ACTIVELY PARTICIPATE IN STATEWIDE AND AREA COLLABORATIVE, SUCH AS THE CONNECTICUT HIV PLANNING CONSORTIUM (CHPC) AND THE RYAN WHITE PART A PLANNING COUNCIL, AND WHIC FACILITATES THE GREATER WATERBURY HIV CONSORTIUM. WHIC HAS A VERY ACTIVE CONSUMER ADVISORY GROUP (CAG), WHICH ORGANIZES SOCIAL AND TESTING EVENTS FOR THE COMMUNITY AND FACILITATES THE WATERBURY HOSPITAL PHOTOGRAPHY GROUP.

THE WHIC ALSO HAS A HEPATITIS C CLINIC, RUN BY AN ADVANCED PRACTITIONER NURSE. FROM OCTOBER 2004 TO PRESENT, NEARLY 200 HEPATITIS C MONO- AND CO-INFECTED (HEPATITIS C AND HIV) PATIENTS HAVE BEEN EVALUATED AT THE ID CLINIC. THE HEPATITIS C CLINIC PROVIDES A CONSULTATION WITH A NUTRITIONIST TO ADVISE ON HEALTHY EATING; COORDINATION WITH MENTAL HEALTH SERVICES; AND EDUCATIONAL SESSIONS ON SIDE EFFECT MANAGEMENT, THE IMPORTANCE OF HYDRATION AND ADHERENCE, AND POSITIVE COPING STRATEGIES.

FORGING COMMUNITY PARTNERSHIPS: SINCE 2009, THE WHIC HAS SERVED AS THE LEAD AGENCY FOR RYAN WHITE PART A FEDERAL FUNDING REGION 2 OF THE NEW HAVEN/FAIRFIELD ELIGIBLE METROPOLITAN AREA. THE WHIC WAS CHOSEN AS LEAD AGENCY BY THE CONSENSUS OF OTHER LOCAL RYAN WHITE PART A AGENCIES DUE TO ITS EXPERTISE IN PATIENT CARE AND FISCAL MANAGEMENT. AS THE LEAD AGENCY, THE WHIC HAS FORMED LONGSTANDING PARTNERSHIPS WITH STAYWELL HEALTH CENTER, INC., NEW OPPORTUNITIES, INC., RECOVERY NETWORK OF PROGRAMS, INC., AND CONNECTICUT COUNSELING CENTERS, INC., ALL OF WHOM WORK ALONGSIDE THE WHIC TO PROVIDE PATIENTS IN THE REGION WITH:

- PRIMARY HIV CARE;
- MEDICAL CASE MANAGEMENT;
- ORAL HEALTH CARE;
- INPATIENT AND OUTPATIENT SUBSTANCE ABUSE TREATMENT;
- HEALTH INSURANCE ASSISTANCE;
- MENTAL HEALTH;
- EARLY INTERVENTION SERVICES;
- HOUSING ASSISTANCE;
- EMERGENCY FINANCIAL ASSISTANCE;
- MEDICAL TRANSPORTATION; AND

Part VI **Supplemental Information** *(Continuation)*

- FOOD PANTRY.

IN JUNE 2014, WHIC COLLABORATED WITH THE WATERBURY HEALTH DEPARTMENT, GRACE BAPTIST CHURCH, AND OTHER AREA AIDS SERVICE ORGANIZATIONS, TO ORGANIZE THE WATERBURY AIDS WALK AND RAISE AWARENESS ABOUT HIV/AIDS TREATMENT AND TESTING IN WATERBURY. OVER 200 RESIDENTS PARTICIPATED IN THE EVENT.

PART VI, LINE 6:

PART VI, LINE 7, LIST OF STATES RECEIVING COMMUNITY BENEFIT REPORT:

CT

PART VI, LINE 5 (CONTINUED):

RESHAPING HIV TESTING STATEWIDE: SINCE 2008, PATIENTS VISITING WATERBURY HOSPITAL'S EMERGENCY DEPARTMENT ARE OFFERED FREE HIV SCREENING WHILE WAITING TO BE EVALUATED OR TREATED FOR OTHER SYMPTOMS. IN ORDER TO OPTIMIZE THE NUMBER OF PEOPLE SCREENED FOR HIV, THE EMERGENCY DEPARTMENT'S PROGRAM USES AN OPT-OUT APPROACH. THE PROGRAM HAS SUCCESSFULLY SERVED AS A MODEL FOR OTHER HEALTHCARE INSTITUTIONS ACROSS THE STATE. THANKS, IN PART, TO WHIC'S LEADERSHIP, THE STATE OF CONNECTICUT NO LONGER LEGALLY REQUIRES PROVIDERS TO HAVE A SEPARATE CONSENT FORM FOR HIV TESTING.

ENGAGING PATIENTS: IN 2009, THE WHIC ESTABLISHED ITS PEER ADVOCATE PROGRAM. THREE PATIENTS FROM THE CLINIC SERVE AS THE PEER ADVOCATES,

Part VI Supplemental Information *(Continuation)*

WHO WORK WITH CLIENTS AT THE CLINIC AND USE A SOCIAL NETWORKS STRATEGY TO BRING DIFFICULT-TO-REACH CLIENTS IN FOR TESTING AND/OR CARE; THEY HAVE TRAVELED TO HIGH-RISK NEIGHBORHOODS ON THE WATERBURY HEALTH DEPARTMENT'S COMMUNITY HEALTH VAN TO OFFER COUNSELING AND TESTING AND HAVE PARTICIPATED IN AIDS AWARENESS DAYS TO FACILITATE THE LINKAGE OF NEWLY DIAGNOSED PATIENTS TO PRIMARY CARE. PEER ADVOCATES PARTICIPATE IN THE WHIC'S CARE TEAM AND CONTINUUM MEETINGS TO KEEP PROVIDERS AND LOCAL PARTNERS AWARE OF THE PATIENTS' ACTIVITIES AND NEEDS.

THIS YEAR ONE PEER ADVOCATE PARTICIPATED IN THE WATERBURY PARENT LEADERSHIP TRAINING INSTITUTE, COMPLETING A COMMUNITY PROJECT, "JOSE'S HAVEN," TO PROVIDE SUPPORT SERVICES, ENROLL CLIENTS IN INDIVIDUAL PHOTO DIARY PROJECTS, AND ENCOURAGE VOLUNTEERISM.

THE WHIC OFFERS ITS PATIENTS NATIONALLY-RECOGNIZED PEER AND SUPPORT PROGRAMS, INCLUDING ITS PROJECT PHOTOGRAPHY, WHICH WAS ESTABLISHED IN 2007 TO ENCOURAGE NON-COMPLIANT HIV/AIDS PATIENTS IN THE GREATER WATERBURY AREA TO BECOME MORE PROACTIVE IN THE SELF-MANAGEMENT OF THEIR DISEASE. PROJECT PHOTOGRAPHY HAS POSITIVELY TRANSFORMED ITS PARTICIPANT'S SELF-ESTEEM AND CONFIDENCE. PATIENT PROJECTS HAVE INCLUDED: (1) ENROLLING IN PHOTOGRAPHY CLASSES AT NAUGATUCK VALLEY COMMUNITY COLLEGE, (2) TAKING FIELD TRIPS, (3) DONATING FRAMED PHOTOGRAPHS TO THE HOSPITAL'S ANNUAL FUNDRAISING GALA AND PATIENT FLOORS, (4) PRODUCING HOLIDAY GREETING CARDS FOR THE ID CLINIC, (5) CREATING TEAM PORTRAITS AT THE HOSPITAL'S FUNDRAISING GOLF TOURNAMENT, AND (6) MOUNTING PHOTOGRAPHY EXHIBITS AT THE HOSPITAL, BARNES & NOBLE BOOKSTORE, AND SILAS BRONSON LIBRARY IN WATERBURY.

Part I Questions Regarding Compensation

			Yes	No
1a	Check the appropriate box(es) if the organization provided any of the following to or for a person listed in Form 990, Part VII, Section A, line 1a. Complete Part III to provide any relevant information regarding these items.			
	☐ First-class or charter travel	☐ Housing allowance or residence for personal use		
	☐ Travel for companions	☐ Payments for business use of personal residence		
	☐ Tax indemnification and gross-up payments	☐ Health or social club dues or initiation fees		
	☐ Discretionary spending account	☐ Personal services (e.g., maid, chauffeur, chef)		
b	If any of the boxes on line 1a are checked, did the organization follow a written policy regarding payment or reimbursement or provision of all of the expenses described above? If "No," complete Part III to explain	1b		
2	Did the organization require substantiation prior to reimbursing or allowing expenses incurred by all directors, trustees, and officers, including the CEO/Executive Director, regarding the items checked in line 1a?	2	X	
3	Indicate which, if any, of the following the filing organization used to establish the compensation of the organization's CEO/Executive Director. Check all that apply. Do not check any boxes for methods used by a related organization to establish compensation of the CEO/Executive Director, but explain in Part III.			
	☒ Compensation committee	☒ Written employment contract		
	☒ Independent compensation consultant	☒ Compensation survey or study		
	☐ Form 990 of other organizations	☒ Approval by the board or compensation committee		
4	During the year, did any person listed in Form 990, Part VII, Section A, line 1a, with respect to the filing organization or a related organization:			
a	Receive a severance payment or change-of-control payment?	4a		X
b	Participate in, or receive payment from, a supplemental nonqualified retirement plan?	4b	X	
c	Participate in, or receive payment from, an equity-based compensation arrangement?	4c		X
	If "Yes" to any of lines 4a-c, list the persons and provide the applicable amounts for each item in Part III.			
	Only section 501(c)(3) and 501(c)(4) organizations must complete lines 5-9.			
5	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the revenues of:			
a	The organization?	5a		X
b	Any related organization?	5b		X
	If "Yes" to line 5a or 5b, describe in Part III.			
6	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the net earnings of:			
a	The organization?	6a		X
b	Any related organization?	6b		X
	If "Yes" to line 6a or 6b, describe in Part III.			
7	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization provide any non-fixed payments not described in lines 5 and 6? If "Yes," describe in Part III	7		X
8	Were any amounts reported in Form 990, Part VII, paid or accrued pursuant to a contract that was subject to the initial contract exception described in Regulations section 53.4958-4(a)(3)? If "Yes," describe in Part III	8		X
9	If "Yes" to line 8, did the organization also follow the rebuttable presumption procedure described in Regulations section 53.4958-6(c)?	9		

Part II **Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees.** Use duplicate copies if additional space is needed.

For each individual whose compensation must be reported in Schedule J, report compensation from the organization on row (i) and from related organizations, described in the instructions, on row (ii). Do not list any individuals that are not listed on Form 990, Part VII.

Note. The sum of columns (B)(i)-(iii) for each listed individual must equal the total amount of Form 990, Part VII, Section A, line 1a, applicable column (D) and (E) amounts for that individual.

(A) Name and Title		(B) Breakdown of W-2 and/or 1099-MISC compensation			(C) Retirement and other deferred compensation	(D) Nontaxable benefits	(E) Total of columns (B)(i)-(D)	(F) Compensation reported as deferred in prior Form 990

REALIZING THE DIVERSE NEEDS OF RESIDENTS IN OUR COMMUNITY, WATERBURY HOSPITAL REMAINS DEDICATED TO PROVIDING COMPREHENSIVE HEALTH SERVICES TO ENSURE EVERY INDIVIDUAL HAS ACCESS TO APPROPRIATE, QUALITY HEALTHCARE.

DURING 2014, WATERBURY HOSPITAL'S SPECTRUM OF SERVICES CONTINUED TO HAVE A POSITIVE IMPACT ON THE WELFARE OF WATERBURY'S CITIZENS. TO REMAIN CONSISTENT WITH WATERBURY HOSPITAL'S MISSION, MANY OF OUR SERVICES ARE TARGETED FOR VULNERABLE MEMBERS OF OUR COMMUNITY, INCLUDING THOSE WHO ARE UNINSURED OR UNDERINSURED.

KEY PROGRAMS:

WATERBURY HEALTH ACCESS PROGRAM

WATERBURY HOSPITAL IS AWARE OF THE ECONOMIC NEEDS MANY PATIENTS IN OUR COMMUNITY, AND, AS A RESULT, WE REMAIN COMMITTED TO THE WATERBURY HEALTH ACCESS PROGRAM. FOUNDED IN 2003 AS A PARTNERSHIP BETWEEN

Name of the organization: THE WATERBURY HOSPITAL | Employer identification number: 06-0665979

WATERBURY HOSPITAL, ST. MARY'S HOSPITAL, STAYWELL HEALTH CENTER (FQHC), AND THE WATERBURY HEALTH DEPARTMENT, THE WATERBURY HEALTH ACCESS PROGRAM IMPROVES ACCESS TO HIGH-QUALITY MEDICAL CARE BY PROVIDING COMPREHENSIVE CASE MANAGEMENT, PHARMACY ASSISTANCE, AND ACCESS TO PRIMARY AND SUB-SPECIALTY MEDICAL CARE FOR THE UNINSURED AND UNDERINSURED RESIDENTS OF THE GREATER WATERBURY REGION. DURING FY 2014, THE WATERBURY HEALTH ACCESS PROGRAM HAD OVER 4,370 ACTIVE CLIENTS. ADDITIONALLY, WATERBURY HOSPITAL PROVIDED $402,864 WORTH OF DONATED SERVICES TO WHAP'S PATIENTS.

BEHAVIORAL HEALTH - WATERBURY HOSPITAL'S CENTER FOR BEHAVIORAL HEALTH IS ONE OF THE REGION'S LARGEST SERVICE PROVIDERS OFFERING A FULL CONTINUUM OF CARE FOR CHILDREN, ADOLESCENTS AND ADULTS. OUR SERVICES ALSO OUTREACH TO THE COMMUNITY THROUGH REGULAR PARTICIPATION IN HEALTH FAIRS, ELECTED MEMBERSHIP IN THE NORTHWEST REGIONAL MENTAL HEALTH BOARD, AS A HOST SITE TO NUMEROUS TWELVE-STEP MEETINGS AND THE PROVISION OF CASE MANAGEMENT AS WELL AS ACUTE SERVICES TO THE HOMELESS WITHIN THE CITY OF WATERBURY. BEHAVIORAL HEALTH CLINICIANS CAN ENGAGE CLIENTS TO HELP FACILITATE THEIR ENTRANCE INTO TREATMENT. WE PROVIDE PHONE SUPPORT, REFERRALS AND TRIAGING TEN HOURS A DAY SEVEN DAYS A WEEK. WITHIN OUR CRISIS CENTER WE OFFER SHORT TERM SERVICES TO HELP INDIVIDUALS OBTAIN MORE PERMANENT TREATMENT THAT BEST MEETS THEIR NEEDS. FOR INDIVIDUALS EXPERIENCING ACUTE SYMPTOMS WE OFFER INPATIENT TREATMENT TO ADOLESCENTS AGED 12 AND UP AS WELL AS ADULT SERVICES. OUR EFFORTS ARE AIMED AT PROMOTING THE BENEFITS OF CLINICAL TREATMENT AS WELL AS POSITIVE LIFESTYLE CHOICES. EVERY EFFORT IS MADE TO EDUCATE CLIENTS, THEIR FAMILIES AND THE COMMUNITY ABOUT MENTAL ILLNESS AND THE IMPACT TREATMENT CAN HAVE ON ONE'S ILLNESS. THE ULTIMATE GOAL IS TO

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

HELP PEOPLE FEEL BETTER, REDUCE OR RESOLVE SYMPTOMS AND TO MINIMIZE THE STIGMA OF MENTAL ILLNESS.

BE WELL BUS - IN ORDER TO ENSURE THAT PATIENTS HAVE ACCESS TO MEDICAL APPOINTMENTS, AT THE HOSPITAL AND AT LOCAL PHYSICIANS' OFFICES, WATERBURY HOSPITAL'S BE WELL BUS PROVIDES TRANSPORTATION SERVICES TO PATIENTS FROM WATERBURY AND ELEVEN OF ITS SURROUNDING TOWNS. DURING FY 2014, THE BE WELL BUS'S HOURS OF OPERATION ARE FROM 6:00 AM TO 6:00 PM MONDAY - FRIDAY. THE PROGRAM OFFERED TRANSPORTS TO AND FROM MEDICAL APPOINTMENTS. WATERBURY HOSPITAL HAS CONTRACTED WITH A TRANSPORTATION PROVIDE TO OFFER THE BUS SERVICE, AND AREA PROVIDERS PAY A SMALL FEE TO PARTICIPATE. COMMUNITIES SERVED INCLUDE: WATERBURY, WATERTOWN, THOMASTON, SOUTHBURY, MIDDLEBURY, NAUGATUCK, WOLCOTT, AND BEACON FALLS IN ADDITION TO WATERBURY HOSPITAL. THIS PROGRAM CURRENTLY HAS 13 PARTICIPATING DEPARTMENTS WHICH INCLUDE 59 PRACTICING PHYSICIANS AND SPECIALISTS.

HEART CENTER OF GREATER WATERBURY - FORMED IN COLLABORATION WITH SAINT MARY'S HOSPITAL, THE HEART CENTER OF GREATER WATERBURY PROVIDES DIVERSE MEDICAL SUPPORT INITIATIVES TO HELP EDUCATE RESIDENTS IN THE GREATER WATERBURY COMMUNITY ABOUT PERTINENT HEALTH AND WELLNESS ISSUES. THIS PAST YEAR, THE HEART CENTER CONDUCTED A SERIES OF HEALTH FAIRS AND VARIOUS HEALTH AND WELLNESS EDUCATION SESSIONS, INCLUDING "HEALTH SCREENINGS," WHICH PROVIDES PATIENTS WITH COMPLIMENTARY BLOOD PRESSURE SCREENINGS AND HEALTH AWARENESS EDUCATION. THROUGH COLLABORATIVE EFFORT, THE HEART CENTER OF GREATER WATERBURY AND SAINT MARY'S HOSPITAL DEVOTED A TOTAL OF 28 HOURS TO THE SCREENING PROCESS. A NEW PROGRAM CALLED "SMOKING CESSATION" WAS ALSO DEVELOPED DURING THE FISCAL YEAR.

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

THE SERIES HELPS OUR RESIDENTS KICK THE HABIT.

FAMILY BIRTHING CENTER - PROVIDING A CHILD-CENTERED FOCUS, WATERBURY HOSPITAL'S FAMILY BIRTHING CENTER OFFERS EXPECTANT PARENTS A VARIETY OF CLASSES INCLUDING: BREAST FEEDING, CHILDBIRTH WEEKEND WORKSHOP, AND CHILDBIRTH PREPARATION, WHICH INCLUDES LAMAZE IN ADDITION TO EXERCISING BREATHING AND RELAXATION TECHNIQUES. THE DEPARTMENT IS EXPECTING THE RETURN OF THE INFANT CARE CLASS BY THE END OF FY 2015. THE FAMILY BIRTHING CENTER ALSO SUGGESTED PLANS OF RESTRUCTURING THE WEBSITE TO BE MORE USER FRIENDLY AND ENGAGING.

THANK GOD I'M FEMALE - FOR THE PAST 20 YEARS, WATERBURY HOSPITAL'S "THANK GOD I'M FEMALE" HAS SERVED AS AN ANNUAL WOMEN'S WELLNESS FORUM THAT FEATURES 40 EDUCATIONAL BOOTHS AND HEALTH-RELATED GIVEAWAYS. THE ULTIMATE GOAL OF THE FORUM IS TO EDUCATE ATTENDEES ABOUT STRESS, MENTAL WELL-BEING, HEART HEALTH, DIET, OSTEOPOROSIS AND BONE HEALTH, CHANGE OF LIFE, AND MORE. IN 2014, OVER 500 AREA RESIDENTS ATTENDED THE EVENT.

EVERGREEN 50 CLUB - WATERBURY HOSPITAL'S EVERGREEN 50 CLUB IS AN ORGANIZATION COMPRISED OF OVER 15,000 MEMBERS OVER THE AGE OF 50. THE CLUB OFFERS WELLNESS PROGRAMMING, MEDICARE COUNSELING, AND HEALTH EDUCATION PRESENTATIONS ON A VARIETY OF TOPICS ARE PRESENTED BY HEALTH CARE PROFESSIONALS. PRESENTATION TOPICS INCLUDE: HOLISTIC HEALTH, VARICOSE VEIN TREATMENT, HEART DISEASE, SUMMER SKIN CARE, WEIGHT LOSS, BLOOD PRESSURE, BLADDER SCREENINGS, JOINT CARE AND REPLACEMENT, AND RESOLVING ADVERSE OUTCOMES WITH PATIENTS AND FAMILIES. ANNUALLY, THE EVERGREEN 50 CLUB HOSTS A HEALTH FAIR FOR ITS MEMBERS, WHICH PROVIDES FREE FLU SHOTS AND HEALTHCARE SCREENINGS.

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

WATERBURY HOSPITAL INFECTIOUS DISEASE CLINIC (WHIC) -

CURRENT SERVICES: THE WHIC OFFERS A COMPREHENSIVE "ONE-STOP SHOPPING" MODEL THAT PROVIDES PATIENTS WITH ON-SITE PRIMARY AND SPECIALTY SERVICES, MEDICAL CASE MANAGEMENT, INDIVIDUALIZED MEDICATION ADHERENCE SERVICES, MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES, NUTRITION COUNSELING, INDIVIDUALIZED HIV EDUCATION, LABORATORY TESTING, AND RADIOLOGY SERVICES. WHIC'S PROVIDERS INCLUDE THREE BOARD-CERTIFIED/BOARD-ELIGIBLE INFECTIOUS DISEASE SPECIALISTS AS WELL AS AN ADVANCED PRACTITIONER NURSE AND A REGISTERED DIETICIAN, ALL WITH EXPERTISE IN THE MANAGEMENT OF PATIENTS WITH HIV/AIDS. IN FY 2014, WHIC SERVED AROUND 500 PEOPLE LIVING WITH HIV/AIDS (PLWHA).

WHIC'S STAFF MEMBERS ACTIVELY PARTICIPATE IN STATEWIDE AND AREA COLLABORATIVE, SUCH AS THE CONNECTICUT HIV PLANNING CONSORTIUM (CHPC) AND THE RYAN WHITE PART A PLANNING COUNCIL, AND WHIC FACILITATES THE GREATER WATERBURY HIV CONSORTIUM. WHIC HAS A VERY ACTIVE CONSUMER ADVISORY GROUP (CAG), WHICH ORGANIZES SOCIAL AND TESTING EVENTS FOR THE COMMUNITY AND FACILITATES THE WATERBURY HOSPITAL PHOTOGRAPHY GROUP.

FORGING COMMUNITY PARTNERSHIPS: SINCE 2009, THE WHIC HAS SERVED AS THE LEAD AGENCY FOR RYAN WHITE PART A FEDERAL FUNDING REGION 2 OF THE NEW HAVEN/FAIRFIELD ELIGIBLE METROPOLITAN AREA. THE WHIC WAS CHOSEN AS LEAD AGENCY BY THE CONSENSUS OF OTHER LOCAL RYAN WHITE PART A AGENCIES DUE TO ITS EXPERTISE IN PATIENT CARE AND FISCAL MANAGEMENT. AS THE LEAD AGENCY, THE WHIC HAS FORMED LONGSTANDING PARTNERSHIPS WITH STAYWELL HEALTH CENTER, INC., NEW OPPORTUNITIES, INC., RECOVERY NETWORK OF PROGRAMS, INC., AND CONNECTICUT COUNSELING CENTERS, INC., ALL OF WHOM

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

WORK ALONGSIDE THE WHIC TO PROVIDE PATIENTS IN THE REGION WITH:

- PRIMARY HIV CARE
- MEDICAL CASE MANAGEMENT
- ORAL HEALTH CARE
- INPATIENT AND OUTPATIENT SUBSTANCE ABUSE TREATMENT
- HEALTH INSURANCE ASSISTANCE
- MENTAL HEALTH
- EARLY INTERVENTION SERVICES
- HOUSING ASSISTANCE
- EMERGENCY FINANCIAL ASSISTANCE
- MEDICAL TRANSPORTATION
- FOOD PANTRY

IN JUNE 2014, WHIC COLLABORATED WITH THE WATERBURY HEALTH DEPARTMENT, GRACE BAPTIST CHURCH, AND OTHER AREA AIDS SERVICE ORGANIZATIONS, TO ORGANIZE THE WATERBURY AIDS WALK AND RAISE AWARENESS ABOUT HIV/AIDS TREATMENT AND TESTING IN WATERBURY. OVER 200 RESIDENTS PARTICIPATED IN THE EVENT.

RESHAPING HIV TESTING STATEWIDE: SINCE 2008, WATERBURY HOSPITAL (WH) HAS BEEN AT THE FOREFRONT OF DEVELOPING AND IMPLEMENTING SYSTEMS TO ROUTINIZE HIV SCREENING IN ORDER TO IDENTIFY INDIVIDUALS UNAWARE OF THEIR DIAGNOSIS. SINCE 2012, PATIENTS VISITING WH'S EMERGENCY DEPARTMENT RECEIVED WRITTEN NOTIFICATION THAT THEY MAY BE SCREENED FOR HIV UNLESS THEY ELECT TO OPT-OUT. IN ADDITION, ALLIANCE MEDICAL GROUP OFFICES HAVE BEEN PROVIDED TOOLS THAT INCORPORATE ROUTINE HIV SCREENING INTO THEIR PRACTICE. IN THE NEAR FUTURE, WH PLANS TO LAUNCH AN AUTOMATED SYSTEM TO ENSURE THAT ALL PATIENTS VISITING THE WH CAMPUS ARE

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

AWARE OF THEIR HIV STATUS. NEWLY DIAGNOSED INDIVIDUALS WILL ALSO BE FAMILIARIZED WITH AVAILABLE TREATMENT OPTIONS AND CARE AT THE WATERBURY HOSPITAL INFECTIOUS DISEASE AND TRAVEL CLINIC.

ENGAGING PATIENTS: IN 2009, THE WHIC ESTABLISHED ITS PEER ADVOCATE PROGRAM. THREE PATIENTS FROM THE CLINIC SERVE AS THE PEER ADVOCATES, WHO WORK WITH CLIENTS AT THE CLINIC AND USE A SOCIAL NETWORKS STRATEGY TO BRING DIFFICULT-TO-REACH CLIENTS IN FOR TESTING AND/OR CARE; THEY HAVE TRAVELED TO HIGH-RISK NEIGHBORHOODS ON THE WATERBURY HEALTH DEPARTMENT'S COMMUNITY HEALTH VAN TO OFFER COUNSELING AND TESTING AND HAVE PARTICIPATED IN AIDS AWARENESS DAYS TO FACILITATE THE LINKAGE OF NEWLY DIAGNOSED PATIENTS TO PRIMARY CARE. PEER ADVOCATES PARTICIPATE IN THE WHIC'S CARE TEAM AND CONTINUUM MEETINGS TO KEEP PROVIDERS AND LOCAL PARTNERS AWARE OF THE PATIENTS' ACTIVITIES AND NEEDS.

THE WHIC OFFERS ITS PATIENTS NATIONALLY-RECOGNIZED PEER AND SUPPORT PROGRAMS, INCLUDING ITS PROJECT PHOTOGRAPHY, WHICH WAS ESTABLISHED IN 2007 TO ENCOURAGE NON-COMPLIANT HIV/AIDS PATIENTS IN THE GREATER WATERBURY AREA TO BECOME MORE PROACTIVE IN THE SELF-MANAGEMENT OF THEIR DISEASE. PROJECT PHOTOGRAPHY HAS POSITIVELY TRANSFORMED ITS PARTICIPANT'S SELF-ESTEEM AND CONFIDENCE. PATIENT PROJECTS HAVE INCLUDED: (1) ENROLLING IN PHOTOGRAPHY CLASSES AT NAUGATUCK VALLEY COMMUNITY COLLEGE, (2) TAKING FIELD TRIPS TO BOSTON AND RHODE ISLAND, (3) DONATING FRAMED PHOTOGRAPHS TO THE HOSPITAL'S ANNUAL FUNDRAISING GALA, (4) PRODUCING HOLIDAY GREETING CARDS FOR THE ID CLINIC, (5) CREATING TEAM PORTRAITS AT THE HOSPITAL'S FUNDRAISING GOLF TOURNAMENT, AND (6) CONSTRUCTING PHOTOGRAPHY EXHIBITS AT THE HOSPITAL ON THE FIRST FLOOR AND IN THE POMEROY; ACCOMPLISHED BY 9 PHOTOGRAPHY STUDENTS FROM

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

THE PEACH PROGRAM AND THE SUMMER BRIDGE PROGRAM.

THE FOOD FOR LIFE PROGRAM IS AN INNOVATIVE PROGRAM RECENTLY ESTABLISHED BY WHIC IN COLLABORATION WITH THE WATERBURY YMCA. THIS PROVIDES ACCESS TO FRESH FRUITS AND VEGETABLES AND ENROLLMENT IN EXERCISE PROGRAMS TO QUALIFIED PATIENTS AT NO COST. THE WHIC OFFERS A FITNESS CLASS MONTHLY AND YOGA MONTHLY AS WELL TO PATIENTS, AND NUTRITION, HEALTH, WELLNESS SUPPORT GROUP BIWEEKLY TO ENGAGE IN POSITIVE ACTIVITIES.

CATEGORY B: HEALTH PROFESSIONS EDUCATION

TOTAL BENEFIT: $9,670,648

TOTAL PERSONS SERVED: 1,689

SINCE IT FIRST AFFILIATED WITH THE YALE UNIVERSITY SCHOOL OF MEDICINE IN 1973, WATERBURY HOSPITAL HAS SERVED AS THE CLINICAL TRAINING SITE FOR THOUSANDS OF MEDICAL PROFESSIONALS IN TRAINING. DURING FY 2014, STUDENTS COMPLETED CLINICAL ROTATIONS, INTERNSHIPS, AND SHADOWING EXPERIENCES AT WATERBURY HOSPITAL.

KEY PROGRAMS:

WATERBURY HOSPITAL INTERNAL MEDICINE RESIDENCY PROGRAM -

IN 2014, TWENTY-FOUR RESIDENTS WERE ENROLLED IN THIS PROGRAM. THE RESIDENCY PROGRAM IS SPONSORED BY YALE-NEW HAVEN HOSPITAL AND AFFILIATED WITH YALE UNIVERSITY.

ACTIVITIES INCLUDE:

Name of the organization: THE WATERBURY HOSPITAL | Employer identification number: 06-0665979

- PARTICIPATION IN RESEARCH DAYS AT YALE AND WATERBURY HOSPITAL/SAINT MARY'S HOSPITAL

- HOME AND OFFICE VISITS FOR CLINIC PATIENTS

- EDUCATIONAL SEMINARS HELD AT WATERBURY HOSPITAL AND YALE UNIVERSITY.

AT WATERBURY HOSPITAL, WE SEEK TO TRAIN PHYSICIANS WHO DESIRE A GENERALIST BACKGROUND TO THEIR CAREERS IN MEDICINE. THIS PROGRAM IS UNIQUE IN THAT IT PROVIDES THE MEDICAL RESIDENTS THE OPPORTUNITY TO WORK EACH YEAR AT WATERBURY HOSPITAL AND OUTPATIENT PRACTICE SITES THAT INCLUDE PRIVATE PRACTICE OFFICES AND COMMUNITY HEALTH CENTERS. OUR GRADUATES ARE HIGHLY SOUGHT AFTER BY PRIVATE PRACTICE OFFICES, HOSPITALIST PROGRAMS, AND FELLOWSHIP PROGRAMS THROUGHOUT THE COUNTRY.

OTHER RESIDENCY PROGRAMS -

WATERBURY HOSPITAL ALSO HAS A SURGERY RESIDENCY PROGRAM. THE PROGRAM IS AFFILIATED WITH YALE UNIVERSITY, UNIVERSITY OF CONNECTICUT MEDICAL CENTER, AND QUINNIPIAC UNIVERSITY SCHOOL OF MEDICINE. TWELVE RESIDENTS WERE ENROLLED IN 2014. THIS PROGRAM PROVIDES A FULL SPECTRUM OF SURGICAL EXPERIENCES FOR THE HOSPITAL'S RESIDENTS. GENERAL SURGERY AND MEDICINE TRAINING PROGRAMS INCLUDES ACCESS TO GENERAL SURGERY, ENT, UROLOGY, PLASTICS, GYN, NEUROSURGERY AN ORTHOPEDIC CASES.

WATERBURY HOSPITAL HAS A PHARMACY RESIDENCY PROGRAM. TWO STUDENTS ARE ENROLLED IN THE PHARMACY RESIDENCY PROGRAM. WATERBURY HOSPITAL'S PGY-1 PROGRAM IS ACCREDITED BY THE AMERICAN SOCIETY OF HEALTH-SYSTEM PHARMACISTS (ASHP). TWO RESIDENT POSITIONS WILL BE AVAILABLE EACH YEAR. THE MISSION OF THE PHARMACY RESIDENCY PROGRAM IS TO BE CLINICALLY

Name of the organization: THE WATERBURY HOSPITAL | Employer identification number: 06-0665979

FOCUSED AND TO SHARE RESPONSIBILITY FOR THE OPTIMAL OUTCOME OF PATIENT DRUG THERAPIES. 1-YEAR OF CONCENTRATED TRAINING IN ALL ASPECTS OF PHARMACY PRACTICE IS PROVIDED IN ADDITION TO LEARNING ACTIVITY ROTATIONS THAT ACCOMMODATE THE RESIDENT'S PREVIOUS EXPERIENCES AND CURRENT GOALS. ROTATIONS INCLUDED ARE:

- PHARMACY OPERATIONS (FOUR WEEKS)
- INTERNAL MEDICINE (EIGHT WEEKS)
- CRITICAL CARE (EIGHT WEEKS)
- EMERGENCY MEDICINE (SIX WEEKS)
- PSYCHIATRY (FOUR WEEKS)
- PHARMACY ADMINISTRATION (SIX WEEKS)
- PAIN MANAGEMENT (FOUR WEEKS)
- PHARMACY INFORMATICS (FOUR WEEKS)
- AMBULATORY CARE (LONGITUDINAL)

THIS PROGRAM SATISFIES THE ASHP PGY-1 REQUIRED OUTCOMES.

STUDENT NURSE INTERN PROGRAM (SNI) -

THE SNI PROGRAM IS AVAILABLE FOR NURSING STUDENTS ENTERING THEIR SENIOR YEAR. THE PROGRAM PROVIDES THESE STUDENT NURSES WITH SHADOWING OPPORTUNITIES SO THEY CAN APPLY THEIR CONTENT KNOWLEDGE TO AUTHENTIC PATIENT CARE SITUATIONS. STAFF RNS SERVE AS THE STUDENTS' MENTORS AS THE STUDENTS ACCOMPANY THEM ON THEIR MEDICAL ROUNDS. THE GOALS OF THE PROGRAM ARE: (1) TO PROVIDE THE STUDENT NURSES WITH THE KNOWLEDGE AND SKILLS NECESSARY TO PASS THE NCLEX EXAM AND (2) TO SOCIALIZE THE STUDENT NURSE IN AN ATTEMPT TO DECREASE THE STRESS OF ASSIMILATING INTO

Name of the organization: THE WATERBURY HOSPITAL | Employer identification number: 06-0665979

THE HOSPITAL'S WORK ENVIRONMENT, SHOULD THEY BE HIRED AS GRADUATE NURSES AT WATERBURY HOSPITAL.

PHYSICIAN'S ASSISTANT (PA) STUDENTS -

P.A. STUDENTS FROM QUINNIPIAC UNIVERSITY COMPLETED CLINICAL ROUNDS IN SEVERAL DEPARTMENTS AROUND THE HOSPITAL, INCLUDING THE OPERATING ROOM, EMERGENCY DEPARTMENT, BEHAVIORAL HEALTH, AND RADIOLOGY. THE EXPERIENCE IS DESIGNED FOR THE STUDENT TO LEARN TO APPLY THE KNOWLEDGE GAINED FROM DIDACTIC COURSE WORK IN MEDICINE, SURGERY, AND THE BASIC AND BEHAVIORAL SCIENCES INTO THE CLINICAL ARENA RESULTING IN THE ABILITY TO SUCCESSFULLY MANAGE PATIENTS IN A THOROUGH AND COMPREHENSIVE MANNER. THE PRIMARY GOAL OF CLINICAL ROTATIONS IS TO EXPOSE THE STUDENT TO PATIENTS OF ALL AGES, PATIENTS IN A VARIETY OF DIFFERENT SETTINGS, AND PATIENTS WITH A BROAD RANGE OF MEDICAL, SURGICAL, AND PSYCHOSOCIAL PROBLEMS.

THE P.A. STUDENTS PARTICIPATE IN:

- HISTORY TAKING
- EXAMINING THE PATIENT
- ASSISTING IN AND/OR PERFORMING DIAGNOSTIC TESTING
- ASSISTING IN AND/OR PERFORMING THERAPEUTIC TASKS
- ORAL PRESENTATIONS
- MEDICAL DOCUMENTATION OF THE PATIENT ENCOUNTER
- FORMULATING A DIFFERENTIAL DIAGNOSIS AND PROBLEM LIST
- FORMULATING A TREATMENT PLAN
- COUNSELING OF PATIENTS REGARDING MEDICATION, DIET, AND LIFESTYLE CHANGES SUCH AS SMOKING CESSATION, EXERCISE, AND WELL-BEING.

Name of the organization: THE WATERBURY HOSPITAL

RADIOLOGY STUDENTS FROM NVCC -

THE NAUGATUCK VALLEY COMMUNITY COLLEGE (NVCC) RADIOLOGY STUDENTS ARE INVOLVED WITH MANY ACTIVITIES WHILE ASSIGNED TO WATERBURY HOSPITAL. UNDER THE SUPERVISION OF A NVCC CLINICAL INSTRUCTOR AND HOSPITAL RADIOLOGIC TECHNOLOGISTS, THE STUDENTS ARE ASSIGNED TO THE VARIOUS RADIOGRAPHIC SUITES AND MODALITIES. DURING THEIR ASSIGNMENT, STUDENTS ARE PERFORMING OR ASSISTING WITH RADIOGRAPHIC PROCEDURES, INCLUDING CHEST X-RAYS, SKELETAL EXAMS, FLUOROSCOPIC PROCEDURES, MOBILE X-RAYS IN THE VARIOUS PATIENT UNITS, AND SURGICAL CASES. THE STUDENTS ALSO INCREASE THE NUMBER OF INDIVIDUALS AVAILABLE IN THE DEPARTMENT TO ASSIST IN MOVING AND TRANSPORTING PATIENTS AS WELL AS CHAPERONING SENSITIVE EXAMS. IN ADDITION TO THE DIAGNOSTIC RADIOLOGY THE STUDENTS ARE ASSIGNED TO EXPERIENCES IN INTERVENTIONAL RADIOLOGY, CT, MRI, NUCLEAR MEDICINE, AND ULTRASOUND. STUDENTS WORK IN THESE MODALITIES UNDER THE DIRECT SUPERVISION OF THE HOSPITAL STAFF.

WATERBURY HOSPITAL'S AFFILIATION WITH NVCC AS A CLINICAL SITE FOR STUDENTS HAS MANY BENEFITS. PERHAPS THE SINGLE MOST IMPORTANT BENEFIT IS THE HOSPITAL HAS A CONTINUOUS STREAM OF POTENTIAL RADIOLOGY EMPLOYEES. STUDENTS ARE IN THE PROGRAM FOR 22 MONTHS AND IN THAT TIME BECOME VERY FAMILIAR WITH THE HOSPITAL EQUIPMENT, ROUTINES, PERSONAL, AND MISSION. THIS PROVIDES WATERBURY HOSPITAL WITH NEW EMPLOYEES WHO HAVE A STRONG SKILL SET AND PROVEN DEDICATION TO THE HOSPITAL COMMUNITY.

CATEGORY D: RESEARCH

TOTAL PERSONS SERVED: 12,813

AS A LEADER IN THE DELIVERY OF HEALTHCARE SERVICES IN THE GREATER WATERBURY AREA, WATERBURY HOSPITAL (WH) IS COMMITTED TO STRENGTHENING THE WELFARE AND AWARENESS OF THE CITIZENS WITHIN ITS COMMUNITY. FROM STRENGTHENING THE CAREER PATHS OF WATERBURY AREA YOUTH; TO SUPPORTING THE UNINSURED AND UNDERINSURED THROUGH THE WATERBURY HEALTH ACCESS PROGRAM AND; PROVIDING TRANSPORT TO AND FROM MEDICAL APPOINTMENTS; WATERBURY HOSPITAL IS REMOVING THE BARRIERS TO QUALITY HEALTH CARE FOR ALL AND REMAINS FIRM IN ITS COMMITMENT TO A HEALTHIER, STRONGER, AND MORE PRODUCTIVE COMMUNITY.

KEY PROGRAMS:

YOUTH PIPELINE INITIATIVES:

THE WATERBURY HOSPITAL YOUTH PIPELINE INITIATIVES WERE ESTABLISHED IN 2001 AS A PARTNERSHIP BETWEEN WATERBURY HOSPITAL AND WATERBURY PUBLIC SCHOOLS. THE MISSION OF THE PROGRAM IS: "TO CLOSE THE ACHIEVEMENT GAP FOR MINORITY AND ECONOMICALLY DISADVANTAGED STUDENTS IN WATERBURY SO

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

THEY CAN MATRICULATE AND COMPETE NATIONALLY FOR PLACEMENT IN POST-SECONDARY EDUCATION PROGRAMS IN PREPARATION FOR HEALTH CAREERS". WATERBURY HOSPITAL IS COMMITTED TO ENHANCING AND ENRICHING THE ACADEMIC OPPORTUNITIES AND PERSONAL JOURNEYS OF OUR YOUTH, WHO ARE THE EMERGING WORKFORCE OF TOMORROW. TO THIS END, DURING 2014, WATERBURY HOSPITAL PROVIDED 129 STUDENTS AND PARENTS IN GREATER WATERBURY WITH UNIQUE EDUCATIONAL PROGRAMS THAT WILL ENHANCE THE OVERALL WELFARE OF OUR COMMUNITY.

THE WH YOUTH PIPELINE INITIATIVES HAD SIX FOCUS AREAS DURING FY 2014, INCLUDING:

- PARENT LEADERSHIP TRAINING INSTITUTE (PLTI) - IN 2014, SIX INDIVIDUALS FROM GREATER WATERBURY SUCCESSFULLY COMPLETED WATERBURY'S PLTI, A 20-WEEK CURRICULUM TEACHING LEADERSHIP AND ADVOCACY SKILLS, AS WELL AS INDIVIDUAL COMMUNITY PROJECT PLANNING. PLTI'S CORE MISSION IS TO IMPART LEADERSHIP AND ADVOCACY SKILLS TO PARENTS WHILE SIMULTANEOUSLY EDUCATING THEM ABOUT VOLUNTEERISM, CIVIC LIFE, AND THE PROCESS BY WHICH STATE AND LOCAL GOVERNMENTS ENACT AND CHANGE LAWS. EACH PARTICIPANT COMPLETES AND IMPLEMENTS A COMMUNITY PROJECT; EXAMPLES OF PROJECTS FROM 2014 INCLUDE: A "JUJI'S SENSORY FRIENDLY FILMS" PROGRAM-TO CREATE A SAFE AND ACCEPTING ENVIRONMENT FOR CHILDREN ON THE AUTISM SPECTRUM TO ATTEND FILMS AT THE MOVIE THEATER ON A MONTHLY BASIS AND "PADRE LATINOS" - A SUPPORT GROUP FOR SINGLE FATHERS TO LEARN KNOWLEDGE AND INFORMATION THROUGH THE LIFE EXPERIENCES OF THEIR PEERS.

- PARENTS SUPPORTING EDUCATIONAL EXCELLENCE (PSEE) - IN 2014, SEVENTEEN INDIVIDUALS FROM GREATER WATERBURY SUCCESSFULLY COMPLETED

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

WATERBURY'S PSEE, A 12-WEEK CURRICULUM CO-CREATED BY THE CONNECTICUT CENTER FOR SCHOOL CHANGE AND THE CONNECTICUT COMMISSION ON CHILDREN FOR PARENTS (DEFINED BROADLY AS PARENTS, GUARDIANS, FAMILY MEMBERS AND GRANDPARENTS) TO INSTILL LEADERSHIP SKILLS IN EDUCATION AND TO FACILITATE PARTNERSHIPS BETWEEN SCHOOL STAFF AND PARENTS TO IMPROVE STUDENT LEARNING.

- UCONN PEOPLE EMPOWERING PEOPLE (PEP) OFFERED IN SPANISH AND ALBANIAN - BOTH FREE INAUGURAL PROGRAMS WERE HELD IN 2014. THE PROGRAMS INCLUDED A 10-WEEK PARENT LEADERSHIP AND ADVOCACY REGIMEN THROUGH WHICH 9 PARTICIPANTS SUCCESSFULLY COMPLETED THE ALBANIAN PORTION OF THE PEP COURSE AND 21 PARTICIPANTS COMPLETED THE SPANISH PORTION OF THE PEP COURSE. UCONN PEP IS A PERSONAL, FAMILY AND LEADERSHIP DEVELOPMENT PROGRAM WITH A STRONG COMMUNITY FOCUS. PEP IS DESIGNED TO BUILD ON THE UNIQUE STRENGTHS AND LIFE EXPERIENCES OF PARTICIPANTS AND EMPHASIZES THE CONNECTION BETWEEN INDIVIDUAL AND COMMUNITY ACTION. BOTH UCONN PEP PROGRAMS ARE SIGNIFICANT FOR TWO REASONS; IT WAS THE FIRST TIME THAT A UCONN PEP COURSE HAS BEEN OFFERED IN BOTH ALBANIAN AND SPANISH AT WATERBURY HOSPITAL. HOWEVER IT IS ALSO THE FIRST TIME AN ALBANIAN AND SPANISH PARENT LEADERSHIP PROGRAM IS OFFERED WITH IN THE STATE OF CONNECTICUT. PARTICIPANTS OF BOTH PROGRAMS WORK INDIVIDUALLY OR COLLABORATIVELY TO CREATE A COMMUNITY PROJECT WHICH IS COMPLETED AS THE CONCLUDING PORTION OF THE PROGRAM

- WH SUMMER BRIDGE PROGRAM - DURING THE SUMMER OF 2014, TWENTY-EIGHT STUDENTS FROM WATERBURY, GRADES 6-11, PARTICIPATED IN THE WH SUMMER BRIDGE PROGRAM. 100% OF MEALS WERE SECURED FOR THE PROGRAM FROM CITY OF WATERBURY SUMMER FOOD PROGRAM.

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

STUDENTS COMPLETED THE FOLLOWING MODULES:

- 12 HOURS OF MATH (PRE- ALGEBRA, ALGEBRA II, GEOMETRY AND CALCULUS) REVIEW SESSIONS

- 20 HOURS OF SAT WRITING AND VOCABULARY

- 18 HOURS OF PHOTOVOICE PROJECT, STUDENTS WERE INSTRUCTED ON PHOTOGRAPHY TECHNIQUES, COMPOSITION, AND EDITING USING ADOBE PHOTOSHOP SOFTWARE AND SLR CAMERAS

- 6 HOURS OF ESSAY WRITING

- 11 HOURS OF POETRY INSTRUCTION AND PARTICIPATION IN THE SECOND ANNUAL WH POETRY SLAM

- 8 HOURS OF JOB SHADOWING SESSIONS IN THE FOLLOWING DEPARTMENTS: NURSING, HEALTH INFORMATION MANAGEMENT, HUMAN RESOURCES, RESPIRATORY THERAPY, WATERBURY HEALTH ACCESS PROGRAM, MORRISON FOOD SERVICES & NUTRITION, FINANCE, INFECTIOUS DISEASES CLINIC, LAB, PHARMACY, CENTRAL SCHEDULING, PLANT ENGINEERING, HAROLD LEEVER REGIONAL CANCER CENTER, AMERICAN MEDICAL REPONSES, AND CLINICAL EDUCATION, WHICH INCLUDED PARTICIPATING IN CLASSES SPONSORED BY THE AMERICAN RED CROSS (CPR AND BABYSITTING).

- CPR & AMERICAN RED CROSS CERTIFIED BABYSITTING COURSE.

- 2 HOURS OF MS OFFICE COMPUTER SESSIONS

- 6 HOUR SCIENCE MODULE AT STONE ACADEMY

- 2 FULL-DAY FIELD TRIPS COMPLETED: ONE TO YALE UNIVERSITY FOR AN ADMISSIONS INFO SESSION AND CAMPUS TOUR AND ONE TO HAMMONASSET STATE PARK INCLUDING THREE EDUCATIONAL SESSIONS AT MEIGS POINT NATURE CENTER

- 2 HOURS OF COLLEGE ADMISSIONS PRESENTATIONS COMPLETED BY UCONN WATERBURY & NAUGATUCK VALLEY COMMUNITY COLLEGE

- 1 HOUR OF INDIVIDUAL ACADEMIC ADVISING

Name of the organization: THE WATERBURY HOSPITAL

Employer identification number: 06-0665979

- 2 HOURS OF HR ORIENTATION & SOFT SKILLS TRAINING

- 10 HOURS OF SOCIAL DETERMINANTS OF HEALTH DOCUMENTARIES AND ACTIVE DISCUSSIONS WITH THE WATERBURY DEPARTMENT OF PUBLIC HEALTH

- PROVIDING EARLY ACQUAINTANCE WITH CAREERS IN HEALTHCARE (PEACH) - SINCE ITS INCEPTION IN 2004, WATERBURY HOSPITAL'S PROVIDING EARLY ACQUAINTANCE WITH CAREERS IN HEALTHCARE (PEACH) PROGRAM HAS ENGAGED ADMINISTRATORS, TEACHERS, AND STUDENTS FROM MIDDLE SCHOOLS IN GREATER WATERBURY TO ADDRESS PROJECTED SHORTAGES OF HEALTHCARE WORKERS AND TO CLOSE THE ACHIEVEMENT GAP FOR STUDENTS IN WATERBURY PUBLIC SCHOOLS. THROUGH THE PEACH PROGRAM, STUDENTS ENGAGE WITH HEALTHCARE WORKERS IN A NON-EMERGENCY SETTING AND ARE INFORMED OF THE VARIETY OF HEALTHCARE CAREER OPPORTUNITIES AVAILABLE IN OUR COMMUNITY. ANNUALLY, WATERBURY HOSPITAL ALSO OFFERS ITS PEACH SPRING BREAK EXPLORATION CAMP, THIS YEAR 48 MIDDLE SCHOOL STUDENTS FROM WATERBURY TOOK PART IN: SHADOWING AND HANDS-ON LEARNING ACTIVITIES AT THE HOSPITAL; CPR CERTIFICATION; AND EDUCATIONAL SESSIONS AT THE MYSTIC AQUARIUM.

SUPPORT GROUPS - DURING 2014, WATERBURY HOSPITAL HOSTED SEVERAL SUPPORT GROUPS FOR ITS PATIENTS AND THEIR FAMILIES, INCLUDING:

- BEHAVIORAL HEALTH'S PARENT AND SIBLING SUPPORT GROUP, WHICH OFFERS EMOTIONAL ASSISTANCE TO FAMILIES WHO HAVE CHILDREN IN TREATMENT; AND

- ALCOHOLICS ANONYMOUS, SERVES OVER 4,000 PEOPLE ANNUALLY, MEETS WEEKLY THROUGHOUT THE YEAR, AND IS COORDINATED BY OUR BEHAVIORAL HEALTH DEPARTMENT.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
The Waterbury Hospital

We have audited the accompanying consolidated financial statements of The Waterbury Hospital, which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards re□uire that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors□ judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity□s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity□s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Waterbury Hospital as of September 30, 2014 and 2013, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplemental Cash Flow Information

Cash paid during the year for interest on borrowings was □1,217,495 and □1,224,496 for the years ended September 30, 2014 and 2013, respectively.

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

ORGANIZATION

The Waterbury Hospital (the Hospital), a voluntary association incorporated under the General Statutes of the State of Connecticut, is a wholly-owned subsidiary of Greater Waterbury Health Network, Inc. (sole member) (the Network or GWHN). The Board of the Hospital, which is appointed by the Network, controls the operations of the Hospital. In addition to the Hospital, the accompanying financial statements include Access Rehab Centers, LLC (Access), Greater Waterbury Imaging Center Limited Partnership (GWIC), Imaging Partners, LLC, Alliance Medical Group, Inc. (AMG) and Cardiology Associates of Greater Waterbury, LLC (CAGW) to the extent of the Hospital's ownership interest in these subsidiaries and affiliated entities.

On October 29, 2012, the Network signed a Letter of Intent to develop a Joint Venture relationship with Vanguard Health Systems, Inc. (Vanguard) of Nashville, TN, a network of for-profit hospitals. Under terms of the proposed Joint Venture, the two organizations would form a Limited Liability Company in which Vanguard would have an 80 percent ownership interest and GWHN would have a 20 percent interest. The Joint Venture would acquire substantially all of the unrestricted assets and assume certain liabilities of the Hospital and GWHN. The Joint Venture would create a taxable, for-profit health system. On October 1, 2013, Tenet Healthcare Corporation (THC) completed its acquisition of Vanguard.

Approval from the State of Connecticut Office of Health Care Access (OHCA), the Office of the Attorney General, and from state and federal antitrust authorities is required.

A public hearing before the Office of the Attorney General and Office of Health Care Access was held on October 15, 2014. The Hospital received on December 1, 2014, proposed decision documents from the Office of the Attorney General and OHCA approving the proposed formation of the Joint Venture with Vanguard subject to certain conditions. Citing the number and restrictive nature of the conditions, Vanguard withdrew the application and on December 11, 2014 has publicly announced its decision not to pursue this transaction.

During November 2010, the Hospital established a limited liability company by the name of Cardiology Associates of Greater Waterbury, LLC to operate a cardiology practice. CAGW acquired the assets of Cardiology Associates of Waterbury (CAW), an unaffiliated entity, that were used by CAW physicians in the performance of their professional services.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORGANIZATION (CONTINUED)

The Waterbury Hospital also acquired the assets of CAW that were used by CAW to perform diagnostic ancillary services. The Hospital converted these ancillary services to provider-based services, which are provided at a diagnostic center located near the Hospital. The goodwill recorded on the consolidated balance sheets relates to the purchase of CAW.

During June 2010, the Hospital entered into an arrangement with certain gastroenterology physician-members of the Hospital's medical staff to form Waterbury Gastroenterology Co-Management Company, LLC (GI Co-Management Company), a Connecticut limited liability company. This company was formed as a collaborative effort between the Hospital and the physicians for the purpose of improving the quality and efficiency of the gastroenterology service line at the Hospital. The Hospital's investment of $50,000 in the GI Co-Management Company is included in the Hospital's consolidated financial statements in long-term investments.

The Hospital entered into a members agreement, making it an equal member with St. Mary's Hospital, located in Waterbury, Connecticut, in a joint venture to form The Harold Leever Regional Cancer Center, Inc. (the Cancer Center). The Cancer Center is a Connecticut non-stock corporation exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The purpose of the joint venture is to develop, construct, own and operate the Cancer Center. Both member hospitals transferred the revenue and related expenses of their respective radiation oncology services to the Cancer Center in October 2002. Both member hospitals made working capital advances to the Cancer Center. The Cancer Center is not included in the Hospital's consolidated financial statements. During the year ended September 30, 2014, the Cancer Center provided a $1 million unrestricted grant to the Hospital that is included in unrestricted gifts and bequests in the consolidated statements of operations and changes in net assets.

The Hospital's major accounting policies are as summarized below and in Note 2.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Hospital, its subsidiaries and affiliated entities. Recognition has been given to noncontrolling interests in the affiliates which is reflected as a component of unrestricted net assets. All significant intercompany accounts and transactions are eliminated in consolidation.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectible accounts receivable for services to patients, and liabilities, including estimated net settlements with third-party reimbursement agencies and professional and pension liabilities, and disclosure of contingent assets and contingent liabilities at the date of the financial statements. Estimates also affect the amounts of revenues and expenses reported during the reporting period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

RECLASSIFICATIONS

Certain 2013 amounts were reclassified to conform to the 2014 presentation.

REGULATORY MATTERS

The Hospital is required to file annual operating information with OHCA.

TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets are available to provide grant related services, free care, and educational seminars. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity or in funds held in trust by others.

DONOR RESTRICTED GIFTS

Unconditional promises to give cash are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the promises to give are received. Amortization of the discounts is included in gifts and bequests on the consolidated statements of operations and changes in net assets.

The gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

CASH AND CASH EQUIVALENTS

The Hospital considers all highly liquid investments with remaining maturities of three months or less at date of purchase to be cash equivalents. Cash and cash equivalents are held at a limited number of financial institutions and at times, the amounts on deposit exceed insured limits.

RESTRICTED CASH

At September 30, 2014, the Hospital had a $4.5 million surety bond with an insurance company to support its self-insured workers compensation program that was collateralized by an investment held by a bank. As of September 30, 2014, there were no borrowings on the surety bond.

At September 30, 2013, the Hospital had letters of credit totaling $4.5 million with banks to support its self-insured workers compensation program that were collateralized by certain investments held by the banks. As of September 30, 2013, there were no borrowings on the letters of credit.

ACCOUNTS RECEIVABLE

Patient accounts receivable result from the health care services provided by the Hospital and its subsidiaries. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to net patient service revenues and third-party payor programs.

INVENTORIES

Inventories are stated at the lower of cost or market. The Hospital values its inventories using the first in first out method.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INVESTMENTS

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) and unrealized gains and losses are included in the deficiency of revenues over expenses unless the income or loss is restricted by donor or law.

Unrealized gains and losses on investments related to permanently restricted net assets and certain temporarily restricted net assets are included in temporarily restricted net assets under State law which allows the Board of Trustees to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions. Reference is made to Note 5.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. The Hospital and its subsidiaries provide for depreciation of property, plant and equipment and amortization of assets recorded under capital leases using the straight-line method in amounts sufficient to amortize the cost of the assets over their estimated useful lives which range from 3 to 40 years.

Financial Accounting Standards Board (FASB) ASC 410-20, *Accounting for Asset Retirement Obligations* (ASC 410-20), provides guidance on accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. Asset retirement obligations include, but are not limited to, certain types of environmental issues which are legally required to be remediated upon an asset's retirement as well as contractually required asset retirement obligations. ASC 410-20 provides clarifying guidance on conditional asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be uncertain. ASC 410-20's guidance requires such conditional asset retirement obligations to be estimated and recognized.

Conditional asset retirement obligations of $2,801,923 and $2,684,704 as of September 30, 2014 and 2013, respectively, are recorded in other noncurrent liabilities related to future asbestos remediation. During 2014 and 2013, there were no retirement obligations incurred or settled.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

GOODWILL

Goodwill, which has an indefinite life, is not amortized and is evaluated for impairment at least annually or whenever events or business conditions indicate that the carrying values of such assets may not be fully recoverable.

IMPAIRMENT OF LONG-LIVED ASSETS

The Hospital records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of those assets. There were no impairment losses recorded in 2014 and 2013.

NONOPERATING GAINS

Activities, other than in connection with providing health care services, are considered to be nonoperating. Nonoperating gains consist primarily of income on invested funds, gains and losses on sales of securities, changes in unrestricted unrealized gains and losses and unrestricted gifts and bequests.

DEFICIENCY OF REVENUES OVER EXPENSES

The consolidated statements of operations and changes in net assets include the deficiency of revenues over expenses as the performance indicator. Changes in unrestricted net assets which are excluded from the deficiency of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), pension liability adjustments, and interest rate swap adjustments.

INCOME TAXES

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Hospital is also exempt from state income taxes. Access, GWIC, CAGW, and Imaging Partners LLC are partnerships. For tax purposes, these partnerships are pass-through entities. Taxation does not occur at the partnership level. Accordingly, no provision for taxes is included. AMG is tax exempt under Section 501 (c)(3) of the Internal Revenue Code.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INCOME TAXES (CONTINUED)

Management has analyzed the tax positions taken and has concluded that as of September 30, 2014, there are no uncertain tax positions taken or expected to be taken in that would require recognition of a liability (or asset) or disclosure in the financial statements. The Hospital is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes the Hospital is no longer subject to income tax examinations prior to 2011.

MEDICAL MALPRACTICE AND WORKERS' COMPENSATION INSURANCE

The Hospital has a policy of self-insuring the deductible portion of its workers' compensation claims. The deductible limit is $750,000 and $500,000 per claim for the years ended September 30, 2014 and 2013, respectively. Management records its best estimate of losses as they occur. The accrued workers' compensation self-insurance liabilities of $10,670,607 and $9,996,921 at September 30, 2014 and 2013, respectively, have been discounted at 2.25%.

Effective October 1, 2006, the Hospital obtained "claims-made" medical malpractice insurance coverage, through the Network, from Healthcare Alliance Insurance Company, Ltd. (HAIC) under retrospectively-rated policies whose ultimate premium is based primarily on the Hospital's experience. HAIC is a multi-provider captive insurance company domiciled in the Cayman Islands. The Network is a one half owner of HAIC with one other local hospital that also holds a 50% ownership. The Hospital's insurance coverage is $1,500,000 per occurrence and $5,000,000 in the aggregate. In addition to the coverage from HAIC, the Hospital recorded reserves of approximately $1,747,604 and $2,066,103 at September 30, 2014 and 2013, respectively, related to claims that were incurred subsequent to October 1, 2006, but not yet reported. These reserves were discounted at 2.25% at September 30, 2014 and 2013.

The Hospital also obtains excess insurance coverage for professional and general liability, through the Network, from HAIC. These policies have limits of $25,000,000 per claim and $25,000,000 aggregate, in excess of the underlying limits in the primary layer, for both professional and general liability.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

MEDICAL MALPRACTICE AND WORKERS' COMPENSATION INSURANCE (CONTINUED)

The Hospital also purchased a loss transfer insurance policy which provides $1,000,000 of coverage for each medical incident that was incurred between October 1, 2003 and October 1, 2006 and specifically reported to the insurance company on the effective date of the transfer policy (February 7, 2008) in addition to medical incidents incurred during the aforementioned period which are first reported after the effective date of the policy. This policy also provides $1,000,000 of coverage for general liability incurred but not reported claims that occurred after October 1, 2003 through October 1, 2006 and were first reported after the effective date of the policy. The policy has annual aggregate limits of $4,500,000 for medical incidents and $3,000,000 for general liability cases with a combined $25,000,000 total limit for all policy years. These aggregate limits are eroded by claims previously paid by the Hospital or other insurance.

RETIREMENT BENEFIT PLANS

The Hospital maintains a defined benefit pension plan for eligible individuals and participates in two multi-employer pension plans that cover certain union employees. Reference is made to Note 9.

OTHER NONCURRENT LIABILITIES

Other noncurrent liabilities include the long-term portion of liabilities for medical malpractice, workers' compensation, retirement benefits, the interest rate swap, and conditional asset retirement obligations.

RISKS AND UNCERTAINTIES

The Hospital invests in a variety of investment securities which are exposed to various risks, such as interest rate risk, financial market risk, currency risk and credit risk. Due to the level of risk associated with investment securities, coupled with economic events, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Hospital's September 30, 2014 financial statements, in addition to the funded status of its defined benefit pension plan.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

BAD DEBTS

ASU 2011-07, *Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts*, requires certain health care entities to present the provision for bad debts associated with patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) rather than as an operating expense with enhanced footnote disclosures on the policies for recognizing revenue and assessing bad debts, in addition to qualitative and quantitative information about changes in the allowance for doubtful accounts. Refer to Note 2 for the additional disclosures required by ASU 2011-07.

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE

The following table summarizes net patient service revenues:

	2014	2013
Gross patient service revenues	$985,407,726	$936,820,801
Deductions (additions)		
Allowances	734,714,169	683,010,134
Regulatory	1,857,243	(902,445)
	736,571,412	682,107,689
Net patient service revenues	248,836,314	254,713,112
Provision for bad debts	4,436,817	11,366,671
Net patient service revenues less provision for bad debts	$244,399,497	$243,346,441

Patient accounts receivable and revenues are recorded when patient services are performed.

Amounts received from most payors are different from the established billing rates of the Hospital, and these differences are accounted for as allowances. Net revenues have been affected by State of Connecticut Disproportionate Share program in 2014 and 2013 which is reflected in the regulatory amounts in the table above.

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For the years ended September 30, 2014 and 2013, the Hospital recorded approximately $2,500,000 and $2,400,000, respectively, as a decrease to net patient service revenues as changes in estimates related to third-party payor settlements and adjustments to accruals recorded in prior years.

During 2014 and 2013, approximately 44% and 37%, respectively, of net patient service revenues were received under the Medicare program, 10% and 16%, respectively, under the state Medicaid program, and 46% and 47%, respectively, from contracts with other third-parties.

Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital. The State of Connecticut has implemented reductions in the State's Disproportionate Share Reimbursement Program for the period from July 1, 2012 through June 30, 2015.

The current Connecticut Medicaid inpatient hospital reimbursement model of interim per diem rates and case rate settlements will transition to an All Patient Refined Diagnosis Related Group System (APR-DRG) where hospital payments will be established prospectively. Connecticut Medicaid outpatient hospital reimbursement will move from the current system of reimbursement based on Revenue Center Codes to a prospective payment system based on the complexity of services performed. The specific transition plan has not been finalized by the State of Connecticut, but the new inpatient reimbursement methodology may be implemented as early as January 1, 2015; while the new outpatient reimbursement methodology will not be implemented until at least the second half of fiscal year 2016. The Hospital has not determined the estimated impact of these proposed changes on net patient service revenues in future years.

The significant concentrations of net accounts receivable for services to patients include 44% from Medicare, 15% from Medicaid, 28% from commercial insurance carriers and 13% from others at September 30, 2014 (44%, 13%, 24% and 19%, respectively, in 2013).

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Hospital believes that it is in compliance with all applicable laws and regulations. Cost reports for the Hospital, which serve as a basis for final settlement with government payors, have been settled by final settlement through 2011 for Medicare and 1995 for Medicaid. Other years remain open for settlement.

The Hospital has agreements with various Health Maintenance Organi□ations (HMOs) to provide medical services to subscribing participants. Under these agreements, the HMOs make fee-for-service payments to the Hospital for certain covered services based upon discounted fee schedules.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Hospital□s estimation of the allowance for doubtful accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Hospital□s collection efforts. The Hospital□s policy is to reserve a portion of all self-pay receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as the charges are recorded. On a monthly basis, the Hospital reviews its accounts receivable balances, the effectiveness of the Hospital□s reserve policies and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following:

- Revenue and volume trends by payor, particularly the self-pay components;
- Changes in the aging and payor mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients;
- Various allowance coverage statistics.

The Hospital regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for doubtful accounts.

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

ALLOWANCE FOR DOUBTFUL ACCOUNTS (CONTINUED)

A summary of the Hospital's allowance for doubtful accounts activity for the years ended September 30, 2014 and 2013 is as follows:

	Balance at Beginning of Period	Additions Recorded in the Provision for Bad Debts	Accounts Written off, Net of Recoveries and Other	Balance at End of Period
Allowance for doubtful accounts:				
Year ended September 30, 2013	$(11,683,000)	$(11,366,671)	$ 8,027,671	$(15,022,000)
Year ended September 30, 2014	(15,022,000)	(4,436,817)	10,251,817	(9,207,000)

MEASURING CHARITY CARE

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is possible. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized Federal poverty income levels, but also includes certain cases where incurred charges are significant when compared to incomes and assets. These services are not included in net patient service revenues for financial reporting purposes.

The Hospital implemented effective October 1, 2013 a change to its charity care policy to discount all self-pay receivables by 50 percent upon final billing. These self-pay discounts amounted to approximately $5.2 million for the year ended September 30, 2014 and were previously included in the provision for bad debts and the allowance for doubtful accounts.

Self-pay revenues are derived primarily from patients who do not have any form of health care coverage. The Hospital evaluates these patients, after the patient's medical condition is determined to be stable, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other governmental assistance programs, as well as the Hospital's policy for charity care. The Hospital provides care without charge to certain patients that qualify under its charity care policy. For the years ended September 30, 2014 and 2013, the Hospital estimates that its costs of care provided under its charity care programs approximated $1,383,000 and $440,000, respectively.

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

MEASURING CHARITY CARE (CONTINUED)

The Hospital's management estimates its costs of care provided under its charity care programs utilizing a calculated ratio of costs to gross charges multiplied by the Hospital's gross charity care charges provided. The Hospital's gross charity care charges include only services provided to patients who are unable to pay and qualify under the Hospital's charity care policy. To the extent the Hospital receives reimbursement through the various governmental assistance programs in which it participates to subsidize its care of indigent patients, the Hospital does not include these patients' charges in its cost of care provided under its charity care program. Additionally, the Hospital does not report a charity care patient's charges in revenues or in the provision for doubtful accounts as it is the Hospital's policy not to pursue collection of amounts related to these patients.

ELECTRONIC HEALTH RECORD INCENTIVE PAYMENTS

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are also available to providers that adopt, implement or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

Income from Medicare incentive payments is recognized as revenue after the Hospital has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period. The Hospital recognized revenue from Medicaid and Medicare for incentive payments after it adopted certified EHR technology. Medicaid incentive payments were $322,653 and $483,979 for the years ended September 30, 2014 and 2013, respectively. Medicare incentive payments were $1,184,857 and $1,793,771 for the years ended September 30, 2014 and 2013, respectively. Incentive payments are included in other operating revenues in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, the Hospital's compliance with the meaningful use criteria is subject to audit by the federal government.

NOTE 2 - NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

ICD-10 IMPLEMENTATION

The Hospital is subject to the administrative simplification provisions of HIPAA which require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically.

In January 2009, the Centers for Medicare and Medicaid Services (CMS) published its tenth revision of International Statistical Classification of Diseases and Related Health Problems (ICD-10) and related changes to the formats used for certain electronic transactions. ICD-10 contains significantly more diagnostic and procedural codes than the existing ICD-9 coding system, and as a result, the coding for the patient services provided in the Hospital will require much greater specificity when ICD-10 becomes effective on October 1, 2015.

The implementation of ICD-10 will require a significant investment in technology and training. The Hospital may experience delays in reimbursement while the Hospital and the payors from which it seeks reimbursement make the transition to ICD-10. If the Hospital fails to implement the new coding systems by the deadline, the Hospital will not be paid for services. Management is not able to reasonably estimate the overall financial statement impact of the Hospital's transition to ICD-10.

NOTE 3 - INVESTMENTS

The composition of investments, including other assets and funds held in escrow is set forth in the following table. Investments are stated at fair value:

	2014		2013	
	Cost	Fair Value	Cost	Fair Value
Short-term investments:				
Certificates of deposit and mutual funds	$ 424,925	$ 507,699	$ 406,088	$ 472,637
Investments of funds held in trust by others	$ 42,013,991	$ 46,117,761	$ 36,611,831	$ 44,960,039
Long-term investments and Board - designated endowment funds:				
Certificates of deposit and money market funds	$ 873,669	$ 873,669	$ 901,472	$ 901,472
Marketable equity securities	197,835	351,238	197,835	287,008
U.S. Government obligations	108,451	149,445	108,451	154,567
Corporate bonds	3,680,469	3,686,721	3,412,334	3,396,880
Mutual funds	7,799,302	9,013,644	7,708,657	8,908,523
	$ 12,659,726	$ 14,074,717	$ 12,328,749	$ 13,648,450

The Hospital had long-term investments in partnerships and joint ventures that were recorded at cost of $358,800 and $359,909 as of September 30, 2014 and 2013, respectively, as it was not practicable to estimate fair value. These investments are not included in the tables above.

Unrestricted investment income, including income on funds held in trust by others and gains are comprised of the following for the years ended September 30, 2014 and 2013:

	2014	2013
Income		
Interest and dividends	$ 1,832,085	$ 1,737,423
Realized gains on sales of investments	8,603	--
Changes in net unrealized gains on investments	92,827	268,235
	$ 1,933,515	$ 2,005,658

NOTE 4 - FAIR VALUE MEASUREMENTS

The Hospital categori□es assets and liabilities for disclosure purposes based on whether the inputs used to determine their fair values are observable or unobservable. The Hospital utili□es a three-level fair value hierarchy that prioriti□es the inputs used to measure assets at fair value. Level inputs are as follows:

Level 1 □ Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Hospital has the ability to access on the reporting date.

Level 2 □ Inputs other than □uoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset.

Level 3 □ Inputs that are unobservable for the asset or liability.

The fair values of Level 1 securities were determined through □uoted market prices, while fair values of Level 2 securities were determined primarily through prices obtained from third party pricing sources, where □uoted market prices for such securities are not available. The fair values of Level 3 securities were determined primarily through information obtained from the relevant counterparties for such assets or liabilities, as information on which these fair values are based is generally not readily available in the market.

The fair value of the interest rate swap was determined by the counterparty based on an estimate of the net present value of the expected cash flows using relevant mid-market data inputs and based on the assumption of no unusual market conditions or forced li□uidation.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes fair value measurements, by level, at September 30, 2014, for all assets and liabilities which are measured at fair value on a recurring basis in the consolidated financial statements:

	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents	$ 35,728,709	$ --	$ --	$ 35,728,709
Common stock-Insurance	133,496	--	--	133,496
Mutual funds:				
U.S. large cap	21,147,966	--	--	21,147,966
U.S. mid cap	3,399,506	--	--	3,399,506
U.S. small cap	2,786,261	--	--	2,786,261
International developed	4,979,700	--	--	4,979,700
Emerging markets	3,076,127	--	--	3,076,127
Fixed income securities:				
Investment grade taxable	1,978,762	12,122,021	--	14,100,783
International developed bonds	--	695,404	--	695,404
Global high yield taxable	5,296	2,420,636	--	2,425,932
Real estate investment trusts	2,506,598	--	--	2,506,598
Other	1,758,038	546,588	--	2,304,626
Total investments at fair value	$ 77,500,459	$ 15,784,649	$ --	$ 93,285,108
Liabilities:				
Interest rate swap	$ --	$ 1,512,596	$ --	$ 1,512,596

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes fair value measurements, by level, at September 30, 2013, for all assets and liabilities which are measured at fair value on a recurring basis in the consolidated financial statements:

	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents	$ 31,081,328	$ --	$ --	$ 31,081,328
Common stock-Insurance	93,309	--	--	93,309
Mutual funds:				
U.S. large cap	23,645,248	--	--	23,645,248
U.S. mid cap	3,460,785	--	--	3,460,785
U.S. small cap	3,034,881	--	--	3,034,881
International developed	4,960,376	--	--	4,960,376
Emerging markets	2,705,380	--	--	2,705,380
Fixed income securities:				
Investment grade taxable	2,042,330	11,202,070	--	13,244,400
International developed bonds	1,237	719,184	--	720,421
Global high yield taxable	261,841	2,027,557	--	2,289,398
Real estate investment trusts	1,972,747	--	--	1,972,747
Other	101,506	284,678	--	386,184
Total investments at fair value	$ 73,360,968	$ 14,233,489	$ --	$ 87,594,457
Liabilities:				
Interest rate swap	$ --	$ 1,729,706	$ --	$ 1,729,706

NOTE 5 - RESTRICTED ENDOWMENTS

The Hospital's endowments consist of donor-restricted endowment funds and Board-designated endowment funds. Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions.

The Hospital's Board of Trustees has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Hospital classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable (c) accumulations to the permanent endowment made in accordance with the related gift's donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard for expenditure as proscribed by UPMIFA. In accordance with UPMIFA, the Hospital considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Hospital and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Hospital
(7) The investment policies of the Hospital

RETURN OBJECTIVES AND RISK PARAMETERS

For the permanently restricted endowment funds, the bank, acting in its capacity as trustee, determines and directs the investment policy and asset allocation. For the unrestricted and temporarily restricted endowment funds, the Hospital's Board of Trustees has adopted investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. The Hospital expects these endowment funds, over time, to provide an average rate of return that exceeds the rate of inflation by 3.5% annually. Actual returns in any given year may vary from this amount.

NOTE 5 - RESTRICTED ENDOWMENTS (CONTINUED)

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Hospital targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO SPENDING POLICY

The Hospital has a policy of evaluating the spending decisions for each endowment fund based upon the intentions of the donors and specific contractual agreements. In determining the annual amount to be spent, the Hospital considers the long-term expected return on its endowment. The spending policy is designed to limit spending to the expected long-term real rate of return. The annual distribution from the endowment funds is expected to be contained within a range of 4-6% of the trusts' market value. This is consistent with the Hospital's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2014

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ --	$ 7,607,185	$ 48,909,797	$ 56,516,982
Board-designated endowment funds	3,315,500	--	--	3,315,500
Total funds	$ 3,315,500	$ 7,607,185	$ 48,909,797	$ 59,832,482

NOTE 5 - RESTRICTED ENDOWMENTS (CONTINUED)

CHANGES IN ENDOWMENT NET ASSETS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2014

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning balance	$ 3,193,664	$ 7,446,152	$ 47,752,075	$ 58,391,891
Investment return:				
Investment income	56,642	184,580	--	241,222
Net appreciation (realized and unrealized)	203,276	612,338	1,157,722	1,973,336
Total investment return	259,918	796,918	1,157,722	2,214,558
Appropriation of endowment assets for expenditure	(138,082)	(635,885)	--	(773,967)
Endowment net assets, ending balance	$ 3,315,500	$ 7,607,185	$ 48,909,797	$ 59,832,482

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ --	$ 7,446,152	$ 47,752,075	$ 55,198,227
Board-designated endowment funds	3,193,664	--	--	3,193,664
Total funds	$ 3,193,664	$ 7,446,152	$ 47,752,075	$ 58,391,891

NOTE 5 - RESTRICTED ENDOWMENTS (CONTINUED)

CHANGES IN ENDOWMENT NET ASSETS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning balance	$ 2,974,503	$ 6,806,683	$ 45,010,199	$ 54,791,385
Investment return:				
Investment income	72,896	238,568	--	311,464
Net appreciation (realized and unrealized)	277,353	829,688	2,741,876	3,848,917
Total investment return	350,249	1,068,256	2,741,876	4,160,381
Appropriation of endowment assets for expenditure	(131,088)	(428,787)	--	(559,875)
Endowment net assets, ending balance	$ 3,193,664	$ 7,446,152	$ 47,752,075	$ 58,391,891

NOTE 6 - TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets at September 30, 2014 and 2013 are restricted amounts which are to be held in perpetuity, the income from which is expendable to provide free care, scholarships for the children of the Hospital's employees, and for the operations of the Hospital. Also included in permanently restricted net assets are funds held in trust by others. The Hospital is the restricted income beneficiary of funds held in trust by others. The total trust assets, as reported by the trustees, had an aggregate fair value at September 30, 2014 and 2013 of $46,117,761 and $44,960,039, respectively. Distributions of $2,023,580 and $1,896,981 from these assets for the years ended September 30, 2014 and 2013, respectively, is included in investment income.

Temporarily restricted net assets are available to provide psychiatric services, free care and educational seminars.

NOTE 6 - TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS (CONTINUED)

During 2014 and 2013, net assets were released from donor restrictions by incurring expenses which satisfied the restricted purposes in providing grant related services, free care, and various miscellaneous services in the amounts of $4,369,303, $688,243 and $484,945, respectively in 2014 and $4,420,717, $657,253 and $341,621, respectively in 2013. In addition, $13,360 and $19,654 were released for the purchase of property and equipment in 2014 and 2013, respectively.

NOTE 7 - DEBT

SERIES D BOND FINANCING

In December 2010, the Hospital refinanced its Series C bond financing and financed an additional $8,000,000 for various capital projects that were completed over a two-year period. The par amount of the Series D debt was $25,918,000 and interest is variable at the interest rate that is equal to the product of (i) sixty-eight percent (68%) and (ii) the sum of the LIBOR Rate and three hundred basis points (2.15% at September 30, 2014). The bonds require monthly principal and interest payments, based upon a 10-year amortization schedule, from 2011 through 2020 with the remaining principal balance due in 2020.

The terms of the bonds provide for, among other things, a pledge of gross receipts of the Hospital, restriction on the incurrence of certain indebtedness of the Hospital and provide for covenants regarding the Hospital's debt service coverage ratios, minimum levels of cash on hand, sale and lease of assets and other covenants similar in financings of this type.

In connection with this refinancing, the Hospital entered into an interest rate swap with a bank, which allowed it to convert its variable interest rate liability to a fixed interest rate liability of 4.475% without changing the structure of the underlying debt.

The Hospital uses the interest rate swap agreement to manage interest rate risk associated with its outstanding debt. At September 30, 2014 and 2013, the notional value of outstanding interest rate swap was $24,283,520 and $24,755,656, respectively.

The Hospital recognizes the fair value of its interest rate swap in the consolidated balance sheet as a liability, recorded in other noncurrent liabilities. At September 30, 2014 and 2013, the fair value of interest rate swap was in a liability position of $1,512,596 and $1,729,706, respectively.

The Hospital designated its interest rate swap as a cash flow hedge for accounting purposes, and accordingly defers gains or losses associated with the swap in net assets.

NOTE 7 - DEBT (CONTINUED)

Future minimum payments by year and in the aggregate under the Series D bond financing are as follows at September 30, 2014:

2015	$ 493,776
2016	516,408
2017	540,080
2018	564,832
2019	590,716
Aggregate thereafter	21,577,708
	$ 24,283,520

OTHER DEBT

Access has a $250,000 line of credit with a bank. There were no borrowings under this line of credit at September 30, 2014 and 2013.

AMG had a capital lease for equipment that called for monthly payments of $593 through January 2014 and was secured by the equipment. The balance of the capital lease liability was $zero at September 30, 2014 and $2,858 at September 30, 2013.

AMG entered into an equipment lease during 2010. The lease calls for monthly payments of $353 through March 2015 and is secured by the equipment. The balance of the capital lease liability was $1,993 at September 30, 2014 and $5,877 at September 30, 2013.

AMG entered into an equipment lease during 2010. The lease calls for monthly payments of $447 through May 2015 and is secured by the equipment. The balance of the capital lease liability was $3,883 at September 30, 2014 and $8,687 at September 30, 2013.

AMG entered into a capital lease for equipment during 2014. The balance of the capital lease liability was $48,121 at September 30, 2014.

The Hospital entered into a capital lease for equipment during 2011. The lease calls for equal monthly payments of $20,885 through May 2016 and is secured by the equipment. The balance of the capital lease liability was $379,070 at September 30, 2014 and $609,435 at September 30, 2013.

NOTE 7 - DEBT (CONTINUED)

AMG entered into a term note during 2010 at an interest rate of 9.8%. The note calls for monthly payments of $13,216 through November 2014 and is secured by the assets of AMG. The balance of the term note liability was $26,101 at September 30, 2014 and $173,794 at September 30, 2013.

AMG assumed a note payable during 2009 for the fit-up of office space. The original amount of the note was $320,000 and was repayable in installments of principal plus interest at 7.50% totaling $4,908 per month through January 2014. In addition, this note called for a final payment of principal and interest of $113,981 in February 2014. The balance of this note was zero at September 30, 2014 and $129,815 at September 30, 2013.

The Hospital entered into a capital lease for equipment during 2012. The lease calls for equal monthly payments of $11,469 through August 2017 and is secured by the equipment. The balance of the capital lease liability was $376,940 at September 30, 2014 and $495,826 at September 30, 2013.

The Hospital entered into a capital lease for equipment during 2013. The lease calls for equal monthly payments of $4,779 through November 2015. The balance of capital lease liability was $64,581 at September 30, 2014 and $120,825 at September 30, 2013.

Future minimum payments by year and in the aggregate for all obligations other than the CHEFA Series D bonds were as follows at September 30, 2014:

2015	$ 461,705
2016	294,554
2017	138,132
2018	6,298
	$ 900,689

The fair value of the debt, using the discounted cash flow analyses, was approximately $26,697,000 at September 30, 2014 and $28,032,000 at September 30, 2013.

NOTE 8 - RENTAL EXPENSE AND LEASE COMMITMENTS

The Hospital has entered into operating leases for office space and office equipment. Rental expense is recorded on a straight-line basis over the terms of the leases. Rental expense for the years ended September 30, 2014 and 2013 was $4,441,474 and $4,740,477, respectively. The minimum rental commitments under all noncancellable operating leases with initial or remaining terms of more than one year are as follows:

2015	$ 4,241,725
2016	3,914,897
2017	2,892,657
2018	1,547,444
2019	114,032
Thereafter	195,408
	$ 12,906,163

NOTE 9 - EMPLOYEE BENEFIT PLANS

The Hospital has a noncontributory defined benefit cash balance plan (the Plan). Under the Plan, each participant who elected to transfer their balances to the Plan from the former defined contribution plan receives a credit of 6% of compensation allocated to their cash balance accounts. All other participants receive a 3% credit. Additionally, each participant receives an interest credit to their cash balance account based on the yield to maturity on three-year treasury bills. The Plan covers substantially all non-union employees age 21 and older with one year of service. It is the Hospital's policy to make contributions to the Plan sufficient to meet the minimum funding requirements of applicable laws and regulations.

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

Following is a summary of the Plan's funded status using the measurement dates of September 30, 2014 and 2013 and amounts recognized in the Hospital's consolidated financial statements.

	2014	2013
Change in benefit obligation		
Benefit obligation beginning of year	$ (35,562,211)	$ (37,888,825)
Service cost	(1,466,890)	(1,702,273)
Interest cost	(1,324,043)	(1,154,537)
Actuarial (loss) gain	(1,095,038)	2,126,771
Benefits paid	3,211,209	3,056,653
Benefit obligation, end of year	$ (36,236,973)	$ (35,562,211)
Change in plan assets		
Fair value of plan assets, beginning of year	$ 27,201,671	$ 28,843,113
Actual return on plan assets	696,625	253,055
Employer contributions	1,301,618	1,162,156
Benefits paid	(3,211,209)	(3,056,653)
Fair value of plan assets, end of year	$ 25,988,705	$ 27,201,671
Funded status	$ (10,248,268)	$ (8,360,540)
Accrued pension liability	$ (10,248,268)	$ (8,360,540)
Components of net periodic pension cost		
Service cost	$ 1,466,890	$ 1,702,273
Interest cost	1,324,043	1,154,537
Expected return on plan assets	(1,294,305)	(2,483,658)
Amortization of actuarial loss	816,016	971,872
Amortization of prior service cost	35,097	35,455
Net periodic pension cost	$ 2,347,741	$ 1,380,479
Accumulated benefit obligation	$ 35,271,477	$ 34,675,898

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

Included in unrestricted net assets are the following amounts that have not yet been recognized in net periodic cost:

	2014	2013
Unrecognized prior service cost	$ (121,434)	$ (156,531)
Unrecognized actuarial losses	(15,649,501)	(14,772,799)
Benefit obligation, end of year	$ (15,770,935)	$ (14,929,330)

Changes in benefit obligations recognized in unrestricted net assets include:

	2014	2013
Current year actuarial losses	$ (1,692,718)	$ (103,832)
Amortization of prior service cost	35,097	35,455
Amortization of net loss	816,016	971,872
	$ (841,605)	$ 903,495

The prior service cost and actuarial losses included in unrestricted net assets and expected to be recognized in net periodic cost during the year ending September 30, 2015 are $35,097 and $1,108,503, respectively.

ASSUMPTIONS

The weighted-average assumptions used to determine benefit obligations at September 30 are as follows:

	2014	2013
Discount rate	3.55%	3.99%
Expected return on plan assets	4.50%	8.00%
Rate of compensation increase	2.00% for 2 year select period, 3.00% ultimate	2.00% for 3 year select period, 3.00% ultimate

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

The weighted-average assumptions used to determine net periodic benefit cost for years ended September 30 are as follows:

	2014	2013
Discount rate	3.99%	3.17%
Expected return on plan assets	4.50%	8.00%
Rate of compensation increase	2.00% for 3 year select period, 3.00% ultimate	2.00% for 4 year select period, 3.00% ultimate

EXPECTED LONG-TERM RETURN ON PLAN ASSETS

To develop the expected long-term rate of return on assets assumptions, the Hospital considered the historical returns and the future expectations of returns for each asset class, as well as target asset allocations of the pension portfolio. This resulted in the selection of the 4.5% and 8.0% long-term rate of return at September 30, 2014 and 2013, respectively.

INVESTMENT POLICY

The Plan's weighted-average asset allocations at September 30, 2014, by asset category are as follows:

		Asset Allocation Policy	
Asset Category	Plan Assets	Target	Range
U.S. Equity	5%	5%	3% - 7%
Non-U.S. Equity	5%	5%	3% - 7%
Core fixed income	90%	90%	86% - 94%

The Plan's weighted-average asset allocations at September 30, 2013, by asset category are as follows:

		Asset Allocation Policy	
Asset Category	Plan Assets	Target	Range
Global defensive equity unhedged	10%	10%	5% - 15%
Custom fixed income	90%	90%	85% - 95%

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

The Pension Committee of the Board of Trustees (the Committee) is responsible for employee benefit program policies with respect to plan assets and the retention of qualified managers, consultants and trustee custodians. The purpose of the Committee is to ensure the Plan assets accumulate monies required to meet the anticipated benefit payments of the Plan and contributions are made by the Hospital on a basis determined by the Plan's actuary to be adequate to fund the benefits. The investment objective of the Committee is to maximize total return after inflation within the limits of prudent risk taking by diversifying across asset classes and multiple managers. The Committee has established an asset allocation policy that sets a target and range for each asset class, as shown in the table above.

CONTRIBUTIONS

The Hospital expects to make $1,204,000 in contributions to the Plan in 2015.

ESTIMATED FUTURE BENEFIT PAYMENTS

The following benefit payments, which reflect expected future service, are expected to be paid as follows:

2015	$ 3,388,000
2016	3,431,000
2017	3,305,000
2018	3,619,000
2019	3,287,000
2020-2024	15,109,000
	$ 32,139,000

As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

The following table sets forth by level within the fair value hierarchy the investment assets and investment liabilities at fair value, as of September 30, 2014.

	Level 1	Level 2	Level 3	Total
Commingled funds and private equity	--	--	$25,988,705	$25,988,705

The following table sets forth by level within the fair value hierarchy the investment assets and investment liabilities at fair value, as of September 30, 2013.

	Level 1	Level 2	Level 3	Total
Commingled funds and private equity	--	--	$27,201,671	$27,201,671

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	2014	2013
Balance as of beginning of fiscal year	$ 27,201,671	$ 19,307,214
Change in unrealized appreciation (depreciation)	570,424	(487,433)
Purchases	5,571,007	52,316,941
Sales	(7,354,397)	(43,935,051)
Balance as of September 30,	$ 25,988,705	$ 27,201,671

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

OTHER BENEFIT PLANS

The Hospital participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single-employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.

- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.

- If the Hospital chose to stop participating in the multi-employer plans, it would be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

The following table presents the Hospital's participation in these plans as of and for the years ended September 30, 2014 and 2013.

Pension Trust Fund	Pension Plan Employer Identification Number	Pension Protection Act ("PPA") Certified Zone Status[1] 2014	2013	FIP/RP Status Pending/ Implemented[2]	Contributions 2014	2013	Surcharge Imposed	Expiration Date of Collection Bargaining Agreement[3]
Connecticut Health Care Associates Pension Fund	06-1313462	Green	Green	N/A	$2,074,142	$2,077,612	No	September 30, 2017
New England Health Care Employees Pension Fund	22-3071963	Green	Green	N/A	688,949	783,235	No	February 29, 2016
				Total Contributions:	$2,763,091	$2,860,847		

[1] The most recent PPA zone status available in 2014 and 2013 is for the plan's year-ending during 2013 and 2012, respectively. The zone status is based on information received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the orange zone are less than 80 percent funded and have an accumulated funding deficiency in the current year or projected in the next six years, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded.

[2] The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented.

[3] Lists the expiration dates of the collective-bargaining agreements to which the plans are subject.

During the years ended September 30, 2014 and 2013, the Hospital's contributions to the Connecticut Health Care Associates Pension Plan represented 98.6% and 96.0% of the total contributions made to the plan by all participating employers, respectively.

During the years ended September 30, 2014 and 2013, the Hospital's contributions to the New England Health Care Employees Pension Plan represented 2.8% and 3.0% of the total contributions made to the plan by all participating employers, respectively.

NOTE 9 - EMPLOYEE BENEFIT PLANS (CONTINUED)

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. The Hospital has explored the costs to withdraw from the Connecticut Health Care Associates (CHCA) Pension Plan in the event that the Hospital enters into a transaction. If the Hospital was to withdraw, it is expected that CHCA will likewise withdraw from the pension plan making a total withdrawal liability for the Hospital of approximately $27,700,000.

In addition, the Hospital has a supplemental employee retirement plan for certain executives. The plan provides for a total benefit and is partially funded. As of September 30, 2014 and 2013, liabilities of $330,148 and $240,869, respectively, have been reflected in the consolidated balance sheets.

As noted above, the Hospital also has a noncontributory defined benefit cash balance plan covering substantially all non-union employees age 21 and older with one year of service. Total pension expense, relating to this plan, charged to operations during the years ended September 30, 2014 and 2013 was $2,347,741 and $1,380,479, respectively.

NOTE 10 - SELF-INSURANCE CLAIMS

There have been medical malpractice and workers compensation claims that fall within the Hospital's partially self-insured program which have been asserted against the Hospital. In addition, there are known incidents that have occurred through September 30, 2014 that may result in the assertion of claims. Hospital management has accrued its best estimate of these contingent losses. Other claims may be asserted arising from services provided to patients or workers compensation incidents in the past. Hospital management has provided reserves for these contingent liabilities.

NOTE 11 - CONTINGENCIES

The Hospital is a party to various lawsuits incidental to its business.

NOTE 12 - DUE TO AFFILIATES

The amounts due to affiliates of $600,116 and $2,042,951 at September 30, 2014 and 2013, respectively, represent (payables) to and receivables from affiliates that do not eliminate in consolidation. These balances are comprised of the following:

	2014	2013
Greater Waterbury Health Network, Inc.	$ (430,440)	$ (1,885,946)
Alliance Medical Group of Greater Waterbury, P.C.	(9,983)	(9,983)
Greater Waterbury Management Resources, Inc.	(162,693)	(162,693)
GI Co-Management Company	3,000	1,500
Children's Center of Greater Waterbury Health Network, Inc.	--	14,171
	$ (600,116)	$ (2,042,951)

NOTE 13 - FUNCTIONAL EXPENSES

The Hospital provides general health care services to residents within its geographic location. Expenses related to providing these services are as follows:

	2014	2013
Health care services	$194,695,917	$193,831,378
General and administrative	67,341,789	63,524,487
Fundraising	377,435	352,305
	$262,415,141	$257,708,170

NOTE 14 - SUBSEQUENT EVENTS

The Hospital evaluates the impact of subsequent events, events that occur after the balance sheet date but before the financial statements are issued, for potential recognition in the financial statements as of the balance sheet date or for disclosure in the notes to the financial statements. The Hospital evaluated events occurring subsequent to September 30, 2014 through December 19, 2014, the date on which the accompanying consolidated financial statements were available to be issued. During this period, there were no subsequent events that required recognition in the consolidated financial statements. Reference is made to Note 1 regarding the disclosure of subsequent events related to the proposed Joint Venture with Vanguard.

INDEPENDENT AUDITORS' REPORT ON OTHER FINANCIAL INFORMATION

Board of Trustees
The Waterbury Hospital

We have audited the consolidated financial statements of The Waterbury Hospital as of and for the years ended September 30, 2014 and 2013, and our report thereon dated December 19, 2014, which contained an unmodified opinion on those consolidated financial statements, appears on pages 1-2. Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information is presented for the purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

Form **8868**
(Rev. January 2014)

Department of the Treasury
Internal Revenue Service

Application for Extension of Time To File an Exempt Organization Return

▶ **File a separate application for each return.**

▶ **Information about Form 8868 and its instructions is at** *www.irs.gov/form8868* .

OMB No. 1545-1709

- If you are filing for an **Automatic 3-Month Extension, complete only Part I** and check this box ▶ ☐
- If you are filing for an **Additional (Not Automatic) 3-Month Extension, complete only Part II** (on page 2 of this form).

Do not complete Part II unless you have already been granted an automatic 3-month extension on a previously filed Form 8868.

Electronic filing *(e-file)* . You can electronically file Form 8868 if you need a 3-month automatic extension of time to file (6 months for a corporation required to file Form 990-T), or an additional (not automatic) 3-month extension of time. You can electronically file Form 8868 to request an extension of time to file any of the forms listed in Part I or Part II with the exception of Form 8870, Information Return for Transfers Associated With Certain Personal Benefit Contracts, which must be sent to the IRS in paper format (see instructions). For more details on the electronic filing of this form, visit *www.irs.gov/efile* and click on *e-file for Charities & Nonprofits*.

Part I Automatic 3-Month Extension of Time. Only submit original (no copies needed).

A corporation required to file Form 990-T and requesting an automatic 6-month extension - check this box and complete Part I only ▶ ☒

All other corporations (including 1120-C filers), partnerships, REMICs, and trusts must use Form 7004 to request an extension of time to file income tax returns.

Type or print File by the due date for filing your return. See instructions.	Name of exempt organization or other filer, see instructions.	**Enter filer's identifying number** Employer identification number (EIN) or
	THE WATERBURY HOSPITAL	06-0665979
	Number, street, and room or suite no. If a P.O. box, see instructions. 64 ROBBINS STREET	Social security number (SSN)
	City, town or post office, state, and ZIP code. For a foreign address, see instructions. WATERBURY, CT 06708	

Enter the Return code for the return that this application is for (file a separate application for each return) ▶ 0 7

Application Is For	Return Code	Application Is For	Return Code

Record of Performance

Texas - Nix Health

- **Transaction completed on 2/1/12**
  - First Entry in Texas Market for Prospect Medical

- **Accomplishments Since Nix Acquisition**
  - Formed a Medical Group
  - Forming a Multi-Specialty IPA – Integration with Behavioral Health
  - Expanded Behavioral Health services with addition of a 45 bed facility
  - Expanded Hospital-Based Outpatient Clinics
  - Purchase of Rural Hospital expanding the System
  - Converted Urgent Care Center to an Emergency Room
  - Entered into Risk Contracting with Major Insurers
  - Measurable Improvements in Quality Metrics

Prospect CharterCare Hospitals - RI

Our Lady of Fatima Hospital, a 278-bed acute care facility, is RI's only Catholic sponsored hospital providing an array of medical and surgical services.

Roger Williams Medical Center is a 220-bed acute care hospital and academic teaching and research affiliate of Boston University School of Medicine.

Elmhurst Extended Care is RI's only long-term facility affiliated with a hospital system and offers short-term, long-term and specialized elder care.

St. Joseph Health Center is a network of primary care programs and specialty services for underserved children and families.

Prospect CharterCare – Record of Performance

Entrance into Market

- Acquired system June 2014 (Two hospitals / Specialty Health Center / Nursing Home)

Project Commitments 2015 ($20M)

- Cancer Center
- Digestive Diseases Center
- Emergency Department
- Physician Practice Purchases

Proposed Service Lines

- OB
- Cardiac Cath

Model Implementation

- Quickly cleared regulatory hurdles to implement risk taking model
- Developed an IPA and recruited 105 PCPs / 270 specialists
- Negotiated risk contract with largest payer in state
- Medicare Select narrow network product with largest payer
- Went from 0 to 6,500 Medicare Advantage lives under population health management
- Grew from 20 to 81 providers
- $24M financial turnaround

What's Next – Road Ahead

- Coordinated Care Pilot Program accepted by State. Projected to carve costs out of State budget and generate savings to RI of $18M/3 years.
- A working model for Coordinated Care in the North East that can be used for further development
- Recognition by State's healthcare and political leaders for ability to transform the Healthcare Delivery Model

Bellflower and Tustin Hospitals

- **Transaction completed in May 2014**
  - Tustin Hospital - 177 Bed Facility
  - Bellflower - 80 Bed Facility

Both Hospitals had been closed for 1 year by the previous owner.

- **Accomplishments:**
  - Tustin:
    - Re-opening of Acute Care and Emergency Services.
    - Opened an Urgent Care
  - Bellflower:
    - Initial services include a 32 bed Behavioral unit.
    - Working with the community and local officials on a strategic plan for additional services.

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02

Dear Ms. Stromstad and Mr. Spees:

On October 28, 2015, the Application of Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH") was filed with the Office of Health Care Access, Department of Public Health ("OHCA/DPH") and Office of the Attorney General ("OAG") for the transfer of substantially all of the assets of GWHN and its related affiliates to PMH or one or more of its affiliates.

The OAG and OHCA/DPH have determined that there are deficiencies in the Application that require clarification and/or additional production. Conn. Gen. Stat. § 19a-486a(d). Accordingly, please respond to the following questions and/or submit the following materials to the OAG and OHCA by January 18, 2016.

OHCA Questions

1. Please comment on the November 5, 2015 report by Dow Jones & Company that Leonard Green & Partners plans to sell PMH and in your answer provide the following:

a) a description of Leonard Green & Partners and its present ownership stake and control of PMH; and

b) the timing of any proposed sale of PMH and its impact on the proposed Transaction.

