Hartford, CT 06106

Re: Yale New Haven Health Services Corporation and Lawrence + Memorial Corporation
Certificate of Need Application

Dear Ms. Martone:

Enclosed please find the original, four hard copies in 3-ring binders, and an electronic copy on CD of a Certificate of Need (CON) application for the affiliation of Yale New Haven Health Services Corporation and Lawrence + Memorial Corporation. Also enclosed is a check with the filing fee of \$500.00.

Please do not hesitate to contact me with any questions or concerns.

Thank you for your time and support of this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Nancy Rosenthal".

Nancy Rosenthal
Senior Vice President – Health Systems Development

Main Form**
Required for all CON applications

Contents:

- Checklist
- List of Supplemental Forms
- General Information
- Affidavit
- Abbreviated Executive Summary
- Project Description
- Public Need and Access to Health Care
- Financial Information
- Utilization

All Supplemental Forms

In addition to completing this Main Form and the appropriate financial worksheet, applicants must complete one of the following supplemental forms listed below. All CON forms can be found on the OHCA website at [OHCA Forms](#).

Conn. Gen. Stat. Section 19a-638(a)	Supplemental Form
(1)	Establishment of a new health care facility (mental health and/or substance abuse) - see note below*
(2)	Transfer of ownership of a health care facility (excludes transfer of ownership/sale of hospital – see "Other" below)
(3)	Transfer of ownership of a group practice
(4)	Establishment of a freestanding emergency department
(5) (7) (8) (15)	Termination of a service: termination of inpatient or outpatient services offered by a hospital termination of surgical services by an outpatient surgical facility termination of an emergency department by a short-term acute care general hospital termination of inpatient or outpatient services offered by a hospital or other facility or institution operated by the state that provides services that are eligible for reimbursement under Title XVIII or XIX of the federal Social Security Act, 42 USC 301, as amended
(6)	Establishment of an outpatient surgical facility
(9)	Establishment of cardiac services
(10) (11)	Acquisition of equipment: acquisition of computed tomography scanners, magnetic resonance imaging scanners, positron emission tomography scanners or positron emission tomography-computed tomography scanners acquisition of nonhospital based linear accelerators
(12)	Increase in licensed bed capacity of a health care facility
(13)	Acquisition of equipment utilizing [new] technology that has not previously been used in the state
(14)	Increase of two or more operating rooms within any three-year period by an outpatient surgical facility or short-term acute care general hospital
Other	Transfer of Ownership / Sale of Hospital

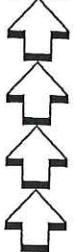

*This supplemental form should be included with all applications requesting authorization for the establishment of a **mental health and/or substance abuse treatment facility**. For the establishment of other "health care facilities," as defined by Conn. Gen. Stat § 19a-630(11) - hospitals licensed by DPH under chapter 386v, specialty hospitals, or a central service facility - complete *the Main Form* only.

LEGAL NOTICES

PUBLIC NOTICE

Pursuant to 12 CFR §303.65 of the regulations of the Federal Deposit Insurance Corporation (the "FDIC"), notice is hereby given that Liberty Bank, whose main office is located at 315 Main Street, Middletown, Connecticut 06457, has filed with the FDIC an application to engage in a merger transaction whereby Naugatuck Valley Savings and Loan ("NVSLS") will merge with and into Liberty Bank with Liberty Bank being the surviving bank. It is contemplated that all offices of the above named institutions will continue to be operated with the exception of NVSLS's Cheshire Branch located at 1699 Highland Avenue, which will be closed and consolidated with Liberty Bank's Cheshire branch located at 160 Highland Avenue, Cheshire, CT at the effective time of the transaction.

Any person wishing to comment on such application may file his or her comments in writing with the regional director of the FDIC at the appropriate FDIC office: John Vogel, Regional Director, FDIC, 15 Braintree Hill Office Park, Suite 200, Braintree, MA 02184-9701, not later than August 27, 2015. The non-confidential portions of the application are on file at the appropriate FDIC office and are available for public inspection during regular business hours. Photocopies of the non-confidential portion of the application file will be available upon request.

Public Notice:

Northeast Medical Group, Inc. (NEMGI) and L&M Physicians Association, Inc. are jointly filing a Certificate of Need Application pursuant to Connecticut General Statutes 19a-638 (a)(3) for the merger of the two Medical Foundations with NEMGI being the surviving entity. This transfer of ownership of a group practices part of the larger transaction involving Yale-New Haven Health Services Corporation ("YNHSC") and Lawrence + Memorial Corporation ("L+M") for YNHSC to become sole member of L+M. There is no capital expenditure associated with this Application.

SHOP FROM your easy chair. Shopping the classifieds is easy, relaxing and you don't have to worry about parking.

LEGAL NOTICES

Public Notice: Yale-New Haven Health Services Corporation ("YNHSC") and Lawrence + Memorial Corporation ("L+M") are jointly filing a Certificate of Need Application pursuant to Connecticut General Statutes 19a-638 (a) (2) and 19a-665. YNHSC and L+M will be seeking approval for YNHSC to become the sole member of L+M, which will result in Lawrence + Memorial Hospital joining and becoming part of the Yale New Haven Health System. Lawrence + Memorial Hospital's current location at 365 Montross Avenue, New London, CT, will not change as a result of this transaction. There is no capital expenditure associated with this Application.

TAX COLLECTOR'S NOTICE CITY OF WEST HAVEN

Including: CITY OF WEST HAVEN FIRE DISTRICT ALLINGTON CENTER FIRE DISTRICT WEST SHORE FIRE DISTRICT

Pursuant to Sec. 12-145 of the Connecticut State Statutes, the undersigned Tax Collector of the City of West Haven gives notice that taxes for the October 1, 2014 grand list, for real estate, motor vehicle, personal property and sewer use fees are due and payable on July 1, 2015 and January 1, 2016. Last day to pay in full, official US Postmark accepted, is August 3, 2015 for the first installment and February 1, 2016 for the second installment. Late payments will be charged interest from the due date at a monthly rate of 1.5 percent or fraction thereof, 18 percent per annum as required by Connecticut Gen Stat 12-130, 145 and 146. The minimum interest charge is \$2.00 on each tax bill. Failure to receive a bill does not invalidate the tax nor any interest and penalties incurred per Connecticut Gen Stat Sec. 12-130 and 12-146. Missed checks payable to Collector of Taxes and mail, with tax bill, to Collector of Taxes - City of West Haven, PO Box 150461, Hartford, CT 06115. Payments can also be made at the tax office, 255 Main St., first floor, West Haven, CT - office hours are Mon-Fri from 9:00 a.m. to 4:00 p.m. During the collection cycle only, a drop box is available outside the tax office weekdays from 7:30 a.m. to 7:30 p.m. Point and Pay, LLC services all credit/debit card payments (convenience fee applies). To pay online log on to www.cityofwesthaven.com - see Quick Links - Tax Collector Dept info.

LEGAL NOTICES

CITY OF ANSONIA
Motor Vehicle, Real Estate and Personal Property Taxes on the Grand List of October 1, 2014 are due July 1, 2015 and payable during the month of July 2015. Tax payments may be mailed to:
Collector of Taxes
Post Office Box 133
Ansonia, CT
Payments may also be made in person between the hours of 8:30 - 4:30 P.M. T.W. THURSDAY 8:30 - 5:00 P.M. at the Tax Collector's Office, 923 Main Street, Ansonia.
Taxpayers who have not received a bill in July should contact Tax Office for a duplicate bill since failure to receive a bill does not invalidate the tax or respective penalties should the account become delinquent. Unpaid taxes will be considered delinquent as of August 4, 2015. On that day interest will be charged from the original date of July 2015. Interest is charged at the rate of 18% per year in accordance with the provisions of Connecticut General Statutes Sec 12-246.
T. Blackwell, Tax Collector
City of Ansonia
2526168

LEGAL NOTICE
Pursuant to Conn. Gen. Stat. §16-245m, the Public Utilities Regulatory Authority (PURA) will conduct a public hearing at Ten Franklin Square, New Britain, Connecticut, on Tuesday, August 4, 2015, at 9:00 a.m., concerning Docket No. 15-01-24 - Annual Reconciliation of the Conservation Adjustment Mechanism Filed by: The Connecticut Light and Power Company, The United Illuminating Company, Connecticut Natural Gas Corporation and Southern Connecticut Gas Company and Yankee Gas Services Company.

LEGAL NOTICE TO HAMDEN TAXPAYERS
The first installment of taxes levied on the Grand List of October 1, 2014 is due and payable July 1, 2015.
If these taxes are not paid on or before August 3, 2015, they will be subject to interest at the rate of 1 1/2% or fraction thereof from the due date of July 1, 2015 to the date the tax installment is paid. The minimum interest charge is \$2.00.
These taxes become delinquent August 4, 2015. In accordance with a Town Ordinance all delinquent motor vehicle taxes requiring a release for motor vehicle registration must be paid by cash, certified check or money order.
Taxes will be received at the Office of the Tax Collector, Hamden Government Center, 2750 Dixwell Ave., Hamden, Monday through Friday 8:30 AM to 4:30 PM.
This is subject to change to conform to the latest Public Acts, General Statutes and local ordinances.
JOHN STEELE, CMC

NEW LONDON PUBLIC SCHOOLS

Is seeking applicants for the following administrative position: NATHAN HALE ARTS MAGNET SCHOOL PRINCIPAL New London, CT Grades K - 5

In only its second year as visual and performing arts magnet school in New London, the Nathan Hale Arts Magnet School provides students from kindergarten through grade 5 an integrated learning environment that combines traditional academics with an arts curriculum that includes visual and instrumental music, visual art, dance, theatre, creative writing, and interdisciplinary arts.

The school boasts a variety of specialty rooms in which students can express their creative inner selves, including an outdoor art classroom, a music & instrument room, an art room, a state-of-the-art dance room with sprung loaded floor, a choral & music room, a keyboard classroom, video editing room, and a science room.

New London has been designated by state legislation as the only "Magnet District" in Connecticut.

The Nathan Hale Arts Magnet School teaches all facets of the production cycle, and students create projects for both school-based and outside audiences. Instruction in core academic areas, as well as participation in live performances and public showcases of their work, provides students with challenging learning activities that will develop their ability to demonstrate creativity, communicate effectively, collaborate with others, and assume leadership roles.

The school seeks to transcend the work of a traditional elementary school. Teachers focus on educating the whole child and on developing a community of learners that values the work of all individuals.

The district is seeking a dynamic leader to join our journey. Qualified applicants will have:

- Possession of CT Administrative Certificate (092) or eligibility to obtain the CT 092
• Teaching and/or administrative experience in a magnet school environment is a plus
• Certification and instructional or practical experience in one or more of the fine arts (music, visual arts, theater or dance) preferred
• A background in and demonstrated commitment to the arts

Please submit letters of intent, resume, application, three letters of reference, certification, a statement regarding educational philosophy and transcripts to:

Cherese Chery Chief Talent/Human Resources Officer New London Public Schools 154 Williams Street, New London, CT 06320

Closing Date for Applications: August 1, 2015

Applications must be submitted electronically through Applitrack.com. http://www.applitrack.com/newlondon/onlineapp/

New London Public School District is an Equal Opportunity/Affirmative Action Employer. Candidates from diverse racial, ethnic and cultural backgrounds are encouraged to apply.

Notice of Tentative Determination to Approve Stationary Source New Source Review Permit Applications and Notice of Public Informational Hearing

Applicant: CPV Towantlic, LLC Application No. 201408901, 201408904, 201408905, 201408906, 201408907 City/Town: Oxford, CT

The Commissioner of the Department of Energy and Environmental Protection (DEEP) hereby gives notice that a tentative determination has been reached to approve the following applications. The proposed activity will affect air resources. The Commissioner also gives notice that a hearing may be held on this application if the Commissioner determines that the public interest will best be served thereby, and shall hold a hearing as provided below.

Applicant's Name and Address: CPV Towantlic, LLC, 50 Braintree Hill Office Park, Suite 800 Braintree, MA 02184

Contact Name/Phone/Email: Mr. Andrew Bazilio, (781) 848-9611, abazilio@cpv.com

Type of Permit: Five (5) New Source Review permits for a new 805 kW Combined Cycle Power Plant consisting of two (2) 700 cfm combustion turbines with duct firing, one auxiliary boiler and two emergency diesel fired engines.

Relevant Statute(s)/Regulation: CGS 22a-174, Clean Air Act Amendments of 1990

Facility Location: 16 Woodruff Hill Road, Oxford, CT 06470

The DEEP has tentatively determined that the Lowest Achievable Emission Rate (LAER) for NOx emissions shall be:

- 2.0 ppmvd and 5.0 ppmvd when combusting natural gas and ultra low sulfur distillate (ULSD) for the turbines.
• 7 ppmvd for the auxiliary boiler burning only natural gas.
• Fuel limitation on hours of operation and latest required USEPA certified engines for the diesel emergency and firm pump engines
• The applicant is required to possess 234 tons of approved serious non-attainment NOx emission reduction credits to offset the potential 194.7 annual tons of NOx that may be emitted from the facility.

According to the ambient air impact analysis, the proposed facility will not cause or contribute significantly to any violation of a National Ambient Air Quality Standard or Prevention of Significant Deterioration (PSD) increment. The predicted PM10 multi-source ambient impacts for nitrogen dioxide (NO2), sulfur dioxide (SO2) and PM10 are presented in the table below:

Table with 3 columns: PARAMETER, PSD INCREMENT (ug/m3), MAXIMUM IMPACT (ug/m3). Rows include SO2 annual arithmetic mean, SO2 24-hr average, SO2 3-hr average, NO2 annual, PM-10 annual arithmetic mean, PM-10 24-hr average, PM-2.5 annual arithmetic mean, PM-2.5 24-hr average.

INFORMATION REQUESTS/PUBLIC COMMENT Interested persons may obtain copies of the application from the applicant at the applicant's address noted above. The application, proposed permits and supporting documentation is available for inspection at DEEP, Bureau of Air Management, 79 Elm Street, Hartford, CT from 9:00 a.m. to 4:00 p.m. on Monday through Friday and at other times by appointment. Interested persons have thirty (30) days from publication of this notice to submit comments in writing to the Department of Energy and Environmental Protection, Bureau of Air Management or request a public hearing concerning the commissioner's tentative determination to approve the permit application, in accordance with section 22a-3a-5(d) of the Regulations of Connecticut State Agencies and section 22a-174-2a(c) of the Regulations of Connecticut State Agencies. Please note: The department has already determined it will hold a public informational hearing as indicated in the remainder of this notice. Written comments on the application should be directed to Mr. James Drift, Bureau of Air Management, DEEP, 79 Elm Street, Hartford, CT 06169-5122, no later than 30 days from the publication date of this notice. Comments regarding this application may be submitted via electronic mail to: james.drift@dep.ct.gov.

NOTICE OF PUBLIC INFORMATIONAL HEARING As requested and pursuant to section 22a-174-2a(c) of the CGS, the commissioner will hold a Public Informational Hearing to take public comments concerning the tentative determination to approve the above referenced air permit applications.

The informational hearing will be held on August 27, 2015 at 6:30 pm at Oxford High School, 61 Quaker Farms Road, Oxford, CT 06457. The hearing is posted on the "Calendar of Events" on DEEP's website at: http://www.deps.state.ct.us/calend.htm. The public hearing will be rescheduled if inclement weather results in a closure of the location of the hearing. Members of the public should check the Calendar of Events for the date and time of the rescheduled hearing if inclement weather prevents the holding of the scheduled hearing.

The informational hearing will be moderated and recorded by a DEEP hearing officer and will proceed in the following order: presentations from the applicant and DEEP staff; a 15-minute oral record break for questions and answers between members of the public and presenters; and then the continuation of the informational hearing to receive oral and written comments from members of the public on the record. Comments will be heard in the order in which members of the public sign up at the informational hearing.

Written comments will be accepted at the informational hearing and until the close of business on September 3, 2015. Instructions on how and where to submit comments between August 27 and September 3 will be provided at the informational hearing. Persons seeking to intervene in the hearing process must file a request no later than 5 days prior to the start of the public hearing. Requests may be mailed or delivered to the Office of Adjudications, 79 Elm Street, Hartford, CT 06169 or filed electronically at: deep.adjudications@ct.gov. For additional information go to: www.ct.gov/deep/air/permissions.

ADA PUBLICATION STATEMENT The Department of Energy and Environmental Protection is an Affirmative Action and Equal Opportunity Employer that is committed to the requirements of the Americans with Disabilities Act. To request an accommodation, call 860-418-5916, or deep.access@dep.state.ct.gov

NOTICE OF PUBLIC HEARING The Representative Policy Board of the South Central Connecticut Regional Water District will hold a public hearing to consider the South Central Connecticut Regional Water Authority's Application for the Transfer of Interest in Real Property (Conservation Easement) to the State of Connecticut for 60+ acres located off Great Hill Rd. in Guilford, CT, which is currently referred to as Land Unit 6U 12A at 7:30 a.m. on Thursday, August 20, 2015 at the Nathaniel B. Greene Community Center, 21 Center Street, Guilford, CT 06437. The Public Hearing is being held pursuant to Sections 18-8a and 18 of Special Act 77-98, as amended. The applications and accompanying information are available for public inspection between the hours of 9:00 a.m. to 5:00 p.m. at the office of the Regional Water Authority, 50 Sargent Drive, New Haven, Connecticut.

All users of the public water supply system residents of the Regional Water District, owners of property served or to be served, and other interested persons shall have an opportunity to be heard concerning the matters under consideration.

Thomas P. Clifford III, Chairman REPRESENTATIVE POLICY BOARD South Central Connecticut Regional Water District 50 Sargent Drive, New Haven, CT 06511

Public Notice: Yale-New Haven Health Services Corporation ("YNHSC") and Lawrence + Memorial Corporation ("L+M") are jointly filing a Certificate of Need Application pursuant to Connecticut General Statutes 19a-638 (a)(3) for the merger of the two Medical Foundations with NEMG being the surviving entity. This transfer of ownership of a group practice is part of the larger transaction involving Yale-New Haven Health Services Corporation ("YNHSC") and Lawrence + Memorial Corporation ("L+M") for YNHSC to become sole member of L+M. There is no capital expenditure associated with this Application.

Public Notice: Yale-New Haven Health Services Corporation ("YNHSC") and Lawrence + Memorial Corporation ("L+M") are jointly filing a Certificate of Need Application pursuant to Connecticut General Statutes 19a-638 (a)(3) and 19a-486. YNHSC will request CON approval for YNHSC to become the sole member of L+M, which will result in Lawrence + Memorial Hospital joining and becoming part of the Yale New Haven Health System. Lawrence + Memorial Hospital's current location at 365 Montauk Avenue, New London, CT will not change as a result of this transaction. There is no capital expenditure associated with this Application.

REPRESENTATIVE BOARD MEETING

August 4, 2015

The members of the Representative Board Meeting, students and other staff members of the Board of Trustees for the Department of Public Health will meet for the Board of Trustees on the 4th floor of the University Center, 1110 Main Street, Waterbury, on Thursday, August 4, 2015, at 12:00 PM, for the following reasons:

- To consider and act upon the Minutes of the Aug. 3, 2015 Regular Meeting.
- To consider and act upon Committee Reports.
- To consider and act upon an application for a vacancy on the Senior Citizens Commission for the period from April 6, 2015 - April 6, 2016.
- To consider and act upon an application for a vacancy on the Board of Public Health for the period from August 5, 2015 - August 7, 2016.
- To consider and act upon an application for a vacancy on the Board of Public Health for the period from August 4, 2015 - August 3, 2016.
- To consider a report from Robert Schuch, Executive Director of Public Health, U.S. Department of Health and Human Services, on behalf of the approval of the proposed release by the Board of Public Health.
- To consider and act upon a report from the Board of Public Health on behalf of the Chief Engineer, based on the report from the Chief Engineer's Office for an application for a license for the use of a lift truck on the campus of the University Center, 1110 Main Street, Waterbury, on Thursday, August 4, 2015, at 12:00 PM.
- To consider and act upon a proposed amendment to Section 8.2.4.9.4 and 8.2.4.9.5 of the Waterbury Code of Ordinances, City of Waterbury (Codebook), to establish that payments for all fees for lifts shall be paid by the general fund of the town, pending recommendation by the Public Health Standing Committee of the Representative Board Meeting.

Held at Waterbury, Connecticut, 1110 Main Street, July 28, 2015.

Thomas J. Demba, Board Moderator

TOYOTA LEASING INVITATION TO BID - 2015-14 SURPLUS VEHICLES AND EQUIPMENT

The Town of Ledyard invites sealed bids for Surplus Vehicles and Equipment. A complete list is available on our web site at www.ledyard.org.

Sealed bids will be received until 2:00 P.M. on Thursday, August 11, 2015, at 711 Old Ledyard Ferry Road, Ledyard, CT, at which time they will be opened. Proposals received after that time will not be accepted. Sealed proposals should be clearly marked "2015-14 TOYOTA LEASING SALE OF SURPLUS ITEMS". Bid proposals shall clearly identify items for which bids are offered by three (3). Get them on the 147-343 web site.

All vehicles, equipment, and supplies are offered in "as-is" condition and no warranties are offered nor implied by the town. All items must be removed by the bidder. Viewing hours are on the dates and times within 30 calendar days of the opening or their respective BIDS will be forfeited.

The town will be the highest responsible bidder, provided that the bid is reasonable, and provided that it is the best interest of the Town of Ledyard to accept such bid.

Angela Calabrese
 Auctioneer, Director of Finance

Executive Summary

The purpose of the Executive Summary is to give the reviewer a conceptual understanding of the proposal. In the space below, provide a succinct overview of your proposal (this may be done in bullet format). Summarize the key elements of the proposed project. Details should be provided in the appropriate sections of the application that follow.

Yale New Haven Health Services Corporation ("YNHHSC") proposes to become the sole corporate member of Lawrence + Memorial Corporation ("L+M"). This Certificate of Need Application ("CON") is being submitted as required by Connecticut General Statutes §19a-638 (a) (2) which requires CON approval for the transfer of ownership of Lawrence + Memorial Hospital ("L+MH").

Community hospitals are finding it increasingly difficult to remain independent and thus, are integrating with larger integrated delivery systems to gain the resources and expertise needed to meet the challenges of health care reform and succeed long into the future. The proposed affiliation is also the result of a long-standing collaborative and supportive working relationship between YNHHSC and L+M, shared values between the two systems, and a mutual desire to further each organization's mission in today's rapidly changing health care marketplace. L+MH will continue as an independently licensed hospital, with its own separate medical staff and bylaws, rules, regulations, and elected officers, but will become part of a larger integrated health system that can offer it the support and resources it needs.

The applicants believe that the proposed affiliation will provide significant benefits to both organizations and the communities they serve. L+M and YNHHSC seek an affiliation where access to primary and advanced specialty care will be greatly enhanced for L+M patients, efficiencies achieved, quality of care improved, collaboration promoted, risk managed more effectively, and population health is a priority. There are no planned closures or reductions in any of the clinical services currently offered by L+M. The applicants are planning service enhancements and expansions to minimize the need for area residents to have to travel outside the service area for many specialty services.

Overall, this proposal will allow L+M to continue to respond to the demands of health care reform while maintaining access for high quality services for its patients.

This proposal is financially feasible for both applicants and is expected to offer certain operational efficiencies.

Pursuant to Section 19a-639 of the Connecticut General Statutes, the Office of Health Care Access is required to consider specific criteria and principles when reviewing a Certificate of Need application. Text marked with a “§” indicates it is actual text from the statute and may be helpful when responding to prompts.

Project Description

1. Provide a detailed narrative describing the proposal. Explain how the Applicant(s) determined the necessity for the proposal and discuss the benefits for each Applicant separately (if multiple Applicants). Include all key elements, including the parties involved, what the proposal will entail, the equipment/service location(s), the geographic area the proposal will serve, the implementation timeline and why the proposal is needed in the community.

Response

Overview:

Yale New Haven Health Services Corporation (“YNHHSC”) proposes to become the sole corporate member of Lawrence + Memorial Corporation (“L+M”) pursuant to the Affiliation Agreement attached hereto as Attachment III. This Certificate of Need Application (“CON”) is being submitted as required by Connecticut General Statutes §19a-638 (a) (2) which requires CON approval for transfer of ownership of a hospital. L+M is the sole corporate member of Lawrence + Memorial Hospital (“L+MH”). A brief description of each of the applicants is provided below.

Applicants:

YNHHSC is a Connecticut non-stock, tax-exempt corporation that was organized in 1983 to provide support services to a nonprofit network of affiliated health care providers known, collectively, as the Yale New Haven Health System (“YNHHS”). YNHHSC directs and implements certain programs and activities that assist its members in providing high quality, cost-effective health services for the benefit of the communities they serve. YNHHSC also collaborates with Yale University to provide high quality, highly specialized health care services as well as initiate, develop, and maintain educational programs for health care professionals and the public.

YNHHSC consists of the following main health care providers:

- Yale-New Haven Hospital (“YNHH”) is a 1,541-bed acute care destination hospital that provides complex care to residents of Connecticut and beyond. It is the primary teaching hospital for the Yale University’s Schools of Medicine and Nursing. YNHH has two main campuses located at 20 York Street and 1540 Chapel Street in New Haven. Its primary service area consists of 48 towns with a total of 116 zip codes. YNHH’s primary and secondary service areas combined consist of 88 towns with 220 zip codes. In fiscal year (“FY”) 2014, there were 78,529 inpatient discharges from YNHH with an 80% occupancy rate. YNHH includes the Yale-New Haven Children’s Hospital, the Yale-New Haven Psychiatric Hospital and the Smilow Cancer Hospital. YNHH offers multi-specialty services in its outpatient centers in New Haven, North Haven, and Guilford as well as dozens of radiology and blood-drawing patient service centers throughout the region.
- Bridgeport Hospital (“BH”) is a 383-bed licensed acute care hospital located in Bridgeport, Connecticut. BH had 18,208 inpatient discharges in FY 2014. BH also offers a wide range of outpatient services for residents of the

communities it serves.

- Greenwich Hospital ("GH") is a 206-bed licensed acute care hospital located in Greenwich, Connecticut. GH had 12,208 inpatient discharges in FY 2014. GH also offers a wide range of outpatient services for residents of the communities it serves.
- Northeast Medical Group ("NEMG") is a YNHHS multispecialty physician medical foundation organized under Connecticut General Statutes §33-182aa et seq. NEMG supports YNHHS hospitals in offering primary care practices, hospitalist services and offers specialty care.

L+M is a Connecticut non-stock, tax-exempt corporation that is the sole member of subsidiaries that operate acute care hospitals and community based services throughout its service area. L+M's primary and secondary service area consists of 18 and 12 towns respectively.

L+M consists of the following health care providers:

- L+MH is a 280-bed licensed acute care community hospital located in New London, Connecticut. L+MH's primary and secondary service areas consist of 20 towns. L+MH had 14,151 inpatient discharges in FY 2014. L+MH's major clinical programs include oncology, heart and vascular care, including a primary and elective angioplasty program, maternity including a Level III Neonatal Intensive Care Unit, orthopedics, surgery, including two ambulatory surgery centers, and eight (8) outpatient facilities.
- Westerly Hospital ("Westerly") located in Westerly, Rhode Island, is a 125-bed licensed community hospital with a particular focus on primary (or routine) medical and surgical services. Westerly had 2,903 inpatient discharges in FY 2014 and offers major clinical programs in heart and vascular care as well as surgery.
- L&M Physician Association, Inc. ("L&MPA") is a medical foundation consisting of 71 physicians with 11 practice locations in Connecticut and Rhode Island.
- Visiting Nurse Association of Southeastern Connecticut ("VNASC") is a licensed and Medicare certified home health agency providing skilled nursing and therapy services in the home, a school health program and community wellness initiatives. VNASC provided more than 140,000 visits to care for almost 3,400 patients living in the communities served.

Proposal:

The proposed affiliation is the result of a long-standing collaborative and supportive working relationship between YNHHS and L+M, shared values between the two systems and a mutual desire to further each organization's mission in today's rapidly changing health care marketplace.

In early 2015 and at the direction of the L+M Board of Directors, L+M approached YNHHS to begin discussions relating to a corporate affiliation. After several months of deliberate and focused discussions, YNHHS and L+M agreed to the terms of an Affiliation Agreement, previously referenced as Attachment III, which will permit YNHHS to become the sole corporate member of L+M. L+MH and Westerly will continue as independently licensed hospitals, with their own separate medical staffs and bylaws, rules, regulations, and elected officers. This is the same corporate relationship that currently exists between YNHHS and YNH, BH and GH. Pursuant to Connecticut law that allows one medical foundation per health care

system, L&MPA will be merged into NEMG and a separate CON application for the transfer of ownership of a group practice is being submitted along with this CON for a transfer of ownership of a hospital. See, C.G.S. § 33-182 et seq.

The applicants believe that the proposed affiliation will provide significant benefits to both organizations and the communities they serve. Patients will be able to receive the right care, at the right place, at the right time, and in the most cost-effective setting. Together, L+M and YNHHSO will be better positioned to sustain their charitable missions in the demanding and rapidly changing health care marketplace. Both organizations share similar missions and values as it relates to having a strong focus on service excellence, a commitment to serving uninsured and underinsured patients, and providing community benefit.

L+MH, as a cost-effective acute care provider, with a vibrant outpatient and primary care capacity, strong management, and a strong history as a high quality, high value, patient-centered provider will add to the strength of the YNHHSO. L+M and YNHHSO seek an affiliation wherein one and one is more than two, or more specifically, wherein efficiencies are achieved, quality of care improved, collaboration encouraged, risk managed more effectively, and population health is a priority.

Determination of Need & Benefits to Both Applicants:

In response to health care reform, more and more community hospitals are finding it increasingly difficult to go it alone and thus, are affiliating with larger integrated delivery systems to gain the resources and expertise needed to meet the challenges of today and succeed long into the future. As OHCA is aware, Connecticut hospitals are now faced with even lower Medicaid reimbursement and increased taxation. The consistent Medicaid reimbursement cuts result in hospitals receiving 42 cents on the dollar according to the Connecticut Hospital Association. Every dollar of revenue that Connecticut hospitals receive is reinvested in maintaining and updating their aging physical plants, acquisition of new technology such as an electronic medical record, and implementing strategies designed to ensure that hospitals continue to provide critically needed primary and specialty services to their communities. Community hospitals, in particular, will be negatively affected in the next fiscal year as they deal with these cuts and taxes with their increasingly limited resources.

The focus of health care providers has shifted to developing the capacity to assume greater financial risk for health care services and outcomes, improved quality outcomes, formation of new models such as accountable care organizations placing greater emphasis on primary and outpatient care, and population health management. Hospitals that are not part of a larger health system do not have the clinical and financial resources and expertise necessary to create and support a continuum approach to care delivery, which is required to achieve the Institute for Healthcare Improvement's "Triple Aim" of:

- improving the population's health over time;
- improving the patient experience (quality and service); and
- reducing per capita health care cost.

Benefits to L+M:

L+M's goal for the proposed affiliation is to be part of a clinically integrated, financially sustainable health system that improves the health of its communities, and preserves and enhances access to high quality patient care. It seeks to transform its organization to enable it to continue to thrive as the advent of population health

strategies, value-based payment models, telehealth, and other significant forces reshape how health care is organized and delivered.

Pursuing this affiliation is necessary for L+M to maintain its community service commitments, continue to provide high quality health care services in the local community, and ensure its financial health. Today, health care reform at both the national and state levels is requiring providers to integrate service delivery and assume responsibility for achieving specific quality, cost, and service outcomes. L+M, on its own, lacks the clinical and financial resources to accomplish these goals. The proposed affiliation and integration will provide L+M with economies of scale as they relate to information technology, finance, insurance, equipment, supplies and other administrative services.

Through an affiliation with YNHHS, L+M and the community it serves will significantly benefit from:

- Enhanced access to clinical services available to its patients through clinical integration and collaboration with YNHHS affiliated physicians;
- A strengthened ability to retain, develop, and recruit the best talent available as part of YNHHS ;
- Access to needed capital,(once L+M becomes part of the YNHHS Obligated Group), that better enables L+M to re-invest in the communities it serves and in itself, including state-of-the-art facilities and technologies, including diagnostic capabilities that preserve its ability to provide high quality health care services;
- Access to population health expertise and infrastructure; and
- Greater financial stability by virtue of being part of a large health system.

Benefits to YNHHS:

YNHHS's vision is as follows:

"Yale New Haven Health enhances the lives of the people we serve by providing access to high value, patient-centered care in collaboration with those who share our values."

L+M is an ideal partner with its:

- Compatible vision and culture;
- Commitment to alignment/integration with local physicians;
- Commitment to safety, quality and service performance; and
- Collaboration across the continuum of care.

History of Collaboration:

YNHHS has strong historical ties and a positive clinical collaborative relationship with L&M and its physicians. There are a number of existing and successful service line and clinical relationships between the two organizations which have demonstrated the success relating to clinical collaboration by the applicants.

Specifically, L+M has existing clinical affiliations with YNH or Yale Medical Group (YMG) in the following areas:

- Heart and vascular care
 - Primary and elective angioplasty
 - Vascular surgery and endovascular procedures

- Radiation oncology services
- Neonatology physician coverage
- Pediatric hospitalists staffing
- Pediatric emergency department staffing
- Neurosurgical services
- Telestroke services

YNHH serves as a destination hospital for many smaller hospitals throughout the State of Connecticut because it offers specialized tertiary and quaternary services not available in smaller facilities. With respect to L+MH, YNHH is the preferred provider for L&M service area residents for such services. L+MH transfers approximately 1,000 patients each year to YNHH in New Haven, Connecticut, via the Y-Access Transfer Service, more than are transferred from any other hospital in the State. These patients are historically referred back to the L+M community once they are discharged.

Governance:

As with the other affiliate hospitals in YNHHSC, a meaningful and active local hospital Board of Trustees (“Board”) with community representation will be maintained at L+M.

L+M will continue to remain a separate entity with its own separate Board responsible for overseeing and managing L+MH and Westerly. The L+M Board will continue to play a meaningful role in the stewardship of L+M, subject to certain reserved rights of YNHHSC with respect to fundamental strategic, financial and governance matters, as is the case with other YNHHSC hospital affiliates. The L+M Board will be composed of the existing L+M Board, (except that in lieu of the ex officio Board seat reserved for the Chair of an L+M affiliated physician organization, an additional Board seat is reserved for a Medical Staff member of L+MH or Westerly), plus one member appointed by YNHHSC. Subject to all regulatory approvals, the L+M trustees will be elected by YNHHSC from nominees proposed by the L+M Board. As of the effective date of the proposed affiliation, the Chair of the Board of L+M will be elected as a voting member of the Board of YNHHSC for six years. During such time, the person will have the opportunity to be a member of the YNHHSC Nominating and Governance Committee. Other members of the L+M Board will also have the opportunity to serve on YNHHSC Board committees and be elected to the YNHHSC Board.

The L+MH Board will likewise continue as a fiduciary board and will be responsible for oversight and management of matters such as patient care, safety, licensure, accreditation, medical staff credentialing, election and removal of officers, and approval of such L+MH actions that have not otherwise been reserved to L+M and/or to YNHHSC. A YNHHSC appointee also will serve on the L+MH Board, and the L+MH Board’s scope of responsibility and authority will be largely unchanged as a result of the L+M and YNHHSC affiliation.

Geographic Area Served:

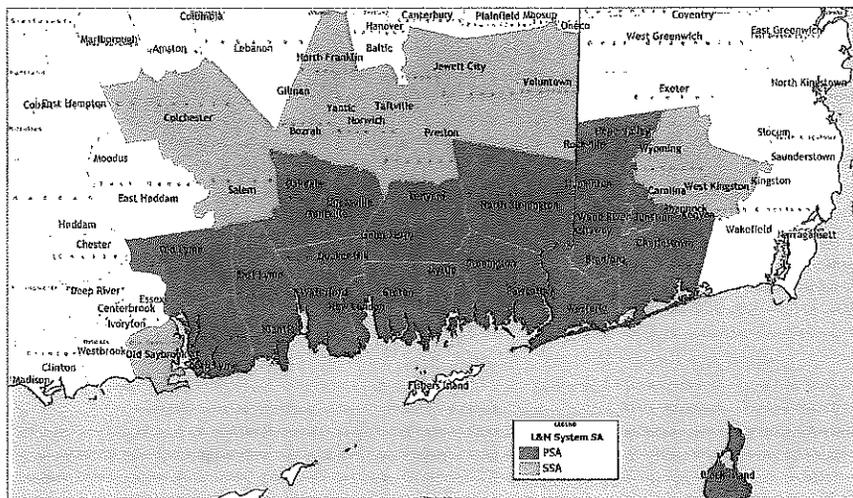

L+M Service Area

The service area for L+M as a whole encompasses the Connecticut and Rhode Island communities served by L+MH, Westerly, and L&MPA. There are 18 communities in the primary service area and 12 in the secondary service area. The table below lists these communities and identifies those in both Connecticut and

Rhode Island.

L+M Service Area	
<u>PSA</u>	<u>SSA</u>
Connecticut:	Connecticut:
East Lyme	Bozrah
Groton	Colchester
Ledyard	Franklin
Lyme	Griswold+Lisbon
Montville	Norwich
New London	Old Saybrook
North Stonington	Preston
Old Lyme	Salem
Stonington	Voluntown
Waterford	
Rhode Island:	Rhode Island:
Ashaway	Carolina
Block Island	W. Kingstown
Bradford	Wyoming
Charlestown	
Hope Valley	
Hopkinton	
Westerly	
Wood River Junction	

See below for a map of the L+M service area which includes the service areas for L+MH, Westerly, and L&MPA.

The overall L+M service area population size is estimated to be 324,416 in 2015 and is projected to remain relatively flat at 325,101 in 2020. However, service area residents in the 65+ age cohort are projected to increase significantly (12.5%) between 2015 and 2020 as shown in the table below. Accordingly, we expect demand for health care services to increase significantly with more elderly adults

consistent with published findings¹.

¹ Agency for Healthcare Research and Quality (2014). Overview of Hospital Stays in the United States, 2012; Health Care Cost Institute (2013). 2013 Health Care Cost and Utilization Report. (See Attachment IV for copies of these reports)

The overall L+MH service area population size is estimated to be 296,296 in 2015 and projected to remain relatively flat at 296,981 in 2020. However, service area residents in the 65+ age cohort are projected to increase significantly (13.5%) between 2015 and 2020 as shown in the table below. As noted above, demand for health care services is expected to increase significantly with more elderly adults.

2. Provide the history and timeline of the proposal (i.e., When did discussions begin internally or between Applicant(s)? What have the Applicant(s) accomplished so far?).

Response

As stated previously, there is a long history between the organizations that included regular and ongoing communication and collaboration. Formal discussions between the Applicants began internally in early 2015. Specific discussions pertaining to the proposed affiliation began formally in the first quarter of calendar year 2015 and were followed by a thorough due diligence process.

The due diligence process began in March 2015, and will continue through to the closing. In addition to this CON application, the following regulatory process will be required:

- A Hart-Scott-Rodino filing was submitted to the Federal Trade Commission (FTC) on August 7, 2015, and a courtesy copy was sent to the Connecticut Attorney General on August 10, 2015. On September 8, 2015, the FTC informed YNHHS and L+M that it would allow the waiting period outlined by the Hart-Scott-Rodino Antitrust Improvements Act to expire without further investigating the transaction.
- A CON application for the merger of L&MPA with and into NEMG will be filed simultaneously with this application.
- A Notice of Material Change regarding the merger of L&MPA will be filed shortly with the Connecticut Attorney General.
- Regulatory approval filings with the Rhode Island Department of Health and the Rhode Island Attorney General are planned for October 2015.
- The closing will occur once all regulatory approvals are obtained.

The Boards of both L+M and YNHHS each approved execution of the Affiliation Agreement and seeking regulatory approval for the affiliation on July 9, 2015 and July 10, 2015 respectively. Copies of board resolutions were previously referenced (see Attachment I).

3. Provide the following information:
 - a. utilizing **OHCA Table 1**, list all services to be added, terminated or modified, their physical location (street address, town and zip code), the population to be served and the existing/proposed days/hours of operation;

Response

No services are planned to be terminated and the population to be served is expected to be from the same geographic service area. There are no plans to modify existing hours of operation.

- b. identify in **OHCA Table 2** the service area towns and the reason for their inclusion (e.g., provider availability, increased/decreased patient demand for service, market share);

Response

Table 2 has been completed. The service area towns will remain the same as L+M's and L+MH's current service areas (see response to question 1).

4. List the health care facility license(s) that will be needed to implement the proposal;

Response

There are no other facility licenses that will be needed to implement the proposal.

5. Submit the following information as attachments to the application:

- a. a copy of all State of Connecticut, Department of Public Health license(s) currently held by the Applicant(s);

Response

Please refer to Attachment V for a copy of L+MH's Department of Public Health license.

- b. a list of all key professional, administrative, clinical and direct service personnel related to the proposal and attach a copy of their Curriculum Vitae;

Response

Key professional, administrative, clinical and direct service personnel related to the proposal are listed below.

YNHHSC

- Marna Borgstrom, President and Chief Executive Officer, YNHHS, Chief Executive Officer, YNHH
- James Staten, Executive Vice President, Corporate & Financial Services, YNHHS; Chief Financial Officer and Senior Vice President for Finance, YNHH
- Gayle Capozzalo, Executive Vice President and Chief Strategy Officer, YNHHS
- Christopher O'Connor, Executive Vice President and Chief Operating Officer, YNHHS

L+M

- Bruce D. Cummings, President and Chief Executive Officer
- Daniel Rissi, M.D., Vice President and Chief Medical and Clinical Operations Officer

- Seth Van Essendelft, Vice President, Chief Financial and Support Services Officer

Please refer to Attachment VI for copies of the Curriculum Vitae.

- c. copies of any scholarly articles, studies or reports that support the need to establish the proposed service, along with a brief explanation regarding the relevance of the selected articles;

Response

Not applicable. This CON application is not a request for establishment of a new service.

- d. letters of support for the proposal;

Response

Please refer to Attachment VII for letters of support for this CON application.

- e. the protocols or the Standard of Practice Guidelines that will be utilized in relation to the proposal. Attach copies of relevant sections and briefly describe how the Applicant proposes to meet the protocols or guidelines.

Response

Not applicable. This CON application does not request any change to specific clinical services where protocols or practice guidelines may apply.

- f. copies of agreements (e.g., memorandum of understanding, transfer agreement, operating agreement) related to the proposal. If a final signed version is not available, provide a draft with an estimated date by which the final agreement will be available.

Response

The Affiliation Agreement executed between YNHHS and L+M was previously referenced as Attachment III.

Public Need and Access to Care

§ "Whether the proposed project is consistent with any applicable policies and standards adopted in regulations by the Department of Public Health;" (Conn. Gen. Stat. § 19a-639(a)(1))

6. Describe how the proposed project is consistent with any applicable policies and standards in regulations adopted by the Connecticut Department of Public Health.

Response

This proposal is consistent with all policies and standards in regulations adopted by the Connecticut DPH in that the proposal is focused upon expanding local access for L+MH patients to more sophisticated services, quality improvements, population

health and achieving greater efficiencies.

§ "The relationship of the proposed project to the statewide health care facilities and services plan;" (Conn.Gen.Stat. § 19a-639(a)(2))

7. Describe how the proposed project aligns with the Connecticut Department of Public Health Statewide Health Care Facilities and Services Plan, available on [OHCA's website](#).

Response

This proposal aligns well with the Connecticut DPH *Statewide Health Care Facilities and Services Plan* (the "Plan"). Specifically, the 2014 update stresses the changes that have occurred in the State of Connecticut since the passage and implementation of the Patient Protection and Affordable Care Act ("PPACA"). The Plan acknowledges that the PPACA has influenced providers to focus on creating new models of care that bring higher quality and greater value. The PPACA has led to affiliations and mergers of health care providers throughout the country and the State, and across the country to maintain access to needed services, improve financial viability and enhance organizations' ability to meet technology needs. This proposal is focused on sustaining and enhancing the commitment that L+MH has had to serving its community. Through the affiliation and the parties continued commitment to collaboration, L+MH will be stronger and better positioned to meet the challenges of not only today, but those in the future.

§ "Whether there is a clear public need for the health care facility or services proposed by the applicant;" (Conn.Gen.Stat. § 19a-639(a)(3))

8. With respect to the proposal, provide evidence and documentation to support clear public need:
- a. identify the target patient population to be served;

Response

The target population to be served is the population that L+MH is currently serving. Please refer to the response in Question 1 for a description and quantification of the service area. The needs of the population served by L+MH will not diminish. In fact, as noted, the 65+ cohort is projected to increase significantly between 2015 and 2020. This trend is consistent with statewide and national trends. As outlined in L+MH's most recent Community Health Needs Assessment ("CHNA"), which can be found in Attachment VIII, based on the 2010 census, the service area has a higher proportion of middle age and older adults than the State of Connecticut and the nation overall (see page 6 of the CHNA). The older population has a higher incidence of many illnesses and diseases, such as heart disease, cancer and certain lung diseases, and therefore

utilizes health care services at a higher rate than the younger population². As the population continues to age, the public need for health care services offered by L+MH is expected to increase.

Other significant health issues exist in the service area as outlined in the CHNA including:

- Higher cancer incidence than statewide and national levels for all cancers in particular, breast, colorectal (particularly in females), and lung;
- Higher cancer mortality than statewide and national levels for all cancer particularly in breast and lung cancer;
- High Chlamydia rates;
- Obesity levels higher than the state average;
- Increasing diabetes incidence; and
- High alcohol consumption as compared to national benchmarks.

Public need for L+MH's health care services will continue and increase due to existing and future health care issues as well as the aging of the population. L+MH has provided health care services to service area residents for more than a century. The proposed affiliation will ensure continued access to high quality health care services provided by L+MH as well as access to the advanced clinical services in collaboration with YNHHS. The proposed affiliation will strengthen L+MH's ability to continue to provide community benefits as described in response to Supplement question 4.

- b. discuss how the target patient population is currently being served;

Response

The target population is currently served by L+M either through one of its two acute care hospitals, home health agency and by its affiliates' physicians.

- c. document the need for the equipment and/or service in the community;

Response

Not applicable. This proposal does not involve a specific service or piece of equipment.

- d. explain why the location of the facility or service was chosen;

Response

Not applicable. There is no new location being chosen as part of this proposal.

- e. provide incidence, prevalence or other demographic data that demonstrates community need;

Response

Please refer to question 8(a) above.

2 American Heart Association (2015). National Health and Nutrition Examination Survey: 2009-2012; American Lung Association (2008). Lung Disease Data (2008); National Cancer Institute (n.d.). Surveillance, Epidemiology, and End Results Program. Cancer Incidence by Age Cohort (see Attachment IX for copies of these reports).

- f. discuss how low income persons, racial and ethnic minorities, disabled persons and other underserved groups will benefit from this proposal;

Response

Both YNHHS and L+M have always provided services to a diverse population including underinsured and uninsured individuals. YNHHS and L+MH provide services to all regardless of race, ethnicity, religion, income or ability to pay for services. This will not change as a result of this proposal.

YNHHS and L+MH have a long history of providing charity care and financial assistance to those in need. Should the proposal be approved, L+MH will continue in its commitment to providing charity care pursuant to the YNHHS system-wide charity care and free care policy.

- g. list any changes to the clinical services offered by the Applicant(s) and explain why the change was necessary;

Response

Please refer to the response to question 3(a) and 8(h). There are no planned closures or reductions in any of the clinical services currently offered by L+M. The applicants are planning service enhancements and expansions to minimize the need for area residents to have to travel outside the service area for many specialty services.

- h. explain how access to care will be affected;

Response

The applicants believe that access to primary and advanced care will be greatly enhanced as a result of this proposal. Through enhanced collaboration, the proposed affiliation will improve patient access to advanced care offered by YNHHS clinicians currently unavailable to the L+M service community. In addition, L+M expects because of its affiliation with YNHHS that it will be more competitive in recruiting the clinicians it needs for its service area, but to date has struggled to attract (e.g. primary care physicians and other specialists). Patients in L+M's service area will get the right care, at the right place, and at the right time. Currently, some patients in L+M's service area are traveling to more expensive, distant and out-of-state medical centers for their care. The proposed affiliation will enable L+M patients to receive care in the most convenient and appropriate setting. Lower acuity patients will be able to access "enhanced care" in their local area due to the added resources and expertise to be provided by YNHHS. For those patients needing high-acuity services at a quaternary or tertiary medical center, access to YNHHS will be seamless, and more often than not, these same patients will be able to return home and receive their follow up care in their community.

- i. discuss any alternative proposals that were considered.

Response

Over the last five years, L+M has carefully considered all of its strategic options in connection with achieving its goals of (i) improving the population's health over time; (ii) improving the patient experience (quality and service), and (iii) reducing per capita health care cost. In connection with its strategic planning process,

L+M initially considered remaining independent by participating in a network of community hospitals working collectively to achieve greater efficiencies. While there are measurable benefits to L+M's participation in such network, L+M soon realized that the economic impact of health care reform was taking a greater toll on its financial viability than the resources of the network could address. To remain clinically vibrant, financially stable and offer patients superior patient care and services, L+M concluded that it had to affiliate with a larger regional health system. Consideration was given to Hartford HealthCare, but given its affiliation with Backus Hospital, Hartford HealthCare was not viewed as a viable option. Consideration was also given to more distant hospitals and locations such as Boston and New York, but there was considerable concern about patients migrating out of Connecticut and that the distance might be a barrier to achieving substantial efficiencies and having all of L+M's needs met, especially as it relates to clinical collaborations. Given L+M's long history of collaboration on clinical programs with YNHHS and its shared commitment and mission, its geographic location in relation to YNHHS and the strength of the YNHHS leadership team, it was determined that YNHHS represented the best fit for L+M. Given the geographic proximity, YNHHS also offers significant synergies to L+M. In essence, it was determined by the L+M Board that by combining L+M's local strength and community commitment with YNHHS' leading clinical capabilities and system resources, L+M could be best positioned to meet the ongoing challenges associated with health reform.

§ "Whether the applicant has satisfactorily demonstrated how the proposal will improve quality, accessibility and cost effectiveness of health care delivery in the region, including, but not limited to, (A) provision of or any change in the access to services for Medicaid recipients and indigent persons, and (B) the impact upon the cost effectiveness of providing access to services provided under the Medicaid program;" (Conn.Gen.Stat. § 19a-639(a)(5))

9. Describe how the proposal will:
- a. improve the quality of health care in the region;

Response

The proposed affiliation between L+M and YNHHS will provide L+M with access to quality improvement resources that L+M cannot, on its own, cost-effectively invest in or support. In particular, as a YNHHS member, L+M will gain access to population health analytic tools, more reliable data for achieving improved outcomes, and additional support staff with expertise in quality improvement. With greater access to cutting-edge clinical developments, and academicians who are committed to education and evidence-based best practices, L+M will be able to offer the patients in its service area the same world class care that YNHHS hospitals are known for. In addition, through affiliation with YNHHS, L+M firmly believes that it will be better positioned to recruit the best and brightest clinicians.

The YNHHS Performance Management program provides leadership and coordinates system-wide efforts to improve clinical quality and patient safety along with the necessary resources to support its affiliates. YNHHS annually

prepares priority performance improvement initiatives and measures. The YNHHS Quality Council identifies key performance improvement objectives for the entire health system, and coordinates these with the performance management initiatives designed by each affiliate. Each affiliated entity develops individual plans centered on YNHHS' priority initiatives.

Data abstractors help define specific metrics for performance assessment and follow strict data definitions to abstract data from patient records. Data analysts provide assistance to structure data queries and analyze clinical data. Together they develop and deploy tools for data analysis and reports useful for understanding clinical performance and for sustaining continuous quality improvement. In addition, performance improvement patient safety nurses are embedded in clinical areas of high risk (e.g., emergency department, peri-operative areas and obstetric delivery services), offering observation, coaching and workshops on-site to caregivers to sustain a culture of safety and improve safe care.

L+M will be included in YNHHS-wide quality and safety programs and initiatives and will have access to YNHHS's quality experts and data analytic resources. As a result, L+MH believes that with these added resources, L+M providers will be able to enhance the quality of care provided.

- b. improve accessibility of health care in the region; and

Response

Please refer to the response to 8(h).

- c. improve the cost effectiveness of health care delivery in the region.

Response

From a clinical perspective, some L+M service area residents have sought certain specialty services and physician services from more expensive and distant hospitals because the care was unavailable to them in the L+M service area. The proposed affiliation will enhance the services available in L+M's service area, especially as it relates to access to specialty physicians. In addition, through improved care coordination and avoidance of duplication of services between the applicants, and the ability to engage in population health initiatives, the applicants believe that they will be better positioned to provide more cost-effective health care services to the L+M service area.

In order to achieve operating efficiencies and savings, upon approval of this proposal, L+M and YNHHS will review areas of non-clinical shared services. Opportunities will be identified to centralize some back office services and L+MH stands to benefit by achieving cost efficiencies that it would otherwise not have as a standalone small hospital system.

There is no question that the challenges facing all hospitals today are greater than they have ever been, but in particular, community hospitals are facing the greatest challenges due to health reform-related demands for greater value with lower reimbursement. Specifically, reduced payer reimbursement, particularly pertinent in Connecticut, coupled with greater demand for data-driven best practices, technologic advancements, aging infrastructure, and evolving health

care delivery models requires synergistic approaches to achieve cost-effective access to capital, medical technology, information technology, and highly competent clinicians.

L+M believes that the proposed affiliation will provide L+M with synergistic benefits in leadership, efficiencies and growth. Efficiencies will come from economies of scale as they relate to information technology, finance, insurance, equipment and supplies and other administrative services. Sustained success will result from the coordination and implementation of clinical programs that are designed to improve the quality, cost-effectiveness and accessibility to health care services to the communities served by L+M.

Specifically, synergistic benefits are initially expected to be achieved in the following areas:

- (1) L+M's adoption of Epic, Lawson and other IT platforms used by YNHHS will result in decreased clinical variation for L+M through standardized protocols;
- (2) L+M is expected to achieve savings in supply chain related costs as a result of volume discounts;
- (3) Improved and more efficient clinical and business practices resulting from the proposed merger of L&MPA into NEMG;
- (4) Access to capital on more favorable terms, once L+M becomes a member of the YNHHS Obligated Group;
- (5) Access to YNHHS's population health infrastructure;
- (6) Development of clinical programs identified as needed in the L+M service community along with more effective physician recruitment; and
- (7) Management expertise and efficiencies.

Therefore, cost effectiveness of health care delivery in the L+M service area is expected to improve with the proposed affiliation as L+M acquires the new tools needed under health care reform for the management of patient care. With reduced reimbursement, L+M has no other choice but to align with a historical partner to tap into these expensive and complex patient management tools.

10. How will this proposal help improve the coordination of patient care (explain in detail regardless of whether your answer is in the negative or affirmative)?

Response

The proposed affiliation will improve the coordination of patient care between the L+M and YNHHS. L+M will pursue the implementation of Epic's electronic medical record system ("EMR") at both of its hospitals as well as within its affiliated physician practices. Although YNHHS can extend Epic to community hospitals through Epic's Connect Client platform, and L+M intends to implement Epic even if the proposed affiliation does not come to fruition, future costs to L+M will be considerably higher as a standalone community hospital.

The addition of Epic and other clinical information systems to L+M will provide a uniform, integrated and seamless EMR between and within L+M and YNHHS organizations which will aid in the coordination of patient care. Easy access to medical records from previous hospitalizations, physician office visits or ancillary

testing facilitates the delivery of efficient care that avoids unnecessary duplications of services. Well-informed providers can quickly direct patients to appropriate care and ensure the delivery of the best possible clinical care.

11. Describe how this proposal will impact access to care for Medicaid recipients and indigent persons.

Response

Access to care for Medicaid recipients and indigent persons will not be negatively impacted by this proposal. L+M affiliated entities participate in the Medicaid program. Approximately 21% of L+M's payer mix is Medicaid and ~1% is uninsured and this is expected to remain constant. The proposed affiliation will only strengthen L+M's financial position and therefore strengthen the organization's ability to continue its commitment to care for Medicaid recipients and indigent persons.

§ "Whether an applicant, who has failed to provide or reduced access to services by Medicaid recipients or indigent persons, has demonstrated good cause for doing so, which shall not be demonstrated solely on the basis of differences in reimbursement rates between Medicaid and other health care payers;" (Conn.Gen.Stat. § 19a-639(a)(10))

12. If the proposal fails to provide or reduces access to services by Medicaid recipients or indigent persons, provide explanation of good cause for doing so.

Response

Not applicable. The proposal does not reduce access or fail to provide services to Medicaid recipients or indigent persons.

§ "Whether the applicant has satisfactorily demonstrated that any consolidation resulting from the proposal will not adversely affect health care costs or accessibility to care." (Conn.Gen.Stat. § 19a-639(a)(12))

13. Will the proposal adversely affect patient health care costs in any way? Quantify and provide the rationale for any changes in price structure that will result from this proposal, including, but not limited to, the addition of any imposed facility fees.

Response

There are no planned changes to the price structure which will result from this proposal. As with other YNHHS affiliates, separate payor contracts are maintained for each hospital and the normal contract renewal process will be continued. However, it is expected that with greater cost efficiencies, resulting from the affiliation, L+M will have greater financial stability.

Financial Information

§ "Whether the applicant has satisfactorily demonstrated how the proposal will impact the financial strength of the health care system in the state or that the proposal is financially feasible for the application," (Conn.Gen.Stat. § 19a-639(a)(4))

14. Describe the impact of this proposal on the financial strength of the state's health care system or demonstrate that the proposal is financially feasible for the applicant.

Response

The financial strength of the State of Connecticut's health care system is dependent on the strength of its individual health care providers. This proposal is fully consistent with state and national trends wherein providers collaborate to reduce costs, share resources and promote best practices. As stated earlier, providers need to form integrated networks, develop advanced care management capabilities, and partner across the care continuum to be successful under a population health model and value-based reimbursement systems. This proposed affiliation will ultimately strengthen the financial health of both organizations which in turn will positively impact the financial strength of the state's health care system.

The proposal is financially feasible for the Applicants. Please refer to Financial Worksheet A referenced in response to question 17(b).

15. Provide a final version of all capital expenditure/costs for the proposal using **OHCA Table 3.**

Response

Commencing with the closing of the proposed affiliation, YNHSC has committed to deploy as much as \$300 million in resources in the Eastern Connecticut and Western Rhode Island region over a period of five years for the purpose of enhancing L+M's clinical and operational capabilities and services. Such expenditures must: (i) be consistent with YNHSC's overall strategic plan; (ii) be consistent with the business plans of the Applicants; (iii) have a positive return on investment; and (iv) be responsive to the needs of the community. Essentially, should the proposal be approved, the Applicants will engage in an ongoing and deliberate strategic planning process that will be focused upon enhancing the quality and breadth of clinical services that are mutually identified as needed by the L+M community.

16. List all funding or financing sources for the proposal and the dollar amount of each. Provide applicable details such as interest rate; term; monthly payment; pledges and funds received to date; letter of interest or approval from a lending institution.

Response

Please refer to the response to question 15. There is no financing contemplated at this time.

17. Include as an attachment:

- a. audited financial statements for the most recently completed fiscal year. If audited financial statements do not exist, provide other financial documentation (e.g., unaudited balance sheet, statement of operations, tax return, or other set of books.). Connecticut hospitals required to submit annual audited financial statements may reference that filing, if current;

Response

L+M has previously submitted annual audited financial statements to OHCA.

- b. a complete **Financial Worksheet A (not-for-profit entity) or B (for-profit entity)**, available on OHCA's website under "**OHCA Forms**," providing a summary of revenue, expense, and volume statistics, "without the CON project," "incremental to the CON project," and "with the CON project." Note: the actual results reported in the Financial Worksheet must match the audited financial statement that was submitted or referenced.

Response

A separate Financial Worksheet A has been completed for each entity including; L+M, L+MH and YNHHS, and can be found in Attachment X.

18. Complete **OHCA Table 4** utilizing the information reported in the attached Financial Worksheet.

Response

OHCA Table 4 has been completed for each L+M, L+MH and YNHHS.

19. Explain all assumptions used in developing the financial projections reported in the Financial Worksheet.

Response

All assumptions used in developing the financial projections reported in the Financial Worksheets are included in Attachment XI.

20. Explain any projected incremental losses from operations resulting from the implementation of the CON proposal.

Response

Except for the first six months of FY 2016, there are no incremental losses due to the affiliation when comparing the five (5) year forecast with and without the proposed affiliation. Specifically, L+M and L+MH's losses will be incrementally lower with the affiliation as L+M is expected to achieve certain operational efficiencies.

21. Indicate the minimum number of units required to show an incremental gain from operations for each projected fiscal year.

Response:

Not applicable. There are no projected incremental operating losses.

Utilization

§ "The applicant's past and proposed provision of health care services to relevant patient populations and payer mix, including, but not limited to, access to services by Medicaid recipients and indigent persons;" (Conn.Gen.Stat. § 19a-639(a)(6))

22. Complete **OHCA Table 5** and **OHCA Table 6** for the past three fiscal years ("FY"), current fiscal year ("CFY") and first three projected FYs of the proposal, for each of the Applicant's existing and/or proposed services. Report the units by service, service type or service level.

Response:

OHCA Tables 5 and 6 have been completed.

23. Provide a detailed explanation of all assumptions used in the derivation/ calculation of the projected service volume; explain any increases and/or decreases in volume reported in OHCA Tables 4 and 5.

Response:

The inpatient volume projections were based on a combination of historical market trends within the L+M and Westerly service areas and also published national projections. All incremental volume projections are based off of the established baseline. The inpatient incremental volume, due to the affiliation, was based on understanding existing demand by service line and applying growth factors where, through the affiliation, there is potential to develop new clinical programs and bring specialty care to Eastern Connecticut / Westerly Rhode Island. Such program assumptions include musculoskeletal, neurosurgery/spine, cardiovascular, general surgery, maternity and children's services.

24. Provide the current and projected patient population mix (number and percentage of patients by payer) for the proposal using **OHCA Table 7** and provide all assumptions. **Note: payer mix should be calculated from patient volumes, not patient revenues.**

Response:

Current and projected patient population mix has been provided in OHCA Table 7. Payer mix is not projected to change as L+MH will continue to serve the same patient population that they currently serve.

§ "Whether the applicant has satisfactorily identified the population to be served by the proposed project and satisfactorily

demonstrated that the identified population has a need for the proposed services;" (Conn. Gen. Stat. § 19a-639(a)(7))

25. Describe the population (as identified in question 8(a) by gender, age groups or persons with a specific condition or disorder and provide evidence (i.e., incidence, prevalence or other demographic data) that demonstrates a need for the proposed service or proposal. **Please note: if population estimates or other demographic data are submitted, provide only publicly available and verifiable information (e.g., U.S. Census Bureau, Department of Public Health, CT State Data Center) and document the source.**

Response:

Please refer to question 8(a).

26. Using **OHCA Table 8**, provide a breakdown of utilization by town for the most recently completed FY. Utilization may be reported as number of persons, visits, scans or other unit appropriate for the information being reported.

Response:

OHCA Table 8 has been completed.

§ "The utilization of existing health care facilities and health care services in the service area of the applicant;" (Conn. Gen. Stat. § 19a-639(a)(8))

27. Using **OHCA Table 9**, identify all existing providers in the service area and, as available, list the services provided, population served, facility ID (see table footnote), address, hours/days of operation and current utilization of the facility. Include providers in the towns served or proposed to be served by the Applicant, as well as providers in towns contiguous to the service area.

Response:

OHCA Table 9 has been completed.

28. Describe the effect of the proposal on these existing providers.

Response:

The applicants believe that the proposal will have little to no effect on existing providers in the service area.

29. Describe the existing referral patterns in the area served by the proposal.

Response:

Existing referral patterns in the area served by the proposal are well established and driven by professional clinical expertise of area physicians. Patients in need of inpatient or specialty care are referred either to local hospitals and specialists or providers throughout the state based on their physician's assessment. As previously

described in response to question 1, YNHHS and L+M have a long history of collaboration and patients have been referred between the organizations for many years. As stated in response to question 1, a significant number of L+M service area residents have sought specialized acute care services from YNHHS.

30. Explain how current referral patterns will be affected by the proposal.

Response:

Current referral patterns are expected to remain in place after completion of the affiliation.

*§ "Whether the applicant has satisfactorily demonstrated that the proposed project shall not result in an unnecessary duplication of existing or approved health care services or facilities;"
(Conn.Gen.Stat. § 19a-639(a)(9))*

31. If applicable, explain why approval of the proposal will not result in an unnecessary duplication of services.

Response:

Through better coordination of care between L+MH and YNHHS, there will be less duplication of services.

*§ "Whether the applicant has satisfactorily demonstrated that the proposal will not negatively impact the diversity of health care providers and patient choice in the geographic region. . ."
(Conn.Gen.Stat. § 19a-639(a)(11))*

32. How will the proposal impact the diversity of health care providers and patient choice or reduce competition in the geographic region?

Response:

The proposal will positively impact the diversity of health care providers and patient choice. YNHHS will establish access to specific specialists in the service area based upon identified need increasing access to a broader group of providers on a more local basis. Patient choice will be enhanced through access to more providers and competition will not be reduced. Patients within the community will continue to have the choice of Backus Hospital or other hospitals in the State.

Tables

**TABLE 1
APPLICANT'S SERVICES AND SERVICE LOCATIONS**

Service	Street Address, Town	Population Served	Days/Hours of Operation	New Service or Proposed Termination
Acute care hospital services	365 Montauk Avenue, New London	L+M's service area as outlined in Table 2	24/7	N/A

1. Project Description and Need: Change of Ownership or Control

- a. Describe the transition plan and how the Applicants will ensure continuity of services. Provide a copy of a transition plan, if available.

Response:

The structure and proposed relationship between YNHHS and L+M is outlined in the Affiliation Agreement. Subject to approval, there will be a number of workgroups that will work on integration plans. A full integration plan should be complete in early 2016.

Please refer to the response in main CON application, question 2.

- b. For each Applicant (and any new entities to be created as a result of the proposal), provide the following information as it would appear **prior** and **subsequent** to approval of this proposal:
- i. Legal chart of corporate or entity structure including all affiliates.
 - ii. Governance or controlling body.
 - iii. List of owners and the % ownership and shares of each.

Response:

Copies of YNHHS and L+M's legal chart of corporate entities prior and subsequent to approval of this proposal are provided in Attachment A.

2. Historical and Projected Volume

- a. In table format, provide historical volumes (three **full** years and the current year-to-date) for the number of discharges and patient days by service.

TABLE A
HISTORICAL AND CURRENT DISCHARGES – L+MH

DISCHARGES				
Service	Actual FY 2012	Actual FY 2013	Actual FY 2014	Estimated FY 2015
Med/Surg	10,319	10,139	9,525	9,609
Ob/gyn	1,786	1,704	1,811	1,827
Psych	866	822	812	819
Rehab	331	334	310	309
Pediatrics	89	98	41	40
Newborns/Neonates	1,546	1,562	1,652	1,666
Total	14,936	14,659	14,151	14,271

Fiscal year is October 1 – September 30. (Source: L+MH)

FY 2015 annualized based on 6 months of data (methodology = doubling 1st 6 months actual experience).

- * Provide the number of discharges for each service listed (Medical/Surgical, Maternity, Psychiatric, Rehabilitation, and Pediatric).
- ** Fill in years. In a footnote, identify the period covered by the Applicant's FY (e.g., July 1-June 30, calendar year, etc.).
- *** For periods greater than 6 months, report annualized volume, identifying the number of actual months covered and the method of annualizing. For periods less than six months, report actual volume and identify the period covered.

TABLE B
HISTORICAL AND CURRENT PATIENT DAYS – L+MH

PATIENT DAYS				
Service	Actual FY 2012	Actual FY 2013	Actual FY 2014	Estimated FY 2015
Med/Surg	48,738	46,352	44,415	43,675
Ob/gyn	4,890	4,264	4,804	5,108
Psych	6,433	6,367	6,679	7,101
Rehab	4,721	4,536	4,494	4,730
Pediatrics	238	213	129	134
Newborns/Neonates	5,537	5,581	5,811	6,183
Total	70,556	67,314	66,332	66,931

Fiscal year is October 1 – September 30. (Source: L+MH)

FY 2015 annualized based on 10 months of data (methodology = use average length of stay (ALOS) for actual 10 months, and assume that figure for full year; use ALOS and projected discharges from Table A to calculate annualized patient days).

- * Provide the number of patient days for each service listed (Medical/Surgical, Maternity, Psychiatric, Rehabilitation, and Pediatric).
- ** Fill in years. In a footnote, identify the period covered by the Applicant's FY (e.g., July 1-June 30, calendar year, etc.).
- *** For periods greater than 6 months, report annualized volume, identifying the number of actual months covered and the method of annualizing. For periods less than six months, report actual volume and identify the period covered.

- b. Complete the following tables for the first three full fiscal years ("FY") following adoption of the proposal, if the first year is a partial year, include that as well.

TABLE C
PROJECTED DISCHARGES BY SERVICE – L+MH

	PROJECTED DISCHARGES				
	FY2016	FY2017	FY2018	FY2019	FY2020
Med/Surg	9,649	9,633	9,607	9,608	9,623
OB/Gyn	1,836	1,833	1,829	1,827	1,824
Psychiatry	839	847	852	856	860
Rehab	310	310	310	310	310
Pediatrics	61	77	93	108	124
Newborn/Neonates	1,696	1,712	1,727	1,741	1,754
Grand Total	14,391	14,412	14,418	14,450	14,495

Fiscal year is October 1 – September 30.

- Project start expected on April 1, 2016.
- * Provide the number of discharges for each service listed (Medical/Surgical, Maternity, Psychiatric, Rehabilitation, and Pediatric).
- ** If the first year of the proposal is only a partial year, provide the first partial year and then the first three full FYs. Add columns as necessary. In a footnote, identify the period covered by the Applicant's fiscal year FY (e.g., July 1-June 30, calendar year, etc.).

TABLE D
PROJECTED PATIENT DAYS BY SERVICE- L+MH

PROJECTED PATIENT DAYS					
	FY2016	FY2017	FY2018	FY2019	FY2020
Med/Surg	42,852	42,150	41,489	41,512	41,596
OB/Gyn	5,059	4,975	4,900	4,895	4,890
Psychiatry	7,146	7,104	7,059	7,094	7,127
Rehab	4,653	4,583	4,524	4,526	4,528
Pediatrics	200	247	293	343	393
Newborn/Neonates	6,142	6,081	6,037	6,078	6,113
Grand Total	66,052	65,140	64,302	64,448	64,647

Fiscal year is October 1 – September 30.
Project start expected on April 1, 2016.

- * Provide the number of patient days for each service listed (Medical/Surgical, Maternity, Psychiatric, Rehabilitation, and Pediatric).
- ** If the first year of the proposal is only a partial year, provide the first partial year and then the first three full FYs. Add columns as necessary. In a footnote, identify the period covered by the Applicant's fiscal year FY (e.g. July 1-June 30, calendar year, etc.).

- c. Explain any increases and/or decreases in historical volumes reported in the tables above.

Response:

Between FY 2012 and FY 2014, L+MH experienced inpatient volume declines commensurate with decreases in inpatient demand in the L+MH service area and statewide, which were, in part, due to the following factors:

- Implementation of CMS' two-midnight rule (and resultant shift from inpatient to observation status);
- More stringent requirements for inpatient status from other payors;
- Advances in technology shifting certain procedures from inpatient to outpatient setting or expanding use of non-surgical options to treat disease; and
- Increased prevalence of high deductible health plans and the weak economy which led to delays in care for some patients.

Estimated inpatient volume for FY 2015 suggests a slight increase in inpatient volume overall due to continued impact of Westerly's closure of its maternity service, and program development initiatives at L+MH in the cardiac, oncology, and surgical realm.

- d. Provide a detailed explanation of all assumptions used in the derivation/ calculation of

the projected volume.

Response:

Please refer to the response to question 23 in the main CON application.

3. Clear Public Need

- a. Is the proposal being submitted due to provisions of the Federal Sherman Antitrust Act and Conn. Gen Stat. §35-24 et seq. statutes? Explain in detail.

Response:

The proposal is not being submitted due to provisions of the Federal Sherman Antitrust Act. The proposed affiliation CON is being submitted in accordance with OHCA Certificate of Need requirements; however, the parties also intend to comply with all applicable federal and state antitrust laws and regulations. The transaction did require a Hart-Scott-Rodino filing with the Federal Trade Commission under 18 USC S. 18a, and that filing was made on August 7, 2015. The Connecticut Attorney General also received a courtesy copy of that filing on August 10, 2015.

On September 8, 2015, the FTC informed YNHHS and L+M that it would allow the waiting period outlined by the Hart-Scott-Rodino Antitrust Improvements Act to expire without further investigating the transaction.

- b. Is the proposal being submitted due to provisions of the Patient Protection and Affordable Care Act (PPACA)? Explain in detail.

Response:

The proposed affiliation is consistent with the PPACA in that the parties will strive to enhance quality, achieve efficiencies, avoid duplication of services and provide evidence-based health care services.

4. Supplemental Questions

- a. How will this proposal affect the implementation plan developed to address priority health needs identified in the most recent Community Health Needs Assessment (CHNA)?

Response:

The proposal, as described in the application, will only strengthen L+M, and in particular, L+MH's commitment to deliver, on a local level, high-quality, cost-effective health care to the communities it serves. L+MH delivered over \$22 million in free programs and services in 2014. This was accomplished through ensuring access to care for more than 34,000 people with a benefit value of \$19 million, educating almost 4,000 future health care providers with a benefit value of \$1.1 million and serving almost 10,000 people through health promotion programs with a benefit value of almost \$2.3 million.

L+MH will continue to dedicate and commit resources to fund and to support community benefit programs and make reinvestments in the communities that L+MH serves. By

way of example, based upon triennial community needs assessments in the past or otherwise in furtherance of L+MH's charitable mission, L+MH implements community health improvement programs and health care support services such as cardiac rehabilitation, pediatric weight management, support for cancer patients in the form of transportation and nutrition assessment and planning, intervention on pediatric asthma and transportation for indigent patients. Programs promote a healthy community and include those that go beyond the walls of the hospital to reach into the community and address identified needs. L+MH hosts several grant-funded programs which include HIV outreach, Nurturing Families Network, Healthy Start, and the Connecticut Early Detection and Prevention Program which contribute to health education, and improved access to care. Students from a wide range of disciplines are provided with training and internship opportunities. L+MH coordinates a paramedics services program, facilitates research studies to further knowledge in relation to cancer, and supports through direct contributions a range of community organizations. L+MH serves as a safety net provider to the community's at risk populations. Decisions regarding community needs will continue to be made on a local level and thus, the proposal will not change the autonomy that L+MH currently has to identify, understand and prioritize the needs and its commitment to the communities it serves.

- b. Describe any changes to the Hospital's current charity care, uncompensated care, financial assistance policies and procedures and bed funds that will result from the proposal.

Response:

See response 8(f) in main application.

- c. Describe any plans to work with other community providers, such as federally qualified health centers or community health centers, to provide specialty care to patients or offer low cost programs tailored to the uninsured or underinsured.

Response:

L+M regularly works with community stakeholders, including the Community Health Center of New London and United Community and Family Services on collaborations to improve the health of the region, meet unmet health needs, identify vulnerable populations at-risk, promote health, prevent disease, and encourage healthy lifestyles without duplicating efforts among community providers and stakeholders. Most of these initiatives are tailored to the uninsured or underinsured. For example, L+M collaborates with: (i) local community based shelters and behavioral health providers to meet the needs of the homeless, including enrolling clients in entitlement programs, connecting them to primary care and community health services, finding permanent or transitional housing, and identifying training and employment opportunities as appropriate; (ii) Child and Family Agency of SE CT to address childhood obesity by providing coordinated instruction on diet, nutrition, and exercise and providing personalized individual and group support; (iii) Visiting Nurse Association of Southeastern Connecticut and primary care providers to provide whole person, coordinated care across all settings with an emphasis on quality and safety; (iv) Community Health Center, United Community and Family Services and other community providers to provide free early detection cancer screening services; and (v) Community medical providers and local public health entities, such as Ledge Light Health District and the Asthma Action Partnership to assist providers in better recognizing and diagnosing asthma, learning to better classify asthma severity and developing treatment plans for more effective and efficient care for children

with asthma. These collaborations with community providers described above and others will continue should the proposal be approved.

- d. Explain in detail the capital projects that are deemed top priorities by the Applicants.

Response:

Please refer to the responses to questions 9(c) and 15 in the main application for the priorities of L+M. L+M (which includes L+MH) and YNHHS will be reviewing additional capital project needs and will finalize the priorities within the first several months post-closing.

- e. Explain in detail the service improvements that are deemed top priorities by the Applicants.

Response:

The applicants will engage in an ongoing and deliberate strategic planning process that will be focused upon enhancing the quality and breadth of clinical services that are mutually identified as needed by the L+M community. The applicants are committed to sustained level of community benefit programs relevant to the L+MH triennial community needs assessments.

- f. Describe any anticipated changes as a result of this proposal to existing payer contracts (e.g., Medicare, Medicaid or commercial payers).

Response:

There are no anticipated changes to existing payer contracts as a result of this proposal. The YNHHS managed care department negotiates payer contracts for each individual hospital separately, with fee schedules that are specific to each hospital.

- g. Explain in detail how the proposal will address any existing debt and/or pension obligations.

Response:

Existing debt and/or pension obligations of L+M will remain unchanged as a result of this proposal.

- h. Describe how the quality of care will be maintained with this proposal.

Response:

Please refer to the response to question 9(a) in the main CON application.

L+M will have access to YNHHS's quality experts and resources and rich data analysis. As a result, L+M anticipates that with these added resources, providers will be able to enhance the quality of care they provide.

- i. For all Applicants, provide copies of all Centers for Medicare & Medicaid Services (CMS) statement of deficiencies and corrective action plans for the two most recently completed federal fiscal years.

Response:

L+MH has not been surveyed by CMS in the most recently completed fiscal years (FY

2013 or FY 2014).

- j. Provide a copy of and describe any changes to any of the following policies and procedures as a result of this proposal:

- i. hospital collection policies (including charity care and bad debt);

Response:

Please refer to the response to question 8(f) in the main CON application for a description of charity care and bad debt policies.

Should this proposal be approved, L+M will adopt YNHHS's charity care policies.

- ii. annual or periodic review and/or revision to the hospital's pricing structure (charge master or price master); and

Response:

No changes are planned to L+MH's chargemaster.

- iii. the annual or periodic market rate assessment of the hospital.

Response:

Not applicable as per OHCA.

- k. Provide monthly financial reports that include statistics for the current month, year-to-date and comparable month from the previous year for the following:

Monthly Financial Measurement/Indicators

A. Operating Performance:
Operating Margin
Non-Operating Margin
Total Margin
Bad Debt as % of Gross Revenue
B. Liquidity:
Current Ratio
Days Cash on Hand
Days in Net Accounts Receivables
Average Payment Period
C. Leverage and Capital Structure:
Long-term Debt to Equity
Long-term Debt to Capitalization
Unrestricted Cash to Debt
Times Interest Earned Ratio
Debt Service Coverage Ratio
Equity Financing Ratio
D. Additional Statistics
Income from Operations
Revenue Over/(Under) Expense

EBITDA
Patient Cash Collected
Cash and Cash Equivalents
Net Working Capital
Unrestricted Assets
Credit Ratings (S&P, Fitch, Moody's)

Response:

Please refer to Attachment B for monthly financial reports for L+MH.

- i. For the most recent tax year, provide a copy of the Hospital's IRS Form 990 (you may reference the filing if previously submitted to OHCA). With respect to the amounts listed on each line item within Part 1, Section 7 of Schedule H (Financial Assistance and Certain Other Community Benefits at Cost) and Part II of Schedule H (Community Building Activities), provide a projected amount for each line item for the first three years following the change in ownership and describe the hospital's future commitment to programmatic and financial support for the community benefit programs and building activities listed on Schedule H.

Response:

L+MH previously filed its 2014 IRS Form 990. Projected amounts for the items listed within Part 1, Section 7 of Schedule H and Part II of Schedule H are listed below for the first three years following the affiliation. These figures represent estimates and are subject to change.

L+MH's future commitment to programmatic and financial support for the community benefit programs and building activities listed on Schedule H is expected to remain at the same level as previous years. Approximately \$22 million dollars of net community benefit expense are provided each year.

Schedule 7: Part 1, Section 7		Year 1 (\$)	Year 2 (\$)	Year 3 (\$)
Financial Assistance & Means-Tested Government Programs	a Financial Assistance at cost	1,000,000	1,000,000	1,000,000
	b Medicaid	16,000,000	16,000,000	16,000,000
	c Other means-tested gov't programs	500,000	500,000	500,000
d Total Financial Assistance & Mean-Tested Gov't Programs		17,500,000	17,500,000	17,500,000
Other Benefits	e Community health improvement	2,000,000	2,000,000	2,000,000
	f Health professions education	1,000,000	1,000,000	1,000,000
	g Subsidized health	2,000,000	2,000,000	2,000,000

Schedule 7: Part 1, Section 7		Year 1 (\$)	Year 2 (\$)	Year 3 (\$)
	services			
	h Research	500,000	500,000	500,000
	i Cash and in-kind contributions	40,000	40,000	40,000
j	Total Other Benefits	5,540,000	5,540,000	5,540,000
	Grand Total	23,040,000	23,040,000	23,040,000

Schedule 7: Part 2		Year 1 (\$)	Year 2 (\$)	Year 3 (\$)
Community Building Activities	1 Physical improvements and housing			
	2 Economic development			
	3 Community support	42,000	42,000	42,000
	4 Environmental improvements			
	5 Leadership development and training for community			
	6 Coalition building	7,000	7,000	7,000
	7 Community health improvement			
	8 Workforce development			
	9 Other			
10	Total	49,000	49,000	49,000
	Grand Total			

- m. Discuss in detail how the proposal will impact the hospital's negotiating position with vendors and/or payers?

Response:

With respect to payers, please refer to the response to question 3(f). With respect to vendors, the parties anticipate that the YNHHS supply chain management department will be able to obtain volume discounts and reduce supply and other costs for L+M overall.

- n. If an improved negotiating position is anticipated, quantify the tangible savings for the health care consumer.

Response:

Although an improved negotiating position is anticipated for L+M with respect to supply and other costs via YNHHS supply chain management services, it is difficult to quantify tangible savings for the health care consumer. However, L+M believes that if it does not affiliate with YNHHS, its costs will likely significantly increase as it responds to the demands of the health care marketplace.

- o. Provide details of plans to ensure that future health care services provided, in relation to the proposal, adhere to the National Standards on Culturally and Linguistically Appropriate Services (CLAS) to advance health equity, improve quality and help eliminate health care disparities in the projected service area. (For more details on CLAS standards can be found at <http://minorityhealth.hhs.gov/>).

Response:

L+MH offers a number of programs which address the National Standards on Culturally and Linguistically Appropriate Services (CLAS). L+MH takes steps to ensure that persons with Limited English Proficiency (LEP) or are deaf/hard of hearing have access to, and equal opportunity to participate in, L+MH's services, activities, programs and other benefits. L+MH's goal is to ensure meaningful communication with LEP, deaf and hard of hearing patients, and any authorized representatives involved in their medical conditions and treatment. This includes communication of information contained in vital documents.

L+MH offers language assistive services which can be accessed by any employee when needed for interacting with a patient or family. The primary resource is the AT&T Language Line which provides quick access to a large variety of languages via telephone or video remote interpreting. Linguistica is another service provider used if a language or dialect is not offered by Language Line. In addition, Lifebridge and Linguistica provide on-site interpreters for LEP, deaf and hard of hearing patients or family members. L+MH also offers Assistive Listening Devices and TTY/TDD equipment.

Linguistica provides document translation services. This resource is used as needed to prepare patient information and education materials as well as translate medical records that may be written in a foreign language. All interpreters, translators and other aids are provided without cost to the person being served, and patients/clients and their families will be informed of the availability of such assistance free of charge.

In an effort to promote L+MH's commitment to cultural awareness and embracing diversity, staff receive annual education to review services and equipment available for LEP, deaf and hard of hearing patients and families.

In addition to the programs and services noted above, L+MH staff are provided with the following programs and information related to diversity training:

- Diversity and cultural awareness is discussed at orientation, which every employee must complete upon hire.
- A diversity handbook is also provided to every new employee at orientation.
- L+MH's employee intranet site includes a link to "Cultural Briefs" which is a reference guide for cultural and religious-based beliefs. All employees can access and it provides specific beliefs that can impact patient's and family's preferences for care, how care is delivered, etc. It also includes information on non-verbal communication, cultural aspects of the birthing experience, cultural aspects of pain, and cultural and religious aspects of dietary practices.

5. For-profit Purchasers Only (Conn. Gen. Stat. § 19a-486d)

- a. Describe in detail how the surrounding community will be assured of continued access to high quality and affordable health care after accounting for any proposed change impacting hospital staffing.
- b. Describe in detail the purchasers commitment to provide health care to the uninsured and the underinsured following the hospital acquisition.
- c. In a situation where health care providers or insurers will be offered the opportunity to invest or own an interest in the purchaser or a related entity, what safeguards will be created to avoid a conflict of interest in regard to patient referral?

YALE-NEW HAVEN HEALTH SERVICES CORPORATION

BOARD OF TRUSTEES

RESOLUTIONS RELATING TO AFFILIATION BETWEEN
YALE NEW HAVEN HEALTH SYSTEM AND L+M HEALTHCARE

July 10, 2015

I. AFFILIATION AGREEMENT BETWEEN HSC AND LAWRENCE + MEMORIAL CORPORATION

WHEREAS, Yale-New Haven Health Services Corporation ("HSC") is the parent of the health care delivery system known as the Yale New Haven Health System (the "System"); and

WHEREAS, the System includes various affiliates, including but not limited to Yale-New Haven Hospital, Inc. ("YNHH"), Bridgeport Hospital ("BH"), Greenwich Hospital ("GH"), and Northeast Medical Group, Inc. ("NEMG"); and

WHEREAS, Lawrence + Memorial Corporation ("L+M") is the parent of the health care delivery system known as L+M Healthcare (the "L+M System"); and

WHEREAS, the L+M System includes various affiliates, including but not limited to Lawrence & Memorial Hospital, Inc. ("L+M Hospital"), LMW Healthcare, Inc. d/b/a Westerly Hospital ("WH"), and L&M Physician Association, Inc. d/b/a L+M Medical Group ("LMMG"); and

WHEREAS, the current members of L+M are individuals who reside or work in or around the areas served by L+M Hospital and WH and who have an interest in furthering the purposes of L+M and the L+M System, plus certain *ex officio* individual members; and

WHEREAS, the L+M System shares the System's mission and values, has a strong focus on service excellence, is a lower cost provider committed to its community, has a vibrant outpatient and primary care strategy and strong management, and provides high quality, high value, patient-centered care; and

WHEREAS, the L+M System shares the System's commitment of continuing to serve uninsured and underinsured patients, and of continuing to provide robust community benefit and uncompensated care; and

WHEREAS, the L+M System, with the support of its members, and HSC seek an affiliation that will drive broader efficiencies while increasing high quality outcomes, address

increasing consumer demands for integrated collaborative care, manage risk more effectively, enhance the population health infrastructure, improve the efficient access to capital, and maintain and grow provider diversity, consumer choice and access to quality and affordable care; and

WHEREAS, the Board of Trustees has determined, after due consideration of alternative proposals or offers in light of maintaining provider diversity, consumer choice and access to quality and affordable care, that it is in the best interest of HSC to enter into an Affiliation Agreement with L+M, a detailed summary of which is set forth in the Summary of Principle Terms attached hereto as *Exhibit A* and a current draft of which is attached hereto as *Exhibit B* (the "Affiliation Agreement").

II. HSC TO BECOME THE SOLE CORPORATE MEMBER OF LAWRENCE + MEMORIAL CORPORATION

WHEREAS, in furtherance of the affiliation contemplated by the Affiliation Agreement, HSC will become the sole corporate member of L+M, replacing the community and *ex officio* individuals who are currently L+M's members; and

WHEREAS, the Board of Trustees has reviewed a proposed Amended and Restated Certificate of Incorporation and Bylaws of HSC, attached hereto as *Exhibit C* and *Exhibit D*, respectively, revised to incorporate L+M into the System's governance framework; and

WHEREAS, the Board of Trustees has reviewed the proposed Amended and Restated Certificate of Incorporation and Bylaws of L+M, attached hereto as *Exhibit E*, revised to incorporate the L+M System into the System's governance framework, and which will be proposed for approval and adoption by L+M on or around the date of these Resolutions; and

WHEREAS, the Board of Trustees has determined that it is in the best interest of HSC to become the sole corporate member of L+M.

III. MERGER OF LMMG WITH AND INTO NEMG

WHEREAS, LMMG and NEMG are non-stock, tax-exempt medical foundations organized pursuant to the Connecticut Medical Foundations Law; and

WHEREAS, LMMG and NEMG share a mission to promote a high quality of medical care and other services for the benefit of all persons in the communities each serves; and

WHEREAS, pursuant to the Connecticut Medical Foundations Law, a health system may operate only a single affiliated medical foundation; and

WHEREAS, in accordance with NEMG's Bylaws, HSC approval is required for NEMG's merger with another entity; and

WHEREAS, in furtherance of the affiliation contemplated by the Affiliation Agreement, the Board of Trustees has determined that it is in the best interest of HSC and NEMG for NEMG to execute and implement the Agreement and Plan of Merger attached hereto as *Exhibit F*, following which NEMG remains the surviving corporation and LMMG shall cease to exist; and

WHEREAS, in accordance with NEMG's Bylaws, HSC approval is required for the amendment and restatement of NEMG's Certificate of Incorporation and Bylaws; and

WHEREAS, in furtherance of the Affiliation Agreement and of the merger of LMMG with and into NEMG, the Board of Trustees has reviewed a proposed Amended and Restated Certificate of Incorporation and Bylaws attached hereto as *Exhibit G* and *Exhibit H*, respectively.

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

Section 1. The Board of Trustees hereby authorizes HSC to enter into the Affiliation Agreement substantially containing the material terms set forth in the Summary of Principle Terms attached hereto as *Exhibit A* and in the draft Affiliation Agreement attached hereto as *Exhibit B* with such changes as may be approved by the HSC President and Chief Executive Officer, the HSC Executive Vice President Corporate and Financial Services and the HSC Senior Vice President and General Counsel.

Section 2. The Board of Trustees hereby authorizes HSC to become the sole corporate member of L+M and, in connection therewith, hereby authorizes and approves HSC's adoption of the Amended and Restated HSC Certificate of Incorporation and Bylaws substantially in the form attached hereto as *Exhibit C* and *Exhibit D*, respectively.

Section 3. The Board of Trustees hereby authorizes the merger of LMMG with and into NEMG pursuant to, and the execution by NEMG of, the Agreement and Plan of Merger substantially in the form attached hereto as *Exhibit F*, and the Board of Trustees hereby further authorizes NEMG's adoption of the Amended and Restated Certificate of Incorporation and Bylaws substantially in the form attached hereto as *Exhibit G* and *Exhibit H*, respectively.

Section 4. The HSC President and Chief Executive Officer, the HSC Executive Vice President Corporate and Financial Services, and the HSC Senior Vice President and General Counsel, Executive Vice President/Chief Strategy Officer, and their designees (the "**Authorized Officers**") are, and each of them hereby is, authorized and directed to do the following as related to the transactions contemplated by these resolutions: (a) negotiate, conclude terms with, execute and deliver, for and on behalf of HSC, any agreements, documents or instruments,

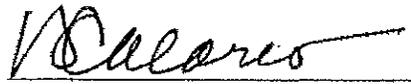

including any amendments to such documents that such Authorized Officer determines are appropriate to accomplish the intent and purposes expressed in these resolutions, including without limitation a definitive Affiliation Agreement; (b) approve the preparation, execution and distribution of disclosures and disclosure documents consistent with and pursuant to the terms of an Affiliation Agreement; (c) approve the preparation and execution of any and all notices and submissions, oral and written, including but not limited to documents, analyses, financial assessments, fair market value determinations, and the like, necessary to seek and obtain all government and regulatory approvals required to accomplish the intent and purposes expressed in these resolutions, including without limitation HSC becoming the sole corporate member of L+M and the merger of LMMG with and into NEMG; and (d) to perform and take any actions that such Authorized Officer determines are appropriate to accomplish the intent and purposes expressed in these resolutions and a definitive Affiliation Agreement.

Section 5. Any and all actions previously taken by the Authorized Officers and the officers or employees of HSC or any of its corporate affiliates in connection with the foregoing resolution are hereby ratified, approved and confirmed in all respects.

CERTIFICATION

The undersigned secretary of Yale-New Haven Health Services Corporation hereby certifies that the foregoing resolution was adopted by the Board of Trustees and remains in full force and effect without amendment as of the date hereof.

Adopted this 10th day of July, 2015

Vincent A. Calarco
Secretary

LAWRENCE + MEMORIAL CORPORATION
(d/b/a L+M Healthcare)

RESOLUTIONS OF BOARD OF DIRECTORS

Adopted on July 9, 2015

WHEREAS, the Board of Directors of Lawrence + Memorial Corporation (“L+M”) previously established an ad hoc Affiliation Oversight Committee (the “Committee”), for the purpose of exploring, evaluating and advising the Board regarding a potential strategic affiliation with Yale New Haven Health Services Corporation (“YNHHSC”); and

WHEREAS, the Committee has been working with a consultant and with the management of L+M in evaluating such an affiliation; and

WHEREAS, the Committee has concluded that a strategic affiliation with YNHHSC is in the best interests of L+M, its patients, its employees and the community L+M serves;

WHEREAS, the Committee has recommended to the L+M Board of Directors (the “Board”) that L+M proceed with an affiliation with YNHHSC, and has presented to the Board a proposed Affiliation Agreement between L+M and YNHHSC (the “Affiliation Agreement”), pursuant to which YNHHSC will become the sole member of L+M (the “Yale New Haven Affiliation”) in a manner that will reaffirm L+M’s commitment to the delivery of high-quality, effective health care to the communities it serves, and to supporting, enhancing and sustaining the ability of the affiliates of L+M, within the framework of and as members of the Yale New Haven Health System, to provide high-quality, cost-effective care that will drive broader efficiencies while increasing high quality outcomes, address increasing consumer demands for integrated collaborative care, manage risk more effectively, enhance the population health infrastructure, improve the efficient access to capital, and maintain and grow provider diversity, consumer choice and access to quality and affordable care; and

WHEREAS, the Board deems it to be in the best interest of L+M, and in furtherance of its charitable and exempt purposes, to enter into the Affiliation Agreement, and to proceed with the Yale New Haven Affiliation.

NOW, THEREFORE, it is hereby

RESOLVED, that L+M is authorized to enter into the Affiliation Agreement and all such documents, instruments, agreements, and certificates referenced therein or required under the terms thereof; and further

RESOLVED, that the President & Chief Executive Officer, or any other appropriate officer of L+M (each, an “Authorized Officer”), is hereby authorized and directed, in the name and on behalf of L+M, to execute and deliver the Affiliation Agreement, substantially in the form presented to the Board, with such changes thereto as the Authorized Officer approves, such

approval to be conclusively evidenced by the Authorized Officer's execution and delivery of the Affiliation Agreement; and further

RESOLVED, that any Authorized Officer is hereby authorized and empowered, in the name and on behalf of L+M, to execute and deliver any and all documents, instruments, agreements and certificates as such Authorized Officer shall deem necessary or appropriate in connection with the Yale New Haven Affiliation and the transactions contemplated by the Affiliation Agreement, all in such form as an Authorized Officer shall approve, such approval to be conclusively evidenced by the Authorized Officer's execution and delivery thereof; and further

RESOLVED, that any Authorized Officer is hereby, authorized and empowered, in the name and on behalf of L+M, to take or cause to be taken any and all acts necessary or appropriate to effectuate the Yale New Haven Affiliation and the transactions contemplated by the Affiliation Agreement, including, without limitation, obtaining the approval of the State of Connecticut Office of Health Care Access, the Rhode Island Department of Health, and the Rhode Island Attorney General, the preparation and filing of a notification under the Hart-Scott-Rodino Antitrust Improvements Act, and other required regulatory approvals and licenses, and the execution, delivery and/or filing of all documents and the payment of all fees contemplated by or required in connection with the Affiliation Agreement; and further

RESOLVED, that, subject to and effective upon the closing of the Yale New Haven Affiliation as contemplated by the Affiliation Agreement (the "Closing"), the Board hereby approves an amendment to L+M's Certificate of Incorporation and Bylaws, each in the form attached as an exhibit to the Affiliation Agreement, to provide, among other things, that Yale New Haven will become the sole member of L+M; and further

RESOLVED, that, subject to and effective upon the Closing, the Board hereby approves amendments to the Certificate of Incorporation and to the Bylaws of each of Lawrence + Memorial Hospital, Inc., LMW Healthcare, Inc. d/b/a Westerly Hospital, and Visiting Nurse Association of Southeastern Connecticut, Inc. (each a "Subsidiary" and, collectively, the "Subsidiaries"), which documents currently require the approval of L+M as the sole member of each such Subsidiary, all substantially in the forms attached as exhibits to the Affiliation Agreement, with such changes thereto as may be approved by the Authorized Officers of L+M or by the board of directors of any of the Subsidiaries, as the case may be, prior to the Closing; and further

RESOLVED, that, subject to and effective upon the Closing, the Board hereby approves the merger of L+M's medical foundation, L&M Physician Association, Inc. ("LMPA") with and into YNHHS's medical foundation, Northeast Medical Group, Inc. ("NEMG"), upon the terms and conditions contained in the Agreement and Plan of Merger (the "Plan") attached as an exhibit to the Affiliation Agreement, with NEMG as the surviving corporation in the merger (the "Merger"); and further

RESOLVED, that the Plan and the Merger are hereby approved in all respects; and further

RESOLVED, that the board of directors and the officers of LMPA are hereby authorized and empowered to take or cause to be taken any and all such actions as may be deemed necessary or appropriate to carry out the Plan and consummate the Merger, effective upon the Closing; and further

RESOLVED, that the Authorized Officers be, and each of them hereby is, authorized, empowered and directed in the name and on behalf of L+M to take such other and further action as they or any one of them shall deem necessary, appropriate or desirable to carry out the purpose and intent of the foregoing resolutions and to effectuate the transactions contemplated thereby; and further

RESOLVED, that the Authorized Officers be, and each of them hereby is, authorized and directed to take or cause to be taken such further actions, and to execute and deliver such additional documents, certificates, notices or instruments, as they or any of them shall deem necessary to carry out the intent of the foregoing resolutions; and further

RESOLVED, that all actions heretofore taken by any of the Authorized Officers or any representative of L+M in furtherance of any of the foregoing resolutions and the transactions contemplated thereby are hereby approved, ratified and confirmed in all respects; and further

RESOLVED, that any Authorized Officer be, and hereby is, authorized to certify to YNHSC that these resolutions have been duly adopted and that they are in conformity with the Certificate of Incorporation and the Bylaws of L+M.

LAWRENCE + MEMORIAL CORPORATION**ASSISTANT SECRETARY'S CERTIFICATE**

The undersigned, as Assistant Secretary of LAWRENCE + MEMORIAL CORPORATION, a Connecticut nonstock corporation ("L+M"), does hereby certify that attached hereto is a true, correct and complete copies of the resolutions of L+M with respect to the affiliation with Yale New Haven Health Services Corporation, which resolutions were duly adopted by the Board of Directors of L+M at a meeting duly called and held on July 9, 2015. Each of such resolutions is in full force and effect on the date hereof and has not been amended, altered or repealed since the date of its adoption.

IN WITNESS WHEREOF, the undersigned has executed this Certificate as of this 1st day of October, 2015.

Maureen Anderson, Assistant Secretary

Refer Reply to:
OP:E:EO:R:5

Date: JUL 24 1984

Employer Identification Number: 22-2529464
Key District: Brooklyn
Accounting Period Ending: September 30
Foundation Status Classification: 509(a)(3)

Dear Applicant:

Based on information supplied, and assuming your operations will be as stated in your application for recognition of exemption, we have determined you are exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code.

We have further determined that you are not a private foundation within the meaning of Code section 509(a), because you are an organization described in the sections of the Code shown above.

If your sources of support, or your purposes, character, or method of operation change, please let your key district know so that office can consider the effect of the change on your exempt status and foundation status. Also, you should inform your key District Director of all changes in your name or address.

Unless specifically excepted, beginning January 1, 1984, you must pay taxes under the Federal Insurance Contributions Act (social security taxes) for each employee who is paid \$100 or more in a calendar year. You are not required to pay tax under the Federal Unemployment Tax Act (FUTA).

Since you are not a private foundation, you are not subject to the excise taxes under Chapter 42 of the Code. However, you are not automatically exempt from other federal excise taxes. If you have questions about excise, employment, or other federal taxes, contact your key District Director.

Donors may deduct contributions to you as provided in Code section 170. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522.

You are required to file Form 990, Return of Organization Exempt From Income Tax, only if your gross receipts each year are normally more than \$25,000. (For tax years ending before December 31, 1982, organizations whose

-2-

Yale-New Haven Health
Services Corporation

gross receipts are not normally more than \$10,000 are excused from filing Form 990.) For guidance in determining if your gross receipts are "normally" not more than the \$25,000 limit, see the instructions for the Form 990. If a return is required, it must be filed by the 15th day of the fifth month after the end of your annual accounting period. There is a penalty of \$10 a day, up to a maximum of \$5,000, when a return is filed late unless there is reasonable cause for the delay.

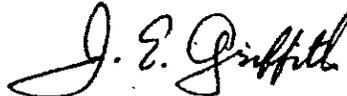

You are not required to file federal income tax returns unless you are subject to the tax on unrelated business income under Code section 511. If you are subject to this tax, you must file an income tax return on Form 990-T, Exempt Organization Business Income Tax Return. In this letter, we are not determining whether any of your present or proposed activities are unrelated trade or business as defined in section 513.

Please show your employer identification number on all returns you file and in all correspondence with the Internal Revenue Service.

We are informing your key District Director of this ruling. Because this letter could help resolve any questions about your exempt status and foundation status, you should keep it in your permanent records

If you have any questions about this ruling, please contact the person whose name and telephone number are shown in the heading of this letter. For other matters, including questions concerning reporting requirements, please contact your key District Director.

Sincerely yours,

J. E. Griffith

Legend:

- M = Lawrence and Memorial Hospitals
- N = Lawrence and Memorial Corporation
- O = Lawrence and Memorial Foundation, Inc.
- P = L & M Health Care, Inc.
- Q = L & M Systems, Inc.

Dear Applicant:

This letter is in reference to your joint request for rulings, with three other organizations, regarding a proposed corporate reorganization and proposed transactions relating thereto.

Currently, M, N, O, and P are organizations recognized as exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code. M is a public charity described in sections 170(b)(1)(A)(iii) and 509(a)(1) of the Code. N is a supporting organization described in section 509(a)(3). O is a public charity described in sections 170(b)(1)(A)(vi) and 509(a)(1). P is a public charity described in section 509(a)(2). Q is a for-profit organization.

M is a voluntary and not-for-profit hospital considering a reorganization. M's plan of reorganization is proposed in order to:

- (1) assure M's continued leadership role in the community and continued capacity to provide patient care at a lower cost;
- (2) facilitate compliance with governmental reporting requirements;
- (3) segregate hospital assets from non-hospital assets so as to limit third party liability;
- (4) separate regulated and non-regulated activities;
- (5) isolate unrelated business activities from exempt activities;

-2-

Lawrence and Memorial Hospitals

- (6) remove the management of non-hospital activities and assets from hospital management;
- (7) increase investment opportunities;
- (8) improve recruitment opportunities;
- (9) increase flexibility in undertaking capital expenditure projects; and
- (10) facilitate long range planning.

After the proposed reorganization, M, N, O, P, and Q will, as a group, conduct the activities formerly conducted by M alone.

In order to implement the proposed reorganization, M will amend its organizing instruments to designate N as its sole member. M will continue to operate the general acute care hospital and provide medical and hospital care. N was formed to benefit, perform the functions of, carry out the purposes of, and uphold, promote, and further the welfare, programs, and activities of M. All of N's members are currently persons who are members of M. In the future, a majority of N's trustees will also be trustees of M. N will function as the parent corporation in the new structure and will provide overall direction and control to M, O, P, and Q.

O was formed to assist M, N, and other section 501(c)(3) organizations associated with M and N, by soliciting and receiving contributions, grants, donations, bequests, and devises, and to make distributions to such organizations for proper purposes. P was formed, among other purposes, to operate and maintain programs directed toward improving the efficiency of utilization of health care facilities, including the education for health professionals, the public, nursing, and residency training, and delivery of health care services. P may assume certain of the outpatient medical care programs or community health education programs previously performed by M, as well as outpatient programs unexplored by M. N is the sole member of both O and P.

Q is a stock corporation with N as its sole shareholder. Q's primary purpose is to render health care related and other services which M has avoided since such services would constitute an unrelated business activity. It is not anticipated that M, N, O, or P will provide any services to Q, but if services are provided, an arm's-length fee will be charged.

M will transfer sufficient cash to provide working capital to N, O, and P at the consummation of the reorganization. Following the initial transfer, it is anticipated that there will be further cash transfers among the exempt organizations. M may also transfer philanthropic monies previously raised

-3-

Lawrence and Memorial Hospitals

by M to O on the condition that O hold these dollars in a separate, segregated fund that will be used solely for the benefit of M. After the reorganization, M, N, O, and P will share some assets, personnel, and services in an effort to reduce, through economies of scale, the overall cost of providing health care services. To the extent there are transactions between the exempt organizations and Q, such transactions will be conducted on an arm's-length basis and it is anticipated that the charges for goods or services provided in connection with such transactions would be at fair market value.

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations that are organized and operated exclusively for charitable purposes.

Section 1.501(c)(3)-1(d)(2) of the Income Tax Regulations provides that the term "charitable" is used in section 501(c)(3) of the Code in its generally accepted legal sense. In the law of charity, the promotion of health is considered to be a charitable purpose.

Section 509(a)(1) of the Code provides that organizations described in section 170(b)(1)(A) (other than in clauses (vii) and (viii)) are excepted from classification as private foundations.

Section 170(b)(1)(A)(iii) of the Code, in part, describes an organization the principal purpose or functions of which are the providing of medical education or medical research, if the organization is a hospital.

Section 170(b)(1)(A)(vi) of the Code describes an organization which normally receives a substantial part of its support (exclusive of income received in the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501(a)) from a governmental unit referred to in section 170(c)(1) or from direct or indirect contributions from the general public.

Section 1.170A-9(e)(6)(ii) of the regulations provides that unusual grants may be excluded from the calculation used to determine whether an organization is normally supported by direct or indirect contributions from the general public. Section 1.170A-9(e)(6)(iii) provides that all pertinent facts and circumstances will be taken into consideration to determine whether a particular contribution may be excluded.

Section 509(a)(2)(A) of the Code provides that an organization which normally receives more than one-third of its support from any combination of gifts, grants, contributions, or membership fees; and gross receipts from admissions, sales of merchandise, performance of services, or furnishing of facilities, in an activity which is not an unrelated trade or business, is excepted from classification as a private foundation.

-4-

Lawrence and Memorial Hospitals

Section 509(a)(3) of the Code, in part, provides for exception from classification as private foundations for organizations organized and operated exclusively for the benefit of, to perform the functions of, or to carry out the purposes of organizations described in section 509(a)(1), and which are operated, supervised, or controlled by or in connection with one or more organizations described in section 509(a)(1).