2. At page 21 of the Application, the Applicants state that PMH will spend or commit to spend the Capital Amount (defined in the Asset Purchase Agreement ("APA") as $51.5 million) on capital projects in the seven years following the Closing Date (the "Capital Commitment"). According to the Application at page 27, in October 2012, PMH was prepared to spend at least $70 million over a five-year period as part of its proposed asset purchase of GWHN. With respect to this aspect of the Transaction, please describe the factors that led PMH to make a smaller capital commitment over a longer period of time in 2015 and for GWHN to accept these terms.

3. In Section 6.10 of the APA (page 189 of the Application), the parties agree that PMH will be relieved of its Capital Commitment if, among other things, a Legal Requirement (as defined in the APA) is enacted or imposed that "adversely or disproportionately affects" for-profit hospitals. In the Application at page 21, the parties state that PMH will be relieved of the Capital Commitment if any Legal Requirement would "adversely affect a disproportionate number" of for-profit hospitals. With regard to this provision of the APA, please respond to the following questions:

a) Please explain why the Capital Commitment made in this Transaction could be potentially eliminated in the event of the enactment or imposition of certain Legal Requirements, rather than deferred, as in PMH's conversion application to purchase the assets of Eastern Connecticut Health Network (the "ECHN Transaction").

b) Explain the intended meaning of "adversely affects" and provide examples of circumstances that this term might describe. Also, please comment on whether it is the parties' intent that PMH be relieved of its Capital Commitment if a disproportionate number of for-profit hospitals are affected by a Legal Requirement that is not imposed by the State of Connecticut or an agency thereof.

4. Page 21 of the Application provides that the Capital Commitment may be spent on "the acquisition, development and improvement of hospital, ambulatory or other health care services in the greater Waterbury, Connecticut community." In connection with this statement, please respond to the following questions:

a) Do the parties intend that PMH may spend all or part of the Capital Commitment to acquire other Waterbury-area healthcare businesses rather than on the capital needs of the Hospital Businesses or for Physician Recruitment Expenditures (as both terms are defined in the APA)?

b) Please describe which types of healthcare businesses other than the Hospital Businesses that would be subject to acquisition.

5. In reference to the priority capital projects identified by Applicants on page 72 of the Application, address the following:

a) Provide the years beyond useful life for the facilities and equipment listed, as applicable;

b) Elaborate on the main campus upgrades involving the ED/development of urgent care, OB\Women's health and outpatient surgery; and

c) Elaborate on the scale and services associated with the multi-use Outpatient Centers contemplated for Southbury, Naugatuck and Waterbury.

d) Please elaborate on how the Bipartisan Budget Act of 2015 and its restrictions on off-campus hospital departments billing under Medicare's hospital outpatient prospective payment system ("OPPS") might affect the development of the multi-use Outpatient Centers.

6. On page 980 of the Application, Applicants identified certain capital improvements made recently, including investments in an XI robot and replacing a CT scanner as well as a C-Arm. Please provide a list of all capital projects (excluding routine maintenance of physical plant and equipment) undertaken by GWHN since January 2013, including, but not limited to the projects referenced, and please identify the associated costs of each capital project.

7. As of the date of Applicant's response to this Completeness Letter, please update the following:

a) the current Net Working Capital (as defined in the APA) of GWHN calculated in accordance with the methodology agreed by the parties on Annex A of the APA;

b) a description of the methodology to be used in Annex A;

c) the current amount of capital lease obligations of GWHN;

d) the current Asbestos Abatement Liability (as defined in the APA) of GWHN;

e) the current amount of Unfunded Pension Liabilities (as defined in the APA) of GWHN;

f) the current amount due for GWHN to satisfy the bond obligations as required by Section 5.15 of the APA (page 182 of the Application); and

g) based on the responses to the subsections (a) through (f) above, please provide an updated estimated purchase price for GWHN's assets after adding Net Working Capital and subtracting the capital lease obligations, Unfunded Pension Liabilities, Asbestos Abatement Liability, and the amount due for GWHN to satisfy its bond obligations.

8. In response to Question 32 of the Application, at page 71, the parties state that if any of GWHN's joint venture interests cannot be transferred at Closing, the purchase price will be reduced to reflect the value allocable to the joint venture interest not transferred. With respect to this statement, please provide the following:

a) What is the current status of the efforts to have PMH acquire GWHN's ownership in the two joint ventures with St. Mary's Hospital, the Harold Leever Regional Cancer Center, Inc. and the Heart Center of Greater Waterbury, Inc.?

b) What valuation methodology would be used to determine the value of GWHN's joint venture interests if these interests are not transferred and a reduction in the purchase price needs to be taken.

c) What is the estimated value of these GWHN joint venture interests when applying the valuation methodology described in subsection (b) above.

9. During the 2012 request for proposals ("RFP") process, Tenet/Vanguard and PMH both submitted proposals to purchase GWHN. Tenet proposed a joint venture, whereas PMH proposed an asset purchase. Reference is made to page 26 of the Application where Applicants state that the GWHN Board of Directors, based on the Task Force's recommendation, preferred the Tenet/Vanguard proposal over PMH's as "the joint venture model will better ensure continuing community engagement with the Hospital." With respect to this statement, please elaborate what specific concerns the Board and Task Force had for an asset purchase versus a joint venture, and how those concerns have been allayed by PMH and the proposed governance structure for the post-closing hospital in this transaction.

10. On page 20 of the Application, Applicants state that the "post-closing hospital will be governed by a board of directors controlled by PMH (the "Hospital Board"). Please identify the likely composition the Hospital Board, how membership will be determined, the number of proposed directors, whether any current GWHN Board members are expected to serve on the Hospital Board and provide any proposed or actual Bylaws for the Hospital Board.

11. On page 91 of the Application and pending further discussions with current GWHN Board, PMH states that it would prefer that at least some of the members of the current GWHN Board agree to serve on the community advisory board ("Local Board") and that a member of the Hospital Board also serve on the Local Board. With respect to this statement, please identify those members of the GWHN Board of Directors who will continue to serve on the Local Board,

the member of the Hospital Board who will serve on the Local Board and provide any proposed or actual Bylaws for the Local Board.

12. To the extent available, please provide the name and business address for each individual currently serving as a member of the governing body for each entity identified in the Organizational Chart set forth at page 68 of the Application, including, without limitation, PMH, Prospect Provider Groups, Inc. ("PPG") and PHP Holdings, Inc.

13. In table format, provide historical volumes (three full fiscal years ("FY") and the current year-to-date) for the number of discharges and patient days, by service for Waterbury Hospital.

TABLE A
HISTORICAL AND CURRENT DISCHARGES

Service*	Actual Volume (Last 3 Completed FYs)			
	FY**	FY**	FY**	CFY***
Medical/Surgical Maternity Psychiatric Pediatric Rehabilitation				
Total				

* Provide the number of discharges for each service listed (Medical/Surgical, Maternity, Psychiatric, Pediatric and Rehabilitation).

** Fill in years. In a footnote, identify the period covered by the Applicant's FY (e.g., July 1-June 30, calendar year, etc.).

*** For periods greater than 6 months, report annualized volume, identifying the number of actual months covered and the method of annualizing. For periods less than six months, report actual volume and identify the period covered.

TABLE B
HISTORICAL AND CURRENT PATIENT DAYS

Service*	Actual Volume (Last 3 Completed FYs)			
	FY**	FY**	FY**	CFY***
Medical/Surgical Maternity Psychiatric Pediatric Rehabilitation				
Total				

* Provide the number of patient days for each service listed (Medical/Surgical, Maternity, Psychiatric, Pediatric and Rehabilitation).

** Fill in years. In a footnote, identify the period covered by the Applicant's FY (e.g., July 1-June 30, calendar year, etc.).

*** For periods greater than 6 months, report annualized volume, identifying the number of actual months covered and the method of annualizing. For periods less than six months, report actual volume and identify the period covered.

14. Complete the following tables for Waterbury Hospital for the first three (full) fiscal years following the proposed asset purchase, if the first year is a partial year, include that as well.

TABLE C
PROJECTED DISCHARGES BY SERVICE

Service*	Projected Volume			
	FY**	FY**	FY**	FY**

Medical/Surgical Maternity Psychiatric Pediatric Rehabilitation				
Total				

* Provide the number of discharges for each service listed (Medical/Surgical, Maternity, Psychiatric, Pediatric and Rehabilitation).

** If the first year of the proposal is only a partial year, provide the first partial year and then the first three full FYs. Add columns as necessary. In a footnote, identify the period covered by the Applicant's fiscal year FY (e.g., July 1- June 30, calendar year, etc.).

TABLE D
PROJECTED PATIENT DAYS BY SERVICE

	Projected Volume			
Service*	FY**	FY**	FY**	FY**
Medical/Surgical Maternity Psychiatric Pediatric Rehabilitation				
Total				

* Provide the number of patient days for each service listed (Medical/Surgical, Maternity, Psychiatric, Pediatric and Rehabilitation).

** If the first year of the proposal is only a partial year, provide the first partial year and then the first three full FYs. Add columns as necessary. In a footnote, identify the period covered by the Applicant's fiscal year FY (e.g., July 1- June 30, calendar year, etc.).

a) Explain any increases and/or decreases in historical volumes reported in the tables above.

b) Provide a detailed explanation of all assumptions used in the derivation/calculation of the projected volume.

15. At page 13 of the Application, Applicants describe the Hospital as a "safety net" hospital that treats "a large number of Medicare, Medicaid and uninsured patients." Additionally,

Applicants state on page 54, that Waterbury struggles with high unemployment and high poverty. Applicants state that the Asset Purchase will provide access to capital that will allow the Hospital to recruit additional physician and midlevel providers. With respect to these statements, address the following:

a. Describe PMH's experience with the development of its CRC models of care in urban, underserved areas that would demonstrate PMH's ability to effectively grow GWHN's physician network in the Waterbury community.

b. Please elaborate on the extent to which GWHN has had difficulty recruiting and/or maintaining medical staff in recent years.

c. Please complete the following table setting forth the number of physicians comprising Active and total members of the medical staff (Active plus all other staff categories) for Waterbury Hospital for the years listed below:

TABLE E

	2013	2014	2015
Active Staff			
Total Staff			

d. With respect to Waterbury Hospital's medical foundation, Alliance Medical Group, Inc., please provide the number of physicians and other allied health professional participants for each year since the inception of the foundation to the current year to date.

16. With respect to Exhibits Q42-2 and Q44-1, Applicants project no change in Nurse Staff to Patient Ratios or, in general, the Average Weekly Hours for Ancillary Caregivers for three years following approval of the asset purchase. Reconcile how the asset purchase will achieve efficiencies and improve quality of care without corresponding adjustments to nurse to patient ratios and the hours of ancillary caregivers.

17. On page 55 of the Application, Applicants reference utilization of Independent Practice Associations ("IPAs") as part of PMH's overall strategy to improve quality, patient satisfaction and improved patient outcomes. On page 56 of the Application, Applicants state that PMH "has already begun implementation efforts with respect to its CRC model, including formation of an IPA and Board with local representatives, review of regulatory requirements, discussions with payers and evaluation of the care delivery network." With respect to these statements, please address the following:

a) The status on the formation of the IPA and the Board;

b) The opportunities and impediments for utilizing the CRC model in Connecticut based on regulatory requirements;

c) The substance and status of discussions with payers; and

d) Any reports on PMH's evaluation of the care delivery network.

18. On page 65 of the Application, Applicants disclose that "PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients." Please provide an update on the status of these discussions. What impact, if any, would there be on the proposed asset purchase if Connecticut's Department of Social Services were to decide not to enter into risk-based arrangements with PMH?

19. Applicants assert on page 46 of the Application, "where Prospect has acquired hospitals [in California, Rhode Island, and Texas], the access and quality of care improved, significant capital investments were and are continuing to be made, and job growth has occurred." At page 64 of the Application, Applicants state that "[i]t is anticipated, over time, that Prospect will achieve improvements in access and the quality of services available" to Medicaid recipients and the indigent. Please cite to specific examples at other PMH acquired hospitals to address the following:

a) How access and quality of care has improved for patients in general and Medicaid and indigent patients in particular (identify the standards or benchmarks demonstrating these improvements); and

b) Provide details regarding significant capital investments initiated by PMH at the hospitals it has acquired within 5 years post-closing.

20. On pages 57 and 59 of the Application, PMH references the development and implementation of specific programs executed through its CRC model designed to address patients with significant co-morbidities. Please describe these programs in detail and explain how they will be implemented within the Greater Waterbury community. Provide detail on how quality of care and cost effectiveness of care has been improved as a result of these programs.

21. On page 62 of the Application, Applicants state that through the CRC model, "PMH has demonstrated improved clinical outcomes, higher quality scores, higher patient satisfaction, lower re-admission rates, lower average lengths of stay, and lower medical-cost ratios." Provide specific examples in addition to those cited on pages 65-66 and include all assessments, reports, analysis or any other documentation supporting these claims.

22. In connection with Section 6.09 of the APA, at page 189 of the Application, please respond to the following questions:

a) Section 6.09 provides that PMH will "ensure that the Hospital maintains and adheres to Seller's current policies on charity care…for at least five (5) years from Closing." In the ECHN Transaction, PMH did not qualify its commitment to

continue ECHN's charity policies. Please explain the parties' decision to agree to this qualification.

b) Section 6.09 of the APA, at page 189 of the Application, also provides that PMH will participate in Medicare and Medicaid, accept all emergency patients without regard to ability to pay, provide public health programs and promote public health for at least five years after Closing. Particularly in view of Waterbury Hospital's current status as a "safety net" hospital, please discuss how access to care in the community will be affected if PMH ceases GWHN's participation in Medicare and Medicaid no longer accepts all emergency patients without regard to ability to pay or no longer continues to operate under the Hospital's charity care policies.

23. Reference is made to Table F concerning the amount of uncompensated care provided by Waterbury Hospital from FY 2012 to FY 2014:

TABLE F

	FY 2012	FY 2013	FY 2014
Charity Care	$1,389,352	$1,472,594	$5,644,280
Bad Debts	$10,435,502	$10,783,760	$3,692,986

* Source: OHCA Annual Report on the Financial Status of Connecticut's Short Term Acute Care Hospitals (Sept. 2015)

a) Please explain the reasons for the large increase in charity care provided by the Hospital in FY 2014.

b) Please explain the reasons for the large decrease in bad debt recognized by the Hospital in FY 2014.

c) Provide the amounts of charity care provided by Waterbury Hospital and the amount of bad debt recognized for FY 2015.

d) Please describe how the proposed asset purchase with PMH can result in an increase in charity care provided by Waterbury Hospital and cite to any examples from PMH's prior non-profit acute care hospital acquisitions where the amount of charity care (not total uncompensated care inclusive of bad debt) has increased from year to year post acquisition.

24. Subsequent to acquisition of both hospitals, describe PMH's experience in implementing the Community Health Needs Assessment ("CHNA") implementation strategies for both Roger

Williams Medical Center and Our Lady of Fatima Hospital. Please describe the priority needs identified in each CHNA and how each hospital is presently addressing those needs.

25. On page 62 of the Application, PMH commits to "support the priority needs identified by the CHNA" developed by Waterbury Hospital in collaboration with the Greater Waterbury Health Improvement Partnership ("GWHIP"). With respect to this statement, please respond to the following:

a) On page 924 of the Application, the Certificate of Incorporation for the Independent Foundation states that as part of its purpose, the Foundation will conduct or support CHNAs. Please compare and contrast the Foundation's role in conducting and supporting CHNAs with those of Waterbury Hospital if it becomes a for-profit hospital.

b) Please address the extent to which Waterbury Hospital will continue to participate in the GWHIP after the closing and whether it intends to adopt implementation strategies to address health needs identified in CHNAs for the Waterbury area that would be conducted post-closing.

c) On page 1119 of the Application, the CHNA findings of GWHIP identified additional key community health issues, including addressing Diabetes, Heart Disease, Respiratory Disease, Infant Mortality/Low Birth Rate and Cancer. Please elaborate on how PMH plans to address these additional areas of need in the Greater Waterbury area.

26. Reference is made to Exhibit Q51-1, the Hospital's IRS Form 990 Report for the 2014 Tax Year. Please detail all charitable donations and other monetary and non-monetary support provided by Waterbury Hospital to the following programs and/or services and comment on the extent to which they will be continued by the post-closing hospital:

a) Waterbury Hospital Infectious Disease Clinic

b) Waterbury Health Access Program

c) Waterbury Hospital Center for Behavioral Health

d) Be Well Bus

e) Heart Center of Greater Waterbury

f) Family Birthing Center

g) Thank God I'm Female

h) Evergreen 50 Club

27. The Application at page 84 states that PMH will be seeking property and sales tax abatements post-closing for a transition period and that "such abatement is deemed critical to the overall success of the proposed transaction." In connection with these statements:

a) Please describe the length of the proposed transition period and the particulars of the abatement that will be sought.

b) Explain why the abatement is deemed critical to the overall success of the proposed transaction.

c) If PMH is unsuccessful in its negotiations for such an abatement, will there be any changes to the Capital Commitment or PMH's commitment as noted on page 84 to adhere to GWHN's current policies regarding charity care, indigent care, community volunteer services and community benefits?

28. Reference is made to Table 1 on page 74 of the Application. Please explain the assumptions behind the projected reduction in the number of self-pay discharges for FYs 2016-2018.

29. Please elaborate on the expected revenue growth for Waterbury Hospital associated with the use of the CRC model of care and provide specific examples from hospitals currently owned by PMH of actual savings realized post-acquisition in the various operating expense categories set forth in Financial Worksheet (C).

30. On page 69 of the Application, the Applicants indicate that "PMH has access to an existing corporate level credit facility in addition to its cash on hand." Name the credit facility, provide PMH's current credit rating and elaborate on the process associated with borrowing funds from this credit facility to fund any portion of the $51.5 million Capital Commitment in lieu of cash from GWHN operations.

31. Elaborate on the financial feasibility to fund the $53 million purchase price given PMH's declines in cash and cash equivalents, operating income, net income, and realized deficits in Stockholder's equity from FY 2012 to 2014 reported in its FY 2014 audited financial statements as set forth at Exhibit Q8-1.

32. Provide an updated Pro Forma Balance Sheet for the proposed Transaction, Exhibit Q3-3 at page 221, as of September 30, 2015.

33. In reference to Financial Worksheet (C), Exhibit Q37-1, and the related Assumptions, at Exhibit Q38-1, for GWHN and Waterbury Hospital address the following:

a) For GWHN, provide a revised Financial Worksheet (C) that will include Actual results for FY 2014. Note that the results reported must agree with the GWHN audited financial statements filed at OHCA. Provide the missing assumptions utilized in developing the projections and explain any projected losses from operations;

b) For Waterbury Hospital, provide a revised Financial Worksheet (C) that will include FY 2014 Actual results in agreement with the audited financial statements filed at OHCA. Explain the zero amounts reported under the uninsured, self-pay and workers compensation line items.

c) Explain the zero incremental amounts associated with this proposal for Waterbury Hospital when the assumptions submitted indicate increases in revenue, volume, and expenses for FY 2016.

d) For GWHN and Waterbury Hospital, explain why the applicants assumed increases in expenses, for FY 2016-FY 2018, when in response to questions 26 and 53, the Applicants indicate that they expect a lower cost structure and improved efficiencies that will generate cost savings and that, as stated in Exhibit Q38-1, "*the hospital engaged the Camden Group to look at opportunities to remove expenses from the organization and we have begun or about to begin implementing many of these based on the data analyzed. Our goal moving forward and starting in FY 2016 is to increase our revenue capability but also make significant changes that will allow us to decrease our expenses where appropriate.*"

e) Explain the Applicants submission of Alliance Medical Group's assumptions as a separate entity and their relationship with the Financial Worksheets(C).

34. Please provide updated Financial Measurements/Indicators, Exhibit Q50-1, for the months of July, August and September 2015 and comparable months from the previous fiscal year for GWHN, Waterbury Hospital and PMH. Provide the methodology utilized to calculate the financial ratios on Sections A through C and an explanation for any decreases or increases that apply to any of the items listed on Section D between YTD FYs 2014 and 2015.

35. On page 878 of the Application, PMH's FY 2014 audited financial statements indicate that "*Patients without insurance are offered assistance in applying for Medicaid and other programs they may be eligible for, such as state disability. Patient advocates from the Company's Medical Eligibility Program ("MEP") screen patients in the Hospital and determine potential linkage to financial assistance programs. They also expedite the process of applying for these government programs.*" Elaborate on the MEP process and success record. Indicate whether this program will be available at Waterbury Hospital if the asset purchase is approved and consummated.

OAG Questions

36. Your response to Question 10 in the Application states that the Independent Foundation will "seek qualification as a 501(c)(3) charitable organization." Please indicate how the Independent Foundation intends to qualify for such a designation.

37. Exhibit Q10-2 is the Draft Bylaws of the Independent Foundation. In Section 4.1, it states: "At least a majority of the Trustees shall live or work in the Communities." Please explain why the bylaws do not require that all of the Trustees of the Independent Foundation either live or work in the communities served by GWHN.

38. Your response to Question 11 in the Application states that the Hospital intends to continue to receive the income from several different types of charitable funds, including excess income from certain bed funds, until its liabilities are paid off. How does GWHN intend to apply the charitable income from these bed funds to provide free care for individuals while remaining in possession of the funds after the transaction closes? Also, please explain how GWHN will determine what is the *excess* income from such bed funds.

39. Please identify from which of the bed funds in Schedule D of Exhibit Q11-1 GWHN expects to continue to receive excess income.

Please mail one (1) complete hard copy and one (1) complete electronic copy of the requested materials for approval to each of the following addresses:

Office of the Attorney General
55 Elm Street, P.O. Box 120
Hartford, Connecticut 06141-0120
Attn: Gary W. Hawes, AAG

Office of Health Care Access, Dept. of Public Health
410 Capitol Avenue
Hartford, Connecticut 06134
Attn: Steven W. Lazarus

After receipt of these requested materials, the OAG and OHCA shall review the submission to determine whether the application for approval is complete. If not, they shall provide written notice of any deficiencies within twenty (20) days of receipt of the information requested. Should you have any questions regarding these requests or any other issues relating to the Commissioner's and Attorney General's review, please do not hesitate to contact either Steven W. Lazarus at the Department of Public Health (860-418-7012; Steven.Lazarus@ct.gov) or Assistant Attorney General Gary W. Hawes at the Office of the Attorney General (860-808-5020; gary.hawes@ct.gov).

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02

Dear Mr. Hawes and Mr. Lazarus:

Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, Inc. hereby submit the enclosed responses to the completeness questions issued by the Office of the Attorney General and the Office of Health Care Access on November 17, 2015.

At your request, one (1) hard copy and (1) electronic copy have been provided to each Office. If you have any questions or need anything further, please feel free to contact Ann Zucker at (203) 252-2652 or Michele Volpe at (203) 777-6995. Thank you for your assistance in this matter.

On November 17, 2015, Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH" and, together with GWHN, the "Applicants"), received correspondence from the Office of the Attorney General ("OAG") and the Office of Health Care Access ("OHCA")requesting additional clarification for certain deficiencies identified in the Application submitted on October 28, 2015. The Applicants' Response to these deficiencies is provided below.

OHCA Questions

1. Please comment on the November 5, 2015 report by Dow Jones & Company that Leonard Green & Partners plans to sell PMH and in your answer provide the following:

a) a description of Leonard Green & Partners and its present ownership stake and control of PMH; and

Response:

Neither PMH nor any of its subsidiaries are affiliated with the Deal Pipeline's website or the LBO Wire. Therefore, PMH cannot explain how or why those particular reports were generated.

PMH can confirm, however, that PMH has retained Morgan Stanley to review and assess additional sources of investment to support its overall growth strategy, and that PMH has been in discussions with additional investment groups to evaluate opportunities to partner during this next phase of the company's growth.

PMH is a growing company that is performing very well and receives inquiries from interested investors. The company is not for sale to a strategic buyer such as another healthcare provider, health plan or health system. PMH is only considering its financial investment and investor options to support its plans for future growth.

About Leonard Green & Partners, L.P. ("Leonard Green") - Source: www.leonardgreen.com

"Leonard Green is one of the nation's preeminent private equity firms with over $15 billion of private equity capital raised since its inception. Founded in 1989, the firm has invested in 76 companies in the form of traditional buyouts, going-private transactions, recapitalizations, growth capital investments, corporate carve-outs and selective public equity and debt positions. Based in Los Angeles, CA, Leonard Green invests in established companies that are leaders in their markets." [1]

The affiliated investment funds of Leonard Green own approximately 61.3% of the common stock of Ivy Holding, Inc. ("IH"), a Delaware corporation which owns 100% of the stock in Ivy Intermediate Holding, Inc. ("IIH"). IIH is a Delaware corporation which owns 100% of the stock of PMH. IIH is a holding company for such stock ownership. It has no other assets, liabilities or operations. Current and former employees of PMH and its subsidiaries own the remaining shares of IH stock.

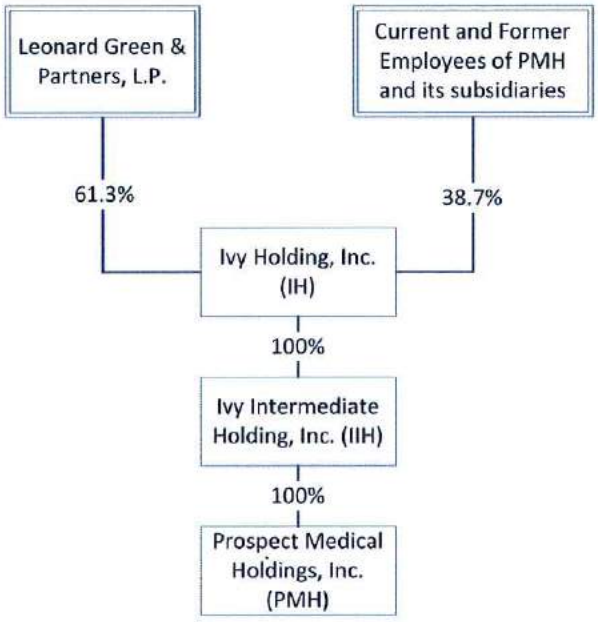
Figure 1 – Relationship of Leonard Green to PMH



Other healthcare related investments held by Leonard Green include CHG Healthcare Services, RestorixHealth and US Renal Care.

The engagement with Morgan Stanley to review and assess additional sources of investment for PMH will likely conclude within the next year. PMH will only proceed further with any additional investors if we find a partner that supports our current growth strategy. The engagement with Morgan Stanley may not yield any additional investment into PMH. This is an evaluation at this point in time.

b) the timing of any proposed sale of PMH and its impact on the proposed Transaction.

Response:

PMH's pursuit of additional investment partners will not affect the planned acquisition of GWHN. Capital funding associated with PMH's acquisition of GWHN is currently available. The rationale for pursuing additional investment partners at this time is to prepare the organization for future growth and to support PMH's overall growth strategy.

PMH's pursuit of additional investment partners will not affect the future operations of GWHN other than to support the overall growth of PMH – which could also benefit GWHN as part of a growing system. PMH's short and long term strategy and focus on transforming the healthcare delivery model will not change. PMH will continue to focus on its current operations and will continue to invest in its hospitals, medical groups, CRC network and related business. The management of PMH will remain unchanged.

2. At page 21 of the Application, the Applicants state that PMH will spend or commit to spend the Capital Amount (defined in the Asset Purchase Agreement ("APA") as $51.5 million) on capital projects in the seven years following the Closing Date (the "Capital Commitment"). According to the Application at page 27, in October 2012, PMH was prepared to spend at least $70 million over a five-year period as part of its proposed asset purchase of GWHN. With respect to this aspect of the Transaction, please describe the factors that led PMH to make a smaller capital commitment over a longer period of time in 2015 and for GWHN to accept these terms.

Response:

The facts and circumstances, the operational results and the value of GWHN were very different in 2012 as opposed to 2015. In fact, the operational results and the value of GWHN have deteriorated significantly from the time that the parties entered into a letter of intent in early 2015 as volume and revenue declines, combined with increased expenses, have contributed to significant losses during the past six months.

Furthermore, it should be noted that PMH had offered $25 million as the purchase price in 2012 as opposed to $38.3 million ($31.8 million plus $6.5 million of assumption of capital lease debt obligation) as proposed in this transaction.

Finally, when PMH and GWHN renewed their negotiations in early 2015, the board of GWHN requested that PMH agree to the economic terms and conditions that it had previously negotiated in the APA with Vanguard / Tenet, which had already been approved by (i) the board of directors of GWHN; (ii) OHCA; and (iii) the Attorney General of Connecticut.

It should be noted that PMH views the Commitment Amount as the minimum that it would spend for capital expenditures at GWHN. If there is a need to spend more on such projects that will contribute to GWHN's growth, PMH will consider all such capital expenditures.

3. In Section 6.10 of the APA (page 189 of the Application), the parties agree that PMH will be relieved of its Capital Commitment if, among other things, a Legal Requirement (as defined in the APA) is enacted or imposed that "adversely or disproportionately affects" for-profit hospitals. In the Application at page 21, the parties state that PMH will be relieved of the Capital Commitment if any Legal Requirement would "adversely affect a disproportionate number" of for-profit hospitals. With regard to this provision of the APA, please respond to the following questions:

a) Please explain why the Capital Commitment made in this Transaction could be potentially eliminated in the event of the enactment or imposition of certain Legal Requirements, rather than deferred, as in PMH's conversion application to purchase the assets of Eastern Connecticut Health Network (the "ECHN Transaction").

Response:

First, it should be noted that GWHN negotiated a deal separate and apart from ECHN. Each deal stands on its own. Neither GWHN nor ECHN were privy to the other's negotiations. The GWHN board negotiated a deal (taking the transaction as a whole) that it believed was in the best interests of GWHN and its surrounding communities. Furthermore, PMH views the Commitment Amount as the minimum

that it would spend for capital expenditures at GWHN. If there is a need to spend more on such projects that will contribute to GWHN's growth, PMH will consider all such additional capital investments. .

Second, please note that a Legal Requirement that discriminates against or adversely or disproportionately affects for-profit hospitals would require PMH to consult with the Local Board to determine an alternate mutually agreeable capital commitment that is reasonable and appropriate in light of the changed circumstances caused by the new Legal Requirements.

b) **Explain the intended meaning of "adversely affects" and provide examples of circumstances that this term might describe. Also, please comment on whether it is the parties' intent that PMH be relieved of its Capital Commitment if a disproportionate number of for-profit hospitals are affected by a Legal Requirement that is not imposed by the State of Connecticut or an agency thereof.**

Response:

It is impossible to describe the universe, or set of circumstances that may arise from Legal Requirements that may negatively or adversely affect the operational performance of a hospital. However, and without limiting the generality of the universe of Legal Requirements that may negatively or adversely affect the operations of a hospital, an example would be the passage of a Legal Requirement by any federal or state regulatory authority after the Closing, pursuant to which a for-profit hospital would receive less reimbursement for the same service than a not-for profit hospital. In such circumstances GWHN's operations will be adversely affected. Other examples may include conditions placed on the operations of GWHN post-closing that do not currently exist on the operations of the hospital and/or that other not-for-profit hospitals in the state of the Connecticut would not be required to follow, but only if such conditions negatively or adversely affect the ongoing operations of GWHN. We anticipate the probability of such an event to be extremely low, and in fact are not aware that any such circumstance has ever occurred.

4. Page 21 of the Application provides that the Capital Commitment may be spent on "the acquisition, development and improvement of hospital, ambulatory or other health care services in the greater Waterbury, Connecticut community." In connection with this statement, please respond to the following questions:

a) **Do the parties intend that PMH may spend all or part of the Capital Commitment to acquire other Waterbury-area healthcare businesses rather than on the capital needs of the Hospital Businesses or for Physician Recruitment Expenditures (as both terms are defined in the APA)?**

Response:

The parties have not yet prepared a capital investment plan. GWHN and PMH have agreed to seek the input of the Local Boards and medical staff to produce a capital plan post-closing that will ultimately determine the capital projects and priorities.

b) Please describe which types of healthcare businesses other than the Hospital Businesses that would be subject to acquisition.

Response:

In order to better position GWHN as a premier choice for healthcare in its community, PMH believes that it will need to continually evaluate the facilities and markets for future capital projects. Immediately post-closing, as a part of the strategic planning process, PMH would consider and evaluate market data and projections, current and proposed regulatory environments, operational and financial requirements, and capital expenditures models in the markets in which GWHN operates. This strategic planning process would be led by the local management team; however the resources of PMH would provide the necessary capital and expertise to enhance existing services and add new service lines. It is expected that the types of healthcare businesses other than the Hospital Business, if any, that could be considered would include outpatient facilities, such as imaging or ambulatory surgery centers, behavioral health, home health agencies, urgent care clinics and other ambulatory care businesses. Should the opportunity arise, PMH would also consider acquiring other inpatient acute or behavioral health facilities in Waterbury's service areas and the surrounding communities.

Working with the local leadership, PMH will identify and prioritize the identified capital projects. PMH's objective is to implement growth initiatives for the benefit of the surrounding communities served by GWHN so long as that care can be delivered in a high quality and financially responsible manner.

5. In reference to the priority capital projects identified by Applicants on page 72 of the Application, address the following:

a) Provide the years beyond useful life for the facilities and equipment listed, as applicable;

Response:

Project	Cost	Years beyond useful life
Expansion of ED/Development of urgent care	$3.75M	
Upgrade OB/Women's health	$2M	16 Years
Upgrade outpatient surgery	$2M	
Equipment		
Replace interventional radiology equipment	$1.7M	7 years
Upgrade surgical/anesthesia equipment	$1.5M	5-20 years

b) Elaborate on the main campus upgrades involving the ED/development of urgent care, OB\Women's health and outpatient surgery; and

Response:

The Emergency Department at Waterbury Hospital was built to accommodate 35,000 patients annually while the actual utilization is about 50,000, resulting in issues of throughput which delays "door to doctor" time. Lengthy waits result in higher than average "Left Without Being Seen" (LWOS) rates. The LWOS rate has exceeded 4% while national averages are 2.5 to 3%. Hallways are consistently used as

patient rooms. Expansion of the emergency department will improve access to care, decrease LWOS, and improve patient throughput, while improving patient privacy. In sum, it will improve patient access and quality of care. Waterbury Hospital presently does not provide urgent care which is sorely needed for both our existing patients as well as to more conveniently and efficiently serve existing patients, many of whom use the more expensive emergency department.

OB/Women's Health area has not been upgraded since the 1980s and is badly in need of cosmetic repairs and amenities.

There is not a separate area for outpatient surgery which has become standard for healthcare organizations. Particularly due to the change in reimbursement, patients are being redirected to outpatient surgery centers, which Waterbury Hospital does not have, and which is a disadvantage to the hospital, but more importantly, restricts access to GWHN patients.

c) **Elaborate on the scale and services associated with the multi-use Outpatient Centers contemplated for Southbury, Naugatuck and Waterbury.**

Response:

Presently Waterbury Hospital provides several healthcare services in Naugatuck, Southbury and Watertown. However, these services are not conveniently co-located, nor are they organized and offered to patients in a convenient, one-stop shopping environment. It is the goal to locate outpatient services around a nucleus of physicians in an environment with adequate parking and convenient access to patients.

d) **Please elaborate on how the Bipartisan Budget Act of 2015 and its restrictions on off-campus hospital departments billing under Medicare's hospital outpatient prospective payment system ("OPPS") might affect the development of the multi-use Outpatient Centers.**

Response:

It will not have an impact because the nucleus of the outpatient strategy is physician-based practices, which has not changed. These centers will not operate as hospital services, but as physician practices.

6. **On page 980 of the Application, Applicants identified certain capital improvements made recently, including investments in an XI robot and replacing a CT scanner as well as a C-Arm. Please provide a list of all capital projects (excluding routine maintenance of physical plant and equipment) undertaken by GWHN since January 2013, including, but not limited to the projects referenced, and please identify the associated costs of each capital project.**

Response:

Capital Project	Department	Cost	Date
Anesthesia Equipment	Operating Room	$82762	02/21/2013
Scope Disinfecting System	Gastroenterology	$54540	06/11/2013
Surgical Laser Holmium	Operating Room	$42000	07/28/2014
Ultrasound Imaging System	Emergency Department	$22000	08/25/2014
Surgical Navigation System	Operating Room	$489992	11/06/2014
Echo Cardiology Imaging System	CVOR	$95,000	04/01/2015
Surgical Robotic System	Operating Room	$1935000	03/16/2015
Telemetry Monitoring System	Telemetry	$379905	03/18/2015
C-Arm	Operating Room	$225721	03/25/2015
CT Scanner	Radiology	$695000	07/01/2015
Infusion Pumps	Nursing	$1121904	09/09/2015

7. As of the date of Applicant's response to this Completeness Letter, please update the following:

a) the current Net Working Capital (as defined in the APA) of GWHN calculated in accordance with the methodology agreed by the parties on Annex A of the APA;

Response:

d) the current Asbestos Abatement Liability (as defined in the APA) of GWHN;

Response:

$2,898,529

e) the current amount of Unfunded Pension Liabilities (as defined in the APA) of GWHN;

Response:

CHCA Pension = $27,000,00

Cash Balance Plan = $11,613,917

f) the current amount due for GWHN to satisfy the bond obligations as required by Section 5.15 of the APA (page 182 of the Application); and

Response:

Approximately $23,700,000 (CHEFA) bonds

$1,700,000 (swap obligations)

g) based on the responses to the subsections (a) through (f) above, please provide an updated estimated purchase price for GWHN's assets after adding Net Working Capital and subtracting the capital lease obligations, Unfunded Pension Liabilities, Asbestos Abatement Liability, and the amount due for GWHN to satisfy its bond obligations.

Response:

SEE ATTACHED AS EXHIBIT Q7G-1

8. In response to Question 32 of the Application, at page 71, the parties state that if any of GWHN's joint venture interests cannot be transferred at Closing, the purchase price will be reduced to reflect the value allocable to the joint venture interest not transferred. With respect to this statement, please provide the following:

a) What is the current status of the efforts to have PMH acquire GWHN's ownership in the two joint ventures with St. Mary's Hospital, the Harold Leever Regional Cancer Center, Inc. and the Heart Center of Greater Waterbury, Inc.?

Response:

Saint Mary's has consented to GWHN's transaction and the transfer of its interest in Harold Leever Regional Cancer Center, Inc. as part of the transaction. The Heart Center of Greater Waterbury, Inc. is a corporate entity that was formed to facilitate the development of a heart program in Waterbury. The assets of the program belong to the individual hospitals Saint Mary's and GWHN plan to submit a modification of the Certificate of Need to permit the dissolution of the corporate entity. No change in the purchase price will occur with respect to such dissolution.

b) What valuation methodology would be used to determine the value of GWHN's joint venture interests if these interests are not transferred and a reduction in the purchase price needs to be taken.

Response:

The consent of Saint Mary's has been obtained and the parties anticipate the transfer will be part of the closing of the transaction.

c) **What is the estimated value of these GWHN joint venture interests when applying the valuation methodology described in subsection (b) above.**

Response:

Please see response above.

9. **During the 2012 request for proposals ("RFP") process, Tenet/Vanguard and PMH both submitted proposals to purchase GWHN. Tenet proposed a joint venture, whereas PMH proposed an asset purchase. Reference is made to page 26 of the Application where Applicants state that the GWHN Board of Directors, based on the Task Force's recommendation, preferred the Tenet/Vanguard proposal over PMH's as "the joint venture model will better ensure continuing community engagement with the Hospital." With respect to this statement, please elaborate what specific concerns the Board and Task Force had for an asset purchase versus a joint venture, and how those concerns have been allayed by PMH and the proposed governance structure for the post-closing hospital in this transaction.**

Response:

In the prior transactions, the Board was able to negotiate a joint venture structure which includes fairly robust local presence in the governance structure. Since the terms of the prior transactions, GWHN has experienced significant financial deterioration which was no longer in a position to purchase an equity interest which would be accompanied by equity level representation. Nevertheless, the Task Force was able to obtain a local advisory board to provide community input in the operations of the post-closing hospital.

10. **On page 20 of the Application, Applicants state that the "post-closing hospital will be governed by a board of directors controlled by PMH (the "Hospital Board"). Please identify the likely composition the Hospital Board, how membership will be determined, the number of proposed directors, whether any current GWHN Board members are expected to serve on the Hospital Board and provide any proposed or actual Bylaws for the Hospital Board.**

Response:

The Hospital Board will be composed of executives of PMH and local employed executives of GWHN such as the Chief Executive Officer of GWHN. It is expected that current GWHN Board members would be represented on the Local Board (see Question #11). The number of board members has not yet been determined but in accordance with the APA the Local Board will be between 9 and 12 members. It is PMH's preference that at least one-third of the Local Board members are physicians. There are currently no actual or proposed bylaws for the Hospital Board.

11. **On page 91 of the Application and pending further discussions with current GWHN Board, PMH states that it would prefer that at least some of the members of the current GWHN Board agree to serve on the community advisory board ("Local Board") and that a member of the Hospital Board also serve on the Local Board. With respect to this statement, please identify those members of the GWHN Board of Directors who will continue to serve on the Local Board, the member of the Hospital**

Board who will serve on the Local Board and provide any proposed or actual Bylaws for the Local Board.

Response:

The discussions regarding the composition of the Local Board are continuing. At this time, the identities of Local Board members are unknown. The Chief Executive Officer of GWHN (a member of the Hospital Board), will be a member of the Local Board. Currently, there are no actual or proposed bylaws for the Local Board.

12. To the extent available, please provide the name and business address for each individual currently serving as a member of the governing body for each entity identified in the Organizational Chart set forth at page 68 of the Application, including, without limitation, PMH, Prospect Provider Groups, Inc. ("PPG") and PHP Holdings, Inc.

TABLE D
PROJECTED PATIENT DAYS BY SERVICE

Days:	FY 2016 Budget 10/15-9/16	FY 2017 Projected 10/16-9/17	FY 2018 Projected 10/17-9/18	FY 2019 Projected 10/18-9/19
Medical/surgical	41,670	42,497	44,563	46,791
Maternity	3,018	3,079	3,229	3,389
Psychiatric	9,497	9,678	10,145	10,664
Pediatric	0	0	0	0
Rehabilitation	0	0	0	0
	54,185	**55,254**	**57,937**	**60,844**

a) **Explain any increases and/or decreases in historical volumes reported in the tables above.**

Response:

The hospital saw a decrease in overall inpatient volume during the course of FY 2015. Some if this decrease may be due to movement of cases from inpatient stays to outpatient observation stays. The budgeted discharge number was based upon this overall lower volume remaining stable into FY 2016.

b) **Provide a detailed explanation of all assumptions used in the derivation/calculation of the projected volume.**

Response:

FY 2016: Assumes conversion on April 1st. Overall increase of 3% from 2015 volume for remainder of Year.

FY 2017: Overall increase of 5% from 2015 volume. Physician Recruitment, Care outside of Service Area.

FY 2018: Overall increase of 5% from 2015 volume. Physician Recruitment, Care outside of Service Area.

15. At page 13 of the Application, Applicants describe the Hospital as a "safety net" hospital that treats "a large number of Medicare, Medicaid and uninsured patients." Additionally, Applicants state on page 54, that Waterbury struggles with high unemployment and high poverty. Applicants state that the Asset Purchase will provide access to capital that will allow the Hospital to recruit additional physician and midlevel providers. With respect to these statements, address the following:

a) **Describe PMH's experience with the development of its CRC models of care in urban, underserved areas that would demonstrate PMH's ability to effectively grow GWHN's physician network in the Waterbury community.**

Response:

PMH is a member of Private Essential Access Community Hospitals ("PEACH"). PEACH is a network of private, core safety net hospitals in California that care for a disproportionate share of low-income, medically vulnerable patients. Despite increased need for services and a host of other challenges, PEACH hospitals remain dedicated to their mission of providing choice and access to high quality, culturally appropriate, and cost-effective health care services to all patients, regardless of ability to pay.

PMH has had experience and success in operating safety net hospitals through the deployment of our CRC model. PMH operates the following safety net hospitals:

- Los Angeles Community Hospital;
- Los Angeles Community Hospital at Norwalk;
- Southern California Hospital at Hollywood;

The payor mix of above hospitals is as follows:

PAYOR MIX	Southern California Hospital at Hollywood	Los Angeles Community Hospital	Norwalk Community Hospital
Medicare	33.8%	12.0%	32.7%
Medi-Cal	10.9%	12.1%	13.9%
Managed Medicare	8.1%	9.4%	10.2%
Managed Medi-Cal	46.0%	63.6%	36.9%

Please note that the above hospitals provide services to primarily the Medicare and Medicaid populations. Also please note that a significant percentage of PMH patients at such hospitals are part of a managed care program. PMH safety net hospitals, above, have full risk arrangements with IPAs that are owned by PMH as well as IPAs that are not owned by PMH. Our collective experience in population health management and understanding the role of hospitals in providing quality and efficient care in a managed care environment attracted other physicians and IPAs to contract with PMH hospitals on a full risk basis despite competing IPAs and the existence of other hospitals in the vicinity of PMH owned hospitals. In other words other physicians and medical groups that wish to participate in a population health management model and who do not wish to be part of PMH find it advantageous to work and collaborate with PMH owned hospitals.

b) **Please elaborate on the extent to which GWHN has had difficulty recruiting and/or maintaining medical staff in recent years.**

Response:

The average age of the Greater Waterbury Health Network medical staff is about 60 years of age; 20% of the medical staff is within five years of what has been considered the retirement age of 65. The priority recruiting target is primary care which feeds all other specialties. Presently the community could

support at a minimum 16 primary care physicians, not taking into account the number of potential retirements. While GWHN continually is looking for primary care doctors, GWHN has not successfully recruited any practice based primary care physicians in the past four years. GWHN is now actively recruiting for 10 positions. Recruiting hospitalists and psychiatrists in particular has proven to be extremely difficult. Hospitalists are quite mobile and turnover is high, while access to psychiatrists is a significant challenge.

c) **Please complete the following table setting forth the number of physicians comprising Active and total members of the medical staff (Active plus all other staff categories) for Waterbury Hospital for the years listed below:**

Response:

TABLE E

	2013	2014	2015
Active Staff	**370**	**339**	**328**
Total Staff	**643**	**614**	**614**

d) **With respect to Waterbury Hospital's medical foundation, Alliance Medical Group, Inc., please provide the number of physicians and other allied health professional participants for each year since the inception of the foundation to the current year to date.**

Response:

	2009	2010	2011	2012	2013	2014	2015
Professional Staff	83	99	93	96	99	109	112

16. With respect to Exhibits Q42-2 and Q44-1, Applicants project no change in Nurse Staff to Patient Ratios or, in general, the Average Weekly Hours for Ancillary Caregivers for three years following approval of the asset purchase. Reconcile how the asset purchase will achieve efficiencies and improve quality of care without corresponding adjustments to nurse to patient ratios and the hours of ancillary caregivers.

Response:

As we responded to Questions 42 and 44 of the Application, staffing ratios in place at GWHN are based on current circumstances and volume and may be updated as appropriate to reflect PMH and industry best practices, and which reflect changes in technology, implementation of the CRC model of coordinated care, and other factors related to the delivery of high quality, cost-effective care. Staffing of Ancillary Caregivers may eventually shift with the implementation of the CRC model, which is expected eventually to result in changes in patient acuity and relative volumes of inpatient and outpatient services.

PMH expects to implement cost and clinical efficiencies over time utilizing a planned and coordinated approach. Specific plans to address potential areas of opportunity that would impact patient census, patient acuity, staff experience levels and technology utilized by caregivers have not been developed at this time, so staffing changes that would result related to these factors cannot be reasonably predicted. However, it is anticipated that cost and quality improvements will result from improved compliance with existing staffing ratios by implementation of PMH data analytics and operational policies.

Given these limitations, the projections presented in Exhibit Q42-2 (Staffing Attachment II) and Exhibit Q44-1 (Ancillary Caregiver Staffing Attachment) assume volume demands (which would impact unit configuration and size), patient acuity, staff experience levels, and technology will remain constant during the projection period. During the first three full fiscal years following approval of the Asset Purchase (FY 2017, FY 2018, and FY 2019) staffing levels may begin to shift as PMH introduces best practices from its other hospitals and implements its CRC model, which is expected eventually to result in changes in patient acuity caused by improving population health and a shift in relative volumes of inpatient and outpatient services. PMH is committed to staffing levels that comply with ratios mandated by Connecticut state law, which implement best industry practices, and which take into account patient safety and acuity, employee safety and facility census.

17. On page 55 of the Application, Applicants reference utilization of Independent Practice Associations ("IPAs") as part of PMH's overall strategy to improve quality, patient satisfaction and improved patient outcomes. On page 56 of the Application, Applicants state that PMH "has already begun implementation efforts with respect to its CRC model, including formation of an IPA and Board with local representatives, review of regulatory requirements, discussions with payers and evaluation of the care delivery network." With respect to these statements, please address the following:

a) The status on the formation of the IPA and the Board;

Response:

The IPA legal entity has been formed as a limited liability company called Prospect Provider Group CT-GWHN, LLC. ("PPGCTE"). The Chair and the Board of the newly formed IPA are being selected currently and the Board will likely begin to meet in January. Physician contracting will begin as soon as the Board has approved the participating physician agreements.

b) The opportunities and impediments for utilizing the CRC model in Connecticut based on regulatory requirements;

Response:

The primary CRC regulatory requirement for providers assuming and managing value-based risk contracts in Connecticut is licensure as a Preferred Provider Network by the Connecticut Insurance Department. Prospect Health Services CT, Inc. received its license to transact business as a Preferred Provider Network from the Connecticut Insurance Commissioner on October 21, 2015. As such, PMH

has already satisfied the main regulatory requirement necessary for implementing the CRC model in Connecticut.

One potential impediment to fully implementing the CRC model across geographies is the restriction on the number of medical foundation entities per health system that exists under Connecticut law. Specifically, pursuant to §33-182bb(f) of the Connecticut General Statutes, "a hospital, health system or medical school may organize and be a member of no more than one medical foundation." This statutory restriction does not permit the formation of separate medical foundation entities by a hospital system that owns multiple hospitals in wholly separate service areas. This restriction is a significant issue for hospital systems that operate in more than one market in that third party payers typically set contract rates, adjudicate claims or limit participation in certain risk sharing arrangements or incentives based on service area. PMH is seeking approval to own three hospitals in two different markets but will have to utilize a single medical foundation even though the professionals employed in the medical foundation will be in two distinct markets. In order to participate in regionalized payer contracts or programs, a medical foundation formed by PMH will need to work with payers to allocate providers under different risk arrangements while maintaining a single tax identification number. Many payors do not have ready systems that can allocate providers to divisions within a single tax identification number, making population health management and risk-based contracting more difficult. There is no easy immediate solution to this problem, and PMH plans to try to work closely with payers to develop internal tracking mechanisms by the payer and PMH. However these unnecessary added administrative costs may defeat some of the healthcare savings of the risk model.

c) The substance and status of discussions with payers; and

Response:

PMH has had preliminary discussions with most of the major payers in Connecticut to introduce PMH's CRC model to them. They have all expressed the desire to work with PMH on value-based contracts such as those preferred in PMH's CRC model. To date, the discussions with payers have been introductory, rather than substantive. However, PMH is optimistic that the discussions will result in most payers embracing the skills and expertise that PMH brings to the Connecticut market in its CRC model.

d) Any reports on PMH's evaluation of the care delivery network.

Response:

PMH does not have any written evaluations of the care delivery network. However, PMH filed an application for the Preferred Provider Network as a substantial component of the delivery network and PMH received its PPN license in October 2015. . PMH is pleased with GWHN's care delivery network and believes it will provide a substantial foundation for PMH's CRC model in the service area.

18. On page 65 of the Application, Applicants disclose that "PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients." Please provide an update on the status of these discussions. What impact, if any, would there be on the proposed asset purchase if Connecticut's Department of Social Services were to decide not to enter into risk-based arrangements with PMH?

Response:

Since the initial meeting with the Department of Social Services, PMH has not met with representatives of that Department. PMH expects to meet with the Department in the near future. The Applicants would be disappointed if the Department of Social Services decided not to enter into a risk-based arrangement with PMH (since it will not only reduce overall costs to the State of Connecticut, but improve population health as well), but it would not have an impact on the proposed asset purchase.

19. Applicants assert on page 46 of the Application, "where Prospect has acquired hospitals [in California, Rhode Island, and Texas], the access and quality of care improved, significant capital investments were and are continuing to be made, and job growth has occurred." At page 64 of the Application, Applicants state that "[i]t is anticipated, over time, that Prospect will achieve improvements in access and the quality of services available" to Medicaid recipients and the indigent. Please cite to specific examples at other PMH acquired hospitals to address the following:

a) How access and quality of care has improved for patients in general and Medicaid and indigent patients in particular (identify the standards or benchmarks demonstrating these improvements); and

Response:

In order for the CRC model to be successful, we must continually strive to increase access to care and the quality of care. After purchasing the Nix system in Texas, we accomplished the following:

(i) Opened an Emergency Room. Prior to the acquisition of Nix by PMH, Nix did not have an emergency room. The Emergency Room provides services to all patients who present themselves without regard to ability to pay including Medicaid and the indigent;

(ii) Expanded Nix's behavioral beds by leasing a new facility. This behavioral facility provides both psychiatric evaluation services as well as critical evaluation services to patients including Medicaid and the indigent population.

(iii) Purchased a critical access hospital in rural communities surrounding San Antonio that would have closed had PMH not purchased this facility. In addition to purchasing this hospital, PMH has established a number of clinics surrounding the critical access hospital in order to increase the access to care.

In Rhode Island we have either achieved or committed to the following:

(i) Proposed a pilot program in the state of Rhode Island to manage the health of 25,000 Medicaid patients at a cost savings to the state of Rhode Island. The implementation of

such program necessarily requires that we have appropriate access and provide quality care to such population. We believe that this proposal exemplifies PMH's commitment to provide healthcare services to all patients, irrespective of payor. It should be noted that PMH is prepared to work with the state of Connecticut on a similar proposal to manage a segment of the Medicaid population in Connecticut at cost savings to the State.

(ii) PMH has committed to expanding the emergency rooms at both hospitals in Rhode Island. In case of Roger Williams we are increasing the number of emergency beds in order to better service the needs of our patient population.

(iii) PMH has filed Certificate of Need applications in Rhode Island in order to open a new Cardiac Cath Lab and for Obstetrics services.

(iv) In order to enhance the patient experience, we are modernizing certain areas of the hospitals over the next two years.

(v) PMH has also committed to expanding and enhancing CharteCARE's outpatient physical therapy space and services; and

(vi) In partnership with other areas hospital in Rhode Island invested in a radiation therapy center.

At CharterCARE, local management and physicians have decided to become a high reliability healthcare organization as recommended by The Joint Commission. PMH is dedicating financial resources of hiring consultants and other personnel necessary in order to transform CharterCARE to excel in providing safe and effective care of the highest quality by earning and maintaining The Joint Commission's Gold Seal of Approval™, a symbol of quality that is recognized nationwide and reflects an organization's commitment to meeting demanding performance standards. Some of the goals of high reliability care are:

- Improve organizational effectiveness;
- Improve organizational efficiency;
- Improve customer satisfaction;
- Improve compliance;
- Improve organizational culture; and
- Improve documentation.

b) Provide details regarding significant capital investments initiated by PMH at the hospitals it has acquired within 5 years post-closing.

Response:

Hospital	Investments since Acquisition	
Los Angeles Community Hospital at Bellflower	$ 3,646,633	(a)
Foothill Regional Medical Center	$ 7,912,807	(a)
Our Lady of Fatima Hospital	$ 11,321,376	(b)
Roger Williams Medical Center	$ 11,321,376	(b)
Nix Health System	$ 33,350,077	

(a) Both Los Angeles Community Hospital at Bellflower ("Bellflower") and Foothill Regional Medical Center ("Foothill") were closed prior to PMH acquisition. Bellflower re-opened in July 2015 and Foothill re-opened in September 2015. Both facilities were purchased in May 2014.

(b) Total capital investment in Our Lady of Fatima and Roger Williams Medical Center, (which comprise CharterCARE), is reported on a combined basis. In addition to the amount already spent, we have committed to spend $20 million on (i) cancer center; (ii) Digestive Diseases Center; (iii) Emergency Department) and (iv) physician practice acquisitions.

20. On pages 57 and 59 of the Application, PMH references the development and implementation of specific programs executed through its CRC model designed to address patients with significant co-morbidities. Please describe these programs in detail and explain how they will be implemented within the Greater Waterbury community. Provide detail on how quality of care and cost effectiveness of care has been improved as a result of these programs.

Response:

PMH has specific medical management programs depending on the setting of the patient at the time of care. For example, PMH has programs for patients with significant co-morbidities a home, in a hospital, in a sub-acute setting or in long term care setting. The specifics of each program are described below.

Utilizing its medical management programs, PMH provides the following services to high risk patients with significant co-morbidities at home:

- 24/7 Direct Telephonic Access
- Identification of patient "admission drivers" with development of specific actions plans
- Patient and Family Engagement of Care Plans
- Integrated Social Service coordination for members with psychosocial issues and placement issues
- Integrated Behavioral Health Management
- Disease Specific Action Plans and Self-Management
- Advance Care Planning
- Coordination of Ancillary Services/Physician Referrals
- Outpatient Palliative Care Program
- Multidisciplinary team of physicians, nurses, social workers chaplain, & pharmacist available 24/7
- Expedited interventions for Pneumonia, COPD, CHF, Dehydration, & Cellulitis
- Hospital post-DC follow-up visits within 24 hr.
- Same day urgent visits
- Phone Communication with primary care physician and specialist for intervention
- Telephonic Medication Therapy Management
- Disease Management Programs (DM & Anticoagulation)
- Post DC In-Home Medication Therapy Management
- LTC Medication Therapy Management
- Integrated with Inpatient & Outpatient Clinical Teams
- Patient Education and Assessment of Non Adherence

The Objectives of the above programs are to manage symptoms and reduce hospital readmits with the goal of maximizing care in the home.

When high-risk patients with significant co-morbidities are admitted to a hospital, PMH's hospital care management program provides the following:

- Expectation of close monitoring of patients by rounding 2x per day until patient is discharged
- Medical Director rounds with hospital case manager and hospitalist twice per day until the patient is discharged
- Ability to direct patients from acute setting to Skilled Nursing Facility when appropriate;
- Ability to direct patients from acute setting to early post discharge visits when appropriate; and
- Close collaboration between hospital case manager, skilled nursing facility case manager, pharmacist, nurse practitioner and primary care physician

When high risk patients with significant co-morbidities are in a sub-acute setting, PMH's medical management program provides the following:

- Monitoring of patients by rounding 3-5x per week until patient is stable, then 2-3x per week
- Physician rounds supplemented by Prospect nurse practitioners
- Medical Director rounds with case managers and physician 2x per week; and
- If patient's status deteriorates, transfer to network hospital

With respect to the quality and effectiveness of these programs please see question #21.

21. On page 62 of the Application, Applicants state that through the CRC model, "PMH has demonstrated improved clinical outcomes, higher quality scores, higher patient satisfaction, lower re-admission rates, lower average lengths of stay, and lower medical-cost ratios." Provide specific examples in addition to those cited on pages 65-66 and include all assessments, reports, analysis or any other documentation supporting these claims.

Response:

With respect to quality of care, our medical group segment has received the awards:

1. California Association of Physician Groups (CAPG) standards of excellence program "Elite Status" 4 years in a row (2012 - 2015)
2. Integrated Healthcare Association (IHA) recognition of outstanding performance: "Meaningful Use of Health IT" and "Clinical Quality"
3. Silver and Bronze awards from the State of California (DMHC) for excellence in cardiovascular care, cholesterol control and diabetes care

Our CRC model is most mature in the senior population. The medical cost ratio associated with hospital care for the senior population was 103.9% in 2012. Through the implementation of the programs noted in question #20 above, the medical cost ratio associated with hospital care for the senior population was 90.3% in 2013 and 80% in 2014. For 2015, we expect similar results as 2014.

22. In connection with Section 6.09 of the APA, at page 189 of the Application, please respond to the following questions:

a) Section 6.09 provides that PMH will "ensure that the Hospital maintains and adheres to Seller's current policies on charity care...for at least five (5) years from Closing." In the ECHN Transaction, PMH did not qualify its commitment to continue ECHN's charity policies. Please explain the parties' decision to agree to this qualification.

Response:

First, it should be noted that GWHN negotiated a deal separate and apart from ECHN. Each deal stands on its own. Neither GWHN nor ECHN were privy to the other's negotiations. The GWHN board negotiated a deal (taking the transaction as a whole) that it believed was in the best interests of GWHN and its surrounding communities.

Finally, when PMH and GWHN renewed their negotiations in early 2015, the Board of GWHN requested that PMH agree to the economic terms and conditions that it had previously negotiated with Vanguard / Tenet which had already been approved by (i) the Board of directors of GWHN; (ii) OHCA; and (iii) the Attorney General of Connecticut. No changes were made to section 6.09 of the APA.

It should also be noted that ECHN had made a similar request as GWHN from PMH with respect to maintaining the economic terms and conditions that ECHN had already negotiated with Tenet/Vanguard.. Since ECHN had already negotiated a deal with Vanguard / Tenet which had already been approved by its board of directors, very few changes were made to the definitive documents of the ECHN Transaction. Similar to this transaction Section 5.16 of the Asset Purchase Agreement to the ECHN transaction was not changed from the previously negotiated Vanguard / Tenet transaction.

b) **Section 6.09 of the APA, at page 189 of the Application, also provides that PMH will participate in Medicare and Medicaid, accept all emergency patients without regard to ability to pay, provide public health programs and promote public health for at least five years after Closing. Particularly in view of Waterbury Hospital's current status as a "safety net" hospital, please discuss how access to care in the community will be affected if PMH ceases GWHN's participation in Medicare and Medicaid no longer accepts all emergency patients without regard to ability to pay or no longer continues to operate under the Hospital's charity care policies.**

Response:

Health care is in a state of flux particularly after the passage of the Affordable Care Act. It is difficult, if not impossible, to accurately predict the effect on access to care in the unlikely event that PMH would withdraw from Medicare or Medicaid, or if it no longer accepts all emergency patients without regard to ability to pay, or no longer operates the Hospital's charity care policies in 5 years. As a practical matter, PMH is making a substantial investment in Waterbury and its community, and it is extremely unlikely that it would ever withdraw from the Medicare or Medicaid programs, and it is required by federal law ("EMTALA") to treat all emergency patients without regard to ability to pay.

It should be noted that PMH (i) participates in Medicare and Medicaid programs; (ii) accepts emergency patients without regard to ability to pay; and (iii) maintains charity care policies at all of its hospitals even though it is under no obligation to do so. PMH believes that providing charity care is the responsibility of all healthcare providers. In fact, Prospect is a member of Private Essential Access Community Hospitals ("PEACH"). PEACH is a network of private, core safety net hospitals in California that care for disproportionate share of low-income, medically vulnerable patients.

23. Reference is made to Table F concerning the amount of uncompensated care provided by Waterbury Hospital from FY 2012 to FY 2014:

TABLE F

	FY 2012	FY 2013	FY 2014
Charity Care	$1,389,352	$1,472,594	$5,644,280
Bad Debts	$10,435,502	$10,783,760	$3,692,986

*** Source: OHCA Annual Report on the Financial Status of Connecticut's Short Term Acute Care Hospitals (Sept. 2015)**

a) Please explain the reasons for the large increase in charity care provided by the Hospital in FY 2014.

Response:

Effective October, 2013, the Hospital's charity care policy was changed. As of this date, the policy is that patients who do not apply for or do not qualify for charity care are expected to pay the balance due. For uninsured patients, this is equivalent to 50% of charges.

b) Please explain the reasons for the large decrease in bad debt recognized by the Hospital in FY 2014.

Response:

The large decrease in the bad debt is directly related to the change in the charity care policy as discussed above.

c) Provide the amounts of charity care provided by Waterbury Hospital and the amount of bad debt recognized for FY 2015.

Response:

For FY 2015 Waterbury provided $5,323,038 in charity care and recorded $3,747,762 in bad debts.

d) Please describe how the proposed asset purchase with PMH can result in an increase in charity care provided by Waterbury Hospital and cite to any examples from PMH's prior non-profit acute care hospital acquisitions where the amount of charity care (not total uncompensated care inclusive of bad debt) has increased from year to year post acquisition.

Response:

With the passage and implementation of the ACA, the amount of charity care for the industry as whole has been declining. As more people are insured, the need for charity care has decreased. PMH remains

committed to providing charity care and to maintaining the charity care policies of Waterbury Hospital in accordance with the APA.

24. Subsequent to acquisition of both hospitals, describe PMH's experience in implementing the Community Health Needs Assessment ("CHNA") implementation strategies for both Roger Williams Medical Center and Our Lady of Fatima Hospital. Please describe the priority needs identified in each CHNA and how each hospital is presently addressing those needs.

Response:

As a for-profit entity, PMH was not required to participate in CHNAs which generally are intended to support a not-for-profit hospital's charitable mission and assure maintenance of its not-for-profit status. However, PMH works closely with its Local community advisory Boards (comprised of local physicians and community leaders) to help assess local community needs and develop effective plans to address such needs.

25. On page 62 of the Application, PMH commits to "support the priority needs identified by the CHNA" developed by Waterbury Hospital in collaboration with the Greater Waterbury Health Improvement Partnership ("GWHIP"). With respect to this statement, please respond to the following:

a) On page 924 of the Application, the Certificate of Incorporation for the Independent Foundation states that as part of its purpose, the Foundation will conduct or support CHNAs. Please compare and contrast the Foundation's role in conducting and supporting CHNAs with those of Waterbury Hospital if it becomes a for-profit hospital.

Response:

Waterbury Hospital has a tradition of taking a lead role in developing and rolling out the bi-annual community health needs assessment (CHNA). As a healthcare provider of both outpatient and acute care services in the future, regardless of its nonprofit to for profit status, the health of the community will remain a priority for WH. As discussed with Prospect, GWHN and Waterbury Hospital will remain engaged in a leadership role in the CHNA. Key professionals on staff at GWHN will remain personally and professionally involved in CHNA efforts. The Independent Foundation has the charitable purpose and corporate power to amend and support CHNAs.

b) Please address the extent to which Waterbury Hospital will continue to participate in the GWHIP after the closing and whether it intends to adopt implementation strategies to address health needs identified in CHNAs for the Waterbury area that would be conducted post-closing.

Response:

PMH will support and implement Waterbury's CHNA plans through 2016. For subsequent years, PMH will work closely with Waterbury's Local Advisory Boards (comprised of local leaders and physicians) to help assess local community needs and develop effective plans to address such needs.

c) **On page 1119 of the Application, the CHNA findings of GWHIP identified additional key community health issues, including addressing Diabetes, Heart Disease, Respiratory Disease, Infant Mortality/Low Birth Rate and Cancer. Please elaborate on how PMH plans to address these additional areas of need in the Greater Waterbury area.**

Response:

PMH will continue to evaluate the healthcare needs of the community as part of its overall planning process post-closing and expects to prioritize capital projects and service improvements based on hospital and community needs. The goal will be to establish priorities based on maintaining or providing access to needed services that allow for the optimum care and coordination of care within and across the community. Plans to address the priority needs in Waterbury's service area will be developed post-closing once the priority needs have been confirmed or identified.

26. Reference is made to Exhibit Q51-1, the Hospital's IRS Form 990 Report for the 2014 Tax Year. Please detail all charitable donations and other monetary and non-monetary support provided by Waterbury Hospital to the following programs and/or services and comment on the extent to which they will be continued by the post-closing hospital:

a) **Waterbury Hospital Infectious Disease Clinic**

Response:

FY14 WH Monetary Support- $108,875.00 (Salaries/Fringe Benefits)
WH Non-monetary Support- $470,900.00 (In-kind: Indirect Costs-Based on the DHHS Approved Indirect Cost Rate of 36%)
Restricted Grants- $1,463,920.00

b) **Waterbury Health Access Program**

Response:

FY14 WH Monetary Support- $18,667.00 (Salaries/Fringe Benefits)
WH Non-monetary Support- $125,386.00 (In-kind: Indirect Costs-Based on the DHHS Approved Indirect Cost Rate of 36%)
Restricted Grants/Contributions- $402,864.00

c) Waterbury Hospital Center for Behavioral Health

Response:

DEPARTMENT OF MENTAL HEALTH AND ADDICTIONS GRANTS
FY 15

Acute Inpatient Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$123,815
Income:	DMHAS Grant Dollars	$101,661
	Waterbury Hospital Contribution -	$ 22,154

Crisis Center Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$1,659,408
Income:	DMHAS Grant Dollars	$ 897,886
	Reimbursement	$ 34,897
	Waterbury Hospital Contribution	$ 726,625

DBT/IOP Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$ 256,305
Income:	DMHAS Grant Dollars	$ 50,301
	Reimbursement	$ 167,176
	Waterbury Hospital Contribution	$ 38,828

Adult Outpatient Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$1,157,446
Income:	DMHAS Grant Dollars	$ 303,477
	Reimbursement	$ 456,207
	Waterbury Hospital Contribution	$ 397,762

Homeless Outreach Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$ 176,988
Income:	DMHAS Grant Dollars	$ 151,435
	Waterbury Hospital Contribution	$ 25,553

Outpatient Expansion Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$ 254,431
Income:	DMHAS Grant Dollars	$ 198,657
	Reimbursement	$ 40,616
	Waterbury Hospital Contribution	$ 15,158

Respite Grant:

Expenses:	Salaries, Fringes, Direct and Indirect Operating	$ 118,770
Income:	DMHAS Grant Dollars	$ 121,163
	Waterbury Hospital Contribution	$ 2,393

Grand Total:		
Expenses:	**Salaries, Fringes, Direct and Indirect Operating**	**$3,747,163**
Income:	**DMHAS Grant Dollars**	**$1,824,580**
	Reimbursement	**$ 698,896**
	Waterbury Hospital Contribution	**$ 1,223,687**

d) Be Well Bus

Response:

The cost of the Be Well Bus for FY 15 was $90,636

e) Heart Center of Greater Waterbury

Response:

Payments to Heart Center of Greater Waterbury - $113,226

f) Family Birthing Center

Response:

The Family Birthing Center is a department of Waterbury Hospital that provides maternity and childbirth services. The expenses associated with the classes for expectant parents are incorporated into the budget for this department. The Hospital spent **$4,125 in FY 2015** for Education (including materials and books). The Hospital collected **$2,888** in revenue for wellness programs.

This leaves a **net contribution by the Hospital of $1,237.**

g) Thank God I'm Female

Response:

The Hospital's contribution in **FY 2015 was $10,001.**

h) Evergreen 50 Club

Response:

The Hospital's Net Contribution in **FY 2015 was $26,771.**

PMH will evaluate the above programs and the healthcare needs of the community and will prioritize its capital and other projects based on hospital and community needs. The goal will be to establish a coordinated care model by providing quality healthcare services and providing access to needed services to all segments of the population (including the Medicaid population and the indigent). Decision regarding the above programs will be made post-closing.

27. The Application at page 84 states that PMH will be seeking property and sales tax abatements post-closing for a transition period and that "such abatement is deemed critical to the overall success of the proposed transaction." In connection with these statements:

a) Please describe the length of the proposed transition period and the particulars of the abatement that will be sought.

Response:

As a for-profit health system, PMH will be expected to pay property taxes, sales taxes and income taxes post-closing. Even though PMH does not have the benefits of tax-exemption, PMH has committed to maintain and adhere to GWHN's current policies regarding charity care, indigent care and has agreed to provide public health programs of educational benefit to the Community and generally promote public health, wellness and welfare to the community by operation the Hospital with quality standards. In essence, PMH is not only required to provide the benefits generally expected from non-profit hospital operators, but is also required to pay the taxes described above even though similarly situated hospital operators would not be responsible for such taxes.

Although PMH expects that implementation of the CRC model will result in an improved financial outlook for the current GWHN operations, these benefits will take time to realize. If taxes are imposed on PMH before any of these benefits can be obtained, there is a risk that the new tax burden could negatively affect the community in terms of jobs, local vendor payments and other factors which could outweigh the benefits from tax collections. Accordingly, PMH plans to work with the State and local communities to seek temporary relief from the new tax burden. This temporary relief has been deemed appropriate in other states in order to allow a hospital to re-gain its strength for the benefit of its employees and the communities that it serves before taking on the full tax burden.

Seeking temporary tax relief is a process that necessarily involves the participation of all constituents. PMH is aware of pilot programs where cities receive funds from the State because they host non-profit entities. PMH is in the process of gathering facts that are necessary to formulate a fair proposal for all parties. As such, PMH, at this time, does not have any specific proposals that it can share. PMH will update this response once it has made progress with state and local community representatives responsible for coordinating the tax programs.

b) Explain why the abatement is deemed critical to the overall success of the proposed transaction.

Response:

Please refer to the response to Question 27a) above for the Applicant's explanation regarding the need for the abatements post-closing.

c) If PMH is unsuccessful in its negotiations for such an abatement, will there be any changes to the Capital Commitment or PMH's commitment as noted on page 84 to adhere to GWHN's current policies regarding charity care, indigent care, community volunteer services and community benefits?

Response:

PMH is proud of its history of providing health care services to underserved communities. PMH hopes that it will be able to negotiate a fair tax abatement plan that will place all healthcare providers on equal competitive grounds. However, in the event that PMH is not successful in those negotiations, PMH will continue to honor all of its obligations under the APA (including but not limited to the Commitment Amount), to maintain GWHN's current policies regarding charity care and indigent care. .

28. Reference is made to Table 1 on page 74 of the Application. Please explain the assumptions behind the projected reduction in the number of self-pay discharges for FYs 2016-2018.

Response:

Medicaid expansion and the availability of low-cost insurance plans through the Health Insurance Exchange (created as a result of the Affordable Care Act) have reduced the number of uninsured patients.

29. Please elaborate on the expected revenue growth for Waterbury Hospital associated with the use of the CRC model of care and provide specific examples from hospitals currently owned by PMH of actual savings realized post-acquisition in the various operating expense categories set forth in Financial Worksheet (C).

Response:

The implementation of CRC is not expected to cause a reduction in operating expense categories. CRC's goal is to reduce the overall cost of healthcare by increasing preventative care and early interventions, reducing re-admissions, reducing inpatient utilization and reducing emergency room visits. CRC achieves these objectives by incentivizing physicians and patients to appropriately use urgent cares centers and to keep patients compliant with various homebound and other wellness programs, and by keeping patients healthier so as to reduce the overall over-utilization of healthcare services. By achieving these objectives, the cost of healthcare will be reduced for all stakeholders including Medicare and Medicaid programs.

In the state of Rhode Island, PMH projects to reduce the cost of care for a segment of the Medicaid population by 5%.

30. On page 69 of the Application, the Applicants indicate that "PMH has access to an existing corporate level credit facility in addition to its cash on hand." Name the credit facility, provide PMH's current credit rating and elaborate on the process associated with borrowing funds from this credit facility to fund any portion of the $51.5 million Capital Commitment in lieu of cash from GWHN operations.

Response:

PMH has received credit upgrades by both Moody's and S&P in 2015. Moody's rates PMH's bonds as "B1," while S&P rates PMH's bonds as "B."

PMH has access to a revolving line of credit with Morgan Stanley that has been pre-approved. In order to draw on this line, PMH simply provides a 24 hour advance verbal notice to the lenders. The line of credit is available to fund the Commitment Amount if necessary.

31. Elaborate on the financial feasibility to fund the $53 million purchase price given PMH's declines in cash and cash equivalents, operating income, net income, and realized deficits in Stockholder's equity from FY 2012 to 2014 reported in its FY 2014 audited financial statements as set forth at Exhibit Q8-1.

Response:

PMH's financial performance has demonstrated significant growth from 2012 to present:

PMH Financial Performance	2012	FYE 09/30/2015
Operating Income:	$80 Million	$108.1 Million
Net Income	$26 Million	$34.3 Million
Stockholders' Equity	$31 Million	$36.4 Million

The growth in Stockholders' Equity is net of a $100 million dividend paid in November 2012. Please refer to Exhibit Q8-2 of the CON application for more information pertaining PMH's stockholder equity.

Impacting 2014 reported financial and cash flow was the delay in revenue recognition of the California Quality Assurance Fee (SB 239) program. The associated revenue, EBITA and cash receipts could not be recognized until formal Federal approval of the program was received which occurred after the fiscal year-end.

Cash balances from 2012 to 2014 were impacted by the completion of multiple acquisitions paid with existing cash on the balance sheets. The cash consideration for these acquisitions totaled in excess of $81 million. Additionally, during this time, the Due from Government payor receivable increased by more than $28 million, primarily due to the delay in funding the California Quality Assurance Fee

program for the period of January 2014 to September 2014. Payments related to this program were subsequently received in 2015.

PMH has significant cash on hand to complete the transaction. PMH on consolidated basis has in excess of $110 million in funds available. Furthermore, PMH generates over $7.5 million in free cash flow per month. The amount of cash necessary to close the GWHN transaction after assumption of liabilities (including pension liabilities) is currently estimated to be approximately $4 million.

32. Provide an updated Pro Forma Balance Sheet for the proposed Transaction, Exhibit Q3-3 at page 221, as of September 30, 2015.

Response:

Please see Response to Question 7a.

33. In reference to Financial Worksheet (C), Exhibit Q37-1, and the related Assumptions, at Exhibit Q38-1, for GWHN and Waterbury Hospital address the following:

a) For GWHN, provide a revised Financial Worksheet (C) that will include Actual results for FY 2014. Note that the results reported must agree with the GWHN audited financial statements filed at OHCA. Provide the missing assumptions utilized in developing the projections and explain any projected losses from operations;

Response:

Item # 33a

Greater Waterbury Health Network

	Per CON	Per 2014 Audited F/S	Variance	
Net Patient Revenue	248,588,440	248,939,189	350,749

(10,234)	Dividend income	
(2,541)	Mattatuck Medical Investment income	
722	Other Income/Expense	
(350,750)		

For the assumptions, we estimated expenses for FY 2017 and FY 2018 based on general expense assumptions by major category. The losses come from the fact that the renegotiated contracts that generated additional net revenue for FY 2016 will start to level off in the later years of the projections.

b) **For Waterbury Hospital, provide a revised Financial Worksheet (C) that will include FY 2014 Actual results in agreement with the audited financial statements filed at OHCA. Explain the zero amounts reported under the uninsured, self-pay and workers compensation line items.**

Response:

The Hospital had requested clarification from OHCA on this question, and it was agreed that a reconciliation of the reported data to the audited financials would be acceptable. Reconciliation is below – it is noted that with the CON financials we have reported a net income of $0 for both Alliance Medical Group and Cardiology Associates of Greater Waterbury, as the losses for these two hospital affiliates are subsidized by the Hospital.

The Hospital has listed nongovernment net revenue on one line, to be consistent with how we are reporting the projections. The non-governmental net revenue by specific payers is not usually finalized until the OHCA filing is completed, so we do not have the FY 2015 final net revenue by specific payer (with allocation of charity care, bad debts, etc.)

	Per Con	Waterbury Hospital Per 2014 Audited F/S	Variance
Net Patient Revenue	208,626,652	208,626,652	-
Operating Expenses	227,749,078	216,453,290	(11,295,788)
Net Income (Loss)	(7,772,011)	3,523,777	11,295,788
AMG Loss (per AFS)		8,152,669	
Cardiology Associates Loss (per AFS)		3,143,116	
		11,295,785	

c) **Explain the zero incremental amounts associated with this proposal for Waterbury Hospital when the assumptions submitted indicate increases in revenue, volume, and expenses for FY 2016.**

Response:

The overall inpatient volume for FY 2016 is projected to be less than FY 2015 actual. Overall FY 2016 outpatient volume is projected to increase by 2% from FY 2015 to FY 2016, and then remain constant over the next two years. The net revenue for FY 2016 is calculated based on the change in volume indicated above, along with increases in revenue due to renegotiated rate increases for specific commercial payers and also an overall increase in the base rate for Medicare inpatients.

For the other hospital affiliates, we have consistently reflected increases in volume, net revenue and expenses.

d) **For GWHN and Waterbury Hospital, explain why the applicants assumed increases in expenses, for FY 2016-FY 2018, when in response to questions 26 and 53, the Applicants indicate that they expect a lower cost structure and improved efficiencies**

that will generate cost savings and that, as stated in Exhibit Q38-1, *"the hospital engaged the Camden Group to look at opportunities to remove expenses from the organization and we have begun or about to begin implementing many of these based on the data analyzed. Our goal moving forward and starting in FY 2016 is to increase our revenue capability but also make significant changes that will allow us to decrease our expenses where appropriate."*

Response:

The Hospital has built into its FY 2016 budget expected expense reduction due to both Camden Group and internal expense reduction initiatives. This reduced budgeted FY 2016 expense base is the basis for projections for FY 2017 and FY 2018.

e) Explain the Applicants submission of Alliance Medical Group's assumptions as a separate entity and their relationship with the Financial Worksheets(C).

Response:

Alliance Medical Group is a wholly owned subsidiary of GWHN. The FY 2016 numbers are from the AMG budget for 2016 with slight increases in volume for the addition of primary care physicians. The annual subsidy for AMG is included in the Hospital's profit and loss statement as an expense on Worksheet C.

34. Please provide updated Financial Measurements/Indicators, Exhibit Q50-1, for the months of July, August and September 2015 and comparable months from the previous fiscal year for GWHN, Waterbury Hospital and PMH. Provide the methodology utilized to calculate the financial ratios on Sections A through C and an explanation for any decreases or increases that apply to any of the items listed on Section D between YTD FYs 2014 and 2015.

Response:

35. On page 878 of the Application, PMH's FY 2014 audited financial statements indicate that *"Patients without insurance are offered assistance in applying for Medicaid and other programs they may be eligible for, such as state disability. Patient advocates from the Company's Medical Eligibility Program ("MEP") screen patients in the Hospital and determine potential linkage to financial assistance programs. They also expedite the process of applying for these government programs."* Elaborate on the MEP process and success record. Indicate whether this program will be available at Waterbury Hospital if the asset purchase is approved and consummated.

Response:

Uninsured patients who receive services at PMH-affiliated hospitals are interviewed by either employees or third party contractors to determine if such patients are entitled to benefits from a variety of financial assistance programs, most notably state Medicaid. With the expansion of Medicaid under the ACA, many patients who present as uninsured are not aware that they could potentially qualify for Medicaid. Through the interview process, PMH hospitals determine if such patients qualify for Medicaid and assist such patients with submitting the appropriate forms to the relevant state agencies. In California, PMH estimates the success rate on assisting patients to qualify for financial assistance programs to be approximately 60%. In Texas, this success rate is approximately 15%. The success rate is lower in Texas because Texas did not opt for Medicaid expansion as part of the ACA. PMH has just recently instituted our MEP program in Rhode Island. As such, PMH has not had a chance to assess its success in Rhode Island.

OAG Questions

36. Your response to Question 10 in the Application states that the Independent Foundation will "seek qualification as a 501(c)(3) charitable organization." Please indicate how the Independent Foundation intends to qualify for such a designation.

Response:

The Independent Foundation will qualify as a charitable corporation under Section 501(c)(3) of the Internal Revenue Code as an entity that will be operated exclusively for charitable, religious, educational, and/or scientific purposes. The purposes of the Independent Foundation will be to support and carry out the purposes, missions and objectives of public charities and municipalities in Waterbury Hospital's current service areas including the towns of Beacon Falls, Bethlehem, Cheshire, Middlebury, Naugatuck, Prospect, Southbury, Waterbury, Watertown, Wolcott and Woodbury (the "Communities") to the extent such purposes, missions and objectives exclusively support or promote the following purposes:

(a) the healthcare needs of the Communities;

(b) To support or conduct community health needs assessments and encourage and support efforts to improve the health of the Communities; and

(c) To support and engage in community projects, grants, activities and programs that will improve access to healthcare and enhance the health of the Communities, including the

provision of preventive health programs and health education, education and training of healthcare providers and educators in the Communities.

37. Exhibit Q10-2 is the Draft Bylaws of the Independent Foundation. In Section 4.1, it states: "At least a majority of the Trustees shall live or work in the Communities." Please explain why the bylaws do not require that all of the Trustees of the Independent Foundation either live or work in the communities served by GWHN.

Response:

While the Draft Bylaws do not require that all of the Trustees of the Independent Foundation either live or work in the communities served by GWHN, it is anticipated that they will do so. By not having such a requirement, the Independent Foundation is free to invite individuals who may have other close relationships to the community (e.g., recent residents) or have a particular expertise to offer to the Independent Foundation.

38. Your response to Question 11 in the Application states that the Hospital intends to continue to receive the income from several different types of charitable funds, including excess income from certain bed funds, until its liabilities are paid off. How does GWHN intend to apply the charitable income from these bed funds to provide free care for individuals while remaining in possession of the funds after the transaction closes? Also, please explain how GWHN will determine what is the *excess* income from such bed funds.

Response:

GWHN would remit income from the bed funds that allow excess income to be used for general purposes to whatever organization or entity is determined to be the appropriate recipient of all the other bed fund income that is restricted entirely to bed fund use. The amounts of those remittances would be based on certifications from the recipient(s) of other bed fund income of the amount of free bed care annually provided, for example, with respect to the Hopkins and Warner Funds, to residents of Naugatuck. After that income was paid over to the appropriate recipient, the excess income would be used by GWHN. The amount of the excess income would be determined by applying the same annual percentage payout made currently by corporate trustees (Bank of America, for example, with respect to the Abbie Hopkins Trust; currently 4.5%) from these funds, but deducting therefrom all funds paid out to the recipient of the bed fund portion of the income.

39. Please identify from which of the bed funds in Schedule D of Exhibit Q11-1 GWHN expects to continue to receive excess income.

Response:

GWHN expects to receive income from the following funds from Schedule D of Exhibit Q11-1:

- Margery K. Hayden (Elizabeth K. Hayden Fund)
- Merrit Heminway (Merrit Heminway Bed Fund)
- Abbie C. Hopkins
- Dwight H. Terry and Martha Terry (The Dwight H. and Martha J. Terry Fund)
- Olive Rogers Warner (The Richard Vincent Warner Memorial Fund)
- Estate of Oscar L. Warner (The Warner Memorial Fund)
- The Hopkins and two Warner Funds are of most importance given their size.

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02

Dear Ms. Stromstad and Mr. Spees:

On December 24, 2015, the Response to Completeness Questions ("Response") of Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH") was filed with the Office of Health Care Access, Department of Public Health ("OHCA/DPH") and Office of the Attorney General ("OAG").

OHCA/DPH have determined that there are deficiencies in the Response that require clarification and/or additional production. Conn. Gen. Stat. § 19a-486a(d). The OAG has no further questions at this time. Accordingly, please respond to the following questions and/or submit the following materials to the OAG and OHCA by February 1, 2016.

1. Reference is made to the April 1, 2014 Statement of Deficiencies report of surveyors from the California Department of Public Health following a Full Sampled Validation Survey of Southern California Hospital at Hollywood ("Initial Report") and the August 21, 2014 Statement

of Deficiencies report of the agency following a Follow-up Visit to the same facility ("Follow-up Report"). These reports were provided as Exhibit P to PMH's and ECHN's Response to Deficiencies dated October 30, 2015 and November 12, 2015 under OHCA Docket No. 15-31216-486 and OAG Docket No. 15-486-01, and the page numbers referenced in this Question #1 refer to that submission. In both reports the surveyors determined Immediate Jeopardy situations to exist. With respect to these reports, please address the following:

a. In the Initial Report, the surveyors determined that Southern California Hospital at Hollywood (the "Hospital") failed to meet the CMS Conditions of Participation in the following areas: Governing Body; Patient Rights; Nursing Services; Pharmaceutical Services; Food and Dietetic Services; Physical Environment; Infection Control; and Surgical Services. On page 2836, the Initial Report states that the Governing Body failed to provide oversight of operations in each of the other areas. Please explain how a situation where Condition Level deficiencies in eight separate areas came to exist at the Hospital, the accountability of both the Hospital's and PMH's senior management for allowing such a situation to exist, and steps taken at the PMH system level to rectify the situation.

b. In the Follow-up Report, the surveyors found Condition Level deficiencies still existed in that the Hospital failed to develop, implement, and maintain an effective quality assurance and performance improvement (QAPI) program (p. 2686 *et seq.*); failed to provide a sanitary environment to avoid sources and transmissions of infections and communicable diseases (p. 2764 *et seq.*), and found a repeat violation as to the acceptability of surgical services (p. 2788 *et seq.*). Please explain the accountability of both the Hospital's and PMH's senior management for allowing such a situation to exist and steps taken at the PMH system level to rectify the situation.

c. Please identify and provide the Statement of Deficiencies reports for any other instances where PMH owned hospitals have been determined to have Immediate Jeopardy situations during the term of PMH's ownership.

d. With respect to all Immediate Jeopardy determinations identified in Question 1a, b and c above, please describe all system-wide improvements (including system-wide policies and procedures), management reporting, business strategies and/or changes in culture that have been put into place to prevent recurrence of such situations. PMH is requested to provide documentation of any system-wide communications evidencing these prevention activities.

2. In response to Question 15, Applicants refer to PMH's participation in the Private Essential Access Community Hospitals ("PEACH") network as evidence of PMH's experience with "safety net" hospitals that serve low-income patients. Please elaborate on how PMH's experience and participation in the PEACH network in California will translate into improved access to quality care for underserved populations in Waterbury and its surrounding areas. In

your response, please highlight specific programs, insights, or innovations PMH has acquired through participation in PEACH that PMH expects to apply to PMH-owned "safety net" hospitals in Connecticut.

3. In response to Question 20, Applicants summarize PMH's medical management program for high risk patients with significant co-morbidities in a sub-acute setting. Please elaborate on the following:

a. What types of facilities comprise sub-acute settings and how many facilities of this type does PMH own, operate or manage?

b. What is the relationship of the physicians and nurse practitioners performing the rounding on high-risk patients in these settings to PMH?

c. How does PMH assure that rounding on the frequency mentioned (2-5x per week) is completed in sub-acute settings that it does not own, operate or manage?

4. In reference to the response to Question 23, please clarify why the change in charity care policy at Waterbury Hospital in October 2013 wherein patients who do not apply for or do not qualify for charity care are responsible for the balance due would result in an increase in charity care and a decrease in bad debt in FY2014 as opposed to an increase in bad debt alone.

5. In reference to Applicants' answer to Question 34 of the Response, the Applicants failed to provide the requested updated Financial Measurements/Indicators for the months of July, August and September 2015 and comparable months from the previous fiscal year for PMH, the methodology utilized to calculate the financial ratios on Sections A through C and an explanation for any decreases or increases that apply to any of the items listed on Section D between YTD FYs 2014 and 2015. Please provide the requested information.

6. In reference to the Applicants' answer to Question 33 of the Response, please address the following:

a. In response to question 33(b) the Applicants indicated that *"The non-governmental net revenue by specific payers is not usually finalized until the OHCA filing is completed, so we do not have the FY 2015 final net revenue by specific payer (with allocation of charity care, bad debts, etc.)"*, hence the zero incremental amounts reported under the uninsured, self-pay and workers compensation line items.

The amounts requested on Financial Worksheet (C) by OHCA are FY 2014 actual and projected amounts with, without and incremental associated with the proposal for FY 2015 and thereafter. Therefore, please provide a revised Financial Worksheet (C) for Waterbury Hospital that will include FY 2014 actual

amounts and projected amounts for FYs 2015, and thereafter, for the uninsured, self-pay and workers compensation line items. In addition, include projected incremental amounts associated with the proposal that relates to expense items, operating income, non-operating revenue and net income. Provide the missing assumptions utilized in developing the projections and explain any projected losses from operations; and

b. In responding to question 33(d) the Applicants explained the expected reduction in expenses for FY 2016 but failed to explain the incremental increases in expenses as the result of this proposal for FYs 2017 and 2018. Please provide the requested information.

7. In Applicants' answer to Question 19 of the Response, Applicants state that PMH has *"[p]roposed a pilot program in the state of Rhode Island to manage the health of 25,000 Medicaid patients at a cost savings to the state of Rhode Island" and that "PMH is prepared to work with the state of Connecticut on a similar proposal to manage a segment of the Medicaid population in Connecticut at cost savings to the State."* Please provide the name of the proposed Rhode Island program and a detailed description of the program and how it will achieve Medicaid savings. Include in your response the cost of implementation and projected cost savings associated with the program.

Please mail one (1) complete hard copy and one (1) complete electronic copy of the requested materials for approval to each of the following addresses:

Office of the Attorney General
55 Elm Street, P.O. Box 120
Hartford, Connecticut 06141-0120
Attn: Gary W. Hawes, AAG

Office of Health Care Access, Dept. of Public Health
410 Capitol Avenue
Hartford, Connecticut 06134
Attn: Steven W. Lazarus

After receipt of these requested materials, the OAG and OHCA shall review the submission to determine whether the application for approval is complete. If not, they shall provide written notice of any deficiencies within twenty (20) days of receipt of the information requested. Should you have any questions regarding these requests or any other issues relating to the Commissioner's and Attorney General's review, please do not hesitate to contact either Steven W. Lazarus at the Department of Public Health (860-418-7012; Steven.Lazarus@ct.gov) or Assistant Attorney General Gary W. Hawes at the Office of the Attorney General (860-808-5020; gary.hawes@ct.gov).

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02

Dear Mr. Hawes and Mr. Lazarus:

Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, Inc. hereby submit the enclosed responses to the completeness questions issued by the Office of the Attorney General and the Office of Health Care Access on January 12, 2016.

At your request, one (1) hard copy and (1) electronic copy have been provided to each Office. If you have any questions or need anything further, please feel free to contact Ann Zucker at (203) 252-2652 or Michele Volpe at (203) 777-6995. Thank you for your assistance in this matter.

(N5167586)

Darlene Stromstad, Greater Waterbury Health Network, Inc. (via regular mail)

On January 12, 2016, Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH" and, together with GWHN, the "Applicants"), received correspondence from the Office of the Attorney General ("OAG") and the Office of Health Care Access ("OHCA") requesting additional clarification for certain deficiencies identified in the Application submitted on October 28, 2015, and the Response to Deficiencies submitted on December 24, 2015. The Applicants' Response to these deficiencies is provided below.

1. Reference is made to the April 1, 2014 Statement of Deficiencies report of surveyors from the California Department of Public Health following a Full Sampled Validation Survey of Southern California Hospital at Hollywood ("Initial Report") and the August 21, 2014 Statement of Deficiencies report of the agency following a Follow-up Visit to the same facility ("Follow-up Report"). These reports were provided as Exhibit P to PMH's and ECHN's Response to Deficiencies dated October 30, 2015 and November 12, 2015 under OHCA Docket No. 15-31216-486 and OAG Docket No. 15-486-01, and the page numbers referenced in this Question #1 refer to that submission. In both reports the surveyors determined Immediate Jeopardy situations to exist. With respect to these reports, please address the following:

a. In the Initial Report, the surveyors determined that Southern California Hospital at Hollywood (the "Hospital") failed to meet the CMS Conditions of Participation in the following areas: Governing Body; Patient Rights; Nursing Services; Pharmaceutical Services; Food and Dietetic Services; Physical Environment; Infection Control; and Surgical Services. On page 2836, the Initial Report states that the Governing Body failed to provide oversight of operations in each of the other areas. Please explain how a situation where Condition Level deficiencies in eight separate areas came to exist at the Hospital, the accountability of both the Hospital's and PMH's senior management for allowing such a situation to exist, and steps taken at the PMH system level to rectify the situation.

Response:

PMH is committed to providing the highest quality healthcare to patients in the communities we serve. As previously provided in our CON filing, we have received a substantial number of quality awards and we continuously strive to make improvements in our quality programs at a local level.

Partly in response to the Statement of Deficiencies received in 2014 and partly due to events in late 2015 and early 2016, PMH has created and hired for the following three new positions at the corporate level: (i) Chief Clinical Officer; (ii) Senior Chief Nursing Officer; and (iii) Vice President of Regulatory and Patient Safety. PMH is also currently recruiting for, and is currently seeking to fill a new position of Chief Quality Officer. The roles of these new officers are to interact with local boards and local leadership on continuous basis to ensure safety, adherence to regulatory requirements, clinical excellence and patient satisfaction at all PMH hospitals and to closely monitor execution of plans of correction in response to any issue raised in surveys by regulatory authorities responsible for quality.

It will also be the responsibility of these new officers and their staffs to identify issues early and communicate them to PMH corporate so that we may address such issues quickly and efficiently. It will also be the responsibility of the new officers to marshal corporate resources to address all of the above

areas. An example of this "resourcing" is the engagement of a nationally recognized consulting firm described below.

At the local level, direct responsibility for the quality programs for each PMH hospital is administered by hospital leadership so that any and all quality issues raised by physicians and/or staff are timely addressed and quickly resolved. Oversight of the local leadership is provided by, and is the responsibility of, PMH's senior management. The Quality Assurance and Performance Improvement Plan at Southern California Hospital at Hollywood (the "Hospital") are overseen by a local advisory governing board and the Medical Executive Committee (the "MEC").

While not intended to be exculpatory, a brief history of the Hospital will help explain the contributing factors that led to the Statement of Deficiencies.

Prior to January 1, 2013, the licensure of Hollywood Community Hospital included the Van Nuys campus, therefore constituting a two campus license for state licensure and Medicare purposes. On January 1, 2013, Hollywood Community Hospital's license was amended to merge with Brotman Hospital's license (previously a standalone facility), thereby creating a three campus license. As a result of this license consolidation, the legal names of the hospitals were changed to Southern California Healthcare System, Inc. d/b/a Southern California Hospital at Hollywood, Southern California Hospital at Culver City and Southern California Hospital at Van Nuys.

The license consolidation necessitated the implementation of new policies and procedures across all three campuses. Essentially, the policies and procedures of the new 3 campus system were to be the amalgamation of the best practices of these campuses prior to the consolidation.

Hospital leadership failed to adequately ensure that these new policies and procedures which were adopted by the board were implemented and that the staff educated on the new policies and procedures, and that adherence to such policies was monitored. In part, because of such failure PMH made executive-level changes at key positions including, the CEO, CNO and Director of Quality Management. A by-product and an unintended consequence of the turnover at these key positions resulted in temporary problems with change management and leadership in such areas resulting in the Deficiencies and poor communication to PMH corporate regarding such issues.

At the local hospital leadership level, these key positions are now filled by strong experienced leaders. In addition, PMH has hired a nationally recognized consulting firm to conduct a review of the Hospital's action plan and policies and procedures. To the extent necessary, policies and procedures will be updated to reflect the best practices given the services provided by the Hospital at each campus. The consulting firm will educate the staff on all policies and procedures and implement corrective action plans. Furthermore, for a period of time, the consulting firm will also monitor the adherence of the staff to the policies and procedures.

b. In the Follow-up Report, the surveyors found Condition Level deficiencies still existed in that the Hospital failed to develop, implement, and maintain an effective quality assurance and performance improvement (QAPI) program (p. 2686 *et seq*.); failed to provide a sanitary environment to avoid sources and transmissions of infections and communicable diseases (p. 2764 *et seq*.), and found a repeat violation as to the

acceptability of surgical services (p. 2788 *et seq*.). Please explain the accountability of both the Hospital's and PMH's senior management for allowing such a situation to exist and steps taken at the PMH system level to rectify the situation.

Response:

For the list of steps please refer to response to Questions 1a.

c. Please identify and provide the Statement of Deficiencies reports for any other instances where PMH owned hospitals have been determined to have Immediate Jeopardy situations during the term of PMH's ownership.

Response:

All issues related to the 2014 Statement of Deficiencies were resolved. However, in late 2015 and 2016, additional Immediate Jeopardy deficiencies were noted for Los Angeles Community Hospital and Southern California Hospital at Culver City. The deficiency giving rise to Immediate Jeopardy status at Los Angeles Community Hospital is set forth in Exhibit Q1c-1 attached hereto. One deficiency giving rise to Immediate Jeopardy Status in Southern California Hospital at Culver City relates to the hospital's process in sterilization and infection control, and is set forth in Exhibit Q1c-2 attached hereto. The hospital was orally informed of the deficiency and resulting Immediate Jeopardy status, but the hospital has not yet formally received a written notice from CMS. PHM believes that the third Immediate Jeopardy notice (although not yet received), involves essentially the issues described in Exhibit Q1c-2. Since receiving the written notice at Los Angeles Community Hospital and oral notices at Southern California Hospital at Culver City, PMH has been closely working with the Center for Medicare and Medicaid Services. On February 9, 2016, Los Angeles Community Hospital submitted its plan of correction, and in anticipation of receipt of an Immediate Jeopardy citation for Southern California Hospital at Culver City is in the process of correcting these deficiencies and will provide evidence of same in a plan of correction once it receives a formal written notice.

d. With respect to all Immediate Jeopardy determinations identified in Question 1a, b and c above, please describe all system-wide improvements (including system-wide policies and procedures), management reporting, business strategies and/or changes in culture that have been put into place to prevent recurrence of such situations. PMH is requested to provide documentation of any system-wide communications evidencing these prevention activities.

Response:

For the list of steps please refer to response to Question 1a.

2. **In response to Question 15, Applicants refer to PMH's participation in the Private Essential Access Community Hospitals ("PEACH") network as evidence of PMH's experience with "safety net" hospitals that serve low-income patients. Please elaborate on how PMH's experience and participation in the PEACH network in California will translate into improved access to quality care for underserved populations in Waterbury and its surrounding areas. In your response, please highlight**

specific programs, insights, or innovations PMH has acquired through participation in PEACH that PMH expects to apply to PMH-owned "safety net" hospitals in Connecticut.

Response:

PEACH is the statewide association of California's private community safety net hospitals that care for significant numbers of low-income, medically vulnerable Californians. Member hospitals are core safety net providers that devote at least 25 percent of their revenues to care for low-income and uninsured patients. PMH participation in PEACH was meant as evidence of our commitment to serve low-income patients. A number of PMH's California hospitals devote at least 25% of their revenues for care of low income patients.

Please note that PEACH is committed to preserving private safety net hospitals through the advocacy of public policy at the local, state and federal level. As such, it does not generate any specific programs or innovations that improve quality of care.

3. **In response to Question 20, Applicants summarize PMH's medical management program for high risk patients with significant co-morbidities in a sub-acute setting. Please elaborate on the following:**

a. What types of facilities comprise sub-acute settings and how many facilities of this type does PMH own, operate or manage?

Response:

Sub-acute care is a level of care needed by a patient who does not require hospital acute care. Sub-acute patients are medically fragile and require special services, such as inhalation therapy, tracheotomy care, intravenous tube feeding, and complex wound management care. PMH also considers a skilled nursing facility as a sub-acute setting.

In its California hospitals, PMH operates 59 licensed sub-acute beds. PMH also operates a 42 bed pediatric sub-acute unit at Foothill Regional Medical Center in California.

PMH also has an 85% ownership interest in and operates a 194 bed skilled nursing facility in Rhode Island.

b. What is the relationship of the physicians and nurse practitioners performing the rounding on high-risk patients in these settings to PMH?

Response:

The physicians and nurse practitioners rounding in sub-acute facilities are generally contracted with Prospect IPAs.

c. How does PMH assure that rounding on the frequency mentioned (2-5x per week) is completed in sub-acute settings that it does not own, operate or manage?

Response:

The Prospect IPA oversees the frequency of provider rounding, the care plans for patients, and a patient's progress toward discharge goals. A medical director and a case manager employed or contracted by Prospect IPA conduct phone rounds with the facilities to ensure the execution of the care plans, rounding and progress towards discharge. The IPA case manager tracks any issues with either the providers or facilities, in order to perform on-going quality and performance improvement.

4. **In reference to the response to Question 23, please clarify why the change in charity care policy at Waterbury Hospital in October 2013 wherein patients who do not apply for or do not qualify for charity care are responsible for the balance due would result in an increase in charity care and a decrease in bad debt in FY2014 as opposed to an increase in bad debt alone.**

Response:

It is Waterbury Hospital's policy to write down the balance due for patients without insurance to 50% of billed charges. Per the charity care policy, patients who are uninsured are expected to pay 50% of the balance due. This would be the amount for which they would receive a bill for and payment expected, and any portion of this billed balance that is not paid would be classified as bad debt. Based on the policy, this original 50% write-down of charges is considered charity care, under the policy.

5. **In reference to Applicants' answer to Question 34 of the Response, the Applicants failed to provide the requested updated Financial Measurements/Indicators for the months of July, August and September 2015 and comparable months from the previous fiscal year for PMH, the methodology utilized to calculate the financial ratios on Sections A through C and an explanation for any decreases or increases that apply to any of the items listed on Section D between YTD FYs 2014 and 2015. Please provide the requested information.**

Response:

PMH:

Please see attached Exhibit Q5-1.

Methodology

A. Operating Performance

Operating Margin	Income/(Loss) from Operations divided by Total Revenue
Non-Operating Margin	Net Income/(Loss) Before Changes in Unrealized Gains/(Losses) Divided by Total Revenue
Total Margin	Net Income/(Loss) divided by Total Revenue
Bad Debt as % of Gross Revenue	Bad debt divided by Gross Revenue

B. Liquidity

Current Ratio	Total Current Assets divided by Total Current Liabilities
Days Cash on Hand	Total Cash and Cash Equivalents on Balance Sheet divided by Average Daily Expenses
Days in Net Accounts Receivable	Net Accounts Receivable divided by Average Daily Revenue (rolling 3 months)
Average Payment Period	Total Current Liabilities on Balance Sheet divided by Average Daily Expenses

C. Leverage and Capital Structure

Long Term Debt to Equity	Non-Current Portion Long Term Debt divided by Net Assets

[1] In preparing the response to Question 5, a correction to the chart originally submitted in response to Question 34 was noted. This correction, which applies to Waterbury Hospital only, is reflected in the highlighted portion of the chart above.

Long Term Debt to Capitalization	Non-Current Portion Long Term Debt divided by (Non-Current Portion Long Term Debt plus Net Assets)
Unrestricted Cash to Debt	Cash and Cash Equivalents divided by Current Portion Long Term Debt plus Non-Current Portion Long Term Debt
Times Interest Earned Ratio	N/A
Debt Service Coverage Ratio	Net Income Available for Debt Service divided by Maximum Debt Service
Equity Financing Ratio	(Total Current Liabilities plus Non-Current Portion Accrued Pension plus Non-Current Portion Long Term Debt plus Other Non-Current Liabilities) divided by Net Assets

D. Additional Statistics

Income from Operations	Income/(Loss) from Operations minus Depreciation minus Interest
Revenue Over/Under Expenses	Net Income/(Loss) from Income Statement
Patient Cash Collected	Total Patient Cash Collected
Cash and Cash Equivalents	From Balance Sheet
Net Working Capital	Total Current Assets minus Total Current Liabilities
Unrestricted Assets	Net Assets on Balance Sheet
Credits Ratings (S&P, FITCH and Moody's)	N/A

Explanation for any decreases or increases that apply to any of the items listed on Section D between YTD FYs 2014 and 2015

All of the "Additional Statistics" listed under Section D were negatively impacted by Waterbury Hospital's poor operating results during FY15. In FY15, the Hospital had a Deficiency of Revenues over Expenses of ($21,995,354) compared to ($6,029,225) in FY14. This deterioration is primarily attributable to a decline in Inpatient Surgical Cases from 2,126 in FY14 to 1,950 in FY15 (8.28% decline) and a decline in Outpatient Surgical Cases from 4,795 in FY14 to 4,288 in FY15 (10.57% decline). This drop in surgical cases contributed to a drop in Patient Days from 57,901 in FY14 to 55,183 in FY15 (4.69% decline), a decline in Medicare Case Mix Index from 1.51 in FY14 to 1.45 in FY15 (3.85% decline) and a decline in overall Case Mix Index from 1.31 in FY14 to 1.27 in FY15 (3.35% decline). In addition, Outpatient Cases declined from 173,720 in FY14 to 162,091 in FY15 (6.69% decline). The impact of these declines in patient volumes was a decrease in Net Patient Service Revenues of $15,699,982 from FY14 to FY15 which resulted in the decreases from FY14 to FY15 in Income from Operations, Revenue Over/(Under) Expense, Patient Cash Collected, Cash and Cash Equivalents, Net Working Capital and Unrestricted Assets noted in Section D - Additional Statistics.

6. **In reference to the Applicants' answer to Question 33 of the Response, please address the following:**

a. In response to question 33(b) the Applicants indicated that *"The non-governmental net revenue by specific payers is not usually finalized until the OHCA filing is*

***completed, so we do not have the FY 2015 final net revenue by specific payer (with allocation of charity care, bad debts, etc.)"*, hence the zero incremental amounts reported under the uninsured, self-pay and workers compensation line items.**

The amounts requested on Financial Worksheet (C) by OHCA are FY 2014 actual and projected amounts with, without and incremental associated with the proposal for FY 2015 and thereafter. Therefore, please provide a revised Financial Worksheet (C) for Waterbury Hospital that will include FY 2014 actual amounts and projected amounts for FYs 2015, and thereafter, for the uninsured, self-pay and workers compensation line items. In addition, include projected incremental amounts associated with the proposal that relates to expense items, operating income, non-operating revenue and net income. Provide the missing assumptions utilized in developing the projections and explain any projected losses from operations; and

Response:

Please see attached Exhibit Q6a-1.

b. In responding to question 33(d) the Applicants explained the expected reduction in expenses for FY 2016 but failed to explain the incremental increases in expenses as the result of this proposal for FYs 2017 and 2018. Please provide the requested information.

Response:

In responses to other questions, the Hospital indicated that they expect a lower cost structure and improved efficiencies that will generate cost savings. These expected cost savings were all built into the FY 2016 budget, and therefore moving forward into FY 2017 and FY 2018 we have only reflected general expense increases. We also noted in a previous response that FY 2017 and FY 2018 expenses increased for salary, pension, and benefit increases.

7. **In Applicants' answer to Question 19 of the Response, Applicants state that PMH has *"[p]roposed a pilot program in the state of Rhode Island to manage the health of 25,000 Medicaid patients at a cost savings to the state of Rhode Island" and that "PMH is prepared to work with the state of Connecticut on a similar proposal to manage a segment of the Medicaid population in Connecticut at cost savings to the State."* Please provide the name of the proposed Rhode Island program and a detailed description of the program and how it will achieve Medicaid savings. Include in your response the cost of implementation and projected cost savings associated with the program.**

Response:

Prospect CharterCARE Health Partners (Prospect or CharterCARE) and our sister organizations, Prospect Health Services RI, Inc. (PHSRI) and Prospect Provider Group RI, LLC (PPGRI), in April 2015 proposed to the General Assembly and Governor Gina Raimondo through the Executive Office of Health and Human Services ("EOHHS")with the elements of a three year Medicaid Coordinated Care Pilot Program which

will save the State up to $6 million dollars annually and $18 million over the three years if CharterCARE and its affiliates serve 25,000 of the State's Medicaid Recipients.

The Coordinated Care Pilot Program proposed that PHSRI would contract with one or both of the State's managed care organization (MCO) partners to serve up to 25,000 Medicaid Recipients under a fully delegated, global capitation contract at 95% of the amount for healthcare services that is currently paid by the State to the MCOs for each recipient by aide category. PHSRI would organize and manage a network of physicians, hospitals, behavioral health, social services and other providers to care for these recipients achieving better patient outcomes, higher patient satisfaction and cost reduction through effectively coordinating and integrating the care of the recipients.

The Governor included the Coordinated Care Pilot Program in her budget to the General Assembly. It was accepted by General Assembly in the FY16 budget and EOHHS released an application for interested provider groups to apply as Accountable Entities for the Coordinated Care Pilot.

The program is designed to provide a full continuum of coordinated regional care that offers integrated primary, specialty, and facility care, as well as long-term services and supports that actively engage members at the right level of care at the right time.

PHSRI is developing high impact interventions in critical areas of healthcare delivery for our members to improve their health status, increase the efficiency of the integrated delivery system, and promote the ability of our members to live fully in their communities. Our Accountable Entity ("AE") will coordinate care within a comprehensive system, closing those gaps in care that create unwarranted variation, poor clinical outcomes, avoidable utilization, and excessive cost.

We have extensive experience providing integrated and continuous care for our members in Rhode Island and several other states. Many of these relationships involve full contractual risk, fully delegated and other Value- Based Purchasing arrangements similar to those planned under the AE initiative.

The AE mission is to enhance clinical care and outcomes; engage members in their treatment and recovery, with superior satisfaction; and do so in a manner that reduces costs to Rhode Island taxpayers. We augment this commitment to the Triple Aim with a fourth commitment: to connect with providers in ways that engage and inspire them, ensuring their full commitment to the AE initiative.

This core commitment to the AE program is enhanced by our ability to integrate the mind and body, ensuring that members are offered the full continuum of behavioral healthcare services, and seamlessly integrating this care with medical and healthcare services and necessary social services.

As the program is in its early stages of implementation, actual financial cost savings have not yet accrued. However, our commitment to the State of Rhode Island at its inception was to guarantee that we would save 5% of health care costs during the first year. We anticipate that we will achieve this goal, and that we will improve the clinical quality of care as measured by a range of quality indicators developed in partnership with the State of Rhode Island.

Exhibit Q1c-1

The CNO talked with Patient 23 and no adverse outcome was identified. 3. The CNO talked with Patient 24 and no adverse outcome was identified. 4. The Chief of Staff suspended MD 6 for failure to comply with the corrective action plan for a chaperone with each patient visit. 5. The CNO discussed the survey findings with RN 3, with special emphasis on strict adherence to the corrective action plan for MD 6. 6. The CEO discussed the survey findings with the Chief of Staff and MD 6, with special emphasis that the corrective action plan regarding a chaperone with each patient visit must be followed by MD 6 at all times. The CEO advised MD 6 that he is to contact Leadership if he has any difficulty with the chaperone. 7. The CEO, CNO, Chief of Staff and Information Technology (IT) staff discussed implementing an attestation in the EMR system to allow for the chaperone to attest accompanying MD 6 during patient rounds. The IT Department finalized the attestation in the EMR on 11/16/15. The chaperones were educated on the attestation and currently document the attestation in the medical record. 8. The CEO, CNO and Chief of Staff reviewed and updated the corrective action	11/9/15 11/9/15 11/9/15 11/9/15 11/9/15 11/9/15 11/16/15 11/9/15 - 11/16/15

A 000	Continued From page 1 meeting the regulatory temperature and humidity limits when: a) On 9/22/15 at 3:30 p.m. during the Hollywood campus surgical services tour, main tray surgical instruments were observed stored in OR-2 where temperatures were out of regulatory limits. OR-2's thermostat meter indicated temperature of 78.8 Fahrenheit (F) and humidity of 58%. Several instrument trays were found piled on top of each other on a surgical supply storage cart. Concurrent interview was held with the administrator who confirmed that OR-2 was "too hot" and storing surgical instruments was "not good". The Administrator shared there was nowhere else to store the instruments. According to the Administrator and surgical staff interviews, instruments have always been stored in OR-2. b) Endoscopes were observed being stored in OR-3 where the thermostat meter indicated the temperature was 82.4 F and humidity was 46%. Concurrent interview was held with the interim director of infection control (IDIC) who confirmed the room temperature was out of the regulatory limits. c) The sterile processing room thermostat meter indicated a temperature of 82.5 F and humidity of 51%. Concurrent interview was held with surgical staff who confirmed the room was "hot." A review of both facilities Culver City and Hollywood Campus "Temperature and Humidity Reading" logs revealed temperature and humidity readings were out of limits on several dates. d) The index case indicated humidity ranges has been out of range at Culver City in OR # 2 for 13 days, OR # 2 for 10 days and OR # 7 for 20 days. During a tour on 9/22/15, the Department found the facility had difficulty regulating temperature and humidity in the OR's due to maintenance	A 000	Continued From page 1 • Temperatures and humidity are assessed hourly as well as prior to procedure. • When fall out occurs the plant operations team is notified to adjust temperature. Monthly trend reporting to ACNO, IC and Quality Department occurs. No procedures will occur unless temperature and humidity are within normal limits. • When a room is out of range and is not correctable prior to a scheduled procedure, infection control is notified by OR. • Plan for infection control surveillance to monitor and report as well as plant operations at monthly committee meetings. • Electronic/Digital monitoring devices will be installed in December. • Upon completion of the installation staff will be educated on requirements and individuals will be identified for notification, reporting and action. Anticipated completion date is 1/1/2016. **Date of Implementation:** • Immediate concerns corrected on 09-24-15. Installation of new monitoring devices to be completed by 01-01-2016. **Monitoring Process:** • Staff monitors and documents temperature and humidity prior to procedure. Staff monitor daily as well, on an hourly basis. Trending reports to be sent to Quality Council through EOC and Infection Control reports which will flow up to the MEC and Infection Control

D. Additional Statistics (In Thousands $ unless noted)													
Income from Operations	5,606	47,670	7,192	89,510	5,969	53,639	128	89,638	12,514	66,153	18,423	108,061	Increase from $66.2 million for FY 2014 to $108.1 million for FY 2015 due to a variety of factors. One of the primary factors was a $37.3 million increase in the net benefit of the California Hospital Fee Program (supplemental Medi-Cal reimbursement)
Net Income	1,197	8,887	2,517	34,562	1,680	10,567	(2,035)	32,528	8,448	19,015	2,111	34,639	See above regarding increase in Income from Operations from FY 2014 to FY 2015.
Patient Cash Collected - Hospital Segment only	52,482	315,730	58,220	526,009	51,706	367,436	49,913	575,923	53,637	421,073	55,047	630,969	Increase from $421 million for FY 2014 to $631 million for FY 2015 due primarily to full year of cash collections for CharterCARE during FY 2015 (acquired June 20, 2014). August 2015 low of $49.9 million due to CharterCARE Medicare billing delay resolved after several weeks. July 2015 high of $58.2 million due to increased collection efforts at Alta.
Cash and Cash Equivalents	35,715	35,715	48,625	48,625	38,638	38,638	60,247	60,247	39,072	39,072	65,606	65,606	$26.5 million increase in cash and cash equivalents from September 30, 2014 to September 30, 2015 due primarily to cash generated from operations, net of $39.5 million cash used in investing activities (primarily capital expenditures), and $8.8 million used in financing activities.
Net Working Capital	4,938	4,938	38,856	38,856	6,927	6,927	36,940	36,940	8,618	8,618	25,710	25,710	Increase in net working capital due from September 30, 2014 to September 30, 2015 due to multiple factors including: (1) $26.5 million increase in unrestricted cash (see comment above). (2) $20.1 million increase in net QAF receivable/liability due to timing of GAAP recognition versus cash receipts (3) $14.2 million increase in medical claims IBNR due to increased membership in our Hospital and Medical Group segments (4) Various changes in other components of net working capital
Unrestricted Assets	694,684	694,684	829,153	829,153	699,754	699,754	838,760	838,760	761,317	761,317	782,851	782,851	Total assets increased $21.5 million from $761.3 million at September 30, 2014 to $782.9 million at September 30, 2015. See comments above regarding net working capital. In addition, net fixed assets increased $10.9 million as a result of capital expenditures.

[a]Total amount should equal the total amount on cell line "Net Patient Revenue" Row 14.

[b]Provide the amount of any transaction associated with Bad Debts not related to the provision of direct services to patients. For additional information, refer to FASB, No.2011-07, July 2011.

[c]Provide the amount of income taxes as defined by the Internal Revenue Services for for-profit entities.

[d]Provide projected inpatient and/or outpatient statistics for any new services and provide actual and projected inpatient and/or outpatient statistics for any existing services which will change due to the proposal.

Financial Worksheet Assumptions

Waterbury Hospital

FY 2015
October through August results annualized

FY 2016
Revenue and Volume-annualized 5 months of actual results (February through June). Inlcuded additional revenue for anticipated increase in outpatient volume and known revenue increases from Medicare and Commercial payers.

Expenses-annualized 7 months of actual results (October through April). Included any projected changes as identified during the budget process

Both revenue and expenses reflect expected changes due to the impact of the recent State Supplemental Pool payment cuts.

FY 2017 and 2018
FTE's and volume was kept the same as the budget. No increases.
Revenue increases reflected for known Commercial contract changes.
Expenses increased for overall salary, pension, and medical benefit increases.

Alliance Medical Group

FY 2015
Base was an average of the previous 11 months for individual government and non-government revenue. For all other items, used the 11 month YTD plus the month of August again.

FY 2016
Based on potential visit volumes for the upcoming year.

FY 2017 and 2018
Based on the expected increase of 1% to 2% per year due to the primary care recruitment which will include opening offices in new markets.

For the new fiscal years, there has been extensive evaluation of the expenses associated with the hospital and all affiliates. The Hospital engaged the Camden Group to look at opportunities to remove expenses from the organization and we have begun or about to begin implementing many of these based on the data analyzed. Our goal moving forward and starting in FY 2016 is to increase our revenue capability but also make significant changes that will allow us to decrease our expenses where appropriate.

Sale of Non-Profit Hospital to For-Profit Entity

Name Entity: Greater Waterbury Health Network

Community petition for public hearing on Waterbury Hospital's future

Under Connecticut statute Section 19a-639a, we the undersigned request that Kimberly Martone of the Connecticut Department of Public Health hold a public hearing on the proposed certificate of need application for Prospect Medical Holdings acquiring Greater Waterbury Health Network (Waterbury Hospital) in Waterbury.

This should not be done on April 26, 2026 (which is presidential primary day) and should be held in the evening so that the working public can attend and contribute to the discussion about this important process.

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02

Dear Ms. Stromstad and Mr. Spees,

With the receipt of the application information submitted to our offices, the Office of the Attorney General and the Office of Health Care Access have initiated a review of the above proposal involving the sale of a nonprofit hospital to a for profit entity filed pursuant to Conn. Gen. Stat. § 19a-486a.

Pursuant to Conn. Gen. Stat. § 19a-486e, prior to making any decision to approve or disapprove a proposed agreement requiring notice under Conn. Gen. Stat. § 19a-486a, the Attorney General and the Commissioner of the Office of Health Care Access shall jointly conduct one or more public hearings, one of which shall be in the primary service area of the nonprofit hospital. This public hearing notice is being issued pursuant to Conn. Gen. Stat. § 19a-486e.

Notice is hereby given of a public hearing to commence on:

Date: May 3, 2016

Time: 1:00 p.m.

Place: Courtyard by Marriott Waterbury
Grand Ballroom
63 Grand Street
Waterbury, CT 06702

The Applicants are designated as parties to this proceeding.

Pursuant to Section 19a-9-29(e) of the Regulations of Connecticut State Agencies, the Office of the Attorney General and the Office of Health Care Access hereby require the Applicants to prefile in written form all information that they propose to present at the public hearing to be held on May 3, 2016, no later than April 26, 2016.

Any interested persons may petition the Office of the Attorney General and/or the Office of Health Care Access for status in the proceedings in accordance with the provisions of the Conn. Gen. Stat. § 4-177a et seq.

Enclosed for your information is a copy of the public hearing notice to be published under legal notices in The Republican-American pursuant to Conn. Gen. Stat. § 19a-486e.

Sincerely,

Kimberly R. Martone
Director of Operations
Office of Health Care Access

Republican-American **April 8, 2016**
Notice of Public Hearing: OAG Docket No. 15-486-02,
OHCA Docket No. 15-31217-486

PLEASE INSERT THE FOLLOWING:

Office of the Attorney General and Office of Health Care Access Public Hearing

Statute Reference:	Conn. Gen. Stat. § 19a-486e
Applicant(s):	Greater Waterbury Health Network, Inc. Prospect Medical Holdings, Inc.
Town:	Waterbury
Docket Numbers:	OHCA Docket No. 15-31217-486 and Attorney General Docket No. 15-486-02
Proposal:	Greater Waterbury Health Network, Inc. ("GWHN"), and Prospect Medical Holdings, Inc. ("PMH"), are proposing the purchase of substantially all of the assets of GWHN by PMH. Pursuant to the terms of the proposed Asset Purchase Agreement, PMH will pay approximately $45,000,000 for the assets of GWHN, subject to certain adjustments. In addition, PMH will commit to spend not less than $55,000,000 on capital items for the hospital and service area of Waterbury Hospital, over five years.
Date:	May 3, 2016, and to anytime thereafter as may be necessary
Time:	1:00 p.m.
Place:	Courtyard by Marriot Waterbury Grand Ballroom 63 Grand Street Waterbury, Connecticut

Any person who wishes to request status as a party or an intervenor in the above listed public hearing may file a written petition with a written copy of their intended testimony to the Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") no later than close of business on April 28, 2016, pursuant to Conn. Gen. Stat. § 4-177a and §§ 19a-9-26 and 19a-9-27 of the Regulations of Connecticut State Agencies. OHCA and the OAG shall rule on the petitions after the April 28, 2016, deadline. Please check OHCA's website at **www.ct.gov/ohca** for more information or call OHCA directly at (860) 418-7001. If you require aid or accommodation to participate fully and fairly in this hearing, please phone (860) 418-7001.

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; OHCA Docket Number: 15-32017-486 and Attorney General Docket Number: 15-486-02
Request for Prefiled Testimony and Issues

Dear Mr. Spees and Ms. Stromstad:

The Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") will hold a public hearing on the above docket number on May 3, 2016. The hearing will begin at 1:00 p.m. on at the Courtyard by Marriot Waterbury, Grand Ballroom, 63 Grand Street Waterbury, CT. Pursuant to the Regulations of Connecticut State Agencies § 19a-9-29(e), any party or other participant is required to prefile in written form all substantive, technical, or expert testimony that it proposes to offer at the hearing. OHCA and the OAG request that Greater Waterbury Health Network, Inc and Prospect Medical Holdings, Inc. ("Applicants") submit prefiled testimony by 4:00 p.m. on April 26, 2016.

Additionally, please find attached Issues. Please respond to the attached Issues in writing to OHCA and OAG as an attachement to the Prefile testimony.

All persons providing prefiled testimony must be present at the public hearing to adopt their written testimony under oath and must be available for cross-examination for the entire duration of the hearing. If you are unable to meet the specified time for filing the prefiled testimony you must request a time extension in writing, detailing the reasons for not being able to meet the specified deadline.

Please mail one (1) complete hard copy and one (1) complete electronic copy of the requested materials for approval to each of the following addresses:

Office of Health Care Access Docket No. 15-32017-486
Attorney General Docket No. 15-486-02

Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.

The Applicants should be prepared to present and discuss supporting evidence on the following issues:

- The clear public need for and the community benefits of the proposal.
- How access to care will be maintained in the service area following the purchase of Greater Waterbury Health Network, Inc.'s ("GWHN") assets, including Waterbury Hospital, by Prospect Medical Holdings, Inc. ("PMH").
- PMH's management of Quality Assurance and Performance Improvement (QAPI) across its hospital network and, in particular, the manner in which oversight of the QAPI program will be managed at Waterbury Hospital.
- The roles and responsibilities of PMH's Chief Quality Officer, Chief Clinical Officer, Senior Chief Nursing Officer and VP of Regulatory and Patient Safety in overseeing the QAPI program across its hospital network, and, in particular, Waterbury Hospital, as well as the role and responsibilities of the Hospital Board and Local Board (as those terms are defined in the Application) for management of QAPI at Waterbury Hospital post-closing.
- The financial feasibility of the proposal.
- How prices for, and the cost of, health care services at Waterbury Hospital will be affected by PMH's acquisition.
- The charity care policies to be implemented at Waterbury Hospital following the transfer of ownership and how they compare to PMH's current charity care policies.
- The commitment PMH is willing to make to performing future health needs assessments for the communities in GWHN's service area in a manner that allows for widespread public input, collaboration with other health care providers in the community as well public dissemination of the assessments and Waterbury's implementation plan to address the identified needs.
- The expected timing of the creation of the Independent Foundation, its basis for 501(c)(3) status, and the timing and content of the approximation actions for those charitable funds restricted as to use and those funds whose unrestricted income can and will be used to pay off GWHN liabilities post close.

Provide a written response on the following as an attachment to the pre-file testimony, as these questions were not fully addressed in the Application completeness process:

1. With respect to PMH's recent acquisition of East Orange General Hospital in New Jersey, please describe the financial terms of that transaction, including without limitation, the purchase price and amount and duration of any capital commitments. Please also describe the funding sources used by PMH to pay the purchase price and those that will be used to fund any capital commitments or other material financial obligations of PMH at East Orange General Hospital.

2. PMH has entered into an agreement to buy Crozer-Keystone Health System in Pennsylvania. Under the reported terms of the agreement, PMH is pledging to keep all five Crozer-Keystone hospitals open and invest $200 million in the medical centers over the next five years in capital commitments as well as assuming Crozer-Keystone's outstanding pension liability of $100 million. Please provide an update on the status of this proposed acquisition addressing, in particular:

    a. the financial terms of the transaction;

    b. PMH's plan to fund the purchase price, capital commitment, pension liabilities and other material financial obligations associated with the transaction;

    c. the status of any necessary governmental or non-governmental approvals connected with the transaction;

    d. the anticipated closing date; and

    e. the impact that the transaction will have on PMH's ability to meet its financial commitments in connection with the proposed GWHN and ECHN asset purchases in Connecticut.

3. With respect to the surveys of PMH's Southern California Hospitals completed on 4/21/14, 8/21/14, 9/25/15 and 12/22/15 as well as the survey of Los Angeles Community Hospital ("LACH") completed on 11/10/15 that resulted in the California Department of Health declaring Immediate Jeopardy situations to exist, please identify when GWHN first learned of each Immediate Jeopardy determination. Please also discuss GWHN's due diligence after having learned about the Immediate Jeopardy determinations and the conclusions based upon that due diligence.

4. Please provide an update on the status of any subsequent surveys and findings of the CDOH with respect to the Statement of Deficiencies issues in connection with the 12/22/15 of Southern California Hospital at Culver City and the March 23, 2016 letter to LACH informing LACH that it continues to be out of compliance with respect to the CMS Conditions of Participation for hospitals in the areas of Nursing Services and Infection Control.

5. In the Application at page 84, PMH has committed to continue to provide financial support for community building activities in the Waterbury area. Particular community services and benefits currently provided by Waterbury Hospital, such as the Food for Life Program, are possible via funding through state, federal, or private grants. Please describe the extent to which GWHN has explored its ability to keep these programs grant funded if Waterbury Hospital is converted to for profit status and any role the Independent Foundation being formed as a part of this proposal might play in sustaining any grant-funded activities.

6. With respect to page 1465 of Applicants' February 16, 2016 responses to completeness questions (the "Second Set of Completeness Responses"), please elaborate on the specific circumstances that contributed to the declines in inpatient and outpatient surgical cases between FY 14 and FY 15 and the overall decline in total outpatient cases over the same period which led to a deficit in revenues over expenses of $21,995,334 in FY 15 -- a deficit increase of approximately $15.7 million for Waterbury Hospital over the prior fiscal year. In addition, please discuss the current profitability of Waterbury Hospital and how the Applicants intend to address these declines in volume and net patient service revenue post-closing.

7. With respect to Exhibit Q5-1, page 1479, of the Second Set of Completeness Responses and the Long Term Debt to Equity ratio for PMH:

    a. Please explain the ratio's downward trend from a negative 37.0 in FYTD 7/31/14 to an even higher negative ratio of 349.8 in FYTD 9/30/14; and

    b. elaborate on the steps or initiatives taken that contributed to the ratio's increase between FYTD 9/30/14 and FYTD 9/30/15 from a negative 349.8 to a positive 11.6.

8. In reference to the Financial Worksheets submitted as Exhibit Q6a-1 to the Second Set of Completeness Responses, please explain the zero incremental gains/losses associated with this proposal for GWHN when in Applicants' initial October 28, 2015 submission, pps. 1167-68, a Financial Worksheet for GWHN was submitted that included incremental amounts associated with this proposal.

9. Provide annual cash flow that would be generated and become available to support capital projects over the next five years at Waterbury Hospital as a result of PMH's addressing GWHN's debt and pension obligations.

10. Please provide a list of critical, immediate (over next 2-3 years) capital needs at The Waterbury Hospital.

11. Please provide a complete description of the Local Board, including, but not limited to, its composition, the process for appointment and replacement of members of the Local Board, and how it will function regarding oversight of quality assurance in conjunction with the Hospital Board and PMH's corporate quality team.

Dear Gary, Steve, Kevin and Kimberly - this office represents Greater Waterbury Health Network, Inc. in the proposed Asset Purchase by Prospect Medical Holdings, Inc. The applicants' prefile testimony is due to be filed today (OHCA Docket Number 15-32017-486 and Attorney General Docket Number 15-486-02). We are finalizing our filing, but would like to request a one-day extension in order to do so. Prospect Medical Holdings, Inc. does not oppose this extension. Thank you for your consideration. Please let me know if this is ok. Thank you.

Mitchell Lew, M.D.
Jonathan Spees
Steven Aleman

As requested, the prefile testimony addresses the topics identified in the Hearing Notice. Please find below a chart that shows which speaker's testimony addresses each of the topics identified:

Topic	Prefile Testimony
1. The clear public need for and the community benefits of the proposal.	All
2. How access to care will be maintained in the service area following the purchase of Greater Waterbury Health Network, Inc.'s ("GWHN") assets, including Waterbury Hospital, by Prospect Medical Holdings, Inc. ("PMH").	All, but particularly the testimony of Mitchell Lew, M.D. and Jonathan Spees
3. PMH's management of Quality Assurance and Performance Improvement (QAPI) across its hospital network and, in particular, the manner in which oversight of the QAPI program will be managed at Waterbury Hospital.	Testimony of Von Crockett
4. The roles and responsibilities of PMH's Chief Quality Officer, Chief Clinical Officer, Senior Chief Nursing Officer and VP of Regulatory and Patient Safety in overseeing the QAPI program across its hospital network, and, in particular, Waterbury Hospital, as well as the role and responsibilities of the Hospital Board and Local Board (as those terms are defined in the Application) for management of QAPI at Waterbury Hospital post-closing.	Testimony of Von Crockett
5. The financial feasibility of the proposal.	Testimony of Jonathan Spees and Steven Aleman

Topic	Prefile Testimony
6. How prices for, and the cost of, health care services at Waterbury Hospital will be affected by PMH's acquisition.	Testimony of Mitchell Lew, M.D. and Jonathan Spees
7. The charity care policies to be implemented at Waterbury Hospital following the transfer of ownership and how they compare to PMH's current charity care policies.	Testimony of Jonathan Spees
8. The commitment PMH is willing to make to performing future health needs assessments for the communities in GWHN's service area in a manner that allows for widespread public input, collaboration with other health care providers in the community as well public dissemination of the assessments and Waterbury's implementation plan to address the identified needs.	Testimony of Von Crockett and Jonathan Spees
9. The expected timing of the creation of the Independent Foundation, its basis for 501(c)(3) status, and the timing and content of the approximation actions for those charitable funds restricted as to use and those funds whose unrestricted income can and will be used to pay off GWHN liabilities post close.	Testimony of James Moylan and Carl Contadini

At your request, one (1) hard copy and (1) electronic copy have been provided to each Office. If you have any questions or need anything further, please feel free to contact Ann Zucker at (203) 252-2652 or Michele Volpe at (203) 777-6995. Thank you for your assistance in this matter.

PREFILE TESTIMONY OF
CARL CONTADINI

STATE OF CONNECTICUT

OFFICE OF THE ATTORNEY GENERAL

AND

DEPARTMENT OF PUBLIC HEALTH
OFFICE OF HEALTH CARE ACCESS

April 26, 2016

Attorney General Docket No. 15-486-02
OHCA Docket No.: 15-32017-486
Greater Waterbury Health Network, Inc.
Proposed Asset Purchase by Prospect
Medical Holdings, Inc.

Testimony of Mr. Carl Contadini, Chair of the Board, The Waterbury Hospital and Greater Waterbury Health Network, Inc.

Good Afternoon, Attorney Zinn-Rowthorn and Hearing Officer Hansted. On behalf of all members of the Greater Waterbury community, I welcome both the members of the office of the Attorney General and the representatives of The Office of Health Care Access to our community.

I thank you for the time that you have again invested in a careful examination of a proposed acquisition of Greater Waterbury Health Network, Inc., this time by Prospect Medical Holdings Inc. ("Prospect"). We appreciate the care and patience with which you and your staff have approached this matter.

We have presented you with thousands of pages of supporting documentation describing a transaction that we are convinced presents the best opportunity to preserve Waterbury Hospital and to both continue and enhance health care services in our community on a going-forward basis. The Hospital Board and management spent countless hours weighing the Hospital's challenges and options in deciding upon Prospect in this transaction. I am joined today by several other witnesses who will speak to our efforts along with attorneys, bankers and other advisors who have assisted us in this process and who will be available to respond to any particular questions you may have.

I've served on the hospital board since 2005; I am firmly convinced of two things: our Board exercised the requisite diligence with respect to this transaction and that having Prospect in our community will ensure continued access to high quality medical care.

I. Clear public need for and community benefits for the transaction

Over the last ten years, Waterbury Hospital has experienced repeated financial losses because of declining reimbursement, the increasing complexity of health care treatments, poor economic conditions state wide, and in particular in Waterbury. In addition, like most community hospitals

nationwide, national health care reform has presented a difficult challenge for GWHN. It is no longer able to access capital for improvements needed in its infrastructure. Over the same ten years, the Waterbury Hospital has experienced increased demand for emergency and urgent care services and behavioral health care services. Waterbury Hospital is a safety net hospital, serving one of the most economically disadvantaged communities in the State.

Without a financially sound purchaser, healthcare in the Greater Waterbury community will suffer. The financial strength of Prospect, its commitment to favorable charity care policies, and its Coordinated Regional Care model, which has been detailed thoroughly in the Application and Completeness Questions make Prospect the right choice. Our Board firmly believes that the Prospect transaction will ensure that high quality, sustainable health care remains accessible for our community.

I would like to briefly review some of the statutory criteria for your deliberations in this matter and how we addressed each of these in our journey.

II. The Hospital's Due Diligence in Deciding to Transfer, Selecting the Partner and Negotiating the Terms of the Transfer (C.G.S. § 19a-486c (a)(2)(A), (B) and (D))

A. Decision to Transfer

The Board has exercised due diligence in making its election to transfer, selecting the partner and negotiating the terms and conditions of the transaction. In our Application, we described the process by which the Hospital evaluated the issues it faced and the options it had to meet those challenges. Waterbury Hospital has been struggling financially and has explored a number of transactions since 2005. The Board examined numerous alternatives for the Hospital's future. We sought the advice and experience of nationally recognized outside experts. We considered many possibilities including retaining independent status, as well as entering into partnerships and affiliations with other non-profit health systems. After a thorough deliberative process involving review of numerous reports provided to us by expert national consultants including PriceWaterhouse Coopers, Kaufman Hall, and Cain Brothers, we concluded that it was imperative to seek a partnership with an entity that could provide us with access to capital and economies of scale to insure the Hospital's continued high level of quality services.

In 2012, we submitted an application for a joint venture with Saint Mary's Hospital and LHP Hospital Group. The diligence related to that effort was thoroughly explained in that application. After a year of incredibly diligent efforts, LHP terminated the process. Nobody was more disappointed than me. However, our fiduciary obligations brought us back to the table immediately. After another extensive period of due diligence and deliberations, we entered into a Letter of Intent with Vanguard Health Systems, Inc. (later acquired by Tenet Health Corporation ("Tenet"). After a lengthy negotiation, diligence and regulatory process, this transaction, too, was terminated by our potential partner in February of 2015.

We could not, and cannot, permit our community to be without strong sustainable healthcare that provides all medically necessary services right here in Waterbury. GWHN's task force met very quickly after Tenet announced its withdrawal from Connecticut. There were a number of meetings

among Tenet and hospital representatives and government officials aimed at bringing Tenet back to the table but ultimately these were unsuccessful.

The Task Force requested Cain Brothers to re-canvass the market for prospective partners. There was a strong sentiment that the Tenet decision had made Connecticut unappealing for for-profit entities and, in fact, informal outreach efforts revealed this to be the case. In addition to for-profit systems, there were some exploratory conversations with two academic medical centers, but ultimately no paths forward were identified with these centers.

B. Selection of Purchaser

As to our due diligence in the selection of a purchaser, the initial RFP process in 2011 was carefully coordinated by our legal advisors and investment banker, Cain Brothers and, as detailed in the Application, was very thorough. Through its work in the prior two transactions with Cain Brothers , the Task Force had become knowledgeable about possible acquirers. As it approached a third transaction GWHN's advisors noted that as first LHP, and then, Tenet, terminated their transactions, the pool of potential acquirers grew smaller and the attractiveness of Connecticut and Waterbury also diminished.

During the first quarter of 2015, the Task Force again met a number of times with its advisors and kept the GWHN Board apprised of its activities. Three out of state for profit candidates contacted Cain Brothers and indicated their interest in Waterbury Hospital; two submitted proposals. After studying these proposals, the Task Force presented the two proposals to the Board. One proposal was from Prospect, which had participated in the processes during the prior two deals. The following factors continued to be important to the Board:

- Continuance of high quality health services in the community
- Local participation in governance
- Economic value, including willingness to deploy capital in Waterbury
- Form of transaction
- Overall strategic plan
- Familiarity with the New England marketplace.

The Board was encouraged by the transaction and regulatory process that Prospect had recently successfully completed in Rhode Island and Prospect's review and understanding of the recent Connecticut regulatory activities.

C. Negotiating Terms of the Transfer

The Board was thorough in developing the transaction structure and successfully negotiated terms and conditions for a transfer that significantly benefits our community. These include Prospect's commitment to invest in needed capital expenditures for the Hospital as well as a local presence on an advisory board. With the help of Cain Brothers, the terms of the Letter of Intent were thoroughly negotiated first among the business people and then the parties' counsel.

During the course of the Transaction, we learned that, 1) it was likely that the Hospital would not have sufficient cash to close the Transaction, and 2) several of Prospect's hospitals were subject to Immediate Jeopardy findings by CMS. These factors required the transaction team to again negotiate to accommodate some unanticipated issues. Each of these issues required extensive diligence and negotiation on the part of our Board and management team, as well as the cooperation and collaboration of the parties to resolve them. You will learn more about our "Quality Assurance Letter" and on the financial accommodations that Prospect has made to facilitate a closing in other documentation submitted and during the hearing.

III. Independent Expert Fairness Evaluation (C.G.S. § 19a-486c(a)(2)(C))

Our conclusions as to the adequacy of the Prospect proposal were validated by a fairness opinion from the firm of Principle Valuation. We initially chose Principle after conducting an RFP process during the proposed transaction with LHP in 2012; Principle also performed the fairness opinion for the proposed transaction with Tenet in 2014. Having performed these evaluations as well as the valuations for Saint Mary's, we believed that they had in-depth knowledge of the Connecticut market. Their opinion found the Prospect proposal to be at a fair market value for the Hospital and transferred affiliates. We have been fortunate in successfully negotiating a transaction value that rewards the local community with a purchase price providing at least fair market value for the assets being transferred.

IV. Conflicts of Interest (C.G.S. § 19a-486c(a)(3))

We engaged in a thorough conflict disclosure effort at GWNH and Hospital board levels. Additionally, we have reviewed potential conflicts of interest for the experts and advisors involved in this process. We disclosed that there are several physicians on our Board that are employed by the Hospital or its affiliates and that one such physician is also on the board of the independent physician association recently formed by Prospect.

V. No Manipulation of Asset Value (C.G.S. § 19a-486c(a)(5))

Related to your consideration of fair market value, there is no evidence that any improper manipulation of GWHN's fair market value has occurred.

VI. Financing Does Not Place the Hospital's Assets as Unreasonable Risk (C.G.S. § 19a-486c(a)(6))

To this end, I would note that Prospect has represented that it does not plan to borrow from a third party to close this transaction.

VII. Management Contracts (C.G.S. § 19a-486c(a)(7))

There is no management contract in the proposed transaction.

VIII. Transfer of Charitable Assets (C.G.S. § 19a-486c(a)(8))

The Hospital recognizes that, as a charitable organization, its assets must be used in a manner consistent with the Hospital's mission and purpose. In the case of assets which have been donated to the Hospital, the intentions of the donors must also be respected and followed. Our Application outlines that a new post conversion foundation will be formed. It will receive charitable assets as enumerated by the Attorney General's office. The entity known as "The Waterbury Hospital" will liquidate the liabilities. A completely separate, independent foundation will be formed to receive those charitable assets that are appropriate for the independent foundation to hold, as well as the net proceeds of the Transaction, if any.

IX. Provision of Adequate Data (C.G.S. § 19a-486c(a)(9))

Finally, I understand that all of the requests of the Office of the Attorney General and Office of Health Care Access received as of today have been satisfied and we will, of course, provide any further information requested.

CONCLUSION

In summary, we believe that the transaction proposed with Prospect not only satisfies all the applicable statutory criteria, but also is a transaction that best addresses the ongoing health care needs of the community while preserving Waterbury Hospital as a functioning health care institution. I thank you for the opportunity to make this presentation to you today and would be happy to address any questions or comments you might have.

PREFILE TESTIMONY OF
DARLENE STROMSTAD

STATE OF CONNECTICUT

OFFICE OF THE ATTORNEY GENERAL

AND

DEPARTMENT OF PUBLIC HEALTH
OFFICE OF HEALTH CARE ACCESS

April 26, 2016

Attorney General Docket No. 15-486-02
OHCA Docket No.: 15-32017-486
Greater Waterbury Health Network, Inc.
Proposed Asset Purchase by Prospect
Medical Holdings, Inc.

I. Introduction

Good afternoon. My name is Darlene Stromstad and I am the President and Chief Executive Officer of Greater Waterbury Health Network, Inc. ("GWHN"). Thank you for providing us with the opportunity to submit testimony in support of GWHN's proposal to transfer its assets to Prospect Medical Holdings, Inc. ("Prospect").

Mr. Contadini has provided important background on the proposed transaction and has outlined the extensive process that the Board has undertaken in reviewing the transaction. I would like to provide some additional information on the substance of the proposed transaction and how it will meet the important public need for continued access to care in Greater Waterbury.

II. Background

Waterbury Hospital has been committed to providing high quality, compassionate health care to the greater Waterbury community since the 1890s. GWHN and its affiliates and joint venture companies, are economic anchors, particularly in the City of Waterbury where it is one of the biggest employers. The primary goal in entering into the proposed transaction with Prospect is to ensure sustainable local access to a full range of health care services for the greater Waterbury community.

Reduced reimbursement, increased taxes, and increased capital requirements have all combined to put community hospitals in financial jeopardy. GWHN is no different. In fact, on an operating basis, GWHN has often operated at a loss. The Connecticut hospital tax and reductions in state payments to hospitals have exacerbated an already difficult situation. As a nonprofit entity, access to capital markets is limited, and the market for the tax exempt debt of community hospital is nonexistent.

In his prefile testimony, Mr. Contadini outlined the process that GWHN followed to choose Prospect as an affiliation partner. I'd like to highlight some key terms of the transaction and why they satisfy the regulatory requirements for approval by the Office of the Attorney General and Office of Health Care Access.

III. Benefits of Proposed Transaction

The proposed asset purchase agreement and the other details of the transaction are described in the Application and the "completeness questions" and answers. Some key highlights include:

- The consummation of the transaction will permit GWHN to satisfy its outstanding debt.
- Any funds remaining after payment of liabilities and completion of a wind-down of operations will be transferred to an independent tax exempt foundation which will ensure that the funds will continue to be used in furtherance of charitable health care purposes and to support and promote health care generally in the communities traditionally served by GWHN.
- The hospital will have a local advisory board that will oversee quality issues and permit continued community involvement in operations.
- Prospect will offer employment to all employees of GWHN in good standing and assume GWHN's pension obligations to employees. Existing union contracts will be maintained.
- Subject to the conditions described in the Application and Asset Purchase Agreement, Prospect will commit to spend not less than $55,000,000 on capital items at GWHN over seven years.
- After the closing, Prospect will continue GWHN's policies regarding charity care or will adopt other policies that are at least as favorable to the community as GWHN's current policies.

Prospect will bring the strength of its Coordinated Regional Care model (described in more detail in Prospect's testimony) to the service area of GWHN and provide innovation that GWHN could not possibly provide independently. This model will provide opportunities for collaboration among hospitals, physicians and other providers in the region in new value-based purchasing programs offered by payors. From a resource perspective, Prospect's capital commitments and better access to the capital markets will ensure ongoing investment in hospital operations. In addition, the ability to participate with Prospect's other hospitals in group purchasing will create economies of scale. Access to capital, retirement of GWHN's current debt, and pension liabilities assured, will better position the post-closing hospital financially going forward. In simple terms, Prospect's financial strength and health care experience will ensure continued access to care at a local level with the backing of a national health system.

IV. Public Need and Satisfaction of Regulatory Requirements for Approval

Mr. Contadini has described the due diligence to determine the feasibility to enter into the proposed transaction with Prospect, and to ensure that charitable assets are preserved as required by the Conversion Act (C.G.S §19a-486 et seq.). In addition, as detailed in our application, the proposed transaction satisfies the requirements for approval by the Office of Health Care Access as set forth in C.G.S. §19a-486d and C.G.S. §19a-639. A brief summary is set forth below:

A. The Purchaser Has Made a Commitment to Provide Health Care to the Uninsured and the Underinsured (C.G.S. §19a-486d(a)(1)).

As set forth above, Prospect has agreed to ensure that the post-closing hospital will maintain and adhere to GWHN's current policies regarding charity and indigent care or adopt other policies that are at least as favorable to the community as GWHN's current policies. Health care for the uninsured and underinsured in our community will continue and access to care for our neediest populations will be preserved.

B. Health Care Providers or Insurers Will Not Be Offered the Opportunity to Invest or Own an Interest in the Purchase or Entity Related to the Purchaser (C.G.S. §19a-486d(a)2)).

No health care provider or insurer will be offered the opportunity to invest or own an interest in Prospect or any Prospect affiliate as part of this transaction.

C. The Proposed Transaction is Consistent With Applicable Policies and Standards adopted in Regulations by the Department of Public Health (C.G.S. §19a-639(a)(1)).

The Office of Health Care Access has not yet completed the regulations. However, it has adopted various procedural standards (Connecticut Agencies Regulations §§19a-613-1 through 19a-653-4) and has issued an informational Certificate of Need Application Guide. The Applicants have responded to all requests for information and have worked to ensure that all procedural requirements have been fulfilled.

D. The Proposed Transaction is Consistent with the Overall Goals of the Statewide Health Care Facilities and Service Plan (C.G.S. §19a-639(a)(2)).

The Office of Health Care Access first published its Statewide Health Care Facilities and Services Plan (the "Plan") in October 2012 and supplemented it in 2014. Section 1.4 of the Guiding Principle of the Plan states: "The goal of [the Office of Health Care Access]'s planning and regulation activities is to improve the health of Connecticut's residents; increase the accessibility, continuity and quality of health services; prevent unnecessary duplication of health resources, and provide financial stability and cost containment of health care services." The Plan specifically acknowledges that hospital merges, affiliation and acquisitions are anticipated as a response to major changes in the way health care is delivered and financed. (Plan at pp. 7-8, Sec. 1.8.5)

The proposed affiliation with Prospect will enable GWHN to benefit from economies of scale when purchasing supplies and services, share best practices, and improve access to capital. This will allow GWHN to make capital investments and reinvestment in its facilities, equipment, and in medical and information technology. These investments will in turn allow GWHN to attract and retain physicians and providers needed to serve its communities. All of this will ensure continued access to primary care, acute care and post-acute care in the communities currently served by GWHN and, as such, is consistent with the overall goals of the Statewide Health Care Facilities and Service Plan.

E. There is a Clear Public Need for the Proposed Transaction ((C.G.S. §19a-639(a)(3)).

Waterbury Hospital is a "safety net" hospital. It serves a critical role in the community's health care. In 2015:

- 12,000 individuals were treated at Waterbury Hospital as inpatients;
- 180,000 individuals were treated on an outpatient basis;
- 134,000 patient visits to community-based physicians employed by Alliance Medical Group and Cardiology Associates of Greater Waterbury ;
- Almost 2,300 patients were cared for at home by the VNA;
- 150,000 patients were treated at Access Rehab Centers; and
- The emergency department treated 54,000 patients, including a large number of patients in need of urgent behavioral health services.

It is clear from the statistics that GWHN serves a critical need in the community. The proposed transaction will ensure that this need continues to be met and that services remain available in the local community.

F. The Proposed Transaction is Financially Feasible (C.G.S. §19a-639(a)(4)).

The Proposed Transaction will result in a stronger and more financially secure GWHN. The purchase price to be paid by Prospect will permit GWHN to pay its debts, including its outstanding bonds. Prospect will also assume GWHN's pension liabilities. This, combined with economies of scale and purchasing power as part of a broader network, will better position GWHN to handle the new regulatory and financial reality for community hospitals today.

In addition, Prospect's capital commitments will permit significant capital improvements over the next several years to the infrastructure of the hospital. Further, implementation of Prospect's Coordinated Regional Care model will offer GWHN facilities access to resources, systems and efficiencies

which are essential for long term success in the evolving health care marketplace.

As Prospect will testify in more detail, Prospect is financially stable and prepared to commit to continued care in the GWHN community.

G. The Proposed Transaction Will Improve Quality, Accessibility and Cost Effectiveness of Health Care Delivery to the Region, Including for Medicaid Recipients and Indigent Persons (C.G.S. §19a-639(a)(5)).

As detailed in the application, the proposed transaction will ensure continued access to care for the residents of Greater Waterbury. Through implementation of its innovative Coordinated Regional Care model, quality care will be maintained in a cost-effective manner and GWHN will be poised to participate in newly evolving reimbursement models. And because Prospect has committed to continued charity care and to continue participation in Medicaid, Medicaid recipients and indigent persons will be assured of access to needed services.

H. GWHN's and Prospect's Past and Proposed Provision of Health Care Services to Relevant Patient Populations, Including Medicaid Recipients and Indigent Persons Support Approval of the Transaction (C.G.S. §19a-639(a)(6)).

Prospect has committed to maintain services for Medicaid recipients and to charity care policies for uninsured and underinsured patients at least as favorable as those currently in place at GWHN. Patient access for all will be maintained and there is no anticipated change in the payor mix as a result of the proposed transaction.

I. GWHN and Prospect Have Satisfactorily Identified the Population to be Served by the Proposed Project and Satisfactorily Demonstrated that the Identified Population has a need for the Proposed Service (C.G.S. §19a-639(a)(7)) and Have Established Sufficient Utilization Statistics (C.G.S. §19a-639(a)(8)).

In the application, GWHN and Prospect have identified the population to be served and submitted volume statistics establishing that GWHN serves a significant number of patients each year. Approval of the proposed transaction will ensure that these services remain available to the community.

J. GWHN and Prospect Have Satisfactorily Demonstrated that the Proposed Transaction Will Not Result in an Unnecessary Duplication of Existing or Approved Health Care Services or Facilities (C.G.S. §19a-639(a)(9)).

The proposed transaction will preserve existing services and will not establish unnecessary duplication. At this time, no additional services or facilities are planned.

K. The Proposed Transaction Will Not Reduce Access to Services by Medicaid Recipients or Indigent Persons (C.G.S. §19a-639(a)(10)).

As referenced above, there are no proposed changes to the current payor mix as a result of this proposed transaction. Services to Medicaid recipients and to indigent persons will be maintained. Charity care will be available on the same, or more favorable, terms as they are currently.

L. The Proposed Transaction Will Not Negatively Impact the Diversity of Health Care Providers and Patient Choice in the Geographic Region (C.G.S. §19a-639(a)(11)).

The proposed transaction will not negatively impact the diversity of health care providers and patient choice in Greater Waterbury. Prospect does not currently have operations in Connecticut, so the addition of Prospect to the market will enhance diversity and patient choice.

M. Consolidation Resulting from the Proposal Will Not Adversely Affect Health Care Costs or Accessibility to Care (C.G.S. §19a-639(a)(12).

The proposed transaction will not result in any new consolidation, but will preserve current services. As Prospect implements its Coordinated Regional Care model, patient care will be better coordinated and provided in a cost-efficient manner.

As summarized above and as described in significant detail in the application, the applicable regulatory requirements have been satisfied and we urge the agencies to permit the proposed transaction to proceed.[1]

V. Conclusion

Our Board has carefully considered the future of GWHN and believes the reasons to join another system are clear. This affiliation with Prospect will provide needed capital and expertise to allow GWHN to adapt to new health care models of care. Most importantly, it will ensure access to critical health care services to all who reside in Greater Waterbury, including the uninsured and underinsured.

* * * *

[1] Because the application in this proceeding was filed before December 1, 2015, the provisions of subsections (d) and (e) of C.G.S. §19a-639 are not applicable, and are not, therefore, addressed here.

PREFILE TESTIMONY OF
CARL SHERTER, M.D.

STATE OF CONNECTICUT

OFFICE OF THE ATTORNEY GENERAL

AND

DEPARTMENT OF PUBLIC HEALTH
OFFICE OF HEALTH CARE ACCESS

April 26, 2016

Attorney General Docket No. 15-486-02
OHCA Docket No.: 15-32017-486
Greater Waterbury Health Network, Inc.
Proposed Asset Purchase by Prospect
Medical Holdings, Inc.

PREFILE TESTIMONY OF CARL B. SHERTER, M.D.

My name is Carl B. Sherter and I am the immediate past Chief of Staff of The Waterbury Hospital. I've been a practicing physician for over 40 years as a Pulmonary & Critical Care Physician at both Waterbury Hospital and Saint Mary's Hospital for most of that time. During the last 13 years, I've also served as the chair of the State of Connecticut's Medicaid Pharmacy & Therapeutics Committee; this is a volunteer position. This committee has saved the State of Connecticut tens of millions of dollars and still provided the most liberal list of medications to Medicaid patients. As a practicing physician and a volunteer on this committee, I see the deep health care needs of our community.

I also serve as a member of the Hospital's Board of Trustees and its finance committee. Since its inception in 2011, I have served on the Transaction Task Force that was charged with examining the Hospital's opportunities with various capital partners. Health care has changed dramatically since I began practicing and even over the five years that we've been looking for a capital partner, there have been significant changes. Under the Affordable Care Act, health care systems will strive to keep patients healthy and avoid hospitalization. This will require a robust system of care, a data driven system with ancillary services that provide the best care available to every patient. Every health care system is starting to build this model. Our chosen partner, Prospect Health, has this system in place and has proven success with this system in multiple states. We will be up and running in months, not years.

Part of my due diligence was to visit the two hospital system in Rhode Island that Prospect acquired about a year ago. We met with their board President, their CEO, their Chief Nursing Officer and 6 physicians who practice in this system. One physician was in private practice, the others were employed. We spent several hours with this group and asked many

questions. They said the best way to sum up the experience was that Prospect was "real and delivered all they promised". They were practicing accountable care medicine within months and it is working. Patients are happy and get much better care than in the old way of practicing medicine. In Rhode Island, Prospect is eagerly taking on Medicaid patients. Hundreds of physicians signed on over the first year. They like the new model Prospect offers.

This venture will be good for the City of Waterbury. Our population is older then most other Connecticut cities. The poverty rate is over 20%. Our unemployment is over 12%. This venture will help stabilize our city, as the hospitals and the City are the three largest employers.

Waterbury Hospital has provided excellent health care to this community. I am proud of the over 1000 physicians we have trained, many still in our area. We have medical students from all three Connecticut medical schools. I am proud of the nurses, certified aides, respiratory therapists, physician assistants and pharmacists that we have trained. I am proud of the staff of the Hospital for earning numerous awards for quality health care, in spite of the hospital's financial constraints.

Prospect has met numerous times with the physicians who practice in Waterbury. They have reached out to every physician group and attended the Staff Executive Meeting to report on progress and answer questions. The physicians have asked every question and gotten straight forward answers. They support this venture. Over 300 Waterbury physicians have already signed up for Prospect's IPA (Independent Physician Association). This demonstrates their support.

After almost 40 years of practice at Waterbury Hospital, I have seen the Hospital struggle as a stand-alone hospital. We have an average physicians' age of over 59 years. It is getting increasingly difficult to bring young healthcare workers to Waterbury. They want to see a secure future for their practice. They want up to date modern equipment to diagnose and treat their patients. They want a stable future with a capital partner that will help with the economy of scale. They know that the health care delivery model has changed. They want to hit the field running with the proven model that Prospect offers.

The people of Waterbury want excellent health care in their own city. They are a community of family values and support one another. Most of my patients come to my office with family members. They all ask me "Is it going to happen?" I answer "We all hope so". We need a capital partner to make this happen, and Prospect is an excellent choice.

Respectfully submitted,

Carl B. Sherter, M.D.

PREFILE TESTIMONY OF
JAMES MOYLAN

STATE OF CONNECTICUT

OFFICE OF THE ATTORNEY GENERAL

AND

DEPARTMENT OF PUBLIC HEALTH
OFFICE OF HEALTH CARE ACCESS

April 26, 2016

Attorney General Docket No. 15-486-02
OHCA Docket No.: 15-32017-486
Greater Waterbury Health Network, Inc.
Proposed Asset Purchase by Prospect
Medical Holdings, Inc.

Good Afternoon, I'm James Moylan, the interim Chief Financial Officer of Greater Waterbury Health Network, Inc. (GWHN") and I have worked closely with our President, Darlene Stromstad, our Board Chair, Carl Contadini, and our bankers, Cain Brothers, in the development of the process and structure for resolving GWHN's post closing liabilities and the development of an independent foundation for the net proceeds and certain charitable funds.

In accordance with Connecticut's Conversion Statute, an independent foundation ("Independent Foundation") will be created to receive certain charitable funds and, the net proceeds, if any, of the proposed transaction. An Application for Exemption (Form 1023) will be filed about the time of the closing of the Transaction or shortly thereafter; it will seek recognition as a "Type 1 supporting organization" "public charity". The purposes and drafts of Independent Foundation's constituent documents have been detailed at pages 0041-0043 and 00924-00937, respectively. The transfer of any funds to the Independent Foundation would occur after the receipt of a favorable determination letter from the Internal Revenue Service, and, in the case of funds subject to an approximation or construction action, after a judgment has entered and any appeal period has expired.

Unrestricted Charitable Funds:

After all the liabilities of The Waterbury Hospital are satisfied and it is dissolved, an approximation action or construction action, as the case may be, will be required with respect to the unrestricted funds held by the Hospital and the unrestricted income received by the Hospital from trusts held by third parties. These actions regarding the unrestricted assets will determine whether the Independent Foundation will receive the assets and/or income after the Hospital's dissolution or if the assets or income will be paid over to others after the Hospital's dissolution, in order to satisfy the intent and directions of the original donors.

The charitable funds that fall within this category are the following:

- *Unrestricted Income Funds held by The Waterbury Hospital*: Brooker, Forester, Hallden
- *Unrestricted Income Funds held by Third Parties*: Elton, Fulton, Frank Keeling, Jacob Keeling, Lamb, Peck, Poole, W. Easton Smith
- *Unrestricted Income Funds held by Third Parties – with Gift Over Provisions*: Dayton, C. Hellman, R. Hellman, Kirk

Restricted Charitable Funds:

An approximation action will also be required with respect to all the restricted funds (including bed funds) held by the Hospital in order to determine whether the Independent Foundation will receive those assets and/or income or whether the assets or income will be paid over to others, in order to satisfy the intent and directions of the original donors. GWHN anticipates filing the approximation action as to the restricted funds with the Connecticut Superior Court promptly after the receipt of a favorable determination letter from the Internal Revenue Service for the Independent Foundation. The approximation action would involve several gifts which, in light of the sale of GWHN's assets, will no longer be able to achieve their expressly stated purpose. In this action, GWHN will seek a determination that these funds should be transferred to the Independent Foundation so that they can continue to serve their desired charitable purposes as closely as possible to the original charitable intent of the donor. The restricted charitable funds that would be the subject of such actions are:

• Anderson 1943 and 1986 Funds • At Risk Kids • Bevans • Blakesley • Chase [used to underwrite the Henry S. Chase Outpatient Center "Chase Clinic"] • Crozier • Fulling • Grad Nurse • Junior League • Sarann B. Kazanjian Memorial Fund [medical and surgical equipment] and Student Nurse Scholarship Fund	• Kingsbury [bed fund] • Mayo • Meigs • Merriman [defray expenses of personnel of Clinical and Pathological Laboratories to attend scientific meetings] • Permanent Bed Fund [bed fund] • Flora S. Page and George W. Smith [bed fund] • Sperry [bed fund] • Stoughton • Various Gifts [bed fund]

Certain restricted bed funds are in effect hybrids. They allow excess income over that paid out for the specific beneficiaries (for ex. the residents of Naugatuck as to the Hopkins and Warner Funds) to be used for the General Uses and Purposes of the Hospital. The Hospital intends to use such excess income to pay liabilities after the closing of the proposed transaction. After the liabilities of the Hospital are satisfied and it is dissolved, an approximation action or construction action, as the case may be, will be required with respect to these funds

- Margery K. Hayden (Elizabeth K. Hayden Fund)
- Merrit Heminway (Merrit Heminway Bed Fund)
- Abbie C. Hopkins
- Dwight H. Terry and Martha Terry (The Dwight H. and Martha J. Terry Fund)
- Olive Rogers Warner (The Richard Vincent Warner Memorial Fund)
- Estate of Oscar L. Warner (The Warner Memorial Fund)

PREFILE TESTIMONY OF VON CROCKETT

DEPARTMENT OF PUBLIC HEALTH	:	**DOCKET NO. 15-32017-486**
OFFICE OF HEALTH CARE ACCESS	:	
	:	
OFFICE OF THE ATTORNEY GENERAL	:	**DOCKET NO. 15-486-02**
	:	
IN RE: GREATER WATERBURY HEALTH NETWORK, INC. – PROPOSED ASSET PURCHASE BY PROSPECT MEDICAL HOLDINGS, INC.	:	**April 26, 2016**

PRE-FILED TESTIMONY OF VON CROCKETT

I. Introduction

My name is Von Crockett and I am the Senior Vice President of Corporate Development at Prospect Medical Holdings, Inc. ("PMH"). I am here today to speak in support of the conversion application (the "Application") regarding the proposed acquisition of assets of Greater Waterbury Health Network, Inc. ("GWHN"), including The Waterbury Hospital ("Waterbury Hospital"), by PMH. Specifically, I will address how PMH's operational resources and industry know-how will benefit GWHN.

Professional Background

Prior to my appointment as Senior Vice President of Corporate Development at PMH, I served as the Chief Executive Officer of Southern California Hospital at Culver City from 2009 to 2012. Prior to joining Southern California Hospital at Culver City, I held various positions in the health care industry including, but not limited to, President and Chief Executive Officer of Centinela Hospital Medical Center in Los Angeles, California; System Chief Operating Officer of Centinela Freeman Health System in Los Angeles, California; Chief Operating Officer and then the Chief Executive Officer for Doctors Medical Center San Pablo/Pinole in San Pablo, California;

Chief Financial Officer of Sutter Healthcare in Antioch, California; and Chief Financial Officer of Sharp Chula Vista Medical Center in San Diego, California.

Summary of PMH's Operations

PMH owns and operates fourteen (14) acute care and behavioral hospitals around the country in various markets. PMH also owns a network of specialty and primary care clinics in each of its regions. Through PMH's medical group segment, PMH manages the provision of physician services to approximately 300,000 patients in Southern California, South Central Texas and Rhode Island through a network of primary care physicians and specialists.

My remarks today will address how PMH's operational resources and strengths are beneficial to GWHN and support the approval of the Application through PMH's (i) quality assurance and performance improvement, (ii) successful track record with healthcare operations; (iii) ability to achieve operational efficiencies; (iv) collaboration with the local board on community insight and needs ("Local Board"); and (v) allocation of resources for building comprehensive networks of care.

II. Quality Assurance and Performance Improvement

PMH is dedicated to providing quality care and is continually aiming to improve quality and performance. PMH strives for the best patient outcomes while maintaining high standards of patient safety. PMH recently modified its Quality Assurance and Performance Improvement (QAPI) oversight over its network of hospitals. Historically, PMH relied on local management and the local advisory boards to provide reports and make requests for resources as necessary with respect to each hospital's QAPI. More recently, PMH hired the following positions at a corporate level:

A. Chief Quality Officer;

B. Associate Vice President of Regulatory and Patient Safety.

Additionally, the following roles are in the process of being filled:

C. East Region VP of Quality and Patient Safety

D. Corporate AVP of Regulation and Accreditation Programs

E. Corporate Director of Performance Improvement

F. Directors of Survey Readiness Teams:

i. Clinical Practices

ii. Environment of Care and Life Safety

iii. In Patient Care

The roles of these new officers ("Corporate Quality Team") are to interact with local board and local leadership on continuous basis to ensure safety, adherence to regulatory requirements, clinical excellence and patient satisfaction at all PMH hospitals and to closely monitor execution of plans of correction in response to any issue raised in surveys by regulatory authorities responsible for quality. It will also be the responsibility of the Corporate Quality Team and their staffs to identify issues early and communicate them to PMH corporate so that we may address such issues quickly and efficiently. Accordingly, it will be the responsibility of the Corporate Quality Team to marshal corporate resources to address all of the above areas. The collective duties of the Corporate Quality Team are to:

1. Monitor the activity and quality programs at each hospital (including all adopted recommendations by the local advisory boards);
2. Assist in providing necessary resources to implement all quality programs at local hospitals;

3. Assist in providing necessary resources to address corrective action plans in the event that quality goals are not met by the local hospitals;
4. Assist in accreditation survey readiness; and
5. Assist in sharing of best practices among all local hospitals.

The description of the Corporate Quality Program, including an organizational chart, is described in more detail in Exhibit A to my testimony. The CVs of the persons hired for the positions are attached as Exhibit B to my testimony.

At the local level, direct responsibility for the quality programs for each PMH hospital is administered by hospital leadership so that any and all quality issues raised by physicians and/or staff are timely addressed and quickly resolved. Oversight of the local leadership is provided by, and is the responsibility of, PMH's senior management.

The increase in corporate oversight over QAPI resulted from recent surveys at PMH's California hospitals that resulted in Immediate Jeopardy status at two of its hospitals. At Los Angeles Community Hospital, an Immediate Jeopardy status citation was issued by CMS due to physician misconduct. A corrective action plan was submitted and a re-survey was conducted that resulted in the hospital remaining out of compliance for two areas: Nursing Services and Infection Control. A corrective action plan for these two deficiencies has been submitted to CMS and the hospital is awaiting a re-survey for these two deficiencies.

At Southern California Hospital at Culver City, two Immediate Jeopardy citations were issued on account of (i) temperature and humidity issues primarily in the operating rooms; and (ii) sterilization of surgical products. Corrective action plans were submitted and PMH had a resurvey by CMS the week of April 4th, 2016 and is awaiting the written results of the re-survey.

OHCA and the AG are in receipt of the Corrective Action Plan for Los Angeles Community Hospital (Responding to Deficiencies Cited as a result of Resurvey Conducted February 16-17, 2016) submitted by PMH.

In response to the Immediate Jeopardy citations, PMH has taken swift action, including but not limited to, increasing its oversight of QAPI at its network of hospitals, as well as retaining a nationally recognized consulting firm to conduct a review of the operations and all policies and procedures in California. Based on the recommendations of the consulting firm, PMH has implemented a number of changes in the policies and procedures as well as the operations of its Southern California Hospitals. The Quality Improvement Plan adopted at Los Angeles Community Hospital and Southern California Hospital at Culver City has been provided hereto as Exhibit C.

PMH has agreed to maintain the respective quality program and goals of Waterbury Hospital for a period following the transaction. PMH is also committed to provide the necessary staff to support such quality programs. Finally, PMH agrees to share the best practices at its other facilities with Waterbury Hospital.

III. PMH Has a Successful Track Record

PMH has measureable success in all of its acquired hospitals. PMH has a successful track record operating fourteen (14) hospitals in different states for close to a decade. Many of these facilities were financially distressed when acquired by PMH. PMH has never abandoned or closed a hospital that it has purchased. PMH's management team has years of experience in operating community hospitals. PMH even purchased a closed hospital in California and re-opened it. PMH's hospital operations were established in August 2007 with the acquisition of Alta Hospitals System, LLC, a system of four community-based hospitals in Southern California with a combined

339 licensed beds. PMH's experience and know-how in operating hospitals, especially hospitals with financial distress at acquisition, will benefit the GWHN community.

In addition to its operational expertise with hospitals, PMH has thirty (30) years' experience operating and supporting independent physician practice associations (IPAs) under risk-based arrangements with payors in California. PMH has successfully engaged insurers and developed partnerships that result in a full range of risk contracts. PMH manages the provision of healthcare services to approximately 260,000 members through its network of over 8,900 primary care physicians and specialists. Its hospitals manage the care of 30,000 capitated Medicaid beneficiaries. This experience allows PMH to bring its process knowledge and experience to build and operate health systems to Connecticut.

PMH has been successful in implementing its Coordinated Regional Care ("CRC") model at all of its hospitals. Successful implementation of CRC has brought coordination of care across its hospitals and all providers in its network and is a key to PMH's operational success. My colleague, Dr. Lew, will speak to the specific elements and the achievements of CRC.

PMH has been successful in embracing health care reform measures. PMH is on the forefront of health care reform measures and has the operational resources to integrate such measures into health systems. To align with health care reform, PMH and its affiliated medical groups and hospitals collaborate closely in partnership with health plans to give patients and their families highly coordinated, personalized care. PMH's experience in embracing health care reform will provide the post-transaction health system the ability to adjust to a rapidly changing healthcare delivery environment and improve care coordination.

PMH's know-how derived from its past and current operational success in health care systems and hospitals across the country will benefit the GWHN community and ensure the sustainability of the health system in the service area.

IV. PMH Will Bring Beneficial Operational Efficiencies to GWHN

PMH will bring valuable operational efficiencies to the post-transaction health system. PMH hospitals benefit from PMH's years of experience in hospital ownership and PMH's economies of scale. Affiliation with PMH will offer GWHN economies of scale that include: (i) purchasing power, (ii) supply chain benefits, (iii) employee benefits savings, and (iv) streamlined revenue collection, among other value added initiatives that will reduce the cost of operations. As with all of its hospitals and affiliated entities, PMH expects to implement cost and clinical efficiencies over time utilizing a planned and coordinated approach. The cost savings to operations will improve finances and help ensure the sustainability of the post-transaction health system well into the future.

Through PMH's economies of scale, the hospitals will enjoy higher discounts for supplies and drugs as part of a larger organization in the first year. Subsequently, the hospitals will be entitled to discounts and pricing through better compliance with purchasing protocols. It should be noted that by affiliating with a larger organization, the post-transaction health system will benefit from economies of scale due to PMH's overall purchasing power. The post-transaction health system will realize benefits in lower supply costs, drug costs and costs related to consultants.

Additionally, costs to provide fringe benefits will decrease in the first full year of operation because PMH is essentially self-insured for providing benefits. Self-insured benefits save on the profit portion of the premium generally paid to third parties in order to provide fringe benefits to

employees. Furthermore, the operational resources of PMH will be made available to develop and implement strategic plans. Also, revenue collection will be streamlined through PMH's system.

PMH has realized numerous efficiencies at all its hospitals. Examples include the elimination of rental expenses of beds, pumps, ventilators and other equipment by purchasing the items, reduced registry use through proper hiring and management of registry utilization process, development of staffing matrix for all Southern California hospitals and implementation of real-time monitoring of labor standard adherence. PMH has leveraged surgical volumes and practice standardization to reduce implant pricing. PMH has also implemented pharmacy cost reduction strategies such as auto-substitutions and Group Purchase Organization pricing at all hospitals. PMH will bring operational efficiencies to the GWHN system that result in cost savings.

In today's health care landscape, PMH's operational efficiencies are critical to meeting the requirements of health care reform measures. PMH's operational efficiencies are necessary to improving the financial viability of GWHN to ensure the sustainability of the post-transaction health system.

V. PMH's Utilization of a Local Board

PMH's operational strategy for GWHN includes the use of a Local Board to achieve provider and community insight into health system operations and community needs. Following the closing, Waterbury Hospital will maintain a Local Board made up of nine (9) to twelve (12) members. It is PMH's preference that at least one-third of the Local Board members are physicians and it is expected that GWHN Board members will serve on the Local Board. The CEO of the post-closing hospital will be a member of the Local Board. A more detailed description of the Local Board is found in the Asset Purchase Agreement. The Local Board will advise on community needs and serve as a resource to PMH with respect to the investment of capital,

assisting with maintenance and implementation of a strategic business plan for the hospitals, making recommendations for medical staff credentialing and quality assurance programs as well as assisting with issues relating to accreditation for the hospitals.

Use of a Local Board results in a delivery model which engages the local community and strengthens the health system, and provider and community alignment. PMH's commitment to including these local advisors into operational discussions ensures that the community values are understood and the community needs are recognized.

VI. PMH's Operational Resources Will Aid in Building Comprehensive Networks of Care

PMH's operational resources, including the proprietary CRC model, will benefit the post-transaction health system by aiding in the integration and expansion of the post-transaction health system's network of providers, as well as its program offerings beyond what can be done by GWHN alone. PMH's operational strategy, as implemented through CRC and other measures, has led to stronger integration with provider affiliates to coordinate care. It has also improved the overall health of the population and enhanced the standard of care for its patients. PMH will implement these operational resources in the GWHN health system.

First, PMH utilizes its operational resources and CRC model to build regional networks with its hospitals and medical groups that contribute to the entire continuum of care. Collaboration with PMH, though the implementation of its CRC model, provides an environment that aligns GWHN's physicians and other providers across the continuum of care, provides access to evidence-based practices to improve quality and patient safety, enhances efficiency through uniform productivity and financial management, and develops integrated information systems. PMH focuses on the management of patients with challenging chronic medical conditions in order

to keep patients well in the most appropriate care setting. By utilizing appropriate care settings and resources and managing chronic care patients, PMH avoids unnecessary, inefficient and duplicative services and reduces medical errors which result in improved quality, efficiency and cost savings. My colleague, Dr. Lew, will discuss the CRC model in more depth and the results it has achieved within PMH operated health systems.

Further, the PMH approach to care coordination through the pursuit of delegated risk-based contracts aligns incentives across all healthcare stakeholders. Through collaboration with healthcare payors, PMH is able to further integrate care delivery among providers and regionalize the health care delivery system in the service area. PMH is also better equipped to more effectively identify patients at risk and build upon existing initiatives. PMH's experience in obtaining these risk-based contracts will benefit the post-transaction health system and provide new incentives for care coordination.

Lastly, PMH has developed and implemented high intensity care management programs that integrate behavioral and physical health capabilities to effectively manage the care of patients with significant co-morbidities in all of its hospitals. PMH will bring this capability to the GWHN system along with other resources to meet health care reform requirements. PMH is committed to succeed in new value-based performance delivery model and has the ability to share best practices among its member hospitals to reduce readmissions. In addition, PMH will work with the medical staff of the hospitals on clinical quality matters to share best practices and establish clinical quality goals and measure progress.

In sum, PMH's operational resources will be beneficial to the post-transaction health system because it will develop regionalized coordinated care systems, enter into risk-based

contracts that promote cost effective quality care and integrate PMH's high intensity care management programs.

VII. Conclusion

PMH's vast operational experience, resources and strategies will greatly benefit the post-transaction health system beyond what GWHN can do today. PMH's successful track record, its ability to achieve operational efficiencies, the use of Local Boards to serve as a resource for community insight, and PMH's ability to build comprehensive networks of care are all examples of PMH's valued added operational expertise. Without experienced operational resources, hospitals cannot meet the increasing burdens required to be competitive in today's healthcare environment. PMH has the strategic and operational ability that will directly benefit GWHN and the community it serves. For all of the foregoing reasons, we respectfully request that the Attorney General and the Department of Public Health division of the Office of Healthcare Access approve this Application.

Thank you for your time and I welcome any questions.

EXHIBIT "A" TO VON CROCKETT TESTIMONY

Introduction

Philosophy: To ensure that our patients receive the right care, at the right time, in the right setting, with efficiency and compassion.

Mission: Above all, we are committed to quality in all aspects of healthcare delivery, including:

- Striving for the best possible patient outcomes
- Maintaining the highest standards of patient safety
- Acting with integrity at all times
- Promoting open communication
- Collaborating to better serve the healthcare needs of our communities

Purpose: The PMH Quality and Patient Safety Program will focus on continuous enhancement of quality and safety for all we serve. Every employee plays a crucial role in ensuring patient, visitor and employee safety. We will work to reconnect quality and patient safety to clinical care thereby promoting high quality, safe, effective and efficient care. Additionally, the program will strive to build a just culture of safety by implementing strategies to reduce medical errors. Reducing risk and ensuring safety requires increased attention to systems that prevent and mitigate errors. The corporate quality and patient safety team will work with hospital to provide appropriate solutions to ensure best practices, resulting in quality patient care and service.

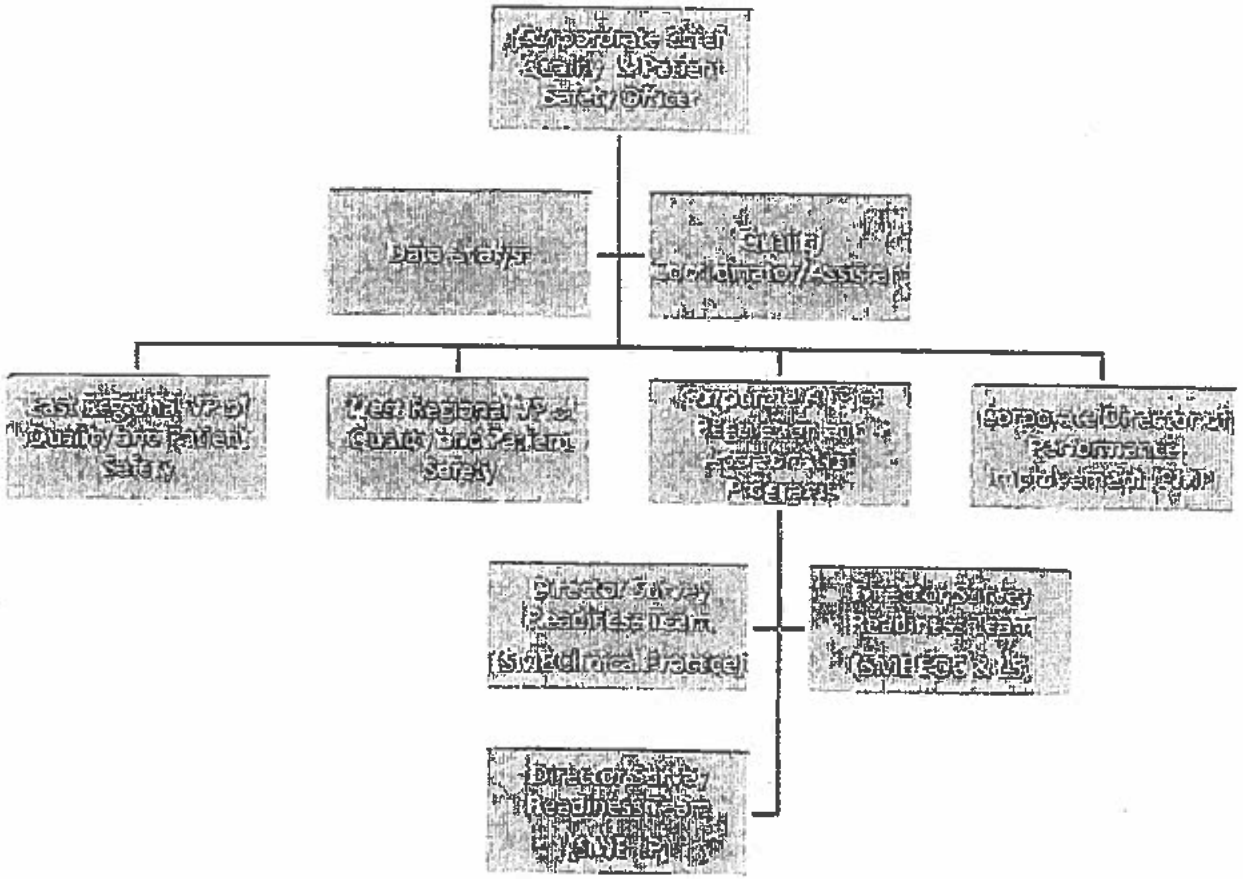
Goal: Build corporate and regional structures and processes necessary to become a high reliability organization promoting patient-focused, high quality, safe, compassionate, efficient, and effective care.

Model: We will achieve our mission and purpose through building and sustaining a robust quality and patient safety program at all levels of the organization. The key elements of this program will include: innovation, service, education, transparency, patient and physician partnerships. We will be using the Donabedian Quality of Care Model as our framework for building the program. Our initial focus will be on creating the corporate structure to enhance our ability to build processes and achieve outcomes.

01541

Structure

Corporate and Regional Quality Department Structure



01542

Roles and Responsibilities

Chief Quality Officer - Provides Oversight to the Corporate Quality and Patient Safety Agenda. Activities may include but are not limited to:

- Collaborates with hospital executives, and engages with hospital leaders and clinicians in identifying and implementing unique and varied initiatives aimed at improving patient care quality and safety
- Leads continuous improvement programs throughout the organization and helps develop a culture of continuous improvement and excellence
- Collaborates with hospital executives and engages with leaders and clinicians throughout the organization to build quality, efficiency, effectiveness and a sense of shared accountability
- Collaborates with hospital executives and engages with leaders to ensure continuous survey readiness.
- Takes a clinical leadership role in evaluating care delivery and develops the infrastructure for improvement
- Strengthens the data and information capabilities of the organization and champions a data-driven environment

Regional VP of Quality and Patient Safety – Reports to the CQO.

- Provides regional support and expertise to hospital leadership
- Leads continuous improvement programs in the assigned region and helps develop a culture of continuous improvement and excellence in those regions
- Reviews all regional hospital serious events and assists the hospital leadership in mitigation as appropriate.
- Collaborates with regional hospital executives and engages with leaders and clinicians throughout the organization to build quality, efficiency, effectiveness and a sense of shared accountability
- Collaborates with hospital executives and engages with leaders to ensure continuous survey readiness and sustainment of performance improvement activities
- Strengthens the data and information capabilities at the regional level and champions a data-driven environment

01543

Corporate AVP Regulation and Accreditation – Reports to the CQO

- Provides oversight to all aspects of the Survey Readiness program
- Serves as subject matter expert and hospital resource for regulation and accreditation programs
- Creates, implements, and maintains survey readiness tools that meet federal, state, and local statutes and regulations.
- Ensures survey readiness tools meet the applicable accreditation standards i.e. TJC, DNV, etc.
- Deploys and provides oversight to the survey readiness team during hospital site visits.
- Reviews all survey action plans and provides constructive input prior to submission to the appropriate regulatory or accreditation agency.

Director Survey Readiness Team – Reports to AVP of Regulatory and Accreditation Programs

- Serves as a subject matter expert and support person to all hospitals.
- Completes full survey readiness assessments at hospitals and provides recommendations for improvement
- Tracks hospital performance improvement activities based on site visit findings

Director of Performance Improvement – Reports to CQO

- Leads and facilitates system and hospital wide strategic quality and safety improvement projects.
- Develops and coaches performance improvement implementation strategies in support of the strategic goals.
- Collaborates with hospital executives, and engages with hospital leaders and clinicians in designing and implementing quality, patient safety and clinical excellence performance improvement activities.
- Leverages complex decision support/data systems to establish operation and quality related metrics to measure progress and sustainability of improvement efforts/initiatives.
- Ensures seamless hand-off of completed improvement initiatives to hospital operations leadership
- Engages with hospital leadership in implementing special initiatives to support the high reliability performance improvement initiatives of PMH as required.

01544

Data Analyst - Reports to CQO

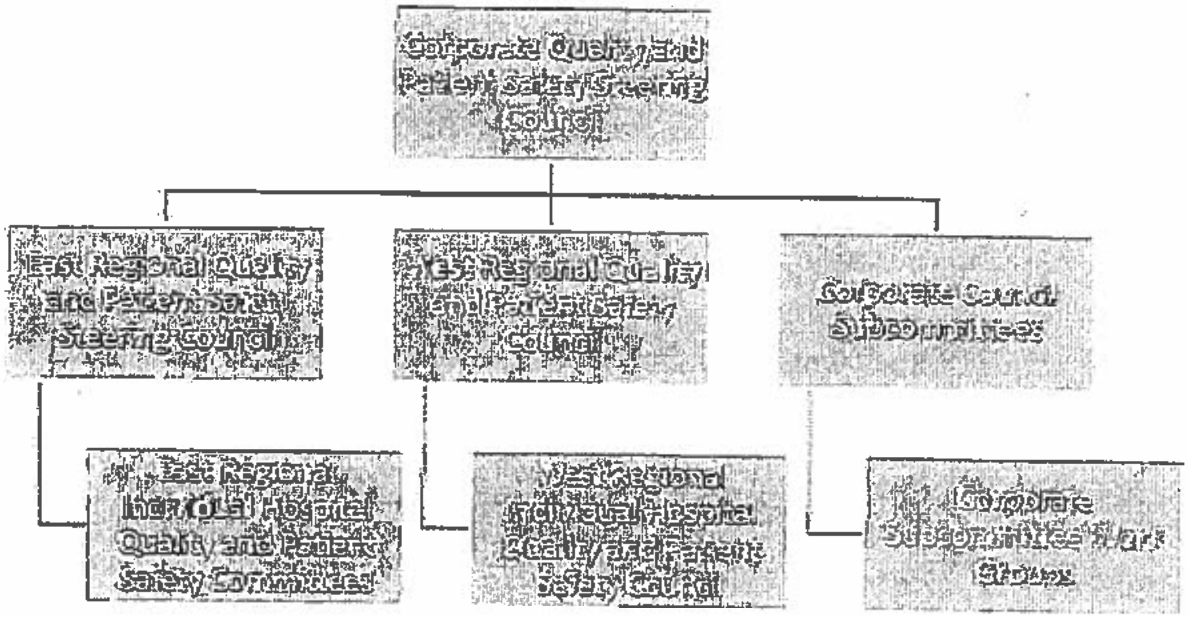
- Interprets data, analyzes results using statistical techniques and provides ongoing quality, patient safety, and clinical effectiveness reports
- Develops and implements data collection systems and other strategies that optimize statistical efficiency and data quality
- Works closely with management to prioritize business and information needs
- Locates and defines new process improvement opportunities
- Prepares tables, charts and graphs to summarize the results of these analyses

Quality Coordinator/Assistant – Reports to CQO

- Serves as Administrative Assistant to the Corporate Quality and Patient Safety program
- Assists with gathering quality and patient safety data for analysis

01545

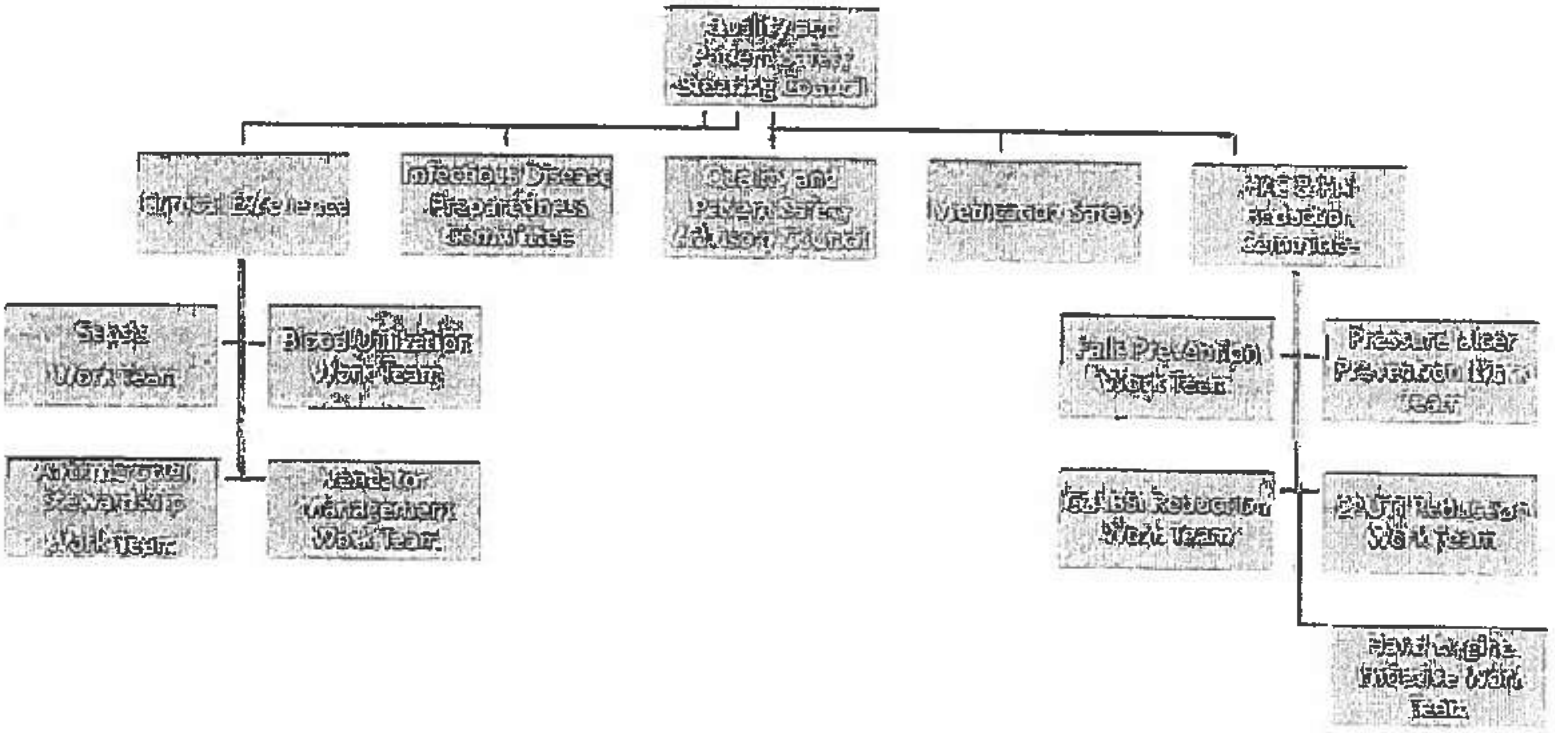
Quality and Patient Safety Communication and Reporting Structure



Note: Hospital Quality and Patient Safety Committees will report up through the appropriate regional steering council which will then report up through the corporate Quality and Patient Safety Steering Council.

01546

Corporate Quality and Patient Safety Steering Council Subcommittee and Work Group Sample Structure



Note: The above diagram outlines potential subcommittees and work groups. The actual infrastructure will be dependent upon the identified needs at the hospital, regional and corporate levels.

01547

Corporate Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the regional councils
- Assists with the development of the corporate quality and patient safety strategy
- Prioritizes Quality and Patient Safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from chartered committees and work teams
- Engages in identifying ongoing quality and patient safety performance improvement opportunities.
- Ensures follow-up on regional initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety.
- Assist with barrier removal to achieve quality and patient safety strategies.

Regional Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the hospital councils
- Assists with the development of the corporate and regional quality and patient safety strategy
- Prioritizes regional quality and patient safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from regional chartered committees and work teams
- Engages in identifying ongoing quality and patient safety performance improvement opportunities for the region.
- Ensures follow-up on hospital initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety at the regional level.
- Assist with barrier removal to achieve quality and patient safety strategies.

01548

Corporate Steering Council Chair: PMH Chief Quality Officer

Suggested Members: Appropriate Corporate Senior Leadership, Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, Medical Staff Director, IT&S Director, Supply Chain, others

Regional Steering Council Chair: TBA

Suggested Members: Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, IT&S Director, Supply Chain,

Ad Hoc Members: Radiology, Lab, Medical Staff, others as appropriate to subject matter

Committees: Responsible for building the infrastructure and provide input for key quality and patient safety activities. Potential Committees may include Medication Safety, Clinical Safety Improvement, Infectious Disease Preparedness, Regulation and Accreditation, Clinical Excellence, others as needed.

Rapid Action Work Groups: Completes rapid work for quick process and outcome improvement as needed. Examples include Core Measure improvement, HAC prevention, HAI prevention, Clinical Excellence etc. The team is responsible for creating and initiating performance improvement programs to include project plan, key elements, tool kits etc. Teams have a limited life depending upon the work product and outcomes.

01549

Process

High Reliability Organization: A high reliability organization is an organization able to continually manages their environment thoughtfully and assume a constant state of vigilance resulting in the fewest possible number of errors, despite operating in a high stress, high-risk environment. Adapting and applying the lessons of this science to health care offer the promise of enabling hospitals to reach levels of quality and safety that are comparable to those of the best high-reliability organizations. These changes will be achieved through:

- Leadership's commitment to achieving zero patient harm
- A fully functional just culture of safety throughout the organization
- Widespread deployment of highly effective process improvement tools

PMH is in the process of adopting high reliability behaviors and strategies to ensure a reduction in overall medical errors for our patients. High reliability organizations are built on a foundation of a just culture of safety. A key component of building this foundation is a robust incident reporting and analysis system to better understand trends, opportunities and strengths. We encourage that every unsafe condition, near miss/great save or harm event be reported and analyzed to identify opportunity for improvement to prevent future harm. We commit to maintaining transparency through sharing best practices and lessons learned across all of our hospitals. We further commit to build and share evidence-based, best practice, and performance improvement processes and tools kits to assist with supporting our quality and patient safety high reliability organization initiatives.

Strategies:

- **Accreditation and Regulation Readiness** – Implement an accreditation and regulation survey readiness team to ensure all hospitals are continually in compliance with the highest level of quality care and patient safety standards as defined by CMS, TJC, DNV, NCQA, and applicable State and local statutes and regulations. Provide subject matter expertise and tools to support the facilities in ongoing survey readiness.
- **Patient Experience** – Create and implement a patient experience program to ensure that each patient is treated with respect, compassion, consideration and is an integral partner in his or her plan of care.

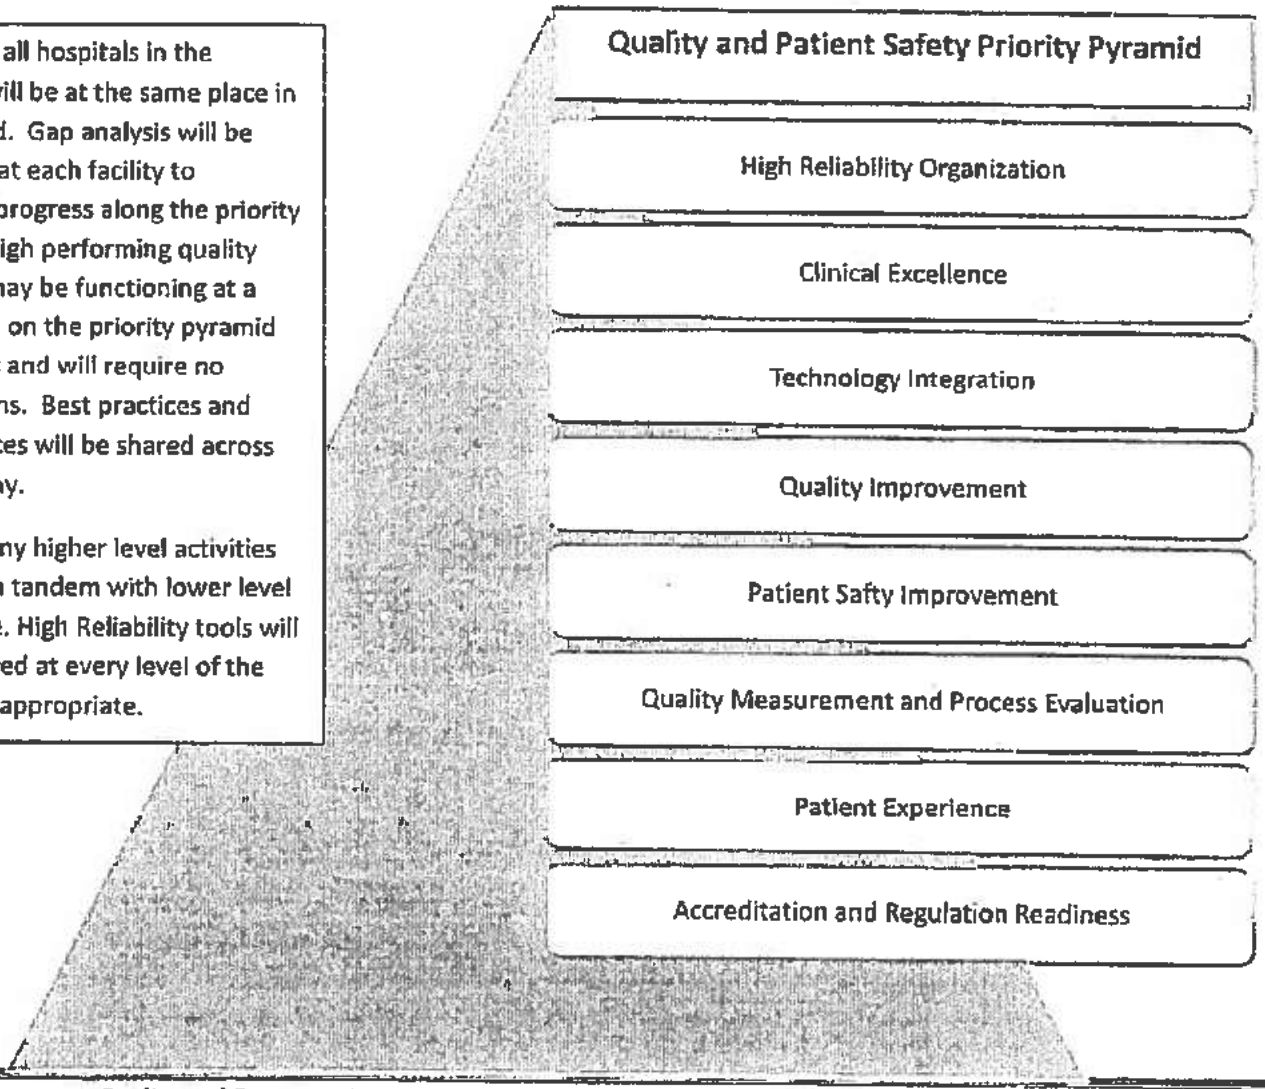
01550

- **Quality Measurement and Process Evaluation** – Build a standardized corporate quality and patient safety dashboard with national benchmarks. Institute monthly Quality and Patient Safety calls to review metrics, analysis and action plans to ensure ongoing improvement.
- **Patient Safety Improvement** – Create and implement a plan to move all hospitals towards a just culture of safety and accountability. Ensure quality and safe delivery of healthcare by defining and promoting consistent processes for identifying situations that may put patients or others at risk and acting to prevent or control those risks i.e. thorough and credible analysis of incidents of harm, near misses/great catches; FMEAs; ongoing learning through transparency, and implementation of patient safety tools.
- **Quality Improvement** - Maximize pay-for-performance for quality performance and outcomes metrics including VBP, readmission reduction program, HAC/HAI reduction program, Medicare spending per beneficiary (MSPB), Meaningful Use etc.
- **Technology Integration** – Maximize available patient safety technologies including CPOE, health information technology, clinical decision support, bar coding and other technologies to enhance the quality and patient safety strategy.
- **Clinical Excellence** – Improve mortality, complications, and length of stay through implementation of clinical excellence initiatives such as sepsis, stroke and STEMI management; effective blood utilization; ventilator management; and antibiotic stewardship.
- **High Reliability Organization** – Implement proven high reliability techniques and nationally recognized best practices to prevent harm and promote quality of care such as Red Rules (limited), SBAR (Situation, Background, Assessment and Recommendation), and STAR (Stop, Think, Act and Review) etc.