Section 511(a) of the Code imposes a tax on the unrelated business taxable income of organizations described in section 501(c).

Section 512(a)(1) of the Code defines the term "unrelated business taxable income" as the gross income derived by any organization from any unrelated trade or business regularly carried on by it, less certain allowable deductions and modifications. Section 512(b)(1) provides that dividends are excluded from this definition.

Section 513(a) of the Code defines the term "unrelated trade or business" as any trade or business the conduct of which is not substantially related (aside from the need of such organization for income or funds or the use it makes of the profits derived) to the exercise or performance by such organization of the functions constituting the basis for its exemption.

Section 1.513-1(d)(2) of the regulations provides that trade or business is "related" to exempt purposes, in the relevant sense, only where the conduct of the business activities has causal relationship to the achievement of exempt purposes; and it is "substantially related" only if the causal relationship is a substantial one. The regulation continues that for the conduct of trade or business from which a particular amount of gross income is derived to be substantially related to purposes for which exemption is granted, the production or distribution of the goods or the performance of the services from which the gross income is derived must contribute importantly to the accomplishment of those purposes.

Section 514 of the Code provides for the taxation under section 512 of income from debt-financed property. Section 514(b)(1)(A)(i), however, provides that the definition of debt-financed property does not include any property substantially all the use of which is substantially related to the exercise or performance by such organization of its charitable purpose constituting the basis for its exemption under section 501.

Subsequent to the proposed reorganization and transfer of activities and funds, M, N, O, and P will operate exclusively for the charitable purpose of promotion of health within the meaning of section 501(c)(3) of the Code. The transfers and sharing of assets, personnel, and services described, in themselves, will have no adverse effect on a determination of exempt status or exception from private foundation status.

Further, the proposed transfers and sharing of assets, personnel, and services do not involve the regular carrying on of unrelated trade or business within the meaning of section 513 of the Code, and do not involve the use of assets other than substantially in furtherance of exempt purposes within the meaning of section 514.

-5-

Lawrence and Memorial Hospitals

Based on the above, we rule as follows:

- (1) M, after its amendments of its organizing instruments and the proposed reorganization, will continue to qualify as an organization described in sections 501(c)(3), 509(a)(1), and 170(b)(1)(A)(iii) of the Code.
- (2) N, after the proposed reorganization, will continue to qualify as an organization described in sections 501(c)(3) and 509(a)(3) of the Code.
- (3) O, after the proposed reorganization, will continue to qualify as an organization described in section 501(c)(3) of the Code and, provided the requisite public support is received, sections 509(a)(1) and 170(b)(1)(A)(vi).
- (4) P, after the proposed reorganization, will continue to qualify as an organization described in section 501(c)(3) of the Code and, provided it meets the support tests thereunder, section 509(a)(2).
- (5) N's ownership of 100% of the issued and outstanding voting stock of Q and N's receipt of dividends from Q will have no adverse effect on N's status under sections 501(c)(3) and 509(a)(3) of the Code, and the taxable income of Q will not be construed to be unrelated business income to N.
- (6) The proposed transfers of cash and other assets and the sharing of personnel, services, facilities, and expenses by and between M, N, O, and P will not:
 - (a) jeopardize the continued status of M, N, O, and P as organizations described in section 501(c)(3) of the Code;
 - (b) adversely affect the status of M, N, O, and P as organizations described in section 509(a); or
 - (c) give rise to unrelated business taxable income under sections 511-514 to M, N, O, or P.
- (7) M's transfer of philanthropic monies to O will qualify as an unusual grant within the meaning of section 1.170A-9(e)(6)(ii) of the regulations and may be excluded from the calculation used to determine public support for purposes of section 170(b)(1)(A)(vi) of the Code.

-6-

Lawrence and Memorial Hospitals

- (8) After the amendments to M's organizing instruments and the proposed reorganization, contributions to M, N, O, and P will continue to be deductible by donors as provided in section 170 of the Code.

These rulings are based on the understanding that there will be no material changes in the facts upon which they are based. Any such change should be reported to your key District Director. A copy of this ruling is being sent to your key District Director. Because it could help resolve questions concerning your federal income tax status, this ruling should be kept in your permanent records.

This ruling is directed only to the organization that requested it. Section 6110(j)(3) of the Code provides that it may not be used or cited as precedent.

Sincerely yours,

(Signed) J. E. Griffith

AFFILIATION AGREEMENT

This Affiliation Agreement (this “*Affiliation Agreement*”) is entered into as of July 17, 2015 (the “*Effective Date*”), by and between Yale-New Haven Health Services Corporation (“*YNHHSC*”) and Lawrence + Memorial Corporation (“*L+M*”) and pursuant to which, on and subject to the terms and conditions hereof, YNHHSC shall become the sole member of L+M (the “*Affiliation*”). YNHHSC and L+M may be individually referred to herein as a “*Party*” or collectively referred to herein as the “*Parties*.”

RECITALS

A. L+M. L+M is a Connecticut non-stock, tax-exempt corporation that is the sole member of its Subsidiaries that operate licensed acute care general hospitals, one in New London, Connecticut and one in Westerly, Rhode Island. L+M and the L+M Affiliates also provide other health care services for the benefit of the communities they serve.

B. YNHHSC. YNHHSC is a Connecticut non-stock, tax-exempt corporation that was organized in 1983 to provide support services to a nonprofit network of affiliated health care providers known, collectively, as the Yale New Haven Health System. YNHHSC also directs and implements certain programs and activities that assist its members in providing high quality, cost-effective health services for the benefit of the communities they serve. The mission of YNHHSC includes collaborating with Yale University to initiate, develop, and maintain educational programs for health care professionals and for the public.

C. System Support. The Parties believe that the Affiliation will provide L+M with benefits in leadership, efficiencies and growth. Efficiencies will result from economies of scale as they relate to information technology, finance, insurance, equipment, supplies and other administrative services. Growth will result from the coordination and implementation of clinical and health programs that are designed to improve the quality, cost-effectiveness and accessibility of health care and educational services in the communities served by L+M. The Affiliation will enable the L+M Affiliates to achieve their mission more effectively and to continue to serve their communities.

D. Shared Values. L+M shares YNHHSC’s mission and values, has a strong focus on service excellence, is a lower cost provider committed to its community, has a vibrant outpatient and primary care strategy and strong management, and provides high quality, high value, patient-centered care. L+M shares YNHHSC’s commitment of continuing to serve uninsured and underinsured patients, and of continuing to provide robust community benefit and uncompensated care. L+M, with the support of the L+M Subsidiaries, and YNHHSC seek an affiliation that will drive broader efficiencies while increasing high quality outcomes, address increasing consumer demands for integrated collaborative care, manage risk more effectively, enhance the population health infrastructure, improve the efficient access to capital, and maintain and grow provider diversity, consumer choice and access to quality and affordable care.

E. Furthering Mission. The Parties further believe that L+M will add to the strength of the Yale New Haven Health System by sharing its leadership, best practices and community-based services. The Affiliation also will (i) further the commitment of YNHHSC to support the delivery of high quality, cost-effective and accessible health care services in the region; and (ii)

allow both L+M and YNHHS to further their charitable missions and shared vision for the changing health care marketplace.

F. Best Interests. For these reasons, the Parties believe that the Affiliation as set forth in this Affiliation Agreement is in the best interests of each Party.

NOW, THEREFORE, the Parties agree as follows:

ARTICLE 1

INCORPORATION OF RECITALS; DEFINITIONS

1.1 Recitals. The recitals set forth above are incorporated herein and made a part hereof.

1.2 Definitions. All capitalized terms used in this Affiliation Agreement and not otherwise defined shall have the meanings set forth in Exhibit 1.

ARTICLE 2

TERMS OF AFFILIATION

2.1 Affiliation Structure. Effective as of the Closing Date, subject to the terms and conditions of this Affiliation Agreement, YNHHS shall become the sole corporate member of L+M and the corporate governance provisions described in this Section 2.1 shall become effective.

2.1.1 Organization and Operation of L+M. The Certificate of Incorporation and Bylaws of L+M shall be amended to appoint YNHHS as the sole corporate member of L+M. As the sole member, YNHHS will have certain retained and reserved powers consistent with the structure established for membership in the YNHHS Obligated Group and will be accorded the direct authority, as the sole member of and on behalf of L+M as the sole member of the L+M Subsidiaries, to exercise with respect to the L+M Subsidiaries the same retained and reserved powers as are accorded to YNHHS as the sole member of L+M, all as described in more detail in the L+M Amended Certificate of Incorporation and the L+M Amended Bylaws (each as defined below). The Amended and Restated Certificate of Incorporation of L+M shall, as of the Closing Date, be in the form attached as Exhibit 2.1.1(A) (the "*L+M Amended Certificate of Incorporation*"), and the Amended and Restated Bylaws of L+M shall, as of the Closing Date, be in the form attached as Exhibit 2.1.1(B) (the "*L+M Amended Bylaws*").

2.1.2 L+M Governance. Effective as of the Closing, the Parties agree that the individuals serving on the Board of Trustees of L+M as of the Closing Date shall remain on the Board of Trustees of L+M for the remainder of their respective terms, subject to the L+M Amended Bylaws, and YNHHS shall appoint an additional member of the Board of Trustees of L+M in accordance with the L+M Amended Bylaws. Thereafter, trustees shall be elected to the Board of Trustees of L+M as set forth in the L+M Amended Bylaws.

2.1.3 Organization and Operation of YNHHSC. As of the Closing Date, the Certificate of Incorporation of YNHHSC shall be amended to include L+M as an organization that YNHHSC supports as set forth in the Amended and Restated Certificate of Incorporation of YNHHSC attached as Exhibit 2.1.3(A) (the “***YNHHSC Amended Certificate of Incorporation***”). As of the Closing Date and through at least the sixth anniversary of the Closing Date, the person who serves from time to time as the Chair of the Board of L+M shall be elected as a voting member of the Board of Trustees of YNHHSC, and such person shall be provided with the opportunity to be a member of the YNHHSC Nominating and Governance Committee; provided, however, that in the event that after the Closing Date and during the Initial Period YNHHSC becomes the sole member of a health care organization or health system of similar size, revenue and scope of clinical services to L+M of which YNHHSC is not the member as of the Effective Date and such new health care organization or health system is provided greater rights with respect to representation on the Board of Trustees of YNHHSC than L+M is afforded pursuant to this Affiliation Agreement, L+M shall be provided with the same or substantially similar rights with respect to representation on the Board of Trustees of YNHHSC as are afforded to such health care organization or health system. Other members of the Board of Trustees of L+M shall have opportunities to serve on other YNHHSC committees, as set forth in the Amended and Restated Bylaws of YNHHSC attached hereto as Exhibit 2.1.3(B) (the “***YNHHSC Amended Bylaws***”).

2.1.4 Medical Foundation Matters. As of the Closing Date, (i) LMMG shall be merged with and into NEMG with NEMG surviving pursuant to an Agreement and Plan of Merger (the “***LMMG-NEMG Agreement and Plan of Merger***”) in the form attached as Exhibit 2.1.4(A); (ii) two physician employees of NEMG who are members of the medical staff of LMH and/or LMW, nominated in accordance with the bylaws of NEMG, shall be elected to the board of trustees of NEMG; (iii) the president of L+M or his or her designee shall be elected to the board of trustees of NEMG; (iv) the bylaws of NEMG shall be amended and restated in the form of the Amended and Restated Bylaws of NEMG (the “***Amended and Restated Bylaws of NEMG***”) attached hereto as Exhibit 2.1.4(B); (v) the certificate of incorporation of NEMG shall be amended and restated in the form of the Amended and Restated Certificate of Incorporation of NEMG (the “***Amended and Restated Certificate of Incorporation of NEMG***”) attached hereto as Exhibit 2.1.4(C); and (vi) the contracts held by Sound Medical Associates, P.C. will be assigned to NEMG PLLC.

2.1.5 Other L+M Subsidiaries. As of the Closing Date, the following organizational documents of LMH, LMW and VNA of Southeastern Connecticut shall be amended and restated to provide to YNHHSC direct authority, as sole member of and on behalf of L+M as sole member of each such L+M Subsidiary, to exercise with respect to each such L+M Subsidiary the same retained and reserved powers as are provided to YNHHSC by the YNHHSC Subsidiaries that are members of the YNHHSC Obligated Group:

- (a) the Certificate of Incorporation of LMH shall be amended and restated in the form of the LMH Amended Certificate of Incorporation attached as Exhibit 2.1.5(a)(1), and the Bylaws of

LMH shall be amended and restated in the form of the LMH Amended Bylaws attached as Exhibit 2.1.5.(a)(2);

- (b) the Certificate of Incorporation of LMW shall be amended and restated in the form of the LMW Amended Certificate of Incorporation attached as Exhibit 2.1.5(b)(1), and the Bylaws of LMW (subject to any applicable LMW Acquisition-Related Obligations) shall be amended and restated in the form of the LMW Amended Bylaws attached as Exhibit 2.1.5.(b)(2); and
- (c) the Certificate of Incorporation of VNA of Southeastern Connecticut shall be amended and restated in the form of the VNA of Southeastern Connecticut Amended Certificate of Incorporation attached as Exhibit 2.1.5(c)(1), and the Bylaws of VNA of Southeastern Connecticut shall be amended and restated in the form of the VNA of Southeastern Connecticut Amended Bylaws attached as Exhibit 2.1.5.(c)(2).

The LMH Amended Certificate of Incorporation, the LMW Amended Certificate of Incorporation and the VNA of Southeastern Connecticut Amended Certificate of Incorporation shall be referred to herein as the “*L+M Subsidiaries Amended Certificates of Incorporation*,” the LMH Amended Bylaws, the LMW Amended Bylaws and the VNA of Southeastern Connecticut Amended Bylaws shall be referred to herein as the “*L+M Subsidiaries Amended Bylaws*.” From and after the Closing Date, any other L+M Subsidiaries shall be operated in conformity with the principles reflected in the L+M Subsidiaries Amended Certificates of Incorporation and the L+M Subsidiaries Amended Bylaws.

2.1.6 Support of VNA. After the Closing, YNHHS shall support and maintain VNA of Southeastern Connecticut in a manner that is consistent with the objective of developing the capability of VNA of Southeastern Connecticut and the Yale New Haven Health System to effectively and efficiently engage in population health management and to manage the health of patients across the continuum of care.

2.1.7 Educational and Research Opportunities. After the Closing, YNHHS and L+M shall jointly explore educational and research opportunities at the L+M Affiliates in light of their respective academic strengths and mission commitments.

2.1.8 Healthcare Facilities Commitments. After the Closing, YNHHS and L+M shall develop and implement their strategic plans so as to maintain healthcare services facilities that support the evolving clinical service needs in the communities served by L+M. Moreover, the Parties’ further agree:

- (a) to work cooperatively to minimize travel for patients requiring healthcare services that can be appropriately provided by the L+M Affiliates and to encourage the return of patients originating within the communities served by the L+M Affiliates back to the originating facility and its physicians for local and specialty care

following treatment at any other Yale New Haven Health System facility;

- (b) that LMW shall continue to provide the services and commitments it is obligated to provide under the LMW Acquisition-Related Obligations; and
- (c) that the L+M Affiliates may maintain and preserve existing relationships with hospital-based physicians holding exclusive relationships with such L+M Affiliates, including, without limitation hospitalists, emergency physicians, pathologists, anesthesiologist, and radiologists.

2.1.9 Donor Restricted Funds. After the Closing, (i) L+M shall continue to honor any donor restrictions (temporary, permanent or as to purpose) on charitable donations made prior to the Closing Date, and (ii) any donor-imposed restrictions (temporary, permanent or as to purpose) on charitable donations made after the Closing Date shall also be honored by L+M.

2.1.10 Streamlining and Alignment of Board Structure of L+M Affiliates. During the Initial Period, and subject in the case of LMW to the LMW Acquisition-Related Obligations, YNHHS and the L+M Affiliates shall work together to streamline and align the board structure of LMH, LMW and VNA of Southeastern Connecticut with the board structure of L+M.

2.2 Maintenance of Separate Corporate Existence. After giving effect to the Closing, the corporate existence, names, rights, privileges, immunities, powers, franchises, facilities and other licenses, duties and liabilities of L+M and each L+M Subsidiary, other than LMMG, shall be governed by the Board of Trustees of L+M or such L+M Subsidiary, as applicable, subject to the L+M Amended Certificate of Incorporation and the L+M Amended Bylaws or the L+M Subsidiaries Amended Certificates of Incorporation and L+M Subsidiaries Amended Bylaws, as applicable. Except as otherwise contemplated by this Agreement, the Affiliation shall not result in a transfer or conveyance as of the Closing Date of any asset or the assumption of any liability of either Party or any Affiliate of either Party.

2.3 Continuation of Missions and Dedication to Community Benefit. Without limiting the generality of the foregoing, each Party reaffirms its commitment to the delivery of high-quality, effective health care to the communities it serves, and to supporting, enhancing and sustaining the ability of the L+M Affiliates, within the framework of and as members of the Yale New Haven Health System, to provide high-quality, cost-effective care that will drive broader efficiencies while increasing high quality outcomes, address increasing consumer demands for integrated collaborative care, manage risk more effectively, enhance the population health infrastructure, improve the efficient access to capital, and maintain and grow provider diversity, consumer choice and access to quality and affordable care. In furtherance of the foregoing, during the five-year period after the Closing Date, L+M may dedicate and commit at least \$11,000,000 ("**L+M Community Benefit Funds**") to support community benefit programs and reinvestments in the communities that the L+M Affiliates serve, including, without limitation, instituting, maintaining, preserving, and/or reinvesting in ambulance services, mental health

programs, smoking cessation programs, pediatric asthma programs, diabetes outreach, and/or services important to the community and/or at risk populations, in each case, as may be identified in a biennial community needs assessment or that otherwise are in furtherance of L+M's charitable mission; *provided, however*, that when calculating the amount of L+M Community Benefit Funds expended, such calculation shall not take into account Medicaid and/or Medicare shortfalls incurred by the L+M Affiliates. The annual amount of such L+M Community Benefit Funds shall be set forth in the L+M Affiliates' capital and operating budgets, as applicable, and so long as the L+M Community Benefit Funds set forth on such budgets are consistent with the requirements of this Section 2.3, the inclusion of such L+M Community Benefit Funds on a budget shall not be grounds for YNHHS to disapprove, withhold, delay or condition its consent to such budgets.

2.4 Employment Matters.

2.4.1 L+M Chief Executive Officer. The president of L+M shall report to an executive officer of YNHHS designated by the President and Chief Executive Officer of YNHHS and to the Board of Trustees of L+M.

2.4.2 Other Employment Matters. It is the Parties' intent to minimize the impact of the Affiliation on the employees of LMH, LMW, LMMG and VNA of Southeastern Connecticut (each an "**Employee**"). In furtherance of the foregoing:

(a) In the event any Employee who is employed by an L+M Affiliate ceases such employment within ninety (90) days after the Closing and becomes employed by a different YNHHS Affiliate within ninety (90) days after ceasing to be employed by such L+M Affiliate, the Parties agree that such Employee shall be subject to, and shall receive the benefits of, YNHHS's applicable employment practices governing inter-affiliate transfers that are in effect at the time of the applicable employer change, as if such Employee's cessation of employment with such L+M Affiliate occurred immediately prior (and without interruption) to such Employee's employment with such other YNHHS Affiliate. YNHHS's current practice is to provide each Employee that becomes employed by a different YNHHS Affiliate credit for his or her length of service at the applicable L+M Affiliate as of the date such employee ceases to be employed by such L+M Affiliate for purposes of seniority, benefits eligibility and vesting at the applicable YNHHS Affiliate.

(b) From and after the Closing Date, all Employees of LMH, LMW and VNA of Southeastern Connecticut shall remain subject to, and shall receive the benefits of, the applicable L+M Affiliate's employment policies that are in effect from time to time. For the avoidance of doubt, from and after the Closing Date each L+M Affiliate shall be an affiliate of YNHHS and shall have the benefit of YNHHS's inter-affiliate employment transfer practices or policy as is in effect from time to time.

(c) All current collective bargaining agreements to which the L+M Affiliates are parties as of the Closing Date will remain in full force and effect in accordance with their terms.

2.5 YNHHS System-wide Policies. At or after the Closing, on a mutually-agreed timetable that is no longer than twelve (12) months after Closing, L+M shall adopt and

implement YNHHS's system-wide policies and procedures consistent with the adoption and implementation thereof by the members of the Yale New Haven Health System, including without limitation the YNHHS Obligated Group Policies.

2.6 Maintenance of Medical Staff. The medical staffs of LMH and LMW shall remain constituted in accordance with their respective medical staff bylaws (the "*LMH Medical Staff Bylaws*" and the "*LMW Medical Staff Bylaws*", respectively) and such LMH Medical Staff Bylaws and LMW Medical Staff Bylaws shall be consistent with the requirements of Applicable Law and the applicable accrediting agencies.

2.7 YNHHS Branding. From and after the Closing, subject to compliance with the LMW Acquisition-Related Obligations, YNHHS and the L+M Affiliates shall work collaboratively to build the YNHHS brand across the communities served by the L+M Affiliates and LMH, LMW and the other L+M Provider Subsidiaries shall use the YNHHS brand in accordance with YNHHS's graphic standards, guidelines and policies; *provided, however*, that the names "Lawrence + Memorial" and "Westerly" shall be changed only with the approval of the L+M Board of Trustees and the YNHHS Board of Trustees. YNHHS shall develop advertising, marketing and promotional policies for the Yale New Haven Health System. YNHHS shall promote LMH and LMW and identify them as member hospitals of YNHHS in the same manner as the other Hospital Members with a similar scope of services. In furtherance of the intent and purpose of this Section 2.7, promptly upon the Closing, YNHHS shall commence a comprehensive rebranding campaign (the "*Rebranding Campaign*") to rebrand the L+M Affiliates as members of the Yale New Haven Health System. All costs and expenses associated with such Rebranding Campaign shall be the sole responsibility of YNHHS.

2.8 Management Services. YNHHS shall provide management support services to the L+M Affiliates subject to needs of all members of the Yale New Haven Health System and available financial resources. These services shall include, but not be limited to, the following: internal audit, strategic planning and marketing support, business diversification and development assistance, human resource support, trustee orientation and development programs, management information systems' hardware and software support, telecommunications assistance, facilities development, compliance, legal services, quality assessment and risk management support, fund development assistance, physician recruitment and retention support, and managed care contracting (provided that YNHHS may revise, delete from or add to such list of services on a basis that is equitably applied to all Hospital Members). Upon Closing, an implementation plan for the integration and use of these services by the L+M Affiliates will be agreed to by the Parties. The L+M Affiliates will be assessed fees for these services on a basis that is consistent with the basis of assessment for other similarly situated YNHHS Subsidiaries.

2.9 Benefits and Privileges. YNHHS represents and covenants that LMH and LMW shall, in addition and without prejudice to any benefits, rights or privileges contained in this Agreement, enjoy the same privileges and benefits as the Hospital Members and be treated in a manner no less than consistent with the treatment of the Hospital Members, in each case taking into account the different sizes, clinical and financial attributes and performance of the respective Hospital Members. In addition, for so long as YNHHS determines to continue to provide or implement programs and initiatives for the enhancement of quality, cost efficiency, professional development and/or other improvements for the members of the Yale New Haven Health System, each L+M Affiliate shall, in addition and without prejudice to any benefits, rights or

privileges contained in this Agreement, participate in such programs and initiatives on an equitable basis along with other YNHHS Affiliates having attributes (including corporate purpose, size, scope of services and staff) that are similar to those of such L+M Affiliate. At such time in the future as YNHHS determines to offer any new programs or initiatives for the enhancement of quality, cost efficiency, professional development and/or other improvements for the members of the Yale New Haven Health System, each L+M Affiliate shall, in addition and without prejudice to any benefits, rights or privileges contained in this Agreement, participate in such programs and initiatives on an equitable basis along with other YNHHS Affiliates having attributes (including corporate purpose, size, scope of services and staff) that are similar to those of such L+M Affiliate.

2.10 Obligated Group. On the earliest date following the Closing Date that is reasonably determined by YNHHS and in accordance with the requirements of the L+M Master Trust Indenture, YNHHS shall have the authority to cause L+M and LMH, LMW and/or such other L+M Subsidiaries as YNHHS shall determine to become YNHHS Obligated Group Members, and effective upon becoming a YNHHS Obligated Group Member the applicable L+M Affiliate shall execute a joinder to become a party to the YNHHS Obligated Group Agreement and shall take such other steps as YNHHS may require in connection with such status.

2.11 YNHHS Resource Commitments.

(a) YNHHS commits, on and subject to the terms of this Section 2.11 and in accordance with the strategic plan described in Section 2.12, to deploy, directly and through its Affiliates, \$300 million in resources in the Yale New Haven Health System's Eastern Connecticut and Western Rhode Island region over a period of five years commencing with the Closing to enhance and support clinical and operational capabilities and services consistent with community need, the Yale New Haven Health System strategic plan, and mutually agreed upon business plans which display positive return on investment (or in the case of physical plant and infrastructure projects, mutually agreed upon facility management plans and/or project budgets).

(b) As part of the \$300 million commitment described in Section 2.11(a), subject to the Closing, YNHHS commits to make available (from resources other than those generated by the L+M Affiliates) in the Yale New Haven Health System's Eastern Connecticut and Western Rhode Island region an aggregate of \$41 million in resources over the five-year period commencing with the Closing to support the initiatives described in this Section 2.11(b), which the Parties acknowledge are consistent with community need and the Yale New Haven Health System Strategic Plan, and are subject to mutually agreed upon business plans that display positive returns on investment:

- (i) Implementation of Epic, Lawson and other IT platforms;
- (ii) Effectuation and implementation of the branding contemplated by Section 2.7;
- (iii) Up to \$10 million in value represented by participation in and access to YNHHS population health infrastructure;

(iv) Development of clinical programs and services and associated physician recruitment.

(c) As part of the \$300 million commitment described in Section 2.11(a), subject to the Closing, YNHHS committs to make available (from resources other than those generated by the L+M Affiliates) in the Yale New Haven Health System's Eastern Connecticut and Western Rhode Island region an aggregate of \$44 million in resources over the five-year period commencing with the Closing to support the clinical programs and services described in Section 2.11(d) in accordance with mutually agreed-upon individual project business plans that are consistent with community need and the Yale New Haven Health System's strategic plan, display a positive return on investment and include implementation plans and budget allocations.

(d) As part of the \$300 million commitment described in Section 2.11(a), subject to the Closing, YNHHS and Affiliates of YNHHS (including the L+M Affiliates) shall deploy \$215 million in resources (in addition to the resources described in Section 2.11(b) and (c)) in the Yale New Haven Health System's Eastern Connecticut and Western Rhode Island region over a period of five years from and after the Closing Date to enhance and support the clinical and operational capabilities and services described in this Section 2.11(d) consistent with (i) community need, (ii) Yale New Haven Health System's strategic plan, (iii) mutually agreed-upon individual project business plans which display a positive return on investment (or in the case of physical plant and infrastructure projects, mutually agreed upon facility management plans and/or project budgets), and (iv) the performance of the L+M Affiliates measured against the Key Financial Metrics. It is understood that if YNHHS and L+M mutually determine that the performance of the L+M Affiliates for any year during the applicable five-year period has materially deviated (whether positively or negatively) from the Key Financial Metrics, taken collectively, then the level of resources to be deployed by YNHHS and Affiliates of YNHHS pursuant to this Section 2.11(d) will be affected in a way that is mutually agreed by YNHHS and L+M. The clinical and operational capabilities and services described in this Section 2.11(d) are the following clinical and operational capabilities and services (or such other programs and services as YNHHS and L+M may mutually agree):

- (i) Expansion of primary care network and ambulatory presence, including ambulatory surgery;
- (ii) Access to pediatric specialty services;
- (iii) Development of a multi-disciplinary musculoskeletal center with orthopedic, neurosurgery, spine and physiatry clinical complements;
- (iv) Expansion of maternal fetal medicine and obstetrics capabilities;
- (v) Enhancement of oncology services associated with Smilow Cancer Hospital;
- (vi) Reintroduction and expansion of bariatric and/ or laparoscopic surgical programs;
- (vii) Expansion of neuromuscular and stroke programs;

- (viii) Development of a multidisciplinary vascular program and enhancement of cardiac services including electrophysiology;
- (ix) Enhancement of endocrinology/thyroid services;
- (x) Development of population health and risk contracting capabilities and participation in population health infrastructure;
- (xi) Continued access to SkyHealth;
- (xii) Expanded emergency services; and
- (xiii) Physical plant and infrastructure maintenance, development and renovations.

For the avoidance of doubt, the financial performance of the L+M Affiliates as measured against the Key Financial Metrics shall not affect the resources committed by YNHHSO under Sections 2.11(b) and (c).

2.12 Strategic Plan. Prior to the Closing, YNHHSO, working with L+M, will develop a mutually agreed-upon five-year strategic plan including L+M that will address the major categories of the overall resource deployment described in Sections 2.11(b), (c) and (d). The strategic plan will focus on the retention and enhancement of healthcare services to communities in the Yale New Haven Health System's Eastern Connecticut and Western Rhode Island region, and will include projected resource availability and estimated timeframes in furtherance of the development of the programs and initiatives described in Section 2.11. The strategic plan will be updated every fiscal year and with a rolling three-year horizon consistent with YNHHSO practice. As the strategic plan for L+M that forms a component of the overall Yale New Haven Health System strategic plan, the strategic plan described in this Section 2.12 shall be subject to the approval of the board of L+M and the board of YNHHSO. This Section 2.12 and the Yale New Haven Health System Strategic Plan shall not be construed or applied so as to limit or restrict the level of the commitments of YNHHSO pursuant to Section 2.11, but the strategic plan and the Yale New Haven Health System Strategic Plan may affect the sequence and pacing of the implementation of the deployment of resources to support specific programs and services. The failure of YNHHSO and L+M to agree upon a strategic plan for L+M shall not result in a failure of a condition to the Parties' obligations to close the Affiliation or a right of either party to terminate this Affiliation Agreement.

2.13 Compliance with YSM Affiliation Agreement. From and after the Closing Date, the L+M Affiliates will comply with their obligations as applicable under Article IV of the YSM Affiliation Agreement.

ARTICLE 3

REPRESENTATIONS AND WARRANTIES WITH RESPECT TO L+M AFFILIATES

L+M represents and warrants to YNNHSC that the statements contained in this Article 3 are correct and complete as of the date of this Agreement, except as set forth in the Disclosure Schedule and except as specifically disclosed to YNNHSC. The Disclosure Schedule will be arranged in sections corresponding to the lettered and numbered sections contained in this Article 3. The Parties acknowledge and confirm that any competitively sensitive information called for by this Article 3 (including any schedules of the Disclosure Schedule) shall only be disclosed pursuant to such procedures as the Parties shall mutually agree upon so as to avoid violation of Applicable Law.

3.1 Organization of L+M. L+M is a nonstock corporation which is duly organized, validly existing and in good standing under the laws of the State of Connecticut, and has (and at the Closing will have) full corporate power and authority to own its assets and conduct its operations (as now conducted and as conducted at the Closing). Each of the L+M Subsidiaries is duly organized, validly existing and in good standing under the laws of the state of its formation and has (and at the Closing will have) full corporate power and authority to own its assets and conduct its operations as currently being conducted (as now conducted and as conducted at the Closing).

3.1.1 Schedule 3.1.1 lists all Subsidiaries of L+M. Except as indicated on Schedule 3.1.1: (i) each of the L+M Subsidiaries is a nonstock corporation of which L+M is the sole member and (ii) each of the L+M Affiliates is a Tax-Exempt Organization. Schedule 3.1.1 identifies each of the L+M Affiliates that is inactive.

3.1.2 The certificates of incorporation (or similar organizational documents) and bylaws of the L+M Affiliates, copies of which have heretofore been provided or made available to YNNHSC, are true, complete and correct copies of such documents.

3.1.3 Schedule 3.1.1 sets forth the name of each other Person in which any of the L+M Affiliates has any equity or limited liability company membership interest other than a passive minority investment.

3.2 Authorization of Transaction. L+M has full corporate power and authority to execute and deliver this Affiliation Agreement and to perform its obligations hereunder. This Agreement has been duly authorized by all requisite corporate action of L+M. This Agreement has been duly executed and delivered by L+M and, assuming due authorization, execution and delivery by YNNHSC, and receipt of the consents and approvals listed in Schedule 3.27, constitutes a valid and binding obligation of L+M, enforceable against L+M in accordance with its terms (except as may be limited by bankruptcy, insolvency, fraudulent transfer, moratorium, reorganization, preference or similar Applicable Laws of general applicability relating to or affecting the rights of creditors generally and subject to general principles of equity (regardless of whether enforcement is sought in equity or at law)). The amendment of the certificate of incorporation of L+M in the form of the L+M Amended Certificate of Incorporation and the amendment of the bylaws of L+M in the form of the L+M Amended Bylaws, in each case

effective as of and subject to the Closing, has been duly authorized by all requisite corporate action of L+M. The LMMG-NEMG Agreement and Plan of Merger to become effective as of and subject to the Closing: (a) have been duly authorized by all requisite corporate action of L+M; and (b) in the case of LMMG, have been (or upon Closing will be) duly authorized by all requisite corporate action of LMMG. The amendment of the certificate of incorporation of each applicable L+M Subsidiary in the form of: (i) the LMH Amended Certificate of Incorporation; (ii) the LMW Amended Certificate of Incorporation; and (iii) the VNA of Southeastern Connecticut Amended Certificate of Incorporation and the amendment of the bylaws of each applicable L+M Subsidiary in the form of: (x) the LMH Amended Bylaws; (y) the LMW Amended Bylaws; and (z) the VNA of Southeastern Connecticut Amended Bylaws, in each case effective as of and subject to the Closing: (a) has been duly authorized by all requisite corporate action of L+M; and (b) in the case of each applicable L+M Subsidiary, has been (or upon Closing will be) duly authorized by all requisite corporate action of such L+M Subsidiary.

3.3 Non-Contravention. Neither the execution and delivery by L+M of this Affiliation Agreement nor the consummation by L+M and the L+M Subsidiaries of the transactions contemplated hereby, will:

3.3.1 violate any provision of the certificate of incorporation (or similar organizational documents) or, subject only to obtaining any necessary approvals described in Article 5, bylaws of any of the L+M Affiliates; or

3.3.2 subject only to obtaining the approvals set forth in Schedule 3.27, constitute a violation on the part of the L+M Affiliates of any statute, Applicable Law, judgment, decree, order, regulation or rule of any court or Governmental Authority applicable to any of the L+M Affiliates; or

3.3.3 subject only to obtaining the consents set forth in Schedule 3.27, (i) violate, or be in conflict with, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or accelerate the performance required by, or cause the acceleration of the maturity of, any debt, or the revocation or loss of any material license, or (ii) violate, or be in conflict with, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or accelerate the performance required by, any obligation pursuant to any Material Contract to which any of the L+M Affiliates is a party (other than any Material Contract evidencing debt for borrowed money), or result in the revocation or loss of any Material Contracts, grants, endowment funds, permits or insurance policies listed in the Disclosure Schedule, or give any third party any option, right of first refusal or other rights under any Material Contract relating to the operations of any L+M Affiliate which, in case of any document, instrument or policy described in this clause (ii), individually or in the aggregate, would reasonably be expected to have a Material Adverse Effect.

3.4 Brokers' Fees. L+M has no liability or obligation to pay any fees or commissions to any broker, finder, or agent with respect to the transactions contemplated by this Agreement.

3.5 Title to Assets. Each of the applicable L+M Affiliates has (subject to Permitted Encumbrances and the Liens described in Schedule 3.5.1) good, valid and marketable title to all (i) real property comprising main hospital facility of LMH; (ii) real property comprising the main

hospital of LMW, and (iii) real property comprising the L+M Cancer Center (the real properties described in clauses (i), (ii) and (iii), collectively, the "**Principal Properties**").

3.5.1 Schedule 3.5.1 sets forth a true and complete list of the Owned Real Property, including the address and owner of each such Owned Real Property. Except as described in Schedule 3.5.1, each of the Principal Properties is owned by the applicable L+M Affiliate in fee simple, free and clear of all Liens, except Permitted Encumbrances. Except as set forth in Schedule 3.5.1, none of the Principal Properties is subject to any right or option of any other Person to purchase or lease an interest in such Principal Property. None of the L+M Affiliates has received any written notice of (i) a condemnation proceeding relating to Owned Real Property, (ii) a violation of Applicable Law relating to the Owned Real Property, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect or (iii) the imposition of a general or special assessment relating to the Owned Real Property. L+M has provided to YNHHS C a copy of current title reports relating to the Principal Properties. The Owned Real Property is in compliance in all material respects with all Applicable Laws, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

3.5.2 Schedule 3.5.2 sets forth a true and complete list of the real property leased or subleased by an L+M Affiliate, with lease payments that in the case of any one lease (i) exceed \$1,000,000 annually or (ii) have a remaining term in excess of three years and lease payments that exceed \$500,000 annually, (the "**L+M Leased Real Property**"), including the address of each such L+M Leased Real Property, the date and names of the parties to the applicable lease. L+M has provided a list or copies to YNHHS C of all currently-effective leases or subleases relating to the L+M Leased Real Property, together with all material waivers, amendments, extensions, renewals, guaranties and other Contracts with respect to such leases (collectively, "**L+M Real Property Leases**"). To the Knowledge of L+M, each of the L+M Affiliates has complied and is in compliance in all material respects with the terms of L+M Real Property Leases to the extent that non-compliance would give the counterparty a valid right to terminate the applicable L+M Real Property Lease and none of the L+M Affiliates has received written notice that it is in material breach of or default under such lease or sublease. All L+M Real Property Leases are in full force and effect. To the Knowledge of L+M, no material default exists under any L+M Real Property Lease by any other party thereto that would give the applicable L+M Affiliate a valid right to terminate the applicable L+M Real Property Lease.

3.5.3 No portion of the L+M Real Property has suffered any material damage by fire or other casualty which has not heretofore been repaired and restored or for which insurance proceeds adequate to effect the repair or restoration of such damage or casualty is not available that would, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect. No portion of any Principal Property is located in a special flood hazard area as designated by a federal Governmental Authority, except as set forth in Schedule 3.5.3. To the Knowledge of L+M, except as permitted by Environmental, Health and Safety Requirements, there has been no release, discharge, emission or disposal of Hazardous Substances on or under the L+M Real Property that

would, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

3.5.4 Except as set forth in Schedule 3.5.4 and for any conditions, defects or other items noted in engineering, property, environmental or other reports obtained by or provided to YNHHSC by or on behalf of L+M, the improvements on the L+M Real Property and the Personal Property owned or leased by L+M Affiliates have been reasonably maintained in the ordinary course of business, are in good operating condition (ordinary wear and tear excepted), and are reasonably suitable for the uses for which they are intended.

3.6 Subsidiaries and Related Entities. Except as set forth in Schedule 3.1.1, neither LMH nor LMW has any Subsidiaries and neither owns beneficially or of record any equity interest in any other Person, and neither is a member, shareholder, or partner in any other Person.

3.7 Financial Statements. L+M has provided or made available to YNHHSC true and correct copies of (i) the audited consolidated statements of financial position of each of the L+M Affiliates, and related statements of activities and change in net assets, functional expenses and cash flows of each of the L+M Affiliates for the fiscal years ending as of September 30, 2011, 2012 and 2013 including the notes thereto; (ii) the audited consolidated statements of financial position of each of the L+M Affiliates, and related statements of activities and change in net assets, functional expenses and cash flows of each of the L+M Affiliates as of December 31, 2014, including the notes thereto (the "*L+M 2014 Audited Financial Statements*"); and (iii) an unaudited consolidated statement of financial position of each of the L+M Affiliates and unaudited statements of activities, functional expenses and cash flows of each of the L+M Affiliates as of March 31, 2015 (the "*L+M Interim Financial Statements*" and together with the L+M 2014 Audited Financial Statements, the "*L+M Financial Statements*"). The L+M 2014 Audited Financial Statements (i) have been prepared in accordance with GAAP and (ii) fairly present in all material respects the consolidated financial position and the results of operations and cash flows of each of the L+M Affiliates at and as of the dates or for the periods indicated. The L+M Interim Financial Statements (i) have been prepared in accordance with GAAP (subject to certain presentation items consistent with the ordinary course of business, to the absence of footnote disclosure and to normal year-end adjustments) and (ii) fairly present in all material respects the consolidated financial position and the results of operations and cash flows of each of the L+M Affiliates at and as of the respective dates thereof or for the periods ended on such dates, as applicable.

3.7.1 Each of the L+M Affiliates maintains systems of internal accounting controls to provide reasonable assurances that: (i) all transactions are executed in accordance in all material respects with management's general or specific authorization, (ii) all transactions are recorded as necessary to permit the preparation of the L+M Financial Statements in conformity with GAAP and maintain proper accountability for items and (iii) all reserves reflected on the L+M Financial Statements are sufficient for the purposes for which they were established. Since October 1, 2011, none of the L+M Affiliates has received and, to the Knowledge of L+M, there has not been, any complaint, allegation, assertion or claim regarding the L+M Affiliates' accounting or auditing practices, procedures, methodologies or methods, including any complaint, allegation, assertion or claim that any of the L+M Affiliates has engaged in questionable accounting or

auditing practices that would, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

3.7.2 A true, correct and complete copy of the L+M 2015 Budgets have been delivered to YNHHS.

3.7.3 LMI maintains and at all times has maintained unimpaired statutorily-required paid-in capital and surplus in the form permitted by Applicable Law.

3.8 Subsequent Events. Since the date of the most recent L+M Interim Financial Statements, (i) the L+M Affiliates have conducted their business operations in the ordinary course, and (ii) except as described in Schedule 3.8, there has not been:

(a) Any L+M Material Adverse Effect or event or occurrence of any condition that would reasonably be expected to have a Material Adverse Effect;

(b) Any increase in compensation or other remuneration payable to or for the benefit of or committed to be paid to or for the benefit of any, manager, officer, agent or employee of any L+M Affiliate, or in any benefits granted under any Employee Benefits Plan with or for the benefit of such, manager, officer, agent or employee (other than increases in wages or salaries required under existing contracts or otherwise in the ordinary course of business);

(c) Any borrowing or incurrence of any indebtedness (other than accounts payable in the ordinary course of business) contingent or otherwise for borrowed money, by or on behalf of any L+M Affiliate in excess of any amount not included in the L+M 2015 Budget;

(d) Any purchase by any L+M Affiliate of capital assets or any interests in real property or any lease arrangement (whether as a lessor or lessee or sub-lessor or sub-lessee) entered into by any L+M Affiliate with respect to real property in excess of \$1,000,000;

(e) Any acquisition of or material capital investment in (by merger, exchange, consolidation, purchase, or otherwise) any Person by any L+M Affiliate;

(f) Any acquisition of any assets by any L+M Affiliate (whether through capital spending or otherwise) which are outside of the ordinary course of business or which are in excess of \$500,000, individually or in the aggregate, to any L+M Affiliate;

(g) Any waiver of any claims or rights by any L+M Affiliate that are material or otherwise involve amounts individually or in the aggregate in excess of \$500,000;

(h) Any change in any method of accounting or accounting policies of any L+M Affiliate or any write down in the accounts receivable of any L+M Affiliate in excess of reserves on the L+M Interim Financial Statements;

(i) Any amendment to the certificate of incorporation, bylaws or other organizational documents of any L+M Affiliate;

(j) Any damage to or destruction or loss of any asset or property of any L+M Affiliate, whether or not covered by insurance, adversely affecting the assets, financial condition or prospects of any L+M Affiliate or the business operations thereof in an amount in excess of \$500,000;

(k) Any material change in any Tax election or Tax status of any L+M Affiliate;

(l) Any exhaustion of any primary or excess layers of insurance maintained by or for LMI;

(m) Any binding commitment or agreement by any L+M Affiliate that will result in any of the effects described in the foregoing.

3.9 Compliance with Law.

3.9.1 Regulatory Compliance. To the Knowledge of L+M, each of the L+M Affiliates have, during the previous three years, conducted and continues to conduct the business operations of such L+M Affiliate in substantial compliance with all Applicable Laws, including Environmental, Health and Safety Requirements, and have timely filed all material reports, data, and other information related to the business operations of the L+M Affiliates, except for (i) matters specifically disclosed to YNHHSC and (ii) violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Except as specifically disclosed to YNHHSC, to the Knowledge of L+M none of the L+M Affiliates that are engaged in the delivery of healthcare has, nor have any of their respective employees, committed a violation of federal or state laws regulating health care fraud, including but not limited to the federal Anti-Kickback Law, 42 U.S.C. §1320a-7b, the Stark I and II Laws, 42 U.S.C. §1395nn, as amended, and the False Claims Act, 31 U.S.C. §3729, et seq. (collectively, “*Health Care Fraud and Abuse Laws*”), except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. L+M has provided to YNHHSC true, correct and complete copies of any voluntary self-disclosure filings made with CMS or any other Governmental Authority and a description of the status of each such self-disclosure filing. To the Knowledge of L+M, each of the L+M Affiliates that are engaged in the delivery of healthcare services is in compliance in all material respects with the administrative simplification provisions required under the HIPAA, including the electronic data interchange regulations and the health care privacy regulations, as of the applicable effective dates for such requirements, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Each of the L+M Affiliates that are engaged in the delivery of healthcare services that is a “covered entity” under HIPAA has designated a director-level employee of the L+M Affiliates as its HIPAA privacy officer. To the Knowledge of L+M, the practices of the L+M Affiliates regarding the collection, access, maintenance, transmission, use, and disclosure of Confidential Information, including Protected Health Information, in connection with the conduct and operations of the L+M Affiliates’ business are and have been in all material respects in compliance with any of the L+M Affiliates’ contracts or commitments with third parties. To the Knowledge of L+M, the practices of the L+M Affiliates regarding the collection, access, maintenance,

transmission, use, and disclosure of Confidential Information, including Protected Health Information, in connection with the conduct and operations of the L+M Affiliates' business are and have been in accordance in all material respects with any applicable written policy or procedure of the L+M Affiliates since October 1, 2011 (or such later date on which the relevant policy or procedure shall have taken effect). To the Knowledge of L+M, the L+M Affiliates have not had any breach of information security that would constitute (i) a "security incident" (as defined in 45 CFR § 164.304) that resulted in material and actual unauthorized access, use, disclosure, modification or destruction of Protected Health Information or (ii) a "breach" under Section 13402 of the American Recovery and Reinvestment Act of 2009 and any regulations promulgated thereunder or state information security laws or regulations that require notification to or of government officials, or to individuals whose information may have been breached.

3.9.2 Investigations and Penalties. To the Knowledge of L+M, since January 1, 2012, none of the L+M Affiliates that are engaged in the delivery of healthcare services, and, no officer, director or trustee, or board officer or employee thereof with respect to the conduct of business operations of the L+M Affiliates:

(a) has been subject to any investigation, inquiry or suit by any Governmental Authority that has not been fully and finally resolved regarding any alleged violation of applicable governmental authorization or legal requirement which if adversely determined would reasonably be expected to have a Material Adverse Effect;

(b) has paid or been subject to any fine, penalty, corrective action plan, remediation plan, exclusion or other sanction by, or made a self-disclosure to, any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect;

(c) is a party to any written arrangement, including without limitation a corporate integrity agreement, deferred prosecution agreement, consent decree or settlement agreement, with any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect;

(d) has been or is currently a defendant in any qui tam, false claims or similar litigation that would reasonably be expected to have a Material Adverse Effect if adversely determined;

(e) to the Knowledge of L+M, is currently subject to any investigation, inquiry or suit by any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect; or

(f) to the Knowledge of L+M, has received any complaint from any employee, independent contractor, vendor, or any other Person regarding any alleged material violation of any governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect.

3.9.3 Compliance Program. Each of the L+M Affiliates has established and maintains a corporate compliance program which addresses the material requirements of all material Applicable Laws of the Governmental Authorities having jurisdiction over its business and operations. Each of the L+M Affiliates that is engaged in the delivery of healthcare services has designated an executive employee of such L+M Affiliate or of L+M as its chief compliance officer. Except as specifically disclosed to YNHHS, to the Knowledge of L+M, there are no material pending internal investigations that could reasonably be expected to lead to a material fine, penalty, corrective action plan, remediation plan, exclusion or other material sanction by, or a self-disclosure to, any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement. To the Knowledge of L+M, each of the L+M Affiliates have established and maintain policies or procedures, including without limitation conflict of interest and related policies, for the review of all compensation arrangements and other arrangements that could involve the referral of patients with other Persons, including but not limited to its officers, directors or trustees, physicians, executives, their immediate family members, their professional practice entities and other referral sources, that are reasonably designed to maintain compliance with (i) all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws and the intermediate sanction provisions of the Code and regulations promulgated pursuant thereto, and (ii) their internal policies, including but not limited to any applicable conflicts of interest policy. Except as specifically disclosed to YNHHS, all such compensation and other arrangements with potential referral sources are, to the Knowledge of L+M, in compliance with all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws.

3.9.4 Communications and Environmental Claims. Except as specifically disclosed to YNHHS, during any applicable statute of limitations, none of the L+M Affiliates have received any communication (written or, to the Knowledge of L+M, oral), whether from any Governmental Authority or third party, alleging that any of the L+M Affiliates are not in compliance with any Health Care Laws and there is no Environmental Claim pending or, to the Knowledge of L+M, threatened against any of the L+M Affiliates, or, to the Knowledge of L+M, pending or threatened, against any other Person or entity with respect to any of the L+M Affiliates, or for whose Liability for any Environmental Claim, with respect to any of the L+M Affiliates, any of the L+M Affiliates have or may have retained or assumed by Contract or by operation of Applicable Law which in any such case would give rise to a Material Adverse Effect.

3.9.5 Permits, Licenses and Accreditations.

(a) Each of the L+M Affiliates has all Permits of Governmental Authorities, including those required under Environmental, Health and Safety Requirements, necessary to conduct the business operations of the L+M Affiliates including without limitation (i) in the case of the L+M Provider Subsidiaries, such Permits as are required to obtain reimbursement under all Contracts, including provider Contracts such as network participation agreements and discount agreements, programs and other arrangements with Payer Programs and (ii) in the case of LMI, such Permits as are required to be duly licensed as a sponsored captive insurance company under the laws administered by the LMI Insurance Regulatory Agency (all such Permits described in this sentence, the "*L+M Permits*"). To the Knowledge of L+M, none of the

L+M Affiliates is in material breach or violation of, or material default under any L+M Permit, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. To the Knowledge of L+M, none of the L+M Affiliates is currently subject to or has been given notice of any threatened audit, review or investigation by a Governmental Authority with respect to any L+M Permit.

(b) Each of the L+M Affiliates maintain the accreditations related to its business and operations that are required to be maintained in order for the L+M Affiliates to continue to operate their respective businesses in accordance with their respective past practices, without contingencies, including without limitation accreditation by the Joint Commission, formerly the Joint Commission on Accreditation of Healthcare Organizations (the “*Joint Commission*”). To the Knowledge of L+M, each of the L+M Affiliates have taken all actions required to be taken to maintain such accreditations. There is no pending, and to the Knowledge of L+M, there is no threatened, investigation of any of the L+M Affiliates by any accreditation organization with respect to any material accreditation. None of the L+M Affiliates is subject to any notice of deficiency, plan of correction or similar action with respect to any such material accreditation.

3.9.6 Additional Contracts. True, correct and complete copies of the following Contracts have been provided to YNHHSC:

(a) each Contract (other than employment contracts) between any of the L+M Affiliates and any of its officers, directors or trustees (or any Person controlled by any of these individuals);

(b) each employment Contract, including but not limited to employment Contracts and severance Contracts, between any L+M Affiliate and a physician;

(c) each lease of real property or equipment with a physician or a physician’s professional practice entity (such as a professional corporation or professional limited liability company) and specifying the material terms thereof, including the names of the lessor and lessee, the address, the term and a description of the real property or equipment leased thereunder; and

(d) each Contract and plan providing for payments by any of the L+M Affiliates to any officers, directors, key employees or physicians upon a change of control of L+M or the applicable L+M Subsidiaries or upon severance or termination of their employment, other than Collective Bargaining Agreements and Contracts with individual physicians.

3.9.7 Certain Matters Respecting LMI. LMI is and at all times since October 1, 2011 has been in compliance with requirements of Applicable Law of the jurisdiction of its organization including any conditions attached to its insurance license and any directions to LMI issued by the LMI Insurance Regulatory Agency, except for minor violations the effect of which is not material. LMI has not made any reductions of capital or paid any dividends or distributions during the period since September 30, 2013. LMI has delivered to YNHHSC copies of all financial statements and declarations required to be filed by LMI with the LMI Insurance Regulatory Agency since October 1, 2014. LMI is prohibited from joining or contributing to any plan, pool, association or guaranty or insolvency fund under the laws of the jurisdiction of its organization, and LMI is not

entitled to any benefits from any such plan, pool, association or guaranty or insolvency fund for claims arising out of the operations of LMI.

3.10 Tax Matters.

3.10.1 For the six year period preceding the Closing Date, each L+M Affiliate has (i) duly filed or caused to be filed with the appropriate taxing authorities all Tax Returns required to be filed by it (giving effect to as-of- right extensions) and all such Tax Returns are true, correct and complete in all material respects, (ii) timely paid or caused to be paid in full all Taxes shown to be due on such Tax Returns or otherwise due and payable with respect to the operations of the L+M Affiliates and (iii) except as specifically disclosed to YNHHS, complied in all material respects with all Applicable Laws, rules and regulations relating to the withholding of Taxes and the payment of withheld Taxes, and timely and properly withheld and paid over to the appropriate Governmental Authorities all amounts required to be so withheld and paid under all Applicable Laws, rules and regulations.

3.10.2 No deficiencies or assessments for any Taxes of, or relating to, the operations of the L+M Affiliates have been proposed, asserted or assessed which have not been resolved and paid in full except for deficiencies and assessments being contested in good faith as listed and described in Schedule 3.10.2 or as specifically disclosed to YNHHS, and no United States federal, state, local or foreign audits or other administrative or judicial proceedings are presently pending with regard to any Taxes or Tax Returns of, or relating to, the operations of the L+M Affiliates. There are no Liens for Taxes upon any assets owned by the L+M Affiliates except for Permitted Encumbrances.

3.10.3 As of the Closing, except for the L+M Affiliates specifically identified on Schedule 3.1.1, each of the L+M Affiliates is recognized by the IRS as exempt from United States federal income taxation, and is recognized by the State of Connecticut and the State of Rhode Island as exempt from state and local income taxes, real property taxes, and qualifies for sales tax exemptions available to organizations described in Section 501(c)(3) of the Code.

3.10.4 The L+M Affiliates have provided a list to YNHHS of all Tax Returns filed by or with respect to the L+M Affiliates for fiscal years 2011, 2012 and 2013, including without limitation Form 990 "Return of Organization Exempt From Income Tax". The L+M Affiliates also have provided a list to YNHHS of all examination reports of any Tax Return by any Governmental Authorities and statements of deficiencies assessed by any Governmental Authority with respect to Tax Returns of the L+M Affiliates for fiscal years 2011, 2012 and 2013.

3.10.5 Except as listed in Schedule 3.1.1, none of the L+M Affiliates is a party to any joint venture, partnership, or other business arrangement which is treated as a partnership for United States federal income tax purposes.

3.10.6 Except for the real property certiorari proceedings described in Schedule 3.10.6, there are no Tax rulings, requests for rulings or closing agreements either

in effect or pending with any Governmental Authority relating to any of the L+M Affiliates which could affect the L+M Affiliates' Liability for Taxes after the Closing.

3.10.7 L+M has provided to YNHHS copies of the letters and/or rulings from the IRS in its possession which recognize that the L+M Affiliates indicated on Schedule 3.1.1 are Tax-Exempt Organizations exempt from United States federal income taxes under Section 501(a) of the Code as organizations described in Section 501(c)(3) of the Code and not as "private foundations" as such term is defined in Section 509 of the Code (the "**L+M Determination Letters**"). The L+M Determination Letters have not been modified, limited or revoked, in whole or in part, and none of the L+M Affiliates for which L+M Determination Letters have been provided has been notified that the IRS is proposing to revoke a L+M Determination Letter. In the case of L+M Affiliates for which L+M Determination Letters have not been provided, but that are Tax-Exempt Organizations exempt from United States federal income taxes under Section 501(a) of the Code as organizations described in Section 501(c)(3) of the Code and not as "private foundations" as such term is defined in Section 509 of the Code, such L+M Affiliates are listed on the list maintained by the U.S. Internal Revenue Service and known as the IRS Exempt Organizations Select Check (the "**IRS List of Exempt Organizations**"). There is no pending request by any of the L+M Affiliates for a redetermination of tax-exempt status as an organization described in Section 501(c)(3) of the Code. Each of the L+M Affiliates that are the subject of the L+M Determination Letters, or that are listed on the IRS List of Exempt Organizations, are in compliance with all of the terms, conditions, and limitations (i) contained in the L+M Determination Letters or (ii) required for inclusion on the IRS List of Exempt Organizations, as applicable, if any, and there has been no conduct by any such L+M Affiliates, of such nature that would warrant modification, limitation or revocation of the L+M Determination Letters or removal from the IRS List of Exempt Organizations, as applicable. To the best of L+M's Knowledge, none of any such L+M Affiliates has any "unrelated business income" as defined in Sections 511 through 514 of the Code which would adversely affect any of the L+M Affiliates' status as an organization described in Section 501(c)(3) of the Code. None of any such L+M Affiliates has been notified that the IRS is proposing to investigate its continued qualification as an organization described in Section 501(c)(3) of the Code or that there are any administrative or judicial proceedings pending or threatened which may adversely affect the classification of any of any such L+M Affiliates as an organization described in Section 501(c)(3) of the Code and not a private foundation under Section 509 of the Code.

3.10.8 The L+M 2014 Audited Financial Statements identify each tax-exempt financing, including its principal amount outstanding as of September 30, 2014 and the date of original issue, benefiting any of the L+M Affiliates. Each of the L+M Affiliates is in compliance in all material respects with all covenants required to be complied with by it under the L+M Tax-Exempt Bonds.

With respect to the L+M Tax-Exempt Bonds no action has been taken or omitted to be taken by any of the L+M Affiliates which would cause such the L+M Tax-Exempt Bonds to be an "arbitrage bond" under Section 148(a) of the Code. Each of the L+M Tax-Exempt Bonds is in compliance with the arbitrage rebate requirement of Section 148(f) of the Code. No action has been taken or omitted to be taken by any of the L+M

Affiliates which would cause any L+M Tax Exempt Bonds not to be “qualified 501(c)(3) bonds” within the meaning of Section 145 of the Code. Each of the L+M Tax-Exempt Bonds satisfies all applicable requirements set forth in Sections 147 and 149 of the Code in order for interest thereon to be excluded from gross income for federal income tax purposes.

3.10.10 With respect to each issue of the L+M Tax-Exempt Bonds, the applicable L+M Affiliates have timely filed with the IRS all Tax Returns, notices and other documents and forms necessary to be filed by the L+M Affiliates to qualify interest thereon for exclusion from gross income for federal income tax purposes and to maintain such exclusion.

3.10.11 At least 95% of the proceeds of the L+M Tax-Exempt Bonds have been used to provide facilities that are owned and operated by a Tax-Exempt Organization (i.e., L+M and LMH), except to the extent that portions of such facilities are permitted to be operated pursuant to a Safe Harbor Management Contract or pursuant to other recognized private business use exceptions.

3.10.12 All of the facilities financed by the L+M Tax-Exempt Bonds are owned for federal income tax purposes by L+M and LMH, each of which is a Tax-Exempt Organization.

3.10.13 At least 95% of the net proceeds of the L+M Tax-Exempt Bonds (net of and after deducting the costs of issuance thereof) are used only by L+M and LMH, each of which is a Tax-Exempt Organization, in activities that are substantially related to the exercise or performance by such Tax-Exempt Organization of purposes or functions constituting the basis for its exemption from federal income taxation under Section 501(a) of the Code.

3.10.14 Except as set forth on Schedule 3.10.14, All of the L+M Tax-Exempt Bonds constitute “qualified hospital bonds” within the meaning of Section 145(c) of the Code.

3.11 Material Contracts.

3.11.1 L+M has made available to YNHHSC true, correct and complete copies, including all amendments, supplements and modifications, of all Material Contracts (other than Material Contracts with Payer Programs); provided, however, that those Material Contracts relating to arrangements between an L+M Affiliate on the one hand and any physician on the other hand have been made available only to outside counsel or consultants for YNHHSC, who shall be instructed not to provide YNHHSC with any pricing, compensation, price sensitive or competitive information.

3.11.2 With respect to each Material Contract, L+M represents that (i) each of the Material Contracts is in full force and effect and constitutes a valid and binding obligation of the L+M Affiliate enforceable against the L+M Affiliate in accordance with its terms, and, to the Knowledge of L+M, against each other party thereto (except as may be limited by bankruptcy, insolvency, fraudulent transfer, moratorium, reorganization,

preference or similar Applicable Laws of general applicability relating to or affecting the rights of creditors generally and subject to general principles of equity (regardless of whether enforcement is sought in equity or at law)); (ii) the L+M Affiliates are not and, to the Knowledge of L+M, no other party thereto is, in breach or default in any material respect under any of the Material Contracts if such breach or default, individually or in the aggregate with other such breaches or defaults, would be reasonably expected to have a Material Adverse Effect; and (iii) the L+M Affiliates have not given and, to the Knowledge of L+M, it has not received from any other Person, any notice or other communication (whether written or oral) regarding any actual or potential violation or breach of, default under, termination of, any Material Contract (other than a termination by expiration of the term of a Material Contract) if such breach or default, individually or in the aggregate with other such breaches or defaults, would reasonably be expected to have a Material Adverse Effect. Except as set forth in Schedule 3.27, none of the Material Contracts for borrowed money or for the lease of real property or Material Contracts with Third Party Payers requires the consent of any other party thereto in connection with the transactions contemplated by this Affiliation Agreement.

3.12 Intellectual Property. To the Knowledge of L+M, each of the L+M Affiliates owns free and clear of all Liens, other than Permitted Encumbrances, Liens securing the L+M Tax-Exempt Bonds and Liens listed or described in Schedule 3.12, or is licensed or otherwise has the valid and enforceable right to use, all Intellectual Property used in or necessary to the conduct of its operations other than failures to own, be licensed or have the right to use Intellectual Property that would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect. All such licenses and agreements with third parties relating to such Intellectual Property that are material to the business operations of the L+M Affiliates, taken as a whole, are valid and binding and in full force and effect, and to the Knowledge of L+M, none of the parties thereto is in default thereunder or breach thereof if such breach or default, individually or in the aggregate with such other breaches or defaults and the breaches or defaults described in Section 3.11.2, would reasonably be expected to have a Material Adverse Effect. To the Knowledge of L+M, there is no pending claim by any third party challenging the ownership, validity or use of any material Intellectual Property that is material to the business operations of the L+M Affiliates, taken as a whole.

3.13 Transactions with Affiliates. Except for tuition reimbursement and/or housing assistance loans to employees that are made pursuant to L+M's existing policies, there are no notes receivable of any L+M Affiliate or any other amount payable to any L+M Affiliate owing by any director, officer, member or employee of any L+M Affiliate. Except as set forth in Schedule 3.13 (other than compensation and benefits received in the ordinary course of business as an employee of any L+M Affiliate), and to the Knowledge of L+M no member of any L+M Affiliate's board of directors, and no officer, of any L+M Affiliate, has any interest in: any contract, arrangement or understanding with, or relating to the business or operations of any L+M Affiliate; any loan, arrangement, understanding, agreement or contract for or relating to indebtedness of any L+M Affiliate; or any property (real, personal or mixed), tangible, or intangible, used or currently intended to be used in, the business or operations of any L+M Affiliate.

3.14 [Reserved].

3.15 Litigation.

3.15.1 Except as specifically disclosed to YNHHSO or as disclosed pursuant to Section 3.9, there is no suit, claim, action, proceeding, arbitration, hearing, inquiry or investigations whether at law or equity (individually or collectively as the contest shall require, "***Litigation or Proceedings***") pending or, to the Knowledge of L+M, threatened against the L+M Affiliates, except for any such suit, claim, action, proceeding, arbitration, hearing, inquiry or investigation which (i) is not reasonably expected as of the date hereof, together with any related claims arising out of the same set of facts, to involve an amount in controversy in excess of \$5,000,000, in the aggregate, excluding malpractice, general liability and other claims which are fully insured (subject to customary deductible and retention amounts), or (ii) would not be reasonably expected to have a Material Adverse Effect.

3.15.2 There are no outstanding orders, injunctions or decrees of any Governmental Authority (other than orders, injunctions or decrees of general applicability and which do not specifically name an L+M Affiliate) which would have a Material Adverse Effect.

3.16 Labor Relations.

3.16.1 Except for the Collective Bargaining Agreements described in Schedule 3.16.1 and except as disclosed to YNHHSO, (i) none of the L+M Affiliates is a party to, nor bound by, any labor agreement, collective bargaining agreement, written work rules or practices, or any other labor-related agreement or arrangement, with any labor union, trade union or labor organization (collectively, a "***Collective Bargaining Agreement***"); (ii) none of the L+M Affiliates' employees are covered by the terms of any Collective Bargaining Agreements; (iii) to the Knowledge of L+M, no labor union, trade union or labor organization of the L+M Affiliates has since December 31, 2011, made a pending demand for recognition or certification, as a collective bargaining representative of the L+M Affiliates' employees and, to the Knowledge of L+M, there are no representation election petitions filed with the National Labor Relations Board pertaining to the L+M Affiliates' employees; (iv) L+M has no Knowledge of any union organizing activities with respect to any employees of the L+M Affiliates; (v) since October 1, 2011, to the Knowledge of L+M, there have been no actual or threatened arbitrations, grievances, unfair labor practices, labor disputes, strikes, lockouts, slowdowns or collective work stoppages against the L+M Affiliates except for those that would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect; and (vi) since October 1, 2011, neither the L+M Affiliates nor any of their employees, agents or representatives have committed any material unfair labor practice as defined in the National Labor Relations Act which could reasonably be expected to have a Material Adverse Effect.

3.16.2 Each of the L+M Affiliates: (i) is not in violation in any material respect of any Applicable Law pertaining to labor, employment or employment practices including, but not limited to, all Applicable Laws regarding health and safety, wages and hours, labor relations, employment discrimination, disability rights or benefits, equal opportunity, immigration, plant closures and layoffs, affirmative action, employee leave issues, unemployment insurance and workers' compensation, except for violations the

effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect, or (ii) except as listed in Schedule 3.16.2, is not a party to any currently pending claim, action, arbitration, audit, hearing, investigation, complaint, charges, litigation or suit or governmental inquiry alleging a violation of any Applicable Law pertaining to labor, employment or employment practices, nor, to the Knowledge of L+M, is any such claim, action, arbitration, audit, hearing, investigation, complaint, charges, litigation or suit or governmental inquiry pending or threatened, except in each case for matters the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

3.16.3 Except as specifically disclosed to YNHHS, to the Knowledge of L+M, each of the L+M Affiliates: (i) has taken reasonable steps to properly classify and treat all of their workers, interns, trainees and volunteers as independent contractors or employees, (ii) has taken reasonable steps to properly classify and treat all of their employees as “exempt” or “nonexempt” from overtime requirements under Applicable Law, (iii) is not delinquent in any material payments to, or on behalf of, any current or former independent contractors or employees for any services or amounts required to be reimbursed or otherwise paid, (iv) has withheld and reported all material amounts required by Applicable Law or by agreement to be withheld and reported with respect to wages, salaries and other payments to any current or former independent contractors or employees; and (v) is not liable for any material payment to any trust or other fund governed by or maintained by or on behalf of any Governmental Authority with respect to unemployment compensation benefits, social security or other benefits or obligations for any current or former independent contractors or employees (other than routine payments to be made in the normal course of business and consistent with past practice). To the Knowledge of L+M, none of the L+M Affiliates has direct or indirect material Liability as a result of any misclassification of any Person as an independent contractor rather than as an employee.

3.16.4 Except as listed in Schedule 3.16.4, to the Knowledge of L+M, no employee or former employee of the L+M Affiliates is in any material respect in violation of any term of any employment agreement, nondisclosure agreement, common law nondisclosure obligation, fiduciary duty, non-competition agreement, restrictive covenant or other obligation: (i) to the L+M Affiliates or (ii) to a former employer of any such employee relating (A) to the right of any such employee to be employed by the L+M Affiliates or (B) to the knowledge or use of trade secrets or proprietary information in connection with his or her employment with the L+M Affiliates, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

3.16.5 Each of L+M Affiliates is and for the last 18 months has been in compliance with all notice and other requirements under the Worker Adjustment and Retraining Notification Act and any similar state or local Applicable Law relating to plant closings or layoffs (collectively, the “*WARN Act*”). In the 18 months prior to the date hereof, each of the L+M Affiliates has not (i) effectuated a “plant closing” (as defined in the *WARN Act*) or (ii) effectuated a “mass layoff” (as defined in the *WARN Act*).

3.17 Employee Benefits.

3.17.1 No individuals who are not employees of the L+M Affiliates provide any substantial services to the L+M Affiliates except under contracts between an L+M Affiliate and such individual or a business entity which is not an Affiliate. Schedule 3.17.1 lists, as of the date of this Affiliation Agreement, all Employee Benefit Plans maintained by or with respect to which contributions are made by the L+M Affiliates or the L+M Affiliates has any liability (collectively the "*L+M Plans*"). Prior to the date hereof, L+M has provided to YNHHS as part of the Due Diligence Information accurate and complete copies of the L+M Plans (and, if applicable, related trust agreements) and all amendments thereto; the two most recent actuarial reports relating to such L+M Plans; the two most recent annual reports (Form 5500 series) filed with respect to each such L+M Plan; in the case of any L+M Plan that is intended to be qualified under Section 401(a) of the Code, the most recent determination letter or opinion letter issued by the IRS with respect to each such L+M Plan and/or any pending request for such a determination letter; the two most recent nondiscrimination tests performed under the Code (including 401(k) and 401(m) tests) for each such L+M Plan; and all material filings made with any governmental entity for the two most recently completed plan years, including but not limited to any filings under the IRS Voluntary Compliance Resolution or Closing Agreement Program with respect to any such L+M Plan.

3.17.2 Each L+M Plan has been operated in all material respects in accordance with its terms and the requirements of Applicable Law. Neither L+M nor, to the Knowledge of L+M, any ERISA Affiliate has engaged in any transaction or failed to act in a manner that violates the fiduciary requirements of Section 404 of ERISA with respect to any L+M Plan. Neither L+M nor, to the Knowledge of L+M, any ERISA Affiliate has engaged in any prohibited transaction with respect to any L+M Plan that could result in material liability to L+M or any ERISA Affiliate.

3.17.3 All required contributions to each L+M Plan (including both employee and employer contributions), and all material premiums due or payable with respect to insurance policies funding any L+M Plan, have been timely made or paid in full or, if not yet paid, have been properly accrued for. The funding level of each L+M Plan has been specifically disclosed to YNHHS. During the period since October 1, 2010, all distributions required or due to be made from any L+M Plan has been timely and accurately made except (i) as specifically disclosed to YNHHS, and (ii) to the extent that any failure to make any distribution in a timely and accurate manner would not adversely affect the tax attributes or consequences of the applicable L+M Plan taken as a whole.

3.17.4 Except as set forth in Schedule 3.17.4, no Covered Person will become entitled to any bonus, retirement, severance, job security or similar benefit or enhanced such benefit (including acceleration of vesting or exercise of an incentive award) pursuant to a L+M Plan or other agreement (whether written or unwritten) as a result of the transactions contemplated by this Agreement.

3.17.5 No employee is employed outside of the United States by any L+M Affiliate.

3.17.6 A copy of L+M's written severance policy as in effect on the date of this Affiliation Agreement has been provided to YNHHS as part of the Due Diligence Information.

3.17.7 Except as specifically disclosed to YNHHS, no L+M Plan or other arrangement provides for retiree health, retiree life insurance or other retiree welfare benefits (other than COBRA continuation benefits).

3.17.8 No L+M Plan that is a welfare benefit arrangement is (i) a multiple employer welfare arrangement (within the meaning of Section 3(40) of ERISA, (ii) a voluntary employee benefit association under Section 501(c)(9) of the Code, or (iii) any other arrangement that would cause an employee welfare benefit plan to be funded for purposes of ERISA.

3.17.9 No payment or benefit provided under any L+M Plan provides for the deferral of compensation that is not in compliance with Sections 409A and 457(f) of the Code (to the extent applicable). Except as specifically disclosed to YNHHS, no L+M Plan provides for a gross-up, make whole or other additional payment with respect to any Tax, including those imposed by Section 409A.

3.17.10 None of the L+M Affiliates has at any time been obligated to contribute to a multiemployer plan as defined in Section 3(37) of ERISA, and has no unsatisfied actual or inchoate liability (including withdrawal liability) with respect thereto.

3.18 Environmental, Health, and Safety Matters.

3.18.1 Each L+M Affiliate is in material compliance with all Environmental, Health, and Safety Requirements except to the extent that any non-compliance with Environmental, Health, and Safety Requirements would not reasonably be expected to have a Material Adverse Effect.

3.18.2 Except as specifically disclosed to YNHHS, no L+M Affiliate has received any written notice, report or other written information regarding any actual or alleged material violation of Environmental, Health, and Safety Requirements, or any material liabilities or potential material liabilities (whether accrued, absolute, contingent, unliquidated or otherwise), concerning the Remediation of any Environmental Condition or Hazardous Substances relating to the L+M Affiliates that remains outstanding or unresolved.

3.19 Books and Records. The books of account and other financial records of the L+M Affiliates, all of which shall have been made available to YNHHS prior to Closing, are accurate and complete in all material respects. Each transaction of the L+M Affiliates is properly and accurately recorded on the books and records of the applicable L+M Affiliate except for immaterial omissions or inaccuracies, the effect of which is insubstantial. L+M has made or will make available to YNHHS a correct and complete copy of the minute books of the L+M Affiliates, except such portions as may have been redacted or excluded that contain records or discussions pertaining to the entry into or consummation of the transactions contemplated by this Agreement or the process of negotiation leading to the development of this

Agreement. To the extent permitted by Applicable Law and to the extent that doing so would not reasonably be expected to result in the waiver of privilege, L+M has made available to YNHHS C a correct and complete copy of the minutes maintained by the L+M Affiliates quality assurance committees since October 1, 2011.

3.20 Illegal Payments. To the Knowledge of L+M, none of the L+M Affiliates, nor any of their respective officers, directors, agents or employees or any other person on behalf of the L+M Affiliates, has made directly or indirectly any illegal payment to or on behalf of, or provided any illegal benefit or inducement for, any physician, supplier or patient of the L+M Affiliates. To the Knowledge of L+M neither the L+M Affiliates, nor any of their respective officers, directors, employees or agents has, directly or indirectly, paid or delivered a fee, commission or other sum of money or item or property, however characterized, to any finder, agent, Governmental Authority or other party, in the United States or any other country, which was or is illegal under any Applicable Law. To the Knowledge of L+M, none of the L+M Affiliates, nor any of their respective officers, directors, employees or agents has made any payment to any supplier of the L+M Affiliates or any officer, director, employee or agent of any patient or supplier of the L+M Affiliates, for the unlawful sharing of fees or to any such patient or supplier or any such officer, director, employee or agent for the unlawful rebating of charges, or engaged in any other unlawful payment or given any other unlawful consideration to any such enrollee, patient or supplier or any such officer, director, employee or agent.

3.21 Bankruptcy. None of the L+M Affiliates is the subject of bankruptcy, insolvency or any similar proceedings.

3.22 Information Systems. L+M has specifically disclosed to YNHHS C each major information technology system owned or leased by the L+M Affiliates and used by the L+M Affiliates in their business operations as now conducted.

3.23 Foreign Operations. Other than LMI, the L+M Affiliates have no operations outside the United States.

3.24 [Reserved]

3.25 Insurance Coverage. Each of the L+M Affiliates maintains, and, during the past three-year period, has maintained without interruption, (i) self-insurance arrangements or (ii) policies of insurance, including, without limitation, general liability, property, casualty, malpractice and worker's compensation insurance, issued by responsible insurers, and the coverage provided under such insurance policies has in the applicable L+M Affiliate's reasonable judgment been reasonable in scope and amount in light of the risks attendant to the operation and activities of such L+M Affiliate. A true, correct and complete copy of each insurance policy maintained by an L+M Affiliate as of the date of this Affiliation Agreement has been provided to YNHHS C prior to the Effective Date as part of the Due Diligence Information. None of the L+M Affiliates has received written notice of termination (other than termination by expiration of the term thereof) or cancellation of any such policy that is currently in effect. All premiums required to be paid with respect to all such policies covering all periods up to and including the date of this Agreement have been paid. There has been no lapse in coverage under such policies during any period for which any of the L+M Affiliates have conducted their business operations and for which any claim covered by any such policy could be made under

applicable statutes of limitations. Each general liability and malpractice insurance policy under which one of the L+M Affiliates is the named insured is adequate to cover all claims of the kind intended to be covered, and which have been made, under such policies. Each of the L+M Affiliates has complied in all material respects with the terms and provisions of such policies, and is not in default, whether as to payment of premium or of any other material obligation thereunder, under the terms of any such policy. All of the policies described in this Section 3.25 are in full force and effect and such coverage will be continued in full force and effect to and including the Closing Date and thereafter in accordance with their terms.

3.26 Regulatory Matters.

3.26.1 To the Knowledge of L+M, since October 1, 2011, the L+M Affiliates have timely filed all material reports, statements, documents, registrations, filings or submissions required to be filed by the L+M Affiliates with any Governmental Authorities, including in connection with or required by any Material Contracts or in connection with the L+M Tax-Exempt Bonds, except where the failure to timely file has not resulted and would not reasonably be expected to result in a Material Adverse Effect. All such reports, statements, documents, registrations, filings and submissions were true, correct and complete in all material respects when filed, complied in all material respects with Applicable Law in effect when filed. Except as set forth on Schedule 3.26.1, since October 1, 2011, no material deficiencies have been asserted by any such Governmental Authority with respect to such reports, statements, documents, registrations, filings or submissions that have not been satisfied, or, if not yet satisfied, where satisfaction is not yet due. To the Knowledge of L+M, the Material Contracts are in compliance with Applicable Law.

3.26.2 Except as specifically disclosed to YNHHSC, since October 1, 2011, the L+M Affiliates have not been subject to any finding, agreement, settlement or fine regarding noncompliance with any Applicable Law (including fraudulent procedures or practices but excluding any finding, agreement, settlement or fine that resulted only in a monetary penalty of \$50,000.00 or less) that resulted in or would reasonably be expected to result in a Material Adverse Effect. Except as specifically disclosed to YNHHSC, to the Knowledge of L+M, since October 1, 2011, the L+M Affiliates have not been subject to any pending or threatened audit, investigation or other regulatory review relating to any noncompliance with any Applicable Law (including fraudulent procedures or practices, or, to the Knowledge of L+M, OSHA violations and any warning letters or observations (including any FDA warning letters or FDA Form 483 observations)), other than regularly scheduled periodic audits and reviews.

3.26.3 Neither L+M nor any L+M Subsidiary has been excluded, debarred or otherwise deemed ineligible to participate in Medicare, Medicaid or any other federal or state health care programs or in any federal or state procurement or non-procurement programs, nor has L+M or any L+M Subsidiary been convicted of a criminal offense related to the provision of federal health care items or services, nor, to L+M's Knowledge, is an investigation or proceeding regarding the foregoing pending or threatened. L+M and each of the L+M Subsidiaries that provides services to beneficiaries of Government Payer programs is (i) qualified for participation in, and has current and valid provider contracts with, the Government Payer programs and /or their fiscal

intermediaries or paying agents and is in material compliance with the conditions of participation or requirements applicable with respect to such participation and (ii) eligible for payment under the Government Payer programs for services rendered to qualified beneficiaries.

3.27 Consents and Approvals. No consents with respect to Material Contracts or approvals of any Governmental Authority are required to be obtained by any L+M Affiliate in connection with the execution, delivery and performance by L+M of this Agreement or the consummation of the transactions contemplated by this Agreement, except for (a) the requirements of the HSR Act and (b) as set forth in Schedule 3.27, which shall include, but not be limited to, any filings with, and approvals from, (i) OHCA, (ii) RIDOH upon the recommendation of the Rhode Island Health Services Council and (iii) the Rhode Island Attorney General.

3.28 Billing, Recoupments and Overpayments.

3.28.1 To the Knowledge of L+M, during the period of the applicable statutes of limitation, all claims for reimbursement ("*Reimbursement Claims*") submitted by the L+M Affiliates comply in all material respects with all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws, and all Payer Program contracts, provider manuals, policies, guidance, and reimbursement requirements governing reimbursement and payment of claims and do not contain any material errors, omissions or disallowances, except as specifically disclosed to YNHHS, to the extent that non-compliance or errors or omissions would not individually or in the aggregate be reasonably expected to have a Material Adverse Effect. Except as specifically disclosed to YNHHS, none of the L+M Affiliates have any outstanding overpayment or refund obligations due to any individual Payer Program in excess of \$5,000,000 in the aggregate. Except as specifically disclosed to YNHHS, none of the L+M Affiliates has received notice of any material disallowance, overpayment, refund or dispute between the L+M Affiliates, on the one hand, and any Payer Program, or agent thereof, on the other hand, regarding such Reimbursement Claims that has not been resolved and, to the Knowledge of L+M, there are no facts or circumstances which may reasonably be expected to give rise to any disallowance, overpayment, refund or dispute that individually or in the aggregate would be reasonably expected to have a Material Adverse Effect.

3.28.2 With respect to each of the last three complete reporting periods, the Cost Reports for L+M and each L+M Subsidiary that provides services to beneficiaries of Government Payer programs have been filed when due, and have been audited (with Notices of Program Reimbursement issued), for the Cost Report periods described in Schedule 3.28.2

3.28.3 Except as specifically disclosed to YNHHS, with respect to each of the last three complete reporting periods, all amounts shown as due from L+M or any L+M Subsidiary in the applicable Cost Reports that either were remitted with such Cost Reports or will be remitted when required by Applicable Law. Except to the extent liabilities and contractual adjustments with respect to L+M and any L+M Subsidiary under the Government Payer programs have been properly reflected and adequately reserved in the L+M Financial Statements, to L+M's Knowledge, neither L+M nor any L+M

Subsidiary has received or submitted any claim for payment to the Government Payer programs (or their fiscal intermediaries or paying agents) in excess in any material respect of the amount provided by Applicable Law or applicable provider contracts, and L+M and the L+M Subsidiaries have not received notice of any dispute or claim by any Governmental Authority, fiscal intermediary or other Person regarding L+M or any of the L+M Subsidiaries in such programs, in each case, that individually or in the aggregate, would be reasonably expected to have a Material Adverse Effect.

3.29 Medical Staff Matters. Prior to the date of this Affiliation Agreement, L+M has provided to YNHHS as part of the Due Diligence Information true, correct, and complete copies of the bylaws, rules and regulations of the medical staff of each of LMH and LMW, as well as a list of all current members of their medical staffs. To the Knowledge of L+M, all actions undertaken by LMH and LMW respectively with respect to its medical staff, including corrective discipline or other professional review, have been carried out in accordance with all Applicable Laws.

3.30 Clinical Trials. To the Knowledge of L+M, all clinical trials currently being conducted at the L+M Affiliates are being conducted (i) with the approval and/or waiver of an appropriately constituted and duly registered institutional review board ("**IRB**") and (ii) in compliance with the applicable IRB policies and procedures, study agreements with trial sponsors and/or contract research organizations, and all Applicable Law, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Within the past two years, no clinical trial conducted at the L+M Affiliates has been subject to suspension or termination (other than by the sponsor of the trial due to reasons unrelated to the L+M Affiliate's performance of its obligations) due to patient safety concerns, material non-compliance with the applicable study agreement or Applicable Law, except for suspensions or terminations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Within the past two years, none of the L+M Affiliates, nor to the Knowledge of L+M, any investigator involved in a clinical trial at the L+M Affiliates, has received any correspondence or communication relating to the applicable L+M Affiliate's conduct from any trial sponsor, contract research organization, IRB or Governmental Authority, including without limitation the Connecticut Department of Public Health, FDA or the Department of Health and Human Services Office for Human Research Protections ("**OHRP**"), regarding patient safety breaches, billing issues associated with care provided to clinical trial subjects, obligations to register and report results of clinical trials, research misconduct, notice of pending debarment or disqualification, or other material non-compliance with the applicable study agreement or Applicable Law, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

3.31 Relationship with Pharmaceutical and Medical Device Manufacturers, Vendors and Suppliers. Except as specifically disclosed to YNHHS, (i) to the Knowledge of L+M, each of the L+M Affiliates is in compliance with the applicable L+M Affiliate's policies and procedures regarding interactions with pharmaceutical manufacturers, medical device manufacturers, equipment and supply vendors, including without limitation, those relating to conflicts of interest, product samples, transfers of value and remuneration arrangements, and (ii) such policies and procedures are reasonably designed to comply with Applicable Law.

3.32 Solvency of the L+M Affiliates. Immediately after giving effect to the transactions contemplated by this Agreement, none of the L+M Affiliates will (a) be insolvent (either because its financial condition is such that the sum of its Liabilities is greater than the fair value of its assets or because the fair salable value of its assets is less than the amount required to pay probable Liabilities as they mature), (b) have unreasonably small capital with which to engage in its business or (c) have incurred Liabilities beyond its ability to pay as they become due. No transfer of property is being made and no obligation is being incurred in connection with the transactions contemplated by this Agreement with the intent to hinder, delay or defraud either present or future creditors of the L+M Affiliates. LMI is solvent according to all applicable standards of solvency administered by the LMI Insurance Regulatory Agency.

3.33 Charitable Funds. To the Knowledge of L+M, L+M and the L+M Subsidiaries have solicited, received, held, invested, expended and applied charitable funds donated to them in all material respects in accordance with all restrictions placed thereon by donors, the terms of any applicable solicitation and Applicable Laws. Neither L+M nor any of the L+M Subsidiaries has received written notice of any, whether actual or alleged, misuse of funds, failure to comply with any donor-imposed restriction, breach of duty related to the funds, or violation of any Applicable Laws which would reasonably be expected to have a L+M Material Adverse Effect, nor to the Knowledge of L+M, has any such misuse, failure, breach or violation occurred.

3.34 No Undisclosed Liabilities. Except as specifically disclosed to YNHHS, none of the L+M Affiliates has material Liabilities or material obligations of any nature (including, without limitation, any direct or indirect Indebtedness, guaranty, endorsement, claim, loss, damage, deficiency, cost, expense, obligation or responsibility, fixed or unfixed, known or unknown, asserted or unasserted, liquidated or unliquidated, secured or unsecured, absolute, accrued, contingent or otherwise and whether due or to become due, or liability or obligations for an overpayment, duplicate payments, refunds discounts or adjustments due to any Third Party Payer, including any federal or state health care program) arising out of, or relating to, the business operations of L+M Affiliates and which are required to be reflected on a balance sheet prepared in accordance with GAAP, except: (i) liabilities or obligations as and to the extent reflected on or accrued or reserved against as set forth in the L+M 2014 Audited Financial Statements; and (ii) liabilities incurred since the date of the L+M 2014 Audited Financial Statements in the ordinary course of business. Neither L+M nor any of the L+M Subsidiaries is in default of any term or condition of any Indebtedness or other Liability in excess of \$250,000, including any trade payable.

3.35 Completeness of Disclosure. No representation or warranty by L+M in this Agreement, or any written certificate, schedule or exhibit when taken as a whole with all such other representations, warranties, certificates, schedules and exhibits contains or will contain any untrue statement of a material fact or will omit to state a material fact required to be stated herein or therein or necessary to make any statement herein or therein not misleading in light of the circumstances under which it was made.

ARTICLE 4

REPRESENTATIONS AND WARRANTIES OF YNHHS

YNHHS represents and warrants to L+M that the statements contained in this Article 4 are correct and complete as of the date of this Agreement, except as set forth in the Disclosure Schedule and except as specifically disclosed to L+M. The Disclosure Schedule will be arranged in sections corresponding to the lettered and numbered sections contained in this Article 4. The Parties acknowledge and confirm that any competitively sensitive information called for by this Article 4 (including any schedules of the Disclosure Schedule) shall only be disclosed pursuant to such procedures as the Parties shall mutually agree upon so as to avoid violation of Applicable Law.

4.1 Organization of YNHHS. YNHHS is a nonstock corporation, without members, which is duly organized, validly existing and in good standing under the laws of the State of Connecticut, and has (and at the Closing will have) full corporate power and authority to own its assets and conduct its operations (as now conducted and as conducted at the Closing). Each of the YNHHS Subsidiaries is duly organized, validly existing and in good standing under the laws of the state of its formation, and has (and at the Closing will have) full corporate power and authority to own its assets and conduct its operations as currently being conducted (as now conducted and as conducted at the Closing).

Schedule 4.1.1 lists all Subsidiaries of YNHHS. Except as indicated on Schedule 4.1.1, each of the YNHHS Subsidiaries is a nonstock corporation of which YNHHS is the sole member. Except as indicated on Schedule 4.1.1, each of the YNHHS Affiliates is a Tax-Exempt Organization.

4.1.1 The certificates of incorporation (or similar organizational documents) and bylaws of the YNHHS Affiliates, copies of which have heretofore been provided or made available to L+M, are true, complete and correct copies of such documents.

4.1.2 Schedule 4.1.1 sets forth the name of each other Person in which any of the YNHHS Affiliates has any equity or membership interest other than a passive minority investment.

4.2 Authorization of Transaction. YNHHS has full corporate power and authority to execute and deliver this Affiliation Agreement and to perform its obligations hereunder. This Agreement has been duly authorized by all requisite corporate action of YNHHS. This Agreement has been duly executed and delivered by YNHHS and, assuming due authorization, execution and delivery by L+M, and receipt of the consents and approvals listed in Schedule 4.27, constitutes a valid and binding obligation of YNHHS, enforceable against YNHHS in accordance with its terms (except as may be limited by bankruptcy, insolvency, fraudulent transfer, moratorium, reorganization, preference or similar Applicable Laws of general applicability relating to or affecting the rights of creditors generally and subject to general principles of equity (regardless of whether enforcement is sought in equity or at law)). The LMMG-NEMG Agreement and Plan of Merger to become effective as of and subject to the Closing have been duly authorized by all requisite corporate action of NEMG.

4.3 Non-Contravention. Neither the execution and delivery by YNHHSC of this Affiliation Agreement nor the consummation by YNHHSC and the YNHHSC Subsidiaries of the transactions contemplated hereby, will:

4.3.1 violate any provision of the certificate of incorporation (or similar organizational documents) or, subject only to obtaining any necessary approvals described in Article 5, bylaws of any of the YNHHSC Affiliates; or

4.3.2 subject only to obtaining the approvals set forth in Schedule 4.27, constitute a violation on the part of the YNHHSC Affiliates of any statute, Applicable Law, judgment, decree, order, regulation or rule of any court or Governmental Authority applicable to any of the YNHHSC Affiliates; or

4.3.3 subject only to obtaining the consents set forth in Schedule 4.27, (i) violate, or be in conflict with, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or accelerate the performance required by, or cause the acceleration of the maturity of, any debt, or the revocation or loss of any material license, or (ii) violate, or be in conflict with, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or accelerate the performance required by, any obligation pursuant to any Material Contract to which any of the YNHHSC Affiliates is a party (other than any Material Contract evidencing debt for borrowed money), or result in the revocation or loss of any Material Contracts, grants, endowment funds, permits or insurance policies listed in the Disclosure Schedule, or give any third party any option, right of first refusal or other rights under any Material Contract relating to the operations of any YNHHSC Affiliate which, in case of any document, instrument or policy described in this clause (ii), individually or in the aggregate, would reasonably be expected to have a Material Adverse Effect.

4.4 Brokers' Fees. YNHHSC has no liability or obligation to pay any fees or commissions to any broker, finder, or agent with respect to the transactions contemplated by this Agreement.

4.5 Title to Assets. Each of the YNHHSC Affiliates has (subject to the Liens granted pursuant as the YNHHSC Master Trust Indenture) good, valid and marketable title to, or in the case of leased premises as to which it is a tenant a valid, binding and enforceable leasehold or subleasehold interest in, all of the real property owned or leased, as the case may be, by the such YNHHSC Affiliate in connection with the conduct the YNHHSC Activities, except as would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

4.5.1 [Reserved]

4.5.2 [Reserved]

4.5.3 [Reserved]

4.5.4 [Reserved]

4.6 [Reserved].

4.7 Financial Statements. YNHHC has provided or made available to L+M true and correct copies of (i) the audited consolidated statements of financial position of each of the YNHHC Affiliates, and related statements of activities and change in net assets, functional expenses and cash flows of each of the YNHHC Affiliates for the fiscal years ending as of September 30, 2011, 2012 and 2013 including the notes thereto; (ii) the audited consolidated statements of financial position of each of the YNHHC Affiliates, and related statements of activities and change in net assets, functional expenses and cash flows of each of the YNHHC Affiliates as of December 31, 2014, including the notes thereto (the “*YNHHC 2014 Audited Financial Statements*”); and (iii) an unaudited consolidated statement of financial position of each of the YNHHC Affiliates and unaudited statements of activities, functional expenses and cash flows of each of the YNHHC Affiliates as of March 31, 2015 (the “*YNHHC Interim Financial Statements*” and together with the YNHHC 2014 Audited Financial Statements, the “*YNHHC Financial Statements*”). The YNHHC 2014 Audited Financial Statements (i) have been prepared in accordance with GAAP and (ii) fairly present in all material respects the consolidated financial position and the results of operations and cash flows of each of the YNHHC Affiliates at and as of the dates or for the periods indicated. The YNHHC Interim Financial Statements (i) have been prepared in accordance with GAAP (subject to certain presentation items consistent with the ordinary course of business, to the absence of footnote disclosure and to normal year-end adjustments) and (ii) fairly present in all material respects the consolidated financial position and the results of operations and cash flows of each of the YNHHC Affiliates at and as of the respective dates thereof or for the periods ended on such dates, as applicable.

4.7.1 Each of the YNHHC Affiliates maintains systems of internal accounting controls to provide reasonable assurances that: (i) all transactions are executed in accordance in all material respects with management’s general or specific authorization, (ii) all transactions are recorded as necessary to permit the preparation of the YNHHC Financial Statements in conformity with GAAP and maintain proper accountability for items and (iii) all reserves reflected on the YNHHC Financial Statements are sufficient for the purposes for which they were established. Since October 1, 2011, none of the YNHHC Affiliates has received and, to the Knowledge of YNHHC, there has not been, any complaint, allegation, assertion or claim regarding the YNHHC Affiliates’ accounting or auditing practices, procedures, methodologies or methods, including any complaint, allegation, assertion or claim that any of the YNHHC Affiliates has engaged in questionable accounting or auditing practices that would, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

4.7.2 [Reserved]

4.7.3 [Reserved]

4.8 Subsequent Events. Since the date of the most recent YNHHC Interim Financial Statements, (i) the YNHHC Affiliates have conducted their business operations in the ordinary course, and (ii) except as described in Schedule 4.8, there has not been:

(a) Any YNHHC Material Adverse Effect or event or occurrence of any condition that would reasonably be expected to have a Material Adverse Effect;

(b)-(v) [Reserved]

4.9 Compliance with Law.

4.9.1 Regulatory Compliance. To the Knowledge of YNHHSC, each of the YNHHSC Affiliates have, during the previous three years, conducted and continues to conduct the business operations of such YNHHSC Affiliate in substantial compliance with all Applicable Laws, including Environmental, Health and Safety Requirements, and have timely filed all material reports, data, and other information related to the business operations of the YNHHSC Affiliates, except for (i) matters specifically disclosed to L+M and (ii) violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Except as specifically disclosed to L+M, to the Knowledge of YNHHSC none of the YNHHSC Affiliates that are engaged in the delivery of healthcare has, nor have any of their respective employees, committed a violation of federal or state laws regulating health care fraud, including but not limited to the Health Care Fraud and Abuse Laws, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Each of the YNHHSC Affiliates that are engaged in the delivery of healthcare services is in compliance in all material respects with the administrative simplification provisions required under the HIPAA, including the electronic data interchange regulations and the health care privacy regulations, as of the applicable effective dates for such requirements, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Each of the YNHHSC Affiliates that are engaged in the delivery of healthcare services that is a “covered entity” under HIPAA has designated an executive employee of the YNHHSC Affiliates as its HIPAA privacy officer. To the Knowledge of YNHHSC, the practices of the YNHHSC Affiliates regarding the collection, access, maintenance, transmission, use, and disclosure of Confidential Information, including Protected Health Information, in connection with the conduct and operations of the YNHHSC Affiliates’ business are and have been in all material respects in compliance with any of the YNHHSC Affiliates’ contracts or commitments with third parties. To the Knowledge of YNHHSC, the practices of the YNHHSC Affiliates regarding the collection, access, maintenance, transmission, use, and disclosure of Confidential Information, including Protected Health Information, in connection with the conduct and operations of the YNHHSC Affiliates’ business are and have been in accordance in all material respects with any applicable written policy or procedure of the YNHHSC Affiliates since October 1, 2011 (or such later date on which the relevant policy or procedure shall have taken effect). To the Knowledge of YNHHSC, the YNHHSC Affiliates have not had any breach of information security that would constitute (i) a “security incident” (as defined in 45 CFR § 164.304) that resulted in material and actual unauthorized access, use, disclosure, modification or destruction of Protected Health Information or (ii) a “breach” under Section 13402 of the American Recovery and Reinvestment Act of 2009 and any regulations promulgated thereunder or state information security laws or regulations that require notification to or of government officials, or to individuals whose information may have been breached.

4.9.2 Investigations and Penalties. To the Knowledge of YNHHSC, since January 1, 2012, none of the YNHHSC Affiliates that are engaged in the delivery of

healthcare services, and, no officer, director or trustee, or board officer or employee thereof with respect to the conduct of business operations of the YNHHS Affiliates:

(a) has been subject to any investigation, inquiry or suit by any Governmental Authority that has not been fully and finally resolved regarding any alleged violation of applicable governmental authorization or legal requirement which if adversely determined would reasonably be expected to have a Material Adverse Effect;

(b) has paid or been subject to any fine, penalty, corrective action plan, remediation plan, exclusion or other sanction by, or made a self-disclosure to, any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect;

(c) is a party to any written arrangement, including without limitation a corporate integrity agreement, deferred prosecution agreement, consent decree or settlement agreement, with any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect;

(d) has been or is currently a defendant in any qui tam, false claims or similar litigation that would reasonably be expected to have a Material Adverse Effect if adversely determined;

(e) to the Knowledge of YNHHS, is currently subject to any investigation, inquiry or suit by any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect; or

(f) to the Knowledge of YNHHS, has received any complaint from any employee, independent contractor, vendor, or any other Person regarding any alleged material violation of any governmental authorization or legal requirement that would reasonably be expected to have a Material Adverse Effect.

4.9.3 Compliance Program. Each of the YNHHS Affiliates has established and maintains a corporate compliance program which addresses the material requirements of all material Applicable Laws of the Governmental Authorities having jurisdiction over its business and operations. Each of the YNHHS Affiliates that is engaged in the delivery of healthcare services has designated an executive employee of such YNHHS Affiliate or of YNHHS as its chief compliance officer. Except as specifically disclosed to YNHHS, to the Knowledge of YNHHS, there are no material pending internal investigations that could reasonably be expected to lead to a material fine, penalty, corrective action plan, remediation plan, exclusion or other material sanction by, or a self-disclosure to, any Governmental Authority regarding any alleged violation of any applicable governmental authorization or legal requirement. To the Knowledge of YNHHS, each of the YNHHS Affiliates have established and maintain policies and procedures, including without limitation conflict of interest and related policies, for the review of all compensation arrangements and other arrangements that could involve the referral of patients with other Persons, including but not limited to its officers, directors or

trustees, physicians, executives, their immediate family members, their professional practice entities and other referral sources, that are reasonably designed to maintain compliance with (i) all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws and the intermediate sanction provisions of the Code and regulations promulgated pursuant thereto, and (ii) their internal policies, including but not limited to any applicable conflicts of interest policy. Except as specifically disclosed to YNHHSC, all such compensation and other arrangements with potential referral sources are, to the Knowledge of YNHHSC, in compliance with all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws.

4.9.4 Communications and Environmental Claims. Except as specifically disclosed to L+M, during any applicable statute of limitations, none of the YNHHSC Affiliates have received any communication (written or, to the Knowledge of YNHHSC, oral), whether from any Governmental Authority or third party, alleging that any of the YNHHSC Affiliates are not in compliance with any Health Care Laws and there is no Environmental Claim pending or, to the Knowledge of YNHHSC, threatened against any of the YNHHSC Affiliates, or, to the Knowledge of YNHHSC, pending or threatened, against any other Person or entity with respect to any of the YNHHSC Affiliates, or for whose Liability for any Environmental Claim, with respect to any of the YNHHSC Affiliates, any of the YNHHSC Affiliates have or may have retained or assumed by Contract or by operation of Applicable Law which in any such case would give rise to a Material Adverse Effect.

4.9.5 Permits, Licenses and Accreditations.

(a) Each of the YNHHSC Affiliates has all Permits of Governmental Authorities, including those required under Environmental, Health and Safety Requirements, necessary to conduct the business operations of the YNHHSC Affiliates and obtain reimbursement under all Contracts, including provider Contracts such as network participation agreements and discount agreements, programs and other arrangements with Payer Programs (“*YNHHSC Permits*”). To the Knowledge of YNHHSC, none of the YNHHSC Affiliates is in material breach or violation of, or material default under any YNHHSC Permit, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. None of the YNHHSC Affiliates has made a decision not to renew any YNHHSC Permit. To the Knowledge of YNHHSC, none of the YNHHSC Affiliates is currently subject to or has been given notice of any threatened audit, review or investigation by a Governmental Authority with respect to any YNHHSC Permit.

(b) Each of the YNHHSC Affiliates maintain the accreditations related to its business and operations that are required to be maintained in order for the YNHHSC Affiliates to continue to operate their respective businesses in accordance with their respective past practices, without contingencies, including without limitation accreditation by the Joint Commission. To the Knowledge of YNHHSC, each of the YNHHSC Affiliates have taken all actions required to be taken to maintain such accreditations. There is no pending, and to the Knowledge of YNHHSC, there is no threatened, investigation of any of the YNHHSC Affiliates by any accreditation organization with respect to any material accreditation. None of the YNHHSC Affiliates is subject to any notice of deficiency, plan of correction or similar action with respect to any such material accreditation.

(c) [Reserved]

4.9.6 [Reserved]

4.9.7 [Reserved]

4.10 Tax Matters.

4.10.1 For the six year period preceding the Closing Date, each YNHHS Affiliates has (i) duly filed or caused to be filed with the appropriate taxing authorities all Tax Returns required to be filed by it (giving effect to as-of- right extensions) and all such Tax Returns are true, correct and complete in all material respects, (ii) timely paid or caused to be paid in full all Taxes shown to be due on such Tax Returns or otherwise due and payable with respect to the operations of the YNHHS Affiliates and (iii) except as specifically disclosed to L+M, complied in all material respects with all Applicable Laws, rules and regulations relating to the withholding of Taxes and the payment of withheld Taxes, and timely and properly withheld and paid over to the appropriate Governmental Authorities all amounts required to be so withheld and paid under all Applicable Laws, rules and regulations.

4.10.2 No deficiencies or assessments for any Taxes of, or relating to, the operations of the YNHHS Affiliates have been proposed, asserted or assessed which have not been resolved and paid in full except for deficiencies and assessments being contested in good faith as listed and described in Schedule 4.10.2 or as specifically disclosed to L+M, and no United States federal, state, local or foreign audits or other administrative or judicial proceedings are presently pending with regard to any Taxes or Tax Returns of, or relating to, the operations of the YNHHS Affiliates. There are no Liens for Taxes upon any assets owned by the YNHHS Affiliates except for Permitted Encumbrances.

4.10.3 As of the Closing, except as specifically disclosed to L+M, each of the YNHHS Affiliates is recognized by the IRS as exempt from United States federal income taxation, and is recognized by the State of Connecticut as exempt from state and local income taxes, real property taxes and qualifies for sales tax exemptions available to organizations described in Section 501(c)(3) of the Code.

4.10.4 [Reserved]

4.10.5 [Reserved]

4.10.6 [Reserved]

4.10.7 YNHHS has provided to L+M copies of the letters and/or rulings from the IRS which recognize that the YNHHS Obligated Group Members are Tax-Exempt Organizations exempt from United States federal income taxes under Section 501(a) of the Code as organizations described in Section 501(c)(3) of the Code and not as “private foundations” as such term is defined in Section 509 of the Code (the “**YNHHS Determination Letters**”). The YNHHS Determination Letters have not been modified, limited or revoked, in whole or in part, and none of the YNHHS Obligated Group

Members for which YNHHS Determination Letters have been provided has been notified that the IRS is proposing to revoke an YNHHS Determination Letter. There is no pending request by any of the YNHHS Obligated Group Members for a redetermination of tax-exempt status as an organization described in Section 501(c)(3) of the Code. Each of the YNHHS Obligated Group Members that are the subject of the YNHHS Determination Letters are in compliance with all of the terms, conditions, and limitations contained in the YNHHS Determination Letters, if any, and there has been no conduct by any such YNHHS Obligated Group Members, of such nature that would warrant modification, limitation or revocation of the YNHHS Determination Letters. To the best of YNHHS's Knowledge, none of any such YNHHS Affiliates has any "unrelated business income" as defined in Sections 511 through 514 of the Code which would adversely affect any of the YNHHS' status as an organization described in Section 501(c)(3) of the Code. None of any such YNHHS Obligated Group Members has been notified that the IRS is proposing to investigate its continued qualification as an organization described in Section 501(c)(3) of the Code or that there are any administrative or judicial proceedings pending or threatened which may adversely affect the classification of any of any such YNHHS Obligated Group Members as an organization described in Section 501(c)(3) of the Code and not a private foundation under Section 509 of the Code.

4.10.8 The YNHHS 2014 Bond Disclosure Documents contains a description of each tax-exempt financing, benefiting any of the Members of the YNHHS Obligated Group. Each of the Members of the YNHHS Obligated Group is in compliance in all material respects with all covenants required to be complied with by it under the YNHHS Tax-Exempt Bonds.

4.10.9 With respect to the YNHHS Tax-Exempt Bonds no action has been taken or omitted to be taken by any of the Members of the YNHHS Obligated Group which would cause such YNHHS Tax-Exempt Bonds to be an "arbitrage bond" under Section 148(a) of the Code. Each of the YNHHS Tax-Exempt Bonds is in compliance with the arbitrage rebate requirement of Section 148(f) of the Code. No action has been taken or omitted to be taken by any of the Members of the YNHHS Obligated Group which would cause any YNHHS Tax-Exempt Bonds not to be "qualified 501(c)(3) bonds" within the meaning of Section 145 of the Code. Each of the YNHHS Tax-Exempt Bonds satisfies all applicable requirements set forth in Sections 147 and 149 of the Code in order for interest thereon to be excluded from gross income for federal income tax purposes.

4.11 [Reserved]

4.12 Intellectual Property. To the Knowledge of YNHHS, each of the YNHHS Affiliates owns free and clear of all Liens other than Permitted Encumbrances described in clause (b) or (c) of the definition of such term, Liens granted under the YNHHS Master Trust Indenture securing indebtedness that is disclosed and described in the YNHHS 2014 Audited Financial Statements and Liens listed or described in Schedule 4.12, or is licensed or otherwise has the valid and enforceable right to use, all Intellectual Property used in or necessary to the conduct of its operations other than failures to own, be licensed or have the right to use Intellectual Property that would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect. All such licenses and agreements with third parties relating to

such Intellectual Property that are material to the business operations of the YNHHSC Affiliates, taken as a whole, are valid and binding and in full force and effect, and to the Knowledge of YNHHSC, none of the parties thereto is in default thereunder or breach thereof if such breach or default, individually or in the aggregate, would reasonably be expected to have a Material Adverse Effect. To the Knowledge of YNHHSC, there is no pending claim by any third party challenging the ownership, validity or use of any material Intellectual Property that is material to the business operations of the YNHHSC Affiliates, taken as a whole.

4.13 [Reserved]

4.14 [Reserved]

4.15 Litigation.

4.15.1 Except as specifically disclosed to L+M or as disclosed pursuant to Section 4.9, there are no Litigations or Proceedings pending or, to the Knowledge of YNHHSC, threatened against the YNHHSC Affiliates, except for any such suit, claim, action, proceeding, arbitration, hearing, inquiry or investigation which (i) is not reasonably expected as of the date hereof, together with any related claims arising out of the same set of facts, to involve an amount in controversy in excess of \$5,000,000, in the aggregate, excluding malpractice, general liability and other claims which are fully insured (subject to customary deductible and retention amounts), or (ii) would not be reasonably expected to have a Material Adverse Effect.

4.15.2 There are no outstanding orders, injunctions or decrees of any Governmental Authority (other than orders, injunctions or decrees of general applicability and which do not specifically name an YNHHSC Affiliate) which would have a Material Adverse Effect.

4.16 Labor Relations.

4.16.1 Except for the Collective Bargaining Agreements described in Schedule 4.16.1 and except as disclosed to L+M, (i) none of the YNHHSC Affiliates is a party to, nor bound by, any Collective Bargaining Agreement; (ii) none of the YNHHSC Affiliates' employees are covered by the terms of any Collective Bargaining Agreements; (iii) to the Knowledge of YNHHSC, no labor union, trade union or labor organization of the YNHHSC Affiliates has since December 31, 2011, made a pending demand for recognition or certification, as a collective bargaining representative of the YNHHSC Affiliates' employees and, to the Knowledge of YNHHSC, there are no representation election petitions filed with the National Labor Relations Board pertaining to the YNHHSC Affiliates' employees; (iv) YNHHSC has no Knowledge of any union organizing activities with respect to any employees of the YNHHSC Affiliates; (v) since October 1, 2011, to the Knowledge of YNHHSC, there have been no actual or threatened arbitrations, grievances, unfair labor practices, labor disputes, strikes, lockouts, slowdowns or collective work stoppages against the YNHHSC Affiliates except for those that would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect; and (vi) since October 1, 2011, neither the YNHHSC Affiliates nor any of their employees, agents or representatives have committed any material unfair labor practice as defined in the

National Labor Relations Act which could reasonably be expected to have a Material Adverse Effect.

4.16.2 Each of the YNHHSK Affiliates: (i) is not in violation in any material respect of any Applicable Law pertaining to labor, employment or employment practices including, but not limited to, all Applicable Laws regarding health and safety, wages and hours, labor relations, employment discrimination, disability rights or benefits, equal opportunity, immigration, plant closures and layoffs, affirmative action, employee leave issues, unemployment insurance and workers' compensation, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect, or (ii) except as listed in Schedule 4.16.2, is not a party to any currently pending claim, action, arbitration, audit, hearing, investigation, complaint, charges, litigation or suit or governmental inquiry alleging a violation of any Applicable Law pertaining to labor, employment or employment practices, nor, to the Knowledge of YNHHSK, is any such claim, action, arbitration, audit, hearing, investigation, complaint, charges, litigation or suit or governmental inquiry pending or threatened, except in each case for matters the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

4.16.3 Except as specifically disclosed to L+M, to the Knowledge of YNHHSK, each of the YNHHSK Affiliates: (i) has taken reasonable steps to properly classify and treat all of their workers, interns, trainees and volunteers as independent contractors or employees, (ii) has taken reasonable steps to properly classify and treat all of their employees as "exempt" or "nonexempt" from overtime requirements under Applicable Law, (iii) is not delinquent in any material payments to, or on behalf of, any current or former independent contractors or employees for any services or amounts required to be reimbursed or otherwise paid, (iv) has withheld and reported all material amounts required by Applicable Law or by agreement to be withheld and reported with respect to wages, salaries and other payments to any current or former independent contractors or employees; and (v) is not liable for any material payment to any trust or other fund governed by or maintained by or on behalf of any Governmental Authority with respect to unemployment compensation benefits, social security or other benefits or obligations for any current or former independent contractors or employees (other than routine payments to be made in the normal course of business and consistent with past practice). To the Knowledge of YNHHSK, none of the YNHHSK Affiliates has direct or indirect material Liability as a result of any misclassification of any Person as an independent contractor rather than as an employee.

4.16.4 Except as listed in Schedule 4.16.4, to the Knowledge of YNHHSK, no employee or former employee of the YNHHSK Affiliates is in any material respect in violation of any term of any employment agreement, nondisclosure agreement, common law nondisclosure obligation, fiduciary duty, non-competition agreement, restrictive covenant or other obligation: (i) to the YNHHSK Affiliates or (ii) to a former employer of any such employee relating (A) to the right of any such employee to be employed by the YNHHSK Affiliates or (B) to the knowledge or use of trade secrets or proprietary information in connection with his or her employment with the YNHHSK

Affiliates, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

4.16.5 Each of YNHHC Affiliates is and for the last 18 months has been in compliance with all notice and other requirements under the WARN Act. In the 18 months prior to the date hereof, each of the YNHHC Affiliates has not (i) effectuated a “plant closing” (as defined in the WARN Act) or (ii) effectuated a “mass layoff” (as defined in the WARN Act).

4.17 [Reserved]

4.18 Environmental, Health, and Safety Matters.

4.18.1 Each YNHHC Affiliate is in material compliance with all Environmental, Health, and Safety Requirements except to the extent that any non-compliance with Environmental, Health and Safety Requirements would not reasonably be expected to have a Material Adverse Effect.

4.18.2 Except as specifically disclosed to L+M, no YNHHC Affiliate has received any written notice, report or other written information regarding any actual or alleged material violation of Environmental, Health, and Safety Requirements, or any material liabilities or potential material liabilities (whether accrued, absolute, contingent, unliquidated or otherwise), concerning the Remediation of any Environmental Condition or Hazardous Substances relating to the YNHHC Affiliates that remains outstanding or unresolved.

4.19 [Reserved]

4.20 Illegal Payments. To the Knowledge of YNHHC, none of the YNHHC Affiliates, nor any of their respective officers, directors, agents or employees or any other person on behalf of the YNHHC Affiliates, has made directly or indirectly any illegal payment to or on behalf of, or provided any illegal benefit or inducement for, any physician, supplier or patient of the YNHHC Affiliates. To the Knowledge of YNHHC neither the YNHHC Affiliates, nor any of their respective officers, directors, employees or agents has, directly or indirectly, paid or delivered a fee, commission or other sum of money or item or property, however characterized, to any finder, agent, Governmental Authority or other party, in the United States or any other country, which was or is illegal under any Applicable Law. To the Knowledge of YNHHC, none of the YNHHC Affiliates, nor any of their respective officers, directors, employees or agents has made any payment to any supplier of the YNHHC Affiliates or any officer, director, employee or agent of any patient or supplier of the YNHHC Affiliates, for the unlawful sharing of fees or to any such patient or supplier or any such officer, director, employee or agent for the unlawful rebating of charges, or engaged in any other unlawful payment or given any other unlawful consideration to any such enrollee, patient or supplier or any such officer, director, employee or agent.

4.21 Bankruptcy. None of the YNHHC Affiliates is the subject of bankruptcy, insolvency or any similar proceedings.

4.22 [Reserved]

4.23 Foreign Operations. The YNHHC Affiliates have no operations outside the United States.

4.24 [Reserved]

4.25 [Reserved]

4.26 Regulatory Matters.

4.26.1 To the Knowledge of YNHHC, since October 1, 2011, the YNHHC Affiliates have timely filed all material reports, statements, documents, registrations, filings or submissions required to be filed by the YNHHC Affiliates with any Governmental Authorities, including in connection with or required by any Material Contracts, except where the failure to timely file has not resulted and would not reasonably be expected to result in a Material Adverse Effect. All such reports, statements, documents, registrations, filings and submissions were true, correct and complete in all material respects when filed, complied in all material respects with Applicable Law in effect when filed. Except as set forth on Schedule 4.26, since October 1, 2011, no material deficiencies have been asserted by any such Governmental Authority with respect to such reports, statements, documents, registrations, filings or submissions that have not been satisfied, or, if not yet satisfied, where satisfaction is not yet due. To the Knowledge of YNHHC, the Material Contracts are in compliance with Applicable Law.

4.26.2 Except as specifically disclosed to L+M, since October 1, 2011, the YNHHC Affiliates have not been subject to any finding, agreement, settlement or fine regarding noncompliance with any Applicable Law (including fraudulent procedures or practices but excluding any finding, agreement, settlement or fine that resulted only in a monetary penalty of \$350,000.00 or less) that resulted in or would reasonably be expected to result in a Material Adverse Effect. Except as specifically disclosed to L+M, to the Knowledge of YNHHC, since October 1, 2011, the YNHHC Affiliates have not been subject to any pending or threatened audit, investigation or other regulatory review relating to any noncompliance with any Applicable Law (including fraudulent procedures or practices, or, to the Knowledge of YNHHC, OSHA violations and any warning letters or observations (including any FDA warning letters or FDA Form 483 observations)), other than regularly scheduled periodic audits and reviews.

4.26.3 Neither YNHHC nor any YNHHC Subsidiary has been excluded, debarred or otherwise deemed ineligible to participate in Medicare, Medicaid or any other federal or state health care programs or in any federal or state procurement or non-procurement programs, nor has YNHHC or any YNHHC Subsidiary been convicted of a criminal offense related to the provision of federal health care items or services, nor, to YNHHC's Knowledge, is an investigation or proceeding regarding the foregoing pending or threatened. YNHHC and each of the YNHHC Subsidiaries that provides services to beneficiaries of Government Payer programs is (i) qualified for participation in, and has current and valid provider contracts with, the Government Payer programs and /or their fiscal intermediaries or paying agents and is in material compliance with the conditions of

participation or requirements applicable with respect to such participation and (ii) eligible for payment under the Government Payer programs for services rendered to qualified beneficiaries.

4.27 Consents and Approvals. No consents with respect to Material Contracts or approvals of any Governmental Authority are required to be obtained by any YNHHS Affiliates in connection with the execution, delivery and performance by YNHHS of this Agreement or the consummation of the transactions contemplated by this Agreement, except for (a) the requirements of the HSR Act and (b) as set forth in Schedule 4.27, which shall include, but not be limited to, any filings with, and approvals from (i) OHCA, (ii) RIDOH upon the recommendation of the Rhode Island Health Services Council, and (iii) the Rhode Island Attorney General.

4.28 Billing, Recoupments and Overpayments.

4.28.1 To the Knowledge of YNHHS, during the period of the applicable statutes of limitation, all Reimbursement Claims submitted by the YNHHS Affiliates comply in all material respects with all Applicable Laws, including but not limited to Health Care Fraud and Abuse Laws, and all Payer Program contracts, provider manuals, policies, guidance, and reimbursement requirements governing reimbursement and payment of claims and do not contain any material errors, omissions or disallowances, except as specifically disclosed to L+M, to the extent that non-compliance or errors or omissions would not individually or in the aggregate be reasonably expected to have a Material Adverse Effect. Except as specifically disclosed to L+M, none of the YNHHS Affiliates have any outstanding overpayment or refund obligations due to any individual Payer Program in excess of \$5,000,000 in the aggregate. Except as specifically disclosed to L+M, none of the YNHHS Affiliates has received notice of any material disallowance, overpayment, refund or dispute between the YNHHS Affiliates, on the one hand, and any Payer Program, or agent thereof, on the other hand, regarding such Reimbursement Claims that has not been resolved and, to the Knowledge of YNHHS, there are no facts or circumstances which may reasonably be expected to give rise to any disallowance, overpayment, refund or dispute that individually or in the aggregate would be reasonably expected to have a Material Adverse Effect.

4.28.2 [Reserved]

4.29 [Reserved]

4.30 Clinical Trials. To the Knowledge of YNHHS, all clinical trials currently being conducted at the YNHHS Affiliates are being conducted (i) with the approval and/or waiver of an appropriately constituted and duly registered IRB and (ii) in compliance with the applicable IRB policies and procedures, study agreements with trial sponsors and/or contract research organizations, and all Applicable Law, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Within the past two years, no clinical trial conducted at the YNHHS Affiliates has been subject to suspension or termination (other than by the sponsor of the trial due to reasons unrelated to the YNHHS Affiliate's performance of its obligations) due to patient safety concerns, material non-compliance with the applicable study agreement or Applicable Law, except for suspensions

or terminations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect. Within the past two years, none of the YNHHS Affiliates, nor to the Knowledge of YNHHS, any investigator involved in a clinical trial at the YNHHS Affiliates, has received any correspondence or communication relating to the applicable YNHHS Affiliate's conduct from any trial sponsor, contract research organization, IRB or Governmental Authority, including without limitation the Connecticut Department of Public Health, FDA or the OHRP, regarding patient safety breaches, billing issues associated with care provided to clinical trial subjects, obligations to register and report results of clinical trials, research misconduct, notice of pending debarment or disqualification, or other material non-compliance with the applicable study agreement or Applicable Law, except for violations the effect of which would not, individually or in the aggregate, be reasonably expected to have a Material Adverse Effect.

4.31 Relationship with Pharmaceutical and Medical Device Manufacturers, Vendors and Suppliers. Except as specifically disclosed to L+M, (i) to the Knowledge of YNHHS, each of the YNHHS Affiliates is in compliance with the applicable YNHHS Affiliate's policies and procedures regarding interactions with pharmaceutical manufacturers, medical device manufacturers, equipment and supply vendors, including without limitation, those relating to conflicts of interest, product samples, transfers of value and remuneration arrangements, and (ii) such policies and procedures are reasonably designed to comply with Applicable Law.

4.32 Solvency of the YNHHS Affiliates. Immediately after giving effect to the transactions contemplated by this Agreement, none of the YNHHS Affiliates will (a) be insolvent (either because its financial condition is such that the sum of its Liabilities is greater than the fair value of its assets or because the fair salable value of its assets is less than the amount required to pay probable Liabilities as they mature), (b) have unreasonably small capital with which to engage in its business or (c) have incurred Liabilities beyond its ability to pay as they become due. No transfer of property is being made and no obligation is being incurred in connection with the transactions contemplated by this Agreement with the intent to hinder, delay or defraud either present or future creditors of the YNHHS Affiliates.

4.33 Charitable Funds. To the Knowledge of YNHHS, YNHHS and the YNHHS Subsidiaries have solicited, received, held, invested, expended and applied charitable funds donated to them in all material respects in accordance with all restrictions placed thereon by donors, the terms of any applicable solicitation and Applicable Laws. Neither YNHHS nor any of the YNHHS Subsidiaries has received written notice of any, whether actual or alleged, misuse of funds, failure to comply with any donor-imposed restriction, breach of duty related to the funds, or violation of any Applicable Laws which would reasonably be expected to have a YNHHS Material Adverse Effect, nor to the Knowledge of YNHHS, has any such misuse, failure, breach or violation occurred.

4.34 No Undisclosed Liabilities. Except as specifically disclosed to L+M, none of the YNHHS Affiliates has material Liabilities or material obligations of any nature (including, without limitation, any direct or indirect Indebtedness, guaranty, endorsement, claim, loss, damage, deficiency, cost, expense, obligation or responsibility, fixed or unfixed, known or unknown, asserted or unasserted, liquidated or unliquidated, secured or unsecured, absolute, accrued, contingent or otherwise and whether due or to become due, or liability or obligations for an overpayment, duplicate payments, refunds discounts or adjustments due to any Third Party

Payer, including any federal or state health care program) arising out of, or relating to, the business operations of YNHHS Affiliates and which are required to be reflected on a balance sheet prepared in accordance with GAAP, except: (i) liabilities or obligations as and to the extent reflected on or accrued or reserved against as set forth in the YNHHS 2014 Audited Financial Statements; and (ii) liabilities incurred since the date of the YNHHS 2014 Audited Financial Statements in the ordinary course of business. Neither YNHHS nor any of the YNHHS Subsidiaries is in default of any term or condition of any Indebtedness or other Liability in excess of \$250,000, including any trade payable.

4.35 Completeness of Disclosure. No representation or warranty by YNHHS in this Agreement, or any written certificate, schedule or exhibit, when taken as a whole with all such other representations, warranties, certificates, schedules and exhibits, and when taken as a whole with the YNHHS 2014 Bond Disclosure Documents, contains or will contain any untrue statement of a material fact or will omit to state a material fact required to be stated herein or therein or necessary to make any statement herein or therein not misleading in light of the circumstances under which it was made.

ARTICLE 5

OBLIGATIONS BEFORE CLOSING

5.1 L+M's Obligations. From the Effective Date until the Closing (or the earlier termination of this Affiliation Agreement pursuant to Article 8):

5.1.1 Access to Premises and Information. YNHHS and its counsel, accountants, and other representatives shall have reasonable access during normal business hours and upon reasonable prior notice to all properties, books, accounts, records, contracts and documents of or relating to L+M and the L+M Affiliates. Upon reasonable request by YNHHS, L+M shall furnish or cause to be furnished to YNHHS and its representatives all data and information concerning the businesses, finances and properties of L+M and the L+M Affiliates, so long as responding to such requests does not unreasonably interfere with the operations of the L+M Affiliates.

5.1.2 Conduct of Business in Normal Course. L+M shall and shall cause the L+M Subsidiaries to carry on their businesses and activities not other than in the ordinary course of business and in accordance with the terms of this Article 5.

5.1.3 Preservation of Business and Relationships. L+M shall and shall cause the L+M Subsidiaries to use their commercially reasonable efforts to preserve their assets, subject to normal wear and tear and casualty, and business organizations, to keep available their present officers and employees and to substantially preserve their present material relationships with suppliers, payors, patients and others having business relationships with L+M or the L+M Affiliates; provided, however, that nothing in this Section 5.1.3 shall limit or restrict the right of L+M and the L+M Affiliates to terminate, discipline, or change the duties of any officers or employees, or to engage in staff reductions or consolidations prior to the Closing Date (to the extent such actions are consistent with the then current applicable policies and procedures of L+M and /or the L+M Subsidiaries, as applicable, any collective bargaining agreement, any employment

agreements and Applicable Law and do not give rise to executive severance obligations that exceed standards of reasonableness for services and roles within the L+M Affiliates).

5.1.4 Corporate Matters. L+M shall not and shall cause the L+M Subsidiaries not to, without the prior written consent of YNHHSC, amend their certificates of incorporation or bylaws (or other governing documents) except as permitted or required by this Affiliation Agreement to do so.

5.1.5 Maintenance of Insurance. L+M shall and shall cause the L+M Subsidiaries to continue to carry their existing insurance, including any self-insured insurance plans, subject to variations in amounts required by the ordinary operations of its businesses.

5.1.6 Employees and Compensation. Except in the ordinary course of business, as contemplated in the Applicable L+M Budget, required in an express term of a contract, as required by Applicable Law or with YNHHSC's prior written consent, L+M shall not and shall cause the L+M Subsidiaries not to do or agree to do any of the following acts:

(a) Grant any increase in salaries payable or to become payable by any of them to any officer or employee;

(b) Increase benefits payable to any officer or employee under any bonus or pension plan or other contract or commitment, other than reasonable and customary retention bonuses; or

(c) Modify any collective bargaining agreement to which L+M or any L+M Affiliate is a party or by which any of them may be bound unless required by Applicable Law or an express term of a collective bargaining agreement (provided that this Section 5.1.6 shall not limit or restrict the right of any L+M Affiliate to renegotiate any collective bargaining agreement that is expired as of or expires after the date of this Affiliation Agreement).

5.1.7 New Transactions. L+M shall not and shall cause the L+M Subsidiaries not to do or agree to do any of the following acts without the prior written consent of YNHHSC:

(a) Enter into any contract, commitment or transaction not in the ordinary course of business;

(b) [Reserved];

(c) Make any capital expenditure or expenditures in excess of \$5,000,000 not contemplated by the Applicable L+M Budget, except that on notice to YNHHSC L+M or an L+M Subsidiary may make unbudgeted capital expenditures that L+M determines are necessary (i) to remediate unexpected life safety or property safety issues, or (ii) to comply with unexpected issues that, if not remediated, would cause noncompliance with regulatory requirements.

(d) Enter into any lease of capital equipment or property under which the annual lease charge is in excess of \$500,000 that is not contemplated by the Applicable L+M Budget;

(e) Sell or dispose of any capital assets with a net book value in excess of \$500,000 with respect to any individual transaction or \$2,000,000 in the aggregate;

(f) [Reserved];

(g) Incur any Indebtedness (other than a line or lines of credit under which the aggregate availability does not exceed the amount contemplated by the Applicable L+M Budget) or make any loans or advances to any Person other than (i) inter-company advances in the ordinary course of business and (ii) tuition reimbursement and/or housing assistance loans to employees that are made pursuant to L+M's existing policies and are reasonably consistent with past practice;

(h) Enter into any compromise or settlement of any Litigation or Proceeding involving a payment by L+M or any L+M Affiliate exceeding the greater of (i) \$500,000.00 or (ii) the amount reserved, if any, with respect to such Litigation or Proceeding in the Financial Statements, unless (in either case) covered by insurance;

(i) Enter into any agreement that restrains, limits or impedes the ability of L+M or any L+M Affiliate to compete with or conduct any business or line of business;

(j) [Reserved]; or

(k) Enter into any new collective bargaining agreement unless required by law or an express term of a collective bargaining agreement (provided that this Section 5.1.7 shall not limit or restrict the right of any L+M Affiliate to renegotiate any collective bargaining agreement that is expired as of or expires after the date of this Affiliation Agreement).

5.1.8 Consents of Third Parties. L+M shall use its and shall cause the L+M Subsidiaries to use their Commercially Reasonable Best Efforts to obtain the consents of all third parties required to be obtained by L+M or the L+M Subsidiaries for the consummation of the transactions contemplated by this Affiliation Agreement.

5.1.9 Certain Compliance Matters.

(a) After the Effective Date and prior to the Closing Date L+M shall engage a qualified environmental consultant to conduct an operational compliance self-audit of the operations of LMH, LMW, LMMG and VNA of Southeastern Connecticut with respect to Environmental, Health and Safety Requirements and to complete a written report of such self-audit prior to the Closing Date. Prior to the Closing Date, to the extent reasonably feasible, the applicable L+M Affiliates shall implement any necessary corrective or remediation plans or recommendations included in such report (as reasonably determined by L+M) in accordance with the time periods set forth in such reports; *provided, however*, that to the extent that the applicable L+M Affiliates are continuing in good faith to implement such plans or recommendations at

Closing, the failure to have completed such plans and recommendations as of the Closing Date shall not be deemed to be a breach of this Section 5.1.9.

(b) L+M shall be responsible at its expense for preparing and filing with DEEP as transferor and (if applicable) as “certifying party” any filings required by the Transfer Act with respect to any real properties owned, leased or occupied by LMMG (collectively, the “LMMG Properties”) or LMMG’s business operations that the Parties mutually determine may be deemed to constitute an “establishment” as such terms are defined in the Transfer Act and for prosecuting any investigatory or remediation obligations under the Transfer Act.

(c) To the extent that any Governmental Authority determines that any L+M Real Property or business operation other than the LMMG Properties and business operations is subject to the requirements of the Transfer Act, L+M, or the L+M Affiliate that owns such L+M Real Property or conducts such business operation, shall be responsible at its expense for preparing and filing with DEEP as transferor and (if applicable) as “certifying party” any filings required by the Transfer Act with respect to such L+M Real Property or business operation and for prosecuting any investigatory or remediation obligations under the Transfer Act.

(d) Prior to the Closing Date L+M shall cause to be conducted a Phase I environmental site assessment of each Owned Real Property (which may be an updated Phase I assessment if a Phase I assessment has already been conducted) and, if any Recognized Environmental Condition (as such term is defined in the applicable American Society for Testing and Materials standard) is identified in any such assessment, L+M shall cause such condition to be further investigated through a Phase II or Phase III investigation, as appropriate. Prior to the Closing Date, L+M shall cause a qualified environmental consultant to make recommendations with respect to any corrective or remediation actions that should be carried out based on such environmental site assessments and the requirements of Environmental, Health and Safety Requirements, and to the extent reasonably feasible, L+M shall complete all compliance or remediation recommendations required by Environmental, Health and Safety Requirements; *provided, however*, that to the extent that L+M is continuing in good faith to implement such recommendations at Closing, the failure to have completed such plans and recommendations as of the Closing Date shall not be deemed to be a breach of this Section 5.1.9.

5.1.10 Governmental Approvals. L+M shall and shall cause the L+M Subsidiaries to use their Commercially Reasonable Best Efforts to obtain all licenses, permits, consents, approvals, authorizations, qualifications and orders of any Governmental Authorities as are necessary for each to consummate the transactions contemplated hereby, including, without limitation, the Hart-Scott-Rodino Act filing and the approvals of OHCA, RIDOH and the Rhode Island Attorney General.

5.1.11 No-Shop Clause. From the Effective Date until Closing, L+M shall not and shall cause the L+M Subsidiaries not to, without the prior written consent of YNHHS: (a) offer for sale or consider any offer to purchase, all or substantially all of the assets of or any ownership or control interest of or in L+M or any L+M Subsidiaries or to admit any Person as a member of L+M or any L+M Subsidiary; (b) solicit or consider offers to buy all or substantially all of the assets of or any ownership or control interest of or in L+M or any L+M Affiliate or to admit any Person as a member of L+M or any L+M Subsidiary; (c) hold discussions with any Person or organization (other than YNHHS)

looking toward such an offer or solicitation or looking toward a merger or consolidation of or in or admission of a member to L+M or any L+M Subsidiaries or (d) enter into any agreement with any Person or organization (other than YNHHSC) with respect to the sale, management, operation or other disposition of all or substantially all of the assets of or any ownership or control interest in L+M or any L+M Subsidiary, or with respect to any merger, consolidation or similar transaction involving L+M or any L+M Subsidiary, or with respect to the admission of any member to L+M or any L+M Subsidiary, (each such transaction set forth in clauses (a), (b), (c) and (d) being referred to herein as an “**L+M Corporate Transaction**”); provided, however, that nothing in this Section 5.1.11 shall prohibit or restrict L+M from entering into, or causing a L+M Subsidiary to enter into, an L+M Corporate Transaction with L+M or another L+M Subsidiary for the purpose of consolidating an L+M Subsidiary that does not have material business operations as of the date of this Affiliation Agreement.

5.1.12 Satisfaction of Conditions. L+M shall and shall cause each L+M Subsidiary to take all steps reasonably necessary to be taken on its part to cause the conditions precedent to the consummation of the transactions contemplated by Article 6 to be satisfied and to close the Affiliation.

5.1.13 Notice of Breach. In the event that L+M or any L+M Subsidiary breaches, in any material respect, any of its covenants contained in this Article 5, L+M shall promptly deliver written notice of such breach to YNHHSC and such notice shall provide a detailed description of such breach and the date that the breach first occurred.

5.1.14 Covered Transactions. At least prior to the consummation by any L+M Affiliate of any Covered Transaction, L+M shall give notice to YNHHSC of the intent of such L+M Affiliate to consummate such Covered Transaction, of the parties thereto and of the material terms thereof (except for any such information that counsel to L+M deems to be competitively sensitive, in which case L+M shall cause its counsel to give notice of such information to counsel to YNHHSC). Upon the consummation by any L+M Affiliate of any Covered Transaction, L+M shall give notice to YNHHSC of the consummation of such Covered Transaction and of any change in the parties thereto and of the material terms thereof as compared to the prior notice given to YNHHSC with respect to such Covered Transaction (except for any such information that counsel to L+M deems to be competitively sensitive, in which case L+M shall cause its counsel to give notice of such information to counsel to YNHHSC).

5.1.15 L+M Budgets. No later than the last day of each fiscal year of the L+M Affiliates that occurs between the Effective Date and the Closing Date, L+M shall cause each L+M Affiliates to adopt a capital and operating budget for the ensuing fiscal year and to deliver to YNHHSC true, correct and complete copies of such capital and operating budget.

5.1.16 Renegotiated Collective Bargaining Agreements. Upon executing any renegotiated collective bargaining agreement that is expired as of or expires after the date of this Affiliation Agreement, L+M shall deliver a true, correct and complete copy of such renegotiated collective bargaining agreement to YNHHSC.

5.1.17 L+M Subsidiaries Amended Certificates of Incorporation and Bylaws. On or prior to the Closing Date, L+M shall cause: (i) LMH to adopt the LMH Amended Certificate of Incorporation and the LMH Amended Bylaws; (ii) LMW to adopt the LMW Amended Certificate of Incorporation and the LMW Amended Bylaws; and (iii) VNA of Southeastern Connecticut to adopt the VNA of Southeastern Connecticut Amended Certificate of Incorporation and the VNA of Southeastern Connecticut Amended Bylaws.

5.1.18 YNHHSC Consent Rights. Except as otherwise expressly contemplated in this Affiliation Agreement, to the extent that L+M requests the consent of YNHHSC with respect to any transaction, action or event contemplated in Section 5.1.6 or Section 5.1.7 (i) YNHHSC shall not unreasonably withhold, condition or delay such consent and (ii) YNHHSC shall respond to such request for consent within ten (10) business days after the date on which notice of such request is given in accordance with this Section 5.1.18. Any request under this Section 5.1.18 shall be transmitted by L+M via electronic mail and overnight courier to the persons and in accordance with the address information set forth on Exhibit 5.1.18 and shall be confirmed by telephonic communication to each such person using the telephone numbers set forth on Exhibit 5.1.18. If no response is received from YNHHSC within five (5) business days after notice of the initial request for consent has been so given, a second notice shall be transmitted by L+M via electronic mail and overnight courier, and confirmed by telephone, in the same manner and in accordance with the instructions set forth on Exhibit 5.1.18. If following the giving of both such notices, and the expiration of the ten (10) business day response period, YNHHSC fails to respond to any such request for consent, YNHHSC shall be deemed to have consented to the transaction, action or event described in such request. If YNHHSC responds to any such request for consent within the applicable ten (10) business day period, including by requesting additional information with respect to the request, then YNHHSC's consent shall only be deemed granted if YNHHSC expressly consents in writing to such transaction, action or event.

5.2 YNHHSC Obligations.

5.2.1 Access and Information. YNHHSC shall furnish or cause to be furnished to L+M and its counsel, accountants and other representatives all data and information concerning the businesses and finances of YNHHSC that is pertinent to the transactions contemplated by this Agreement and that is reasonably requested by L+M.

5.2.2 Governmental and Other Approvals. YNHHSC shall use its Commercially Reasonable Best Efforts to (i) obtain all licenses, permits, consents, approvals, authorizations, qualifications and orders of any Governmental Authorities that are required to be obtained by YNHHSC in order to consummate the transactions contemplated hereby, including, without limitation, the Hart-Scott-Rodino Act filing and the approvals of OHCA and RIDOH; and (ii) participate in all other meetings related to obtaining approval for this transaction requested by L+M including without limitation, meetings with (a) local communities as required by Applicable Law; and (b) L+M's Board of Trustees.

5.2.3 Consents of Third Parties. YNHHC shall use its Commercially Reasonable Best Efforts to obtain the consents of all third parties required to be obtained by YNHHC for the consummation of the transactions contemplated by this Agreement.

5.2.4 Satisfaction of Conditions. YNHHC shall take all steps reasonably necessary to be taken on its part to cause the conditions precedent to the consummation of the transactions contemplated by Article 7 to be satisfied and to close the Affiliation.

5.2.5 Notice of Breach. In the event that YNHHC breaches, in any material respect, any of its covenants contained in this Article 5, YNHHC shall promptly deliver written notice of such breach to L+M and such notice shall provide a detailed description of such breach and the date that the breach first occurred.

5.2.6 Notice of YNHHC Change of Control. Within five (5) days after the execution of a definitive agreement contemplating a YNHHC Change of Control (or simultaneously with the execution of a definitive agreement contemplating a YNHHC Change of Control if such execution occurs less than five (5) days prior to the Closing), YNHHC shall give notice to L+M of such contemplated YNHHC Change of Control and of the nature of and the identity of the parties to such YNHHC Change of Control.

5.3 Additional Due Diligence; Disclosure Schedules. YNHHC and L+M have each furnished to the other certain requested Due Diligence Information in order to permit each of the Parties to perform a due diligence analysis of the Affiliation. From the date hereof through the Closing, (i) each Party will promptly disclose to the other Party any information of which such first mentioned Party has Knowledge that has not previously been disclosed in writing as part of the Due Diligence Information and that could, individually or in the aggregate, reasonably be expected to cause a Material Adverse Effect; (ii) L+M will provide to YNHHC, on a monthly basis, a financial information packet on the financial condition of the L+M Affiliates, in the same form provided to L+M's Board of Trustees (except for the deletion of any competitively sensitive information); (iii) L+M will provide YNHHC a copy of each Medicare cost report filed by any L+M Affiliate after the date hereof within five (5) business days after such filing and (iv) prior to the Closing Date (but in no event less than three (3) business days prior to the Closing Date) each Party shall deliver to the other Party updates of such Party's Disclosure Schedule (each, a "***Schedule Supplement***") solely with respect to (x) any information that first arises or of which the Party delivering such Schedule Supplement first obtains Knowledge after the date of this Affiliation Agreement and that if it existed on the date of this Agreement would be required to be reflected on the Disclosure Schedules and (y) any other information that is necessary to correct any disclosure schedule or representation or warranty and that first arises or of which the Party delivering such Schedule Supplement first obtains Knowledge after the date of this Affiliation Agreement. Each Schedule Supplement shall be deemed to be incorporated into and to supplement and amend the Disclosure Schedules as of the Closing.

5.4 Obligations in Respect of Consents and Approvals.

(a) Each Party shall use its Commercially Reasonable Best Efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary, proper or advisable under Applicable Law to consummate and make effective in the most expeditious

manner possible the transactions contemplated by this Affiliation Agreement, including (i) the preparation and filing of all forms, registrations and notices required to be filed to consummate such transactions, (ii) taking all reasonable actions consistent with the definition of Commercially Reasonable Best Efforts to obtain (and cooperating with the other Party in obtaining) any consent, authorization, order or approval of, or any exemption by, any third party, including any Governmental Authority (which actions will include furnishing all information required under the Hart-Scott-Rodino Act and any other Applicable Law relating to antitrust, competition or trade regulation ("**Competition Law**") required to be obtained or made by any Party or their Affiliates in connection with the transactions contemplated by this Affiliation Agreement) and (iii) the execution and delivery of any additional instruments necessary to consummate the transactions contemplated by this Agreement and to fully carry out the purposes of this Agreement. Additionally, each Party will use its Commercially Reasonable Best Efforts to fulfill all conditions precedent to this Affiliation Agreement and will not take any unreasonable action that is not consistent with the definition of Commercially Reasonable Best Efforts after the date of this Affiliation Agreement that would reasonably be expected to materially delay the obtaining of, or result in not obtaining, any permission, approval or consent from any such Governmental Authority or third party required to be obtained prior to the Closing.

(b) Prior to the Closing, the parties will keep each other apprised of the status of matters relating to the completion of the transactions contemplated by this Affiliation Agreement and work cooperatively consistent with the definition of Commercially Reasonable Best Efforts in connection with obtaining all required consents, authorizations, orders or approvals of, or any exemptions by, any Governmental Authorities. In this regard, prior to the Closing, each Party will promptly provide the other Party (or its counsel) with copies of all filings and communications made by such Party with or to any Governmental Authority or any other information supplied by such Party to, or correspondence with, a Governmental Authority in connection with or with respect to this Affiliation Agreement. Each Party will promptly inform the other Party, and if in writing, furnish the other Party with copies of (or, in the case of material oral communications, advise the other parties orally of) any filing or communication from any Governmental Authorities regarding any of the transactions contemplated by this Agreement, and permit the other parties to review and discuss in advance, and consider in good faith the views of the other Party in connection with, any proposed written (or any material proposed oral) communication with any such Governmental Authority. If any Party or any representative of such Party receives a request for additional information or documentary material from any Governmental Authority with respect to the transactions contemplated by this Affiliation Agreement, then such Party will use its Commercially Reasonable Best Efforts to make, or cause to be made, promptly and after consultation with the other Party, an appropriate response in compliance with such request. Each Party will furnish the other Party with such necessary information and reasonable assistance as the other parties may reasonably request consistent with the definition of Commercially Reasonable Best Efforts in connection with its preparation of necessary filings or submissions of information to any Governmental Authority in connection with or with respect to this Agreement. Each Party may, as each deems advisable and necessary, reasonably designate any competitively sensitive material provided to the other parties under this Section 5.4 as "outside counsel and corporate in-house antitrust counsel only." Such materials and the information contained therein will be given only to the outside legal counsel and corporate in-house antitrust counsel of the recipient and will not be disclosed by such outside counsel and corporate in-house antitrust counsel to the directors, officers or

employees (other than corporate in-house antitrust counsel) of the recipient unless express permission is obtained in advance from the source of the materials or its legal counsel. Furthermore, materials provided pursuant to this Section 5.4 may be redacted to remove references concerning each party's evaluation of the terms of the transactions envisioned by this Affiliation Agreement, as necessary to comply with contractual arrangements or as necessary to address reasonable privilege and business confidentiality considerations. To the extent that transfers of any permits issued by any Governmental Authority are required as a result of the execution of this Affiliation Agreement or the consummation of the transactions contemplated hereby, the parties will use their respective Commercially Reasonable Best Efforts to effect such transfers.

(c) The Parties will use their respective Commercially Reasonable Best Efforts to file, as promptly as practicable but in any event no later than sixty (60) days after the date of this Affiliation Agreement, notifications under the Hart-Scott-Rodino Act, and the Parties will use their respective Commercially Reasonable Best Efforts to file, as promptly as practicable, any other filings or notifications that are required under any other applicable Competition Laws. In the event that the parties receive a formal request for additional information or documentary materials after an initial notification pursuant to the Hart-Scott-Rodino Act or any other Competition Law (a "Second Request"), the Parties will use their respective Commercially Reasonable Best Efforts to respond to such Second Request, as applicable, as promptly as practicable and the Parties shall cause their respective counsel to closely cooperate during the entirety of any such Second Request review process.

(d) The parties will use their respective Commercially Reasonable Best Efforts to resolve such objections, if any, as may be asserted by any Governmental Authority respect to the transactions contemplated by this Agreement under the Hart-Scott-Rodino Act or any other applicable Competition Law.

5.5 Certain Expenses. L+M and YNHHSC hereby agree that the costs and expenses incurred by the Parties in relation to (i) the preparation and filing of all forms, registrations and notices required to be filed to consummate such transactions, (ii) taking all actions necessary to obtain (and cooperating with each other in obtaining) any consent, authorization, order or approval of, or any exemption by, any third party, including any Governmental Authority, which actions will include furnishing all information required under the Hart-Scott-Rodino Act and any other applicable Competition Laws required to be obtained or made by any Party or their Affiliates in connection with the transactions contemplated by this Agreement, and/or (iii) participation in any antitrust or other review, proceedings or actions of any Governmental Authority relating to this Affiliation Agreement or any of the transactions envisioned hereby, including any Second Request or other request for information relating to the Affiliation, in each case, shall be allocated and paid for by the Parties in accordance with Exhibit 5.5 attached hereto. This provision shall survive in accordance with Section 11.14 hereof, whether or not the transaction contemplated by this Agreement is ever consummated.

ARTICLE 6

CONDITIONS PRECEDENT TO OBLIGATIONS OF YNHHS

The obligations of YNHHS hereunder are subject to the satisfaction or written waiver (in the sole discretion of YNHHS), on or prior to the Closing Date, of the following conditions:

6.1 Representations/Warranties. The representations and warranties of L+M contained in Article 3 shall be true and correct on and as of the Closing Date as though such representations had been made on the Closing Date (other than representations and warranties made as of a specified date which shall speak as of such specific date), except as set forth in the Disclosure Schedule, except as specifically disclosed to YNHHS and except for (i) matters not set forth in the Disclosure Schedule or specifically disclosed to YNHHS because of the "Material Adverse Effect" qualification in any specific section of this Article 3 and (ii) matters arising from a material breach of a representation or warranties of L+M Article 3 which in the case of clauses (i) and (ii) together do not cumulatively and in the aggregate result in and are not reasonably likely to result in a Material Adverse Effect. No L+M Schedule Supplement individually, nor all L+M Schedule Supplements considered in the aggregate, when taken together with (i) matters not set forth in the Disclosure Schedule or specifically disclosed to YNHHS because of the "Material Adverse Effect" qualification in any specific section of Article 3, and (ii) matters arising from a material breach of any representation or warranty in Article 3, shall cumulatively and in the aggregate result in or be reasonably likely to result in a Material Adverse Effect.

6.2 Covenants. Each covenant contained in this Affiliation Agreement to be complied with or performed by L+M or an L+M Affiliate on or before the Closing Date pursuant to the terms hereof shall have been complied with and performed in all material respects.

6.3 Officer's Certificate. YNHHS shall have received from L+M an officer's certificate, executed on behalf of L+M by its president and/or chief executive officer, chief financial officer or treasurer (solely in his or her capacity as such), dated as of the Closing Date and stating, to the actual knowledge of such individual including the knowledge such person would have absent any grossly negligent or reckless or intentional acts or omissions in the performance of his/her duties as president and/or chief executive officer, chief financial officer or treasurer, as the case may be, that the conditions in Section 6.1 and Section 6.2 have been satisfied.

6.4 Litigation or Proceedings. No Litigation or Proceedings before a court or any other Governmental Authority or authority seeking to materially restrain or prohibit the transactions contemplated hereby shall be pending or threatened, and no injunction, judgment, order, decree, statute, law, rule or regulation that restrains or prohibits the transactions contemplated hereby shall have been issued, enacted or promulgated by a court or any other Governmental Authority.

6.5 Third Party Approvals. All notices, reports and other filings required to be made prior to Closing by L+M or any L+M Affiliate with, and all licenses, permits, consents, certificates of need, approvals, authorizations, clearances, qualifications or orders required to be obtained prior to Closing by YNHHS (provided YNHHS has pursued the same as required by

the terms hereof), L+M or any L+M Affiliate from, any Governmental Authority or any other third party for the consummation of the transactions contemplated hereby that are listed or described on Schedule 6.5 or that are otherwise required to be obtained by Applicable Law shall have been made or obtained.

6.6 Closing Deliveries. L+M shall have made the deliveries required to be made by it under Section 9.2.

6.7 Notification of TD Bank. L+M shall have provided to TD Bank, National Association, the notification required by Section 5.30 of that certain Letter of Credit and Reimbursement Agreement, dated as of November 5, 2013, by and among L+M and LMH on the one hand and TD Bank, National Association, on the other hand.

6.8 Bank of America Consent and Confirmation. L+M and LMH shall have obtained the consent of Bank of America, N.A., to the consummation of the transactions contemplated by this Affiliation Agreement under Section 7(p), and shall have obtained the confirmation of Bank of America, N.A. that the transactions contemplated by this Affiliation Agreement will not contravene Section 7(g), of that certain Continuing Covenants Agreement, dated as of October 13, 2013, by and among L+M and LMH on the one hand and Bank of America, N.A. on the other hand.

6.9 Consent of CHEFA. L+M and LMH shall have obtained the consent of the Connecticut Health and Education Facilities Authority ("CHEFA") to the consummation of the transactions contemplated by this Affiliation Agreement under Section 6.11 of the Master Trust Indenture, dated as of February 1, 1990, by and among L+M and LMH on the one hand and the Master Trustee named therein on the other hand, as the same has been amended or supplemented from time to time in accordance with its terms.

6.10 [[Intentionally Omitted]]

6.11 No L+M Material Adverse Effect. No L+M Material Adverse Effect shall have occurred since the Effective Date.

6.12 No Bankruptcy. No L+M Affiliate shall have: (i) filed for receivership or dissolution; (ii) made any assignment for the benefit of creditors; (iii) admitted in writing its inability to pay its debts as they mature; (iv) been adjudicated bankrupt; or (v) filed a petition in voluntary bankruptcy, a petition or answer seeking reorganization or entered into an arrangement with creditors under the federal bankruptcy law or any other similar law or statute of the United States or any state and shall not have caused any L+M Subsidiary to take such actions set forth in clauses (i) - (v) above.

6.13 Certain Environmental Matters. L+M shall have delivered to YNHHS copies of the reports referred to in Section 5.1.9(a) and Section 5.1.9(d).

ARTICLE 7

CONDITIONS PRECEDENT TO OBLIGATIONS OF L+M

The obligations of L+M hereunder are subject to the satisfaction or written waiver in the sole discretion of L+M, on or prior to the Closing Date, of the following conditions:

7.1 Representations/Warranties. The representations and warranties of YNHHSC contained in Article 4 shall be true and correct on and as of the Closing Date as though such representations had been made on the Closing Date (other than representations and warranties made as of a specified date which shall speak as of such specific date), except as set forth in the Disclosure Schedule, except as specifically disclosed to L+M and except for (i) matters not set forth in the Disclosure Schedule or specifically disclosed to L+M because of the "Material Adverse Effect" qualification in any specific section of Article 4 and (ii) matters arising from a material breach of a representation or warranties of YNHHSC Article 4 which in the case of clauses (i) and (ii) together do not cumulatively and in the aggregate result in and are not reasonably likely to result in a Material Adverse Effect. No YNHHSC Schedule Supplement individually, nor all YNHHSC Schedule Supplements considered in the aggregate, when taken together with (i) matters not set forth in the Disclosure Schedule or specifically disclosed to L+M because of the "Material Adverse Effect" qualification in any specific section of Article 4, and (ii) matters arising from a material breach of any representation or warranty in Article 4, shall cumulatively and in the aggregate result in or be reasonably likely to result in a Material Adverse Effect.

7.2 Covenants. Each covenant contained in this Affiliation Agreement to be complied with or performed by YNHHSC on or before the Closing Date pursuant to the terms hereof shall have been complied with and performed in all material respects.

7.3 Officer's Certificate. L+M shall have received from YNHHSC an officer's certificate, executed by YNHHSC by its president and/or chief executive officer, chief financial officer or treasurer (solely in his or her capacity as such), dated as of the Closing Date, stating, to the actual knowledge of such individual including the knowledge such person would have absent any grossly negligent or reckless or intentional acts or omissions in the performance of his/her duties as president and/or chief executive officer, chief financial officer or treasurer, that the conditions in Section 7.1 and Section 7.2 have been satisfied.

7.4 Litigation or Proceedings. No Litigation or Proceedings before a court or any other Governmental Authority or authority seeking to materially restrain or prohibit the transactions contemplated hereby shall be pending or threatened, and no injunction, judgment, order, decree, statute, law, rule or regulation that restrains or prohibits the transactions contemplated hereby shall have been issued, enacted or promulgated by a court or any other Governmental Authority.

7.5 Third Party Approvals. All notices, reports and other filings required to be made prior to Closing by YNHHSC with, and all licenses, permits, consents, approvals, authorizations, qualifications or orders required to be obtained prior to Closing by L+M or any L+M Subsidiary (provided that each applicable L+M Affiliate has pursued the same as required by the terms hereof), or YNHHSC from, any Governmental Authority or other third party in connection with

the execution and delivery of this Affiliation Agreement and the consummation of the transactions contemplated hereby that are listed on Schedule 7.5 or that are otherwise required to be obtained by Applicable Law shall have been made or obtained.

7.6 Closing Deliveries. YNHHS shall have made the deliveries required to be made by it under Section 9.3.

7.7 Notification of TD Bank. L+M shall have provided to TD Bank, National Association, the notification required by Section 5.30 of that certain Letter of Credit and Reimbursement Agreement, dated as of November 5, 2013, by and among L+M and LMH on the one hand and TD Bank, National Association, on the other hand.

7.8 Bank of America Consent and Confirmation. L+M and LMH shall have obtained the consent of Bank of America, N.A., to the consummation of the transactions contemplated by this Affiliation Agreement under Section 7(p), and shall have obtained the confirmation of Bank of America, N.A. that the transactions contemplated by this Affiliation Agreement will not contravene Section 7(g), of that certain Continuing Covenants Agreement, dated as of October 13, 2013, by and among L+M and LMH on the one hand and Bank of America, N.A. on the other hand.

7.9 Consent of CHEFA. L+M and LMH shall have obtained the consent of the Connecticut Health and Education Facilities Authority ("CHEFA") to the consummation of the transactions contemplated by this Affiliation Agreement under Section 6.11 of the Master Trust Indenture, dated as of February 1, 1990, by and among L+M and LMH on the one hand and the Master Trustee named therein on the other hand, as the same has been amended or supplemented from time to time in accordance with its terms.

7.10 No YNHHS Material Adverse Effect. No YNHHS Material Adverse Effect shall have occurred since the Effective Date.

7.11 No Bankruptcy. YNHHS shall not have: (i) filed for receivership or dissolution; (ii) made any assignment for the benefit of creditors; (iii) admitted in writing its inability to pay its debts as they mature; (iv) been adjudicated bankrupt; or (v) filed a petition in voluntary bankruptcy, a petition or answer seeking reorganization or entered into an arrangement with creditors under the Federal bankruptcy law or any other similar law or statute of the United States or any state and shall not have caused any YNHHS Subsidiary to take such actions set forth in clauses (i) - (v) above.

ARTICLE 8

TERMINATION

8.1 Termination. This Affiliation Agreement may be terminated prior to Closing as follows:

- (a) by the mutual written consent of L+M and YNHHS; or

(b) by either Party by notice to the other Party if the Closing shall not have occurred within twenty-four (24) months after the Effective Date (the “*Outside Date*”) other than as a result of a breach or default by the Party giving such notice; or

(c) by L+M or YNHHSC prior to Closing, upon the entry of a final and non-appealable injunction issued by a court of competent jurisdiction preventing the consummation of the transactions contemplated by this Affiliation Agreement; or

(d) by L+M prior to Closing, by written notice to YNHHSC, if YNHHSC shall have (i) breached any of its representations or warranties contained in this Affiliation Agreement (A) that are qualified by reference to “Material Adverse Effect” or (B) that are not qualified by reference to Material Adverse Effect in any manner which results or could reasonably be expected to result in a YNHHSC Material Adverse Effect or (ii) materially breached any of its covenants contained in this Affiliation Agreement, in each case which breach cannot be or has not been cured within sixty (60) calendar days after the giving of written notice to YNHHSC, or such longer period as is necessary if such breach cannot be cured within such sixty (60) day period, so long as YNHHSC is continuing in good faith to use its best efforts to cure such breach (provided that in no event will the provisions of this 8(d) override or extend the Outside Date provisions of Section 8.1(b)); it is understood for purposes of this Section 8.1(d) that if YNHHSC is required by the terms of Section 5.2 to take an action by a specific date and fails to take such action by such date but takes such action within the cure period specified in this Section 8.1(d) then YNHHSC shall not be deemed to have breached such covenant so long as L+M is not prejudiced by such delay; or

(e) by YNHHSC prior to Closing, by written notice to L+M, if L+M shall have (i) breached any of its representations or warranties contained in this Affiliation Agreement (A) that are qualified by reference to “Material Adverse Effect” or (B) that are not qualified by reference to Material Adverse Effect in any manner which results or could reasonably be expected to result in a L+M Material Adverse Effect or (ii) materially breached any of its covenants contained in this Affiliation Agreement, in each case which breach cannot be or has not been cured within sixty (60) calendar days after the giving of written notice to L+M; or such longer period as is necessary if such breach cannot be cured within such sixty (60) day period, so long as L+M is continuing in good faith to use its best efforts to cure such breach (provided that in no event will the provisions of this 8(e) override or extend the Outside Date provisions of Section 8.1(b)); it is understood for purposes of this Section 8.1(e) that if L+M is required by the terms of Section 5.1 to take an action by a specific date and fails to take such action by such date but takes such action within the cure period specified in this Section 8.1(e) then L+M shall not be deemed to have breached such covenant so long as YNHHSC is not prejudiced by such delay; or

(f) by YNHHSC prior to Closing by written notice to L+M, if there occurs any L+M Material Adverse Effect; or

(g) by L+M prior to the Closing by written notice to YNHHSC, if there occurs any YNHHSC Material Adverse Effect occurs; or

(h) by YNHHSC by notice to L+M if any consent or approval of any Governmental Authority that is required to be obtained as a condition of the Closing is obtained but contains or is subject to the fulfillment of conditions or requirements that YNHHSC in good

faith determines are materially inconsistent with YNHHC's obligations under this Affiliation Agreement or YNHHC's business and strategic plan, or such consent or approval includes additional conditions or requirements that could reasonably be expected to result in a L+M Material Adverse Effect or a YNHHC Material Adverse Effect; provided, however that YNHHC shall not exercise the termination right described in this Section 8.1(h) unless the senior executives of YNHHC and L+M have met to discuss such conditions or requirements; or

(i) if L+M gives notice to YNHHC that an L+M Affiliate proposes to undertake a Covered Transaction, and if within thirty (30) days after such notice YNHHC gives notice to L+M that if such Covered Transaction is consummated then YNHHC will determine that such Covered Transaction alone or together with the other Covered Transactions undertaken by L+M after the date of this Affiliation Agreement are materially inconsistent with the business and strategic objectives and plans of YNHHC or is materially adverse to the ability of YNHHC to accomplish its objectives with respect to the Affiliation, and if the applicable L+M Affiliate consummates such Covered Transaction, then within thirty (30) days after L+M gives notice to YNHHC of the consummation of such Covered Transaction, YNHHC shall have the right to terminate this Affiliation Agreement, provided, however that YNHHC shall not exercise the termination right described in this Section 8.1(i) unless YNHHC shall first have offered to L+M the opportunity to have the respective senior executives of L+M and YNHHC meet to discuss such determination; or

(j) by L+M by notice to YNHHC given within sixty (60) days after YNHHC gives notice to L+M of a YNHHC Change of Control.

8.2 Effect of Pre-Closing Termination. In the event of the termination of this Affiliation Agreement prior to Closing and the abandonment of the transactions contemplated hereby pursuant to Section 8.1, neither Party shall have any rights or obligations under this Agreement, except for those rights and obligations of the Parties under this Affiliation Agreement that expressly survive any such termination.

8.3 [Reserved]

8.4 Effect of Affiliation Agreement Post-Closing. The survival of the covenants or agreements of the Parties contained in this Agreement, and in any instrument, certificate, exhibit, schedule or other writing provided for in it, shall be governed by the provisions of Section 11.14, without prejudice to the terms and conditions of the Parties' respective corporate organizational documents and such contractual and other arrangements as may be in effect from time to time between them.

ARTICLE 9

CLOSING

9.1 Closing; Closing Date. The closing (the "**Closing**") of the transactions contemplated by this Agreement shall be as soon as practicable after all the conditions precedent in Article 6 and Article 7 have been satisfied; provided, however, that such date shall not be later than sixty (60) days after the Parties and any related Subsidiaries have received all necessary approvals of Governmental Authorities (the date of the Closing, the "**Closing Date**"). The

Closing shall take place at the offices of YNHHSC, or at such other place as the Parties may agree. The Closing of all transactions contemplated by this Affiliation Agreement shall be effective as of 12:01 a.m. on the day after the Closing Date (the “*Effective Time*”).

9.2 Deliverables of L+M at Closing. At Closing, L+M shall deliver or cause to be delivered to YNHHSC:

(a) A copy of the L+M Amended Certificate of Incorporation, and of the L+M Subsidiaries Amended Certificates of Incorporation for each L+M Subsidiary other than LMMG, with evidence of filing thereof with the Secretary of the State;

(b) A copy of the L+M Amended Bylaws, and of the L+M Subsidiaries Amended Bylaws for each of the applicable L+M Subsidiaries other than LMMG, certified to be in full force and effect and to be true and correct by the secretary or assistant secretary of L+M;

(c) An executed copy of the LMMG-NEMG Agreement and Plan of Merger in proper form for filing with the Secretary of State;

(d) Certified resolutions of L+M and the L+M Affiliates authorizing the transactions contemplated by this Affiliation Agreement;

(e) The Officer’s Certificate required by Section 6.3 hereof;

(f) [Reserved];

(g) [Reserved]; and

(h) All other documents required to be delivered by the L+M hereunder or deemed reasonably necessary or advisable by legal counsel to YNHHSC.

9.3 Deliverables of YNHHSC at Closing. At Closing, YNHHSC shall deliver to L+M:

(a) A copy of the YNHHSC Amended Certificate of Incorporation, with evidence of filing thereof with the Secretary of the State;

(b) A copy of the YNHHSC Amended Bylaws, certified to be true and correct by the secretary or assistant secretary of YNHHSC;

(c) Certified resolutions of YNHHSC authorizing the transactions contemplated by this Affiliation Agreement;

(d) The Officer’s Certificate required by Section 7.3 hereof;

(e) An executed copy of the LMMG-NEMG Agreement and Plan of Merger in proper form for filing with the Secretary of State;

(f) A copy of the Amended and Restated Bylaws of NEMG and the Amended and Restated Certificate of Incorporation of NEMG, certified to be true and correct by the Secretary or Assistant Secretary of NEMG; and

(g) All other documents required to be delivered by the YNHHS hereunder or deemed reasonably necessary or advisable by legal counsel to L+M.

ARTICLE 10

LIMITATION OF REMEDIES

10.1 [Reserved]

10.2 [Reserved]

10.3 Exclusive Remedies.

(a) If this Agreement is terminated pursuant to Section 8.1(d) or Section 8.1(e) and a Party (the “**Defaulting Party**”) is determined by a final judgment of a court of competent jurisdiction to have breached or defaulted in respect of its representations and/or warranties hereunder in a manner that permits the other Party (the “**Non-Defaulting Party**”) to terminate this Agreement, then the Defaulting Party shall be liable to the Non-Defaulting Party for damages in an aggregate amount equal to the third party out-of-pocket transaction expenses expended by the Non-Defaulting Party in connection with the transactions contemplated by this Agreement up to a maximum amount of \$500,000 (Five Hundred Thousand Dollars) (the “**Third Party Expenses**”). If this Agreement is terminated pursuant to Section 8.1(d) or Section 8.1(e) due to a breach of Section 5.1 or Section 5.2, and the Defaulting Party is determined by a final judgment of a court of competent jurisdiction to have breached or defaulted in respect of its obligations under such covenants in a manner that permits the Non-Defaulting Party to terminate this Agreement, then the Defaulting Party shall be liable to the Non-Defaulting Party for damages in an aggregate amount equal to the sum of (i) the Third Party Expenses of the Non-Defaulting Party and (ii) a breakup fee (the “**Breakup Fee**”) in an aggregate amount equal to (A) \$5,000,000 (Five Million Dollars) if the Defaulting Party is L+M or (B) \$35,000,000 (Thirty Five Million Dollars) if the Defaulting Party is YNHHS. The Parties agree and confirm that the Breakup Fee is in the nature of liquidated damages, that the actual damages that would be suffered by a Party in the event of a breach or default by the other Party of Section 5.1 or 5.2 would be impossible to calculate and that the Breakup Fee does not constitute a penalty. In all other respects, the Parties hereto expressly waive and agree to forgo any and all rights to seek and obtain any form of monetary, economic or other damages (including actual, consequential, punitive and other forms of monetary or economic damages), and each of the Parties further agrees that each of the Parties will be solely entitled to injunctive relief to prevent a violation of this Agreement and to obtain specific performance to require adherence to the obligations created by this Affiliation Agreement.

(b) Before any Party brings legal action against the other Party (the “**Alleged Defaulting Party**”) for failure to perform in any material respect any of its obligations under this Agreement, the entity alleging the breach (the “**Alleging Party**”) will first give the Alleged Defaulting Party written notice setting forth such failure in reasonable detail and stating that the

Alleging Party requires such obligation to be performed, and will give the Alleged Defaulting Party the opportunity to perform such obligation in all material respects within sixty (60) days of its receipt of such notice, or such longer period as is necessary if for reasons outside the control of the Alleged Defaulting Party such obligation cannot be performed within such sixty (60) day period, so long as the Alleged Defaulting Party is continuing in good faith to use its best efforts to perform such obligation (provided that in no event will the provisions of this Section 10.3 override or extend the Outside Date provisions of Section 8.1(b)). If any legal action relating to the enforcement of this Agreement is brought by a Party against the other Party, the prevailing Party will be entitled to recover its reasonable costs, expenses and attorneys' fees.

(c) If the Closing shall occur, then each Party hereby waives and agrees not to assert any remedy that is in the nature of the rescission of this Agreement or the Affiliation.

ARTICLE 11

GENERAL PROVISIONS

11.1 Headings. The subject headings of the sections of this Affiliation Agreement are included for convenience only and shall not affect the construction or interpretation of any of its provisions.

11.2 Entire Agreement. This Affiliation Agreement, including any Exhibits or Disclosure Schedules, constitutes the entire agreement between the Parties regarding the terms of the Affiliation.

11.3 Third Party Beneficiaries. Except for intended third party beneficiaries expressly contemplated herein, nothing in this Affiliation Agreement, whether expressed or implied, is intended to confer any rights or remedies under or by reason of this Affiliation Agreement upon any persons other than the parties to it and their respective successors and assigns, nor is anything in this Affiliation Agreement intended to relieve or discharge any obligation or liability of any third persons to a party to this Affiliation Agreement, nor shall any provisions give any third parties any rights of subrogation or action against or with respect to a party to this Affiliation Agreement.

11.4 Notices. All notices, requests, demands, waivers, consents and other communications hereunder shall be in writing, shall be delivered either in person, by overnight air courier or by mail, and shall be deemed to have been duly given and to have become effective (a) upon receipt if delivered in person, (b) one business day after having been delivered to an air courier for overnight delivery, or (c) three (3) business days after having been deposited in the mail as certified or registered mail, return receipt requested, all fees prepaid, directed to the Party at the addresses listed below (or at such other address as shall be given in writing by a Party). A Party may change its address for purposes of this Section by giving the other Party written notice of the new address in the manner set forth in this Section 11.4.

If to YNHHS:

Yale-New Haven Health Services Corporation
789 Howard Avenue
New Haven, CT 06510
Attention: President and Chief Executive Officer

With a copy to:

Yale-New Haven Health Services Corporation
Legal & Risk Services Department
789 Howard Avenue, CB 230
New Haven, CT 06510
Attention: General Counsel

If to L+M:

Lawrence + Memorial Hospital
365 Montauk Avenue
New London, CT 06320
Attention: Chief Executive Officer

With a copy to:

Lawrence + Memorial Hospital
365 Montauk Avenue
New London, CT 06320
Attention: General Counsel

11.5 Counterparts. This Agreement may be executed in one or more counterparts, and when so executed each counterpart shall be deemed to be an original; said counterparts together shall constitute one and the same instrument. The transmission of an executed signature page of this Agreement or of any document, certificate, instrument or agreement required or contemplated to be executed and delivered hereby by facsimile or portable document format (.pdf) shall have the same effect as the delivery of a manually executed counterpart of this Agreement or of such document, certificate, instrument or agreement.

11.6 Assignment. Neither Party may assign or transfer any rights under this Affiliation Agreement without prior written consent of the other Party in its sole discretion.

11.7 Binding Effect. This Affiliation Agreement shall be binding upon and inure to the benefit of the Parties hereto. Each Party shall be responsible hereunder only for its own obligations and shall not be deemed to guarantee or otherwise have responsibility for the representations, acts or omissions of the other Party. Notwithstanding any assignment or delegation of rights or duties under this Affiliation Agreement by a Party that may be consented to by the other Party, no such assignment or delegation shall relieve the assigning Party of any obligation or liability under this Affiliation Agreement.

11.8 [Reserved]

11.9 Governing Law and Forum Selection. This Affiliation Agreement shall be interpreted and construed in accordance with the laws of the State of Connecticut, without regard to conflict of laws principles. Any action or proceeding between the parties relating to the Agreement must be brought in the courts of the State of Connecticut or the United States District Court for Connecticut. Each Party consents to the jurisdiction of such courts, agrees to accept service of process by mail, and waives all jurisdictional and venue defenses otherwise available to the Parties.

11.10 Severability. Should any provision of this Affiliation Agreement, or part thereof, be determined to be invalid for any reason, it shall be severed from this Affiliation Agreement and the remaining provisions of this Affiliation Agreement shall remain in full force and effect and shall be enforceable in accordance with its terms.

11.11 Cost of Transaction. Except as is otherwise provided in Sections 5.5 and 10.3, each Party shall pay the fees, expenses and disbursements of its own agents, representatives, accountants and counsel incurred in connection with the subject matter hereof and any amendments hereto.

11.12 Confidentiality. The Parties agree that any information submitted to or compiled by a Party in connection with this Agreement, including without limitation, which involves future plans or intentions, budgetary information, personnel records, patient records, marketing plans, financial statements, trade secrets, research concepts, methods or products or proprietary information belonging to or provided by third parties (the "**Confidential Information**") shall be confidential, except to the extent (i) the person or entity who provided such information consents to its disclosure or disclosure is required by law; (ii) is now or subsequently becomes generally available to the public through no fault of either Party; or (iii) can be demonstrated by either Party to be rightfully in its possession prior to receipt from the other Party in connection with the Affiliation. Each Party agrees that it shall maintain the confidentiality of all such Confidential Information delivered to it by the other Party or its agents in connection with the negotiation of this Affiliation Agreement or in compliance with the terms, conditions and covenants hereof and shall only disclose such Confidential Information to its duly authorized officers, members, trustees, directors, representatives and agents. For the avoidance of doubt, each Party's respective obligations with respect to any Confidential Information delivered to it by the other Party shall terminate as of the Closing; provided however, that each Party further agrees that if the transactions contemplated hereby are not consummated, it shall return all such Confidential Information and all copies thereof in its possession to the other Party to this Affiliation Agreement, each party shall instruct its agents and representatives to return or destroy any such material in its possession, and neither Party shall use the Confidential Information for its own benefit or the benefit of others except as specifically contemplated herein. Nothing in this Section, however, shall prohibit the use of such Confidential Information for such governmental filings as in the opinion of the counsel for a Party are (i) required by law or governmental regulations or (ii) otherwise appropriate. Each Party shall cause its Subsidiaries and its and their directors, trustees, officers, employees and agents to comply with this Section 11.12.

11.13 Public Announcements. The Parties mutually agree that they shall jointly develop a plan of communications concerning the transactions herein contemplated, and further that neither Party shall release, publish or otherwise make available to the public in any manner whatsoever any information or announcement regarding the transactions herein contemplated without the prior consent of the other Party, except for information or filings reasonably necessary to be directed to Governmental Authorities to fully and lawfully effect the transactions herein contemplated or required in connection with Applicable Laws. Nothing herein shall prohibit either Party from responding to questions presented by the press or media without first obtaining prior consent of the other Party hereto provided such responses are made in accordance with previously agreed upon communications.

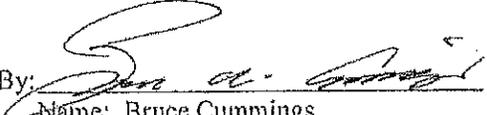

11.14 Survival. The provisions of Article 10 and Article 11 (other than Section 11.12 and Section 11.13) shall survive the Closing and any termination of this Affiliation Agreement. If the Closing shall occur, the provisions of Article 2 and Section 5.5 shall survive the Closing for a period equal to the Initial Period (provided that (i) the second sentence of Section 2.1.3, other than the proviso thereof, shall survive until the sixth anniversary of the Closing Date, as expressly contemplated thereby and (ii) the provisions of Section 2.13 shall survive for so long as the YSM Affiliation Agreement remains in effect).

EXHIBIT 1**Definitions**

“Affiliate” means, as to the entity in question and at the time of reference thereto, any Person that directly or indirectly controls, is controlled by, or is under common control with, the entity in question; and the term “control” means possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of an entity whether through ownership of voting securities, membership interests, by contract, the power to appoint directors or trustees or otherwise.

“Affiliation” has the meaning set forth in the introductory paragraph.

“Affiliation Agreement” has the meaning set forth in the introductory paragraph.

“Applicable L+M Budgets” means, in the case of an expenditure that is made, or a transaction entered into, by an L+M Affiliate during a given fiscal year, the capital and/or operating budget (as applicable) for such L+M Affiliate for such fiscal year described in Section 5.1.15.

“Applicable Law” means any constitution, law, ordinance, principle of common law, code, statute, act, treaty or order of general applicability of any Governmental Authority, including the rules and regulations promulgated thereunder.

“Associated Specialists” means Associated Specialists of Southeastern Connecticut, Inc., a Connecticut non-stock corporation.

“Closing” has the meaning set forth in Section 9.1.

“Closing Date” has the meaning set forth in Section 9.1.

“CMS” means the Centers for Medicare and Medicaid Services.

“Code” means the Internal Revenue Code of 1986, as amended.

“Collective Bargaining Agreement” has the meaning set forth in Section 3.16.1.

“Commercially Reasonable Best Efforts” means that the applicable Party will exert every reasonable effort and expend material amounts of resources in order to accomplish an objective, that the level of such efforts and expenditures shall be such as would be expended to achieve a fundamental business objective and shall be over and above the level that would be expended to achieve an ordinary course of business; provided however that Commercially Reasonable Best Efforts shall not require a Party to (i) expend extraordinary resources, (ii) agree to change its fundamental business organization, practices or relationships (such as, but not limited to, divesting of any material business activities or undertaking material restrictive covenants), or (iii) undertake administrative proceedings, judicial action or litigation in order to achieve an objective.

“CON Filing” means the filings, application and process by and pursuant to which Certificate of Need authorization is requested from OHCA and any other Governmental Authority with respect to this Affiliation Agreement and the transactions contemplated hereunder.

“Confidential Information” has the meaning set forth in Section 11.12.

“Consents and Approvals” means the consent to or approval of the Affiliation by any Governmental Authorities and other third parties.

“Contract(s)” means all rights, benefits and interests of any Person in, to and under all contracts relating to the conduct of their respective businesses, including, without limitation, physician agreements, agreements with third party payors, joint venture or partnership agreements, supply purchase agreements, employment agreements, equipment leases, equipment maintenance agreements, agreements with municipalities and labor organizations, settlement agreements, loan agreements, bonds, mortgages, liens or other security agreements, but excluding the Leases.

“Cost Reports” means all cost and other reports related to any Person filed within the last three years pursuant to the requirements of the Government Payer programs for cost-based payments or reimbursement due to or claimed by such Person from the Government Reimbursement Programs or their fiscal intermediaries or payor agents, including all cost report receivables or payables and all related appeals and appeal rights and other forms or claims filed or submitted by such Person to the Government Payer programs or their fiscal intermediaries or payor agents for payment or reimbursement due to or claimed by such Person on a fee-for-service, prospective payment, fee schedule or other similar basis.

“Covered Person” means a current or former employee, officer, director or consultant of an L+M Affiliate.

“Covered Transaction” means any (i) acquisition or disposition by any L+M Affiliate of a material line of business or of the equity or assets of such L+M Affiliate to or with an entity that is not an L+M Affiliate as of the date of this Affiliation Agreement, in each case other than acquisitions of physician practices, which shall be governed by item (ii) below; (ii) acquisition of a physician practice by an L+M Affiliate that involves more than eight (8) employed physicians; (iii) contracting with an unrelated third party for the management of all or substantially all of the assets or operations of an L+M Affiliate; (iv) entering into a contract for the management of a clinical service line of any L+M Affiliate if (A) such L+M Affiliate does not contract with the manager of such clinical service line for the management of such clinical service line as of the Effective Date or (B) the non-cancellable term of such contract is more than three (3) years; or (v) any new relationships or agreements for graduate medical education or any material amendments to or terminations of existing agreements for graduate medical education programs.

“DEEP” means the Connecticut Department of Energy and Environmental Protection.

“Disclosure Schedule” means the disclosure schedule, dated as of the date hereof, that is attached hereto and incorporated in and made a part of this Affiliation Agreement, as updated by any Schedule Supplement.

“**DPH**” means the Connecticut Department of Public Health.

“**Due Diligence Information**” means the information disclosed by YNHHS to L+M and the information disclosed by L+M to YNHHS pursuant to due diligence request lists provided by each Party to the other Party prior to the date of this Affiliation Agreement.

“**Effective Date**” has the meaning set forth in the introductory paragraph.

“**Employee Benefit Plan**” means any “employee benefit plan” (as such term is defined in ERISA §3(3)) and any other employee benefit plan, program or arrangement.

“**Environmental Claim**” means with respect to any party, any claim, action, cause of action, investigation or notice (written or oral) by any Governmental Authority or third party alleging potential Liability (including, without limitation, potential Liability for investigatory costs, cleanup costs, governmental response costs, natural resources damages, property damages, personal injuries or penalties) against such party arising out of, based on or resulting from (a) the presence, or release into the environment, of any Hazardous Substances at any location, owned, occupied or operated by such party at any time, or (b) any violation, or alleged violation, of any Environmental, Health or Safety Requirement by such party.

“**Environmental Condition**” means (i) the presence of, spills of, leaks of, emissions of, disposal of, discharge of, release of or threatened release to the environment, prior to the Closing Date, of Hazardous Substances on, in, under, originating from or emanating from the Owned Real Property or the Leased Real Property in violation of Environmental, Health, and Safety Requirements, including any migration of those Hazardous Substances through the air, soil or groundwater, and (ii) any claim, prior to the Closing Date, for injury to, destruction of, damage to or loss of natural resources, including reasonable costs of assessing such injury, destruction or loss relating to the acts or omissions of the L+M Affiliates prior to or on the Closing Date.

“**Environmental, Health, and Safety Requirements**” means all applicable federal, state, local, and foreign statutes, laws, rules, regulations, codes, ordinances, standards, guidelines, authorizations and orders of any federal, state or local public agency or authority that deal with Solid Waste, toxic or hazardous waste, wastewater discharges, water quality, drinking water, air emissions, air quality, lead-based paint or employee health, safety or community right-to-know, or otherwise concerning public health and safety, worker health and safety, pollution, or protection of the environment, including all those relating to the presence, use, production, generation, handling, transportation, treatment, storage, disposal, distribution, labeling, testing, processing, discharge, release, threatened release, control, or cleanup of any Hazardous Substances (including Medical Hazards), as such requirements are enacted and in effect on or prior to the Closing Date, provided that Environmental Health and Safety Requirements shall not include Health Care Laws.

“**ERISA**” means the Employee Retirement Income Security Act of 1974, as amended.

“**ERISA Affiliate**” means a trade or business, whether or not incorporated, which is deemed to be in common control or affiliated with L+M within the meaning of Section 414(b)(c)(m) or (o) of the Code.

“**GAAP**” means generally accepted accounting principles in the United States.

“**Government Reimbursement Programs**” means the Medicare program, the Connecticut Medicaid program, the federal TRICARE program, and any other, similar or successor federal, state or local health care payment programs with or sponsored by Governmental Authorities, including without limitation, current federal and Connecticut disproportionate share “DSH” reimbursement or adjustments applicable to any Person, and federal reimbursement or adjustments for or related to any of the Parties graduate medical education programs.

“**Governmental Authority**” means any federal, state, local or any foreign governmental unit, agency, commission or authority.

“**Governmental Payer**” means any Governmental Authority that provides reimbursement for health care services, including but not limited to Medicare, Medicaid, CHAMPUS, TRICARE and other federal, state and local reimbursement and payment programs.

“**Guarantee**” by any Person means any obligation, contingent or otherwise, of such Person directly or indirectly guaranteeing or otherwise supporting in whole or in part the payment of any Indebtedness or other obligation of any other Person and, without limiting the generality of the foregoing, any obligation, direct or indirect, contingent or otherwise, of such Person (a) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness or other obligation of such other Person (whether arising by virtue of partnership arrangements, by agreements to keep well, to purchase assets, goods, securities or services, to take or pay, or to maintain financial statement conditions or otherwise) or (b) entered into for the purpose of assuring in any other manner the obligee of such Indebtedness or other obligations of the payment of such Indebtedness or to protect such obligee against loss in respect of such Indebtedness (in whole or in part). The term “Guarantee” used as a verb has a correlative meaning.

“**Hart-Scott-Rodino Act**” means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations promulgated thereunder.

“**Hazardous Substances**” means asbestos, radioactive substances, radon, PCBs, petroleum, Medical Hazards and any chemical, substance or material that is listed or regulated under Environmental, Health, and Safety Requirements as a hazardous or toxic substance, material, chemical substance, pollutant, waste, pesticide or fungicide or that under Environmental, Health, and Safety Requirements requires special handling or notification of any federal, state or local governmental agency or authority in its collection, storage, treatment, recycling or disposal.

“**Health Care Fraud and Abuse Laws**” has the meaning set forth in Section 3.9.1.

“**Health Care Laws**” means, collectively, any and all federal, state or local statutes, rules, regulations and administrative manuals, orders, guidelines and requirements of law of any Governmental Authority governing the licensure of or regulating healthcare providers, professionals, facilities or payors or otherwise governing or regulating the provision of, or payment for, healthcare services, the sale of controlled substances or other pharmaceuticals, medical devices or supplies and the like. Without limiting the generality of the foregoing, Health

Care Laws include, without limitation, state corporate practice of medicine laws, statutes and regulations, Section 1128B(b) of the Social Security Act, as amended, 42 U.S.C. Section 1320a 7(b) (Criminal Penalties Involving Medicare or State Health Care Programs), commonly referred to as the “Federal Anti-Kickback Statute,” Section 1877 of the Social Security Act, as amended, 42 U.S.C. Section 1395nn and related regulations (Prohibition Against Certain Referrals), commonly referred to as “Stark Law,” the federal False Claims Act, 31 U.S.C. Section 3729 *et seq.*, corresponding state laws and other state and federal fraud and abuse laws.

“**Health Information Laws**” has the meaning set forth in Section 3.24.1.

“**HIPAA Regulations**” has the meaning set forth in Section 3.24.1.

“**Hospital Members**” shall mean each acute care hospital that is a YNHHSC Obligated Group Member.

“**Indebtedness**” of any Person means either (a) any liability of such Person (i) for borrowed money (including the current portion thereof), (ii) under any reimbursement obligation relating to a letter of credit, bankers’ acceptance or note purchase facility, (iii) evidenced by a bond, note, debenture or similar instrument (including a purchase money obligation), (iv) for the payment of money relating to any lease that is required to be classified as a capitalized lease obligation in accordance with GAAP, (v) for all or any part of the deferred purchase price of property or services (other than trade or accounts payables), including any “earnout” or similar payments or any noncompete payments, (vi) under interest rate swap, hedging or similar agreements or (vii) for any credit card payables with respect to charges having a transaction date of thirty (30) days or more prior to the Closing Date or related to non-business related activities; or (b) any liability of others described in the preceding clause (a) that such Person has Guaranteed, that is recourse to such Person or any of its assets or that is otherwise its legal liability or that is secured in whole or in part by the assets of such Person.

“**Initial Period**” means the period from the Closing Date to the fifth anniversary of the Closing Date.

“**Intellectual Property**” means all intellectual property rights of any kind, throughout the world, all rights of privacy and rights to personal information, all telephone numbers and Internet protocol addresses, all documentation and media constituting, describing or relating to the above, including memoranda, manuals, technical specifications and other records wherever created throughout the world, all rights in the foregoing and in other similar intangible assets, and all rights and remedies (including the right to sue for and recover damages, profits and any other remedy for past, present, or future infringement, misappropriation or other violation relating to any of the foregoing.

“**IRB**” has the meaning set forth in Section 3.30.

“**IRS List of Exempt Organizations**” has the meaning set forth in Section 3.10.7.

“**Joint Commission**” has the meaning set forth in Section 3.9.5(b).

“Key Financial Metrics” means the metrics set forth on Exhibit 2.11 as the targets associated with such metrics are revised and updated in a mutually agreed-upon manner at Closing based upon the development of mutually-agreed upon investment business plans, the five-year strategic plan referred to in Section 2.12 and the financial condition and results of operations of the L+M Affiliates as of the Closing Date.

“Knowledge” shall, with respect to the particular provision it qualifies, mean (a) with respect to an L+M Affiliate, the actual knowledge of the president and/or chief executive officer or the chief financial officer of L+M, including, with respect to each, what he or she knows or should know in the exercise of his or her duties in the course of employment with L+M or a L+M Affiliate or as the result of due inquiry of the president and/or chief executive officer and chief financial officer of each L+M Subsidiary, or (b) with respect to YNHHS, the actual knowledge of the president and chief executive officer or the chief financial officer of YNHHS, including, with respect to each, what he or she knows or should know in the exercise of his or her duties in the course of employment with YNHHS or as the result of due inquiry of the president and/or chief executive officer and chief financial officer of each YNHHS Subsidiary.

“L+M” has the meaning set forth in the introductory paragraph.

“L+M 2014 Audited Financial Statements” has the meaning set forth in Section 3.7.

“L+M Activities” means the business of each applicable L+M Affiliate, as the context may require.

“L+M Affiliates” means L+M and each L+M Subsidiary, including without limitation, LMH, LMW, LMMG, L+M Systems, Inc., VNA of Southeastern Connecticut, L+M HealthCare, Inc. and L&M Indemnity Company Ltd.

“L+M Amended Bylaws” has the meaning set forth in Section 2.1.1.

“L+M Amended Certificate of Incorporation” has the meaning set forth in Section 2.1.1.

“L+M Bondholders” means the holders of the L+M Tax-Exempt Bonds.

“L+M Corporate Transaction” has the meaning set forth in Section 5.1.11.

“L+M Determination Letters” has the meaning set forth in Section 3.10.7.

“L+M Financial Statements” has the meaning set forth in Section 3.7.

“L+M Interim Financial Statements” has the meaning set forth in Section 3.7.

“L+M Leased Real Property” has the meaning set forth in Section 3.5.2.

“L+M Master Trust Indenture” means that certain Master Trust Indenture, dated as of February 1, 1990, by and between the L+M Obligated Group and U.S Bank National Association, as successor master trustee, as amended and supplemented from time to time.

“L+M Material Adverse Effect” means any occurrence, condition, change, development, circumstance, effect, event or fact, occurring after the Effective Date (a “Matter”), that individually or in the aggregate, would be reasonably expected to have a monetary effect on L+M and the L+M Affiliates taken as a whole that would exceed the L+M Materiality Threshold, or such an effect that prevents L+M or any L+M Affiliate from performing its material obligations under, or from consummating the transactions contemplated by, this Affiliation Agreement. Notwithstanding anything herein to the contrary, “L+M Material Adverse Effect” shall be deemed not to include, and a L+M Material Adverse Effect shall not be deemed to have resulted from or arisen out of: (i) any reduction in the rates of reimbursement or payment received by L+M or any L+M Affiliate under any Government Reimbursement Program that affects similarly situated providers similarly, (ii) any Matter specifically disclosed on the Disclosure Schedules at the Effective Date; (iii) [reserved]; (iv) the public announcement of this Affiliation Agreement, compliance with terms of this Affiliation Agreement or the consummation of the Affiliation; (v) any Matter, to the extent affecting (A) global or national or regional economic, business, regulatory, market or political conditions or national financial markets, (B) the healthcare industry generally or such industry in Connecticut or Rhode Island, or (C) the hospital business generally or in Connecticut or Rhode Island; (vi) any changes or any proposed changes in law or governmental programs after the Effective Date that are not directed at L+M or YNHHS, in each instance to the exclusion of others; (vii) [reserved]; (viii) any increase in competitive activity by other health care providers in L+M’s service area; (ix) [reserved]; or (x) any action taken by L+M at the direction of, or with the prior written consent of, YNHHS.

“L+M Materiality Threshold” means a dollar amount equal to \$50,000,000 (Fifty Million Dollars).

“L+M Obligated Group” means the obligated group consisting of L+M and LMH.

“L+M Permits” has the meaning set forth in Section 3.9.5.1.

“L+M Plans” has the meaning set forth in Section 3.17.1.

“L+M Provider Subsidiaries” means the L+M Subsidiaries that are licensed providers of clinical services (individually or collectively as the context shall require).

“L+M Real Property” means the Owned Real Property and the L+M Leased Real Property.

“L+M Real Property Leases” has the meaning set forth in Section 3.5.2.

“L+M Subsidiaries Amended Bylaws” has the meaning set forth in Section 2.1.5.

“L+M Subsidiaries Amended Certificates of Incorporation” has the meaning set forth in Section 2.1.5.

“L+M Tax-Exempt Bonds” means the State of Connecticut Health and Educational Facilities Authority Revenue Bonds Lawrence + Memorial Issue, Series F, Series G and Series H.

“L+M Subsidiary” means each Subsidiary of L+M and each direct or indirect Subsidiary of any such Subsidiary.

“Leases” means all rights, benefits and interests of L+M or any L+M Affiliate, as the case may be, as the lessor, lessee or sublessee, as the case may be, in, to or under any lease or sublease relating to real property.

“Liability” or **“Liabilities”** means debts, obligations, contracts or other liabilities of any kind, character or description, accrued, absolute, contingent, determined, determinable or otherwise, whether presently in existence or arising hereafter.

“Lien” or **“Encumbrance”** means any lien, pledge, claim, liability, interest, restriction or other encumbrance.

“Litigation or Proceedings” has the meaning set forth in Section 3.15.1.

“LMH” means Lawrence + Memorial Hospital, Inc., a Connecticut non-stock corporation.

“LMH Amended Bylaws” has the meaning set forth in Section 2.1.5(a).

“LMH Amended Certificate of Incorporation” has the meaning set forth in Section 2.1.5(a).

“LMW” means LMW Healthcare, Inc., a Rhode Island nonprofit corporation doing business as Westerly Hospital.

“LMW Acquisition Related Obligations” means those specific obligations undertaken by Lawrence + Memorial Corporation, LMW Healthcare, Inc. and LMW Physicians, Inc., a Rhode Island nonprofit corporation (**“LMW Physicians”**) that expressly relate to the management and operation of The Westerly Hospital and Related Entities, as such term is defined in those provisions of the following documents under which LMW has ongoing obligations:

i. As set forth in that certain Asset Purchase Agreement, as amended, made as of June 20, 2012, by and among W. Mark Russo, Esq., solely in his capacity as the court-appointed

Special Master (the “*Special Master*”) for Westerly Hospital Healthcare, Inc., The Westerly Hospital, Atlantic Medical Group, Inc., Ocean Myst, MSO, LLC, Women’s Health of Westerly, LLC, and North Stonington Health Center, Inc. and LMW Healthcare, Inc., a Rhode Island nonprofit corporation, and LMW Physicians, Inc., a Rhode Island nonprofit corporation (the “*Westerly Agreement*”).

ii. As set forth in the Order Approving the Sale of Assets of The Westerly Hospital and The Related Entities Free and Clear of Liens and Liabilities in the case of *Charles S. Kinney, Chief Executive and Trustee v. Westerly Hospital Healthcare, Inc., The Westerly Hospital, Atlantic Medical Group, Inc., Ocean Myst, MSO LLC, Women’s Health of Westerly, LLC and North Stonington Health Center, Inc.*, C.A. No. 2011-0781, dated as of September 10, 2012.

iii. As set forth in the Decision of the State of Rhode Island Department of Attorney General, dated as of April 17, 2013, *In Re: Expedited Review Hospital Conversion Initial Application of Westerly Hospital Healthcare, Inc., The Westerly Hospital, LMW Healthcare Inc., LMW Physicians, Inc., and Lawrence + Memorial Corporation.*

iv. As set forth in the Report of the Committee of the Health Services Council on the application of Lawrence & Memorial Corporation for change in effective control of The Westerly Hospital, dated as of April 9, 2013.

v. As set forth in the Amended Decision with Conditions regarding the Affiliation of Westerly Hospital Health Care Inc., The Westerly Hospital and Lawrence + Memorial Corporation, LMW Healthcare, Inc., and LMW Physicians, Inc. Under the Hospital Conversion Act of Rhode Island by the Rhode Island Department of Health, dated as of April 16, 2013.

vi. As set forth in the Consent Order Regarding Post-Closing Items in the case of *Charles S. Kinney, Chief Executive and Trustee v. Westerly Hospital Healthcare, Inc., The Westerly Hospital, Atlantic Medical Group, Inc., Ocean Myst, MSO LLC, Women’s Health of Westerly, LLC and North Stonington Health Center, Inc.*, C.A. No. 2011-0781, dated as of May 23, 2014.

“*LMW Amended Bylaws*” has the meaning set forth in Section 2.1.5(b).

“*LMW Amended Certificate of Incorporation*” has the meaning set forth in Section 2.1.5(b).

“*LMW Medical Staff Bylaws*” has the meaning set forth in Section 2.6.

“*LMW Physicians*” has the meaning set forth in the definition of LMW Acquisition-Related Obligations.

“*Material Adverse Effect*” means an L+M Material Adverse Effect or a YNHHS Material Adverse Effect, as the context shall require.

“*Material Contracts*” means, any Contract of a Party or a direct or indirect Subsidiary of a Party that is a:

a) Contract under which debt for borrowed money has been or can be incurred in excess of \$500,000 (other than contracts described in the L+M 2014 Audited Financial Statements or the YNHHS 2014 Audited Financial Statements, as applicable, true, correct and complete copies of which have been delivered by the applicable Party to the other Party);

b) Capital lease for real property or equipment under which the annual obligations payable by the lessee exceed (i) \$500,000 in the case of L+M or any L+M Subsidiary or (ii) \$3,500,000 in the case of YNHHS or any YNHHS Subsidiary;

c) Contract with a third party payor under which during the last full fiscal year of such Party payments were made by the third party payor in excess of (i) \$2,000,000 in the case of L+M or any L+M Subsidiary or (ii) \$14,000,000 in the case of YNHHS or any YNHHS Subsidiary;

d) Academic or clinical affiliation agreement (other than agreements with Yale University) for medical education for residents, fellows, medical students and/or physician's assistants at the undergraduate or graduate level;

e) Grant agreement under which during the last full fiscal year of such Party such Party or such Subsidiary of a Party received payments in excess of (i) \$1,000,000 in the case of L+M or any L+M Subsidiary or (ii) \$7,000,000 in the case of YNHHS or any YNHHS Subsidiary;

f) Contract under which such Party or such Subsidiary guarantees the performance or payment obligations of a third party (i.e. a Person other than such Party or a Subsidiary thereof);

g) Contract that limits the freedom of such Party or such Subsidiary to conduct business;

h) Contract (other than a contract for the purchase of supplies, equipment, or software) under which the value of the obligations of such Party and its Subsidiaries, taken as a whole, exceeds (i) \$2,000,000 annually in the case of L+M or any L+M Subsidiary or (ii) \$14,000,000 annually in the case of YNHHS or any YNHHS Subsidiary; or

i) Any primary or excess professional or general liability insurance policy.

“Medical Hazards” means all biological and chemical materials that under applicable Environmental, Health, and Safety Requirements or industry standards are required to be handled in accordance with certain procedures, and all other materials that may contain or be contaminated with such biological or chemical materials, and all devices or materials that could puncture or cut the skin (including, without limitation, those commonly known as “sharps”).

“NEMG” means Northeast Medical Group Inc., a Connecticut nonstock corporation of which YNHHS is the sole member.

“OHCA” means the Office of Health Care Access of the State of Connecticut.

“**OHRP**” has the meaning set forth in Section 3.30.

“**Owned Real Property**” means any real property in which any L+M Affiliate owns a fee interest.

“**Party**” and “**Parties**” have the meanings set forth in the introductory paragraph.

“**Payer Programs**” means collectively, Third Party Payers and Governmental Payers.

“**Permits**” means any licenses, approvals, permits, orders, registrations, certificates, variances, and similar rights obtained from any Governmental Authority.

“**Permitted Encumbrances**” means (a) Liens or Encumbrances created by YNHHS, (b) Liens or Encumbrances for Taxes, assessments or other similar governmental charges which are not due and payable as of the Closing Date, (c) as to real property, Liens, Encumbrances, covenants, restrictions, utility easements and agreements of record, and encroachments that do not render title unmarketable or materially and adversely affect the applicable owner’s ability to use such Real Property for its current use, (d) Liens and Encumbrances set forth on Schedule 3.5.1 hereof, (e) Liens and Encumbrances which shall be satisfied in full and discharged of record by L+M on or prior to the Closing, (f) the Leases and Contracts that exist as of the date hereof and such Leases and Contracts that are entered into, modified or renewed after the date hereof not in violation of this Affiliation Agreement; (g) all violations of building, fire, sanitary, environmental, housing and such other laws, regulations and ordinances; (h) all matters of record superior to the Leases pursuant to which an L+M Affiliate is a tenant; and (i) all laws, regulations and ordinances including, without limitation, all environmental, building and zoning restrictions affecting the Owned Real Property or the ownership, use or operation thereof adopted by any governmental authority having jurisdiction over the Owned Real Property or the ownership, use or operation thereof, and all amendments or additions thereto now in effect or which may be in force or effect on the Closing Date.

“**Person**” means any individual, sole proprietorship, partnership, corporation, limited liability company, limited partnership, joint venture, unincorporated society or association, trust, estate or other entity or organization, or any division of such Person.

“**Personal Property**” means tangible personal property (including, without limitation, equipment, fixtures, vehicles, furniture, tools, furnishings, machinery, instruments, spare parts, supplies, pharmaceuticals and inventory).

“**Physician**” means any licensed doctor of medicine or osteopathy, doctor of dental surgery or dental medicine, doctor of podiatric medicine, doctor of optometry or chiropractor, or any group, partnership, corporation, of whatever form, made up of one more such persons.

“**Principal Properties**” shall have the meaning assigned to that term in Section 3.5.

“**Protected Health Information**” shall have the meaning assigned to that term in Section 103 of 45 C.F.R. Part 160.

“Rating Agencies” means Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc., Moody’s Investors Service, Inc., Fitch Inc., their successor and assigns, and such other nationally recognized securities rating agency as shall have awarded a rating to the Obligations (as defined in the YNHHS Master Trust Indenture).

“Reimbursement Claims” has the meaning set forth in Section 3.28.

“Remediation” means any or all of the following activities to the extent they relate to or arise from the presence of Hazardous Substances or any Environmental Condition: (1) the monitoring, investigation, assessment, treatment, cleanup, containment, removal, mitigation, response or restoration work; (2) obtaining any Permits, consents, approvals or authorizations of any Governmental Authority necessary to conduct any such activity; (3) preparing and implementing any plans or studies for any such activity; (4) obtaining a written notice from a Governmental Authority with jurisdiction over the Hazardous Substances or Environmental Condition under the Environmental, Health, and Safety Requirements that no additional work is required by such Governmental Authority; and (5) any other activities reasonably determined by a Person to be necessary or appropriate or required under the Environmental, Health, and Safety Requirements to address the presence of Hazardous Substances or the Environmental Condition.

“RIDOH” means the Department of Health, Office of Health Systems Development, of the State of Rhode Island.

“Safe Harbor Management Contract” means a contract or arrangement that satisfies the “safe harbors” set forth in IRS Rev. Proc. 97-13, as amended or supplemented.

“Schedule Supplement” has the meaning set forth in Section 5.3.

“Secretary of State” means the Secretary of the State of the State of Connecticut or Rhode Island, as the context may require.

“Solid Waste” means any substance deemed under any applicable federal or state law or regulations as waste.

“Solvent” or **“Solvency”** means, with respect to either Party: (a) the fair value of entity’s assets exceeds the fair value of the entity’s liabilities, including contingent liabilities; (b) neither Party has, and is not incurring debts or liabilities beyond its respective ability to pay as such debts and liabilities mature; (c) each Party is generally able to pay its debts as they become due and payable and are, in fact, paying such debts as they become due and payable; and (d) neither Party is engaged in a business or transaction, and is not about to engage in a business or transaction, for which either Party’s property would constitute unreasonably small capital to carry on its businesses as it is then conducted. The amount of contingent liabilities at any time shall be computed as the amount that, in light of all the facts and circumstances existing at the time, represents the amount that can reasonably be expected to become an actual or matured liability. If at any time in the future a Party projects that it will be in non-payment default with respect to debt for borrowed money, it shall be assumed that such non-payment default will not result in the acceleration of such debt.

“*Special Master*” has the meaning set forth in the definition of LMW Acquisition-Related Obligations.

“*Subsidiary*” means at the time of reference thereto (i) any corporation with respect to which a specified Person owns a majority of the common stock or membership rights or has the power to vote or direct the voting of sufficient securities or membership rights to elect a majority of the directors (or Persons performing similar functions), (ii) any corporation with respect to which a specified Person is a member and has the right to exercise reserved power or authorities, (iii) any corporation a majority of the governing board of which is made up of persons who are also members of the governing board of the specified Person and (iv) any entity of which a specified Person is a 50% or more beneficial owner.

“*Tax*” or “*Taxes*” means all taxes, fees, levies or other assessments imposed by the United States or any state, country, local or foreign government or subdivision or agency thereof, including, without limitation, income, gross receipts, excise, real and personal property, premiums, municipal, capital, value-added, goods and services, consumption, sales, transfer, license, payroll and franchise taxes, and such term shall include any interest, penalties or additions to tax attributable to such taxes, fees, levies or other assessments.

“*Tax Returns*” means any report, return or other information required to be supplied to any federal, state or local taxing authority in connection with Taxes.

“*Third Party Expenses*” has the meaning set forth in Section 10.3.

“*Third Party Payer*” means any commercial or non-profit entity that provides reimbursement for health care services, including but not limited to, health maintenance organizations, preferred provider organizations, accountable care organizations, health benefit plans, insurers, health insurance plans, third party administrators, workers’ compensation, auto insurance and other third party reimbursement and payment programs.

“*Transfer Act*” means the Transfer Act of the State of Connecticut, Conn. Gen. Stat. §§22a-134 *et seq.*

“*VNA of Southeastern Connecticut*” means Visiting Nurse Association of Southeastern Connecticut Inc., a Connecticut non-stock corporation.

“*VNA of Southeastern Connecticut Amended Bylaws*” has the meaning set forth in Section 2.1.5(c).

“*VNA of Southeastern Connecticut Amended Certificate of Incorporation*” has the meaning set forth in Section 2.1.5(c).

“*Westerly Agreement*” has the meaning set forth in the definition of LMW Acquisition-Related Obligations.

“Yale New Haven Health System” means the health system comprised of YNHHS and the YNHHS Subsidiaries.

“YNHHS” has the meaning set forth in the introductory paragraph.

“YNHHS 2014 Bond Disclosure Documents” means (i) the official statement, dated May 29, 2014, of the State of Connecticut Health and Education Facilities Authority with respect to the YNHHS Tax-Exempt Bonds, (ii) the private placement memorandum, dated May 29, 2014, of YNHHS with respect to its Taxable Bonds, Series 2014, and (iii) the continuing disclosure notifications filed on behalf of YNHHS pursuant to the Electronic Municipal Market Access system administered by the Municipal Securities Rulemaking Board.

“YNHHS 2014 Audited Financial Statements” has the meaning set forth in Section 4.7.

“YNHHS Activities” means the business activities of each of the YNHHS Affiliates, as the context may require.

“YNHHS Affiliates” means YNHHS and all of its Subsidiaries.

“YNHHS Amended Bylaws” has the meaning set forth in Section 2.1.3.

“YNHHS Amended Certificate of Incorporation” has the meaning set forth in Section 2.1.3.

“YNHHS Change of Control” means any transaction as a result of which (i) any entity other than Yale University and the Hospital Members has the right to appoint a majority of the board of trustees of YNHHS or (ii) any entity or entities other than Yale University or one or more YNHHS Affiliates becomes a corporate member of YNHHS.

“YNHHS Determination Letters” has the meaning set forth in Section 4.10.7.

“YNHHS Financial Statements” has the meaning set forth in Section 4.7.

“YNHHS Interim Financial Statements” has the meaning set forth in Section 4.7.

“YNHHS Leased Real Property” has the meaning set forth in Section 4.5.3.

“YNHHS Master Trust Indenture” means that certain Master Trust Indenture (Security Agreement), dated as of February 1, 2013 and effective on June 23, 2014 among the YNHHS Obligated Group and U.S. Bank National Association, as Master Trustee, as it may be supplemented from time to time.

“YNHHS Material Adverse Effect” means any occurrence, condition, change, development, circumstance, effect, event or fact, occurring after the Effective Date (a **“Matter”**), that individually or in the aggregate, would be reasonably expected to have a monetary effect on YNHHS and the YNHHS Obligated Group members, taken as a whole, that would exceed the YNHHS Materiality Threshold, or such an effect that prevents YNHHS or on the YNHHS

Obligated Group from performing its material obligations under, or from consummating the transactions contemplated by, this Affiliation Agreement. Notwithstanding anything herein to the contrary, “YNHHSC Material Adverse Effect” shall be deemed not to include, and a YNHHSC Material Adverse Effect shall not be deemed to have resulted from or arisen out of (i) any reduction in the rates of reimbursement or payment received by YNHHSC or any YNHHSC Obligated Group Member under any Government Reimbursement Program that affects similarly situated providers similarly; (ii) any Matter specifically disclosed on the Disclosure Schedules at the Effective Date; (iii) [reserved]; (iv) the public announcement of this Affiliation Agreement, compliance with terms of this Affiliation Agreement or the consummation of the Affiliation; (v) any Matter, to the extent affecting (A) global or national or regional economic, business, regulatory, market or political conditions or national financial markets, (B) the healthcare industry generally or such industry in Connecticut, or (C) the hospital business generally or in Connecticut; (vi) any changes or any proposed changes in law after the Effective Date that are not directed at L+M or YNHHSC, in each instance to the exclusion of others; (vii) [reserved]; or (viii) [reserved].

“**YNHHSC Materiality Threshold**” means a dollar amount equal to \$350,000,000 (Three Hundred Fifty Million Dollars).

“**YNHHSC Obligated Group**” means the members, as of a given date, of the Obligated Group (as such term is defined in the YNHHSC Master Trust Indenture) pursuant to the YNHHSC Master Trust Indenture.

“**YNHHSC Obligated Group Agreement**” means the obligated group agreement, dated as of June 23, 2014 by and among YNHHSC and the other members of the YNHHSC Obligated Group.

“**YNHHSC Obligated Group Bonds**” means the YNHHSC Tax-Exempt Bonds and the Yale New Haven Health Taxable Bonds Series 2014.

“**YNHHSC Obligated Group Member**” means each member, as of the date of reference thereto, of the YNHHSC Obligated Group.

“**YNHHSC Obligated Group Policies**” has the meaning ascribed to the term “OGA Policies” in the YNHHSC Obligated Group Agreement.

“**YNHHSC Owned Real Property**” has the meaning set forth in Section 4.5.2.

“**YNHHSC Permits**” has the meaning set forth in Section 4.9.5(a).

“**YNHHSC Plans**” has the meaning set forth in Section 4.15.

“**YNHHSC Real Property**” has the meaning set forth in Section 4.5.3.

“**YNHH Real Property Leases**” has the meaning set forth in Section 4.5.3.

“**YNHHSC Subsidiary**” means each Subsidiary of YNHHSC and each direct or indirect Subsidiary of any such Subsidiary.

“YNHHSC Tax Exempt Bonds” means the State of Connecticut Health and Educational Facilities Authority Revenue Bonds, Yale New Haven Health Issue, Series A, Series B, Series C, Series D and Series E.

“YSM Affiliation Agreement” means the Affiliation Agreement, dated as of June 25, 1999, by and between Yale University and YNHHSC, as the same may be amended from time to time.

Exhibit 2.1.1(A)

L+M Amended Certificate of Incorporation

Amended and Restated
Certificate of Incorporation
of

Lawrence + Memorial Corporation

Section 1. The name of the corporation is Lawrence + Memorial Corporation (the "Corporation").

Section 2. The Corporation is organized and shall be operated exclusively for charitable, scientific and educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as the same may be amended from time to time, and the corresponding provisions of any future United States Internal Revenue Law (the "Code"). The Corporation shall serve as the parent corporation of a network of health care affiliates in southeastern Connecticut and Rhode Island (the "L+M Network"), and the nature of the activities to be conducted, or the purposes to be promoted or carried out by the Corporation are as follows:

- (a) To benefit, perform the functions of, carry out the purposes of, and uphold, promote, develop and further the welfare, programs and activities of the entities affiliated with the L+M Network (the "L+M Entities"), including the following:
 - (i) initiating, developing, recommending and carrying out for the L+M Entities goals and priorities for new or expanded programs for the benefit of the L+M Network and the communities served by the L+M Network;
 - (ii) continuously reevaluating, maintaining and revising a master plan for the programs and facilities of the L+M Network;
 - (iii) considering and recommending the acquisition of properties or the construction of facilities by or for the use of the L+M Entities;
 - (iv) planning for the acquisition and placement of new facilities and equipment by or for the use of the L+M Entities; and
 - (v) performing public relations work on behalf of the L+M Network, and soliciting and receiving subscriptions and gifts for the exclusively charitable purposes of the L+M Entities.
- (b) To initiate, develop, operate and maintain, for the L+M Network and for other hospitals and health care facilities which are not part of the L+M Network, programs directed toward improving the efficiency of utilization of health care facilities and services in the States of Connecticut and Rhode Island, and in New

London County and surrounding areas in particular, and reducing the cost of health care to the public while maintaining a high quality of such care;

- (c) To initiate, develop, operate and maintain educational programs for health professionals and for the public, including programs of nursing education, continuing medical education, residency training and community health education;
- (d) To initiate, develop and maintain, in cooperation with the L+M Entities and with other hospitals and health care facilities, and operate directly or through one or more separate corporations, programs for the delivery of health care services to persons other than hospital patients;
- (e) To acquire, improve, hold and lease to the L+M Entities and to other hospitals and health care facilities any real or personal property useful to the accomplishment of the purposes of this Corporation, the L+M Entities or such other hospitals or health care facilities;
- (f) To receive and accept public and private gifts, trusts, donations, grants, loans and other sources of funding to promote the purposes of the Corporation;
- (g) Generally to do and perform such other acts and to exercise such other powers as may be authorized or permitted under the laws of the State of Connecticut to promote and attain the purposes set forth herein; and
- (h) To engage in any lawful act or activity for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act, as the same may be amended from time to time, and the corresponding provisions of any future Connecticut nonstock corporation law.

In furtherance of the foregoing, the Corporation shall (i) participate as an integral part of the integrated health care delivery system known as the Yale New Haven Health System (the "System"), which System provides, through its affiliates, comprehensive, cost effective, advanced patient care characterized by safety and clinical and service quality; and (ii) fund and promote activities and programs of the System, including activities and programs of its affiliates, consistent with and in furtherance of the Corporation's charitable purposes and the charitable purposes of all System affiliates.

Section 3. The Corporation is nonprofit and shall not have or issue shares of stock or pay dividends.

Section 4. The Corporation shall have but one member, Yale-New Haven Health Services Corporation, which shall have the rights, powers and privileges provided in the Bylaws

and by the State of Connecticut, including certain expressly reserved powers and retained rights described in the Bylaws.

Section 5. Subject to the rights, powers and privileges accorded to Yale-New Haven Health Services Corporation under the Bylaws and by the State of Connecticut, the Corporation shall be governed by its Board of Trustees. The Bylaws may provide that persons occupying certain positions within or without the Corporation shall be ex-officio trustees who may vote and be counted in determining a quorum. As may be further provided in the Bylaws of the Corporation, the terms of elected trustees may be staggered by dividing the trustees into groups so that approximately an equal number of such trustees have terms that expire each year.