01551

Note I: Not all hospitals in the Company will be at the same place in the pyramid. Gap analysis will be completed at each facility to determine progress along the priority pyramid. High performing quality programs may be functioning at a higher level on the priority pyramid than others and will require no interventions. Best practices and performances will be shared across the company.

Note II: Many higher level activities will occur in tandem with lower level activities i.e. High Reliability tools will be introduced at every level of the pyramid as appropriate.



01552

Outcomes

Corporate Quality and Patient Safety Dashboard

Quality, clinical and patient safety performance and outcomes will be measured via the newly created corporate Quality and Patient Safety Dashboard. Dashboards will be share across the company for the purpose of benchmarking and learning from other.

Hospital Quality and Patient Safety Call

Outliers will be addressed during the regularly scheduled hospital quality and patient safety calls. Best practices will be identified and shared with other hospitals in the company during these calls. The hospital will implement performance improvement activities to address the root cause and followed-up will occur during the next call. Once well established, the hospital call will occur at the regional level with a summary report forwarded to the corporate CQO.

EXHIBIT "B" TO VON CROCKETT TESTIMONY

DEBBIE BERRY, RN, MSN, LHRM, CPHQ, CPPS, CWCN, CCN

[redacted]

PROFESSIONAL EXPERIENCE

4/2015 – Present

Vice President of Quality and Patient Safety
Gulf Coast Division (GCD) of HCA, Houston, TX

- Work directly under the GCD Chief Medical Officer to provide oversight for clinical operations and excellence; quality assurance; performance improvement; patient safety, risk prevention and management; infection prevention and control; and medical staff operations for a 13 hospital division.
- Collaborate with the DCMO to build structure and processes to drive improvement in quality, patient safety and clinical excellence outcomes for the GCD by creating and co-chairing a Quality and Patient Safety Steering Council with subcommittees on Medication Safety, Infectious Disease Preparedness, CVAT, Hospital Acquired Conditions/Infection Prevention, and Clinical Excellence.
- Collaborated with the DCMO to build the quality and patient safety strategic plan for 2016 – 2018 that will maximize Value Based Purchasing and other pay-for-performance opportunities; as well as, lead to improved clinical and quality outcomes.
- Provide oversight for Quality and Clinical Operations data mining and analysis for division and facility opportunities.
- Developed and implemented performance improvement strategies and tactics leading to a 25% reduction in catheter associated urinary tract infections, 30% decrease in time to pain management for long bone fractures and a 32% improvement in Outpatient Stroke measures.
- Designed and implemented a Leapfrog "Getting to A" initiative that led to a division average score of "C" to a division average score of "B" and includes a division-wide IRR and validation process.
- Collaborate with the CMO and Performance Improvement team to drive an 11% improvement in sepsis mortality through improving sepsis bundle

compliance by 60%, an 11% improvement in blood utilization, and sustained improvements in 4 of 5 Cardiovascular PCI indicators.

4/2013 - 8/2015 **Assistant Vice President of Quality and Clinical Operations**
West Florida Division (WFD) of HCA, TAMPA, FL

- Work directly under the WFD VP of Quality and Clinical Operations to provide oversight for clinical operations and excellence; quality assurance; performance improvement; patient safety, risk prevention and management; infection prevention and control; and medical staff operations for a 16 hospital division.
- Provide oversight for many of the day to day operations of the Quality and Clinical Operations Department
- Provide oversight to all regulatory and accreditation activities in the 16 hospitals in the WFD of HCA.
- Created a Sentinel Event Webinar preparation program that has led to 100% acceptance of plans of correction and successful completion of measures of success for the past four years.
- Completed due diligence from a quality, patient safety, infection prevention, nursing operations and medical staff perspective for 4 hospitals under consideration for acquisition.
- Provided on-site facilitation for 5 newly acquired facilities to successfully transition to corporate standards and achieve 100% Joint Commission and CMS accreditations within 120 days of acquisition.
- Responsible for successful credentialing and privileging of 100% of the Medical Staff in new WFD facilities.
- Created a multilevel tracking system that enables a 30 day transition of Medical Staff from a closing facility to the closest HCA facility.
- Co-designed and implemented performance improvement "Key Elements" strategies leading to a 60% reduction in hospital acquired conditions in 4 years.
- Participated in the design of the WFD centralized claims management process.
- Co-designed and implemented a Core Measures Playbook II with gap analysis and tool kit leading to 13 of 16 WFD hospitals awarded Top Performers on Key Quality Indicators© by the Joint Commission for 2013.
- Assumed the Severe Sepsis project management in March 2012 leading to a decrease mortality rate from 42% to 32% and ALOS from 12 days to 9.5 days.
- Co-designed a Dependent Healthcare Provider Scope of Service and evaluation program which has been adopted by HCA Corporate.
- Created and provide oversight for the Quality and Patient Safety Leadership Orientation Program.

- Provide oversight for Quality and Clinical Operations data analysis and data presentation.

2/2011 – 4/2013 **Director of Regulatory and Accreditation Programs**
West Florida Division of HCA, Tampa, FL

- Worked directly under the WFD VP of Quality and Clinical Operations; serves as the Division expert on regulation, accreditation, clinical practice and risk prevention and management.
- Provided oversight to all regulatory and accreditation activities in the 16 hospitals in the WFD of HCA.
- Designed a QRS follow-up program for continuous survey readiness which has led to a decrease in TJC RFIs in the WFD.
- Co-designed a TJC Sentinel Event webinar process which has led to 100% acceptance of WFD hospital action plans and attainment of 100% Measures of Success within the required 4 months.
- Co-designed and implemented performance improvement "Key Elements" strategies leading to a 60% reduction in hospital acquired conditions and never events.
- Co-designed and implemented a Core Measures Playbook leading to 12 of 15 WFD hospitals awarded Top Performers on Key Quality Indicators© by the Joint Commission for 2012.
- Assumed the Severe Sepsis project management in March 2012 leading to a decrease mortality rate from 42% to 35% and ALOS from 12 days to 11 days in one year.

8/2009 – 2/2011 **Vice President of Quality, Risk Management and Infection Control**
Northside Hospital, HCA St. Petersburg, FL

- Provided oversight of all Quality, Performance Improvement, Risk Management, and Infection Control activities for Northside Hospital.
- During tenure significantly improved all Core Measures to the 90th percentile and increased HCAHPS composite score by 4%.
- Redesigned Medical Staff peer review, ongoing professional practice evaluation (OPPE) and focused professional practice evaluation (FPPE) program leading to improved oversight of physician and LIP practice.
- Achieved 90% measure of success compliance in 6 months on all QRS identified opportunities from May 2010 QRS survey.
- Facilitated all Root Cause Analysis and Failure Mode Effects Analysis activities and ensured 100% compliance with designed plans of correction.

- Responsible for presentation and facilitation of analysis of quality and performance improvement data in the Quality and Patient Safety Committee, Medical Executive Committee and Board of Trustees.

10/2007 – 6/2009 **Assistant Vice President of Clinical Practice**
Washington Adventist Hospital, Takoma Park, MD

- Provided clinical operation oversight for ED, Critical Care, Medical-Surgical, Telemetry, Women's Services, Surgical Services, and Pharmacy Services.
- Assumed the Interim Chief Nurse Executive role during the 6 month search process.
- Provided leadership for Case Management, Hospitalist Program, and Intensivist Program – decreased hospital LOS by 4% despite a 10% increase in Case Mix Index
- Facilitated the design, implementation and monitoring of a new Neurovascular Surgical Service Line and Stroke Program.
- Designed and implemented the Professional Practice Education Program (PPEP) and other professional practice programs led to a 20% increase in recruitment and retention of nurses
- Redesigned and provided oversight to the Montgomery County Latino Health Care Initiative Nurse-in-Training Program – wrote and was awarded a $259,000 NSPI grant to support the management of the program for four years.
- Improved customer satisfaction scores by 15 % in key clinical areas
- Assisted in a Pharmacy redesign program leading to a 55% decrease in medication errors reaching the bedside.
- Facilitated the design and implemented a Rapid Medical Evaluation process in the ED which decreased patients leaving without treatment by 30% in the first three months.

5/2005 – 10/2007 **Internal Consultant/Corporate Manager, Resource Management and Performance Improvement Department**
MedStar Health, Lutherville, MD (Seven hospital Healthcare System)

- MedStar Visiting Nurses Association (VNA) Error Reduction Project
- Decreased service batch errors by 50% in 6 months
- Decreased Medicare Revenue held by fatal billing errors from $2,687,806 to $1,248,860 in 6 months.

- Served as a clinical consultant to Corporate Supply Chain. Designed a 3- year corporate bed fleet replacement program leading to $400,000 in contract savings.
- Facilitator for System-wide Performance Improvement Task Forces that all led to decrease in mortality, morbidity, LOS and 30-day readmission rates including initiatives in Surviving Sepsis Campaign, pressure ulcer prevention, glycemic control, heart failure, and culture of safety.
- Redesign Projects leading to improved efficiency, improved revenue capture, decrease in length of stay and decreased wait times and improved customer satisfaction
    - Franklin Square Hospital Center– Preadmission Testing
    - Georgetown University Hospital – Case Management Department, Wound Center and Ankle and Foot Center
    - Good Samaritan Hospital – Heart Care Unit and Patient Flow Initiative.

10/1999 – 5/2005 **Clinical Nurse and Case Management Specialist, Medicine Service Line**
Franklin Square Hospital, MedStar Health, Baltimore, MD

- Served as a clinical consultant to Corporate Supply Chain. Designed a 3- year corporate bed fleet replacement program leading to $400,000 in contract savings.
- Partnered with physicians to design and implement protocols, guidelines and outcomes measurement for multiple disease entities.
- Provided supervision for all educators and clinical specialists in the Medicine Service Line.
- Planned, implemented and sustained multiple evidence-based, performance improvement programs across the Medicine Service Line.
- Designed and implemented care coordination rounds on all units resulting in a 10% decrease in length of stay.
- Implemented the DRG Assurance Program maximizing coding for complexity of care leading to a 20% increase in CMI in one year.
- Achievements:
    - Delmarva Medicare Excellence Award for three areas of responsibility: CHF, MI, and Pneumonia
    - Solucient 100 recognition for Heart Failure, MI and Pneumonia
    - Achieved recognition in US News & World Report Top 100 Hospitals for cardiology and endocrinology.

4/1998 – **Clinical Liaison Nurse, Corporate Materials Management**

10/1999 *MedStar Health, Baltimore, MD*

- Served as clinical expert and liaison for all corporate contracts
- Served as medical and OR product consensus builder leading to over $1.5 million in systems savings in 18 months.
- Coordinated all new product implementations across the system.

3/1985 – 4/1998 **Nurse Director/Nurse Educator/Staff Nurse/Home Care Case Manager**
Church Hospital, MedStar Health, Baltimore, MD

- Provided Critical Care, Home Care and Medical-Surgical clinical practice, management and education
- Served as member and chairperson on multiple quality, patient safety and performance improvement committees.

9/1988 – 5/2009 **Adjunct Faculty Villa Julie College and Community College of Baltimore County**
Baltimore, MD

10/1981 – 3/1985 **Cardiac Rehabilitation Nurse/ICU Staff Nurse**
Greater Baltimore Medical Center, Baltimore, MD

6/1980 – 10/1981 **Telemetry Nurse**
Wheeling Hospital, Wheeling, WV

EDUCATION

2015 –	Doctoral Student in Nursing Practice	*Capella University, Minneapolis, MN*
2003 – 2005	Masters of Science in Nursing	*University of Phoenix, Phoenix, AZ*
1985 – 1987	Masters of Science in Instructional Technology	*Towson University, Towson, MD*
1976 – 1980	Bachelors of Science in Nursing	*Wheeling Jesuit College, Wheeling, WV*

LICENSES AND CERTIFICATIONS

- Licensed Registered Nurse (RN) Florida and Texas
- Licensed Healthcare Risk Manager (LHRM) Florida
- Certified Professional in Health Care Quality (CPHQ)
- Certified Professional in Patient Safety (CPPS)

- Certified Wound Care (CWCN)
- Certified Continence Nurse (CCN)

Thedosia L. Munford, MBA, MS, BSN, RN, NEA-BC

[redacted]

SUMMARY OF QUALIFICATION: Thirty years of diversified acute health care experience and accomplishments in positions of progressive managerial and executive responsibilities. Extensive involvement in organization redesign, renovation and restructuring; cost reduction; fiscal management; human resource management and development; project management; organizational transition; organization preparation for ANCC magnet designation and direction of clinical departments. Accomplishments include:

- Development and implementation of patient focus delivery systems
- Clinical lead for inpatient and outpatient units, ED renovations and construction
- Participated in building of new bed tower
- Facilitated throughput teams to expedite patient flow and decrease LOS by 16%
- Increased Emergency Department (NPS) patient satisfaction in an inner city hospital by 41%
- Decreased RN vacancy rate by 22%
- Exceeded goal for pressure ulcer rate by 44%
- Eliminated use of restraints in medical/surgical units and exceeded goal for decrease use in critical care by 69%
- Other quality matrix accomplishments included meeting and exceeding goals for hand washing, pneumococcal vaccine and influenza vaccine
- Achievement of TJC accreditation and licensure
- Implementation of management development program
- Labor management/union negotiations
- Patient care unit construction redesign for patient-centered care, and patient flow
- Preparation and management of annual budget in excess of $44 million
- Decreased use on incremental overtime by 60%
- Decreased use of external agency nurses by 50%
- Achieved productivity standards for staffing
- Organization development and change management
- Work redesign
- Reduced OR room turnover time down to <30 minutes

PROFESSIONAL EXPERIENCE AND ACHIEVEMENTS

HealthLinx Transitional Leadership 2014-2015

A division of HealthLinx Executive Search, Inc. a healthcare-exclusive consulting and search firm specializing in i) leadership assessment, project management and consulting; ii) the identification and recruitment of permanent management and executive healthcare candidates; and iii) the placement, assistance, and management of transitional leaders.

- **Transitional Leader** -December 2014-April 2015
  Interim Director Professional Practice and Nursing Development (December 2014-April 2015)
  Mount Carmel East Hospital, Columbus Ohio
- As a transitional leader, deliverables included i) validate the recently developed on-boarding plan and provide opportunity for improvement with particular focus on new graduate nurses, medical/surgical, critical care and Emergency Department nurses; ii) assess Clinical Education Department, resource allocation, clinical education staff competency and staff competency assessment model for the Hospital; and iii) assess Shared Governance Model with particular

focus on practice council, support structure and current functioning. Selected accomplishments included,

Ascension Health System **2006-2013**

A national healthcare provider in more than 1400 locations in 29 states and District of Columbia rooted in the loving ministry of Jesus as healer and is committed to serving all persons with special attention to those who are poor and vulnerable.

- **Senior Vice President Patient Care Services/CNO (2010-2013)**
  Providence Hospital, Washington DC
  A 408 bed teaching hospital with ADC of 200 inpatients and 40 behavioral health inpatients, offering medical graduate teaching and serving as a rotational site for domestic and international nursing students. Located in northeast District of Columbia with an average of 45,000 ED visits annually. Other specialties include Diabetes, Certified Stroke Center, Bariatric Services and Wellness Programs, Cardiology, Orthopedics, Sleep Wellness and Geriatric Medicine. As SVP/CNO, reported to president/CEO. Responsibilities included management of total operating budget of >$47 million, staff of >600 FTEs, re-design of throughput processes for main hospital portals (IP and OP surgery, and ED), implemented mid-level leadership development and performance standards for accountability. Selected accomplishments included:
    - decreased RN vacancy rate from >9% to 7%
    - decreased LOS from >5 to 4.2 days
    - eliminated use of agency RNs by 50%
    - decreased ED patient throughput by 30%
    - increased ED patient satisfaction from 32% to 54%

- **Vice President, Inpatient Services (2006-2010)**
  Saint Agnes Hospital, Baltimore, Maryland
  A 296 bed full service teaching hospital with residency program and student nurse rotation serving the greater Baltimore area, located in southwest Baltimore serving diverse communities, with ED visits >82,000. Clinical areas of specialties include Cancer Care, Metabolic, Cardiovascular, Women's & Children's Health, Orthopedic & Spine, Plastic & Reconstructive Surgeries, Stroke, Chest Pain Emergency Program. As VP, reported to senior vice president/CNE. Responsibilities included management of inpatient medical/surgical and critical care units, Nursing Operations (House Supervisors, staff float pool, Nursing Office), Care Management, Nursing Education and Development, management of operating budget of >$25 million, and staff of >200 FTEs, and nursing shared decision making and professional development programs. Selected accomplishments included;
    - decreased LOS from 4.49FYTD July 2008 to 3.95 FYTD May 2010
    - developed and implemented RN Professional Clinical Ladder Program
    - facilitated implementation of nursing leadership academy
    - facilitated strategies in preparation of ANCC magnet designation
    - facilitated nursing clinical research with the first NRB approved nursing research study

Senior Director of Nursing **2003-2006**

Mercy Medical Center, Baltimore, Maryland

A 299 bed teaching ANCC Magnet Designated Hospital located in downtown Baltimore with ED visits >62,000 annually. Clinical specialties include Cancer Care, Diabetic & Endocrine, Gastroenterology & GI Surgeries, Geriatrics, Gynecology, Nephrology, Orthopedic and Pulmonology. As senior director, reported senior vice president/CNE. Responsibilities included management of inpatient medical/surgical units, inpatient substance abuse unit, and OP Chemotherapy, management of operating budget of >$10 million and staff of >250 FTEs. Selected accomplishments included:

- developed nursing management and leadership structure of responsibility and accountability
- managed and lead managers through radical change of re-structuring of responsibilities and accountability
- lead coordination, development and implementation of RN clinical ladder for professional practice
- served as interim VP Patient Care Services
- began nursing and organizational preparation for magnet designation

Director, Patient Care Service **1996-2003**
MedStar Harbor Hospital, Baltimore, Maryland
A 179 bed community focused hospital located in south Baltimore on Patapsco River with an average of 40,000 ED visits annually. Clinical specialties include Internal Medicine, Orthopedic, Oncology, Sports Medicine, Back & Spine, and Women's Service. Mission is to provide a quality, caring experience for patients, communities and those who serve with a patient centered care philosophy. As director, reported to vice president/CNO. Responsibilities included management of inpatient medical/surgical units, critical care and Women's Health. Selected accomplishments included:

- facilitated transition from traditional patient care delivery to patient centered care model
- clinically designed, planned and implemented several patient centered care units with external construction team
- chaired Human Resource Design work team for MedStar transition for recruitment, selection, orientation and retention
- co-chaired work re-design team for Hospital-wide patient flow from admission to discharge

ADDITIONAL EXPERIENCES:

- **Vice President, Patient Care Service** **1993-1995**
  Greater Southeast Community Hospital, Washington DC
  A 400 bed acute care community hospital located in southeast Washington DC serving Prince George's County Maryland communities and southeast Washington DC. As vice president reported to president/CEO. Responsible for all nursing services with select accomplishments that included
  -implementation of position control system
  -expansion of home health services which increased visits by 20%
  -reduced management positions by 40%

- **Assistant Executive Director** **1991-1993**
  Howard University Hospital, Washington DC
  A comprehensive and academic teaching hospital located on campus of Howard University in District of Columbia. Level I Trauma Center with average of 60,000 ED visits annually, performing kidney and liver transplants. As assistant executive director, reported to COO and responsible for all nursing services and nurse management team member for labor contract negotiations.

EDUCATION AND DEVELOPMENT

- Class of 2010 *The Leadership Program of the Greater Baltimore Corporate*
- MBA, University of Baltimore, Baltimore Maryland
- MS Human Development, Howard University, Washington DC
- BSN, Howard University, Washington DC
- Diploma in Nursing, Freedmen's Hospital School of Nursing, Washington DC

LICENSURE AND CERTIFICATION

- RN, District of Columbia #R29886
- RN, Maryland #R128737

- RN, Ohio #RN412755
- NEA-BC #2009013543

CANDICE PETERS, R.N., B.S., MS

EXPERIENCE

KINDRED HEALTH CARE – HOSPITAL DIVISION – WEST REGION – WESTMINSTER, CA.
SENIOR DIRECTOR CLINICAL OPERATIONS (FEB 2009 – CURRENT)
Kindred is an acute long-term hospital caring for catastrophically ill and medically complex patients. Direct Oversight of 7-13 hospitals providing long term acute care (LTAC) in California. Ensured The Joint Commission accreditation for all assigned hospitals; assisted operations support, Quality and Regulator Review (Joint Commission and CMS survey preparation). In 2014 ensured 7 hospitals that were reviewed were re-accredited Joint Commission. Ensured 2 hospitals (2013 and 2015) achieved first time JC Accreditation. Assisted two hospitals successfully though CMS condition out to achieve full conditions. Serves as an active Governing Board member to multiple Kindred hospitals. Able to review and prepare facilities for both Laboratory and Hospital Joint Commission accreditation.

CONVERGENCE HEALTH CONSULTING, INC.
SENIOR CONSULTANT (JULY 2007- FEB 2009)
ANAHEIM MEMORIAL MEDICAL CENTER – INTERIM CONSULTING POSITION AS RISK MANAGER – Interim Risk Manager to develop complaint and grievance process to meet CMS requirements; continued to fill position as the Risk Manager. AMMC was in the process of a sale. In Oct. advanced to Chief Nursing Officer.

KINDRED HEALTH CARE
REGIONAL DIRECTOR CLINICAL OPERATIONS (2004-2007)
Promoted from COO role (see next)
Had direct oversight over 6 hospitals in the West Region. Assisted all 24 facilities in the West Region as needed for operations support, plan implementation, developing plans of correction. Ensured Joint Commission re-accreditation of 3 facilities that experienced a denial of accreditation. Assisted 2 other facilities in Conditional Accreditation to achieve full Joint Commission accreditation. Assisted one hospital in Joint Commission re-accreditation.

KINDRED HOSPITAL ONTARIO
CHIEF OPERATIONS OFFICER (1996 –SEPTEMBER, 2004)
Had responsibility for all clinical areas including Nursing, Pulmonary, Rehabilitation, Dietary, Radiology, Laboratory, Housekeeping, Social Services, Surgery, Infection Control, Employee Health and Pharmacy.
Chair multiple committees including Quality Council, Policy and Procedure, Employee Activities, Bioethics, Environment of Care, ICU and Medical Records committees. Member of Medical Executive Committee and Governing Board. Served as interim CEO for 8 months until CEO was recruited.

ST. BERNARDINE MEDICAL CENTER, SAN BERNARDINO, CALIFORNIA
Director Patient Care Services (1989-1996)
Started as a manager in 1989 for a 17 bed Intensive Care Unit and 12 bed Coronary Care Unit. In 1992 became Director of Nurses, reporting to the Chief Nurse Executive. Areas included ICU/CCU, Telemetry, Intermediate Care, Medical-Surgical Units, Peri-Operative Surgery, Out Patient Surgery Center, Central Supply, Diabetes Health Services, Hemodialysis and Nursing Services. (1994). Included responsibility for 250 FTE's and 10 managers. Chaired Nursing Policy and Procedure Committee. 4. 30 min medication administration	•	•		>95%	Compliant to CMS	Random Chart Review	Specified med given within 30 min of the time due/Total number audited	Daily audit	Director of Pharmacy, QC, CNO	Daily to Director of Pharmacy, Monthly to QC and CNO
5. Controlled Substances documentation in ED	•	•		100%	Compliant to CMS	Weekly Omincell report	# narcotic medications taken from omnicell that have matching entered orders for that patient/# audited	Weekly audit	QC, CNO	Weekly to Director of Pharmacy, Monthly to QC and CNO
6. ED drug dispensing for Pediatric patients	•	•		100%	Compliant to CMS	Daily Monitoring	Inappropriate orders/Total pediatric orders	Daily	Director of Pharmacy, QC, CNO	Daily to Director of Pharmacy, Monthly to QC and CNO
7. Omnicell Override	•	•		100%	Compliant to CMS	Daily Monitoring	Complete orders/Total override	Daily audit	Director of Pharmacy, QC, CNO	Daily to Director of Pharmacy, Monthly to QC and CNO
Physical Environment (EOC)										
1. Sixty (60) second response time for fire response personnel for false alarms and fire drills	•	•		85%	1,5	Staff Response	N- Fire Responses < 60 seconds D- Fire Responses	Drill Reports	EOC, QC, MEC	Quarterly
2. Reduce the number of recordable injuries by 5% from 2015	•	•		NCH: 12 LACH: 35	5	Safety	N- Number of Injuries D- Number of Days	HR	EOC, QC, MEC	Quarterly
3. Maintain level of patient falls at or below 2.8 benchmark fall rate per 1000 patient days	•	•		2.8	1, 6	Patient Handling	N- # of Patient Falls D- # of Patient Days	Quality Management	EOC, QC, MEC	Quarterly
4. Identified deficiencies on EOC rounds are corrected and documented as completed within 45 days	•	•		85%	5,1,6	Work Order Process	N- Deficiencies Identified D- Deficiencies Completed	EOC Rounds Survey Report	EOC, QC, MEC	Quarterly

0580

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
5. Reduce the number of theft types at Alta Los Angeles Hospitals by 10% from the total thefts reported in 2015.	•	•		LACH: 13 NCH: 13	1,6	Security	N- Thefts reported D- Thirteen	Security Reports	EOC, QC, MEC	Quarterly
6. 15% reduction in number of linen pounds per patient day from 2015	•	•		LACH: 11.1 NCH:1 1.75	4	Allocation	N- Soiled Linen lb D- Adj Patient Days	Angelica Satisfactory Report	EOC, QC, MEC	Quarterly
7. Conduct Patient Safety Drills Quarterly in Non-Common Areas.	•	•		100%	1	Staff Response	N- Drills Completed D- Drills Scheduled	Drill Report	EOC, QC, MEC	Quarterly
8. Safety check completion rates for vendor life support equipment devices.	•	•		100%	5	Staff Training	N- Equip. Checked D- Equip. Received	Vendor Equipment Log Book	EOC, QC, MEC	Quarterly
9. Safety check completion rates each month for vendor non-life support equipment devices.	•	•		95%	5	Staff Training	N- Equip. Checked D- Equip. Received	Vendor Equipment Log Book	EOC, QC, MEC	Quarterly
10. Completion Rate for Submitted Work Orders	•	•		90%	5,1,6	Work Order Process	N- W.O. Completed D- W.O. Submitted	Work Order System	EOC, QC, MEC	Quarterly
Quality/Risk Management										
LACH/NCH										
1. Response to Grievances within 7 Days	•	•		100%	2,5,6	Grievance Response	# Responses with 7 Days/Grievances	Grievance Log	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly
2. All OPPE to Medical Staff by Deadline	•	•		100%	2,5	Providing Practitioner Specific Data	#OPPE Reports Submitted by Deadline/#OPPE Reports Due	List of Reports Completed/Med Staff List of Reports Due	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly
3. #AMA OPPE to Medical Staff by Deadline	•	•		2%	1,3,5	Patients leaving AMA	# AMAs per admission	AMA Report from IT/Clarity	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly
4. # Falls blow national benchmark	•	•		2.5%	1,3,5	Patients falls by unit/shift	# falls per admission	Fall Report from Clarity	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly
5. Overall Mortality Rate below national benchmark	•	•		2.5%	3,5,7	Total number of deaths	# of deaths per 100 discharges	Mortality Report from IT	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly
6. Core Measures	•	•		100%	3,5,7	AMI, STK, VTE continued: Add Sepsis	Meet CMS Standard requirement for # reviewed	Data from IT	QC, MEC, GB	Data by Month – Reported Minimum of Quarterly

01581

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
7. Readmissions	•	•		<10%	3,5,7	Patient readmitted within 30 days for same diagnosis	Number readmissions for same Diagnosis	Data from IT; Input from DUI and CM	QC, MEC, GB	Data by Month—Reported Minimum of Quarterly
Radiology										
1. Radiologist required procedures performed in a timely manner	•	•		100%	2,5	Time procedure performed	# of timely procedures/ # of procedures	EMR/PACS	QC	Quarterly
2. Critical result documentation	•	•		100%	1,7	Document in report	# of critical results reported/ # of critical results	Transcribed reports	QC	Quarterly
3. Marker Use	•	•		95%	1,4	Marker use	# of radiographs with marker/ # of radiographs	Image Review	QC	Quarterly
4. Discrepancy in the ED physician and radiologist interpretation	•	•		95%	4,7	Reading Accuracy	# of interpretations with no discrepancies/ # of interpretations by the ED physician	Radiologist	QC	Quarterly
5. Radiation Exposure	•	•		100%	3,7	Exposure	# of staff without exposure issue/ # of staff monitored	Dosimetry reports	QC, EOC	Quarterly
6. Computerized Tomography Dose Reporting	•	•		100%	1,7	Dose	# of CT scans missing dose/ # of CT scans	PACS images	QC	Quarterly
7. Appropriateness of Nuclear Medicine Procedures	•	•		100%	1,7	Reason for Procedure	# of appropriate NM procedures/ # of NM procedures	Contracted Service Manager	QC	Quarterly
Rehabilitation Services										
Wound Care Therapy										
1. Identification, intervention, and documentation of pain during Rehab/WC encounter.	•	•		100%	1,2,5,6,7	Completion of pain parameter entry in all daily encounters including documentation of pain level, applicable treatment, and/or pt's rights to proceed or not.	#of complete pain parameter documentation entries/10 random charts per month or 30 random charts per quarter.	HER, QI data gathering tool ☐ ongoing ☑ new	QC Medicine	Quarterly
2. Prevention of pressure	•	•		LACH	1,2,5,6,7	Utilization of	#of hospital acquired	HAPU incident	QC,	Quarterly

01582

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
ulcers during hospital stay.				1.2% SA 0.1% NCH 0.8%		Braden Screening tool to identify patient with community PU. Monitoring of new pressure ulcer wounds not identified at admission. Tracking of HAPU using internal process.	pressure ulcers/1000 patient days.	reports. ☑ongoing ☐ new	Medicine	
3. Pressure Ulcer Prevention Program (PUPP) provided within 24 hrs upon admission, readmission, or transfer.	•	•		100%	1,2,5,6	Validation of Braden Screening tool compliance. Initiation of protocol supported with documentation.	#of PUPP provided within 24 hrs. upon admission, readmission, or transfer/ 10 random charts per month or 30 random charts per quarter.	HER, QI data gathering tool. ☑ongoing ☐new	QC, Medicine	Quarterly
Rehab Services										
4. Speech Therapy evaluation provided (within 48hrs) when ordered by MD.	•	•		100%	1,2,6,7	Gathering all new consults and checking if patient was seen within the timeframe.	# of Speech Therapy evaluations provided within 48 hours/#of total Speech Therapy orders.	HER, QI data gathering tool. ☑ongoing ☐new	QC, Medicine	Quarterly
5. Physical Therapy evaluation provided within 24 hrs. when ordered by MD to include a complete documentation such as: ✓ PT evaluation documentation ✓ PT goals ✓ Plan of Care ✓ Clarification of PT orders, if needed, with frequency, duration, and interventions.	•	•		100%	2,6,7	Gathering all new consults and checking if patient was seen within the timeframe with complete entries of documentation parameters.	# of Physical Therapy evaluations provided within 24 hrs. with complete documentation/10 random charts per month or 30 random charts per quarter.	HER, QI data gathering tool. ☑ongoing ☐new	QC, Medicine	Quarterly

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
6. Rehabilitation (Recreation) Therapy Assessment completed by Therapy team within 72 hours of patient admission			•	100%	4,6,7	Patient's Rights and Provision of Care issues	Total # compliance/total # of medical records reviewed.	Medical Record	UR, QC, MEC	Data collected monthly/ Reported at least quarterly
7. Rehabilitation Therapy Discharge Summaries completed within 72 hours of patient discharge.			•	100%	4,6,7	Patient's Rights and Provision of Care issues	Total # compliance/total # of medical records reviewed	Medical Record	UR, QC, MEC	Data collected monthly/ Reported at least quarterly
8. Rehabilitation Services			•	100%	4,6,7	Patient's Right and provision of Care issues	Total # compliance/total # of medical records reviewed.	Medical Record	UR, QC, MEC	Data collected monthly/ Reported at least quarterly
Respiratory										
LACH/NCH	•	•								
1. Ventilator Protocol	•	•		65%	1,6,7		# weaned/total monitored	Log	QC	Quarterly
2. Trach Changed within 30 days	•	•		95%	1,3,5,7		# done/total trach pts	Charting	QC	Quarterly
3. Assessments/Reassessments	•	•		95%	1,5,7		# done/total measured	Charting	QC	Quarterly
4. Trach Ties	•	•		95%	1,5,6,7		#done/Total	Charting	QC	Quarterly
5. Equipment Changes	•	•		95%	1,5,6,7		# changed/Total	Charting	QC	Quarterly
6. Crash Carts	•	•		95%	1,3,5,7		# done/total	Log Book	QC	Quarterly
7. Oral Care	•	•		95%	1,3,4,5,6,7		#documented/total	Observatio	QC	Quarterly
8. Charges checked and submitted	•	•		95%	4,5,7		# checked/total	Charting	QC	Quarterly
9. Tardiness	•	•		95%	1,7		Days tardy/total	JBDEV	QC	Quarterly
10. Attendance	•	•		95%	1,7		Days absent/total	Schedule	QC	Quarterly
11. Continuous Pulse Oximeters for Vents	•	•		100%	1,3,4,5,7		# on pts/total	Observatio	QC	Quarterly
12. Medications ordered for SAU	•	•		100%	1,4,6,7		Not ordered/Total	Log Book	QC	Quarterly
13. Bedside Reporting for Patients	•	•		95%	1,5,6,7		#RTs not compl/total	Observatio	QC	Quarterly
14. Temperature Log (Norwalk Hospital)	•	•		100%	1,2,5		# out of range/total	Log	QC	Quarterly
15. Critical Values Reported in a timely manner	•	•		95%	1,5,7		# out of range/total	Log	QC	Quarterly

01984

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
Social Services										
1. Patients will be informed of their right to self-determination specifically their right to formulate an advance directive. Any patient that wants advance directive will be given information and will be followed up within 48 hours.	•	•		100%	5, 6, 7	2, 5	N: # of pts followed up within 48 hours of requesting info D: # of pts requesting information on advance directives	Advance Directives Log	QC	Q
2. All homeless patients will receive social work intervention to aid in placement. Documentation of intervention and final disposition will be reviewed for appropriateness.	•	•		100%	1,3	1,4	N: # of homeless pts seen by social services D: # of of homeless pts admitted	Admission screening	QC	Q
3. Homeless patients completing the informed consent form.	•	•		100%	1,3,5	1,5	N: # of homeless pts admitted to the hospital D: # of patients completing the form	Review of the medical record and forms	QC	Q
4. Psycho-Social Assessments completed with 72 hours of admission			•	100%	4, 6, 7	Social Services timely assessment of their patients	# Psycho-socials completed/Total # Psycho-socials for the sample	Medical Record	UR, QC, MEC, GB	Data by month – reported minimally quarterly
5. Important Message from Medi-Care-signatures obtained at time of admission and prior to discharge			•	100%	3, 4, 7	Timely notification of Medi-Care recipients of their rights.	# of signed IM message forms/Total # of IM messages for the sample	Medical Record	UR, QC, MEC, GB	Data by month reported minimally quarterly
6. Information provided to Care Giver when identified by the patient as part of the Aftercare Plan			•	100%	1, 2, 6, 7	Inclusion of patient Care Giver in the patient's aftercare	# of aftercare forms where Care Giver identified with information provided/Total # of aftercare forms where Care Giver is identified.	Medical Record	UR, QC MEC, GB	Data by month – reported minimally quarterly
Sub-Acute										

005685

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
1. MDS	•			100%	Patient Safety/Regulatory	Completion by required date	MDS forms completed on time/# patients	Patient Charts	Director of SA	Weekly with report to Quality Council Monthly
2. Care Plans	•			100%	Patient Safety/Regulatory	Care Plan initiated within specified time frame	# Completed by due date	Patient Charts	Director of SA	Weekly with report to Quality Council Monthly
3. Medication Administration	•			100%	Patient Safety/Regulatory	Timely administration – 1 hour before/after scheduled time	# doses given "on time"/ # doses	Patient Charts	Director of Pharmacy/Director of SA	Weekly with report to Quality Council Monthly
4. Infection Control	•			100%	Patient Safety/Regulatory	Handwashing	# washings/# required washings	20/week observations	Director of IC and Director of SA	Weekly with report to Quality Council Monthly
5.Care Plan/MDS congruence	•			100%	Patient Safety/Regulatory	Content congruence	# MDS/Care Plans congruent/# patients	Patient Charts	Director of SA	Monthly to Quality Council
6. Consent for Psych. Meds	•			100%	2	Documentation of obtained consent	# of Psych. Meds (last 30 days) /# of Consent Obtained	Chart	QC	Monthly
7. Side Effects Monitoring for Psych. Meds	•			100%	2	Side effects (S/E) monitoringevery shift	#shifts in the last 30 days of patients with Psych. Meds / # of S/E monitoring for Psych. Meds Q shift	Paper MAR	QC	Monthly
8. Foley Catheter (FC) with Indication for use	•			100%	2	Documentation of indication for FC use	# of FC in use (last 30 days)/ # of FC with indication	Chart	QC	Monthly
9. Use of Less Restrictive Measures Prior to Restraint use	•			100%	2	Documentation of less restrictive measures	# of restraints in use (last 30 days)/ # of documented less restrictive measures prior to use of restraint	Chart	QC	Monthly
10.Patency of Hemodialysis access	•			100%	2	Checking of bruit and thrill/	# of shifts requiring patency checks of	Chart	QC	Monthly

CR 5586

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
						Patency of HD access site every shift	HD access requiring (last 30 days)/ # of actual Q shift monitoring of HD patient access			
11. PICC Line Consent Form	•			100%	2	Consent form obtained prior to PICC line insertion	# of residents with PICC lines (last 30 days) / # of PICC lines with consent form prior to insertion	Chart	QC	Monthly
12. Post Fall Assessment	•			100%	2	Documen-tation of post fall assessment after a fall	# of Fall in the last 30 days/ # of post fall assessments documented after a fall in the last 30 days	Chart	QC	Monthly
13. Matching of Range of Motion MD Orders on orders in the RNA treatment record	•			100%	2	RNA MD orders matches the tx orders on RNA sheets	# of RNA MD orders in the chart in the last 30 days/ # of RNA orders wherein MD orders matches the RNA orders on tx sheets	Chart	QC	Monthly
14. Treatment (Tx) orders are applied to patients with skin problems	•			100%	2	Skin problems with Tx orders	# of patients having Skin problems with treatment orders (every week in the last 30days)/# of patients with skin problems that received txs as ordered (every week in the last 30 days)	Chart	QC	Monthly
15. MDS Location of Assessment per CAA (Care of Assessment Area)	•			100%	2	CAA indicates location where assessment can be found	# of CAA in the last 30 days / # CAA with indication of the location where the documented assessment can be found	Chart	QC	Monthly

005787

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
16. Triggered CAA in the MDS with Corresponding Care Plans	•			100%	2	CAA triggered in the MDS are with Care Plans	# of CAA in the last 30 days/ # of CAA with complete care plans in the last 30 days	Chart	QC	Monthly
Utilization Review										
1. Initial Discharge Assessments are completed within 48 clock hours of patients' admission	•	•		95%	5	PC	N: # patients screened D: # cases reviewed (30 cases / month)	Allscripts Care Mgmt MCG/SS Discharge notes	URC and Quality /PI Committee	Q
2. Admission reviews are completed within 24 clock hours of admission and include required review elements.	•	•		95%	5	PC	N: # patients screened D: # cases reviewed (30 cases / month)	Allscripts Care Mgmt / Milliman Care EMR for scanned copy.	URC and Quality /PI Committee	Q
3. Patient Choice: The CM dept will provide the patient / patient representative with choices pertaining to their post hospital provider choices. This will be prior to DC and includes ,but not limited to acute inpt rehab ,home health, infusion therapy ,hospice care, skilled nursing care , custodial care,etc.. . Evidence of patient choice is documented in the DC plan.(The organization must respect the choice of the patient or authorized representative except in unusual circumstances.)	•	•		95%	5	PC	N: # patients screened D: # cases reviewed (30 cases / month)		URC and Quality /PI Committee	Q
4. Daily concurrent reviews are completed each calendar day and include the	•	•		95%	5	PC	N: # patients screened D: # cases reviewed	Allscripts Care Mgmt / Milliman	Allscripts Care Mgmt /	Q

Indicator(s)	LACH	NCH	LACHB	Target or Goal	Rationale For Selection	Function Measured	Numerator / Denominator	Data Source	Reported to	Reporting Frequency
essential elements of the review.							(30 cases / month)	Care Guidelines (MCG	Milliman Care Guidelines (MCG	
5. Important Message from Medicare is re-issued to all Medicare and Medicare eligible patients within 48 hours of discharge.	•	•		100%	2	RI	N: # IMMs re issued D: # (ALL Mcare / Mcare Mged care discharges / month)	Medical record audit(Original copy maintained in the patient's MR)	UMC and Quality Council	Q
1. Medi-Cal Denial Rate Acute/Administrative Days			•	<5%	7	PI	N: Total # of Medi-Cal days Denied D: Total # of Medi-Cal Days processed	Processed TARS	UMC, QC	Quarterly
2. Inpatient Length of Stay (Over Utilization)			•	<5%	7	PI	N: Total # of patients with LOS of>14 days D: Total # of discharges	Chart Review	UMC, QC	Quarterly
3. 1st Level Medi-Cal Appeals			•	Trend	7	PI	N: Total Days approved D: Total days Processed	Processed Appeals	UMC, QC	Quarterly

RATIONALE FOR INDICATOR SELECTION:

1. **Patient Safety Issue**
2. **Survey Finding**
3. **High Risk Process**
4. **High Volume Process**
5. **Problem Prone**
6. **Patient Satisfaction Issue**
7. **Required Measure**

There may be more than one rationale for a single indicator. Survey findings should be first priority.

0589

Quality Assessment and Performance Improvement Indicators for 2016 (revised as of 3/23/2016)

Note: Indicators are to be selected from this list. All indicators are not meant to be monitored at all times

No	Name	Definition	Target*	Accountability	Prioritization Criteria**	Reporting	Comment
Significant Adverse Occurrences							
1	Sentinel Event (Never Events)	Event leading to death or significant impairment (per Sentinel Event Policy) includes Near Misses (may be reported under significant events on scorecard)	0%	Risk Manager	XX, R, P, C	Quality Steering Committee (QSC) Medical Executive Committee (MEC) Board of Trustees (Board) [Monthly until resolution]	Each sentinel event is reported. The root cause analysis and prevention interventions are also reported.
2	Event Reporting Frequency (RCA)	Number of events reported of the following types: Medication-Related; Other significant	0%	Risk Manager	XX, R, P	QSC, MEC, BOARD [Monthly]	The focus will be to increase reporting of issues
3	Regulatory Citations	Issues identified in this category are monitored until sustained improvement is shown for a minimum of 3 months	TBD	TBD	TBD	TBD	TBD
Patient Safety							
4	Inpatient Falls per 1000 patient days	Numerator: Number of inpatient falls reported during the month Denominator: number of inpatient days per month X 1000.	0.35	Risk Manager	XX, R, P, V	QSC, MEC, BOARD [Monthly]	Quality Steering Committee will oversee the effectiveness of corrective actions
5	Patient falls leading to injury requiring treatment	Number and brief description of the circumstances surrounding any inpatient or outpatient fall that required medical treatment	N/A	Risk Manager	XX, R, P, V	QSC, MEC, BOARD As they occur - monthly	Quality Steering Committee will oversee the effectiveness of corrective actions
Infection Prevention							
6	MDRO Infection Rate	Numerator: Number of cases (HAI) Denominator: 1000pt days	TBD	Infection Control Practitioner	R, P, C	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions
7	Surgical Site HAI rate	Numerator: Number SSI Denominator: per 1000 clean cases (targeted/specific cases only)	TBD	Infection Control Practitioner	R, C, P, S	QSC, MEC, BOARD [Quarterly]	Surgical procedures for review should be related to capture the spectrum of clinical services and operative areas
8	Ventilator Associated Event Rate	Numerator: Number of ventilator associated event infections Denominator: Number of ventilator patient days X 1000	TBD	Infection Control Practitioner	R, P, C	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions

* Target: N/A = Not Applicable to This Indicator; TBD = Applicable but the target has not been determined ("To Be Determined")

** Prioritization Criteria: XX = Required by External Authorities, R = High Risk; V = High Volume; P = Problem Prone; C = Clinical Excellence, E = Operational Efficiency; S = Patient, Employee and Physician Satisfaction; H = Employee Retention / Recruitment

Monthly statistical calculations unless otherwise stated

01590

9	Central Line/Catheter Related Sepsis Rate	Numerator: Number of CLABSI Denominator: Number of line insertion patient days X 1000	TBD	Infection Control Practitioner	R, P, C	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions
10	MRSA Rate	Numerator: Number of cases (HAI) Denominator: 1000 pt days ❖	TBD	Infection Control Practitioner	R, P, C, S	QSC, MEC, BOARD Quality Steering Committee [Monthly]	Quality Steering Committee will oversee the effectiveness of corrective actions
11	C. difficile Rate	Numerator: Number of cases Denominator: 1000 pt days ❖	TBD	Infection Control Practitioner	R, P, C, S	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions
12	Rate of Compliance CDC Hand Hygiene Requirements	Numerator: Number of observations when the caregiver performed hand hygiene per CDC guidelines. Denominator: number of observations (opportunities)	100%	Infection Control Practitioner	XX, R, P, V	At least ten observations per month QSC, MEC, BOARD and Infection Control [Quarterly]	Observations should be rotated to cover all settings and all disciplines
			Organ / Tissue Donation				
13	Notification of OPO of imminent patient death/actual death	Numerator:# of OPO contacts within time frames per policy Denominator: # of deaths per month	75%	Risk Manager	XX, E	QSC, BOARD [Quarterly	Quality Steering Committee will oversee the effectiveness of corrective actions
			Environment of Care				
14	Emergency Generator Testing 12 tests required per year with intervals of not less than 20 days and not more than 40 days	Numerator: # of tests conducted at required load Denominator: # of tests required	TBD	Plant Operations	XX, R, V,P, C,E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
15	Preventative Maintenance on High Risk Equipment	Numerator: # of PM equipment checks per program Denominator: # of PM equipment observations conducted	95%	Biomed	R, V,P, C,E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
16	Emergency Management Activation	2 per year	TBD	Plant Operations	XX, R, V,P, C,E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions

* Target: N/A = Not Applicable to This Indicator; TBD = Applicable but the target has not been determined ("To Be Determined")

** Prioritization Criteria: XX = Required by External Authorities; R = High Risk; V = High Volume, P = Problem Prone; C = Clinical Excellence; E = Operational Efficiency; S = Patient, Employee and Physician Satisfaction; H = Employee Retention / Recruitment

Monthly statistical calculations unless otherwise stated

01591

17	Emergency Management Employee Education	**Numerator:** # of employees correctly describing their role in the event of an internal/external disaster **Denominator:** # of employees interviewed	>90%	Plant Operations	R, V,P, C,E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
18	Fire Drills	**Numerator:** 1 fire drill per quarter per shift conducted **Denominator:** 12	100%	Plant Operations	XX, R, V,P, E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
19	Staff knowledge of fire plan	**Numerator:** # of staff articulating fire plan components correctly **Denominator:** # of staff queried	>90%	Plant Operations	R, V,P, E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
20	Preventative Maintenance on Life Safety System	**Numerator:** # of PM on Fire System **Denominator:** 4 total Fire System PM Conducted	<95%	Plant Operations	R, V,P, E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
21	Life Safety Assessment Conducted for all construction/ renovation projects	**Numerator:** # of ILSM assessments conducted **Denominator:** # of construction/renovation projects initiated	100%	Plant Operations	XX, R, V,P, E,S,H	Environment of Care Committee Quality QSC, Board [Quarterly]	EOC Committee will oversee the effectiveness of corrective actions
	Patient Complaints / Grievances						
22	Timely Patient Grievance Response Rate	**Numerator:** # of patient grievances responded to w/7 days **Denominator:** # of grievances reviewed	TBD	Patient Advocate	R, P, S	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions
	Clinical Excellence / Operational Quality						
	CMS Core Measures						
23	Compliance with Core Measures See core measure descriptions	Indicator sets for AMI, Pneumonia, CHF with related core measure criteria will be reviewed on a quarterly basis(see attached) ❖	TJC Reported mean	Quality Director	XX, V, C, E	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions
	HCAHPS						
24a	Patient Satisfaction, overall level of care, Inpatient	Percent of patients indicating positive/slightly positive score❖	Corp mean	Quality Director	V,S,H	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions

* Target. N/A = Not Applicable to This Indicator; TBD = Applicable but the target has not been determined ("To Be Determined")
** Prioritization Criteria: XX = Required by External Authorities; R = High Risk; V = High Volume; P = Problem Prone; C = Clinical Excellence; E = Operational Efficiency; S = Patient, Employee and Physician Satisfaction; H = Employee Retention / Recruitment

Monthly statistical calculations unless otherwise stated

01592

24b	Patient Satisfaction, overall level of care, ED	Percent of patients indicating positive/slightly positive score❖	Corp mean	Quality Director	V,S,H	QSC, MEC, BOARD [Quarterly]	Quality Steering Committee will oversee the effectiveness of corrective actions

PREFILE TESTIMONY OF MITCHELL LEW, M.D.

DEPARTMENT OF PUBLIC HEALTH	:	**DOCKET NO. 15-32017-486**
OFFICE OF HEALTH CARE ACCESS	:	
	:	
OFFICE OF THE ATTORNEY GENERAL	:	**DOCKET NO. 15-486-02**
	:	
IN RE: GREATER WATERBURY HEALTH NETWORK, INC. – PROPOSED ASSET PURCHASE BY PROSPECT MEDICAL HOLDINGS, INC.	:	**April 26, 2016**

PRE-FILED TESTIMONY OF MITCHELL LEW, M.D.

I. Introduction

My name is Dr. Mitchell Lew and I am the President of Prospect Medical Holdings Inc. ("PMH"). I am here today to speak in support of the conversion application (the "Application") regarding the proposed acquisition of assets of Greater Waterbury Health Network, Inc. ("GWHN"), including The Waterbury Hospital ("Waterbury"), by PMH. Specifically, I will address PMH's proprietary Coordinated Regional Care ("CRC") model and its ability to drive significant improvement in healthcare to the GWHN community.

Professional Role

In my role as President of PMH, I oversee PMH in its efforts to integrate our regional delivery systems among physicians, hospitals and payors. This includes the development, implementation and oversight of PMH's CRC delivery systems in each of its regional markets. Prior to my current role, I served as CEO of Prospect Medical Systems and Prospect Medical Group, our management service organization and independent practice association, respectively.

Summary of PMH and CRC

PMH is a healthcare services company that owns and operates numerous health care systems across the nation working to benefit patients who access healthcare in our service areas.

PMH aligns its hospitals and physicians under a model referred to as the CRC model. CRC provides clinical integration among hospitals, physicians and other medical, social and community providers and works closely with health plans and other payors under a value-based, global risk reimbursement payment system. The goal is to achieve the triple aim of improved patient care and experience, better patient health, and lower costs.

PMH approaches each market by implementing three (3) simultaneous work streams. The three work streams are: (i) regulatory infrastructure; (ii) provider network development; and (iii) health plan engagement. The first work stream involves investigating and developing the regulatory infrastructure necessary in order for providers to assume and manage value-based risk contracts with health plans. The second work stream is provider network development which entails identifying participating providers and establishing the provider network, which may include the use of a Preferred Provider Network ("PPN") required under law and preferred by health plans. A critical component of this work stream is the development of an independent practice association ("IPA") affiliated with the health system. The third work stream is health plan engagement which involves close collaboration and contracting with health insurers.

PMH has begun to use its resources to commence CRC implementation efforts in Connecticut, including review of regulatory requirements, formation of an IPA entity, preliminary discussions with payors and evaluation of the care delivery network. PMH has formed an IPA called Prospect Provider Group CT-GWHN, LLC, which will be the IPA affiliated with the post transaction health system. PMH is currently developing the participation agreements for the IPA. PMH has also established a risk-taking entity called Prospect Health Services CT, Inc. Prospect Health Services CT, Inc. received its license to transact business as a PPN from the Connecticut Insurance Commissioner on October 21, 2015. PMH has also had preliminary discussions with

major payors in Connecticut to introduce the CRC model. PMH is optimistic that the discussions will result in most payors embracing the skills and expertise that PMH brings to the Connecticut market in its CRC model.

My remarks today will address how PMH's CRC business model will be beneficial to GWHN and supports the approval of the Application through (i) aligning physicians, hospitals, payors, community providers and all healthcare stakeholders; (ii) improving quality, (iii) improving efficiency, (iii) reducing costs, (iv) embracing health care reform, and (v) building comprehensive networks of care.

II. Community Benefits of the Transaction

Prospect's acquisition of GWHN will enable GWHN to remain an economically viable and vibrant part of the health care system in the cities and towns served by GWHN and is expected to provide many benefits to patients. First, GWHN will no longer have a third party debt service obligations. Therefore, GWHN will be in a better position to re-invest in its facilities and equipment.

Furthermore, GWHN will gain immediate access to PMH's experience and knowledge in implementing a population health management model that will prepare GWHN to accept value-based contracts with government and third party payers with the triple aim of improved patient care and experience, better patient health, and lower costs.

Finally, as discussed in Section VIII, below, through the implementation of the CRC model, GWHN will invest in both expansion of access and services to its surrounding communities.

III. CRC Aligns Physicians and Hospitals

The CRC model offers a critical benefit to the post transaction health system by fostering the alignment of physicians and hospitals. The CRC model utilizes meaningful collaboration of the medical staff and the community to provide better coordination of care. Along with the other hospital systems operated by PMH, Waterbury Hospital will realize many benefits from this physician/hospital alignment including increased physician involvement in governance, ability to accommodate various physician preferences for employment and affiliation, and ability to attract and retain physicians, including specialty physicians.

The alignment of physicians and hospitals under the CRC model includes physicians maintaining central roles in administration and overseeing the development of needed health services and oversight of the quality of care delivered to patients. In addition to stronger leadership and governance opportunities encouraged by the implementation of CRC, physicians will be supported with CRC care management programs to effectively manage patients' health needs.

The post transaction health system will benefit from PMH's status as a physician friendly company and, as part of the CRC model, PMH's aim to accommodate physicians' preferences for practicing medicine. PMH recognizances that some physicians prefer to be employed, some wish to remain independent but seek a hospital environment where independent physicians are valued, and others prefer to remain independent but work on a contracted or other basis in hospital-based clinics. PMH is able to provide the full range of options to physicians under the CRC model. As a result, PMH is able to attract and align both employed and independent physicians with the health system and the payor community. The CRC model is attractive for its physician alignment strategies, such as physician participation in an IPA or physician-hospital organization, hospital-based clinics staffed by independent contractor physicians, and opportunities to implement pay-

for-performance compensation arrangements which incentivize quality, patient satisfaction and better patient outcomes.

Additionally, the use of the CRC model improves PMH's ability to attract and retain physicians, including certain types of specialty physicians, to a community hospital setting that a community hospital may not be able to attract on its own. Under the guidance of the CRC model, PMH has been successful in recruiting physicians, including the most recent success in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners in Rhode Island, only 18 were previously employed by the CharterCare System prior to its acquisition by PMH. The CRC model brings significant value to physicians because of PMH's experience and success with risk-based payment arrangements that continue to expand and replace the fee-for-service payment system. By implementing risk-based payment arrangements, all providers are more aligned to improve quality and achieve better patient outcomes all while maintaining efficiencies and cost savings.

The CRC model has been highly successful in aligning physicians with PMH hospitals and improving quality and efficiency in California, and local versions of the model have been implemented in Texas and Rhode Island with similar success. PMH's historical achievement with the CRC model supports PMH's successful implementation in the Waterbury service area.

Because the CRC model emphasizes physician engagement and is adaptive to all forms of physician participation, the CRC model is poised to better align physicians with hospitals than the traditional models now in place. By achieving such alignment, PMH and the post-transaction hospitals will include physician governance and ability to accommodate various physician preferences, as well as attract and retain specialty physicians.

IV. CRC Improves Quality

The aim of the CRC model is to offer patients highly coordinated, personalized care so they can live healthier lives. As the CRC model is implemented in a health system, patients experience improved quality care.

CRC improves quality by utilizing disease and care management programs, ensuring availability of urgent care, and utilizing case management across the continuum. All of the programs will enhance quality at the post transaction health system. For example, PMH will employ the CRC model to create programs to identify patients with significant co-morbidities and then design comprehensive medical and psychosocial high intensity care management services for their care.

The CRC model also promotes quality by building and managing a tightly integrated, coordinated health care system. For example, physician integration between practices and facilities improves communication between providers, patients and institutions; creates universal best practices, standards and metrics; and improves patient access to ancillary services. PMH has received recognition for its quality. I refer you to page 80 of the Application for a summary of PMH's quality awards.

CRC improves quality because the model focuses on providing patients coordinated and personalized care to improve health. Enhanced quality of care is accomplished by utilizing health management programs, encouraging treatment at appropriate facilities and building integrated systems to improve care coordination.

V. CRC Improves Efficiency

The CRC model also promotes the efficient operation of hospitals and provider groups by aligning physician interests with the delivery of cost effective quality healthcare. One of the goals of CRC is to reduce the overall cost of healthcare by increasing preventative care and early interventions, reducing re-admissions, reducing inpatient utilization and reducing emergency room visits. CRC promotes physician incentives and focuses on promoting coordination and establishing payor relationships that incentivize efficiency.

The implementation of CRC involves rewarding physicians for positive quality outcomes, not output, via shared savings and pay-for-performance standards and benchmarks. These CRC physician incentives have proved effective in Southern California, Texas and Rhode Island - PMH has demonstrated improved clinical outcomes, higher quality scores, higher patient satisfaction, lower re-admission rates, lower average lengths of stay, and lower medical-cost ratios. Bringing CRC to the post transaction health system will involve the implementation of successful CRC best practices regarding efficiency that have been established among its member hospitals to reduce readmissions. CRC also enhances efficiency through uniform productivity and financial management. PMH expects to see similar success in the GWHN service area with the implementation of CRC efficiency efforts.

CRC involves the utilization of resources, systems, and efficiencies which are essential for long term success in the evolving health care marketplace. In order to offer high value health care (and participate in the emerging value-based payment models to provide cost efficient care) CRC focuses on establishing new relationships among providers across the continuum of care. Essentially, the appropriate level of care must be provided at the right time by the correct provider. To achieve this, CRC methods include, but are not limited to: (i) development and management of

an advanced, comprehensive care continuum delivery network; (ii) population health management with the identification of those patients requiring high intensity care and sophisticated care management programs; (iii) actuarial and health economics data analytics; and (iv) integrated information technology.

Overall, the CRC model promotes efficiency through its development of a coordinated system and through physician incentives to utilize PMH's coordinated system in the most effective and efficient manner while keeping the focus on quality.

VI. CRC Embraces Health Care Reform Changes

Implementation of the CRC model allows a hospital or provider group to rebuild and retool itself for the new world of accountable health care delivery. The new model of health care is one that is evolving from federal mandates, changes in health care technology, patient demands, need for cost-containment, and evolving reimbursement models with are moving from volume to value, where providers will no longer be paid strictly on the volume of patients they treat, but on the value of the healthcare they provide. The CRC model offers flexibility to adjust to health care reform and the post-transaction system will benefit from the experience PMH has in implementing and running the CRC model.

Health care reform requires physicians, hospitals and other health care providers to work together, ensuring that all caregivers in a healthcare system align themselves with the patient's wellbeing as the focus. The post transaction health system, under the CRC model, will be able to continuously develop and adjust to new methods of reimbursement and savings due to flexibility built within the model that allows for various forms of provider integration. Because CRC embraces health care reform changes, opportunities to further integrate care delivery among providers and regionalize the health care delivery system in the Waterbury Hospital service area

will be realized. In line with health care reform, PMH has developed and implemented high intensity care management programs within its CRC model that integrate behavioral and physical health capabilities to effectively manage the care of patients with significant co-morbidities. The result is identification of patients at risk and building upon existing initiatives within GWHN's system.

Additionally, PMH's experience in implementing CRC will better enable GWHN to meet the health care reform requirements of the Patient Protection and Affordable Care Act. For example, PMH dedicates resources (and keeps an open dialogue with payors) to ensure that its CRC efforts are reflective and integrative of the latest payor programs. This allows hospitals and provider groups to quickly adjust to the changing healthcare delivery environment. PMH has thirty (30) years' experience operating provider groups, such as IPAs, and working with health care insurers and will bring that experience to GWHN. PMH also has invaluable experience through its operation of hospitals and medical management organizations which will be applied to the post transaction health system.

In sum, CRC embraces health care reform because the CRC model is adaptable to the changing health care environment and PMH management has the experience and ability that result in successful healthcare systems.

VII. CRC Reduces Costs

PMH does not anticipate any increase in costs to patients or insurers as a result of this transaction. PMH plans to assume GWHN's health plan contracts and through the implementation of CRC will add value and reduce costs. Implementing the CRC model requires the participation in evolving risk-based payment environment. As such, the CRC model will enable GWHN to be

successful with new risk-based payment systems and care delivery models that reward value-based care, achieving the best outcomes for patients at lower costs.

Health systems need to ensure efficient use of their assets to maintain a positive financial position and remain competitive. CRC achieves financial performance success by incentivizing physicians and patients to appropriately use urgent cares centers and to keep patients compliant with various homebound and other wellness programs. The result is keeping patients healthier while reducing the over-utilization of healthcare services. By utilizing appropriate care settings and resources, and managing chronic care patients, PMH avoids unnecessary, inefficient and duplicative services; and reduces medical errors which result in improved efficiency and cost savings. By implementing CRC in the post transaction health system, the cost of healthcare will be reduced for all healthcare stakeholders.

VIII. CRC Builds Comprehensive Care Networks

The application of CRC results in the establishment of comprehensive care networks. GWHN's implementation of the CRC model will provide a comprehensive care network by evaluating and promoting the management of care across a complete continuum in order to deliver services in the right place at the right time, aligning GWHN's physicians and other providers across this continuum of care, and developing integrated information systems.

As part of the CRC implementation process, PMH reviews the services offered by its systems and seeks to enhance or expand services. Such enhancements start with the development of primary care and specialty practices and the expansion of ambulatory offerings. These services provide more effective and resourceful alternatives to emergency room and hospital-based surgery. Further, CRC necessitates the management of patients with challenging chronic medical conditions, and keeps patients well in the appropriate care settings. By utilizing appropriate care

settings and resources and managing chronic care patients, PMH avoids unnecessary, inefficient and duplicative services and reduces medical errors which result in improved efficiency and cost savings.

The implementation of CRC will integrate and expand the GWHN's current network of providers and program offerings beyond what can be done currently by GWHN. Examples of development activities in Texas include: formation of a multi-specialty IPA; increasing behavioral health service capacity; expansion of hospital-based outpatient clinics; purchase of a rural hospital resulting in increased access to care; establishment of an emergency room; and leasing and converting additional space for expansion of services. In Rhode Island, PMH has accomplished the following: established an IPA with over 400 physicians, established a risk taking entity to accept delegation of health plan risk, purchased 28 primary care clinics, expanding access to care; joint ventured on a radiation-oncology center; expanded cardiac catheterization services, and worked closely with the Governor to launch a Medicaid pilot program. California is a mature market for PMH. More recent efforts to improve access to services in California include the following: purchasing a closed hospital in south Orange County (which PMH reopened in September 2015) to better serve patients who are members of PMH's owned or managed IPAs; and purchasing primary care and multi-specialty clinics to increase access to care. All of the above are examples of service line expansions and improving access to care. PMH will be able to achieve better care coordination of care for the GWHN community with the implementation of CRC.

CRC aligns GWHN's physicians and other providers across the continuum of care. The implementation of CRC improves the overall health of, and enhances the standard of care for, its patients. CRC encourages providers to be more clinically integrated with other care givers and enables patients to receive the right care, with the highest levels of quality, in the most appropriate

care setting. Through the development of the CRC and the attainment of these objectives, PMH will be successful in reducing unnecessary re-admissions, inpatient utilization, and emergency room visits which will translate into improved outcomes and lower health care costs for patients in the GWHN service area. For example, from 2012 to 2014 in California and Texas where PMH participates in HMO contracts for seniors, PMH has reduced hospital beds days per thousand from 1,260 to 720. Length of hospital stay for this population has been reduced from 5.1 days to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days have dropped from 19% to 13%.

Lastly, CRC involves the development of integrated information systems and best practices to ensure that patient care is coordinated across many levels of care. By introducing CRC, PMH provides access to its evidence-based practices aimed at improving quality and patient safety. In its development of the post transaction health system, PMH will partner with the medical staff to address gaps in care and services to ensure the effective management of all patients across the network.

When CRC is implemented across a health care system, it involves the review of the levels of care offered and the development of any gaps in care, the coordination and alignment of providers across the system and the development and utilization of integrated information systems and best practices. All result in better quality outcomes for patients in a cost effective delivery system.

IX. Conclusion

PMH's vision for Connecticut is to develop and maintain quality-driven hospitals with a robust network of aligned providers operating within its CRC platform. PMH's success in developing its CRC model comes by way of (i) aligning physicians and the hospitals, (ii)

improving quality, (iii) improving efficiency, (iii) reducing costs, (iv) embracing health care reform, and (v) building comprehensive care networks. The success of the CRC model in California, Texas and Rhode Island supports that there is a quantifiable benefit for implementing the CRC model in the GWHN service area. This proven success and projected success within GWHN from implementation of the CRC model supports the approval of the Application.

Thank you for your time and I welcome any questions.

PREFILE TESTIMONY OF
STEVEN ALEMAN

DEPARTMENT OF PUBLIC HEALTH	:	**DOCKET NO. 15-32017-486**
OFFICE OF HEALTH CARE ACCESS	:	
	:	
OFFICE OF THE ATTORNEY GENERAL	:	**DOCKET NO. 15-486-02**
	:	
IN RE: GREATER WATERBURY HEALTH NETWORK, INC. – PROPOSED ASSET PURCHASE BY PROSPECT MEDICAL HOLDINGS, INC.	:	**April 26, 2016**

PRE-FILED TESTIMONY OF STEVEN ALEMAN

I. Introduction

My name is Steve Aleman and I am the Chief Financial Officer of Prospect Medical Holdings, Inc. ("PMH"). I am here today to speak in support of the conversion application (the "Application") and the proposed acquisition of assets of Greater Waterbury Health Network, Inc. ("GWHN"), including The Waterbury Hospital ("Waterbury Hospital"), by PMH. Specifically, I will address PMH's financial strength and the benefits of PMH financial resources to GWHN.

Professional Background

I currently hold the position of Chief Financial Officer for PMH. Since 2009, I have served in various capacities at PMH including Vice President of Corporate Development, Chief Financial Officer at Brotman Medical Center and Vice President Internal Audit at PMH. Prior to my employment at PMH, I was employed at Wellpoint Health Networks, Inc. ("Wellpoint") for ten years in various capacities. My last position at Wellpoint was Staff Vice President, Corporate Risk and Assurance. I am also a Certified Public Accountant.

Summary of PMH

PMH is a $1.3-billion-dollar healthcare services company that owns and operates fourteen (14) acute care and behavioral hospitals in Rhode Island, Texas, California and (with the closing of our transaction with East Orange General Hospital on March 1, 2016) New Jersey. In addition, PMH has executed a definitive agreement to purchase a hospital system in Pennsylvania. PMH maintains or is developing a robust network of specialty and primary care outpatient centers in each of its regions.

Long Term Debt to Equity Ratio

With respect to Exhibit Q5-1, page 1479, of the Second Set of Completeness Responses and the Long Term Debt to Equity ratio for PMH, the ratio's trend is positive as PMH consistently generated Net Income period over period thereby driving the negative equity balance (which had resulted from of dividend distributions) to positive as of FYTD 9/30/15. That growth in Net Income was a result of continued strong financial performance in both the Hospital and Medical Group segments. Ratios during this period fluctuate as negative equity decreases against fairly stable debt levels.

Summary of Financial Benefits

My remarks today will address how PMH's financial resources and industry know-how are beneficial to GWHN and support approval of the Application through (i) PMH's ability to fund the transaction and GWHN's debts and obligations; and (ii) improving the post-transaction health system's access to capital.

II. PMH Has the Financial Ability to Fund the Transaction

PMH has a proven record of financial success and is able to fund the transaction, allowing GWHN to fully satisfy its increasing debts and discharge its obligations as

outlined in the Asset Purchase Agreement ("APA"). This will allow future income generated from operations of the health system to be invested in equipment, technology, infrastructure, and expansion of health care services, rather than retirement of debt.

PMH is a $1.3 billion healthcare organization and has the financial capacity to provide the capital necessary for this transaction without the need to enter into transaction-specific financing arrangements. PMH has access to existing corporate level credit in addition to its cash on hand. There is no financing contingency with respect to this transaction. The Applicants anticipate that this acquisition (after giving effect for the assumption of liabilities), will be funded with its existing cash. PMH has agreed to and has the financial capacity to assume and fund certain of GWHN's debts and obligations; specifically, GWHN's pension liability. GWHN's portion of the unfunded pension liabilities with respect to its multi-employer defined benefit health plan (the Connecticut Health Care Associates Health Plan) are estimated to be at least $27,000,000 and are approximately $12,200,000 for the Cash Balance Plan. PMH's post-closing guarantee of these pension obligations adds substantial additional security to the participants of the pension plans beyond what currently exists with GWHN as a stand-alone entity, and assures that all current and former employees of GWHN will receive their full pension benefit.

In sum, PMH can fund the transaction without any associated risk.

III. PMH Improves GWHN's Access to Capital

PMH has access to capital that will make the necessary investments and improvements in GWHN possible. PMH's access to capital includes its favorable credit

lines and access to capital markets that will provide the necessary funding for GWHN's facilities.

PMH's access to capital includes a revolving line of credit with Morgan Stanley that has been preapproved and can fund the capital commitment amount in the APA. In order to draw on this line, PMH simply provides a 24-hour advance verbal notice to the lenders. PMH's excellent relationship with creditors will provide needed access to capital that GWHN does not currently maintain. This comes at a critical time as GWHN has experienced trouble obtaining financing and access to capital has impeded the expansion of programs and recruitment of providers. GWHN's capital needs are significant and necessary in order to recruit providers, offer the latest technology to be a competitive facility in the health care service area and perform needed physical plant renovations. Significant investments are also necessary for GWHN to develop new competencies and process skills and knowledge.

PMH has access to capital and will be investing the resources needed. PMH's access to capital markets that are not currently available to GWHN provides easier and quicker access to funding for replacements and upgrades to systems and infrastructure of the facilities. Capital needs at Waterbury Hospital are significant and cannot be met with current avenues available to GWHN for funding. Such investments include upgrades in technology in order to improve the collection and documentation of information and increase the availability of data for critical treatment decisions for patients; upgrades to the medical equipment and enhancements to provide patients access to state-of-the-art technology for their diagnosis, care and treatment; and program development to attract and retain physicians to the communities served. Without access to the capital that PMH will

provide, such provider recruitment, and facility upgrades and enhancement at GWHN will have to be delayed or even deferred. PMH's access to capital will provide the essential financial resources that GWHN has not been able to obtain on its own.

IV. Conclusion

In sum, PMH has a proven record of financial success and is able to fund the transaction as well as GWHN's increasing debts and obligations without placing the post-transaction health system at any unreasonable risk. PMH has access to capital that will help accomplish the needed investments and improvements in GWHN.

Thank you for your time and I welcome any questions.

PREFILE TESTIMONY OF
JONATHAN SPEES

DEPARTMENT OF PUBLIC HEALTH OFFICE OF HEALTH CARE ACCESS	:	**DOCKET NO. 15-32017-486**
OFFICE OF THE ATTORNEY GENERAL	:	**DOCKET NO. 15-486-02**
IN RE: GREATER WATERBURY HEALTH NETWORK, INC. – PROPOSED ASSET PURCHASE BY PROSPECT MEDICAL HOLDINGS, INC.	:	**April 26, 2016**

PRE-FILED TESTIMONY OF JONATHAN SPEES

I. Introduction

My name is Jonathan Spees and I am the Senior Vice President of Mergers and Acquisitions at Prospect Medical Holdings, Inc. ("PMH"). I am here today to speak in support of the conversion application (the "Application") and the proposed acquisition of assets of Greater Waterbury Health Network, Inc. ("GWHN"), including The Waterbury Hospital ("Waterbury Hospital"), by PMH. Specifically, I will address how PMH's financial resources and healthcare expertise will benefit GWHN.

Professional Background

I currently hold the position of Senior Vice President of Mergers and Acquisitions for PMH. Previously, I was Senior Vice President with The Camden Group, where I was a National Practice Leader for mergers, acquisitions and affiliations. Prior to The Camden Group, I was Chief Financial Officer for the University of Southern California's Keck Hospital of USC and USC Norris Cancer Hospital. I have also held positions as Senior Executive Vice President, Corporate Development and Finance, Founder of Merit Health Systems, LLC, a hospital management company, Managing Member of Abacus Ventures, LLC, and Managing Director of Shamrock Investments, LLC (both private investment and investment banking firms specializing in corporate

finance and mergers and acquisitions in the healthcare industry); Associate Director of Corporate Development for American Medical International; and audit manager and designated healthcare industry specialist for Deloitte Haskins + Sells, one of the eight largest public accounting firms worldwide at that time. I am also a Certified Public Accountant.

Summary of PMH

PMH is a $1.3 billion dollar healthcare services company that owns and operates fourteen (14) acute care and behavioral hospitals in Rhode Island, Texas, California and (with the closing of our transaction with East Orange General Hospital on March 1, 2016) New Jersey. In addition, PMH has executed a definitive agreement to purchase a hospital system in Pennsylvania. PMH maintains and is developing a robust network of specialty and primary care clinics in each of its regions.

East Orange General Hospital

PMH acquired East Orange General Hospital in New Jersey on March 1, 2016. The financial terms of that transaction are a purchase price of approximately $43 million dollars, including the assumption of liabilities; $6.5 million was ultimately used to fund the East Orange General Hospital Foundation. The amount and duration of the PMH capital commitment is $44 million over five (5) years. Funding for the approximately $23.5 million in cash required at the closing was from a drawdown of PMH's revolving credit facility.

Crozer-Keystone Health System

PMH has entered into an agreement to buy Crozer-Keystone Health System ("CKHS") in Pennsylvania. The financial terms of the transaction are confidential but include a $200 million capital investment in the medical centers over the next five (5) years and the assumption of the pension liability currently estimated at approximately $120 million. The PMH CKHS transaction

requires PMH to keep open all licensed hospitals, including any campuses of a licensed hospital where inpatient acute care services are provided. CKHS has only two licensed hospitals, currently operating on five campuses. PMH's plan to fund the purchase price, capital commitment and pension liabilities is by increasing its corporate credit facilities and through funds generated from future operations of PMH, including CKHS. The transaction is currently undergoing regulatory review by the Attorney General of the State of Pennsylvania. A public hearing is scheduled for May 4, 2016 and PMH anticipates closing the transaction on or about June 30, 2016. Acquisition of CKHS is anticipated to have a positive impact on PMH's ability to meet its financial commitments in connection with the proposed GWHN and ECHN asset purchases by increasing our cash generated from operations and future ability to access the capital markets as needed.

Summary of Financial Benefits

My remarks today will address how PMH's financial resources and industry know-how are beneficial to GWHN and support approval of the Application through (i) putting the post-transaction health system in a positive financial position; (ii) adding stability to the Connecticut healthcare community; and (iii) allowing the post-transaction health system to build a comprehensive network of care.

II. PMH Will Put GWHN in a Positive Financial Position

PMH has successfully restored the financial position of many health systems by applying its data-driven, disciplined operating strategies, leveraging its corporate capabilities, and investing in growth. GWHN, like many community health networks, has experienced financial difficulties and has been seeking an affiliation with a larger, well-capitalized healthcare system for several years. GWHN has long standing financial challenges which began prior to 2005 with years of financial losses and that continue to this day. GWHN is in financial distress, has aged facilities

and lacks access to capital. Even after the execution of the Letter of Intent between PMH and GWHN, GWHN's liquidity and financial performance deteriorated. With the proposed asset purchase, PMH will provide sufficient capital to meet deferred, current and future capital needs for the Hospital's physical plant to ensure state of the art health care delivery services through an upgrade of facilities, equipment and technology. Prospect's capital and access to capital will mean that GWHN will have the financial resources to purchase new technology, upgrade its facilities, attract skilled providers, and upgrade electronic health records, in addition to investing in service line development, physician alignment and recruitment and development of increasing ambulatory access. PMH has also agreed to fully assume the pension benefit plans of the GWHN employees.

III. Financial Security Offered by PMH Provides Stability and Support for the Needs of the Community and its Access to Health Care

The financial security that PMH will bring to the post-transaction health system will resonate through the community. Our investment in developing GWHN's delivery network will allow patients to receive their care locally as opposed to facilities owned by competitors in Hartford and other communities outside Waterbury. A positive financial position and growth of GWHN's delivery network will allow the post-transaction health system to offer continued levels of employment that are critical to the local economy. Waterbury Hospital is a large employer in its market and, as such, the financial success of the hospital leads to a more financially secure community.

Prospect has agreed to operate Waterbury Hospital as an acute care hospital. The hospital will have a local advisory board that will permit continued community involvement in operations. Additionally, PMH has agreed to maintain and adhere to GWHN's current policies regarding charity care and indigent care, or adopt other policies that are at least as favorable to the community

as GWHN's current policies – which are generally comparable to charity care policies at PMH's other hospitals (as determined by local leadership at the hospital). PMH's ability to successfully operate the post-transaction health system and thus continue to offer charity care at current levels provides a positive community benefit for indigent and needy populations in the service area. Furthermore, PMH's Coordinated Regional Care model of population health management and preventative medicine will result in more access to outpatient care.

Regarding PMH's history of community benefit, a number of PMH hospitals are "safety-net hospitals." In fact, PMH is a member of Private Essential Access Community Hospitals ("PEACH"). PEACH is a network of private, core safety net hospitals in California that care for disproportionate share or low income, medically vulnerable patients. PMH intends to bring this spirit of community support and benefit to The Waterbury Hospital.

Further, the financial security offered by PMH results in the continued support of community building activities in the Waterbury area. In accordance with the provisions of the Asset Purchase Agreement ("APA"), PMH will commit to spend within seven (7) years of the closing not less than $55,000,000 (less the amount not to exceed $3,500,000 of Capital Lease Obligations assumed by Buyer at Closing in excess of $3,000,000) in capital for the benefit of the health system. These expenditures may include: (i) capital projects, including routine and non-routine capital expenditures, at, or for the benefit of, the hospital businesses and/or the acquisition, development and improvement of hospital, ambulatory or other health care services in the greater Waterbury, Connecticut community, which shall include, for the avoidance of doubt, expenditures relating to the implementation of PMH's coordinated regional care model ("CRC") and physician recruitment. PMH's investments in the post-transaction health system provide financial security

and support to the community by way of continued employment, facility upgrades, an expanded and aligned physician network and improved ambulatory access.

Because GWHN's cash reserves have declined in the past year, and in order to assure that there is adequate cash available at closing of the proposed transaction to pay off GWHN's secured debt, PMH has agreed to make two significant changes to the draft APA which was included in the initial CON filing:

1. To provide that the calculation of the Purchase Price pursuant to Section 2.05 will not be less than zero;
2. To eliminate the Indemnification Holdback Amount ($4,500,000).

If PMH assumes liabilities pursuant to #1, or incurs unreimbursed post-closing indemnification claims (because there is no Holdback) pursuant to #2, the capital commitment can be reduced, but not by more than $9,500,000. Based on current estimates, the capital commitment would be reduced by approximately $2,000,000; however, this figure is subject to change based on GWHN's operating results from March 31 to the closing and if there are any post-closing amounts due from GWHN to PMH. Changes to the Letter of Intent and the APA are currently being drafted and will be filed when complete.

IV. PMH's Financial Resources Will Aid the Post-Transaction Health System in Building Comprehensive Networks of Care

PMH's financial position will enable the post-transaction health system to have access to resources for the purpose of integrating and expanding the network of providers and program offerings beyond what exists today. Fostering an environment that aligns physicians and other providers across the continuum of care provides access to evidence-based practices to improve quality and patient safety, enhances efficiency through uniform productivity and financial

management, and develops integrated information systems. PMH has access to the financial resources required to develop stronger integration with provider affiliates to coordinate care, create new access points by expanding outpatient services, improve the overall population health and enhance the standard of care for its patients. Our care model actually lowers overall healthcare costs by keeping people healthy, providing care more efficiently, reducing unnecessary hospitalizations, and providing needed care in the right setting at the right time. My colleague, Dr. Mitchell Lew, will discuss in detail PMH's Coordinated Regional Care model which, when successfully implemented, lowers the overall cost of healthcare for consumers, insurers and government payers versus traditional fee-for-service models.

Stand-alone providers have special challenges containing costs while delivering quality care. Without the appropriate financial resources that a national system provides, independent providers struggle to be both effective and efficient. GWHN has had difficulty recruiting and retaining providers to GWHN's service area and has suffered while its competitors both locally and from Hartford and Danbury have hired its physicians and developed ambulatory facilities which benefit communities other than Waterbury. PMH has the financial ability to make the necessary investments in infrastructure and personnel to establish the continuum of care needed to develop a highly integrated and successful health system.

V. Community Health Needs Assessment.

PMH specializes in building comprehensive networks of quality healthcare services designed to meet the needs of the communities it serves. PMH's goal is to best serve the healthcare needs of both the communities in which PMH currently operates and of the communities in other states like Connecticut where PMH seeks to grow.

The performance of a Community Health Needs Assessment ("CHNA") is a requirement for tax-exempt hospitals in order to maintain this tax status or designation. The performance of a CHNA does not guarantee that identified community needs will be met by a tax-exempt hospital. PMH is not seeking to continue the tax exempt status of any of the entities in the GWHN transaction nor does the GWHN transaction involve a tax exempt joint venture partner. It should be noted that PMH has never been required to conduct a formal Community Health Needs Assessment post-conversion or acquisition of a nonprofit hospital. Although PMH is not tax exempt and therefore not required to engage in a CHNA, PMH recognizes that reputation in the community and thus its long term success depends on meaningfully investing in and providing needed care to the communities it serves. PMH is constantly identifying and developing resources to serve current and future healthcare needs in the communities it serves. PMH strives to improve and strengthen programs and services it provides. Furthermore, PMH's focus on preventative medicine and population health management improves access and enables PMH's hospitals to address the health needs of its communities. As stated above, PMH focuses on building comprehensive networks of care that address the community's needs.

PMH, and more importantly, our local management teams, work closely with their Local Boards to assess and determine the community health needs of the population served and how to best implement programs to address these needs. The use of the Local Board allows for wide-spread public input and collaboration with other health care providers in the community. It is PMH's intention to involve the Local Board in assessment processes as a way to facilitate public input and to publicly disseminate, via the website or other means, final assessments and implementation plans.

VI. Conclusion

The approval of the conversion application and proposed transaction will (i) put GWHN in a positive financial position; (ii) allow PMH's investments in the post-transaction health system to provide financial security and support to the community, and (iii) enable the post-transaction health system to have access to resources for the purpose of integrating and expanding the network of providers and program offerings beyond what exists today.

Thank you for your time and I welcome any questions.

RESPONSE TO ISSUES IDENTIFIED IN HEARING NOTICE

Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("Prospect" or "PMH") (GWHN and Prospect are referred to collectively as the "Applicants") submit the following responses to the Issues requested by the Office of the Attorney General and Office of Health Care Access on April 13, 2016.

1. **With respect to PMH's recent acquisition of East Orange General Hospital in New Jersey, please describe the financial terms of that transaction, including without limitation, the purchase price and amount and duration of any capital commitments. Please also describe the funding sources used by PMH to pay the purchase price and those that will be used to fund any capital commitments or other material financial obligations of PMH at East Orange General Hospital.**

Response:

PMH acquired East Orange General Hospital in New Jersey on March 1, 2016. The financial terms of that transaction are a purchase price of approximately $43 million dollars, including assuming liabilities, $6.5 million of which was will be contributed to the East Orange General Hospital Foundation. The amount and duration of the capital commitment is $44 million over five (5) years. The funding for the approximately $23.5 million in cash required at the Closing was from a drawdown of PMH's revolving credit facility.

2. **PMH has entered into an agreement to buy Crozer-Keystone Health System in Pennsylvania. Under the reported terms of the agreement, PMH is pledging to keep all five Crozer-Keystone hospitals open and invest $200 million in the medical centers over the next five years in capital commitments as well as assuming Crozer-Keystone's outstanding pension liability of $100 million. Please provide an update on the status of this proposed acquisition addressing, in particular:**

    a. **the financial terms of the transaction;**

    b. **PMH's plan to fund the purchase price, capital commitment, pension liabilities and other material financial obligations associated with the transaction;**

    c. **the status of any necessary governmental or non-governmental approvals connected with the transaction;**

    d. **the anticipated closing date; and**

    e. **the impact that the transaction will have on PMH's ability to meet its financial commitments in connection with the proposed GWHN and ECHN asset purchases in Connecticut.**

Response:

Please note the PMH Crozer-Keystone transaction requires PMH to keep open all licensed hospitals, including any campuses of a licensed hospital where inpatient acute care services are provided. Crozer-Keystone has only two licensed hospitals, currently operating on five campuses.

PMH has entered into an agreement to buy Crozer-Keystone Health System ("CKHS") in Pennsylvania. The financial terms of the transaction are confidential but include a $200 million capital investment in the medical centers over the next five (5) years and the assumption of the pension liability currently estimated at approximately $120 million. PMH's plan to fund the purchase price, capital commitment and pension liabilities is by increasing its corporate credit facilities and through funds generated from future operations of PMH, including CKHS. The transaction is currently subject to regulatory review by the Attorney General of the State of Pennsylvania. A public hearing is scheduled for May 4, 2016 and we anticipate closing of the transaction on or about June 30, 2016. Acquisition of the Crozer-Keystone Health System is anticipated to have a positive impact on PMH's ability to meet is financial commitments in connection with the proposed GWHN and ECHN asset purchases by increasing our cash generated from operations and future ability to access the capital markets as needed.

3. **With respect to the surveys of PMH's Southern California Hospitals completed on 4/21/14, 8/21/14, 9/25/15 and 12/22/15 as well as the survey of Los Angeles Community Hospital ("LACH") completed on 11/10/15 that resulted in the California Department of Health declaring Immediate Jeopardy situations to exist, please identify when GWHN first learned of each Immediate Jeopardy determination. Please also discuss GWHN's due diligence after having learned about the Immediate Jeopardy determinations and the conclusions based upon that due diligence.**

Response:

PMH's quality issues in the California hospitals became known when they were disclosed to GWHN as part of Prospect's response to the ECHN completeness questions in late 2015 and OHCA/AG asked GWHN about these issues in its completeness questions to GWHN in January 2016. In early February 2016, PMH initiated several calls with WH's management team and counsel to detail the CMS deficiencies at Culver City and Los Angeles Community Hospitals, and its plans for investigation and remediation.

These quality issues were reported to the WH Board in Executive Session on February 11, 2016. In response, GWHN's Board Chair appointed a task force ("Task Force") comprised of four Trustees who are physicians, the Medical Director of Performance Improvement, the Chief Nursing Officer and the Director of Performance Improvement. The appointees all had significant expertise in the areas of regulatory surveys, CMS Conditions of Participation and hospital quality standards. The goal of the investigation was to review the materials and undertake such diligence that they believed appropriate and report their findings back to the Board together with a recommendation about whether to proceed with the transaction.

To accomplish this goal, the Task Force requested, received and reviewed extensive amounts of information from PMH, including past regulatory surveys for its hospitals in California, Texas and Rhode Island, its corrective efforts in those hospitals, and its year over year quality metrics and documentation of the quality improvement programs for those hospitals. The Task Force focused in particular on the surveys of PMH's California hospitals dealing with Immediate Jeopardy findings.

In addition to these investigatory efforts, the GWHN quality review team requested, and PMH made available, members of PMH's management to be interviewed. They provided extensive detail on the root causes of the Immediate Jeopardy issues in California and the remediation efforts that had been completed or were actively under way to address those issues. A number of meetings were held.

In addition to a lengthy study of the CMS Survey results and interviews, with senior PMH members, GWHN team made site visits to California and Rhode Island. GWHN's President/CEO and Chief Operating Officer and the Vice President of Alliance Medical Group travelled to California and visited Los Angeles Community Hospital, Culver City, and interviewed the senior team onsite. The Task Force gave special attention to the experiences of PMH's CharterCARE hospitals, Roger Williams Hospital and Our Lady of Fatima Hospital, both of which are located in Providence, Rhode Island, and thus are the closest to GWHN geographically. The GWHN reviewers found not only that the CharterCARE programs were of high quality, but that they had been enhanced in notable, positive ways rather than cut back after PMH's acquisition.

The Task Force presented its report and recommendations to the Board of Directors on April 14, 2016. There was a thorough question and answer session and an examination of the recommendations. The Task Force recommended that GWHN seek written assurances from PMH about the continuation of certain quality programs and the prospective obligation to undertake other actions. The Task Force recommended that GWHN seek a commitment from PMH that GWHN's patient quality, patient experience and safety programs be maintained, and if possible, be improved. PMH has agreed to continue GWHN's patient quality, patient experience and safety programs and also to facilitate collaboration with other PMH hospitals, including allowing GWHN to benefit from sharing best practices among the Prospect hospitals in the northeast and nationally. Based on the information learned and the protections gained from this additional commitment from PMH, the task force recommended, and the Board confirmed, GWHN's commitment to proceed with the transaction.

4. **Please provide an update on the status of any subsequent surveys and findings of the CDOH with respect to the Statement of Deficiencies issues in connection with the 12/22/15 of Southern California Hospital at Culver City and the March 23, 2016 letter to LACH informing LACH that it continues to be out of compliance with respect to the CMS Conditions of Participation for hospitals in the areas of Nursing Services and Infection Control.**

Response:

Southern California Hospital at Hollywood:

The credible allegation of compliance was submitted on March 22, 2016 related to the CMS full validation Survey that was conducted on December 18th – 22nd, 2015.

The Resurvey by CMS was conducted on April 4th – 8th, 2016.

We are awaiting the CMS results.

Los Angeles Community Hospital:

The Hospital submitted its credible allegation of compliance regarding the deficiencies identified in the CMS Correspondence dated March 23rd, 2016 on April 7th 2016.

CMS is in the process of conducting their survey based upon the April 7th 2016 plan of correction the week of April 25th, 2016.

5. **In the Application at page 84, PMH has committed to continue to provide financial support for community building activities in the Waterbury area. Particular community services and benefits currently provided by Waterbury Hospital, such as the Food for Life Program, are possible via funding through state, federal, or private grants. Please describe the extent to which GWHN has explored its ability to keep these programs grant funded if Waterbury Hospital is converted to for profit status and any role the Independent Foundation being formed as a part of this proposal might play in sustaining any grant-funded activities.**

Response:

GWHN has reviewed every grant and identified which could continue to flow to a for profit entity, and identify which could not. In the event the grant could not continue to flow to a for profit hospital, GWHN has made or is in the process of making alternative plans to ensure the continuation of services that are being provided to members of our community.

Most notable is the Ryan White grant which serves 700 HIV clients. Many hours of research and negotiations have gone into ensuring the future viability of this important community service. This HRSA grant cannot flow to a for profit entity. GWHN has entered into an agreement with the nonprofit Staywell Community Health Center which will serve as the fiscal agent, and become director of this clinic. Staywell will then buy services from the post closing hospital and its affiliates to ensure the patient/caregiver relationship not be disrupted. The Ryan White Clinic at Waterbury Hospital is an important community service and we are very pleased with the resolution. It is through these grant dollars that the Food for Life Program allows HIV patients access to fresh produce at the Brass City Harvest farmers market which is open to the public at Waterbury Hospital every Friday.

Bridge to Success: As an active participant in the community-wide Bridge to Success program, GWHN provides classes and support to students and their parents on a wide range of topics. The Summer Bridge program provides onsite education to at risk youth to prepare them to take the SAT. Many of the children start this program in the sixth grade and continue through high school. Additionally, the hospital provides Parents' Leadership Institute and Children's Leadership Institute in English, Spanish and Albanian. These courses help students become advocates for themselves, for their communities and for their families. The source of funding for these courses may be at risk. Therefore, GWHN has come to an agreement with Naugatuck Valley Community College to become the sponsor of these important courses that will continue to meet on the Waterbury Hospital campus.

Finally, the Childcare Center of the Greater Waterbury Health Network is not part of the proposed transaction. To ensure its long term viability, GWHN is currently in discussion with two potential nonprofit organizations that may be able to bring the center into their operations with little to no disruption. A recommendation is forthcoming from the Childcare Center board.

Several grants will continue to flow directly to post closing Waterbury Hospital.

The new Independent Foundation may have fund raising activities in the future and that Independent Foundation will determine where its funds best be used.

6. **With respect to page 1465 of Applicants' February 16, 2016 responses to completeness questions (the "Second Set of Completeness Responses"), please elaborate on the specific circumstances that contributed to the declines in inpatient and outpatient surgical cases between FY 14 and FY 15 and the overall decline in total outpatient cases over the same period which led to a deficit in revenues over expenses of $21,995,334 in FY 15 --a deficit increase of approximately $15.7 million for Waterbury Hospital over the prior fiscal year. In addition, please discuss the current profitability of Waterbury Hospital and how the Applicants intend to address these declines in volume and net patient service revenue post-closing.**

Response:

OUTPATIENT SURGERY DECLINE. Following the termination of the Tenet deal in December of 2014, there was significant uncertainty about the future of health care in the greater Waterbury area. In reaction to this uncertainty, several Waterbury Hospital affiliated surgeons bought into a physician-owned outpatient surgery facility in Southington in January of 2015. In addition, Saint Mary's Hospital bought one of the two GI practices in Waterbury and shifted all of their business to Saint Mary's causing a decline in the GI cases at Waterbury Hospital. Year over year, all surgical cases at Waterbury Hospital fell 9.87% while outpatient surgery fell 10.5%.

OVERALL OUTPATIENT BUSINESS DECLINE. Emergency room visits fell by 3,053 (5.69%); specifically, ED cases "seen and discharged" were down 3,266 (7.46%). This decline is primarily due to the increase of walk-in /urgent care business in the area. Overall outpatient volume (excluding ED) was down 7.1%.

CURRENT PROFITABILITY OF GWHN AND THE HOSPITAL. As the losses mounted in FY 2015, the Hospital contracted with The Camden Group to conduct an assessment of operations and recommend potential areas to reduce costs. In addition, the Hospital negotiated increases in managed care contracts, became eligible for additional Medicare revenue through an increase in the Medicare wage index due to being reclassified from New Haven Country to Nassau County in New York with all New Haven County hospitals, and implemented numerous cost savings measures (see chart below). The total of all initiatives is $26.2M. These initiatives have resulted in improvement. Through March 31, 2016 (6 months of operations), the overall Network has net income of $834,583, while the Hospital has net income of $5,623,041.

2016 Economic Improvements Budgeted

Specific Examples	Revenue Initiatives	Expense Initiatives
Medicare Inpatient	$4,900,000	
Medicare Outpatient	869,000	
Managed Care Contracts	3,600,000	
Elimination of 403b match		560,133
Reduced salaries (5, 7, 10, 20%)		3,446,494
Materials Management Improvement		575,000
All other items		12,264,532
Totals	**9,369,000**	**16,846,159**

GWHN continues to monitor all initiatives replacing ideas that were not successful with new initiatives as the year evolves.

7. **With respect to Exhibit Q5-1, page 1479, of the Second Set of Completeness Responses and the Long Term Debt to Equity ratio for PMH:**

   a. **Please explain the ratio's downward trend from a negative 37.0 in FYTD 7/31/14 to an even higher negative ratio of 349.8 in FYTD 9/30/14; and**

   b. **elaborate on the steps or initiatives taken that contributed to the ratio's increase between FYTD 9/30/14 and FYTD 9/30/15 from a negative 349.8 to a positive 11.6.**

Response:

Please note that the referenced trend is not downward and merely a mathematical result of reduced negative equity against a relatively stable debt total.

Negative equity occurred as a result of dividend issuances in years prior. Equity moved from <$11,410>, to <$1,206> to positive $36,440 as a result of positive net income during the measurement periods.

The positive net income trend was primarily due to improved performance in the Hospital and Medical Group Segment business and financial operations.

8. **In reference to the Financial Worksheets submitted as Exhibit Q6a-1 to the Second Set of Completeness Responses, please explain the zero incremental gains/losses associated with this proposal for GWHN when in Applicants' initial October 28, 2015 submission, pps. 1167-68, a Financial Worksheet for GWHN was submitted that included incremental amounts associated with this proposal.**

Response:

When the response was submitted in the second round of completeness questions, we submitted the information as GWHN only without the incremental with CON which is what we thought was the proper response. The incremental revenue included in the original filing is still accurate.

9. **Provide annual cash flow that would be generated and become available to support capital projects over the next five years at Waterbury Hospital as a result of PMH's addressing GWHN's debt and pension obligations.**

Response:

No change is anticipated in cash flow related to PMH's assumption of the GWHN pension obligations. Repayment of the GWHN secured debt as of the Closing will eliminate approximately $1.6 million of annual debt service payments, which will allow future income generated from GWHN operations to be invested in capital and growth, rather than retirement of debt.

10. **Please provide a list of critical, immediate (over next 2-3 years) capital needs at The Waterbury Hospital.**

Response:

Immediate Capital Needs: First two – three years

Patient Safety – Critical – In Order

1.	Monitors in ER	$600,000
2.	ER architects/plan	$200,000
3.	Nuclear Med	$450,000
4.	Fetal Monitors	$145,000
5.	EKG	$550,000
6.	Defibrillators	$240,000
7.	Jackson tables (2)	$200,000
8.	Nurse Call/ED	$220,000
9.	Bed replacements	$360,000
10.	Med Cart Replacements	$150,000
11.	Begin anesthesia update	$120,000
TOTAL		**$3.235 million**

Patient Safety – Second Tier

1. Bed replacements
2. Complete anesthesia
3. Cardiac stress
4. Isolettes
5. GI equipment
6. OR bed replacements
7. Digital radiology
8. Mobile digital radiology
9. Patient monitors/Reed
10. OR lights
11. Med cart replacements

OTHER [1]

ER- radiology bldg. project

Hybrid interventional room

Outpatient site 1

Maternity Department upgrade

Outpatient surgery center

Outpatient site 2

[1] The capital needs described above have not been reviewed by PMH, other than at a high level. Although such capital needs appear reasonable, final allocation of the capital commitment will be made post-closing based on PMH's strategic and capital planning process and considering the overall needs of the community, its population health, the delivery network, the GWHN facilities, and other relevant factors.

11. Please provide a complete description of the Local Board, including, but not limited to, its composition, the process for appointment and replacement of members of the Local Board, and how it will function regarding oversight of quality assurance in conjunction with the Hospital Board and PMH's corporate quality team.

Response:

The Local Advisory Board is to be formed by PMH and composed of 9-12 members. The Chief of the Medical Staff and the Head of Clinical Quality will serve as *ex officio* members. A member of the Board of Director of the local Prospect affiliate will serve on the Local Board, too. The composition of the Local Advisory Board will be diverse, taking into account, work and life experience, gender, sexual orientation, age, cultural, economic, ethnic, religious and racial background, residency and other factors.

The Advisory Board's duties are outlined in the Asset Purchase Agreement.

The Asset Purchase Agreement provides that the Local Board will:

> .....(i) make recommendations and suggestions to Buyer regarding the mission, vision and value statements with respect to the Hospital and the Hospital Businesses; (ii) make recommendations and suggestions with respect to medical staff credentialing, disciplinary action of staff physicians, and compliance with accreditation requirements; (iii) provide input on policies and clinical programs; (iv) provide input in the development and review of strategic plans; (v) provide input on operating and capital budgets; (vi) provide input and support physician recruitment efforts; (vii) provide input on succession plans for executive leadership at the Hospital; (viii) promote community health initiatives, fostering community relationships and identifying service and education opportunities; and (ix) monitor the commitment to maintain and improve quality indicators. [Section 6.12]
>
> .....work together with the Local Board and medical staff of the Hospital to preserve the existing staff membership and the current privileges of each physician, as well as the medical staff leadership. [Section 6.14]

A description of the Corporate Quality Program, including an organizational chart, provides an overview regarding how quality assurance will function in conjunction with the Hospital Board and PMH's corporate quality team. Pursuant to a Quality Assurance Agreement (provided under separate cover), PMH has agreed to maintain the respective quality program and goals of Waterbury Hospital for a period following the transaction. PMH is also committed to provide the necessary staff to support such quality programs. In addition, PMH agrees to share the best practices at its other facilities with Waterbury Hospital.

PRESENTATIONS FOR MAY 3, 2016 HEARING

THE PROPOSED TRANSFER OF ASSETS OF GREATER WATERBURY HEALTH NETWORK TO PROSPECT MEDICAL HOLDINGS

Presented to the Office of the Attorney General and the Department of Public Health's Office of Health Care Access

May 3, 2016

01644

Greater Waterbury Health Network

Proposed transaction:
Prospect Medical Holdings buys GWHN assets

- **Overview of our Process**
  - Carl Contadini, Chairman, Board of Directors, Greater Waterbury Health Network
- **GWHN Today and Future Plans**
  - Darlene Stromstad, FACHE, President/CEO, Greater Waterbury Health Network
  - Susan Cordeau, BS, RN, Director, Performance Improvement, Waterbury Hospital
- **Medical Staff Involvement**
  - Carl Sherter, MD, Former Chief of Staff, Member of GWHN Board Transaction Committee
- **Representatives from Prospect Medical Holdings**

Greater Waterbury Health Network

OVERVIEW OF OUR PROCESS

Carl Contadini, Chairman, Board of Directors
Greater Waterbury Health Network

01646

Greater Waterbury Health Network

Long journey

GWHN Board began reviewing options for sustaining the organization more than 10 years ago

- 2005: Commissioned study on merger with Saint Mary's Hospital (SMH)
- 2006-07: Discussions between GWHN & SMH
- 2007: Draft OHCA report recommends consolidation of two hospitals
- 2008: Unable to reach agreement, discussions end

Sense of urgency

- 2009: GWHN defaults on CHEFA bond covenants
- 2010: Board engaged consultants to analyze projected capital needs; anticipated cash would be depleted by 2015
- 2011: Board forms task force to chart future course of GWHN; new CEO hired
- 2011: Investment advisors – Cain Brothers – selected to lead process to cast net for potential partners
  - Priority was sustainable, high quality, accessible healthcare

Greater Waterbury Health Network

Proposed venture: LHP, GWHN & SMH

- 2011: Two finalists selected – Vanguard Health and LHP
- 8/2011: LHP, which had an LOI with SMH, was selected based on its promise to build a new hospital
- 2011-12: Work continues on merger of two Waterbury hospitals
- 8/2012: LHP terminates relationship with both hospitals; leaves Connecticut

Greater Waterbury Health Network

And the next chapter

- 8/2012: GWHN task force regroups, meets with SMH to explore any possibility to work together
  No path forward identified
- Fall 2012: Task force again goes back into market; reaffirms priority to provide sustainable, high quality, accessible healthcare with a commitment to invest in outpatient service strategy, physician recruitment, capital upgrades
- Fall 2012: Two finalists interviewed – Vanguard Health and Prospect Medical Holdings
- 10/2012: Vanguard Health selected

01650

Greater Waterbury Health Network

Process continues

- August 2013: Vanguard announces strategic alliance with Yale New Haven Health System
- October 2013: Tenet Healthcare purchases Vanguard
- July 2014: Tenet announces inclusion of SMH in deal (two separate hospitals in Waterbury under one parent company)
- October 2014: GWHN public hearing held
- November 2014: Transaction approved with over 70 conditions
- December 2014: Tenet announces departure from CT
- January 2015: In spite of political overtures, Tenet departure final

New strategy & Prospect Medical Holdings

- ***GWHN defines two-part strategy:***
  - ***rebuild the organization***
  - ***simultaneously identify potential partners***

- Spring 2015: Limited pool of potential partners
- 5/2015: LOI with Prospect Medical Holdings announced
- 8/2015: GWHN holds first public hearing
- 12/2015: GWHN enters into a forbearance arrangement with its bondholder

Greater Waterbury Health Network

Overview of transaction

- **Approximately $45 million purchase price, subject to certain adjustments**

  (cash, assumption of certain liabilities, such as pension)

- **Approximately $55 million capital commitment, subject to certain adjustments**
  - Facility improvement
  - Equipment updates
  - Development of Coordinated Regional Care model

Greater Waterbury Health Network

Overview of transaction

- **Included** — Substantially all assets including hospital, physician practices, joint ventures, real estate
- **Excluded** — Restricted funds, charitable assets, child care center, captive insurance company, inactive entities, certain liabilities

Greater Waterbury Health Network

Overview of transaction

Prospect Medical Holdings, Inc. to buy substantially all assets of GWHN

- Continued operation of Waterbury Hospital
- Continued involvement of an advisory board that includes community representatives
- Capital investments to improve facilities and equipment and physician recruitment and network
- Hire all employees and assume contracts
- Continuation of charity care and indigent care
- Establishment of community foundation to oversee certain charitable funds

Greater Waterbury Health Network

The Community Foundation

- A new, totally independent foundation will be formed
- Hold or receive the benefit of certain charitable assets
- Receive net proceeds of sale
- No post-closing liabilities

Greater Waterbury Health Network

GWHN TODAY & FUTURE PLANS

Darlene Stromstad, FACHE

President/CEO, Greater Waterbury Health Network

01657

Greater Waterbury Health Network

2015: Implications of Tenet's Departure

- Organization had suffered deeply from the departure of Tenet
- Employees left
- Physicians changed allegiances, some invested in competitive surgery centers
- Dual challenge of running a high quality hospital with decreasing funds and working on a new deal

Focused goals

- **Chose Prospect for several reasons:**
  - Understand the regulatory environment of the Northeast
  - Address immediate needs while making a long-term commitment for growth
  - Offer least disruption to our services and employees
  - Had experience in new models of healthcare payment and delivery
  - Successful in Rhode Island

Greater Waterbury Health Network

Aligned mission

- Industry dramatically changing, moving from fee-for-service to value-based
- Reimbursement changing – and it is not getting any easier
- Enormous pressure on hospitals like ours
  – simultaneously addressing financial stresses while adapting to a new payment and delivery system

Greater Waterbury Health Network

- The Waterbury Hospital
- VNA Health at Home
- Greater Waterbury Management Resources
- Greater Waterbury Health Services
- Alliance Medical Group
- Cardiology Associates of Greater Waterbury
- Access Rehab Centers
- Imaging Partners
- Waterbury Gastroenterological Co-Management
- Harold Leever Cancer Center
- Heart Center of Greater Waterbury
- Greater Waterbury Imaging Center
- Valley Imaging Partners

Who We Serve

- 12,000 people are treated at Waterbury Hospital as inpatients
- 180,000 individuals are treated on an outpatient basis
- 54,000 visits are made to the Emergency Department
- 134,000 visits are made to our employed, community physicians
- 2,300 patients are cared for by VNA Health at Home
- 150,000 patients are treated at Access Rehab Centers
- Region's most comprehensive behavioral health services
- Comprehensive HIV/AIDS program, with largest HIV primary care clinic in Northwest Connecticut, serving over 450 patients annually

Greater Waterbury Health Network

- Financially and operationally stable
- No access to capital to be competitive and sustainable
- Proud history – 126 years – of providing world class, high quality healthcare in a teaching environment
- Care for some of the state's most at-risk population; ***and are proud to be their advocate***

01663

Greater Waterbury Health Network

Prospect partnership

- Strong medical staff partner
  - IPA already has 300 plus members
- Long history of population health management
  - discussions with health plans underway
- Access to capital
  - plans underway for capital projects and upgrades

Our relationship with Prospect

- **Prospect meets our original goals of:**
  - **Sustainability**
    - Access to capital, in this for the long-haul, experienced healthcare company, demonstrated commitment to the Northeast
  - **Accessibility**
    - Charity care, continuation of services, physician recruitment, outpatient service development
  - **High quality healthcare**
    - Reassurances that our quality initiatives, staff and investment will never be less

01665

Greater Waterbury Health Network

Ensuring high quality healthcare into the future

- In late 2015, GWHN learned of CMS violations at Prospect's California hospitals. Board task force led further due diligence on quality assurance and performance improvement
- Rigorous process put in place to review Prospect's plan and processes for ensuring high quality healthcare

Greater Waterbury Health Network

QUALITY OF CARE: DUE DILIGENCE PROCESS

Susan Cordeau, BS, RN

Director, Performance Improvement

Waterbury Hospital

01667

Greater Waterbury Health Network

Close scrutiny of quality

- Task force of seven, representing medical staff, Board of Directors, nursing and quality/performance improvement
- Purpose:
  - review the IJ CMS survey violations of California-based hospitals,
  - review Prospect's actions
  - make a recommendation to the Board of Directors

Scope of review

- Requested all CMS deficiencies for all PMH hospitals for the last 3 years
- Areas of concern limited to California hospitals where there were several Immediate Jeopardy (IJ) findings
- Process included review of the IJ survey materials, follow-up questions and conference call with Prospect exec, on-site visits to CharterCare in Rhode Island and to Los Angeles County Hospital, Culver City

Initial concerns raised

- Will the quality of care of GWHN be maintained?
- Will there be adequate financial and human resources to ensure quality care into the future?
- How does Prospect handle significant challenges?

Specific issues identified in California hospitals

- Pattern of widespread ineffective sterilization processes
- Issues of temp and humidity control
- Leadership/governing body oversight
- Failure of hospital to follow through on its corrective action plans

Results

- Affected only three of the 14 Prospect hospitals; limited in scope
- Prospect approached the issue vigorously with both financial resources and experienced quality team
- Senior leader at Prospect extremely transparent and knowledgeable
- Provided detailed explanations and plans for changes

Results

- Discussed new corporate organizational structure
- Reiterated that quality needs to be controlled locally with corporate oversight and support
- Rhode Island experience very reassuring; adequate, timely resources consistently available

The changes that they were able to make in a short time reflect a commitment to quality and availability of deep financial resources.

Recommendation to move forward

- On Thursday, April 13, task force reported its process and findings to the Board of Directors
- Proposed the transaction with Prospect Medical Holdings move forward, with recommendations; approved unanimously by the Board of Directors

Recommendations

- Memorialized in Quality Assurance letter:
  - Maintain current quality programs
  - Continue in Joint Commission program
  - Maintain current reporting structure to local CEO and add corporate legal
  - Share evidence-based practices across system
  - Provide adequate financial resources for facility and staff

MEDICAL STAFF INVOLVEMENT

Carl Sherter, MD, Former Chief of Staff, Member of GWHN Board Transaction Committee

CONCLUDING REMARKS

GWHN and Prospect: Committed to Community

Mitchell Lew, MD, President, Prospect Medical Holdings
Von Crockett, Senior VP, Corporate Development, Prospect Medical Holdings

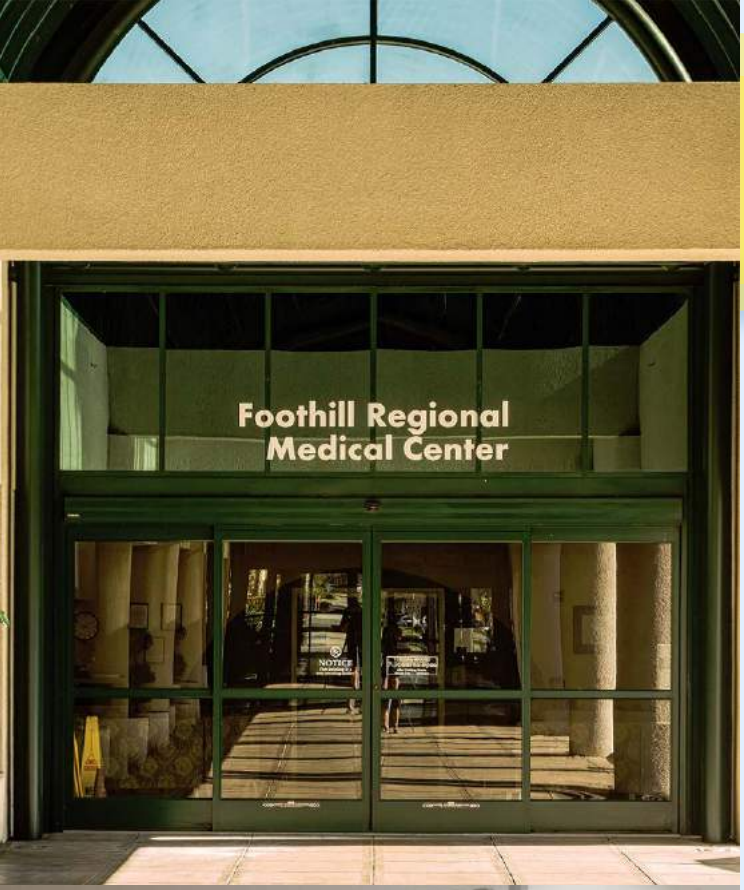
PROSPECT MEDICAL
Quality Service ~ Quality Care

Who is Prospect?

We Operate Local Community Hospitals

- Local governance; local physician leadership
- Investment in hospitals and our communities
- Continued employment and creation of new jobs
- Expansion of programs/services to improve access and quality

01679



Our Hospitals

- 14 community hospitals in CA, TX, RI and NJ
- Serving many different communities
- Medical, surgical, tertiary/sub-specialty surgical, psychiatric and long-term care services
- Over 40 outpatient clinics and centers

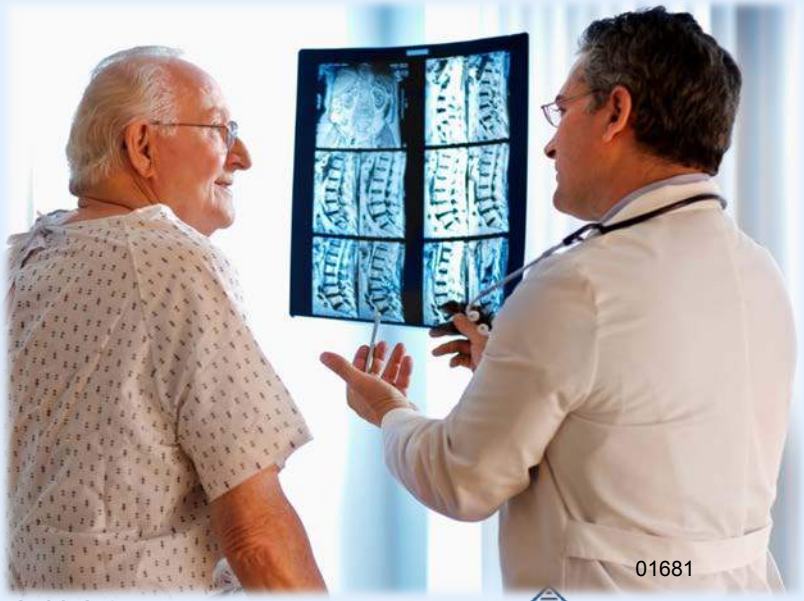
01680

PROSPECT MEDICAL
Quality Service ~ Quality Care

Our Medical Groups

Multi-Specialty Healthcare Provider Without Walls

- Independent Practice Association (IPA) physicians focused on delivering the best care
- Prominent Southern California medical groups
- Growing in TX, RI and NJ
- Contracted with all major health plans
- 8,900 primary care/specialist physicians
- 300,000-plus members
- Coordination of care across the entire continuum
- Goal is to achieve excellence in clinical outcomes and patient experience

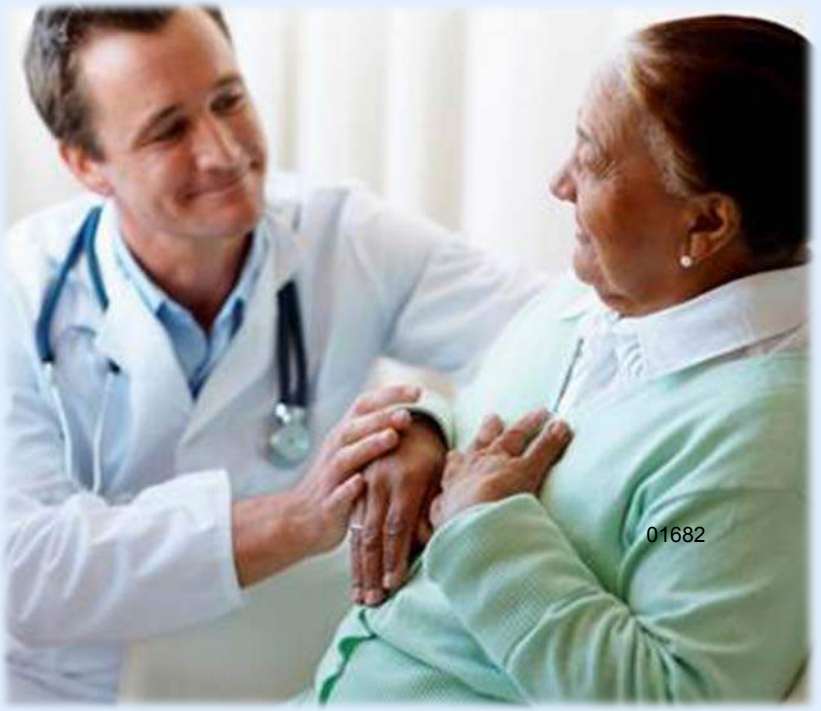


PROSPECT MEDICAL
Quality Service ~ Quality Care

Coordinated-Regional-Care

Prospect's Innovative Care Delivery Model

- Coordinated-Regional-Care (C-R-C) integrates hospitals, physicians and other medical and community providers, working closely with health plans and government payers to achieve improved patient care and satisfaction
  - Implemented in 7 regions in CA, TX and RI; in development in NJ, CT and PA
  - Population health management
  - Unique model of care provides higher value



Improved Care and Outcomes

Our Patient-Centered and Physician-Led Approach

- Multi-disciplinary care teams for high-risk patients (24/7)
- Patient and family engagement
- Homebound program
- Disease-specific care plans
- Integrated behavioral health
- Quality care coordinators (day-to-day outreach)
- Hospital/SNF/institutional case management
- Physician-led network

01683

RONALD D'ANDREA, M.D.

April 15, 2016

Mr Gary Hawes, Esq

Assistant Attorney General

Office of the Attorney General

Dear Mr. Hawes,

As a member of the Waterbury Hospital medical staff for over 30 years, I would like to offer my support for the continued plans for a purchase transaction between Prospect Medical Holdings and Waterbury hospital.

Since joining the staff in 1979, I have been a practicing physician in the community delivering care to both children and adults. Being involved in many committees within the hospital has given me insight to both outpatient and inpatient challenges within the community and the hospitals. Increased demand by staffing and external challenges of decreasing reimbursements, an increasingly regulatory environment and an increasing patient demand have placed a remarkable strain on the hospitals in Connecticut and in particular Waterbury hospital and its resources.

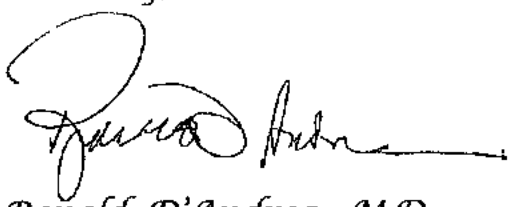
Other trends include specialty physicians opening satellite office in other communities not only to increase their patient base but also to allow their Waterbury patients access the other facilities outside the Waterbury area for their inpatient care. Failed mergers in the past and negative media coverage have encouraged patients to seek other

DEPOT SQUARE MALL 51 DEPOT STREET WATERTOWN, CONNECTICUT 06795
TELEPHONE (860) 274-5497

institutions outside of the Waterbury area for their outpatient care and, oftentimes, transferring to other physicians for the general care.

The transaction with Prospect Medical Holdings, in my opinion, will infuse not only capital but more of a sense of community and innovative technological advances which will increase both patient services and satisfaction. In addition, the economic health of both Waterbury Hospital and the city of Waterbury will be improved through an increase in revenue to promote more jobs and an increase in the tax base for the city of Waterbury.

Sincerely,



Ronald D'Andrea, M.D.

Steven Lazarus
Associate Health Care Analyst
Department of Public Health
Office of Health Care Access

Dear Mister Hawes and Mister Lazarus,

I am a self-employed general internist in independent practice with Southbury Medical Associates in Southbury, and a member of the staff of Waterbury Hospital since 1997. Waterbury Hospital has been our primary hospital during that time. We have admitted the vast majority of our patients there over the years.

I am writing in support of the pending acquisition of Waterbury Hospital by Prospect Holdings. As a self employed physician, without financial connections to either Waterbury Hospital or Prospect Holdings, I think my opinion may be somewhat unique and of use to you in your deliberations.

Over the last decade or so, I have watched the facilities and the services at Waterbury Hospital suffer greatly from needless local competition. The only beneficiaries of this competition in Waterbury have been the health insurance companies who have driven reimbursement rates in Waterbury to very low levels. These savings have not been passed along to consumers, but only used to increase the insurers' corporate profits and their executives' salaries. Neither hospital in town has had sufficient capital to make improvements in their facilities, staff, and services and have lost significant numbers of physicians and patients to Danbury, New Haven and Hartford. Other cities of similar size, such as New Haven and Danbury, have been blessed with vigorous and well funded community hospitals which have provided world class services.

The two previous major attempts to rectify the situation in Waterbury both failed; first the merger with St. Mary's and then Waterbury's purchase by Tenet Corporation.

I have had the opportunity to visit the current perspective buyer, Prospect Holdings, in California, interview their staff and leadership and have worked on the new IPA with them. Prospect has extensive experience in managing and funding hospitals such as Waterbury throughout the country and has done a very good job recapitalizing declining

institutions, improving their competitive nature, and providing much better, higher quality services to their communities. Prospect has an enviable record nationwide in managing "value added care" and in creating risk based contracts with cost saving and improved coordination of care for patients.

I have also met with the doctors (both employees and independent) in Rhode Island who work at two Prospect acquired hospitals there. These physicians are very satisfied with the Prospect management and told me that Prospect rescued two failing institutions that are rapidly becoming viable and vigorous community resources.

Consequently, I can unequivocally support the proposed purchase of Waterbury Hospital by Prospect. I believe this is the best possible plan for the Waterbury community, current and future patients and the physicians.

I fear that this may be Waterbury Hospital's last chance. If this transaction is not completed, I wonder if the institution can remain viable. I urge you to decide in favor of the transaction.

Please contact me if you would like further information.

REGIONAL CANCER CENTER

A Partnership for Excellence
St. Mary's Hospital & Waterbury Hospital

Gary Hawes
Assistant Attorney General
Office of Attorney General

Steven Lazarus
Associate Health Care Analyst
Dept. of Public Health
Office of Health Care Access

Dear Sir,

I am writing in support of the proposed transaction between Waterbury Hospital/Greater Waterbury Health Network and Prospect Medical Holdings.
I am the Executive Director of The Harold Leever Regional Cancer Center which is an affiliate of the Waterbury Hospital/Greater Waterbury Health Network.

This is a high quality Health Network that is struggling to survive in the current health care environment due to declining reimbursement and increasing under insured population.
By joining a Health Care System like Prospect Medical Holdings Waterbury Hospital/Greater Waterbury Health Network will be able to continue to provide outstanding patient care while taking advantage of the efficiencies that a large health care system can provide, as well as provide for increased capital investment to meet the ever changing needs of the patient population.

We appreciate your consideration of this proposed transaction.

Sincerely,

Kevin Kniery
Excéutive Director
The Harold Leever Regional Cancer Center

As an employee of VNA Health at Home, Inc., an affiliate company of the Greater Waterbury Health Network, I feel my role, serving patients in the community, will be enhanced by the partnership with Prospect Medical Holdings.

Prospect Medical Holdings' is a specialist in Population Management and has the expertise and the resources to move this entire organization in the direction that healthcare is moving nationally.

Our VNA Health at Home patients are important to me and my role is to serve our community.

I feel the community will benefit from what Prospect Medical Holdings will do to enhance these services.

I feel this venture will move, our network, in the direction to become a leader for advanced healthcare services in our state.

Sincerely Yours,

Elizabeth Spagnuolo

Dear Attorney Hawes and Mr. Lazarus:

I am an employee at Waterbury Hospital, working in both the emergency department and Information Systems. I have a first-hand understanding of the fiscal challenges facing our organization and the impact on both our patients and employees. Though we have taken numerous actions as a result—including cuts to employee wages and salaries— we cannot do it alone.

The transaction with Prospect Medical Holdings is essential to keep our hospital moving forward. This acquisition will enable our organization to not only survive but thrive well into the future. We all recognize that as healthcare changes, a strategic, capital partner is a must.

Waterbury Hospital is a special place that provides tremendous care, compassion, and service to our patients, their families, and our community. As the largest employer of the city and an organization that constantly strives for excellence, this organization is essential to the region.

For the welfare of our employees, patients, and community members that rely on Waterbury Hospital and the Greater Waterbury Health Network, your approval of this transaction is crucial.

Sincerely,

Peter T. Porrello

Dear Mr. Lazarus,

I am writing to add my name to the list of supporters for the proposed acquisition of Waterbury Hospital et al. by Prospect Medical Holdings.

I have been traveling down Route 8 from the Winsted area for 15 years to work in the cardiology department at Waterbury Hospital. Despite all of the challenges and changes in the medical field and economic hardships during that time, I have been proud of the care and respect that we show our patients.

I have no doubt whatsoever that this transaction with Prospect reflects the changing times that we live in. Change may be scary and uncomfortable but in the long run, Prospect can give us the resources to target the needs of our community for the long haul.

I ask that you support this transaction.

Sincerely,

May 11, 2016

Dear Attorney Gary Hawes and Associate Health Care Analyst Steven Lazarus:

I write this letter in support of the proposed transaction between GWHN and Prospect Medical Holdings.

For background purposes, I have lived in the city of Waterbury for over 50 years. I currently serve as the Director of the University of Connecticut Waterbury campus. Additionally, I serve as a Waterbury Police Commissioner, serve as First Vice Chairman of the Chamber of Commerce, and serve as a Director on the Board of the Northwest Regional Workforce Investment Board in Waterbury as well. I had the honor of being chosen mayor for the day, a few years ago in the city. Most significantly, I have the distinct honor and privilege of serving on the Waterbury Hospital Board of Directors and have done so for the past nine years.

With respect to Waterbury Hospital, its mission of providing sustainable, high quality, accessible healthcare for the region is truly one of the city's greatest assets. The proposed transaction between GWHN and Prospect Medical Holdings would enhance the hospital's mission and its ability to serve the thousands of patients throughout the region who rely on Waterbury Hospital, its highly skilled physicians and its commitment to maintaining charity care.

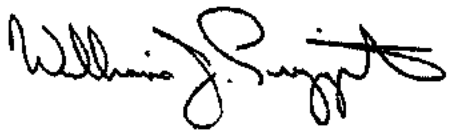
The transaction would provide the necessary resources to enhance the hospitals services to patients by renovating outdated facilities and providing state of the art equipment to deliver the latest services and procedures to patients;

From a fiscal perspective, the transaction would create a taxable, for-profit health care system that would provide substantial tax revenue to both the City of Waterbury and the State of Connecticut;

Lastly, the transaction would preserve and enhance Waterbury Hospital's role as a leading provider of high quality health care service so desperately needed in the urban areas of our state. With a catchment area of hundreds of thousands of people in the greater Waterbury region, the need for skilled physicians to service a growing elderly population and the lack of resources for state of the art equipment, point, in part, to the critical need for this proposed transaction to occur.

Please accept this letter of support for the proposed transaction between GWHN and Prospect Medical Holdings. I thank you for your time and consideration.

Respectfully Yours,



William J. Pizzuto, Ph.D.
University of Connecticut

Dear Attorney Hawes and Mr. Lazarus:

I have been an employee of Waterbury Hospital since 1985. I've worked in many different areas of the hospital and have had the pleasure of working with a variety of people. In fact, I view Waterbury Hospital as my home away from home. The relationships I have mad with people will last throughout my lifetime. The people at Waterbury Hospital are remarkable, compassionate and talented caregivers. I am constantly amazed at the levels that people will go to make sure we always deliver excellent, patient-centered care, making sure we always put out patients and families first.

Continuing our legacy of excellence requires that we have a partner who can help us navigate the changing healthcare system. I have been impressed with Prospect and their hands on approach to helping us meet our goals and I look forward to working with them in the future. I urge you to approve this transaction as quickly as possible—it's important for our patients, community, and our future.

Thank you!

Sincerely,

Beth Grant

Dear Attorney Hawes and Mr. Lazarus:

This letter is in support of the purchase of the Greater Waterbury Health Network by Prospect Medical Holdings.

As the Medical Director of the Emergency Department at Waterbury Hospital, I am intimately involved in the management of a key part of the region's safety net. Our Emergency Department treats over 50,000 people each year, many of which are the most vulnerable members of our community. To do this, we must continue to provide dedicated personnel and have the best equipment and supplies available.

Prospect Medical Holdings has committed to invest in our hospital's infrastructure to enable us to improve existing services and to continue to provide high level care to the community 24/7. This type of investment is critical for both the hospital and the community. As a crucial part of the region's safety net, Waterbury Hospital's ED provides state-of-the-art trauma, cardiac, and neurologic care for anyone who requires either emergent or urgent care. To maintain and grow these types of services requires the ability to attract high quality staff and support them with investment in key areas of healthcare infrastructure.

The purchase by Prospect will also provide needed stability that will encourage the development of new and approaches to the delivery of healthcare. These innovations will enable us to be successful in navigating the changing healthcare environment while continuing our commitment to delivering the highest quality of care to the Waterbury community.

Thank you for your consideration.

Sincerely,

David Goldwag, MD

Dear Mr. Hawes and Mr. Lazarus:

I am writing you in support of the proposed transaction between the Greater Waterbury Health Network (GWHN) and Prospect Medical Holdings. I serve as a member of GWHN and in my capacity at the Connecticut Community Foundation, I have been actively engaged in supporting a community-wide health improvement effort, coordinated by the Waterbury Health Department, in partnership with several other key organizations including Waterbury Hospital. Through the past four years of working with this partnership, I have been impressed by the caliber of professionals at GWHN and their deep commitment to this community.

Having personally witnessed the important role that Waterbury Hospital plays in improving health outcomes for local residents and mobilizing parents to take charge of their families' well-being, I am convinced that Waterbury Hospital is an institution that is fundamentally important to the Greater Waterbury community. I believe that the proposed transaction is our best hope for ensuring that Waterbury Hospital not only survives, but thrives in fulfilling its mission.

As you well know, the hospital has emerged from being extremely vulnerable and is on a path toward a sustainable future. I've looked into the practices of Prospect Medical Holdings and believe that their operating model will further advance quality, decrease costs and heighten patient care. They are well-regarded for sound business practices and are a good fit with the excellent team of administrators who are guiding Waterbury Hospital toward its future. With ongoing guidance from community members who will serve on their advisory board and foundation board, I believe community health needs will continue to be addressed and improved.

It's time for this transaction to be approved and allow our community's hospital and its leadership to turn important attention to toward fulfilling its mission. They've done their due diligence and have forged a positive alliance with an innovative company that will make a world of difference in Waterbury.

I urge you to do what you can to move this acquisition of GWHN by Prospect Medical Holdings forward. It is the right company and it's the right time for Waterbury Hospital to move ahead.

Sincerely,

Paula Van Ness

Dear Mr. Hawes, and Mr. Lazarus,

I am the current Senior Vice president and Chief Operating Officer of the Greater Waterbury health Network. I joined the organization in March of 2015. I am very much in support of the acquisition of the Greater Waterbury Health Network by Prospect Medical Holdings for several reasons.

I have been in the profession of healthcare administration for over 37 years in a variety of hospital organizations, including private, not for profit, academic, for profit, and independent community hospitals. I have seen the evolution of healthcare delivery from many vantage points. I strongly believe that the Community Care model that Prospect Medical Holdings will bring to the state of Connecticut, and the city and surrounding community of the city of Waterbury is the future of healthcare delivery for our nation. Focus on keeping patients healthy and caring for them in the appropriate way, in the appropriate setting in a timely basis is the only way to stem the unsustainable rise in healthcare costs and maintain the quality of care we have been accustomed to. With this model of care and investment in the facilities and services of Waterbury Hospital this transaction will preserve an invaluable resource for our community. As a resident of Oxford, Waterbury is not only my place of employment, but it is my hospital. The place my family and I will come to in times of medical need. Please approve this transaction. This community needs it to happen for the present and for our future.

Thank you for your consideration.

Sincerely,

Mark Holtz, MS, FACHE
Senior Vice President and Chief Operating Officer
Greater Waterbury Health Network

Mr. Gary Hawes
Assistant Attorney General
Office of the Attorney General

Dear Mr.Hawes

I am writing you in reference to the proposed transaction between GWHN and Prospect Medical Holdings. I am a pharmacist who has worked at Waterbury Hospital for the past 10 years and in that time,I have seen some turbulent times here at Waterbury Hospital with many changes in the financial position of the healthcare climate. Through all of these difficult times the hospital has persevered and I believe, has built an amazing health system with many fine qualities and some of the best staff I've ever worked with.

I believe the transaction between us and Prospect Medical with give us the ability to prepare ourselves for the future of healthcare in our region. Prospect's investment in our future will allow us to make renovations, purchase much needed updated equipment and will help us to build a strong hospital which will serve our community for many years to come. In a very uncertain healthcare environment, the influx of capital and support that Prospect will afford our hospital is a needed boost to keep us a strong provider of care to the greater Waterbury area and its surroundings.

I give this proposed transaction my strongest support.

Thank you,

Sean J.Johnston, Rph

Steven Lazarus
Associate Health Care Analyst
Department of Public Health
Office of Health Care Access

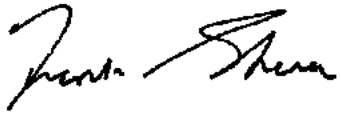
Dear Mr. Hawes and Mr. Lazarus,

This letter is written in support of the proposed transaction between Waterbury Hospital and Prospect Medical Holdings. I am a resident in Woodbury CT, and have lived in the greater Waterbury area served by Waterbury Hospital for almost 40 years. The hospital has been an important part of my life, handling broken bones and other emergencies for my five children, and in fact being the place where four of them were born.

I am also a member of the Board of Directors of Waterbury Hospital, and have been active in the community for many years, including serving as a member of the Board of Directors and Senior Vice President and General Counsel of Timex Group, based in Middlebury CT, and serving on the Board of Directors of the United Way of Greater Waterbury, as well as several Woodbury governmental boards.

The transaction should be approved for many reasons. New medical technologies require large capital investments, which the hospital will have difficulty funding on its own. Governmental support to hospitals is being reduced, making it even more difficult for them to meet their commitments to serve all segments of our community, including the most disadvantaged. Approval of the transaction with Prospect will allow Waterbury Hospital to meet these challenges, and continue to provide the full range of services necessary to meet all of our community's healthcare needs.

Sincerely yours.



Frank A. Sherer, Jr.

The transaction should be approved for many reasons. New medical technologies require large capital investments, which the hospital will have difficulty funding on its own. Governmental support to hospitals is being reduced, making it even more difficult for them to meet their commitments to serve all segments of our community, including the most disadvantaged. Approval of the transaction with Prospect will allow Waterbury Hospital to meet these challenges, and continue to provide the full range of services necessary to meet all of our community's healthcare needs.

Sincerely yours.

Office of Health Care Access

Dear Mr. Hawes and Mr. Lazarus,

This letter is written in support of the proposed transaction between Waterbury Hospital and Prospect Medical Holdings. I am a resident in Woodbury CT, and have lived in the greater Waterbury area served by Waterbury Hospital for almost 40 years. The hospital has been an important part of my life, handling broken bones and other emergencies for my five children, and in fact being the place where four of them were born.

I am also a member of the Board of Directors of Waterbury Hospital, and have been active in the community for many years, including serving as a member of the Board of Directors and Senior Vice President and General Counsel of Timex Group, based in Middlebury CT, and serving on the Board of Directors of the United Way of Greater Waterbury, as well as several Woodbury governmental boards.

The transaction should be approved for many reasons. New medical technologies require large capital investments, which the hospital will have difficulty funding on its own. Governmental support to hospitals is being reduced, making it even more difficult for them to meet their commitments to serve all segments of our community, including the most disadvantaged. Approval of the transaction with Prospect will allow Waterbury Hospital to meet these challenges, and continue to provide the full range of services necessary to meet all of our community's healthcare needs.

Sincerely yours.

Dear Sir:

I have practiced Diagnostic Radiology at Waterbury Hospital for the past 31 years during which time the health care needs of the poor have increased and reimbursements have declined to the point that they are inadequate. In order to continue its mission of providing the best health care to the people of Waterbury, the hospital needs to have a strong financial partner. That is why I fully support the proposed transaction between the Greater Waterbury Health Network and Prospect Medical Holdings.

Sincerely,

A Carter MD

Dear Mr. Hawes,

I am writing this letter regarding the purchase of Waterbury Hospital Health Center by Prospect Medical Holdings. I have been a voluntary attending physician in Waterbury at both hospitals for 27 years. I have also trained, worked or attended at 9 other hospitals around the country over my career in medicine. I have been an executive in several managed care organizations, as well as on the Board of Aetna Health Care.

Prospect Medical Holdings brings sophisticated management expertise, financial resources, and a commitment to value based healthcare that will enhance the healthcare infrastructure of Waterbury in particular and Connecticut in general. They provide an opportunity to improve access, quality and innovation in the healthcare system of our state.

Please look at the entire system, and especially the individuals who invest their hard earned money into their own health care financing when evaluating this transaction. If you do, you will see that this purchase should be approved.

Sincerely,

Dear Sirs:

My name is Michael Myers. I am the Radiology Manager at Waterbury Hospital. I would like to express to you how I feel about the upcoming acquisition of Waterbury Hospital by Prospect Medical Holdings. I was hired in February and as you know the transaction was far from complete at that time. Knowing this I still decided to commit myself to the organization and come to work for them. I was willing to take the educated risk in the hopes that this project would have a positive outcome. I came from a hospital in Maine that had recently been acquired by a neighboring hospital. I felt the personal and vocational pain of the adjustment. I have faith in the Prospect deal for the following primary reasons.

- For-Profit businesses are geared for success. They are in the business of identifying opportunities and using them to advance their cause. In cases like Waterbury's, Prospect sees an opportunity and has the vision and skills to make Waterbury work for the community. Both Waterbury Hospital and Prospect Medical have a clear plan based on a proven history and both parties have the combined expertise to implement it.
- Waterbury Hospital will benefit not only from the innovative management expertise that Prospect offers, but will also benefit greatly from the financial resources that will be made available. It's not just the infusion of capital, it's the management of the capital that makes the difference. The people at Waterbury know what they need. Prospect agrees and can make it happen.
- In the end the people most affected are the patients. A fiscally healthy and well managed hospital is the only kind of healthcare facility that can help its community.

I thank you so much for reading my letter and allowing my input. The people at Waterbury Hospital are truly extraordinary and are ideally poised to provide world class healthcare to our community with the advent of this remarkable partnership.

Regards,
Michael Myers, CNMT, NCT, RT(R), (N)
Radiology Manager
Waterbury Hospital

Dear Mr. Lazarus

I am writing you in reference to the proposed transaction between GWHN and Prospect Medical Holdings. I am a pharmacist who has worked at Waterbury Hospital for the past 10 years and in that time, I have seen some turbulent times here at Waterbury Hospital with many changes in the financial position of the healthcare climate. Through all of these difficult times the hospital has persevered and I believe, has built an amazing health system with many fine qualities and some of the best staff I've ever worked with.

I believe the transaction between us and Prospect Medical with give us the ability to prepare ourselves for the future of healthcare in our region. Prospect's investment in our future will allow us to make renovations, purchase much needed updated equipment and will help us to build a strong hospital which will serve our community for many years to come. In a very uncertain healthcare environment, the influx of capital and support that Prospect will afford our hospital is a needed boost to keep us a strong provider of care to the greater Waterbury area and its surroundings.

I give this proposed transaction my strongest support.

Thank you,

Sean J.Johnston, Rph

Dear Mr. Hawes,

I want to offer my support and positive vote in favor of the merger between The Waterbury Health Network of Waterbury Connecticut and Prospect Holdings of California. Such a combination would go a long way in strengthening our community hospital commitment to the Greater Waterbury Area and continue our commitment of superior Health Care to our community. As you are aware, most community Hospitals need capital partners if they are to survive in the current environment. Prospect's commitment to Patient Service is a model that is similar to ours and makes this combination a natural one to pursue.

I know you have concerns about for Profit entities getting involved in Health Care in Connecticut. We share those concerns, but feel that Prospect Holdings has much the same culture and ethic about Health Delivery that we have. We have gotten to know them quit well and feel comfortable about going forward with this relationship.

I was born and raised in the Waterbury and have been a physician here for over forty years. I am actively involved in helping to lead Waterbury Hospital into our next phase of caring for our community.

Please look favorably on this merger. Our community needs this for their future as well.

Sincerely,

April 21, 2016

Gary Hawes

Assistant Attorney General

Office of the Attorney General

Steven Lazarus

Associate Health Care Analyst

Department of Public Health

Office of Health Care Access

Dear Assistant Attorney General Hawes and Mr. Lazarus:

I am an Infectious Disease specialist who has been practicing medicine in the Greater Waterbury community for 19 years. I originally came to Waterbury in 1988 as a medical student in order to do third year clerkships at St. Mary's Hospital. In 1991, I was accepted into the Yale-Primary Care (YPC) Residency Program. At that time, the YPC Program was based out of both Waterbury Hospital and St. Mary's Hospital. I had the good fortune of working with amazing clinician educators at both sites, including Dr. George Thornton who was instrumental in my decision to pursue sub-specialty training in the field of Infectious Disease. After my sub-specialty training at Yale-New Haven Hospital, I returned to Waterbury in 1997 to join the Infectious Disease Section and medical staff of Waterbury Hospital. My wife Leigh (who has worked at St. Mary's Hospital for over 30 years) and I lived in Waterbury briefly before moving to Naugatuck where we currently own a home, and all three of our children were schooled in Waterbury at St. Mary's School and Sacred Heart High School.

Over the past 19 years, as a proud employee of Waterbury Hospital/Alliance Medical Group, I have provided high-quality inpatient and outpatient Infectious Disease care to the greater Waterbury community; developed and maintained a premier clinic for people living with HIV/AIDS; and served as core faculty for the on-site residency training program. Throughout my career, I have witnessed dramatic changes in healthcare, but the current transformation is truly unique. Each year, novel diagnostics and therapeutics are introduced, allowing physicians from all disciplines to improve the quality and duration of life for their patients. While these

advances have changed the face of medicine, simultaneous cutbacks in reimbursement from state and federal governments as well as commercial insurers have hindered our ability to keep pace. At Waterbury Hospital, we are facing unprecedented financial challenges and acknowledge that our future is dependent on having a strong strategic and capital partner.

I strongly support the proposed transaction between GWHN and Prospect Medical Holdings. I believe that it will allow us to strengthen our ability to provide the Waterbury community with access to the high-quality, state-of-the-art healthcare services they deserve. I encourage you to approve this transaction.

Dear Attorney Hawes and Mr. Lazarus,

Please accept this letter which confirms my full support of the proposed transaction between the Greater Waterbury Health Network and Prospect Medical Holdings. Currently I am the President of Easter Seals of Greater Waterbury, a non-profit disability organization serving greater Waterbury and Central Connecticut. Easter Seals is a partner with Waterbury Hospital in the ownership of Access Rehabilitation Centers which operates multiple clinics offering Physical and Occupational Therapy throughout the area. I have been an active member of the Waterbury healthcare and business community for the past 11 years.

As a community Waterbury will benefit from the expertise in population health management that Prospect brings to our region. That, along with capital investments in infrastructure and technology and commitment to quality care and improving healthcare outcomes make this company the best partner for our community hospital. Prospect has demonstrated that it is willing to hire all current employees and assume collective bargaining agreements. In the Waterbury Hospital employee community, staff is overwhelmingly eager for this transaction to take place. I urge you to approve this application which will benefit those of us who live, work and seek care in this community.

Sincerely,

Loraine C. Shea,

Dear Mr Hawes and Mr Lazarus,

I am a physician working in the Radiology Department at Waterbury Hospital and am writing this letter in support of the proposed transaction between Waterbury Hospital/Greater Waterbury Health Network and Prospect Medical Holdings. Waterbury Hospital has had a longstanding tradition of delivering outstanding medical care to the people of our community. This transaction will allow our hospital to better navigate the present and future challenges to the national and local healthcare landscape. It will help preserve the high quality delivery of health care that the people of our community deserve. Prospect brings essential capital to support and enhance infrastructure as well as improve the hospital's financial viability through cost sharing, economy of scale and investment.

As a physician practicing in this community for the last 15 years, I am confident that this transaction will bring great benefits to patients and the Waterbury community as a whole. I respectfully ask for your support in approving this transaction.

Sincerely,

Marco Verga, MD
Executive Managing Member
Diagnostic Radiology Associates

April 16, 2016

Mr. Gary Hawes
Assistant Attorney General
Office of the Attorney General

Mr. Steven Lazarus
Associate Health Care analyst
Department of Public Health
Office of Health Care Access

Dear Sirs:

As a past Board Member and past Chairman of Waterbury Hospital and the Greater Waterbury Health Network, I am acutely aware of the financial fragility of the hospital system in Waterbury. Waterbury Hospital has been able to maintain a high quality of health care in the absence of needed capital expenditures by virtue of the hard work and dedication of its staff. However, in my view it is questionable how much longer the high quality of health care currently provided by the hospital can be maintained without significant capital investment.

The pace of technical development in the health care industry requires investment in new technology in the form of equipment and the hiring of physicians to bring the next generation of health care to the hospital. In addition, existing equipment and facilities require upgrading in order to adequately meet current and future demand for health care. Without these investments, the quality of care and scope of services will gradually be eroded until we have a second rate health care system in Waterbury.

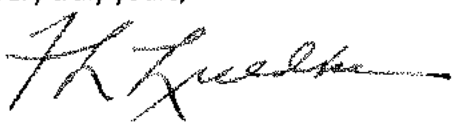
Given the high percentage of Waterbury Hospital's revenue coming from Medicaid and Medicare, there is insufficient surplus available to fund these necessary investments. That is why the acquisition of the Greater Waterbury health Network and Waterbury Hospital by Prospect Medical Holdings is so crucial to the future of health care in Waterbury. A company like Prospect has the capability to tap the capital markets to provide funding for these essential investments in the future.

As an argument for maintaining the status quo, some have claimed that a for-profit hospital can only survive by curtailing services and compromising quality. Ironically, that is precisely what will eventually happen if we do maintain the status quo.

Suggesting that a profit-seeking enterprise that is intent on growing its business would proceed in such a manner is ludicrous. Why would an organization seeking to grow in volume and revenue embark on a path of alienating its customers and reducing the services it offers? To the contrary, it would be incentivized to delight its customers, both patients and doctors, by providing expanded, high quality services so that they would be motivated to use the hospital and recommend it to others.

After careful consideration, I am convinced that the future of healthcare in Waterbury depends on this acquisition, and I urge you to approve it without further delay.

Very truly yours,



Frederick L. Luedke

Dear Sir,

I am writing to strongly support the proposed acquisition of Waterbury Hospital/Greater Waterbury Health Network by Prospect Medical Holdings.

I have 3 strong bonds with GWHN, first as the CEO of one of Waterbury's larger employers (150 FTE's), second as a GWHN member, and third as a former board chair of GWHN.

Waterbury Hospital needs a strong partner to survive. Those of us in the business community watch in shock as the operating losses mount year after year and federal and state assistance declines. As an employer it is extremely important that Waterbury has a vibrant medical community and health system. That requires a prosperous and progressive hospital with the latest medical technology and equipment that will attract the best medical professionals. We have been lucky so far but that will not last forever. As the hospital delays infrastructure upgrades, the newest medical equipment, and latest technology, the best doctors will eventually leave Waterbury for medical centers of excellence in New Haven, Danbury, and Hartford. As citizen of Waterbury and employer, that is something we cannot allow to happen.

Thank you,

Joel Becker, CEO
Torrco

Mr. Steven Lazarus
Associate Health Care Analyst
Department of Public Health
Office of Health Care Access

Dear Mr. Lazarus,

I am writing to express my support of the prospective affiliation of Waterbury Hospital/Greater Waterbury Health network with Prospect Medical Holdings. In my opinion, and that of many colleagues, this affiliation will not only serve the best interests of the hospital, but will undoubtedly help the hospital to better address the needs of our community as well.

Having formerly served on Waterbury Hospital's Board of Directors for more than a decade and, as a Greater Waterbury Health Network member now, I have had a peripheral—though keen--appreciation of the many challenges the hospital has faced and successfully managed to overcome over time. Yet, through the years, the institution has remained true to its mission, charting a steady course in an effort to provide the best possible healthcare for its patients, to play a significant role in the community at large, and to provide the support and resources required for its medical and professional staff.

Yes despite the hospital's myriad achievements, I firmly believe the challenges of the past twenty years are seeming precursors of even greater challenges and changes yet to come. And, indeed, these will indubitably be compounded by demographic changes as well as technological advancements which are essential to the escalating needs and currency of service the hospital will be called upon to provide.

I, therefore, ask that you lend your support to the Hospital's proposed transition with Prospect Medical Holdings so that it may access the structural resources and financial support required to sustain and, hopefully, improve upon the Hospital's delivery of stellar services to the community and the State. Thank you for your consideration of and attention to this imperative need.

Sincerely,

Phyllis C. DeLeo

Dear Gary Hawes and Steven Lazarus:

Thank you for the opportunity to write to you in support of the proposed joint venture between Waterbury Hospital and Prospect Medical Holdings.

I have been employed with Waterbury Hospital since March of 2008. I am the Administrative Assistant for Plant Engineering. I am aware of the upkeep of such a facility.

I support the joint venture because we will then be able to make the necessary renovations and upgrades that are needed. We would also be able to purchase and provide state-of-the-art healthcare services to our community. The venture would provide substantial tax revenue for the city of Waterbury and the State of Connecticut.

Thank you for your consideration. I am hoping to continue working at Waterbury Hospital for many years to come. This partnership will benefit my family, the patients and the community.

April 19, 2016

Dear Sirs:

I have lived in the Greater Waterbury area for my entire 51 years. I am a single working-mother who has raised two responsible teenagers, and at the same time caring for my two elderly parents who also live in my home. My family has had more than one occasion where a trip to the emergency room was a necessity. On a number of those trips, the health care professionals at Waterbury Hospital saved my elderly father's life. I cannot count how many times we have used the services provided by Waterbury Hospital for an emergency, a surgical procedure, or routine testing. It would be hard to imagine the Greater Waterbury community without access to the professional services Waterbury Hospital provides to our community.

I want to definitively state that I completely support the proposed transaction between GWHN and Prospect Medical Holdings. The continued operation of Waterbury Hospital is vital to Waterbury and its surrounding towns. Let's not under estimate how the conclusion of this transaction will enable GWHN to continue to provide accessible, high quality health care services to our community for generations to come.

Kindest Regards,

Lori DosSantos

Mr. Hawes and Mr. Lazarus,

My name is Michele Valentino. I am a Registered Physical Therapist and the Director of Rehabilitation Services at Waterbury Hospital. I have worked at Waterbury Hospital for more than 24 years. I started my career here as a Physical Therapy Aide in 1988 and when I graduated from college in 1992, my 1st choice for a place to start my career was Waterbury Hospital. I came to work in the capacity of staff Physical Therapist. After 7 years I became the Director of Rehabilitation Services. I have been doing that job and loving it ever since! I have treated patients from all walks of life, from many different ethnic and religious backgrounds and patients from all levels of socioeconomic status; who rely on our hospital to provide high quality and accessible healthcare.

I am writing to you in support of the proposed transaction of Waterbury Hospital/ GWHN with Prospect Medical Holdings. By combining forces with Prospect, GWHN can provide an excellent opportunity for our community to have improved healthcare resources, better facilities and state of the art medical technology which the Waterbury community has been lacking for many years. Prospect has ownership other hospitals and facilities in many cities and towns across the country including Rhode Island and they have provided all of those communities with excellent care for all who need it. In fact I believe they have made the Healthcare for those areas better by providing resources to communities that could not have afforded without Prospect's help.

As a member of this community, a healthcare consumer as well as a healthcare provider caring for our patients, I urge you to support the proposed transaction of Waterbury Hospital with Prospect Medical Holdings. It will help us to sustain excellent, reliable, high quality and state of the art healthcare for the Waterbury Community and beyond.

Please feel free to contact me with any questions or concerns. Thank you for your time and consideration in this matter.

Sincerely,

Michele Valentino

Date: April 13, 2016

Dear Honorable Gary Hawes and Steven Lazarus

I'm proud to state that I have been an employee affiliated with Waterbury Hospital since 1974 and I'm proud to have been engaged in the development and oversight of many departments including the Greater Waterbury Health Network. My current position as Executive Director of Cardiology Associates of Greater Waterbury, LLC, a wholly owned subsidiary of Waterbury Hospital, has been extremely rewarding however has clearly demonstrated to me that the future success of the local health system goes beyond the boundaries of the communities that we serve. Our goals and objectives as an organization including the delivery of high quality care to our patients will only be achieved by choosing a partner with a similar mission who offers support from an operational and financial perspective as we meet our challenges head on. I truly believe that Prospect Medical Holdings is totally committed to Waterbury Hospital and its affiliate organizations and will be an excellent partner, engaged and enthusiastic and most importantly focused on the well being of our patients. Their leadership and guidance has been clearly demonstrated in other areas of the country and has certainly resulted in short and long term success.

Sincerely,

Jan Kennedy
Executive Director, Cardiology Associates of Greater Waterbury, LLC

Office of Health Care Access

Dear Attorney Hawes and Mr. Lazarus:

My name is John Michaels. Over the last 25 years I have been privileged to serve as a member, committee member, and past chairmen of the Waterbury Hospital and Greater Waterbury Health Network Board of Directors. And, I have been very involved in this community and have an in-depth understanding of its needs.

I have seen the outstanding quality of the care we give and the pressures put on our financial position from payers and governments. It is only through the economies of scale that come with consolidation that will enable hospitals our size to survive in the long term. Our financial deterioration over the last 10 years has proven that. World-class medicine at the local level can only be maintained when hospitals have access to capital to attract world-class physicians and invest in cost effective, cutting edge, life-saving technology. Operating margins for small institutions deny access to that capital.

Our acquisition by the Prospect group is an absolute necessity if we are to be able to provide that world-class care which our citizens deserve and need. It is only through the economies that come with being part of a larger group that we will be to continue to provide exemplary care for our patients It is essential that this transaction be fulfilled as planned.

I urge you to look favorably on and approve this transaction.

Thank you for your consideration.

Sincerely,

John Michaels

Dear Mr. Hawes,

I write this letter in support of the pending transaction between the Greater Waterbury Health Network and Prospect Medical Holdings in their efforts to enter into a business agreement in the city of Waterbury.

I am an employee of the Greater Waterbury Health Network, a consumer of their healthcare services and a member of the community. I am employed as the cancer registrar and can attest to the valuable care and services currently offered to cancer patients within the community and surrounding areas.

The Greater Waterbury Health Network has always been a pillar in this community for offering quality healthcare close to home. As a member of this community, the transaction with Prospect Medical Holdings will not only allow the Greater Waterbury Health Network to continue offering quality healthcare services but will also allow the Greater Waterbury Health Network to keep up with current healthcare trends and afford the opportunity to offer new services to the community and surrounding areas.

Sincerely,

Amy Baldwin-Stephens

Dear Gary Hawes:

I am an employee of Waterbury Hospital /Greater Waterbury Health Network (GWHN) and I am writing in support of the proposed transaction between GWHN and Prospect Medical Holdings. I serve as a Health Systems Administrator for Health Information Management and I am excited and looking forward to the positive benefits this transaction is sure to bring the community of Waterbury, and the employees & medical staff at Waterbury Hospital.

The city of Waterbury, along with its neighboring communities, is long overdue for an event of this measure that will likely stimulate the transformation of healthcare in our region. The employees and clinical staff at Waterbury Hospital are extremely proud of the things that have been achieved over its 125 years of service and we know Prospect Medical Holdings will only aide in our mission as they share in our ideals and our long-standing commitment to quality care for our patients. While I understand that a public hearing (which is now scheduled for May 3rd) is an important step in this process, I hope you will continue to listen carefully to the caring testimonies of our delegates and respond favorably in the interest of those that really matter the most – our patients.

Thanks in advance for taking the time to hear what we have to say and for supporting this proposed transaction between GWHN and Prospect Medical Holdings!

Sincerely,

Sean P. Payne

Department of Public Health
Office of Health Care Access

My name is Brian Emerick and I am the President for Access Rehab Centers, which is a local rehabilitation company that is a partnership between Waterbury Hospital and Easter Seals of Greater Waterbury.

I would first like to thank you for the opportunity to share some thoughts regarding the proposed acquisition of Waterbury Hospital by Prospect Medical Holdings.

I would respectfully ask that, when considering this transaction that we need to take into consideration, not just the history of Waterbury Hospital or even what the current state of healthcare is in this community ...I would suggest that we need to consider where we are going in the "big picture" for healthcare and what that means for the survival of all healthcare facilities going forward.

There are big changes in healthcare that are going on right now. Those changes will lead to major challenges to the survival of hospitals, independent practices, and many of the traditional institutions that we have all taken for granted as being our traditional healthcare system.

Everyone knows that Hospitals are struggling under reduced reimbursements as well as a significantly larger number of people who require services.

There are several major trends that are impacting almost all of the Hospitals in CT...one of the most significant is that healthcare is moving more towards preventing sickness and maintaining health. One of the key changes to make that happen is treating people in their home or in the least costly location. That means that the definition of "success" for a Hospital is changing from providing the best care possible to as many people as possible..to a point in the future where the definition of success will be "supporting health for all people in the community, preventing sickness and preventing the need for hospitalizations". There is one serious flaw in the process for the average Hospital; when a hospital does not have the community based resources available to create that healthier community then they will not be able to achieve the results that they will be expected to achieve and as reimbursements continue to go down for hospitalizations, those hospitals that cannot provide a more robust outpatient network will eventually be forced to close. In the future, Hospitals will be paid to keep people healthy and each hospital will be expected to absorb more and more of the costs for individuals who eventually do require hospitalizations.

I have worked with Waterbury Hospital for over 16 years and I can honestly say that the care at Waterbury Hospital today is the best that I have ever seen it be in those 16 years. It is of a higher quality and it is provided with a significantly higher degree of efficiency as well. Even with all of those positive changes I can say that the expectations that are on a Hospital today make it extremely hard to provide care and keep the doors open. How many of the business owners in a community could stay open if

there were an increasing number of people walking through their doors that were only required to pay below cost for the goods that they purchase? This is an easy equation.....if more people pay below costs for your goods or services, you have to make up the difference on the other customers that walk through the door or your will be out of business. You either increase your prices (which Hospitals are no longer able to effectively accomplish) or you decrease your costs. CT Hospitals can only go through so many rounds of layoffs before they run out of options. We have already seen all of the area Hospitals do many rounds of layoffs and I would say that many CT Hospitals will continue to have to make those same tough choices.

So why Prospect? As I see it, there are two primary reasons: the first is that Prospect brings to the table the expertise and the connections to assist in reducing expenses even further. By bringing in large purchasing agreements to reduce supply costs and by bringing additional ideas for new ways to do best practices and reduce inefficiencies and redundancies....ideally we can streamline the system without having to cut into staffing and quality.

The second reason is the biggest reason of all: Prospect brings the capital that Waterbury Hospital will require to adapt itself to the new demands of Healthcare and be able to survive. I would anticipate that, with adequate funds, Waterbury Hospital will continue to develop services integrated into the surrounding communities so that healthcare is available in a much more efficient and easily accessible manner so that folks in the community will be able to access health care quicker, maintain their health and prevent costly hospitalizations.

I have looked at the Prospect system and it is obvious that they know what they are doing. They know how to decrease costs and run efficient Hospitals. That means that not only do their Hospitals provide the healthcare and the jobs that the community needs but they also have the capital to be able to adapt and grow rather than just reel from one fiscal challenge to the next. Prospect brings with it the expertise to maneuver healthcare systems into a more efficient and high quality system that will be sustainable, viable and strong, going into the future.

Thank you.

April 11, 2016

Dear Mr. Hawes and Mr. Lazarus:

My name is Joanne Seymour. I recently celebrated my 22nd anniversary at Waterbury Hospital, specifically in the Behavioral Health Department. I have worked in the Crisis/ Behavioral Health Emergency Room, Inpatient Behavioral Health and Outpatient Behavioral Health, in both Managerial and Clinical (or combined) positions.

In the 22 years I have been employed at the hospital, I have seen a number of restructuring efforts and cuts, as well as managed insurances and universal health insurance expand; none of the efforts do more than put a Band-Aid on the situation. Resources continue to be cut, and day to day, our jobs have become more difficult as we try to treat very challenging individuals on the inpatient unit and in the community.

I support the proposed transaction between GWHN and Prospect Medical Holdings because I hope that this transaction will help our hospital obtain needed capital to address a deteriorating physical plant and expand our services that bring in income. We need a positive change. We need to make sure we can provide excellent patient care and that Prospect can give us efficiencies in resources and costs. Clearly, the hospital will not survive without the new direction that Prospect can provide.

Sincerely,

Joanne M. Seymour, MS, NCC, LPC

Dear Sirs:

I am a longtime employee of Waterbury Hospital. I will be here 29 years in August. I truly feel that we give better care because we care about our patients. This organization needs to continue to do this and with the help of Prospect Medical Holding we have a chance to maintain the excellent patient care we are known for. I have seen such a change here in the past 5 years and it has all been good changes. The Waterbury area needs us to keep up that momentum and carry it through. I believe we have what it takes and with Darlene Stromstad & Prospect leading the way we cannot lose. Please support this transaction as we do here at the hospital.

Steven Lazarus
Associate Health Care Analyst
Department of Public Health
Office of Health Care Access

Dear Sirs,

I am writing to you in support of the Joint Venture between Waterbury Hospital and Prospect Medical Holdings.

I came to Waterbury Hospital as the Chairman of the Department of Surgery eleven years ago. I had been practicing at the University of Connecticut Health Center since 1990. I trained at major University Hospitals as well as the National Cancer Institute and Memorial Sloan Kettering Cancer Center. My duties at Waterbury Hospital include Chairing the Department of Surgery and overseeing the General Surgery Residency Program.

Waterbury Hospital provides greatly needed services to the citizens of Waterbury and the surrounding communities. We are a Level II Trauma Center and care for patients with a variety of urgent and non-urgent health care needs. Many of our patients are uninsured or underinsured which makes "balancing the books" challenging. We manage to provide excellent care with limited resources.

Without the backing of a larger partner in the current health care economic environment, medium sized hospitals such as ours cannot survive much longer. The Joint Venture will allow us to continue to provide these much needed services to our patients. I urge you to keep the needs of the patients and the many dedicated employees in mind when considering the pros and cons of converting to a for profit model. Personally, I am confident that Waterbury Hospital will continue to be Waterbury Hospital and provide care to the same people who we treat now. We will have financial resources that will ensure our survival, allow us to update our equipment and fulfill our continued mission.

Thank you for allowing me to share my thoughts on this important issue.

Signed,

Scott H. Kurtzman, MD FACS

Dear Mr. Hawes:

My name is Josie Soucy and I am a nurse at Waterbury Hospital. My present position is, director of medical/surgical nursing and I have been employed by Waterbury Hospital for 3 ½ months.

I am writing this letter in support of the proposed transaction between GWHN and Prospect Medical Holdings. As with other hospitals in the State of Connecticut, Waterbury is in need of funds to help with capital acquisition and physical plant infra-structure renovations. In light of the payer source, Waterbury Hospital would not be able to survive without a strong acquisition supporting its daily operations.

Waterbury is a busy inner city hospital with an average daily census of 150 or better. The staff here care about the patients and the care they are given. Without Waterbury Hospital, where would these patients go for care?

I ask you to support the proposed transaction between GWHN and Prospect Medical Holdings. Thank you in advance.

Josie Soucy, MSN,RN,CCRN,NE-BC
Director, Medical/Surgical Nursing

Dear Sir,

My name is Duncan J. Belcher, MD, and I am a radiologist at Waterbury Hospital. I have worked at Waterbury Hospital for 19 years and am currently the elected Chief of the Department of Radiology. I am writing this letter in support of the proposed transaction between Greater Waterbury Health Network and Prospect Medical Holdings. In the years that I have worked at Waterbury Hospital, I have seen firsthand the difficulty the hospital faces financially in the current medical reimbursement environment. I have met individuals from Prospect Medical Holdings and feel strongly that this organization will be a very good merger partner and provide the hospital the financial backing it needs to move forward in the future for the community of Waterbury. As a radiologist, I practice in a specialty that is dependent on investment in technology to provide the best care possible to our patients. I feel it is imperative that our hospital be allowed to move forward with this transaction so that we can continue providing state-of-the-art care that our community deserves.

Thank you for attention to this matter.

Sincerely,

Dear Mr. Hawes and Mr. Lazarus:

It gives me great pleasure to enthusiastically endorse and support Waterbury Hospital and Prospect Medical Holdings proposed transition. I have been a member of the medical staff for over 27 years and have dedicated my career to patient care and medical education in the greater Waterbury community.

Waterbury is my home and I strongly feel that this transition will allow Waterbury Hospital to be the preeminent provider for healthcare in Waterbury for the future. Healthcare has many challenges in terms of providing quality care at acceptable cost. In addition, Waterbury has great challenges in providing care for the underserved. In working with Prospect Medical Holdings, I have been so impressed by their superb abilities to provide quality care to all members of the community. They have proven this in the hospitals that they have worked with across the United States. In working with members of Prospect Holdings I find them to be extremely knowledgeable and dedicated for the success of this hospital. It will provide greater care and I am very excited about the future plans for this transaction.

Thank you for the opportunity to share this information with you.

Very truly yours,

Re: Proposed Joint Venture between Waterbury Hospital and Prospect Medical Holdings

Dear Attorney Hawes;

I am proud to say I have been an employee of Waterbury hospital for the past 19 years. I am the Operations Manager for The Health Information Management Department. My family and friends have been fortunate to have been treated at Waterbury Hospital where there are such caring and highly qualified healthcare professionals. Our hope is with this acquisition we will be able to provide the same great care in the present and future that we have provided in the past. The economy has presented us with a dilemma in regards to financial stability therefore making this move into the future tenuous at best.

We need to be able to move along with the times and offer our patients the best care possible which quite frankly will be very difficult without the resources to purchase new state of the art equipment as well as attracting and retaining highly qualified healthcare professionals.

Prospect Medical Holdings will be able to provide Waterbury Hospital with the tools we need to survive and thrive in this ever changing environment.

Our hopes are that you will be able to look into the future **now** and afford us the opportunity to say" Waterbury Hospital where caring makes a world of difference yesterday, today and tomorrow".

Thank you,

_____

Dear Mr. Hawes and Mr. Lazarus:

I am writing in support of the proposed transaction between Waterbury Hospital and Prospect Medical Holdings. The transaction is necessary in order to provide the capital to allow Waterbury Hospital to continue to provide a high level of care to our local residents.

I first came to Waterbury Hospital for my internship year in 1975-76, as part of my radiology residency at Yale. Since completion of my residency in 1979, I have been a practicing radiologist at Waterbury Hospital. The reason I came back to Waterbury Hospital is the quality of the physicians and other caregivers here, and the quality of care that we give to our patients. As residents of Cheshire, my wife and I have been patients ourselves at the Hospital and want to continue to rely on it as "our hospital" when we need care in the future. Capital investment is necessary to continue to provide the best available medical equipment and healing environment. I have faith in the Hospital administration, and agree with them that the transaction is the right decision for Waterbury Hospital and our patients.

The community needs a financially healthy Waterbury Hospital, and the transaction with Prospect would go a long way toward realizing that goal. Please do what you can to allow this to happen. I appreciate your consideration.

Sincerely,

Eric A. Hyson

February 24th, 2016

Mr. Hawes and Mr. Lazarus:

Hello, my name is Aaron Burton and I am the Director of Pharmacy at Waterbury Hospital. I have served in my current role for four months and am very excited to voice my support for the proposed transaction between GWHN and Prospect Medical Holdings. The potential this transaction brings to improve patient care for the members of the Waterbury community was a key component of my acceptance of my role at Waterbury Hospital. I had previously worked at Warren Hospital, a small community hospital in New Jersey, which had merged with a larger organization recently. The ability of the parent company in this situation, St. Luke's University Health Network, to work closely as a partner with Warren Hospital dramatically improved the quality of care provided to that community. I am certain the Waterbury, Connecticut community would receive a similar benefit from the proposed transaction with Prospect Medical Holdings.

I think this transaction is imperative to providing the highest quality of care to the patients of the Waterbury community. Please feel free to reach out to me if you have any additional questions that would further substantiate my support for this transaction.

Sincerely,

Aaron Burton

Dear Ms. Davis:

I first came to Waterbury Hospital with the belief that Tenet Healthcare would be taking over and guiding the strategic planning for the future of the hospital. It was such a different time then and it seemed as if we were making wise decisions and moving in the right direction. But from the very moment Tenet pulled out, the hospital has been in a downward spiral without real direction. Chaos and continuous knee-jerk reactions reign supreme! Everyone is just grabbing at straws and attempting to make a quick buck and get by and not worry about the overall future of the hospital. Of all the potential "deals" that have come along, this Prospect Medical Holdings is by far the worse and the "lowest" as far as respectability and decency are concerned. I am actively looking to leave more for conscientious reasons than anything else, but once you are at a certain level and do not wish to re-locate the job choices are more limited. Claiming to be highly transparent, it is known to all who work here that talks take place behind closed doors where various and secret promises are made basically telling everyone what they want to hear -- similar to the carpet-baggers at the close of the silver war – "40 acres and a mule!" It would be such a travesty and disgrace, if this is the "deal" that the State of Connecticut allows to happen after all we have gone through striving for the right "deal" to best serve the needs of our community.

Thank you for your time!

[I actually am uncomfortable signing my name to this letter since I am not certain it will remain confidential]

Hartford, CT 06106

Dear Mr. Lazarus,

I write as a healthcare leader in the Waterbury community for the past 25 years and also a lifelong resident of the city of Waterbury. I have seen innumerable changes in the health care system throughout my professional career, some of which have stemmed from state and federal policy changes, but many that have been unique and in response to local decisions. While I continue to have confidence in the capabilities of my colleagues, the changes have not been without consequences to our community and StayWell Health Center.

In 2013, six community partners, including both hospitals and StayWell founded the Greater Waterbury Health Improvement Partnership. An extensive needs assessment was completed and was considered to be a guide for the community benefit planning for both hospital entities. As a community, we have come together and developed workgroups to address the priorities indicated in the assessment. With State budget challenges, increased operating costs, and changes in demographics, it is every more difficult to deliver services.

StayWell itself has had to expand due to formal and informal changes in programming and staffing by both hospitals and other entities over the past twenty years. Our organization is currently providing 90,000 patient visits annually, across nine sites in Waterbury. Unfortunately, there has been nominal if any funding to support such absorption of services and patients. Most recently, StayWell has had to assume the lead role for Part A Ryan White Region 2. There is a significant clinical and administrative burden that comes with this role.

I would strongly urge the State of Connecticut to consider the long term needs of the Waterbury community and the best stewards for securing the commitment and resources to meet those needs. As you are aware, community health centers are charged by the federal government and designed to be responsive to community needs combined with the benefit of extensive federal standards and oversight. Another strong and reputable local partner who could serve as a good steward of available funds following the hospital transaction is the Connecticut Community Foundation.

As the CEO of StayWell, I ask that you strongly consider that Waterbury Hospital establish an endowment fund at the Connecticut Community Foundation for StayWell and an additional fund to generate ongoing resources for community health initiatives. Thank you in advance for your consideration. I would be willing to provide further details of the specific needs in our community and the ways in which these funds could have an impact if properly secured for our community.

Respectfully Submitted,

Donald J. Thompson, MPS
President / CEO

Mark Briggs
Chairman of the Board of Directors

Suite 400
Los Angeles, CA 90025

Re: Quality Assurance Commitment

Dear Mr. Lee:

Reference is made to that certain draft Asset Purchase Agreement, attached hereto as Exhibit A (the "Asset Purchase Agreement"), proposed to be executed by and among Greater Waterbury Health Network, Inc. (the "Seller"), by and on behalf of its Wholly Owned Subsidiaries, and Prospect Medical Holdings, Inc. ("PMH") and/or an affiliate of PMH (collectively, the "Buyer"), pursuant to which Seller expects to sell substantially all of its assets and those of its Wholly Owned Subsidiaries, as well as Seller's interests in the Joint Ventures (as defined in the Asset Purchase Agreement) to Buyer (the "Transaction"). Each of Buyer and Seller is referred to herein as a "Party" and collectively as the "Parties." Capitalized terms used but not otherwise defined in this Quality Assurance Letter (the "Quality Assurance Letter") shall have the meanings given to such terms in the Asset Purchase Agreement.

For good and valuable consideration, including the agreement by each Party to undertake the expense and effort of obtaining regulatory approvals needed to carry out the Transaction, the Parties hereto hereby agree as follows:

1. Buyer agrees that after the closing of the Transaction, Buyer will, for a period of two years following the Closing:

    a. maintain Seller's Performance Improvement and Risk Management programs in effect as of the date hereof, and be open to add additional staff to allow for focused quality and risk initiatives; provided however that such programs comply with Buyer's insurance, legal and claims management requirements.

    b. To continue in the Joint Commission Accreditation program;

    c. To maintain Seller's current reporting structure for the Performance Improvement and Risk Management Department, including direct report to the CEO Notwithstanding the foregoing, (i) Risk Management will also report up through Buyer's Legal department to ensure confidential communications and work product and (ii) settlement authority will be given by Buyer's Legal department.

    d. To implement and continue a structure to share evidence-based practices among PMH hospitals;

64 Robbins Street • Waterbury, CT 06708 • (203) 573-6000

MEMO

TO: Mr. Steven Lazarus, Office of Health Care Access
Mr. Gary Hawes, Office of the Attorney General

RE: **Waterbury Hospital Purchase by Prospect Medical Holdings**

May 3, 2016

Please accept the following written comments from Planned Parenthood of Southern New England regarding the impending Waterbury Hospital purchase by Prospect Medical Holdings. I regret that a representative of PPSNE was not able to attend the hearing this afternoon in Waterbury, but wanted our comments to be included for the record.

Comments of Susan L. Yolen, Vice President, Public Policy and Advocacy,
Planned Parenthood of Southern New England
Office of Health Care Access Hearing on Waterbury Hospital Purchase by Prospect Medical Holdings
May 3, 2016

Thank you for the opportunity to comment on the pending hospital purchase in Waterbury.

Planned Parenthood has had a long term interest in the preservation of comprehensive, hospital-based reproductive health care services for women. In addition, PPSNE operates a family planning center in Waterbury and has had a decades-long commitment to offering accessible, affordable basic reproductive health care in the community. Our staff is keenly aware of the range of needs of women of reproductive age in Waterbury.

Along with our allies in the reproductive health advocacy and provider community, PPSNE has weighed in on many previous hospital mergers in Connecticut, particularly when partners to the merger have adhered to religiously-defined limits on the range of services that women might receive, and when such limits would be applied to a newly merged entity that previously offered more comprehensive women's health care.

Representatives of our coalition met recently with Waterbury Hospital CEO Darlene Stromstad, and have been reassured that the pending purchase by Prospect Medical Holdings does not threaten reproductive health care at her facility. There are two concerns that our groups hold about the future, however, which we would like to place into the record of these proceedings.

First, we have seen a pattern in recent hospital mergers, wherein the corporate or nonprofit entity taking on a struggling community hospital begins to seek immediate cost savings after the consolidation. Diminishing or closing services such as a labor and delivery unit has been seen as a pathway to reducing costs. This very example is an open issue at community hospitals in both Connecticut and Rhode Island

right now. So it would be our request that approval of this purchase be contingent on the preservation of all existing women's health services.

Second, a key reason for the concern expressed above is that the only other hospital serving Waterbury and its immediate environs is St. Mary's Hospital. St. Mary's (itself newly acquired by St. Francis/Trinity Health) operates under the Catholic Directives for healthcare provision. The Catholic directives (ERDs) expressly prohibit the full range of commonly accessed reproductive health care for pregnant women. These prohibitions could include miscarriage management and contraceptive care, obviously include abortion, and could also include other common and medically standard procedures as post-delivery sterilization (tubal ligation).

For women in the Waterbury area, particularly those low income women covered by Medicaid, local access to these services, in addition to labor and delivery, is imperative. Were anything to jeopardize the purchase being discussed today, the women of Waterbury might not have access to any of the basic services prohibited under Catholic teaching. If Prospect were to diminish or end women's health care, assuming it can easily be taken up by St. Mary's, that care will be suboptimal, due to the religious restrictions. Additionally, we cannot assume that travel to a hospital facility in another city (Danbury, New Haven, Meriden or Hartford) will be possible for laboring pregnant women impacted by the diminution of services, whether for budgetary or religiously-defined reasons.

Our coalition understands that in the current environment, consolidation of hospital services across our state may indeed be both necessary and wise under some circumstances. Thus, we are following with interest the impending proceedings of the recently convened Governor's task force on hospital certificates of need. However, as a group, we maintain that comprehensive health care for women should not be "on the table" for elimination in a community like Waterbury, where local access to full and affordable health care is imperative.

Thank you for the opportunity to share this perspective.

Putting People First

Testimony from Ann Pratt, Director of Organizing, Connecticut Citizen Action Group
Certificate of Need Hearing
Prospect Medical Group and Waterbury Health Care Network

To representatives of the Office of Health Care Access (OHCA) and the Office of the Attorney General, thank you for this opportunity to submit testimony in regards to the Certificate of Need application by PMG Medical Group and Waterbury Health Care Network.

My name is Ann Pratt, and I am the Director of Organizing for Connecticut Citizen Action Group, and I submit this testimony on behalf of our members within the Greater Waterbury Region.

First, we want to express our strong support of Community United's proposal and request for PMG Medical Group (PMG) to agree to and sign a Community Benefits Agreement. This proposal sets forth common sense provisions that provide important guarantees for residents of the Greater Waterbury community, and stipulate crucial accountability measures ensuring that this newly configured for profit hospital system is truly accountable to the community, and particularly to those on Medicaid, Medicare, underinsured and uninsured. It is exceedingly disturbing, and alarming that PMG refuses to sign this common sense proposal, stating explicitly that it does not feel a need to be accountable to the community.

In reviewing PMG's application to OHCA we want to respond to and address several areas of concern:

1) PMG will create an Independent Foundation that will take on the promotion of and responsibility for addressing community health care needs, among other community health and wellness needs. PMG does not state explicitly, but certainly implies that the foundation will eventually be responsible for the Community Health Needs Assessment.

   We strongly urge OCHA strengthen PMG's responsibility and role in conducting and implementing the CHNA permanently. Maintaining the link between the development and implementation of the CHNA insures a level of accountability and centrality of this essential consumer health needs tool.

2) PMG commits to continuing Waterbury Hospitals current charity care program for **only** the next 5 years.

   We strongly urge OCHA to require PMG to strengthen its commitment to providing this service over a much longer period of time.

3) PMG states that it will continue the current practice of providing services to all Medicaid and Medicare patients, along with the community health and wellness services provided by Waterbury Hospital. (Pg. 53, Section 24). However, the commitment is for only 5 years.

   We strongly urge OCHA to strengthen PMG's commitment to serving this population over a much longer period of time.

4) PMG states that its value to the community will be demonstrated by the property taxes it will provide to the City of Waterbury, with the caveat that they will be seeking tax abatement-unspecified in terms of the length of request abatement that they will be seeking.

   We reject PMG's claim that their payment of property taxes is an example of the value and benefit their presence offers to the Greater Waterbury Community. Given that their first entrance into the region will be to secure unknown amount property tax subsidies from the City of Waterbury, and there are absolutely no guarantees that once the initial subsidy has ended, they will not seek another, even larger amount for future operations.

We understand that a Hedge-fund type organization can be adverse to making commitments longer than five years so they may consider these proposals to be generous. However, the health care needs of a community exist over generations, and their health and well-being needs do not magically disappear when a time limit has been reached. We urge OCHA and the Attorney General's office to take this into account within their deliberations.

Finally, it is difficult to fully trust the assertions made by PMG, given our direct experiences of how large profitable hospital systems have behaved and operated in Connecticut over these several years. Five years ago, when Hartford Health Care System took over Windham Hospital, they committed to strengthening and building the financial stability and overall capacity to serve the Windham community. Tragically for the Windham community, Hartford Health Care did not live up to this commitment and instead has systemically reduced services and undermined the health of this necessary and valuable community institution.

While PMG continually states that there are currently "no anticipated changes to services" this does not mean that there might not be such service changes implemented in the near future. Without a Community Benefits Agreement, or restrictions placed upon them during this CON, the community is potentially at risk of reduction in services and/or elimination of needed health care programs. We urge OHCA and the Attorney General's office to make sure these disturbing trends in our health care system are not continued with this proposal by PMG.

Requiring PMG Hospital to enter into a signed Community Benefits agreement put forth by Community United would be one step in this process.

Respectfully submitted,

Ann Pratt

UNIVERSAL HEALTH CARE
FOUNDATION OF CONNECTICUT

Testimony Concerning the Waterbury Hospital / Prospect Medical Holdings Proposed Deal
Lynne Ide, Director of Program & Policy
Universal Health Care Foundation of Connecticut
May 3, 2016

Good afternoon. I am Lynne Ide, Director of Program and Policy at Universal Health Care Foundation of Connecticut. This is not the first time you have heard from us regarding hospital conversions in this state. We testified in 2014, during the Tenet hearing, here in Waterbury, and a few weeks ago in Rockville, at the hearing on Prospect Medical Holdings' proposed deal to acquire Eastern Connecticut Health Network. Some of what I say will be familiar, but we believe that there are critical questions that need be asked during any hospital sale, and that even more questions must be asked in a for-profit conversion of a hospital.

Our ultimate concern is rooted in the impact this deal will have on patients, consumers, residents and the community. A local hospital is a cornerstone in a community, providing local care, employing local residents, and participating in the local economy.

The concerns we have may not be new, but they are worth repeating.

Out-of-state and for-profit

As we testified in Rockville, the fact that Prospect Medical Holdings is an out-of-state for-profit company raises a red flag. Despite assurances in PMH's presentations and in the ECHN public hearings, we would be naïve to take these at face value. If PMH is seeking, ultimately, to turn a profit from this struggling hospital, it stands to reason that they will have to change the way the hospital has been doing business. We are leery of a takeover by a company who, by its very nature as a for-profit corporation, is accountable to its investors, not the local community.

Connecticut only has one for-profit hospital, Sharon Hospital, and promises to the community made during that transaction has remained unfulfilled. Sharon Hospital officials have shared little of the information that has been asked of them from the community, and the Foundation for Community Health (FCH). FCH arose from that hospital conversion.

To be fair, we are also generally wary of any local hospital takeover, in light of the situation faced by Windham Hospital last year. The critical care unit was changed to a progressive care unit, despite community protest.

Cost and quality in the context of provider consolidation, for-profit health care

We are deeply concerned about the evidence that shows that provider consolidation leads to higher prices and, in turn, higher costs to consumers. This increase in price and cost is not matched by an increase in quality.

Dr. Leemore Dafny, of Northeastern University, has found that provider consolidation generally increases prices, and quality doesn't improve.[i] We ourselves put out a paper on provider consolidation in health care, and our literature review reinforced Dafny's work—prices often go up, with little change to quality.[ii]

And what kind of players are for-profit health care companies? In a June 2015 report in *Health Affairs*, researchers noted that of the fifty hospitals with the highest charge-to-cost ratio, according to Medicare data, forty-nine of those hospitals were for-profit.[iii] This isn't surprising, as for-profit companies are accountable to their own bottom line, not the health of patients.

We offer this evidence, again, to put this deal in context. While we cannot know the ultimate impact this deal with have on the cost and quality of Waterbury Hospital, the evidence is not promising.

Community at the center

Waterbury is not Manchester or Rockville. The most recent Community Health Needs Assessment (CHNA) conducted in Waterbury, in September 2013, points to Waterbury's specific needs.

According to the Greater Waterbury Health Improvement Partnership[iv]:

- Median household income is $41,499 vs. $69,243 for all CT
- The unemployment rate in the city is 12.9% vs. 8.55% for the state
- 20.6% of the city's population were below the poverty level in 2010
- 3 Priority health issues include
    - Access to care
    - Mental health/substance abuse (Waterbury has the highest rates of suicide in CT)
    - Obesity
    - Tobacco use

In many ways, Waterbury's increased needs only increases our concern about this deal. Access to essential services and affordability are the consumer's concern, particularly for the city's working poor and Medicaid populations.

Waterbury deserves to have access to essential services that are affordable, for all residents. Essential services are not those most profitable for a hospital and health system, but those services that are critically needed in a community, addressing major health concerns of residents. Hospitals and the expanding health systems they build are ultimately responsible for ensuring the health of a community.

Caution, and strict conditions, to protect the community

We have seen the presentations Prospect Medical Holdings has shown to communities in Manchester and Rockville. They assure that care will be of high quality, that they will be responsive to the community, and that this is a good deal for the people of Manchester, Rockville and now Waterbury.

We urge the Office of Health Care Access and the Office of the Attorney General to place conditions on this deal that ensure Waterbury Hospital, and the Greater Waterbury Health Network as a whole, remain a responsible and responsive community member.

We believe the following are conditions that should be put on this deal:

- Require Waterbury Hospital, under Prospect Medical Holdings, to conduct a Community Health Needs Assessment every three years, and to develop and implement a plan to address high priority needs
- Ensure that Waterbury Hospital has a local board that is not entirely controlled by the hospital and PMH, and that includes local residents who truly represent the community
- Include an independent monitor to ensure that Prospect Medical Holdings abides by any conditions and agreements that are a part of this transaction
- Ensure the protection of charitable assets in the conversion from non-profit to for-profit, and that charitable assets not be utilized to offset uncompensated care, but to provide services that address community needs

Waterbury deserves a deal that protects them. If this is the only way to save the hospital, so be it. But this deal cannot go forward without conditions that protect the residents of this area. The community must be a valued stakeholder in this transaction.

Since Prospect Medical Holdings is both an out-of-state and for-profit company, it is even more important that they build trust with the local community. We urge both parties to seriously consider signing the proposed community benefit agreement put forward by Community United.

Subject: OCHA testimony may 3,2016

A rose by any other name

My name is Steve Schrag and I live in Waterbury and am a member of Community United and the Naugatuck Valley Project. Waterbury clergy, led by Dr. Edmund Rowland, and by a newspaper editor, organi□ed □hospital Sundays□in order to raise money to help build a hospital in Waterbury. The clergy will began the campaign in 1882.The pennies and nickels collected will eventually help capitali□e a sorely needed facility. These pennies and nickels helped to secure a vote for state matching funds for the collections from the □hospital Sundays□. This was the beginning of Waterbury Hospital. Our community has a lot of e□uity in this hospital and should be directly part of the process of its future.

Defining hospital community benefits agreements

There are 5,700 hospitals in the United States; 2,900 non-profit, 870 for profit and the rest are owned by state and local government (2009). This proposal to convert Waterbury Hospital from a non-profit to a for profit model has raised community concerns.

Non-profit hospitals must legally meet the IRS community benefit standard with re□uirements that include:

- Accept charity care to the extent of its financial ability and admit of all types of patients including those able to pay for care either themselves or through third party payers
- Maintain a community board
- Full time emergency room open to all regardless of ability to pay by limiting amounts charged for emergency or other medically necessary care to individuals eligible for assistance
- Prohibitions against the payment of excess compensation and impermissible private benefit
- Community benefits be reported at cost rather than charges and reported by employer identification number rather than by hospital or system
- Conduct a community health needs assessment and adopt an implementation strategy at least once every three years beginning in March 2012

Waterbury values regarding community benefits

We believe that community benefit means the provision of health care services that promotes preventative care and overall health and wellness and that improves the health status of the affected community which includes working families and populations at risk within the affected community. This includes uncompensated care; the total amount of charity care (not just bad debts) determined by using the hospital s published charges as the bases for estimates.

What we want

Community United has been working for a community benefits agreement since 2012 when the first for profit corporation wanted to buy Waterbury Hospital. The most recent draft version of a community benefits agreement includes what the Prospect Medical Holdings and Waterbury Hospital has said is already part of their legal documents. We have added to the proposal that they agree to talk with the community to find ways to even do better on community issues raised in the last 4 years.

The draft agreement states that the hospital will:

-no change in service lines or locations such as behavioral mental health, cardiology, cancer services, diagnostic and imaging services, emergency department, family birthing and neonatal care, gastroenterology, infectious disease clinic, intensive critical care, outpatient medical therapies, primary care, pulmonary, rehabilitation, surgical and telemetry

-**maintain current policies on charity care for a minimum of 5 years** with the possibility of extending it based on future discussions with the community

-while Waterbury Hospital is owned by a Prospect affiliate it will provide charity care-under applicable law unless otherwise negotiated with the community

-**accept Medicaid and Medicare for a minimum of 5 years** with possibility of extending that based on future discussions with the community

- maintain staffing according to state law

- continue to have cultural and linguistic appropriate services available to patients

-hire employees under usual and customary hiring process and will work with the appropriate unions to ensure continuity and stability in the workforce

-There will be a local board created with additional advisory committees to solicit community ideas and input

- seek input for capital projects from the local board and advisory committee to help identify community needs

- seek input for capital projects from the local board and advisory committee to help identify community needs

There shall be ongoing dialogue and discussion with Community United and others to identify language and appropriate methods of accountability regarding the following concerns:

- **Payment of property taxes** for the full amount of the Hospital s value
- Conducting a Community health assessment as often and with the same effort that is re uired of non-profit hospitals
- **Negotiation of a successor clause** that will ensure that all sections of this agreement will last in perpetuity
- **Complete facility based transparency** regarding finances, staffing and services provided by using the Waterbury Health Department website
- maintain support for parent engagement programs
- full-time clergy to meet the needs of patients and share appropriate staffing data with the community

This agreement is by no means comprehensive or as complete as we would like it to be. However we drafted it in order to make clear our willingness to compromise. The uestion is whether the hospital will compromise and sign an agreement with the community. We have met twice with Prospect Medical and they have stated several times that they think that it is not necessary to be accountable directly to the community. That raises uestions in our minds about their intentions.

OCHA s mission is to ensure that the citi ens of Connecticut have access to a uality health care delivery system. We believe that ensuring a direct connection to the community will help make that a reality.

We look forward to OCHA s help us to get a signature from Prospect Medical so that we can work together to make Waterbury Hospital a center of healthcare excellence for another 100 years. Or if that does not occur, please make our recommendations part of the Certificate of Need.

Thank you for your time and consideration.

Re: Revised Scheduling Agreement for OHCA Docket No. 15-32017-486 and Attorney General Docket No. 15-486-02

Dear Mr. Spees and Ms. Stromstad:

This letter revises the schedule set forth in Connecticut General Statutes § 19a-486b(a) in connection with the hospital conversion dockets OHCA Docket No. 15-32017-486 and Attorney General Docket No. 15-486-02 currently pending in the Department of Public Health, Office of Health Care Access ("OHCA") and the Office of the Attorney General (the "OAG"). The Applicants are Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH").

Due to the press of business at OHCA and the increased responsibilities of its review, OHCA has requested an extension of the 120-day review period as set forth below. The OAG agrees that the 120-day review period should be extended for this docket.

Therefore, pursuant to Conn. Gen. Stat. § 19a-486b(a) and after discussion, the parties have agreed to the following schedule for completion of the Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, LLC hospital conversion review. Specifically, the parties agree to extend the 120-day review period set forth in § 19a-486b(a) until **July 15, 2016**. If it becomes apparent that we cannot complete the Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, LLC review by the date established above, all parties will convene at the earliest opportunity to agree upon a revised final decision completion date.

If you agree to these scheduling terms, please sign the attached page (the signature page may be signed in counterparts) and return it to our offices at:

MAY 3, 2016

1:03 P.M.

63 GRAND STREET
WATERBURY, CONNECTICUT

POST REPORTING SERVICE
HAMDEN, CT (800) 262-4102

. . .Verbatim proceedings of a hearing before the State of Connecticut, Department of Public Health, Office of Health Care Access, in the matter of Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, LLC, Greater Waterbury Health Network, Inc. proposed asset purchase by Prospect Medical Holdings, Inc., held at 63 Grand Street, Waterbury, Connecticut, on May 3, 2016 at 1:03 p.m. . . .

HEARING OFFICER KEVIN HANSTED: Good afternoon, everyone. This public hearing before the Office of the Attorney General and Office of Health Care Access, identified by Docket Nos. 15-32017-486 and 15-486-02, is being held on May 3, 2016 to consider Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, LLC application for the Greater Waterbury Health Network, Inc. proposed asset purchase by Prospect Medical Holdings, Inc.

The hearing is part of the procedure under what is commonly referred to as the Conversion Statute, which requires the Commissioner of the Department of Public Health and the Attorney General to evaluate any

proposal, which would convert a non-profit Connecticut hospital to a for-profit entity.

For OHCA's purposes, this public hearing is being held pursuant to Connecticut General Statutes, Section 19a-639a and 19a-486e, and will be conducted as a contested case, in accordance with the provisions of Chapter 54 of the Connecticut General Statutes.

My name is Kevin Hansted, and I have been designated as the Hearing Officer for the Office of Health Care Access for this evening's hearing.

The staff members assigned to this case with me are Kimberly Martone, Director of Operations, Steven Lazarus and Carmen Cotto. The hearing is being recorded by Post Reporting Services.

In making its decision, OHCA will make its determination on this application pursuant to Sections 19a-486d and 19a-639 of the Connecticut General Statutes.

Specifically, OHCA will consider the following; whether the effected community will be assured of continued access to affordable health care, whether the purchaser has made a commitment to provide health care to the uninsured and underinsured, whether safeguards are in place to avoid a conflict of interest in patient referrals, and OHCA will take into

consideration and make written findings concerning each of the statutory Certificate of Need guidelines and principles.

Generally speaking, there was a public need, access, quality and financial feasibility of the project.

Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, LLC have been designated as parties in this proceeding.

At this time, I'll hand it over to Deputy Attorney General Perry Zinn Rowthorn for some additional comments.

MR. PERRY ZINN ROWTHORN: Thank you, Kevin. As Kevin mentioned, I'm Perry Zinn Rowthorn. I'm the Deputy Attorney General for the State of Connecticut. I've been designated by Attorney General George Jepsen as the Hearing Officer for this proceeding.

I want to thank all of you for being here, the Applicants, the witnesses, the members of the public and public officials, whom we'll hear from today.

I want to take a minute or two to talk about what this proceeding is, put it in the context of our review of the pending application.

Before I do that, I do want to say a

special thank you to the members of the public, who are here today. We know that the Greater Waterbury Health Network and Waterbury Hospital are important assets in your community, and many of you have strong personal bonds with the hospital, so we take that seriously, hence our presence here today.

I know there's a lot of, also, a lot of employees. I see white coats and hospital scrubs here today, so we are anxious, as well, to hear from you, so your input is valuable to us.

We are, as Attorney Hansted mentioned, conducting this hearing jointly with OHCA, but we do have a different and distinct role in reviewing the transaction, a different focus and different criteria.

Our role here is defined and limited by the Hospital Conversion Act, Connecticut General Statute 19a-486.

That Act reflects the Attorney General's traditional role in protecting the public interest and charitable assets and insuring that monies and properties committed to a charitable purpose are safeguarded and used appropriately.

Non-profit hospitals and hospital systems, like Greater Waterbury Health Network, hold their assets

for essentially a charitable purpose, providing health care, not for generating profits for shareholders or owners, and, in that way, not-for-profit hospital systems are different than for-profit hospital systems.

The administrators of not-for-profit hospital systems are the stewards of its charitable assets with a responsibility to take good care of those assets.

The law does not prohibit non-profit hospitals from converting to for-profit status, but when one seeks to do so, as here, the Attorney General is charged with ensuring that the non-profit hospital is meeting its obligations of care for the charitable assets, and we look at three things, in particular.

We look at the process. We ensure that the process leading to the sale was responsible. We ask were the hospital administrators careful in deciding to sell and choosing a buyer and negotiating a transaction?

We look at the terms of the sale to make sure they are fair. Will the hospital get the fair market value? Will it get fair market value for its assets? And then we look at the proceeds of the deal after the sale. Will the charitable assets continue to be used for health-related purposes?

We need to ensure that those assets are protected from being used for the for-profit making purposes of the new hospital system.

Because the Attorney General must remain focused throughout his review on the charitable assets, his review and our decision for the most part do not focus on the running of the for-profit hospital after the transaction.

Issues relating to the operation of the new hospital entity, as it relates to access to health care services, are within OHCA's purview.

Today's hearing is a very important part, but just one part of a review that has been ongoing for months. We'll take testimony and evidence, and we'll hear public input.

We'll ask some questions, but don't assume, if we don't ask questions on a topic, that the topic is unimportant to us. We have received and reviewed thousands of pages of documents already, and we've asked many follow-up questions, and all of those materials are available on the Attorney General's website, www.ct.gov/ag.

Your input is important to this review. All the information we receive today will become part of

the official record of our review.

We'll do our best to accommodate everyone, who wants to speak. We'll also be taking comments in writing, and those comments will also be included in the official record.

We have sheets I think that many of you saw on your way in on the tables for those members of the public, who want to sign up to be heard, so, if you are interested, please do sign up.

Let me say a word about what the end of this process looks like. Under the statute, the Attorney General must approve the transaction as it is, deny it, or approve it with conditions that relate to the purposes of the Conversion Act.

For the Attorney General, that would generally mean that any conditions would relate to the Attorney General's focus on the hospital's charitable assets and the future protection of those assets.

This is a joint hearing, as we've mentioned. Kevin and I are going to work together to move this along to cover as much business as we can. You can assume that, if either of us makes a ruling on an objection or a procedural point, that the ruling is for both offices, unless we state otherwise.

I think there are sheets with the agenda for today, but let me just go through what you can expect this afternoon.

First, we'll hear Applicant's Direct testimony, so we'll hear, in essence, an overview of the transaction from the Applicants. We will then break, and then hear from members of the public, who have signed up or will sign up, then we will ask questions.

OHCA will ask questions first, and then, to the extent there are areas that remain uncovered, the Attorney General's Office will ask questions, then we'll hear closing remarks, and then we will adjourn.

So let me turn it back over to Kevin for some additional housekeeping before we get into opening statements.

Before I do that, I want to introduce the staff from the Attorney General's Office, who is working on this transaction.

To my immediate left is Henry Salton, Assistant Attorney General, who heads our Health and Education Department, and next to him is Gary Hawes, Assistant Attorney General in our Special Litigation and Charities Unit. We also have with us Cheryl Turner, who is a paralegal specialist, who has been helping with the

transaction. Cheryl is over here.

So, with that, thank you very much. Kevin?