Section 6. No part of the net earnings of the Corporation shall inure to the benefit of or be distributable to the Corporation's trustees, officers or other private persons, except that the Corporation, subject to the provisions of the Bylaws, shall be authorized and empowered to pay reasonable compensation for services rendered. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of (or in opposition to) any candidate for public office. Notwithstanding any other provision of this Certificate of Incorporation, the Corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Code, or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

Section 7. Upon any dissolution of the Corporation, all of its property and assets shall, after payment of the lawful debts of the Corporation and the expenses of its dissolution, be delivered, conveyed and paid over (subject to any restrictions imposed by any applicable will, deed, grant, conveyance, agreement, memorandum, writing or other governing document) to Yale-New Haven Health Services Corporation, as long as it is at that time an organization that qualifies as an exempt organization under Section 501(c)(3) of the Code, or, if at the time of the dissolution or termination of existence of the Corporation, Yale-New Haven Health Services Corporation is not in existence or does not qualify as an exempt organization under Section 501(c)(3) of the Code, to one or more charitable, scientific or education organizations located in the State of Connecticut and qualified as exempt organizations under Section 501(c)(3) of the Code, in such proportions and for such exclusively charitable, scientific or educational purposes as the Board of Trustees may determine.

Section 8. In addition to, and not in derogation of, any other rights conferred by law, a trustee shall not be personally liable for monetary damages for breach of duty as a trustee in an amount greater than the compensation received by such trustee for serving the Corporation during the year of such breach if such breach does not (A) involve a knowing and culpable violation of law by such trustee, (B) enable such trustee or an associate (as defined in Section 33-840 of the Connecticut General Statutes), to receive an improper personal economic gain, (C) show a lack of good faith and conscious disregard for the duty of such trustee to the Corporation

under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (D) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Corporation. Any lawful repeal or modification of this Section 8 or the adoption of any provision inconsistent herewith by the Board of Trustees or member of the Corporation shall not, with respect to a person who is or was a trustee, adversely affect any limitation of liability, right or protection of such person existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a trustee provided for in this Section 8 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any person under, Connecticut law.

Section 9. The Corporation shall provide its trustees with the full amount of indemnification that the Corporation is permitted to provide pursuant to the Connecticut Revised Nonstock Corporation Act and shall advance expenses to trustees consistent with Section 33-1119 of the Connecticut General Statutes. In furtherance of the foregoing, the Corporation shall indemnify its trustees against liability as defined in Section 33-1116(4) of the Connecticut General Statutes to any person for any action taken, or any failure to take any action, as a trustee, except liability that (A) involves a knowing and culpable violation of law by such trustee, (B) enables such trustee or an associate (as defined in Section 33-840 of the Connecticut General Statutes), to receive an improper personal economic gain, (C) shows a lack of good faith and conscious disregard for the duty of such trustee to the Corporation under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (D) constitutes a sustained and unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Corporation.

The Corporation may indemnify and advance expenses to each officer, employee or agent of the Corporation who is not a trustee, or who is a trustee but is made a party to a proceeding in his or her capacity solely as an officer, employee or agent, to the same extent as the Corporation is permitted to provide the same to a trustee, and may indemnify and advance expenses to such persons to the extent permitted by Section 33-1122 of the Connecticut General Statutes.

Notwithstanding any provision hereof to the contrary, the Corporation shall not indemnify any trustee, officer, employee or agent against any penalty excise taxes assessed against such person under Section 4958 of the Internal Revenue Code.

Section 10. The Bylaws of the Corporation may be amended or repealed, and new Bylaws may be adopted, only with the approval of the Board of Trustees and the member.

**LAWRENCE + MEMORIAL CORPORATION
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **Lawrence + Memorial Corporation** (the "Corporation").

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Certificate of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its member, trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Certificate of Incorporation.

ARTICLE II. MEMBERSHIP

Section 2.1 Member. The Corporation shall have a single member, Yale-New Haven Health Services Corporation (the "Member").

Section 2.2 Rights, Powers and Privileges. The Member shall have all the rights, powers and privileges usually or by law accorded to the member of a Connecticut nonstock, nonprofit corporation under the Connecticut Revised Nonstock Corporation Act as may be amended from time to time (the "Nonstock Act") and not conferred thereby or by the Certificate of Incorporation or these Bylaws upon the Board of Trustees of the Corporation (the "Board"), including the right to elect the members of the Board in accordance with these Bylaws.

Notwithstanding anything in these Bylaws to the contrary:

(a) Neither the Board, nor any officer or employee of the Corporation, may take any of the actions set forth in Exhibit A of these Bylaws, nor may the Board or any officer or employee of the Corporation approve the taking of any such action by an Affiliate (as hereafter defined), without the prior approval of the Member. For purposes hereof, an "Affiliate" of the Corporation shall mean, unless otherwise determined by the Member, any entity which at the time Affiliate status is being determined is directly or indirectly controlling or controlled by or under the direct or indirect common control with the Corporation. "Control" shall mean the legal power to (a) elect or cause the election of a majority of the governing body of the subject entity, or (b) direct or cause the direction of the subject entity's operations or management, whether the foregoing power(s) exist(s) through voting securities, other voting rights, reserved powers, contract rights, or other legally enforceable means.

(b) In addition to the approval rights reserved to the Member set forth in Exhibit A, the Member expressly retains the rights to take the actions set forth in Exhibit B on behalf of and in the name of the Corporation, directly and without the approval of the Board of this Corporation.

(c) The Board shall have the authority, from time to time, to delegate to the Member any rights, powers and privileges that would otherwise be exercised by the Board to the fullest extent permitted by applicable law.

Section 2.3 Liability and Reimbursement of Expenses. Unless the Member expressly agrees otherwise in writing, the Member shall not be liable for the debts or obligations of the Corporation. The Member may be reimbursed for expenses reasonably incurred on behalf of the Corporation.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. Subject to the powers retained by, conferred upon, or reserved to the Member by law or under these Bylaws, the Board shall have charge, control and management of the affairs, property and funds of the Corporation in the manner and subject to the limitations set forth in these Bylaws. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances and in a manner he or she reasonably believes to be in the best interests of the Corporation.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Member for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the community served by the Corporation and shall be selected, on the basis of demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

- (i) the President/Chief Executive Officer of the Member (or his or her designee);
- (ii) the President of the Corporation;
- (iii) the Chair of the Board of Lawrence + Memorial Hospital, Inc. ("L+M Hospital");
- (iv) the Chair of the Board of LMW Healthcare, Inc., doing business as Westerly Hospital ("Westerly Hospital"); and
- (v) the Chair of the Board of Visiting Nurse Association of Southeastern Connecticut, Inc. ("VNASC").

Ex Officio Trustees shall be counted in determining the presence of a quorum and shall have the right to vote on all matters that come before the Board.

Section 3.3 Number. The Board shall consist of no fewer than eight (8) nor more than seventeen (17) Trustees, such number to be determined from time to time by the Member.

Section 3.4 Election of Trustees. At the annual meeting of the Member, the Member shall elect successors to the Elected Trustees whose terms are then expiring. The Member shall elect such successors from among the nominees presented by the Board; provided, however, that in the event the Member does not elect any such nominee, the Board shall present a different nominee to the Member for election; and provided further that in the event any such successor nominee is not elected by the Member within ninety (90) days following the original nomination, the Member may solicit alternative nominees or elect its own nominee. In all events, the Elected Trustees shall be individuals who meet the requirements set forth in Section 3.2(a) of this Article III.

Notwithstanding anything herein to the contrary, the Elected Trustees shall include:

(a) up to three (3) health care providers on the Medical Staffs of L+M Hospital and Westerly Hospital who shall be selected from a group of five (5) candidates proposed to the Nominating and Governance Committee by each of the respective Medical Staffs, provided that at least one (1) such Elected Trustee shall be on the Medical Staff of L+M Hospital and at least one (1) such Elected Trustee shall be on the Medical Staff of Westerly Hospital;

(b) Up to six (6) community members from the L+M Hospital service area;
and

(c) Up to three (3) community members from the Westerly Hospital service area.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Member at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Member at which they were elected or at such later date as may be established by the Member and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board. In the instance of re-election as a Trustee for an

additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided that a Trustee may be re-elected for an additional consecutive term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(c) The provisions of paragraphs (a) and (b) of this Section shall not apply to an Elected Trustee in the event such Trustee also serves as a trustee of Yale-New Haven Health Services Corporation at the time such person is elected to serve as an Elected Trustee for a term otherwise prohibited by such paragraphs (a) and (b). In the instance of re-election as a Trustee for an additional term as provided in this paragraph (c), Board membership shall be coterminous with said Trustee's service as a trustee of Yale-New Haven Health Services Corporation.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board with or without cause by action of the Member, which action may be taken upon its own initiative or upon the recommendation of the Board.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled only by the Member and may be filled at any time in accordance with the process set forth in Section 3.4 of these Bylaws. An individual elected to fill a vacancy shall serve the remainder of the term of the Trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Chair of the Board shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held at least quarterly or more frequently as needed on such dates and at such times and places as the Chair shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the Chair or President and shall be called upon the written request of any three (3) Trustees.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee and to the Member at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice. Notice to the Member shall be directed to the President/Chief Executive Officer of the Member and may be provided in person, by mail, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic mail address at which the President/Chief Executive Officer of the Member has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided that if less than a majority of the Trustees is present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the

Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board or the Member consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a President, a Chair, one or more Vice Chairs, a Secretary, a Treasurer and such other officers as may be appointed from time to time consistent with Section 4.6. The Chair and any Vice Chair shall be selected from among members of the Board of Trustees. The offices of the President, the Chair and the Treasurer shall be held by different individuals.

Section 4.2 Election and Term of Office. The President shall be appointed in accordance with Section 4.3(a) of this Article IV. The Chair, Vice Chairs, Secretary and Treasurer shall be nominated in consultation with the Nominating and Governance Committee and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President.** The President of the Corporation shall be appointed by the Member, following consultation with the Board. The appointed President shall serve at the pleasure of the Member.

The President shall be a person who in the judgment of the Member has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, the Medical Staffs of L+M Hospital and Westerly Hospital, Corporation personnel and the community.

The President shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to such policies as may be adopted by the Board. The President shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some other person to so act. The duties, responsibilities and authority of the President shall be defined in a written statement adopted by the Member in consultation with the Board.

The President shall be a voting member of all standing committees except as otherwise specified in these Bylaws. The President shall report to the President/Chief Executive Officer of the Member (or his or her designee) as well as to the Board.

(b) **Chair.** The Chair of the Board shall preside at meetings of the Board and shall be a voting member of all committees except the Nominating and Governance Committee.

The Chair shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair.** The Board shall designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s) shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary.** The Secretary shall have the custody of the records of the Corporation pertaining to the Secretary's office; shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer.** The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal.

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause; provided, however, that the President of the Corporation may be removed from office by the Member following consultation with the Board. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, except the President, the vacancy may be filled by the Board of Trustees for the unexpired term. A vacancy in the office of President shall be filled in accordance with Section 4.3(a).

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as are provided for in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in these Bylaws, members and chairs of all standing committees shall be appointed by the Board on nomination of the Nominating and Governance Committee. All such committee members and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be approved by a majority of the committee members who are Trustees. Every committee of the Board shall include among its members a representative of the Member, who shall be appointed by the President/Chief Executive Officer of the Member and who shall have a vote and be included for purposes of determining a quorum.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Executive Committee.** The Executive Committee shall consist of the President, the Chair, the Secretary, the Treasurer, a member of the Board selected by the Member, and any other member of the Board that the Board may choose to appoint. The Chair shall serve as the chair of the Executive Committee. The Executive Committee shall possess and may exercise in the intervals between meetings of the Board all such powers of the Board, except as may otherwise be provided by law, these Bylaws, or resolution of the Board.

(b) **Finance Committee.** The Finance Committee shall consist of at least three (3) Trustees, including the Treasurer, a member of the Board selected by the Member, and such other members as are necessary to properly perform the functions of the Finance Committee. The Finance Committee shall have such duties as are established by the Member and set forth in the Finance Committee charter. These duties shall include, but not be limited to, approval of local operating and capital budgets and examination and monitoring of other operating and capital budgets involving the Corporation.

(c) **Nominating and Governance Committee.** The Nominating and Governance Committee shall develop recommended criteria for membership on the Board and on committees of the Board. The Nominating and Governance Committee shall, after

consultation with the President, nominate candidates to be voted upon in electing officers and members of the Board and nominate for appointment by the Board the chairs and members of all standing committees. The Nominating and Governance Committee shall also periodically review of Board governance matters and recommend enhancements to strengthen the Board and ensure the comprehensiveness and efficiency of its governance process. The composition of the Nominating and Governance Committee shall be as set forth in its Charter and shall include a member of the Board selected by the Member.

(d) **Executive Compensation Committee.** The Executive Compensation Committee shall set compensation for executives of the Corporation (other than the President and any other officer whose compensation is set by the Member) who are in a position to exercise substantial influence over the affairs of the Corporation as determined by the Executive Compensation Committee. The Executive Compensation Committee shall obtain and rely upon appropriate comparability data, including from the Member, in making its compensation decisions, and shall ensure that such compensation decisions are in compliance with the laws relating to organizations described in Section 501(c)(3) of the Internal Revenue Code. The composition of the Executive Compensation Committee shall be as set forth in its Charter and shall include a member of the Board selected by the Member.

Section 5.6 Other Committees. The Board may establish and appoint from among the Trustees or others, such other committees with such powers and authority as the Board shall designate, except that no such committee may exercise the authority of the Board.

Section 5.7 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws. The Executive Committee shall have authority to take actions consistent with these Bylaws; all other committees shall act in an advisory capacity only and shall have no power or authority to bind the Corporation, unless expressly authorized by the Board.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation's Trustees, officers and employees as set forth in the Certificate of Incorporation.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Nonstock Act related to disclosure and approval of "Director's conflicting interest transactions" (as such term is defined in the Nonstock Act). Consistent with

the requirements of the Nonstock Act, any "Director's conflicting interest transaction" shall, when possible, be approved and authorized by either (i) the Member or (i) a majority of the disinterested Trustees voting on the transaction at a meeting at which a majority (but no fewer than two (2)) of all disinterested Trustees on the Board shall constitute a quorum, in each case following any required disclosure of the facts of the conflicting interest transaction.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President or such other officers or officers as may be specified by the Board or authorized by the President.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President or such officer or officers of the Corporation as the Board may specify from time to time.

ARTICLE IX. AMENDMENTS

Subject to approval by the Member, these Bylaws may be amended, altered, or repealed at any meeting of the Board by a majority vote of the Trustees present and voting, a quorum being present. The general nature and purpose of such proposed amendment(s) shall be set forth in the notice of the meeting, and the actual language of the proposed amendments need not be included in the notice. No amendment, alteration or repeal shall take effect until it shall have been approved by the Member.

EXHIBIT A**Actions Requiring Approval of Both the Board and the Member**

Notwithstanding anything in these Bylaws to the contrary and except as otherwise provided in Exhibit B relating to the direct authority retained by the Member, the following actions may only be taken with both the prior approval of the Board and the Member:

- A. Merger, consolidation, reorganization or dissolution of this Corporation or any Affiliate or the creation or acquisition of an interest in any corporate entity, including joint ventures;
- B. Amendment or restatement of the Mission, Certificate of Incorporation or the Bylaws of this Corporation or any Affiliate, or any new or revised "doing business as" name;
- C. Adoption of operating and cash flow budgets of the Corporation or any Affiliate, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation (pursuant to the authority delegated to this Corporation by the Member to adopt such budgets within parameters established by the Member);
- D. Adoption of capital budgets and capital allocations of this Corporation or any Affiliate (pursuant to the authority delegated to this Corporation by the Member to adopt such budgets within parameters established by the Member);
- E. Incurring aggregate operating or capital expenditures on an annual basis that exceed operating or capital budgets of the Corporation adopted by the Member by a specified dollar amount to be determined from time to time by the Member;
- F. Long-term or material agreements including, but not limited to, equity financings, capitalized leases, operating leases and installment contracts; and purchase, sale, lease, disposition, hypothecation, exchange, gift, pledge or encumbrance of any asset, real or personal, with a fair market value in excess of a dollar amount to be determined from time to time by the Member, which shall not be less than 10% of the total annual capital budget of this Corporation;
- G. Approval of any new relationships or agreements for undergraduate or graduate medical education programs or any material amendments to or terminations of existing agreements for undergraduate or graduate medical education programs;
- H. Contracting with an unrelated third party for all or substantially all of the management of the assets or operations of this Corporation or any Affiliate;

- I. Approval of major new programs and clinical services of this Corporation or any Affiliate or discontinuation or consolidation of any such program. The Member shall from time to time define the term "major" in this context;
- J. Approval of strategic plans of this Corporation or any Affiliate, which will comport with the strategic planning processes and strategic plans established by the Member; and
- K. Adoption of safety and quality assurance policies not in conformity with policies established by the Member.

Nothing in these Bylaws shall be construed in a manner that is inconsistent with the authorities with respect to the Corporation that are reserved or retained by the Member pursuant to these Bylaws.

EXHIBIT B

Direct Authority Retained by the Member

Notwithstanding anything in these Bylaws to the contrary, the Member retains authority to take the following actions on behalf of and in the name of this Corporation, directly and without the approval of the Board of this Corporation:

- A. Adoption of targets for the annual operating and cash flow budgets of this Corporation and its Affiliates, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation;
- B. Adoption of targets for the annual capital budgets and capital allocations of this Corporation and any Affiliate;
- C. Adoption of annual operating, cash flow and annual capital budgets for the Corporation and any Affiliate within the targets established by the Member in the event of any failure of the Corporation to do so;
- D. Issuance and incurrence of indebtedness on behalf of this Corporation;
- E. Management and control of the liquid assets of this Corporation, including the authority to cause such assets to be funded to the Member or as otherwise directed by the Member;
- F. Appointment of the independent auditor for this Corporation and each Affiliate and the management of the audit process and compliance process and procedures for this Corporation and each Affiliate; and
- G. Appointment of the President consistent with Section 4.3(a), which requires prior consultation with the Board.

Other Major Activities Requiring the Approval of the Member

- A. In addition, the Member shall have the authority, except as otherwise provided by the Member and after consultation with the Board of this Corporation, to require the prior review and approval of those activities of this Corporation or any subsidiary or affiliate entity that the Member determines to be "major activities."
- B. "Major activities" shall be those which the Member by a vote of not less than two-thirds (2/3) of its Board of Trustees has declared major, by written notice to this Corporation, delivered personally or transmitted by registered or certified mail return receipt requested. Such notice shall specifically identify the matter or matters requiring approval of the Member, and shall refer to this Bylaw provision granting such approval rights to the Member. Notices received pursuant to this

section shall be recorded in the minutes of this Corporation and shall be filed with the minutes of this Corporation.

Exhibit 2.1.3(A)

YNHHSC Amended Certificate of Incorporation

**AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION**

YALE-NEW HAVEN HEALTH SERVICES CORPORATION

1. The name of the corporation is YALE-NEW HAVEN HEALTH SERVICES CORPORATION.

2. The nature of the activities to be conducted, or the purposes to be promoted or carried out by the corporation shall be exclusively charitable, scientific and educational within the meaning of Section 501(c)(3) of the Code (as defined in paragraph 8 hereof) and shall include the following:

A. To benefit and carry out the purposes of, to perform the functions of, and uphold, promote and further the welfare, programs and activities of an integrated health care delivery system known as the Yale New Haven Health System (the "System") and its affiliates, including Bridgeport Hospital, Greenwich Hospital, Yale-New Haven Hospital, Lawrence + Memorial Corporation, Northeast Medical Group, Inc. and such other organizations as may become affiliates of the System from time to time (collectively, the "YNHHS Members");

B. To engage directly in, and collaborate with, the YNHHS Members and Yale University and other hospitals and health care institutions and other organizations in, the initiation, development and maintenance of programs directed toward improving the efficiency and reducing the cost of health care services while maintaining a high quality of such care;

C. To collaborate with Yale University and with other colleges and schools in the initiation, development and maintenance of educational programs for health professionals and for the public, including programs of medical and nursing education, continuing education, graduate medical education and community health education;

D. to collaborate with the YNHHS Members, with Yale University and with other hospitals, health care institutions, colleges and schools in the initiation, development and maintenance of programs of scientific research related to the care of the sick and injured;

E. To initiate, develop, operate and maintain, directly and in collaboration with the YNHHS Members, and with other hospitals and health care institutions and organizations, programs for the delivery of health care services through one or more separate corporations;

F. To acquire, improve, hold and lease any real or personal property useful to the accomplishment of the purposes of this corporation;

G. To own and operate facilities, directly and in collaboration with the YNHHS Members, and with other hospitals and health care institutions and organizations, to achieve the purposes of the corporation;

H. To receive and accept public and private gifts, trusts, donations, grants, loans and other sources of funding to promote the purposes of this corporation; and generally to do and perform such other acts and to exercise such other powers as may be authorized or permitted under the laws of the State of Connecticut to promote and attain the purposes set forth herein; and

I. To engage in any lawful act or activity for which a corporation may be organized under the Connecticut Revised Nonstock Act in furtherance of the foregoing.

3. The corporation is nonprofit and shall not have or issue shares of stock or pay dividends.

4. The corporation shall have no Members, and the corporation shall be operated under the management of a Board of Trustees.

5. The Board of Trustees shall be composed of two designations of trusteeships, Elected Trustees and Ex Officio Trustees, with the trustees to be elected as provided in the Bylaws. Ex Officio Trustees may be counted in determining a quorum and have the right to vote as shall be provided in the Bylaws. As may be further provided in the Bylaws, the terms of Elected Trustees may be staggered by dividing the Elected Trustees into groups so that approximately an equal number of such Trustees have terms that expire each year.

6. No part of the net earnings of the corporation shall inure to the benefit of or be distributable to the corporation's trustees, officers or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Paragraph 2 hereof. No substantial part of the activities of the corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the corporation shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of (or in opposition to) any candidate for public office. Notwithstanding any other provision of this Certificate of Incorporation, the corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from Federal Income Tax under Section 501(c)(3) of the Code or (b) by a corporation, contributions to which are deductible under Section 170(e)(2) of the Code.

7. Upon any dissolution or termination of the existence of the corporation, all of its property and assets shall, after payment of the lawful debts of the corporation and the expenses of its dissolution or termination, be delivered, conveyed and paid over (subject to any restrictions imposed by any applicable will, deed, grant, conveyance, agreement, memorandum, writing or other governing document) to Bridgeport Hospital, Greenwich Hospital, Yale-New Haven Hospital, Lawrence + Memorial Corporation, and Northeast Medical Group, Inc., provided they shall then qualify as exempt organizations under Section 501(c)(3) of the Code, in such proportions as the Board of Trustees may deem appropriate consistent with the relative financial and other contributions of each to the corporation, and to such other charitable, scientific or educational organizations qualified as exempt organizations under Section 501(c)(3) of the Code,

in such proportions and for such exclusively charitable, scientific or educational purposes as the Board of Trustees may determine.

8. References to sections of the Code shall be deemed references to the Internal Revenue Code of 1986, as the same may be amended from time to time, and to the corresponding provisions of any future United States Internal Revenue Law.

9. In addition to, and not in derogation of, any other rights conferred by law, a Trustee shall not be personally liable for monetary damages for breach of duty as a Trustee in an amount greater than the compensation received by the Trustee for serving the corporation during the year of the violation if such breach did not (1) involve a knowing and culpable violation of law by the Trustee, (2) enable the Trustee or an associate as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal economic gain, (3) show a lack of good faith and conscious disregard for the duty of the Trustee to the corporation under circumstances in which the Trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the corporation, or (4) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of the Trustee's duty to the corporation. Any lawful repeal or modification of this Section 9 or the adoption of any provision inconsistent herewith by the Board of Trustees of the corporation shall not, with respect to a person who is or was a Trustee, adversely affect any limitation of liability, right or protection of such person existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a Trustee provided for in this Section 9 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any person under, Connecticut law.

Section 10. The corporation shall provide its Trustees with the full amount of indemnification that the corporation is permitted to provide pursuant to the Connecticut Revised Nonstock Corporation Act and shall advance expenses to Trustees consistent with Section 33-1119 of the Connecticut General Statutes. In furtherance of the foregoing, the corporation shall indemnify its Trustees against liability as defined in Section 33-1116(4) of the Connecticut General Statutes to any person for any action taken, or any failure to take any action, as a trustee, except liability that (1) involved a knowing and culpable violation of law by the Trustee, (2) enabled the Trustee or an associate to receive an improper personal economic gain, (3) showed a lack of good faith and a conscious disregard for the duty of the Trustee to the corporation under circumstances in which the Trustee was aware that his or her conduct or omission created an unjustifiable risk of serious injury to the corporation, or (4) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Trustee's duty to the corporation.

The corporation may indemnify and advance expenses to each officer, employee or agent of the corporation who is not a Trustee, or who is a Trustee but is made a party to a proceeding in his or her capacity solely as an officer, employee or agent, to the same extent as the corporation is permitted to provide the same to a Trustee, and may indemnify and advance expenses to such persons to the extent permitted by Section 33-1122 of the Connecticut General Statutes.

Notwithstanding any provision hereof to the contrary, the Corporation shall not indemnify any trustee, officer, employee or agent against any penalty excise taxes assessed against such person under Section 4958 of the Internal Revenue Code.

**YALE-NEW HAVEN HEALTH SERVICES CORPORATION
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **Yale-New Haven Health Services Corporation** (the "Corporation").

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Certificate of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Certificate of Incorporation.

ARTICLE II. MEMBERSHIP

The Corporation shall have no members and shall be governed by a self-perpetuating Board of Trustees (the "Board") as set forth herein.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. The Board shall have charge, control and management of the affairs, property and funds of the Corporation. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances, and in a manner he or she reasonably believes to be in the best interests of the Corporation.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Board for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the communities and geographies served by the Corporation and shall be selected, on the basis of demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

- (i) the President/Chief Executive Officer of the Corporation;
- (ii) the President of Yale University;
- (iii) the Chair of the Board of Trustees of Yale-New Haven Hospital,

Inc.;

- (iv) the Chair of the Board of Trustees of Bridgeport Hospital;
- (v) the Chair of the Board of Trustees of Greenwich Hospital.

Section 3.3 Number. The Board shall consist of up to twenty-one (21) Trustees, inclusive of Ex Officio Trustees.

Section 3.4 Election of Trustees. At the annual meeting of the Board, the Board shall elect successors to the Elected Trustees whose terms are then expiring. The Board shall elect such successors consistent with the following:

(a) Nine (9) of the Trustees, at least one of whom shall, when nominated, be a trustee of Yale-New Haven Hospital, Inc., shall be individuals nominated by the Chair of the Board of Trustees of Yale-New Haven Hospital, Inc.

(b) Three (3) of the Trustees, at least one of whom shall, when nominated, be a trustee of Yale-New Haven Hospital, Inc., shall be individuals nominated by the President of Yale University; provided that (x) no more than two (2) Trustees nominated and elected in accordance with this clause shall be employees of Yale University; and (y) if any Trustee nominated in accordance with this clause is an employee of Yale University, then such Trustee shall hold an officer position at Yale University throughout the term of such individual's service as a Trustee.

(c) All other Elected Trustees shall be elected from among the nominees presented by the Nominating and Governance Committee.

In all events, the Elected Trustees shall be individuals who meet the requirements set forth in Section 3.2(a) of this Article III.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Board at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Board at which they were elected or at such later date as may be established by the Board and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if:

(i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or

(ii) the Board determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board.

In the instance of re-election as a Trustee for an additional term as provided in clause (i) above, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided, however, that a Trustee may be re-elected for one or more additional consecutive terms if:

(i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or

(ii) the Board determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms.

In the instance of re-election as a Trustee for an additional term as provided in clause (i) above, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or her status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board with cause by action of the Board. Action to remove an Elected Trustee may be taken at any meeting of the Board, provided that the notice of the meeting at which such action will be voted on shall state that the purpose or one of the purposes, of the meeting is removal of the Trustee.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled by the Board in accordance with Section 3.4 of these Bylaws. If the vacancy results from the death, resignation or removal of a Trustee elected on nomination of Yale-New Haven Hospital, Inc., Bridgeport Hospital, Greenwich Hospital or Yale University, the institution that nominated the Trustee who died, resigned or was removed shall submit a name of a replacement Trustee consistent with Section 3.4. In the event that the remaining Trustees on the Board do not constitute a quorum, a vacancy may be filled by the concurring vote of a majority of such remaining Trustees. An individual elected to fill a vacancy shall serve the remainder of the term of the Trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Chair or the President/Chief Executive Officer shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held at least quarterly or more frequently as needed on such dates and at such times and places as the Chair or the President/Chief Executive Officer shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the Chair or the President/Chief Executive Officer and shall be called upon the written request of any three (3) Trustees.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided that if less than a majority of the Trustees are present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the

Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a President/Chief Executive Officer, a Chair, a Secretary, a Treasurer and such other officers as may be appointed from time to time consistent with Section 4.6. The Chair and any Vice Chair shall be members of the Board.

Section 4.2 Election and Term of Office. Employees of the Corporation who are designated as officers shall be appointed by the Board and shall hold office at the pleasure of the Board. Officers who are not paid employees of the Corporation shall be nominated by the Nominating and Governance Committee and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President/Chief Executive Officer.** The President/Chief Executive Officer shall be the chief executive officer of the Corporation.

The President/Chief Executive Officer shall be a person who in the judgment of the Board has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, employees and the community.

The President/Chief Executive Officer shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to such policies as may be adopted by the Board. The President/Chief Executive Officer shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some other person to so act. The duties, responsibilities and authority of the President/Chief Executive Officer shall be defined in a written statement adopted by the Board.

The President/Chief Executive Officer shall be a voting member of all standing committees except as otherwise specified in these Bylaws. In the absence of the Chair and the Vice Chair, or if there be no Chair or Vice Chair, the President/Chief Executive Officer shall preside at all meetings of the Board.

The President/Chief Executive Officer shall serve, as long as he or she is appointed by the Board of Yale-New Haven Hospital, Inc., as the chief executive officer of Yale-New Haven Hospital, Inc.

(b) **Chair**. The Chair of the Board shall preside at meetings of the Board and shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair**. The Board shall designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s) shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary**. The Secretary shall have the custody of the records of the Corporation pertaining to the Secretary's office, shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer**. The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, the vacancy may be filled by the Board for the unexpired term.

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as are provided for in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in these Bylaws, members and chairs of all standing committees shall be appointed by the Board on nomination of the Nominating and Governance Committee. All such committee members

and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. All committees shall have the power to choose their own secretaries. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be approved by a majority of the committee members who are Trustees. Each committee shall be chaired by a member of the Board.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Finance Committee.** The Finance Committee shall consist of such members as may be appointed by the Board on nomination of the Nominating and Governance Committee and shall include at least one (1) representative from each of the founding hospital members of the obligated group led by the Corporation. Notwithstanding anything herein to the contrary, (i) at least one member of the Finance Committee shall have financial expertise, as determined by the Board; and (ii) a majority of the members of the Finance Committee shall be Trustees. The Finance Committee shall have such duties as are established by the Board and set forth in the Finance Committee charter. These duties shall include, but not be limited to, fact-finding for the Board on matters relating to the financial administration of the Corporation and its affiliates, examination and analysis of financial reports of the Corporation and its affiliates, and preparation of annual operating and capital budgets for presentation to the Board that take into account the financial plans for the Corporation and its affiliates.

(b) **Audit Committee.** The Audit Committee shall consist of such members as may be appointed by the Board on nomination of the Nominating and Governance Committee. Notwithstanding anything herein to the contrary, (i) at least one member of the Audit Committee shall have financial expertise, as determined by the Board; (ii) a majority of the members of the Audit Committee shall be Trustees; and (iii) no member of the Audit Committee shall have any material business relationship (including but not limited to an employment relationship) with the Corporation or any of its affiliates. The Audit Committee shall have such duties as are established by the Board and set forth in the Audit Committee charter. These duties shall include, but not be limited to, monitoring the integrity of the financial statements of the Corporation and its affiliates; recommending to the Board an independent auditor for the Corporation and its affiliates; reviewing the outside auditor's independence, qualifications and

performance; meeting with the independent auditor from time to time to review financial results and controls of the Corporation and its affiliates; overseeing the effectiveness of internal controls of the Corporation and its affiliates.

(c) **Nominating and Governance Committee.** The Nominating and Governance Committee shall consist of not fewer than five (5) nor more than eight (8) members of whom the following shall be Ex Officio members: (i) the Chair of the Board of Yale-New Haven Hospital; (ii) the President of Yale University; (iii) the President/Chief Executive Officer of the Corporation; (iv) the Chair of the Board of Bridgeport Hospital; and (v) the Chair of the Board of Greenwich Hospital. Ex Officio members shall be counted in determining a quorum and shall have full voting rights. All other members shall be elected by the Board subject to the consent of the Chair of the Board of Yale-New Haven Hospital and at least one of such additional members shall be a member of the Board of Trustees of Yale-New Haven Hospital, Inc. The Nominating and Governance Committee shall nominate candidates to be voted upon in electing officers and members of the Board and nominate for appointment by the Board the chairs and members of all other standing committees. The Nominating and Governance Committee shall also review Board governance matters and recommend enhancements to strengthen the Board and ensure the comprehensiveness and efficiency of its governance process.

(d) **System Investment Committee.** The System Investment Committee shall consist of such members as may be appointed by the Board on nomination of the Nominating and Governance Committee and shall include one (1) representative from each of the founding hospital members of the obligated group led by the Corporation. At all times, a majority of the members of the System Investment Committee shall be Trustees. The System Investment Committee shall have such duties as are delegated to it by the Board. These duties include oversight of investment activities of the Corporation.

Section 5.6 Other Committees. The Board may establish and appoint from among the Trustees or others, such other committees with such powers and authority as the Board shall designate, except that no such committee may exercise the authority of the Board.

Section 5.7 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation's Trustees, officers and employees as set forth in the Certificate of Incorporation.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Connecticut Revised Nonstock Corporation Act, as such act may be amended from time to time (the "Nonstock Act") related to disclosure and approval of "Director's conflicting interest transactions" (as such term is defined in the Nonstock Act). Consistent with the requirements of the Nonstock Act, any "Director's conflicting interest transaction" shall, when possible, be approved and authorized by majority of the disinterested Trustees voting on the transaction at a meeting at which a majority (but no fewer than two (2)) of all disinterested Trustees on the Board shall constitute a quorum, in each case following any required disclosure of the facts of the conflicting interest transaction.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President/Chief Executive Officer or such other officers or officers as may be specified by the Board or authorized by the President/Chief Executive Officer.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President/Chief Executive Officer or such officer or officers of the Corporation as the Board may specify from time to time.

Section 8.4 Related Corporations. The Corporation is nonprofit and shall not engage directly in activities for profit. It may, however, from time to time organize and control, through stock ownership or otherwise, one or more corporations organized and operated for profit. In considering the appropriateness of organizing or controlling corporations organized and operated for profit, the Corporation shall give principal consideration to corporations engaged in activities which relate to health care or which directly or indirectly support, advance or contribute to the purposes and objectives of the Corporation and its affiliates that qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code of 1986, as the same may be amended from time to time. The Board shall establish guidelines, consistent with the provisions of this Section, for consideration of activities which might suitably be developed through for profit corporations controlled by the Corporation.

ARTICLE IX. AMENDMENTS

These Bylaws may be amended, altered, or repealed at any meeting of the Board by a two-thirds vote of the Trustees present and voting, a quorum being present, provided that the general nature and

purpose of such proposed amendment(s) shall be set forth in the notice of the meeting, and the actual language of the proposed amendments need not be included in the notice.

Notwithstanding anything herein to the contrary:

(i) any amendment to reduce or alter the number, conditions of office, or terms of Trustees who either (x) are required to be trustees of Yale-New Haven Hospital, Inc. or (y) are nominated for election by the Chair of the Board of Yale-New Haven Hospital, Inc., shall be subject to approval by at least a majority of the following Trustees: the Chair of the Board of Yale-New Haven Hospital, Inc. and all Trustees nominated by the Chair of the Board of Yale-New Haven Hospital, Inc.

(ii) any amendment to reduce or alter (x) the number, conditions of office, or terms of Trustees who serve Ex Officio by virtue of his or her position with Bridgeport Hospital or Greenwich Hospital or (y) the rights of Bridgeport Hospital or Greenwich Hospital to have a representative on certain enumerated committees of the Board, shall be subject to approval by a two-thirds vote of the Trustees present and voting, a quorum being present, and to approval by the Ex Officio Trustee representing the affected hospital(s).

(iii) any amendment, alteration or repeal of these Bylaws shall be consistent with the Affiliation Agreement between the Corporation and Yale University dated June 25, 1999 and any amendments thereto.

Exhibit 2.1.4(A)

LMMG-NEMG Agreement and Plan of Merger

AGREEMENT AND PLAN OF MERGER

of

L&M PHYSICIAN ASSOCIATION, INC.

a Connecticut medical foundation

with and into

NORTHEAST MEDICAL GROUP, INC.,

a Connecticut medical foundation

ARTICLE I**PARTIES**

The parties to the merger (the "Merger") are L&M Physician Association, Inc., a Connecticut medical foundation (the "Merging Corporation"), and Northeast Medical Group, Inc., a Connecticut medical foundation (the "Surviving Corporation" and, together with the Merging Corporation, the "Constituent Corporations"). The Merging Corporation shall merge with and into the Surviving Corporation in accordance with the Connecticut Medical Foundations Law and the Connecticut Revised Nonstock Corporation Act (together, the "Act").

ARTICLE II**SURVIVING CORPORATION, NAME**

Northeast Medical Group, Inc. shall be the surviving corporation of the Merger. The Constituent Corporations shall cause an appropriate Certificate of Merger (the "Certificate of Merger") reflecting the Merger to be filed with the Secretary of the State of the State of Connecticut. Upon the Effective Time (as defined below) of the Merger, the name of the Surviving Corporation shall continue to be Northeast Medical Group, Inc.

ARTICLE III**EFFECTIVE TIME AND DATE**

The Constituent Corporations shall do all acts and things as shall be necessary or desirable to effect the Merger. The effective time and date of the Merger provided for herein shall be the time and date on which the Certificate of Merger is filed with the Secretary of the State of the State of Connecticut (the "Effective Time").

ARTICLE IV
PURPOSES OF THE PLAN OF MERGER

(a) L&M Physician Association, Inc. is a corporation without capital stock organized and existing under the Act. Northeast Medical Group, Inc. is a corporation without capital stock organized and existing under the Act.

(b) This Agreement and Plan of Merger (the "Plan") is intended to accomplish the merger of L&M Physician Association, Inc. with and into Northeast Medical Group, Inc., with Northeast Medical Group, Inc. as the surviving corporation, in the manner stated in this Plan and in accordance with the provisions of the Act.

ARTICLE V
MEMBERSHIP, CERTIFICATE OF INCORPORATION, BYLAWS, OFFICERS AND TRUSTEES

At the Effective Time, the following shall happen automatically and immediately, without the need for any other action by the board of directors of the Merging Corporation, the board of trustees of the Surviving Corporation, or the respective members of either of the Constituent Corporations, and without any filing other than the filing of the Certificate of Merger:

(a) As of the Effective Time, the separate existence of the Merging Corporation shall cease, and the membership of the Merging Corporation shall not convert into membership of the Surviving Corporation.

(b) The Certificate of Incorporation and the Bylaws of Northeast Medical Group, Inc. shall each be amended and restated at the Effective Time as a result of the Merger. The Amended and Restated Certificate of Incorporation and the Amended and Restated Bylaws of the Surviving Corporation, are set forth as Exhibit A and Exhibit B, respectively, to this Plan, and shall be effective from and after the Effective Time, until further amended pursuant to the Act and in the manner prescribed therein.

(c) The officers and trustees of Northeast Medical Group, Inc. in office immediately prior to the Effective Time shall be the officers and trustees of the Surviving Corporation until such time as they may be changed in accordance with the Bylaws of the Surviving Corporation and other applicable law.

ARTICLE VI
EFFECT OF MERGER

Upon the Effective Time of the Merger, the separate existence of L&M Physician Association, Inc. shall cease. The effect of the Merger shall be as set forth in §33-1158 of the Act.

ARTICLE VII
OTHER TERMS AND CONDITIONS

If, at any time after the Effective Time, the Surviving Corporation or its successor or assigns determines that any documentation, action or other things are necessary or desirable to further carry out the purposes of this Plan or to vest the Surviving Corporation with all right, title and interest in to and under all of the assets, properties, rights, claims, privileges, immunities, powers, franchises and authority of each of the Constituent Corporations, the officers and directors of the Surviving Corporation shall be authorized to execute and deliver, in the name of and on behalf of any Constituent Corporation or otherwise, all such documentation, and to take and do, in the name and on behalf of any Constituent Corporation or otherwise, all such other actions and things.

END OF PLAN OF MERGER

[Signature page follows.]

IN WITNESS WHEREOF, each of the Constituent Entities has caused this Agreement and Plan of Merger to be executed on its behalf by its duly authorized officers on this ____ day of _____.

**NORTHEAST MEDICAL GROUP, INC.
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **Northeast Medical Group, Inc.** (the "Corporation").

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Certificate of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its member, trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Certificate of Incorporation.

ARTICLE II. MEMBERSHIP

Section 2.1 Member. The Corporation shall have a single member, Yale-New Haven Health Services Corporation (the "Member"), a "Health System" as defined in Section 33-182aa of the Connecticut General Statutes.

Section 2.2 Rights, Powers and Privileges. The Member shall have all the rights, powers and privileges usually or by law accorded to the member of a medical foundation under the Chapter 594b of the Connecticut General Statutes (as it may be amended from time to time, the "Foundation Act") and of a Connecticut nonstock, nonprofit corporation under the Connecticut Revised Nonstock Corporation Act (as it may be amended from time to time, the "Nonstock Act") and not conferred thereby or by the Certificate of Incorporation or these Bylaws upon the Board of Trustees of the Corporation (the "Board"), including the right to elect the members of the Board in accordance with these Bylaws.

Notwithstanding anything in these Bylaws to the contrary:

(a) Neither the Board, nor any officer or employee of the Corporation, may take any of the actions set forth in Exhibit A of these Bylaws, nor may the Board or any officer or employee of the Corporation approve the taking of any such action by an Affiliate (as hereafter defined), without the prior approval of the Member. For purposes hereof, an "Affiliate" of the Corporation shall mean, unless otherwise determined by the Member, any entity which at the time Affiliate status is being determined is directly or indirectly controlling or controlled by or under the direct or indirect common control with the Corporation. "Control" shall mean the legal power to (a) elect or cause the election of a majority of the governing body of the subject entity, or (b) direct or cause the direction of the subject entity's operations or management, whether the foregoing power(s) exist(s) through voting securities, other voting rights, reserved powers, contract rights, or other legally enforceable means.

(b) In addition to the approval rights reserved to the Member set forth in Exhibit A, the Member expressly retains the rights to take the actions set forth in Exhibit B on

behalf of and in the name of the Corporation, directly and without the approval of the Board of this Corporation.

(c) The Board shall have the authority, from time to time, to delegate to the Member any rights, powers and privileges that would otherwise be exercised by the Board to the fullest extent permitted by applicable law.

Section 2.3 Liability and Reimbursement of Expenses. Unless the Member expressly agrees otherwise in writing, the Member shall not be liable for the debts or obligations of the Corporation. The Member may be reimbursed for expenses reasonably incurred on behalf of the Corporation.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. Subject to the powers retained by, conferred upon, or reserved to the Member by law or under these Bylaws, the Board shall have charge, control and management of the affairs, property and funds of the Corporation in the manner and subject to the limitations set forth in these Bylaws. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances, and in a manner he or she reasonably believes to be in the best interests of the Corporation.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Member for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the community served by the Corporation and shall be selected, on the basis of demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

- (i) the President of the Corporation; and
- (ii) the President of each Affiliated Delivery Network, or his or her designee.

For purposes hereof, "Affiliated Delivery Network" shall mean Bridgeport Hospital, Greenwich Hospital, Lawrence + Memorial Corporation, Yale-New Haven Hospital and such other providers that may affiliate with the Yale New Haven System in the future, as designated by the Member.

Section 3.3 Number. The Board shall consist of no fewer than thirteen (13) nor more

than twenty-four (24) Trustees, inclusive of Ex Officio Trustees. The number of Trustees within the range set forth in the preceding sentence shall be determined from time to time by the Member.

Section 3.4 Election of Trustees. At the annual meeting of the Member, the Member shall elect successors to the Elected Trustees whose terms are then expiring. The Member shall elect such successors consistent with the following Board composition:

(a) two (2) representatives of senior management of the Member (each, a "YNHHSC Board Member");

(b) one (1) representative from each Affiliated Delivery Network other than Lawrence + Memorial Corporation (in addition to the President, or his or her designee, who shall serve Ex Officio as set forth in Section 3.2(b));

(c) two (2) physicians employed by the Corporation, each of whom is a member in good standing on the medical staff of Lawrence + Memorial Hospital or Westerly Hospital;

(d) up to eight (8) individuals, each of whom is either (1) nominated by a majority vote of the Board and approved by the Member; or (2) self-nominated and appointed by the Member; provided, however, that each such individual, whether nominated by a majority vote of the Board or self-nominated, shall be a Provider (as defined in the Foundation Act) employed or engaged by the Corporation and a member in good standing on the medical staff of one or more Affiliated Delivery Network;

(e) two (2) representatives of Yale School of Medicine;

(f) such other individuals nominated Yale School of Medicine and approved by the Member; provided, however, that each such other individual shall be a Provider employed or engaged by the Corporation and a member in good standing on the medical staff of one or more Affiliated Deliver Network.

Notwithstanding anything herein to the contrary: (x) in accordance with the Foundation Act, the number of Trustees on the Board who are Providers shall equal or exceed the number of Trustees on the Board who are nonprovider employees of the Member; and (y) the number of Trustees appointed to the Board as representatives of, or on the nomination of, Yale School of Medicine shall constitute twenty-five percent (25%) of the total number of Trustees on the Board.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Member at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Member at which they were elected or at such later date as may be established by the Member and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided that a Trustee may be re-elected for an additional consecutive term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(c) The provisions of paragraphs (a) and (b) of this Section shall not apply to an Elected Trustee in the event such Trustee also serves as a trustee of Yale-New Haven Health Services Corporation at the time such person is elected to serve as an Elected Trustee for a term otherwise prohibited by such paragraphs (a) and (b). In the instance of re-election as a Trustee for an additional term as provided in this paragraph (c), Board membership shall be coterminous with said Trustee's service as a trustee of Yale-New Haven Health Services Corporation.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board with cause by action of the Member, which action may be taken upon its own initiative or upon the recommendation of the Board.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled only by the Member in accordance with Section 3.4 of these Bylaws. An individual elected to fill a vacancy shall serve the remainder of the term of the Trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Board or the President shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held on such dates and at such times and places as the Board or President shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the President and shall be called by the President upon the written request of the Member or any Trustee.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee and to the Member at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board and the Member in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice. Notice to the Member shall be directed to the President/Chief Executive Officer of the Member and may be provided in person, by mail, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic mail address at which the President/Chief Executive Officer of the Member has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided

that if less than a majority of the Trustees is present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board or the Member consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a Chair, a President, a Secretary, a Treasurer and such other officers, including Vice Chairs, as may be appointed from time to time consistent with Section 4.6. The Chair and any Vice Chair shall be members of the Board.

Section 4.2 Election and Term of Office. The President shall be appointed in accordance with Section 4.3(a) of this Article IV. The Chair, any Vice Chairs, the Secretary and the Treasurer shall be nominated by the Nominating and Governance Committee and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President.** The President of the Corporation shall be appointed by the Member, following consultation with the Board. The appointed President shall serve at the pleasure of the Member.

The President shall be a person who in the judgment of the Member has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, employees and the community.

The President shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to such policies as may be adopted by the Board. The President shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some other person to so act. The duties, responsibilities and authority of the President shall be defined in a written statement adopted by the Member in consultation with the Board.

The President shall be a voting member of all standing committees except as otherwise specified in these Bylaws.

(b) **Chair.** The Chair of the Board shall preside at meetings of the Board. The Chair shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair.** The Board may designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s), if any, shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary.** The Secretary shall have the custody of the records of the Corporation pertaining to the Secretary's office, shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer.** The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal.

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause; provided, however, that the President may be removed from office by the Member following consultation with the Board. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, except the President, the vacancy may be filled by the Board for the unexpired term. A vacancy in the office of President shall be filled in accordance with Section 4.3(a).

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as may be provided for, from time to time, in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in

these Bylaws, members and chairs of all standing committees shall be appointed by the Board on nomination of the Nominating and Governance Committee. All such committee members and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. All committees shall have the power to choose their own secretaries. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be approved by a majority of the committee members who are Trustees.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Executive Committee.** The Executive Committee shall consist of the Chair, who shall act as chair of the committee, the President, the Treasurer, and any other member of the Board that the Board may choose to appoint. The Executive Committee shall possess and may exercise in the intervals between meetings of the Board all such powers of the Board, except as may otherwise be provided by law, these Bylaws or resolution of the Board.

(b) **Nominating and Governance Committee.** The Nominating and Governance Committee shall consist of Trustees elected by the Board. The Nominating and Governance Committee shall, after consultation with the President and other Trustees, nominate candidates to be voted upon in electing officers and members of the Board and nominate for appointment by the Board the chairs and members of all standing committees. The Nominating and Governance Committee shall also review Board governance matters and recommend enhancements to strengthen the Board and ensure the comprehensiveness and efficiency of its governance process.

(c) **Finance Committee.** The Finance Committee shall have such duties as are established by the Member and set forth in the Finance Committee charter. These duties shall include, but not be limited to, approval of local operating and capital budgets and examination and monitoring of other operating and capital budgets involving the Corporation.

Section 5.6 Other Committees. The Board may establish and appoint from among the Trustees or others, such other committees with such powers and authority as the Board shall designate, except that no such committee may exercise the authority of the Board.

Section 5.7 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation's Member, Trustees, officers and employees as set forth in the Certificate of Incorporation.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Nonstock Act related to disclosure and approval of "Director's conflicting interest transactions" (as such term is defined in the Nonstock Act). Consistent with the requirements of the Nonstock Act, any "Director's conflicting interest transaction" shall, when possible, be approved and authorized by either (i) the Member or (i) a majority of the disinterested Trustees voting on the transaction at a meeting at which a majority (but no fewer than two (2)) of all disinterested Trustees on the Board shall constitute a quorum, in each case following any required disclosure of the facts of the conflicting interest transaction.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President or such other officers or officers as may be specified by the Board or authorized by the President.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President or such officer or officers of the Corporation as the Board may specify from time to time.

ARTICLE IX. AMENDMENTS

Subject to approval by the Member, these Bylaws may be amended, altered, or repealed at any meeting of the Board by a majority vote of the Trustees present and voting, a quorum being present. The general nature and purpose of such proposed amendment(s) shall be set forth in the notice of the meeting, and the actual language of the proposed amendments need not be included in the notice. No amendment, alteration or repeal shall take effect until it shall have been approved by the Member.

EXHIBIT A**Actions Requiring Approval of the Member**

Notwithstanding anything in these Bylaws to the contrary, neither the Board nor any officer or employee of the Corporation may take any of the following actions, or approve an Affiliate taking any of the following actions, without the prior approval of the Member:

- A. Merger, consolidation, reorganization or dissolution of this Corporation or any Affiliate and the creation or acquisition of an interest in any corporate entity, including joint ventures;
- B. Amendment or restatement of the Mission, Certificate of Incorporation or the Bylaws of this Corporation or any Affiliate, or any new or revised "doing business as" name;
- C. Adoption of operating and cash flow budgets of the Corporation or any Affiliate, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation (pursuant to the authority delegated to this Corporation by the Member to adopt such budgets within parameters established by the Member);
- D. Adoption of capital budgets and capital allocations of this Corporation or any Affiliate (pursuant to the authority delegated to this Corporation by the Member to adopt such budgets within parameters established by the Member);
- E. Incurring aggregate operating or capital expenditures on an annual basis that exceed operating or capital budgets of the Corporation adopted by the Member by a specified dollar amount to be determined from time to time by the Member;
- F. Long-term or material agreements including, but not limited to, equity financings, capitalized leases, operating leases and installment contracts; and purchase, sale, lease, disposition, hypothecation, exchange, gift, pledge or encumbrance of any asset, real or personal, with a fair market value in excess of a dollar amount to be determined from time to time by the Member, which shall not be less than 10% of the total annual capital budget of this Corporation;
- G. Approval of any new relationships or agreements for undergraduate or graduate medical education programs or any material amendments to or terminations of existing agreements for undergraduate or graduate medical education programs;
- H. Contracting with an unrelated third party for all or substantially all of the management of the assets or operations of this Corporation or any Affiliate;

- I. Approval of major new programs and clinical services of this Corporation or any Affiliate or discontinuation or consolidation of any such program. The Member shall from time to time define the term “major” in this context;
- J. Approval of strategic plans of this Corporation or any Affiliate;
- K. Adoption of safety and quality assurance policies not in conformity with policies established by the Member; and
- L. Adoption of any polices relating to compensation of employed physicians or the taking of any other action to establish or adjust compensation of employed physicians. For purposes hereof, compensation shall include salary, fringe benefits and deferred compensation.

Other Major Activities

- A. In addition, the Member shall have the authority, except as otherwise provided by the Member and after consultation with this Corporation, to require the prior review and approval of those activities of this Corporation or any subsidiary or affiliate entity that the Member determines to be “major activities.”
- B. “Major activities” shall be those which the Member by a vote of not less than two-thirds (2/3) of its Board of Trustees has declared major, by written notice to this Corporation, delivered personally or transmitted by registered or certified mail return receipt requested. Such notice shall specifically identify the matter or matters requiring approval of the Member, and shall refer to this Bylaw provision granting such approval rights to the Member. Notices received pursuant to this section shall be recorded in the minutes of this Corporation and shall be filed with the minutes of this Corporation.

Nothing in these Bylaws shall be construed in a manner that is inconsistent with the authorities with respect to the Corporation that are reserved or retained by the Member pursuant to these Bylaws and the Bylaws of the Member.

EXHIBIT B**Actions Direct Authority Retained by the Member**

Notwithstanding anything in these Bylaws to the contrary, the Member retains authority to take the following actions on behalf of and in the name of this Corporation, directly and without the approval of the Board of this Corporation:

- A. Adoption of targets for the annual operating and cash flow budgets of this Corporation and its Affiliates, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation;
- B. Adoption of targets for the annual capital budgets and capital allocations of this Corporation and any Affiliate;
- C. Adoption of annual operating, cash flow and annual capital budgets for the Corporation and any Affiliate within the targets established by the Member in the event of any failure of the Corporation to do so;
- D. Issuance and incurrence of indebtedness on behalf of this Corporation;
- E. Management and control of the liquid assets of this Corporation, including the authority to cause such assets to be funded to the Member or as otherwise directed by the Member;
- F. Appointment of the independent auditor for this Corporation and each Affiliate and the management of the audit process and compliance process and procedures for this Corporation and each Affiliate; and
- G. Appointment of the President consistent with Section 4.3(a).

Exhibit 2.1.4(C)

Amended and Restated Certificate of Incorporation of NEMG

**AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION**

NORTHEAST MEDICAL GROUP, INC.

§1. Name. The name of the Corporation shall hereafter be: NORTHEAST MEDICAL GROUP, INC. (the "Corporation").

§2. Purposes. The nature of the activities to be conducted and the purposes to be promoted or carried out by the Corporation shall be exclusively charitable, scientific and educational within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code"), and shall include the following:

(a) to operate and maintain one or more offices or facilities for the study, diagnosis and treatment of human ailments and injuries by licensed persons;

(b) to render medical and surgical treatment, consultation or advice by duly licensed employees or agents of the Corporation to patients without regard to race, color, creed, sex, age or ability to pay for such care and services;

(c) to promote, enhance, improve, and develop medical, surgical and scientific research at providers affiliated with Yale-New Haven Health Services Corporation, including, for so long as such providers are affiliated with Yale-New Haven Health Services Corporation, Bridgeport Hospital, Greenwich Hospital, Lawrence + Memorial Corporation, Yale-New Haven Hospital and such other providers that may affiliate with Yale-New Haven Health Services Corporation in the future (the "Affiliated Delivery Networks") and throughout the communities they serve;

(d) to promote, enhance, improve and augment the quality of medical and clinical education and patient care at Affiliated Delivery Networks and at any other sites determined by the Corporation;

(e) to promote and enhance a high quality of medical care and other human services for the benefit of all persons in the communities it serves;

(f) to augment the planning process for the promotion of the general well-being and human health needs of the communities it serves;

(g) to solicit, accept, hold, invest, reinvest, and administer any contributions, grants, donations, gifts, bequests, devises, benefits of trusts (but not to act as trustee of any trust), and property of any sort, without limitation as to amount or value, and to use, disperse or donate the income or principal thereof for exclusively charitable and educational purposes in such manner as, in the judgment of the Board of Trustees and the member of the Corporation, will best promote the purposes of the Corporation;

(h) to contract for, purchase, receive, own, manage, operate or lease property, real, personal and mixed, wheresoever situated, as may be necessary to promote and further the purposes and objectives of the Corporation; and

(i) to engage in any lawful act or activity for which a medical foundation may be organized under Chapter 594b of the General Statutes of Connecticut or for which a nonstock corporation may be organized under Chapter 602 of the General Statutes of Connecticut.

The member of the Corporation has elected to bring the Corporation within the provisions of Chapter 594b of the General Statutes of Connecticut.

In furtherance of the purposes set forth herein, the Corporation shall (i) participate as an integral part of the integrated health care delivery system known as the Yale New Haven Health System (the "System"), which System provides, through the corporation and its affiliates, comprehensive, cost effective, advanced patient care characterized by safety and clinical and service quality; and (ii) fund and promote activities and programs of the System, including activities and programs of its affiliates, consistent with and in furtherance of the corporation's charitable purposes and the charitable purposes of all System affiliates.

§3. Nonprofit. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

§4. Member. The Corporation shall have but one voting member. The member shall be Yale-New Haven Health Services Corporation, a "Health System" as defined in Section 33-182aa of the Connecticut General Statutes. The member shall have the rights, powers and privileges provided in the Corporation's Bylaws and by Connecticut law, including certain expressly reserved powers and retained rights described in the Bylaws.

§5. Duration. The duration of the Corporation shall be perpetual.

§6. Board of Trustees. Subject to the rights, powers and privileges of the member, the Corporation shall operate under the management of its Board of Trustees. The Bylaws may provide that certain persons occupying certain positions within or without the Corporation shall be ex-officio trustees, who may be counted in determining a quorum and may have the right to vote as may be provided in the Bylaws. As may be further provided in the Bylaws, the terms of elected trustees may be staggered by dividing the elected trustees into up to three groups so that approximately an equal number of such trustees have terms that expire each year. Trustees may be removed by the member for cause as set forth in the Bylaws.

§7. Restrictions. No part of the net earnings of the Corporation shall inure to the benefit of, or be distributable to, the Corporation's trustees, officers or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Section 2 hereof. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of "statements")

any political campaign on behalf of any candidate for public office. Notwithstanding any other provision of this Certificate of Incorporation, the Corporation shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Code, or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

§8. Dissolution. Upon the dissolution or termination of the existence of the Corporation, all of its property and assets, after payment of the lawful debts of the Corporation and the expenses of its dissolution or termination, shall be delivered, conveyed and paid over (subject to any restrictions imposed by any applicable will, deed, grant, conveyance, agreement, memorandum, writing or other governing document) to Yale-New Haven Health Services Corporation, or, if at the time of the dissolution or termination of the existence of the Corporation, Yale-New Haven Health Services Corporation is not in existence or does not qualify as exempt under Section 501(c)(3) of the Code, to any organization (or organizations) that qualifies as an organization exempt under Section 501(c)(3) of the Code, in such proportions and for such exclusively charitable, scientific or educational purposes as the Board of Trustees may determine.

§9. Limitation of Liability of Trustees. In addition to and not in derogation of any other rights conferred by law, a Trustee shall not be personally liable for monetary damages for breach of duty as a Trustee in an amount greater than the amount of compensation received by the Trustee for serving the Corporation during the year of the violation, provided that such breach did not (a) involve a knowing and culpable violation of law by the Trustee, (b) enable the Trustee or an associate, as defined in Section 33-840 of the Connecticut General Statutes, to receive an improper personal economic gain, (c) show a lack of good faith and a conscious disregard for the duty of the Trustee to the Corporation under circumstances in which the Trustee was aware that his/her conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (d) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of the Trustee's duty to the Corporation. Any lawful repeal or modification of this Section 9 or the adoption of any provision inconsistent herewith by the Board of Trustees or member of the Corporation shall not, with respect to a person who is or was a Trustee, adversely affect any limitation of liability, right or protection of such person existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a Trustee provided for in this Section 9 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any person under, Connecticut law.

§10. Indemnification. The Corporation shall provide its Trustees with the full amount of indemnification that the Corporation is permitted to provide pursuant to the Connecticut Revised Nonstock Corporation Act. In furtherance of the foregoing, the Corporation shall indemnify its Trustees against liability as defined in Section 33-1116(4) of the Connecticut General Statutes to any person for any action taken, or any failure to take any action, as a Trustee, except liability that (1) involved a knowing and culpable violation of law by the Trustee, (2) enabled the Trustee or an associate to receive an improper personal economic gain, (3) showed a lack of good faith and a conscious disregard for the duty of the Trustee to the Corporation under circumstances in which the Trustee was aware that his or her conduct or omission created an

unjustifiable risk of serious injury to the Corporation, or (4) constituted a sustained and unexcused pattern of inattention that amounted to an abdication of the Trustee's duty to the Corporation.

The Corporation may indemnify and advance expenses to each officer, employee or agent of the Corporation who is not a Trustee, or who is a Trustee but is made a party to a proceeding in his or her capacity solely as an officer, employee or agent, to the same extent as the Corporation is permitted to provide the same to a Trustee, and may indemnify and advance expenses to such persons to the extent permitted by Section 33-1122 of the Connecticut General Statutes.

Notwithstanding any provision hereof to the contrary, the Corporation shall not indemnify any Trustee, officer, employee or agent against any penalty excise taxes assessed against such person under Section 4958 of the Internal Revenue Code.

§11. Amendment of Bylaws. The Bylaws of the Corporation may be amended or repealed, and new Bylaws may be adopted, only with the approval of the Board of Trustees and the member.

Exhibit 2.1.5(a)(1)

LMH Amended Certificate of Incorporation

Amended and Restated
Certificate of Incorporation

of

Lawrence + Memorial Hospital, Inc.

Sec. 1. The name of the corporation is Lawrence + Memorial Hospital, Inc. (the "Hospital").

Sec. 2. The nature of the activities to be conducted, and the purposes to be promoted or carried out by the Hospital, shall be exclusively charitable, scientific and educational within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as the same may be amended from time to time, and the corresponding provisions of any future United States Internal Revenue Law (the "Code") and shall include the following:

(a) To establish, maintain and carry on an institution with permanent facilities for inpatients and ambulatory patients, with medical services to provide diagnosis and treatment, to carry on all associated services, and to assure that there is no unlawful discrimination under any program or in any facility of the Hospital;

(b) To participate, so far as circumstances may warrant, in any activity designed and carried on to promote the general health needs of the community;

(c) To conduct and participate in educational and scientific research activities related to providing care to the sick and injured, to the promotion of health, or to the development of personnel in the health professions or occupations, which, in the opinion of the Board of Trustees may be justified and supported by the facilities, personnel, funds or other requirements that are or can be made available; and

(d) To engage in any lawful act or activity for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act, as the same may be amended from time to time, and the corresponding provisions of any future Connecticut nonstock corporation law.

In furtherance of the foregoing, the Hospital shall (i) participate as an integral part of the integrated health care delivery system known as the Yale New Haven Health System (the "System"), which System provides, through its affiliates, comprehensive, cost effective, advanced patient care characterized by safety and clinical and service quality; and (ii) fund and promote activities and programs of the System, including activities and programs of its affiliates, consistent with and in furtherance of the Hospital's charitable purposes and the charitable purposes of all System affiliates.

Sec. 3. The Hospital is nonprofit and shall not have or issue shares of stock or pay dividends.

Sec. 4. The Hospital shall have but one member, Lawrence + Memorial Corporation (the "Sole Member"), which shall have the rights, powers and privileges provided in the Bylaws and by the State of Connecticut, including the right to exercise, on behalf of and as directed by its sole member, Yale-New Haven Health Services Corporation ("YNHHSC"), certain expressly reserved powers and retained rights described in the Bylaws.

Sec. 5. Subject to the rights, powers and privileges accorded to the Sole Member and to YNHHSC under the Bylaws and by the State of Connecticut, the Hospital shall be governed by its Board of Trustees. The Bylaws may provide that persons occupying certain positions within or without the Hospital shall be ex-officio trustees who may vote and be counted in determining a quorum. As may be further provided in the Bylaws of the Hospital, the terms of elected trustees may be staggered by dividing the trustees into groups so that approximately an equal number of such trustees have terms that expire each year.

Sec. 6. No part of the net earnings of the Hospital shall inure to the benefit of or be distributable to the Hospital's trustees, officers or other private persons, except that the Hospital, subject to the provisions of the Bylaws, shall be authorized and empowered to pay reasonable compensation for services rendered. No substantial part of the activities of the Hospital shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Hospital shall not participate in, or intervene in (including the publishing or distribution of statements), any political campaign on behalf of (or in opposition to) any candidate for public office. Notwithstanding any other provision of this Certificate of Incorporation, the Hospital shall not carry on any other activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Code, or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

Sec. 7. Upon any dissolution of the Hospital, all of its property and assets shall, after payment of the lawful debts of the Hospital and the expenses of its dissolution, be delivered, conveyed and paid over (subject to any restrictions imposed by any applicable will, deed, grant, conveyance, agreement, memorandum, writing or other governing document) to Lawrence + Memorial Corporation, so long as it is at that time an organization that qualifies as an exempt organization under Section 501(c)(3) of the Code, or, if at the time of the dissolution of the Hospital, Lawrence + Memorial Corporation is not in existence or does not so qualify, to one or more charitable, scientific or educational organizations located in the State of Connecticut and qualified as exempt organizations under Section 501(c)(3) of the Code, in such proportions and for such exclusively charitable, scientific or educational purposes as the Board of Trustees may determine.

Sec. 8. In addition to, and not in derogation of, any other rights conferred by law, a trustee of the Hospital shall not be personally liable for monetary damages for breach of duty as a trustee in an amount greater than the compensation received by the trustee for serving the Hospital during the year of such breach if such breach does not (A) involve a knowing and culpable violation of law by such trustee, (B) enable such trustee or an associate (as defined in

Section 33-840 of the Connecticut General Statutes) to receive an improper personal economic gain, (C) show a lack of good faith and conscious disregard for the duty of such trustee to the Hospital under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Hospital, or (D) constitute a sustained and unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Hospital. Any lawful repeal or modification of this Section 8 or the adoption of any provision inconsistent herewith by the Board of Trustees or the Sole Member of the Hospital shall not, with respect to a person who is or was a trustee, adversely affect any limitation of liability, right or protection of such person existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a trustee provided for in this Section 8 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any person under, Connecticut law.

Sec. 9. The Hospital shall provide its trustees with the full amount of indemnification that the Hospital is permitted to provide pursuant to the Connecticut Revised Nonstock Corporation Act and shall advance expenses to trustees consistent with Section 33-1119 of the Connecticut General Statutes. In furtherance of the foregoing, the Hospital shall indemnify its trustees against liability as defined in Section 33-1116(4) of the Connecticut General Statutes to any person for any action taken, or any failure to take any action, as a trustee, except liability that (A) involves a knowing and culpable violation of law by such trustee, (B) enables such trustee or an associate (as defined in Section 33-840 of the Connecticut General Statutes) to receive an improper personal economic gain, (C) shows a lack of good faith and conscious disregard for the duty of such trustee to the Hospital under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Hospital, or (D) constitutes a sustained and unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Hospital.

The Hospital may indemnify and advance expenses to each officer, employee or agent of the Hospital who is not a trustee, or who is a trustee but is made a party to a proceeding in his or her capacity solely as an officer, employee or agent, to the same extent as the Hospital is permitted to provide the same to a trustee, and may indemnify and advance expenses to such persons to the extent permitted by Section 33-1122 of the Connecticut General Statutes.

Notwithstanding any provision hereof to the contrary, the Hospital shall not indemnify any trustee, officer, employee or agent against any penalty excise taxes assessed against such person under Section 4958 of the Internal Revenue Code.

Sec. 10. This Certificate of Incorporation and the Bylaws of the Hospital may be amended or repealed, and new Bylaws may be adopted, only with the approval of the Sole Member and YNHHS.

**LAWRENCE + MEMORIAL HOSPITAL, INC.
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **Lawrence + Memorial Hospital, Inc.** (the "Corporation").

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Certificate of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its member, trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Certificate of Incorporation.

ARTICLE II. MEMBERSHIP

Section 2.1 Member. The Corporation shall have a single member, Lawrence + Memorial Corporation (the "Member").

Section 2.2 Rights, Powers and Privileges. The Member shall have all the rights, powers and privileges usually or by law accorded to the member of a Connecticut nonstock, nonprofit corporation under the Connecticut Revised Nonstock Corporation Act as may be amended from time to time (the "Nonstock Act") and not conferred thereby or by the Certificate of Incorporation or these Bylaws upon the Board of Trustees of the Corporation (the "Board"), including the right to elect the members of the Board in accordance with these Bylaws. If and to the extent that actions by the Member cannot be taken without the approval of the sole member of the Member, Yale-New Haven Health Services Corporation ("YNHHSC"), or actions have been reserved to YNHHSC, the Member may take such actions only as directed by YNHHSC.

Notwithstanding anything in these Bylaws to the contrary:

(a) Neither the Board, nor any officer or employee of the Corporation, may take any of the actions set forth in Exhibit A or Exhibit B of these Bylaws, nor may the Board or any officer or employee of the Corporation approve the taking of any such action by an Affiliate (as hereafter defined), except that, with respect to the actions on Exhibit A, the Board's recommendation may be requested by the Member and YNHHSC consistent with Section 3.1(a) below. For purposes hereof, an "Affiliate" of the Corporation shall mean, unless otherwise determined by the YNHHSC, any entity which at the time Affiliate status is being determined is directly or indirectly controlling or controlled by or under the direct or indirect common control with the Corporation. "Control" shall mean the legal power to (a) elect or cause the election of a majority of the governing body of the subject entity, or (b) direct or cause the direction of the subject entity's operations or management, whether the foregoing power(s) exist(s) through voting securities, other voting rights, reserved powers, contract rights, or other legally enforceable means.

(b) In addition to the rights reserved to the Member and YNHHSC to take the actions set forth in Exhibit A on behalf of and in the name of the Corporation, directly and without

the approval or the recommendation of the Board, YNHHSC (or the Member, acting on the direction of YNHHSC) expressly retains the rights to take the actions set forth in Exhibit B on behalf of and in the name of the Corporation, directly and without the approval or the recommendation of the Board or the Member of this Corporation.

(c) The Board shall have the authority, from time to time, to delegate to the Member and YNHHSC any rights, powers and privileges that would otherwise be exercised by the Board to the fullest extent permitted by applicable law.

Section 2.3 Liability and Reimbursement of Expenses. Unless the Member expressly agrees otherwise in writing, the Member shall not be liable for the debts or obligations of the Corporation. The Member may be reimbursed for expenses reasonably incurred on behalf of the Corporation.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. Subject to the powers retained by, conferred upon, or reserved to the Member or YNHHSC by law or under these Bylaws, the Board shall have charge, control and management of the affairs, property and funds of the Corporation in the manner and subject to the limitations set forth in these Bylaws. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances and in a manner he or she reasonably believes to be in the best interests of the Corporation.

The Board shall have among its duties those duties required to be exercised by the governing body by applicable regulatory, licensing or accreditation agencies. Without limiting the generality of the foregoing, the Board shall be responsible for the appointment, organization and activities of the Medical Staff (the "Medical Staff"), shall hold the Medical Staff responsible for recommendations concerning medical matters, and shall make decisions regarding initial staff appointments, reappointments, terminations of appointments, and the granting, termination, curtailment or revision of clinical privileges (directly or as delegated by the Board to the Patient Safety and Clinical Quality Committee in accordance with Section 5.4(b) of these Bylaws).

Further without limiting the generality of the foregoing, and subject to Section 2.2 and Exhibit A and Exhibit B of these Bylaws, the Board may:

- (a) Make the following recommendations to the Member and YNHHSC:
 - (i) Recommend to the Member and YNHHSC the philosophy, mission and values of the Hospital and any changes thereto;
 - (ii) Recommend to the Member and YNHHSC the Corporation's strategic plans;

(iii) Recommend to the Member and YNHHSC the Corporation's annual operating and financial targets, major clinical and/or financial initiatives, and financial plans (including capital and operating budgets);

(iv) Recommend to the Member and YNHHSC the sale, transfer or substantial change in use of all or substantially all of the assets, the divestiture, dissolution and/or disposition of assets, closure, merger, consolidation, change in corporate membership or ownership or corporate reorganization of the Corporation or any Affiliate;

(v) Recommend to the Member and YNHHSC the formation or acquisition by the Corporation of any Affiliates or any other new direct or indirect subsidiaries, joint ventures or affiliations;

(vi) Recommend to the Member and YNHHSC the introduction or termination of any services to be offered by the Corporation not otherwise included in an approved budget or a strategic or financial plan; and

(vii) Recommend to the Member and YNHHSC changes to the Corporation's Certificate of Incorporation and Bylaws.

(b) Make the following recommendations to the Member:

(i) Recommend to the Member approval of any consent decree or settlements from state and federal authorities;

(ii) Recommend to the Member nominations for and removal of Trustees of the Corporation; and

(iii) Recommend to the Member the appointment and evaluation of the President of the Corporation.

(c) Take the following actions:

(i) Annually assess the Corporation's performance against approved budgets, initiatives and strategic plans adopted by the Member and YNHHSC;

(ii) Except for the President of the Corporation, elect officers of the Board (following consultation with the Member's Nominating and Governance Committee in accordance with Section 4.2 of these Bylaws) and remove from office any officer (except for the President of the Corporation) with or without cause (in accordance with Section 4.4(b) of these Bylaws);

(iii) Approve any business transaction or contract that is not otherwise included in an approved budget or a strategic or financial plan, except for long-term or material agreements that require the approval of the Member and YNHHS in accordance with Exhibit A;

(iv) Periodically assess the Corporation's Quality Initiatives, including tracking and reporting on the Hospital's performance under quality measures, quality and patient safety programs and initiatives, patient satisfaction and cultural competence initiatives;

(v) Periodically assess the Corporation's Development Plans and its Planned Giving Plans;

(vi) Periodically assess the Corporation's Community Relations Initiatives and Community Outreach Programs;

(vii) Approve actions with respect to the privileges and credentials of members of the Corporation's medical staff in accordance with state and federal law, applicable accreditation standards, the Corporation's Medical Staff Bylaws and any System guidelines established by the Member, subject to the Board's delegation of authority to the Board Patient Safety and Clinical Quality Committee; and

(viii) Evaluate the Board's performance.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Member for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the community served by the Corporation and shall be selected, on the basis of

demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

(i) the President/Chief Executive Officer of YNHHS (or his or her designee);

(ii) the President of the Member (if such person is not also concurrently serving as the President of the Corporation);

(iii) the President of the Corporation (if such person is not also concurrently serving as the President of the Member);

(iv) the President of the Medical Staff; and

(v) the Vice President of the Medical Staff.

Ex Officio Trustees shall be counted in determining the presence of a quorum and shall have the right to vote on all matters that come before the Board.

(c) **Other Board Participants.** Any present or former Trustee who has served with unusual distinction, or faithfully over a number of years, shall be eligible for election by the Board as a Trustee Emeritus. A Trustee Emeritus shall have the privilege of attending meetings of the Board and shall have the privilege of the floor, but shall have no vote at meetings of the Board and shall not be counted in determining a quorum thereof.

Section 3.3 Number. The Board shall consist of no fewer than six (6) nor more than twelve (12) Trustees, such number to be determined from time to time by the Member.

Section 3.4 Election of Trustees. At the annual meeting of the Member, the Member shall elect successors to the Elected Trustees whose terms are then expiring. The Member shall elect such successors from among the nominees presented by the Board; provided, however, that in the event the Member does not elect any such nominee, the Board shall present a different nominee to the Member for election; and provided further that in the event any such successor nominee is not elected by the Member within ninety (90) days following the original nomination, the Member may solicit alternative nominees or elect its own nominee. In all events, the Elected Trustees shall be individuals who meet the requirements set forth in Section 3.2(a) of this Article III and who are satisfactory to YNHHS.

Notwithstanding anything herein to the contrary, the Elected Trustees shall include one (1) physician on the Medical Staff who has previously held the position of President of the Medical Staff.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected

Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Member at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Member at which they were elected or at such later date as may be established by the Member and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided that a Trustee may be re-elected for an additional consecutive term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(c) The provisions of paragraphs (a) and (b) of this Section shall not apply to an Elected Trustee in the event such Trustee also serves as a trustee of YNHHS at the time such person is elected to serve as an Elected Trustee for a term otherwise prohibited by such paragraphs (a) and (b). In the instance of re-election as a Trustee for an additional term as provided in this paragraph (c), Board membership shall be coterminous with said Trustee's service as a trustee of YNHHS.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board

with or without cause by action of the Member, which action may be taken upon its own initiative or upon the recommendation of the Board. The Member shall remove an Elected Trustee at the direction of YNHHS.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled only by the Member in accordance with Section 3.4 of these Bylaws. An individual elected to fill a vacancy shall serve the remainder of the term of the trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Chair of the Board shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held at least quarterly or more frequently as needed on such dates and at such times and places as the Chair shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the Chair or President and shall be called upon the written request of any three (3) Trustees.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee and to the Member at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice. Notice to the Member shall be directed to the President of the Member and may be provided in person, by mail, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic mail address at which the President of the Member has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided that if less than a majority of the Trustees is present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board or the Member consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a President, a Chair, one or more Vice Chairs, a Secretary, a Treasurer and such other officers as may be appointed from time to time consistent with Section 4.6. The Chair and any Vice Chair shall be selected from among members of the Board of Trustees. The offices of the President, the Chair and the Treasurer shall be held by different individuals.

Section 4.2 Election and Term of Office. The President shall be appointed in accordance with Section 4.3(a) of this Article IV. The Chair, Vice Chairs, Secretary and Treasurer shall be nominated in consultation with the Nominating and Governance Committee of the Member and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President.** The President of the Corporation shall be appointed by the Member, following consultation with the Board and with the approval of YNHHS. The appointed President shall serve at the pleasure of the Member and YNHHS.

The President shall be a person who in the judgment of the Member and YNHHS has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, the Medical Staff, Corporation personnel, YNHHS and the community.

The President shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to

such policies as may be adopted by the Board. The President shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some other person to so act. The duties, responsibilities and authority of the President shall be defined in a written statement adopted by the Member in consultation with the Board and with the approval of YNHHS.

The President shall be a voting member of all standing committees except as otherwise specified in these Bylaws. The President shall report to the President of the Member (or his or her designee) as well as to the Board.

(b) **Chair**. The Chair of the Board shall preside at meetings of the Board and shall be a voting member of all committees except the Governance Committee. The Chair shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair**. The Board shall designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s) shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary**. The Secretary shall have the custody of the records of the Corporation pertaining to the Secretary's office; shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer**. The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal.

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause; provided, however, that the President of the Corporation may be removed from office by the Member at the direction of YNHHS following consultation with the Board. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, except the President, the vacancy may be filled by the Board of Trustees for the unexpired term. A vacancy in the office of President shall be filled in accordance with Section 4.3(a).

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as are provided for in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in these Bylaws, members and chairs of all standing committees shall be appointed by the Board. All such committee members and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be approved by a majority of the committee members who are Trustees.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Executive Committee.** The Executive Committee shall consist of the President, the Chair, the Secretary, the Treasurer, the President of the Member (if such person is not also concurrently serving as the President of the Corporation), a member of the Board selected by YNHSC, and any other member of the Board that the Board may choose to appoint. The Chair shall serve as the chair of the Executive Committee. The Executive Committee shall possess and may exercise in the intervals between meetings of the Board all such powers of the Board, except as may otherwise be provided by law, these Bylaws, or resolution of the Board.

(b) **Patient Safety and Clinical Quality Committee.** The Patient Safety and Clinical Quality Committee shall have such duties as are delegated to it by the Board. These duties include authority to render decisions in cases of uncontested medical staff appointments, reappointments, and renewals or modifications of clinical privileges. The Patient Safety and Clinical Quality Committee shall also periodically review patient safety and clinical quality metrics to ensure the provision of high quality, effective care. Other delegated duties may be set forth in the Medical Staff Bylaws. The Patient Safety and Clinical Quality Committee shall serve as a liaison for communication between the Board, the Medical Staff and hospital administration. To the extent that such committee engages in peer review activity, such committee shall function as a “peer review committee” within the meaning of that term as set forth in Chapter 368a of the Connecticut General Statutes, as amended from time to time.

Section 5.5 Other Committees. The Board may establish and appoint ad-hoc committees from time to time as the Board may deem necessary to carry out special fund raising events or other initiatives of the Board. Such committees may not exercise the authority of the Board, and any acts taken by them shall be solely advisory in nature. The members and chairs of each such committee shall be appointed by the Board, and each such committee shall consist of at least one (1) Trustee and two (2) other individuals who may or may not be Trustees. Each such committee shall be chaired by a Trustee of the Board. Committee members shall serve at the pleasure of the Board and until their successors are elected.

Section 5.6 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws. The Executive Committee shall have authority to take actions consistent with these Bylaws; all other committees shall act in an advisory capacity only and shall have no power or authority to bind the Corporation, unless expressly authorized by the Board.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation’s Trustees, officers and employees as set forth in the Certificate of Incorporation.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Nonstock Act related to disclosure and approval of “Director’s conflicting interest transactions” (as such term is defined in the Nonstock Act). Consistent with the requirements of the Nonstock Act, any “Director’s conflicting interest transaction” shall, when possible, be approved and authorized by either (i) the Member or (i) a majority of the disinterested Trustees voting on the transaction at a meeting at which a majority (but no fewer

than two (2)) of all disinterested Trustees on the Board shall constitute a quorum, in each case following any required disclosure of the facts of the conflicting interest transaction.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President or such other officers or officers as may be specified by the Board or authorized by the President.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President or such officer or officers of the Corporation as the Board may specify from time to time.

Section 8.4 Auxiliary. There may be an auxiliary organized to further the purposes and interests of the Corporation (the "Auxiliary"). The Auxiliary shall have the authority, subject to the review and approval of the Board, to adopt and amend bylaws for its operations which shall state its purpose, duties and organization.

Section 8.5 Department Chairs. The Corporation shall consult with YNHHSK regarding the recruitment and selection of all Department Chairs or other comparable positions at the Corporation and/or any of its Affiliates.

ARTICLE IX. AMENDMENTS

Except as otherwise provided by the Certificate of Incorporation or by law, and subject to approval by YNHHSK, these Bylaws may be amended, altered, or repealed by the Member.

EXHIBIT A**Actions Requiring Approval of the Member and YNHHS**

Notwithstanding anything in these Bylaws to the contrary, the following actions may only be taken upon the approval of the Member and YNHHS, without the approval of the Board of this Corporation:

- A. Merger, consolidation, reorganization or dissolution of this Corporation or any Affiliate or the creation or acquisition of an interest in any corporate entity, including joint ventures;
- B. Amendment or restatement of the Mission, Certificate of Incorporation or the Bylaws of this Corporation or any Affiliate, or any new or revised "doing business as" name;
- C. Adoption of operating and cash flow budgets of the Corporation or any Affiliate, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation (pursuant to the authority delegated to this Corporation by YNHHS to adopt such budgets within parameters established by YNHHS);
- D. Adoption of capital budgets and capital allocations of this Corporation or any Affiliate (pursuant to the authority delegated to this Corporation by YNHHS to adopt such budgets within parameters established by YNHHS);
- E. Incurring aggregate operating or capital expenditures on an annual basis that exceed operating or capital budgets of the Corporation adopted by YNHHS by a specified dollar amount to be determined from time to time by YNHHS;
- F. Long-term or material agreements including, but not limited to, equity financings, capitalized leases, operating leases and installment contracts; and purchase, sale, lease, disposition, hypothecation, exchange, gift, pledge or encumbrance of any asset, real or personal, with a fair market value in excess of a dollar amount to be determined from time to time by YNHHS, which shall not be less than 10% of the total annual capital budget of this Corporation;
- G. Approval of any new relationships or agreements for undergraduate or graduate medical education programs or any material amendments to or terminations of existing agreements for undergraduate or graduate medical education programs;
- H. Contracting with an unrelated third party for all or substantially all of the management of the assets or operations of this Corporation or any Affiliate;
- I. Approval of major new programs and clinical services of this Corporation or any Affiliate or discontinuation or consolidation of any such program. YNHHS shall from time to time define the term "major" in this context;

- J. Approval of strategic plans of this Corporation or any Affiliate;
- K. Adoption of safety and quality assurance policies not in conformity with policies established by YNHHSC;
- L. Oversee the Corporation's management and investment of its permanent and temporarily restricted funds;
- M. Approve any voluntary change to the federal income tax exemption granted by the IRS to the Corporation under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended;
- N. Initiate or consent to any form of insolvency proceeding undertaken by the Corporation or any direct or indirect subsidiary of the Corporation;
- O. Approve any change in the name of the Corporation, and establish advertising, marketing and promotional policies applicable to the Corporation; and
- P. Appointment of the President of this Corporation consistent with Section 4.3(a).

Nothing in these Bylaws shall be construed in a manner that is inconsistent with the authorities with respect to the Corporation that are reserved or retained by the Member or YNHHSC pursuant to these Bylaws and the Bylaws of the Member and of YNHHSC.

EXHIBIT B

Direct Authority Retained by YNHHSC

Notwithstanding anything in these Bylaws to the contrary, YNHHSC (or, where required by law, the Member acting at the direction of YNHHSC) retains authority to take the following actions on behalf of and in the name of this Corporation, directly and without the approval of the Board of this Corporation:

- A. Adoption of targets for the annual operating and cash flow budgets of this Corporation and its Affiliates, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation;
- B. Adoption of targets for the annual capital budgets and capital allocations of this Corporation and any Affiliate;
- C. Adoption of annual operating, cash flow and annual capital budgets for the Corporation and any Affiliate within the targets established by YNHHSC in the event of any failure of the Corporation to do so;
- D. Issuance and incurrence of indebtedness on behalf of this Corporation;
- E. Management and control of the liquid assets of this Corporation, including the authority to cause such assets to be funded to YNHHSC or as otherwise directed by YNHHSC; and
- F. Appointment of the independent auditor for this Corporation and each Affiliate and the management of the audit process and compliance process and procedures for this Corporation and each Affiliate,

Other Major Activities

- A. In addition, YNHHSC shall have the authority, except as otherwise provided by YNHHSC and after consultation with the Member, to require the prior review and approval of those activities of this Corporation or any subsidiary or affiliate entity that YNHHSC determines to be "major activities."
- B. "Major activities" shall be those which YNHHSC by a vote of not less than two-thirds (2/3) of its Board of Trustees has declared major, by written notice to the Member, delivered personally or transmitted by registered or certified mail return receipt requested. Such notice shall specifically identify the matter or matters requiring approval of YNHHSC, and shall refer to this Bylaw provision granting such approval rights to YNHHSC. Notices received pursuant to this section shall be recorded in the minutes of the Member and of this Corporation, and shall be filed with the minutes of the Member and of this Corporation.

LMW Amended Certificate of Incorporation

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

Office of the Secretary of State
 Corporations Division
 148 W. River Street
 Providence, Rhode Island 02904-2615
 (401) 222-3040

**INSTRUCTIONS FOR FILING
 ARTICLES OF AMENDMENT TO THE ARTICLES OF INCORPORATION
 OF A DOMESTIC NON-PROFIT CORPORATION**

Section 7-6-40 of the General Laws of Rhode Island, 1956, as amended

The attached form is designed to meet minimal statutory filing requirements pursuant to the relevant statutory provision. This form and the information provided are not substitutes for the advice and services of an attorney and/or tax specialist.

1. In order to procure a Certificate of Amendment, a non-profit corporation must file Articles of Amendment to the Articles of Incorporation (Form No. 201) with the Office of the Secretary of State, Corporations Division, at the above address. When the Articles are properly completed, signed and submitted with the correct filing fee, a Certificate of Amendment, shall be issued.
2. Upon filing the Articles, the corporation must be in good standing and current with the filing of its annual reports and the maintenance of its registered agent and its registered office in this state.
3. The filing fee for the Articles of Amendment is \$10.00, and payment should be made payable to the Rhode Island Secretary of State.
4. A corporation may amend its articles of incorporation, from time to time, in any and as many respects as may be desired, so long as its articles of incorporation as amended contain only such provisions as are lawful under this chapter. The following instructions apply if the corporation is changing its corporate name, and/or changing, enlarging or diminishing its corporate purpose.

(a) The name of any non-profit corporation must be "distinguishable upon the records of the secretary of state." This means the Office of the Secretary of State will deny a request for a name if such name is identical to or not distinguishable from any entity, name reservation, or registration on file with the Business Section of the Corporations Division. A preliminary name availability check can be made by checking the Name Availability Database on our website, or by phoning us at the above telephone number. This preliminary check is not statutorily required, is not binding upon the Secretary of State, and does not ensure that the name will be available upon filing the Articles of Incorporation. It is suggested that you do not make any financial expenditures or execute documents utilizing the name based upon a preliminary name availability check. The final determination as to availability of the name will be made when the documents are submitted for filing.

(b) The specific purpose or purposes of the corporation must be stated. General statements such as "any lawful purpose" or "any lawful business" will not be accepted.

5. The Articles must be signed by the corporation's president or vice president and secretary or assistant secretary. A signature must appear on each line even if the same person holds both offices.

If you have any questions, please call us at (401) 222-3040, Monday through Friday, between 8:30 a.m. and 4:30 p.m.

3. The amendment was adopted in the following manner:

(check one box only)

- The amendment was adopted at a meeting of the members held on _____, at which meeting a quorum was present, and the amendment received at least a majority of the votes which members present or represented by proxy at such meeting were entitled to cast.
- The amendment was adopted by a consent in writing on _____, signed by all members entitled to vote with respect thereto.
- The amendment was adopted at a meeting of the Board of Directors held on _____ and received the vote of a majority of the directors in office, there being no members entitled to vote with respect thereto.

4. Date when amendment is to become effective _____
(not prior to, nor more than 30 days after, the filing of these Articles of Amendment)

Under penalty of perjury, we declare and affirm that we have examined these Articles of Amendment to the Articles of Incorporation, including any accompanying attachments, and that all statements contained herein are true and correct.

Articles of Amendment to
Articles of Incorporation for:
LMW Healthcare, Inc.

Section 3 shall be amended to add thereto:

In furtherance of the foregoing, the Corporation shall (i) participate as an integral part of the integrated health care delivery system known as the Yale New Haven Health System (the "System"), which System provides, through its affiliates, comprehensive, cost effective, advanced patient care characterized by safety and clinical and service quality; and (ii) fund and promote activities and programs of the System, including activities and programs of its affiliates, consistent with and in furtherance of the Corporation's charitable purposes and the charitable purposes of all System affiliates.

**LMW HEALTHCARE, INC. D/B/A THE WESTERLY HOSPITAL
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **LMW Healthcare, Inc.** (the "Corporation"). The Corporation shall conduct business under the name "The Westerly Hospital."

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Articles of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its member, trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Articles of Incorporation.

ARTICLE II. MEMBERSHIP

Section 2.1 Member. The Corporation shall have a single member, Lawrence + Memorial Corporation (the "Member").

Section 2.2 Rights, Powers and Privileges. The Member shall have all the rights, powers and privileges usually or by law accorded to the member of a Rhode Island nonprofit corporation under the Rhode Island Nonprofit Corporation Act as may be amended from time to time (the "Act") and not conferred thereby or by the Articles of Incorporation or these Bylaws upon the Board of Trustees of the Corporation (the "Board"), including the right to elect the members of the Board in accordance with these Bylaws. If and to the extent that actions by the Member cannot be taken without the approval of the sole member of the Member, Yale-New Haven Health Services Corporation ("YNHHSC"), or actions have been reserved to YNHHSC, the Member may take such actions only as directed by YNHHSC.

Notwithstanding anything in these Bylaws to the contrary:

(a) Neither the Board, nor any officer or employee of the Corporation, may take any of the actions set forth in Exhibit A or Exhibit B of these Bylaws, nor may the Board or any officer or employee of the Corporation approve the taking of any such action by an Affiliate (as hereafter defined), except that, with respect to the actions on Exhibit A, the Board's recommendation may be requested by the Member and YNHHSC consistent with Section 3.1(a) below. For purposes hereof, an "Affiliate" of the Corporation shall mean, unless otherwise determined by the YNHHSC, any entity which at the time Affiliate status is being determined is directly or indirectly controlling or controlled by or under the direct or indirect common control with the Corporation. "Control" shall mean the legal power to (a) elect or cause the election of a majority of the governing body of the subject entity, or (b) direct or cause the direction of the subject entity's operations or management, whether the foregoing power(s) exist(s) through voting securities, other voting rights, reserved powers, contract rights, or other legally enforceable means.

(b) In addition to the rights reserved to the Member and YNHHSC to take the actions set forth in Exhibit A on behalf of and in the name of the Corporation, directly and without the approval or the recommendation of the Board, YNHHSC (or the Member, acting on the direction of YNHHSC) expressly retains the rights to take the actions set forth in Exhibit B on behalf of and in the name of the Corporation, directly and without the approval or the recommendation of the Board or the Member of this Corporation.

(c) The Board shall have the authority, from time to time, to delegate to the Member and YNHHSC any rights, powers and privileges that would otherwise be exercised by the Board to the fullest extent permitted by applicable law.

Section 2.3 Liability and Reimbursement of Expenses. Unless the Member expressly agrees otherwise in writing, the Member shall not be liable for the debts or obligations of the Corporation. The Member may be reimbursed for expenses reasonably incurred on behalf of the Corporation.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. Subject to the powers retained by, conferred upon, or reserved to the Member or YNHHSC by law or under these Bylaws, the Board shall have charge, control and management of the affairs, property and funds of the Corporation in the manner and subject to the limitations set forth in these Bylaws. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances and in a manner he or she reasonably believes to be in the best interests of the Corporation.

The Board shall have among its duties those duties required to be exercised by the governing body by applicable regulatory, licensing or accreditation agencies. Without limiting the generality of the foregoing, the Board shall be responsible for the appointment, organization and activities of the Medical Staff (the "Medical Staff"), shall hold the Medical Staff responsible for recommendations concerning medical matters, and shall make decisions regarding initial staff appointments, reappointments, terminations of appointments, and the granting, termination, curtailment or revision of clinical privileges (directly or as delegated by the Board to the Patient Safety and Clinical Quality Committee in accordance with Section 5.4(b) of these Bylaws).

Further without limiting the generality of the foregoing, and subject to Section 2.2 and Exhibit A and Exhibit B of these Bylaws, the Board may:

- (a) Make the following recommendations to the Member and YNHHSC:
 - (i) Recommend to the Member and YNHHSC the philosophy, mission and values of the Corporation and any changes thereto;
 - (ii) Recommend to the Member and YNHHSC the Corporation's strategic plans;

(iii) Recommend to the Member and YNHHSC the Corporation's annual operating and financial targets, major clinical and/or financial initiatives, and financial plans (including capital and operating budgets);

(iv) Recommend to the Member and YNHHSC the sale, transfer or substantial change in use of all or substantially all of the assets, the divestiture, dissolution and/or disposition of assets, closure, merger, consolidation, change in corporate membership or ownership or corporate reorganization of the Corporation or any Affiliate;

(v) Recommend to the Member and YNHHSC the formation or acquisition by the Corporation of any Affiliates or any other new direct or indirect subsidiaries, joint ventures or affiliations;

(vi) Recommend to the Member and YNHHSC the introduction or termination of any services to be offered by the Corporation not otherwise included in an approved budget or a strategic or financial plan; and

(vii) Recommend to the Member and YNHHSC changes to the Corporation's Certificate of Incorporation and Bylaws.

(b) Make the following recommendations to the Member:

(i) Recommend to the Member approval of any consent decree or settlements from state and federal authorities;

(ii) Recommend to the Member nominations for and removal of Trustees of the Corporation; and

(iii) Recommend to the Member the appointment and evaluation of the President of the Corporation.

(c) Take the following actions:

(i) Annually assess the Corporation's performance against approved budgets, initiatives and strategic plans adopted by the Member and YNHHSC;

(ii) Except for the President of the Corporation, elect officers of the Board (following consultation with the Member's Nominating and Governance Committee in accordance with Section 4.2 of these Bylaws) and remove from office any officer (except for the President of the Corporation) with or without cause (in accordance with Section 4.4(b) of these Bylaws);

(iii) Approve any business transaction or contract that is not otherwise included in an approved budget or a strategic or financial plan, except for long-term or material agreements that require the approval of the Member and YNHHSC in accordance with Exhibit A;

(iv) Periodically assess the Corporation's Quality Initiatives, including tracking and reporting on the Corporation's performance under quality measures, quality and patient safety programs and initiatives, patient satisfaction and cultural competence initiatives;

(v) Periodically assess the Corporation's Development Plans and its Planned Giving Plans;

(vi) Periodically assess the Corporation's Community Relations Initiatives and Community Outreach Programs;

(vii) Approve actions with respect to the privileges and credentials of members of the Corporation's medical staff in accordance with state and federal law, applicable accreditation standards, the Corporation's Medical Staff Bylaws and any System guidelines established by the Member, subject to the Board's delegation of authority to the Board Patient Safety and Clinical Quality Committee; and

(viii) Evaluate the Board's performance.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Member for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the community served by the Corporation and shall be selected, on the basis of demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

(i) the President/Chief Executive Officer of YNHHS (or his or her designee);

(ii) the President of the Member (if such person is not also concurrently serving as the President of the Corporation);

(iii) the President of the Corporation (if such person is not also concurrently serving as the President of the Member);

(iv) the President of the Medical Staff; and

(v) the Vice President of the Medical Staff.

Ex Officio Trustees shall be counted in determining the presence of a quorum and shall have the right to vote on all matters that come before the Board.

(c) **Other Board Participants.** Any present or former Trustee who has served with unusual distinction, or faithfully over a number of years, shall be eligible for election by the Board as a Trustee Emeritus. A Trustee Emeritus shall have the privilege of attending meetings of the Board and shall have the privilege of the floor, but shall have no vote at meetings of the Board and shall not be counted in determining a quorum thereof.

Section 3.3 Number. The Board shall consist of no fewer than eleven (11) nor more than fifteen (15) Trustees, such number to be determined from time to time by the Member.

Section 3.4 Election of Trustees. At the annual meeting of the Member, the Member shall elect successors to the Elected Trustees whose terms are then expiring. The Member shall elect such successors from among the nominees presented by the Board; provided, however, that in the event the Member does not elect any such nominee, the Board shall present a different nominee to the Member for election; and provided further that in the event any such successor nominee is not elected by the Member within ninety (90) days following the original nomination, the Member may solicit alternative nominees or elect its own nominee. In all events, the Elected Trustees shall be individuals who meet the requirements set forth in Section 3.2(a) of this Article III and who are satisfactory to YNHSC.

Notwithstanding anything herein to the contrary, the Elected Trustees shall include:

(a) One (1) physician on the Medical Staff who has previously held the position of President of the Medical Staff; and

(b) At least six (6) individuals who work or reside in the service area of the Corporation and who (i) are independent of and not employed by or affiliated with the Member or its Affiliates; and (ii) are not elected officials of or otherwise subject to the Rhode Island Code of Ethics.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Member at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Member at which they were elected or at such later date as may be established by the Member and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided that a Trustee may be re-elected for an additional consecutive term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(c) The provisions of paragraphs (a) and (b) of this Section shall not apply to an Elected Trustee in the event such Trustee also serves as a trustee of YNHHSC at the time such person is elected to serve as an Elected Trustee for a term otherwise prohibited by such paragraphs (a) and (b). In the instance of re-election as a Trustee for an additional term as provided in this paragraph (c), Board membership shall be coterminous with said Trustee's service as a trustee of YNHHSC.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board with or without cause by action of the Member, which action may be taken upon its own initiative or upon the recommendation of the Board. The Member shall remove an Elected Trustee at the direction of YNHHSC.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled only by the Member in accordance with Section 3.4 of these Bylaws. An individual elected to fill a vacancy shall serve the remainder of the term of the trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Chair of the Board shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held at least quarterly or more frequently as needed on such dates and at such times and places as the Chair shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the Chair or President and shall be called upon the written request of any three (3) Trustees.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee and to the Member at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice. Notice to the Member shall be directed to the President of the Member and may be provided in person, by mail, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic mail address at which the President of the Member has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided that if less than a majority of the Trustees is present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board or the Member consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a President, a Chair, one or more Vice Chairs, a Secretary, a Treasurer and such other officers as may be appointed from time to time consistent with Section 4.6. The Chair and any Vice Chair shall be selected from among members of the Board of Trustees. The offices of the President, the Chair and the Treasurer shall be held by different individuals.

Section 4.2 Election and Term of Office. The President shall be appointed in accordance with Section 4.3(a) of this Article IV. The Chair, Vice Chairs, Secretary and Treasurer shall be nominated in consultation with the Nominating and Governance Committee of the Member and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President.** The President of the Corporation shall be appointed by the Member, following consultation with the Board and with the approval of YNHHS. The appointed President shall serve at the pleasure of the Member and YNHHS.

The President shall be a person who in the judgment of the Member and YNHHS has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, the Medical Staff, Corporation personnel, YNHHS and the community.

The President shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to such policies as may be adopted by the Board. The President shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some other person to so act. The duties, responsibilities and authority of the President shall be defined in a written statement adopted by the Member in consultation with the Board and with the approval of YNHHS.

The President shall be a voting member of all standing committees except as otherwise specified in these Bylaws. The President shall report to the President of the Member (or his or her designee) as well as to the Board.

(b) **Chair.** The Chair of the Board shall preside at meetings of the Board and shall be a voting member of all committees except the Governance Committee. The Chair shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair.** The Board shall designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s) shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary.** The Secretary shall have the custody of the records of the

Corporation pertaining to the Secretary's office; shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer.** The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal.

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause; provided, however, that the President of the Corporation may be removed from office by the Member at the direction of YNHHS following consultation with the Board. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, except the President, the vacancy may be filled by the Board of Trustees for the unexpired term. A vacancy in the office of President shall be filled in accordance with Section 4.3(a).

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as are provided for in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in these Bylaws, members and chairs of all standing committees shall be appointed by the Board. All such committee members and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be

approved by a majority of the committee members who are Trustees.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Executive Committee.** The Executive Committee shall consist of the President, the Chair, the Secretary, the Treasurer, the President of the Member (if such person is not also concurrently serving as the President of the Corporation), a member of the Board selected by YNHHS, and any other member of the Board that the Board may choose to appoint. The Chair shall serve as the chair of the Executive Committee. The Executive Committee shall possess and may exercise in the intervals between meetings of the Board all such powers of the Board, except as may otherwise be provided by law, these Bylaws, or resolution of the Board.

(b) **Patient Safety and Clinical Quality Committee.** The Patient Safety and Clinical Quality Committee shall have such duties as are delegated to it by the Board. These duties include authority to render decisions in cases of uncontested medical staff appointments, reappointments, and renewals or modifications of clinical privileges. The Patient Safety and Clinical Quality Committee shall also periodically review patient safety and clinical quality metrics to ensure the provision of high quality, effective care. Other delegated duties may be set forth in the Medical Staff Bylaws. The Patient Safety and Clinical Quality Committee shall serve as a liaison for communication between the Board, the Medical Staff and hospital administration. To the extent that such committee engages in peer review activity, such committee shall function as a "peer review board" for the purposes set forth in R.I. Gen. Laws § 23-17-25(a), as amended from time to time.

Section 5.5 Other Committees. The Board may establish and appoint ad-hoc committees from time to time as the Board may deem necessary to carry out special fund raising events or other initiatives of the Board. Such committees may not exercise the authority of the Board, and any acts taken by them shall be solely advisory in nature. The members and chairs of each such committee shall be appointed by the Board, and each such committee shall consist of at least one (1) Trustee and two (2) other individuals who may or may not be Trustees. Each such committee shall be chaired by a Trustee of the Board. Committee members shall serve at the pleasure of the Board and until their successors are elected.

Section 5.6 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of

Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws. The Executive Committee shall have authority to take actions consistent with these Bylaws; all other committees shall act in an advisory capacity only and shall have no power or authority to bind the Corporation, unless expressly authorized by the Board.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation's Trustees, officers and employees to the full extent permitted by law.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Act related to disclosure and approval of transactions that present a conflict of interest.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President or such other officers or officers as may be specified by the Board or authorized by the President.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President or such officer or officers of the Corporation as the Board may specify from time to time.

Section 8.4 Auxiliary. There may be an auxiliary organized to further the purposes and interests of the Corporation (the "Auxiliary"). The Auxiliary shall have the authority, subject to the review and approval of the Board, to adopt and amend bylaws for its operations which shall state its purpose, duties and organization.

Section 8.5 Department Chairs. The Corporation shall consult with YNHHSK regarding the recruitment and selection of all Department Chairs or other comparable positions at the Corporation and/or any of its Affiliates.

ARTICLE IX. AMENDMENTS

Except as otherwise provided by the Articles of Incorporation or by law, and subject to approval by YNHSC, these Bylaws may be amended, altered, or repealed by the Member.

EXHIBIT A**Actions Requiring Approval of the Member and YNHHSC**

Notwithstanding anything in these Bylaws to the contrary, the following actions may only be taken upon the approval of the Member and YNHHSC, without the approval of the Board of this Corporation:

- A. Merger, consolidation, reorganization or dissolution of this Corporation or any Affiliate or the creation or acquisition of an interest in any corporate entity, including joint ventures;
- B. Amendment or restatement of the Mission, Certificate of Incorporation or the Bylaws of this Corporation or any Affiliate, or any new or revised "doing business as" name;
- C. Adoption of operating and cash flow budgets of the Corporation or any Affiliate, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation (pursuant to the authority delegated to this Corporation by YNHHSC to adopt such budgets within parameters established by YNHHSC);
- D. Adoption of capital budgets and capital allocations of this Corporation or any Affiliate (pursuant to the authority delegated to this Corporation by YNHHSC to adopt such budgets within parameters established by YNHHSC);
- E. Incurring aggregate operating or capital expenditures on an annual basis that exceed operating or capital budgets of the Corporation adopted by YNHHSC by a specified dollar amount to be determined from time to time by YNHHSC;
- F. Long-term or material agreements including, but not limited to, equity financings, capitalized leases, operating leases and installment contracts; and purchase, sale, lease, disposition, hypothecation, exchange, gift, pledge or encumbrance of any asset, real or personal, with a fair market value in excess of a dollar amount to be determined from time to time by YNHHSC, which shall not be less than 10% of the total annual capital budget of this Corporation;
- G. Approval of any new relationships or agreements for undergraduate or graduate medical education programs or any material amendments to or terminations of existing agreements for undergraduate or graduate medical education programs;
- H. Contracting with an unrelated third party for all or substantially all of the management of the assets or operations of this Corporation or any Affiliate;
- I. Approval of major new programs and clinical services of this Corporation or any Affiliate or discontinuation or consolidation of any such program. YNHHSC shall from time to time define the term "major" in this context;

- J. Approval of strategic plans of this Corporation or any Affiliate;
- K. Adoption of safety and quality assurance policies not in conformity with policies established by YNHHSC;
- L. Oversee the Corporation's management and investment of its permanent and temporarily restricted funds;
- M. Approve any voluntary change to the federal income tax exemption granted by the IRS to the Corporation under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended;
- N. Initiate or consent to any form of insolvency proceeding undertaken by the Corporation or any direct or indirect subsidiary of the Corporation;
- O. Approve any change in the name of the Corporation, and establish advertising, marketing and promotional policies applicable to the Corporation; and
- P. Appointment of the President of this Corporation consistent with Section 4.3(a).

Nothing in these Bylaws shall be construed in a manner that is inconsistent with the authorities with respect to the Corporation that are reserved or retained by the Member or YNHHSC pursuant to these Bylaws and the Bylaws of the Member and of YNHHSC.

EXHIBIT B

Direct Authority Retained by YNHHSC

Notwithstanding anything in these Bylaws to the contrary, YNHHSC (or, where required by law, the Member acting at the direction of YNHHSC) retains authority to take the following actions on behalf of and in the name of this Corporation, directly and without the approval of the Board of this Corporation:

- A. Adoption of targets for the annual operating and cash flow budgets of this Corporation and its Affiliates, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation;
- B. Adoption of targets for the annual capital budgets and capital allocations of this Corporation and any Affiliate;
- C. Adoption of annual operating, cash flow and annual capital budgets for the Corporation and any Affiliate within the targets established by YNHHSC in the event of any failure of the Corporation to do so;
- D. Issuance and incurrence of indebtedness on behalf of this Corporation;
- E. Management and control of the liquid assets of this Corporation, including the authority to cause such assets to be funded to YNHHSC or as otherwise directed by YNHHSC; and
- F. Appointment of the independent auditor for this Corporation and each Affiliate and the management of the audit process and compliance process and procedures for this Corporation and each Affiliate.

Other Major Activities

- A. In addition, YNHHSC shall have the authority, except as otherwise provided by YNHHSC and after consultation with the Member, to require the prior review and approval of those activities of this Corporation or any subsidiary or affiliate entity that YNHHSC determines to be "major activities."
- B. "Major activities" shall be those which YNHHSC by a vote of not less than two-thirds (2/3) of its Board of Trustees has declared major, by written notice to the Member, delivered personally or transmitted by registered or certified mail return receipt requested. Such notice shall specifically identify the matter or matters requiring approval of YNHHSC, and shall refer to this Bylaw provision granting such approval rights to YNHHSC. Notices received pursuant to this section shall be recorded in the minutes of the Member and of this Corporation, and shall be filed with the minutes of the Member and of this Corporation.

Exhibit 2.1.5(c)(1)

VNA of Southeastern Connecticut Amended Certificate of Incorporation

AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION

VISITING NURSE ASSOCIATION OF SOUTHEASTERN CONNECTICUT, INC.

1. The name of the corporation is Visiting Nurse Association of Southeastern Connecticut, Inc. (the "Corporation").

2. The nature of the activities to be conducted, and the purposes to be promoted or carried out by the Corporation shall be exclusively charitable, scientific and educational within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as the same may be amended from time to time, and the corresponding provisions of any future United States Internal Revenue Law (the "Internal Revenue Code") and shall include the following:

- (a) The promotion and maintenance of health;
- (b) The prevention of disease and disability;
- (c) Provision and coordination of vital health and support services for those in need of preventative, acute, maintenance, and/or terminal care at home and in the communities served based on current community needs;
- (d) Collaboration and coordination with other groups in developing and implementing community health programs;
- (e) Contribution to knowledge supporting improvements in community health practice; and
- (f) Any other lawful act or activity for which a corporation may be organized under the Connecticut Revised Nonstock Corporation Act, as the same may be amended from time to time, and the corresponding provisions of any future Connecticut nonstock corporation law.

In furtherance of the foregoing, the Corporation shall (i) participate as an integral part of the integrated health care delivery system known as the Yale New Haven Health System (the "System"), which System provides, through its affiliates, comprehensive, cost effective, advanced patient care characterized by safety and clinical and service quality; and (ii) fund and promote activities and programs of the System, including activities and programs of its affiliates, consistent with and in furtherance of the Corporation's charitable purposes and the charitable purposes of all System affiliates.

3. The Corporation shall have but one member, Lawrence + Memorial Corporation (the "Sole Member"), which shall have the rights, powers and privileges provided in the Bylaws and by the State of Connecticut, including the right to exercise, on behalf of and as directed by its sole member, Yale-New Haven Health Services Corporation ("YNHHSC"), certain expressly reserved powers and retained rights described in the Bylaws.

4. Subject to the rights, powers and privileges accorded to the Sole Member and to YNHHS under the Bylaws and by the State of Connecticut, the Corporation shall be governed by its Board of Trustees. The Bylaws may provide that persons occupying certain positions within or without the Corporation shall be ex-officio trustees who may vote and be counted in determining a quorum. As may be further provided in the Bylaws of the Corporation, the terms of elected trustees may be staggered by dividing the trustees into groups so that approximately an equal number of such trustees have terms that expire each year.

5. The Corporation is nonprofit and shall not have or issue shares of stock or pay dividends.

6. Notwithstanding any other provision of this Certificate of Incorporation, the Corporation shall not carry on any activities not permitted to be carried on (a) by a corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code, or (b) by a corporation, contributions to which are deductible under Section 170(c)(2) of the Internal Revenue Code.

7. No part of the net earnings of the Corporation shall inure to the benefit of or be distributable to the Corporation's trustees, officers or other private persons, except that the Corporation, subject to the provisions of the Bylaws, shall be authorized and empowered to pay reasonable compensation for services rendered. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of (or in opposition to) any candidate for public office.

8. Upon dissolution of the Corporation and subject to any restrictions imposed by any applicable will, deed, agreement or other governing document, the Board of Trustees shall dispose of and distribute the assets remaining after payment of all liabilities to Lawrence + Memorial Corporation, so long as it is at that time an organization that qualifies as an exempt organization under Section 501(c)(3) of the Internal Revenue Code, or, if at the time of the dissolution of the Corporation, Lawrence + Memorial Corporation is not in existence or does not so qualify, to one or more charitable, scientific or educational organizations located in the State of Connecticut and qualified as exempt organizations under Section 501(c)(3) of the Internal Revenue Code, in such proportions and for such exclusively charitable, scientific or educational purposes as the Board of Trustees may determine.

9. In addition to, and not in derogation of, any other rights conferred by law, a trustee of the Corporation shall not be personally liable for monetary damages for breach of duty as a trustee in an amount greater than the compensation received by the trustee for serving the Corporation during the year of such breach if such breach does not (A) involve a knowing and culpable violation of law by such trustee, (B) enable such trustee or an associate (as defined in Section 33-840 of the Connecticut General Statutes) to receive an improper personal economic gain, (C) show a lack of good faith and conscious disregard for the duty of such trustee to the Corporation under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (D) constitute a sustained and

unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Corporation. Any lawful repeal or modification of this Section 9 or the adoption of any provision inconsistent herewith by the Board of Trustees or Sole Member of the Corporation shall not, with respect to a person who is or was a trustee, adversely affect any limitation of liability, right or protection of such person existing at or prior to the effective date of such repeal, modification or adoption of a provision inconsistent herewith. The limitation of liability of any person who is or was a trustee provided for in this Section 9 shall not be exclusive of any other limitation or elimination of liability contained in, or which may be provided to any person under, Connecticut law.

10. The Corporation shall provide its trustees with the full amount of indemnification that the Corporation is permitted to provide pursuant to the Connecticut Revised Nonstock Corporation Act and shall advance expenses to trustees consistent with Section 33-1119 of the Connecticut General Statutes. In furtherance of the foregoing, the Corporation shall indemnify its trustees against liability as defined in Section 33-1116(4) of the Connecticut General Statutes to any person for any action taken, or any failure to take any action, as a trustee, except liability that (A) involves a knowing and culpable violation of law by such trustee, (B) enables such trustee or an associate (as defined in Section 33-840 of the Connecticut General Statutes) to receive an improper personal economic gain, (C) shows a lack of good faith and conscious disregard for the duty of such trustee to the Corporation under circumstances in which such trustee was aware that his conduct or omission created an unjustifiable risk of serious injury to the Corporation, or (D) constitutes a sustained and unexcused pattern of inattention that amounted to an abdication of such trustee's duty to the Corporation.

The Corporation may indemnify and advance expenses to each officer, employee or agent of the Corporation who is not a trustee, or who is a trustee but is made a party to a proceeding in his or her capacity solely as an officer, employee or agent, to the same extent as the Corporation is permitted to provide the same to a trustee, and may indemnify and advance expenses to such persons to the extent permitted by Section 33-1122 of the Connecticut General Statutes.

Notwithstanding any provision hereof to the contrary, the Corporation shall not indemnify any trustee, officer, employee or agent against any penalty excise taxes assessed against such person under Section 4958 of the Internal Revenue Code.

11. The Bylaws of the Corporation may be amended or repealed, and new Bylaws may be adopted, only with the approval of the Sole Member and YNHHS.

**VISITING NURSE ASSOCIATION OF SOUTHEASTERN CONNECTICUT, INC.
AMENDED AND RESTATED BYLAWS**

ARTICLE I. NAME AND GENERAL PURPOSES

Section 1.1 Name. The name of the corporation is **Visiting Nurse Association of Southeastern Connecticut, Inc.** (the "Corporation").

Section 1.2 General Purposes. The purposes of the Corporation shall be as set forth in the Corporation's Certificate of Incorporation as in effect from time to time. These Bylaws, the powers of the Corporation, its member, trustees and officers, and all matters concerning the conduct and regulation of the affairs of the Corporation shall be subject to the Certificate of Incorporation.

ARTICLE II. MEMBERSHIP

Section 2.1 Member. The Corporation shall have a single member, Lawrence + Memorial Corporation (the "Member").

Section 2.2 Rights, Powers and Privileges. The Member shall have all the rights, powers and privileges usually or by law accorded to the member of a Connecticut nonstock, nonprofit corporation under the Connecticut Revised Nonstock Corporation Act as may be amended from time to time (the "Nonstock Act") and not conferred thereby or by the Certificate of Incorporation or these Bylaws upon the Board of Trustees of the Corporation (the "Board"), including the right to elect the members of the Board in accordance with these Bylaws. If and to the extent that actions by the Member cannot be taken without the approval of the sole member of the Member, Yale-New Haven Health Services Corporation ("YNHHSC"), or actions have been reserved to YNHHSC, the Member may take such actions only as directed by YNHHSC.

Notwithstanding anything in these Bylaws to the contrary:

(a) Neither the Board, nor any officer or employee of the Corporation, may take any of the actions set forth in Exhibit A or Exhibit B of these Bylaws, nor may the Board or any officer or employee of the Corporation approve the taking of any such action by an Affiliate (as hereafter defined), except that, with respect to the actions on Exhibit A, the Board's recommendation may be requested by the Member and YNHHSC consistent with Section 3.1(a) below. For purposes hereof, an "Affiliate" of the Corporation shall mean, unless otherwise determined by the YNHHSC, any entity which at the time Affiliate status is being determined is directly or indirectly controlling or controlled by or under the direct or indirect common control with the Corporation. "Control" shall mean the legal power to (a) elect or cause the election of a majority of the governing body of the subject entity, or (b) direct or cause the direction of the subject entity's operations or management, whether the foregoing power(s) exist(s) through voting securities, other voting rights, reserved powers, contract rights, or other legally enforceable means.

(b) In addition to the rights reserved to the Member and YNHHSC to take the actions set forth in Exhibit A on behalf of and in the name of the Corporation, directly and without

the approval or the recommendation of the Board, YNHHS (or the Member, acting on the direction of YNHHS) expressly retains the rights to take the actions set forth in Exhibit B on behalf of and in the name of the Corporation, directly and without the approval or the recommendation of the Board or the Member of this Corporation.

(c) The Board shall have the authority, from time to time, to delegate to the Member and YNHHS any rights, powers and privileges that would otherwise be exercised by the Board to the fullest extent permitted by applicable law.

Section 2.3 Liability and Reimbursement of Expenses. Unless the Member expressly agrees otherwise in writing, the Member shall not be liable for the debts or obligations of the Corporation. The Member may be reimbursed for expenses reasonably incurred on behalf of the Corporation.

ARTICLE III. BOARD OF TRUSTEES

Section 3.1 Powers and Duties. Subject to the powers retained by, conferred upon, or reserved to the Member or YNHHS by law or under these Bylaws, the Board shall have charge, control and management of the affairs, property and funds of the Corporation in the manner and subject to the limitations set forth in these Bylaws. Each Trustee shall discharge his or her duties in good faith with the care an ordinarily prudent person in like position would exercise under similar circumstances and in a manner he or she reasonably believes to be in the best interests of the Corporation.

The Board shall have among its duties those duties required to be exercised by the governing body by applicable regulatory, licensing or accreditation agencies, including the duties set forth in Section 19-13-D67 of the Regulations of Connecticut State Agencies.

Without limiting the generality of the foregoing, and subject to Section 2.2 and Exhibit A and Exhibit B of these Bylaws, the Board may:

- (a) Make the following recommendations to the Member and YNHHS:
 - (i) Recommend to the Member and YNHHS the philosophy, mission and values of the Corporation and any changes thereto;
 - (ii) Recommend to the Member and YNHHS the Corporation's strategic plans;
 - (iii) Recommend to the Member and YNHHS the Corporation's annual operating and financial targets, major clinical and/or financial initiatives, and financial plans (including capital and operating budgets);
 - (iv) Recommend to the Member and YNHHS the sale, transfer or substantial change in use of all or substantially all of the assets, the divestiture, dissolution and/or disposition of assets, closure, merger, consolidation, change in corporate membership or ownership or corporate reorganization of the Corporation or any Affiliate;

(v) Recommend to the Member and YNHHSC the formation or acquisition by the Corporation of any Affiliates or any other new direct or indirect subsidiaries, joint ventures or affiliations;

(vi) Recommend to the Member and YNHHSC the introduction or termination of any services to be offered by the Corporation not otherwise included in an approved budget or a strategic or financial plan; and

(vii) Recommend to the Member and YNHHSC changes to the Corporation's Certificate of Incorporation and Bylaws.

(b) Make the following recommendations to the Member:

(i) Recommend to the Member approval of any consent decree or settlements from state and federal authorities;

(ii) Recommend to the Member nominations for and removal of Trustees of the Corporation; and

(iii) Recommend to the Member the appointment and evaluation of the President of the Corporation.

(c) Take the following actions:

(i) Annually assess the Corporation's performance against approved budgets, initiatives and strategic plans adopted by the Member and YNHHSC;

(ii) Except for the President of the Corporation, elect officers of the Board (following consultation with the Member's Nominating and Governance Committee in accordance with Section 4.2 of these Bylaws) and remove from office any officer (except for the President of the Corporation) with or without cause (in accordance with Section 4.4(b) of these Bylaws);

(iii) Approve any business transaction or contract that is not otherwise included in an approved budget or a strategic or financial plan, except for long-term or material agreements that require the approval of the Member and YNHHSC in accordance with Exhibit A;

(iv) Periodically assess the Corporation's Quality Initiatives, including tracking and reporting on the Corporation's performance under quality measures, quality and patient safety programs and initiatives, patient satisfaction and cultural competence initiatives;

(v) Periodically assess the Corporation's Development Plans and its Planned Giving Plans;

(vi) Periodically assess the Corporation's Community Relations Initiatives and Community Outreach Programs; and

- (vii) Evaluate the Board's performance.

Section 3.2 Composition. The Board shall consist of two classes of voting Trustees, the Elected Trustees and the Ex Officio Trustees (collectively, the "Trustees").

(a) **Elected Trustees.** Elected Trustees shall be the persons elected by the Member for terms as set forth in these Bylaws, following nomination and approval pursuant to Section 3.4 of this Article III. Elected Trustees will represent a cross section of major segments of the community served by the Corporation and shall be selected, on the basis of demonstrated skill and ability, for their potential contribution to the governance of the affairs of the Corporation.

(b) **Ex Officio Trustees.** In addition to the Elected Trustees, there shall be the following Ex Officio Trustees, each of whom shall serve automatically by virtue of and while holding the designated office:

- (i) the President/Chief Executive Officer of YNHHS (or his or her designee);
- (ii) the President of the Member; and
- (iii) the President of the Corporation.

Ex Officio Trustees shall be counted in determining the presence of a quorum and shall have the right to vote on all matters that come before the Board.

Section 3.3 Number. The Board shall consist of no fewer than six (6) nor more than ten (10) Trustees, such number to be determined from time to time by the Member.

Section 3.4 Election of Trustees. At the annual meeting of the Member, the Member shall elect successors to the Elected Trustees whose terms are then expiring. The Member shall elect such successors from among the nominees presented by the Board; provided, however, that in the event the Member does not elect any such nominee, the Board shall present a different nominee to the Member for election; and provided further that in the event any such successor nominee is not elected by the Member within ninety (90) days following the original nomination, the Member may solicit alternative nominees or elect its own nominee. In all events, the Elected Trustees shall be individuals who meet the requirements set forth in Section 3.2(a) of this Article III and who are satisfactory to YNHHS.

Section 3.5 Term and Term Limits. There shall be three (3) classes of Elected Trustees, with approximately one-third of the Elected Trustees in each class, and the terms of all Trustees in the same class shall expire at the adjournment of the same annual meeting of the Member at which Trustees are elected. Elected Trustees shall take office at the close of the meeting of the Member at which they were elected or at such later date as may be established by the Member and, subject to Section 3.6 of this Article III, shall hold office for a term of three (3) years and until a successor is duly elected and qualified.

Notwithstanding anything herein to the contrary:

(a) No person shall be elected a Trustee for a term beginning after the date of his or her seventy-sixth birthday, provided that an Elected Trustee who is seventy-six (76) years of age or older may be re-elected for another term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(b) An Elected Trustee who has served three (3) consecutive full terms (provided that for the purposes of this Section 3.5 a term of service of more than one-half of a full term shall be considered a full term) shall not be eligible for re-election for a period of one year, provided that a Trustee may be re-elected for an additional consecutive term if (i) the Trustee is also elected as an officer of the Corporation or appointed chair of a standing committee at the beginning of such additional term; or (ii) the Member determines that additional service is appropriate due to the Trustee's unique expertise and commitment to the Board, which such determination shall be made only in limited circumstances and shall be made prior to each proposed re-election after the Trustee's completion of three (3) consecutive full terms. In the instance of re-election as a Trustee for an additional term as provided in clause (i) of the foregoing sentence, Board membership shall be coterminous with said Trustee's service as an officer or committee chair.

(c) The provisions of paragraphs (a) and (b) of this Section shall not apply to an Elected Trustee in the event such Trustee also serves as a trustee of YNHHSC at the time such person is elected to serve as an Elected Trustee for a term otherwise prohibited by such paragraphs (a) and (b). In the instance of re-election as a Trustee for an additional term as provided in this paragraph (c), Board membership shall be coterminous with said Trustee's service as a trustee of YNHHSC.

Section 3.6 Resignation. Any Elected Trustee may resign at any time by giving written notice of such resignation to the Secretary of this Corporation. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective. Any Ex Officio Trustee who for any reason ceases to hold the office or position from which his or status as an Ex Officio Trustee derives shall automatically be deemed to have resigned as a Trustee of the Corporation and from any position held by virtue of such office with any Affiliate.

Section 3.7 Removal. One or more Elected Trustees may be removed from the Board with or without cause by action of the Member, which action may be taken upon its own initiative or upon the recommendation of the Board. The Member shall remove an Elected Trustee at the direction of YNHHSC.

Section 3.8 Vacancies. In the event of the death, resignation or removal of an Elected Trustee, the vacancy resulting therefrom may be filled only by the Member in accordance with Section 3.4 of these Bylaws. An individual elected to fill a vacancy shall serve the remainder of

the term of the trustee replaced.

Section 3.9 Meetings.

(a) **Annual Meetings.** The annual meeting of the Board shall be held on such date and time as the Chair of the Board shall designate.

(b) **Regular Meetings.** Regular meetings of the Board shall be held at least quarterly or more frequently as needed on such dates and at such times and places as the Chair shall designate.

(c) **Special Meetings.** Special meetings of the Board may be called at any time by the Chair or President and shall be called upon the written request of any three (3) Trustees.

Section 3.10 Notice of Meetings. Notice of the date, time and place of any meeting of the Board shall be given to each Trustee and to the Member at least five (5) days in advance of the meeting, except that no notice need be given of a regular meeting held in accordance with a schedule established at the beginning of the fiscal year and provided to the Board in writing. Any notice of a meeting required under these Bylaws may be communicated to a Trustee in person, by mail or other delivery service, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic email address at which a Trustee has consented to receive notice. Notice to the Member shall be directed to the President of the Member and may be provided in person, by mail, or by telephone, facsimile or other electronic means, including electronic mail directed to an electronic mail address at which the President of the Member has consented to receive notice.

Section 3.11 Waiver of Notice. Notice of any meeting of the Board may be waived in writing by all the Trustees and, if any Trustee present at a meeting of the Board does not protest prior to or at the commencement of the meeting the lack of proper notice, he or she shall be deemed to have waived notice of such meeting.

Section 3.12 Action by Unanimous Written Consent. Any action required or permitted to be taken by the Board may be taken without a meeting if all the Trustees unanimously consent to such action in writing. Such written consent(s) shall be filed with the minutes of the Corporation and shall have the same force and effect as a vote of Trustees at a duly convened meeting. For purposes of this section, a Trustee may evidence his or her consent with any manual, facsimile, conformed or electronic signature, including an email communication from the Trustee to the Corporation from an email address provided by the Trustee to the Corporation.

Section 3.13 Participation by Conference Call. The members of the Board may participate in a meeting of the Board by means of conference telephone or similar communications equipment (including, without limitation, video conferencing equipment) affording all persons participating in the meeting the ability to hear one another, and such participation in the meeting by means of such equipment shall constitute presence in person at such meeting.

Section 3.14 Quorum and Voting. A majority of the number of Trustees in office at the time shall constitute a quorum for the transaction of business at all meetings of the Board, provided that if less than a majority of the Trustees is present at said meeting, a majority of the Trustees present may adjourn the meeting from time to time without further notice. The act of a majority of the Trustees present at a meeting at which a quorum is present at the time of the act shall be the act of the Board, unless the act of a greater number is required by these Bylaws, by the Certificate of Incorporation or by law. Notwithstanding the foregoing, in the event that any Trustee has a conflict of interest with respect to any transaction to be undertaken by the Corporation, such transaction shall require the approval of the Board or the Member consistent with Article VII.

ARTICLE IV. OFFICERS

Section 4.1 Officers. The officers of the Corporation shall consist of a President, a Chair, one or more Vice Chairs, a Secretary, a Treasurer and such other officers as may be appointed from time to time consistent with Section 4.6. The Chair, any Vice Chair, the Secretary and the Treasurer shall be selected from among members of the Board of Trustees.

Section 4.2 Election and Term of Office. The President shall be appointed in accordance with Section 4.3(a) of this Article IV. The Chair, Vice Chairs, Secretary and Treasurer shall be nominated in consultation with the Nominating and Governance Committee of the Member and elected annually by the Board for a term of one year and until their successors are duly elected and qualified. The Board may create and fill such other offices as it deems necessary consistent with Section 4.6.

Section 4.3 Powers. The officers shall have the powers and perform the duties commonly incident to their respective offices, including the powers and duties listed below.

(a) **President.** The President of the Corporation shall be appointed by the Member, following consultation with the Board and with the approval of YNHHSC. The appointed President shall serve at the pleasure of the Member and YNHHSC.

The President shall be a person who in the judgment of the Member and YNHHSC has the combination of education, experience, professional standards and demonstrated leadership ability to fulfill successfully the responsibilities of the position and to command the confidence and respect of the Board, Corporation personnel, YNHHSC and the community.

The President shall serve as the Administrator of the home health care agency operated by the Corporation and shall possess the qualifications specified in any applicable laws and regulations for the administrator of a home health care agency. The Administrator shall have full authority and responsibility to plan, staff, direct and implement the programs and manage the clinical affairs of the corporation and such other duties and responsibilities as are specified by the Public Health Code.

The President shall be delegated the responsibility for overall management of the Corporation and shall have all authority necessary to carry out this responsibility, subject only to such policies as may be adopted by the Board. The President shall act as the duly authorized representative of the Board in all matters in which the Board has not formally delegated some

other person to so act. The duties, responsibilities and authority of the President shall be defined in a written statement adopted by the Member in consultation with the Board and with the approval of YNHHS.

The President shall be a voting member of all standing committees except as otherwise specified in these Bylaws. The President shall report to the President of the Member (or his or her designee) as well as to the Board.

(b) **Chair**. The Chair of the Board shall preside at meetings of the Board and shall be a voting member of all committees except the Governance Committee. The Chair shall perform such other duties as the Board may from time to time prescribe.

(c) **Vice Chair**. The Board shall designate one or more Vice Chairs, who shall exercise the powers and duties of the Chair during absence or disability. The Vice Chair(s) shall perform such other duties as the Board or the Chair may from time to time prescribe.

(d) **Secretary**. The Secretary shall have the custody of the records of the Corporation pertaining to the Secretary's office; shall keep minutes of the meetings of the Board, and shall cause notice of such meetings to be given as required by law or these Bylaws. The Secretary shall perform such other duties as the Board or the Chair may from time to time prescribe.

(e) **Treasurer**. The Treasurer of the Corporation shall be responsible for the safekeeping of all funds and securities of the Corporation, shall see that proper records showing all financial transactions of the Corporation are maintained, and shall present financial reports to the Board.

Section 4.4 Resignation and Removal

(a) An officer of the Corporation may resign at any time by giving written notice of such resignation to the Secretary. Such resignation shall be effective at the time specified in the notice, or if no time is specified, upon receipt by the Secretary. The acceptance of such resignation shall not be necessary to make it effective.

(b) The Board may remove from office any officer with or without cause; provided, however, that the President of the Corporation may be removed from office by the Member at the direction of YNHHS following consultation with the Board. Removal of an officer shall be without prejudice to the officer's contract rights, if any.

Section 4.5 Vacancies. In the case of the death, resignation or removal of any officer, except the President, the vacancy may be filled by the Board of Trustees for the unexpired term. A vacancy in the office of President shall be filled in accordance with Section 4.3(a).

Section 4.6 Other Officers. The Corporation may have such other officer or officers, including assistant officers, as the Board may from time to time determine. Any such officer or assistant officer shall be appointed or elected in the manner and for the term determined by the Board, and the officer shall have the duties assigned by the Board.

ARTICLE V. COMMITTEES

Section 5.1 Classification. There shall be such standing committees as are provided for in this Article V and such other committees as shall be established by Board resolution from time to time. Standing committees shall have the powers and duties set forth in this Article V and in a charter approved by the Board. Other committees shall have the powers and duties set forth in the resolution establishing them and in a charter approved by the Board. Each committee shall periodically review its charter and revise it as necessary; provided, however, that no amendment shall become effective until approved by the Board.

Section 5.2 Appointment of Committee Members. Except as otherwise provided in these Bylaws, members and chairs of all standing committees shall be appointed by the Board. All such committee members and chairs shall serve at the pleasure of the Board until the next annual meeting of the Board and until their successors shall be chosen. Unless otherwise provided, individuals who are not Trustees may be appointed to committees and each such person so appointed shall have a vote and be included for purposes of determining a quorum; provided, however, that if a committee is authorized to act on behalf of the Board, any such action must be approved by a majority of the committee members who are Trustees.

Section 5.3 Committee Governance.

(a) **Quorum and Voting.** A majority of the committee members shall constitute a quorum at committee meetings except as otherwise provided in these Bylaws. The act of a majority of the committee members present at a meeting at which a quorum is present at the time of the act shall be the act of such committee, unless the act of a greater number is required by these Bylaws, by resolution of the Board or by law.

(b) **Meetings.** Except as otherwise provided in these Bylaws or by resolution of the Board, each committee shall establish its own rules and procedures and shall fix the time and place of its meetings. Each committee shall keep minutes of its meetings which shall be made available to the Board upon request.

Section 5.4 Standing Committees.

(a) **Executive Committee.** The Corporation shall not have an Executive Committee.

(b) **Professional Advisory Committee.** The Professional Advisory Committee shall consist of the President (or his or her designee), a member of the Board approved by YNHHS, the Health Director of one or more of the communities served by the Corporation, a representative designated by the Member, and at least the following (the "Professional Members"): one public health nurse, one physician, one social worker and one representative from one of the skilled therapy services offered by the Corporation. All Professional Members must be actively engaged in their professions or have been so engaged within the previous five (5) years. The President (or his or her designee) and the representative designated by the Member shall serve as non-voting members of the committee. The representative designated by the Member shall serve as the chairperson and

the President (or his or her designee) shall serve as the secretary of the committee. Additional members may be appointed by the Board from time to time. Members appointed by the Board shall serve for terms of two (2) years. In order to provide continuity within the committee, terms may be staggered as the Board deems appropriate. The committee shall hold at least two (2) meetings annually. Written minutes of each meeting shall be recorded and presented to the Board at its next regular meeting. No members of the Professional Advisory Committee shall be an employee of the Corporation or related to an employee, including by marriage, unless, in the case of an employee, the employee serves ex-officio without the right to vote. All proceedings of the Professional Advisory Committee shall be made available upon request to the Commissioner of the State of Connecticut Department of Public Health.

The Professional Advisory Committee shall:

- (1) Participate in the Corporation's Quality Assurance Program to the extent defined in that Program's policies;
- (2) Recommend and at least annually review Corporation policies on the scope of services offered and discharge criteria; medical and dental supervision and plans of treatment; clinical records; personnel qualifications; quality assurance activities; standards of care and professional issues relating to the delivery of services and the findings of the Quality Assurance Program; and
- (3) Perform such other duties as the Board may assign to it from time to time.

Section 5.5 Other Committees. The Board may establish and appoint ad-hoc committees from time to time as the Board may deem necessary to carry out special fund raising events or other initiatives of the Board. Such committees may not exercise the authority of the Board, and any acts taken by them shall be solely advisory in nature. The members and chairs of each such committee shall be appointed by the Board, and each such committee shall consist of at least one (1) Trustee and two (2) other individuals who may or may not be Trustees. Each such committee shall be chaired by a Trustee of the Board. Committee members shall serve at the pleasure of the Board and until their successors are elected.

Section 5.6 Powers of Committees. No committee established by the Board shall have power to fill vacancies on the Board or on any of its committees, to amend the Certificate of Incorporation of the Corporation or these Bylaws, to approve a plan of merger, to approve a sale, lease, exchange or other disposition of all, or substantially all, of the property of the Corporation other than in the usual and regular course of affairs of the Corporation, to approve a proposal to dissolve, or to authorize any other action inconsistent with the Certificate of Incorporation or these Bylaws. All committees shall act in an advisory capacity only and shall have no power or authority to bind the Corporation, unless expressly authorized by the Board.

ARTICLE VI. INDEMNIFICATION

The Corporation shall indemnify and defend the Corporation's Trustees, officers and employees as set forth in the Certificate of Incorporation.

ARTICLE VII. CONFLICTS OF INTEREST

The Trustees and officers of the Corporation shall comply with any Conflicts of Interest policy adopted by the Corporation, as any such policy may be amended from time to time, and with the provisions of the Nonstock Act related to disclosure and approval of "Director's conflicting interest transactions" (as such term is defined in the Nonstock Act). Consistent with the requirements of the Nonstock Act, any "Director's conflicting interest transaction" shall, when possible, be approved and authorized by either (i) the Member or (i) a majority of the disinterested Trustees voting on the transaction at a meeting at which a majority (but no fewer than two (2)) of all disinterested Trustees on the Board shall constitute a quorum, in each case following any required disclosure of the facts of the conflicting interest transaction.

ARTICLE VIII. MISCELLANEOUS PROVISIONS

Section 8.1 Fiscal Year. The fiscal year of the Corporation shall begin on the first day of October and end on the last day of September in each year unless the Board of Trustees shall otherwise determine.

Section 8.2 Execution of Deeds and Contracts. Except as otherwise directed by the Board, all deeds and mortgages made by the Corporation and all other written contracts, agreements and undertakings to which the Corporation shall be a party shall be executed in its name by the President or such other officers or officers as may be specified by the Board or authorized by the President.

Section 8.3 Execution of Negotiable Instruments. All checks, drafts, notes, bonds, bills of exchange and orders for the payment of money shall be signed by the President or such officer or officers of the Corporation as the Board may specify from time to time.

ARTICLE IX. AMENDMENTS

Except as otherwise provided by the Certificate of Incorporation or by law, and subject to approval by YNHHS, these Bylaws may be amended, altered, or repealed by the Member.

EXHIBIT A**Actions Requiring Approval of the Member and YNHHSC**

Notwithstanding anything in these Bylaws to the contrary, the following actions may only be taken on the approval of the Member and YNHHSC, without the approval of the Board of this Corporation:

- A. Merger, consolidation, reorganization or dissolution of this Corporation or any Affiliate or the creation or acquisition of an interest in any corporate entity, including joint ventures;
- B. Amendment or restatement of the Mission, Certificate of Incorporation or the Bylaws of this Corporation or any Affiliate, or any new or revised "doing business as" name;
- C. Adoption of operating and cash flow budgets of the Corporation or any Affiliate, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation (pursuant to the authority delegated to this Corporation by YNHHSC to adopt such budgets within parameters established by YNHHSC);
- D. Adoption of capital budgets and capital allocations of this Corporation or any Affiliate (pursuant to the authority delegated to this Corporation by YNHHSC to adopt such budgets within parameters established by YNHHSC);
- E. Incurring aggregate operating or capital expenditures on an annual basis that exceed operating or capital budgets of the Corporation adopted by YNHHSC by a specified dollar amount to be determined from time to time by YNHHSC;
- F. Long-term or material agreements including, but not limited to, equity financings, capitalized leases, operating leases and installment contracts; and purchase, sale, lease, disposition, hypothecation, exchange, gift, pledge or encumbrance of any asset, real or personal, with a fair market value in excess of a dollar amount to be determined from time to time by YNHHSC, which shall not be less than 10% of the total annual capital budget of this Corporation;
- G. Approval of any new relationships or agreements for undergraduate or graduate medical education programs or any material amendments to or terminations of existing agreements for undergraduate or graduate medical education programs;
- H. Contracting with an unrelated third party for all or substantially all of the management of the assets or operations of this Corporation or any Affiliate;

- I. Approval of major new programs and clinical services of this Corporation or any Affiliate or discontinuation or consolidation of any such program. YNHHS shall from time to time define the term "major" in this context;
- J. Approval of strategic plans of this Corporation or any Affiliate;
- K. Adoption of safety and quality assurance policies not in conformity with policies established by YNHHS;
- L. Oversee the Corporation's management and investment of its permanent and temporarily restricted funds;
- M. Approve any voluntary change to the federal income tax exemption granted by the IRS to the Corporation under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended;
- N. Initiate or consent to any form of insolvency proceeding undertaken by the Corporation or any direct or indirect subsidiary of the Corporation;
- O. Approve any change in the name of the Corporation, and establish advertising, marketing and promotional policies applicable to the Corporation; and
- P. Appointment of the President of this Corporation consistent with Section 4.3(a).

Nothing in these Bylaws shall be construed in a manner that is inconsistent with the authorities with respect to the Corporation that are reserved or retained by the Member of YNHHS pursuant to these Bylaws and the Bylaws of the Member and of YNHHS.

EXHIBIT B

Direct Authority Retained by YNHHSC

Notwithstanding anything in these Bylaws to the contrary, YNHHSC (or, where required by law, the Member acting at the direction of YNHHSC) retains authority to take the following actions on behalf of and in the name of this Corporation, directly and without the approval of the Board of this Corporation:

- A. Adoption of targets for the annual operating and cash flow budgets of this Corporation and its Affiliates, including consolidated or combined budgets of this Corporation and all subsidiary organizations of the Corporation;
- B. Adoption of targets for the annual capital budgets and capital allocations of this Corporation and any Affiliate;
- C. Adoption of annual operating, cash flow and annual capital budgets for the Corporation and any Affiliate within the targets established by YNHHSC in the event of any failure of the Corporation to do so;
- D. Issuance and incurrence of indebtedness on behalf of this Corporation;
- E. Management and control of the liquid assets of this Corporation, including the authority to cause such assets to be funded to YNHHSC or as otherwise directed by YNHHSC; and
- F. Appointment of the independent auditor for this Corporation and each Affiliate and the management of the audit process and compliance process and procedures for this Corporation and each Affiliate.

Other Major Activities

- A. In addition, YNHHSC shall have the authority, except as otherwise provided by YNHHSC and after consultation with the Member, to require the prior review and approval of those activities of this Corporation or any subsidiary or affiliate entity that YNHHSC determines to be "major activities."
- B. "Major activities" shall be those which YNHHSC by a vote of not less than two-thirds (2/3) of its Board of Trustees has declared major, by written notice to the Member, delivered personally or transmitted by registered or certified mail return receipt requested. Such notice shall specifically identify the matter or matters requiring approval of YNHHSC, and shall refer to this Bylaw provision granting such approval rights to YNHHSC. Notices received pursuant to this section shall be recorded in the minutes of the Member and of this Corporation, and shall be filed with the minutes of the Member and of this Corporation.

**L+M SCHEDULES
TO THE
AFFILIATION AGREEMENT**

by and between

YALE-NEW HAVEN HEALTH SERVICES CORPORATION

AND

LAWRENCE + MEMORIAL CORPORATION

July 17, 2015

Introduction

Reference is made to the Affiliation Agreement (the "Affiliation Agreement"), entered into as of July 17, 2015, by and between Yale-New Haven Health Services Corporation ("*YNHHSC*") and Lawrence + Memorial Corporation ("*L+M*"). This document constitutes the Disclosure Schedule of L+M pursuant to the Affiliation Agreement. Each of YNHHSC and L+M is referred to herein as a "Party" and collectively as the "Parties." All capitalized terms used, but not defined, herein shall have the meaning ascribed to such term in the Affiliation Agreement.

Section and sub-section numbers and letters used herein correspond to the section and sub-section numbers and letters in the Affiliation Agreement, unless otherwise noted, and any information disclosed in any section or sub-section herein shall be deemed to be disclosed to YNHHSC for all purposes of the Affiliation Agreement so long as such disclosure's relevance to the applicable section(s) of the Affiliation Agreement is reasonably apparent on its face. The captions of each Schedule are included for convenience only and are not intended to limit the scope of such part, paragraph or section of the Disclosure Schedule as set forth in the Affiliation Agreement.

No disclosure made herein constitutes an admission of any liability or obligation of any L+M Affiliate, an admission against any interest of any L+M Affiliate or a concession as to any defense available to any L+M Affiliate. Unless the Affiliation Agreement specifically provides otherwise, the disclosure of a specific item herein shall not be deemed to constitute an admission that such item is not in the ordinary course of business. To the extent that any representation or warranty contained in the Affiliation Agreement is limited or qualified by the materiality of the matters to which the representation or warranty is given, the inclusion of any matter in this Disclosure Schedule does not constitute an admission that such matters are material or will have a L+M Material Adverse Effect. Certain information set forth herein is included solely for informational purposes and may not be required to be disclosed pursuant to the Affiliation Agreement.

If there is any inconsistency between any provision or statement in the Affiliation Agreement and any provision or statement in the Disclosure Schedule (other than an exception in any section or subsection to a specific representation or warranty), then the provision or statement in the Affiliation Agreement shall control.

Schedule 3.5.2

L+M Leased Real Property

(1) Lease Agreement, dated as of May 1, 2015, by and between LMH and LMMG for certain medical office space located in the building at 194 Howard Street, New London, Connecticut and for the use of certain parking areas located at 194 Howard Street and 210 Howard Street, New London, Connecticut.

(2) (a) Lease Agreement (the "Radiology Lease"), dated as of July 20, 2004, between Waterford Real Estate Holdings, LLC ("Waterford Real Estate") and Ocean Radiology Associates, P.C. ("Ocean Radiology") for medical office space located at 196 Waterford Parkway South, Waterford, Connecticut (subsequently assigned to LMH pursuant to that certain Assignment, Consent and Termination Agreement, dated as of February 26, 2010, by and among Ocean Radiology, LMH, Southeastern Connecticut Imaging Center, LLC and Waterford Real Estate), as amended by First Amendment to Lease Agreement, dated as of December 15, 2005, and Second Amendment to Lease Agreement, dated as of April 30, 2015, (b) Lease Agreement (the "Cardiology Lease" and, together with the Radiology Lease, the "Waterford Leases"), dated as of July 20, 2004, between Waterford Real Estate and Eastern Connecticut Cardiology Group, P.C. ("ECCG") for medical office space located at 196 Waterford Parkway South, Waterford, Connecticut (subsequently assigned to LMH pursuant to that certain Assignment and Assumption of Lease, dated as of May 1, 2012, by and between Waterford Cardiology Realty Group, LLC, ECCG and LMH), as amended by First Amendment to Lease Agreement, dated as of November 1, 2005, Second Amendment to Lease Agreement, dated as of July 31, 2014 and Third Amendment to Lease Agreement, dated as of April 30, 2015, and (c) Sublease Agreement by and between LMH and LMMG, dated as of May 1, 2012, for the property subject to the Cardiology Lease.

Schedule 3.5.3**Flood Hazard Areas**

The property on which the L+M Cancer Center is located is partially located within a Special Flood Hazard Area. The existing structure, however, is not affected and is not in the floodplain.

Schedule 3.5.4
Conditions Affecting Assets

None.

Schedule 3.8**Subsequent Events**

(a) None.

(b) *Integrated Leave Program* - Effective April 1, 2015, LMH adopted a new integrated leave program for Directors and Managers and Vice Presidents that are paid biweekly (impacting 120 employees), which includes LMH paid short term disability (self-insured) and long term disability (fully insured) insurance through Unum (plan SPD not yet available). The plan also moves affected employees to an "All Time" bank for days off rather than Separate Paid Time Off ("PTO") and Sick banks and provides for a 2015 PTO cash out of up to 5 days (with 10 days permitted to be kept in the PTO bank) and eliminates Sick day cash out for new employees (current employees may maintain up to 100 days in frozen Sick bank until used for short term disability paid at 75% and L+M has promised to pay each applicable employee for any hours in excess of 800 in their respective Sick banks at such employee's current base rate (up to \$10,000). No PTO cash out will be permitted in 2016.

(c) None.

(d)

(1) LMH has purchased an Aptio Equipment Lab from Siemens on June 4, 2015 for \$570,000 and a Hematology Analyzer from Sysmex on June 3, 2015 for \$426,364. On July 9, 2015, LMH made an 80% payment on a Magnetic Resonance Imaging (MRI) machine from General Electric.

(2) As of April 30, 2015, LMH entered into a Third Amendment to the Cardiology Lease and a Second Amendment to the Radiology Lease. Among other things, the amendments to the Cardiology Lease and the Radiology Lease each contain a cross-default provision that provides that a default by LMH under either Waterford Lease constitutes a default under the other Waterford Lease.

(e) None.

(f) None.

(g) Letter Agreement, dated as of June 23, 2014, by and among Teijin Holdings USA, Inc.; L & M Systems, Inc. and L&M Home Medical Equipment, LLC.

(h) None.

(i) None.

(j) None.

(k) None.

(l) None.

(m) None.

Schedule 3.10.2
Tax Deficiencies and Assessments

None.

Schedule 3.10.6

Real Property Certiorari Proceedings

None.

Schedule 3.10.14

L+M Non-Hospital Bonds

\$5.4 million of the Series F L+M Tax-Exempt Bonds constitute L+M Non-Hospital Bonds.

Schedule 3.12

Intellectual Property

**YNHHSC SCHEDULES
TO THE
AFFILIATION AGREEMENT**

by and between

YALE-NEW HAVEN HEALTH SERVICES CORPORATION

AND

LAWRENCE + MEMORIAL CORPORATION

July 17, 2015

Introduction

Reference is made to the Affiliation Agreement (the "Affiliation Agreement"), entered into as of July 17, 2015, by and between Yale-New Haven Health Services Corporation ("*YNHHSC*") and Lawrence + Memorial Corporation ("*L+M*"). This document constitutes the Disclosure Schedule of YNHHSC pursuant to the Affiliation Agreement. Each of YNHHSC and L+M is referred to herein as a "Party" and collectively as the "Parties." All capitalized terms used, but not defined, herein shall have the meaning ascribed to such term in the Affiliation Agreement.

Section and sub-section numbers and letters used herein correspond to the section and sub-section numbers and letters in the Affiliation Agreement, unless otherwise noted, and any information disclosed in any section or sub-section herein shall be deemed to be disclosed to L+M for all purposes of the Affiliation Agreement so long as such disclosure's relevance to the applicable section(s) of the Affiliation Agreement is reasonably apparent on its face. The captions of each Schedule are included for convenience only and are not intended to limit the scope of such part, paragraph or section of the Disclosure Schedule as set forth in the Affiliation Agreement.

No disclosure made herein constitutes an admission of any liability or obligation of any YNHHSC Affiliate, an admission against any interest of any YNHHSC Affiliate or a concession as to any defense available to any YNHHSC Affiliate. Unless the Affiliation Agreement specifically provides otherwise, the disclosure of a specific item herein shall not be deemed to constitute an admission that such item is not in the ordinary course of business. To the extent that any representation or warranty contained in the Affiliation Agreement is limited or qualified by the materiality of the matters to which the representation or warranty is given, the inclusion of any matter in this Disclosure Schedule does not constitute an admission that such matters are material or will have a YNHHSC Material Adverse Effect. Certain information set forth herein is included solely for informational purposes and may not be required to be disclosed pursuant to the Affiliation Agreement.

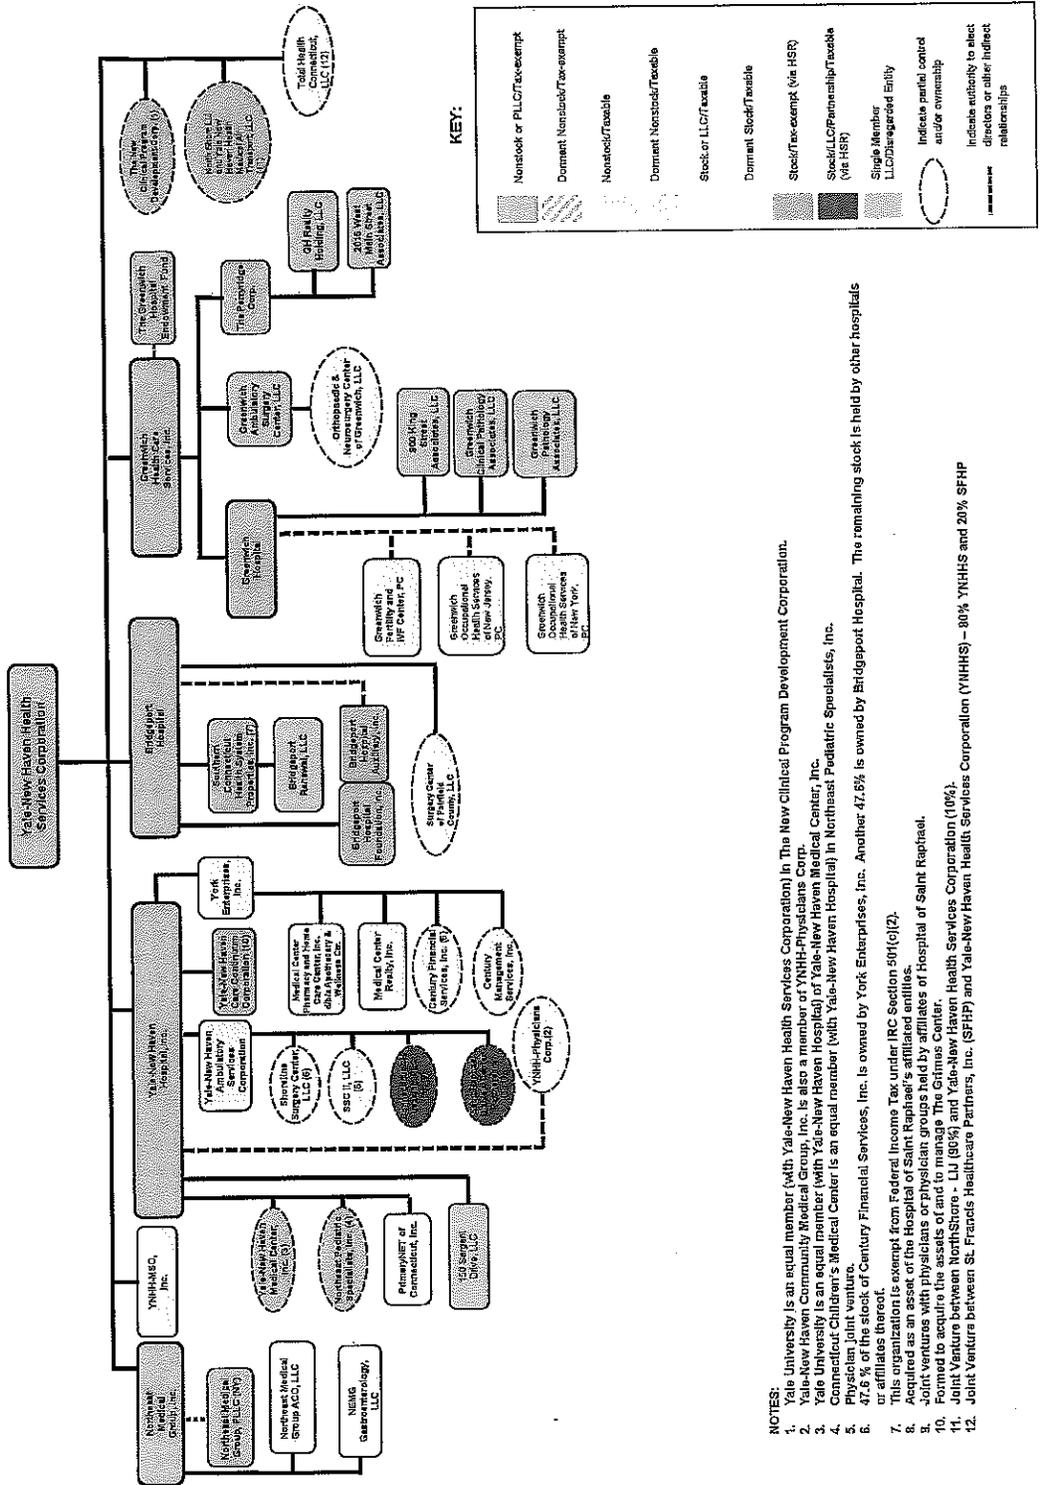

If there is any inconsistency between any provision or statement in the Affiliation Agreement and any provision or statement in the Disclosure Schedule (other than an exception in any section or subsection to a specific representation or warranty), then the provision or statement in the Affiliation Agreement shall control.

Schedule 4.1.1

YNHSC Subsidiaries

Yale New Haven Health System

Last Updated 07/09/2015

- NOTES:**
1. Yale University is an equal member (with Yale-New Haven Health Services Corporation) in The New Clinical Program Development Corporation.
 2. Yale-New Haven Community Medical Group, Inc. is also a member of YNH-H-Physicians Corp.
 3. Yale University is an equal member (with Yale-New Haven Hospital) of Yale-New Haven Medical Center, Inc.
 4. Connecticut Children's Medical Center is an equal member (with Yale-New Haven Hospital) in Northeast Pediatric Specialists, Inc.
 5. Physician Joint Venture.
 6. 47.6% of the stock of Century Financial Services, Inc. is owned by York Enterprises, Inc. Another 47.6% is owned by Bridgeport Hospital. The remaining stock is held by other hospitals or affiliates thereof.
 7. This organization is exempt from Federal Income Tax under IRC Section 501(c)(12).
 8. Acquired as an asset of the Hospital of St. Raphael, St. Raphael, affiliated entities.
 9. Joint Ventures with Physicians and other physician groups held by affiliates of Hospital of Saint Raphael.
 10. Joint Venture with the assets of and to manage The Grimsas Center.
 11. Joint Venture between NorthShore - LU (96%) and Yale-New Haven Health Services Corporation (4%).
 12. Joint Venture between St. Francis Healthcare Partners, Inc. (SFHP) and Yale-New Haven Health Services Corporation (YNHHS) - 80% YNHHS and 20% SFHP

Schedule 4.8

Subsequent Events

In June 2015, the State of Connecticut passed a budget that included increases to the hospital tax and cuts to hospital funding that disproportionately impact YNHHS Affiliates. The net tax impact on all Yale New Haven Health System hospitals for FY 2016, taking into account the supplemental pool distributions hospitals receive to offset the cost of providing services to Medicaid and uninsured patients, is \$300,309,281 (the hospitals will pay \$556,267,268 in taxes, but get only \$241,119,999 back from the supplemental pool). Overall, the net tax burden on hospitals in the state in FY 2016 will be \$60,082,014 more than it was in FY 2015, which is tantamount to a cut in funding to hospitals by \$60 million. Yale New Haven Health System as a whole will shoulder 84.3% of that cut in funding (approximately \$51M).

In addition, Yale New Haven Health System appears to have been specifically targeted for property tax increases in the budget implementer bill. That legislation will subject to taxation certain property acquired by health systems on and after October 1, 2015, but only if the health system had, for the fiscal year ending September 30, 2013, net patient revenue from facilities located within the state of \$1.5 billion or more. Yale New Haven Health System and Hartford Health Care appear to be the only two health systems impacted

Consents and Approvals

1. The Federal Trade Commission must be given notice of the appointment of YNHHS as the sole member of L+M through the premerger notification program under the HSR Act, and the transaction may not close until the HSR-required waiting period has passed.
2. The appointment of YNHHS as the sole corporate member of L+M will require Certificate of Need approval from OHCA.
3. The merger of LMMG with and into NEMG will require notice to OHCA of LMMG Board approval of the merger and Certificate of Need approval from OHCA, and thirty (30) days prior to consummating the merger and closing the aforementioned transaction, notice must be filed with the Connecticut Attorney General.
4. The appointment of YNHHS as the ultimate corporate parent of LMW must be approved by both RIDOH and the Rhode Island Attorney General through a Hospital Conversion Act application. The change in control effected by the appointment of YNHHS as the ultimate parent of LMW must also be approved by the RIDOH Office of Health Systems Development through a Change in Effective Control application.
5. Notice of the Affiliation must be given to the Connecticut Attorney General at the same time that premerger notification under the HSR Act is given to the Federal Trade Commission.
6. A Transaction Test certificate is required to be delivered as a condition to the merger of LMMG with and into NEMG in satisfaction of the requirements of Section 408 of the YNHHS Master Trust Indenture; Section 6.27 of that certain Reimbursement Agreement by and between YNHHS and Bank of America, N.A., dated as of June 1, 2014; and each of the three International Swap Dealers Association, Inc. Master Agreements, each dated as of June 23, 2014, by and between YNHHS and the following counterparties respectively: (i) Barclays Bank PLC; (ii) JPMorgan Chase Bank, N.A. ("**JPMC**"); and (iii) Goldman Sachs Bank USA.
7. The written consent of Wells Fargo Bank, National Association ("**Wells Fargo**") is required to be obtained as a condition of the merger of LMMG with and into NEMG, pursuant to Section 7.6(b) of that certain Amended and Restated Letter of Credit and Reimbursement Agreement by and among Wells Fargo, Yale-New Haven Hospital, Inc. and YNHHS, dated as of June 23, 2014.
8. The written consent of JPMC is required to be obtained as a condition of the merger of LMMG with and into NEMG, pursuant to Section 15(d) of that certain Letter of Credit and Reimbursement Agreement by and between YNHHS and JPMC, dated as of June 1, 2014.
9. The 1999 Affiliation Agreement between Yale University and YNHHS, as amended

(the "*1999 Affiliation Agreement*") requires that if a health care provider becomes a member of Yale New Haven Health System, YNHHC must promptly notify the Yale School of Medicine ("*YSM*") and, if such new system member has medical education affiliation agreements with medical schools other than YSM, YNHHC must give notice of the expiration date and material program terms of such medical education affiliation agreements.

Schedule 6.5

YNHHSC Third Party Approvals

1. The Federal Trade Commission must be given notice of the appointment of YNHHSC as the sole member of L+M through the premerger notification program under the HSR Act, and the transaction may not close until the HSR-required waiting period has passed.
2. The appointment of YNHHSC as the sole corporate member of L+M will require Certificate of Need approval from OHCA.
3. The merger of LMMG with and into NEMG will require notice to OHCA of LMMG Board approval of the merger and Certificate of Need approval from OHCA, and thirty (30) days prior to consummating the merger and closing the aforementioned transaction, notice must be filed with the Connecticut Attorney General.
4. The appointment of YNHHSC as the ultimate corporate parent of LMW must be approved by both RIDOH and the Rhode Island Attorney General through a Hospital Conversion Act application. The change in control effected by the appointment of YNHHSC as the ultimate parent of LMW must also be approved by the RIDOH Office of Health Systems Development through a Change in Effective Control application.
5. Notice of the Affiliation must be given to the Connecticut Attorney General at the same time that premerger notification under the HSR Act is given to the Federal Trade Commission.
6. A Transaction Test certificate is required to be delivered as a condition to the merger of LMMG with and into NEMG in satisfaction of the requirements of Section 408 of the YNHHSC Master Trust Indenture; Section 6.27 of that certain Reimbursement Agreement by and between YNHHSC and Bank of America, N.A., dated as of June 1, 2014; and each of the three International Swap Dealers Association, Inc. Master Agreements, each dated as of June 23, 2014, by and between YNHHSC and the following counterparties respectively: (i) Barclays Bank PLC; (ii) JPMorgan Chase Bank, N.A. ("**JPMC**"); and (iii) Goldman Sachs Bank USA.
7. The written consent of Wells Fargo Bank, National Association ("**Wells Fargo**") is required to be obtained as a condition of the merger of LMMG with and into NEMG, pursuant to Section 7.6(b) of that certain Amended and Restated Letter of Credit and Reimbursement Agreement by and among Wells Fargo, Yale-New Haven Hospital, Inc. and YNHHSC, dated as of June 23, 2014.
8. The written consent of JPMC is required to be obtained as a condition of the merger of LMMG with and into NEMG, pursuant to Section 15(d) of that certain Letter of Credit and Reimbursement Agreement by and between YNHHSC and JPMC, dated as of June 1, 2014.
9. The 1999 Affiliation Agreement between Yale University and YNHHSC, as amended

(the "*1999 Affiliation Agreement*") requires that if a health care provider becomes a member of Yale New Haven Health System, YNHHC must promptly notify the Yale School of Medicine ("*YSM*") and, if such new system member has medical education affiliation agreements with medical schools other than YSM, YNHHC must give notice of the expiration date and material program terms of such medical education affiliation agreements.

ATTACHMENT IV

**STATISTICAL BRIEF #180**

October 2014

Overview of Hospital Stays in the United States, 2012*Audrey J. Weiss, Ph.D. and Anne Elixhauser, Ph.D.***Introduction**

Hospital inpatient care constitutes almost one-third of all health care expenditures in the United States.¹ Overall, hospitalizations affect a large proportion of Americans directly and represent a significant impact to the U.S. economy. Although general population growth and a higher prevalence of chronic health conditions suggest that hospital utilization may increase over time, particularly among some groups, greater use of chronic disease management programs and emphasis on outpatient treatment may result in a declining trend in hospital stays.

This Statistical Brief presents data from the Healthcare Cost and Utilization Project (HCUP) on characteristics of inpatient stays in U.S. community hospitals in 2012. The distribution of type of hospital stay (surgical, medical, and maternal or neonatal) is presented for different characteristics (patient age, primary payer, and hospital region). Changes in hospital utilization and costs from 2003 to 2012 are provided, along with changes in hospital utilization by primary payer and patient age. All differences between mean estimates noted in the text are statistically significant at the 0.0005 level or better. Differences between proportions noted in the text differ by at least 10 percent.

Highlights

- In 2012, there were 36.5 million hospital stays in the United States, with an average length of stay of 4.5 days and an average cost of \$10,400 per stay.
- The rate of hospitalization decreased by an average of 0.3 percent per year from 2003 to 2008 and by an average of 1.9 percent per year from 2008 to 2012. Between 2003 and 2012, average inflation-adjusted hospital costs increased by 1.8 percent per year.
- About 56 percent of hospital stays in 2012 were medical, 21.8 percent were surgical, and 22.2 percent were maternal or neonatal.
- Females had a higher rate of hospitalization in 2012 than did males, but males had a longer average length of stay and higher average cost per stay.
- In 2012, patients residing in low income communities had a higher rate of hospitalization, a longer length of stay, and lower average hospital costs compared with patients in higher income communities.
- The rate of hospital stays in 2012 was lower in the Pacific and Mountain divisions than in the other Census divisions. Patients hospitalized in the Northeast had the longest length of stay and patients in the West had the highest average hospital costs.
- From 2003 to 2012, the share of hospital stays billed to private insurance decreased from 36.6 to 30.6 percent.

Findings

Characteristics of hospital stays, 2012

Table 1 presents utilization and cost data for hospital inpatient stays in 2012 by selected patient and hospital characteristics.

Table 1. Number and rate of hospital stays, length of stay, and costs by patient, payer, community income, and hospital characteristics, 2012

Characteristic	Hospital stays			Mean length of stay, days	Costs	
	Number, thousands	Percent	Rate per 1,000 population		Mean cost per stay, \$	Aggregate, millions \$
All hospital stays	36,500	100	116.2	4.5	10,400	377,455
Patient age, years						
< 1	4,300	11.7	1,070.9	3.8	5,000	21,101
1–17	1,500	4.0	21.1	3.9	9,900	14,635
18–44	9,000	24.7	78.9	3.6	7,600	68,425
45–64	9,000	24.7	108.8	4.9	12,900	116,075
65–84	9,700	26.7	260.9	5.2	13,000	126,573
85+	3,000	8.2	502.0	5.2	10,200	30,512
Patient sex						
Male	15,400	42.3	99.9	4.8	11,700	180,587
Female	21,000	57.7	132.0	4.3	9,400	196,833
Primary payer ^a						
Medicare	14,300	39.1	n/a	5.2	12,200	174,609
Medicaid	7,600	20.9	n/a	4.3	8,100	61,679
Private insurance	11,200	30.6	n/a	3.8	9,700	107,807
Uninsured	2,000	5.6	n/a	4.0	8,800	18,056
Community income ^b						
Low	10,900	30.0	136.8	4.6	9,700	105,981
Not low	24,700	67.8	106.1	4.4	10,600	262,789
Hospital region						
Northeast	7,000	19.1	125.2	4.9	10,800	75,146
Midwest	8,200	22.6	122.4	4.3	10,200	84,140
South	14,100	38.7	120.4	4.5	9,300	131,635
West	7,200	19.6	97.2	4.2	12,300	86,533

^a Population rates are not available by primary payer.

^b Patients in the first quartile are designated as *low* income, and patients in the upper three quartiles are designated as *not low* income.

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National Inpatient Sample (NIS), 2012

- **In 2012, there were about 36.5 million hospital stays with an average length of stay of 4.5 days and an average cost of \$10,400 per stay.**

In 2012, there were approximately 36.5 million hospital stays in the United States, representing a hospitalization rate of 116.2 stays per 1,000 population. Across all types of stays, the average length of a hospital stay was 4.5 days. Aggregate hospital costs were \$377.5 billion, and the average cost per stay was \$10,400.

■ **Hospital utilization and costs varied substantially in relationship to patient and hospital characteristics.**

The rate of hospitalization was highest among infants, which included hospital births (newborns), at 1,070.9 stays per 1,000 population. With the exception of infants, the hospitalization rate increased with age from 21.1 stays per 1,000 population among 1–17 year olds to 502.0 stays per 1,000 population among those aged 85 years and older.

Adults aged 18–44 years had the shortest average length of stay (3.6 days), followed by infants and children up to 17 years of age (3.8 to 3.9 days). Among adults, lengths of stay were longer as patient age increased, with adults aged 65 years and older having the longest average length of stay (5.2 days). Average cost per stay was lowest for infants (\$5,000) and highest for adults aged 45–84 years (\$12,900 to \$13,000).

Females had a higher rate of hospitalization (132.0 stays per 1,000 population) than males (99.9 stays per 1,000 population). The average length of a hospital stay was shorter for females than for males (4.3 vs. 4.8 days), and the average cost of a hospital stay was lower for females than for males (\$9,400 vs. \$11,700). It is important to note that maternal stays for females admitted for pregnancy and delivery were included in this analysis. Analyses excluding maternal and neonatal (newborn) stays showed the same relative differences between males and females (data not shown). Excluding maternal and neonatal conditions and compared with males, females had a higher rate of hospitalization (93.9 vs. 86.9 stays per 1,000 population), a shorter average length of stay (4.8 vs. 5.0 days), and lower average cost per stay (\$11,400 vs. \$12,800).

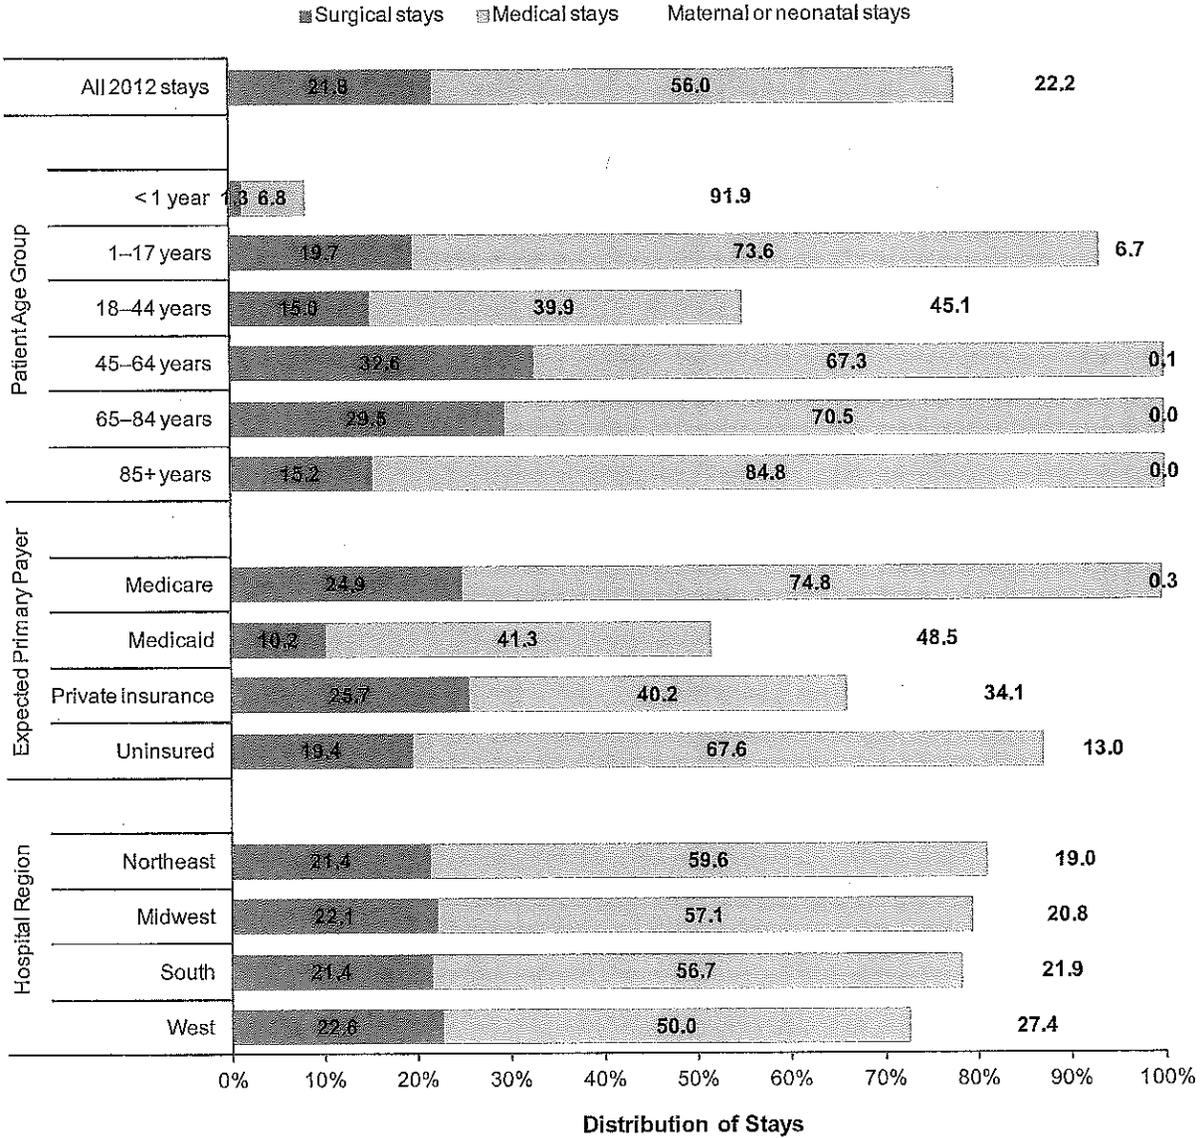

Medicare paid for the largest number of hospitalizations (14.3 million stays), followed by private insurance (11.2 million stays) and Medicaid (7.6 million stays). About 2 million hospital stays were for patients without insurance. Patients covered by Medicare experienced the longest average length of stay (5.2 days), and privately insured patients had the shortest average length of stay (3.8 days). Average cost per stay was highest for Medicare hospitalizations (\$12,200) and lowest for Medicaid hospital stays (\$8,100).

Communities with low income levels had a higher rate of hospitalization than did communities with higher income levels (136.8 vs. 106.1 stays per 1,000 population). Compared with patients from higher income communities, patients from low income communities had a longer average length of stay (4.6 vs. 4.4 days) and lower average hospital costs (\$9,700 vs. \$10,600).

The West had a lower rate of hospitalization (97.2 stays per 1,000 population) compared with the other regions (range: 120.4 to 125.2 stays per 1,000 population). The Northeast had the longest average length of stay at 4.9 days, and the West and Midwest had the shortest average lengths of stay (4.2 and 4.3 days, respectively). The West had the highest average hospital cost (\$12,300) and the South had the lowest average hospital cost (\$9,300).

Figure 1 provides the distribution of hospital stays by patient age, primary payer, and hospital region, comparing each subgroup by type of stay—surgical, medical, and maternal or neonatal.

Figure 1. Distribution of inpatient stays by patient age group, primary payer, hospital region, and type of stay, 2012

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National Inpatient Sample (NIS), 2012

■ **Medical stays constituted the largest proportion of hospitalizations.**

Overall, medical stays constituted the largest proportion of hospital stays, representing 56.0 percent of all hospitalizations. Maternal/neonatal stays and surgical stays each constituted approximately 22 percent of hospitalizations. More than two-thirds of hospitalizations were medical stays for the second youngest and three oldest age groups: 1–17 years (73.6 percent), 45–64 years (67.3 percent), 65–84 years (70.5 percent), and 85+ years (84.8 percent). Medical stays also constituted a high proportion of stays among patients covered by Medicare (74.8 percent) and among the uninsured (67.6 percent).

- **Maternal or neonatal stays constituted the largest proportion of hospitalizations among infants, younger adults, and patients covered by Medicaid.**

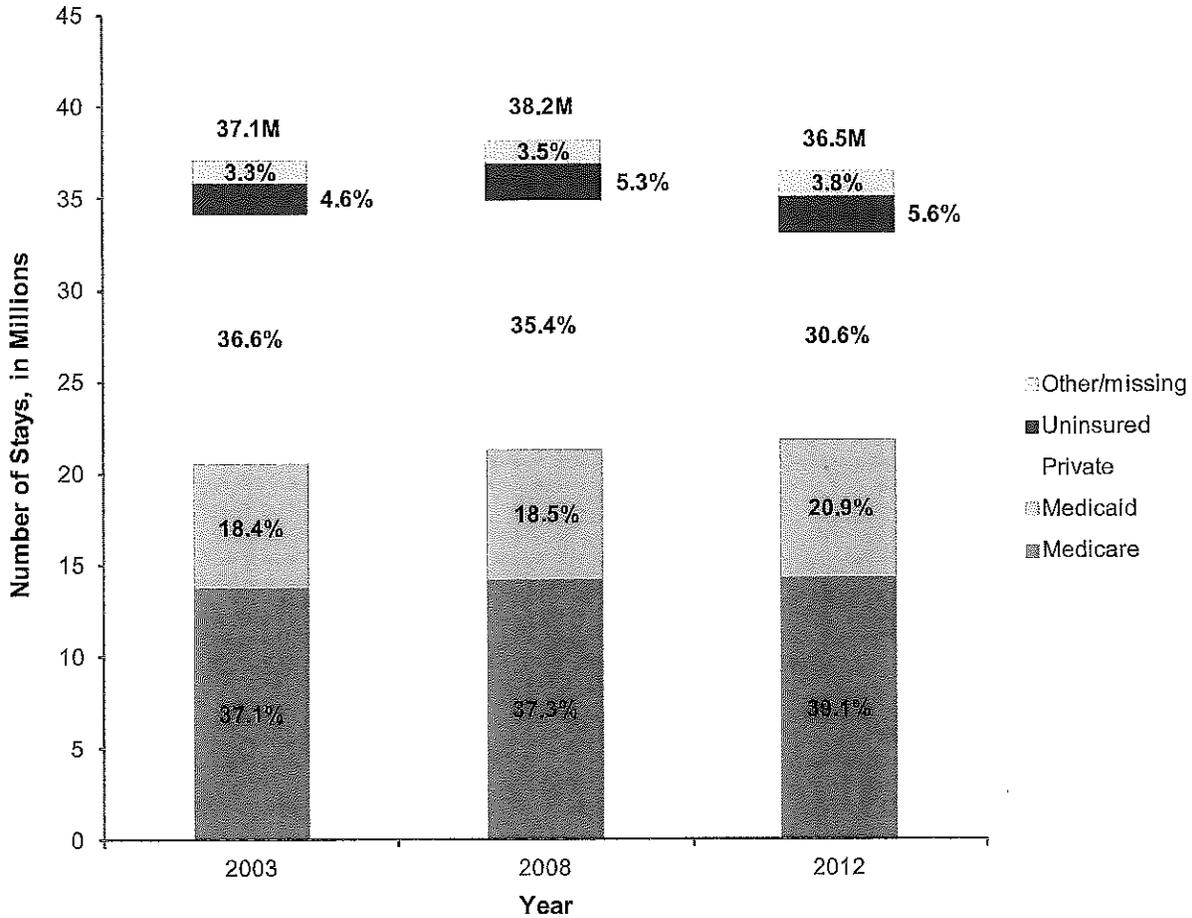

Neonatal stays constituted 91.9 percent of hospital stays among infants aged < 1 year. Nearly half of stays among patients aged 18–44 years (45.1 percent) and those covered by Medicaid (48.5 percent) were for maternal conditions.

- **In the West, the proportion of maternal or neonatal stays was higher and the proportion of medical stays lower relative to the distribution within other U.S. regions.**

In the West maternal or neonatal stays accounted for more than one-quarter of all hospitalizations (27.4 percent) versus around 20 percent for the other regions (range: 19.0–21.9 percent). In addition, the West had a lower proportion of medical stays (50.0 percent) compared with the other regions (range: 56.7–59.6 percent).

Figure 2 presents the distribution of hospital stays by primary payer for 2012 and for 2 prior years (2003 and 2008), covering a 10-year time period.

Figure 2. Distribution of inpatient stays by primary payer, 2003, 2008, and 2012

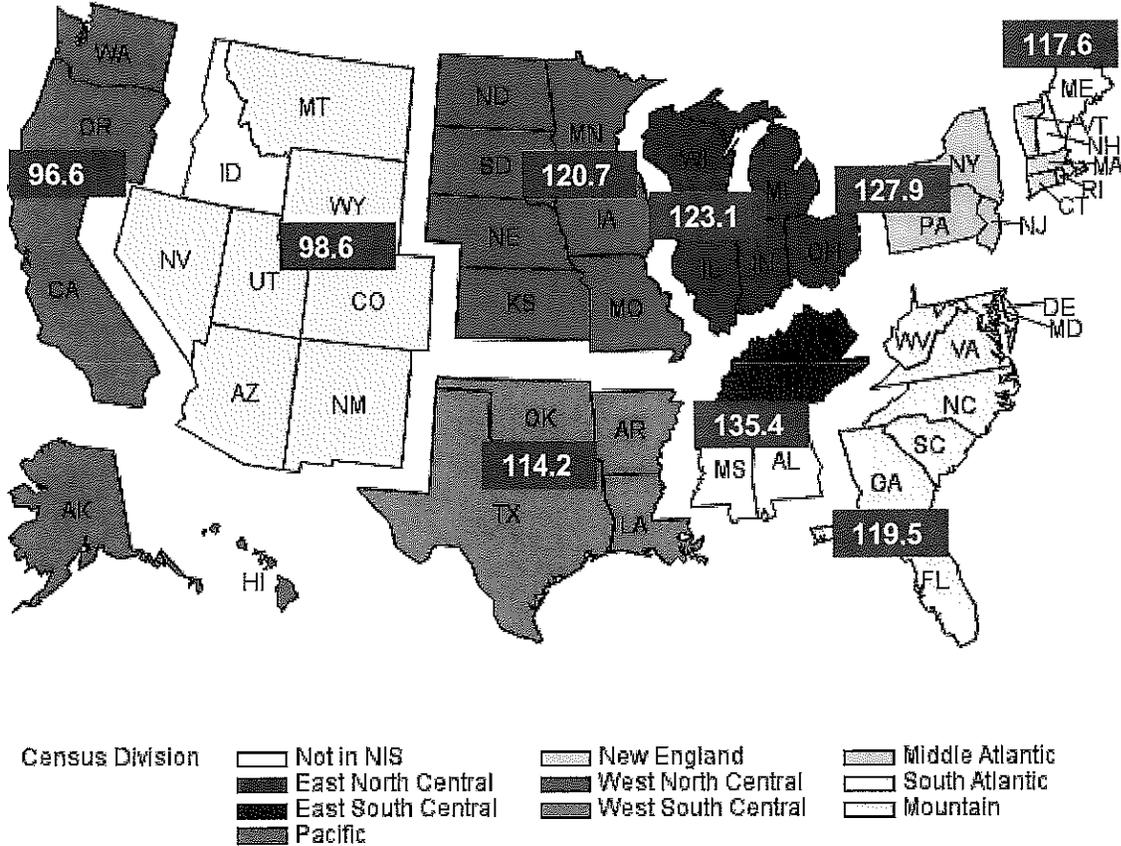

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National (Nationwide) Inpatient Sample (NIS), 2003, 2008, 2012

■ **The share of hospital costs billed to private insurance decreased between 2003 and 2012.**

Between 2003 and 2012, the number of hospital stays billed to private insurance decreased from 13.6 to 11.2 million stays, representing a decrease from 36.6 to 30.6 percent of all hospitalizations. During this same time period, the share of stays billed to Medicaid increased from 6.8 to 7.6 million stays (an increase from 18.4 percent to 20.9 percent of all hospitalizations).

Figure 3 presents the rate of hospital inpatient stays across the nine U.S. Census divisions in 2012.

Figure 3. Rate of inpatient stays per 1,000 population by U.S. Census division, 2012

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National Inpatient Sample (NIS), 2012

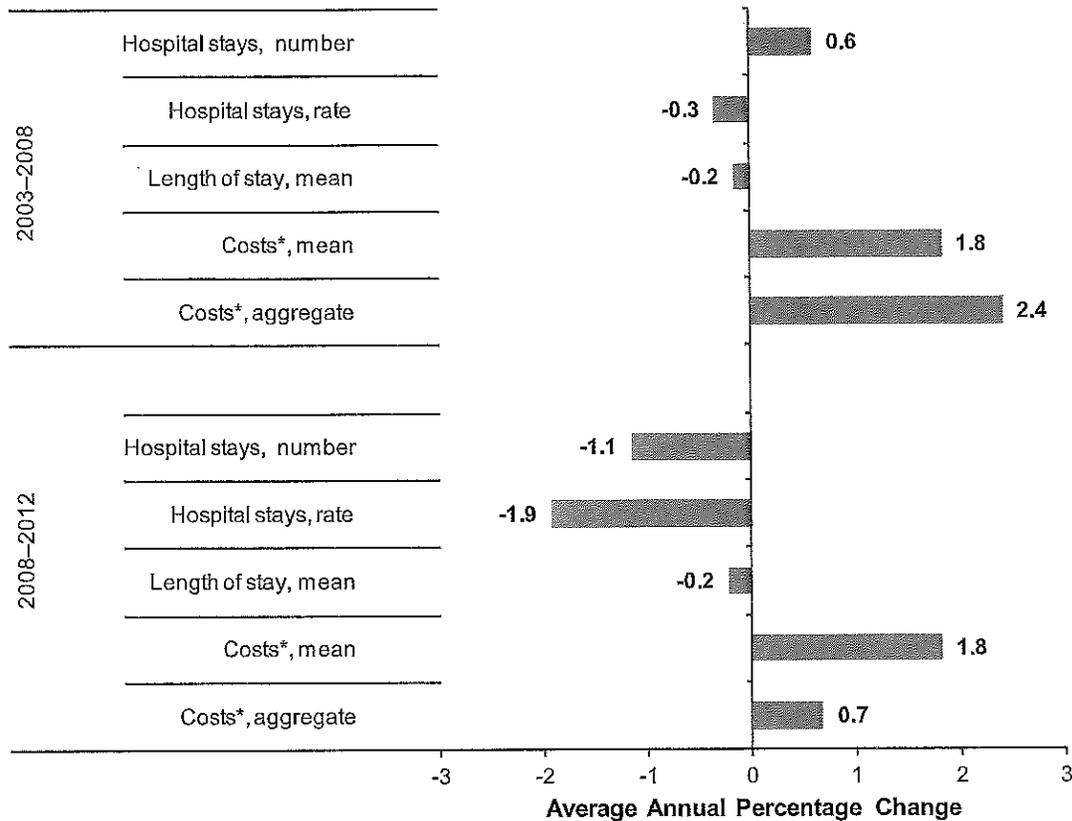

■ **The Pacific and Mountain divisions had the lowest rates of inpatient stays.**

The lowest hospitalization rates were in the Pacific and Mountain divisions (96.6 and 98.6 stays per 1,000 population, respectively). The West South Central division had a lower hospitalization rate (114.2 stays per 1,000 population) than did the East South Central and Middle Atlantic divisions (135.4 and 127.9 stays per 1,000 population, respectively).

Changes in utilization and costs of hospital stays, 2003–2012

Figure 4 presents overall changes in utilization and costs associated with hospital inpatient stays.

Figure 4. Average annual percentage change in hospital inpatient utilization and inflation-adjusted costs, 2003–2008 and 2008–2012

* Growth in mean and aggregate hospital costs was calculated using inflation-adjusted costs.

Note: Data from 2008 were used as end points in both the 2003–2008 and the 2008–2012 analyses.

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National (Nationwide) Inpatient Sample (NIS), 2003, 2008, 2012

■ **Hospital costs increased while the rate of hospitalization and mean length of stay decreased over the decade from 2003 to 2012.**

The number of hospital stays increased 0.6 percent annually from 2003 to 2008, whereas the number of stays decreased an average of 1.1 percent annually between 2008 and 2012.

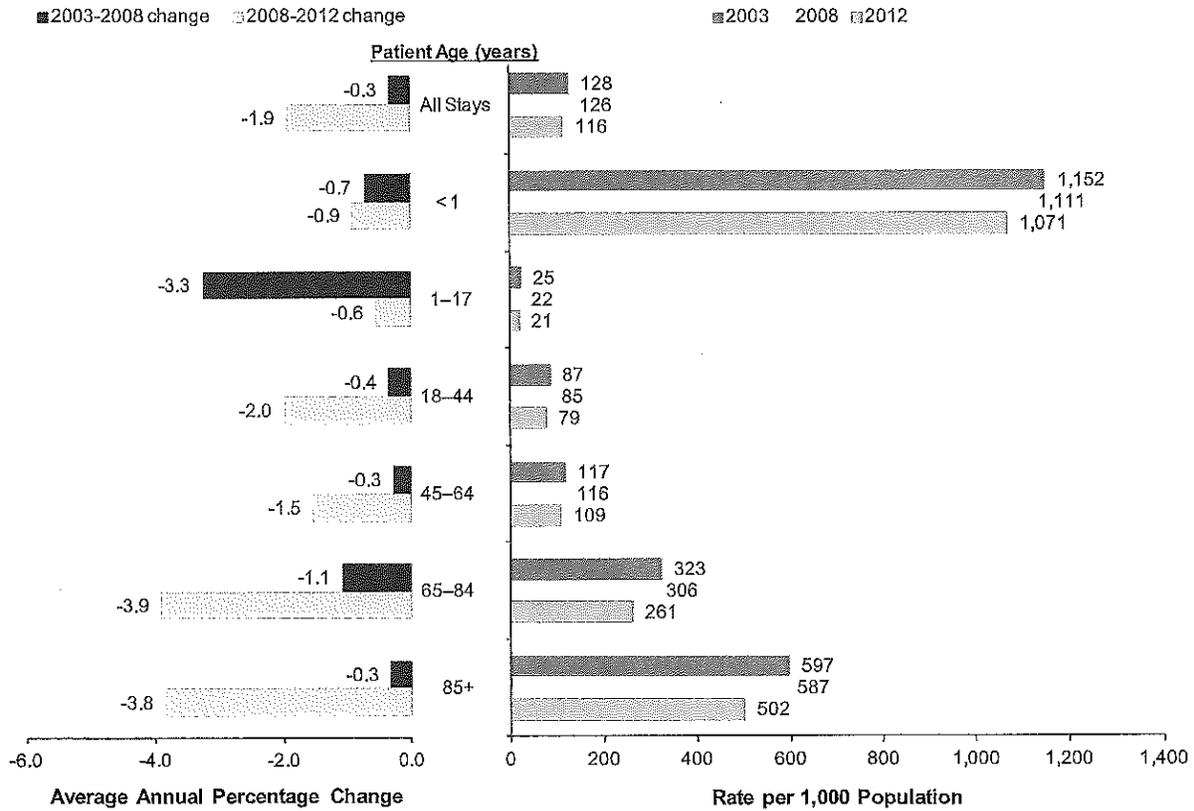

The overall rate of hospitalization decreased over time, with an average annual decrease of 0.3 percent between 2003 and 2008 and an average annual decrease of 1.9 percent between 2008 and 2012.

The length of a hospital stay decreased on average 0.2 percent per year between 2003 and 2012.

Finally, mean inflation-adjusted hospital costs grew at a relatively steady rate, averaging 1.8 percent per year during both time periods. Aggregate inflation-adjusted hospital costs grew an average of 2.4 percent per year between 2003 and 2008 but slowed to a 0.7 percent average increase per year between 2008 and 2012.

Figure 5 presents the rate of stays by patient age for 2003, 2008, and 2012, along with the average annual percentage change for two consecutive 5-year time periods (2003–2008 and 2008–2012).

Figure 5. Rate of inpatient stays and change over time by patient age, 2003–2012

Note: Data from 2008 were used as end points in both the 2003–2008 and the 2008–2012 analyses.

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), National (Nationwide) Inpatient Sample (NIS), 2003, 2008, 2012

■ **The rate of hospitalization decreased between 2003 and 2012 overall and across patient subgroups.**

Between 2003 and 2012 the rate of hospitalization decreased from 128 stays per 1,000 population in 2003 to 116 stays per population in 2012. This decrease in the hospitalization rate occurred for all age groups. The rate of decrease was generally greater from 2008 to 2012 than from 2003 to 2008, with the exception of patients aged 1–17 years, who experienced a faster decline in hospitalization rate from 2003 to 2008.

From 2008 through 2012, the rate of hospitalization decreased at the highest rate—almost 4 percent per year—for those aged 65 years and older.

Data Source

The estimates in this Statistical Brief are based upon data from the Healthcare Cost and Utilization Project (HCUP) 2012 National Inpatient Sample (NIS). Historical data were drawn from the 2003 and 2008 Nationwide Inpatient Sample (NIS). The statistics were generated from HCUPnet, a free, online query system that provides users with *immediate access* to the largest set of publicly available, all-payer national, regional, and State-level hospital care databases from HCUP.²

The 2012 NIS was redesigned to optimize national estimates. The redesign incorporates two critical changes:

- Revisions to the sample design—the NIS is now a *sample of discharge records from all HCUP-participating hospitals*, rather than a sample of hospitals from which all discharges were retained.
- Revisions to how hospitals are defined—the NIS now uses the *definition of hospitals and discharges supplied by the statewide data organizations* that contribute to HCUP, rather than the definitions used by the American Hospital Association (AHA) Annual Survey of Hospitals.

The new sampling strategy is expected to result in more precise estimates than did the previous NIS design by reducing sampling error: for many estimates, confidence intervals under the new design are about half the length of confidence intervals under the previous design. The change in sample design for 2012 necessitates recomputation of prior years' NIS data to enable analysis of trends that uses the same definitions of discharges and hospitals.

This is the first Statistical Brief that reports data from the 2012 NIS.

Many hypothesis tests were conducted for this Statistical Brief. Thus, to decrease the number of false-positive results, we reduced the significance level to 0.0005 for individual tests.

Definitions

Diagnoses, ICD-9-CM, major diagnostic categories (MDCs), and diagnosis-related groups (DRGs)
The *principal diagnosis* is that condition established after study to be chiefly responsible for the patient's admission to the hospital. *Secondary diagnoses* are concomitant conditions that coexist at the time of admission or develop during the stay.

ICD-9-CM is the International Classification of Diseases, Ninth Revision, Clinical Modification, which assigns numeric codes to diagnoses and procedures. There are approximately 14,000 ICD-9-CM diagnosis codes and approximately 4,000 ICD-9-CM procedure codes.

MDCs assign ICD-9-CM principal diagnosis codes to one of 25 general diagnosis categories. For this report, maternal hospital stays were identified using MDC 14 (pregnancy, childbirth, and the puerperium) and neonatal hospital stays were identified using MDC 15 (newborns and other neonates with conditions originating during the perinatal period).

DRGs comprise a patient classification system that categorizes patients into groups that are clinically coherent and homogeneous with respect to resource use. DRGs group patients according to diagnosis, type of treatment (procedure), age, and other relevant criteria. Each hospital stay has one assigned DRG. For this report, surgical stays were defined as *valid O.R. procedures* on the basis of DRG coding principles. Stays other than maternal/neonatal stays or surgical stays were considered medical stays.

Types of hospitals included in the HCUP National (Nationwide) Inpatient Sample

The National (Nationwide) Inpatient Sample (NIS) is based on data from community hospitals, which are defined as short-term, non-Federal, general, and other hospitals, excluding hospital units of other institutions (e.g., prisons). The NIS includes obstetrics and gynecology, otolaryngology, orthopedic,

² Agency for Healthcare Research and Quality. HCUPnet Web site. <http://hcupnet.ahrq.gov/>. Accessed September 11, 2014.

cancer, pediatric, public, and academic medical hospitals. Excluded are long-term care facilities such as rehabilitation, psychiatric, and alcoholism and chemical dependency hospitals. Beginning in 2012, long-term acute care hospitals are also excluded. However, if a patient received long-term care, rehabilitation, or treatment for psychiatric or chemical dependency conditions in a community hospital, the discharge record for that stay will be included in the NIS.

Unit of analysis

The unit of analysis is the hospital discharge (i.e., the hospital stay), not a person or patient. This means that a person who is admitted to the hospital multiple times in 1 year will be counted each time as a separate discharge from the hospital.

Costs and charges

Total hospital charges were converted to costs using HCUP Cost-to-Charge Ratios based on hospital accounting reports from the Centers for Medicare & Medicaid Services (CMS).³ *Costs* reflect the actual expenses incurred in the production of hospital services, such as wages, supplies, and utility costs; *charges* represent the amount a hospital billed for the case. For each hospital, a hospital-wide cost-to-charge ratio is used. Hospital charges reflect the amount the hospital billed for the entire hospital stay and do not include professional (physician) fees. For the purposes of this Statistical Brief, costs are reported to the nearest hundred.

Annual costs were inflation adjusted using the Gross Domestic Product (GDP) from the U.S. Department of Commerce, Bureau of Economic Analysis (BEA), with 2012 as the index base.⁴ That is, all costs are expressed in 2012 dollars.

Average annual percentage change

Average annual percentage change is calculated using the following formula:

$$\text{Average annual percentage change} = \left[\left(\frac{\text{End value}}{\text{Beginning value}} \right)^{\frac{1}{\text{change in years}}} - 1 \right] \times 100.$$

Median community-level income

Median community-level income is the median household income of the patient's ZIP Code of residence. Income levels are separated into quartiles with cut-offs determined using ZIP Code demographic data obtained from the Nielsen Company. Patients in the first quartile are designated as having *low* income, and patients in the upper three quartiles are designated as having *not low* income. The income quartile is missing for patients who are homeless or foreign.

Payer

Payer is the expected primary payer for the hospital stay. To make coding uniform across all HCUP data sources, payer combines detailed categories into general groups:

- Medicare: includes patients covered by fee-for-service and managed care Medicare
- Medicaid: includes patients covered by fee-for-service and managed care Medicaid
- Private Insurance: includes Blue Cross, commercial carriers, and private health maintenance organizations (HMOs) and preferred provider organizations (PPOs)
- Uninsured: includes an insurance status of *self-pay* and *no charge*
- Other: includes Worker's Compensation, TRICARE/CHAMPUS, CHAMPVA, Title V, and other government programs

Hospital stays billed to the State Children's Health Insurance Program (SCHIP) may be classified as Medicaid, Private Insurance, or Other, depending on the structure of the State program. Because most

Rockville, MD: Agency for Healthcare Research and Quality. Updated August 2014. <http://www.hcup-us.ahrq.gov/db/state/costtocharge.jsp>. Accessed September 11, 2014.

⁴ U.S. Bureau of Economic Analysis. National Income and Product Account Tables, Table 1.1.4 Price Indexes for Gross Domestic Product. <http://www.bea.gov/iTable/iTable.cfm?ReqID=9&step=1#reqid=9&step=1&isuri=1>. Accessed March 20, 2014.

State data do not identify patients in SCHIP specifically, it is not possible to present this information separately.

When more than one payer is listed for a hospital discharge, the first-listed payer is used.

Region

Region is one of the four regions defined by the U.S. Census Bureau:

- Northeast: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania
- Midwest: Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, and Kansas
- South: Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, and Texas
- West: Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, California, Alaska, and Hawaii

About HCUP

The Healthcare Cost and Utilization Project (HCUP, pronounced "H-Cup") is a family of health care databases and related software tools and products developed through a Federal-State-Industry partnership and sponsored by the Agency for Healthcare Research and Quality (AHRQ). HCUP databases bring together the data collection efforts of State data organizations, hospital associations, private data organizations, and the Federal government to create a national information resource of encounter-level health care data (HCUP Partners). HCUP includes the largest collection of longitudinal hospital care data in the United States, with all-payer, encounter-level information beginning in 1988. These databases enable research on a broad range of health policy issues, including cost and quality of health services, medical practice patterns, access to health care programs, and outcomes of treatments at the national, State, and local market levels.

HCUP would not be possible without the contributions of the following data collection Partners from across the United States:

Alaska State Hospital and Nursing Home Association
Arizona Department of Health Services
Arkansas Department of Health
California Office of Statewide Health Planning and Development
Colorado Hospital Association
Connecticut Hospital Association
Florida Agency for Health Care Administration
Georgia Hospital Association
Hawaii Health Information Corporation
Illinois Department of Public Health
Indiana Hospital Association
Iowa Hospital Association
Kansas Hospital Association
Kentucky Cabinet for Health and Family Services
Louisiana Department of Health and Hospitals
Maine Health Data Organization
Maryland Health Services Cost Review Commission
Massachusetts Center for Health Information and Analysis
Michigan Health & Hospital Association
Minnesota Hospital Association
Mississippi Department of Health
Missouri Hospital Industry Data Institute
Montana MHA - An Association of Montana Health Care Providers
Nebraska Hospital Association

Nevada Department of Health and Human Services
New Hampshire Department of Health & Human Services
New Jersey Department of Health
New Mexico Department of Health
New York State Department of Health
North Carolina Department of Health and Human Services
North Dakota (data provided by the Minnesota Hospital Association)
Ohio Hospital Association
Oklahoma State Department of Health
Oregon Association of Hospitals and Health Systems
Oregon Health Policy and Research
Pennsylvania Health Care Cost Containment Council
Rhode Island Department of Health
South Carolina Revenue and Fiscal Affairs Office
South Dakota Association of Healthcare Organizations

Virginia Health Information
Washington State Department of Health
West Virginia Health Care Authority
Wisconsin Department of Health Services
Wyoming Hospital Association

About Statistical Briefs

HCUP Statistical Briefs are descriptive summary reports presenting statistics on hospital inpatient and emergency department use and costs, quality of care, access to care, medical conditions, procedures, patient populations, and other topics. The reports use HCUP administrative health care data.

About the NIS

The HCUP National (Nationwide) Inpatient Sample (NIS) is a national (nationwide) database of hospital inpatient stays. The NIS is nationally representative of all community hospitals (i.e., short-term, non-Federal, nonrehabilitation hospitals). The NIS is a sample of hospitals and includes all patients from each hospital, regardless of payer. It is drawn from a sampling frame that contains hospitals comprising more than 95 percent of all discharges in the United States. The vast size of the NIS allows the study of topics at the national and regional levels for specific subgroups of patients. In addition, NIS data are standardized across years to facilitate ease of use.

About HCUPnet

HCUPnet is an online query system that offers instant access to the largest set of all-payer health care databases that are publicly available. HCUPnet has an easy step-by-step query system that creates tables and graphs of national and regional statistics as well as data trends for community hospitals in the United States. HCUPnet generates statistics using data from HCUP's National (Nationwide) Inpatient Sample (NIS), the Kids' Inpatient Database (KID), the Nationwide Emergency Department Sample (NEDS), the State Inpatient Databases (SID), and the State Emergency Department Databases (SEDD).

For More Information

For more information about HCUP, visit <http://www.hcup-us.ahrq.gov/>.

2013 Health Care Cost and Utilization Report

October 2014

www.healthcostinstitute.org

Letter from the Executive Director

The Health Care Cost Institute (HCCI) is pleased to release the 2013 *Health Care Cost and Utilization Report*. This report is the first examination of 2013 data, and it details the health care cost and utilization trends for Americans younger than age 65 and covered by employer sponsored insurance (ESI).

In 2013, health care spending for the national ESI population grew 3.9%. This growth rate was similar to the rates observed in 2011 (4.0%) and 2012 (3.7%). Spending growth for 2013 was driven mainly by rising prices rather than by utilization, as use of many services declined. As in previous years, this growth in spending was not consistent across various ESI population groups. For this report, HCCI detailed the health care cost and utilization trends across age, gender, and geographic sub-populations. We hope that you find the report informative.

In reviewing the last year, HCCI has engaged in numerous efforts we want to make sure you are aware of.

- *Medicare data:* The Centers for Medicare & Medicaid Services (CMS) certified HCCI as the first national Qualified Entity, granting HCCI access to use for quality reporting Medicare Parts A, B, and D data for the entire country.
- *APCD collaboration:* HCCI's ongoing partnership with Vermont yielded the first HCCI-produced public report for the state's all payer claims database (APCD). This report, the 2007-2011 *Vermont Health Care Cost and Utilization Report*, described health care cost and use trends for Vermonters covered by ESI and compared these trends to the national ESI population for the years 2007 through 2011.
- *Academic research:* The HCCI dataset is being validated as a recognized data source for academic research. In the October 2013 issue of *Health Affairs*, HCCI published an article examining the longitudinal health care trends of the ESI population. The August 2014 issue of *Health Affairs* included the first article published by academic researchers using HCCI's dataset, "Health Spending Slowdown is Mostly Due to Economic Factors, Not Structural Change in the Health Care Sector."
- *Dataset access:* HCCI created the Academic Research Partnership program to expand access by academic researchers to HCCI-held claims data. The initial partners included major public and private universities, two actuarial associations, and two government agencies.
- *State health reform grants:* HCCI and the National Academy for State Health Policy (NASHP), with funding from the Laura and John Arnold Foundation, launched a grant program designed to promote academic research of state health reform efforts.
- *Transparency initiative:* HCCI has partnered with our data contributors and other stakeholders to develop a free Web-based portal to provide health care price and quality information to the public.

More information can be found on the HCCI Website (www.healthcostinstitute.org).

In addition to these activities, HCCI continues to be a source of public reporting on spending and utilization trends of the ESI population younger than age 65. Along with this report, HCCI recently produced the *Children's Health Spending: 2009-2012* report and an issue brief on the medical health care trends for young adults (ages 19-25).

Our work over the last year would not have been possible without ongoing support from our stakeholders and partners. We look forward to continue working with them on our expanding agenda of activities in 2015.

David Newman
Executive Director, HCCI

Executive Summary

This report, 2013 *Health Care Costs and Utilization*, is the fourth in a series of annual reports by the Health Care Cost Institute (HCCI) on the health care activity of individuals who are younger than age 65 and covered by employer-sponsored health insurance (ESI). The report's study period (2011-2013) covers the years after passage of the Affordable Care Act (ACA) and prior to the opening of health insurance exchanges. As in previous years, the report details the levels and changes in per capita expenditures ("spending"), utilization ("use"), and prices of medical and prescription services used by the ESI population. Also, for the first time, it details patterns of spending and service use by age-gender groups of the ESI population.

In 2013, spending for the national ESI population grew 3.9% (Table 1). Spending was driven up by rising prices of medical services and brand prescriptions (see "Key definitions"), while use of inpatient and outpatient services and brand prescriptions fell (Table 2). Separately, the use of filled days of generic prescriptions grew 4.5%, while the average price fell by 0.5%.

Despite uneven growth among ESI sub-populations, national trend remained stable

In 2013, ESI health care expenditures increased by 3.9% (\$183 per capita) to \$4,864 per insured (Table 1). Since 2010, per capita ESI health spending grew by an average 3.9% per year. This health care spending trend is considerably slower than historical

expenditure growth for the ESI population.

A number of spending trends from 2011 and 2012 continued in 2013. The Northeast region of the county continued to have the highest per capita expenditures (\$5,037 per insured) and the highest rate of spending growth (4.8%). The West continued to have the lowest expenditures (\$4,542 per insured) and lowest growth rate (3.0%). Children (ages 0–18) and young adults (ages 19–25) continued to have the lowest per capita expenditures (\$2,574 and \$2,676, respectively) and the fastest expenditure growth (4.6% and 4.5%).^{1,2}

A number of earlier trends, however, did not persist in 2013. Spending in the West grew faster in 2013 than in previous years. Spending growth in the South experienced the highest rate in 2012 but slowed to 3.6% in 2013, the second lowest growth rate. For young adults and intermediate adults (ages 26–44), spending growth also slowed by more than a percentage point, whereas spending growth for pre-Medicare adults (ages 55–64) grew faster than in 2012 by nearly two percentage points. Per capita health care spending for women (\$5,403) remained higher than spending for men (\$4,305), but the growth rate for men accelerated while the rate for women slowed.

Spending on medical services and prescriptions continued to rise in 2013

Spending trends in 2013 were similar to those observed in 2011 and 2012, with 20% of expenditures on acute

BY THE NUMBERS: 2013

3.9%

The increase in per capita health care spending per insured.

-0.5% & 5.8%

The decline in utilization and increase in price paid for outpatient services.

-15.5% & 21.2%

The decline in utilization and increase in price paid for brand prescriptions.

4.5% & -0.5%

The increase in utilization and decline in prices paid for generic prescriptions.

0.8% & 2.5%

The increase in utilization and increase in price paid for professional services.

8.0%

The increase in utilization of specialist office visits.

inpatient admissions, 28% of expenditures on outpatient care, 34% of expenditures on professional services, and the remaining 17% of expenditures on prescriptions. Spending on acute inpatient care (3.9%) and professional procedures (3.3%) grew faster in 2013 than in 2012 (1.7% and 2.9%, respectively). Outpatient services continued to be the fastest-growing medical service category in terms of spending, but between 2012 and 2013, growth slowed from 6.3% to 5.2%. Prescriptions spending rose by 3.1%, with a spending growth faster on generic (3.9%) than on brand (2.4%) prescriptions.

Professional service and generic prescription use rose

In 2013, professional service use rose 0.8% (Table 3), due to rising utilization of commonly used services, such as office visits to specialists (1,493 services per 1,000 insureds; Appendix Table A5) and laboratory and pathology (lab/path) services (4,719 services per 1,000 insureds). Office visits to specialists grew by 8.0%, and use of lab/path services increased by 1.9%. Increases in the use of these detailed categories offset declining use in other professional detailed service categories, such as office visits to primary care providers (-3.8%).

Also in 2013, generic prescriptions use increased by 4.5% (Table 3), the lowest growth rate observed since 2011. Generics accounted for 83.3% of prescription filled days in 2013. The four mostly commonly filled detailed categories of generic prescriptions were central nervous system (CNS) agents, cardiovascular drugs, hormones and synthetic substitutes, and anti-infective agents (Appendix Table A5). Of these prescriptions, only use of anti-infective agents declined (-1.8%).

Inpatient, outpatient, and brand prescription use fell

In 2013, medical service use fell for acute inpatient admissions, outpatient visits, and outpatient-other services (Table 3). Acute inpatient admissions per 1,000 declined 2.3% due to lower medical (-5.1%) and surgical (-3.7%) admissions per 1,000 insureds (Appendix Table A5). Driving the decline in the number of outpatient visits (-0.8%, or 3 visits per 1,000 insureds; Table 2) were declines in outpatient surgery and emergency room visits (Appendix Table A5). Use of outpatient-other services declined by 0.5% (Table 3) due to fewer ancillary and lab/path (Appendix Table A5) services used.

Also in 2013, use of brand prescriptions fell sharply by 15.5% (Table 3). Continuing a multiyear trend, use declined for the most commonly filled detailed categories (see "Key definitions") of brand prescriptions (hormones and synthetic substitutes, cardiovascular drugs, CNS, and gastrointestinal drugs; Appendix Table A5).

Rising prices pushed up medical and brand prescription spending

In our annual analyses of ESI health care spending, HCCI examines changes in utilization rates and prices paid for care. Our findings for 2013 spending are consistent with those for 2011 and 2012: that rising prices, rather than utilization, were the primary drivers of spending growth for all medical service categories and brand prescriptions (Table 2 and Table 3). For acute inpatient, outpatient, and brand prescriptions, expenditures rose owing to rising prices and that growth was moderated by falling utilization. Exceptions to this trend were professional services and generic pre-

scriptions. Professional services showed increases in both average price and utilization, whereas higher use of generic prescriptions offset the effects of a lower average price.²⁰¹³

Notable trends: use of services by age-gender groups; emergency room spending; brand prescription spending; CNS agents; demographics of generic prescription use

Utilization by adult women higher than that of men until age 55.

In 2013 adult women (ages 19–54) had levels of outpatient and professional service use higher than those of adult men (Appendix Table A10a). In particular, use of outpatient and professional lab/path and radiology services was higher for women than for men within the same age group. After age 54, pre-Medicare adult men and women used these services at relatively similar rates.

Spending levels for emergency room visits similar across adult age groups, despite differences in use.