HEARING OFFICER HANSTED: Thank you, Perry. At this time, I'll ask staff to read into the record those documents already appearing in the Table of the Record in this matter. All documents have been identified in the Table of the Record for reference purposes. Mr. Lazarus?

MR. STEVEN LAZARUS: Good afternoon. Steven Lazarus. For today's record, I would like to include Exhibits A through S, as listed on the Table of the Record, as well as we will be adding a new exhibit, Exhibit T. That is the copy of the Quality Assurance Commitment submitted by the Applicants this morning between Prospect Medical Holdings and Greater Waterbury Health Network.

We do have extra copies, in case some of you would like to review them.

HEARING OFFICER HANSTED: Thank you, Mr. Lazarus. Counsel, are there any objections?

MS. MICHELE VOLPE: No objections. Michele Volpe, legal counsel. I do want to note that, for the Table of Record, N, as in Nancy, it may be more

appropriately placed in the Table of Record of the ECHN hearing. I think that may have been a support letter.

MR. LAZARUS: I believe that was rectified this morning.

MS. VOLPE: Okay.

MR. LAZARUS: So the updated or the revised Table of Record does not include that one.

MS. VOLPE: Okay.

MR. LAZARUS: That was an error on OHCA's part.

MS. VOLPE: And, so, the quality letter is in the Table of Record as S?

MR. LAZARUS: Exhibit T.

MS. VOLPE: Okay.

MR. LAZARUS: N was --

HEARING OFFICER HANSTED: N is now the request for legal notification?

MR. LAZARUS: Yeah, because we did get additional exhibits, which were the letters of support, last night, so I think that took the place of the N.

MS. VOLPE: That took the place of N?

MR. LAZARUS: Yeah.

MS. VOLPE: Okay. So the letters of support were the 119 pages?

MR. LAZARUS: Yes.

MS. VOLPE: Okay. Great. Thank you.

HEARING OFFICER HANSTED: Attorney Volpe, do you have an updated Table of the Record? If not, we can provide you with one, and, if there are any other concerns, we can address it later in the hearing, if that's okay.

MS. VOLPE: No, I think they've been addressed. Thank you.

HEARING OFFICER HANSTED: Okay. As Perry started to mention earlier, for today's hearing, we will first hear from the Applicant for an overview of the project, then we will hear public comments on the proposal.

Out of deference to elected officials, we will call them first, and then we will turn to the sign-up sheet, which is provided outside the door on the table. And, again, any individuals, who wish to provide public comment, please sign up on the public sign-up sheet, just so we know who to call at the appropriate time.

Before we begin, would all the individuals, who are going to testify here this evening, please stand, raise your right hand, and be sworn in by

the court reporter?

(Whereupon, the parties were duly sworn in.)

HEARING OFFICER HANSTED: Thank you, all. And would each of you, who have just taken the oath, please identify yourselves for the record? You might have to move up to one of the microphones, so it's picked up.

DR. CARL SHERTER: Dr. Carl Sherter.

HEARING OFFICER HANSTED: Thank you.

MS. SUSAN CORDEAU: Susan Cordeau, Director of Performance Improvement.

MS. DARLENE STROMSTAD: Darlene Stromstad.

MR. CARL CONTADINI: Carl Contadini.

DR. MITCHELL LEW: Mitchell Lew, President, Prospect Medical Holdings, and I'd like to adopt my pre-filed testimony.

HEARING OFFICER HANSTED: Thank you.

MR. STEVE ALEMAN: Steve Aleman, Chief Financial Officer, Prospect Medical Holdings, and I adopt my pre-filed testimony.

HEARING OFFICER HANSTED: Thank you.

MR. VON CROCKETT: Von Crockett, Senior Vice President for Corporate Development for Prospect

Medical Holdings, and I adopt my pre-filed testimony.

HEARING OFFICER HANSTED: Thank you.

MS. DEBBIE BERRY: Debbie Berry. I'm the Chief Quality Officer for Prospect Medical.

MR. JON SPEES: I'm Jon Spees. I'm the Senior Vice President with Prospect Medical Holdings, and I adopt my pre-filed testimony.

MR. TOM REARDON: And I'm Tom Reardon, President of Prospect East.

HEARING OFFICER HANSTED: Thank you. And we have some other folks, who are sitting in the audience. If you would just come up one at a time, please?

MR. JIM MOYLAN: I'm Jim Moylan. I was the previous CFO of Waterbury Hospital up until last Friday, and I'm a consultant to Waterbury Hospital, and I adopt my pre-filed testimony.

HEARING OFFICER HANSTED: Thank you.

MS. SANDY IADAROLA: Sandy Iadarola. I'm the Chief Nursing Officer from Waterbury Hospital.

HEARING OFFICER HANSTED: Thank you.

DR. JOEY COSGRIFF: Dr. Joey Cosgriff. I'm the Medical Director of Performance Improvement.

MR. RICHARD KROPP: I'm Richard Kropp,

Vice President of Human Resources.

HEARING OFFICER HANSTED: All right, thank you, everyone. And just a reminder, if you are testifying here today, before you initially testify, please just identify yourselves for the record, and if you have not already done so, please adopt your pre-filed testimony for the record.

At this time, we'll allow the Applicants to proceed with their presentation.

MR. CONTADINI: Thank you.

HEARING OFFICER HANSTED: You're welcome.

MR. CONTADINI: Carl Contadini, Chairman of the Board, Waterbury Health Network, and I would like to adopt my pre-filed testimony.

HEARING OFFICER HANSTED: Thank you.

MR. CONTADINI: Today, we're going to overview the process that got us to where we are today. I will then turn this over to Darlene Stromstad, who will give her viewpoints on today and future plans.

Sue Cordeau will give a presentation on performance improvement and Waterbury Hospital Medical staff involvement, Dr. Carl Sherter will talk in regards to the Transaction Committee, and representatives from Prospect will have their own program today.

HEARING OFFICER HANSTED: Can everyone in the back of the room hear okay? Okay. All right.

MR. CONTADINI: It's been a long journey. Greater Waterbury Health Network began reviewing options for sustaining the organization more than 10 years ago.

In 2005, commissioned a study on the merger with St. Mary's Hospital. Those discussions went on in 2006 and 2007 between Greater Waterbury Health Network and St. Mary's Hospital.

In 2007, there was a draft OHCA report recommending consolidation of those two hospitals, and, in 2008, we were unable to reach agreement, and discussions ended at that time.

In 2009, Greater Waterbury Health Network defaulted on its CHFA bond covenants, and, in 2010, the Board engaged consultants to analyze projected capital needs. Anticipated cash would be depleted by 2015.

In 2011, the Board formed a task force to chart future course of Greater Waterbury Health Network, and we also, at that point in time, hired our new CEO.

In 2011, it was approximately February, we hired an investment banker, Cain Brothers, selected to lead the process to cast a net for the potential partners.

The priority at that time, which still is today, is sustainability, high quality, accessible health care.

In 2011, two finalists were selected, Vanguard Health and LHP. In August of that year, LHP, which had an LOI with St. Mary's, was selected, based on its promise to build a new hospital, were continued on the merger of the two hospitals through 2011 and 2012, and, by August of 2012, LHP terminated relationships with both hospitals and left Connecticut.

At that same time, in August of '12, Greater Waterbury Health Network's Task Force regrouped, met with St. Mary's Hospital to explore possibilities to work together, and no further path was identified.

In the fall 2012, the task force, again, dove back into the marketplace, reaffirms the priority to provide sustainable health, high-quality accessible healthcare, with a commitment to invest in outpatient service strategy, physician recruitment and capital upgrades.

In the fall of 2012, two finalists interviewed, Vanguard Health and Prospect Medical Holdings. In October of '12, Vanguard Health was selected.

August 2013, Vanguard announced a strategic alliance with Yale-New Haven Health Systems. October 2013, Tenet Health Care Purchases Vanguard. Tenet announced the inclusion of St. Mary's Hospital in the deal with two separate hospitals and Waterbury under one parent company.

In October of 2014, Greater Waterbury Health Network's public hearing. November of 2014, transaction approved, with over 70 conditions.

In December 2014, Tenet announced departure from Connecticut, and, in January 2015, in spite of political overtures, Tenet departed was final.

Greater Waterbury Health Network defines a two-part strategy at that point in time; try to rebuild our organization by simultaneously identifying potential partners.

In the spring of 2012, we identified a pool of potential partners and it was limited. I think we had two people of interest.

The LOI with Prospect Medical Holdings was announced. Greater Waterbury Health Network holds the first public hearing in August of 2015, and Greater Waterbury Health Network entered into a forbearance agreement with its bondholders in December 2012, '15.

Overview of the transaction. Forty-five-million-dollar purchase price, subject to certain adjustments; cash, assumption of certain liabilities, such as pension plans.

Fifty-five-million-dollar capital commitment, subject to certain adjustments; facility improvements, equipment updates and development of coordinated care regional care model.

Included in the transaction substantially all of the assets, including the hospitals, physician practices, joint ventures and real estate.

Excluded were restricted funds, charitable assets, the child care center, the captive insurance, inactive entities and other certain liabilities.

Continuing operations in Waterbury Hospital, the continuing involvement of an Advisory Board that included community representatives, capital investments to improve facilities and equipment, physician recruitment and network, hire all of the employees and assume contracts, continuation of charity care and indigent care, establishment of community foundation to oversee certain charitable funds, and that's the transaction in general.

The community foundation, a new, totally

independent foundation will be formed, hold or receive the benefits of certain charitable assets, receive the net proceeds of the sale, and no post-closing liabilities. Thank you.

MS. STROMSTAD: Good afternoon. I'm Darlene Stromstad. I used to be the new CEO of Waterbury Hospital. Now I'm the old CEO, and I adopt my pre-filed testimony.

It's good to see you again, and I thank you for your continued interest and attention to our organization.

I'm going to pick this up where we last left off, the winter of 2015. Mr. Contadini did a very thorough job of talking about the journey that brings us here today, so I want to talk about just the past year, since Tenet announced it was leaving Connecticut.

When that happened, our organization suffered deeply. After two years of effort, when the deal was called off last winter, our organization went into a depression. Employees left. Some doctors changed allegiances. Others invested in competitive surgery centers, and our confidence was shaken.

2015 was the most difficult financial year ever for Waterbury Hospital, and we've had a few, and it

was also the most difficult for my career. We had to balance the challenge of running a hospital known for quality, which was suffering financially, while working on a deal to bring us long-term stability.

We have definitely learned a lot during our past transaction attempts and understood clearly that this time the key to our success was finding a partner with a strong likelihood of bringing a deal to close, as well as meeting all of our other priorities, and Prospect was that.

They understood the regulatory environment of the Northeast. They recognized the immediacy of our needs, but would invest for the long haul. There would be little to no disruption to our services or to our employees, and they would bring us a new model of payment and delivery, and they had success in neighboring Rhode Island.

I don't need to repeat what I said at previous hearings before or what you have heard from other hospitals over the last couple of years.

Our industry is changing dramatically, and our reimbursement has only gotten worse. There's enormous financial pressure being placed on hospitals like mine, those that are single, standalone, with a very

challenging payer mix, and we are not immune to the requirement to adapt new payment and delivery systems.

As both a hospital company and a population health management company, Prospect brings the experience to position us to make the complicated move to a value-based delivery system, and their access to capital allows us to make the investment necessary to be a high-quality hospital for the long haul.

Waterbury Hospital. Maybe you think about us as the hospital on the hill, but we really are so much more than that. We have a very significant footprint in the Greater Waterbury area. These network affiliates combined that make up the Greater Waterbury Health Network.

Our issue is not one about volume. As you can see from our slides, each year, our employees have the opportunity to touch the lives of hundreds of thousands of people. Just this list alone on this slide totals more than 500,000. That's 500,000 patient encounters. That's half a million a year.

So as these numbers show, I am enormously proud that, in spite of our well-publicized financial challenges over the past few years, we continue to be the hospital of choice for much of our community.

Our past fiscal year, which ended September 30, 2015, is a year best looked through one's rearview mirror. The losses we suffered were devastating to the hospital and very personally and professionally humiliating and humbling, so I think it is very important for you all to know that today we are financially and operationally stable.

That means we are at break even, which is an enormous feat. It doesn't mean that we have capital to invest in the future, but because of the hard work of many of the employees, of doctors that work throughout our network, many of them are here today, it's to their credit.

Last fall, our employees and employed physicians accepted salary and benefit cuts to help us gain solid footing once again.

We asked for and received sacrifices from our employees, our medical staff and our Union, and I am pleased to say that all of those cuts have today been restored, and our employees and our physicians have never lost touch with our promise to our patients, that we would keep them at the center of everything we do, in spite of any distractions.

Their sacrifices, as well as many, many

other initiatives, have allowed us to dig ourselves out of a black hole, or a red hole, as it was, and I'm really proud of that, but it is simply not enough.

We do not have access to capital to be competitive and to remain sustainable for the long term. We have a proud history; 126 years of providing world class, high-quality health care in a teaching environment.

We care for some of the most at-risk people in the state of Connecticut, and we are enormously proud to do so, and this transaction will ensure that we are able to continue that.

Prospect's model will allow us to build stronger medical staff partnerships through our IPA. Already, we have more than 300 members. With the long history of population health management, they can teach us to become a leader in new delivery models that will be beneficial to the region we serve, and we'll be able to invest in equipment and outpatient services that will allow us to be more competitive and grow by attracting back the many patients, who have been lured away by larger, wealthier health care systems.

As you know, we've been at this for some time. Prospect helped us achieve the initial goals we

set for our transaction several years ago; sustainability, accessibility and the ability to continue to deliver high-quality health care.

Waterbury Hospital has received many awards over the years for its high-quality health care. That is who we are, and that is who we want to remain. Therefore, when we learned of CMS violations at two of Prospect's California hospitals, we undertook additional due diligence and formed a special board quality committee that undertook a rigorous review.

We needed to ensure high-quality health care would be delivered by all Prospect hospitals, including ours, in the future.

So to talk to you further about this process is Susan Cordeau, our Director of Performance Improvement.

MS. CORDEAU: Thank you very much, Darlene. As Darlene stated, I'm Susan Cordeau. I'm the Director of Performance Improvement at Waterbury Hospital, and I was one of seven members that were part of this task force, and we had representation that included our Board, medical staff, nursing and the Quality Performance Improvement Departments.

The task force was empowered or

established to review the immediate jeopardy CMS survey violations of the California-based hospitals owned by Prospect and, also, to review the corrective action plans to ensure that they went back into compliance on those violations. Dependent on the outcome of our review, we would make recommendations to our Board of Directors.

So the scope of our review, it was very broad, very deep. We requested from Prospect and they provided us the last three years of their CMS deficiencies for all of hospitals.

Each member of the task force received several binders of the violations of the documents that included the violations and their corrective action plans.

To ensure all members of this task force had a true understanding of the CMS regulatory process, I did provide the definitions of the CMS violations, which are standard, conditional, and then immediate jeopardy.

Obviously, we looked at everything very seriously, and then the areas of concern where we decided to focus were on the California hospitals, where there were three immediate jeopardy violations identified.

So, from there, we had long discussions, we reviewed, and we came up with a plan, and it was a

four-part plan. First, we developed questions that we wanted to ask to Prospect Health Care. We requested a conference call with a Prospect Medical Holdings executive.

We asked for an on-site visit at CharterCARE in Rhode Island with their Quality and Risk Department, so we could get a sense for how they were doing, and then, fourth, some of our senior leadership actually went out to LA and toured Culver City, which was one of the hospitals that had an immediate jeopardy violation.

So our initial concerns. The task force, we were all very confident in the high-quality health care we provide at Waterbury Hospital. We're proactive in our approach at Waterbury. We use evidence-based practices. Our policies and procedures support the CMS conditions of participation and the Joint Commission standards.

We audit our compliance on these to make sure that we are maintaining compliance, and we report that throughout the hospital at the management level, the staff level, and at a performance improvement, so we're very transparent, so we knew we had a good plan in place.

So our concern became will that change?

Will the quality of the Greater Waterbury Health Network be maintained?

Also, would there be adequate financial and human resources to ensure, for the Quality and Risk Departments, to ensure our future, that we could maintain this? Last, how does Prospect handle significant challenges?

So the specific issues identified in California hospitals, we came up with four concerns, four basic concerns; the pattern of the widespread ineffective sterilization processes, the issues of the temperature and humidity in the OR in some of the procedural rooms, the lack of leadership and governing body oversight, and a failure of the hospital to follow through on several of its corrective action plans.

So there is a typo in one of these, our results. So through our review, we identified there were three immediate jeopardy violations affected at two of the -- only two of the 14 Prospect hospitals.

During our conference call with Mr. Crockett, it became very clear that Prospect had a true understanding of the violations. They took things very seriously. They made a very big commitment, both financially and, also, to develop a very experienced

quality team.

Senior leader, Mr. Crockett, was extremely transparent and very knowledgeable. He could answer every question about every violation, and it was very reassuring to all of us on the task force as we sat in that room.

He provided detailed explanations and plans for change. He shared with us the new corporate organizational structure, which included a Chief Quality Officer, and I'm happy to report that Dr. Cosgriff, who is the Medical Director of the Performance Improvement Department, and myself had the pleasure to meet Debbie yesterday, and we share common goals and visions, as far as quality.

They also hired a Chief Clinical Officer, Chief Nursing Officer, an Associated VP of Regulatory Affairs and Patient Safety, and east and west coast Regional Quality Officers.

We heard and we're very reassured by Mr. Crockett that quality needs to be controlled and will be controlled at the local level, with corporate oversight and support.

That same great experience was just shared when we went to Rhode Island. It was very reassuring.

Their relationship with Prospect is enhanced. There are already robust quality and safety programs, and they shared with us that resources, both financially and with human resources, are consistently made available.

The processes are not difficult to get financial resources, and they already have a lot of corporate kind of -- what's the term I'm looking for? It's tough to be old, you know? You lose your train of thought. To their facility. They had already started to do major renovations to their facilities.

So, obviously, we came back as a task force, and we felt that the changes at Prospect we're able to make in a very short period of time reflected a commitment to quality and the availability of deep financial resources.

And, so, on April 13th, the task force met with the Board, our Board of Directors, and we went through the entire process that we did, and we made a proposal that the transaction with Prospect Medical Holdings move forward with recommendations, and that was unanimously approved by our Board of Directors.

And the recommendations have been memorialized in a quality assurance letter, and they maintain our current quality programs, continue Joint

Commission accreditation, maintain our current reporting structure to a local CEO, with a dotted line relationship to the Chief Quality Officer, share evidence-based practices across the systems, and then provide adequate financial resources to keep our facility always in compliance and staff for the Quality and Risk Departments.

I'd like to introduce to you Dr. Carl Sherter.

DR. SHERTER: I'm old, also, but that's okay. I adopt my pre-filed testimony.

My name is Carl Sherter. I'm the recent Chief of Staff of Waterbury Hospital. I'm a member of the hospital's Board of Trustees and on its Finance Committee.

I'm an original member of the task force that examined the hospital's opportunities with various capital partners.

I'm a practicing pulmonary and critical care physician. I'm in private practice, attending physician at both Waterbury and St. Mary's Hospitals.

I'm Chairman, proud Chairman of the State of Connecticut's Medicaid Pharmacy and Therapeutics Committee.

I've served as a volunteer since the inception of this committee. I helped write its bylaws. I've Chaired every meeting for over 13 years.

We have saved the State of Connecticut tens of millions of dollars and provided the most liberal list of medications for Medicaid patients. I understand delivery of affordable health care to the underinsured. These are our most vulnerable patients.

Over the last four years, we've looked for capital partners. We've heard health care has changed, and we've changed our goals.

Under the Affordable Care Act, health care systems will attempt to keep patients healthy and prevent hospitalizations. This will require a robust system of care, data driven, with ancillary services that provide the best care available to every patient.

Every health care system is starting to build this model. Our chosen partner, Prospect Health, has a system in place as proof of success with the system in multiple states. It will be up and running in months, not years.

Part of my due diligence was to visit a two-hospital system in Rhode Island that Prospect acquired about a year ago. We met with their Board

President, their CEO, their Chief Nursing Officer and six physicians, who proctor the system. One physician was in private practice, the others voluntarily employed.

We got to spend nearly two hours with this group and asked numerous questions. They said the best way to sum up the experience was that Prospect was real and delivered all that they promised, and physicians were very happy.

They were practicing accountable care medicine within months and it's working. The patients are happy and get much better care than the old way of practicing medicine. In Rhode Island, Prospect is eagerly taking on a Medicaid population.

Hundreds of physicians have signed up over the first year. They like the new model Prospect has offered.

This venture will be good for the proud city of Waterbury. Our population is older than most other Connecticut cities. The poverty rate is over 20 percent. Our unemployment is over 12 percent.

This venture will help stabilize our city and help our city move into the next phase of its existence. Possibly, a city of health care and higher education. I haven't passed that by the Mayor yet, so

you should know that.

Waterbury has provided excellent health care to the community. I'm proud of the over 1,000 physicians we've trained, many still in our area.

We have medical students from all three Connecticut medical schools. I'm proud of the nurses, certified aides, respiratory therapists, physicians' assistants and pharmacists that we've trained.

I'm proud of the staff of the hospital earning numerous awards, quality health care, in spite of the hospital's financial constraints.

As I've stated, for the last four years, I've represented the medical staff at Waterbury Hospital and the patients that this hospital serves in its attempt to find a capital partner.

I was at every meeting. Prospect has met numerous times with the physicians who practice in Waterbury. They have a full-time physician liaison, John Holiver, who is there, who is always available, has reached out to every physician group.

He comes to the staff executive committee meeting monthly to report on progress and answers questions. This makes the process completely transparent.

The physicians have asked every question and gotten honest answers. They support this venture. Over 300 Waterbury physicians have already signed up for Prospect's Accountable Care organization. This demonstrates their support.

After almost 40 years of practice in Waterbury Hospital, I've seen its recent problems as a standalone hospital. With an average physician age of over 59 years, it's getting increasingly difficult to bring young health care workers to Waterbury.

They want a secure future in their practice. They want modern equipment to diagnose and treat their patients. They want a stable future with a capital partner, who will help with this economy of scale.

They know the health care delivery model has changed. They want to hit the field running with this proven system. Prospect offers this.

The people of Waterbury want excellent health care in their own city. They are a community of family values, who support one another.

Most of my patients come to the office with family members. They ask me is it going to happen? I answer we certainly all hope so.

We need a capital partner to make this happen, and Prospect is an excellent choice. Thank you.

DR. LEW: Mitchell Lew, President of Prospect Medical Holdings.

Greater Waterbury Health Network and Prospect, committed to this community. Who is Prospect? We are a health care services company, and we operate local community hospitals, and what is standard within our company is that we utilize local governance and local physician leadership.

We make investments in our hospitals and our communities. For example, recently in Rhode Island, we've made significant investments into the facility. We're beautifying the entrance, we're expanding the emergency room, and we've built out the GI lab, and, in two communities in Southern California, we have opened two new hospitals, one in Orange County and one in Bellflower.

The stability that we provide is continued employment and creation of new jobs, and we also expand programs and services to improve access and quality.

We opened an emergency room in our hospital in San Antonio, Texas, and we have opened several urgent cares in Providence, Rhode Island and,

similarly, in California. We have opened several urgent care and wellness clinics.

A little bit about the hospitals that we operate. Fourteen community hospitals, seven in California, four in Texas for about four years, two in Rhode Island, and it's been almost two years, and one recently we opened in New Jersey.

We serve many different communities. Many of the hospitals that we have are in underserved communities. To us, we take all types of health insurance, because, to Prospect, a patient is a patient.

All of our hospitals across our system provide various services. As you can see, medical, surgical, psychiatric, so we've got a lot of experience in multiple areas, but we also have many outpatient clinics and centers, because, in our model, not all care is delivered in a hospital.

And while we are a hospital company, we also are a medical group company. We operate and manage many physician groups, and you can think of our physician entity as a multi-specialty health care provider without walls, and, so, we link our physicians in what we call Independent Practice Associations, or IPAs, where physicians focus on delivering the best care.

In this model, physicians can be employed or they can be independent. We are an open model, and, so, whatever a physician desires, to be employed or remain independent, we can accommodate them.

We're a very large group in Southern California. We've been operating for over 20 years. And, also, growing in Texas, where we have nearly 500 doctors. Rhode Island, it's 300 doctors, and New Jersey about 125 physicians.

We contract with all health plans. We have nearly 9,000 physicians under contract, taking care of over 300,000 patients, and we coordinate care across the entire continuum, and what that means is, if a patient is in a hospital, or in a skilled nursing facility, or at home, we follow the patient throughout their care.

Our goal is to achieve the best clinical outcomes and the best patient experience, because we want our patients to go and tell their family and friends to come get their care with Greater Waterbury and Prospect.

Now through our experience of owning and operating hospitals and medical groups, we've come up with what we feel is a very unique model of care, which we call Coordinated Regional Care, or CRC, and what

Coordinated Regional Care does is it integrates the hospitals and the physicians and other medical and community providers, so, in this community, there might be a durable medical equipment company, or a palliative care company, or a skilled nursing facility.

We work with the local providers, and we also will work with the local health plans to coordinate the care, because we need to do that to improve care and get that patient satisfaction, and this model we have already implemented in several different regions in California, Texas and Rhode Island, and, as I alluded to earlier, currently underway in New Jersey and already here in Connecticut.

Population health management, you hear this term frequently, and basically to us what that means is that the care of every member in this community matters.

Our unique model of care will provide higher value, and what that means is that great care does not need to cost more.

Improving care and outcomes, so how exactly do we do this? What is the secret to providing for better care? And, so, we take a patient-centered, but a physician-led approach. We have multi-specialty

care teams that identify the highest risk patients, and those are usually the sickest five percent, and these teams are comprised of nurse practitioners, pharmacists, social workers and health educators that work together, and they will actually be available 24/7 to these patients, so if a patient needs to call, they call us, and, if necessary, we will go to their home to evaluate whether or not they need to be hospitalized. That's the type of care that we provide. We engage the patient and the family. We have this homebound program that I just spoke of.

Disease-specific care plan, so specific for diseases, such as diabetes, or congestive heart failure. We have certain protocols that we follow to make sure that a patient has the best standard of care that is evidence-based.

We also are integrating behavioral health. As we know, behavioral health is a very common problem in all communities, and it's important, when you're taking care of one's physical health, also to integrate taking care of their behavioral health needs.

We have quality care coordinators that reach out to patients every day to call them and remind them that they need to come in to their physician for

their testing, whether it be a mammogram, or to check their cholesterol. We have teams of coordinators that do this.

And then following patients, as I mentioned earlier, whether it's a hospital, a skilled nursing facility, or some other institution, we case manage and we follow across the entire continuum, and it's a physician-led network.

MR. ALEMAN: Hi. I'm Steve Aleman, Chief Financial Officer, Prospect Medical Holdings, and I wanted to take just a few moments to walk through the demonstrated kind of financial history of Prospect Medical Holdings and the demonstrated financial performance.

What's here on the slide, I reference both the growth and revenue. This is the compound annual growth rate and revenue and adjusted EBITDA since 2011. 2011 is important from a date, because this is the year before we started acquiring facilities outside of California.

If I included the growth rate prior to that, when the company really came together, the medical group and hospital segment back in 2007, the growth rates would even be higher, but this would give kind of a fair

review over the last four years.

On the revenue compound annual growth rate, that was really driven between organic growth, and that's growth in our existing facilities prior to acquisition, as well as strategic growth, and those are acquisitions, and that strategic growth was really focused to date in these numbers on the Rhode Island transaction, CharterCARE Health Partners, as well as the Nix Health System in San Antonio, Texas.

Conversely, though, the adjusted EBITDA growth rate of 25.6 percent is really almost solely driven by organic growth rate, and that organic growth rate is driven by continued process improvements in our facilities, continued cost deficiencies, movement towards managed care and related supplemental payments that have driven both the top line revenue growth, as well as adjusted EBITDA.

Focusing on acquisitions and integration, I've touched upon CharterCARE Health Partners. I'd also like to highlight a recent transaction of ours in New Jersey, East Orange General Hospital, because they both have similar traits that, when we stepped in and signed the APA for those particular transactions, they both had a negative run rate, of which we invested into those

facilities, just like we're investing from a manpower standpoint in Greater Waterbury Hospital to help begin to turn performance around and work directly with management.

And, indeed, we were able to turn the monthly run rate financial performance of both those facilities around from where they were running at about a negative $1.2 million a month to break even or positive.

The East Orange General Hospital facility, we entered into that transaction in 2014. It was a fairly lengthy regulatory review process, but we just closed that in March, and the first month of financial performance under us they actually were accretive month one and actually had a positive EBITDA month one for the month of March, and that really gets to this last point, that we work with the given facilities to help improve performance, operational and financial, and anticipate the acquisitions will be accretive year one, due to that improved performance.

How do we do it, and how do we deal? I specifically deal with the rating agencies. The focus has been our diversified model, and our diversified model is fairly unique, in that we reduce our concentration or our risk not only away from a given business segment,

such as whether it be a hospital segment or medical group segment, but as well as various states, payers and streams of revenue.

The medical group side, and this diversification also helps give us steady and predictable cash flow to help ultimately reinvest into our facilities, that diversification comes on the medical group side, with the steady capitation payments and management fees, on the hospital side, with the diversified payer mix between commercial, Medicare, Medicaid, as well as managed care and supplemental payments that are driven from those programs, and it gives us the ability to satisfy our acquisition commitments, without taking on additional debt.

Specifically, going back to the acquisitions I've highlighted, the Nix in San Antonio and CharterCARE in Rhode Island, we acquired those solely off cash generated from operations and the capital commitments that we have carried forward, those formal commitments in Rhode Island, and the significant dollars we've invested into the Nix have all been from cash flow generated from operations, without taking on additional debt.

Which gets to what is our access to

capital, and I've highlighted what we have the ability to do is not only leverage the strength of our financial performance, the cash generation to reinvest that into our facilities, but we also have taken a very conservative approach to taking on debt, solely for the reason that, if from a strategic purpose there becomes a need or desire for us to go out and tap capital markets, that we have the ability to do that.

Our industry leverage ratio comparison gives our current industry comparison to other key, other public for-profit companies, and our goal is generally to keep our leverage ratio below four.

You can see we're well below that, which gives us the ability at any time to access the markets, both bank and bonds. In addition to that, we were a publicly-traded company and have maintained that reporting discipline, as well as financial discipline, which makes us attractive to private equity groups and the strength, the financial strength that they can provide.

We actually are with Leonard Green & Partners, who provide us that capital backstop, should we ever need it. Today, we have never needed to access them as a financial backstop or seek any additional

investments, and that's kind of the various access to capital and kind of the strength that our model provides.

MR. CROCKETT: Von Crockett, Senior Vice President for Corporate Development for Prospect.

As Mitchell Lew, Dr. Lew, indicated, our physician groups have an extensive program for managing the health of the members that they serve, and, in the process of measuring the health, one of the national groups, which is called CAPG, that measures the effectiveness of physician group performance, has awarded our physician groups in California the status of -- Elite status, which is in the top four to five percent of medical groups, as it relates to providing appropriate and efficient and effective care for our patients, and we're very proud of that.

Additionally, our medical groups have also been recognized and rewarded by the Medicare program, and we have received -- all of our medical groups have received either a four or a five star for Medicare, as well as being recognized by the Department of Managed Health Care and cardiovascular, as well as cholesterol and diabetes care.

On the hospital side, recently within Rhode Island, our Cancer Center has recently been

designated by the American College of Surgeons as an academic comprehensive Cancer Center, and it's one of only 15 percent within the entire nation.

Additionally, within Rhode Island, Blue Cross has recognized our facilities for their surgical care in hip, knee and spine, as well as the surgery programs.

In Texas, we've recently received a Center of Excellence from Joint Commission for Bariatrics, and, in California, our hospitals have received top 10 percent nationwide, as it relates to provision of care within surgery.

However, there have been a few recent events within California that have recently come to light that have caused us to enhance our quality and expand our oversight of quality to our various California, as well as the proposed acquisitions.

With me we've brought Debbie Berry, who has recently been hired as the Chief Quality Officer and has an extensive background in quality and working in a large health care organization that has had oversight over multiple facilities, and she'll be testifying here shortly, in terms of what our enhanced quality program is going to be.

To touch briefly upon the events that have occurred within California, I'll just spend a few minutes on that for the room.

We, in California, we have recently now seven hospitals, but, at the time, we had six hospitals, and they're consolidated under two licenses, and, so, within the six-hospital structure, we had two of the hospitals that recently received notification from CMS that we were in violations of their conditions, Medicare conditions of participation.

The first issue was within Los Angeles Community Hospital, which is a three-campus system in East Los Angeles, and the issue arose. The hospital did a self-report to CMS, as it related to an allegation of physician misconduct.

The hospital had taken appropriate actions at that time, and when the Department of Health came out to do a survey, they had found that the actions that the hospital had put into place had not been adhered to by the physician and were not strong enough.

As a result of that issue, what's called an immediate jeopardy violation, as it relates to not safeguarding patient rights, and that occurred in November of 2015. The immediate jeopardy violation was

abated during the time of the survey, however, as part of the survey process, the organization was found to be in violation of five Medicare conditions of participation, which include the physician rights, nursing services, and infection control, among part of those.

As part of receiving the immediate jeopardy violation, CMS also placed the hospital on a 90-day proposed termination track of the Medicare agreement, giving the organization an opportunity to submit a plan of correction to correct the deficiencies.

The organization submitted the plan of correction, and a resurvey of the hospital occurred in February of 2016.

During the resurvey process, the issue associated with the immediate jeopardy was found to be we were in compliance associated with that, however, there were two issues, where the facility remained out of compliance, and it was infection control and nursing services.

At that point, CMS extended the proposed termination track to June 21st and gave the organization an opportunity to submit a plan of correction.

The plan of correction was submitted in early April, and the organization just recently underwent

the second resurvey by the Department of Health on the week of April 25th. The resurvey resulted in all deficiencies being cleared, and, as such, we expect to receive shortly a report from CMS, clearing the organization of all deficiencies, as well as removing the termination track associated with -- before the June 21st deadline.

The second issue occurred at our campus, which is called Southern California Hospital. It's a three-campus system underneath one license, with the focus of the survey issues primarily at the one campus, which is Culver City.

A little backdrop, which is in early of January of 2015, the organization was in the process of doing construction work, and our contractor had a small localized fire on the roof that caused for the damage of the HVAC system, making it inoperable.

The organization put temporary measures in place in the summer of 2015, and those measures were inadequate. As a result of that, there were complaints that were issued to CMS regarding primarily temperature and humidity within the organization.

During the survey process, during the survey process, the organization was issued an immediate

jeopardy for being out of compliance for temperature and humidity in the organization, which was abated during the survey process.

During the survey process, at that point, we received notification that the organization was also out multiple areas of Medicare conditions of participation.

While the hospital was in the process of responding to that report, CMS conducted what's considered to be a full validation survey, and that survey occurred on December the 18th, the week of December the 18th, and the results from that survey is that Medicare found that the organization was out six conditions of participation, which included infection control, and issued the organization a second immediate jeopardy, specifically to the sterilization of surgical instruments in the operating room suite.

That second immediate jeopardy violation was abated during the survey process, and surgeries resumed at that time.

As part of the issue of being issued the immediate jeopardy violation, the license, which included the three hospitals under Southern California Hospital, was issued a proposed 90-day termination of the Medicare

provider agreement at that time.

The organization was given the opportunity to submit a plan of correction, and that plan of correction was submitted on March 22nd.

The resurvey by the CMS or Department of Health was conducted on the week of April the 4th, and we are still currently awaiting the results of that CMS survey.

One of the things that, as part of receiving these issues that I've outlined, a couple of points. The first one was that, under both of those scenarios, there was actually no allegation that actual patient harm occurred underneath any of the violations or the immediate jeopardy citations that were given.

However, the organization takes these concerns extremely serious, and we started working on them immediately upon being informed by the Department of Health, as well as CMS.

As part of our response to make sure that the organizations were going to be meeting the conditions of participation, we hired a national consulting group to come in and assist both organizations until they're actually cleared, and they currently are still working with us, as related to the Southern California Hospital.

With that, we have modified multiple of our operating policies, as well as enhanced our quality program and oversight.

MR. ZINN ROWTHORN: So this is probably a good juncture to remind folks that this is our third hearing with Prospect Medical Holdings. We had two hearings in connection with the ECHN transaction, and we had very substantial discussion about these immediate jeopardy issues.

We are taking, in this proceeding, notice of the record of that proceeding, so all of the material and testimony at that proceeding is part of this record and vice versa.

It's very helpful for those, who are here, however, to have an overview of this topic, in particular, and, in particular, to have updates, but I do want to remind folks that the extensive discussion already on this subject is part of this proceeding, as well.

Also, I see that there are some folks standing. There are some seats up here, if people would be more comfortable sitting down.

I'm reminded that the transcripts from the two days of testimony of the ECHN proceeding are already

available online and on our website, if folks are interested in looking at those. I apologize for that interruption. Please proceed.

MS. BERRY: Hi. My name is Debbie Berry. I'm the brand new Chief Quality Officer for Prospect Holdings, Medical Holdings, and I'm going to speak to you a little bit about our future and our plans to improve quality and patient safety across the company.

First of all, our philosophy is that the right care is provided to the right -- the right patient receives the right care at the right time in the right setting, and our mission is to improve our care outcomes, provide patient safety, integrity, communication and collaboration with all our colleagues.

Our goal is to become a high reliability organization, to promote patient focus, high quality, safe, compassionate, efficient and effective care.

Being new to the company, I had to start somewhere, so I adopted, we agreed to adopt the quality of care framework, which says you need to have that infrastructure in place, you build the processes to support that infrastructure, and then you measure, you have outcomes, and you measure those outcomes and continue on from there, so that's kind of where I'm

starting.

First of all, I was asked to put together a draft quality and patient safety structure for the company, remembering that I've only been here for two weeks. I used my experience from a very large health care system, 173 hospitals, and, also, a much smaller health care system that consists of seven hospitals.

I pulled some of the best practices from both of those, plus did as much research as I could in evidence-based journals, in quality improvement journals, and, also, took a very close look at what was happening across the company.

So, based on this, this is the structure that I have put together, and, again, it may change a little bit. I've only been here two weeks.

MR. ZINN ROWTHORN: Can I interrupt before you do that?

MS. BERRY: Yes.

MR. ZINN ROWTHORN: It perhaps would be helpful if you told us a little bit about your background.

MS. BERRY: Oh, sure. Absolutely.

MR. ZINN ROWTHORN: Thank you.

MS. BERRY: I'm sorry. I'm a nurse and

always a nurse. A nurse first and always. I have been a nurse for 31 years. I have been in clinical practice much of my career, either as a clinical nurse, as an educator, or as a clinical specialist, so I'm very in tune to the clinical world.

I have experience in performance improvement, both in hospitals and across the system, and, most recently, I spent the last seven years with the Hospital Corporation of America, HCA, where I was first an Assistant Vice President of Quality and Clinical Operations, and then a Vice President of Quality and Patient Safety for the HCA system in one of their divisions.

In one division, I had oversight of 17 hospitals, plus multiple surgery centers, freestanding EDs, etcetera, and, in the other system, in the Gulf Coast system of Houston, I had oversight for 14 hospitals, along with surgical centers and on site, free site EDs.

I have taught for many years part-time in nursing programs, Baccalaureate and regular, and, just to give you some of my credentials, I am published, I am subject matter expert on quality and patient safety for Lippincott, for Core Measure events.

I produce in their policy and procedure manual, and I'm also a subject matter expert for two universities on quality and patient safety. Anything else?

MR. ZINN ROWTHORN: Thank you.

MS. BERRY: Okay, good. Thank you. Let me talk a little bit about our proposal here. Again, we have a Chief Quality Officer.

The important thing is that we have decided that we are -- we have grown, so we're going to divide into an eastern regional and a western regional VP of Quality to help support and provide facilitation to the facilities on the east coast, Texas and on, or the east coast and then the west coast and Texas.

Beyond that, one thing that I found it very clear to me and, also, based on past experiences, we really needed to get in front of the survey activity and build our own internal consulting firm, I guess, around survey readiness, so we put together a proposal that we have a VP of Regulation and Accreditation programs, and, under that, we are going to build a system of experts that can come out before a survey happens, come out if a survey happens where we have an issue, and, also, help build tools and build expertise across the company around

those high-risk areas, such as infection prevention, environment of care, life safety clinical practice, so we're going to have our own preemptive program, so that we can really monitor how well we are towards survey readiness.

And, again, all surveys do, all accreditation does is make sure that we're doing the right thing for the patient, so it's going to be a very patient-focused program.

I'm going to switch to the next slide. Part of what I was asked to speak to is a model that I have. I do like to have a corporate Quality and Patient Safety Steering Committee that has input from the hospitals in the company, and, also, not just the hospitals, but certain -- it's a multidisciplinary team, so there will be physicians, nurses, that kind of thing, so it's kind of a Steering Committee.

I'm just going to show the structure there, and I'll talk a little bit later of some of the roles, but it will flow from corporate, and then there's some regional activity, and then the hospitals will actually roll up into those regional activities.

The main purpose of that is communication. We need to maintain communication across the entire

company, so we can learn from each other, so we can share best practices, as my colleague over there had mentioned, and mutually move forward into the 21st Century.

The other thing that I have a slide here is just to show -- am I stuck? Oh, there we go. I'm sorry. The other thing within the Steering Committee, we will also be building some subcommittees, the subcommittees around things, such as clinical excellence, and when I mentioned those, I mentioned things like sepsis and all those very high-alert, very serious illnesses, infectious disease preparedness, so that, if something happens around infectious disease, we are ready to get out the facilities and help.

Certainly, quality and patient safety, medication safety, hospital-acquired infections and hospital-acquired conditions. These committees may not all start. There will be probably a gradual progression, but really try to get the input and get a focused movement across the company.

Under these committees, we may have work teams, and, in work teams, I try to pull people closest to the work to help us design best practices, based on best evidence, and share across the company.

I heard a lot about high reliability

organizations, that both Rhode Island is very involved in and, also, East Connecticut. I am also -- I'm sorry. The Connecticut hospitals.

I am also a very big believer in high reliability. It's the only way that we can decrease medical error in a hospital system.

We are going to move forward into that high reliability program. We are adopting high reliability behaviors to ensure a reduction in overall medical errors.

We are working on leadership commitment, and lot of work has already been done at the CEO level and CNO level just in the short period of time we've been here.

We are going to be working on building a very strong culture of safety and widespread deployment of highly effective performance improvement tools. Many of those tools are high reliability tools, such as SBAR, which is a communication tool that we use in nursing and health care, in general.

Part of our strategies to make, our outcomes that we're looking for, we are going to support ongoing survey readiness, and I mentioned the team that we're going to have in place.

We are going adopt patient experience, clinical excellence and high-reliability best practices, create and adopt data dashboards and analysis tools, so that we can benchmark not only with our company, but, also, with those, who provide the best care in the nation, so we're going to benchmark against the top 10 percent of the country.

We're going to promote consistent risk identification and medication, so what we learn from some facilities on the east we can share with facilities on the west and vice versa.

We're going to optimize pay for performance and publicly reported outcomes. Any time that the state and federal government wants to pay me for doing the right thing, I am 100 percent behind that, so we are going to work through that.

And, also, something very important is integrate technology. Technology is growing so very quickly we want to move forward with it and make sure it's integrated in our quality and patient safety plan.

Also, I had mentioned the quality and patient safety councils that we're envisioning. The purpose of those quality and safety councils will be to analyze data and trends for performance improvement

opportunities, assist with development of our quality and patient safety agenda, which we hope to update every year, provide organizational knowledge and systems thinking, motivate and strategize for organizational change, and ensure compliance with action items, so that we don't have a repeat of what we had on the west coast.

As part of that team that we are putting together and as part of this council, there will be monitoring of action plans, and, also, provide oversight for charter committees and work groups.

MR. ZINN ROWTHORN: So let me -- were you just about to hand --

MS. BERRY: I was going to hand off.

MR. ZINN ROWTHORN: Let me, if you don't mind, ask you a couple of questions at this juncture.

MS. BERRY: Absolutely.

MR. ZINN ROWTHORN: And I recognize that you're new to the organization, but it sounds like you've had the chance to roll up your sleeves and propose a detailed plan with respect to quality improvement and maintenance.

Have you had the opportunity to understand in some detail the problems that arose in the California hospitals?

MS. BERRY: I have. I have reviewed all the action items, all the standard violations or conditional violations, whatever, and the action items for those.

I actually have read them all. I believe that they've done a thorough, incredible job with identifying those issues and going after them. I think they've really gone after them well from my experience.

MR. ZINN ROWTHORN: Okay and can you talk, if you could, about whether and how the steps and structural changes that you've outlined would have prevented those issues from occurring?

MS. BERRY: Sure. Well, number one, I think that the most important part to prevent is to have the survey readiness team available with a group of experts on those high-risk areas, so that we will actually go in and do pre-surveys before anybody comes in.

I plan on scheduling them at least yearly at this point, so that a group will come in of experts and do essentially a mock survey.

Not only will they say this is wrong, this is wrong, this is wrong, they're going to also share those tools, share the support, share the expertise, so

that they improve immediately, and then continue to monitor that action plan, and that's key.

You can't just go in and say what's wrong. Part of this team's function will be to monitor everything that we found, monitoring it to completion, and then making sure they continue to monitor it, whether it's a sample or whatever, to make sure that they are achieving compliance with the standards, so that is -- it's a model that has been used across many organizations, and I think it's going to work very well for us, and actually kind of even being a little proactive now. Some of our other facilities are trying to get some specialists in to continue to be survey readiness, so I think that will help.

MR. ZINN ROWTHORN: Have you had the opportunity to gain an understanding of Waterbury Hospital's quality performance?

MS. BERRY: I have. I'm certainly not an expert. I did spend all day yesterday at Waterbury. I had the great pleasure meeting with Joey and Susan. They have a very robust program.

We shared a few best practices across the table, but I am very impressed with their program. I intend to use them, some of their practices, as best

practices, because I have identified them as best practices, so that we can share across the company, and I think they also have some opportunities, and we're going to continue to work on those opportunities, as well. I think it will be a very good partnership.

MR. ZINN ROWTHORN: One of the things that we've struggled to do since becoming aware of the immediate jeopardy issues is to understand those issues in context.

Just the phrase, immediate jeopardy, has a severe ring to it, and understand that the hospital could be at risk of no longer being able to participate in the Medicare or Medicare program. Particularly, a number of hospitals grouped under two licenses is alarming.

It's something with respect to these systems that we're looking at here. In Connecticut, it's something that I don't believe there's much, if any, experience with, threats of immediate jeopardy terminations.

How many hospitals are part of the HCA system?

MS. BERRY: One hundred and seventy-three.

MR. ZINN ROWTHORN: One hundred and seventy-three. Do you have experience in those hospitals

with immediate jeopardy termination threats?

MS. BERRY: I'm not going to speak directly to HCA, but I can tell you that, in the past 10 years, I have experienced seven immediate jeopardies with conditions, conditional status, and had to work with the sites to get them out of that, so it's not -- I mean and especially certain areas of the country seem to be more attractive than others, and Florida is one of those areas that there's a lot of activity, a lot of state and CMS activity.

MR. ZINN ROWTHORN: What would explain regional differences in that?

MS. BERRY: How can I explain the regional?

MR. ZINN ROWTHORN: What would, for example? We've heard some reference to regional differences between, for example, California and here. Our understanding it's the same set of CMS regulations.

MS. BERRY: They are the same. I think it's more the activity of the state, how actively involved the state is in doing complaint surveys, or doing any kind of just random surveys.

In 2015, the state started doing surveys around infection control, discharge planning, and I think

that increased -- that started in Florida very quickly. To my knowledge, it hasn't started over here in LA yet, so I think that's part of it.

MR. ZINN ROWTHORN: Okay and Mr. Crockett referenced the Department of Public Health, which I assume is a reference to the California Department of Public Health?

MR. CROCKETT: Correct.

MR. ZINN ROWTHORN: And, so, CMS is a federal regulator, federal program, so, for the benefit of those here, the relationship between a State Department of Public Health and CMS with respect to survey or immediate jeopardies issues is what?

MS. BERRY: Go ahead. Do you want to speak to that?

MR. CROCKETT: So the Department of Health, when a complaint is made to CMS, the Department of Health acts as an agent upon CMS and goes in and conducts the survey on CMS's behalf and will report the survey findings to CMS, at which point, then, CMS will make a decision or a determination upon those findings, so the Department of Health is an agent of CMS.

MR. ZINN ROWTHORN: Thank you for that. Just to paint this in broad strokes, I think what we

would want to hear are some detailed explanations, I think you've touched on it, is to the extent we have an organization that has a good quality history, how can you assure us that that control of quality and maintenance of quality will be local, but within a national company will be supported by the national company?

MS. BERRY: Well, first of all, I'm a firm proponent if it's not broken, I'm not going to fix it. I'm not going to spend the energy to fix it, so I think, right now, they have a lot of things that are not broken, so we will focus on things that may be.

According to CMS and Joint Commission, the onus or responsibility for oversight of the quality patient safety program falls to that Board, the local Board.

We serve or we will serve as facilitators, as support sharing best practices. We are I like to say very much kind of a facilitation and, at some point, consulted, however, if there are issues that are, for lack of a better term, may place a patient in immediate jeopardy of harm, or if there are issues that are new regulatory, you know, CMS changes, conditions, participation frequently, the Joint Commission changes things, then we will reach out to them and say, you know,

we need to work on this, because it's a new regulation.

So, again, I don't see us forcing things down. Number one, it's just not my style, but very much partnering with them.

MR. ZINN ROWTHORN: Thank you. I think this is a topic we'll probably hear more about today when we get to questions. I wanted to sort of identify some of the broad themes here in advance of our public comment. Feel free to continue with your opening comments.

MR. SPEES: Good afternoon, everyone. I'm Jon Spees, and I lead the transactions practice for Prospect. I wanted to spend just a little bit of time talking about the terms of the transaction and the commitments that we, Prospect, have made to both Waterbury Hospital and Greater Waterbury Health Network and, also, to the community as part of the transaction commitments, which have been described in our asset purchase agreement.

As Darlene mentioned, we're talking about essentially a $100 million transaction, which is split $45 million, in terms of the purchase price at closing, as well as a capital commitment of $55 million.

The capital commitment is to be used for

investment in GWHN's facilities in growth of its services, in development of the coordinated regional care model, and other investments in expanding assets and developing the system, and really finding ways to retain health care services in Waterbury, which are currently being exported to other areas, and retain jobs and build the community network here.

I wanted to just mention, so, Darlene talked about what a difficult year 2015 was for Greater Waterbury Health Network, and as the result and fallout from those difficult times, their cash reserves have been significantly depleted over the past year, to the point where there's some concern about whether or not there would be enough cash, as of the closing of the transaction, to satisfy the bond holders and allow them to transfer the assets to that, to Prospect.

So we've continued to monitor the cash position and forecasts of cash at closing, in order to -- as Darlene also mentioned, you know, choosing a partner that was committed to close the transaction was key for them, and we've continued to work with them and actually have now agreed, based on the most recent estimate, to make a couple of changes in the transaction.

It doesn't reduce our overall commitment

to the transaction. It just changes the allocation between purchase price and assumed liabilities and capital commitment, so, in order to increase the opportunity to actually close the transaction and satisfy the bond closers, we made a couple of fairly significant changes to the purchase agreement, the first being to eliminate the holdback, and there were provisions previously of a four-and-a-half-million-dollar holdback at closing that was to be used to satisfy any post-closing liabilities, and we've agreed to waive that holdback, which then frees up an additional four and a half million dollars of cash at closing.

And we've also agreed to limit the deduction from the purchase price for the liabilities that are assumed as of the closing, so that it can be -- it will be limited in its amount, and we've agreed to assume liabilities in excess of that threshold amount up to an additional $5 million.

That also will free up if there are liabilities at closing that are greater or free up cash at closing, and the trade there is, if we actually do end up assuming additional liabilities as the result of that, is that the offset would be against the future capital commitment, so, in total, the commitment is the same.

It's just allocated slightly differently.

The last piece I'll mention on the capital commitment is that there's provision to restructure the capital commitment if there is a regulatory action that is discriminatory against for-profit hospitals, and the purchase agreement calls for that restructuring to occur in cooperation with the local Board.

We've had some conversation on this in the past, and, so, we're open to -- it's not our intention to ever eliminate the capital commitment dollars, and we're certainly also open to some limitations on the time period that we could defer any capital commitment expenditure in the unlikely event that that would occur.

MR. ZINN ROWTHORN: Thank you. And I should probably note, for the benefit of the folks, who weren't in our previous hearings, that we did have some discussion about that potential limitation on the capital commitment, and, in light of future regulatory or legislative acts, which would be perceived to be discriminatory at a for-profit hospital system, we've expressed some concerns about that, as you know, and, in particular, the concern that we are evaluating a deal, as structured now, its fairness and not with respect to potential unknowable future legislative action, so I'm

glad to hear that you are thinking, in terms of some flexibility in that regard, and are sensitive to the concerns that we've raised about it.

MR. SPEES: Just, also, in addition to kind of the financial terms of the transaction, I wanted to talk about other aspects of our commitment and community benefits that will result from our commitments that we're making in connection with our purchase agreement.

Prospect has committed to continue the current charity care policies of Greater Waterbury Health Network, and we've also made a significant commitment to maintain the clinical services. There's a very long list of what's been defined as essential services in the purchase agreement that Prospect has committed to maintain.

As part of the transaction, we'll retain local management, and we'll create a local Advisory Board. I'll talk a little bit more about the local Advisory Board in a minute.

And we've also made our commitment to hire all of the employees of GWHN, who are in good standing, and I'll answer the question what does good standing mean?

From Prospect's standpoint, we'll conduct a single screen on the employees as a pre-employment screen, and that relates to being -- not being on the exclusion list for participation in federal health care programs.

And we've also, in response to concerns about the quality issues in California, we've entered into a quality assurance letter, in which we commit to maintain and continue to work with the local Advisory Board with respect to Waterbury's quality programs, and we are very confident that that letter, which will govern in connection with the significant corporate resources and the program that Debbie spoke about, will give great comfort to people here in the community about maintaining and not just maintaining, but enhancing Waterbury's quality programs.

I'll talk a little bit about the Advisory Board. The Advisory Board is really a key part of Prospect's model. We very much believe that health care is delivered locally, and the Advisory Board is one of the key intersection points that we have with the community to consult with and to get information and feedback from community members, in terms of issues of importance to them, in terms of strategic plans for the

health network, input into our capital plans, and essentially being our partner in developing the health network into what it can become.

They're also involved in medical staff credentialing and will be delegated responsibility for the medical staff credentialing, and they'll oversee and manage the accreditation process in concert, in cooperation with our corporate, our oversight plans.

As we talked about, they will be principally responsible for administering this quality assurance letter.

It's very key to us to have a close relationship with our local Board, in terms of how we conduct business going forward.

Our initial thoughts about the local Board is that it will be 11 members. Five will be from the current GWHN Board, and that will be nominated by their Governance Committee.

Prospect also believes very strongly in having physician input at the Board level, and, so, we want to have five physicians on the initial Board, as well as commitments made in the purchase agreement that the hospital's CEO will be part of the Board and, also, the chief of the medical staff, and recognizing the

importance of the quality of the senior quality executive will also be on the local Board.

And it would be our plan to have staggered three-year terms for Board members, so that it would continue to evolve and reflect the current views of the community.

Selection criteria, obviously, we want our Board to represent the community, in terms of diversity, and to be qualified and possess backgrounds and experience that would be consistent with Board roles and responsibilities, and we want Board members, who are committed to GWHN's mission and to helping Prospect achieve that mission going forward.

MR. REARDON: Hi. I'm Tom Reardon, President of Prospect East. My first slide, you know, it's easy -- talk is cheap, and, so, we wanted to demonstrate what we do, rather than just what we say.

I should point out that Lester Schindel, the CEO of CharterCARE, is here today, and I think he'll comment in the public comment section, and with him is Kim Lumia, who many of you know, who had been the CEO at Sharon Hospital, working with Les at CharterCARE now, and will be working in New England with Prospect.

So, with respect to CharterCARE in Rhode

Island, the two hospitals in Rhode Island, both Roger Williams Medical Center and Our Lady of Fatima Hospital, frankly were in a lot of trouble when we came in.

I must say that we're not all the way there, but we've turned them to a positive EBITDA. We formed a multi-specialty IPA that actually Mitchell has about 500 physicians at this point. I think it's about 120, 121 primary care docs.

We have gone out and employed 50 physicians, not because that's our model. In fact, it is not. We actually prefer physicians to remain independent, but if they want to be employed, we'll do it, so we've hired 50-plus physicians to add to the network at CharterCARE.

We've expanded outpatient clinics beyond the service area. We've invested in not one, but two outpatient oncology centers. As earlier noted, we've achieved academic certification of the Cancer Center. We provided significant strategic capital.

Again, when we talk about capital, we're talking about the whole network. We're not just talking about facilities. We don't have an edifice complex.

Nevertheless, with respect to facilities, as someone mentioned earlier today, we're already into

doubling the size of the ER at Roger Williams Medical Center, expanding services at Our Lady of Fatima, expanding the GI clinic, and a whole host of other things, including you can't walk into either hospital right now, because the facades are being completely redone, and they're being made appropriate, in terms of Americans with Disabilities Act and the like, so there's significant capital being invested.

We are implementing the first Medicaid pilot project in the state, which we're very proud of. We came to the Governor and suggested it, and we are going to suggest the same here in Connecticut and have already started that process.

We have the first Blue Cross Blue Shield risk contract with delegated functions in the history of Rhode Island, and, so, Les will talk a little bit about the number of lives we have and what we're going to do to expand, but we're off to a significant start to really transform the way health care is delivered in Rhode Island. We're pretty proud of our accomplishments in the year and a half, almost two years we've been there.

In the quality program, which was mentioned earlier, I know at the ECHN hearing and I think, again, today, with respect to the quality program,

one of the things that ECHN folks asked is, okay, when Prospect came aboard, did you diminish the quality programs, and what they were told was to the contrary. Two additional positions were added, so, again, we're backing the quality programs at CharterCARE. Both the ECHN and the Waterbury people were very impressed, and there's a lot of cross-fertilization capabilities, a lot of cross-huddles that will go on, in terms of higher reliability.

In fact, the Connecticut hospitals are further along than CharterCARE is, but we're embracing the whole high reliability model.

So why Prospect? If you could move to the next slide? Oh, you've got it there already. We really do believe that we provide better community health.

Mitchell got into this a little bit, but we are not a hospital-centered company. We actually are focused on taking care of the whole patient and getting sure that that -- making sure that that patient gets the best care, at the best cost, at the best setting.

We will follow the patient into the home. We're knitting together both physical health and mental health, which is something nobody really has achieved, and it's something that needs to be done.

We are empowering local physicians. The reason we have 500 physicians now at CharterCARE is that I'd say 30 percent of them came from beyond our initial service area, had no relationship to CharterCARE, but because they are now empowered under risk contracts, they're the ones that determine where patients go and how people will be paid. They come to the system, because they love it. The patients love it.

In terms of maintaining or creating jobs, we're a growth company, and, when you get right down to it, Waterbury Hospital is the largest employer in the City of Waterbury. There's 1,800 good jobs here. We need to get this deal done, and we need to preserve those jobs and grow the system.

For too long, St. Mary's and Waterbury have been focused on each other. We need to look outward. We need to expand services.

In terms of providing resources, I've often said we bring three things to the table. We bring capital. There's no question about that. We bring data-driven management tools, and we bring population management capabilities, and we're already seeing some of that benefit at Waterbury, and we'll see a lot more of it as we go forward.

Maintaining local leadership, Jon said it correctly. We believe all health care has to be local. It can't be delivered from LA. It can't be delivered where I live up in the Boston area from there. It has to be local, so we support the local management team and the local Board.

I've already mentioned investing significant capital, not just in facilities, but service technologies across the network.

We preserve charity care policies. In fact, many of our hospitals are safety net hospitals. We embrace vulnerable populations. We see that as part of our mission, and we think we do a heck of a good job with risk contracts.

A lot of systems, both non-profit and for-profit, have fled the inner city. Not us. To the contrary. Our most recent acquisition in East Orange is urban, urban, urban, safety in that hospital, so we embrace that capability.

Partnership advantages. Again, as Mitchell has talked about, right now, what you have is a fragmented system, and there's an expression about more heads than beds. The more you do, the more you get paid.

What we're trying to do is put together an

entire network of delivery of care, and it may include surgery centers. It may include a whole host of things, community mental health systems, and, so, what we're trying to do is integrate the entire thing, led by physicians. That's not to say that Waterbury Hospital is not going to be part of it. It will be.

And, in some ways, it seems counter-intuitive, because we talk about trying to keep patients out of the hospital, but what we find, and I've made this comment before, the CEO of our company, Sam Lee, always says more and better for less.

If you can do a better job and you can do it for less money, we're going to have more volume, and that's what we've seen time and time again, and, so, that's what we do.

We really do believe it's better care and health of the patients, so the patients love it. If you can treat a patient at home and take care of all their needs, it really does provide better care.

We've mentioned an increased access to capital and financial strength, and we do think that this is a sustainable delivery model that will preserve Waterbury Hospital and physician practices and quality health care in this community.

I have to give Carl and Darlene unbelievable kudos. With scotch tape and band aids, they have continued to provide the highest quality of care, I mean big time, and that's recognized by national organizations. It's really very impressive. We want to maintain that.

So why Prospect? To the next one, Jon? We're committed to Connecticut. Why do we like Connecticut? As I kidded at the ECHN hearing, it's easy for me to drive down from Boston, but that's not why Prospect wants to be here.

We like New England, because there's a couple of things in New England that we think are perfect for our model.

First of all, there's very little managed care penetration, in terms of real risk contracting. It starts slowly, but you move the ball, and when we really get to risk contracting, that makes all the difference, because once you have 88 cents on the dollar and you can invest it for preventative care, right now, under fee-for-service, you have no money to do that, but, under this model, you can do preventative care, it really is significant, and, so, there's tremendous amount of opportunity in Connecticut, as well as New England.

MR. ZINN ROWTHORN: Mr. Reardon, I apologize for interrupting, but just for purposes of clarity and for the benefit of the public here, there's a theme that has developed in your comments about population management and risk contracts, as opposed to fee-for-service.

It would be helpful if you could give a very broad overview of what that decision is that you're making.

MR. REARDON: Well Dr. Lew can probably do that better than me, but let me start. In terms of population management, what everybody is talking about right now is getting away from fee-for-service.

Right now, the more you do, you more you get paid, and I gave an example at ECHN, and it's a silly example, but it illustrates the point.

You go to your primary care physician, and that primary care physician may be the most dedicated person in the world, and they'll order some tests, and then you go to a specialist, and that specialist may be the most dedicated person in the world and cost-efficent and all the rest, and he or she will order tests, and then you go to the hospital and you'll get tests, and then you'll go to the nursing home and you'll get tests,

and what we try to do is integrate all this.

In the old days, when we had capitated payments, it was about denial of care. What we're about is give us the 88 cents on the dollar, and we'll coordinate the care across the entire health care spectrum, and we'll take care of our patient population that are assigned to us, so that's what I'm talking about when I talk about population management.

Mitchell, do you want to add to that?

DR. LEW: Sure. So what Tom described is a more traditional fragmented type of care, and, with our model, it's much more coordinated, so, with these networks that I spoke of, the primary care and specialists are all part of a network that are talking to each other through IT and using the same data to access, so there's not a lot of duplication of services.

And, then, through some of these teams that I talked about, the teams that go to the patients' homes and the teams that call the patients, we make sure that there's a proper handoff from the primary care to the specialist or when a patient goes into the hospital to the hospital's team and the physicians that see the patient in the hospital, and then the patient will get handed over when the patient is transitioned, either to a

lower level of care or back home, and, so, there's a lot more coordination, there's integration of all of the providers, there's less duplication, and with our different payment structure, we do this under a budget, so that we're watching the dollars that are being spent, and, so, we can save money out of the health care system.

And, so, these are the types of models that we took, as Tom alluded to, in Rhode Island when we went to the Governor and we said, Governor, we have a model of care that can provide the outcomes and the quality with a savings on your budget, and that's why she was very excited about approving a Medicaid pilot project in the state of Rhode Island, and we would love to do something very similar here, is to develop our model with the physicians here in Waterbury, and then go to the state of Connecticut and talk about some of our successes that we've had in Rhode Island and how we can provide a better quality of care with savings.

MR. REARDON: Let me just add a couple of quick points, if I can.

DR. LEW: Go ahead. Sure.

MR. REARDON: Right now, if you look at what we call metrics, for every 1,000 Medicare patients, you can expect them to spend collectively X number of

days in the hospital. In Connecticut, my recollection is it's about 1,400 days in the hospital. With many of the Prospect hospitals, it's 700 and some days, so think of the cost savings just there, and yet they're getting better care at home. They're not risking infection or any of the rest of the things.

The state of Connecticut has adopted a State Innovation Model that is suggesting that patients being moved from fee-for-service to population management or to value-based payment, 80 percent of patients within just a couple of years, how are they going to do that, because nobody knows how to do it?

I don't mean to be derogatory in that regard. It takes time to learn how to do this. You don't learn it overnight. We've been doing it for 29 years, and, in fact, CMS, we've talked a lot about CMS, is they've tried to get hospitals and other systems ready for population management.

They've come out with something, called an Accountable Care Organization. The first ones were not a big deal. It was about shared savings, however, they've now come out with something called a Next Generation ACO, where they really will do downside, as well as upside risk, and only 21 organizations in the United States have

been qualified to do this. Prospect is one of these organizations. We believe we can be transformative in the way health care is delivered in Connecticut.

And, so, on the last slide, just to wrap up, we talk about higher quality, higher patient satisfaction, highest value. It really is the triple aim. I'm a true believer. I do believe this model can actually help us get there, and we're excited to be here partnering with Waterbury Hospital.

That concludes our direct testimony.

HEARING OFFICER HANSTED: Before we get to the public comment section, we're just going to take a five-minute break.

(Off the record)

HEARING OFFICER HANSTED: Please take a seat. We want to get going again. Okay, looks like everyone is almost back. We're back on the record.

Just one housekeeping matter. Attorney Connors, did you have any objection to the Table of Record?

MS. KRISTIN CONNORS: No. Kristin Connors and Ann Zucker from Carmody Torrance Sandak & Hennessey on behalf of Greater Waterbury Health Network, and we do not have any objection to new Exhibit S. I'd just like

to note that there's over 110 letters of support. It looks like it's one exhibit.

HEARING OFFICER HANSTED: Okay, thank you, Attorney Connors. And now we're ready to move to the public comment section of this afternoon's hearing.

(Whereupon, the public spoke.)

HEARING OFFICER HANSTED: Okay. At this point, OHCA has some questions. Ms. Cotto, if you want to begin? Kim? Go ahead.

MS. MARTONE: Hi. Kim Martone, OHCA staff. We're going to do this a little bit differently today, as opposed to going through and asking you questions, at least from my part.

What I'd like to do is kind of summarize, particularly for Prospect, things that we've discussed in prior hearings, things that we've, you know, had agreement on, things that have been thoroughly discussed, so we're not going to go through it again today.

What I'm going to ask Prospect to do is just confirm agreement, or if you have a question, we can discuss it again, but these are things that we discussed at the ECHN/Prospect hearing, and it's really for them, just to go over it. It's for the community and the public to know what's been discussed, and things that

have been agreed upon, and our assumption would be the same thing, would be agreed upon for the purchase of Waterbury Hospital, if approved.

Okay, so, the first item that we discussed was the community health needs assessment. We had discussions regarding if Prospect has done -- conducted in other states, if it was the same as the federal government requires for not-for-profit hospitals, and I would just like the Applicant to confirm that they will participate and they would conduct with the community.

We heard testimony today, or a couple of the comments from the community action agency from Easter Seals, other health organizations in the community, so would you confirm that you would work with these community stakeholders, with representatives from the medically-underserved populations in conducting the community health needs assessment or study for the Waterbury area?

MR. CROCKETT: Yes. We've discussed this in detail with Waterbury, and our understanding is they are currently participating in the Greater Waterbury Health Improvement Partnership, and Prospect has agreed, in conjunction with Waterbury, to go forward, and we'll do the commitment for a five-year period at the same

participation level that they're currently participating in.

MS. MARTONE: Can I ask why only for a five-year period?

MR. CROCKETT: It was simply matching it up with our other commitments within the asset purchase agreement.

MS. MARTONE: Okay, well, we also have questions about why there's a five-year commitment on others, but we'll just leave it at that at this point.

Something new, based on public comment that was given today and because we are the Department of Public Health, the importance of aligning these community health needs assessments with Healthy People 2020, as well as the Department's health improvement plan.

I would assume that you would confirm that, as well. When you're looking at a community health needs assessment, you would be looking at state and federal health plans, as well.

MS. VOLPE: Can you give them some additional information on what you just stated, because I don't believe that has been ever discussed.

MS. MARTONE: No. That's why I'm bringing it up now. So in terms of a community health needs

assessment, you know, the federal government doesn't really have standards or guidelines by which have to be followed, so, at the state level, we're looking at having these community health needs assessments really align with Healthy People 2020.

MS. VOLPE: Which is what? Healthy People 2020?

MS. MARTONE: Healthy People 2020, Healthy Connecticut, they're statewide and national plans that look at chronic disease and obesity and, you know, areas of significant concern for populations, so we would want to align with those goals, and we also have a Department State Health Improvement Plan, which aligns with Healthy People 2020, as well, which goes to the public comment, as well, that was given today.

MR. SPEES: Wouldn't that be something that would be decided by that larger group, of which we're only part?

MS. MARTONE: The larger group? I'm sorry?

MR. SPEES: The Greater Waterbury Health Improvement Group?

MS. MARTONE: Yes. Our hope would be that Prospect will be part of that participation, part of that

community needs assessment, but with you as the purchaser, we want to confirm that that will be done.

MR. CROCKETT: We'll confirm our participation in the process if that's accurate.

MS. MARTONE: Thank you. The second area that was discussed and public comment was given and the importance of having an independent monitor, so we had talked about Prospect retaining the independent monitor for a certain length of time, possibly three years.

That monitor would report to OHCA. They would really look at the compliance of any conditions that came from an approval of this proposal.

MR. REARDON: We are open to that, as we said at the previous hearing. What we want to make sure, I mean, we can be talking about hundreds of thousands of dollars of expenditures.

We wouldn't want to see an independent monitor for OHCA, an independent monitor for the licensure division, an independent monitor for the OAG, etcetera, etcetera.

MS. MARTONE: Understood.

MR. REARDON: Okay.

MS. MARTONE: The next area was a three-year service plan. There is a statute that does require

other proposals to provide a three-year service plan to OHCA, so we want to confirm that service plan, that you could confirm that a service plan would be submitted to OHCA, in terms of any consolidation, reduction, termination of service, expansion of services, going along with the timeline with the community health needs assessment.

MS. VOLPE: So, in terms of that, obviously, there's a fair amount of statutory and regulatory oversight when you want to terminate a service, add a service, so, of course, (coughing).

Are you suggesting something beyond what statutory (indiscernible - too far from microphone).

MS. MARTONE: Yes, a service plan, a three-year service plan to meet the Waterbury community's needs.

MS. VOLPE: So, as Mr. Crockett explained, so if we're working with the Greater Waterbury Health Network partnership and a community health needs assessment is done, is determined, based on that community and what's needed, are you suggesting that this would be something different and separate from that?

MS. MARTONE: Yes.

MS. VOLPE: Okay and I think we need to

have a better understanding of what's involved with that before we can respond to that.

MS. MARTONE: Well it's not really what's involved. It's just confirmation that there would not be an issue with submitting a service plan to OHCA, in terms of any, like I said, any change in services that is being contemplated.

HEARING OFFICER HANSTED: Right, so, without getting into specifics, is there any objection to, at some point, submitting a written three-year plan of how PMH and Waterbury Hospital will proceed with respect to the services offered to the community?

MS. STROMSTAD: I would just like to ask this question or state what to me is sort of obvious. We wouldn't want to make public strategic plans that put us on -- that kind of play our competitive hand.

HEARING OFFICER HANSTED: Right. We're not asking for anything confidential or strategic.

MS. VOLPE: So this is something that -- is it a reporting obligation you receive from other hospitals?

MS. MARTONE: Not at this time. We haven't received one yet. Let's put it that way.

MS. VOLPE: So this would be a new

requirement imposed on a hospital in Connecticut?

MS. MARTONE: On hospital acquisitions and conversions, correct.

MS. VOLPE: So is there a sample of it?

MS. MARTONE: No, we don't have a sample of it. It's really up to -- it's your plan. It's whatever is developed.

MS. VOLPE: Right, but, as Darlene said, to the extent that it does contain -- I mean, fortunately, it's a two-hospital town, you know, but we wouldn't want to be disadvantaged from, you know, our co-city hospital, to the extent that we're divulging a three-year plan to you that we feel is important to implement, so I think you need to appreciate that, and we need to absorb what you're saying, because it isn't something that's already, you know, active here in Connecticut.

HEARING OFFICER HANSTED: We'll leave this open for further discussion.

MS. VOLPE: Thank you.

MS. MARTONE: Also, discussion over the capital investment plan and a timeline for capital projects. Public comment was given today about renovating the emergency department, about new

technology, so, if not available at this time, we would be looking for you to submit some type of capital investment plan.

MR. SPEES: Yeah. We fully intend to honor the commitment that we're making with respect to the capital commitment, and we're happy to provide, you know, details of the capital investment plan, as it's developed.

The important part of that is that we'll have to be flexible, because, as has been discussed many times today, that things are changing pretty rapidly, and, so, I don't think it would be in anyone's interest to fully commit in a binding way the entirety of the capital commitment, because that would eliminate any opportunity to respond to change in circumstances, so we're happy to share with you sort of in general terms where we expect the capital to be deployed.

MS. STROMSTAD: I just wanted to say I think we did submit a list, a simple list of some life safety issues and other major global service priorities.

MS. MARTONE: Yes. We also discussed maintaining current policies, charity care policies for the indigent population, community volunteer, community benefit policies, so we're looking for confirmation that

that would be held, as well, for this proposal.

MR. CROCKETT: Could you repeat the question, please?

MS. MARTONE: Maintaining current policies, such as charity care policies that are offered by Waterbury for the indigent population, community benefit activities that are currently being offered, community volunteer activities that are currently being offered, so we're looking for maintaining those or enhancing them.

MR. CROCKETT: Three parts, in terms of the charity care, the second part the community benefit, and the third is the volunteer.

As are stated in our APA, that we will maintain the charity care policies, and, so, yes, the confirmation associated with that.

The second part was the community benefit program. As was testified today, part of the community benefit that currently Waterbury is given is grant related, and the Ryan White was an example of that, and some of those funds, in some of those instances, the funds can be transferred to a for-profit and, in other instances, they're not able to.

Waterbury is in the process of

transferring those that are not able to be transferred to a for-profit to other organizations, and we're supportive of that, as well. For those areas that Waterbury can continue to receive the grant funds for, then Prospect will continue those community benefits associated with that.

MS. MARTONE: That's fine, and then we would just ask for a list of the community benefit activities that would be continued, if you receive the grants for that money.

MR. CROCKETT: Correct. As it relates to the volunteer, Jon, you can correct me if I'm wrong, but I believe that we're going to continue in the same fashion.

MR. SPEES: Well, actually, we would love to be able to continue the volunteer program, but we actually believe that it may be challenging to receive the services of volunteers as a for-profit entity, so we've been looking at ways that we may be able to continue the volunteer services, but we may actually be precluded by the employment law from doing so.

MS. MARTONE: That's understood. Precluded from that. But, also, the concern is the five-year limit and why you would only maintain the policies

for five years, unless you were going to increase the policies after five years.

MR. CROCKETT: Once again, it was to match up to the APAs related to the commitment of services and to be consistent throughout.

MS. MARTONE: Okay. Also, we had discussions and there's public comment regarding having a community ombudsman on board to truly represent the community, especially on the local Board, so is there a concern that Prospect has with having a community ombudsman on the local Board representing the community?

And it sounded like from public comment today they would really like a more diverse Board and really representing the people in the community.

MS. VOLPE: Can I just ask for a point of clarification? So the community ombudsman, if they were on the Board, serving as a Director on the local Board, what different or additional role would they have as an ombudsman?

MS. MARTONE: I don't think it would be a different role. It would just be someone, who was truly picked from the community, not by the hospital, not by members of the hospital. Maybe a First Selectman would decide a community member to be on the Board.

MS. VOLPE: So I think we're open to it, but, again, who would be selecting that person? We talked a lot about the composition of the local Board, so that's what I'm saying. Are you asking for a community Board person?

MS. MARTONE: Yes.

MS. VOLPE: And, so, their role would just be to serve as a Board selected from what in the community? What's the --

MS. MARTONE: Correct. Like I said, it could be by the First Selectman. It's someone, who is representing the community truly and representing their needs and bringing that to the Board and bringing that back to the community.

MS. STROMSTAD: Could I just comment on this? I think that the present Board of Directors of the Greater Waterbury Health Network would all say they represent the community.

First of all, you want to have, you know, a good cross-section of Board members, which I believe we do. These people have volunteered for years. They give up their time and are very concerned about the delivery of health care, so I think they are truly representatives of the community.

The other thing that I think is really important to recognize is that your Board needs to come as great advisors, so we give a lot of thought to the makeup of our Board. Not all of them are the same. They are different. They come in with different perspectives, different skills, and having that healthy balance for your Board is really important.

I'm a little concerned about, you know, a wider body just kind of like saying take this person, when it really needs to fit into the overall Board and skill set that we need. It could work.

MS. MARTONE: Okay. That's fine. Okay and the last area that has been discussed at other hearings is having an annual public forum, and that would be held yearly, and Prospect would attend, and it would give the public an opportunity to voice any concerns and issues, as well as give Prospect an opportunity to share with the community their activities, and Prospect did confirm that at a previous hearing.

MR. CROCKETT: That's confirmed, yes.

MS. MARTONE: Okay.

MR. REARDON: I'd just like to make one correction. Mr. Rawlings kind of made a comment that we didn't want to talk to the community, and I think that's,

in all due respect, a total mischaracterization.

We've met a couple of times, as Steve Shrag and Reverend Thompson said, with Naugatuck Valley and with the community, and we're glad to keep meeting with them. We're glad to have input from them and meet with the NAACP.

We have many of the same goals. In fact, as you go down the list, they're almost all the same. Our concern had been signing specific agreements with a multiple set of groups, beyond having an agreement with ALCO(phonetic) which could be enforced, and conditions from the State and working with our Adviser Board.

MS. MARTONE: We understand that. Thank you. Okay. Steve?

MR. LAZARUS: All right. Steve Lazarus. I just have a couple of questions. Can you confirm that in the draft APA it was stated that the Applicants will follow the same general community benefit standards, and those would include -- they would participate in the Medicare and Medicaid program and accept all Medicare and Medicaid patients, accept all emergency patients, without regard of ability to pay, maintain an open medical staff, and provide public health programs and education benefits to the community and generally promote public health

wellness and welfare to the community?

MR. REARDON: That's confirmed.

MR. LAZARUS: Okay, thank you. And really my last question is can you confirm that PMH would spend one percent more than the amount of what Waterbury Hospital spent in fiscal year 2014 for the first three years of post-closing in both the financial assistance and certain other community benefits at the cost and the community building activities?

MR. SPEES: Yeah, that's not part of the APA, and we've had this conversation. I just want to clarify, because we're talking about terms that are very similar sounding.

There's community building, there's community benefit, and they're significantly different, so if you're referring to the community building activities, that answer would be yes.

MR. LAZARUS: What about the financial assistance and, also, certain other community benefits?

MR. SPEES: Well didn't we talk about the community benefits, that we would provide a list that you asked for of those programs that would continue?

MR. LAZARUS: So the one percent that you have referred to, that was only for the community

building activities, in reference to that?

MR. SPEES: Correct.

MR. LAZARUS: Okay, nothing else?

MR. SPEES: Well we've committed to maintain the charity care policies, and, so, as part and parcel of that would be community -- a significant amount of community benefit there. We've committed to maintain the clinical services, which are significant, and we've talked about providing a list of the other types of community benefit services that we expect to continue, so I'm not sure what we're missing in that group.

MS. MARTONE: I think we're just trying to distinguish between the two, as well.

MR. SPEES: Yeah.

MS. MARTONE: And it's important to the Department that community benefits are made a priority in this proposal. We realize the fact that you might not be able to provide some of them, because there might be a grant issue, but it is very important that the community benefit activity that has taken place over the years that Waterbury has done we would like to have that maintained, if not, improved, but maybe you'll be improving it in other areas, because of the grants that you receive, so that's something we would need to look at.

MR. LAZARUS: So just confirming, this is for a three-year period, not a five-year period?

MR. SPEES: Correct.

MR. LAZARUS: In this instance.

MR. SPEES: Correct. Still, though, I'm not clear on exactly what commitment you're looking for, because of the nature of the language around what constitutes a community benefit and what constitutes community building, and I'm concerned that it's overly broad.

MR. LAZARUS: So it's something that we'll have to clarify as we move forward?

MR. SPEES: Yeah.

MR. LAZARUS: All right, thank you. I'm going to turn it over to Carmen for some financial questions.

MS. CARMEN COTTO: Carmen Cotto, and I'm going to direct my questions mainly to Mr. Aleman and Mr. Spees.

My first question is related to we had asked you to provide us some information related to some issues prior to this hearing, and I'm just going to ask you a question related to your responses on those issues that we received last week.

The first one is related to issue number two. That's on page one and three of your responses from last week on April 27th. It's with respect to the pending purchase of Crozer-Keystone Health System in Pennsylvania. We just wanted to ask you does PMH anticipate to close that transaction, ECHN transaction and Waterbury transactions, approximately at the same time? When would you intend to close those transactions?

MR. ALEMAN: I would anticipate those would all be closed certainly within the next 120 days. Crozer-Keystone in Pennsylvania is going through the regulatory review process, as well. They're all on -- I think you're certainly aware of the timelines between Waterbury and ECHN. Crozer-Keystone we anticipate closing early summer.

MS. COTTO: Early summer. And, then, for ECHN? Do you have an estimate of the closing days?

MS. VOLPE: So we're expected to receive final approval on or about June 10th, but we still have to get licensed, all in the facility have to get licensed, so that isn't within your control or ours necessarily, so some of the closing date is going to be dictated by how quickly we can get the licensure applications complete and reviewed and gone through at a

separate division of your department, so, in terms of a definitive close date, I think everybody wants it as soon as possible. Prospect does, Waterbury does, ECHN does, but I think, in reality, some of it is going to be dictated by the regulatory process, so I think we can certainly say, upon regulatory approval, all regulatory approvals, AG, OHCA, licensure, you know, we can commit to some time period thereafter.

HEARING OFFICER HANSTED: It's fair to say, just for these discussion purposes, that Pennsylvania will close a good amount sooner than Connecticut, if approved.

MR. ALEMAN: I've come to learn you never know.

HEARING OFFICER HANSTED: Right. I won't hold you to it.

MR. ALEMAN: Right now, it's currently anticipated to do so, and let me just kind of take it to the next step. When all transactions from a regulatory standpoint were able to close, we have the financial wherewithal to close on all three, so there's no concerns on that behalf from our standpoint.

MR. SPEES: But just to make sure, there's more than just regulatory to closing a transaction, so we

also have lots of contracts to get assignments on, and we have get payer contracts, and we have to get landlords to consent to assign leases, so it's a very significant amount of work, and we are holding weekly meetings, and, as Michelle said, we're trying to move as quickly as we can to be in a position to close, and they are all sort of lining up to be approximately the same closing schedule, but it would be hard to predict the exact date.

HEARING OFFICER HANSTED: Let me boil this down really to a pinpoint here. If all of these transactions were to close on the same day, would there be a financial constraint for PMH?

MR. ALEMAN: The answer is no.

HEARING OFFICER HANSTED: Thank you.

MR. SPEES: It would be a challenge.

MR. ALEMAN: A logistical challenge, not a financial challenge.

DR. LEW: But a no.

MR. SPEES: I can actually predict that that will not occur.

HEARING OFFICER HANSTED: I'm sure I could, also.

MS. COTTO: Okay. With that said, then could you provide us with a report that states how these

transactions will be financed, a specific report that states how it will be financed, and shows that you really don't have a problem financing these closings?

MR. ALEMAN: Sure.

MS. VOLPE: So would that be Late File No. 1?

HEARING OFFICER HANSTED: That will be Late File No. 1.

MS. COTTO: Okay. Let me see. I have another question on issue number five, page six and 38. The responses indicated that -- let me give you the exact statement. It indicates that there are several grants that will continue to flow directly to post-closing Waterbury Hospital.

Our request is could you provide us a list of those grants that will flow directly to Waterbury Hospital post-closing?

MR. ALEMAN: Yes.

MS. COTTO: Okay.

HEARING OFFICER HANSTED: That will be Late File No. 2.

MS. VOLPE: So just for point of clarification, the list of grants that would flow to Waterbury Hospital post-closing or pre?

MS. COTTO: Post-closing.

MS. VOLPE: Post-closing?

MS. COTTO: Yeah. I just have things to clarify, in terms of the numbers. To the letter of intent that you submitted in April in 2015, the purchase price shows $45 million. Through the APA, the draft that we have on file, indicates 31.8 for the purchase price, and, today, you're back to the 45 million. I just want to confirm is it 45 million, the purchase price?

MR. SPEES: Yeah. The difference there is the working capital, so it's 31.5, plus the value of the working capital at closing, and that fluctuates from month-to-month, but, based on the most recent month, it actually pencils to slightly more than $45 million, so that's the difference in those two data points.

MS. COTTO: Correct, because the APA indicates, though, that it's 31.8, plus the net working capital.

MR. SPEES: Correct.

MS. COTTO: And, as of September 31st, it was at 4.6, so I'm just trying to get to the -- so what you're saying is, between the time that you finalized, gave us, produced a draft of the APA in October and as of today, then the net working capital has changed that much

and increased from 4.6 to the difference between the 31.8 and 45 million? Is that what you're saying? I'm just trying to clarify the difference here.

MR. SPEES: Sorry. I'm not following the dates and data points. So the working capital changes on a monthly basis, and it could swing, you know, millions of dollars between one month and the next month.

MS. COTTO: Okay.

MR. SPEES: And the purchase price is dollar-for-dollar, based on what that value is.

MS. COTTO: So it fluctuates that fast?

MR. SPEES: It does fluctuate a fair amount.

MS. COTTO: Okay, so, it is 45 million. And the capital commitment is still seven years, because I heard five years in other --

MR. SPEES: This transaction is seven years.

MS. COTTO: Seven years for the capital commitment?

MR. SPEES: That's correct.

MS. COTTO: Could you provide us with an update on the joint venture's interest? Have the transfers finalized?

MS. STROMSTAD: Yes, we'll do that. We'll confirm that we have all the consents from our joint ventures. Is that what you're asking?

MS. COTTO: Yes. I'm just wondering if they're already done, as of today, or are you still waiting?

MS. STROMSTAD: No. We still have some Board meetings that are going on.

MS. COTTO: You are?

MS. STROMSTAD: Yes.

MS. COTTO: Okay, thank you. And then, for PMH, what's your credit rating, as of right now?

MR. ALEMAN: It hasn't changed.

MS. COTTO: It hasn't changed since last year?

MR. ALEMAN: That's correct.

MS. COTTO: 2015?

MR. ALEMAN: That's correct.

MS. COTTO: So it's still B?

MR. ALEMAN: B.

MS. COTTO: B-1 plus?

MR. ALEMAN: Yes.

MS. COTTO: Okay and could you provide us with an updated version of the net proceeds and flow of

funds calculation that you have provided to us on page 1419? That one is only until September 30th.

We need you to provide us with a revised version, the same way that you did for ECHN, because we received a revised version, with two columns that indicates 9/30/15 numbers, and then the most recent numbers for March.

MR. ALEMAN: Yeah, we can do that.

HEARING OFFICER HANSTED: That would be Late File No. 3.

MS. VOLPE: So you want an update to Bates stamped Exhibit 1419?

HEARING OFFICER HANSTED: Correct.

MS. COTTO: Right. Yeah. Just update that one, and include two columns. Still keep the 9/30, and then also add as of March 1st, like you did for ECHN. Same request.

MR. ALEMAN: That's fine.

MS. COTTO: And that's it. That's it for me. No more questions. My apologies. I'm sorry. My apologies. I do have another document here, but it's not this long. It's just two questions. I'm sorry.

In the testimony on page 1628, 29, you talk about, and you talked about it through the

presentation, about the amendments to the APA and the LOI to favor Waterbury, to help Waterbury to this proposal.

Could you tell us when could you file that to us, a copy of that? Because you indicated that would be filed to OHCA.

MR. SPEES: Yeah, so, we just received a draft of the amendments last Friday and haven't had much chance to focus on it, but I would say within a couple of weeks we should be able to finalize that, if that's acceptable?

MS. COTTO: Okay.

HEARING OFFICER HANSTED: That will be Late File No. 4.

MS. VOLPE: And there's just a question about clarification. You're looking for any changes that may occur to the APA or the LOI?

MS. COTTO: Correct.

MS. VOLPE: The amendment to the LOI and any change to the proposed draft?

MS. COTTO: Correct.

HEARING OFFICER HANSTED: Correct.

MR. SPEES: Yeah, and I think, technically, we have to amend the LOI to attach the new APA.

MS. VOLPE: Very good.

MS. COTTO: I'm done. I'm all set. Thank you very much.

HEARING OFFICER HANSTED: We're all set.

MR. ZINN ROWTHORN: Okay. We're going to try very hard to not duplicate what's been asked already, either here or in other hearings. Attorney Salton, do you have some questions?

MR. HENRY SALTON: Yeah, I do. I have a couple of questions regarding the capital commitment, the reinvesting in the community.

The time frame for completing the capital commitment investment in the community for ECHN is five years. The Waterbury application indicates seven years. Can you explain why there's a difference in the two commitment periods?

MS. STROMSTAD: I can explain that. Our transaction with whoever was first was seven years, and, when we started our discussions with Prospect, we just adopted the same thing, and the reason it was seven years is that we felt that we didn't want to be pushed to spend money before we were ready to implement it.

There's nothing that you can do wrong. I've been in this industry for a long time. To implement

something that you throw a great deal of investment in and then don't have the time and the intention to make it work for you, so we were very comfortable with the first transaction of taking that bullis of money and spending it over seven years.

MR. SALTON: Okay. There were some comments earlier today about the condition where there's an adverse -- legal requirements adopted that's prejudicial for profits, and, in the application, unlike ECHN, which provides for a deferral of the investment, your agreement in the application indicates that you can base they're relieved of your commitment, and then there's a process for coming to some mutual agreement, and I just want to get clarity on what your position is on that provision now.

You're going to just look at what we're going to suggest, or are you standing by that, because there's a significant difference between those two positions?

MR. SPEES: Yeah, so, just to clarify, recognize that the language in the Waterbury purchase agreement is more broad, in terms of being able to be relieved of the capital commitment, and, as I testified earlier, we're willing to not have any relief from the

capital commitment, so that it would be a firm dollar commitment.

In addition, in neither agreement is there a specified time over which the capital commitment could be deferred in that circumstance, and we're open to limitations on the time commitment that that capital commitment could be deferred.

MR. SALTON: Okay. Moving to the quality improvement program, because I don't want someone, who is new to the entity, not have a chance to speak.

I'm actually going to ask the first question to the President and not to you. So this is a draft program that I guess was submitted initially April 20th with the late filings for ECHN. What is the company's perspective on their commitment to this program? Is this something that's sort of just it's an idea that's out that we're looking at, or is there a commitment to going forward with this, or is there major revisions on off stage coming forward?

DR. LEW: Sure. I'll speak generally to this, Henry, and then, if Von wants to add anything. So, you know, we brought in Debbie Berry, because of her credentials, and she shared her expertise in prior dialogue, and she also shared what she referred to as the

draft and the outline of what our commitment is going to be, so our commitment is that's a start, okay?

Our commitment is to build on that, and, as you've heard, we support the current effort at Greater Waterbury in their efforts to be a high-reliability organization, and, as I shared with you the last time we met, how I was embarrassed.

And the fact that we were moving directionally, as Von shared with LA, in having the conditions relieved, we've made significant progress already in California and now with the addition of Debbie to set a path for us to excellence.

And to share a line from Neil, who was very colorful in his presentation, to be great, and that's our commitment.

If you want anything specific, I can have Von speak to it.

MR. CROCKETT: Yeah. We've actually -- the word draft is really meant more in terms of, once we start working closer with ECHN and Waterbury and potentially the Philadelphia organization, as well, then we would fine tune the organizational chart.

We've already started actually filling the positions within the draft that you've already seen, and

I anticipate that, with Dr. Lew's support and others, the program will be adopted, and it would only be minorly tweaked.

MR. SALTON: So, at the corporate level, we should see this, if not, some additional improvement on what's been submitted?

MR. CROCKETT: That's correct.

MR. SALTON: Okay and looking at what you've presented, as far as you're talking about substantial data systems and collection, integration of a dashboard, lots of staff, is there a financial commitment by the company to implement all of these things?

DR. LEW: Yes.

MR. SALTON: Okay and I notice that you've submitted CVs for three folks, and I understand, Debbie, what you're going to be doing, what who are the other, what are the roles of the other folks going to be in this org chart, as far as which positions are they going to hold, so that we know whose credentials we're looking at?

You want the names? One is Candace Peters.

MS. BERRY: Candace Peters, she is assigned as the AVP of Regulatory and Accreditations. She's probably going to move under that VP Regulatory and

Accreditation for our clinical practice person. I don't know that yet, but she's going to move within that position. What other positions? Oh, Thedosia. Oh, I'm very excited about Thedosia. She is our Senior CNO. One thing that I'm very committed to is improving the clinical excellence of our nursing practice, so Thedosia is going to lead that up for the organization. I met with her the first time. Very impressed.

MR. CROCKETT: And, for clarification on the org chart, that box doesn't exist right now. We're going to be adding it in, and that's part of the minor modification to the program that I was speaking to.

MS. BERRY: Yeah.

MR. SALTON: Okay.

MS. BERRY: Because, at the time I created that, I had not met yet with Thedosia. I can never say her name right. Thedosia. So I didn't put her in there, but I'm very excited about that role.

MR. SALTON: In the org chart that is the corporate officers for Quality, how many of those positions are filled?

MR. CROCKETT: At the moment, you know, we haven't spoken with the individuals that I think clarified it with them, but we anticipate, Debbie and I,

that two of those positions are going to be filled with staff in-house, then we'll be looking within either the ECHN, Waterbury and Crozer facilities in filling the other roles, and, if not, then looking external, but we anticipate two of those roles will be filled internally.

MR. SALTON: Okay, so, in the org chart and in the materials you submitted, there are these councils. What's the relationship between the local Board, which has Quality Assurance responsibilities, and these councils? I'm not sure the councils are part of the corporate entity, or they're perceived as being within the hospital.

MS. BERRY: That would flow up into, that local quality would flow up into the regional.

MR. SALTON: So is the council different from the local Board?

MS. BERRY: At the time that I created this, I didn't know that there was a local Board. Pretty much, your local Board is going to go through your Quality, 3 MAC 3 Board (phonetic), and it will go up to the regional, and then to the company.

MR. SALTON: If you guys have a vision of how you're going to revise this, I know this was a preliminary draft and now you know the local Boards are

there, could you guys submit an updated organizational chart, so we can make sure that we understand?

In addition, I assume that the late filings that were done in ECHN 1410, three of those things that describe the program, those are going to carry over to Waterbury?

MS. BERRY: Um-hum.

MR. SALTON: So to the extent there's some update to make sure that everything is integrated, because you have now the commitment letter, which we got today.

MR. ZINN ROWTHORN: Yeah and I'll just mention we have left the record open indefinitely with respect to the immediate jeopardy matter, so that we can have all documents related to those be submitted.

I think you should consider, with respect to amendments to the organizational chart, as that evolves over time, that our record will remain open for that, so we'll have the most current information up through our time of decision, if that's okay.

MR. CROCKETT: That's acceptable.

MR. ZINN ROWTHORN: Thank you.

MR. SALTON: Part of what you proposed is a gap analysis at the local hospitals. Do you have a

sense of when that's going to take place, and then would a gap analysis be presented to the local Board?

MS. BERRY: Those are based on, when I spoke to the gap analysis, those were based on initiatives. For example, if we wanted to decrease pressure ulcers, we would bring together a work team, where that work team comes in with folks, who are experts in wound care, folks that are as close to the bedside as we can get, then they would write an initiative, create an initiative that has a tool kit that would help all the sites get there, but the first piece of that, when I send out an initiative, would have a gap analysis.

So if Waterbury already has all those components, they just sign off that they have those components and we're done, so that's the gap analysis.

I don't want everybody to do something that they've already done, or if they have something better, you know, I don't want them to go back to something we're doing, so that's the purpose of the gap analysis.

MR. SALTON: Once you create, fully fund and invest with staff at the corporate quality level, there's going to be some process, where you now turn to your hospitals and say, okay, we want to get a snapshot

of where you are and what you're doing or not doing?

MS. BERRY: Correct.

MR. SALTON: Okay.

MS. BERRY: You know, how are your outcomes, comparing what you're doing with your outcomes, as well.

MR. SALTON: Do you perceive, as it's now laid out, like, for example, you have one data analyst laid out, that you're going to be able to get all this done for 17, 19 hospitals with the staffing that you propose?

MS. BERRY: I think that what we propose is a basic initial program that, as we bring in volume, we'll most likely have to expand.

MR. SALTON: So you'll scale it up to the volume of work?

MR. CROCKETT: Correct.

MR. SALTON: In the commitment letter you signed with Waterbury, there is a provision, this is the Late File T, I think it is, and this is my last question, so you can smile now, Mr. Crockett, there's a commitment to provide adequate financial resources to assure the facility issues related to quality and patient safety are addressed timely and not to be limited to the operating

funds of the post-Waterbury Hospital.

I don't recall, and I don't have it in front of me, that the same commitment was made to the other hospitals. Is that commitment going to be made to the other hospitals, as well?

MR. CROCKETT: I believe that it was, but in the event that it wasn't, then we would make the same commitment.

MR. SPEES: Yeah, that one is actually slightly different and it evolved, because this was the second kind of go after, so the answer is, yes, we would be willing to do that.

MR. GARY HAWES: Okay. I just have a couple of questions. As you know, I do most of the charitable stuff, and we haven't had a lot of conversation about that. I only have a few questions.

It doesn't look like Mike is here. I'm not sure if we need him for these, because I know Mike has worked on some of this, so if you don't know the answer, then we'll just take it as a late file.

In looking at the new foundation, so there's a new foundation going forward that's going to handle the restricted charitable assets and any net assets that remain, in the makeup of the Board it talks

about a preference or a certain number that need to either work or live in the Waterbury area to serve on the Board of this charitable foundation, and I guess my question was why will not all the trustees of this foundation either work or live in the Greater Waterbury area?

HEARING OFFICER HANSTED: If you could just come up to the microphone? Thank you.

MS. ANN ZUCKER: The thought was not to necessarily limit it to people in the Waterbury area, although that's the natural result, but to the extent that there is somebody, who perhaps had a connection to the Waterbury office and has a particular expertise that we might want to tap into, you wouldn't want to be precluded from including that person.

MR. HAWES: Waterbury Hospital's proposal about their needs going forward post-transaction discuss and propose, excuse me, that non-restricted funds that are coming in they're going to be used to pay off debts over time, and, so, not all of the funds that exist are going to be transferred to the new foundation right away, and, so, the question I have is how does Greater Waterbury contemplate the transactions for restricted funds happening, moving to the foundation the timing of

the move of restricted funds that can't be used by Greater Waterbury to pay off their obligations, as compared to those, which can? Is it two waves of approximation actions that you're thinking about, or are you looking at the post-Greater Waterbury entity post-transaction, holding onto those and doing it all at one time once things are paid off?

MS. ZUCKER: We haven't made a final decision on that. It may be that we need to do two waves.

MR. HAWES: Okay. The summary of the gift documents and the value of the gift documents, no surprise, it's a little out of date now, so if we can get current numbers on that, and that's a request that we've made to ECHN, so I'm sure that's not a surprise going forward.

And not that I really have an interest in getting into community benefits or community building, but there was a report asked for for funds that will be able to continue to flow to the for-profit that's going to be reported.

Our office would be interested to have a report of those funds, which cannot flow to the for-profit and are going to have to have the work around, and

I think the best example, I'm not going to remember the name of the fund, but the Ryan White fund and that program, so others that fall into that category how Greater Waterbury is trying to work around that to still provide that benefit, but just not through the for-profit.

MS. STROMSTAD: We will have that to you.

MR. HAWES: Okay. That's it for me.

MR. ZINN ROWTHORN: That's it for the Attorney General's Office.

HEARING OFFICER HANSTED: Okay. Before we adjourn, are there any other members of the public, who would like to give comment on the proposal?