In 2013, spending on emergency room (ER) visits for young adults was \$310 per capita and \$314 per capita for pre-Medicare adults. Overall, ER use rates declined with age; however, the average price paid by older adults was higher than that paid by young adults, due to both higher prices and higher intensity of care for older adults.

Brand spending highest for antirheumatic agents.

In 2013, the top four classes of brand prescriptions, by per capita spending, were antirheumatic agents, biologic response modifiers, insulins, and antiretrovirals (Table 4). Spending on brand antirheumatic agents was \$49 per capita. Collectively, spending on

these drugs was \$154 per insured, totaling 28% of ESI spending on brand prescriptions.

CNS prescriptions dominated generic usage.

In 2013, spending per insured on CNS agents, drugs that affect the brain and spinal column, was \$90 (Appendix Table A4). CNS agents accounted for 31.4% of generic drug spending per capita and 27.1% of the generic filled days (Appendix Table A5). Antidepressants were the most commonly filled class of CNS generic prescriptions (Table 6) and the most used generic drug class for young adult men, intermediate adult men, middle age adult women, and pre-Medicare adult

women (Tables 9–12). For girls, young adult women, and intermediate adult women the most commonly used class of generics was contraceptives.

Conclusions

Differences in spending and use across these groups are relevant not only to the insureds, but also to employers and policymakers interested in health care trends during this pre-exchange period. For 2013, HCCI found that utilization rose for some services and populations affected by the ACA, including preventive visits and contraception, but these services generally contributed little to overall spending. ESI spending increased, at a

rate similar to those in 2011 and 2012. In each of those years, rising medical and brand prescription prices led to spending growth. However, unlike in 2011 and 2012, declining utilization in 2013 offset price increases, keeping expenditure growth historically slow.

KEY DEFINITIONS

What is per capita spending?

Per capita spending in this report is the estimate of total expenditures paid divided by the employer-sponsored insured population.

What are medical service, subservice, and detailed categories?

Three medical service categories are identified: inpatient facility, outpatient facility, and professional procedures. HCCI also reports on three facility subservice categories: acute inpatient, which includes labor and delivery, medical, mental health and substance use, newborn, and surgery claims; outpatient visits; and outpatient-other services.⁷ These are further classified into “detailed service” categories.

What are prescription service, subservice, detailed service categories, and subclasses?

HCCI analyzes prescription drug and device claims from pharmacies. The prescription service category is further classified by brand and generic drug subservice categories. These are further classified into “detailed service” categories, and further into subclasses.⁷

What is intensity?

Intensity is a measure of the complexity of a service, including the length of time, the severity of the illness addressed, and the amount of resources required for treatment. Many factors can account for changes in the intensity of services, including new and better forms of treatment, the health status of the population receiving services, and reimbursement system modifications that either encourage or discourage one form of treatment over another. HCCI does not currently calculate intensity of prescriptions.

What is an intensity-adjusted price?

Isolating the effect of intensity on the price paid per service allows for the calculation of an intensity-adjusted price. The patient never sees this price directly. In metrics, intensity equal to 1 would lead to no difference between prices paid and intensity-adjusted prices. Intensity greater than 1 would lead to intensity-adjusted prices being higher than prices paid; and an intensity-level less than 1 would mean that intensity-adjusted prices were less than the prices paid.

Annual Health Care Expenditures Per Capita

KEY FINDINGS: 2013

In this report, annual health care expenditures per capita consist of the spending on medical and pharmacy claims by individuals covered by ESI. Per capita expenditures were calculated for the national ESI population, across detailed sub-populations (including regions, genders, age groups, age-gender groups), and across broad and detailed service categories (see "Key definitions").

For third year, national expenditures growth remained stable

For the three years of the study period, per capita health spending by the ESI population grew at rates faster than those in 2010 but slower than rates between 2007 and 2009. This report does not investigate the reasons for that slower growth, but other research suggests many factors influ-

encing this trend, including slower economic growth, changing benefit designs, and health system reform.^{3,4,5}

Between 2012 and 2013, per capita expenditures for people age 65 or younger and covered by ESI rose \$183 per person to \$4,864 (Table 1 and Figure 1). This reflects a growth rate of 3.9%, similar to the rates observed in 2011 and 2012.

Although the annual spending growth rate was similar across these years, the underlying trends for those years were quite different. As shown in Table 1, 2013 health care expenditures per capita grew for all sub-populations examined (regions, age groups, and genders), but at rates different from those in 2011 and 2012.

Growth rate remained stable

Growth in per capita spending was 3.9%, a similar rate to 2011 (4.0%) and 2012 (3.7%).

\$4,864

The spending per capita for the national ESI population

\$2,574 & 4.6%

The spending per capita and growth rate for children, the lowest per capita spending and highest growth rate of any age group.

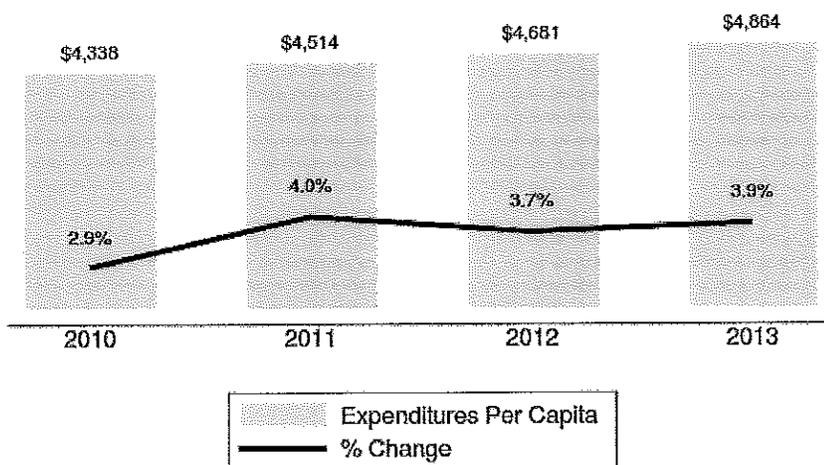

\$5,037 & 4.8%

The spending per capita and growth rate for the Northeast, the highest regional per capita spending and growth rate.

\$849 & 5.5%

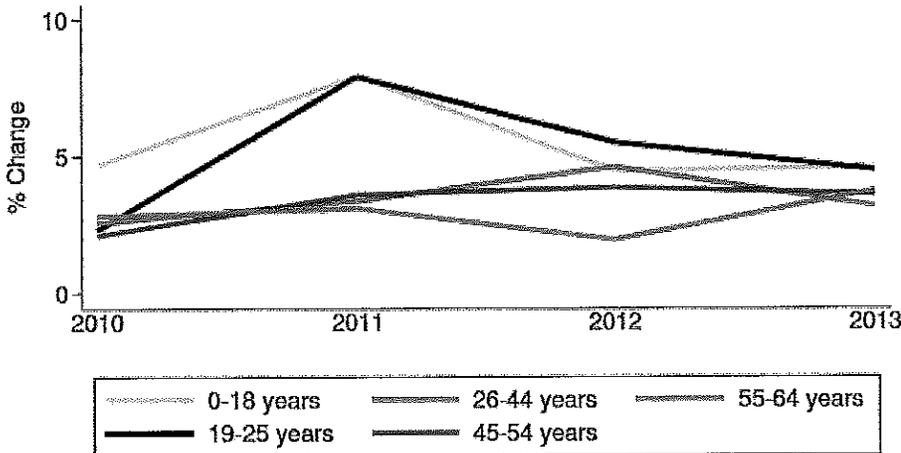

The spending per capita and growth rate for outpatient visits, the highest service category growth rate.

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than age 65 ESI population.
Data from 2012 and 2013 adjusted using actuarial completion.

Figure 2
Annual Percentage Changes in Expenditures Per Capita by Age Group: 2010-2013

Source: HCCI, 2014.
 Notes: All data weighted to reflect the national, younger than 65 ESI population.
 Data from 2012 and 2013 adjusted using actuarial completion.

Health care expenditures grew fastest for men, children, and young adult men

Spending per capita in 2013 was more than \$1,000 higher for women than for men (\$5,403 versus \$4,305), consistent with prior years. Per capita spending rose \$173 for men and \$192 for women. However, per capita spending for men (4.2%) grew faster as compared with the rate for women (3.7%), which was also true in 2011.

In 2013, pre-Medicare adults had the highest expenditures per capita (\$9,232) and the largest dollar increase per capita (\$334; Table 1). They also had a growth rate higher than that in 2012: 3.7% versus 2.0% (Figure 2). Middle age adults experienced the second highest spending at \$6,314 per capita and a \$220 increase (3.6%) over 2012.

The increases in per capita spending for the youngest age groups (children and young adults) were \$113 and \$115, respectively. These age groups experienced the highest per capita spending growth rates (4.6% for chil-

dren and 4.5% for young adults) but the lowest per capita spending levels. Per capita expenditure growth was the slowest for intermediate adults (3.2%); spending for this group rose \$131 to \$4,258.

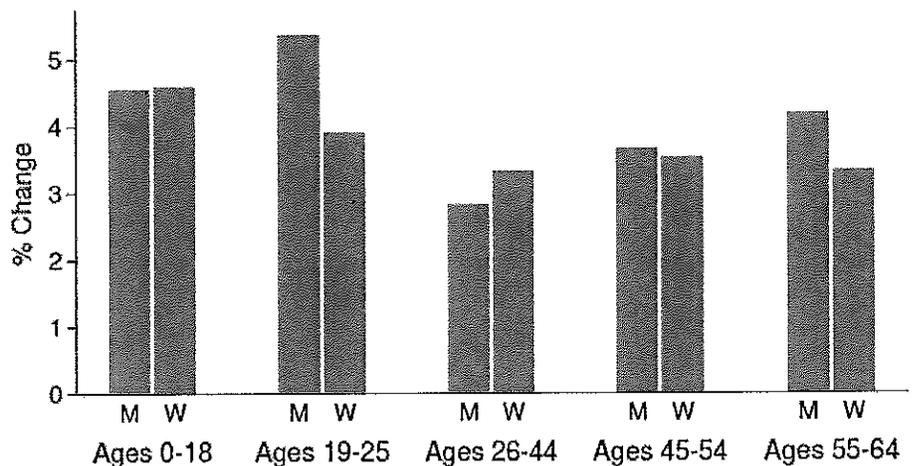

Within each age group in 2013, spending growth rates also varied by gender (Figure 3). Spending for young adult men grew more quickly than

spending for any other sub-populations, followed by spending for girls and boys. Conversely, spending for intermediate adult men grew the slowest of the age-gender groups studied, followed by intermediate adult women.

Between 2012 and 2013, per capita spending increased in every region (Table 1). However, during this time, spending growth slowed considerably in the South (from 4.6% to 3.6%), and sped up by more than a percentage point in the West (from 1.7% in 2012 to 3.0%).

For the third consecutive year, the Northeast had the highest regional per capita expenditures (\$5,037) and the fastest spending growth (4.8%). The West continued to have the lowest regional per capita expenditures (\$4,542) and the slowest expenditures growth (3.0%). Between 2012 and 2013, per capita spending in the South increased by \$173 to \$4,964. Per capita spending in the Midwest increased 4.2% to \$4,871, a \$196 increase.

Figure 3
Change in Expenditures Per Capita by Gender and Age Group: 2013

Source: HCCI, 2014.
 Notes: All data weighted to reflect the national, younger than 65 ESI population.
 Data from 2012 and 2013 adjusted using actuarial completion.

Per capita expenditures rose slowest for brand prescriptions

Per capita spending in 2013 increased across all service categories. The distribution of per capita spending on these categories was similar to that of the previous two years (Table 1). Professional procedures continued to account for the largest share of spending, approximately 34% of the total. Acute inpatient admissions remained at 20% of expenditures, while outpatient services and prescriptions accounted for the remaining 28% and 17% of expenditures, respectively.

Between 2012 and 2013, spending on acute inpatient admissions grew from 1.7% to 3.9% (Table 1 and Figure 4). The spending increase in this category was \$37 per capita, more than twice the \$16 increase seen between 2011 and 2012.

Between 2012 and 2013, per capita spending on outpatient services slowed, including on both outpatient visits and outpatient-other services. In 2013, expenditures per capita for all outpatient services increased \$68,

66% of which was on outpatient visits, with the rest on outpatient-other services.

Per capita expenditures on professional procedures increased \$53 and grew more rapidly than in the previous year (3.3% versus 2.9%). Consistent with the previous two years, professional procedures also accounted for the most per capita dollars spent in 2013 (\$1,651).

Per capita spending on prescriptions grew somewhat more slowly in 2013 as compared with 2012 (3.1% versus 3.8%), following substantially slower growth in 2011 (1.7%). In 2013, per capita spending on brand prescriptions grew \$13 to \$550, a 2.4% increase, following a 0.6% decrease in 2012. Brand prescriptions had the lowest growth rate in 2013 of any subservice category. Expenditures on generic prescriptions grew 3.9%, after spending declined in 2011 (-3.0%) and grew 13.4% in 2012. Per capita expenditures on generics (\$287) were about half that of brand prescription expenditures (\$550) in 2013.

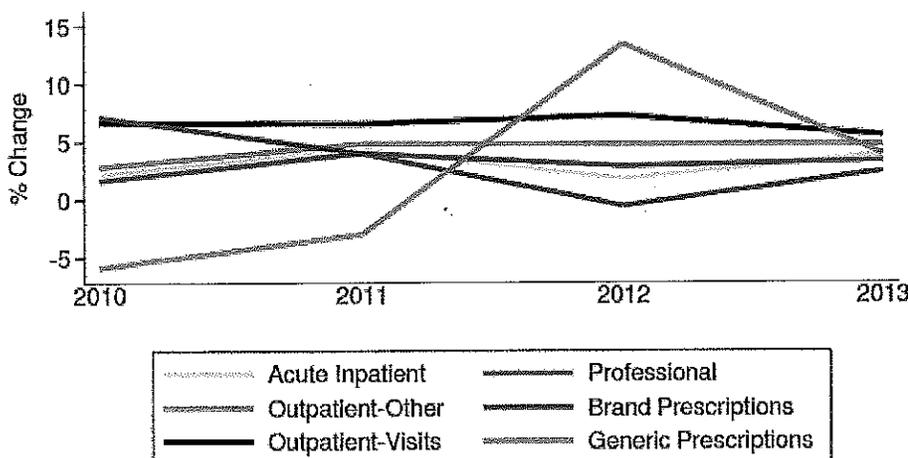

Per capita spending generally higher for adult women than adult men

In 2013, per capita spending for every service category was higher for boys than for girls, with the largest spending differential for brand prescriptions (an \$81 difference) and the smallest for outpatient-other services (a \$2 difference; Appendix Tables A9a and A9b). However, girls had higher growth rates for most services. Only on acute inpatient admissions did spending for boys (7.1%) grow faster than spending for girls (4.6%). Despite faster spending growth for girls, the overall spending differential between boys and girls widened in 2013.

Across all service categories in 2013, per capita expenditures were notably higher for young adult and intermediate adult women than for men in the same age groups. Per capita spending on acute inpatient services for young adult women was \$642 and \$1,088 for intermediate adult women as compared to \$390 for young adult men and \$485 for intermediate adult men. These represented gender differences of \$252 for young adults and \$603 for intermediate adults.

Per capita spending on most service categories was higher for middle age adult women and pre-Medicare adult women than for men in those age groups. Spending for middle age adult and pre-Medicare men was higher on acute inpatient admissions than for women, and spending on admissions grew more rapidly for the men. The differences in spending between men and women were smaller for these age groups than for intermediate adults.

Annual Percentage Changes in Expenditures Per Capita by Subservice Category: 2010-2013

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than 65 ESI population.
Data from 2012 and 2013 adjusted using actual completion.

Summary

Between 2012 and 2013, growth in total ESI spending persisted at a rate similar to that of the two previous years, rising 3.9%. These expenditures rose across all regions, age groups, and genders. The Northeast continued to have the highest spending levels and growth, while the West continued to have the lowest spending levels and growth.

Among the different age groups in 2013, children experienced the fastest expenditure growth but the lowest per capita spending levels. Pre-Medicare adults had the highest per capita spending but, unlike spending in 2011 and 2012, the spending growth rate for this age group was not the lowest. Women's per capita spending remained higher than men's, but men's expenditures grew more quickly. Spending tended to increase with age, but the gender differentials in the older adult age

groups were generally smaller than those in the younger age groups.

Consistent with findings in other HCCI reports, this report found that spending levels and growth rates varied across age and gender.³ In 2013, spending for children was higher for boys than for girls, and was lower for men ages 19 to 54 than for women in those age groups. For the oldest age group, spending was similar for pre-Medicare and women.

Notes: Data represents the population of insureds 0-64 covered by ESI. Actuarial completion was performed on data from 2012 and 2013. All per capita dollars calculated from allowed amounts. All figures rounded. Skilled nursing facility (SNF), hospice, and ungroupable claims were excluded from analysis of acute inpatient trends due to the lack of claims in this population.

Drivers of Spending Growth

Health care cost growth is the result of changes in the number of services provided (“utilization”) and the prices paid by insurers for those services. Because changes in price or utilization might reflect changes in how care is delivered, HCCI’s analyses also consider a third factor – changes in service intensity – the complexity of services used to provide care. Intensity is used to adjust utilization metrics (see “Key definitions”) or to adjust prices paid to a base price that all patients

would pay for a given service (“intensity-adjusted price”). HCCI uses intensity-adjusted prices to determine whether prices changed owing to differences in service intensity (the resources used to treat patients) or to changes in other factors.

In the following sections of the report, HCCI analyzes how the different components of spending affected health care trends for each of the subservice categories. For 2013, HCCI found that prices grew for all medical subservice

categories, while utilization declined for these categories, except for a small increase in use of professional services (0.8%; Table 2). While the spending growth rate for 2013 (3.9%) was very similar to the growth rate in 2012 (3.7%), the components of the 2013 trend – specifically, use of medical services – differed from those in 2012.

Table 2: Decomposition of Spending Changes (2013)

	2013 Expenditures Per Capita	Components of 2013 Expenditures Trend		Components of 2013 Price Trend	
		Utilization	Prices Paid	Intensity	Unit Price

Notes: Data represents the population of insureds 0-64 covered by ESL. Actuarial completion was performed on data from 2012 and 2013. All per capita dollars calculated from allowed amounts. All figures rounded. Skilled nursing facility (SNF), hospice, and ungroupable claims were excluded from analysis of acute inpatient trends due to the lack of claims in this population.

Acute Inpatient Services

Inpatient facility claims are submitted for facility charges associated with a hospital admission.⁷ In this section, HCCI analyzed trends for acute inpatient admissions (labor and delivery, medical, mental health and substance use, newborns, and surgery). For information about the non-acute inpatient admissions (hospice and skilled nursing facility), see “Non-acute inpatient services.”⁸

Acute inpatient spending grew faster in 2013

Between 2012 and 2013, spending on acute inpatient admissions increased 3.9% to \$986 per capita (Table 1). This \$37 per capita increase accounted for 20% of the ESI population’s total spending increase. The increases in the spending level and growth rate for acute inpatient admissions were higher for 2013 as compared with 2011 and 2012.

Use continued to decline for most insureds

Consistent with previous years’ trends, acute inpatient utilization declined in 2013, falling by 2.3% (Table 3 and Figure 5). This decrease in admissions is equivalent to fewer admissions per 1,000 insureds, which declined from 56 admissions per 1,000 in 2012 to 55 per 1,000 in 2013.

In 2013, acute admission rates declined for most age groups and for both genders (Appendix Tables A10a and A10b). The largest decline in admissions was for middle age and pre-Medicare women, whose use decreased by 4 admissions per 1,000 insured. However, girls experienced an increase of 1 admission per 1,000.

Prices jumped in 2013 due to rising intensity of care

In contrast to the falling utilization rate, the average price per acute inpatient admission rose for the third consecutive year, to \$18,030 in 2013 (Table 3). This

increase was \$1,067 over 2012. Acute inpatient prices rose in 2013 at a rate (6.3%) faster than in 2011 (5.9%) or 2012 (5.5%). Rising prices offset the fall in utilization, which led to the faster spending growth in 2013 compared to the two prior years.

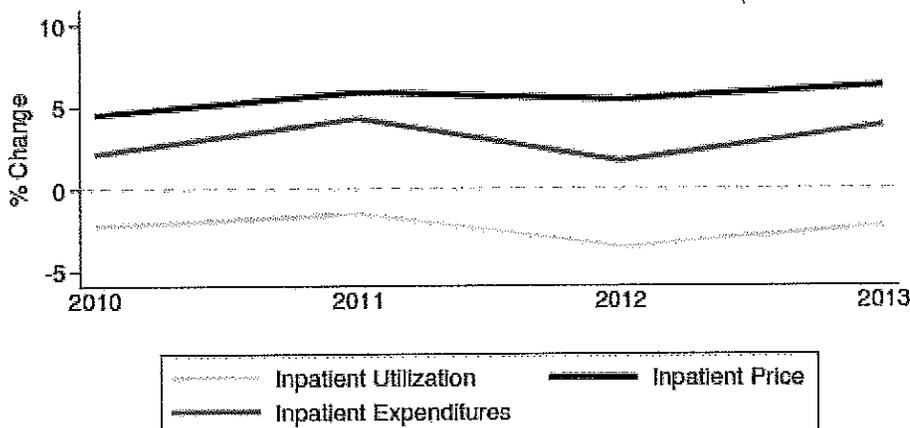

The faster growth in prices was driven in part by rising intensity of care. In 2013, the average intensity (see “Key definitions” and “Drivers of spending growth”) rose 1.7%, suggesting that the resources used to treat patients in an acute inpatient setting increased. This followed two years of decreased resource use; in 2011, there was a 4.4% decrease in intensity, and that intensity level persisted through 2012. In 2013, the average intensity-adjusted price increased by \$594 (4.5%) to \$13,812.

Medical and surgical admissions declined; prices and intensity increased

In 2013, about 62% of acute inpatient admissions were for medical and surgery services (Appendix Table A5 and Figure 5). Since 2011, however, utilization of medical and surgical admissions decreased (Figure 6). Between 2011 and 2013, medical admissions dropped from 21 medical admissions per 1,000 insureds to 19 admissions per 1,000. Similarly during this period, surgery admissions dropped from 16 per 1,000 insureds to 15 per 1,000.

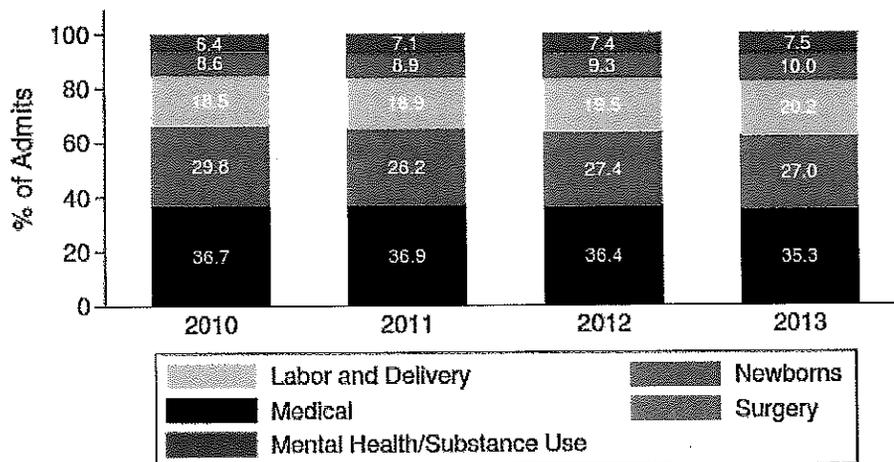

Although medical and surgery admissions decreased, the average prices for those services rose (Appendix Table A6). In 2013, the average price of an inpatient surgery admission rose 8.5% (\$2,720) to \$34,583. The average price

Percentage of Admissions per 1,000 Insureds by Acute Inpatient Detailed Service Category: 2010-2013

Source: HCCI, 2014.
 Notes: All data weighted to reflect the national, younger than 65 ESI population.
 Data from 2012 and 2013 adjusted using actuarial completion.

of a medical admission rose 7.4% (\$1,059) to \$15,413. The medical and surgical service categories also accounted for the largest increases in acute inpatient intensity, at 2.4% and 3.3%, respectively (Appendix Table A7). Thus, after accounting for service intensity, the average intensity-adjusted prices for medical and surgery admissions also rose (4.9% and 5.1%, respectively; Appendix Table A8).

Little change in labor, delivery, newborn, and behavioral health admission rates

For the third year in a row, admissions for labor and delivery (LD),

newborns, and mental health and substance use (MHSU) remained constant (Appendix Table A5). Additionally, in 2013, average prices for LD and newborn admissions rose (4.6% and 4.0%, respectively) at rates much slower than those in the previous two years (Appendix Table A6). The average price for a MHSU admission rose very slightly (0.4%). Intensity of care remained constant for LD admissions since 2011 (Appendix Table A7), while intensity increased slightly for MHSU and newborn admissions, which contributed slightly to the increase in prices paid for those services.

NON-ACUTE INPATIENT SERVICES

Skilled nursing facility (SNF) and hospice inpatient admissions differ in scope from the acute inpatient detailed categories. Inpatient SNF care includes claims for skilled professional care such as skilled nursing and rehabilitation. Inpatient hospice claims are for palliative care to terminally ill individuals. Hospice services can also be provided within an individual’s home, but those services are not included in the HCCI hospice inpatient category.

These two categories had consistently low per capita expenditures over time (Appendix Table A5). During the study period, per capita annual expenditures were \$7 for SNF admissions and \$2 for hospice admissions. One reason for these comparatively low spending levels was low utilization. SNF and hospice admissions accounted for very few admissions in the younger than 65 ESI population. Combined, these two categories accounted for 2 admissions per 1,000 insureds in each year studied (Appendix Table A6).

Summary

In 2013, utilization of acute inpatient services declined (Table 3). This overall decrease was observed for most age-gender groups, whereas girls had an increase of 1 admission per 1,000 (Appendix Table A10a). While utilization declined, the average price per acute inpatient admission rose 6.3% (Table 3). Accompanying the rise in prices was a rise in the average intensity of resource use. As a result, in 2013, the fastest acute inpatient spending growth was observed during the study period.

Across the study period, trends for the detailed categories of admissions remained nearly the same for most types of admissions. Most of the decline in utilization and increase in prices in 2013 came from the most commonly used admissions: medical and surgery (Appendix Table A5). Prices and intensity for these services rose, driving the rise in prices and intensity for the overall acute inpatient service category (Appendix Tables A6 and A7).

Table 3: Changes in Utilization, Prices, Intensity, and Intensity-Adjusted Prices by Service Category (2011–2013)

	2011	2012	2013	Percent Change 2010 / 2011	Percent Change 2011 / 2012	Percent Change 2012 / 2013

Notes: Data represents the population of insureds 0-64 covered by ESI. Actuarial completion was performed on data from 2012 and 2013. All per capita dollars calculated from allowed amounts. All figures rounded. Skilled nursing facility (SNF), hospice, and ungroupable claims were excluded from analysis of acute inpatient trends due to the lack of claims in this population.

Outpatient Visits

Between 2012 and 2013, per capita spending on outpatient visits (emergency rooms, observation, and outpatient surgery) rose by \$45 to \$849, a 5.5% increase (Table 1). As in 2012, outpatient visits had the highest spending growth rate of any of the service categories. In 2013, per capita spending on outpatient visits accounted for 17.5% of total per capita spending, a small increase over 2012 and nearly 25% of the rise in per capita spending.

Between 2012 and 2013, per capita expenditures grew for the three detailed service categories (ER visits, observation, and outpatient surgery; Appendix Table A4). Per capita spending on observation visits rose at the fastest rate, 9.3%, compared with that of emergency room (ER) visits (5.9%) and surgical visits (5.0%). In contrast, observation visits remained a very small share of overall outpatient visit spending at 4.8% (\$41 per capita), compared with the share of surgery visits at 61.9% (\$526 per capita) and the share of ER visits at 33.1% (\$281 per capita).

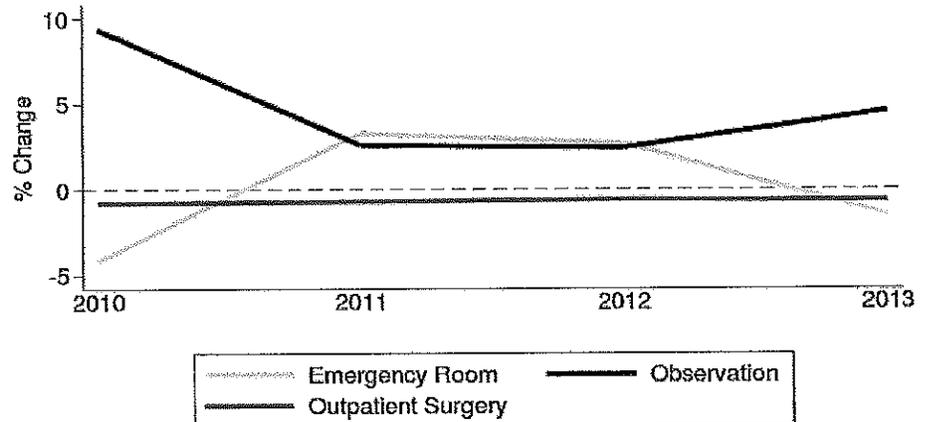

Outpatient prices continued to rise

The average price for an outpatient visit rose 6.4% between 2012 and 2013 (Table 3), from \$2,450 to \$2,607. The average price (unadjusted for intensity of care) for ER visits grew by 7.6% to \$1,595 (Appendix Table A6); for outpatient surgery visits by 5.7% to \$4,107; and for observation visits by 4.5% to \$1,945.

Outpatient visits fell slightly in 2013

Between 2012 and 2013, the number of outpatient visits declined (-0.8%), falling from 328 visits per 1,000 insureds to 325 (Table 3). This was the first year in

Figure 7
Annual Percentage Changes in Utilization per 1,000 Insureds by Outpatient Visit Detailed Service Category: 2010-2013

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than 65 ESI population.
Data from 2012 and 2013 adjusted using actuarial completion.

the study period in which the number of visits declined.

There were fewer ER and outpatient surgery visits in 2013. ER visits fell by 3 visits per 1,000 insureds (-1.6%) to 176, while outpatient surgeries fell by 1 visit to 128 per 1,000 insureds (-0.7%; Appendix Table A5 and Figure 7). In contrast, observation visits rose by 1 visit (4.6%) to 21 per 1,000 insureds.

Visits rose with age, but use differed by gender

In 2013, the number of outpatient visits generally increased with age, but the number of services used differed by gender, as adult women had more visits than did men (Figure 8). Girls had the lowest use of outpatient visits (219 per 1,000), followed by young adult men (220 visits per 1,000; Appendix Table A10a). Use of outpatient visits was higher for pre-Medicare women (496 visits per 1,000) than for pre-Medicare men (454 visits per 1,000).

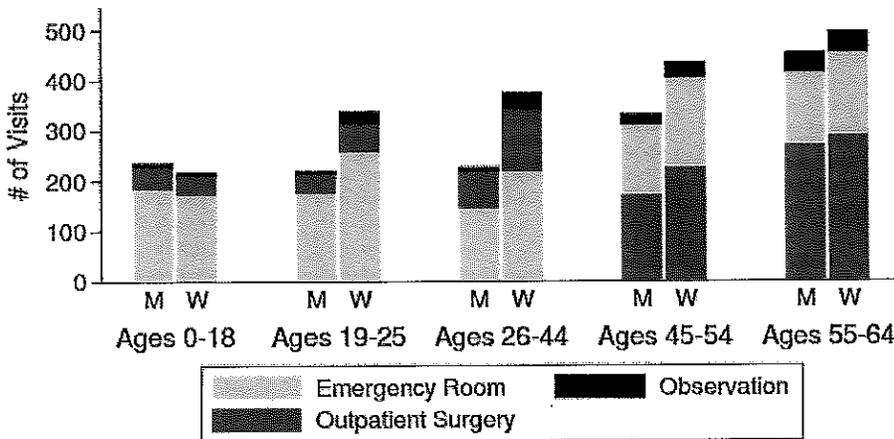

ER visits accounted for most of the outpatient visits among children, young

adults, and intermediate adult men and women (Appendix Tables A16a-A18a). Men and women over age 44 had fewer ER visits relative to those of younger ages, while surgery visits dominated older adults' outpatient visit usage (Appendix Tables A19a and A20a).

Overall, use of observation services rose with age. Between 2012 and 2013, use increased for both men and women in the two oldest age groups. Use increased by 3 visits to 40 visits per 1,000 for pre-Medicare men and by 3 visits to 41 visits per 1,000 for pre-Medicare women. Use increased by 1 visit to 21 visits per 1,000 for middle age men and by 2 visits to 29 visits per 1,000 for middle age women. Use among the other groups remained constant at the levels observed in 2012.

Between 2012 and 2013, outpatient surgery use levels also increased with age, while declining slightly for the national ESI population (-0.7%; Appendix Table A5). The younger groups (younger than age 45) had the lowest rates of outpatient surgery use and larger reductions

Figure 8
Number of Visits per 1,000 Insureds by Outpatient Visit Detailed Service Category, Gender, and Age Group: 2013

 Notes: All data weighted to reflect the national, younger than 65 ESI population.
 Data from 2012 and 2013 adjusted using actuarial completion.

in use. Outpatient surgery use increased for the pre-Medicare adults (3 visits per 1,000 pre-Medicare men and 1 visit per 1,000 pre-Medicare women) and was stable for middle age adult men.

Although spending on ER visits was similar across age groups, spending does not fully reflect utilization trends. In 2013, use of ER visits decreased with age, and the number of visits differed by gender. ER visits accounted for nearly 80% of the outpatient visits for children and young adults (Appendix Tables A16a and A17a) and for about 60% of the visits for intermediate adults ages (Appendix Table A18a). In contrast, ER

visits accounted for about 40% of the visits for middle age adults (Appendix Table A19a) and for about 30% of visits for pre-Medicare adults (Appendix Table A20a). Young adult women had the highest number of ER visits (258 per 1,000 young adult women; Appendix Table A17a), while pre-Medicare adult men had the lowest number (143 per 1,000 men; Appendix Table A20a).

ER visits accounted for most of the outpatient visits among children, young adults, and intermediate adult men and women (Appendix Tables A16a-A18a). Men and women over age 44 had fewer ER visits relative to those of younger

ages, while surgery visits dominated older adults' outpatient visit usage (Appendix Tables A19a and A20a).

Summary

Outpatient visits (ER, outpatient surgery, and observation visits) constituted the fastest growing category of medical spending for all three study years and totaled 17.5% of ESI per capita health care spending in 2013 (Table 1). At 6.4% growth in 2013, prices for these services rose faster than in 2011 or 2012 (Table 3). However, for the first time in the study period, in 2013 the number of visits per 1,000 fell. As in 2011 and 2012, relatively few outpatient visits were for observation stays in 2013 (Appendix Table A5). Among people younger than age 45, ER visits accounted for 60% of outpatient visits, whereas for those age 45 and older, outpatient surgeries made up the most of the outpatient visit use (Appendix Tables A16a-A20a).

Outpatient visits use varied by gender within age groups. Adult women, generally, used more outpatient services than adult men in the same age cohort. For observation and outpatient surgeries, spending reflected these differences in use by gender and age. However, per capita spending on adult ER visits was similar across adult age groups despite differences in utilization.

WHY IS ER SPENDING HIGH FOR OLDER ADULTS WHEN ITS USE BY THIS AGE GROUP IS RELATIVELY LOW?

In 2013, ER spending for the oldest adults was similar to that for the youngest adults -- \$326 per pre-Medicare woman as compared to \$374 per young adult woman and it was \$302 per pre-Medicare man and \$246 per young adult man (Appendix Tables A12a and A15a). However, young adult women had 95 visits per 1,000 insureds more than pre-Medicare women; young adult men had 34 visits per 1,000 more than pre-Medicare men (Appendix Tables A18a and A20a).

Health care spending rises and falls as prices and utilization rise and fall, which helps explain the levels of ER use. The average intensity-adjusted prices for ER visits for the oldest adults and young adults was similar (\$263 per visits as compared to \$269 per visit; data not shown), but the intensity of care was different. ER visit service intensity (resources used) for pre-Medicare adults was 47% higher than that for young adults. Because of the higher intensity, the average ER price paid for young adults was \$628 lower than the average price paid for the oldest adults.

Outpatient Other Services

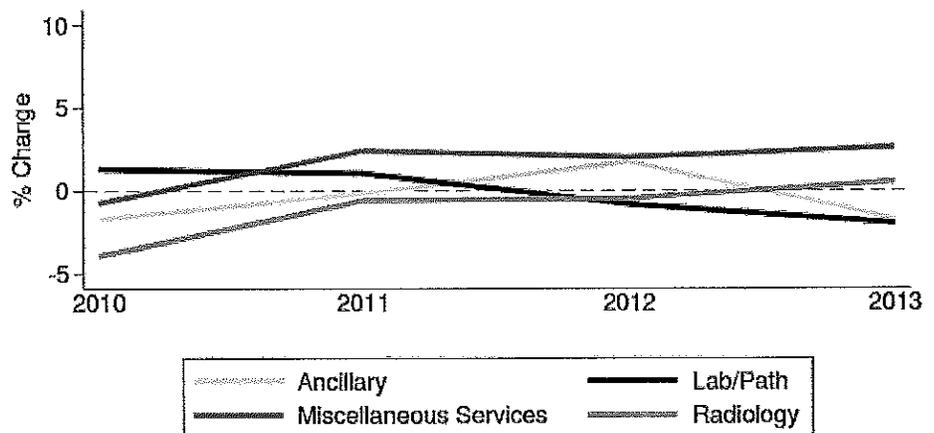

In 2013, per capita spending for outpatient-other services (ancillary, lab/path, radiology services, and miscellaneous outpatient services) accounted for 10.9% of total per capita ESI spending (Table 1). Between 2012 and 2013, per capita spending on outpatient-other services rose by \$24 to \$528. Spending for this service category grew 4.7% (\$24), accounting for 13.1% of total per capita ESI spending growth.

Per capita spending grew in 2013 for all four outpatient-other detailed service categories (Appendix Table A4). Ancillary services spending per insured grew by 3.7% to \$80, and lab/path services spending per insured rose by 2.3% to \$72. Together, these two categories made up 28.8% of outpatient-other spending. Miscellaneous services (e.g., outpatient dialysis services, rehabilitation, and mental health and substance use services) made up 33.7% (\$178 per capita) of outpatient-other spending per insured. The largest share of spending was on radiology services (\$198 per capita). Although radiology made up 37.5% of per capita spending for outpatient-other services, spending on radiology services grew relatively slowly (2.7%).

Outpatient prices continued to rise

The average price across all outpatient-other services rose 5.2% (Table 3). Av-

Notes: All data weighted to reflect the national, younger than 65 ESI population.
Data from 2012 and 2013 adjusted using actuarial completion.

erage prices grew most rapidly for ancillary services (5.5%) and miscellaneous services (5.9%; Appendix Table A6). Prices for radiology services also grew, by 2.2% to \$501, while the average price for lab/path services grew by 4.4% to \$62.

Outpatient-other services use fell

Between 2012 and 2013, outpatient-other service use fell by -0.5% from 2,620 services per 1,000 insureds to 2,608 services per 1,000 insureds (Table 3). The 2013 decline in outpatient-other services was due to declines in use of ancillary and lab/path services

(Appendix Table A5). Ancillary service use fell by 1.7% (7 fewer services per 1,000 insureds), while lab/path use fell by 2.0% (23 fewer services per 1,000 insureds). However, lab/path services were still the most used of any of the outpatient-other services: 1,147 services per 1,000 insureds. At the same time, use of miscellaneous and radiology services increased 2.6% and 0.5%, respectively (Figure 9).

Outpatient-other spending rose with age

In 2013, per capita spending on outpatient-other services was highest for the

REGIONAL VARIATIONS IN OUTPATIENT-OTHER SPENDING

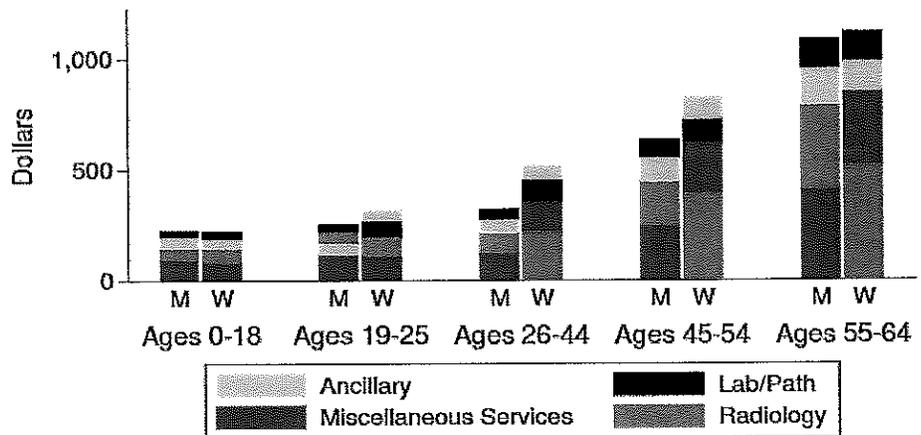

Regionally, over the three-year study period, outpatient-other spending in the West grew the slowest (an average 3.4% per year) and fastest in the Northeast (an average 5.4% per year; Appendix Table A1). The 2013 outpatient-other per capita spending was lowest in the West (\$431 per person) and highest in the Midwest (\$622 per person).

Changes in spending levels for the West were also low in comparison to the other regions. Between 2011 and 2013, per capita spending on outpatient-other services rose by \$59 in the Midwest and the Northeast and by \$42 in the South, but rose by \$28 in the West.

pre-Medicare group and lowest for children (Appendix Table A2 and Figure 10). Spending growth for young adult men, however, rose the most quickly – by 15.9% – to \$255 per young adult man (Appendix Tables A9a and A9b). Spending grew the slowest for intermediate adult women – at 2.8% – to \$516 per intermediate adult woman.

For the three oldest age groups (intermediate adults, middle age adults, and pre-Medicare adults), women had the highest per capita spending on radiology services, whereas men had the highest spending on miscellaneous services. Pre-Medicare women experienced the highest per capita spending for any age-gender group on radiology services (\$517; Appendix Table A15a). Pre-Medicare men experienced the highest per capita spending on miscellaneous services (\$411). For all children and young adults, the highest per capita spending was on miscellaneous services (Appendix Tables A11a and A12a).

Expenditures Per Capita by Outpatient Other Services
Detailed Service Category, Gender, and Age Group: 2013

Source: HCCL 2014.
Notes: All data weighted to reflect the national, younger than 65 ESI population.
Data from 2012 and 2013 adjusted using actuarial completion.

Summary

In 2013, outpatient-other services accounted for about 11% of total per capita ESI spending (Table 1). Spending on this category grew 4.7% over spending in 2012. Prices also increased; however, for the first time in the three-year study period, the number of services used per 1,000 decreased (Table 3).

In 2013, lab/path services were the most commonly used outpatient-

other services (Appendix Table A5) and were used most by adult women (Appendix Tables A17a-A20a). Radiology services, which had the lowest levels of utilization per 1,000 insureds, were also used most frequently by adult women and at rates much higher than those of adult men. The gender differences in outpatient-other service use drove spending for women on this category to \$115 per insured greater than spending for men (Appendix Table A3).

ADULT WOMEN THROUGH AGE 54 HAD RATES OF SERVICE USE HIGHER THAN THOSE OF MEN

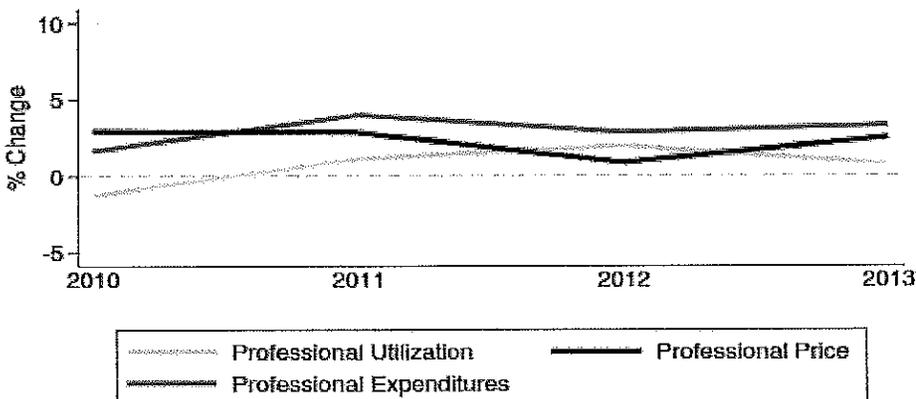

Compared to adult men, adult women through age 54 had higher rates of utilization for most outpatient-other detailed categories.

In 2013, these differences are observable in use of lab/path and radiology services. For young adult women, the use of lab/path services was nearly three times higher than men's use in the same age group (1,020 per 1,000 women versus 346 per 1,000 men; Appendix Table A17a). Similarly, for radiology services, young adult women's use was two times higher than young adult men's use (156 per 1,000 women versus 74 per 1,000 men). These differences in use by gender continued in the older age groups. Intermediate adult women used 2.4 times more lab/path services and nearly 4 times more radiology services than did men in the same age group (Appendix Table A18a). Middle age adult women used 1.3 times more lab/path services and nearly 4 times more radiology services than did men in the same age group (Appendix Table A19a). Women's higher use of radiology services continued, even as they neared Medicare-eligibility, with pre-Medicare women using more than 2.5 times more radiology services than did men in that age group (Appendix Table A20a). However, pre-Medicare women and men used nearly identical rates of lab/path services (2,213 per 1,000 men and 2,235 per 1,000 women).

This study did not investigate which types of lab/path or radiology services drove these patterns or whether the specific services in question were gender-specific.

Professional Procedures

Figure 11
Annual Percentage Changes in Professional Procedure Expenditures, Utilization per 1,000 Insureds, and Price: 2010-2013

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than age 65 ESI population. Data from 2012 and 2013 adjusted using actuarial completion.

In 2013, per capita spending on professional procedures was \$1,651 (Table 1 and Figure 11). Spending increased slightly – by \$53 per capita – over 2012, which accounted for 29% of the total ESI spending increase. Professional services grew at the lowest rate (3.3%) of any of the medical service categories

Unlike in 2012, rising prices in 2013 contributed more than did utilization to increased spending on professional services (Table 2). Prices for professional services grew by 2.5% (Table 3). This price growth equaled a \$3 increase in the average price per service, which rose to \$100. At the same time, use of professional services increased slightly by 127 services (0.8%), to 16,579 services per 1,000 insureds.

Spending on professional services rose 5.1% in Northeast

In 2013, professional services spending rose in all four regions but grew most rapidly in the Northeast, up 5.1% to \$1,855 per insured (Appendix Table A1). Spending was about \$169 per cap-

ita more than the next highest spending region (the South) and grew 1.9 percentage points faster than the next-fastest region (the Midwest). In 2012, the South had the fastest-growing professional services spending (4.0%) and second highest spending per capita (\$1,641); in 2013, the South saw spending rise by 2.7% to \$1,686 per capita.

Spending for women on professional procedures was nearly \$600 more than for men

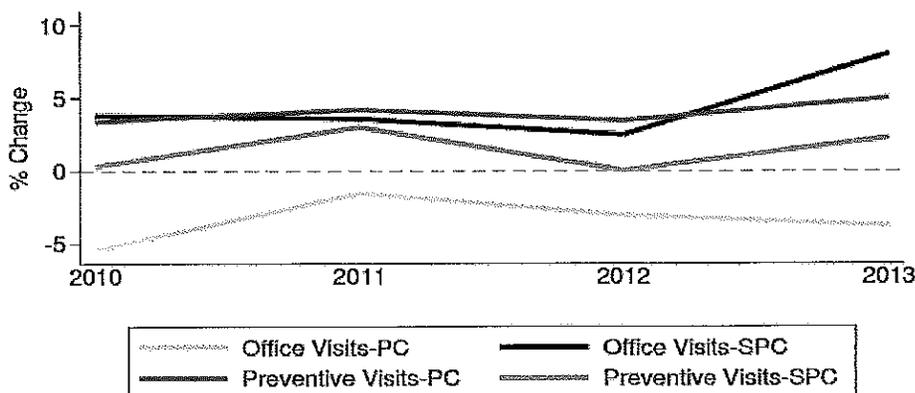

In 2013, both men’s and women’s spending on professional procedures grew by 3.3% (Appendix Table A3). However, spending for women reached \$1,939 per capita, \$586 more than per capita spending for men.

Professional services expenditures were highest among pre-Medicare adults, at \$2,781 per capita, and lowest among young adults, at \$931 per capita (Appendix Table A2). However, spending growth was fastest for young adults (4.2%), whereas it rose 3.4% for pre-Medicare adults.

Highest use of professional procedures by pre-Medicare women

In all age groups, women used more professional services as compared with men (Appendix Table A10a). This gender differential was minimal for children, with 301 per 1,000 more services for girls than for boys. Among young adults and intermediate adults, use by

Figure 12
Annual Percentage Changes in Utilization per 1,000 Insureds by Professional Procedure Primary Care and Specialist Visit Detailed Service Category: 2010-2013

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than 65 ESI population. Data from 2012 and 2013 adjusted using actuarial completion.

women was nearly twice the use by men. Use was highest among the pre-Medicare adults, but the gender difference in use in that age group was the smallest of the adult age groups. Pre-Medicare men's utilization was 23,025 services per 1,000, compared to 28,177 services for pre-Medicare women.

Office visits to specialists increased by 8.0%

In 2013, specialist office visits rose 8.0% (an increase of 111 visits per 1,000 insureds) to 1,493 services per 1,000 insureds (Appendix Table A5 and Figure 12); spending on these visits rose by 10.6% to \$150 per capita (Appendix Table A4). Conversely, office visits to a primary care provider (PCP) fell by 3.8% to 1,472 per 1,000 insured. This was the first year in which the number of specialists' office visits per 1,000 insureds was higher than the number of PCP office visits. Many factors influence trends in physician visits, including billing practices

and patterns, physician supply, and population health.

Of the non-visit detailed categories within the professional procedures category, utilization of three service types declined between 2012 and 2013 (Appendix Table A5): miscellaneous services (-0.3% - the most used professional service); radiology (-1.2%); and surgery (-0.1%). In contrast, use increased for other services, including preventive visits to PCPs (5.0%) and lab/path services (1.9%).

In 2013, lab/path services were the second-most commonly used professional services (4,719 per 1,000 insured). As with office visits, the use of lab/path services varied by age and gender. Among children, per 1,000, boys used fewer lab/path services than did girls (1,524 and 1,996 services, respectively; Appendix Table A16a). Young adult women utilized substantially more lab/path services (5,044 per 1,000) than men did (1,982 per 1,000) in that age group (Appendix

Table A17a), and more than children of both genders. The pattern of substantially higher lab/path services use by women within an age group persisted for all of the adult age groups (Appendix Tables A18a-A20a)

Summary

As in prior years, in 2013, the ESI population spent more on professional services per capita than on other medical services (Table 1). Professional procedure spending growth (3.3%) was similar to the growth in 2012 (2.9%), but utilization growth (0.8%) was slower than in 2012 (2.0%; Table 3).

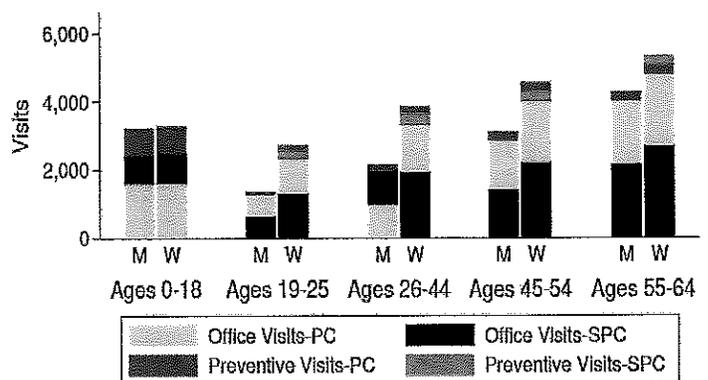

Analysis of professional services trends found distinct utilization differences between women and men. Utilization of lab/path services continued to rise and, within each age group, women used more of these services than did men. Additionally, specialist office visit use increased in 2013, surpassing the use of PCP office visits for the first time in the study period.

VARIATION IN SPECIALIST OFFICE VISITS

From 2012 to 2013, specialist office visits rose by 111 visits per 1,000 insureds, while PCP visits declined by 58 visits per 1,000 insureds (Appendix Table A5). On net, over the study period, the total number of office visits per 1,000 insureds grew by 1.3%, but this overall rate obscures important utilization trends for these services. For example, in 2013, children's office visits to PCPs were more common than were specialist visits (Appendix Table A16a), whereas for adults, specialist office visits were generally more common than PCP visits (Appendix Tables A17a-A20a and Figure 13).

PCP office visits are among the most common services used by children, with use rates in 2013 of about 1,600 visits per 1,000 girls or boys – nearly twice as many as specialist visits (Appendix Table A16a). In contrast, for adult women, specialist visits outnumbered PCP office visits. Of all of the adult groups, only intermediate adult men used PCP visits more often than specialist visits (Appendix Table A18a). Use of specialist office visits increased for all age-gender groups more than in previous years in the study period. This report did not examine what factors may have influenced the increase in specialist office visits. Physician billing and coding practices, insurance benefit structures, and patient preferences, among other factors, may have influenced the trends observed in utilization rates.

Brand Prescriptions

In 2013, spending on brand prescriptions rose 2.4% to \$550 per capita (Table 1), and made up 11.3% of total per capita ESI spending (\$4,864). In 2011 and 2012, spending on brand prescriptions rose 4.0% to \$540 per capita and then declined slightly (-0.6%) to \$537. Between 2012 and 2013, spending increased by \$13 per capita and made up 7.1% of the total spending growth for the national ESI population.

Between 2012 and 2013, the number of filled days of brand prescriptions per 1,000 insureds declined 15.5%, or 8,531 filled days per 1,000 insureds to 46,497 (Table 3). Brand filled days made up only a small percentage (16.5%) of total filled days of prescriptions (282,012 filled days per 1,000 insureds). At the same time, the average price per filled day of brand prescriptions increased 21.2%, to \$12.

Spending on hormones continued to rise

HCCI classified brand prescriptions into nine HCCI detailed categories that were further subdivided into subclasses using the *American Hospital Formulary System (AHFS)* classifications. Of the nine detailed brand categories, the four with the highest number of filled days in 2013 are the focus of this section (excluding the “other therapeutic classes” detailed category, which is composed of multiple therapeutic drug types). These four were cardiovascular drugs, hormones and synthetic substitutes (“hormones”), central nervous system (CNS) agents, and gastrointestinal drugs (Appendix Table A5).

In 2013, spending on cardiovascular drugs, hormones, CNS agents, and gastrointestinal drugs made up 50.9% (\$280 per capita) of brand prescription spending (Appendix Table A4). Of these four categories, per capita spending was highest for hormones (\$100

per insured) and increased by 10.0% (Figure 14). Per capita spending on gastrointestinal brand prescriptions was the lowest (\$33 per capita) and rose 7.9%. Conversely, between 2012 and 2013, per capita spending on CNS agents and cardiovascular drugs declined (-2.0% and -10.5%, respectively). Insureds spent \$89 per capita on CNS agents and \$58 per capita on cardiovascular drugs.

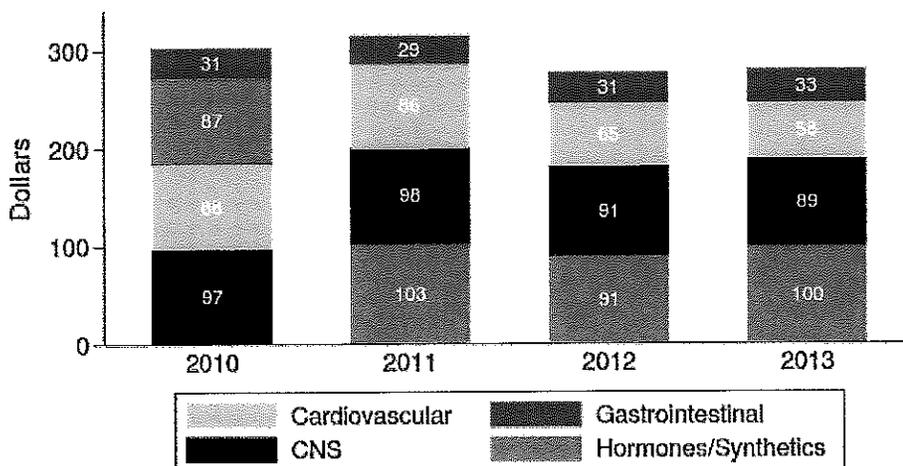

For the first time, HCCI examined subclasses of prescriptions within the detailed categories. Table 4 displays the four subclasses of brand prescriptions with the highest per capita spending for the ESI population in 2013. Of these classes, only insulins is contained in one of the top four detailed categories (hormones). In 2013, spending on the four subclasses made up 28.0% of ESI spending on brand prescriptions.

Use of cardiovascular brand drugs declined 21.2% in 2013

In 2013, the top four brand detailed categories constituted 73.2% of the total filled days per 1,000 insureds of brand prescriptions (Appendix Table A5). However, use of these categories declined. The most filled days was for hormones (11,426 filled days per 1,000 insureds), which declined 6.6%. The largest decline in the number of filled days was for cardiovascular drugs, at 21.2% to 10,763 filled days per 1,000 insureds. Use of CNS agents declined 13.4% to 8,732 filled days per 1,000 insureds. Use of gastrointestinal drugs declined 4.9% to 3,124 filled days.

Table 5 displays the four subclasses of brand prescriptions with the highest number of filled days per 1,000 insureds for the ESI population in 2013.

Figure 14
Expenditures Per Capita by Top 4 by Use Brand Prescription Detailed Service Categories: 2010-2013

Source: HCCI, 2014.
 Notes: All data weighted to reflect the national, younger than 65 ESI population. Data from 2012 and 2013 adjusted using actuarial completion.

Of these subclasses, only corticosteroids is not in one of the top four detailed categories; two of the classes are in the cardiovascular category. Only insulins showed both high per capita spending and high use. Together, the top four used subclasses accounted for 25.4% of total brand filled days by the ESI population.

Brand prescription use varied with age and gender

Generally, prescription use levels rose with age, and use was higher for women. In 2013, however, for the top four brand categories, women's use was only higher than men's use among young adults (a 15,734 filled day difference; Appendix Table A17a) and intermediate adults (an 8,934 filled day difference; Appendix Table A18a and Figure 15).

Among the top four brand categories, the difference in filled days between men and women for young adults and intermediate adults was due largely to women's use of hormones. Young adults' use of the top four categories was 23,535 filled days per 1,000 young

adult women compared to 7,801 filled days per 1,000 young adult men (Appendix Table A17a). Intermediate adults' use of the top four categories was 26,427 filled days per 1,000 women and 17,493 filled days per 1,000 men (Appendix Table A18a).

Among children, use of the top four brand categories amounted to 10,442 filled days per 1,000 boys and 7,312 per 1,000 girls (Appendix Table A16a). Nearly 82% of those filled days for boys were CNS agents (8,498 days per 1,000 boys); 12.0% were hormones (1,249 days per 1,000 boys). In contrast, 51.4% of filled days for girls were CNS agents (3,761 days per 1,000 girls), while 40.7% were hormones (2,978 days per 1,000 girls).

In 2013, both middle age adult men and pre-Medicare men used more filled days than did women in the same age groups. Middle age adult men used 50,142 filled days per 1,000 men as compared to 49,437 filled days per 1,000 middle age adult women (Appendix Table A19a). Pre-Medicare men used 89,359 filled days per 1,000

men whereas women in that age group used 88,099 days per 1,000 women (Appendix Table A20a). For men in these two age groups, the most highly used category was cardiovascular drugs (24,856 days per 1,000 middle age adult men and 48,624 days per 1,000 pre-Medicare adult men). For women in these age groups, the highest use was of hormones (17,077 filled days per middle age adult women and 31,262 filled days per pre-Medicare adult women).

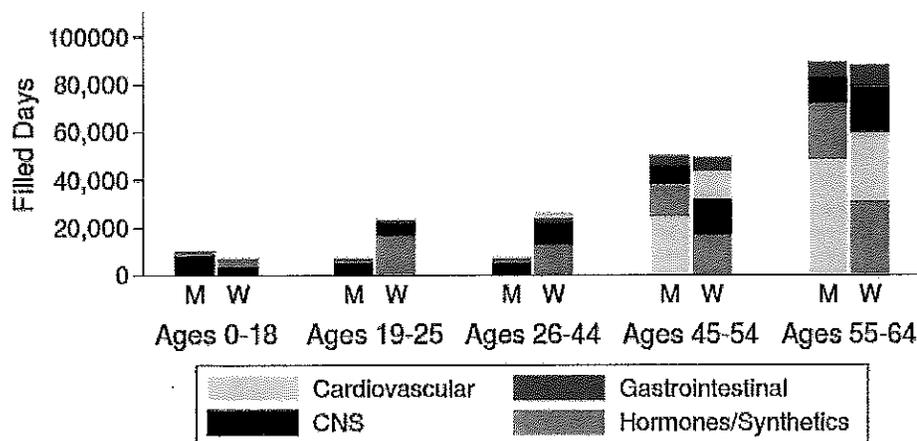

Summary

In 2013, spending on brand prescriptions rose 2.4% to \$550 per capita (Table 1), and the average price paid per brand prescription day rose 21.2% (Table 3). Use of brand prescriptions declined for the third consecutive year, down 15.5% to 46,497 filled days per 1,000 insureds.

About 72% of spending on brand prescriptions was accounted for by 4 categories of brand prescriptions (cardiovascular drugs, hormones, CNS agents, and gastrointestinal drugs) and three subclasses (antirheumatic agents, biologics, and antiretrovirals). Similarly, 79% of filled days of brand prescriptions were for the same four categories and the corticosteroids subclass.

Overall, the highest use of brand prescriptions by the ESI population was for hormones; however, this was due mainly to use of this category by young adult and intermediate adult women. The second-most highly used category was cardiovascular drugs, largely owing to use by adult men older than age 25.

TOTAL PRESCRIPTION FILLED DAY USE IN 2013

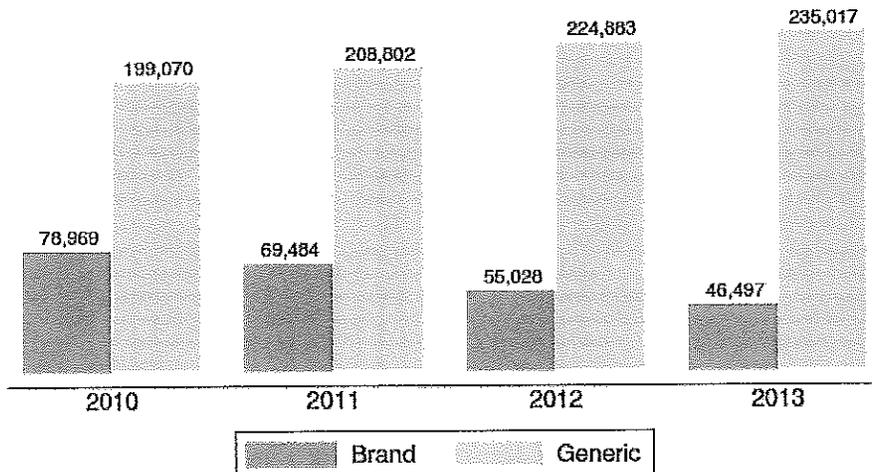

In 2013, use of filled days of prescriptions by the ESI population increased 0.7%, equaling 2,053 more filled days per 1,000 insureds (Figure 16). Use of generic prescription filled days increased 4.5%, equaling 10,134 filled days per 1,000 insureds (Figure 17). Offsetting this increase in generic prescription use was a 15.5% decline in the use of brand prescription filled days. Changes in use of prescriptions between 2012 and 2013 varied by age group and gender (Appendix Table A10b). Use of prescriptions declined for children and for pre-Medicare adults, with the largest decline in filled days use per 1,000 insureds for pre-Medicare adult women (17,059 filled days). The other three age groups – young adults, intermediate adults, and middle age adults – increased their use of prescriptions. The largest increase was for young adult women (6,342 filled days), followed by middle age adult women (3,576 filled days).

Data from 2012 and 2013 adjusted using actuarial completion.

Generic Prescriptions

In 2013, national ESI spending on generic prescriptions constituted 5.9% of total per capita ESI spending and 34.2% of total prescription spending (Table 1). Between 2012 and 2013, per capita spending on generic prescriptions grew 3.9%, from \$276 to \$287, an \$11 increase that accounted for 6.0% of the total increase in spending for the national ESI population.

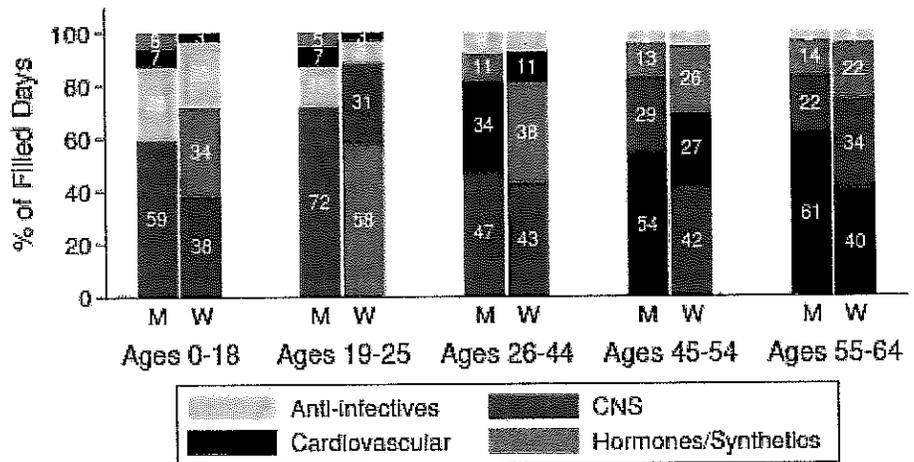

In 2013, about 83% of prescription filled days were for generics (Table 3), up from 75% of filled days in 2011. Over the study period, the number of filled days of generic prescriptions per 1,000 insureds rose in each year, with the largest increase (7.7%) occurring in 2012. In 2013, use of generic prescriptions rose 4.5% to 235,017 filled days per 1,000 insureds. Additionally, the average price per filled day of generic prescriptions rose in 2012 (5.3%) but declined slightly in 2013 (-0.5%). In both years, the average price per day was less than \$1.50.

Notes: All data weighted to reflect the national, younger than 65 ESI population. Data from 2012 and 2013 adjusted using actuarial completion.

CNS agents accounted for 31% of generic prescription spending in 2013

HCCI classified generic prescriptions into nine detailed prescription categories,

and subdivided them into subclasses to better understand the drivers of generic prescription trends. Analysis of generics focused on those four detailed categories having the highest number of filled days per 1,000 insureds in 2013 (excluding the “other therapeutic classes” detailed category). Three of the top four generic prescription categories – cardiovascular drugs, hormones, and CNS agents – were also among the highest used categories of brand prescriptions. The fourth high-use generic category was anti-infective agents (Appendix Table A5).

Spending on the top four categories made up 66.9% of the total per capita spending on generic prescriptions (Appendix Table A4). In 2012 and 2013, spending per capita for three of the top four generic detailed categories increased (Figure 18). The highest per capita spending in 2013 was on CNS agents; spending increased 2.8% to \$90 per capita, which accounted for

31.4% of spending on generics. Spending on hormones (9.3%) and anti-infective agents (4.6%) also rose, to \$36 and \$26 per capita, respectively. Cardiovascular drug spending dropped 8.2% to \$40 per capita.

Table 6 displays the four subclasses with the highest per capita spending for the ESI population in 2013. All four subclasses are in the CNS agents category.

The highest per capita spending in 2013 was on antidepressants (\$18.48), which also had the highest use of any subclass – 24,223 filled days per 1,000 insureds. This accounted for 10.3% of all generic prescription filled days. The other three subclasses (amphetamines, opiate agonists, and anticonvulsants) had similar per capita spending, between \$12 and \$13, and lower rates of use as compared to antidepressants.

Generic hormone use rose 5% in 2013

In 2013, the top four detailed categories of generic prescriptions (CNS agents, hormones, cardiovascular drugs, and anti-infectives) made up 75.3% of filled days (Appendix Table A5). Filled days of three of these categories increased, while use of anti-infective agents declined 1.8%, to 11,096 filled days per 1,000 insureds.

ANTIDEPRESSANT USE BY THE ESI POPULATION (2009-2013)

In each of the previous five years (2009-2013), generic antidepressants were the subclass of generic prescriptions most used by the national ESI population. In 2009, generic antidepressant use was 18.1 filled days per person; by 2013, this had increased to 24.2 filled days per person (Table 7). Use of generic prescriptions increased every year during this period, with the largest increase occurring in 2012. During that same period, use of brand antidepressants decreased in every year, with the largest decrease seen in 2012. In 2009, there were 6.4 filled days of brand antidepressants per person; use declined to 2.3 filled days by 2013. Overall, every year between 2009 and 2013, there was a net increase in the use of antidepressants (combined brand and generic) by the ESI population. In 2009, there were 24.5 filled days per person of antidepressants and 26.6 filled days in 2013. Over that period, antidepressants also made up an increasing share of all prescriptions. In 2009, filled days of antidepressants made up 8.8% of filled days of all prescriptions for the ESI population. By 2013, filled days of antidepressants were nearly 10% of all prescription filled days.

Table 6: Use of brand and generic antidepressants in filled days per 1,000 insureds for the national ESI population: 2009–2013

Antidepressants (28:16.04)	2009	2010	2011	2012	2013
Brand					
Filled Days per 1,000	6,439	6,035	4,918	2,985	2,345
Percent Change in Use	*	-6.3%	-18.5%	-39.3%	-21.4%

Source: HCCI, 2014.

The generic category used most was CNS agents, use of which increased 3.5%, to 63,670 filled days per 1,000 insureds. Use of cardiovascular drugs increased 4.9%, to 61,668 filled days, the largest increase in the number of filled days between 2012 and 2013 (2,869 filled days).

Hormone use rose 5.0%, to 40,457 filled days per 1,000 insureds. The most commonly filled subclass was contraceptives, which made up 30.8% of filled days in the hormones category (12,469 filled days per 1,000 insureds; data not shown).

For most common classes of generics, women used more generic drugs than men of the same age

For each of the top four detailed categories of generic prescriptions in 2013,

women's filled days were higher than men's for each age group. The difference in use between genders was largest for young adults (97,205 filled days; Appendix Table A17a) and intermediate adults (93,622 filled days; Appendix Table A18a), due mainly to the number of filled days of hormone use among women in those age groups (78,194 filled days per 1,000 young adult women and 70,786 filled days per 1,000 intermediate adult women; Figure 19). The smallest gender difference in generic prescription use was seen between girls and boys – 5,784 more filled days for girls (Appendix Table A16a).

Summary

In 2013, spending on generic prescriptions increased, constituting slightly

more than a third of total spending on prescriptions. The relatively low per capita spending on generic prescriptions, however, as compared to brand prescriptions, masks the higher use rates of generics.

Generic prescription use by the ESI population rose every year between 2011 and 2013. At the same time, the average price paid per generic filled day remained below \$1.50. CNS agents had the highest per capita spending of the top four categories and included antidepressants, the subclass with the highest per capita spending and highest use.

Table 7: Top 4 Highest Spending Per Capita Generic Prescription Subclasses for ESI Population: 2013

Subclass Name (Number)	HCCI Detailed Category	Common Use	Expenditures Per Capita	Filled Days Per 1,000 Insureds
Antidepressants (28:16.04)	CNS Agents	Management of various conditions including depression, anxiety disorders, obsessive compulsive disorder	\$18.48	24,223
Amphetamines (28:20.04)	CNS Agents	Primarily used for narcolepsy and ADHD	\$12.96	2,939
Opiate Agonists (28:08.08)	CNS Agents	Pain killers	\$12.68	7,227
Anticonvulsants, Miscellaneous (28:12.92)	CNS Agents	Treatment of seizure disorders	\$12.07	6,104

Special Supplement: 2013 Generic Prescription Use by Age and Gender

As part of the 2013 analysis of prescription use by the ESI population, HCCI analyzed filled days of generic prescriptions for men and women by age group. This analysis reflects a growing interest at HCCI in how different age-gender groups covered by ESI used prescriptions in 2013 and whether patterns emerged in prescription use as insureds aged. HCCI did not examine changes in use over time.

In this supplement, HCCI described for generic prescriptions the four detailed categories and four subclasses used most commonly for each age-gender group. All the statistics in this supplement have been converted from filled days per 1,000 insureds to filled days per person.

Only 13 subclasses made up the prescription classes most commonly used, representing 31% to 62% of generic prescription use by the different age-gender groups.

The 13 subclasses were contained within 5 of HCCI's 9 detailed categories of drugs:

- Anti-infective agents (penicillins);
- Cardiovascular drugs (angiotensin-converting enzyme inhibitors, dihydropyridines, HMG-CoA reductase inhibitors, β -adrenergic blocking agents);
- CNS agents (amphetamines, miscellaneous anticonvulsants, antidepressants, opiate agonists, and respiratory and CNS stimulants);
- Hormones (contraceptives and thyroid agents); and
- Respiratory agents (leukotriene modifiers).

CNS agents were the most common drug category used by children

For both boys and girls, the category of drugs used most was CNS agents (18.5 filled days per boy and 14.1 per girl; Appendix Table A16a and Figure 20). For boys, the second most-used category of drugs was anti-infective agents (8.7 filled days per boy). The second most-used category of drugs for girls was hormones (12.4 filled days per girl).

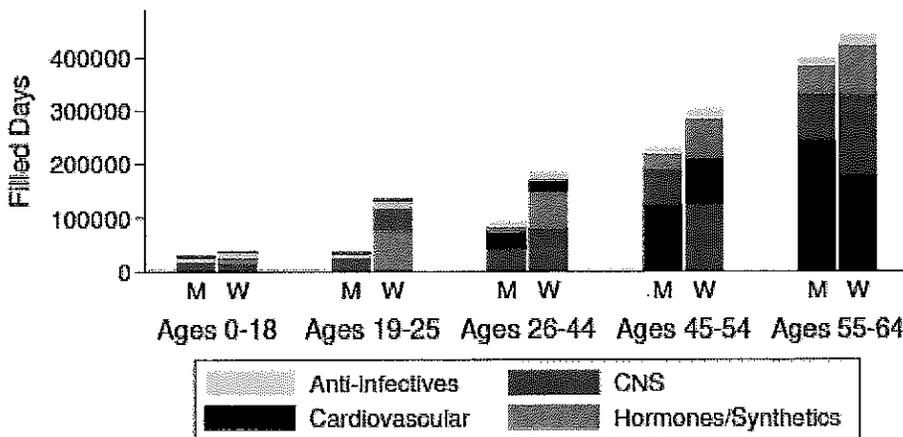

The first and third most used subclass of drugs for boys and second most used for girls were in the CNS agent category (Table 8). For boys, the subclass used most was respiratory and CNS stimulants (5.7 days per boy), which made up 30.8% of the CNS filled days for boys. Filled days of antidepressants constituted 24.3% of CNS use for boys (4.5 days per boy) and 39.7% for girls (5.6 days per girl).

For girls, the subclass used most was contraceptives (9.5 days per girl), which made up 76.6% of girls' hormone use. Penicillins were the third most-used subclass for girls (3.5 days per girl) and fourth most used for boys (3.5 days per boy); this subclass accounted for 38.5% and 40.2% of anti-infective agent use for girls and boys, respectively. Leukotriene modifiers were the second most-used subclass for boys (4.6 days per boy) and fourth most-used for girls (3.2 days per girl).

Young adult women used more prescriptions than young adult men

Young adult women had more filled days of the top four detailed categories

Figure 20
Filled Days per 1,000 Insureds by Top 4 by Use Generic Prescription Detailed Service Categories, Gender, and Age Group: 2013

Source: HCCI, 2014.
Notes: All data weighted to reflect the national, younger than 65 ESI population. Data from 2012 and 2013 adjusted using actuarial completion.

MOST COMMON ON-LABEL USES OF SELECTED AHFS SUBCLASSES^{9,10}

Anti-infective agents

Penicillins are a group of antibiotics that treat a large range of bacterial infections, including pneumonia, strep throat, and staph infection.

Respiratory agents

Leukotriene modifiers are a type of respiratory agent taken to control the symptoms of mild-to-severe asthma.

Hormones and synthetic substitutes

Thyroid agents are used to treat both diminished and increased thyroid function.

Cardiovascular drugs

HMG-CoA reductase inhibitors, more commonly known as statins, are one of the primary ways to manage high cholesterol levels. In addition, they may be prescribed to prevent heart disease and heart attack in individuals who have multiple risk factors, such as smoking and age. In 2013, the American Heart Association and the American College of Cardiology revised the recommendations for statin therapy, which increased the importance of physicians considering risk factors (such as age, gender, race, smoking habits, etc.) rather than focusing on cholesterol levels. This revision in the recommendations increased the number of individuals said to benefit from statin therapy to about one-third of Americans.¹¹

Angiotensin-converting enzyme inhibitors, more commonly known as ACE inhibitors, are used to treat high blood pressure, often in conjunction with other drugs. These drugs can also be used to treat congestive heart failure and general chest pain that is associated with restricted blood flow to the heart.

CNS agents

Antidepressants are used to treat many conditions, including depression, anxiety disorders, obsessive compulsive disorder, and many others.

Opiate agonists are mainly opiate pain killers, such as codeine and morphine, used to treat mild-to-severe pain.

Amphetamines are a type of stimulant primarily used to treat narcolepsy and attention deficit hyperactivity disorder (ADHD) in adults and children.

Anticonvulsants are primarily used to treat a broad range of seizure disorders; they can also treat agitation or episodes associated with mental health disorders such as schizophrenia or bi-polar disorder.

of generic prescriptions as compared with the number for young adult men. Young adult women had the most filled days of hormones, 78.2 filled days per young adult woman (Appendix Table A17a). Of these filled days of hormones, 69.0 (88.2%) were for contraceptives, the subclass most commonly used by young adult women (Table 9). Use of contraceptives made up 43.7% of filled days of generic prescriptions for young adult women. The most-used detailed category for young adult men and the second most-used detailed category for young adult women were CNS agents (27.0 days per young adult man and 41.4 filled days per young adult woman).

For young adult men, the four subclasses of generic prescriptions used most were all CNS agents. Antidepressants – the subclass used most by young adult men – constituted 31.5% of the CNS filled days for young adult men (8.5 days per man), and 16.5% of total generic prescription days. For young adult women, three of the four most-used subclasses were CNS agents; the most commonly used CNS agent (and second most common subclass) was antidepressants (17.7 days per young adult woman), which made up 42.8% of CNS use.

Antidepressants accounted for nearly 15% of generic filled days for intermediate adult women

Similar to use among young adults, intermediate adult women had higher use of three of the top four detailed categories, while men of this age cohort had higher use of cardiovascular drugs. The highest-used category for both intermediate adult men and women was CNS agents: 43.5 filled days per intermediate adult man and 79.4 days per intermediate adult

woman (Appendix Table A18a). For both intermediate adult men and women, the subclass of CNS agent used most was antidepressants (15.0 days per man and 34.2 days per woman; Table 10). Within this age group, use of antidepressants accounted for 34.5% of CNS use by men and 43.1% of CNS use by women. Use of antidepressants made up 14.7% of total filled days of generic prescriptions for intermediate adult women and 12.2% of generic days for intermediate adult men.

The second most-used detailed category of generic prescriptions for intermediate adult women was hormones (70.8 filled days per intermediate adult woman). The most common type of hormone, and the most used subclass, for intermediate adult women was contraceptives (43.3 days per intermediate adult woman), constituting 61.2% of the hormone use for this group.

For intermediate adult men, the second most-used detailed category was cardiovascular drugs (31.4 filled days per man). The most common subclass of cardiovascular drugs for men in this age group was angiotensin-converting enzyme inhibitors (“ACE inhibitors”; 9.0 days per man), which accounted for 28.7% of their cardiovascular use.

Cardiovascular drugs were most common generics for middle age adult men

Middle age adult men used more filled days of cardiovascular drugs than any other category (124.5 per man; Appendix Table A19a); this category contained three of the top four subclasses used by these men (Table 11). The most commonly used subclass for middle age adult men was HMG-CoA

reductase inhibitors (“statins”; 37.0 days per man), which made up 29.7% of their cardiovascular filled days. Statins were the third most-used subclass for middle age adult women (21.0 days per woman) and made up 25.4% of their cardiovascular filled days.

CNS agents were the category used most by middle age adult women (126.5 days per woman) and the second most-used category for men of the same age group (66.7 days per man). The most used subclass for middle age adult women was antidepressants (52.2 days per woman), accounting for 41.3% of their CNS use. Antidepressants were also the third most-used class for middle age adult men (21.6 days per man), accounting for 32.4% of their CNS filled days.

The second most-used category for middle age women was hormones, at 77.4 filled days per woman. The most used subclass of hormone by middle age adult women, and the second most used subclass overall for these women, was thyroid agents (33.3 days per woman), which made up 43.0% of their filled days of hormones.

Before Medicare eligibility, cardiovascular generic use rose for group

The category most used by pre-Medicare adult men and women was cardiovascular drugs (244.2 filled days per man and 178.0 filled days per woman; Appendix Table A20a). Likewise, all of the top four subclasses for men in this age cohort were in the cardiovascular category (Table 12). The most common subclass for pre-Medicare adult men, as with middle age adult men, was statins (71.7 days

per man), accounting for 29.4% of cardiovascular filled days for men in this age group. Statins were also the second most used drug class for pre-Medicare adult women (52.9 days per woman), accounting for 29.7% of their cardiovascular filled days.

The second most-used detailed category of generic prescriptions for both pre-Medicare men and women was CNS agents: 87.3 filled days per man and 150.5 filled days per woman. Overall, antidepressants were the most used subclass by pre-Medicare adult women (61.5 days per woman), and it made up 40.9% of CNS filled days for this group. For pre-Medicare women, as with middle age adult women, the subclass of hormones used most commonly was thyroid agents (47.6 days per woman), which constituted 49.6% of their hormone use.

Summary

Thirteen therapeutic subclasses constituted the top four most commonly filled generics for the age-gender groups. These classes were drawn from five of the nine HCCI detailed drug categories: anti-infective agents, cardiovascular drugs, CNS agents, hormones, and respiratory agents.

These findings document how generic prescription use in filled days varied by age and gender among the ESI population. HCCI found several patterns among the detailed categories used most commonly. Subclasses of drugs that were in the respiratory and anti-infective agent categories were commonly used only among boys and girls. Hormone subclasses ranked highest in use for women of each age group but not for men in any age group. CNS agents were in the top

four for nearly all age-gender groups. Cardiovascular drugs were common in the adult populations, more predominantly for men.

At the subclass level several other patterns emerged. Antidepressants were in the top four most-used subclasses for nearly all age-gender groups. The only exception was use by pre-Medicare men, whose top four subclasses were all cardiovascular drugs. Within the cardiovascular category, statins and ACE inhibitors were prevalent in the older age groups, for both men and women. Hormone use by women was common in every age group; however, use transitioned from contraceptives before age 45 to thyroid medications after age 25.

Data & Methods

Data

HCCI's dataset contains several billion de-identified commercial health insurance claims for the years 2009 through 2013. Three major health insurers contributed data to HCCI for the purposes of producing a national, multi-payer, commercial health care claims database. These data include claims for individuals covered by group insurance (fully insured and administrative services only), individual insurance, and Medicare Advantage plans. The claims data include prices paid to providers by both insurers and insureds and details about the services used. Furthermore, HCCI's claims data are compliant with the Health Insurance Portability and Accountability Act (HIPAA).

For the 2013 *Health Care Cost and Utilization Report*, HCCI performed analysis on a subset of data for approximately 40 million insureds per year (2009-2013), totaling approximately 5 billion claim lines.¹² This analytic subset consisted of all claims for insureds younger than age 65 and covered by ESI. The data set used for this report represented about 27% of the national ESI population, making this one of the largest datasets on the privately insured ever assembled.

Methods

The analytic subset was weighted using U.S. Census Bureau age-gender-geographic-based estimates of the ESI population to make the analytic subset representative of the national ESI population. Claims in the analytic subset from 2012 and 2013 were actuarially completed to account for claims that had been incurred but not adjudicated.

Claims for years 2009 through 2011 were not adjusted and were considered 100% adjudicated.

HCCI used the weighted, actuarially completed dataset to estimate per capita health expenditures, average prices, utilization of services, unit prices, and service intensity for 2009 through 2013. HCCI did not correct dollars for inflation; thus, all reported expenditures and prices were in nominal dollars.

HCCI analyzed four major categories of services, several subservice categories, and detailed service categories. Inpatient facility claims were from hospitals, skilled nursing facilities (SNFs), and hospices where detail was sufficient to identify an overnight stay by an insured. Outpatient facility claims did not entail an overnight stay, and include observation and emergency room services. Both outpatient and inpatient claims consisted of only the facility charges associated with such claims. Professional procedures included claims billed by physicians and non-physicians according to the industry's standard procedure coding practices. Prescription data are prescriptions filled at both retail and mail order pharmacies.

For a more detailed description of HCCI's methodology and dataset, see the Analytic Methodology on HCCI's website.⁷

HCCI recognizes that the terms "health care spending" and "health spending" could be interpreted differently; however, they were used interchangeably in this report.

Limitations

This report, like all research, had several limitations that affect the generalizability and interpretation of the findings. For this reason, HCCI considers the work a starting point for analysis and research on individuals covered by ESI rather than as a conclusive analysis of the ESI population's effect on health care in the United States.

First, our findings were estimates for the US ESI population ages 0 to 64 based on a sample of approximately 27% of these insureds.

Second, the analysis and results were descriptive, and the findings were not causal and cannot be used to determine causal relationships.

Third, the effect of individual or population health status, such as existence of chronic conditions, was not specifically investigated or discussed in the report.

A note on premiums

HCCI does not report on premiums or their determinants. For more information on health insurance premiums and the multiple factors that affect them (including health care expenditure; beneficiary, group, and market characteristics; benefit design; and the regulatory environment) see Congressional Research Service, *Private Health Insurance Premiums and Rate Reviews, 2011*; American Academy of Actuaries, *Critical Issues in Health Reform: Premium Setting in the Individual Market, 2010*; and Congressional Budget Office, *Key Issues in Analyzing Major Health Insurance Proposals, Chapter 3, Factors Affecting Insurance Premiums, 2008*.^{13,14,15}

Changes in 2013

HCCI's analytic methodology underwent a number of changes to enhance reporting for the 2013 *Health Care Cost and Utilization Report*. See the methodology document available on HCCI's Website for details on these changes.⁷

Data changes.

In the 2013 report, new data were provided for 2011 through 2013 from the data contributors, resulting in changes in the membership, expenditures, utilization, and prices in all years. This is an unavoidable consequence of updating and refining the dataset over time. As a result, the trends reported in the 2013 report are somewhat different from those in the 2012 report.

The data were adjusted to account for new and revised data for 2013. For the 2013 analytic dataset, 2009 through 2011 data were considered complete, and no actuarial adjustment was performed. The 2012 and 2013 claims were actuarially completed using the new data. The average intensity weights were changed for some of the outpatient and professional procedure subservice categories due to improved imputation for missing weights and the introduction of some new weights in 2013.

Weighting methodology was updated.

The weighting methodology was updated to reflect the national ESI population younger than age 65 as measured by the American Community Survey. The methodology was also updated to better account for fluctuations in the population within a year.

Analysis changes. For the 2013 report, HCCI reported on health care trends by age-gender groups, further enhancing the specificity of the analysis. In response to public inquires about the data, HCCI enhanced the reporting on prescriptions by reporting on even more

detailed pharmaceutical categories. See the 2013 *Health Care Cost and Utilization Report Methodology* for more information.

Trend to Watch

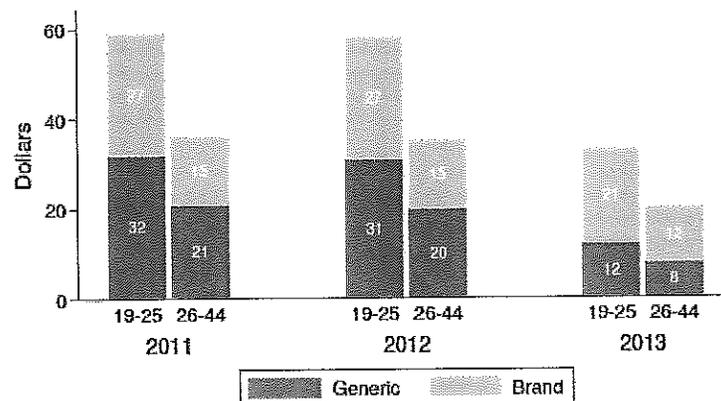

In 2013, there was a notable break in trend for out-of-pocket spending growth for adult women (ages 19–44). Out of pocket spending growth slowed considerably for young adult women (ages 19–25) and intermediate adult women (ages 26–44) compared to the two prior years. For the first time in 2013, HCCI observed that there was no increase in out-of-pocket expenditures for young adult women (0.0% growth). For intermediate adult women, out-of-pocket spending growth slowed considerably, increasing by 3.2% as compared to 6.4% growth the previous year.

Driving these breaks in trends were changes in out-of-pocket spending on contraceptive prescriptions. Out-of-pocket spending per capita by young adult and intermediate adult women on generic contraceptives fell by 61% to \$20, and brand contraceptive spending fell by 21% to \$33 (Appendix Table A29). At the same time, use of contraceptives increased by 4% for young adult women and 2% for intermediate adult women (Appendix Table A30).

Lower out-of-pocket spending and rising contraceptive use coincided with the first full calendar year of Affordable Care Act (ACA) provisions requiring full coverage (no cost-sharing) of some preventive services, such as contraceptives, prenatal screenings and tests, cervical cancer screenings, diabetes and blood pressure screenings. Although the ACA was likely a large influence on the 2013 per capita out-of-pocket spending trends, other factors also influence spending and use trends. For example, in 2011, changes in out-of-pocket spending on contraceptives were observed following launches of generic versions of brand-name contraceptives, such as Yaz™ and Seasonique™.

Additional details and further discussion of out-of-pocket spending are discussed in *Out-of-Pocket Spending Trends (2013)*.

Out-of-Pocket Spending Per Capita on Contraceptives by Women Ages 19-25 and 26-44: 2011-2013

Source: HCCI 2014.
Notes: All data weighted to reflect the national, younger than 65 FSI population.
Data from 2012 and 2013 adjusted using actuarial completion.

EXPERIENCE

2005-Present President and Chief Executive Officer: Yale New Haven Health System

Chief Executive Officer: Yale-New Haven Hospital

Yale New Haven Health System is a regional, integrated health care delivery system composed of three local health care delivery networks, as well as a physician foundation (independent from the Yale University Medical Group). The System operates in the New Haven, Bridgeport and Greenwich regions, and has nearly 2150 inpatient beds, multiple outpatient centers, over 5000 medical staff members, 19,000 employees and 2014 revenues of \$3.5 billion. It is anchored by the 1541 bed Yale-New Haven Hospital, which includes the Yale-New Haven Children's Hospital, the Yale-New Haven Psychiatric Hospital and the Smilow Cancer Hospital. Yale-New Haven Hospital serves as the primary teaching hospital for the Yale University School of Medicine. The System is the co-founder of a Statewide, clinically integrated network of providers with Tenet Corporation.

1993-2005 Executive Vice President & Chief Operating Officer: Yale-New Haven Hospital
Executive Vice President and Secretary: Yale-New Haven Health System

Responsible for New Haven Delivery Network operations including Yale-New Haven Hospital operations, finance, human resources and planning and marketing; and Yale-New Haven Ambulatory Services Corporation, which operated two independent surgery centers and a large, full-service radiology business in New Haven and Guilford. Served as the senior Hospital interface for Yale School of Medicine operational issues. Represented the YNHH Delivery Network in all Health System strategic and operational activities.

1970-1993 Various administrative and staff roles at Yale-New Haven Hospital from Administrative Resident to Senior Vice President.

Yale New Haven Health System (YNHHS) and Yale-New Haven Hospital (YNHH)

October 2000 - Present

Executive Vice President of Finance and Corporate Services, YNHHS
 Senior Vice President and CFO, YNHH

Yale New Haven Health system is a regional, integrated health care system composed of three regional health care delivery networks. The New Haven-based delivery system is anchored by Yale-New Haven Hospital, the Yale-New Haven Children's Hospital, and the Yale-New Haven Psychiatric Hospital, which total 944-beds. The system includes a Bridgeport-based delivery system led by the 425-bed Bridgeport Hospital and Greenwich-based delivery system anchored by 160-bed Greenwich Hospital. The System is also affiliated with the Westerly Hospital in Rhode Island. The Yale New Haven Health System has a formal affiliation with the Yale University School of Medicine, as does Yale-New Haven Hospital which serves as the Medical School's primary teaching hospital. System services include acute care hospitals, ambulatory surgery and outpatient diagnostic imaging centers, as well as primary care centers. In total, the System has 1,500 beds, 74,000 admissions, 10,000 employees, assets of \$1.6 billion, and annual net revenues of over \$1.4 billion.

Responsible for financial and corporate services of YNHHS including managed care, information systems, materials management, admitting/registration, and medical records, as well as all financial responsibilities such as accounting, budgeting, financial and operational reporting, tax, reimbursement, and treasury.

OTHER EMPLOYMENT

New York-Presbyterian Hospital (NYPH) and New York-Presbyterian Healthcare System (NYPHS)

July 1999 – October 2000 Senior Vice President of Finance

Responsible for assuring the financial viability of a \$3 billion Health System, including monitoring financial condition of approximately 15 corporately-controlled Sponsored/Member Hospitals and other healthcare related organizations. Report regularly to the NYPHS Board and NYPH Board Executive Committee on financial performance.

January 1997 - June 1999 Vice President of Financial Planning
 June 1993 - December 1996 Director of Financial Planning

Responsible for complete integration of financial planning at all Sponsored Hospital Members including NYPH and leading the financial group of approximately 70 professionals in performing budget, reimbursement, managed care contracting, decision support and business plan development functions.

James M. Staten

Ernst & Young

January 1991 - June 1993 Senior Manager - Consulting Services

Directed and coordinated Ernst & Young's New York State Reimbursement Consulting Services.

Pannell Kerr Forster

October 1980 -- December 1990 Partner

Elected Partner in June 1990 after working 10 years in the firm's large healthcare practice as a certified public accountant. 11th Largest Public Accounting Firm in United States during late 1980s.

HEALTH SERVICES EXPERIENCE**1997-Present**

Executive Vice President / Chief Strategy Officer. Yale New Haven Health System (YNHHS), New Haven, Connecticut. Major regional multi-hospital system in Connecticut with assets and annual revenues in excess of \$3.4 billion. Report to YNHHS President/CEO; a member of the System senior leadership team consisting of: The President/CEO of YNHHS/YNHH, Chief Operating Officer of Yale-New Haven Hospital the CEOs of Greenwich Hospital and Bridgeport Hospital and Chief Financial Officer of YNHHS. Responsible for leading and directing the growth, diversification, clinical and operational integration, strategy, innovation, marketing, communication, government relations, business development performance management and annual performance measurement process for the System.

Direct shared and corporate services, facilities, real estate and plant engineering, supply chain, leadership development, training and education, corporate compliance and privacy, strategy, government relations, emergency preparedness, grant development, marketing, communication and business development.

Member of the following YNHHS Boards of Directors:

- Greenwich Hospital and related corporations, Greenwich, CT
- Bridgeport Hospital and related corporations, Bridgeport, CT
- Ambulatory Services Corporation – provides radiology, surgery and recovery services in southern CT
- Shoreline Surgical Corporation – a joint venture with physicians (chair)
- Physician practice foundation for physician employment (chair)
- Continuing Services – long term care and rehabilitation

Accomplishments:

- Led team to purchase assets of 500 bed academic medical center
- Established, developed and led non-profit physician foundation to employ physicians across the System
- Created clinical integrated physician network
- Created System to System strategic alliances
- Led the transition of a \$40 million Ambulatory Services Corporation through turnaround and restructuring.
- Expanded System by adding hospitals, ambulatory centers and physician practices
- Created and directed the development of statewide service lines in Oncology, Cardiology and Pediatrics
- Facilitated the establishment and strategic direction of Yale-New Haven Hospital service lines in eight specialties
- Led the development of a full-service 80,000 square foot ambulatory care center, including ambulatory surgery, radiation therapy, satellite emergency services, laboratory services, physician offices and radiology services.
- Instrumental in the design and implementation of a Systemwide performance management strategy and structure to enhance clinical quality, patient safety and

operations performance. The strategy included the development of a performance management infrastructure, full-time performance management coordinators, an electronic balanced scorecard to provide managers with timely, detailed information to monitor, communicate and improve performance and an Institute for Excellence to develop leadership for the future. Responsible for directing and managing the effort.

- Created and direct the Institute for Excellence, Systemwide management development, succession planning and corporate leadership, training and education function.
- Led the integration and standardization of clinical service lines (heart, cancer, pediatrics, neurosciences) and administrative services across the System.
- Led the development of a Systemwide three-year standardization project that standardized 365 operational and administrative processes across the System.
- Created and manage Systemwide Office of Emergency Preparedness, Systemwide corporate compliance, Systemwide compensation and benefit management, and Systemwide strategic planning process to enhance collaboration, improve performance and create economies of scale.

1993 – 1997

Senior Vice President. Organizational Development. Sisters of Charity of the Incarnate Word Health Care System (SCH), Houston, Texas. Major Catholic multi-hospital system (14th largest health care system - \$2 billion in assets) (3932 acute beds, 620 long-term care and residential beds and numerous health businesses and programs). Report to System President/CEO; a member of the senior leadership team of the System; interact regularly with System governance and member of Board Committees. Responsible for leading and directing Systemwide Leadership Development, System Organizational Development, Growth and Diversification of the Ministry, System Managed Care, System Human Resources, System Continuous Quality Improvement and Quality Assurance, System Strategic Planning and System Communications functions including staffs. Responsible for leading the System efforts in the development and operation of integrated community health networks (ICHN) and mergers and acquisitions.

Accomplishments:

- Instrumental in the design and implementation of a regionalization strategy for (SCH), health care centers and services in Southeast Texas.
- Instrumental in the design and implementation of a regionalization strategy for (SCH), health care centers and services in the state of Louisiana.
- Led the transition of the Sisters of Charity of the Incarnate Word to co-sponsorship of Catholic Healthcare West, including the transition of two (SCH), health care centers to CHW.
- Led the development, implementation and governance of a statewide joint venture triple option insurance product in Louisiana with Ochsner Clinic. The HMO grew from 70,000 to 130,000 lives in one year.
- Instrumental in the development, implementation and governance of a \$100 million joint venture health network in Houston, Texas between (SCH), and Memorial Health System, the largest not for profit health care system in Houston. The \$100 million health network includes physician practices, group practices, management services organization, clinics, home health, wellness services, and a PPO, TPA, HMO and indemnity insurance product
- Led the development, implementation and management of numerous physician hospital organizations (PHO) in Louisiana and Texas.
- Led the development, implementation, governance and management of a Louisiana statewide MSO, employing 75 physicians and managing 35 physician

practices.

- Led the development, implementation, governance and management of a risk insurance joint venture with Arkansas Blue Cross/Blue Shield.
- Directed a 25,000 enrollee Department of Defense HMO until its integration into the Memorial SCH Health Network.
- Member of governing board of two HMOs, PPOs and insurance companies. Member of governing board and officer of a 75-physician management services organization (MSO).
- Instrumental in the development and implementation of the reengineering of (SCH), corporate office resulting in a reduction of hierarchy, initiation of process work teams, reduction of costs and focus on strategic leadership and creating the System's future.
- Initiated and administered Systemwide leadership development program including education, succession planning, competency based behavior performance evaluations, etc.
- Led the development and administration of a systemwide initiative to fast track qualified women to senior leadership.
- Instrumental in the reduction of costs per weighted discharge by 25% in a three-year period.

1982 - 1993

Strategic Development. SSM Health Care System. St. Louis, Missouri. Major Catholic multi-hospital system (4,000 acute beds, 500 long term care and residential beds and numerous health businesses and programs).

1986 - 1993

Senior Vice President Reported to System President/CEO; a member of the senior leadership of the System; interacted regularly with System governance; directed Corporate Strategic Planning, Corporate Communications, Corporate Managed Care, Physician/Hospital Organization Directors and staffs. Member of Board of Directors for all System for profit corporations. Responsibilities included organizing and directing the System strategic planning process; developing strategic planning policies and marketing strategies for the System; directing research and development function of the System; directing managed care activities of the System; directing networking activities of the System, e.g., collaboration, acquisition and affiliation; directing communication function of the System including advertising and public relations. Instrumental in implementing Clinical Quality Improvement. Responsible for leading System cross functional teams in implementing a new System-wide strategic and financial planning process which incorporates Continuous Quality Improvement principles, implementing patient-focused care, developing integrated delivery networks in specific geographical areas and establishing System-wide customer feedback mechanisms for physicians. Responsible for managing and/or consulting in Continuous Quality Improvement, strategic planning, marketing, delivery system integration and managed care at twenty-four member institutions and programs. Responsibilities also included developing Continuous Quality Improvement implementation plans, curriculum and teaching Continuous Quality Improvement courses throughout the System. Lead the system efforts to regionalize all health care centers and services in the greater St. Louis area

1982 - 1986

Corporate Director of Planning/Marketing. Reported to President of the Governing Board of the System. Supervised corporate planning, marketing and managed care staffs. Responsibilities included organizing and directing the first system planning process and development of a new structure for the system. Responsibilities also included directing the marketing research, product development, marketing strategy development and alternative delivery activity of the system.

- 1981 – 1982** **Principal, Health Studies Institute. Inc.**, Columbia, Missouri. Consultant and Project Director for planning, management and education to health care organizations.
- 1980 - 1981** **Business Development Staff. St. Louis University Hospital and Clinics**, St. Louis, Missouri. Major responsibility included the development of an education subsidiary corporation. Reported to the Chief Operating Officer of the hospital.
- 1978 - 1980** **Faculty Member. University of Missouri-Columbia. Graduate Studies in Health Services Management.** Major responsibilities included developing and coordinating a baccalaureate degree program in Health Services Management; developing and teaching courses in health care delivery, management and planning. Other responsibilities included student advisement and curriculum design.

EDUCATION

- Post Masters** Post-Master studies: St. Louis University, Center for Health Services Education and Research, St. Louis, Missouri, specialized in Health Services Marketing and Administration. Doctoral comprehensive examinations completed.
- MSPH** Master of Science in Public Health (MSPH) with a concentration in Health Planning; University of Missouri-Columbia, Department of Health Services Management.
- BA** Bachelor of Arts; University of Maryland, College Park, Maryland.

PROFESSIONAL EXPERIENCE**YALE NEW HAVEN HEALTH SYSTEM, NEW HAVEN, CT**

Large academic health system with nearly \$3.4 billion in revenue, 2,130 beds and over 19,000 employees located in southern Connecticut

Executive Vice President, Chief Operating Officer (2012 – present)

Responsible for system operations of this large, academic multihospital integrated delivery system including overseeing the 300+ physician medical foundation.

- Integrated the employee health, occupational medicine and corporate health components into a consolidated and aligned business unit with gains in efficiencies and revenue performance.
- Leading the system's cost and value positioning effort to improve our annual cost performance by more than \$125 million on an ongoing annual basis. Chair of the system implementation steering committee that coordinates the four committees driving this project.
- Coordinating the effort to improve the operations through a system approach in the laboratory, pharmacy, care management, medical staff credentialing – these areas are under system development to meet operational benchmark targets as well as business plan opportunities.
- Leading the "big data" effort across the health system to ensure the capability to manage data and produce information meets the changing needs across the health care spectrum.

SAINT RAPHAEL HEALTHCARE SYSTEM, NEW HAVEN, CT

Large community teaching hospital (511 beds) affiliated with the Yale School of Medicine encompassing over \$500 million in revenue, long term care and other ancillary services

President and Chief Executive Officer (2009-2012)

Reporting to the Board, oversaw all aspects of the health care system up to and including the asset sale of the system to Yale-New Haven Hospital in September of 2012.

- Led the team to negotiate and ultimately execute a letter of intent and Asset Purchase Agreement with Yale-New Haven Hospital. This process included a full second request investigation by the Federal Trade Commission as well as reviews by the Attorney General and the Office of Health Care Access regarding a Certificate of Need process.
- Implemented a broad strategy to investigate an opportunity to affiliate with a system that included national catholic systems, for-profit systems and systems within the state of Connecticut.
- Over the two year period managed to maintain operational focus and performance while managing through the purchase process while uncertain of the approval process.
- Improved profitability of the medical center by implementing widespread redesign and cost improvement targets.

CARITAS ST. ELIZABETH'S MEDICAL CENTER, BOSTON, MA

Flagship tertiary teaching hospital of a six-hospital system affiliated with Tufts School of Medicine, located in eastern Massachusetts with 340 licensed beds and 2,500 employees and nearly \$400 million in net revenue.

President (2006 – 2009)**Chief Operating Officer (2006)**

Responsible for medical center operations including strategic plan, operational performance and community engagement for this urban tertiary teaching hospital.

- Exceeded budgeted performance, earning progressively larger bottom-lines of 1.1%, 1.5% and 2% during the three fiscal years under my leadership.

- Successfully recruited more than 40 new physicians, including key leadership as well as clinical staff to facilitate clinical activity turnaround.
- Improved patient satisfaction from the 70th percentile to the 90th percentile by linking service, quality and access to leadership performance.
- Through a team approach, worked to improve quality goals in many areas including surgical care infection, cardiac outcomes, infection control and ventilator associated pneumonia. Facilitated the implementation of a transparent patient safety program with non-punitive reporting as well as a thorough root cause analysis process to ensure process improvements.
- Recognized as a Tompson Performance Improvement hospital in both 2007 and 2008 in the large teaching category.
- Improved quality outcomes, including benchmark performance in the surgical care infection program to over 95% compliance, and achieved distinction from the Institute of Healthcare Improvement.
- Facilitated programmatic expansion into hyperbaric wound care, neurosciences and robotic surgery. Oversaw milestone construction projects including: a new emergency department, operating suite renovations, a neuroscience and spine center and a multi-disciplinary wound center.
- Led the implementation of Leadership Development initiative across the system in conjunction with the "Achieving Exceptional Care" program – A Studer Group collaborative for over 600 system-wide leaders that focused on improving leadership tools.

OCHSNER HEALTH SYSTEM, NEW ORLEANS, LA

A non-profit, academic, multi-specialty healthcare delivery system dedicated to patient care, research and education. The system includes seven hospitals, more than 35 healthcare centers and 11,000 employees.

Vice President Clinical Operations (2003 – 2006)

Responsible for specialty clinical services including cardiac, oncology, digestive diseases, musculoskeletal, transplant, surgical and perioperative services. Included within these service lines are both clinic operations and hospital services for areas including infusion therapy, radiation therapy, endoscopy, cardiac cath labs and EP labs, 23 OR suites, 6 OR ASC, and 2 plastic surgical OR suites.