Okay, with that, I would like to thank everyone, who attended this evening, and the hearing is adjourned.

(Whereupon, the hearing adjourned at 7:30 p.m.)

Re: OHCA Docket No. 15-32017-486 and OAG Docket No. 15-486-02 – Schedule for Proposed Final Decisions and Comments

Dear Mr. Spees and Ms. Stromstad:

This letter sets forth the schedule for the issuance of the Proposed Final Decision and the comment period for those decisions in the hospital conversion dockets OHCA Docket No. 15-32017-486 and OAG Docket No. 15-486-02 currently pending in the Department of Public Health, Office of Health Care Access ("OHCA") and the Office of the Attorney General (the "OAG"). The Applicants for both these dockets are Greater Waterbury Health Network, Inc. ("GWHN") and Prospect Medical Holdings, Inc. ("PMH").

The OAG and OHCA will issue their Proposed Final Decisions on or before **June 24, 2016**. Comments from the Applicants and the public will be due on or before **July 1, 2016**. And, as previously agreed upon by all parties in the scheduling letter dated May 6, 2016, the OAG and OHCA will issue their Final Decisions in these dockets on or before **July 15, 2016**.

Should you have any questions regarding these dates, please do not hesitate to contact either Steven W. Lazarus at the Department of Public Health (860-418-7012; Steven.Lazarus@ct.gov) or Assistant Attorney General Gary W. Hawes at the Office of the Attorney General (860-808-5020; gary.hawes@ct.gov).

Very truly yours,

Gary W. Hawes
Assistant Attorney General

Very truly yours,

Late File 5 - Updated PMH Quality Organizational Chart

Introduction

Philosophy: To ensure that our patients receive the right care, at the right time, in the right setting, with efficiency and compassion.

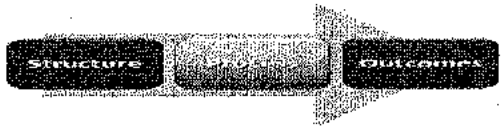
Mission: Above all, we are committed to quality in all aspects of healthcare delivery, including:

- Striving for the best possible patient outcomes
- Maintaining the highest standards of patient safety
- Acting with integrity at all times
- Promoting open communication
- Collaborating to better serve the healthcare needs of our communities

Purpose: The PMH Quality and Patient Safety Program will focus on continuous enhancement of quality and safety for all we serve. Every employee plays a crucial role in ensuring patient, visitor and employee safety. We will work to reconnect quality and patient safety to clinical care thereby promoting high quality, safe, effective and efficient care. Additionally, the program will strive to build a just culture of safety by implementing strategies to reduce medical errors. Reducing risk and ensuring safety requires increased attention to systems that prevent and mitigate errors. The corporate quality and patient safety team will work with hospital to provide appropriate solutions to ensure best practices, resulting in quality patient care and service.

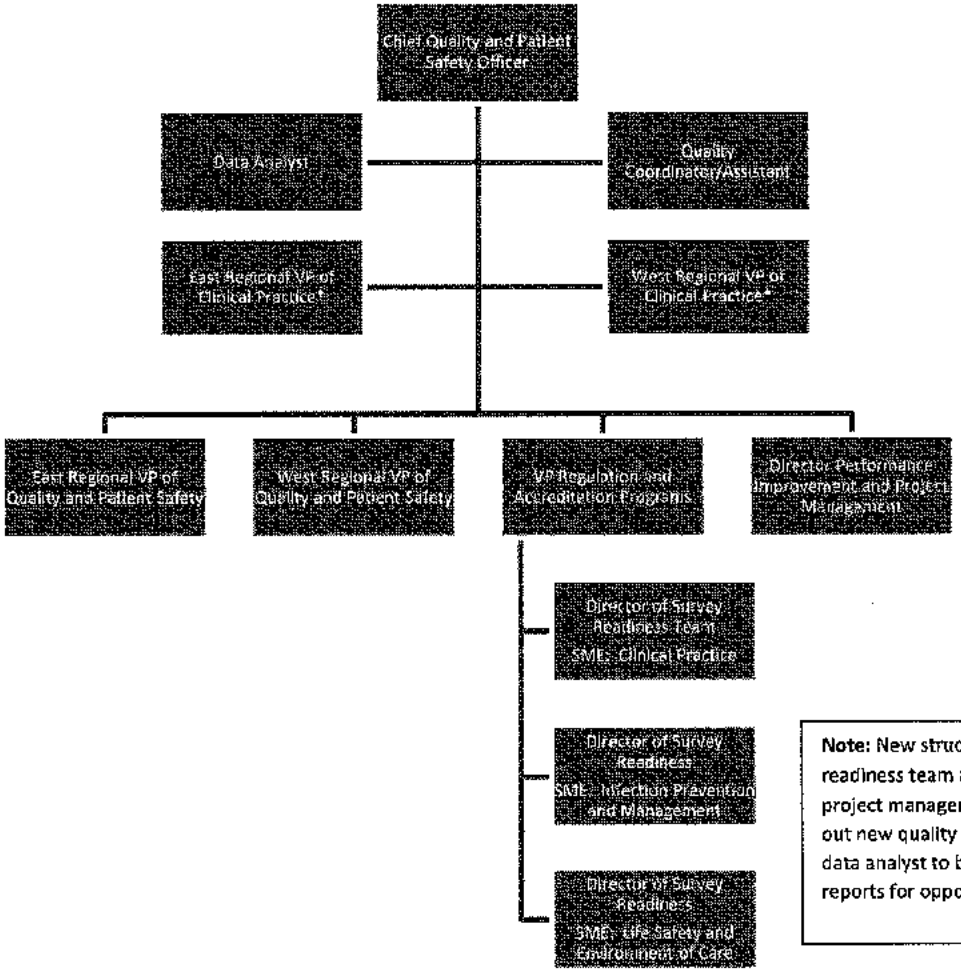
Goal: Build corporate and regional structures and processes necessary to become a high reliability organization promoting patient-focused, high quality, safe, compassionate, efficient, and effective care.

Model: We will achieve our mission and purpose through building and sustaining a robust quality and patient safety program at all levels of the organization. The key elements of this program will include: innovation, service, education, transparency, and patient partnerships. We will be using the Donabedian Quality of Care Model as our framework for building the program. Our initial focus will be on creating the corporate structure to enhance our ability to build processes and achieve outcomes.



C18833

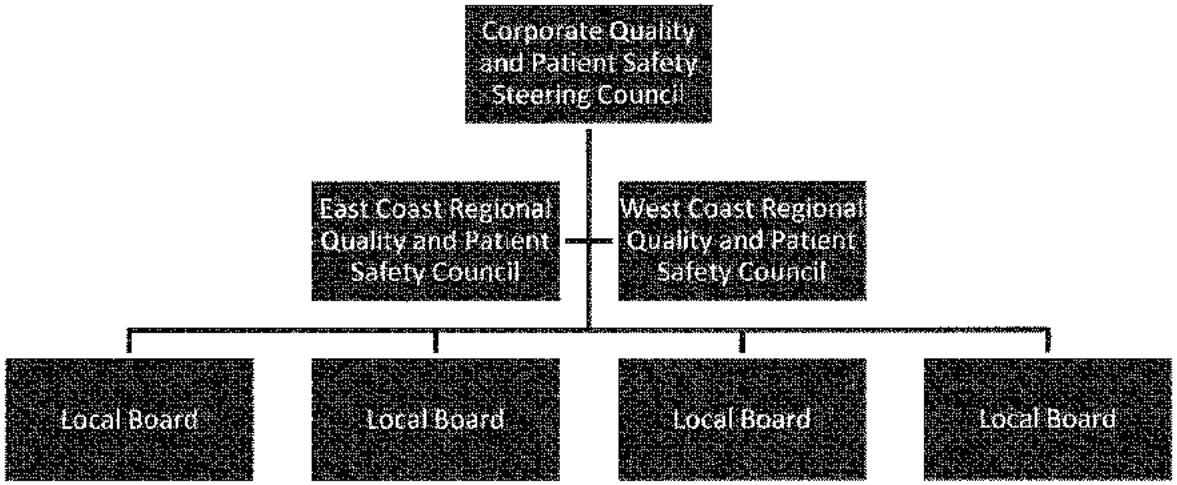
Corporate and Regional Quality Performance Improvement and Patient Safety Structure



Note: New structure will include a mobile survey readiness team and a performance improvement project manager to assist with designing and rolling out new quality and patient safety initiatives and a data analyst to build and interpret standardized reports for opportunities.

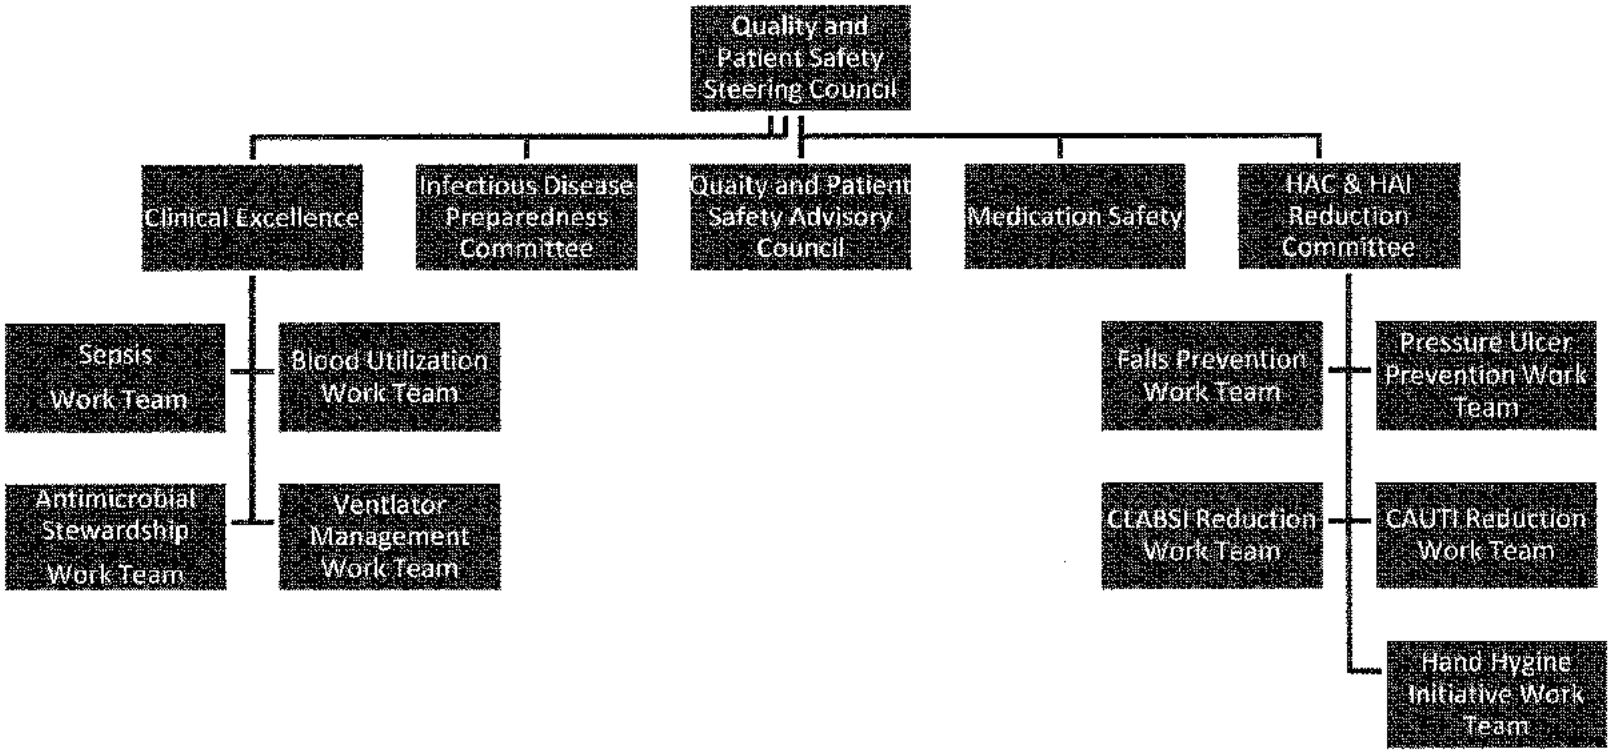
C1834

Quality and Patient Safety Communication and Reporting Structure



Note: Local Board will report up through the appropriate Regional Council to the Corporate Council with final reporting to the Corporate Board of Directors.

Corporate Quality and Patient Safety Steering Council



Note: Suggestions for potential committees and work groups under committees. These may change based on the finalized Quality and Patient Safety agenda and strategic plan. Committees and work groups may be added, deleted or changed based on organizational needs and priorities.

Corporate Quality and Patient Safety Steering Council Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the Regional Councils
- Assists with the development of the Corporate Quality and Patient Safety agenda and strategy, incorporating regional and local input
- Provides oversight for execution of the Quality and Patient Safety agenda and strategic plan across the Company
- Prioritizes Quality and Patient Safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from chartered committees and work teams for implementation across the company
- Engages in identifying ongoing quality and patient safety performance improvement opportunities
- Ensures follow-up on regional initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety.
- Assist with barrier removal to achieve quality and patient safety strategies.

Facilitator: PMH Chief Quality and Patient Safety Officer

Suggested Members: Appropriate Corporate Senior Leadership, chairperson from each Regional Council, Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, Medical Staff Director, IT&S Director, Supply Chain, others.

Regional Quality and Patient Safety Steering Council Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the Local Boards/Quality and Patient Safety Committees
- Engages in identifying ongoing quality and patient safety performance improvement opportunities at the regional level
- Provides recommendations for the Corporate Quality and Patient Safety agenda and strategy, incorporating local input
- Provides recommendations to the Corporate Council concerning prioritization of quality and patient safety activities based

on regional and local needs and opportunities

- Assist with identification of metrics to be monitored on corporate dashboards.
- Provides oversight for execution of the Quality and Patient Safety agenda and strategic plan across the region
- Ensures follow-up on regional initiatives and programs
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety
- Assist with barrier removal to achieve quality and patient safety strategies

Regional Steering Council Facilitator: Regional VP of Quality

Suggested Members: Member of Local Board/Quality and Patient Safety Committees,Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, IT&S Director, Supply Chain,

Ad Hoc Members: Radiology, Lab, Medical Staff, others as appropriate to subject matter

Committees: Responsible for building the infrastructure and provide oversight for key quality and patient safety activities. Potential Committees may include Medication Safety, Clinical Safety Improvement, Infectious Disease Preparedness, Regulation and Accreditation, Clinical Excellence, others as needed.

Rapid Action Work Groups: Completes rapid work for quick process and outcome improvement as needed. Examples include Core Measure improvement, HAC prevention, HAI prevention, Clinical Excellence etc. The team is responsible for creating and initiating performance improvement programs to include project plan, key elements, tool kits etc. Teams have a limited life depending upon the work product and outcomes.

Process

High Reliability Organization: A high reliability organization is an organization able to continually manages their environment thoughtfully and assume a constant state of vigilance resulting in the fewest possible number of errors, despite operating in a high

CONFIDENTIAL

stress, high-risk environment. Adapting and applying the lessons of this science to health care offer the promise of enabling hospitals to reach levels of quality and safety that are comparable to those of the best high-reliability organizations. These changes will be achieved through:

- Leadership's commitment to achieving zero patient harm
- A fully functional just culture of safety throughout the organization,
- Widespread deployment of highly effective process improvement tools (Chassin and Loeb, 2013).

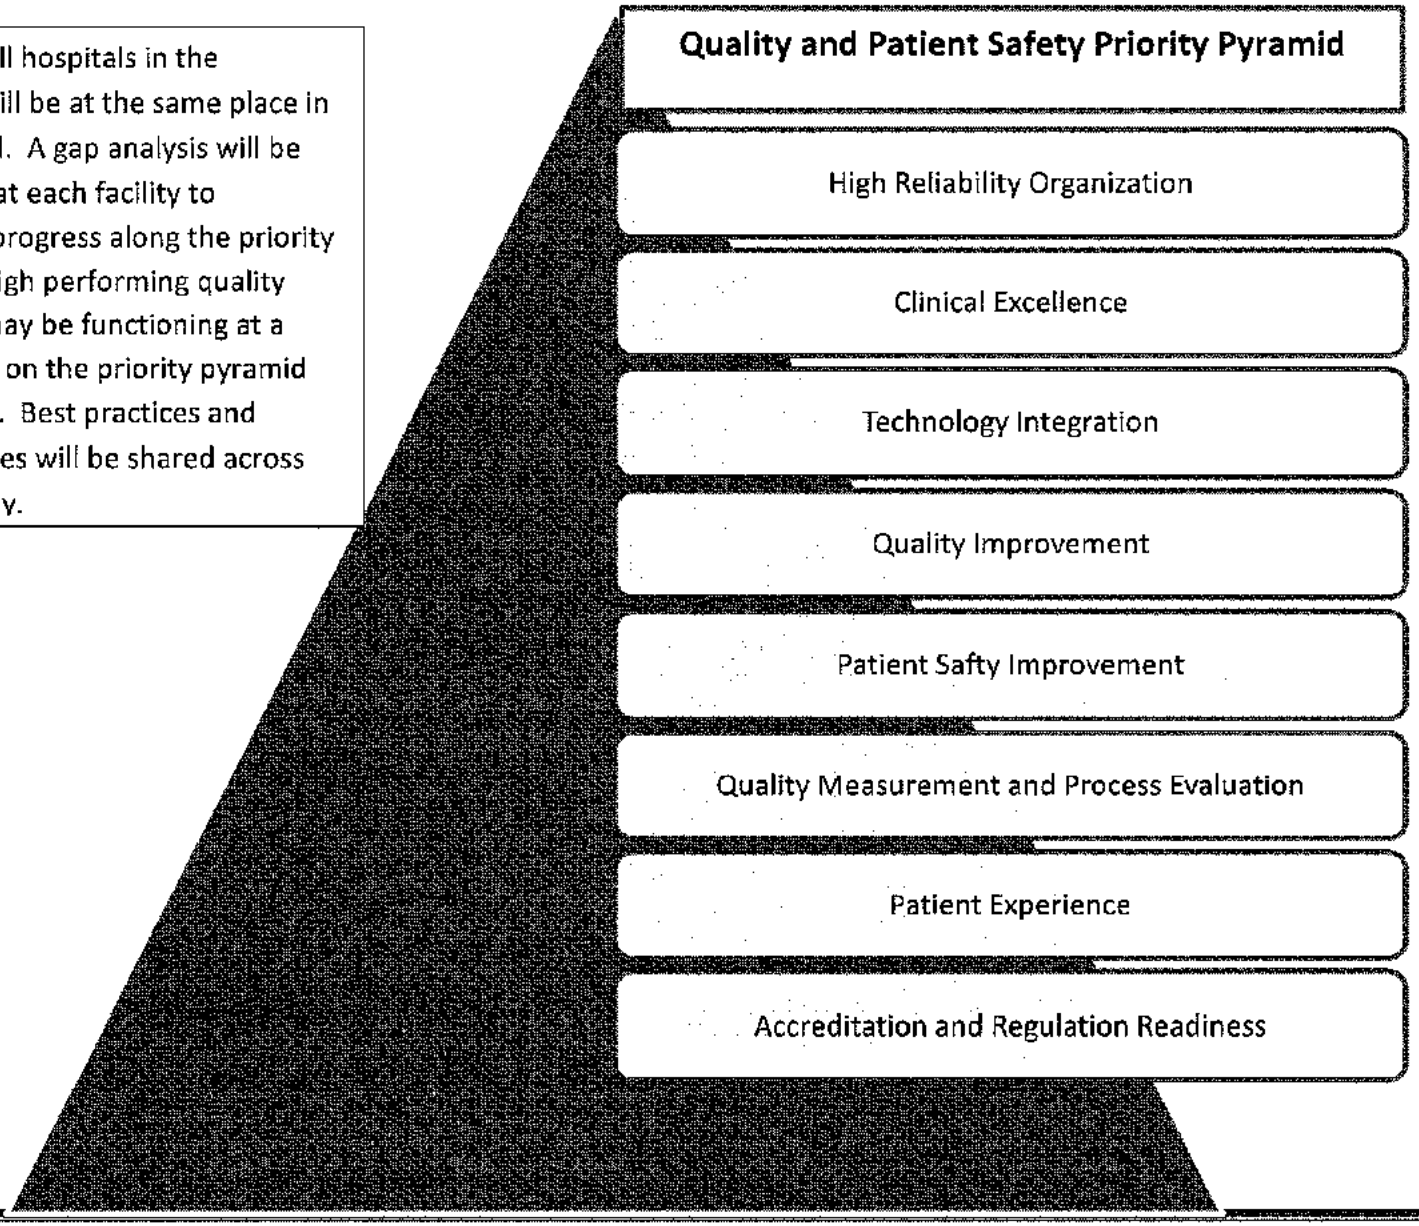
PMH is in the process of adopting high reliability behaviors and strategies to ensure a reduction in overall medical errors for our patients. High reliability organizations are built on a foundation of a just culture of safety. A key component of building this foundation is a robust incident reporting system to better understand trends, opportunities and strengths. We encourage that every unsafe condition, near miss/great save or harm event be reported and analyzed to identify opportunity for improvement to prevent future harm. We commit to maintaining transparency through sharing best practices and lessons learned across all of our hospitals. We further commit to build and share evidence-based, best practice, and performance improvement processes and tools kits to assist with supporting our quality and patient safety high reliability organization initiatives.

Strategies:

- **Accreditation and Regulation Readiness** – Implement an accreditation and regulation survey readiness team to ensure all hospitals are continually in compliance with the highest level of quality care and patient safety standards as defined by CMS, TJC, DNV, NCQA, and applicable State and local statutes and regulations. Provide subject matter expertise and tools to support the facilities in ongoing survey readiness.
- **Patient Experience** – Create and implement a patient experience program to ensure that each patient is treated with respect, compassion, consideration and is an integral partner in his or her plan of care.
- **Quality Measurement and Process Evaluation** – Build a standardized corporate quality and patient safety dashboard with national benchmarks. Institute monthly Quality and Patient Safety calls to review metrics, analysis and action plans to ensure ongoing improvement.

- **Patient Safety Improvement** – Create and implement a plan to move all hospitals towards a just culture of safety and accountability. Ensure quality and safe delivery of healthcare by defining and promoting consistent processes for identifying situations that may put patients or others at risk and acting to prevent or control those risks i.e. thorough and credible analysis of incidents of harm, near misses/great catches; FMEAs; ongoing learning through transparency, and implementation of patient safety tools such as **Quality Improvement** - Maximize pay-for-performance for quality performance and outcomes metrics including VBP, readmission reduction program, HAC/HAI reduction program, Medicare spending per beneficiary (MSPB), Meaningful Use etc.
- **Technology Integration** – Maximize available patient safety technologies including CPOE, health information technology, clinical decision support, bar coding and other technologies to enhance the quality and patient safety.
- **Clinical Excellence** – Improve mortality, complications, and length of stay through implementation of clinical excellence initiatives such as sepsis, stroke and STEMI management; effective blood utilization; ventilator management; and antibiotic stewardship.
- **High Reliability Organization** – Implement proven high reliability techniques and nationally recognized best practices to prevent harm and promote quality of care such as Red Rules (limited), SBAR (Situation, Background, Assessment and Recommendation), and STAR (Stop, Think, Act and Review).

Note: Not all hospitals in the Company will be at the same place in the pyramid. A gap analysis will be completed at each facility to determine progress along the priority pyramid. High performing quality programs may be functioning at a higher level on the priority pyramid than others. Best practices and performances will be shared across the company.



C1341

Outcomes

Corporate Quality and Patient Safety Dashboard

Quality, clinical and patient safety performance and outcomes will be measured via the newly created corporate Quality and Patient Safety Dashboard. Dashboards will be share across the company for the purpose of benchmarking and learning from other.

Hospital Quality and Patient Safety Call

Outliers will be addressed during the regularly scheduled hospital quality and patient safety calls. Best practices will be identified and shared with other hospitals in the company during these calls. The hospital will implement performance improvement activities to address the root cause and followed-up will occur during the next call. Once well established, the hospital call will occur at the regional level with a summary report forwarded to the corporate CQO.

Hi Michele,

We verified and the email sent with the Late Files only mentions and includes Exhibits 2 onwards, was Exhibit 1 sent separately? We may have missed it.

Steve

Late File 5 - Updated PMH Quality Organizational Chart

Introduction

Philosophy: To ensure that our patients receive the right care, at the right time, in the right setting, with efficiency and compassion.

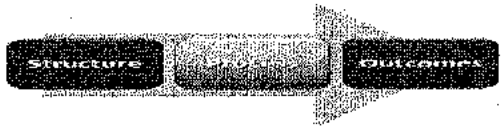
Mission: Above all, we are committed to quality in all aspects of healthcare delivery, including:

- Striving for the best possible patient outcomes
- Maintaining the highest standards of patient safety
- Acting with integrity at all times
- Promoting open communication
- Collaborating to better serve the healthcare needs of our communities

Purpose: The PMH Quality and Patient Safety Program will focus on continuous enhancement of quality and safety for all we serve. Every employee plays a crucial role in ensuring patient, visitor and employee safety. We will work to reconnect quality and patient safety to clinical care thereby promoting high quality, safe, effective and efficient care. Additionally, the program will strive to build a just culture of safety by implementing strategies to reduce medical errors. Reducing risk and ensuring safety requires increased attention to systems that prevent and mitigate errors. The corporate quality and patient safety team will work with hospital to provide appropriate solutions to ensure best practices, resulting in quality patient care and service.

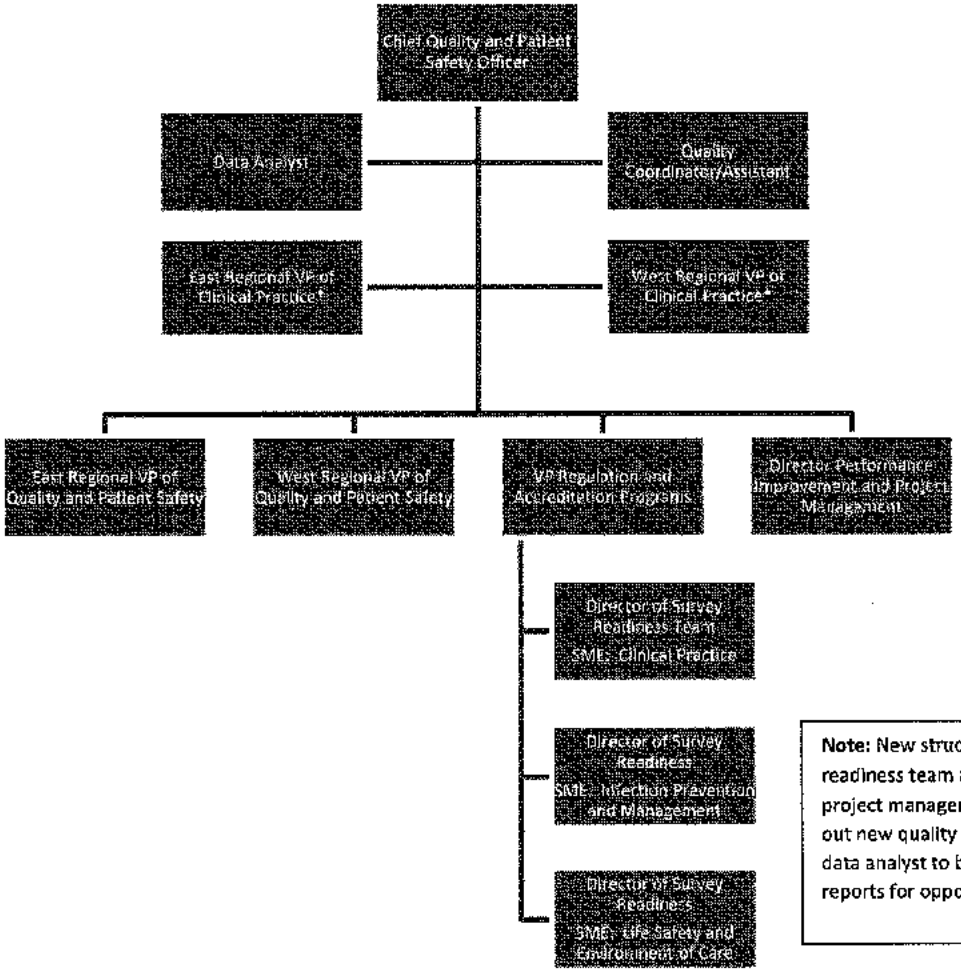
Goal: Build corporate and regional structures and processes necessary to become a high reliability organization promoting patient-focused, high quality, safe, compassionate, efficient, and effective care.

Model: We will achieve our mission and purpose through building and sustaining a robust quality and patient safety program at all levels of the organization. The key elements of this program will include: innovation, service, education, transparency, and patient partnerships. We will be using the Donabedian Quality of Care Model as our framework for building the program. Our initial focus will be on creating the corporate structure to enhance our ability to build processes and achieve outcomes.



C18833

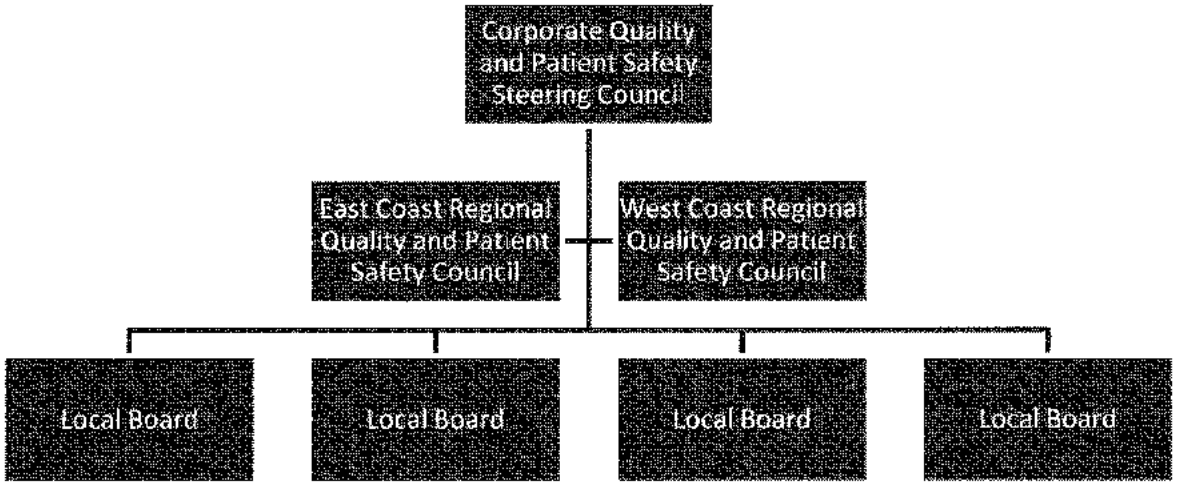
Corporate and Regional Quality Performance Improvement and Patient Safety Structure



Note: New structure will include a mobile survey readiness team and a performance improvement project manager to assist with designing and rolling out new quality and patient safety initiatives and a data analyst to build and interpret standardized reports for opportunities.

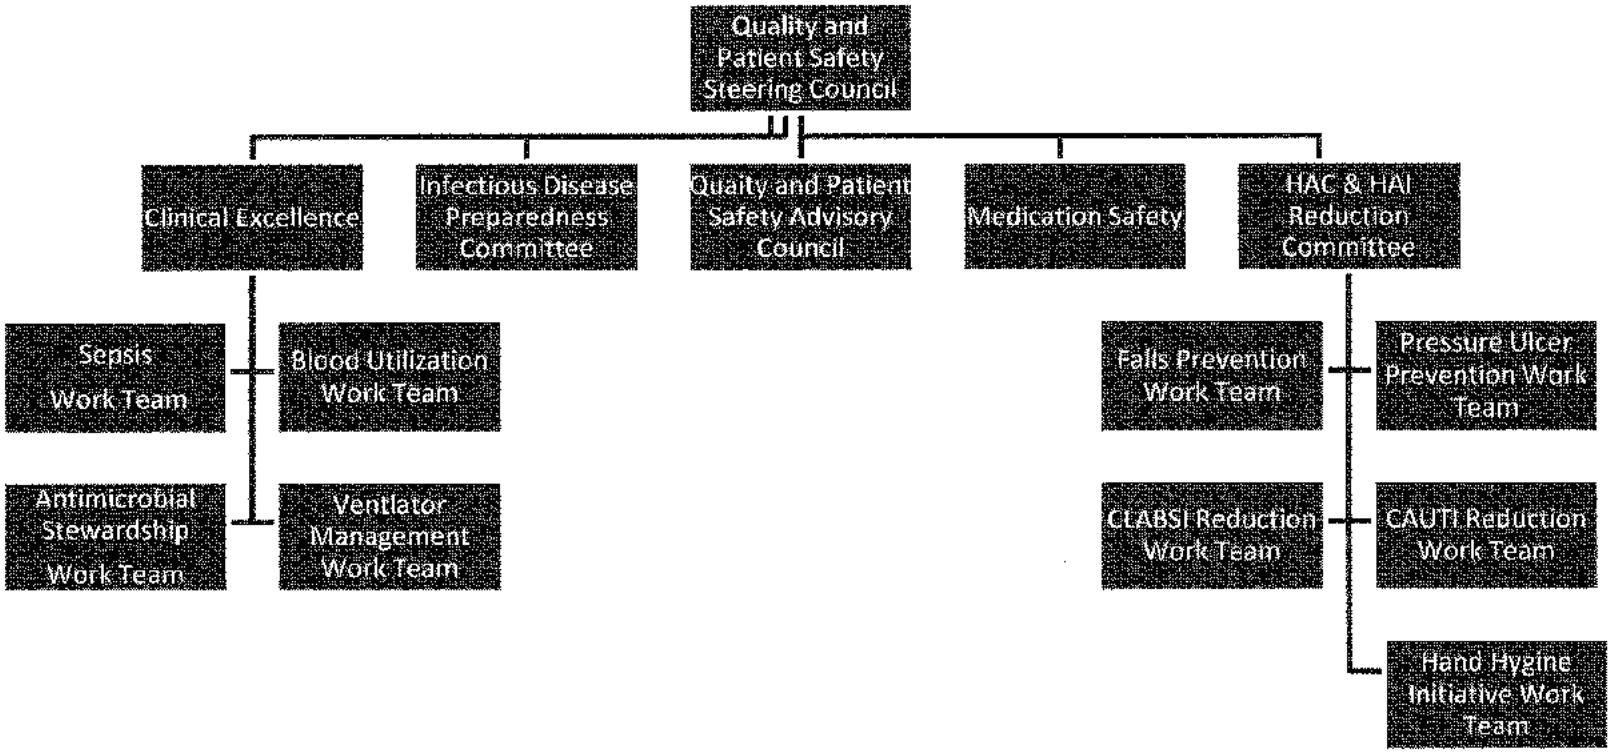
C1834

Quality and Patient Safety Communication and Reporting Structure



Note: Local Board will report up through the appropriate Regional Council to the Corporate Council with final reporting to the Corporate Board of Directors.

Corporate Quality and Patient Safety Steering Council



Note: Suggestions for potential committees and work groups under committees. These may change based on the finalized Quality and Patient Safety agenda and strategic plan. Committees and work groups may be added, deleted or changed based on organizational needs and priorities.

Corporate Quality and Patient Safety Steering Council Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the Regional Councils
- Assists with the development of the Corporate Quality and Patient Safety agenda and strategy, incorporating regional and local input
- Provides oversight for execution of the Quality and Patient Safety agenda and strategic plan across the Company
- Prioritizes Quality and Patient Safety activities
- Assist with identification of metrics to be monitored on corporate dashboards.
- Receives and approves reports and activities from chartered committees and work teams for implementation across the company
- Engages in identifying ongoing quality and patient safety performance improvement opportunities
- Ensures follow-up on regional initiative and programs.
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety.
- Assist with barrier removal to achieve quality and patient safety strategies.

Facilitator: PMH Chief Quality and Patient Safety Officer

Suggested Members: Appropriate Corporate Senior Leadership, chairperson from each Regional Council, Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, Medical Staff Director, IT&S Director, Supply Chain, others.

Regional Quality and Patient Safety Steering Council Quality and Patient Safety Steering Council Roles and Responsibilities

- Receive reports from and analyze the activities of the Local Boards/Quality and Patient Safety Committees
- Engages in identifying ongoing quality and patient safety performance improvement opportunities at the regional level
- Provides recommendations for the Corporate Quality and Patient Safety agenda and strategy, incorporating local input
- Provides recommendations to the Corporate Council concerning prioritization of quality and patient safety activities based

on regional and local needs and opportunities

- Assist with identification of metrics to be monitored on corporate dashboards.
- Provides oversight for execution of the Quality and Patient Safety agenda and strategic plan across the region
- Ensures follow-up on regional initiatives and programs
- Motivates and strategizes for hospital-based change
- Provides organizational knowledge and a systems approach to quality and patient safety
- Assist with barrier removal to achieve quality and patient safety strategies

Regional Steering Council Facilitator: Regional VP of Quality

Suggested Members: Member of Local Board/Quality and Patient Safety Committees,Pharmacy Director, Quality Director, Risk Management Director, Legal, CNO, CEO, COO, CMO or Chief of Staff, Infection Control Practitioner, IT&S Director, Supply Chain,

Ad Hoc Members: Radiology, Lab, Medical Staff, others as appropriate to subject matter

Committees: Responsible for building the infrastructure and provide oversight for key quality and patient safety activities. Potential Committees may include Medication Safety, Clinical Safety Improvement, Infectious Disease Preparedness, Regulation and Accreditation, Clinical Excellence, others as needed.

Rapid Action Work Groups: Completes rapid work for quick process and outcome improvement as needed. Examples include Core Measure improvement, HAC prevention, HAI prevention, Clinical Excellence etc. The team is responsible for creating and initiating performance improvement programs to include project plan, key elements, tool kits etc. Teams have a limited life depending upon the work product and outcomes.

Process

High Reliability Organization: A high reliability organization is an organization able to continually manages their environment thoughtfully and assume a constant state of vigilance resulting in the fewest possible number of errors, despite operating in a high

CONFIDENTIAL

stress, high-risk environment. Adapting and applying the lessons of this science to health care offer the promise of enabling hospitals to reach levels of quality and safety that are comparable to those of the best high-reliability organizations. These changes will be achieved through:

- Leadership's commitment to achieving zero patient harm
- A fully functional just culture of safety throughout the organization,
- Widespread deployment of highly effective process improvement tools (Chassin and Loeb, 2013).

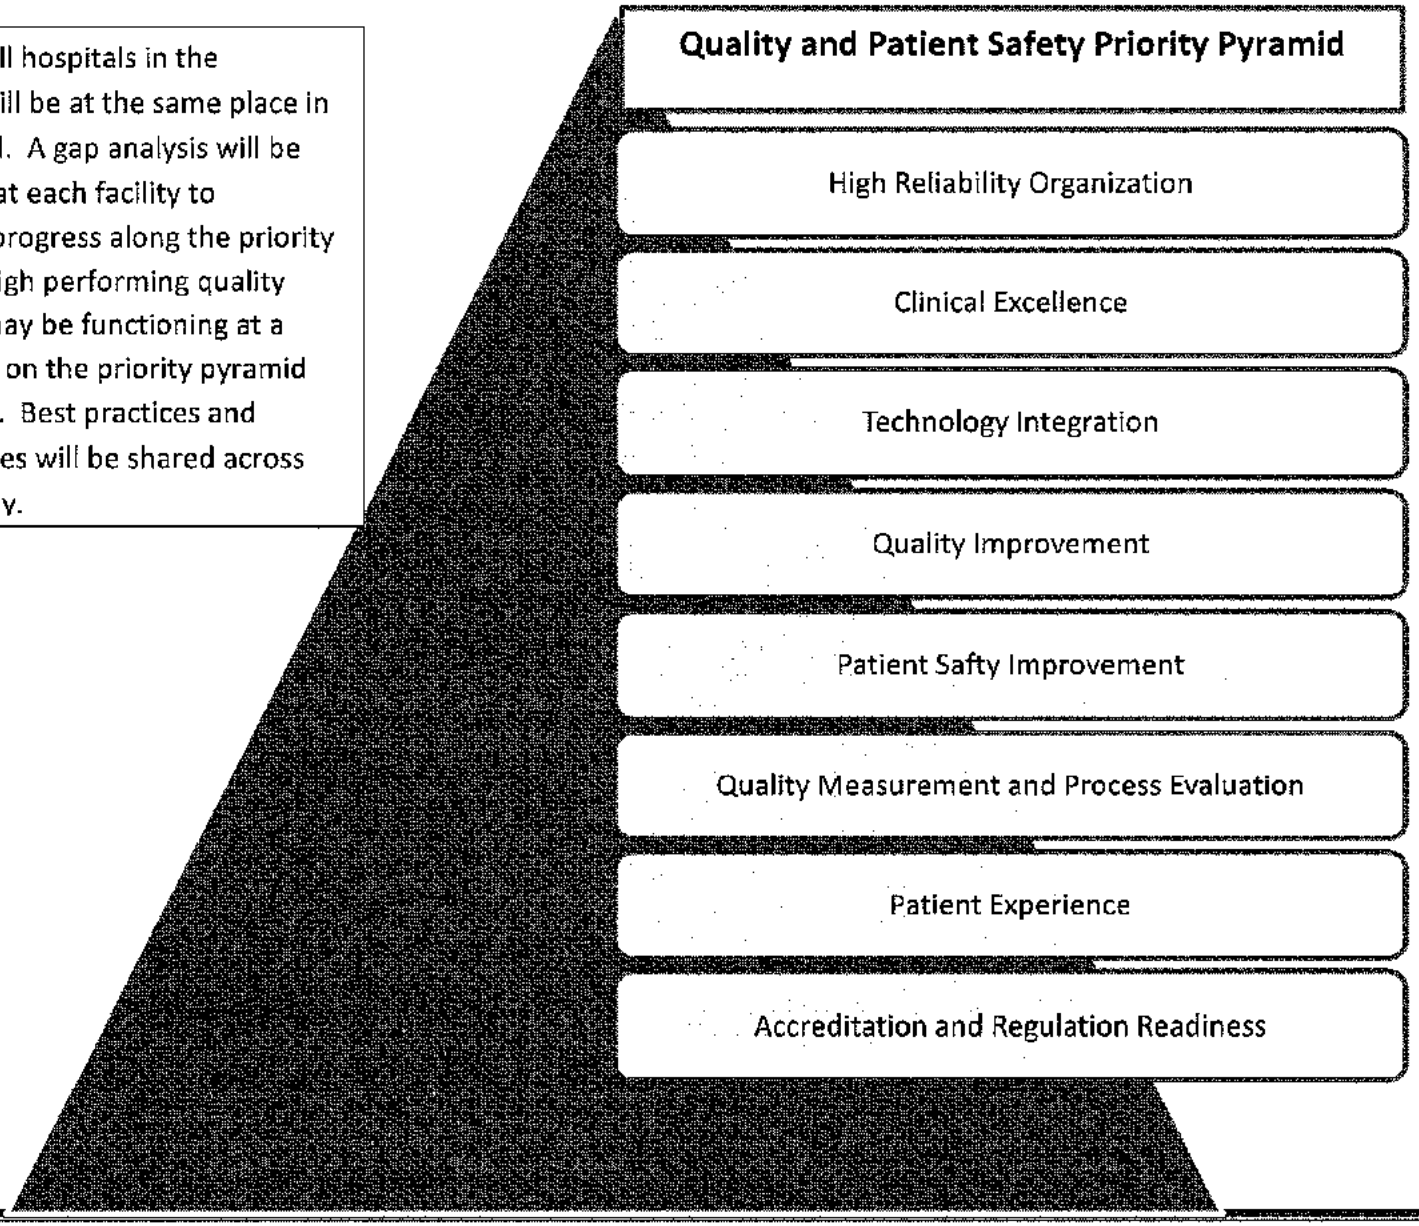
PMH is in the process of adopting high reliability behaviors and strategies to ensure a reduction in overall medical errors for our patients. High reliability organizations are built on a foundation of a just culture of safety. A key component of building this foundation is a robust incident reporting system to better understand trends, opportunities and strengths. We encourage that every unsafe condition, near miss/great save or harm event be reported and analyzed to identify opportunity for improvement to prevent future harm. We commit to maintaining transparency through sharing best practices and lessons learned across all of our hospitals. We further commit to build and share evidence-based, best practice, and performance improvement processes and tools kits to assist with supporting our quality and patient safety high reliability organization initiatives.

Strategies:

- **Accreditation and Regulation Readiness** – Implement an accreditation and regulation survey readiness team to ensure all hospitals are continually in compliance with the highest level of quality care and patient safety standards as defined by CMS, TJC, DNV, NCQA, and applicable State and local statutes and regulations. Provide subject matter expertise and tools to support the facilities in ongoing survey readiness.
- **Patient Experience** – Create and implement a patient experience program to ensure that each patient is treated with respect, compassion, consideration and is an integral partner in his or her plan of care.
- **Quality Measurement and Process Evaluation** – Build a standardized corporate quality and patient safety dashboard with national benchmarks. Institute monthly Quality and Patient Safety calls to review metrics, analysis and action plans to ensure ongoing improvement.

- **Patient Safety Improvement** – Create and implement a plan to move all hospitals towards a just culture of safety and accountability. Ensure quality and safe delivery of healthcare by defining and promoting consistent processes for identifying situations that may put patients or others at risk and acting to prevent or control those risks i.e. thorough and credible analysis of incidents of harm, near misses/great catches; FMEAs; ongoing learning through transparency, and implementation of patient safety tools such as **Quality Improvement** - Maximize pay-for-performance for quality performance and outcomes metrics including VBP, readmission reduction program, HAC/HAI reduction program, Medicare spending per beneficiary (MSPB), Meaningful Use etc.
- **Technology Integration** – Maximize available patient safety technologies including CPOE, health information technology, clinical decision support, bar coding and other technologies to enhance the quality and patient safety.
- **Clinical Excellence** – Improve mortality, complications, and length of stay through implementation of clinical excellence initiatives such as sepsis, stroke and STEMI management; effective blood utilization; ventilator management; and antibiotic stewardship.
- **High Reliability Organization** – Implement proven high reliability techniques and nationally recognized best practices to prevent harm and promote quality of care such as Red Rules (limited), SBAR (Situation, Background, Assessment and Recommendation), and STAR (Stop, Think, Act and Review).

Note: Not all hospitals in the Company will be at the same place in the pyramid. A gap analysis will be completed at each facility to determine progress along the priority pyramid. High performing quality programs may be functioning at a higher level on the priority pyramid than others. Best practices and performances will be shared across the company.



C1341

Outcomes

Corporate Quality and Patient Safety Dashboard

Quality, clinical and patient safety performance and outcomes will be measured via the newly created corporate Quality and Patient Safety Dashboard. Dashboards will be share across the company for the purpose of benchmarking and learning from other.

Hospital Quality and Patient Safety Call

Outliers will be addressed during the regularly scheduled hospital quality and patient safety calls. Best practices will be identified and shared with other hospitals in the company during these calls. The hospital will implement performance improvement activities to address the root cause and followed-up will occur during the next call. Once well established, the hospital call will occur at the regional level with a summary report forwarded to the corporate CQO.

Department of Public Health
Office of Health Care Access
Certificate of Need Application

Proposed Final Decision

Applicants:	Greater Waterbury Health Network, Inc. 64 Robbins Street Waterbury, CT 06708 Prospect Medical Holdings, Inc. 10780 Santa Monica Boulevard Suite 400 Los Angeles, CA 90025
Docket Number:	15-32017-486
Project Title:	Transfer of assets of Greater Waterbury Health Network, Inc. to Prospect Medical Holdings, Inc.

Procedural History: On July 16, 2015, the Applicants filed with the Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") the Certificate of Need ("CON") Determination Letter proposing the transfer of assets of Greater Waterbury Health Network, Inc. and affiliates ("GWHN") to Prospect Medical Holdings, Inc. ("PMH"). The Applicants filed the application for the proposal on October 28, 2015. On March 4, 2016, OHCA and the OAG deemed the application complete.

On April 8, 2016, OHCA and the OAG notified the Applicants of the date, time and place of the public hearing. A notice to the public announcing the hearing was published in the *Republican American*. Thereafter, pursuant to Conn. Gen. Stat. §19a-639a and §19a-486, a public hearing regarding this application was held on May 3, 2016, jointly by OHCA and the OAG.

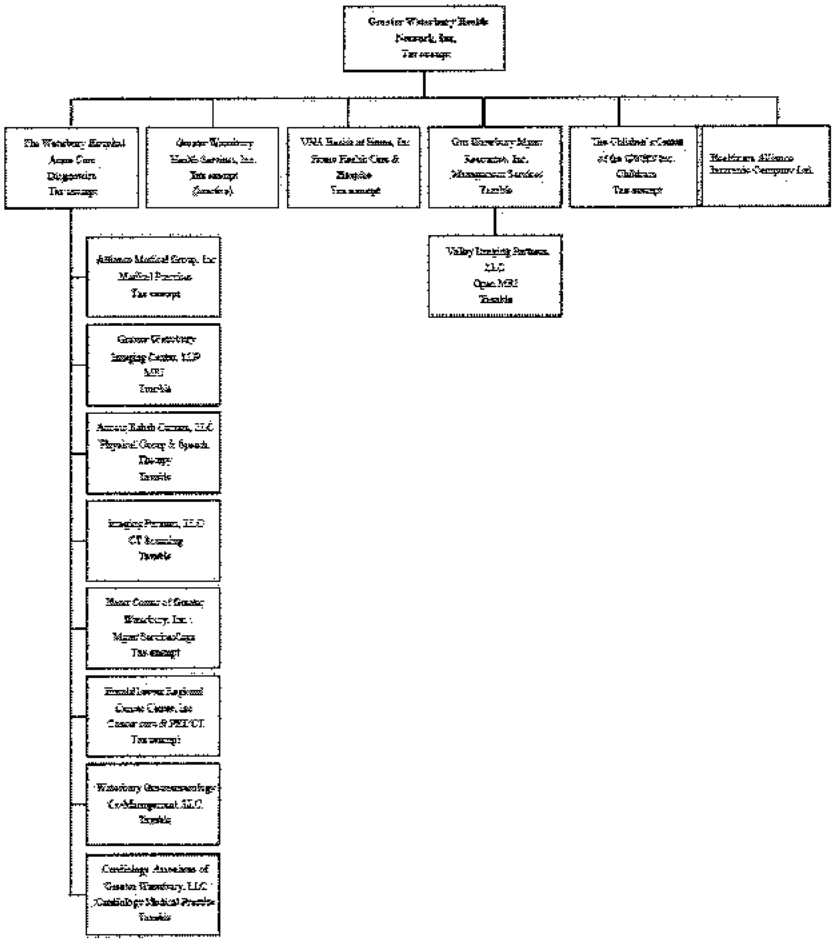
Attorney Kevin T. Hansted has been designated as the hearing officer in this matter. The hearing was conducted in accordance with the provisions of the Uniform Administrative Procedures Act (Chapter 54 of the Conn. Gen. Stat.) and Conn. Gen. Stat. §19a-639a(f).

The Hearing Officer heard testimony from witnesses for the Applicants and, in rendering this decision, considered the entire record of the proceeding.

To the extent the findings of fact actually represent conclusions of law, they should be so considered, and vice versa. *SAS Inst., Inc. v. S & H Computer Systems, Inc.*, 605 F. Supp. 816 (Md. Tenn. 1985).

Findings of Fact

1. GWHN is a non-stock, 501(c)(3) corporation that is the parent company to The Waterbury Hospital ("Hospital"), an acute care teaching hospital with 357 licensed beds plus 36 bassinets located in Waterbury, Connecticut. GWHN also holds interests in other entities, joint ventures, and affiliates. The chart below describes GWHN's current organizational structure:



Ex. E, p. 13

2. In addition to the Hospital, which is wholly owned by GWHN, GWHN is also an equity holder in the following entities: Healthcare Alliance Insurance Company, Ltd. ("HAIC," of which GWHN is a 50% owner), Greater Waterbury Health Services, Inc. ("GWHS," which is wholly-owned by GWHN), VNA Health at Home, Inc. (wholly-owned by GWHN), Greater Waterbury Management Resources, Inc. (wholly-owned by GWHN;

this company also has a 49% ownership in Valley Imaging, LLC), and Children's Center of Greater Waterbury Health Network, Inc. ("CCGWHN," which is wholly-owned by GWHN). Ex. E, pp. 15-16

3. The Hospital has ownership interests in the following entities: Alliance Medical Group, Inc. (wholly-owned by the Hospital), Greater Waterbury Imaging Center Limited Partnership (64% owned by the Hospital), Access Rehab Centers LLC (65% owned by the Hospital), Imaging Partners, LLC (85% owned by the Hospital), Waterbury Gastroenterological Co-Management Company, LLC (the Hospital is the sole Class H Member and has certain management rights), and Cardiology Associates of Greater Waterbury, LLC (wholly-owned by the Hospital). Ex. E, pp. 15-17

4. Additionally, the Hospital is a corporate member of two not-for-profit joint ventures with Saint Mary's Hospital ("SMH"): the Harold Leever Regional Cancer Center, Inc. and the Heart Center of Greater Waterbury, Inc. Ex. E, p. 17

5. The Hospital is GWHN's primary asset. It is a "safety net" hospital, treating a large number of Medicare, Medicaid and uninsured patients. Discharges for these three payers represent approximately 80% of the total patient days and 75.6% of emergency room outpatient visits. Ex. E, pp. 13, 15-16

6. The Hospital serves the following towns: Beacon Falls, Bethlehem, Cheshire, Middlebury, Morris, Naugatuck, Oakville, Oxford, Plantsville, Plymouth, Prospect, Seymour, Southbury, Southington, Terryville, Thomaston, Torrington, Waterbury, Watertown, Wolcott, and Woodbury (the "Service Area"). Ex. E, p. 51

7. The Hospital has experienced consecutive years of losses due to poor economic conditions in the Service Area, declining government and commercial reimbursement, the increasing complexity of health care treatment, and national health care reform. Additionally the recession in 2008 led to GWHN defaulting on its bond covenants in 2009. In 2010, a consulting firm, Kaufman Hall, identified over $50 million in capital improvements required over five years to keep the Hospital operational. Ex. E, pp. 22-24, 333-434; Ex. R, Prefiled Testimony of Carl Contadini, Chairman of the Board, GWHN, p. 1509

8. In 2010, the Executive Committee of the GWHN Board of Directors (the "Board") recommended that the Hospital seek a capital partner and a task force was formed (the "Task Force"). Ex. E, p. 24

9. In 2011, the GWHN Board voted to authorize the negotiation of an agreement with LHP Hospital Group ("LHP") and SMH, but LHP ultimately terminated the proposed venture, citing the costs of building a replacement hospital and issues related to the Ethical and Religious Directives for Catholic Health Care Services. Ex. E, pp. 24-25

10. On September 4, 2012, the Board authorized the Task Force to pursue other opportunities, ultimately leading to the submission of proposals by Vanguard Health Systems, Inc. ("Vanguard") and PMH. PMH proposed an asset purchase transaction, while Vanguard proposed both an asset purchase transaction and a joint venture arrangement. Preferring a joint venture, GWHN pursued a relationship with Vanguard, and a Conversion Application and a CON Application were submitted. The OAG and OHCA issued decisions placing a number of conditions on the transaction, and Tenet Health Corporation (which had acquired Vanguard) withdrew the application. Ex. E, pp. 25-26, 29-30, 88-119

11. In early 2015, the Task Force requested that Cain Brothers, an investment advisory firm, look for new prospective partners. PMH was one of two candidates to indicate interest and, despite GWHN's declining financial performance, agreed to a deal similar to the proposed Tenet transaction. The Task Force approved PMH's proposed letter of intent and the Board authorized its execution, which occurred on May 1, 2015. After conducting due diligence, the Board adopted resolutions approving the transaction and the filing of the CON, as well as recommending to the various members of GWHN that they approve the transaction. On October 2, 2015, the GWHN members approved the transaction and authorized the Board to take all action to consummate the transaction. Ex. E, pp. 31-33, 88-119

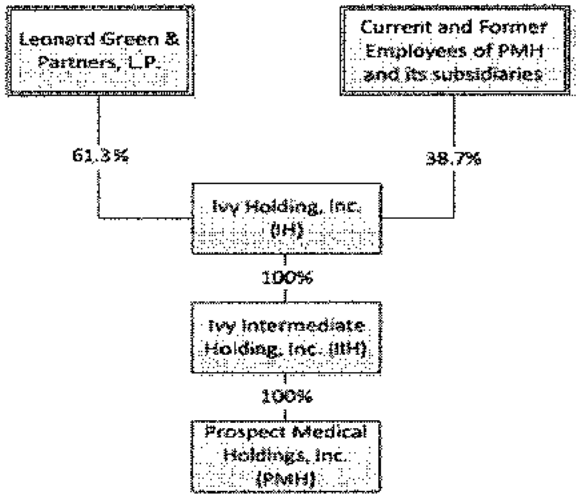
12. The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to GWHN's long-standing challenges that offers the Service Area continued access to its services and facilities. Ex. R, Prefiled Testimony of Carl Contadini, p. 1510

13. PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. Ex. E, pp. 18, 171-72

14. Through PMH's medical group segment, PMH also manages the provision of physician services in each of its markets through a network of approximately 8,900 physicians. The physician networks operate as independent practice associations ("IPAs") that contract with PMH-owned management service organizations ("MSOs"). The IPAs are comprised of both PMH-employed and independent community physicians. Ex. E, p. 18; Ex. R, Prefiled Testimony of Mitchell Lew, President, PMH, pp. 1605, 1607-08; Testimony of Mitchell Lew on 5/3/2016, pp. 37-38

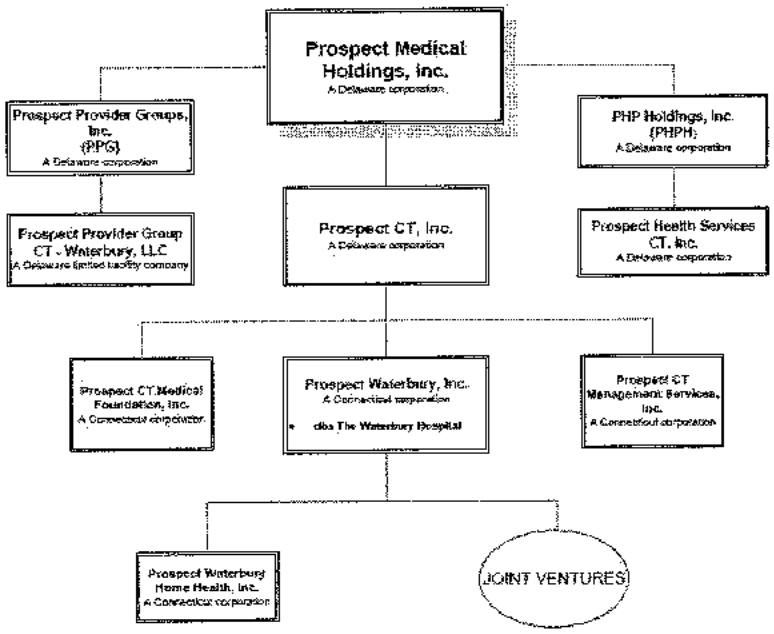
15. PMH aligns its hospitals and physicians under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. Ex. E, pp. 89

16. The chart below shows PMH's current ownership structure:



Ex. H, p. 1413

17. The chart below shows PMH's proposed organizational structure below the holding company level after the proposed transaction:



Ex. E, p. 68

18. GWHN selected PMH as the proposed purchaser because its financial resources and access to capital are anticipated to maintain GWHN's assets as economically viable and vibrant parts of the healthcare system in the Service Area by permitting capital investments, better preparing the Hospital to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations. Ex. R, Prefiled Testimony of Mitchell Lew, p. 1606; of Ex. R, Prefiled Testimony of Darlene Stromstad, President & CEO, GWHN, pp. 1516-20; Ex. R, Prefiled Testimony of Von Crockett, Senior Vice President of Corporate Development, PMH, pp. 1537-39

19. In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. Ex. R, Prefiled Testimony of Steven Aleman, Chief Financial Officer, PMH, p. 1620; Testimony of Steven Aleman, Tr. on 5/3/2016, p. 113; Docket#15-32016-486, Ex. N, pp. 3245, 3249-59; Ex. K, pp. 1445-46

20. Under the proposed Asset Purchase Agreement ("APA"), PMH will pay a total purchase price of approximately $43.3 million for the assets of GWHN, which includes a purchase price of $31.8 million plus a net working capital adjustment of $18.3 million, as of April 30, 2016, minus capital lease obligations in excess of $6.5 million, unfunded pension liabilities, asbestos abatement liability, the amounts of certain GWHN liabilities assumed by PMH, and for the value of any joint venture interest that GWHN is unable to assign or transfer. Ex. E, pp. 12, 20, 71, 147; Ex. F, p.1419; Late File 3, pp. 1848-49

21. PMH will commit to spend within seven years no less than $55 million, less (a) the amount not to exceed $3.5 million of capital lease obligations assumed by PMH at Closing in excess of $3 million, (b) the cash shortfall at closing (defined in the APA as the "Negative Amount"), (c) the Purchase Price Adjustment Shortfall, provided that the aggregate of the amounts in (b) and (c) are not to exceed $5.0 million in aggregate, and (d) unpaid indemnification losses of PMH (defined in the APA as the "Unpaid Losses") of up to $4.5 million, (the "Commitment Amount"). (Revised APA draft dated June 10, 2016, pages 1861and 1977).

22. There is no financing contingency with respect to this transaction. PMH anticipates funding this acquisition using its existing cash. PMH also has access to a preapproved $40 million revolving line of credit with Morgan Stanley and, as shown below, PMH has provided data showing that its debt leverage ratio is lower than other for-profit hospital systems.

Industry Debt Leverage Ratio Comparison	
Entity	**Ratio**
Prospect	2.71X
Hospital Corporation of America	3.7X
Community Health Systems	5.4X
Tenet	6.3X

Ex. R, Prefiled Testimony of Steven Aleman, p. 1621; Ex. E, p. 69, Ex, K, p.1445; Docket#15-32016-486, Ex. K, p. 2191

23. Closing the transaction is estimated to require only $27 million in cash from PMH. By the closing date (the "Closing" or "Closing Date"), PMH anticipates it will have close to $100 million in cash on hand as a result of its growth in revenues, which are generating $10-15 million of free cash flow on a monthly basis. The $40 million revolving line of credit, which PMH recently drew down to $10 million to finance its purchase of East Orange General Hospital in New Jersey, is also expected to be restored to $30 million by the Closing. Ex. F, p. 1419; Late File 3, p. 1849; Testimony of Steven Aleman, Tr. on 3/29/16, pp. 151-53

24. The following GWHN assets will be excluded from the transaction:

- All cash and cash equivalents;
- All short-term and long-term investments other than GWHN's investments in the joint ventures;
- Board-designated, restricted, and trustee-held or escrowed funds (such as funded depreciation, debt service reserves, working capital trust assets, and assets and investments restricted as to use), beneficial interests in charitable trusts, and accrued earnings on all of the foregoing;
- Prepaid expenses not assumed by PMH;
- All insurance proceeds arising in connection with the operation of the assets or the facilities for periods prior to Closing to the extent that all damage to the assets has been repaired;
- All amounts due or to become due to GWHN from the Medicare, Medicaid or other payor programs in respect of cost report periods ended on or prior to Closing; and
- Interests in and assets of GWHS, CCGWHN and HAIC.

Ex. E, pp. 19, 142

25. GWHN's debt and pension obligations will also be addressed as a result of the transaction. At the time of the Closing and as permitted thereafter, the purchase price (less adjustments) together with GWHN's cash, investments and debt service reserve funds (but excluding charitable funds) will be used to satisfy GWHN's obligations. GWHN's unfunded pension liabilities with respect to its multi-employer defined benefit health plan are estimated to be at least $27 million and, with respect to its cash balance plan, are approximately $12 million. Ex. F, pp. 76, 1419; Prefiled Testimony, Steven Aleman, p. 1620

26. Table 1 summarizes the net proceeds and flow of funds associated with the Asset Purchase as of April 30, 2016 compared to September 30, 2015, including GWHN's anticipated plan for payment of debt and pension obligations as well as payment of other liabilities. The amounts are subject to adjustment at Closing.

TABLE 1
APA PROJECTED NET PROCEEDS AND FLOW OF FUNDS

Proceeds Calculation	As of 9/30/2015	As of 4/30/2016*
Proceeds		
Enterprise Value	$31,800,000	$25,000,000
Working Capital Adjustment	$4,601,512	$18,258,911
Total Gross Proceeds	**$36,401,512**	**$43,258,911**

PM Assumed Liabilities		
Asbestos Abatement	($2,896,529)	($2,898,529)
Nurses Pension	($27,000,000)	($27,000,000)
Hospital Cash Balance Plan	($11,613,917)	($12,363,507)
Total Assumed Liabilities	**($41,512,446)**	**($42,262,036)**
Net Proceeds	**($5,110,934)**	**($996,875)**
Unrestricted Cash	$35,767,106	$35,174,646
Total Unrestricted Cash and Net Proceeds	**$30,656,172**	**$36,171,521**
Cash Needs at Closing		
Estimated Transaction Costs	($1,450,000)	($1,450,000)
Bank Debt	($24,094,638)	($23,783,297)
Debt Swap	($1,512,596)	($1,851,544)
Total Cash Needs at Closing	**($27,057,234)**	**($27,084,841)**
Net Cash Post Closing Liabilities & Expenses	**$3,598,937**	**$9,086,680**

*All figures are current through April 30, 2016, with the exception of the Children's Center, which is current through March 31, 2016.
Ex. E. pp 1419 and Ex. AA, Late File 3.

27. After Closing, the assets of GWHN will be transferred to Prospect Connecticut, Inc. ("New GWHN") or one or more of its affiliates. New GWHN will serve as the health system parent company and sole shareholder of Prospect Waterbury, Inc., which will hold the Hospital's license after Closing (the post-closing hospital will be referred to as "New Hospital"). Ex. E, p. 21

28. The Commitment Amount will be funded through GWHN's operating income, and any shortfall will be funded by PMH's existing cash or through PMH's corporate level credit facility. Ex. E, p. 69

29. The Commitment Amount will be dedicated to continued improvement in quality and safety, expansion of services, new services, physician and service integration, and improvements in access to service. Ex. E, p. 57

30. PMH does not currently plan to change any service lines or locations as a result of the Asset Purchase. Ex. E, p. 48

31. There is currently no capital plan related to the transaction. After Closing, PMH, in consultation with the Local Board (defined in paragraph 38 below), will develop a strategic capital plan with respect to the New Hospital and associated affiliates and joint ventures. Ex. E, p.70; Ex. R., p. 1641

32. The capital projects in Table 2 below have been identified by GWHN management as priority capital projects to be addressed within the first three years after Closing. Ex. E, p. 72

TABLE 2
CAPITAL PRIORITY PROJECTS IDENTIFIED BY GWHN

Description	Estimated Cost (In Millions)	Estimated Timeframe (In Months)
Facility – Main Campus		
Expansion of ED/Development of urgent care*	$3.75	24-36
Upgrade OB/Women's health	$2.0	6-18
Upgrade outpatient surgery**	$2.0	6-18
Equipment		
Replace interventional radiology equipment	$1.7	12-18
Upgrade surgical/anesthesia equipment	$1.5	12-18
Outpatient Centers (Southbury, Naugatuck and Waterbury)* **	N/A	N/A
Physician Recruitment	N/A	N/A
Information Technology		
Continue IT Plan	N/A	N/A
Implement outpatient/physician practice strategy	N/A	N/A
Patient Safety****	$3.24	12-36
Total Estimated Cost	**$14.2**	

No dollars have yet been assigned to outpatient centers, physician recruitment and information technology.

* The Hospital's emergency department was built to accommodate 35,000 patients annually, while actual utilization is about 50,000, resulting in lengthy patient wait times and higher than average "Left Without Being Seen" rates. Additionally, hallways are consistently used as patient rooms. Expanding the emergency department will improve access to care, decrease LWOS, and improve patient privacy. Ex. Ex. H, pp. 1416-17

** There is no separate area for outpatient surgery. Accordingly, patients are currently being redirected to outpatient surgery centers in the community. Ex. H, p. 1417

*** The Hospital currently provides several health care services in Southbury, Naugatuck, and Waterbury. PMH intends to co-locate services by developing outpatient centers in each of these towns, creating a central environment with adequate parking and convenient access for patients. Ex. H, p. 1417

**** Immediate capital needs required over the first two to three years following Closing are: monitors in the ER ($600,000), ER architects/plan ($200,000), nuclear med ($450,000), fetal monitors ($145,000), EKG ($550,000), defibrillators ($240,000), two Jackson tables ($200,000), nurse call/ED ($220,000), bed replacements ($360,000), med cart replacements ($150,000), and beginning anesthesia update ($120,000). Ex. R, p. 1640

33. Because of GWHN's poor financial condition, the projects identified in Table 2 cannot be accomplished without this transaction. Ex. R., Prefiled Testimony of Carl Contadini, p. 1510; Testimony of Darlene Stromstrad, Tr. on 5/3/2016, p. 30; Ex. R, Prefiled Testimony, Jonathan Spees, Vice President of Mergers and Acquisitions, PMH, pp. 1626-27

34. With the proposed Asset Purchase, the parties expect that PMH will provide sufficient capital to meet deferred, current and future capital needs for the Hospital's physical plant to ensure state of the art health care delivery services through an upgrade of facilities, equipment and technology. With PMH's access to capital, New Hospital will have the financial resources to purchase new technology, upgrade its facilities, attract skilled providers, and upgrade electronic health records, in addition to investing in service line development, physician alignment and recruitment and development of increasing ambulatory access. Ex. R, Prefiled Testimony, Jonathan Spees, p. 1627

35. Table 3 below represents GWHN's projected incremental operating revenues, earnings before interest, taxes, depreciation and amortization (EBITDA) and gain/losses from operations and provisions for income taxes with this proposal.

TABLE 3
GWHN PROJECTED INCREMENTAL OPERATING REVENUE, EBITDA, INCOME FROM OPERATIONS, AND PROVISION FOR INCOME TAXES WITH THE PROPOSAL

	FY 2016	FY 2017	FY 2018
Operating Revenue	$324,151	$3,702,750	$6,827,192
Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA)	$1,408,798	$3,620,294	$4,425,395
Gain/Loss from Operations	$962,989	$1,868,015	$2,256,121
Provision for Income Taxes	$785,217	$2,172,366	$2,050,340

Ex. E, p.1167

36. PMH has restored the financial position of other health systems by applying its data-driven operating strategies, leveraging its corporate capabilities and investing in system growth. Ex. R, Prefiled Testimony, Jonathan Spees, p. 1627

37. Table 4 below illustrates the financial performance of the Texas and Rhode Island hospitals after they were acquired by PMH:

TABLE 4
PMH'S RECENT ACQUISITIONS FINANCIAL PERFORMANCE (in Thousands)

Entity	EBITDA			Working Capital			Stockholder's Equity		
	Year prior to acquisition	FY 2014	FY 2015	Year prior to acquisition	FY 2014	FY 2015	Year prior to acquisition	FY 2014	FY 2015
Nix Health System (a)	$14,905	$18,411	$8,043	$5,937	$36,785	$35,449	$13,122	$20,468	$63,789
Roger Williams Medical Center (b)	$3,942	$1,582	$9,080	($1,860)	$1,114	$6,230	$37,184	$34,099	$38,256
Our Lady of Fatima Hospital(c)	($893)	$509	$6,485	$1,904	$2,040	$3,432	($57,150)	$27,513	$28,107

(a) Nix is a Health System based in Texas. Nix's Earnings Before Interest, Taxes, Depreciation and amortization (EBITDA) is based on reported trailing twelve months ended on 1/31/2011. Declines in EBITDA between 2014 and 2015 were due to the fluctuation in net reimbursement related to payments made to the Service Organization of San Antonio "SOSA". Funding to SOSA is voluntary but it is projected to average approximately $12M a year based on budgeted spending initiatives of the service organization. In 2014 the funding requirements were $5.7M (lower by approximately $6.3M) and in 2015 funding requirements returned to $12M. The remaining difference was comprised of lower volume at the facility as services were reconfigured and medical staff turnover. Working Capital of Nix prior to acquisition is as of 1/31/2011 and includes cash which was not part of assets acquired by PMH.

(b) EBITDA for Roger Williams Medical Center ("RWMC"), located in Providence , Rhode Island, for year prior to acquisition is only for 8 months ending on May 31, 2014 and EBITDA for FY2014 is only for three months post acquisition for FYE 9/30/2014. Working capital is for prior to acquisition as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition RWMC was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.

(c) EBITDA for Our Lady of Fatima Hospital ("OLFH") in Rhode Island is for year prior to acquisition and is only for 8 months ending on May 31, 2014 and for FY2014 is only for three months post acquisition. Working capital prior to acquisition is as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition OLFH was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.

Docket#15-32016-486, Late File 19, dated Apr. 20, 2016; Docket#15-32016-486, Ex. QQ, dated May 9, 2016

38. After Closing, the New Hospital will be governed by a board of directors controlled by PMH (the "New Hospital Board"). The New Hospital Board will have oversight and ultimate authority over the affairs of the New Hospital and the purchased assets. The New Hospital Board will be composed of executives of PMH and local employed executives of GWHN. There are currently no actual or proposed bylaws for the New Hospital Board. Ex. E, p. 20; Ex. H, p. 1422

39. The New Hospital Board will be advised by a local advisory board, anticipated to be comprised of five current members of the GWHN Board, five physicians, and the CEO of the New Hospital (the "Local Board"). The Local Board will serve as a resource for PMH with respect to development and review of strategic plans, assist with maintenance and implementation of a strategic business plan for the New Hospital, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospital. There are currently no actual or proposed Bylaws for the Local Board. Ex. E, pp. 20-21, 190; Ex. H, pp. 1422-23

40. As of the Closing Date, PMH or an affiliate will offer employment to substantially all GWHN employees who are in good standing, in positions and at salaries at least equal to those then being provided by GWHN and with benefits packages comparable to those offered to similarly-situated employees at other hospitals operated by PMH. Ex. E, pp. 86, 90, 176

41. PMH plans to establish a strong physician network by recruiting high quality physicians to GWHN's medical staff. PMH has developed significant experience in other markets regarding methods of attracting more primary care providers and improving access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals (RWMC and OLFH) in mid-2014. Ex. E, p. 89; Docket#15-32016-486, Ex. G, p. 75; Ex. K, p. 2177-78

42. In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut (Prospect Provider Group CT-Waterbury, LLC, or "PPGCTW") and a preferred provider network/health system risk taking entity, Prospect Health Services CT, Inc., that will contract with payers on behalf of PPGCTW physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. Ex. E, p. 87; Ex. H, p. 1430; Ex. R, Prefiled Testimony of Mitchell Lew, p. 1605; Testimony of Mitchell Lew, Tr. on 5/3/2016, pp. 37-38

43. The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and reducing readmissions, inpatient utilization and emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. Ex. E, pp. 62, 89; Ex. R, Prefiled Testimony of Mitchell Lew, pp. 1607, 1609, 1611-12

44. PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. Ex. E, p. 65-66; Ex. R, Prefiled Testimony of Mitchell Lew, pp. 1608, 1610, 1615

45. PMH has agreed to adhere to GWHN's charity care policies for at least the first five years after Closing. For the first five years, PMH has also agreed to participate in the Medicare and Medicaid programs and accept all Medicare and Medicaid patients, provide public health programs of educational benefit to the community, and to generally promote public health, wellness, and welfare to the community by operating the New Hospital with quality standards consistent with other hospitals owned by PMH. Ex. E, pp. 61-63, 81, 1226-28; Ex. H, p. 1437; Testimony of Von Crockett, Tr. on 5/3/2016, p. 98; Tr., Testimony of Tom Reardon, President, PMH East on 5/3/16, pp. 103-04

46. PMH will continue to provide financial support for community benefit and community building activities in the Waterbury area to the same degree as GWHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by the New Hospital. Ex. E, pp. 83-84; Testimony of Jonathon Spees, Tr. on 5/3/2016, p. 104

47. Table 5 below describes the socioeconomic condition of the Service Area towns in comparison to the state of Connecticut as a whole and shows the areas most in need of such programs.

TABLE 5
SOCIOECONOMIC STATUS OF THE SERVICE AREA

Data Town	Poverty Rate	Medium Household Income	Unemployment Rate	Medium Age
Primary Service Area				
Beacon Falls	3.8%	$ 79,207	7.0%	39
Bethlehem	4.4%	$ 80,884	5.8%	50
Cheshire	2.8%	$ 110,587	6.2%	41
Middlebury	2.6%	$ 97,996	5.9%	45
Naugatuck	8.6%	$ 62,574	9.4%	39
Prospect	3.2%	$ 95,325	6.7%	44
Southbury	6.4%	$ 67,195	6.6%	50
Thomaston	2.7%	$ 67,426	7.8%	43
Waterbury	21.9%	$ 40,867	12.5%	35
Watertown	3.4%	$ 80,899	7.7%	44
Wolcott	3.4%	$ 80,655	7.8%	44
Woodbury	4.6%	$ 80,167	5.9%	48
Secondary Service Area				
Harwinton	4.6%	$ 89,429	6.1%	47
Morris	5.6%	$ 89,688	6.4%	45
Oxford	4.5%	$ 107,308	6.0%	43
Plymouth	6.7%	$ 73,603	8.9%	41
Seymour	6.8%	$ 73,099	7.7%	42

Southington	3.6%	$ 78,668	6.4%	44
Torrington	11.2%	$ 50,548	8.5%	43
State	**10.0%**	**$ 69,519**	**7.8%**	**40**

Ex. E, p. 54

48. Central Waterbury is designated as a Medically Underserved Area and a Health Professionals Shortage Area. The Hospital currently provides safety net services in this area. The Applicants anticipate that the proposed Asset Purchase will support the availability of health care services to vulnerable populations in the Service Area. Ex. E, p. 54

49. In 2013, the Hospital conducted a Community Health Needs Assessment ("CHNA"), which identified current and future health care needs of the community. The priority areas identified for the greater Waterbury community were access to care, mental health/substance abuse, overweight/obesity, and smoking/tobacco use. An implementation plan was developed to respond to the identified health needs, which PMH has agreed to support. Additionally, the Hospital has traditionally taken a lead role in developing the CHNA, and PMH has agreed to maintain GWHN's current level of involvement in developing and implementing the CHNA for five years from Closing. Ex. E, pp. 60, 62, 1075-1129, 1130-49; Ex. H, p. 1439; Testimony of Von Crockett, Tr. on 5/3/2016, pp. 90-91

50. PMH has also stated that the New Hospital will be in compliance with the following general community benefit standards for at least the first three years after the Closing: (a) the New Hospital will have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors and (b) the New Hospital will operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. Testimony of Tom Reardon, Tr. on 5/3/16, pp. 103-04

51. PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. Ex. E, pp. 63-65

52. The patient population currently served by the Hospital is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a change of ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). Table 6 below describes the current and projected patient population and payer mix for the Hospital with respect to discharges.

TABLE 6
PATIENT POPULATION/PAYER MIX

Hospital	YTD 8/31/15	Projected 2015	Projected FY 2016	Project FY 2017	Projected FY 2018
Medicare	5,002	5,457	5,312	5,312	5,312
Medicaid	3,021	3,296	3,196	3,196	3,196
CHAMPUS or TriCare	18	19	18	18	18
Total Government Payers	8,041	8,771	8,526	8,526	8,526
Commercial Insurers	2,527	2,757	2,681	2,681	2,681
Self-Pay	113	123	64	64	64
Workers Compensation	61	67	73	73	73
Total Non-Government Payers	2,701	2,947	2,818	2,818	2,818
Total Payer Mix	**10,742**	**11,718**	**11,344**	**11,344**	**11,344**

Ex. E, pp. 74, 76

53. Financial benefits associated with this proposal include: operational efficiencies and economies of scale, the New Hospital's participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. Ex. R, Prefiled Testimony of Von Crockett, p. 1535; Docket#15-32016-486, Ex. N., p. 3236

54. PMH has agreed to maintain GWHN's quality program for at least two years following the transaction. Ex. T, p. 1826; Ex. R., Prefiled Testimony of Von Crockett, p. 1533

55. PMH has had to significantly modify its own Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two PMH hospitals in California, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. Ex. K, p. 1459-61; Ex. R, Prefiled Testimony of Von Crockett, pp. 1530-33

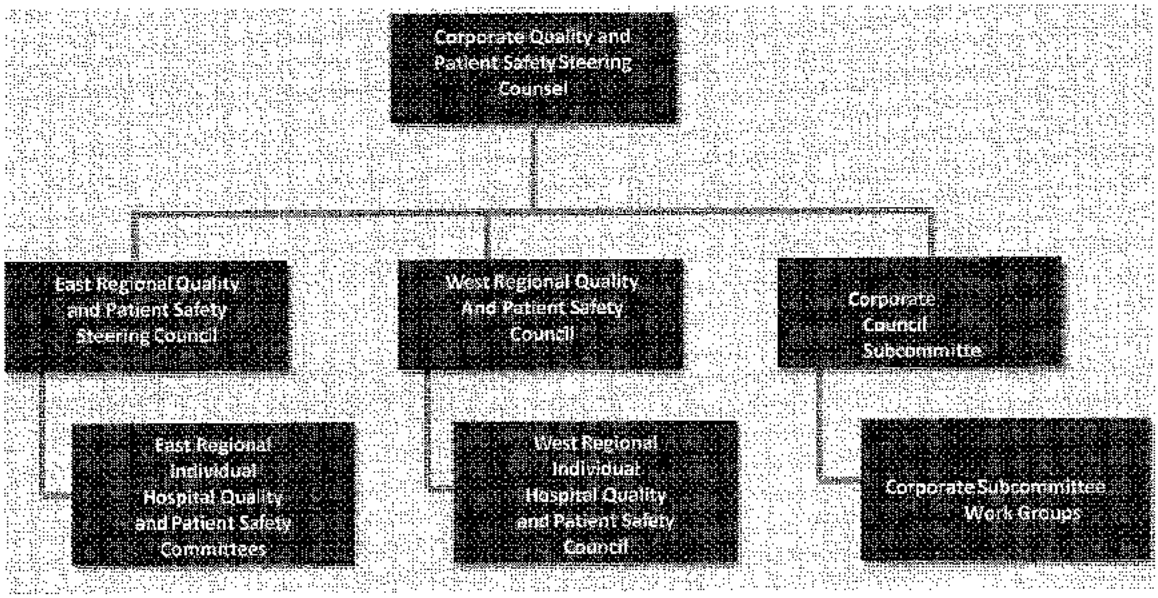
56. GWHN representatives learned of the Immediate Jeopardy citations on February 11, 2016. In response, the GWHN Board appointed a task force to review the citations and corrective actions taken and to recommend whether or not to proceed with the transaction. The task force reviewed the deficiencies and corrective action plans, conducted interviews, and made site visits to PMH-owned hospitals in both California and Rhode Island. The task force determined that PMH was committed to quality and proposed that GWHN obtain certain assurances from PMH and move forward with the transaction. Ex. R, pp. 1635-36; Testimony, Susan Cordeau, Director of Performance Improvement, GWHN, Tr. on 5/3/2016, pp. 25-31

57. Accordingly, on April 27, 2016 the parties entered into a Quality Assurance Commitment Letter pursuant to which PMH agreed to maintain certain GWHN quality programs for the first two years after the Closing Date and to not modify them without approval of the Local Board. The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospital. Ex. T, p. 1826

58. Based on the information learned and protections gained, the task force recommended, and the Board confirmed, GWHN's commitment to proceed with the transaction. Ex. R, pp. 1635-36; Testimony, Susan Cordeau, Tr. on 5/3/2016, pp. 30-31

59. Additionally, as a result of the Immediate Jeopardy citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to implement all quality programs at its local hospitals and share best practices among the hospitals. Ex. K, p. 1459; Ex. R, Prefiled Testimony of Von Crockett, pp. 1530-32

60. Other PMH initiatives include retaining a national consulting firm and legal counsel to assist in preparedness and responses to Centers for Medicare and Medicaid Services ("CMS") surveys. Under PMH's draft QAPI program, a Hospital Quality & Patient Safety Committee will be developed at the New Hospital, with oversight over subcommittees and workgroups that address the New Hospital's unique needs. These committees will report to a Regional Quality and Patient Safety Steering Council, which will report to the Corporate Quality and Patient Safety Steering Council, as described below:



Testimony of Debbie Berry, Chief Quality Officer, PMH, pp. 57-59; Ex. R, pp. 1692, 1696; Docket#15-32016-486, Tr., Testimony of Von Crockett on 3/29/15, pp. 93-94; Docket#15-32016-486, Ex. Z, Prefiled Testimony of Von Crockett, pp. 3356-57; Docket#15-32016-486, Ex. Z, pp. 3402-03; Docket#15-32016-486, Late File I, dated Apr. 20, 2016; Docket#15-32016-486, Late File 10, dated Apr. 20, 2016

61. OHCA is currently in the process of establishing its policies and standards as regulations. Therefore, OHCA has not made any findings as to this proposal's relationship to any regulations not yet adopted by OHCA. Conn. Gen. Stat. § 19a-639(a)(1)

62. The application is consistent with the overall goals of the Statewide Health Care Facilities and Services Plan. Conn. Gen. Stat. § 19a-639(a)(2)

63. The Applicants have established that there is a clear public need for the proposal. Conn. Gen. Stat. §19a-639(a)(3)

64. The Applicants have demonstrated that the proposal will improve the overall financial strength of the health care system and that it is financially feasible. Conn. Gen. Stat. §19a-639(a)(4)

65. Subject to the conditions below, the Applicants have satisfactorily demonstrated that the proposal will maintain quality, accessibility and cost effectiveness of health care delivery in the region. Conn. Gen. Stat. §19a-639(a)(5)

66. Subject to the conditions below, the Applicants have shown that there would be no adverse change in the provision of health care services to the relevant populations and payer mix, including access to services by Medicaid recipients and indigent persons. Conn. Gen. Stat. §19a-639(a)(6)

67. The Applicants have satisfactorily identified the population to be affected by this proposal. Conn. Gen. Stat. §19a-639(a)(7)

68. The historical utilization of GWHN's services in the Service Area support this proposal. Conn. Gen. Stat. §19a-639(a)(8)

69. The Applicants have satisfactorily demonstrated that this proposal would not result in an unnecessary duplication of existing services in the area. Conn. Gen. Stat. §19a-639(a)(9)

70. Subject to the conditions below, the Applicants have demonstrated that there will be no reduction in access to services by Medicaid recipients or indigent persons. Conn. Gen. Stat. §19a-639(a)(10)

71. The Applicants have satisfactorily demonstrated that the proposal will not have a negative impact on the diversity of health care providers in the area. Conn. Gen. Stat. §19a-639(a)(11)

72. The Applicants have satisfactorily demonstrated that the proposal will not result in any consolidation that would affect health care costs or accessibility to care. Conn. Gen. Stat. §19a-639(a)(12)

Discussion

CON applications are decided on a case-by-case basis and do not lend themselves to general applicability due to the uniqueness of the facts in each case. In rendering its decision, OHCA considered the factors set forth in Connecticut General Statutes § 19a-639(a) and 19a-486d. The Applicants bear the burden of proof in this matter by a preponderance of the evidence. *Jones v. Connecticut Medical Examining Board,* 309 Conn. 727 (2013).

GWHN is a non-stock, 501(c)(3) corporation that is the parent company to The Waterbury Hospital ("Hospital"), an acute care teaching hospital with 357 licensed beds plus 36 bassinets located in Waterbury, Connecticut. GWHN also holds interests in other entities, joint ventures, and affiliates. *FF1* GWHN serves the following towns: Beacon Falls, Bethlehem, Cheshire, Middlebury, Morris, Naugatuck, Oakville, Oxford, Plantsville, Plymouth, Prospect, Seymour, Southbury, Southington, Terryville, Thomaston, Torrington, Waterbury, Watertown, Wolcott, and Woodbury. *FF6* PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. *FF13* The Hospital has experienced consecutive years of losses due to poor economic conditions in the Service Area, declining government and commercial reimbursement, the increasing complexity of health care treatment, and national health care reform. Additionally the recession in 2008 led to GWHN defaulting on its bond covenants in 2009. In 2010, a consulting firm, Kaufman Hall, identified over $50 million in capital improvements required over five years to keep the Hospital operational. *FF7* The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to GWHN's long-standing challenges that offers the Service Area continued access to its services and facilities. *FF12*

Under the proposed Asset Purchase Agreement ("APA"), PMH will pay a total purchase price of approximately $43.3 million for the assets of GWHN, which includes a purchase price of $31.8 million plus a net working capital adjustment of $18.3 million, as of April 30, 2016, minus capital lease obligations in excess of $6.5 million, unfunded pension liabilities, asbestos abatement liability, the amounts of certain GWHN liabilities assumed by PMH, and for the value of any joint venture interest that GWHN is unable to assign or transfer. *FF20* PMH will commit to spend within seven years no less than $55 million, less (a) the amount not to exceed $3.5 million of capital lease obligations assumed by PMH at Closing in excess of $3 million, (b) the cash shortfall at closing (defined in the APA as the "Negative Amount"), (c) the Purchase Price Adjustment Shortfall, provided that the aggregate of the amounts in (b) and (c) are not to exceed $5.0 million in aggregate, and (d) unpaid indemnification losses of PMH (defined in the APA as the "Unpaid Losses") of up to $4.5 million, (the "Commitment Amount"). *FF21* GWHN's debt and pension obligations will also be addressed as a result of the transaction. At the time of the Closing and as permitted thereafter, the purchase price (less adjustments) together with GWHN's cash, investments and debt service reserve funds (but excluding charitable funds) will be used to satisfy GWHN's obligations. GWHN's unfunded pension liabilities with respect to its multi-

employer defined benefit health plan are estimated to be at least $27 million and, with respect to its cash balance plan, are approximately $12 million. *FF25*

With the proposed Asset Purchase, the parties expect that PMH will provide sufficient capital to meet deferred, current and future capital needs for the Hospital's physical plant to ensure state of the art health care delivery services through an upgrade of facilities, equipment and technology. With PMH's access to capital, the post-closing New Hospital will have the financial resources to purchase new technology, upgrade its facilities, attract skilled providers, and upgrade electronic health records, in addition to investing in service line development, physician alignment and recruitment and development of increasing ambulatory access. *FF34* On the Closing Date, the assets of GWHN will be transferred to Prospect Connecticut, Inc. ("New GWHN") or one or more of its affiliates. New GWHN will serve as the health system parent company and sole shareholder of Prospect Waterbury, Inc., which will hold the Hospital's license after Closing (the post-closing hospital will be referred to as "New Hospital"). *FF27*

Following Closing, the New Hospital will be governed by a board of directors controlled by PMH (the "New Hospital Board"). The New Hospital Board will have oversight and ultimate authority over the affairs of the New Hospital and the purchased assets. The New Hospital Board will be composed of executives of PMH and local employed executives of GWHN. *FF38* The New Hospital Board will be advised by a local advisory board, anticipated to be comprised of five current members of the GWHN Board, five physicians, and the CEO of the New Hospital (the "Local Board"). The Local Board will serve as a resource for PMH with respect to development and review of strategic plans, assist with maintenance and implementation of a strategic business plan for the New Hospital, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospital. *FF39*

The capital projects in the table below have been identified by GWHN management as priority capital projects to be addressed within the first three years after Closing. *FF32*

CAPITAL PRIORITY PROJECTS IDENTIFIED BY GWHN

Description	Estimated Cost (In Millions)	Estimated Timeframe (In Months)
Facility – Main Campus		
Expansion of ED/Development of urgent care*	$3.75	24-36
Upgrade OB/Women's health	$2.0	6-18
Upgrade outpatient surgery**	$2.0	6-18
Equipment		
Replace interventional radiology equipment	$1.7	12-18
Upgrade surgical/anesthesia equipment	$1.5	12-18
Outpatient Centers (Southbury, Naugatuck and Waterbury)* **	N/A	N/A
Physician Recruitment	N/A	N/A
Information Technology		
Continue IT Plan	N/A	N/A

Implement outpatient/physician practice strategy	N/A	N/A
Patient Safety****	$3.24	12-36
Total Estimated Cost	**$14.2**	

PMH plans to establish a strong physician network by recruiting high quality physicians to GWHN's medical staff. PMH has developed significant experience in other markets regarding methods of attracting more primary care providers and improving access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals (RWMC and OLFH) in mid-2014. *FF41*

With respect to its quality of health care services, PMH has had to significantly modify its Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two PMH hospitals in California, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. *FF55* GWHN representatives learned of the Immediate Jeopardy citations on February 11, 2016. In response, the GWHN Board appointed a task force to review the citations and corrective actions taken and to recommend whether or not to proceed with the transaction. The task force reviewed the deficiencies and corrective action plans, conducted interviews, and made site visits to PMH-owned hospitals in both California and Rhode Island. The task force determined that PMH was committed to quality and proposed that GWHN obtain certain assurances from PMH and move forward with the transaction. *FF56* Accordingly, on April 27, 2016 the parties entered into a Quality Assurance Commitment Letter pursuant to which PMH agreed to maintain certain GWHN quality programs for the first two years after the Closing and to not modify them without approval of the Local Board. The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospital. *FF57*

PMH aligns its hospitals and physicians under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. *FF15* The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and reducing readmissions, inpatient utilization and emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. *FF43* PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where

PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. *FF44*

In addition to addressing any quality issues, PMH has also agreed to adhere to GWHN's charity care policies for at least the first five years after Closing. For the first five years, PMH has also agreed to participate in the Medicare and Medicaid programs and accept all Medicare and Medicaid patients, provide public health programs of educational benefit to the community, and to generally promote public health, wellness, and welfare to the community by operating the New Hospital with quality standards consistent with other hospitals owned by PMH. *FF45* PMH will continue to provide financial support for community benefit and community building activities in the Waterbury area to the same degree as GWHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by the New Hospital. *FF46*

In 2013, the Hospital conducted a Community Health Needs Assessment ("CHNA"), which identified current and future health care needs of the community. The priority areas identified for the greater Waterbury community were access to care, mental health/substance abuse, overweight/obesity, and smoking/tobacco use. An implementation plan was developed to respond to the identified health needs, which PMH has agreed to support. Additionally, the Hospital has traditionally taken a lead role in developing the CHNA, and PMH has agreed to maintain GWHN's current level of involvement in developing and implementing the CHNA for five years from the Closing. *FF49* PMH has also stated that the New Hospital will be in compliance with the following general community benefit standards for at least the first three years after the Closing: (a) the New Hospital will have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors and (b) the New Hospital will operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. *FF50* PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. *FF51*

Financial benefits associated with this proposal include: operational efficiencies and economies of scale, the New Hospital's participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its

hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. *FF53*

In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. *FF19*

Based upon the aforementioned discussion of the evidence provided by the Applicants in this matter, the Applicants have satisfactorily demonstrated that PMH has made a commitment to provide health care to the uninsured and the underinsured; safeguard procedures are in place to avoid a conflict of interest in patient referral; and certificate of need authorization is justified in accordance with the principles and guidelines set forth in Connecticut General Statutes § 19a-639; those being, access to healthcare services, quality of the healthcare services, public need for the proposed project, and the financial feasibility of the proposed project.

Order

Based upon the foregoing Findings of Fact and Discussion, I respectfully recommend that the Applicants' request for the sale of substantially all of the assets of GWHN and its controlled affiliates to PMH or one or more affiliates of PMH be **Approved** under Conn. Gen. Stat. §§ 19a-486 and 19a-639 subject to the enumerated conditions (the "Conditions") set forth below.

Unless expressly provided otherwise, all Conditions of this Order shall, to the extent applicable, be binding on the Applicants, their affiliates, successors and assigns, regardless of whether New GWHN remains the parent company and sole shareholder of the New Hospital. OHCA and any successor agency shall have the right to enforce the Conditions by all means and remedies available to it under law and equity, including, but not limited to, Conn. Gen. Stat. § 19a-486g and the right to impose and collect a civil penalty under Conn. Gen. Stat. § 19a-653 against any person or health care facility or institution that fails to file required data or information within the prescribed time periods set forth in this Order. All references to days in these Conditions shall mean calendar days.

1. Within twenty (20) days following the Closing of the Asset Purchase authorized by this Order, Applicants shall submit a schedule to OHCA setting forth Waterbury Hospital's inpatient bed allocation and the location and hours of operation for all outpatient services, by department, as of the Decision Date and publish this same information on the website of the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 30*

2. Within twenty (20) days following the Closing of the Asset Purchase authorized by this Order, Applicants shall identify and provide the Certificate of Incorporation for the PMH affiliated entity that shall directly own, operate and hold the hospital license of the New Hospital post-closing. This entity shall be duly organized and validly existing under the laws of Connecticut and New GWHN shall be its parent company and sole shareholder as proposed in the CON application. OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 27*

3. Applicants shall notify OHCA in writing of the Closing of the Asset Purchase authorized by this Order within twenty (20) days of such closing and shall supply final execution copies of all agreements related to same, including but not limited to:

    a. the APA, including any and all schedules and exhibits; and

    b. Bylaws or similar governance documents for New GWHN, as well as for the New Hospital.

The Applicants may redact from the APA any information that is exempt from disclosure under Conn. Gen. Stat. § 1-210. If the Applicants redact materials in accordance with the previous sentence, the Applicants shall provide a list to OHCA which identifies in general terms the nature of the redacted material and why it is claimed to be exempt for public record purposes.

OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a) & 19a-613(b); FF 20, 21, 38, 39*

4. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement GWHN's 2016 CHNA and for conducting the New Hospital's next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:

   (i) the data that will be collected and analyzed to systematically assess health status indicators of the Service Area;
   (ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;
   (iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;
   (iv) the frequency with which the Study will be repeated;
   (v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and
   (vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospital.

   OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3) & (7); FF 49*

5. Within three (3) years following the Closing, PMH shall participate with New GWHN and the New Hospital, and the key community stakeholders and health organizations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study (available at http://www.ct.gov/dph/lib/dph/state_health_planning/sha-ship/hct2020/hct2020_state_hlth_impv_032514.pdf), as well as any applicable community health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on New Hospital's website. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement GWHN's current CHNA for the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 49*

6. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospital for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 30, 34, 43, 46*

7. Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New Hospital specific to those services that existed at the Hospital as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website of the New Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 30*

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of enhancing the understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and using evidence-based interventions.

8. Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New Hospital and its affiliates from the Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:

    a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project;

    b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and

    c. The dates and amounts of withdrawals from the New Hospital's operating account and/or any other sources of funding used to fulfill the Capital Commitment.

    The reports shall be signed by the New GWHN's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 29, 31-34*

9. For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for New GWHN and the New Hospital, respectively:

    a. The cost saving totals achieved in the following Operating Expense Categories for New GWHN and New Hospital: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

        1. the major cost savings achieved for each expense category for the semi-annual period; and

        2. the effect of these cost savings on the clinical quality of care.

    b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New GWHN and New Hospital. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 29, 31-34*

10. For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New GWHN and New Hospital, respectively. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report:

Financial Measurement/Indicators

A. Operating Performance
1. Operating Margin
2. Non-Operating Margin
3. Total Margin
B. Liquidity
1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period
C. Leverage and Capital Structure
1. Long-term Debt to Equity
2. Long-term Debt to Capitalization
3. Unrestricted Cash to Debt
4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. Equity Financing Ratio
D. Additional Statistics
1. Income from Operations
2. Revenue Over/(Under) Expense

3. Cash from Operations
4. Cash and Cash Equivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets/Retained Earnings
8. Bad Debt as % of Gross Revenue
9. Credit Ratings (S&P, FITCH or Moody's)

OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 18, 36*

11. PMH shall ensure that the New Hospital maintains and adheres to GWHN's current policies regarding charity care, indigent care and community volunteer services after the Closing Date, adopt other policies that are at least as generous and benevolent to the community as GWHN's current policies consistent with state and federal law. These policies shall be posted on the website of the New Hospital and as additionally required by applicable law. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 46*

12. For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of the New Hospital within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of the New Hospital simultaneously with its submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 46*

13. PMH shall maintain community benefit programs and community building activities for the New Hospital for three (3) years after the Closing Date consistent with the Hospital's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as GWHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent.

In determining the New Hospital's participation and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.

a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the Closing for three years and shall be posted on New Hospital's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 46*

14. The New Hospital agrees to comply with the following general community benefit standards for at least the first three years following the Closing: (a) the New Hospital shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospital shall have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors; (c) the New Hospital shall participate in the Medicare and Medicaid programs; and (d) the New Hospital shall operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 50*

15. The New Hospital shall work toward making culturally and linguistically appropriate services available and integrated throughout its hospital operations. Specifically, the New Hospital shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the New Hospital shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the New Hospital shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the Closing for three years and shall be posted on the New Hospital's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45-50*

16. Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in an HRO. The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to the New Hospital and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486d(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 18, 34, 45-50, 57*

17. The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of the New Hospital on no less than a semi-annual basis to assess PMH's modified QAPI program and compliance with the Quality Assurance Commitment Letter. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486d(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 18, 34, 45-50, 57*

18. If at any time within three (3) years following the Closing Date, the New Hospital's Local Board agrees with PMH to change any of GWHN's Post Closing Quality Practices described in the Quality Assurance Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and FLIS in writing within thirty (30) days of any such change going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-18la to make the change. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 57*

19. For three (3) years following the Closing Date, PMH shall hold a meeting of the New Hospital Board and the Local Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospital's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 38, 39*

20. For three (3) years following the Closing Date, PMH shall allow for one (1) community representative to serve as a voting member of the Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representative shall be selected in consultation with the Mayor of Waterbury in order to ensure the appointment of an unbiased person who will fairly represent the interests of the community served by the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 38, 39*

21. PMH, New GWHN and the New Hospital shall abide by all requirements of licensure that may be imposed by FLIS in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this Condition to ensure that quality health care services are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 54, 57*

Based upon the foregoing, I respectfully recommend that the CON application for the Transfer of assets of Greater Waterbury Health Network, Inc. to Prospect Medical Holdings, Inc. be approved.

P.O. Box 120
Hartford, CT 06141-0120
Attn: Atty. Gary W. Hawes, Assistant Attorney General

Re: Greater Waterbury Health Network, Inc. Proposed Asset Purchase by Prospect Medical Holdings, Inc.; Attorney General Docket Number: 15-486-02 (the "Dockets")

Dear Mr. Hawes :

We reference the proposed decision of the Office of the Attorney General issued June 24, 2016 in the above referenced docket.

We note the following minor items for your consideration:

1. References to the reduction in the Capital Commitment could be clarified to refer to the APA for additional details:

   A. Pursuant to the APA, PMH will commit to spend not less than $55,000,000 on capital items over seven years less certain amounts such as capital leases in excess of $3,000,000, the cash shortfall of GWHN at closing and certain post closing losses, all as more particularly described in the APA. (Page 5, the last sentence of the first full paragraph).

   B. Subject to the limitations set forth in the APA, the Commitment Amount may be reduced as a result of capital lease obligations greater than $3,000,000, a GWHN cash shortfall at closing and /or for unpaid losses. (Page 19, the last sentence of the last full paragraph).

2. The legal name of the hospital that is the subject of the Docket is "The Waterbury Hospital".

3. The Proposed Decision describes the activities of the group that reviewed PMH's quality issues. Please note that this group was comprised not only of physicians but also included The Waterbury Hospital's Chief Nursing Officer and the Director of Performance Improvement. Not all of the members of this group visited both the California and Rhode Island hospitals.

Thank you and your colleagues for your professionalism and diligence in reviewing this Application.

□im Martone, Director of Operations
Connecticut Department of Public Health
410 Capitol Avenue
Hartford, CT 06134

Dear Ms. Martone,

Waterbury Hospital has been an important part of our community institutions since its beginning as a grass roots effort based in local churches. Our communities of faith have clearly stated that health care is a right for all.

Naugatuck Valley Project (NVP) and its member organi□ations, composed of faith communities, labor unions, and other community based entities, has always focused on just treatment of all members of our communities in the valley. As a representative of NVP I am asking that the final version of the OCHA CON has as conditions a *signed* Community Benefits Agreement and an extension of charity care, Medicare and Medicaid for *five* years with a possibility for extending that period.

For the last four plus years we have struggled to protect the best practices of our local non-profit hospital that has been working to be ac□uired by a for profit entity. Our goal has been to support continuity of care for all, as well as protections for hospital workers. We need your help to encourage strong community care, community and worker stability of the largest employer in the city of Waterbury Our goal has *not* been obstruction, but rather a concern that Waterbury Hospital continue its important role in the economies and care of its community

A signed Community Benefits agreement as well as a five-year commitment to the un- and under-insured highlights Prospect Medical□s responsibility to the community it serves. We also support Prospect□s paying all property taxes rather than receiving an abatement to offset State support for a not-for-profit entity. A for-profit hospital should not incur a loss of revenue to the city. Hospital workers□agreements must be honored to prevent further economic harm to the city□s tax base.

We need you to use your power to issue the Certificate of Need to make a signed community benefits agreement as a condition of issuing the CON. This is the type of direct accountability that we need to promote a hospital that will ensure the continued access to health care services for all patient populations. A few areas covered by our proposed community benefits agreement not ade□uately addressed in OCHA□s proposed final decision are:

- Maintaining participation in Medicaid and Medicare for a minimum of five years and discussing continuing beyond that with the community
- Maintaining hospital staffing according to state law
- Paying local property taxes for the full amount of the Hospital□s value
- Completing facility based transparency similar to the IRS 990 form regarding finances, staffing and services provided using the Waterbury Health Department website

We believe that the government□s role is to help build a better future by promoting the general welfare. We believe that a signed community benefits agreement should be part of this policy. Our community cannot take on a □9 billion corporation alone; you can make the difference.

We have an opportunity to create a community benefit □one where this healthcare corporation meets the needs of the community, creates and protects good jobs, provides □uality services, maintains justice on the job for the workers, and contributes its fair share toward public needs and complies with local state and federal laws.

We hope that you will join us in this effort

Sincerely,

Bonnie Odiorne

Subject: Community United comments on proposed CON for Prospect Medical Holdings and Waterbury Hospital

Community United for Jobs, Healthcare and Opportunity
c/o NVP 16 Church Street Waterbury, CT 06702

July 1, 2016

Jim Martone, Director of Operations
Connecticut Department of Public Health
410 Capitol Avenue
Hartford, CT 06134

Dear Ms. Martone,

Waterbury Hospital has been a community institution since its birth was made possible with the pennies and nickels collected in local churches. This self-help bootstrap philosophy is consistent with Waterbury's history and part of the story of our country.

Since the beginning of our country we have been charting a course that has led to expanding our liberty and the empowerment of the individual. One example is the right to vote. Decades of struggles led to enfranchisement for white men who did not own property, African Americans, women and 18-21 year olds. Now is the time to take another step in that tradition of increasing our liberty and power by requiring healthcare institutions to be directly accountable to the community that they serve.

For the last 4 plus years we have struggled to move forward by protecting what are the best elements of our local non-profit hospital. We need your help, we cannot do it alone.

We have met with hospital officials and they have refused to be directly accountable to the community through the most important tool used by all businesses, a written contract. We have asked the Mayor of Waterbury for help and he is not interested in assisting us. He is more interested in giving corporate welfare in the form of property tax breaks than in securing a written agreement from the hospital with the community.

We need you to use your power to require a signed written community benefits agreement as a condition to receiving a Certificate of Need to purchase a non-profit

hospital. This is the type of direct accountability that we need to ensure the continued access to health care services for our patient population.

A few areas covered by our proposed community benefits agreement not ade□uately address in OCHA□s proposed final decision are:

- Maintain participation in Medicaid and Medicare for a minimum of 5 years and discuss continuing beyond that with the community
- Maintain hospital staffing according to state law
- Payment of local property taxes for the full amount of the Hospital□s value not just the e□uivalent of the current PILOT reimbursement
- Complete facility based financial transparency similar the IRS 990 form regarding finances, staffing and services and made publically available on the Waterbury Health Department website
- Continued dialogue with the broader community about services, □uality of care and other crucial issues

We believe that the government□s role is to help build a better future by promoting the general welfare. We believe that a signed community benefits agreement should be part of this policy. □eeping in mind our forbearers who contributed their hard earn money to build a hospital, we think a signed agreement with the community is not asking too much. Our community cannot take on a □9 billion corporation alone, you can make the difference.

We have an opportunity to create a community benefit □one where this healthcare corporation meets the needs of the community, creates and protects good jobs, provides □uality services, maintains justice on the job for the workers, contributes their fair share for public needs and complies with local state and federal laws.

We hope that you will join us in this effort

Sincerely,

Steve Schrag

Steve Schrag
Community United

Waterbury Hospital community benefits agreement

Section 1-There will be no change in service lines or locations such as behavioral mental health, cardiology, cancer services, diagnostic and imaging services, emergency department, family birthing and neonatal care, gastroenterology, infectious disease clinic, intensive critical care, outpatient medical therapies, primary care, pulmonary, rehabilitation, surgical and telemetry

Section 2-The Hospital will maintain current policies on charity care for a minimum of 5 years with the possibility of extending it based on future discussions with the community

Section 3-While Waterbury Hospital is owned by a Prospect affiliate it will provide charity care-under applicable law unless otherwise negotiated with the community

Section 4-The Hospital will accept Medicaid and Medicare for a minimum of 5 years with possibility of extending that based on future discussions with the community

Section 5-The Hospital will maintain staffing according to state law

Section 6-The Hospital will continue to have cultural and linguistic appropriate services available to patients

Section 7-The Hospital will hire employees under usual and customary hiring process and will work with the appropriate unions to ensure continuity and stability in the workforce

Section 8-There will be a local board created with additional advisory committees to solicit community ideas and input

Section 9-The Hospital will seek input for capital projects from the local board and advisory committee to help identify community needs

Section 10-The Hospital will seek input for capital projects from the local board and advisory committee to help identify community needs

There shall be ongoing dialogue and discussion with Community United and others to identify language and appropriate methods of accountability regarding the following concerns:

- Payment of property taxes for the full amount of the Hospital s value
- Conducting a Community health assessment as often and with the same effort that is re uired of non-profit hospitals
- Negotiation of a successor clause that will ensure that all sections of this agreement will last in perpetuity
- Complete facility based transparency regarding finances, staffing and services provided by using the Waterbury Health Department website
- maintain support for parent engagement programs
- full-time clergy to meet the needs of patients and share appropriate staffing data with the community

_____	_____	_____
Thomas Reardon For Prospect Medical	Mayor Neil O'Leary for city of Waterbury	Steven Schrag for Community United

Office of Health Care Access

We are writing as leaders of Greater Waterbury faith communities to ask that you condition your approval of the sale of Waterbury Hospital to Prospect Medical Group: East on the inclusion of a Community Benefits Agreement (CBA) between Prospect and the Waterbury Community.

As faith leaders, we hear stories daily from the people whose health and well-being depends upon access to these benefits. We believe that e□uity, fairness and justice demand these benefits be preserved in any future ownership arrangement.

The community benefits that are currently provided to low-income and other individuals in accordance with Waterbury Hospital□s status as a non-profit hospital provide vital care and services to members of our congregations and the community at large. They also represent an important bond in the relationship between the hospital and the broader community that has supported and relied on it for many years.

We urge you to ensure that the hospital continues its critical role in the community by offering good jobs, providing affordable care to those in need, contributing to its civic and financial welfare, and maintaining a substantive dialogue with the community about any concerns that may arise. We urge you to issue a ruling that reflects that concern.

Universal Health Care Foundation of Connecticut submits the following public comment on Docket Number 15-32017-486, in the matter concerning the transfer of assets of Greater Waterbury Health Network, Inc. (GWHN) to Prospect Medical Holdings, Inc. (PMH).

We applaud the Office of Health Care Access (OHCA) diligence in this matter, and many of the conditions OHCA has placed on this transfer of assets, which serve to ensure continued access for the community.

We do have some suggestions that will strengthen patient access, consumer protections, community engagement, and that will address community needs.

We support Community United for Jobs, Healthcare and Opportunity's request for a Community Benefits Agreement as an additional condition for this transfer of assets (see Page 4 of this document).

This group of community activists have been shut out of any discussions with the existing and proposed owners of Greater Waterbury Health Network. We believe that local hospitals are a cornerstone in the community, and that regardless of who owns the institution, health care providers should be held accountable to the communities they serve. Part of that accountability includes a good faith discussion of what the community needs, and a written agreement between the community and the prospective owners of the hospital. We suggest requiring that a Community Benefits Agreement be negotiated and signed within twenty (20) days of the deal closing.

We also suggest the addition of a condition that requires Prospect Medical Holdings, Inc., as a for-profit corporation, pay property taxes to the city of Waterbury, and any other towns where PMH will now hold property, with taxes being assessed on the full value of GWHN.

In regards to Condition 4, in the Order (page 27), which concerns the "Health Needs Plan" and a Community Health Needs Assessment, we suggest that OHCA require the "Health Needs Study," and subsequent plan, are implemented *every three years*, rather than allow PMH to determine the frequency of the study. Currently, CHNAs are required of non-profit hospitals every three years. While PMH is for-profit, we still support a health needs assessment being conducted every three years, to ensure that PMH is responsive to the needs of the community.

Relatedly, in Condition 5 (pages 27-28), OHCA requires that PMH utilize as a starting point the Healthy Connecticut 2020 State Health Improvement Plan and any "community health improvement plan issued by any local health department in the Service Area." We suggest that the language clarify that this is only a starting point and that PMH is not limited to these resources.

Condition 6 (page 28) requires PMH to submit a plan that includes "any consolidation, reduction, or elimination of existing services or introduction of new services." We recommend that the community have the opportunity to read and weigh in on the "Services Plan," and that any proposed changes gain approval through Certificate of Need, including public notice and a public hearing.

We suggest that information that is reported to OHCA as set forth in Conditions 9, 12 and 13a, also be copied to the Office of the Health Care Advocate, and any other officials, such as state representatives and state senators of the "Service Area," and local public health departments. Any changes should have public notice, and the ability for the public to comment on the changes. Additionally, the information regarding PMH's community benefits and community building in relation to the CHNA, "Health Needs Study" and other objectives should be submitted annually after the Closing Date, rather than submitted for only three years after the Closing Date.

Condition 16 (page 3) stipulates the contracting of an Independent Monitor for a minimum period of 2 years. We recommend that rather than the option for the Independent Monitor to be extended one year, that there is the option for continued year-to-year extension if the Independent Monitor or OHCA become aware of non-compliance with the Conditions set forth in the final decision.

We suggest another condition that requires an independent multi-year evaluation of the hospital's service and financial performance over the first 5 years to determine whether converting back to non-profit status is an option to consider. PMH should be required to pay for this evaluation in its entirety, but must not have any hand in selecting the evaluator or in the design or conduct of the evaluation process. The evaluation should include authentic community engagement, and an assessment, by the community, of GWHN after PMH takes over ownership. An entity, such as the Connecticut Community Foundation or the Waterbury Campus of the University of Connecticut, should be asked to manage the evaluation process, to ensure an accurate, honest assessment of PMH's performance managing Waterbury Hospital and GWHN.

In Condition 19 (page 34), the twice annual "Joint Board Meetings" should not only include an opportunity for the public to ask "questions and make comments, but a requirement that PMH submit a written response to the public's "questions and comment. After the first three years, we recommend that these meetings occur at least annually.

In Condition 20 (page 34), OHCA requires a community representative to serve on the Local Board as a voting member. We suggest that PMH be accountable to a Community Board (separate from the Local Board). This Community Board would be comprised of a minimum of 50" community residents of the geographic areas contiguous to the hospital, including significant representation by residents of adjacent neighborhoods. The remaining seats should be held by members of the local business community, philanthropic community, academic institutions, and individuals (independent of PMH), knowledgeable about hospital finances, health law and service delivery planning. PMH should be required to report to the Community Board "uarterly (or twice a year) on the hospital's financial condition and the status of the other conditions of the Community Benefits Agreement. Quarterly meetings must be properly noticed and held at a location and time convenient to the board and to the local community.

Generally, we strongly support and recommend any conditions on this transaction that keeps the community informed of any changes in GWHN and at Waterbury Hospital, and gives the public and community recourse for not only commenting on changes, but that a public hearing be conducted *before* any changes take place.

Ultimately, we want protections in place in light of historical events at Essent Sharon Hospital and Windham Community Memorial Hospital (WCMH). Despite conditions on the Sharon Hospital conversion, the community continues to struggle to be informed and engaged with changes at Sharon Hospital. WCMH's downgrade from running a Critical Care Unit (CCU) to a Progressive Care Unit (PCU) did not fall under the purview of the conditions set forth on that deal, nor Certificate of Need.

For this deal, we suggest that the community have the explicit right to be notified of changes, comment on any changes, including how it will affect patient access and quality of care in the community, and that a public hearing be conducted where the Waterbury Hospital and GWHN new leadership will have the opportunity to hear from the community directly, as well as respond to questions. We suggest that no major changes be made without explicit approval from OHCA, and that approval will solicit and take into account community input.

Again, we reiterate that Community United's request for a signed Community Benefits Agreement from PMH, should be a condition on this deal. The group should be commended for their civic involvement in this matter, and their input should be respected, discussed, and an agreement reached. Community United represents what the community wants from the deal and, no matter who runs Waterbury Hospital and GWHN, the hospital and its network should be ultimately accountable to the community it serves.

Waterbury Hospital Community Benefits Agreement

Section 1-There will be no change in service lines or locations such as behavioral□mental health, cardiology, cancer services, diagnostic and imaging services, emergency department, family birthing and neonatal care, gastroenterology, infectious disease clinic, intensive□critical care, outpatient medical therapies, primary care, pulmonary, rehabilitation, surgical and telemetry

Section 2-The Hospital will maintain current policies on charity care for a minimum of 5 years with the possibility of extending it based on future discussions with the community

Section 3-While Waterbury Hospital is owned by a Prospect affiliate it will provide charity care-under applicable law unless otherwise negotiated with the community

Section 4-The Hospital will accept Medicaid and Medicare for a minimum of 5 years with possibility of extending that based on future discussions with the community

Section 5-The Hospital will maintain staffing according to state law

Section 6-The Hospital will continue to have cultural and linguistic appropriate services available to patients

Section 7-The Hospital will hire employees under usual and customary hiring process and will work with the appropriate unions to ensure continuity and stability in the workforce

Section 8-There will be a local board created with additional advisory committees to solicit community ideas and input

Section 9-The Hospital will seek input for capital projects from the local board and advisory committee to help identify community needs

Section 10-The Hospital will seek input for capital projects from the local board and advisory committee to help identify community needs

There shall be ongoing dialogue and discussion with Community United and others to identify language and appropriate methods of accountability regarding the following concerns:

- Payment of property taxes for the full amount of the Hospital□s value
- Conducting a Community health assessment as often and with the same effort that is re□uired of non-profit hospitals
- Negotiation of a successor clause that will ensure that all sections of this agreement will last in perpetuity
- Complete facility based transparency regarding finances, staffing and services provided by using the Waterbury Health Department website
- maintain support for parent engagement programs
- full-time clergy to meet the needs of patients and share appropriate staffing data with the community

Thomas Reardon Mayor Neil O□Leary Steven Schrag

For Prospect Medical For City of Waterbury For Community United

Office of Health Care Access

We are writing as leaders of Greater Waterbury faith communities to ask that you condition your approval of the sale of Waterbury Hospital to Prospect Medical Group: East on the inclusion of a Community Benefits Agreement (CBA) between Prospect and the Waterbury Community.

As faith leaders, we hear stories daily from the people whose health and well-being depends upon access to these benefits. We believe that e□uity, fairness and justice demand these benefits be preserved in any future ownership arrangement.

The community benefits that are currently provided to low-income and other individuals in accordance with Waterbury Hospital□s status as a non-profit hospital provide vital care and services to members of our congregations and the community at large. They also represent an important bond in the relationship between the hospital and the broader community that has supported and relied on it for many years.

We urge you to ensure that the hospital continues its critical role in the community by offering good jobs, providing affordable care to those in need, contributing to its civic and financial welfare, and maintaining a substantive dialogue with the community about any concerns that may arise. We urge you to issue a ruling that reflects that concern.

Public Comment on Proposed Final Decision in Docket Number 1□-32017-486
(Transfer of assets of Greater Waterbury Health Network, Inc. to Prospect Medical Holdings, Inc.)
Submitted by Universal Health Care Foundation of Connecticut
Contact Person: Rosana Garcia, Policy Associate
E: rgarcia@universalhealthct.org | P: (203) 639-0550 ext. 314

Universal Health Care Foundation of Connecticut submits the following public comment on Docket Number 15-32017-486, in the matter concerning the transfer of assets of Greater Waterbury Health Network, Inc. (GWHN) to Prospect Medical Holdings, Inc. (PMH).

We applaud the Office of Health Care Access' (OHCA) diligence in this matter, and many of the conditions OHCA has placed on this transfer of assets, which serve to ensure continued access for the community.

We do have some suggestions that will strengthen patient access, consumer protections, community engagement, and that will address community needs.

We support Community United for Jobs, Healthcare and Opportunity's request for a Community Benefits Agreement as an additional condition for this transfer of assets (see Page 4 of this document).

This group of community activists have been shut out of any discussions with the existing and proposed owners of Greater Waterbury Health Network. We believe that local hospitals are a cornerstone in the community, and that regardless of who owns the institution, health care providers should be held accountable to the communities they serve. Part of that accountability includes a good faith discussion of what the community needs, and a written agreement between the community and the prospective owners of the hospital. We suggest requiring that a Community Benefits Agreement be negotiated and signed within twenty (20) days of the deal closing.

We also suggest the addition of a condition that requires Prospect Medical Holdings, Inc., as a for-profit corporation, pay property taxes to the city of Waterbury, and any other towns where PMH will now hold property, with taxes being assessed on the full value of GWHN.

In regards to Condition 4, in the Order (page 27), which concerns the "Health Needs Plan" and a Community Health Needs Assessment, we suggest that OHCA request the "Health Needs Study," and subsequent plan, are implemented *every three years*, rather than allow PMH to determine the frequency of the study. Currently, CHNAs are required of non-profit hospitals every three years. While PMH is for-profit, we still support a health needs assessment being conducted every three years, to ensure that PMH is responsive to the needs of the community.

Relatedly, in Condition 5 (pages 27-28), OHCA requires that PMH utilize as a starting point the Healthy Connecticut 2020 State Health Improvement Plan and any "community health improvement plan issued by any local health department in the Service Area." We suggest that the language clarify that this is only a starting point and that PMH is not limited to these resources.

Condition 6 (page 28) requires PMH to submit a plan that includes "any consolidation, reduction, or elimination of existing services or introduction of new services." We recommend that the community have the opportunity to read and weigh in on the "Services Plan," and that any proposed changes gain approval through Certificate of Need, including public notice and a public hearing.

Any changes should have public notice, and the ability for the public to comment on the changes. Additionally, the information regarding PMH's community benefits and community building in relation to the CHNA, "Health Needs Study" and other objectives should be submitted annually after the Closing Date, rather than submitted for only three years after the Closing Date.

Condition 16 (page 3) stipulates the contracting of an Independent Monitor for a minimum period of 2 years. We recommend that rather than the option for the Independent Monitor to be extended one year, that there is the option for continued year-to-year extension if the Independent Monitor or OHCA become aware of non-compliance with the Conditions set forth in the final decision.

We suggest another condition that requires an independent multi-year evaluation of the hospital's service and financial performance over the first 5 years to determine whether converting back to non-profit status is an option to consider. PMH should be required to pay for this evaluation in its entirety, but must not have any hand in selecting the evaluator or in the design or conduct of the evaluation process. The evaluation should include authentic community engagement, and an assessment, by the community, of GWHN after PMH takes over ownership. An entity, such as the Connecticut Community Foundation or the Waterbury Campus of the University of Connecticut, should be asked to manage the evaluation process, to ensure an accurate, honest assessment of PMH's performance managing Waterbury Hospital and GWHN.

In Condition 19 (page 34), the twice annual "Joint Board Meetings" should not only include an opportunity for the public to ask questions and make comments, but a requirement that PMH submit a written response to the public's questions and comment. After the first three years, we recommend that these meetings occur at least annually.

In Condition 20 (page 34), OHCA requires a community representative to serve on the Local Board as a voting member. We suggest that PMH be accountable to a Community Board (separate from the Local Board). This Community Board would be comprised of a minimum of 50% community residents of the geographic areas contiguous to the hospital, including significant representation by residents of adjacent neighborhoods. The remaining seats should be held by members of the local business community, philanthropic community, academic institutions, and individuals (independent of PMH), knowledgeable about hospital finances, health law and service delivery planning. PMH should be required to report to the Community Board quarterly (or twice a year) on the hospital's financial condition and the status of the other conditions of the Community Benefits Agreement. Quarterly meetings must be properly noticed and held at a location and time convenient to the board and to the local community.

Generally, we strongly support and recommend any conditions on this transaction that keeps the community informed of any changes in GWHN and at Waterbury Hospital, and gives the public and community recourse for not only commenting on changes, but that a public hearing be conducted *before* any changes take place.

Ultimately, we want protections in place in light of historical events at Essent Sharon Hospital and Windham Community Memorial Hospital (WCMH). Despite conditions on the Sharon Hospital conversion, the community continues to struggle to be informed and engaged with changes at Sharon Hospital. WCMH's downgrade from running a Critical Care Unit (CCU) to a Progressive Care Unit (PCU) did not fall under the purview of the conditions set forth on that deal, nor Certificate of Need.

For this deal, we suggest that the community have the explicit right to be notified of changes, comment on any changes, including how it will affect patient access and quality of care in the community, and that a public hearing be conducted where the Waterbury Hospital and GWHN new leadership will have the opportunity to hear from the community directly, as well as respond to questions. We suggest that no major changes be made without explicit approval from OHCA, and that approval will solicit and take into account community input.

Again, we reiterate that Community United's request for a signed Community Benefits Agreement from PMH, should be a condition on this deal. The group should be commended for their civic involvement in this matter, and their input should be respected, discussed, and an agreement reached. Community United represents what the community wants from the deal and, no matter who runs Waterbury Hospital and GWHN, the hospital and its network should be ultimately accountable to the community it serves.

Waterbury Hospital Community Benefits Agreement

Section 1-There will be no change in service lines or locations such as behavioral/mental health, cardiology, cancer services, diagnostic and imaging services, emergency department, family birthing and neonatal care, gastroenterology, infectious disease clinic, intensive/critical care, outpatient medical therapies, primary care, pulmonary, rehabilitation, surgical and telemetry

Section 2-The Hospital will maintain current policies on charity care for a minimum of 5 years with the possibility of extending it based on future discussions with the community

Section 3-While Waterbury Hospital is owned by a Prospect affiliate it will provide charity care-under applicable law unless otherwise negotiated with the community

Section 4-The Hospital will accept Medicaid and Medicare for a minimum of 5 years with possibility of extending that based on future discussions with the community

Section 5-The Hospital will maintain staffing according to state law

Section 6-The Hospital will continue to have cultural and linguistic appropriate services available to patients

Section 7-The Hospital will hire employees under usual and customary hiring process and will work with the appropriate unions to ensure continuity and stability in the workforce

Final Decision

Applicants:	Greater Waterbury Health Network, Inc. 64 Robbins Street Waterbury, CT 06708 Prospect Medical Holdings, Inc. 10780 Santa Monica Boulevard Suite 400 Los Angeles, CA 90025
Docket Number:	15-32017-486
Project Title:	Transfer of assets of Greater Waterbury Health Network, Inc. to Prospect Medical Holdings, Inc.

Procedural History: On July 16, 2015, the Applicants filed with the Office of Health Care Access ("OHCA") and the Office of the Attorney General ("OAG") the Certificate of Need ("CON") Determination Letter proposing the transfer of assets of Greater Waterbury Health Network, Inc. and affiliates ("GWHN") to Prospect Medical Holdings, Inc. ("PMH"). The Applicants filed the application for the proposal on October 28, 2015. On March 4, 2016, OHCA and the OAG deemed the application complete.

On April 8, 2016, OHCA and the OAG notified the Applicants of the date, time and place of the public hearing. A notice to the public announcing the hearing was published in the *Republican American*. Thereafter, pursuant to Conn. Gen. Stat. §19a-639a and §19a-486, a public hearing regarding this application was held on May 3, 2016, jointly by OHCA and the OAG.

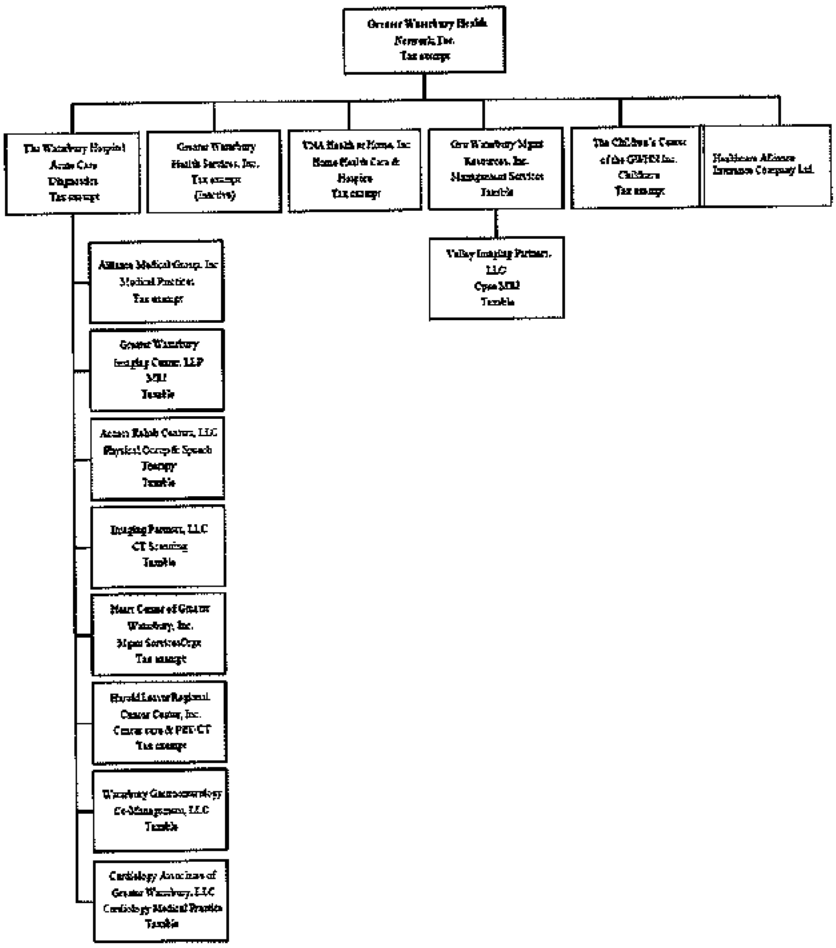
Attorney Kevin T. Hansted was designated as the hearing officer in this matter. The hearing was conducted in accordance with the provisions of the Uniform Administrative Procedures Act (Chapter 54 of the Conn. Gen. Stat.) and Conn. Gen. Stat. §19a-639a(f). The public hearing record was closed on July 11, 2016. Deputy Commissioner Brancifort reviewed the entire record in this matter, including the public comments received by OHCA after the issuance of the Proposed Final Decision.

To the extent the findings of fact actually represent conclusions of law, they should be so considered, and vice versa. *SAS Inst., Inc. v. S & H Computer Systems, Inc.*, 605 F. Supp. 816 (Md. Tenn. 1985).

Findings of Fact

1. GWHN is a non-stock, 501(c)(3) corporation that is the parent company to The Waterbury Hospital ("Hospital"), an acute care teaching hospital with 357 licensed beds plus 36 bassinets located in Waterbury, Connecticut. GWHN also holds interests in other entities, joint ventures, and affiliates. The chart below describes GWHN's current organizational structure:



Ex. E, p. 13

2. In addition to the Hospital, which is wholly owned by GWHN, GWHN is also an equity holder in the following entities: Healthcare Alliance Insurance Company, Ltd. ("HAIC," of which GWHN is a 50% owner), Greater Waterbury Health Services, Inc. ("GWHS," which is wholly-owned by GWHN), VNA Health at Home, Inc. (wholly-owned by GWHN), Greater Waterbury Management Resources, Inc. (wholly-owned by GWHN;

this company also has a 49% ownership in Valley Imaging, LLC), and Children's Center of Greater Waterbury Health Network, Inc. ("CCGWHN," which is wholly-owned by GWHN). Ex. E, pp. 15-16

3. The Hospital has ownership interests in the following entities: Alliance Medical Group, Inc. (wholly-owned by the Hospital), Greater Waterbury Imaging Center Limited Partnership (64% owned by the Hospital), Access Rehab Centers LLC (65% owned by the Hospital), Imaging Partners, LLC (85% owned by the Hospital), Waterbury Gastroenterological Co-Management Company, LLC (the Hospital is the sole Class H Member and has certain management rights), and Cardiology Associates of Greater Waterbury, LLC (wholly-owned by the Hospital). Ex. E, pp. 15-17

4. Additionally, the Hospital is a corporate member of two not-for-profit joint ventures with Saint Mary's Hospital ("SMH"): the Harold Leever Regional Cancer Center, Inc. and the Heart Center of Greater Waterbury, Inc. Ex. E, p. 17

5. The Hospital is GWHN's primary asset. It is a "safety net" hospital, treating a large number of Medicare, Medicaid and uninsured patients. Discharges for these three payers represent approximately 80% of the total patient days and 75.6% of emergency room outpatient visits. Ex. E, pp. 13, 15-16

6. The Hospital serves the following towns: Beacon Falls, Bethlehem, Cheshire, Middlebury, Morris, Naugatuck, Oakville, Oxford, Plantsville, Plymouth, Prospect, Seymour, Southbury, Southington, Terryville, Thomaston, Torrington, Waterbury, Watertown, Wolcott, and Woodbury (the "Service Area"). Ex. E, p. 51

7. The Hospital has experienced consecutive years of losses due to poor economic conditions in the Service Area, declining government and commercial reimbursement, the increasing complexity of health care treatment, and national health care reform. Additionally the recession in 2008 led to GWHN defaulting on its bond covenants in 2009. In 2010, a consulting firm, Kaufman Hall, identified over $50 million in capital improvements required over five years to keep the Hospital operational. Ex. E, pp. 22-24, 333-434; Ex. R, Prefiled Testimony of Carl Contadini, Chairman of the Board, GWHN, p. 1509

8. In 2010, the Executive Committee of the GWHN Board of Directors (the "Board") recommended that the Hospital seek a capital partner and a task force was formed (the "Task Force"). Ex. E, p. 24

9. In 2011, the GWHN Board voted to authorize the negotiation of an agreement with LHP Hospital Group ("LHP") and SMH, but LHP ultimately terminated the proposed venture, citing the costs of building a replacement hospital and issues related to the Ethical and Religious Directives for Catholic Health Care Services. Ex. E, pp. 24-25

10. On September 4, 2012, the Board authorized the Task Force to pursue other opportunities, ultimately leading to the submission of proposals by Vanguard Health Systems, Inc. ("Vanguard") and PMH. PMH proposed an asset purchase transaction, while Vanguard proposed both an asset purchase transaction and a joint venture arrangement. Preferring a joint venture, GWHN pursued a relationship with Vanguard, and a Conversion Application and a CON Application were submitted. The OAG and OHCA issued decisions placing a number of conditions on the transaction, and Tenet Health Corporation (which had acquired Vanguard) withdrew the application. Ex. E, pp. 25-26, 29-30, 88-119

11. In early 2015, the Task Force requested that Cain Brothers, an investment advisory firm, look for new prospective partners. PMH was one of two candidates to indicate interest and, despite GWHN's declining financial performance, agreed to a deal similar to the proposed Tenet transaction. The Task Force approved PMH's proposed letter of intent and the Board authorized its execution, which occurred on May 1, 2015. After conducting due diligence, the Board adopted resolutions approving the transaction and the filing of the CON, as well as recommending to the various members of GWHN that they approve the transaction. On October 2, 2015, the GWHN members approved the transaction and authorized the Board to take all action to consummate the transaction. Ex. E, pp. 31-33, 88-119

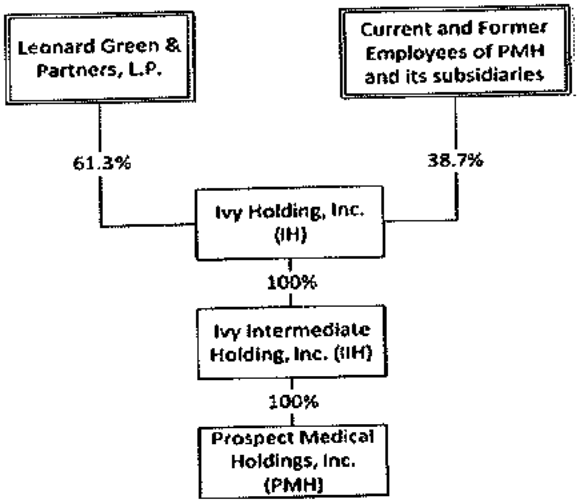
12. The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to GWHN's long-standing challenges that offers the Service Area continued access to its services and facilities. Ex. R, Prefiled Testimony of Carl Contadini, p. 1510

13. PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. Ex. E, pp. 18, 171-72

14. Through PMH's medical group segment, PMH also manages the provision of physician services in each of its markets through a network of approximately 8,900 physicians. The physician networks operate as independent practice associations ("IPAs") that contract with PMH-owned management service organizations ("MSOs"). The IPAs are comprised of both PMH-employed and independent community physicians. Ex. E, p. 18; Ex. R, Prefiled Testimony of Mitchell Lew, President, PMH, pp. 1605, 1607-08; Testimony of Mitchell Lew on 5/3/2016, pp. 37-38

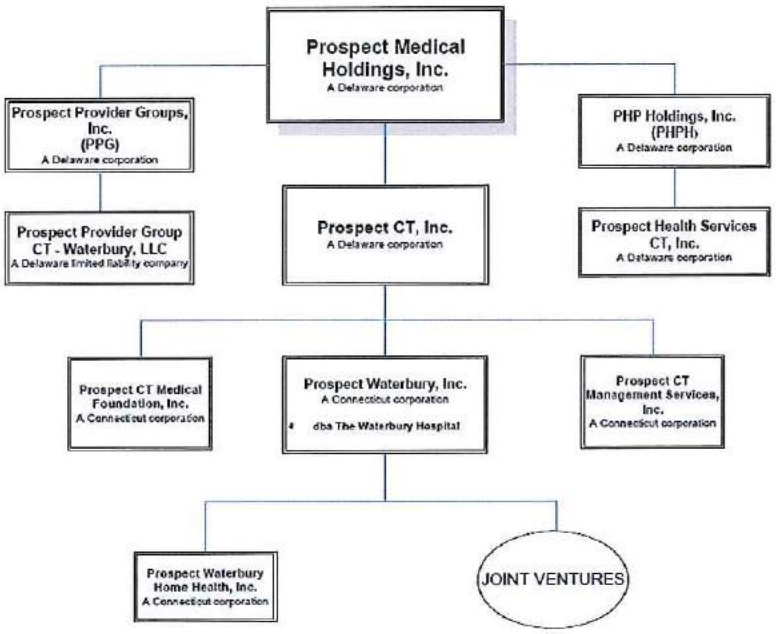
15. PMH aligns its hospitals and physicians under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. Ex. E, pp. 89

16. The chart below shows PMH's current ownership structure:



Ex. H, p. 1413

17. The chart below shows PMH's proposed organizational structure below the holding company level after the proposed transaction:



Ex. E, p. 68

18. GWHN selected PMH as the proposed purchaser because its financial resources and access to capital are anticipated to maintain GWHN's assets as economically viable and vibrant parts of the healthcare system in the Service Area by permitting capital investments, better preparing the Hospital to participate in new value-based delivery models, offering enhanced practice options for physicians, strengthening its network of providers and allowing for other improvements in operations. Ex. R, Prefiled Testimony of Mitchell Lew, p. 1606; of Ex. R, Prefiled Testimony of Darlene Stromstad, President & CEO, GWHN, pp. 1516-20; Ex. R, Prefiled Testimony of Von Crockett, Senior Vice President of Corporate Development, PMH, pp. 1537-39

19. In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. Ex. R, Prefiled Testimony of Steven Aleman, Chief Financial Officer, PMH, p. 1620; Testimony of Steven Aleman, Tr. on 5/3/2016, p. 113; Docket#15-32016-486, Ex. N, pp. 3245, 3249-59; Ex. K, pp. 1445-46

20. Under the proposed Asset Purchase Agreement ("APA"), PMH will pay a total purchase price of approximately $43.3 million for the assets of GWHN, which includes a purchase price of $31.8 million plus a net working capital adjustment of $18.3 million, as of April 30, 2016, minus capital lease obligations in excess of $6.5 million, unfunded pension liabilities, asbestos abatement liability, the amounts of certain GWHN liabilities assumed by PMH, and for the value of any joint venture interest that GWHN is unable to assign or transfer. Ex. E, pp. 12, 20, 71, 147; Ex. F, p.1419; Late File 3, pp. 1848-49

21. PMH will commit to spend within seven years no less than $55 million, less (a) the amount not to exceed $3.5 million of capital lease obligations assumed by PMH at Closing in excess of $3 million, (b) the cash shortfall at closing (defined in the APA as the "Negative Amount"), (c) the Purchase Price Adjustment Shortfall, provided that the aggregate of the amounts in (b) and (c) are not to exceed $5.0 million in aggregate, and (d) unpaid indemnification losses of PMH (defined in the APA as the "Unpaid Losses") of up to $4.5 million, (the "Commitment Amount"). (Revised APA draft dated June 10, 2016, pages 1861and 1977).

22. There is no financing contingency with respect to this transaction. PMH anticipates funding this acquisition using its existing cash. PMH also has access to a preapproved $40 million revolving line of credit with Morgan Stanley and, as shown below, PMH has provided data showing that its debt leverage ratio is lower than other for-profit hospital systems.

Industry Debt Leverage Ratio Comparison	
Entity	**Ratio**
Prospect	2.71X
Hospital Corporation of America	3.7X
Community Health Systems	5.4X
Tenet	6.3X

Ex. R, Prefiled Testimony of Steven Aleman, p. 1621; Ex. E, p. 69, Ex, K, p.1445; Docket#15-32016-486, Ex. K, p. 2191

23. Closing the transaction is estimated to require only $27 million in cash from PMH. By the closing date (the "Closing" or "Closing Date"), PMH anticipates it will have close to $100 million in cash on hand as a result of its growth in revenues, which are generating $10-15 million of free cash flow on a monthly basis. The $40 million revolving line of credit, which PMH recently drew down to $10 million to finance its purchase of East Orange General Hospital in New Jersey, is also expected to be restored to $30 million by the Closing. Ex. F, p. 1419; Late File 3, p. 1849; Testimony of Steven Aleman, Tr. on 3/29/16, pp. 151-53

24. The following GWHN assets will be excluded from the transaction:

- All cash and cash equivalents;
- All short-term and long-term investments other than GWHN's investments in the joint ventures;
- Board-designated, restricted, and trustee-held or escrowed funds (such as funded depreciation, debt service reserves, working capital trust assets, and assets and investments restricted as to use), beneficial interests in charitable trusts, and accrued earnings on all of the foregoing;
- Prepaid expenses not assumed by PMH;
- All insurance proceeds arising in connection with the operation of the assets or the facilities for periods prior to Closing to the extent that all damage to the assets has been repaired;
- All amounts due or to become due to GWHN from the Medicare, Medicaid or other payor programs in respect of cost report periods ended on or prior to Closing; and
- Interests in and assets of GWHS, CCGWHN and HAIC.

Ex. E, pp. 19, 142

25. GWHN's debt and pension obligations will also be addressed as a result of the transaction. At the time of the Closing and as permitted thereafter, the purchase price (less adjustments) together with GWHN's cash, investments and debt service reserve funds (but excluding charitable funds) will be used to satisfy GWHN's obligations. GWHN's unfunded pension liabilities with respect to its multi-employer defined benefit health plan are estimated to be at least $27 million and, with respect to its cash balance plan, are approximately $12 million. Ex. F, pp. 76, 1419; Prefiled Testimony, Steven Aleman, p. 1620

26. Table 1 summarizes the net proceeds and flow of funds associated with the Asset Purchase as of April 30, 2016 compared to September 30, 2015, including GWHN's anticipated plan for payment of debt and pension obligations as well as payment of other liabilities. The amounts are subject to adjustment at Closing.

TABLE 1
APA PROJECTED NET PROCEEDS AND FLOW OF FUNDS

Proceeds Calculation	As of 9/30/2015	As of 4/30/2016*
Proceeds		
Enterprise Value	$31,800,000	$25,000,000
Working Capital Adjustment	$4,601,512	$18,258,911
Total Gross Proceeds	**$36,401,512**	**$43,258,911**

PM Assumed Liabilities		
Asbestos Abatement	($2,896,529)	($2,898,529)
Nurses Pension	($27,000,000)	($27,000,000)
Hospital Cash Balance Plan	($11,613,917)	($12,363,507)
Total Assumed Liabilities	**($41,512,446)**	**($42,262,036)**
Net Proceeds	**($5,110,934)**	**($996,875)**
Unrestricted Cash	$35,767,106	$35,174,646
Total Unrestricted Cash and Net Proceeds	**$30,656,172**	**$36,171,521**
Cash Needs at Closing		
Estimated Transaction Costs	($1,450,000)	($1,450,000)
Bank Debt	($24,094,638)	($23,783,297)
Debt Swap	($1,512,596)	($1,851,544)
Total Cash Needs at Closing	**($27,057,234)**	**($27,084,841)**
Net Cash Post Closing Liabilities & Expenses	**$3,598,937**	**$9,086,680**

*All figures are current through April 30, 2016, with the exception of the Children's Center, which is current through March 31, 2016.
Ex. E. pp 1419 and Ex. AA, Late File 3.

27. After Closing, the assets of GWHN will be transferred to Prospect Connecticut, Inc. ("New GWHN") or one or more of its affiliates. New GWHN will serve as the health system parent company and sole shareholder of Prospect Waterbury, Inc., which will hold the Hospital's license after Closing (the post-closing hospital will be referred to as "New Hospital"). Ex. E, p. 21

28. The Commitment Amount will be funded through GWHN's operating income, and any shortfall will be funded by PMH's existing cash or through PMH's corporate level credit facility. Ex. E, p. 69

29. The Commitment Amount will be dedicated to continued improvement in quality and safety, expansion of services, new services, physician and service integration, and improvements in access to service. Ex. E, p. 57

30. PMH does not currently plan to change any service lines or locations as a result of the Asset Purchase. Ex. E, p. 48

31. There is currently no capital plan related to the transaction. After Closing, PMH, in consultation with the Local Board (defined in paragraph 38 below), will develop a strategic capital plan with respect to the New Hospital and associated affiliates and joint ventures. Ex. E, p.70; Ex. R., p. 1641

32. The capital projects in Table 2 below have been identified by GWHN management as priority capital projects to be addressed within the first three years after Closing. Ex. E, p. 72

TABLE 2
CAPITAL PRIORITY PROJECTS IDENTIFIED BY GWHN

Description	Estimated Cost (In Millions)	Estimated Timeframe (In Months)
Facility – Main Campus		
Expansion of ED/Development of urgent care*	$3.75	24-36
Upgrade OB/Women's health	$2.0	6-18
Upgrade outpatient surgery**	$2.0	6-18
Equipment		
Replace interventional radiology equipment	$1.7	12-18
Upgrade surgical/anesthesia equipment	$1.5	12-18
Outpatient Centers (Southbury, Naugatuck and Waterbury)* **	N/A	N/A
Physician Recruitment	N/A	N/A
Information Technology		
Continue IT Plan	N/A	N/A
Implement outpatient/physician practice strategy	N/A	N/A
Patient Safety****	$3.24	12-36
Total Estimated Cost	**$14.2**	

No dollars have yet been assigned to outpatient centers, physician recruitment and information technology.

* The Hospital's emergency department was built to accommodate 35,000 patients annually, while actual utilization is about 50,000, resulting in lengthy patient wait times and higher than average "Left Without Being Seen" rates. Additionally, hallways are consistently used as patient rooms. Expanding the emergency department will improve access to care, decrease LWOS, and improve patient privacy. Ex. Ex. H, pp. 1416-17

** There is no separate area for outpatient surgery. Accordingly, patients are currently being redirected to outpatient surgery centers in the community. Ex. H, p. 1417

*** The Hospital currently provides several health care services in Southbury, Naugatuck, and Waterbury. PMH intends to co-locate services by developing outpatient centers in each of these towns, creating a central environment with adequate parking and convenient access for patients. Ex. H, p. 1417

**** Immediate capital needs required over the first two to three years following Closing are: monitors in the ER ($600,000), ER architects/plan ($200,000), nuclear med ($450,000), fetal monitors ($145,000), EKG ($550,000), defibrillators ($240,000), two Jackson tables ($200,000), nurse call/ED ($220,000), bed replacements ($360,000), med cart replacements ($150,000), and beginning anesthesia update ($120,000). Ex. R, p. 1640

33. Because of GWHN's poor financial condition, the projects identified in Table 2 cannot be accomplished without this transaction. Ex. R., Prefiled Testimony of Carl Contadini, p. 1510; Testimony of Darlene Stromstrad, Tr. on 5/3/2016, p. 30; Ex. R, Prefiled Testimony, Jonathan Spees, Vice President of Mergers and Acquisitions, PMH, pp. 1626-27

34. With the proposed Asset Purchase, the parties expect that PMH will provide sufficient capital to meet deferred, current and future capital needs for the Hospital's physical plant to ensure state of the art health care delivery services through an upgrade of facilities, equipment and technology. With PMH's access to capital, New Hospital will have the financial resources to purchase new technology, upgrade its facilities, attract skilled providers, and upgrade electronic health records, in addition to investing in service line development, physician alignment and recruitment and development of increasing ambulatory access. Ex. R, Prefiled Testimony, Jonathan Spees, p. 1627

35. Table 3 below represents GWHN's projected incremental operating revenues, earnings before interest, taxes, depreciation and amortization (EBITDA) and gain/losses from operations and provisions for income taxes with this proposal.

TABLE 3
GWHN PROJECTED INCREMENTAL OPERATING REVENUE, EBITDA, INCOME FROM OPERATIONS, AND PROVISION FOR INCOME TAXES WITH THE PROPOSAL

	FY 2016	FY 2017	FY 2018
Operating Revenue	$324,151	$3,702,750	$6,827,192
Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA)	$1,408,798	$3,620,294	$4,425,395
Gain/Loss from Operations	$962,989	$1,868,015	$2,256,121
Provision for Income Taxes	$785,217	$2,172,366	$2,050,340

Ex. E, p.1167

36. PMH has restored the financial position of other health systems by applying its data-driven operating strategies, leveraging its corporate capabilities and investing in system growth. Ex. R, Prefiled Testimony, Jonathan Spees, p. 1627

37. Table 4 below illustrates the financial performance of the Texas and Rhode Island hospitals after they were acquired by PMH:

TABLE 4
PMH'S RECENT ACQUISITIONS FINANCIAL PERFORMANCE (in Thousands)

Entity	EBITDA			Working Capital			Stockholder's Equity		
	Year prior to acquisition	FY 2014	FY 2015	Year prior to acquisition	FY 2014	FY 2015	Year prior to acquisition	FY 2014	FY 2015
Nix Health System (a)	$14,905	$18,411	$8,043	$5,937	$36,785	$35,449	$13,122	$20,468	$63,789
Roger Williams Medical Center (b)	$3,942	$1,582	$9,080	($1,860)	$1,114	$6,230	$37,184	$34,099	$38,256
Our Lady of Fatima Hospital(c)	($893)	$509	$6,485	$1,904	$2,040	$3,432	($57,150)	$27,513	$28,107

(a) Nix is a Health System based in Texas. Nix's Earnings Before Interest, Taxes, Depreciation and amortization (EBITDA) is based on reported trailing twelve months ended on 1/31/2011. Declines in EBITDA between 2014 and 2015 were due to the fluctuation in net reimbursement related to payments made to the Service Organization of San Antonio "SOSA". Funding to SOSA is voluntary but it is projected to average approximately $12M a year based on budgeted spending initiatives of the service organization. In 2014 the funding requirements were $5.7M (lower by approximately $6.3M) and in 2015 funding requirements returned to $12M. The remaining difference was comprised of lower volume at the facility as services were reconfigured and medical staff turnover. Working Capital of Nix prior to acquisition is as of 1/31/2011 and includes cash which was not part of assets acquired by PMH.

(b) EBITDA for Roger Williams Medical Center ("RWMC"), located in Providence , Rhode Island, for year prior to acquisition is only for 8 months ending on May 31, 2014 and EBITDA for FY2014 is only for three months post acquisition for FYE 9/30/2014. Working capital is for prior to acquisition as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition RWMC was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.

(c) EBITDA for Our Lady of Fatima Hospital ("OLFH") in Rhode Island is for year prior to acquisition and is only for 8 months ending on May 31, 2014 and for FY2014 is only for three months post acquisition. Working capital prior to acquisition is as of 5/31/2014 and includes cash which was not part of the assets acquired by PMH as prior to the acquisition OLFH was a non-profit organization. Therefore, net assets were used as a substitute for stockholder's equity.

Docket#15-32016-486, Late File 19, dated Apr. 20, 2016; Docket#15-32016-486, Ex. QQ, dated May 9, 2016

38. After Closing, the New Hospital will be governed by a board of directors controlled by PMH (the "New Hospital Board"). The New Hospital Board will have oversight and ultimate authority over the affairs of the New Hospital and the purchased assets. The New Hospital Board will be composed of executives of PMH and local employed executives of GWHN. There are currently no actual or proposed bylaws for the New Hospital Board. Ex. E, p. 20; Ex. H, p. 1422

39. The New Hospital Board will be advised by a local advisory board, anticipated to be comprised of five current members of the GWHN Board, five physicians, and the CEO of the New Hospital (the "Local Board"). The Local Board will serve as a resource for PMH with respect to development and review of strategic plans, assist with maintenance and implementation of a strategic business plan for the New Hospital, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospital. There are currently no actual or proposed Bylaws for the Local Board. Ex. E, pp. 20-21, 190; Ex. H, pp. 1422-23

40. As of the Closing Date, PMH or an affiliate will offer employment to substantially all GWHN employees who are in good standing, in positions and at salaries at least equal to those then being provided by GWHN and with benefits packages comparable to those offered to similarly-situated employees at other hospitals operated by PMH. Ex. E, pp. 86, 90, 176

41. PMH plans to establish a strong physician network by recruiting high quality physicians to GWHN's medical staff. PMH has developed significant experience in other markets regarding methods of attracting more primary care providers and improving access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals (RWMC and OLFH) in mid-2014. Ex. E, p. 89; Docket#15-32016-486, Ex. G, p. 75; Ex. K, p. 2177-78

42. In order to implement the CRC strategy, PMH has established an IPA entity in Connecticut (Prospect Provider Group CT-Waterbury, LLC, or "PPGCTW") and a preferred provider network/health system risk taking entity, Prospect Health Services CT, Inc., that will contract with payers on behalf of PPGCTW physicians. These two organizations, through management services agreements with PMH, will manage physician participation, risk contracting and care management activities for participating members. Ex. E, p. 87; Ex. H, p. 1430; Ex. R, Prefiled Testimony of Mitchell Lew, p. 1605; Testimony of Mitchell Lew, Tr. on 5/3/2016, pp. 37-38

43. The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and reducing readmissions, inpatient utilization and emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. Ex. E, pp. 62, 89; Ex. R, Prefiled Testimony of Mitchell Lew, pp. 1607, 1609, 1611-12

44. PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. Ex. E, p. 65-66; Ex. R, Prefiled Testimony of Mitchell Lew, pp. 1608, 1610, 1615

45. PMH has agreed to adhere to GWHN's charity care policies for at least the first five years after Closing. For the first five years, PMH has also agreed to participate in the Medicare and Medicaid programs and accept all Medicare and Medicaid patients, provide public health programs of educational benefit to the community, and to generally promote public health, wellness, and welfare to the community by operating the New Hospital with quality standards consistent with other hospitals owned by PMH. Ex. E, pp. 61-63, 81, 1226-28; Ex. H, p. 1437; Testimony of Von Crockett, Tr. on 5/3/2016, p. 98; Tr., Testimony of Tom Reardon, President, PMH East on 5/3/16, pp. 103-04

46. PMH will continue to provide financial support for community benefit and community building activities in the Waterbury area to the same degree as GWHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by the New Hospital. Ex. E, pp. 83-84; Testimony of Jonathon Spees, Tr. on 5/3/2016, p. 104

47. Table 5 below describes the socioeconomic condition of the Service Area towns in comparison to the state of Connecticut as a whole and shows the areas most in need of such programs.

TABLE 5
SOCIOECONOMIC STATUS OF THE SERVICE AREA

Data				
Town	Poverty Rate	Medium Household Income	Unemployment Rate	Medium Age
Primary Service Area				
Beacon Falls	3.8%	$ 79,207	7.0%	39
Bethlehem	4.4%	$ 80,884	5.8%	50
Cheshire	2.8%	$ 110,587	6.2%	41
Middlebury	2.6%	$ 97,996	5.9%	45
Naugatuck	8.6%	$ 62,574	9.4%	39
Prospect	3.2%	$ 95,325	6.7%	44
Southbury	6.4%	$ 67,195	6.6%	50
Thomaston	2.7%	$ 67,426	7.8%	43
Waterbury	21.9%	$ 40,867	12.5%	35
Watertown	3.4%	$ 80,899	7.7%	44
Wolcott	3.4%	$ 80,655	7.8%	44
Woodbury	4.6%	$ 80,167	5.9%	48
Secondary Service Area				
Harwinton	4.6%	$ 89,429	6.1%	47
Morris	5.6%	$ 89,688	6.4%	45
Oxford	4.5%	$ 107,308	6.0%	43
Plymouth	6.7%	$ 73,603	8.9%	41
Seymour	6.8%	$ 73,099	7.7%	42

Southington	3.6%	$ 78,668	6.4%	44
Torrington	11.2%	$ 50,548	8.5%	43
State	**10.0%**	**$ 69,519**	**7.8%**	**40**

Ex. E, p. 54

48. Central Waterbury is designated as a Medically Underserved Area and a Health Professionals Shortage Area. The Hospital currently provides safety net services in this area. The Applicants anticipate that the proposed Asset Purchase will support the availability of health care services to vulnerable populations in the Service Area. Ex. E, p. 54

49. In 2013, the Hospital conducted a Community Health Needs Assessment ("CHNA"), which identified current and future health care needs of the community. The priority areas identified for the greater Waterbury community were access to care, mental health/substance abuse, overweight/obesity, and smoking/tobacco use. An implementation plan was developed to respond to the identified health needs, which PMH has agreed to support. Additionally, the Hospital has traditionally taken a lead role in developing the CHNA, and PMH has agreed to maintain GWHN's current level of involvement in developing and implementing the CHNA for five years from Closing. Ex. E, pp. 60, 62, 1075-1129, 1130-49; Ex. H, p. 1439; Testimony of Von Crockett, Tr. on 5/3/2016, pp. 90-91

50. PMH has also stated that the New Hospital will be in compliance with the following general community benefit standards for at least the first three years after the Closing: (a) the New Hospital will have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors and (b) the New Hospital will operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. Testimony of Tom Reardon, Tr. on 5/3/16, pp. 103-04

51. PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. Ex. E, pp. 63-65

52. The patient population currently served by the Hospital is not expected to change as a result of the Asset Purchase. PMH will accept all existing contracts with payers and will complete a change of ownership process with commercial payers, as well as Medicare and the Connecticut Medical Assistance Program (Medicaid). Table 6 below describes the current and projected patient population and payer mix for the Hospital with respect to discharges.

TABLE 6
PATIENT POPULATION/PAYER MIX

Hospital	YTD 8/31/15	Projected 2015	Projected FY 2016	Project FY 2017	Projected FY 2018
Medicare	5,002	5,457	5,312	5,312	5,312
Medicaid	3,021	3,296	3,196	3,196	3,196
CHAMPUS or TriCare	18	19	18	18	18
Total Government Payers	8,041	8,771	8,526	8,526	8,526
Commercial Insurers	2,527	2,757	2,681	2,681	2,681
Self-Pay	113	123	64	64	64
Workers Compensation	61	67	73	73	73
Total Non-Government Payers	2,701	2,947	2,818	2,818	2,818
Total Payer Mix	**10,742**	**11,718**	**11,344**	**11,344**	**11,344**

Ex. E, pp. 74, 76

53. Financial benefits associated with this proposal include: operational efficiencies and economies of scale, the New Hospital's participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. Ex. R, Prefiled Testimony of Von Crockett, p. 1535; Docket#15-32016-486, Ex. N., p. 3236

54. PMH has agreed to maintain GWHN's quality program for at least two years following the transaction. Ex. T, p. 1826; Ex. R., Prefiled Testimony of Von Crockett, p. 1533

55. PMH has had to significantly modify its own Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two PMH hospitals in California, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. Ex. K, p. 1459-61; Ex. R, Prefiled Testimony of Von Crockett, pp. 1530-33

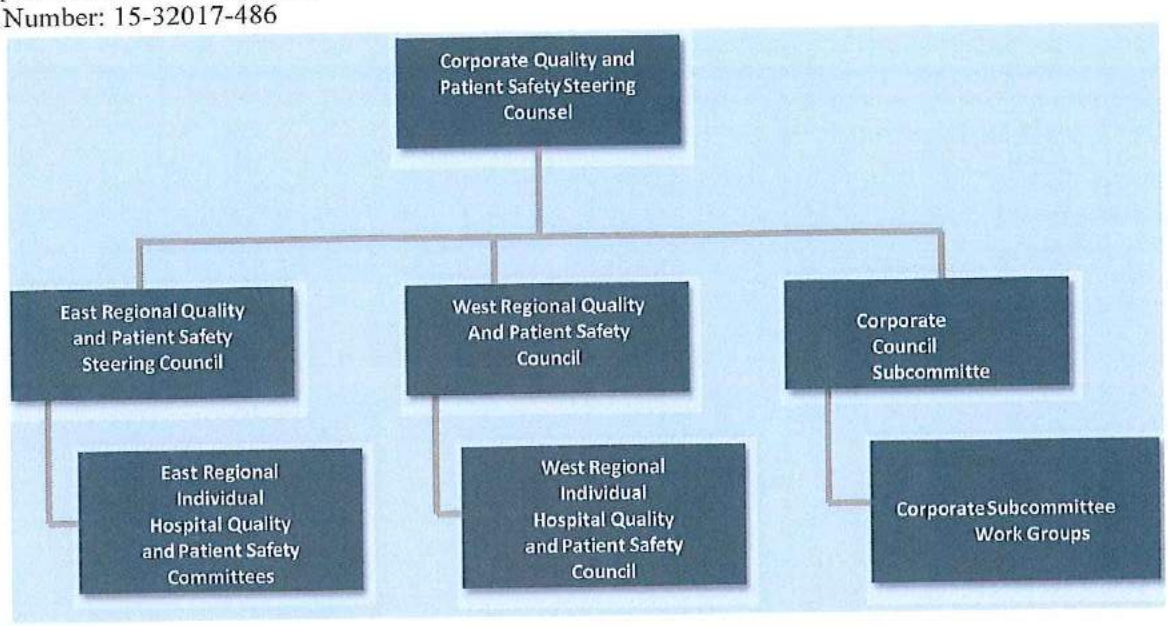
56. GWHN representatives learned of the Immediate Jeopardy citations on February 11, 2016. In response, the GWHN Board appointed a task force to review the citations and corrective actions taken and to recommend whether or not to proceed with the transaction. The task force reviewed the deficiencies and corrective action plans, conducted interviews, and made site visits to PMH-owned hospitals in both California and Rhode Island. The task force determined that PMH was committed to quality and proposed that GWHN obtain certain assurances from PMH and move forward with the transaction. Ex. R, pp. 1635-36; Testimony, Susan Cordeau, Director of Performance Improvement, GWHN, Tr. on 5/3/2016, pp. 25-31

57. Accordingly, on April 27, 2016 the parties entered into a Quality Assurance Commitment Letter pursuant to which PMH agreed to maintain certain GWHN quality programs for the first two years after the Closing Date and to not modify them without approval of the Local Board. The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospital. Ex. T, p. 1826

58. Based on the information learned and protections gained, the task force recommended, and the Board confirmed, GWHN's commitment to proceed with the transaction. Ex. R, pp. 1635-36; Testimony, Susan Cordeau, Tr. on 5/3/2016, pp. 30-31

59. Additionally, as a result of the Immediate Jeopardy citations, PMH has hired a corporate level Chief Quality Officer, Chief Clinical Officer, Chief Nursing Officer and an Associate Vice President of Regulatory and Patient Safety to assist in providing necessary resources to implement all quality programs at its local hospitals and share best practices among the hospitals. Ex. K, p. 1459; Ex. R, Prefiled Testimony of Von Crockett, pp. 1530-32

60. Other PMH initiatives include retaining a national consulting firm and legal counsel to assist in preparedness and responses to Centers for Medicare and Medicaid Services ("CMS") surveys. Under PMH's draft QAPI program, a Hospital Quality & Patient Safety Committee will be developed at the New Hospital, with oversight over subcommittees and workgroups that address the New Hospital's unique needs. These committees will report to a Regional Quality and Patient Safety Steering Council, which will report to the Corporate Quality and Patient Safety Steering Council, as described below:



Testimony of Debbie Berry, Chief Quality Officer, PMH, pp. 57-59; Ex. R, pp. 1692, 1696; Docket#15-32016-486, Tr., Testimony of Von Crockett on 3/29/15, pp. 93-94; Docket#15-32016-486, Ex. Z, Prefiled Testimony of Von Crockett, pp. 3356-57; Docket#15-32016-486, Ex. Z, pp. 3402-03; Docket#15-32016-486, Late File 1, dated Apr. 20, 2016; Docket#15-32016-486, Late File 10, dated Apr. 20, 2016

61. OHCA is currently in the process of establishing its policies and standards as regulations. Therefore, OHCA has not made any findings as to this proposal's relationship to any regulations not yet adopted by OHCA. Conn. Gen. Stat. § 19a-639(a)(1)

62. The application is consistent with the overall goals of the Statewide Health Care Facilities and Services Plan. Conn. Gen. Stat. § 19a-639(a)(2)

63. The Applicants have established that there is a clear public need for the proposal. Conn. Gen. Stat. §19a-639(a)(3)

64. The Applicants have demonstrated that the proposal will improve the overall financial strength of the health care system and that it is financially feasible. Conn. Gen. Stat. §19a-639(a)(4)

65. Subject to the conditions below, the Applicants have satisfactorily demonstrated that the proposal will maintain quality, accessibility and cost effectiveness of health care delivery in the region. Conn. Gen. Stat. §19a-639(a)(5)

66. Subject to the conditions below, the Applicants have shown that there would be no adverse change in the provision of health care services to the relevant populations and payer mix, including access to services by Medicaid recipients and indigent persons. Conn. Gen. Stat. §19a-639(a)(6)

67. The Applicants have satisfactorily identified the population to be affected by this proposal. Conn. Gen. Stat. §19a-639(a)(7)

68. The historical utilization of GWHN's services in the Service Area support this proposal. Conn. Gen. Stat. §19a-639(a)(8)

69. The Applicants have satisfactorily demonstrated that this proposal would not result in an unnecessary duplication of existing services in the area. Conn. Gen. Stat. §19a-639(a)(9)

70. Subject to the conditions below, the Applicants have demonstrated that there will be no reduction in access to services by Medicaid recipients or indigent persons. Conn. Gen. Stat. §19a-639(a)(10)

71. The Applicants have satisfactorily demonstrated that the proposal will not have a negative impact on the diversity of health care providers in the area. Conn. Gen. Stat. §19a-639(a)(11)

72. The Applicants have satisfactorily demonstrated that the proposal will not result in any consolidation that would affect health care costs or accessibility to care. Conn. Gen. Stat. §19a-639(a)(12)

Discussion

CON applications are decided on a case-by-case basis and do not lend themselves to general applicability due to the uniqueness of the facts in each case. In rendering its decision, OHCA considered the factors set forth in Connecticut General Statutes § 19a-639(a) and 19a-486d. The Applicants bear the burden of proof in this matter by a preponderance of the evidence. *Jones v. Connecticut Medical Examining Board,* 309 Conn. 727 (2013).

GWHN is a non-stock, 501(c)(3) corporation that is the parent company to The Waterbury Hospital ("Hospital"), an acute care teaching hospital with 357 licensed beds plus 36 bassinets located in Waterbury, Connecticut. GWHN also holds interests in other entities, joint ventures, and affiliates. *FF1* GWHN serves the following towns: Beacon Falls, Bethlehem, Cheshire, Middlebury, Morris, Naugatuck, Oakville, Oxford, Plantsville, Plymouth, Prospect, Seymour, Southbury, Southington, Terryville, Thomaston, Torrington, Waterbury, Watertown, Wolcott, and Woodbury. *FF6* PMH is a for-profit, privately owned national healthcare services company with its principal place of business in Los Angeles, California. PMH owns fourteen acute care and behavioral hospitals in California, New Jersey, Rhode Island and Texas. It also owns a network of specialty and primary care clinics in each of these regions. *FF13* The Hospital has experienced consecutive years of losses due to poor economic conditions in the Service Area, declining government and commercial reimbursement, the increasing complexity of health care treatment, and national health care reform. Additionally the recession in 2008 led to GWHN defaulting on its bond covenants in 2009. In 2010, a consulting firm, Kaufman Hall, identified over $50 million in capital improvements required over five years to keep the Hospital operational. *FF7* The Applicants are requesting approval of the proposed asset purchase (the "Asset Purchase") as a solution to GWHN's long-standing challenges that offers the Service Area continued access to its services and facilities. *FF12*

Under the proposed Asset Purchase Agreement ("APA"), PMH will pay a total purchase price of approximately $43.3 million for the assets of GWHN, which includes a purchase price of $31.8 million plus a net working capital adjustment of $18.3 million, as of April 30, 2016, minus capital lease obligations in excess of $6.5 million, unfunded pension liabilities, asbestos abatement liability, the amounts of certain GWHN liabilities assumed by PMH, and for the value of any joint venture interest that GWHN is unable to assign or transfer. *FF20* PMH will commit to spend within seven years no less than $55 million, less (a) the amount not to exceed $3.5 million of capital lease obligations assumed by PMH at Closing in excess of $3 million, (b) the cash shortfall at closing (defined in the APA as the "Negative Amount"), (c) the Purchase Price Adjustment Shortfall, provided that the aggregate of the amounts in (b) and (c) are not to exceed $5.0 million in aggregate, and (d) unpaid indemnification losses of PMH (defined in the APA as the "Unpaid Losses") of up to $4.5 million, (the "Commitment Amount"). *FF21* GWHN's debt and pension obligations will also be addressed as a result of the transaction. At the time of the Closing and as permitted thereafter, the purchase price (less adjustments) together with GWHN's cash, investments and debt service reserve funds (but excluding charitable funds) will be used to satisfy GWHN's obligations. GWHN's unfunded pension liabilities with respect to its multi-

employer defined benefit health plan are estimated to be at least $27 million and, with respect to its cash balance plan, are approximately $12 million. *FF25*

With the proposed Asset Purchase, the parties expect that PMH will provide sufficient capital to meet deferred, current and future capital needs for the Hospital's physical plant to ensure state of the art health care delivery services through an upgrade of facilities, equipment and technology. With PMH's access to capital, the post-closing New Hospital will have the financial resources to purchase new technology, upgrade its facilities, attract skilled providers, and upgrade electronic health records, in addition to investing in service line development, physician alignment and recruitment and development of increasing ambulatory access. *FF34* On the Closing Date, the assets of GWHN will be transferred to Prospect Connecticut, Inc. ("New GWHN") or one or more of its affiliates. New GWHN will serve as the health system parent company and sole shareholder of Prospect Waterbury, Inc., which will hold the Hospital's license after Closing (the post-closing hospital will be referred to as "New Hospital"). *FF27*

Following Closing, the New Hospital will be governed by a board of directors controlled by PMH (the "New Hospital Board"). The New Hospital Board will have oversight and ultimate authority over the affairs of the New Hospital and the purchased assets. The New Hospital Board will be composed of executives of PMH and local employed executives of GWHN. *FF38* The New Hospital Board will be advised by a local advisory board, anticipated to be comprised of five current members of the GWHN Board, five physicians, and the CEO of the New Hospital (the "Local Board"). The Local Board will serve as a resource for PMH with respect to development and review of strategic plans, assist with maintenance and implementation of a strategic business plan for the New Hospital, and assist with medical staff credentialing, quality assurance programs and accreditation at the New Hospital. *FF39*

The capital projects in the table below have been identified by GWHN management as priority capital projects to be addressed within the first three years after Closing. *FF32*

CAPITAL PRIORITY PROJECTS IDENTIFIED BY GWHN

Description	Estimated Cost (In Millions)	Estimated Timeframe (In Months)
Facility – Main Campus		
Expansion of ED/Development of urgent care*	$3.75	24-36
Upgrade OB/Women's health	$2.0	6-18
Upgrade outpatient surgery**	$2.0	6-18
Equipment		
Replace interventional radiology equipment	$1.7	12-18
Upgrade surgical/anesthesia equipment	$1.5	12-18
Outpatient Centers (Southbury, Naugatuck and Waterbury)* **	N/A	N/A
Physician Recruitment	N/A	N/A
Information Technology		
Continue IT Plan	N/A	N/A

Implement outpatient/physician practice strategy	N/A	N/A
Patient Safety****	$3.24	12-36
Total Estimated Cost	**$14.2**	

PMH plans to establish a strong physician network by recruiting high quality physicians to GWHN's medical staff. PMH has developed significant experience in other markets regarding methods of attracting more primary care providers and improving access to care. Recently, PMH succeeded in establishing an IPA in Rhode Island with 105 primary care practitioners and 270 specialist physicians. Of the 105 primary care practitioners participating in PMH's Rhode Island physician network at the end of 2015, only 18 were employed by the CharterCare System when PMH acquired its two hospitals (RWMC and OLFH) in mid-2014. *FF41*

With respect to its quality of health care services, PMH has had to significantly modify its Quality Assurance and Performance Improvement ("QAPI") as a result of recent surveys of two PMH hospitals in California, Los Angeles Community Hospital and Southern California Hospital, resulting in the California Department of Health imposing Immediate Jeopardy citations. *FF55* GWHN representatives learned of the Immediate Jeopardy citations on February 11, 2016. In response, the GWHN Board appointed a task force to review the citations and corrective actions taken and to recommend whether or not to proceed with the transaction. The task force reviewed the deficiencies and corrective action plans, conducted interviews, and made site visits to PMH-owned hospitals in both California and Rhode Island. The task force determined that PMH was committed to quality and proposed that GWHN obtain certain assurances from PMH and move forward with the transaction. *FF56* Accordingly, on April 27, 2016 the parties entered into a Quality Assurance Commitment Letter pursuant to which PMH agreed to maintain certain GWHN quality programs for the first two years after the Closing and to not modify them without approval of the Local Board. The Quality Assurance Commitment Letter also requires that PMH maintain QAPI programs consistent with best practices and those currently implemented in PMH's Rhode Island facilities while also acknowledging that the Local Board shall oversee quality programs at the New Hospital. *FF57*

PMH aligns its hospitals and physicians under a model called Coordinated Regional Care ("CRC"). CRC provides for clinical integration of hospitals, physicians and community providers with health plans and other payers through value driven and risk-based reimbursement systems. PMH believes that the CRC model improves quality, efficiency and financial performance while providing its patients with quality, affordable healthcare. *FF15* The goal of the CRC model is to reduce the overall cost of health care by increasing preventive care and reducing readmissions, inpatient utilization and emergency room visits. PMH will achieve these goals by developing a healthcare delivery network encompassing the entire continuum of patient care, including inpatient services, home health, clinics, independent physicians, nursing homes, ambulatory surgical centers, out-patient diagnostic services and other health related services. *FF43* PMH has demonstrated the efficacy of the CRC model in Southern California, Texas and Rhode Island. In these regions, PMH has improved clinical outcomes, increased quality scores, increased patient satisfaction, reduced readmission rates, reduced average lengths of stay, and reduced medical-cost ratios. For example, from 2012 to 2014 in California and Texas, where

PMH participates in HMO contracts for seniors, PMH reduced hospital bed days per thousand patients from 1,260 to 720. Additionally, length of hospital stay for this population has been reduced from 5.1 to 3.9 days, admissions per thousand have dropped from 245 per thousand to 182 per thousand and hospital readmissions within thirty days has dropped from 19% to 13%. The CRC model has also enabled PMH to attract more primary care providers and has improved access to care. *FF44*

In addition to addressing any quality issues, PMH has also agreed to adhere to GWHN's charity care policies for at least the first five years after Closing. For the first five years, PMH has also agreed to participate in the Medicare and Medicaid programs and accept all Medicare and Medicaid patients, provide public health programs of educational benefit to the community, and to generally promote public health, wellness, and welfare to the community by operating the New Hospital with quality standards consistent with other hospitals owned by PMH. *FF45* PMH will continue to provide financial support for community benefit and community building activities in the Waterbury area to the same degree as GWHN did in FY 2014. The spending by PMH for community building activities post-closing is projected to increase 1% each year through FY 2019, and the spending for both community benefit and community building activities post-closing assumes no change in the Medicaid population served or the complement of community benefit programs offered by the New Hospital. *FF46*

In 2013, the Hospital conducted a Community Health Needs Assessment ("CHNA"), which identified current and future health care needs of the community. The priority areas identified for the greater Waterbury community were access to care, mental health/substance abuse, overweight/obesity, and smoking/tobacco use. An implementation plan was developed to respond to the identified health needs, which PMH has agreed to support. Additionally, the Hospital has traditionally taken a lead role in developing the CHNA, and PMH has agreed to maintain GWHN's current level of involvement in developing and implementing the CHNA for five years from the Closing. *FF49* PMH has also stated that the New Hospital will be in compliance with the following general community benefit standards for at least the first three years after the Closing: (a) the New Hospital will have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors and (b) the New Hospital will operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. *FF50* PMH and GWHN representatives have already met with leadership for Connecticut's Medicaid Program at the Department of Social Services ("DSS") and expressed their desire to work under a risk-based arrangement to provide care to Medicaid recipients. PMH is currently working with officials in Rhode Island to pilot a Medicaid risk-based program in that state. In addition, PMH will actively work with other providers in the community such as federally qualified health centers or community health centers to meet the needs of uninsured and underinsured individuals in the Service Area, including Medicaid recipients. *FF51*

Financial benefits associated with this proposal include: operational efficiencies and economies of scale, the New Hospital's participation in PMH's purchasing power, supply chain benefits, employee benefits savings and streamlined revenue collection. PMH also makes available to its

hospitals subject matter consultants who are employed by PMH, saving its hospitals the cost of hiring consultants in those areas. *FF53*

In its audited financial statements for FY 2015, PMH reported total revenues of over $1.3 billion from its operations on a consolidated basis. As of fiscal year end 2015, PMH reported free cash flow of over $112 million and close to $75 million in cash from operations. The company also received credit upgrades by both Moody's and S&P in 2015, with Moody's rating PMH's bonds as B1 and S&P rating PMH's bonds as B. These ratings still stand as of May 3, 2016. *FF19*

Based upon the aforementioned discussion of the evidence provided by the Applicants in this matter, the Applicants have satisfactorily demonstrated that PMH has made a commitment to provide health care to the uninsured and the underinsured; safeguard procedures are in place to avoid a conflict of interest in patient referral; and certificate of need authorization is justified in accordance with the principles and guidelines set forth in Connecticut General Statutes § 19a-639; those being, access to healthcare services, quality of the healthcare services, public need for the proposed project, and the financial feasibility of the proposed project.

Order

Based upon the foregoing Findings of Fact and Discussion, the Applicants' request for the sale of the assets of GWHN and its controlled affiliates to PMH or one or more affiliates of PMH is hereby **Approved** under Conn. Gen. Stat. §§ 19a-486 and 19a-639 subject to the enumerated conditions (the "Conditions") set forth below.

Unless expressly provided otherwise, all Conditions of this Order shall, to the extent applicable, be binding on the Applicants, their affiliates, successors and assigns, regardless of whether New GWHN remains the parent company and sole shareholder of the New Hospital. OHCA and any successor agency shall have the right to enforce the Conditions by all means and remedies available to it under law and equity, including, but not limited to, Conn. Gen. Stat. § 19a-486g and the right to impose and collect a civil penalty under Conn. Gen. Stat. § 19a-653 against any person or health care facility or institution that fails to file required data or information within the prescribed time periods set forth in this Order. All references to days in these Conditions shall mean calendar days.

1. Within twenty (20) days following the Closing of the Asset Purchase authorized by this Order, Applicants shall submit a schedule to OHCA setting forth Waterbury Hospital's inpatient bed allocation and the location and hours of operation for all outpatient services, by department, as of the Decision Date and publish this same information on the website of the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 18, 30*

2. Within twenty (20) days following the Closing of the Asset Purchase authorized by this Order, Applicants shall identify and provide the Certificate of Incorporation for the PMH affiliated entity that shall directly own, operate and hold the hospital license of the New Hospital post-closing. This entity shall be duly organized and validly existing under the laws of Connecticut and New GWHN shall be its parent company and sole shareholder as proposed in the CON application. OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(8) & (11); FF 27*

3. Applicants shall notify OHCA in writing of the Closing of the Asset Purchase authorized by this Order within twenty (20) days of such closing and shall supply final execution copies of all agreements related to same, including but not limited to:

    a. the APA, including any and all schedules and exhibits; and

    b. Bylaws or similar governance documents for New GWHN, as well as for the New Hospital.

The Applicants may redact from the APA any information that is exempt from disclosure under Conn. Gen. Stat. § 1-210. If the Applicants redact materials in accordance with the previous sentence, the Applicants shall provide a list to OHCA which identifies in general terms the nature of the redacted material and why it is claimed to be exempt for public record purposes.

OHCA is imposing this Condition to verify that safeguard procedures are in place to avoid a conflict of interest in patient referral. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a) & 19a-613(b); FF 20, 21, 38, 39*

4. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan (the "Health Needs Plan") for continuing to support and implement GWHN's 2016 CHNA and for conducting the New Hospital's next comprehensive study of community health needs in the Service Area (the "Community Health Needs Study" or "Study"). The Health Needs Plan shall describe in detail at least the following:

   (i) the data that will be collected and analyzed to systematically assess health status indicators of the Service Area;
   (ii) the identity of key community stakeholders and health organizations, unaffiliated with PMH, including without limitation, representatives of medically underserved populations, that will be enlisted to participate in the Study and the manner and extent of such participation by stakeholders in both the development of health priorities and planned implementation;
   (iii) the qualifications of consultants experienced in performing community health needs assessments who will be retained by PMH to ensure that the priority health needs of the community are accurately determined;
   (iv) the frequency with which the Study will be repeated;
   (v) the manner in which results of the Study and the implementation strategy to address the priority health needs identified therein (the "Implementation Strategy") will be distributed to the community; and
   (vi) the manner in which the Study will complement the population health management objectives of PMH and the New Hospital.

   OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Gen. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3) & (7); FF 49*

5. Within three (3) years following the Closing, PMH shall participate with New GWHN and the New Hospital, and the key community stakeholders and health organizations identified pursuant to Condition 4, in conducting a Community Health Needs Study and shall provide a copy of such Study and its Implementation Strategy to OHCA within thirty (30) days of completion. PMH and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the Study (available at http://www.ct.gov/dph/lib/dph/state_health_planning/sha-ship/hct2020/hct2020_state_hlth_impv_032514.pdf), as well as any applicable community health improvement plan issued by any local health department in the Service Area.[1] The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at http://www.cdc.gov/sixeighteen) to the extent the health priorities identified in the Study correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. PMH shall publish the Community Health Needs Study and the Implementation Strategy on New Hospital's website. Until such time as the Community Health Needs Study and Implementation Strategy are submitted to OHCA, PMH shall continue to support and implement GWHN's current CHNA for the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a) 19a-613(b), 19a-639(a)(3) & (7); FF 49*

6. Within one hundred and eighty (180) days following the Closing Date, PMH shall submit a plan demonstrating how health care services will be provided by the New Hospital for the first three years following the Asset Purchase, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and the Applicants. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Conn. Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 30, 34, 43, 46*

7. Until such time as the Services Plan is submitted, PMH shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for the New Hospital specific to those services that existed at the Hospital as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website of the New Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) (7),(8),(9),(11) & (12); FF 18, 30*

[1] Other tools and resources which the Applicants are encouraged to consider include County Health Rankings and CDC Community Health Improvement Navigator in order to assist with the Study process in terms of enhancing the understanding of social, behavioral, and environmental conditions that affect health, identifying priorities, and using evidence-based interventions.

8. Within one hundred and eighty (180) days following the Closing Date and thereafter on the same semi-annual schedule as set forth in Conditions 9 and 10 below until the capital commitment is satisfied, PMH shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in the New Hospital and its affiliates from the Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:

    a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project;

    b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and

    c. The dates and amounts of withdrawals from the New Hospital's operating account and/or any other sources of funding used to fulfill the Capital Commitment.

    The reports shall be signed by the New GWHN's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(3),(4) & (5); FF 29, 31-34*

9. For three (3) years following the Closing Date, PMH shall file the following information with OHCA on a semi-annual basis for New GWHN and the New Hospital, respectively:

    a. The cost saving totals achieved in the following Operating Expense Categories for New GWHN and New Hospital: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, G, H, I, J, and K) which are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. The semi-annual submission shall also contain narratives describing:

        1. the major cost savings achieved for each expense category for the semi-annual period; and

        2. the effect of these cost savings on the clinical quality of care.

    b. A consolidated Balance Sheet, Statement of Operations, and Statement of Cash Flows for New GWHN and New Hospital. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Reports 100/150, 300/350 or successor reports.

For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 29, 31-34*

10. For three (3) years following the Closing Date, PMH shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for New GWHN and New Hospital, respectively. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report:

Financial Measurement/Indicators

A. Operating Performance
1. Operating Margin
2. Non-Operating Margin
3. Total Margin
B. Liquidity
1. Current Ratio
2. Days Cash on Hand
3. Days in Net Accounts Receivables
4. Average Payment Period
C. Leverage and Capital Structure
1. Long-term Debt to Equity
2. Long-term Debt to Capitalization
3. Unrestricted Cash to Debt
4. Times Interest Earned Ratio
5. Debt Service Coverage Ratio
6. Equity Financing Ratio
D. Additional Statistics
1. Income from Operations
2. Revenue Over/(Under) Expense

3. Cash from Operations
4. Cash and Cash Equivalents
5. Net Working Capital
6. Free Cash Flow (and the elements used in the calculation)
7. Unrestricted Assets/Retained Earnings
8. Bad Debt as % of Gross Revenue
9. Credit Ratings (S&P, FITCH or Moody's)

OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(4) & (5); FF 18, 36*

11. PMH shall ensure that the New Hospital maintains and adheres to GWHN's current policies regarding charity care, indigent care and community volunteer services after the Closing Date, or adopt other policies that are at least as generous and benevolent to the community as GWHN's current policies consistent with state and federal law. These policies shall be posted on the website of the New Hospital and as additionally required by applicable law. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 46*

12. For three (3) years following the Closing Date, PMH shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services of the New Hospital within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of the New Hospital simultaneously with its submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 46*

13. PMH shall maintain community benefit programs and community building activities for the New Hospital for three (3) years after the Closing Date consistent with the Hospital's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as GWHN's current programs, and PMH shall apply a 1% increase per year for the next three (3) years toward community building activities in terms of dollars spent.

In determining the New Hospital's participation and investment in both community benefits and community building activities, PMH shall address the health needs identified by the applicable CHNA or Study in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.

a. On an annual basis, the Applicants shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA or Study and population health management objectives. Such reporting shall be filed within thirty days of the anniversary date of the Closing for three years and shall be posted on New Hospital's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 46*

14. The New Hospital agrees to comply with the following general community benefit standards for at least the first three years following the Closing: (a) the New Hospital shall provide public health programs to the community and generally promote the welfare of the community; (b) the New Hospital shall have an open medical staff and not restrict the use of facilities to a particular group of physicians and surgeons to the exclusion of other qualified doctors; (c) the New Hospital shall participate in the Medicare and Medicaid programs; and (d) the New Hospital shall operate a 24/7 emergency department and provide emergency services to patients regardless of their ability to pay. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45, 50*

15. The New Hospital shall work toward making culturally and linguistically appropriate services available and integrated throughout its hospital operations. Specifically, the New Hospital shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the New Hospital shall provide appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the New Hospital shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing, PMH shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty days of the anniversary date of the Closing for three years and shall be posted on the New Hospital's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population. *Legal and Factual Basis: 45 C.F.R. §92.201; Stat. §§ 19a-486d(a), 19a-613(b), 19a-639(a)(5),(6) & (11); FF 45-50*

16. Within sixty (60) days after the Closing Date, the Applicants shall contract with an Independent Monitor who has experience in hospital administration and regulation, including maintaining quality control in an HRO. The Independent Monitor shall be retained at the sole expense of PMH, at a cost which shall not exceed $300,000 in the aggregate. Representatives of OHCA and the Facility Licensing and Investigations ("FLIS") section of the Department of Public Health ("DPH") will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. PMH shall provide the Independent Monitor with appropriate access to the New Hospital and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486d(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 18, 34, 45-50, 57*

17. The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of the New Hospital on no less than a semi-annual basis to assess PMH's modified QAPI program and compliance with the Quality Assurance Commitment Letter. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. PMH will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews and reviews of other PMH affiliated sites of service. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Conn. Gen. §§ Stat. 19a-486d(a), 19a-613(b), 19a-639(a)(1),(2),(4),(5),(6),(7),(11) & (12); FF 18, 34, 45-50, 57*

18. If at any time within three (3) years following the Closing Date, the New Hospital's Local Board agrees with PMH to change any of GWHN's Post Closing Quality Practices described in the Quality Assurance Commitment Letter other than to make any changes necessary to address (i) an immediate issue of patient safety; (ii) changes in federal, state, and local laws; or (iii) as mandated or recommended in guidance by a governmental agency, PMH shall notify OHCA and FLIS in writing within thirty (30) days of any such change going into effect. If the Independent Monitor disagrees with the change, OHCA may require that a request for modification be submitted and approved as required by C.G.S. §4-181a to make the change. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(1),(2),(5) & (6); FF 57*

19. For three (3) years following the Closing Date, PMH shall hold a meeting of the New Hospital Board and the Local Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of the New Hospital's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 38, 39*

20. For three (3) years following the Closing Date, PMH shall allow for one (1) community representative to serve as a voting member of the Local Board with rights and obligations consistent with other voting members under the Local Board Bylaws. The community representative shall be selected in consultation with the Mayor of Waterbury in order to ensure the appointment of an unbiased person who will fairly represent the interests of the community served by the Hospital. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-613(b), 19a-639(a)(2),(3),(5),(7),(8),(11) & (12); FF 38, 39*

21. PMH, New GWHN and the New Hospital shall abide by all requirements of licensure that may be imposed by FLIS in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this Condition to ensure that quality health care services are provided to the patient population. *Legal and Factual Basis: Stat. §§ 19a-486d, 19a-490, 19a-493, 19a-639(a)(1),(2),(5) & (6); FF 54, 57*

All of the foregoing constitutes the final order of the Office of Health Care Access in this matter.

Subject: RE: Docket No. 15-32016-486 and 15-32017-486 - Confirmation of approval of Supplemental Imaging Applications

Good Afternoon,

I double checked with OHCA's legal advisor and we can confirm that the two decisions rendered under Docket Numbers: 15-32016-486 and 15-32017-486, include all the assets requested in the two applications, including the MRI, CT and PET/CT scanners requested to be acquired by PMH in the supplemental applications filed in the two dockets. I will place a copy of this email in the original files for the two dockets for future reference. If you have any additional questions, please do not hesitate to contact us.

Sincerely,

Steven

Subject: Docket No. 15-32016-486 and 15-32017-486 - Confirmation of approval of Supplemental Imaging Applications

Hi Steven:

Thank you for speaking with me yesterday about the supplemental advanced imaging applications included in both the Eastern Connecticut Health Network, Inc. ("ECHN") and Greater Waterbury Health Network, Inc. ("GWHN") Conversion Applications.

In our call yesterday, you stated that it was OHCA's position that the three supplemental applications filed with the ECHN Conversion Application re Docket No. 15-32016-486 ((1) Acquisition of Manchester Memorial Hospital's MRI, PET/CT and CT scanners as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.; (2) Acquisition of Rockville General Hospital's MRI and CT scanner as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.; and (3) Acquisition of Rockville General Hospital's off-site MRI and CT scanner as part of the Proposed Asset Purchase of Eastern Connecticut Health Network, Inc. by Prospect Medical Holdings, Inc.) are approved as part of the Final Decision re Docket No. 15-32016-486. In lieu of any formal correspondence from OHCA regarding the approval of these supplemental applications, would you kindly confirm by responding to this email that the above statement is accurate?

Additionally, please confirm that the GWHN Final Decision Docket No. 15-32017-486 issued today similarly approves the supplemental application (Acquisition of Waterbury Hospital's CT scanners as part of the Proposed Asset Purchase of Greater Waterbury Health Network, Inc. by Prospect Medical Holdings, Inc.) filed with Conversion Application Docket No. 15-32017-486?

Thank you very much,

Kathleen Gedney-Tommaso

Re: Closing Date for Greater Waterbury Health Network, Inc. and Prospect Medical Holdings, Inc. – OHCA Docket No. 15-31217-486 and Attorney General Docket No. 15-486-02

Dear Mr. Jepsen and Ms. Brancifort:

On behalf of Prospect Medical Holdings, Inc. in connection with the above referenced matters, this letter shall serve as written notice to your respective offices regarding the closing date of the transaction. The closing has been scheduled for **October 1, 2016** subject to satisfaction of all required closing conditions. With respect to Condition 2 of the Attorney General Final Decision, this letter shall serve as the requested written notice of the closing date. Should this date change, we will notify your respective offices of such new closing date.

If you have any questions or require anything further, please contact me at 203-777-6995. Thank you for your assistance in this matter.

Very truly yours,

Michele M. Volpe,
Bershtein, Volpe & McKeon, P.C.

Re: Prospect Medical Holdings Inc./Greater Waterbury Health Network, Inc. re California Department of Public Health Survey Letter re Southern California Hospital – OHCA Docket No. 15-32017-486 and Attorney General Docket No. 15-486-02

Dear Mr. Jepsen and Ms. Brancifort:

For your records and as a follow up to Prospect Medical Holdings proposed acquisition of Greater Waterbury Health System entities, attached please find a letter from the California Department of Public Health dated September 8, 2016 clearing Southern California Hospital, a Prospect Medical Holdings entity, from the CSMS licensure termination track.

If you have any questions or require anything further, please contact me at 203-777-6995. Thank you for your assistance in this matter.

Very truly yours,

Michele M. Volpe,
Bershtein, Volpe & McKeon, P.C.

Administrator
Southern California Hospital at Hollywood
6245 De Longpre Ave
Hollywood, CA 90028

CMS Certification Number (CCN): 050135

Dear Administrator:

The California Department of Public Health (CDPH) has determined that Southern California Hospital at Hollywood now meets the Medicare Conditions of Participation for a provider of hospital services and therefore, this office will not proceed with a termination action. The authority for this decision is found at 42 C.F.R. § 498.20 - 498.25.

The 07/28/2016 revisit survey conducted by the CDPH determined that the hospital demonstrated compliance with Medicare Conditions of Participation (CoP) and provides the basis for the determination of CMS.

Therefore, effective the date of this letter, we are removing your facility from the CDPH survey jurisdiction and restoring your facility's deemed status, based on your continued accreditation by the DNV GL–Healthcare (DNV GL). While the survey found compliance with the CoP there are standard level deficiencies cited. The enclosed Statement of Deficiencies (CMS-2567) documents the findings of the 07/28/2016 survey.

Since your hospital has been determined to be in compliance with the CoP you do not have to submit a plan of correction for any of the Medicare survey deficiencies. However, under Federal disclosure rules a copy of the findings of this Medicare survey must be publicly disclosed within 90 days of the completion. You may therefore wish to submit for public disclosure, your comments on the survey findings, and any plans you may have for correcting the cited deficiencies.

Should you choose to submit a plan for correction, the evidence of correction is to be entered on the right side of Form CMS-2567 for both documents, opposite the deficiency, and must be signed and dated by the administrator or other authorized official. Please submit your evidence of correction to the CDPH, Los Angeles District office by close of business, within ten (10) days of receipt of this letter.

The evidence of correction of each item must contain the following:

1. How the correction was accomplished, both temporarily and permanently for each individual affected by the deficient practice, including any system changes that must be made.

2. The title or position of the person responsible for correction, i.e., Administrator, Director of Nursing or other responsible supervisory personnel.

3. A description of the monitoring process to prevent recurrences of the deficiency, the frequency of the monitoring and the individual(s) responsible for the monitoring.

4. The date when the immediate correction of the deficiency will be accomplished, normally this will be no more than thirty (30) calendar days from the date of the exit conferences.

We have forwarded a copy of this letter and the findings from this survey to the DNV GL for its review. Copies of this letter are being sent to the CDPH and the State Medicaid agency.

If you have any questions about this matter, please contact Alex Garza at 415-744-2830, or Maureen Calacal of my staff at 415-744-3727.

Sincerely,

Rufus Arther, Manager

Re: Memorandum of Understanding dated January 23, 2006 between Manchester Memorial Hospital ("Assignor"), and State of Connecticut Department of Public Health (as amended from time to time, the "Agreement")

Dear Sir or Madam:

We are pleased to announce that Eastern Connecticut Health Network, Inc. ("ECHN") intends to join Prospect Medical Holdings, Inc. ("PMH"). Assuming the receipt of all required regulatory approvals and satisfaction of other closing conditions, the parties intend to consummate the proposed transaction (the "Transaction") on or about October 1, 2016 (the "Closing Date").

In connection with the Transaction, ECHN will, on behalf of itself and its subsidiaries, including The Manchester Memorial Hospital, The Rockville General Hospital, Incorporated, ECHN Eldercare Services, Inc., Visiting Nurse and Health Services of Connecticut, Inc. and its wholly owned subsidiary A Caring Hand, LLC, Clinically Integrated Network of Eastern Connecticut, LLC, Eastern Connecticut Medical Professionals Foundation, Inc., Connecticut Healthcare Insurance Company, Inc., ECHN Corporate Services, Inc. and its wholly owned subsidiary Medical Practice Partners, LLC, and ECHN Enterprises, Inc. and its wholly owned subsidiary Haynes Street Property Management, LLC (collectively, "Affiliates"), transfer all or substantially all of the assets of ECHN and its Affiliates to one or more affiliates of PMH. The assets to be transferred include all of the rights and obligations of Assignor under the Agreement.

We are sending this letter to notify you of ECHN's plans to assign the Agreement to Prospect Manchester Hospital, Inc., an affiliate of PMH (the "Assignee"). The Assignee will assume all of the rights and obligations of ECHN and/or its Affiliate(s) under the Agreement arising on or after the Closing Date.

ECHN Contract No. 2005-384

Following the Closing Date, all invoices or further correspondence to Assignee regarding the Agreement shall be sent to:

President & CEO
Prospect ECHN, Inc.
71 Haynes Street
Manchester CT 06040

with a copy of any correspondence or legal notice to:

Prospect ECHN, Inc.

SECRETARY OF THE STATE
CONNECTICUT SECRETARY OF THE STATE

CERTIFICATE OF INCORPORATION
OF
PROSPECT WATERBURY, INC.

(a Connecticut business corporation)

FIRST: The name of the corporation shall be PROSPECT WATERBURY, INC. (the "Corporation").

SECOND: The authorized capital stock of the Corporation shall consist of one thousand (1,000) shares of common stock, at par value $0.01 per share.

THIRD: The common stock shall have the following rights and privileges:

(a) Voting Rights. Each holder of record of common stock shall be entitled to one vote for each share of stock held.

(b) Voting Requirements. Stockholder action on any matter whatsoever shall require the affirmative vote of at least a majority of the shares of the common stock issued and outstanding at the time of such vote, and for those matters for which the vote of a greater proportion of such shares may be specified by law, the affirmative vote of the proportion of such shares so specified shall be required.

(c) Preemptive Rights. No holder of the common stock shall be entitled as of right to purchase or subscribe for any unissued shares of the Corporation whether now or hereafter authorized or whether of a class hereafter created, or to purchase or subscribe for any bonds, certificates of indebtedness, debentures, or other obligations convertible into shares of the Corporation.

(d) Dividends. The holders of the common stock shall be entitled to receive dividends as and when declared by the Board of Directors of the Corporation.

FOURTH: The name and address of the Corporation's registered agent and office in the State of Connecticut is C T Corporation System, One Corporate Center, Hartford, Connecticut, 06103-3220.

FIFTH: The name and complete address of the incorporater is as follows:

NAME	MAILING ADDRESS
Leonard Lipsky, Esq.	Epstein Becker & Green, P.C. 250 Park Ave New York, NY 10177

SIXTH: The management of the business and the conduct of the affairs of the Corporation shall be vested in a board of directors (the "Board of Directors"). The number of directors which shall constitute the whole Board of Directors shall be fixed by, or

Email: None

in the manner provided in, the bylaws of the Corporation. No election of directors needs to be by written ballot.