- Hurricane Katrina - Led the organization through its response to this national disaster. Ochsner was one of three hospitals to remain functional throughout the storm and flooding. Facilitated the emergency preparedness and response to this regional catastrophe including countless leadership and staff meetings and briefings for the 2,500 staff, patients and dependants sheltered at Ochsner. Assisted in communicating current operational status with media outlets. Assisted in coordination of assets and security needs with state and local emergency operations centers. Maintained a structured decision making process in the face of failing utilities, flooding, civil unrest and numerous operational and human resource issues.
- Assisted in the acquisition process that resulted in the purchase of three Tenet hospitals in the greater New Orleans region. Finalized planning for new cancer center and heart and vascular institute. Facilitated the operational opening of main campus ASC in January 2004.
- Facilitated the focus on patient satisfaction, patient safety and quality, including implementing quality metrics as well as improving patient satisfaction within the operating room setting by 50% over a 12-month period.
- Upon arrival, addressed significant resource shortage within Anesthesia. Implemented recruitment and retention tactics to increase CRNA staff, recruited a new chair and increased staffed anesthesia locations 20% within a year of implementation.
- Improved endoscopy scheduling by both resource allocation and process improvement that increased procedures from 50 to 70 per day.

HOSPITAL OF SAINT RAPHAEL, NEW HAVEN, CT

A 510 bed tertiary teaching hospital affiliated with the Yale School of Medicine in New Haven, Connecticut. St. Raphael's has more than 3,500 employees with a broad range of clinical programs with over \$600 million in net patient revenue.

Vice President, Clinical Operations (2001 – 2003)

Administrative Director, Departments of Surgery and Emergency Medicine (1999 – 2001)

Administrator, St. Raphael Physician Organization (1997 – 1999)

Progressive responsibility focused on operational performance of major clinical departments including surgery, emergency medicine, radiology, pathology, gastroenterology, cardiac and oncology services. Responsible for more than 400 FTE's and \$200+ million in net patient service revenue.

CHRISTOPHER M. O'CONNOR, FACHE

- Following 9/11, established the first regional emergency response agreement in Connecticut in collaboration with Yale New Haven Hospital and other local healthcare providers.
- Improved OR efficiency by both adding supply (from 19 OR suites to 23) and increasing production by \$25 million in gross revenue. Improved cost per case by 5%, and increased OR utilization (saving approximately \$3 million in both med/surg supplies and implant costs).
- Implemented OR information system (ORSOS) following a difficult period for both scheduling and preference cards.
- Implemented a capitated defibrillator agreement with Medtronic that enabled savings of more than \$1.2 million in pacemaker and defibrillator implants in one year.
- Coordinated the integration of additional subspecialties within the practice, increasing gross professional revenue to \$1.5 million.

SINAI HOSPITAL OF BALTIMORE, BALTIMORE, MD (1995 – 1997)

A large acute tertiary teaching hospital with nearly 500 beds and affiliated with the Johns Hopkins School of Medicine. It is the flagship for Lifebridge Health an two-hospital integrated healthcare delivery system.

Coordinator, Emergency Medicine Operations (1996 – 1997)**Administrative Resident (1995 – 1996)**

Following post graduate residency, worked with then CEO Warren Green and the senior leadership team. Remained and managed this large emergency department, which at the time was seeing 65,000 patients annually with more than 20 physicians and PA FTE's.

 MS#13HCA
 PO Box 340308
 Hartford, CT 06134-0308

Dear Ms. Martone:

I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System. As a State Representative in the area, I have many constituents who depend on the existing services of Lawrence & Memorial Hospital. My constituents and the larger community will be much better served by the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health Systems.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale is a great opportunity and the right response for the challenges that face our region. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

I strongly encourage you to approve this application.

Sincerely,

Kevin Ryan

Hartford, CT 06134-0308

Dear Ms. Martone:

As senator of the 33rd district, I am writing to express my support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

L+M's proposed affiliation with Yale makes sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and should expand their accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation, and employees should benefit as well.

If this affiliation supports a higher quality of care at lower cost for a greater number of patients, as indicated in early reports, I strongly encourage you to approve this application.

Sincerely,

Art Linares

 P.O. Box 340308
 Hartford, CT 06134-0308

Dear Ms. Martone:

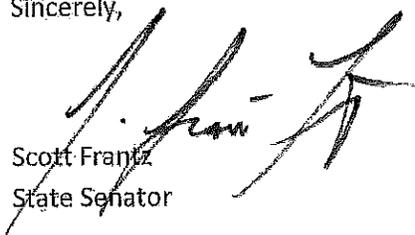

As elected officials representing the Greenwich region, we are writing to express our strong support for the proposed affiliation of Lawrence + Memorial Health (L&M) with the Yale New Haven Health System (YNHHS).

Greenwich Hospital joined the Yale New Haven Health System as an Affiliate in 1998 to ensure strong, local, full-service health care for residents of lower Fairfield County and Westchester County. The Affiliation provided Greenwich with a collaboration across a broad geographic area while remaining a separate organization with our own local Board of Directors. And, 17 years later, it has proven to be a cost-effective and clinically strong relationship.

We understand that healthcare is changing rapidly and believe that an affiliation between L+M and YNHHS will enhance access to high quality healthcare. As your agency reviews the proposed affiliation, we encourage you to consider the interests of patients in the New London region who will directly benefit from this partnership as do our constituents.

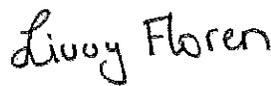

We believe there is exceptional value in this partnership and we urge its approval.

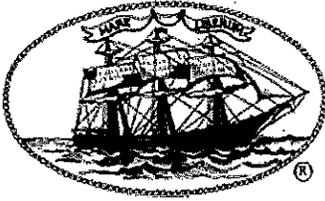

Sincerely,

Re: L + M Healthcare, Inc. Affiliation With Yale New Haven Health System

Dear Ms. Martone:

As a three term New London City Councilor, and the immediate past president of the City Council, I am writing to support the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

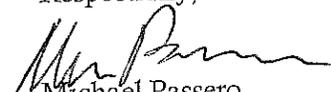

L+M Healthcare is the parent corporation for Lawrence + Memorial Hospital here in New London, along with the Visiting Nurse Association of Southeastern Connecticut, the L+M Medical Group and Westerly Hospital. If L+M joins Yale New Haven Health System our two local hospitals would join Greenwich Hospital, Bridgeport Hospital and Yale New Haven Hospital in the nationally renowned Yale network.

I support this affiliation with the assurance that L+M will remain our community hospital and with the realization that a small independent hospital cannot compete in today's health care world. I support this affiliation with the assurance that L+M will remain nonprofit and continue its tradition of public service, community outreach and charitable care. My support is also based on the understanding that L+M will continue to respect the collective bargaining rights of its employees and based on L+M's pledge to continue to honor all contracts and agreements negotiated with its unions. L+M has also agreed to observe any and all future state laws that require it and/or its affiliates to pay municipal property taxes to the City of New London.

Through the years, L+M Hospital has been a valuable partner with the City and has supported a variety of community events and activities and sponsored a number of programs and services here in New London and throughout its service area. The prospect of L+M's community investment, technology and clinical offerings being strengthened by way of this affiliation is most promising.

With all of that in mind, I hope you will approve this application as quickly as possible.

Respectfully,

Michael Passero

August 20, 2015

Dear Ms. Martone:

I am writing to express my support for the proposed affiliation of Lawrence + Memorial Health with the Yale New Haven Health System which includes Bridgeport Hospital that is located within our community.

I recognize that healthcare is evolving rapidly and that an affiliation between L+M and YNHHS will drive access to high quality healthcare in the most efficient manner possible. As your agency reviews the proposed affiliation, we encourage you to consider the interests of patients in our region who will directly benefit from this partnership. I view the affiliation of L+M with Yale New Haven Health System as a critically important way to preserve access to services for patients throughout the State. Building upon a long and significant history of collaboration and alignment, we see exceptional value and unique synergies in this partnership.

This affiliation will allow L+M and YNHHS and its affiliated hospitals to continue to manage an extraordinarily complex environment and allow these organizations to deliver exceptional care to the patients in our region. We are confident that a thorough review of this affiliation will reveal the strong benefits of this affiliation and we urge its approval.

Sincerely,

Christopher Rosario
 State Representative

August 7, 2015

Ms. Kimberly R. Martone, Director of Operations
Office of Health Care Access
410 Capitol Avenue
Hartford, CT 06134

Dear Ms. Martone:

I am writing as Chairman of the Mohegan Tribe of Indians, which owns – among other entities – the Mohegan Sun Casino in Uncasville, and employs more than 6,000 thousand people there. This letter is in strong support of the proposed L+M Healthcare, Inc./Yale New Haven Health System affiliation that will be considered by the Connecticut Office of Health Care Access in the coming months.

Many of our employees receive their healthcare from L+M affiliates – whether it is New London-based Lawrence + Memorial Hospital, Westerly Hospital in Rhode Island, the Visiting Nurse Association of Southeastern Connecticut and/or a physician from Lawrence + Memorial Medical Group. The quality of care our employees and Tribal members receive is unfailingly compassionate and of high quality.

This affiliation would strengthen both organizations clinically, competitively and financially. This – along with Yale's committed capital investment of \$300 million over five years - would help strengthen our economy here in eastern Connecticut.

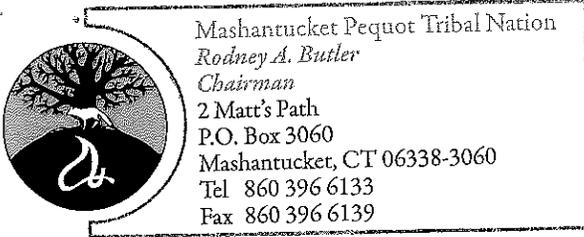

L+M does business with Mohegan Sun, having held two of its annual Spring Galas here – including the hospital's 100th anniversary celebration, which drew a record sit-down crowd of 2,000 people for the event. We proudly hosted L+M's Well Healed Woman in our same Uncas Ballroom in 2014, when more than 1,200 women heard financial advisor Suze Orman speak to eastern Connecticut's largest and longest running women's health conference. We are excited about the 2015 Well Healed Woman conference, which we expect will draw another large crowd to hear this year's keynote speaker, Rebecca Lobo. Additionally, the Mohegan Tribe actively supports L+M philanthropically in a variety of ways, including, but not limited to the use of our arena's Tribal skybox for popular fundraising events.

For these and so many other reasons, I hope you will look favorably on this application. It will benefit both of these quality healthcare providers and – more important – the hundreds of thousands of patients for whom they provide care each year.

Sincerely,

Kevin P. Brown, "Red Eagle"
Chairman

THE MOHEGAN TRIBE

August 7, 2015

 Director of Operations
 Office of Health Care Access
 410 Capitol Avenue
 MS#13HCA
 P.O. Box 340308
 Hartford, CT 06134-0308

Dear Ms. Martone:

As Chairman of the Mashantucket Pequot Tribal Nation, I am writing to urge you to approve the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

The Mashantucket Pequots, owners of Foxwoods Resort Casino and employer of thousands of employees at the casino, Tribal government and other entities, use L+M Healthcare, Inc., more than any other healthcare system. Many of our employees receive their healthcare from Lawrence + Memorial Hospital in New London, Westerly Hospital just across the border in Rhode Island, physicians associated with the Lawrence & Memorial Medical Group and/or the Visiting Nurse Association of Southeastern Connecticut.

L+M's satellites, including its primary care facility in nearby Pawcatuck and the Pequot Health Center just off Interstate 95 in Groton, make access to quality healthcare that much more convenient for Tribal member, our employees and their families.

Over the years, the Mashantucket Pequot Tribal Nation has been a proud supporter of L+M's Joslin Diabetes Center and of the hospital itself. By the same measure, we have welcomed L+M's support for our annual Drive for Diabetes and Education fundraisers. For the past two years, L+M has held its annual Spring Gala in the ballroom of our fox Tower facility, drawing nearly 1,000 supporters to our property.

Kimberly R. Martone

-2-

August 7, 2015

If this proposed affiliation is approved, we are also very encouraged by Yale's promise to deliver \$300 million to this region in capital investment. As you may know, our economic recovery in eastern Connecticut has lagged somewhat behind the rest of the state, and we are facing even more challenges in the future. Such an infusion will have a very positive impact for a region that needs it.

I hope you will look favorably on this application and approve it after learning that there is very strong support for it among a broadly diverse cross section of people from throughout our region. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Rodney Butler". The signature is written in a cursive style with a long, sweeping underline.

Dear Ms. Martone:

As an elected official from Greater New Haven, I am writing to express my support for the proposed affiliation of Lawrence + Memorial Health (L&M) with the Yale New Haven Health System.

I understand that healthcare is evolving rapidly and that an affiliation between L+M and YNHHS will enhance access to high quality healthcare in the most efficient manner possible. As your agency reviews the proposed affiliation, I encourage you to consider the interests of patients in the region who will benefit from this partnership.

The affiliation of L+M with Yale New Haven Health System is an important way to preserve access to services for patients throughout the State. Building upon a long history of collaboration between Yale-New Haven Hospital and L&M, I see value in this partnership.

This affiliation will allow both L+M and YNHHS, and its affiliated hospitals (Bridgeport, Greenwich and Yale-New Haven), to continue to manage an extraordinarily complex environment and allow these organizations to deliver exceptional care to the patients in our region.

I am confident that a thorough review of this affiliation will reveal the strong benefits and urge its approval.

Sincerely,

Gayle Slossberg
 State Senator, 14th District

Dear Ms. Martone:

As Mayor of the Town of Groton, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System. In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility — particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

I strongly encourage you to approve this application.

Very truly yours,

Rita M. Schmidt
Mayor

Dear Ms. Martone,

I am in strong support of Lawrence+Memorial Hospital's application to establish an affiliation with Yale New Haven Health System. Hospitals and health care providers are undergoing a rapidly changing regulatory environment as well as uncertainties with the level of reimbursement rates both federal and state.

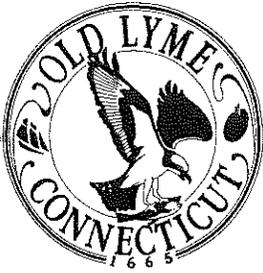

L+M and YNNHS have an existing partnership in a number of clinical services such as radiation oncology and neonatology. Physicians and clinicians from both health care institutions have worked together to help individuals with their medical needs and having a full affiliation will lead to continuity and lead to long-term stability for both hospital systems. Our region will benefit greatly and our residents from the approval of this application.

I strongly encourage you to approve this application.

Sincerely,

Kathleen M. McCarty

Dear Ms. Martone:

As Mayor of the City of Bridgeport, I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

I have seen first-hand, the benefits of the affiliation between Bridgeport Hospital and Yale New Haven Health System. Under the proposed affiliation agreement that is before you, YNHHS has committed to invest in the southeastern Connecticut and western Rhode Island region. This investment is built upon the enormous efficiencies that can be generated through this partnership. That is good for L+M. It is good for YNHHS. Most importantly, it is good for patients.

As you know, healthcare is undergoing significant change across our country and across our state. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will provide L+M with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and result in significant investments in clinical programs in southeastern Connecticut and western Rhode Island.

I encourage you to approve the affiliation. Thank you for the opportunity to offer my support.

Sincerely,

 Bill Finch

 PO Box 340308
 Hartford, CT 0613400308

Dear Ms. Martone:

I am writing as the State Representative whose district includes two of the towns in Lawrence & Memorial Healthcare, Inc.'s primary service area – Stonington and North Stonington. Please include me among the many people from the public and private sectors who are on record in support of L+M's proposed affiliation with Yale New Haven Health System.

While my district is in Connecticut, this affiliation would be doubly beneficial for my constituents, the vast majority of whom receive their care at Westerly Hospital, located just over the Rhode Island border, and/or L+M Hospital, based in New London. L+M also has a primary care facility, conveniently located off Route 2 in the Pawcatuck section of Stonington, and some of my constituents are also patients of another L+M affiliate, the Visiting Nurse Association of Southeastern Connecticut.

L+M and Yale are already clinical partners in five areas of care: cancer, cardiac, stroke, neonatal and pediatric emergency. A full affiliation for L+M with the world-class system that is Yale New Haven is logical, and I hope you will approve the application for full affiliation.

Very truly yours,

Diana

Dear Ms. Martone,

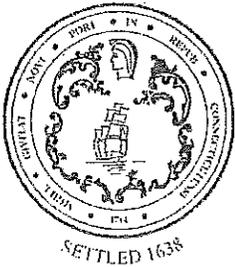

I am writing in strong support of the proposed affiliation between Yale New Haven Health System and L+M Healthcare, Inc., which includes L+M Hospital, Westerly Hospital, Visiting Nurse Association of Southeastern Connecticut and L+M Medical Group. In the rapidly evolving healthcare regulatory environment we are working within, coupled with the increasing fiscal pressures on both the federal and state level on our regional and community hospitals, this is the best avenue to ensure the continued viability of L+M Healthcare and their affiliates in providing services to our residents.

L+M Healthcare already partners with Yale New Haven Health System in a number of clinical areas, including neonatology, pediatric emergency medicine and vascular surgery. Based on this partnership, physicians, clinicians and staff at both hospital systems already have strong professional ties to ensure the highest quality of care and treatment for our residents. With a full affiliation and partnership L+M Healthcare will be in a better position to respond to further changes in both the fiscal and regulatory environments, and draw upon the knowledge and experiences of Yale New Haven Health System to assist residents in Southeastern Connecticut.

I appreciate your favorable consideration and review of their application.

Regards,

Mike France

Dear Ms. Martone:

Having proudly served a decade representing the people of New London in the House of Representatives, six years as a New London City Councilor and one year as Mayor, I am writing to express my strong support for the proposed affiliation between L+M Healthcare, Inc., and Yale New Haven Health System.

Having represented and interacted with the people of New London, having heard of their needs and preferences for many years, I believe I am qualified to determine what is good for our city. I firmly believe that this affiliation, with a promised capital investment by Yale of some \$300 million for our region, would be very good indeed. Such an investment will strengthen L+M and Westerly Hospitals and our region's economy.

I would like to make it clear that my support for this affiliation is contingent on two promises:

- First, that L+M and its affiliates will comply with any future state law as it pertains to payment of local property taxes to the City of New London, and;
- Will continue to honor and abide by all negotiated contracts with the various unions that represent the dedicated employees of L+M and its affiliates.

Over the years, L+M has been a good corporate citizen, working hard to provide access to care for everyone, including those to whom care is traditionally not readily accessible. It has supported various local charities that are consistent with its mission. The tens of millions of dollars L+M provides annually

in the way of community investment (CBISA – Community Benefit Inventory for Social Accountability) has improved the quality of life for thousands of people in my district and throughout the region.

Please support this proposed affiliation for the benefit of both institutions, but more important, for the many people they will continue to serve.

Very truly yours,

Dear Ms. Martone:

I am writing to express my support for the proposed affiliation between Lawrence and Memorial Healthcare, Inc. and Yale New Haven Health System.

With the constantly changing healthcare environment, it becomes increasingly difficult for non-profit community hospitals to remain independent. The proposed merger between Lawrence and Memorial and Yale New Haven makes sense, and would greatly benefit both institutions and patients in our state.

As a New London-based hospital, L&M already partners with Yale in at least five clinical areas:

- radiation oncology,
- neonatology,
- telestroke,
- pediatric emergency medicine,
- and invasive cardiology/angioplasty and vascular surgery.

From this partnership, there has been an established track record of staff from both institutions being able to work productively with each other. A complete merger will allow for both organizations substantially to expand their accessibility, especially to under-served populations. Combining resources will also make it easier to recruit and retain physicians in all areas of care, and perhaps most importantly, both organizations will be more financially stable from the affiliation.

For these reasons, I strongly encourage you to act favorably on this application.

Very truly yours,

Ed Jutila

PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

I write on behalf of the Board of Directors of the Chamber of Commerce of Eastern Connecticut to express our enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally underserved. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve.

The Chamber of Commerce of Eastern Connecticut strongly encourages you to approve this application.

Very truly yours,

Tony Sheridan
President and CEO

About the Chamber of Commerce of Eastern Connecticut:

The Chamber of Commerce of Eastern Connecticut is a collaborative of business and community leaders dedicated to securing and enhancing the economic vitality of eastern Connecticut. The Chamber works to create value for its members and the region by providing forums for business networking, leadership and discussions of issues that affect the region; providing opportunities for members to showcase their products, services and accomplishments; helping small businesses succeed through educational programs; and working to reduce the costs of doing business in Connecticut. For more information, visit www.ChamberECT.com.

Dear Ms. Martone:

I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Yale New Haven Health System is a major employer in our region and one of the top five employers in the State of Connecticut. Its investment in Lawrence + Memorial will provide the ongoing ability to drive healthcare costs down since the investment is built upon the enormous efficiencies that can be generated through this partnership. That is good for L+M. It is good for YNHHS. Most importantly, it is good for patients.

I understand that healthcare is undergoing significant change. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will provide L+M with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and feature significant investments in clinical programs in both states.

Thank you for the opportunity to offer my support. I believe this affiliation should be approved.

Sincerely,

Anthony Rescigno

Dear Ms. Martone,

As President of the Greater Mystic Chamber of Commerce and on behalf of our Board of Directors I am writing to express our enthusiastic endorsement for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

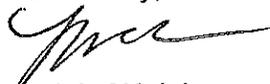

In the rapidly and ever-changing health care environment, it has become increasingly difficult for not-for-profit community hospitals to remain independent. L+M has sustained their independence for over a century and Westerly Hospital had remained independent as well for over 88 years prior to their acquisition by L+M.

L+M's proposed affiliation with Yale would be very compatible. The New London based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/ angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility- particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve and the Greater Mystic Chamber of Commerce is in complete agreement.

I strongly encourage you to approve this application.

Dear Ms. Martone:

I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. This affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Under the affiliation agreement, YNHHS has committed to invest in the southeastern Connecticut and western Rhode Island region. This investment is built upon the efficiencies that can be generated through this partnership. This is good for L+M and YNHHS, but more importantly, it is good for patients.

I understand that healthcare is undergoing significant change. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right answer. The partnership will allow L+M to continue to address community health issues, and significant investments will be made in clinical programs. Additionally, the affiliation would include the installation of the Epic electronic medical record system – another added benefit for patients.

I believe this proposed affiliation should be approved. Thank you for the opportunity to offer my support.

Sincerely,

July 31, 2015

Dear Ms. Martone:

As President of the New London Rotary Club and the Hannah Hafkesbrink Professor of Hispanic Studies, Connecticut College, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System. The New London Rotary Club has long enjoyed a successful relationship with the L + M Hospital administration and staff, in addition to a thriving relationship with the VNA of Southeastern Connecticut, and see the proposed affiliation as a positive move for our community.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

For the past 19 years, I have proudly served as Executive Director of the Greater Westerly-Pawcatuck Area Chamber of Commerce, a unique two-state regional business organization. During that time, I have witnessed many exciting new initiatives, industry expansions, and strategic alliances, but none more promising than the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System. Please consider this letter as a pledge of strong support for the proposed affiliation.

As you are no doubt aware, the healthcare landscape is constantly and rapidly shifting, and the challenges faced by independent community hospitals are almost insurmountable. Yet despite the numerous and complex issues threatening our independent hospitals, the residents in our community expect, and deserve, for L+M Hospital and Westerly Hospital to “thrive” rather than just “survive” while meeting the health care needs of the region.

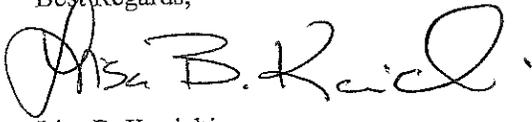

The proposed affiliation between L+M Healthcare and Yale is a prudent partnership that would place our local hospitals in the optimum position to meet the health care needs of our region long into the future. L+M Hospital, located in New London, CT, already enjoys an excellent working affiliation with Yale in at least five clinical areas: telestroke, pediatric emergency medicine, radiation oncology, neonatology, invasive cardiology/angioplasty and vascular surgery. The personnel from both institutions have already established mutual respect, lines of communication and positive interpersonal working relationships with one another. A full affiliation will only improve both organizations and expand their already substantial accessibility, particularly to populations that are traditionally under-served. Additionally, the new affiliation will aid in efforts to recruit and retain physicians in all areas of care, something that has been an ongoing challenge for our local hospitals. Both organizations will be strengthened financially from their affiliation, and the public will be better served.

In the interest of full disclosure, you should know that I have a long standing relationship with L + M Hospital and a somewhat unique perspective. My mother worked in Human Resources for over 20 years and took great pride in the mission of the organization. My first job was at L & M Hospital, in the

Dietary Department, when I was age 16, followed by a clerical position in Outpatient Psychiatric Services. I have given birth at both L+ M Hospital and Westerly Hospital, and said goodbye to my father who was a mere 50 years old, and passed away there after a period of quality, compassionate care. I have served for the last 2 years on the Board of L + M Healthcare. Simply put, the well being of this health care institution matters to the region, and it matters deeply to me personally.

I am confident in the representatives from both organizations that have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I wholeheartedly agree with their recommendation, and strongly encourage you to approve this application.

Best Regards,

Hartford, CT 06134-0308

Dear Ms. Martone:

As a community partner I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Leeway, with support from Yale New Haven Health, has had a significant impact on the lives of underserved families in our region. Under the proposed affiliation agreement that is before you, YNHHS has committed to invest in the southeastern Connecticut and western Rhode Island region. This investment is built upon the enormous efficiencies that can be generated through this partnership. That is good for L+M. It is good for YNHHS. Most importantly, it is good for the communities they serve.

As you know, healthcare is undergoing significant change across our country and across our state. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will provide L+M with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and result in significant investments in clinical programs in southeastern Connecticut and western Rhode Island.

I encourage you to approve the affiliation. Thank you for the opportunity to offer my support.

Sincerely,

Heather Aaron
Executive Director

Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
P.O. Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

As President and CEO of the Greenwich Chamber of Commerce, I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System (YNHHS). I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Under the affiliation agreement, YNHHS has committed to offer the same high-level patient care that it currently offers to its affiliated hospital communities, including Greenwich Hospital. Additionally, many Connecticut residents rely on hospitals for good, stable jobs. The type of affiliation that is proposed with YNHHS and L+M can only help to ensure that residents not only have access to exceptional care, but also to jobs that will remain in the community.

It is evident that the healthcare industry is undergoing significant change. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will reduce costs, help to manage population health, provide the IT infrastructure to offer seamless care through the implementation of the EPIC electronic medical record system, and will include significant investments in clinical programs.

Thank you for the opportunity to offer my support. I encourage you to approve the affiliation with Yale New Haven Health System and Lawrence + Memorial Healthcare.

Sincerely,

A handwritten signature in black ink that reads 'Marcia O'Kane'. The signature is written in a cursive style.

Marcia O'Kane
President and CEO

August 10, 2015

Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
P.O. Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

I am writing to express my support for the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. As a leader in the non-profit arena and a significant developer of affordable housing within Coastal Fairfield County and, particularly within the city of Bridgeport, the quality and accessibility of health care is certainly always on the top of our list of concerns. We are confident that this affiliation will enable both of the organizations involved to continue providing access to high quality care in the most efficient and effective manner possible.

As I understand it, the affiliation agreement will lead the Yale New Haven Health System to invest in southeastern Connecticut and western Rhode Island, building upon efficiencies that can be generated through this partnership. I would expect this to be positive for both organizations and, more importantly, for patients.

This is a time of significant change for many aspects of the healthcare systems and I understand that hospitals and others must seek innovative solutions to enhance their capabilities, treat changing and growing populations while continuing to expand and invest in clinical programs. It seems evident that this affiliation will enable YNHHS and L + M to embrace these needed changes will also resulting in IT infrastructure improvements, including the implementation of the Epic electronic medical record system.

I appreciate the opportunity to offer my support and hope that this affiliation will be approved.

Sincerely,

Stuart D. Adelberg

MS#13HCA
PO Box 340308
Hartford CT 06134-0308

Dear Kimberly,

I am writing this letter to express my support of the Lawrence and Memorial Hospital and Yale New Haven Hospital's affiliations.

My name is John Antonino, I am the principle of the Antonino Auto Group of Southern Connecticut. I have been in business in Connecticut for 50 years and have had many pleasurable experiences with health needs at Lawrence and Memorial Hospital. My four children and twelve grandchildren were all born at Lawrence and Memorial Hospital. I also have had four occasions with health issues that doctors and staff have helped me though, all with success. Both of my parents were also treated there in the last days of their lives, and always with respectful care.

My business employs 650 people at all skill levels, their extended family member's total over 2000 individuals. Most of our employees have health insurance coverage through us, and all enjoy the benefits of Lawrence and Memorial Hospital.

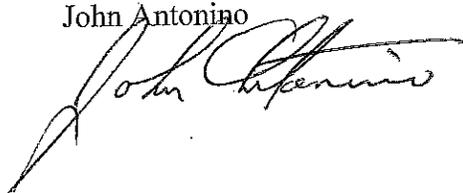

It is apparent to me that Lawrence and Memorial Hospital has always endeavored, though the years, to provide the people of Southeastern Connecticut with the most modern and up to date medical and facilities possible. An affiliation with Yale New Haven Hospital can only improve the reputable status of Lawrence and Memorial Hospital has earned, particularly the Cancer Center which is also state of the art.

It would be an injustice if affiliation of these two fine establishments were not possible. If allowed, the union would quite possibly make them the best in New England.

Thank you for your consideration.

Sincerely,

John Antonino

FROM THE DESK OF

Kimberly R. Martone
Director of Operations
Office of Health Care Access
MS#13HCA
PO Box 340308
Hartford, Ct 06134-0308

Dear Ms. Martone:

As a Corporator of Lawrence and Memorial (L+M) Hospital, Chair of the L+M Centennial Capital Campaign, and life-long resident of Eastern Connecticut, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

For more than one-hundred years L+M has been a not-for-profit community hospital. Similarly, Westerly Hospital has been one for 88 years before it's recent acquisition by L+M. In the rapidly changing healthcare environment, however, it has become increasingly difficult for such institutions to remain independent. What is necessary is for L+M Healthcare to be strengthened so it can continue to serve the community. I believe the affiliation with Yale New Haven Hospital System fills this need.

L+M's proposed affiliation with Yale makes good sense. Our New London based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with one another. A full affiliation will only improve both organizations and expand their already substantial accessibility - particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be stronger financially from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded that this affiliation would be the best outcome for bother institutions and the communities they serve. I support this conclusion.

I strongly encourage you to approve this application.

Re: L+M Healthcare – Yale New Haven Health System application
for full affiliation

Dear Ms. Martone:

As CEO for Child and Family Agency, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent. As a major provider of both primary medical care through its school-based health centers, and office-based child guidance, intensive in-home, and school-based behavioral health services, Child and Family Agency (CFA) has perennially relied upon L+M Hospital for caring and well-coordinated services, particularly those at levels of care not directly provided by CFA. Steady, quality continuation of this essential collaborative work between our two organizations depends upon sustainability, fiscal and otherwise, and we are convinced that full affiliation between L+M Healthcare and the Yale New Haven Health System will well serve that end.

Child and Adolescent Psychiatry is a particular service area that warrants special consideration in support of this proposed affiliation. The severe shortage of C & A Psychiatry statewide is a chronic problem that is currently receiving tremendous attention by the relevant State agencies, especially DCF and DMHAS; by the legislatively established Behavioral Health Partnership Oversight Council on which I serve; by the Governor's Sandy Hook Advisory Commission; by the legislature in general; and by consumer groups.

This shortage is chronically felt more severely in Southeastern Connecticut than in any other region of the state. While not-for-profit employers such as L+M and CFA work to attract Psychiatrists by pitching quality of life factors and salaries gauged against cost of living, the lack of a teaching hospital in this region is a major rule-out factor for psychiatrists who typically place high value on collegial contact, professional development, and teaching opportunities. As a result, recruitment, retention and service availability all suffer. Recent initiatives such as the State's funding of Psychiatry Consultation hubs are well-intentioned, but will do nothing to solve the root problem. While it is premature to predict any particular impact of L+M/Yale affiliation on this issue, affiliation will open up a hopeful line of discussion and creative problem solving, since Yale is a teaching hospital system, and so there are a host of ways in which this linkage might be advantageous for practicing psychiatrists. As a behavioral health clinician and administrator who has practiced in Southeastern Connecticut since the mid-1980's, this proposed affiliation is the first fundamental sign of hope I have seen for impacting this issue, and so I urge the Office of Health Care Access to approve the L+M/Yale application.

Sincerely,

Richard D. Calvert

Hartford, CT 06134-0308

Dear Ms. Martone:

As a current corporation member of L+M Healthcare, and a former chairman of L+M Hospital's board of directors, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century, and Westerly Hospital had for 88 years before its acquisition by L+M a couple years ago.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve.

At L+M's recent mid-year corporation meeting I was also persuaded of the benefits of the proposed affiliation during presentations by the current L+M Board Chair and the CEO's of both L+M and Yale, and I strongly encourage your approval.

Sincerely,

Thomas R. Castle

Dear Ms. Martone:

As Executive Director of the Children's Museum of Southeastern Connecticut,, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

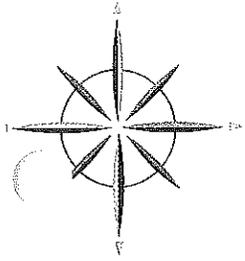

In addition, as the head of a not-for-profit organization, I know only too well what an important philanthropic role Lawrence and Memorial Hospital plays in our local community. A healthy and successful hospital is vital, not only for the physical health of the population it serves, but also for the financial health of local agencies that rely on its support; the proposed affiliation will help ensure that this support continues.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

I strongly encourage you to approve this application.

Very truly yours,

Dear Ms. Martone:

I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

I understand that representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

I strongly encourage you to approve this application.

Very truly yours,

Hartford, CT 06134-0308

Dear Ms. Martone:

As President and CEO of the Bridgeport Regional Business Council, I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System (YNHHS). I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Under the affiliation agreement, YNHHS has committed to offer the same high-level patient care that it currently offers to its affiliated hospital communities. Oftentimes, a hospital is the largest employer within a host community, and many residents rely on them for good, stable jobs. The type of affiliation that is proposed here can only help to ensure that residents not only have access to exceptional care, but also to jobs that will remain in the community.

It is evident that the healthcare industry is undergoing significant change. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will reduce costs, enhance capabilities to manage population health, provide the IT infrastructure to offer seamless care, and feature significant investments in clinical programs.

Thank you for the opportunity to offer my support. I believe this affiliation should be approved.

Sincerely,

**Support Letter for Yale-New Haven Hospital & Yale New Haven Health System
Re: Lawrence & Memorial Hospital Affiliation**

Dear Ms. Martone:

As a community partner I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare (L+M) with the Yale New Haven Health System. I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Under the affiliation agreement, YNHHS has committed to invest in the southeastern Connecticut and western Rhode Island region. This investment is built upon the enormous efficiencies that can be generated through this partnership. That is good for L+M. It is good for YNHHS. Most importantly, it is good for the communities they serve. I can attest to this because our organization, the West River Neighborhood Services Corporation (WRNSC), has benefited greatly from our partnership with Yale New Haven Health.

As you know, healthcare is undergoing significant change across our country and across our state. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will provide L+M with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and result in significant investments in clinical programs in southeastern Connecticut and western Rhode Island.

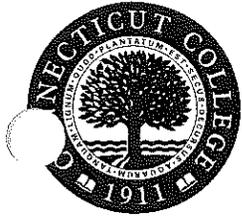

I encourage you to approve the affiliation. Thank you for the opportunity to offer my support.

Sincerely,

A handwritten signature in black ink, appearing to read "Stacy R. Spell", is written over a horizontal line.

Ms. Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capital Avenue, MS#13HCA
PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

As a citizen of southeastern Connecticut and Vice President for Administration at Connecticut College, I have had the unique experience and pleasure of being involved with Lawrence + Memorial Healthcare, Inc. and its affiliates, staff, administration, medical staff, and operations for nearly all of my 15 years in Connecticut – including 14 years as a Corporator, 12 as a Board member and four as Chair of the Board – I believe I am qualified to write authoritatively on the application for L+M's affiliation with Yale New Haven Health System.

Like other healthcare systems of similar size and capability, L+M faces more fiscal, operational and competitive challenges than at any time in its 103-year history. Reduced Medicare and Medicaid reimbursement, the imposition and raising of taxes, and stepped-up competition from other providers have limited L+M's ability to advance and expand as much as it would like.

In spite of this, L+M has remained remarkably vibrant and competitive and retained its excellent standing in the community. In 2013, my final year as Board Chair, we executed the complex and historic acquisition of Westerly Hospital, just across the Rhode Island border. Despite its fiscal challenges, L+M has continued to support our community with tens of millions of dollars in audited community investments over recent years. Whether helping to sustain New London's regional Homeless Hospitality Center, endowing a nursing faculty position at Three Rivers Community College or funding scholarships for the Dr. Martin Luther King, Jr., Scholarship Trust Fund (of which I am former Board Chair), L+M has never shirked its responsibility as a community pillar.

The prospect of a full affiliation with Yale New Haven, however, offers exciting new possibilities and would strengthen L+M and Yale immeasurably. These two high-quality organizations already partner in a number of clinical areas, demonstrating an interactive chemistry that would make their full affiliation a natural progression.

I strongly encourage you, after your own examination, to approve this application, which will only make both organizations stronger for the patients and communities they serve in so many vital ways.

Respectfully,

Ulysses B. Hammond
Vice President for Administration

PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

I am writing to express Dominion's strong support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System. Dominion is one of the nation's largest producers and transporters of energy. In Connecticut, we own and operate the Millstone Power Station in Waterford, the Dominion Bridgeport Fuel Cell facility in Bridgeport and the Somers Solar Center in Somers.

The healthcare industry, like the energy and utilities industry, is experiencing an historic time of change and opportunity. To best serve their patients and customers, both industries need to be financially sound and willing to adapt to current needs. It has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M's proposed affiliation with Yale makes great sense. As you know, L+M already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. A full affiliation will only improve both organizations and expand their already substantial accessibility.

Both organizations will be financially healthier with full affiliation and thus better positioned to serve their patients and communities. This is of particular importance to Dominion because we employ 1100 people in Southeast Connecticut at our Millstone Power Station. Our employees and their families count on a strong L+M for their healthcare needs.

Representatives from both organizations have completed extensive due diligence and concluded, along with their community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. Dominion wholeheartedly agrees.

Dominion strongly encourages you to approve this application.

Very truly yours,

Hartford, CT 06134-0308

Dear Ms. Martone:

I am honored to have this opportunity to write you in support of the proposed affiliation of Lawrence Memorial Healthcare with Yale New Haven Health System. I firmly think that this affiliation will be positive for the communities these organizations serve, while allowing both to continue providing access to quality healthcare in the most efficient and effective manner possible.

Concepts for Adaptive Learning is a non-profit organization based in New Haven. With steadfast support from Yale New Haven Health System, over the past twelve years, our organization has had a significant impact on the academic achievement and quality of life of underserved children and families throughout the Greater New Haven region.

Under the proposed affiliation agreement that is before you, Yale New Haven Health System has committed to investing in the southeastern Connecticut and western Rhode Island regions. This investment is built upon the enormous efficiencies that can be gained through this affiliation. This is positive for both Lawrence Memorial Healthcare and Yale New Haven Health System. But more importantly, it will be positive for the communities they serve.

With the need for quality healthcare expanding and undergoing significant change across our country and our state, innovative solutions to the challenges facing hospitals and healthcare systems are needed and the right course of action. The affiliation will provide Lawrence Memorial Healthcare with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and result in significant investments in clinical programs in southeastern Connecticut and western Rhode Island.

I encourage you to approve this proposed affiliation. Thank you for hearing from a community partner that understands the benefits this affiliation can achieve for the masses of people they serve.

Sincerely,

Curtis M. Hill

Dear Ms. Martone:

I am writing as a second-generation major donor and member of the Board of Directors at Lawrence + Memorial Healthcare, Inc., to express my strong support for L+M's proposed affiliation with Yale New Haven Health System.

My father, Chester W. Kitchings, Sr., served as Chairman of L+M's Board of Directors for three decades from 1954 to 1984. His involvement with the hospital and its affiliates was a true labor of love. Having inherited his passion for L+M, I was elected to the Board in 1999 and served until 2009, chairing the Finance Committee and continuing my family's philanthropic support.

I am still a member of the Finance Committee and, thus, intimately aware of the struggles L+M and other similarly-sized healthcare systems are experiencing as a result of many factors, including, but not limited to increased competition from physicians and other providers, imposition and raising of state taxes, and sharp reductions in Medicare and Medicaid reimbursement. These and other factors have taken an organization that has finished in the black for as long as anyone can remember and landed it in the red at the end of the past two fiscal cycles. A third consecutive year with a negative margin is likely again this year.

Becoming affiliated with Yale will strengthen L+M immeasurably in many ways. It will expand a clinical partnership that is already in place in at least five areas – cardiac, stroke, cancer, neonatal and pediatric emergency care. Yale's commitment to invest in capital, programs and services can only enhance and expand access to healthcare. The affiliation will be beneficial to both organizations, so I hope you will approve it as soon as possible.

Respectfully,

Chester W. Kitchings, Jr.

Kimberly R. Martone

Office of Health Care Access
410 Capital Ave, MS#13HCA
PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

I am writing to you to indicate my strong endorsement of the proposed affiliation of L+M Healthcare and Yale New Haven Health System. One might expect this in my current role as Board Chair of L+M, but I wished to insure the understanding of my deep belief in the combination of the two institutions.

I hope and also am certain that you will receive much in the way of supporting rationale. I will not dwell on that, but will focus on my experience and tenets. It's all about enhancing the health of the people in the communities that we serve, as well as the future sustainability of our institution.

I have had the good fortune to serve on the board of L+M for about 10 years. During this time I have become convinced that it is the most complex "business" that I have ever been associated with. In this extremely fluctuating environment, but in the simplest of terms, the Board and management of L+M Healthcare have collectively concluded after careful and considerable deliberation, that we are best capable of attaining and maintain our mission and vision by seeking an affiliation with Yale New Haven Health System. We know them well through long standing clinical partnerships and feel we are truly fortunate to have such a world class healthcare organization with which to align.

We greatly anticipate and appreciate your thoughtful consideration and ultimate approval of this application.

Very truly,

Alan Hunter
Chairman of the Board
L+M Healthcare

Dear Ms. Martone:

As Board Chair of Westerly Hospital, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

L+M acquired Westerly Hospital just more than two years ago. Westerly, losing as much as \$1 million per month in its worst financial times, had gone into receivership, its future was in doubt and our region feared the possibility of losing its valued community hospital. No sooner had the acquisition been completed on June 1, 2013, than Westerly Hospital's financial condition improved dramatically. In fact, with only one exception, our community hospital has finished each of the past 24 months in the black, and our future is bright – particularly if the proposed L+M/Yale affiliation is completed. We are excited about the prospect of becoming part of the Yale New Haven Health System.

L+M's proposed affiliation with Yale makes great sense. Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility – particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve. I agree.

I strongly encourage you to approve this application.

Very truly yours,

Kimberly R. Martone, Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
PO Box 340308
Hartford, Connecticut 06134-0308

Dear Ms. Martone:

As a former board member and chairman of L+M Healthcare, I wish to express my support for the proposed affiliation between L+M and Yale New Haven Health System. I served as chairman of the L+M board from 1984 through 1997 and as a board member from 1980 through 2005. I continue to serve on the finance committee. I have lived in New London all my life and have practiced law here for 42 years. I feel that I know both the hospital and the community well.

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century. We have seen other Connecticut hospitals partner to form larger, more stable organizations. Similarly, L+M's acquisition of Westerly Hospital has strengthened that hospital as a community asset.

L+M's proposed affiliation with Yale makes sense. L+M Hospital already partners with Yale in a number of clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. Physicians and other personnel from both institutions know, respect and interact well with each other. A full affiliation will improve both organizations and expand their already substantial accessibility, including to populations that have been traditionally under-served. The affiliation will also make it easier to recruit and retain physicians in our service area. Both organizations should be financially healthier from their affiliation. At the same time, L+M will retain its own local governing board to ensure that the best interests of the community are being met.

After extensive deliberation, the governing boards of both organizations and their administrative staffs have concluded that the affiliation is in the best interest of both institutions and the communities that they serve. I agree.

I urge you to approve this application.

Sincerely,

James C. McGuire

PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

I have volunteered in various capacities from candy striper to Vice Chair of the Board of Directors at Lawrence + Memorial Hospital for nearly 70 years, and am writing to express my strong support for L+M Healthcare's proposed affiliation with Yale New Haven Health System.

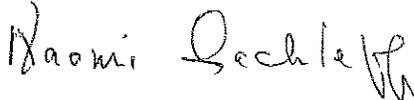

During seven decades of involvement with L+M, I have seen the hospital evolve from a medium-sized institution that provided virtually all of its care at the main campus in New London to a vast and comprehensive healthcare system with satellites and affiliates that serves hundreds of thousands of residents in eastern Connecticut, western Rhode Island and Fishers Island, NY.

The imposition and raising of taxes, cuts in Medicare and Medicaid funding, and stiffer competition from other healthcare systems and physicians, however, have landed L+M – like so many other independent hospitals – in a challenging financial condition.

Affiliating with Yale will not only bolster our finances, it will bring an infusion of \$300 million from Yale into programs, services and technology to our service area – a region that would benefit so much from it and from the ensuing collaboration with this larger, world-class healthcare system.

L+M already enjoys collaborative clinical relationships with Yale in at least five areas: cancer, stroke, cardiac, neonatal and pediatric emergency care. Pursuing a full affiliation with Yale makes great sense, and I hope you will look favorably on it and approve it.

Very truly yours,

Naomi C. Rachleff, New London
Director Emeritus
Lawrence + Memorial Hospital

Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
PO Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone:

As a member of the L+M Hospital Board, Chairman of the L+M Hospital Quality Council Committee, and President of the Dr. Martin Luther King Jr. Scholarship Trust Fund, a non-profit organization which provides scholarships to students of color in New London County, I am writing to express my enthusiastic support for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

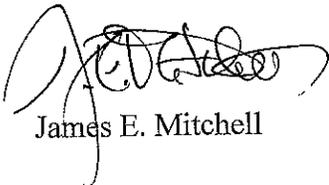

In the rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit, community hospitals to remain independent, as L+M has for more than a century and Westerly Hospital had for 88 years before its acquisition by L+M.

From my view, L+M's proposed affiliation with Yale makes great sense! Our New London-based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, tele stroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery. Personnel from both institutions know, respect, and have interacted very well with each other for several years. Now is the time! I believe that a full affiliation will improve both organizations by making it easier to recruit and retain medical personnel and substantially expand the accessibility of healthcare services especially to populations that are traditionally under-served. Both organizations will, also, be financially healthier from their affiliation.

Representatives from both organizations have completed extensive due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve.

I wholeheartedly support this affiliation, and strongly encourage you to approve this application.

James E. Mitchell

August 20, 2015

To whom it may concern,

Please accept this enthusiastic letter of support for the affiliation of the Yale/New Haven Health System with the L+M Healthcare organization. This potential relationship holds promise to better serve patients in Southeast CT and Southwest RI by enhancing the clinical offerings available, by improving the quality and consistency of that care, by improving the patients' experience and, not incidentally, by lowering the total cost of care.

Community hospitals have historically met the medical needs of their unique populations by paying close attention to the stated desires of their service areas tempered by what was financially feasible. This feasibility was often tied to the practicality of establishing standalone 24/7 clinical lines. Unfortunately, for many small and moderate sized community hospitals (like The Westerly Hospital in RI and the L+M Hospital in CT), the inability to support some full time service lines led to the unfortunate necessity for many patients of having to travel, often great distances, to larger medical centers. Almost without exception, these tertiary and quaternary medical facilities were also *very high cost centers* given their fixed costs of supporting academic programs, research and the burden of caring for the most medically complex patients in the region.

The result, high cost, inconvenient care with the potential for quality mishaps with regards to care coordination, care communication, redundant care or superfluous testing.

Enter into this environment the seismic shift in healthcare reimbursement that appropriately requires of providers an unrelenting focus on improving the value of care as opposed to simply extending more and more care. This new reality mandates that all healthcare organizations need to learn to treat patients in lower cost environments with similar or better quality than high cost settings. Moreover, they need to achieve proficiency in Population Health whereby the highest risk (and highest cost) patients are identified and preferentially offered more services and care to keep them, ideally, out of the high cost Emergency Department or inpatient care units.

Academic medical centers can't do this alone-they are too expensive. Community hospitals can't do it alone-they lack the organizational, analytical, clinical, human and capital resources to develop the Population Health infrastructure.

Only by locking arms (as opposed to locking horns) with each other can we meet the challenge of the IHI Triple Aim, and lower per capita cost while improving quality and the patients' experience. Combined with Yale, L+M is poised to do this successfully. As our mission is to "improve the health of this region," our patients will be the chief beneficiaries.

Many thanks for the consideration.

July 31, 2015

Dear Ms. Martone,

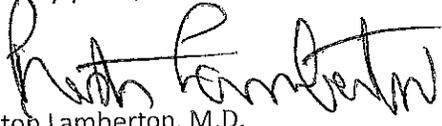

As chair of the Lawrence and Memorial Medical Group Board of Directors and as a practicing physician in Southeastern Connecticut, I am writing to express my strong support for the proposed and critically necessary affiliation between Lawrence and Memorial Healthcare, Inc. and Yale New Haven Health system.

In this rapidly changing healthcare environment, it has become increasingly difficult for not-for-profit community hospitals to remain independent, as Lawrence and Memorial has been for more than a century and Westerly hospital had been for 88 years before it was acquired by Lawrence and Memorial. In addition relatively small medical groups such as the Lawrence and Memorial Medical Group will have considerable difficulty providing necessary care for patients in our community unless aligned with a large healthcare system. In the past Lawrence and Memorial Hospital has partnered with the Yale Medical Group and Yale New Haven Hospital in a number of important clinical areas including radiation oncology, invasive cardiology and vascular surgery, neonatology, telestroke, and more recently pediatric emergency medicine. Patients in our community in Southeastern Connecticut have greatly benefited from the expertise of the Yale physicians. As a physician who has frequently referred patients to endocrine surgeons in the Yale Medical Group I know firsthand how important and crucial to my patients this clinical partnership has been. Clinicians from both healthcare organizations know, respect, and interact well with each other. A full affiliation will greatly improve both healthcare systems and expand the already substantial accessibility for healthcare in the region-particularly to populations that are traditionally underserved. As a physician I am convinced that the affiliation of Lawrence and Memorial Healthcare with the Yale New Haven Healthcare system will facilitate the recruitment and retention of quality physicians in all areas of care. Clearly this is critically important for continuing to provide the healthcare necessary for our patients in Southeastern Connecticut. And very importantly both healthcare systems will be financially healthier from this affiliation.

Representatives from both healthcare organizations have completed an extensive due diligence and have concluded, along with community elected Board of Directors and the physicians on the Board of Directors for the Medical Group that the affiliation with Yale New Haven Healthcare would be the best outcome for both organizations and the communities they serve. I completely agree with this assessment.

Based on the above I strongly encourage you to approve this application,

Very truly yours,

A handwritten signature in black ink, appearing to read "Preston Lamberton". The signature is fluid and cursive, with a prominent initial "P" and a long, sweeping underline.

Preston Lamberton, M.D.

Chair, Lawrence and Memorial Medical Group

PO Box 340308
Hartford, Ct 06134-0308

Dear Ms. Martone:

As a physician and surgeon at L+M Hospital for the past 25 years and current President of its medical staff I am writing this letter in support of the proposed affiliation with the Yale New Haven Health System.

Months of hard work and due diligence by both institutions have led to a comprehensive affiliation agreement which contains the aspirational goals and rationales for the desired relationship and which I am sure you have as part of this filing. I won't repeat them here except to say that they are widely supported by the medical staff at L+M hospital.

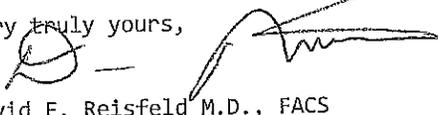

The physicians and other clinical providers at our community hospital have seen many changes in the health care system in recent years and are quite knowledgeable about those that are coming. We have been adept at negotiating these changes while still accomplishing the core mission of caring for the patients in our community. We also know that even more change is coming that will place even more demands on accomplishing the so called triple aim in medicine. This means improving patient experience, caring for populations of patients, and improving the value of care we provide. The collective wisdom of our physicians tells us that we will need to partner with a larger system to move into this future of health care and accomplish these aims which will allow not just the same care but vastly improved care.

The medical staff of L+M has considered the Yale system as its natural partner almost forever because of its deserved reputation as a worldwide leader in healthcare. We consider it a great fortune for us and our community to have them as our potential partner. Many L+M physicians historically came from the Yale system and we already have several stellar working clinical relationships.

Our medical staff is very diverse with physicians in many different configurations of practice. Employed and private practice. Hospital based and community based. Exclusive contract groups that provide our emergency room service, hospitalist care, pathology and anesthesia services. The proposed affiliation has the potential to affect all of us in as yet unknown ways. Despite this potential change to practitioners individually I can attest that the medical staff stands behind this initiative and I think this should speak volumes to the wisdom of the endeavor because it is the physicians and other clinical providers who have the expertise to understand that for L+M to continue to provide the best care to this community such an affiliation is necessary.

In addition to my confidence in the support of the medical staff for this initiative I have also been given the support of our Medical Executive Committee for the contents of this letter. If I can in any way provide you with more information regarding the physician perspective on the proposed affiliation please let me know.

Very truly yours,

David F. Reisfeld M.D., FACS
Medical Staff President and
the Medical Executive Committee of L+M Hospital

LETTER OF SUPPORT

To Whom It May Concern:

In my role as President of the Westerly Hospital Medical Staff, I have seen firsthand the difficulties that local community hospitals deal with on a day-to-day basis. As you know, our hospital went through receivership a few years ago, and was acquired by Lawrence & Memorial Hospital in June of 2013 after a lengthy regulatory process. L&M Hospital has made significant improvements - and even though the Westerly Hospital is finally making a slight profit the last few years - there is still a significant capital deficit to maintain the physical structure, and improve our current clinical offerings.

With further convulsions in the Healthcare industry, with unclear ACA mandates, nebulous insurance changes from year to year - and the growing focus on population health to better manage costs and care - it has become evident that as a health care system we need to be affiliated with a larger entity with further capital resources.

I support the planned merger of the L&M Healthcare system with the Yale New Haven Health system, because I believe it will improve the stability of our health industry in this region, it will allow for increased capital to improve our physical structures and increase our clinical reach, and it will bring tertiary/quarternary care to our region that is so desperately needed.

L&M Hospital already has a history of successful affiliation with the Yale New Haven Health system on several clinical endeavors, and I believe that this sets the tone for further collaborative efforts.

Thank you

A handwritten signature in black ink, appearing to read "Adrian Hamburger", is written over the typed name.

September 1, 2015

Dear Ms. Martone:

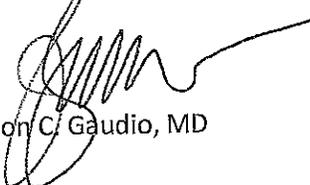

I am writing to send my unqualified endorsement of the proposed transition of the Lawrence and Memorial Medical Group to the Yale-affiliated New England Medical Group (NEMG)

I am a Cardiologist in a community hospital with professional aspirations first and foremost to provide for the health of this wonderful, diverse community of New London. I view the potential merger as a major step toward bringing needed healthcare resources into our county. By formalizing a relationship with NEMG, we are building upon and, indeed, formalizing an already existing strong bond. We already send the lion's share of our complex cardiac cases, for example, to our colleagues at Yale and its NEMG affiliate. Specifically, we rely heavily on the ability of NEMG for cardiac surgery, interventional cardiology, electrophysiology, and heart failure--areas in which we, a smaller hospital, could never realistically have the volume to support a competent cadre of physicians and staff.

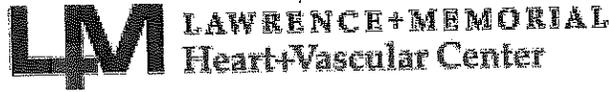

By formalizing such an arrangement, it would facilitate a more rapid spread of information, a vital key- and the one most often overlooked- aspect in the provision of care to our complex and varied patients.

Of course there are political considerations, and seemingly bigger administrative questions about which I frankly don't much bother because I know, in my heart of hearts, that the single most important issue is to be able to sit with my patient, as I did yesterday with Gillian, a 53 year old woman recently diagnosed with advanced idiopathic cardiomyopathy, and tell her that I have a solid relationship with the heart failure team, the interventional team and the electrophysiology team at Yale and that together we will communicate together and with her so that I can hopefully help her navigate through some very dangerous waters and into a safe harbor of good health. It is quite clear to me that by merging into NEMG and by having instant access to their medical records and instant access to the leading specialists in each field, I will be more easily able to deliver safely Gillian (and every other patient I see) to that safe harbor.

Sincerely,

Jon C. Gaudio, MD

September 3, 2015

To Whom it May Concern:

As medical director of the Lawrence + Memorial Heart and Vascular Center in affiliation with Yale New Haven Hospital, I have been privileged to see enormous growth in the cardiovascular services made available locally to the patient's of the greater New London region. We have been able to develop an incredibly successful interventional cardiology program providing primary and elective percutaneous coronary interventions for both emergency heart attack victims and more stable patients with coronary artery disease. We have enhanced vascular services locally providing both surgical and percutaneous treatment options. We are slated to have advanced electrophysiologic and heart failure services beginning this year.

We have not accomplished this alone, but rather over the past 8 years we have worked side-by-side with the cardiologists of the Lawrence + Memorial Medical Group. Together we provide state of the art advanced heart care locally and have developed timely and efficient mechanisms to provide tertiary and quaternary services at Yale New Haven Hospital when necessary. This has gone a long way to help streamline patient care and provide for very effective means of communication among the members of the patient's care team.

We are now poised to take a broader position and align ourselves even closer with our colleagues from Yale New Haven as we hope to transition to the Northeast Medical Group. Such a merger would allow even closer collaboration and better communication among all services including primary care and a variety of subspecialties. Sharing common resources would go a long way to improve efficiency in the overall delivery of healthcare to our region. I am certain this would go a long way to help develop other healthcare service lines in much the same way we have done with cardiology.

Sincerely,

A handwritten signature in black ink that reads 'Brian Cambi MD'.

Brian Cambi, MD, FACC, FSCAI
Medical Director

L+M Heart and Vascular Center in affiliation with Yale New Haven

September 1, 2015

To Whom It May Concern:

I am writing this letter to support the affiliation of the Yale/New Haven Health System with the L+M Health care organization. My support is based upon the potential for improved coordination of care and outcomes for our shared patients, as well as improved cost effectiveness of this care, which will lead to reduced costs for our patients.

It goes without saying that viability of our smaller community hospitals are challenged given our current healthcare environment, and these hospital systems are increasingly aligning with larger healthcare organizations. While this practical goal would clearly be served by the above-mentioned affiliation, it is important to understand the potential benefits to our patients.

Accurate and thorough information of the patient's medical history is obviously important for providing optimal care. Unfortunately, achieving this has historically proven challenging, largely due our fragmented system of care. Alignment between these systems of care would facilitate seamless communication between care providers, and thereby improve transitions of care, which would allow for better care coordination for these patients in conjunction with their medical homes.

It is also important to acknowledge that this relationship would afford the opportunity to provide services to patients at a lower cost. Community hospitals are able to provide many of the same services as tertiary or quaternary medical facilities at significantly lower cost. Additionally, improved care coordination allows us to identify, and therefore offer superior support, for our higher-risk patients. This brings the potential of reducing emergency department visits and hospital stays for these patients.

It is clear to me that alignment with the Yale/New Haven Health System will be of benefit to our patients. Given our model of patient-centric care at L+M Medical Group, I offer my unequivocal support for this relationship.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian L. Williams', is written over the word 'Sincerely,'.

Brian L. Williams MD
Medical Director of Informatics
L+M Medical Group

The Lawrence + Memorial Hospital primary service area includes the following Connecticut towns: New London, East Lyme, Lyme, Groton, Ledyard, Montville, North Stonington, Stonington, Old Lyme, and Waterford.

EXECUTIVE SUMMARY

Lawrence + Memorial Hospital (L+M) has been serving New London County, Connecticut for over 100 years and has been involved in ongoing community needs assessment and community health collaborations working to improve the health of area residents. In 2012, L+M contracted with Holleran Consulting, an independent research and consulting firm located in Lancaster, Pennsylvania, to execute a summary of trends and comparisons highlighted in their primary service area by the various regional and county assessments that have been conducted over the last five years. The following Connecticut towns are included in the primary service area: East Lyme, Groton, Ledyard, Lyme, Norwich, New London, North Stonington, Old Lyme, Stonington, and Waterford. (see map, page 2)

The assessment process included a review and analysis of data from four source types:

- Secondary Data compiled from the Centers for Disease Control (CDC), Local and National health departments, the U.S. Census, and Healthy People 2020)
- Community Needs Assessments conducted by the United Way of Southeastern Connecticut (2010), and New London County Health Collaborative (2007)
- Hospital discharge data from 2008 through 2010
- Key informant interviews (Winter-Spring 2012)

This report is not necessarily a detailed representation of all the data that has been collected, but rather highlights the data and conclusions worth noting throughout the previous reports and research. Areas that have raised concern in the past and in which there are continued negative health outcomes reported include:

- **Cancer**
Cancer incidences along with behavioral risk factors for cancer are higher in New London County than in Connecticut and in some instances the Nation.

- Sexually transmitted diseases
Chlamydia rates were high in L+M's primary service area.

- The percentage of adults who reported a BMI indicating obesity in New London County was higher than that reported for the state.

Asthma

- The incidence of Asthma within L+M's service area has remained constant over the previous three years, and is much higher than the rates set forth by Healthy People 2020.

Diabetes

- Diabetes incidence within the primary service area has steadily increased since 2008, and is much higher than the Healthy People 2020 goal.

Tobacco use

- The percentage of adults currently smoking is higher in New London County than recommended by Healthy People 2020, a fact that raises concern due to its link to so many chronic diseases such as cancer.

Health status and access to care

- Multiple sources report that residents of New London County face barriers to care such as delaying care due to cost and affordability of prescription medications.

Alcohol consumption

- The percentage of adults who reported excessive drinking is high in both the state of Connecticut and New London County when making comparisons to the National Benchmark. As with tobacco use, higher than normal alcohol consumption is linked to many chronic conditions.

These areas of concern can have negative ramifications in many aspects of the community's health care and hospital systems. Many of these issues are behavioral risk factors for a variety of chronic health conditions, which place a heavy burden on local emergency departments, primary care centers, and disease management services.

It is also important to note that social determinants such as income and education can significantly impact health status, health behaviors, and health outcomes. Research has shown that lower educational attainment, poverty, and race/ethnicity are risk factors for certain health conditions. The demographic profile of the L+M service area correlates with the higher incidence of the negative health outcomes listed above.

Upon completion of data collection and analysis, in May 2012 L+M invited a team of hospital and community representatives to a community health strategic planning session. The purpose of the strategic planning session was to share the results of the community health needs assessment, to discuss and prioritize community health needs, and to develop community health goals and strategies to guide the L+M Community Health Implementation Plan. Holleran Consulting also facilitated this session. An asset mapping process was also undertaken in order to identify existing resources, services, and initiatives in the hospital service area.

Based on the quantitative results of the CHNA study, the qualitative feedback garnered from key informant interviews, and the expert knowledge of the group participants, a list of community health needs was refined and prioritized. The following list outlines the key health issues that were identified and prioritized.

PRIORITIZED COMMUNITY HEALTH NEEDS

RANK
ISSUE

- 1 Overweight & Obesity
- 2 Access to Care
- 3 Cancer
- 4 Sexual Health
- 5 Mental & Behavioral Health
- 6 Asthma

DEMOGRAPHICS POPULATION

The population in the Lawrence and Memorial (L+M) primary service area is over 174,000, with a male to female ratio very close to the state and national ratios as seen in Figure A1. Actual numbers are displayed in Table 1.

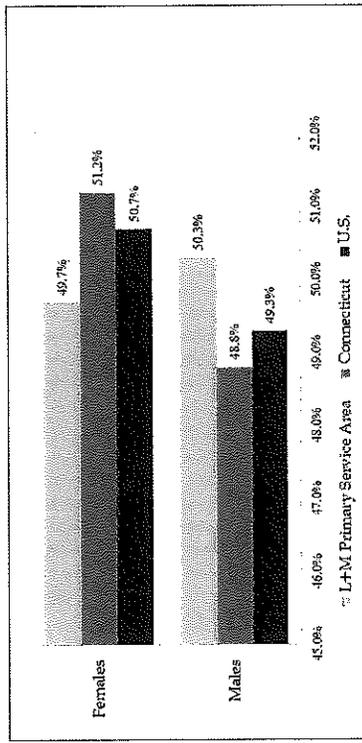

Figure A1: Gender breakdown for the United States, Connecticut, and the L+M primary service area, 2009

Table 1: Overall Population and Gender Breakdown (2009)

	U.S. ^a		Connecticut		L+M Service Area	
	n	%	n	%	n	%
Population	307,006,550	49.3	3,518,288	48.8	174,884	50.3
Gender						
Male	151,449,490	50.7	1,717,636	51.2	87,915	49.7
Female	155,557,060	50.7	1,800,652	51.2	86,969	49.7

Source: Connecticut Department of Health, U.S. Census

^aNational data obtained from 2010 U.S. Census

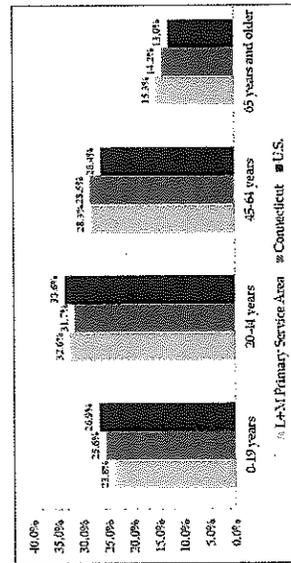

Figure A2: Age breakdown for the United States, Connecticut and L+M's primary service area, 2010 (U.S. Census)

The age breakdown in L+M's primary service area is similar to the associated breakdowns in Connecticut and the United States. There does seem to be a proportionally higher population of 45-64 year olds within the County.

The population change of all races in New London County from 2000 to 2010 is shown below in Table 2. The total population increased by 5.8 percent during that time. This growth was primarily due to increases in minority populations.

Table 2: Population change of all races in New London County (2000-2010)

Race	2000	2010	Change
Total Population	259,088	274,055	5.8
White	225,406	225,219	-0.1
Black/African American	13,705	16,025	17.0
American Indian/Alaskan Native	2,487	2,505	0.7
Asian	5,075	11,383	124.3
Native Hawaiian/Pacific Islander	151	180	19.2
Other	5,319	8,722	64.0
Two or more races	6,947	10,027	44.3
Hispanic/Latino of any race	13,236	23,214	75.4

The racial breakdown of the primary service area is a mix between Hispanic/Latino, Black, and White. According to Figure A3, the service area's White population is much higher than National and State comparisons, while the proportion of Black and Hispanic/Latino residents is much lower. However, the City of New London has a much higher proportion of Hispanic/Latino and Black residents than the State and Nation.

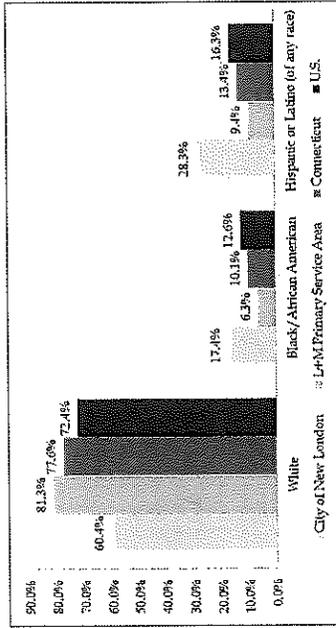

Figure A3: Race breakdown for the United States, Connecticut, the City of New London, and L+M's primary service area, 2010 (U.S. Census)

According to the CDC Office of Minority Health & Health Equity (2012), race and ethnicity correlate with significant health disparities. Specifically, Hispanic/Latinos are at higher risk for asthma, diabetes, HIV/AIDS, cervical cancer, lack of prenatal care, and infant mortality. Blacks/African Americans are at higher risk for heart disease, hypertension, diabetes, and infant mortality. Both populations are also at higher risk for overweight/obesity issues.

DEMOGRAPHICS

HOUSEHOLD

Household statistics for the primary service area, including the number of families, married couple families, families with children under age 18 and households with only a female guardian, while similar are all slightly below the State and National numbers. These figures are displayed in Figure B1.

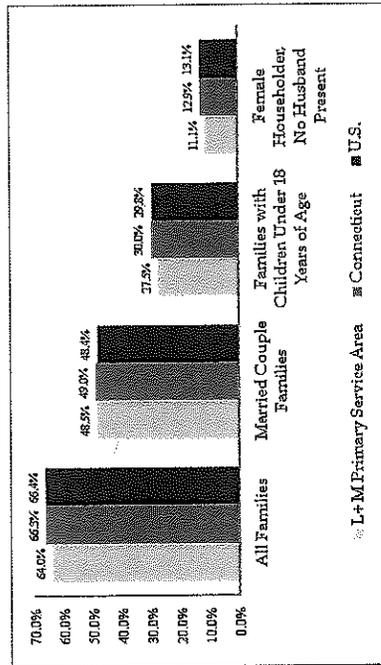

Figure B1: Household Type Breakdowns for the United States, Connecticut, and L+M's primary service area, 2010 (U.S. Census)

Regarding marital status, the primary service area has a smaller percentage of people who have never been married compared to the State and the Nation. The percent of the population that is divorced is also slightly higher in the service area than compared to the State and Nation. These marital status statistical comparisons are displayed in Figure B4.

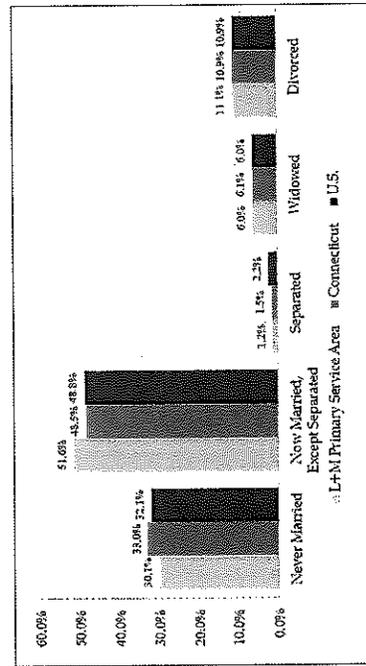

Figure B4: Marital Status Statistics for the United States, Connecticut, and L+M's primary service area, 2010 (U.S. Census)

DEMOGRAPHICS

INCOME

The poverty statistics for New London County are lower than Connecticut and the United States, in terms of percentages across the board. These statistics are displayed in Figure C3. However, poverty among all families and families with children are higher in the City of New London than compared to the State and the Nation.

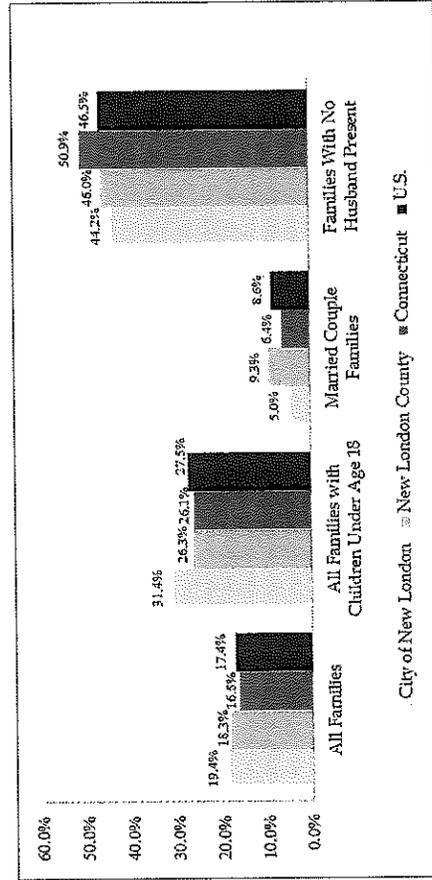

Figure C3: Poverty Statistics for the United States, Connecticut, the City of New London, and New London County, 2010 (U.S. Census)

*Data not available for primary service area

According to the CDC Office of Minority Health & Health Equity (2012), socioeconomic status is also a major factor leading to health disparities. Individuals living in poverty have higher rates of morbidity and mortality for a number of health issues including chronic diseases like diabetes, cancer, and heart disease.

DEMOGRAPHICS

HEALTH INSURANCE COVERAGE

The percent of those with health insurance coverage overall and those with private insurance is higher in New London County compared to both the State and National percentages. The proportion of those who reported having no health insurance was lower than the State and much lower than the Nation. These statistics are shown in Figure D1.

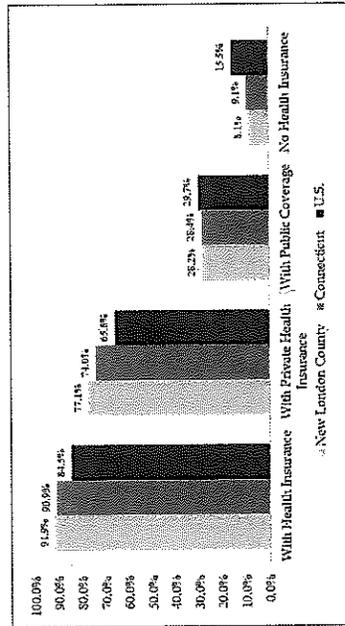

Figure D1: Employment Statistics for the United States, Connecticut, and New London County, 2010 (U.S. Census)
*Data not available for primary service area

*Data not available for primary service area

DEMOGRAPHICS

EDUCATION

Regarding educational attainment, the percentage of New London County's population with a bachelor's degree or higher is lower than the State, but still remains above the National figure (Figure E1). New London County has a slightly higher percentage of high school graduates than the State and Nation. Educational attainment for the City of New London is lower than the County, State and Nation.

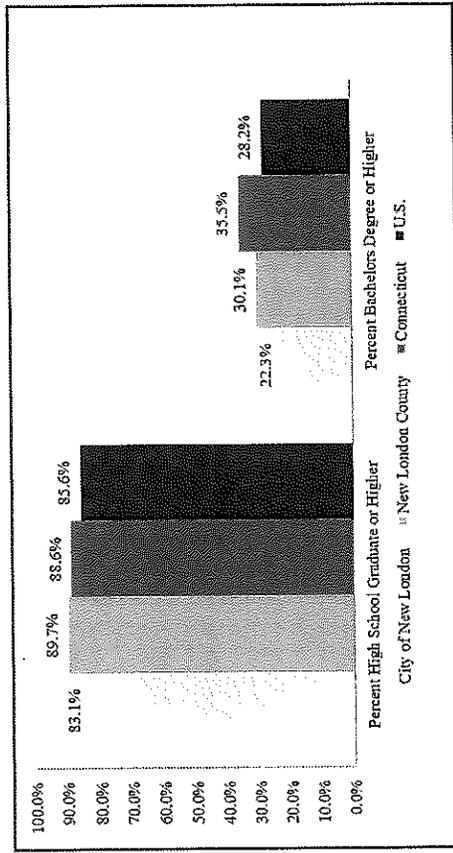

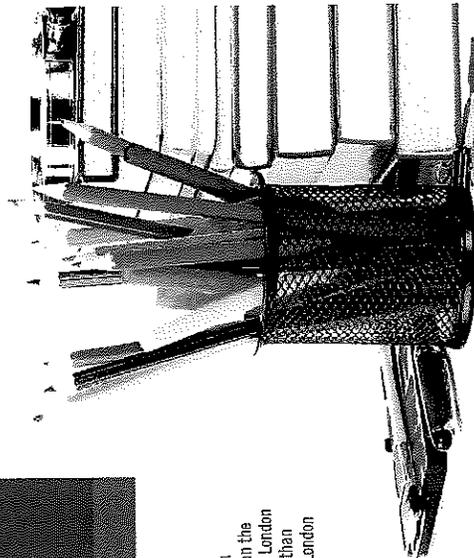

Figure E1: Educational Attainment for 25 years and older population in the United States, Connecticut, and New London County, 2010 (U.S. Census)* *Data not available for primary service area

Figure E2 further highlights educational status regarding only L+M's primary service area.

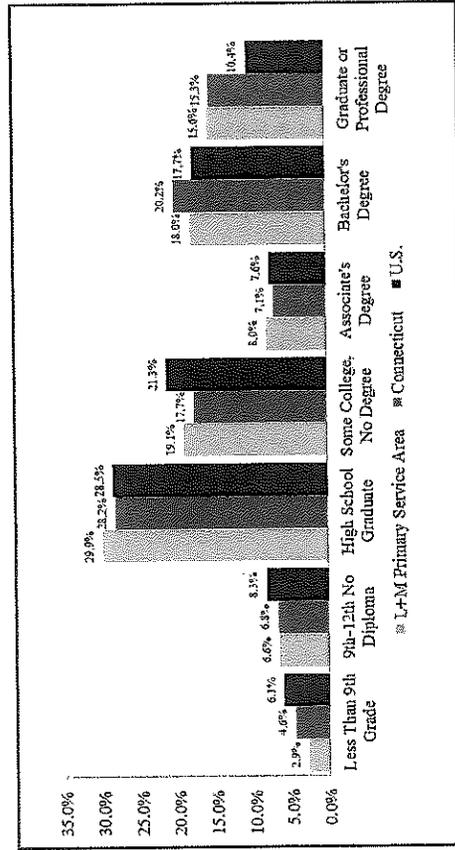

Figure E2: Educational Attainment for 25 years and older population in the United States, Connecticut, and L+M's primary service area, 2010 (U.S. Census)

HEALTH INDICATORS CANCER STATISTICS

The incidence rates for selected leading cancers at the National, State, and Local level are displayed in Table 3. Additionally, incidence for childhood cancers is shown in Table 4 in the same fashion.

Table 3: Selected Cancer Incidence by Site and Gender (2004-2008)^a

HEALTH INDICATORS

SEXUALLY TRANSMITTED DISEASES

Displayed below in Table 7 is the reported number of cases of Chlamydia at the National, State, and Local level. Also included in the table, is data pertaining only to the Lawrence + Memorial primary service area and for comparison purposes, the 2011 National Benchmark for reported cases of Chlamydia. Figure G1 further illustrates the differences between these regions and the Benchmark. Displayed in Tables 8 and 9 are the rates of chlamydia by age and race/ethnicity among females for the City of New London and Groton in 2007. Females have much higher rates of Chlamydia. Age and Race/Ethnicity are also risk factors for Chlamydia.

Table 7: Number of Chlamydia Infections per 100,000 (2008)

U.S.	Connecticut		New London County		L + M Primary Service Area		2011 National Benchmark

HEALTH INDICATORS

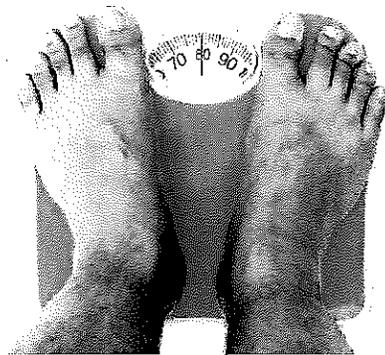

BMI AND OBESITY

The data regarding Obesity collected in 2007 pointed to childhood obesity as a major issue. These data are shown here in Table 10 along with the Healthy People 2020 objective for the percentage of the population that is obese. More recent data collected on the percentage of adults who reported BMI's above 30, indicating they were obese, are displayed in Table 11 along with the Healthy People 2020 target for that age group.

Table 10: Percent of Children in New London Public Schools who are Overweight or Obese

Grade/Gender	Percent Overweight or Obese	Healthy People 2020
Pre-K Girls	36.4	9.6
Pre-K Boys	41.0	9.6
Grade 4 Girls	58.6	15.7
Grade 4 Boys	44.9	15.7

Source: Health Indicators Warehouse, Healthy People 2020

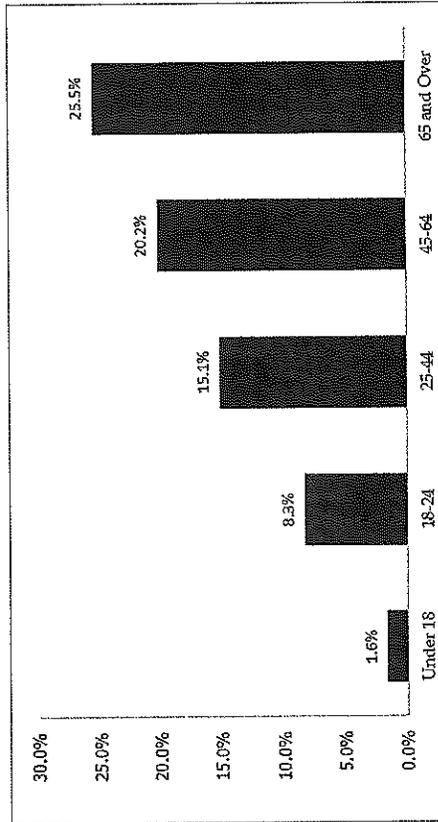

Figure H1: Percent Obese by age group in New London County, 2010 (Achieve New London)

The following data regarding the crude incidence of Asthma within the primary service area is based upon hospital discharge data supplied by Lawrence + Memorial Hospital. Looking at Table 12, the crude incidence of Asthma within the primary service area far exceeds the goal set forth by Healthy People 2020. Additionally, data spanning three years, 2008 through 2010, is displayed in figure I below.

Table 12: Asthma Crude Incidence by Age Group for the L+M Primary Service Area (2010)

Age Group	L + M Service Area	Healthy People 2020
0-4 Years	234.4	18.1
5-64 Years	188.8	8.6
65 and Over	84.5	20.3

*Rates per 10,000 population

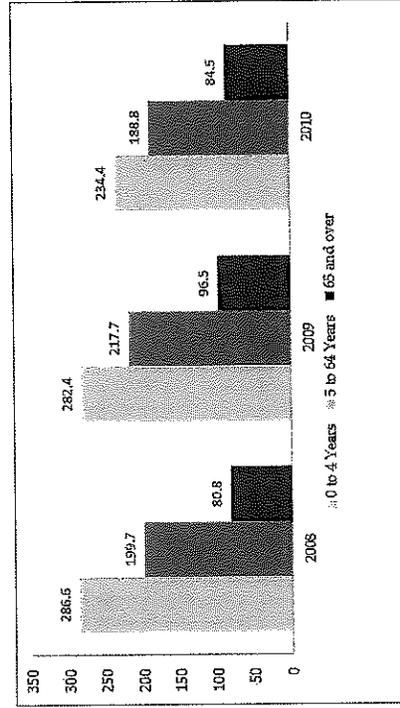

Figure I1: Crude Incidence of Asthma by Age Group from 2008 to 2010, L+M Primary Service Area (L+M hospital discharge data, U.S. Census)

*Rates per 10,000 population

HEALTH INDICATORS

DIABETES

The following data regarding the crude incidence of Diabetes in the primary service area was derived using hospital discharge data as was the case with Asthma (Table 13). The crude rate of Diabetes in L+M's primary service area is much higher than the goal determined by Healthy People 2020 for the 18 to 84 age group. Furthermore, looking at Figure 11, the rate of Diabetes within the 18 to 84 age group is increasing each year from 2008 through 2010.

Table 13: Crude Incidence of Diabetes in the L+M Primary Service Area for Ages 18-84

Year	L+M Service Area	Healthy People 2020

HEALTH INDICATORS

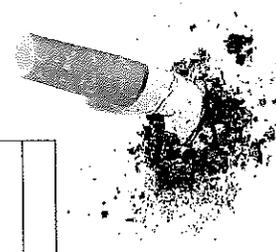

TOBACCO USE/SMOKING

The following data represents survey results of those who smoke from the 2007 Connecticut SMART BRFS for New London County, and the 2010 United Way of Southeastern Connecticut survey with comparisons to Healthy People 2020 (Table 14).

Table 14: Smoking Status of County and Regional Residents

Smoking Status	BRFSS 2007	UWSC 2010	Healthy People 2020
Every day	15.7	11.3	N/A
Some days	1.6	4.1	N/A
Currently smoking	17.3	15.4	12.0

Source: Connecticut SMART BRFS of New London County, Healthy People 2020, United Way of Southeastern Connecticut 2010

HEALTH INDICATORS

HEALTH STATUS AND ACCESS

Table 15 presents data regarding respondent's health status or condition by race. A greater percentage of Hispanics reported asthma, high cholesterol, and diabetes as primary health conditions compared to both Blacks and Whites. The highest reported percentage of high blood pressure was recorded in the Black population.

Table 15: Percentage of Health Conditions Reported by Race/Ethnicity

Health Condition	Race/Ethnicity		
	White (%)	Black (%)	Hispanic (%)
Heart Disease	6.1	4.7	4.6
Asthma	9.9	14.1	17.9
High Blood Pressure	17.9	26.4	14.1
High Cholesterol	14.6	4.1	16.0
COPD	4.0	2.8	0.3
Diabetes	6.0	6.9	7.2
Overweight/Obesity	16.5	13.8	15.5

Source: 2010 ACHIEVE New London Healthy Resident Survey results

The remaining tables report access to services and prescription medicines. It is important to note that the ratio of primary care physicians to residents in New London County (1,098:1) is poor when compared to the National Benchmark (631:1) and Connecticut (729:1).

HEALTH INDICATORS

ALCOHOL CONSUMPTION

Data regarding the percent of those who had at least one drink within the past 30 days is displayed below in Table 19. The results come from the New London County SMART BRSS questionnaire from 2007 and the United Way of Southeastern Connecticut 2010 Survey. The percent of those who reported excessive drinking is found in Table 20. This data is reported by the County Health Rankings website and is compiled from the annual BRSS administered by the CDC.

CONCLUSIONS

STRENGTHS

Demographics

- The percent of families living in poverty with no husband present is much lower in New London County (13.3) than the U.S. (30.3) and Connecticut (22.2).
- The percent of individuals with health insurance is higher in New London County (91.9) than in the U.S. (84.5) and Connecticut (90.9).
- The percent of those that have graduated high school is highest in New London County (89.7) compared to National (85.6) and State (88.6) averages.
- When looking at the primary service area (15.6), the percent of individuals who have received a graduate or professional degree is higher than both the State (15.3) and Nation (10.4).

Cancer Statistics

- Prostate Cancer among males is lowest in New London County (139.5) compared to the State (162.1) and National Statistics (152.7).
- Mortality due to Colorectal Cancer in both males and females is lowest in New London County (14.5) and has met the Healthy People 2020 goal of 14.5.
- Although higher than the State and Nation, mortality due to Lung and Bronchus Cancer in females (43.4) has reached and surpassed the Healthy People 2020 goal of 45.5. The same can be said for Cancer in females of all sites (155.0) which has reached and surpassed the Healthy People 2020 goal of 160.6.

BMI and Obesity

- The percent of adults who reported a BMI of 30 or greater in New London County (26.0) was lower than the Healthy People 2020 goal of 30.6. However, it was still higher than that reported for the State (23.1).

Asthma

- The crude incidence of Asthma in the 0 to 4 age group has seen a slight decline from 2008 through 2010.
- A decline in crude incidence was also seen from 2009 to 2010 in the 5 to 64 and 65 and over age groups.

Alcohol Consumption

- The number of those who reported at least one drink within the past 30 days has decreased from 2007 to 2010.

Tobacco Use

- The percent of those currently smoking has decreased from the 2007 survey (17.3) compared to both of the 2010 surveys (MLC 13.5; SE CT 15.4).

Health Status and Access

- According to the United Way survey of Southeastern Connecticut, 95.5% of residents surveyed have access to a primary source of care. This exceeds the Healthy People 2020 goal of 95.0%.

Cancer Statistics

- Incidence of the following Cancers was higher in New London County than the State and Nation: Breast (female only), Colorectal in both males and females, Lung and Bronchus in both males and females, all sites in both males and females.
- The incidence of childhood Cancer was higher in New London County (20.9) than it was in the State (17.8) and Nation (16.9).
- Mortality for the following Cancers was higher in New London County compared to the State and Nation: Breast (female only), Lung and Bronchus in males, all sites in Males.

Sexually Transmitted Diseases

- The rate of Chlamydia infections per 100,000 people was higher in the L+M primary service area (245.5) compared to New London County (236) and the 2011 National Benchmark (83).
- In the city of New London and Groton, Chlamydia infections are highest among Blacks and Hispanics.

BMI and Obesity

- The percent of children in 2007 that were overweight or obese is much higher than recommended by Healthy People 2020. For example, the percent of Pre-K girls was 36.4, while the Healthy People 2020 goal is 9.6. The same was true for Pre-K boys, and both girls and boys in Grade 4.
- The 65 and over age group reported the highest percent (25.5) of obese individuals in 2010.

CONCLUSIONS

OPPORTUNITIES

Asthma

- Crude incidence rates for Asthma in the primary service area were much higher than those recommended by Healthy People 2020. In the 0 to 4 age group, the rate is 234.4, while Healthy People 2020 sets the goal at 18.1.

Diabetes

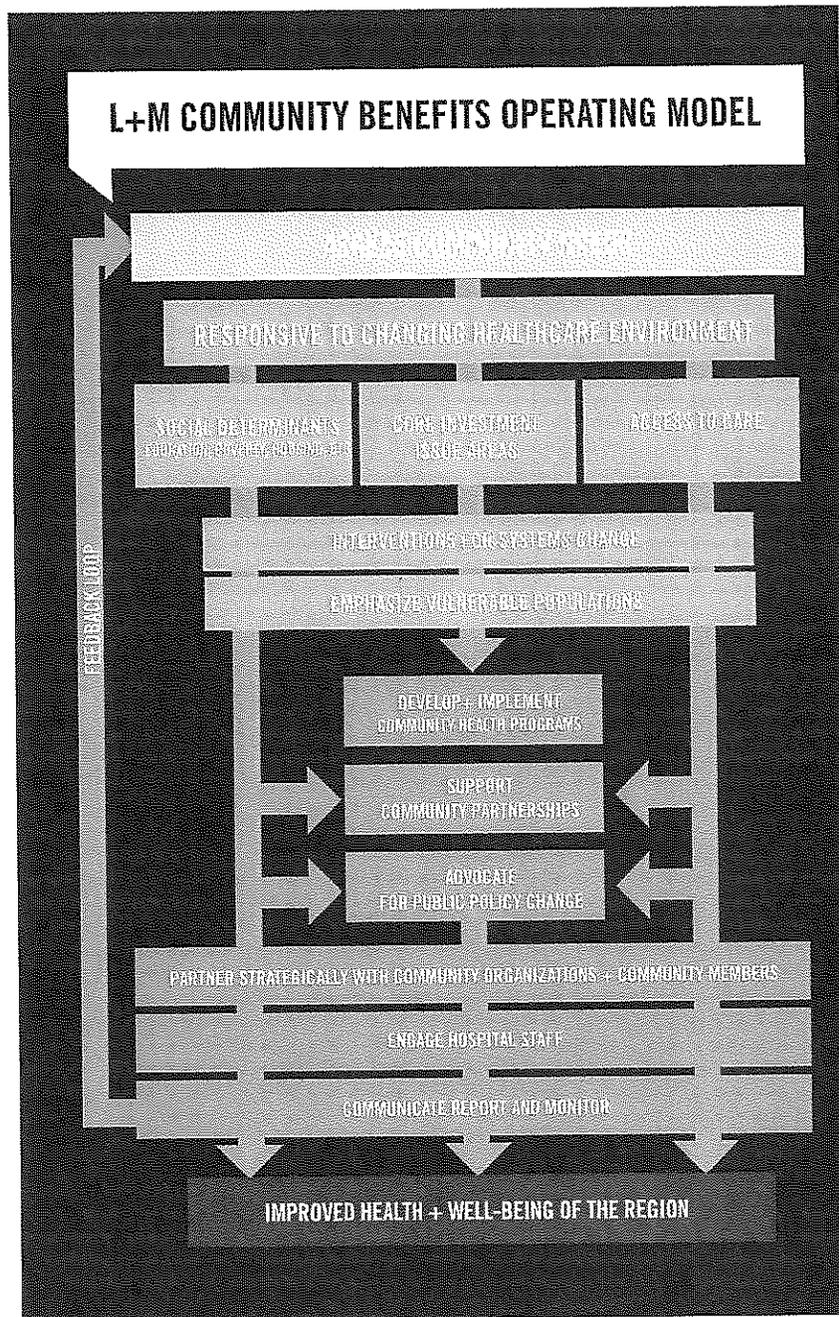

- The crude incidence of Diabetes in the L+M primary service area was much higher from 2008 through 2010 than recommended by Healthy People 2020. For example, in 2010, the rate for the service area was 33.7, while the Healthy People 2020 goal is 7.2.
- Another major concern in this area is the fact that hospitalizations, due to Diabetes, have been steadily increasing from 2008 through 2010 for the 18 to 84 age group.

Tobacco Use

- Looking at data from the 2007 survey compared to both of the 2010 surveys, the percent of those who are currently smoking in the county and region has decreased, but has still not reached the Healthy People 2020 goal.

Health Status and Access

- According to two sources, Health Indicators Warehouse and the United Way Survey, in 2010, the percent of the population who delayed medical care due to cost (6.9-14.2) was still higher than that recommended by the Healthy People 2020 goal of 4.2.
- According to the United Way Survey, 12.3 percent of those surveyed could not receive prescription medications due to cost. This is higher than the recommended 7.8 percent set by Healthy People 2020.

Facilitators provided a framework showing the relationship between assessing community needs and hospital community benefit planning to help guide the group discussion of health issues.

[Home](#) / [About L+M](#) / [Community Benefits](#)

L+M in the Community

At L+M Hospital, doctors, nurses and staff are also your neighbors and friends, so it's no wonder we're deeply committed to the health of our region far beyond the doors of our buildings.

At L+M, we're determined to make southeastern Connecticut a better, healthier place to live, and that includes an array of outreach programs. In fact, L+M's "Community Benefits" totaled over \$15 million last year, and our services are aimed at those who need it most, such as expectant mothers, infants, senior citizens, and those who are homeless.

There are many reasons for what we do, but the most obvious is quite simple: we believe in giving each other a hand up. Because we live here, too. And, like you, we care.

The broad range of L+M Hospital's **community benefit activity** includes educational programs, community disaster preparedness, health promotion, faith community outreach, and collaborative school programs. Furthermore, there are services for the homeless, injury prevention programs, student internships, and many other programs that simply wouldn't exist if not for the staff and resources provided by Lawrence + Memorial.

When it comes to community benefits, it's often the little things that make the biggest differences. Consider what happens each day at the Homeless Hospitality Center in New London: an employee from the shelter drops off dirty sheets at L+M Hospital; they return to the shelter with clean ones. It happens every day, all year, free of charge, thanks to L+M. The service saves the shelter time, boosts the moral of the guests who always sleep on clean linens, and, most importantly of all, the service saves the shelter many thousands of dollars.

Another such program is a collaboration between L+M and the Gemma E. Moran United Way Labor Food Center, to collect and distribute disposable diapers and baby wipes to families in need. When the program first kicked off in 2009, more than 7,000 diapers were delivered in the first two months.

Organizers found that in some cases, children were being left in dirty diapers all day until needy families could afford to buy more. For many families, the program helped bridge that gap until the next paycheck, improving the health and quality of life for both the child and family. Said one organizer: "The diaper bank program is a much-needed addition to the region's safety net and has made a tremendous impact."

But L+M's community commitment doesn't stop with infants. Outreach programs in schools also include such things as pediatric weight management to help children fight obesity, and health and exercise programs to encourage physical fitness.

Another major aspect of L+M's community involvement is subsidized healthcare services for those in need, ranging from emergency and trauma visits to neonatal intensive care. The OB Clinic at the hospital provides education and testing for expectant mothers, and women who qualify can also receive free exams for breast and cervical cancer as part of a community benefit.

Helpful Definitions

Prevalence: The number of existing cases of a particular condition, disease, or other occurrence (e.g., persons smoking) at a given time.

Incidence: The number of new cases (as, of a disease) occurring during a particular period of time (e.g., 100 cases of TB from 1998 to 2002).

Prevalence or incidence rate: Cases in a particular population quantity—e.g., per hundred or per thousand.

Age-adjusted figure: A figure that is statistically corrected to remove the distorting effect of age when comparing populations of different age structures.

Note: All statistics in this document apply specifically to the United States and are for the most recent available year. Factors used in expressing these data, as determined by the collecting agencies:

- Mortality (death) rates are per 100,000 population.
- Chronic disease prevalence is per 1,000 population.
- Hospital discharge rates are per 10,000 population.
- Incidence rates are per 100 or per 100,000 population.
- Morbidity is defined as illness.

Introduction

What do the lungs do?

The lungs, with their tiny air sacs called alveoli (pronounced al-vee-oh-lie), have sometimes been compared to sponges. They are actually far more complex than many other organs. The heart, for example, is a relatively basic muscular pump with one-way mechanical valves designed for the purpose of keeping the bloodstream flowing in one direction. The lungs must play multiple roles—supplier of oxygen, remover of wastes and toxins, and defender against hostile intruders, among others.

They contain at least three dozen distinct types of cells, each with its own special tasks and abilities. Some scavenge foreign matter. Others, equipped with delicate, hair-like cilia, sweep the mucous membranes lining the smallest air passages. Still others act on substances crucial to blood-pressure control, or serve as sentries to spot invading agents of infection. The roles of many others remain mysteries, posing challenges to researchers.

In mechanical terms, our lungs can be described as the site of gas exchange. Oxygen—the fuel all the cells and organs of our body need to function—is extracted from the air we inhale, carried within the bloodstream and distributed to other organs and tissues. With each exhalation, we dispose of the carbon dioxide that is the by-product of our bodily functions. In our lungs, in the course of a single day, an astonishing 8,000 to 9,000 liters of breathed-in air meet 8,000 to 10,000 liters of blood pumped in by the heart through the pulmonary artery. The lungs relieve the blood of its burden of waste and return a refreshed, oxygen-rich stream of blood to the heart through the pulmonary vein.

What are lung diseases?

The lungs are internal organs; yet they are uniquely and constantly exposed to our external environment, a direct interface with the world outside. With each breath, a host of alien substances enters our bodies, leaving the lungs a ravaged battlefield. Lung disease is any disease or disorder where lung function is impaired. Lung diseases can be caused by long-term and immediate exposure to smoking (active and passive), air pollution (indoor and outdoor), occupation-

al exposures such as asbestos and silica dust, carcinogens that trigger tumor growth, infectious agents, and overreactive immune system defenses.

There are many types of lung diseases including:

- *Obstructive lung diseases such as asthma, chronic bronchitis and emphysema.* These all affect a person's airways and limit or block the flow of air in or out of the lungs.
- *Infectious illnesses such as pneumonia, influenza, respiratory syncytial virus (RSV) and tuberculosis (TB).* Bacteria or viruses cause these diseases that can also affect the membrane (or *pleura*) that surrounds the lungs.
- *Lung cancer.* A disease characterized by uncontrolled growth and spread of abnormal cells.
- *Respiratory failure, pulmonary edema, pulmonary embolism and pulmonary hypertension.* These conditions are caused by problems with the normal gas exchange and blood flow in the lungs.
- *Pulmonary fibrosis and sarcoidosis.* These are diseases characterized by stiffening and scarring of the lungs.
- *Occupational diseases, such as mesothelioma and asbestosis,* caused by exposure to hazardous substances.

Just as there is no single cause for lung disease, there is no single symptom of lung disease. Some conditions may send disease-specific signals, such as the characteristic wheezing sound made as the asthma sufferer attempts to exhale.

Some lung disorders, such as emphysema, may be evidenced mainly by increasing shortness of breath, eventually upon the slightest physical effort, as tired muscles fail to receive sufficient oxygen.

Other forms of lung disease may be signaled by persistent cough, chest pain, shortness of breath, abnormal sputum production, bloody sputum or a combination of these symptoms.

When an infectious agent causes a lung disease, there may also be fever and/or chills. Any suspicion that the lungs might not be functioning properly means that a person should seek medical attention.

What is *Lung Disease Data: 2008*?

In the pages that follow, we have presented important facts and figures about some of the most common lung diseases in the United States today.

The American Lung Association strongly believes that if cigarette smoking, preventable premature childbirth, disregard for workers' safety and violation of clean-air laws were to end today, we could expect a future largely free of the most lethal forms of lung disease.

Below are a few important facts on lung diseases overall:

- Every year almost 400,000 Americans die from lung disease—an age-adjusted death rate of 135.5 per 100,000.¹

- Lung disease is the number three killer (behind heart disease and cancer) in the United States, responsible for one in six deaths.²
- Lung disease death rates are currently increasing, while death rates due to other major causes of death, such as heart disease, cancer and stroke, are declining.³
- Overall, various forms of lung disease and breathing problems constitute one of the leading causes of death in babies under the age of one year, accounting for 20.2 percent of infant deaths in 2004.⁴
- More than 35 million Americans have chronic lung diseases.⁵
- An estimated 438,000 Americans die each year from diseases directly related to cigarette smoking, including heart and lung diseases.⁶
- Millions of children and adults with lung disease in this country are exposed to levels of ozone and particle air pollution that could potentially make them sick.
- Asthma and chronic obstructive pulmonary disease (emphysema and chronic bronchitis), the most common obstructive lung diseases, are associated with substantial health impairment and work disability.
- Lung disease costs the U.S. economy \$95 billion in direct health-care expenditures every year, plus indirect costs of \$59 billion—a total of \$154 billion.⁷

Chronic Obstructive Pulmonary Disease (COPD)

What is chronic obstructive pulmonary disease?

Chronic obstructive pulmonary disease (COPD) is a term referring to two lung diseases, chronic bronchitis and emphysema. Both conditions cause obstruction of airflow that interferes with normal breathing. Both frequently exist together, so physicians prefer the term COPD. COPD is preventable and treatable. This definition of COPD does not include other obstructive diseases such as asthma, although uncontrolled asthma over a lifetime can result in damage and COPD.

Chronic bronchitis is the inflammation and eventual scarring of the lining of the bronchial tubes. When the bronchi are inflamed or infected, less air is able to flow to and from the lungs and a heavy mucus or phlegm is coughed up. Once the bronchial tubes have been irritated over a long period of time, excessive mucus is produced constantly, the lining of the bronchial tubes thickens, an irritating cough develops, air flow may be hampered and the lungs become scarred, eventually obstructing airflow.¹ The bronchial tubes then make an ideal breeding place for bacterial and viral infections.

Symptoms of chronic bronchitis include chronic cough, increased mucus, frequent clearing of the throat and shortness of breath.² The condition has been defined by the presence of a mucus-producing cough most days of the month, three months of a year for two years in a row without other underlying disease to explain the cough. More recent definitions include reduced lung function.

Emphysema begins with the destruction of air sacs (alveoli) in the lungs where oxygen from the air is exchanged for carbon dioxide in the blood. Damage to the air sacs is irreversible and results in permanent “holes” in the tissues of the lower lungs. As air sacs are destroyed, the lungs can transfer less and less oxygen to the bloodstream, causing shortness of breath. The lungs also lose their elasticity, which is important for keeping airways open. In advanced emphysema cases, patients are extremely short of breath.³

Symptoms of emphysema include cough, shortness of breath and a limited tolerance for exercise. As the disease advances, the work of breathing is so great that major weight loss occurs.

Smoking is the leading risk factor for COPD. Other risk factors include exposure to air pollution and second-hand smoke, a history of childhood respiratory infections and heredity. Particulate matter (PM) from cigarette smoke and air pollution, including smoke from poorly ventilated wood stoves and the burning of biomass^{1,4}, are related to lung damage. Particles that have a diameter of 2.5 to 10 microns, or less than 1/7 the diameter of a human hair, are called coarse particles and are of special concern. Larger particles are more easily trapped in the nose or throat, while smaller particles can be drawn into the small air passages.⁵

Fine particles, with a diameter of 2.5 microns or less (PM_{2.5}) represent the most serious threat. Particles this small easily reach deep into the lung and may even pass into the bloodstream.⁶ Once they have penetrated the lungs, fine particles can cause inflammation and impair immune responses.⁷

Alpha-1 antitrypsin deficiency-related (Alpha-1) emphysema is caused by an inherited deficiency of a protein called alpha-1 antitrypsin (AAT) or alpha-1 protease inhibitor. Alpha-1 emphysema is responsible for five percent or less of the emphysema in the United States.⁸ AAT, produced by the liver, is a "lung protector." In the absence of AAT, the risk of developing emphysema is far greater than normal. Symptoms almost never appear before 25 years of age and sometimes never develop, especially in nonsmokers. In those who smoke, symptoms occur between 32 and 41 years of age, on average.⁹

Want to learn more about chronic bronchitis? Please view the disease listing at <http://www.lungusa.org/chronicbronchitis>

One study found that certain genes in mice appear to influence the risk of developing emphysema. The researchers said this may explain why some smokers remain disease-free. If similar genes are found in humans, these findings may one day help identify people who are at risk of emphysema well in advance of symptoms.¹⁰

Occupational exposure to certain industrial pollutants also increases the risk for COPD and contributes to its burden. One study found that an estimated 19.2 percent¹¹ of COPD cases among workers aged 30 to 75 years was due to occupational exposures. A combination of tobacco use and occupational exposure greatly increases the risk of developing COPD.

Who gets COPD?

Over 12.1 million U.S. adults (aged 18 and over) were estimated to have COPD in 2006.¹² However, close to 24 million U.S. adults have evidence of impaired lung function, indicating an under-diagnosis of COPD.¹³ This is a serious issue because damage to the lungs is not noticed until the disease is well-advanced, thus limiting effective treatment options.

Previously, COPD was more of a concern for men than women as women had lower prevalence rates of the disease. This was due to the far higher rate of

¹ Any organic material made from plants or animals.

smoking among men compared to women during much of the past century. As the smoking rate among women increased after World War II, so did their risk of developing COPD. Since there is a long lag period between smoking initiation and COPD diagnosis, the increased COPD prevalence rate in women has only been noticed recently. Women are twice as likely as men to be diagnosed with chronic bronchitis. In 2006, 2.9 million men were diagnosed compared to 6.6 million women.¹⁴

Want to learn more about COPD trends and data? Please view the *COPD Trend Report*, which delineates information available from national surveys on the mortality, prevalence, hospitalizations and economic costs due to COPD, at <http://www.lungusa.org/copdtrends>

The reasons behind this change and difference by gender have been understudied and are not well understood.¹⁵ A recent study found that the variation between genders in COPD rates could be due primarily to differences in smoking behavior and exposure to other environmental risk factors, such as occupations where there is a lot of dust present.¹⁶ However, women appear to have a greater vulnerability to cigarette smoking, the leading risk factor for COPD and lung cancer. This may be due to differences in how cigarette smoke is metabolized by women. Additional research suggests that women are at higher risk for DNA damage and are less able to repair DNA. While neither process is fully understood, it is likely that both contribute to the higher COPD and lung cancer rates seen in women along with other pathways that have yet to be discovered.¹⁷ For more information on gender differences in smoking-related diseases, please see the tobacco and lung cancer chapters of this report.

Research suggests that one or more inherited risk factors interact with smoking to increase COPD risk. It is not known if such inherited risk factors differ among races.¹⁸

Want to learn more about COPD? Please view the fact sheet at <http://www.lungusa.org/copdfactsheet>

COPD prevalence is estimated by results of the National Health Interview Survey (NHIS), which asks respondents if they have been diagnosed with chronic bronchitis in the last year (current prevalence), and if they have ever been diagnosed with emphysema (lifetime prevalence). COPD prevalence takes into account the overlap of persons with both diseases (approximately 10%). The total estimated COPD prevalence is then slightly less than simply adding together prevalence estimates for chronic bronchitis and emphysema. Data on numbers of deaths represent counts obtained from death certificates. COPD deaths include those from any chronic lower respiratory disease, including chronic bronchitis, emphysema and bronchiectasis, but do not include asthma.

In 2006, an estimated 9.5 million Americans were diagnosed with chronic bronchitis by a health care professional: 3.2 million 18 to 44 year olds, 4.1 million 45 to 64 year olds and 2.2 million people over 65 years of age. Chronic

bronchitis affects people of all ages, but the highest prevalence rate was seen among those 65 years of age and older at 60.9 per 1,000 persons while those ages 18 to 44 had the lowest rate estimated at 28.8 per 1,000 persons. Persons aged 45 to 64 years had a prevalence rate of 55.4 per 1,000 persons.¹⁹

White Americans appear to be more likely to have COPD than other racial or ethnic groups.²⁰ Not only are they more likely to have the disease, but they are also more likely to die from it.²¹

Chronic bronchitis prevalence had decreased in recent years but increased slightly in 2006 for both Whites and Blacks. The highest prevalence rate among Whites was in the 65 years of age and older population (63.1 per 1,000) and in the 45 to 64 years of age population for Blacks (61.7 per 1,000).²²

The emphysema prevalence rate is very low in those under age 45. Of the estimated 4.1 million Americans ever diagnosed with emphysema in their lifetime, 93 percent were 45 or older.²³ The risk of being diagnosed with COPD doubles every 10 years after the age of 40.²⁴ In 2006, the reported emphysema lifetime prevalence rate was 18.5 per 1,000 population.²⁵ Men tend to have higher emphysema prevalence rates than females. In 2006, almost 2.5 million males (23.4 per 1,000 population) had emphysema compared to 1.6 million females (13.9 per 1,000). From 1997 to 2006, the prevalence rate increased by 6 percent in women and 16 percent in men.²⁶

Emphysema rates are highest in non-Hispanic Whites (23.5 per 1,000) and lowest in Hispanics (3.9 per 1,000). Non-Hispanic Blacks have an emphysema rate of 7.4 per 1,000.²⁷

Want to learn more about COPD and diverse communities? Please view the *State of Lung Disease in Diverse Communities 2007* report at <http://www.lungusa.org/solddc-copd>

An estimated 100,000 Americans, primarily of northern European descent, have Alpha-1 deficiency emphysema. Another 20 million Americans carry a single deficient gene that causes Alpha-1 and may pass the gene on to their children.²⁸ A recent study suggested that there are at least 116 million Alpha-1 carriers among all racial groups, worldwide.²⁹

What is the health impact of COPD?

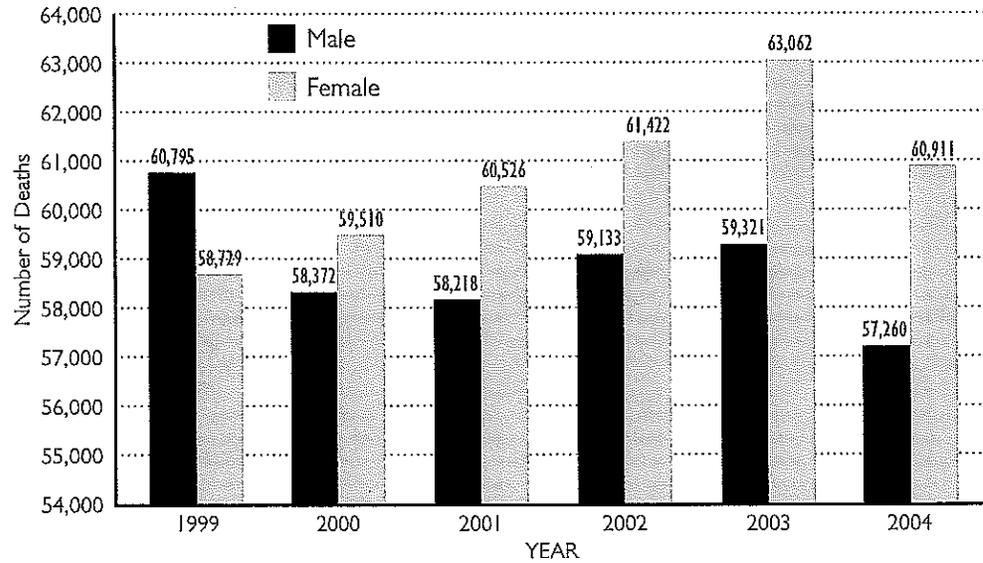

COPD is the fourth leading cause of death, claiming the lives of 118,171 Americans in 2004.³⁰ Preliminary data show this number increased to 127,000 in 2005.³¹ That is one death every four to five minutes. COPD is expected to become the third leading cause of death by the year 2020.³²

Approximately 80 to 90 percent of COPD deaths are caused by smoking. Men and women smokers are nearly 12 and 13 times as likely to die from COPD, respectively, compared to those who have never smoked.³³

Although, historically, men have been more likely than women to die of COPD, women have exceeded men in the number of deaths since 2000. In 2004,

almost 61,000 females died of COPD compared with 57,000 males.³⁴ Figure 1 displays the number of deaths due to COPD by sex from 1999 to 2004.

Figure 1: Number of COPD Deaths by Year and Sex, U.S., 1999–2004*

Source: Centers for Disease Control and Prevention. National Center for Health Statistics, Monthly Vital Statistics Report, 1999–2004.

Note:

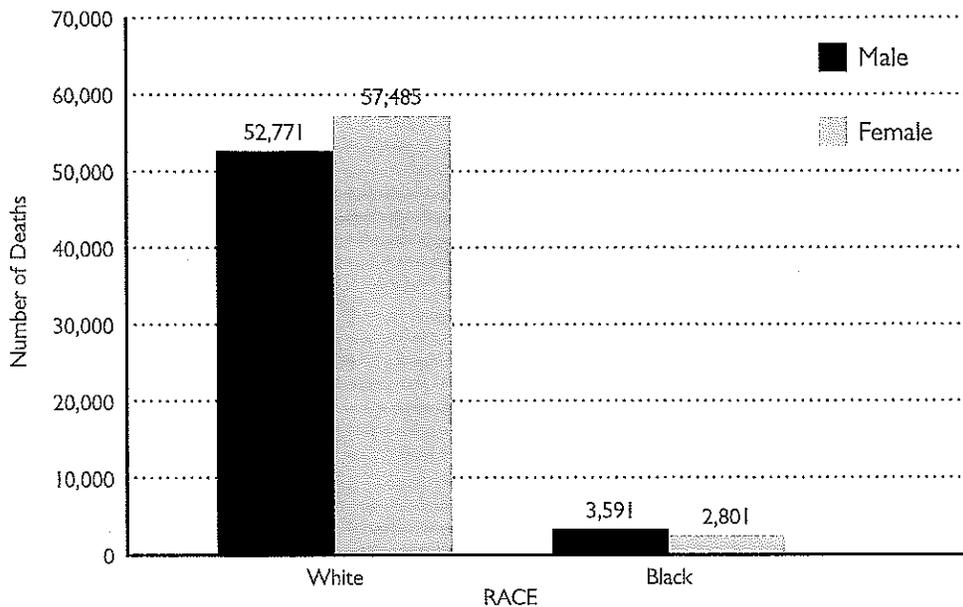

* Comparisons should only be made between groups and diseases using rates, not number of deaths, as these do not take into account differences which may exist in population size or demographics.

Racial and ethnic groups differ in smoking rates and patterns. Native Americans have the highest percentage of current smokers (26.9%) while Asians have the lowest (11.2%). Current smoking prevalence in Hispanics is relatively low (15.1%). Non-Hispanic Whites (21.8%) and non-Hispanic Blacks (22.6%) have similar current smoking prevalence percentages. Due to the long lag period between smoking onset and COPD presentation, future COPD prevalence rates among these groups are predicted to reflect these differences with more Native Americans and non-Hispanic Blacks presenting with the disease.³⁵

In 2004, there were 6,330 deaths due to COPD in non-Hispanic Blacks and 2,826 in Hispanics. The age-adjusted death rate for chronic bronchitis was 0.2 per 100,000 persons for both non-Hispanic Blacks and Hispanics. This rate is 50 percent lower than that for non-Hispanic Whites, 0.3 per 100,000 persons. However, emphysema leads to far more deaths than chronic bronchitis. The age-adjusted death rate for emphysema in 2004 was 2.8 among non-Hispanic Blacks and 1.6 per 100,000 persons among Hispanics. The age-adjusted death rate for emphysema in non-Hispanic Whites was 5.1 per 100,000 persons, almost two times greater than that of non-Hispanic Blacks and over three times greater than Hispanics.³⁶

Figure 2 shows the number of deaths by race and sex in 2004. White women suffered the most deaths due to COPD with almost 58,000 dying in 2004 alone.

Figure 2: Number of COPD Deaths by Race and Sex, U.S., 2004*

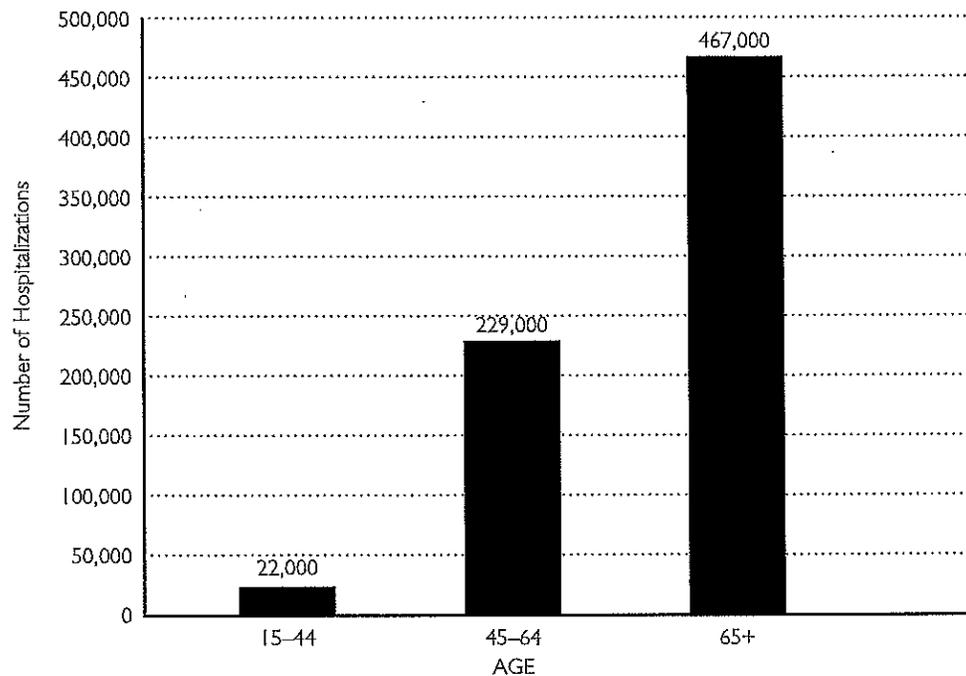

Source: Centers for Disease Control and Prevention. National Center for Health Statistics: National Vital Statistics Report, Deaths: Final Data for 2004.

Note:

* Comparisons should only be made between groups and diseases using rates, not number of deaths, as these do not take into account differences which may exist in population size or demographics.

An estimated 721,000 hospitalizations due to COPD were reported in 2005, a rate of 24.4 per 10,000 population.³⁷ Between 1988 and 1992, men had slightly higher rates of COPD hospitalization than women. However, since 1993, the rate in women has surpassed that for men. In 2005, the rates among men and women were 22.6 and 26.1 per 10,000, respectively.³⁸

COPD is an important cause of hospitalization in the aged population. Approximately 65 percent of all COPD hospitalizations were in people 65 years of age and older in 2005. The rate for the population 65 years of age and older (126.9 per 10,000) was significantly higher than the rate for any other age group. For instance, the hospitalization rate in the 65 years of age and older group was over four times higher than that in the 45 to 64 years of age group (31.4 per 10,000).³⁹ The number of hospitalizations by age in 2005 are displayed in Figure 3.

Notes:

1. ICD-9 codes 490-492, 494-496

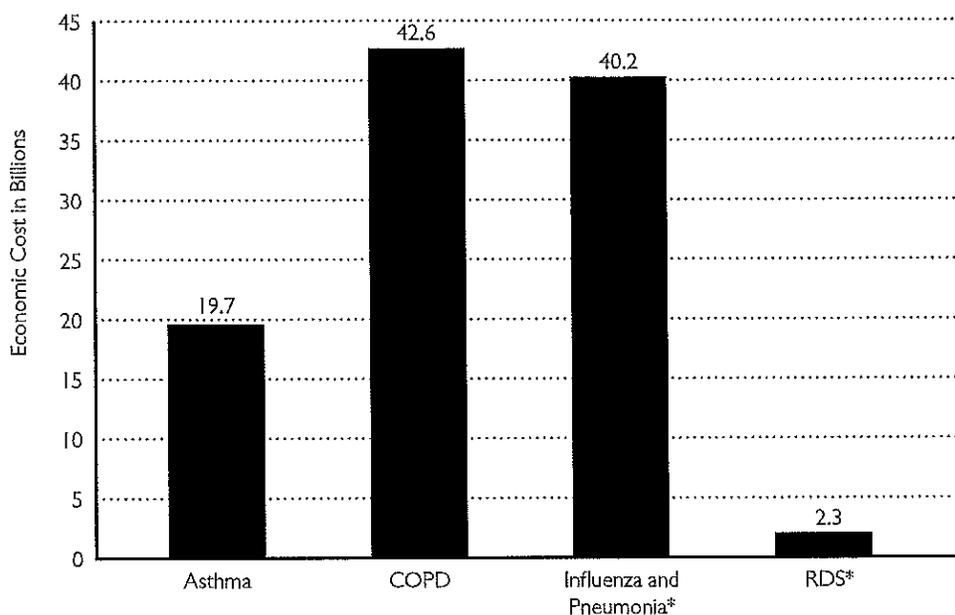

2. Hospitalizations are estimated based on the recorded primary discharge diagnosis

* **Comparisons should only be made between groups and diseases using rates, not number of hospitalizations, as these do not take into account differences which may exist in population size or demographics.**

The impact of COPD on quality of life is profound. A survey by the American Lung Association revealed that half of all COPD patients (51%) say their condition limits their ability to work. It also limits them in normal physical exertion (70%), household chores (56%), social activities (53%), sleeping (50%) and family activities (46%).⁴⁰

Patients with COPD also need psychological or other emotional support. COPD patients' inability to be as active as they once were, and their increasing dependency on others and even on machines, also can lead to profound depression and dependency, often further complicating their physical illness. One study of people with chronic breathing disorders found that 80 percent of the 1,334 people studied suffered from depression, anxiety or both. Although depression and anxiety are very treatable for people with COPD, only 31 percent of COPD patients are being treated for these conditions.⁴¹

Chronic bronchitis and emphysema take a heavy toll on the economy. According to estimates by the National Heart, Lung, and Blood Institute, in 2007 the annual cost to the nation for COPD was \$42.6 billion. This included \$26.7 billion in direct health care expenditures, \$8 billion in indirect morbidity (illness-related) costs and \$7.9 billion in indirect mortality (death-related) costs.⁴² Figure 4 displays the economic cost of COPD compared to other select lung diseases.

Figure 4: Economic Cost of Selected Lung Diseases, U.S., 2007

How is COPD diagnosed and managed?

COPD does not strike suddenly and is often neglected by individuals until it has reached an advanced state, because people mistakenly believe that the disease is not life-threatening. By the time a patient sees a health care provider, the lungs frequently have been critically injured and the patient may be in danger of developing serious respiratory problems or heart failure. For this reason, COPD is called the “silent killer.”

COPD can be easily diagnosed with a pulmonary function test known as spirometry. Spirometry measures how well the lungs exhale. In the test, a person breathes into a mouthpiece connected to an instrument called a spirometer. The spirometer records the amount and rate of air that is breathed in and out over a specified time.

Other tests that may be used to assess a patient with COPD include bronchodilator reversibility testing, chest x-ray (to exclude other diagnoses), arterial blood gas measurement (amount of oxygen and carbon dioxide in the blood) and alpha-1 antitrypsin deficiency screening. Alpha-1 screening should be performed when COPD develops in patients under 45 years of age, in patients with a strong family history of COPD, people with COPD who have never smoked, smokers with a family history of COPD and people with a family history of alpha-1 emphysema.

If AAT deficiency is discovered in a child or young person in whom emphysema has not yet developed (in children, liver disease may also occur, and the defect

can be detected by a blood test), a remedy may be liver transplantation, effectively preventing emphysema. If lung disease is already evident, lung transplantation is sometimes considered.

A second treatment alternative for alpha-1 emphysema is administration of the missing AAT protein. However, AAT replacement therapy is costly and it must be given intravenously, on a weekly basis, for life. Its long-term effects are still being studied.

While COPD lung damage is irreversible, there are treatments that can improve a patient's quality of life. Stopping smoking is the single most effective—and cost-effective—way to reduce the risk of developing COPD and slow its progression. Any current or former smoker over age 40 or never-smoker with a family history of COPD, emphysema or chronic bronchitis, those with exposure to occupational or environmental pollutants and those with a chronic cough, sputum (matter discharged from air passages) production or breathlessness, should seek testing for COPD with spirometry.⁴³ For more information about the health benefits of quitting smoking, please see the tobacco chapter of this report.

Treatment with medication can improve and prevent COPD symptoms, reduce the frequency and severity of exacerbations, improve health status and improve the ability to exercise.

Bronchodilators are used to help open the airways in the lungs and decrease shortness of breath. Inhaled or oral steroids can help decrease inflammation in the airways in some people. Antibiotics are often used to treat infections.

A study was conducted among 6,112 patients between the ages of 40 to 80 who had been diagnosed with COPD and were current or former smokers. The study was conducted to determine the effect of inhaled corticosteroids and a long-acting bronchodilator on the treatment of COPD. The study supports the use of the drugs salmeterol plus fluticasone propionate in the management of COPD. This combination treatment resulted in less worsening of symptoms and improved health status and lung function.⁴⁴

Non-drug treatment such as pulmonary rehabilitation, oxygen therapy and surgery can improve a COPD patient's quality of life. One factor that can help protect against COPD development or slow its progression is physical activity, which keeps muscles working effectively and may help slow the decline in lung function.⁴⁵

Want to learn where pulmonary rehabilitation is available near you? Please visit <http://www.lungusa.org> or call the Lung HelpLine at 1-800-LUNGUSA (586-4872).

COPD patients of all ages benefit from pulmonary rehabilitation programs that focus on supervised exercise training and education to help the patients manage their disease. These activities play an important part in helping a patient maximize their ability to perform daily activities. The minimum length of an effective rehabilitation program varies with insurance coverage but is usually two months; the longer the program continues, the more effective the results.

The long-term administration of oxygen (>15 hours per day) to patients with chronic respiratory failure increases survival and exercise capacity and improves mental state. Close to one million persons living in the United States are on long-term oxygen therapy.⁴⁶ The introduction of portable oxygen concentrators has allowed thousands of patients with chronic lung disease to travel and maintain active lifestyles.

Lung transplantation is now being done and may be a more readily available option in the future. Techniques have been improving, many more such operations are being performed each year and pulmonary specialists are optimistic about the procedure's lifesaving potential. Racial disparities in who gets transplantations are due, in part, to social determinants of health such as poverty and unequal access to health care.⁴⁷ These factors need to be addressed in order to eliminate this disparity.

There has been much interest in a procedure called lung volume reduction surgery (LVRS), in which some of the most severely damaged lung tissue is removed to ease the burden on the remaining tissue and chest muscles. Recently, a study was conducted to determine the effects of LVRS. It was found that LVRS for pulmonary emphysema improved weight (body mass index), airflow obstruction, breathing difficulties (dyspnea) and exercise capacity (BODE) index. The BODE index is a predictor of survival in COPD.⁴⁸ Another study, conducted by the National Emphysema Treatment Trial Research Group, concluded that LVRS can be recommended for patients whose emphysema is concentrated in the upper-lobe of a lung and who suffer from low-exercise capacity, and may be considered for other patients.⁴⁹

What is new in COPD research?

Scientists have identified a single gene, the SERPINA1 gene, located on human chromosome number 14, that bears the code that triggers AAT production in the liver.⁵⁰ Future therapy may correct this inherited defect by delivering DNA carrying the missing genetic coded "message" to the liver or other organs.

Recently, a study was conducted to determine the association between the use of corticosteroids in the treatment of COPD and the risk of pneumonia among the elderly. Almost 176,000 patients with COPD were followed for 15 years (1988-2003), with their use of inhaled corticosteroids and any hospitalizations due to pneumonia being tracked over this time. Use of inhaled corticosteroids was associated with a 70 percent increase in risk of hospitalization for pneumonia; those taking the largest dose (equivalent to fluticasone 1,000 micrograms per day or more) were at 2.3 times greater risk. The authors concluded that there is an excess risk of pneumonia hospitalization and an excess risk of hospitalization followed by death within 30 days for elderly COPD patients using inhaled corticosteroids. The death rate due to all causes was not different among pneumonia patients who had or had not inhaled corticosteroids in the recent past.⁵¹

As lung cancer risk may increase among patients with COPD, a study was conducted in 2006 to evaluate whether the use of inhaled corticosteroids by

COPD patients would decrease their risk of lung cancer. The study focused on patients who took their medication for COPD regularly (80% of the time) and found that corticosteroid medications show promise as a COPD medication and that these patients had a decreased risk of developing lung cancer.⁵² Other studies also support the use of corticosteroids in the treatment of COPD to reduce the risk of death and lung cancer.^{53,54}

What is the American Lung Association doing about COPD?

The American Lung Association funds researchers working in the laboratory and with patients who are looking for answers to fundamental questions about how the lungs are damaged in COPD and what can be done to treat and prevent this destruction. Several examples of the many COPD studies being funded by the American Lung Association include:

Determining the risk of COPD in HIV-positive versus HIV-negative smokers.

Examining two types of molecules involved in inflammation, interleukin-13 (IL-13) and leukotrienes, to see whether they play a role in determining who develops COPD from cigarette smoke exposure.

Investigating whether excess air trapped in the lungs may be one of the reasons why some patients with COPD remain dependent on a mechanical ventilator.

Studying a protein, elastin, responsible for the elasticity of the lungs. When elastin in the lungs is broken down, lung elasticity is lost, a hallmark of COPD. Building a comprehensive understanding of the role of elastin in COPD eventually will allow for positive identification of patients at increased risk for premature and severe forms of COPD.

The American Lung Association is currently working on a nationwide initiative to create state-of-the-art programs and services as well as to facilitate collaborative partnerships with key organizations who share the Lung Association's commitment to improve the quality of life for people living with COPD.

In advocacy, the American Lung Association is a leader in COPD-related policy change in Congress. The Lung Association advocates for increasing funding for COPD research at the National Institutes of Health, Department of Veterans Affairs and other federal programs. The Lung Association also is working to raise the profile of COPD at the Centers for Disease Control and Prevention. As a longtime leader on tobacco control, Lung Association volunteers and staff advocate for policies at the federal, state and local level that will increase access to smoking cessation programs, protect the public from secondhand smoke, and prevent children from starting to smoke. Such policies include comprehensive state and local smokefree laws, granting the U.S. Food and Drug Administration (FDA) regulatory control over the manufacturing, distribution and advertising of tobacco products, increasing funding for comprehensive tobacco control and cessation programs at the state level, and increasing cigarette excise taxes. The Lung Association actively supports legislation to provide

Medicare coverage for pulmonary rehabilitation services for COPD patients. Further, the Lung Association continues to work for regulatory changes to facilitate air travel for patients on oxygen therapy. As a member of the U.S. COPD Coalition's policy workgroup, the American Lung Association works closely with key members of the Congressional COPD Caucus, which promotes public awareness, prevention and early detection of COPD.

The Lung Association also has worked to increase state and national surveillance and collection of data on COPD. For example, due to several proposals by the Lung Association, the state of Hawaii will include a question in its 2008 Behavioral Risk Factor Surveillance Survey (BRFSS) on COPD in order to collect state-level prevalence data. The Lung Association is optimistic that other states will follow Hawaii's lead in the future so that state-level COPD surveillance can be attained nationwide. In turn, effective programs can be developed targeting states with high prevalence of COPD in order to reduce its burden.

People with COPD often say that one of the worst aspects of their illness is the feeling that they have lost control over their health. For over 40 years, the American Lung Association has helped millions of patients through its Better Breathers Clubs. These support groups are located throughout the United States and meet regularly to provide peer support and education needed to understand and better manage the disease. These clubs are for adults with all chronic lung diseases, their families and their caregivers.

By joining a support group, participants gain a sense of control over their disease and enter a positive cycle: They get out of the house, meet other people and become motivated to take action. Then they start to feel better—psychologically and physically.

Want to learn more about Better Breathers Club and find one in your area? Please view the club listings at <http://www.lungusa.org/bbc>

Often these groups are led by a respiratory therapist who can educate group members and their families about ways to live well with COPD. Groups may invite medical professionals to share their expertise on topics including nutrition, exercise, breathing techniques, new treatments, stress and depression, and medical equipment. The education patients receive in these groups may help them to avoid preventable hospitalizations and emergency room visits.

The COPD NexProfiler is an interactive decision support tool provided under the auspices of the American Lung Association and NexCura, Inc. The COPD NexProfiler helps COPD patients and their physicians make better-informed treatment decisions using information from evidence-based, peer-reviewed medical literature.

Need help with treatment decisions for COPD? Please view the COPD NexProfiler at <http://www.lungusa.org/copdtreatment>

Thousands of patients with COPD have joined with the Lung Association to

tell Congress to make life easier for people with this disease by broadening the use of portable oxygen concentrators and other approved devices on airplanes, by cleaning up outdoor pollution and by covering pulmonary rehabilitation under Medicare. Join the American Lung Association in its advocacy work by visiting <http://lungaction.org>.

In addition to its advocacy efforts, the Lung Association offers smoking cessation programs such as Freedom From Smoking® and Not On Tobacco, as well as self-help programs to assist smokers who want to quit. The American Lung Association Lung Help Line (1-800-LUNG-USA; 586-4872), staffed by registered nurses, respiratory therapists and quit-smoking specialists offers free counseling and support to callers, including those seeking information about COPD.

Influenza and Pneumonia

What are influenza and pneumonia?

Influenza (flu) is a highly contagious viral infection that is one of the most severe illnesses of the winter season. The reason influenza is more prevalent in the winter is not known; however, data suggest the virus survives and is transmitted better in cold temperatures. Influenza is spread easily from person to person, usually when an infected person coughs or sneezes.

A person can have flu more than once because the virus that causes the disease may belong to different strains of one of three different influenza virus families, A, B or C. Type A viruses tend to have a greater effect on adults, while Type B viruses are a greater problem in children.¹

Symptoms of influenza include fever, headache, cough, chills, sore throat, nasal congestion, muscle aches, loss of appetite and a general achy and lousy feeling.

Want to learn more about the symptoms of influenza? Please view the disease listing at <http://www.lungusa.org/flu>

Influenza can be complicated by pneumonia, which is a serious infection or inflammation of the lungs. The air sacs fill with pus and other liquid, blocking oxygen from reaching the bloodstream. If there is too little oxygen in the blood, the body's cells cannot work properly, which can lead to death.

Pneumonia can have over 30 different causes which include various chemicals, bacteria, viruses, mycoplasmas¹ and other infectious agents such as pneumocystis (fungi). Certain diseases, such as tuberculosis, also can cause pneumonia. Pneumonia also can be caused by the inhalation of food, liquid, gases or dust. The most common cause of community-acquired (compared to hospital-acquired) pneumonia is the pneumococcus bacterium; infection by this bacterium is known as pneumococcal disease.² The pneumococcal bacterium also causes meningitis, bacteremia, otitis media and sinusitis.³

Symptoms of pneumonia include fever, wheezing, cough, chills, rapid breathing, chest pains, loss of appetite and malaise, or a general feeling of weakness or ill health.

¹ Mycoplasma is an infectious organism which has characteristics of both bacteria and viruses.

Want to learn more about the symptoms of pneumonia? Please view the disease listing at <http://www.lungusa.org/pneumonia>

Who gets influenza and pneumonia?

People most at risk from these infections and their complications are those whose defenses against disease are not operating well. They include the very young, the very old, those with chronic disease and those whose immune systems have been affected by birth defects, medications (including some drugs used to treat cancer) or AIDS.

About 5 percent to 20 percent of the population gets the flu each year.⁴ In the United States, influenza generally strikes between December and March, although it may appear a little earlier.

Along with other respiratory conditions, such as the common cold and acute bronchitis, these disorders are major causes of days lost from work and school.

What are the health impacts of influenza and pneumonia?

Influenza and pneumonia are major causes of illness and death. In 2005, these conditions ranked as the eighth leading cause of death in the United States and the sixth leading cause in people over 65 years of age.⁵

In 2004, 59,664 deaths from these diseases were recorded, for a combined death rate of 19.8 per 100,000. Of these, pneumonia caused the majority of deaths (58,564). Close to 90 percent of influenza and pneumonia deaths occurred in persons aged 65 and over.⁶ According to preliminary data, there were 62,804 deaths due to influenza and pneumonia in 2005, an age-adjusted rate of 20.3 per 100,000.⁷

Influenza deaths have increased substantially in the last two decades, in part because of the aging population.⁸ Influenza and its complications are responsible for an average of 226,000 hospitalizations and 36,000 deaths in the United States each year.⁹ The number of influenza deaths includes associated underlying respiratory and circulatory deaths in order to provide a more specific estimate of the total burden of influenza.¹⁰

Want to learn more about influenza? Please view the fact sheet at <http://www.lungusa.org/influenzafactsheet>

Influenza and pneumonia are most likely to require hospitalization in those over 65 years of age. Data from 2005 show that persons aged 65 and older accounted for 60 percent of the total number of pneumonia hospital discharges (the diagnosis made upon leaving a hospital stay).¹¹ The number (36,000) and rate (9.8 per 10,000 persons) of influenza discharges were both highest in those 65 years and older.¹²

Pneumonia can strike anyone at any time of the year. All-cause pneumonia hospital admission rates for children under two years in age in 2004 were 39

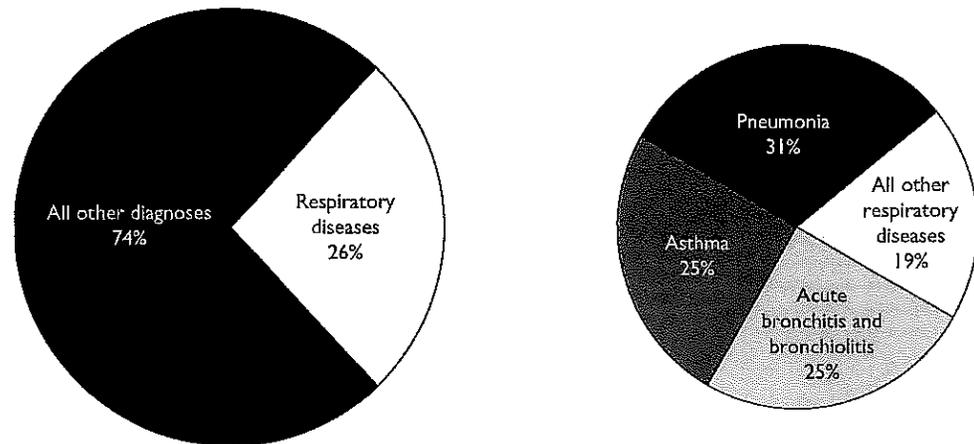

percent lower than during 1997 to 1999, a decrease in approximately 41,000 pneumonia admissions for that year. This decrease was due to the release and broad administration of a new pneumonia vaccine in 2000.¹³

Want to learn more about pneumonia? Please view the fact sheet at <http://www.lungusa.org/pneumoniafactsheet>

From 2000 to 2004, the average annual influenza hospitalization rate was 0.9 per 1,000 children under five years of age. This age group also was responsible for 95 clinic and 27 emergency department visits per 1,000 children during the 2003-2004 flu season. Despite the usefulness of rapid influenza tests, only 28 percent of hospitalizations and 17 percent of outpatient visits had a discharge diagnosis of influenza among children with laboratory-confirmed influenza. Improving these rates will offer the opportunity for improved infection control, increased use of antiviral therapy, and education about vaccination.¹⁴

Figure 1 shows the percent of all hospitalizations due to respiratory diseases and the type of respiratory disease for children under 15 years of age. Over a quarter (26%) of all hospitalizations in 2005 for this age group was due to respiratory diseases; almost a third (31%) of those were due to pneumonia.¹⁵

Figure 1: Hospitalizations for Types of Respiratory Diseases, Children Under 15 Years, 2005

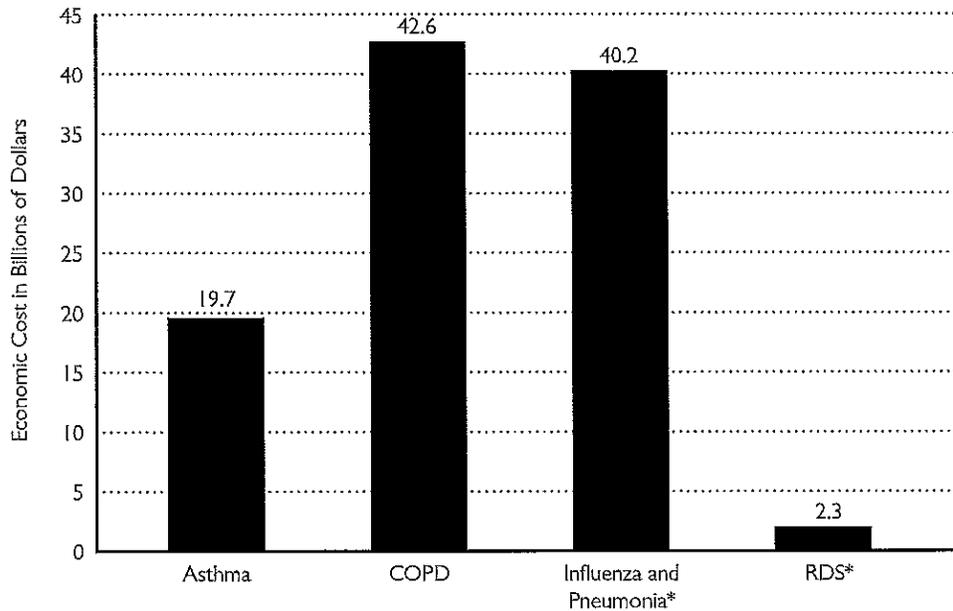

Source: Centers for Disease Control and Prevention. Quickstats: Percentage Distribution of Hospitalizations for Types of Respiratory Diseases Among Children Aged <15 Years—National Hospital Discharge Survey, United States, 2005. *Morbidity and Mortality Weekly Report*. July 20, 2007; 56(28):713.

Want to learn more about pneumonia and influenza trends and data? Please view the Trend Report on Pneumonia and Influenza, which includes information and statistics on morbidity and mortality attributed to pneumonia and influenza available from national surveys and vaccine recommendations to prevent pneumonia and influenza, at <http://www.lungusa.org/pitrends>

Together, pneumonia and influenza cost the U.S. economy more than \$40.2 billion in 2005. This figure includes more than \$6 billion due to indirect costs (such as time lost from work) and \$34.2 billion due to direct costs (such as medical expenses).¹⁶ Figure 2 shows the total economic cost of influenza and pneumonia in the United States compared to other lung diseases.

Can influenza and pneumonia be prevented?

Influenza

Influenza viruses change constantly and different strains circulate around the world every year. The body's natural defenses cannot keep up with these changes. Therefore, a person should get a flu vaccine each year. The flu vaccine is modified on the assumption of which strain will most likely be dominant throughout the season. However, this prediction may not be 100 percent accurate, as has been the case with the 2007-2008 flu season. Therefore the effectiveness of the flu vaccine will vary with each new season.

The Advisory Committee on Immunization Practices (ACIP) recommends influenza vaccination for all persons, including school-age children, who want to reduce the risk of becoming ill with influenza or giving it to others. For anyone at high risk, influenza can be a very serious illness and the ACIP strongly recommends vaccination. Annual immunization is the best way to protect against influenza.¹⁷ The American Lung Association urges anyone at high risk to get vaccinated as early as possible during the influenza season. Vaccination typically begins in October and can continue through March.

In most seasons, influenza virus activity does not peak until February or March.¹⁸

The flu shot may be given at the same time as other routine immunizations, such as pertussis, and is recommended for children at risk for influenza-related complications, such as those who have asthma. Protection lasts approximately six months. The influenza vaccine is safe for use in pregnancy.¹⁹

Want to learn more about preventing cold and flu? Please view the guidelines at <http://www.lungusa.org/coldandfluguidelines>

All health care providers including home care providers, household contacts and out-of-home caregivers to high-risk persons should also be immunized against both influenza and pneumonia to prevent transmission to these susceptible groups.

In addition, the ACIP has voted to expand the current flu vaccination recommendation to include all children from 5 to 18 years of age, which increases the number of children by 30 million and brings the total to approximately 250 million people. This change will take effect as soon as feasible, but no later than the 2009-2010 influenza season.²⁰

Want to learn more about those at risk and the ACIP recommendations? Please visit http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5606a1.htm?s_cid=rr5606a1_e

There are two vaccine options available in the United States for influenza¹¹: the flu shot (trivalent inactivated vaccine or TIV) and the flu nasal spray (activated, live attenuated influenza vaccine or LAIV) called FluMist[®].

FluMist is approved to prevent influenza illness due to influenza A and B viruses in healthy people aged 2 to 49 years only.²¹ In clinical trials, the effectiveness of the FluMist vaccine in preventing influenza was approximately 87 percent among children. In healthy adults aged 18 to 49 years, FluMist was effective in reducing severe illnesses with fever, and upper respiratory problems which may be caused by influenza infection.²²

Certain people should not receive FluMist as the safety of FluMist in the following groups has not been established. FluMist should not be given to people with a history of asthma. FluMist is not recommended for children under two years of age, children under five with recurrent wheezing or adults over 49 years of age.^{23,24} FluMist should not be given to women who are pregnant or people who have weakened immune systems (such as those with HIV) or chronic underlying medical conditions that may make them vulnerable to severe flu infections. High-risk individuals should receive the trivalent inactivated vaccine (TIV).^{25,26}

¹¹ The 2007-2008 TIV and LAIV strains are A/Solomon Islands/3/2006 (H1N1)-like, A/Wisconsin/67/2005 (H3N2)-like and B/Malaysia/2506/2004-like antigens.

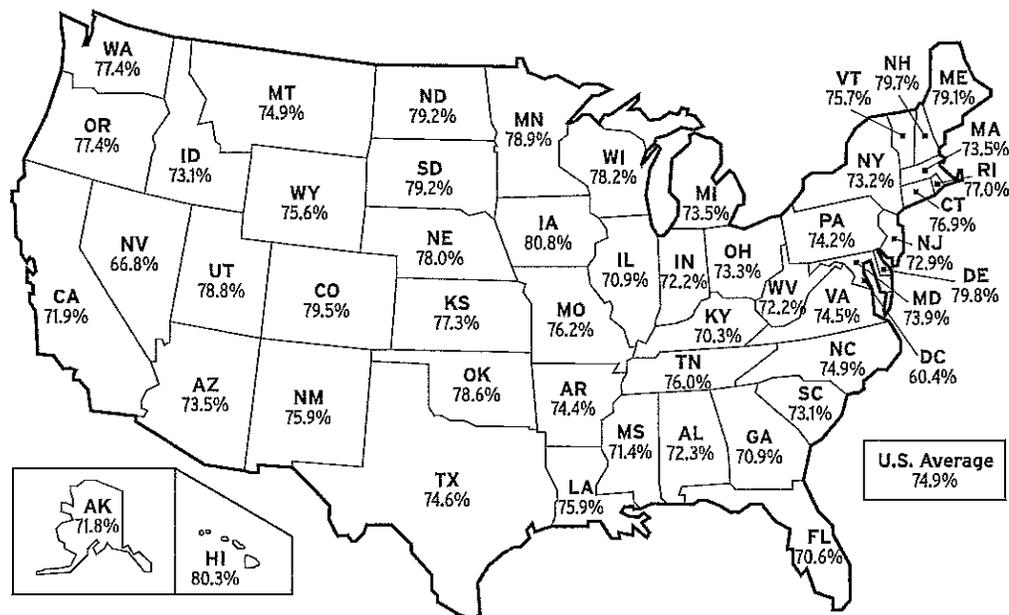

A national health objective for 2010 is to increase influenza and pneumococcal vaccination levels to greater than 90 percent among persons ages 65 and older. That goal, however, is far from being realized. In 2006, 69.6 percent of people aged 65 and older received a flu shot.²⁷ Medicare covers both flu shots and pneumococcal vaccines for people over 65 years of age.

Initial results from the 2006-2007 influenza season indicate that children 6 to 59 months of age are under-vaccinated. Less than 30 percent of children 6 to 23 months of age were fully vaccinated during that past flu season, while less than 20 percent of children 24 to 59 months old were fully vaccinated. The ACIP also recommends that previously unvaccinated children under the age of nine receive two doses of influenza vaccine at least one month apart to be fully vaccinated.²⁸

Diverse communities are less likely to receive these vaccines. In 2006, among people ages 65 and older, non-Hispanic Whites were more likely to report receiving a flu shot (66.2%) than Hispanics (43.1%) and non-Hispanic Blacks (45.3%).²⁹

There is great variation across the country in vaccination rates in those over 65. Figure 3 shows the percentage of fee-for-service Medicare beneficiaries aged 65 and older that received flu shots, by state, in 2004. Percentages ranged from a low of 60.4 percent in the District of Columbia to a high of 80.8 percent in Iowa. The United States average was 74.9 percent.³⁰

Figure 3: 2004 Fee-for-Service Medicare Beneficiaries, Age 65 or Older Receiving a Flu Shot

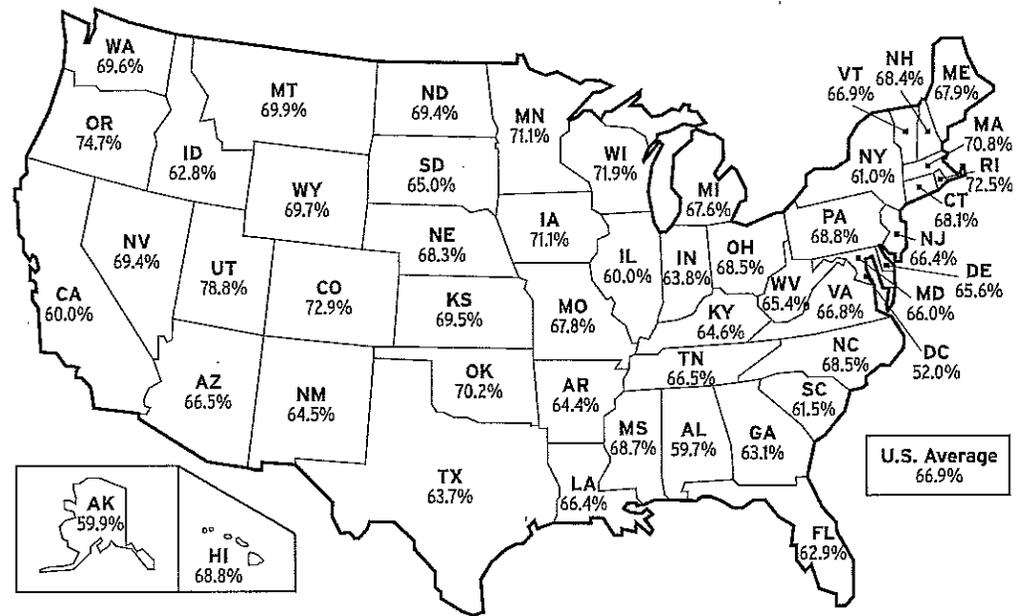

Source: Centers for Medicare and Medicaid Services. Consumer Assessment of Health Providers and Systems (CAHPS), 2004.

Pneumonia

The pneumococcal vaccine protects against 23 types of pneumococcal bacteria populations and is effective in approximately 80 percent of healthy adults. Unfortunately, the vaccine may be less effective in people in high-risk groups. According to the Centers for Disease Control and Prevention (CDC), pneumococcal pneumonia accounts for 25 percent to 35 percent of all community-acquired pneumonia (mostly caused by *Streptococcus pneumoniae* bacterium) and an estimated 40,000 deaths yearly.^{31,32}

Older persons are advised to receive the pneumococcal vaccine since pneumonia is a major complication of the flu. Figure 4 displays the percentage of Medicare beneficiaries aged 65 and older that had ever received a pneumococcal vaccination as of 2006, by state. Percentages ranged from a low of 52.0 percent in the District of Columbia to a high of 74.7 percent in Oregon. The U.S. average for that year was 66.9 percent.^{33, 34}

Figure 4: 2006 Medicare Beneficiaries, Age 65 or Older Ever Receiving Pneumococcal Vaccination

Source: Centers for Disease Control and Prevention. 2006 Behavioral Risk Factor Surveillance System.

Note:

Data reflects claims paid for by Medicare for non-HMO beneficiaries only. Total immunization rates may be higher in those areas with free or publicly-supported programs.

There is a racial disparity among people ages 65 and older receiving the pneumonia shot which needs to be addressed. In 2006, 59.9 percent of non-Hispanic Whites, 33.5 percent of non-Hispanic Blacks and 31.2 percent of Hispanics reported ever having received a pneumonia vaccine.³⁵

How are influenza and pneumonia diagnosed and managed?

A number of laboratory tests are available to confirm the diagnosis of influenza or pneumonia, including sputum and blood cultures, chest x-rays and blood tests.

Influenza

Health care providers usually will make the diagnosis of influenza based on symptoms and findings of a physical examination. Currently, a new office-based rapid test is available.

Drugs that fight viruses (antivirals) are sometimes used in the management of flu. These drugs either shorten the duration of the flu, if taken early at the onset of the flu, or prevent the flu. There are currently four influenza antiviral drugs available in the United States: amantadine, rimantadine, zanamivir and oseltamivir.

According to the ACIP guidelines for the 2007-2008 influenza season, neither amantadine nor rimantadine should be used for treatment or prevention of influenza A infections. Oseltamivir or zanamivir should be prescribed if an antiviral drug is indicated for the treatment of influenza.³⁶ This recommendation is based on increasing resistance to the older drugs, amantadine and rimantadine. A recent study found that worldwide resistance to amantadine and rimantadine has increased 12 percent since the mid-1990s.³⁷ Analysis of influenza viruses found globally in 2005 and 2006 indicates that 96.4 percent of A(H3N2) and 15.5 percent of A(H1N1) viruses circulating in the United States were resistant to amantadine and rimantadine.³⁸

Zanamivir (called Relenza, an inhalant) and oseltamivir (called Tamiflu, a pill) reduce flu symptoms if taken at the onset of the illness. The Food and Drug Administration (FDA) does not recommend Relenza for patients with underlying respiratory disease, including asthma and chronic obstructive pulmonary disease (emphysema and chronic bronchitis). Relenza has not been shown to shorten the length of influenza for this population and increases their risk of bronchospasm (wheezing) or serious breathing problems.³⁹ Studies also have shown that oseltamivir might be effective in reducing secondary complications due to the flu such as pneumonia in adults and ear infections in children. These newer drugs can be used to treat strains from both the Type A and B influenza viruses. Oseltamivir also can be used to prevent influenza. The CDC has stressed that these drugs are not substitutes for vaccination.

Over-the-counter medications can minimize discomfort associated with flu symptoms, but these medications do not treat the virus infection. Aspirin should not be used to treat flu symptoms in children under 18 years old because it may play a role in causing Reye Syndrome, a rare but severe liver and central nervous system condition.

Congestion, cough and nasal discharge are best treated with a decongestant, an antihistamine or a combination of these two types of medication. Many over-the-counter flu remedies contain both. However, pediatric specialists do

not recommend their use in children. Also, patients who have chronic medical conditions such as thyroid disease or high blood pressure should check with a health care provider before taking over-the-counter drugs for flu symptoms.

Adequate liquids and nutrition are necessary for rapid recovery from the flu and to prevent dehydration. Bed rest is also a good idea. Until symptoms are gone, it is not advisable to go back to full activity.

Prevention of flu is key to reduce the burden of influenza. Frequent hand washing and mouth covering during coughing and sneezing helps to prevent transmission of the influenza virus.

Want to learn more about good flu health habits? Please view the recommendations at <http://www.lungusa.org/goodfluhealthhabits>

Pneumonia

In August 1999, the FDA cleared for marketing a simple, quick test for a certain form of pneumonia. A swab is dipped into a urine sample and then inserted into a test device, which detects *Streptococcus pneumoniae* antigen.³⁹ The laboratory test provides results in 15 minutes. The test is intended for use in conjunction with review of a patient's symptoms to rule out other potential causes of pneumonia. Test results can enable health care providers to make a probable diagnosis more quickly and start treatment with the appropriate antibiotics sooner. Conventional methods for diagnosing pneumonia, primarily testing sputum or blood, require two days to several weeks for results, are often complex and are not always reliable.

There are no generally effective treatments for most types of viral pneumonia, which usually heal on their own. Early treatment with antibiotics can cure bacterial pneumonia and speed recovery from mycoplasma pneumonia. However, the disease has become more resistant to these drugs, making treatment of pneumococcal infections more difficult. New guidelines for community-acquired pneumonia (CAP), issued by the Infectious Disease Society of America and the American Thoracic Society, recommend that patients admitted to the hospital from the emergency department with a diagnosis of CAP should receive their first dose of antibiotics while still in the emergency department.⁴⁰

What is bird flu?

An emerging Type A strain is the avian influenza virus or bird flu. Bird flu viruses do not usually infect humans, but several cases of human infection with bird flu viruses have occurred since 1997, especially in Asia. The virus is mainly transmitted to humans by direct contact with live, sick or dead poultry; however, it is thought that a few cases of human-to-human spread have occurred.⁴¹ Due to limited person-to-person transmission, there has not been a widespread epidemic of the bird flu.

³⁹ A foreign substance that triggers the formation of antibodies that react to make the substance harmless.

Want to learn more about bird flu? Please view the fact sheet at

<http://www.lungusa.org/avianinfluenza>

The highest number of bird flu cases have been reported in Vietnam and Indonesia. The majority of cases have been reported in children and adults under 40 years of age. Overall mortality is approximately 60 percent and is highest in those 10 to 19 years old.⁴²

The bird flu and the risk for human infection is currently an area of research focus. Human infection with bird flu is expected to continue on a sporadic basis due to contact with birds carrying the disease.⁴³ The virus could cause an influenza pandemic^{IV} if it changes into a form easily spread by human-to-human contact. High rates of illness and death could occur worldwide due to the lack of any pre-existing natural immunity in humans or the availability of an effective vaccine. Fortunately, there has been no indication of such a change in the existing strains of the virus.⁴⁴ While avian flu has shown resistance to the antiviral medications amantadine and rimantadine, the other two drugs in this category (oseltamivir and zanamivir) should still be effective against the current strains of the virus.⁴⁵

Want to learn more about flu pandemics? Please view the fact sheet at

<http://www.lungusa.org/pandemicinfluenza>

In April 2007, the FDA approved a vaccine for humans against the H5N1 influenza virus,⁴⁶ one type of bird flu that has caused infections in birds and humans.⁴⁷ This vaccine could provide limited protection from an H5N1 pandemic while a more specific vaccine is created. However, the H5N1 vaccine will not be available for commercial use because all amounts are going to the National Stockpile to ensure adequate supplies in the event of an outbreak.⁴⁸

What is new in influenza and pneumonia research?

A recent study found that persons 65 years of age and older who received the flu shot had a 27 percent reduction in the risk of hospitalization for pneumonia or influenza and a 48 percent reduction in the risk of death. This was despite the fact that those receiving flu shots also tended to have more serious medical conditions that should increase their risk of hospitalization or death.

Based on other studies that show fewer influenza outbreaks and deaths in the United States and Japan due to immunization programs, researchers recommend focusing on developing new and more effective vaccines for elderly populations and children as well as increasing the percentage of those receiving flu shots.

Another key but disturbing finding is the low rate of vaccination of health care providers. If the elderly were not exposed through direct contacts, fewer cases

^{IV} A pandemic occurs when a novel strain of influenza virus emerges and has the ability to infect and easily pass between humans. Because humans have little immunity to the new virus, a worldwide epidemic, or pandemic, can ensue.

of influenza would occur in this susceptible group. The best way to protect the elderly is to reduce influenza in groups of people they have contact with, such as children and health care providers. While this strategy requires more research to validate its effectiveness, increasing flu vaccination of all groups will prevent unnecessary hospitalizations and deaths.^{49,50}

What is the American Lung Association doing about influenza and pneumonia?

American Lung Association volunteers and staff work with different public health organizations, Congress, and other policymakers to improve funding for research, surveillance, vaccine supply and public health response to influenza. The Lung Association also works in coalition to educate the public and policymakers to provide funding, develop resources and plan for a future influenza pandemic.

A study conducted by the American Lung Association Asthma Clinical Research Centers Network recently found that flu shots are safe for children and adults with asthma. Influenza causes substantial illness in both children and adults with asthma. The study puts to rest previous concerns about possible side effects of the flu shot in people with asthma. The study found that people with asthma did not have any higher rates of side effects within 14 days after receiving the flu shot compared with those who received a placebo, or inactivated flu shot.⁵¹

Want to learn more about flu in people with asthma? Please view the fact sheet at <http://www.lungusa.org/influenza-asthma>

To ensure that people understand the seriousness of influenza, the American Lung Association will continue its Faces of Influenza educational initiative to show why protecting families against this serious illness is so important. Actress Jennifer Garner recently partnered with the American Lung Association as another “face” in the initiative, which is made possible through collaboration with sanofi pasteur, the nation’s largest manufacturer of influenza vaccines. The site, available at www.facesofinfluenza.org, provides additional resources such as a flu clinic locator and information for both the general public and specific groups, such as health care providers and high-risk individuals.

Thousands of advocates have joined with the ALA to tell Congress that more needs to be done to fight influenza and pneumonia. To join the American Lung Association in the battle against influenza, pneumonia and other lung diseases, visit <http://lungaction.org>.

Lung Cancer

What is lung cancer?

Lung cancer is the uncontrolled growth of abnormal cells in one or both of the lungs. While normal lung tissue cells reproduce and develop into healthy lung tissue, these abnormal cells reproduce faster and never grow into normal lung tissue. Lumps of cancer cells (tumors) then form and disturb the lung, making it difficult for it to work properly.

There are two major types of lung cancer: small cell lung cancer (SCLC) and non-small cell lung cancer (NSCLC). Sometimes a lung cancer may have characteristics of both types, which is known as mixed small cell/large cell carcinoma.

Non-small cell lung cancer is much more common and accounts for 87 percent of all lung cancer cases.¹ It usually spreads to different parts of the body more slowly than small cell lung cancer. There are three main types of non-small cell lung cancer. They are named for the type of cells in which the cancer develops: squamous cell carcinoma, adenocarcinoma and large cell carcinoma.

Small cell lung cancer, also called "oat cell cancer," accounts for the remaining 13 percent of all lung cancers.² This type of lung cancer grows more quickly and is more likely to spread to other organs in the body.

Lung cancer symptoms may include a persistent cough, sputum streaked with blood, chest pain, and recurring pneumonia or bronchitis.³ Unfortunately, symptoms often do not appear and diagnosis is not made until the disease is in an advanced stage.

Want to learn more about lung cancer? Please view the disease listing at <http://www.lungusa.org/lungcancer>

Smoking, a main cause of small cell and non-small cell lung cancer, contributes to 80 percent and 90 percent of lung cancer deaths in women and men, respectively. Men who smoke are 23 times more likely to develop lung cancer. Women are 13 times more likely, compared to never-smokers.⁴ Fortunately, lung cancer is preventable. To learn more about the impact of tobacco on the lungs and the development of lung cancer, please refer to the Tobacco Control

section of this report.

Nonsmokers who breathe in smoke from others' cigarettes also are at increased risk of lung cancer. Nonsmokers have a 20 to 30 percent greater chance of developing lung cancer if they are exposed to secondhand smoke at home or at work.⁵

Exposure to radon is estimated to be the second leading cause of lung cancer, accounting for an estimated 15,000 to 22,000 lung cancer deaths each year (9% to 14% of the total). Radon is a tasteless, colorless and odorless gas that is produced by decaying uranium and occurs naturally in soil and rock. The majority of these deaths occur among smokers since there is a greater risk for lung cancer when smokers also are exposed to radon.⁶

The main source of high-level radon pollution is uranium-containing soil such as granite, shale, phosphate and pitchblende that surrounds buildings. Radon enters a home through cracks in walls, basement floors, foundations and other openings. It also may contaminate the water supply, especially in private wells.⁷

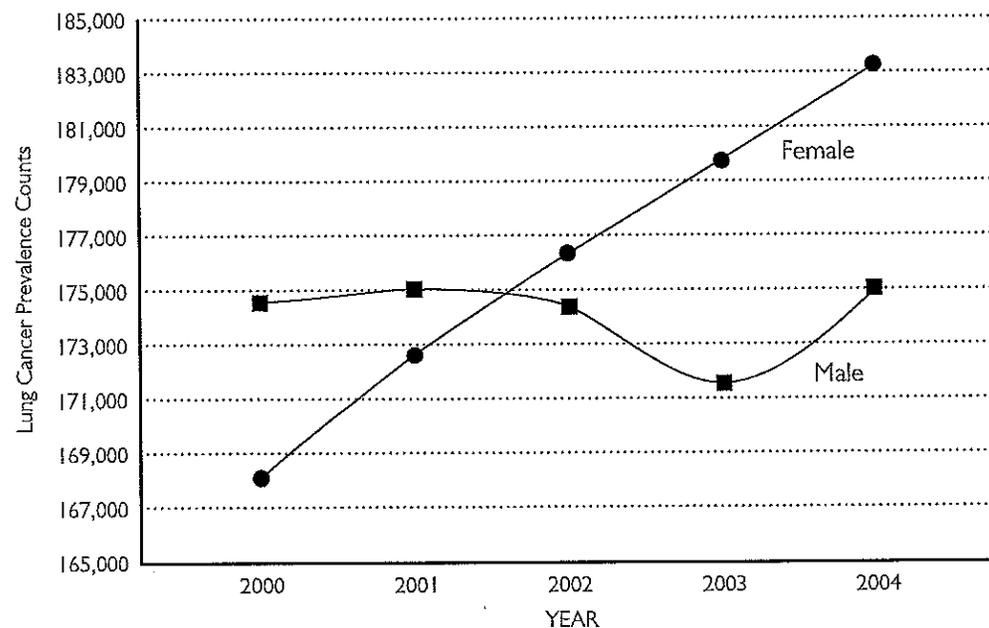

A study was carried out over a five-year period to determine the risk posed by residential radon exposure. The participants included over 1,000 women throughout Iowa, the state with the highest average radon concentrations, who lived in their current home for at least 20 years. Of the participants, 413 had developed lung cancer, while the remaining 614 were controls who did not have lung cancer. The outcomes suggested that cumulative radon exposure in the residential environment is a significant risk factor for lung cancer in women.⁸

Want to learn more about radon and lung cancer? Please view the fact sheet at <http://www.lungusa.org/radonfactsheet>

Lung cancer also can be caused by occupational exposures, including asbestos, uranium, and coke (an important fuel in the manufacture of iron in smelters, blast furnaces, and foundries). The combination of asbestos exposure and smoking greatly increases the risk of developing lung cancer.⁹ Nonsmoking asbestos workers are five times more likely to develop lung cancer than nonsmokers not exposed to asbestos; if they also smoke, the risk factor jumps to 50 or higher.¹⁰ Environmental exposures also can increase the risk of lung cancer death.¹¹

Who has lung cancer?

In 2004, 358,128 Americans were living with lung cancer. Figure 1 displays the prevalence of lung cancer for men and women since 2000, and shows that women surpassed men in lung cancer prevalence in 2002. In 2004, women accounted for 183,248 lung cancer cases in the United States while men accounted for 174,880 cases.¹²

Figure 1: Lung Cancer Prevalence Counts, U.S., 2000–2004*

Source: National Cancer Institute: SEER Cancer Statistics Review, 2000–2004

Note:

* Comparisons should only be made between groups and diseases using rates, not number of cases, as these do not take into account differences which may exist in population size or demographics.

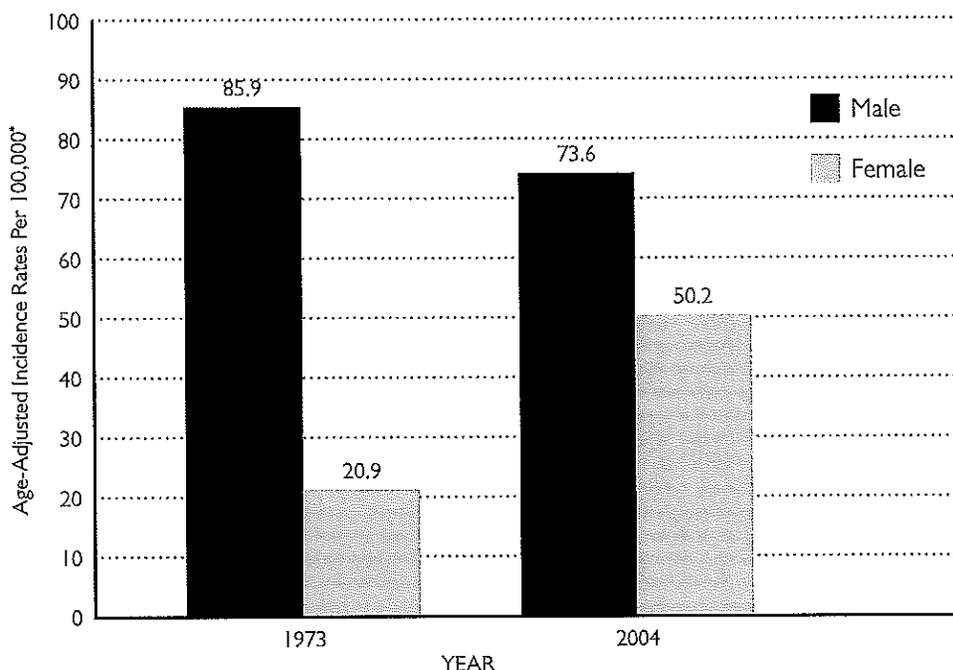

The majority of living lung cancer patients have been diagnosed within the last five years. Lung cancer is mostly a disease of the elderly. From 2000 to 2004, the median age at diagnosis was 70 years.¹³

During 2007, an estimated 213,380 new cases of lung cancer were diagnosed, representing about 15 percent of all cancer diagnoses.¹⁴

In 2004, Kentucky had the highest age-adjusted lung cancer incidence rates (rates of new cases) in both men (133.2 per 100,000) and women (75.5 per 100,000). Utah had the lowest age-adjusted cancer incidence rates in both men and women (37.5 per 100,000 and 20.6 per 100,000, respectively). These state-specific rates were parallel to smoking prevalence rates.¹⁵

Want to learn more about lung cancer? Please view the fact sheet at <http://www.lungusa.org/lcfactsheet>

Each year more men are diagnosed with lung cancer, but more women are living with the disease. The rate of new cases in 2004 showed that men develop lung cancer more often than women (73.6 and 50.2 per 100,000 respectively). However, as Figure 2 shows, the rate of new lung cancer cases (incidence) over the past 31 years has dropped for men (14% decrease), while it has risen for women (140% increase). In 1973 rates were low for women, but began to rise for both men and women. In 1984, the rate of new cases for men peaked (102.1 per 100,000) and then began declining. The rate of new cases for women increased further and did not peak until 1998 (52.8 per 100,000) but has remained stable since then.¹⁶

Figure 2: Rate of New Lung Cancer Cases by Gender, U.S., 1973 & 2004

Source: National Cancer Institute: SEER Cancer Statistics Review, 1973–2004

Note:

*Rates are per 100,000 persons and are age-adjusted to the 2000 U.S. standard population.

Lung cancer in people who have never smoked is a major public health problem and continued research is needed. Women, compared to men, appear to have higher prevalence rates of lung cancer that is not associated with smoking; 25 percent of lung cancer occurs in women who are nonsmokers.¹⁷ One study reported that the age-adjusted rates of new nonsmoking-associated lung cancer cases in women ages 40 to 79 years range from 14.4 to 20.8 per 100,000 person-years^{1,18,19}, compared with 4.8 to 13.7 per 100,000 person-years in men. Differences in genetics, biology and hormones could explain this finding.²⁰ However, another study showed that the death rate from lung cancer among lifelong nonsmokers aged 35 to 84 years was 14.7 per 100,000 person-years among women and 17.1 per 100,000 person-years among men. The study also found little evidence that the lung cancer death rate among people who have never smoked is increasing over time.²¹ More research is necessary to explain these conflicting results.

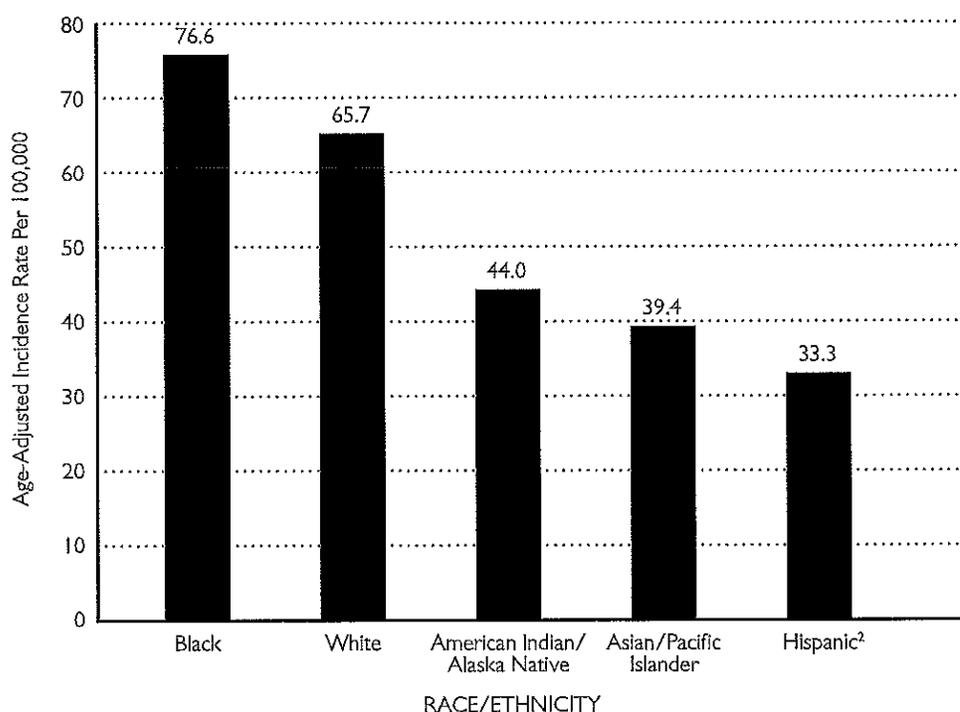

Want to learn more about lung cancer trends and data? Please view the Lung Cancer Trend Report, which delineates data on lung cancer mortality, prevalence, incidence, hospitalizations, and survival, at <http://www.lungusa.org/lctrends>

¹ Average number of events per cumulative amount of time observed. Person-years is used for counting time when individuals are observed over different periods of time. For example, the number of person years for two people being observed for five years each is the same as that of ten people observed for one year or ten person-years.

Blacks are more likely to develop and die from lung cancer than persons of any other racial or ethnic group. The age-adjusted lung cancer incidence rate among Black men is approximately 38 percent higher than for White men, even though their overall exposure to cigarette smoke, the primary risk factor for lung cancer, is lower. Equally disturbing is the fact that the lung cancer incidence rate for Black women is roughly equal to that of White women, despite the fact that they smoke fewer cigarettes.^{22,23}

Figure 3 displays lung cancer age-adjusted incidence rates by race/ethnicity between 2000 and 2004. Over this five-year period, Hispanics, Asians/Pacific Islanders and Native Americans were less likely to develop lung cancer than Blacks or Whites.²⁴

Figure 3: Lung Cancer Age-Adjusted Incidence Rates by Race/Ethnicity, 2000–2004¹

Source: National Cancer Institute, SEER Cancer Statistics Review, 2000–2004.

Notes:

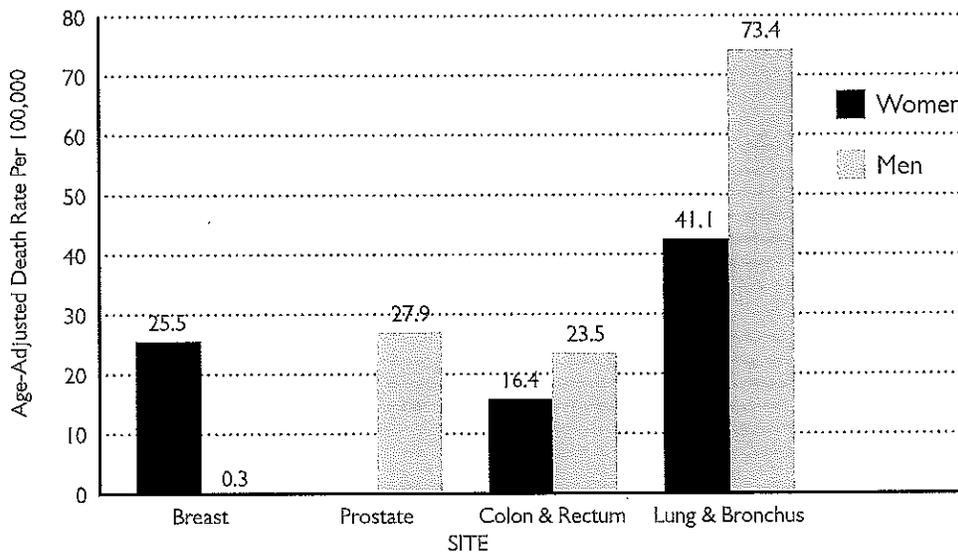

1. Rates are per 100,000 age-adjusted to the 2000 U.S. Standard Population. Incidence rates obtained from 17 SEER areas.
2. Hispanics are not mutually exclusive from Whites, Blacks, Asian/Pacific Islanders and American Indians/Alaska Natives.

Want to learn more about lung cancer in diverse communities?
Please view the *State of Lung Disease in Diverse Communities 2007* report at
<http://www.lungusa.org/solddc-lc>

What is the health impact of lung cancer?

Lung cancer is the leading cause of cancer deaths among both men and women in the United States. In 2007, about 160,390 Americans were expected to die of lung cancer, accounting for approximately 29 percent of all cancer deaths.²⁵ Figure 4 displays cancer death rates by gender and type of cancer from 2000 to 2004. Lung cancer death rates were higher than death rates due to cancer of other common cancer sites among both men and women. In 2004, there were 89,630 deaths due to lung cancer in men and 68,461 in women.²⁶

Figure 4: Cancer Death Rates by Gender and Site, U.S., 2000–2004*

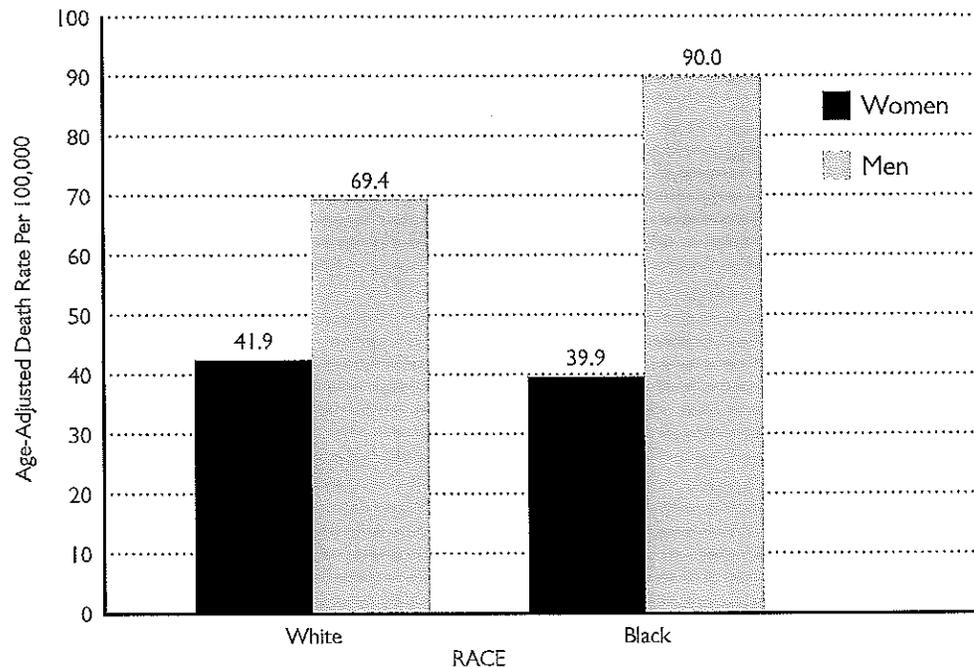

Source: National Cancer Institute, SEER Cancer Statistics Review, 2000–2004.

Note:

* Rates are per 100,000 persons, age adjusted to the 2000 U.S. population and coded by ICD-10 Revision (C33-C34).

The age-adjusted death rate for lung cancer is higher for men (73.4 per 100,000 persons) than for women (41.1 per 100,000 persons).²⁷ It also is higher for Blacks (59.8 per 100,000 persons) compared to Whites (53.6 per 100,000 persons). Black men have a far higher age-adjusted lung cancer death rate than White men, while Black and White women have similar rates.²⁸ Figure 5 shows this disparity.

Figure 5: Lung Cancer Death Rates by Gender and Race, U.S., 2004*

Source: Centers for Disease Control and Prevention. National Vital Statistics Report. Deaths: Final Data for 2004. Volume 55 No 19, August 21, 2007.

Note:

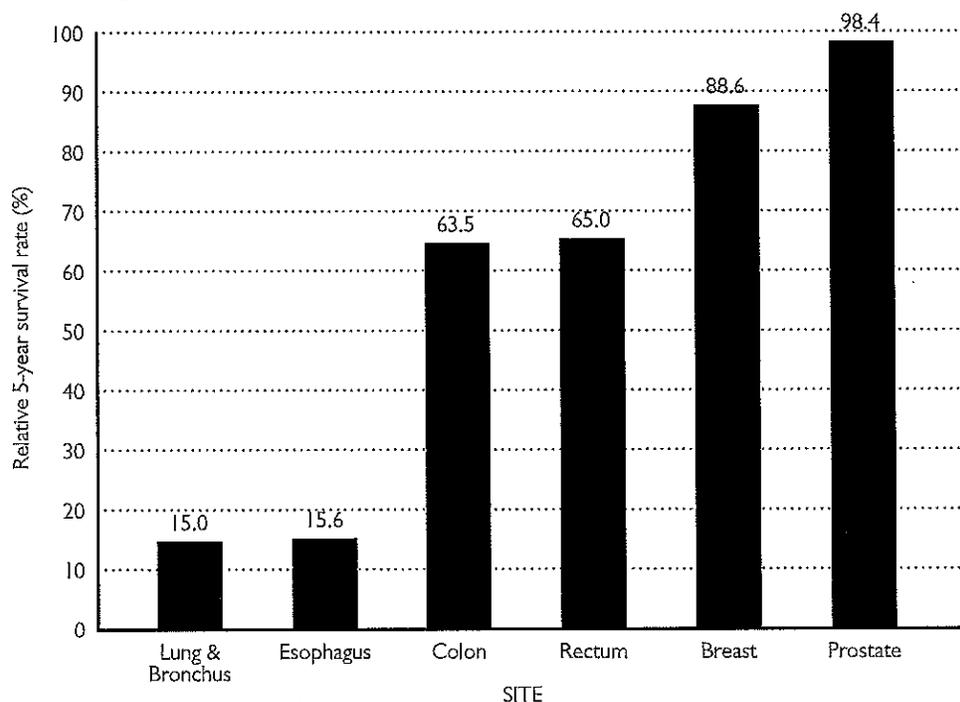

* Rates are per 100,000 persons, age-adjusted to the 2000 U.S. population and coded by ICD-10 Revision (C33-C34).

Before the 1940s, smokers were overwhelmingly male. That has changed—and so have the lung cancer statistics. Currently, approximately 45 percent of adult smokers are female. In 2004, 43.3 percent of lung cancer deaths occurred in women compared to 26 percent of deaths in 1979.²⁹ Lung cancer surpassed breast cancer as the leading cause of cancer death in women in 1987.³⁰

Between 1997 and 2001, an average of 123,836 Americans (79,026 men and 44,810 women) died of smoking-attributable lung cancer each year.³¹ Exposure to secondhand smoke causes approximately 3,400 lung cancer deaths among nonsmokers every year.³²

Figure 6 displays five-year survival rates for selected cancer sites. The lung cancer five-year survival rate (15%) is lower than many other leading cancer sites, such as the colon (63.5%), breast (88.6%) and prostate (98.4%).³³

Figure 6: 5-Year Survival Rates by Selected Cancer Sites, U.S., Cases Diagnosed 1996–2003*

Source: National Cancer Institute, SEER Cancer Statistics Review, 1996–2004.

Note:

* Rates are from the 17 SEER areas (California excluding SF/SJM/LA, Kentucky, Louisiana and New Jersey contribute cases for diagnosis years 2000–2003. The remaining 13 SEER areas contribute cases for the entire period.)

The prognosis for a patient with lung cancer depends, to a large extent, on the stage of the cancer. Staging is used to determine whether the cancer has spread and, if so, to what other parts of the body. Stages include localized (within lungs), regional (spread to lymph nodes) and distant (spread to other organs). The five-year survival rate is 49 percent for cases detected when the disease is still localized. Unfortunately, only 16 percent of lung cancer cases are diagnosed at an early stage. For distant tumors, the five-year survival rate is only 3 percent. About 6 out of 10 people with lung cancer die within one year of being diagnosed.³⁴

The financial costs of cancer are staggering. According to the National Institutes of Health, cancers cost the United States an overall \$206 billion in 2006.³⁵ It is estimated that approximately \$9.6 billion per year is spent in the United States on lung cancer treatment alone.³⁶

How is lung cancer diagnosed and managed?

All cancer patients benefit from early intervention when the growth is localized and has not spread to distant parts of the body. Since most symptoms do not appear until advanced stages, lung cancer is difficult to diagnose in early stages.

When a person undergoes a medical exam, the health care provider asks about the person's medical history, including exposure to hazardous substances. The

provider also will give the patient a physical exam. If the patient has a cough that produces sputum (mucus), it may be examined for cancerous cells. Other diagnostic tests include chest x-ray and fiberoptic examination of the airways. Newer tests such as low dose spiral computed tomography (CAT or CT) scans and molecular markers in sputum have produced promising results in detecting lung cancers at earlier, more treatable stages.³⁷

If lung cancer is found relatively early, treatment—surgery, radiation, drug therapy or a combination of these approaches—is often effective. Choice of treatment and prognosis also may depend on the specific type of tumor. Many clinical trials are underway to study new lung cancer treatments.³⁸

In 2002, the National Cancer Institute launched a study to determine if screening high-risk people with spiral CT scans before they have symptoms can reduce death from lung cancer. The National Lung Screening Trial has enrolled around 50,000 current or former smokers and monitored them at more than 30 sites throughout the United States.³⁹ Results from the trial will not be available until after it concludes in 2009.⁴⁰

Spiral CT scan screening for lung cancer has some limitations. The technique requires specialized knowledge. Research has indicated that 25 to 60 percent of scans may show abnormalities in both smokers and former smokers. While most of the abnormalities are not lung cancer, they can mimic lung cancer on the CT scans. As a result, additional testing is required. That can cause the patient added anxiety and unnecessary biopsies or surgery and their related risks. While complications from biopsies and surgery rarely occur, they can include partial collapse of the lung, bleeding, infection, pain and discomfort. Furthermore, patients and control groups have not yet been followed to determine whether, in fact, the spiral CT scan technique will lead to fewer lung cancer deaths. It is hoped that the trial will determine whether the benefits of potential, earlier lung cancer detection outweigh these limitations and if widespread use is cost-effective.⁴¹

What is new in lung cancer research?

Scientists currently are exploring the link between lung disease and lung cancer in nonsmokers.

A significant risk factor for life-long nonsmokers is a history of physician-diagnosed emphysema or chronic bronchitis and emphysema, the base elements of chronic obstructive pulmonary disease (COPD). In a 10-year study, nonsmokers were 1.7 times more likely to have lung cancer listed as the cause of death if they had ever been diagnosed with emphysema, and 2.4 times more likely if ever diagnosed with both chronic bronchitis and emphysema. A diagnosis of chronic bronchitis alone did not increase this risk.⁴²

Another study was conducted among 10,474 U.S. veterans enrolled in primary care clinics to determine whether the use of inhaled corticosteroids among patients with COPD decreased the risk of lung cancer. Although the findings may need additional support, it was suggested that inhaled corticosteroids may play a role in decreasing the risk of lung cancer in patients with COPD.⁴³

Tobacco use is the main cause of lung cancer and tends to mask other risk factors that are not as widespread or do not contribute as significantly to lung cancer development. A study was conducted between 1998 and 2002 to determine the association between lung cancer and occupation, independent of smoking. The study consisted of 1,039 control cases and 223 people that had never smoked. The findings suggest that women in suspected high-risk occupations⁴⁴ have an increased risk of lung cancer. Both men and women employed in occupations with exposure to nonferrous metal dust and fumes, silica and organic solvents also had an increased risk of lung cancer.⁴⁴

Observational data in the 1980s led to the belief that beta-carotene (an A vitamin) could protect against lung cancer, even in smokers. Research on this topic has been extensive since that time, along with work on other nutritional factors. However, a review of the best studies from the field found that no protective effect was offered by beta-carotene, vitamin E, retinol or any combination of the three. Some trials even reported increased rates of lung cancer, total deaths and cardiovascular deaths due to the use of beta-carotene, alone or with vitamin E or retinol.⁴⁵

A study in the *New England Journal of Medicine* showed that erlotinib, a medication prescribed to treat patients with advanced non-small cell lung cancer, extended survival by an average of two months in tests on about 700 patients. Patients were more likely to respond to erlotinib if their tumors contained a certain protein or had many copies of a particular gene. The study also confirmed that patients most likely to benefit from the drug included women, nonsmokers, Asians and those with an adenocarcinoma (cancer associated with glands).⁴⁶

Another study found that phytoestrogens (compounds from plants) found in soy products, grains, carrots, spinach, broccoli, and other fruits and vegetables may protect against certain solid lung tumors.⁴⁷

What is the American Lung Association doing about lung cancer?

While most of its education and advocacy efforts focus on prevention, there are several ways the American Lung Association addresses the needs of those living with lung cancer. The American Lung Association Lung HelpLine, staffed by registered nurses, respiratory therapists and quit-smoking specialists offers free counseling and support to callers, including those seeking information about lung cancer. In addition, the American Lung Association has helped millions through its Better Breathers Clubs. These support groups are located throughout the United States and meet regularly to provide peer support and education needed to understand and better manage their disease. These clubs are for adults with all chronic lung diseases, their families and their caregivers.

⁴⁴ Agriculture- insecticide application, mining and quarrying- zinc-lead and metal, food industry- butchers and meat workers, leather industry- tanners and processors, wood and wood products- carpenters and joiners, printing- rotogravure workers, printing pressmen, machine room workers, binders and other, chemical production, rubber industry, ceramic- ceramic, pottery and glass workers, metals, motor vehicle manufacture and repair- mechanics, welders, etc, transport- railroad workers, bus and truck drivers, operators of excavator machines or heavy equipment and filling station attendants and other- laundry and dry cleaners.

Often these groups are run by a respiratory therapist who can educate group members and their families about ways to live well with lung cancer and find additional resources. Groups may invite medical professionals to share their expertise on topics including nutrition, exercise, breathing techniques, new treatments, stress and depression, and medical equipment. The education patients receive in these groups may help them to avoid preventable hospitalizations and emergency room visits. Many hospitals may offer similar support groups for people with chronic lung disease.

The American Lung Association also provides information on treatment options through the NexCura profiler on lung cancer. The lung cancer NexProfler helps asthma patients and their physicians make better-informed treatment decisions using information from evidence-based, peer-reviewed medical literature.

Need help with treatment decisions for lung cancer? Please view the lung cancer NexProfler at <http://www.lungusa.org/lctreatment>

The American Lung Association is partnering with The Wellness Community (TWC) to help people living with lung cancer and their loved ones manage treatment options and side-effects through education and support. TWC is an international non-profit organization dedicated to providing emotional support, education and hope for people affected by cancer. TWC programs include weekly cancer support groups, diagnosis-specific support groups, family/care-giver support groups, bereavement groups, online support groups, nutritional/exercise programs, physician lectures, mind/body programs and stress reduction workshops. The American Lung Association is distributing TWC Frankly Speaking About Lung Cancer materials to callers via its Lung HelpLine and several Lung Associations are expanding the availability of the TWC education workshop, Frankly Speaking About Lung Cancer. Through this partnership, the Lung Association and TWC hope to reach and better serve diverse communities of lung cancer survivors nationwide. For more information about The Wellness Community, visit <http://www.thewellnesscommunity.org>. For questions about lung cancer, please contact the American Lung Association at 1-800-586-4872 (1-800-LUNG-USA).

The American Lung Association and the LUNGeivity Foundation have joined to provide resources to researchers seeking new treatments and a cure for lung cancer. As part of this partnership, the Lung Cancer Discovery Award was created in 2004 to provide funding for investigators and to support clinical, laboratory, epidemiological and other lung cancer research.

Want to learn more about the Lung Cancer Discovery Award? Please view the 2008 award announcement at <http://www.lungusa.org/lcdiscoveryaward>

The American Lung Association also works to increase federal funding for a broad range of lung disease-related biomedical research, treatment and prevention programs conducted by the National Institutes of Health, Centers for

Disease Control and Prevention, Department of Veterans Affairs and other federal agencies.

American Lung Association volunteers and staff also advocate for policies at the federal, state and local levels that can reduce lung cancer by decreasing the number of Americans who smoke and protecting everyone from exposure to secondhand smoke. Such policies include comprehensive state and local smokefree laws; granting the U.S. Food and Drug Administration regulatory control over the manufacturing, distribution and advertising of tobacco products; increasing funding for comprehensive tobacco control and cessation programs at the state level; and increasing cigarette excise taxes. To join the American Lung Association in the battle to reduce the number of lung cancer deaths, please go to <http://www.lungaction.org>.

The American Lung Association also advocates for clean air through enforcement of the Clean Air Act, tighter air pollution standards and reduced radon exposure, a leading cause of lung cancer.

In addition to its advocacy efforts, the American Lung Association offers programs to help smokers who want to quit, including Freedom From Smoking® and Not On Tobacco (N-O-T), a program to help teenagers quit smoking.

Want to learn more about smoking cessation through the American Lung Association's Freedom from Smoking® or Not On Tobacco programs? Please view the online programs at <http://www.ffsonline.org/> or <http://www.lungusa.org/not>

Bridging Business and Community

July 28th, 2015

Kimberly R. Martone
Director of Operations
Office of Health Care Access
410 Capitol Avenue
MS#13HCA
P.O. Box 340308
Hartford, CT 06134-0308

Dear Ms. Martone,

As President of the Greater Mystic Chamber of Commerce and on behalf of our Board of Directors I am writing to express our enthusiastic endorsement for the proposed affiliation between L+M Healthcare, Inc. and Yale New Haven Health System.

In the rapidly and ever-changing health care environment, it has become increasingly difficult for not-for-profit community hospitals to remain independent. L+M has sustained their independence for over a century and Westerly Hospital had remained independent as well for over 88 years prior to their acquisition by L+M.

L+M's proposed affiliation with Yale would be very compatible. The New London based hospital already partners with Yale in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/ angioplasty and vascular surgery. These and other personnel from both institutions know, respect and interact well with each other. A full affiliation will only improve both organizations and expand their already substantial accessibility- particularly to populations that are traditionally under-served. The joining of forces will also make it easier to recruit and retain physicians in all areas of care. Both organizations will be financially healthier from their affiliation.

Representatives from both organizations have completed due diligence and concluded, along with community-elected boards of directors, that this would be the best outcome for both institutions and the communities they serve and the Greater Mystic Chamber of Commerce is in complete agreement.

I strongly encourage you to approve this application.

Sincerely,

A handwritten signature in black ink, appearing to read "Tricia Walsh".

PO Box 340308
Hartford CT 06134-0308

Dear Kimberly,

I am writing this letter to express my support of the Lawrence and Memorial Hospital and Yale New Haven Hospital's affiliations.

My name is John Antonino, I am the principle of the Antonino Auto Group of Southern Connecticut. I have been in business in Connecticut for 50 years and have had many pleasurable experiences with health needs at Lawrence and Memorial Hospital. My four children and twelve grandchildren were all born at Lawrence and Memorial Hospital. I also have had four occasions with health issues that doctors and staff have helped me though, all with success. Both of my parents were also treated there in the last days of their lives, and always with respectful care.

My business employs 650 people at all skill levels, their extended family member's total over 2000 individuals. Most of our employees have health insurance coverage through us, and all enjoy the benefits of Lawrence and Memorial Hospital.

It is apparent to me that Lawrence and Memorial Hospital has always endeavored, though the years, to provide the people of Southeastern Connecticut with the most modern and up to date medical and facilities possible. An affiliation with Yale New Haven Hospital can only improve the reputable status of Lawrence and Memorial Hospital has earned, particularly the Cancer Center which is also state of the art.

It would be an injustice if affiliation of these two fine establishments were not possible. If allowed, the union would quite possibly make them the best in New England.

Thank you for your consideration.

Sincerely,

John Antonino

Hartford, CT 06134-0308

Dear Ms. Martone:

As a community partner I am writing to support the proposed affiliation of Lawrence + Memorial Healthcare with the Yale New Haven Health System. I firmly believe that this affiliation will allow both organizations to continue to provide access to high quality care in the most efficient and effective manner possible.

Leeway, with support from Yale New Haven Health, has had a significant impact on the lives of underserved families in our region. Under the proposed affiliation agreement that is before you, YNHHS has committed to invest in the southeastern Connecticut and western Rhode Island region. This investment is built upon the enormous efficiencies that can be generated through this partnership. That is good for L+M. It is good for YNHHS. Most importantly, it is good for the communities they serve.

As you know, healthcare is undergoing significant change across our country and across our state. I believe these types of innovative solutions to the challenges facing hospitals and healthcare systems are the right course of action. The partnership will provide L+M with enhanced capabilities to manage population health, provide the IT infrastructure to offer seamless care, and result in significant investments in clinical programs in southeastern Connecticut and western Rhode Island.

I encourage you to approve the affiliation. Thank you for the opportunity to offer my support.

Sincerely,

Heather Aaron

Dear Ms. Martone:

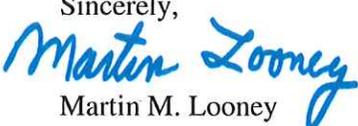

We are writing to share with you the conditions that would allow us to support the proposed affiliation between L & M Healthcare, Inc. and Yale New Haven Health System.

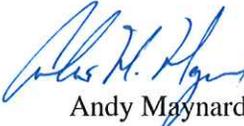

Our rapidly changing healthcare environment requires significant oversight to protect both patients and workers as well as to ensure that the health care market does not become increasingly distorted. It has become difficult for small not-for-profit, community hospitals to remain independent in this era of hospital consolidation. Often when a larger health system moves to acquire a community hospital, the health system promises better care and lower costs. However, the subsequent reality does not always reflect either of these goals. We write to encourage the Office of Health Care Access (OHCA) to require conditions for this acquisition that would protect patients both in terms of quality of care and cost of care. We would also encourage OHCA to protect patient quality of care by requiring the maintenance of appropriate staffing levels at these hospitals. In addition, we believe that any entity created by this affiliation must respect all existing collective bargaining agreements.

We realize that there is logic to this acquisition in that Yale already assists L & M in at least five clinical areas: radiation oncology, neonatology, telestroke, pediatric emergency medicine, invasive cardiology/angioplasty and vascular surgery; therefore, personnel from both institutions already interact and cooperate regularly. A full affiliation has the potential to improve both organizations and expand accessibility. The joining of forces may have the potential to allow L & M to recruit and retain physicians in all areas of care. However, the state must be an active partner to ensure that the main beneficiaries of this acquisition will be the patients and not the financial bottom line of the institutions involved.

We look forward to working with you on this transaction.

Dear Ms. Martone:

I am writing to express my support for the proposed affiliation of Lawrence + Memorial Health with the Yale New Haven Health System which includes Bridgeport Hospital that is located within our community.

I recognize that healthcare is evolving rapidly and that an affiliation between L+M and YNHHS will drive access to high quality healthcare in the most efficient manner possible. As your agency reviews the proposed affiliation, we encourage you to consider the interests of patients in our region who will directly benefit from this partnership. I view the affiliation of L+M with Yale New Haven Health System as a critically important way to preserve access to services for patients throughout the State. Building upon a long and significant history of collaboration and alignment, we see exceptional value and unique synergies in this partnership.

This affiliation will allow L+M and YNHHS and its affiliated hospitals to continue to manage an extraordinarily complex environment and allow these organizations to deliver exceptional care to the patients in our region. We are confident that a thorough review of this affiliation will reveal the strong benefits of this affiliation and we urge its approval.

Sincerely,

Dear Ms. Martone:

I am writing as Chairman of the Mohegan Tribe of Indians, which owns – among other entities – the Mohegan Sun Casino in Uncasville, and employs more than 6,000 thousand people there. This letter is in strong support of the proposed L+M Healthcare, Inc./Yale New Haven Health System affiliation that will be considered by the Connecticut Office of Health Care Access in the coming months.

Many of our employees receive their healthcare from L+M affiliates – whether it is New London-based Lawrence + Memorial Hospital, Westerly Hospital in Rhode Island, the Visiting Nurse Association of Southeastern Connecticut and/or a physician from Lawrence + Memorial Medical Group. The quality of care our employees and Tribal members receive is unfailingly compassionate and of high quality.

This affiliation would strengthen both organizations clinically, competitively and financially. This – along with Yale's committed capital investment of \$300 million over five years - would help strengthen our economy here in eastern Connecticut.

L+M does business with Mohegan Sun, having held two of its annual Spring Galas here – including the hospital's 100th anniversary celebration, which drew a record sit-down crowd of 2,000 people for the event. We proudly hosted L+M's Well Healed Woman in our same Uncas Ballroom in 2014, when more than 1,200 women heard financial advisor Suze Orman speak to eastern Connecticut's largest and longest running women's health conference. We are excited about the 2015 Well Healed Woman conference, which we expect will draw another large crowd to hear this year's keynote speaker, Rebecca Lobo. Additionally, the Mohegan Tribe actively supports L+M philanthropically in a variety of ways, including, but not limited to the use of our arena's Tribal skybox for popular fundraising events.

For these and so many other reasons, I hope you will look favorably on this application. It will benefit both of these quality healthcare providers and – more important – the hundreds of thousands of patients for whom they provide care each year.

Sincerely,

Kevin P. Brown, "Red Eagle"
Chairman

THE MOHEGAN TRIBE

Ms. Rosenthal:

On October 7, 2015, OHCA received the Certificate of Need application of Lawrence + Memorial Corporation (“L+M”) and Yale New Haven Health Services Corporation (“YNHHSC”) for the YNHHSC to acquire L+M and its assets. OHCA requests additional information pursuant to Connecticut General Statutes §19a-639a(c). *Please electronically confirm receipt of this email as soon as you receive it.* Provide responses to the questions below in both a Word document and PDF format at the earliest convenience as an attachment to a responding email.

Repeat each question before providing your response and paginate and date your response, i.e., each page, in its entirety. Information filed after the initial CON application submission (e.g., completeness response letter, prefile testimony, late file submissions and the like) must be numbered sequentially from the Applicant’s document preceding it. Please begin your submission using **Page 603** and reference “**Docket Number: 15-32033-CON.**”

Pursuant to Section 19a-639a(c) of the Connecticut General Statutes, you must submit your response to this request for additional information no later than sixty days after the date that this request was transmitted. Therefore, please provide your written responses to OHCA no later than **January 5, 2016**, otherwise your application will be automatically considered withdrawn.

1. Is this proposal being submitted due to the provision of the Federal Sherman Antitrust Act and/or Conn. Gen. Stat. §35-24 seq. statutes? Explain in detail.
2. Page 25 states some (but not all) of the benefits related to the proposed affiliation include enhanced access to clinical services, strengthened ability to retain and recruit talent, and access to population health expertise and infrastructure.
 - a) Explain what is meant by each of the items listed above.
 - b) Provide specific examples.
 - c) What is the current status for each of the items discussed?
 - d) How will the proposed affiliation be a benefit to each of the items listed above?
Please be specific.
3. How does this proposal benefit Lawrence + Memorial Hospital (“L+MH”) service area residents? Provide specific examples that would be a direct result of becoming a member of the YNHHSC.
4. Provide a list prioritizing the health issues identified in L+MH’s Community Needs Health Assessment (“CHNA”) (referenced on pages 32-33 & Exhibit VIII).
5. How will this proposal specifically address the identified health issues identified in the response to question 4 above? Provide specific examples before and after the proposal.

6. Is there or will there be a committee or board that will oversee the CHNA implementation plan to address the priorities? Provide a detailed explanation.
7. How has L+M involved other community providers as partners in the CHNA or in the CHNA implementation plan? Please explain.
8. Detail how this proposal will impact L+MH's negotiating position with vendors and/or payers. If an improved negotiating position is anticipated, quantify the tangible savings for the health of the consumer.
9. Please reconcile the primary service area ("PSA") provided on page 27, with the following table.

L+M Hospital Primary Service Area*: FY 2014

Patient Town	L+M Discharges	Total Discharges	%Share of Town Discharges	%Share of Hospital Discharges	Cumulative % Share of Hospital Discharges
Groton	3,733	4,747	79%	26%	26%
New London	3,019	3,766	80%	21%	48%
Waterford	1,797	2,421	74%	13%	60%
East Lyme	1,291	1,875	69%	9%	70%
Ledyard	911	1,530	60%	6%	76%
Other**	3,404	386,066	1%	24%	100%
Total	14,155	400,405	4%	100%	

Source: CT DPH Office of Health Care Access Acute Care Hospital Inpatient Discharge Database

*Based on top 75% of discharges.

**Includes 90 in and out of state towns that individually account for less than 5% of the hospital's discharges.

10. Describe how this proposal will impact quality of care at L+MH.
11. Provide comment on both YNHHS and L+MH's performance under the following CMS quality improvement programs. Compare to national, state and local performance standards as well as YNHHS's current affiliated hospitals (Bridgeport and Greenwich Hospitals) and L+MH's current performance statistics:
 - a.) Hospital Inpatient Quality Reporting Program;
 - b.) Hospital Outpatient Quality Reporting Program;
 - b) Hospital Value-Based Purchasing Program; and
 - c) Hospital Readmissions Reduction Program.

12. Describe how this proposal will lower the cost of delivering the health care services at L+MH.
13. How will this proposal impact the diversity of health care providers and patient choice in the geographic region?
14. Regarding the “formation of new models such as accountable care organizations,” has either YNHHS or L+M already established an ACO(s)? If so, provide information on such operational ACOs.
15. What is L+M’s current access to and capabilities for “population health expertise and infrastructure?”
16. Identify any significant differences between the L+MH’s and the YNHHS’s existing charity care policies. What specific benefits will be realized for L+MH’s patient population under the YNHHS policy vs. the existing L+MH policy?
17. Identify the source of the assumption that some patients “are traveling to more expensive, distant and out-of-state medical centers for their care” as indicated on page 34.
18. Explain how this proposal will specifically allow for the “avoidance of duplication of services between the applicants” as noted on page 36. In addition, explain how this proposal will specifically allow for the “coordination and implementation of clinical programs.”
19. What 2015 program initiatives took place in the cardiac, oncology and surgical programs as indicated on page 54 of the application?
20. Please provide additional detail and explain further how the proposal relates to (or is submitted due to the provisions of) the Patient Protection and Affordable Care Act (PPACA).
21. The Applicants state there are no changes planned for L+MH’s chargemaster. Will the savings realized from improved position in group purchasing, etc. translate directly to savings for the patients/payers? Please explain.
22. Explain why the net community benefit expense for research is not estimated to increase (p. 60) if Educational and Research Opportunities will improve as a result of the proposal (p. 94).
23. Explain why the Other Community Benefits, such as Community Health Improvement and Subsidized Health Services are not projected to increase if L+M “may dedicate and commit at least \$11,000,000 to support community benefit programs and reinvestments (p 95).”

Provide a table with expected expenditures for this money and explain what will happen with this commitment after the 5 year period is over.

24. Will this affiliation end the L+M relationship with Dana-Farber Cancer Institute?
25. Exhibit B to the revised Bylaws for L+M and L+MH, outlines “Direct Authority Retained by YNHHS, separate from the Actions Requiring Approval of the Member and YNHHS.”
 - a) Is this exact same YNHHS authority set forth in Bridgeport and Greenwich Hospitals’ Bylaws?
 - b) This exhibit provides control over “major activities.” Provide examples of what this would include.
26. Respond to the following questions related to the L+M chart of organization from page 592 of the application:
 - a) What do the dotted lines represent between L&M Systems/L&M Home Care and between L&M Home Care and Davita Healthcare of New London?
 - b) Why are certain entities, indicated on page 322 as being subsidiaries of either L+M, LMH or one of their immediate subsidiaries, excluded from the organization chart on page 592?
 - c) The chart indicates that L&M Systems and Davita Healthcare of New London are the only two for-profit entities affiliated with L+M, while page 322 indicates an additional 4 for-profit entities (L&M Healthcare, L&M Indemnity, LMW Physicians and Southeast CT Health Partners). Please update the chart on page 592 or explain the discrepancies between the chart and page 322 of the application.
27. With respect to YNHHS’s commitment of \$300 million, respond to or provide the following:
 - a) Is the \$300 million amount an all cash commitment or is part of the commitment in some other form?
 - b) Will a set portion of the \$300 million amount be spent in each of the five years?
 - c) What is YNHHS’s expected source of funding for the \$300 million?
 - d) If Yale-New Haven Hospital experiences an operating loss, will YNHHS or any affiliated entity need to borrow a portion of the \$300 million?
 - e) A preliminary capital and operating plan and timeline for the \$300 million commitment by YNHHS.

28. Regarding the \$41 million in resources that will be available for updating IT platforms, branding and access to the YNHHS population health infrastructure, provide the following:
- a) A table that breaks down how the \$41 million will be spent with a description of each amount.
 - b) A cost comparison of the implementation of Epic by L+M as a stand-alone entity and as a YNHHS affiliate.
 - c) An explanation of the \$10 million amount for “value represented by participation in and access to YNHHS population health infrastructure.”
29. Regarding the \$215 million in new services to be located at L+M, provide the following information in a table:
- a) Which projects will be given the highest priority over the first three years; and
 - b) What are the expected costs of those projects?
30. Regarding the \$44 million in resources that will be available to support the new clinical programs and services indicated above, provide a detailed breakdown to show how the \$44 million may be spent, using tables if necessary to explain this statement further.
31. Provide a table with estimated cost savings amounts for each of the categories (IT, finance, insurance, equipment and supplies, and other administrative services) expected to realize savings as a result of economies of scale as noted on page 37 for the first three years of the affiliation. Be sure that the amounts agree with the incremental column of Financial Worksheet and if the amounts are not in agreement, explain the differences.
32. Provide the FY 2015 Balance Sheet, Statement of Operations and Statement of Cash Flows for L+MH (which excludes Associated Specialists of Connecticut), L+M and YNHHS. The internal financials may be provided if audited financials aren't completed at the time responses are submitted.
33. Respond to the following questions regarding the Financial Worksheets on pages 583-585 for L+MH, L+M and YNHHS:
- a) Update the spreadsheets to include actual results for FY 2015 even if the amounts are internal and unaudited.
 - b) Provide a detailed breakdown thoroughly explaining how all of the financial amounts, volume statistics and FTEs were derived, expanding on the assumptions provided on pages 587 and 588. In the response, be specific and also include a narrative to explain the figures provided in the incremental columns, indicating months included for FY 2016 data provided.

- c) Explain why Other Deductions remain the same in FY's 2016 – 2019 for all three financial worksheets. Explain why Other Operating Revenue doesn't change in these same years for both L+M and L+MH.
- d) How have the volumes, revenues and expenses related to the expected programmatic growth in musculoskeletal, neurosurgery/spine, cardiovascular, general surgery, maternity and children's services noted on page 41 been reflected in the financial projections?
- e) How are the "assessed fees" to YNHHSO from L+M Affiliates reflected in the incremental projected expenses?

34. In reference to the Financial Worksheet submitted for L+MH, address the following:

- a) Provide a new Financial Worksheet A with amounts for LMH which exclude the activity of Associated Specialists of Connecticut, the medical group consolidated with the Hospital.
- b) Explain why there are no incremental amounts provided for Uninsured Net Patient Revenue, Other Operating Revenue, Net Assets Released from Restrictions, Bad Debts-Other, Interest expense, Malpractice, Lease expense and Other Operating Expense.
- c) Detail why the amounts for Malpractice Insurance and Lease expense remain the same in FY's 2016 – 2019 without the project.
- d) The FTE amounts provided on Financial Worksheet A don't agree with the FTE amounts given on page 588, which provides assumptions. Revise as appropriate and explain why additional FTEs are needed in each of the first 3 years of the proposal and the types of positions they represent.

35. With respect to the Financial Worksheet for L+M, address the following:

- a) Provide details of the \$72,000 incremental loss in FY 2016.
- b) Explain why there are no amounts provided for Uninsured Net Patient Revenue projections, Net Assets Released from Restrictions, Bad Debts-Other and Interest expense.
- c) Detail why the amounts for Malpractice Insurance and Lease expense remain the same in FY's 2016 – 2019 without the project.
- d) Explain why physician fees decreased from \$55 million in FY 2014 to \$36 million in FY 2016 and just over \$29 million in FY's 2017-2019 without the project.
- e) Verify that the amounts in the incremental column exclude any activity related to the integration of NEMG and LMPA or revise the amounts as applicable.

36. In reference to the Financial Worksheet for YNHHSO, address the following:

- a) Provide details of the \$699,000 incremental loss in FY 2016.
- b) Explain why there are no amounts provided for Uninsured Net Patient Revenue projections, Net Assets Released from Restrictions and Bad Debts-Other.
- c) Explain why the revenue, expense and FTE amounts in the “Projected Incremental” column do not agree with the amounts shown in the “Projected with CON” column of the L+M Financial Worksheet.
- d) Detail why Other Operating Expense decreases from over \$285 million in FY 2016 to slightly above \$150 million in FY 2019 without the project.
- e) Related to the statement on page 45 that “Incremental revenue and expenses are negative values due to the removal of L&MPA which will be merged into NEMG,” explain if the incremental column for YNHHSC includes the additional revenue, expenses and FTEs of L&MPA. If the medical group amounts are not part of the YNHHSC amounts, the Financial Worksheet A should be revised.

37. After the affiliation, it is expected that L+M will become part of the YNHHSC Obligated Group. Regarding the obligated group respond to the following:

- a) Which YNHHSC entities are currently part of the obligated group?
- b) Do the YNHHSC Obligated Group members ever change?
- c) Provide further details why YNHHSC would include L+M as part of the System’s obligated group considering the increasing operating losses over the last several years for both L+M and the Hospital.
- d) Will the Obligated Group attempt to refinance any of L+M’s existing long term debt commitments or pension deficiencies? Explain in detail.
- e) In FY 2014, YNHHSC changed its corporate structure so that Yale-New Haven Hospital and Bridgeport Hospital are now wholly owned directly by YNHHSC “in connection with the formation of an Obligated Group” (per the system’s audited financial statements). Is it intended for this to also occur for L+M in the short term?

38. Regarding the monthly financial reports submitted on page 602, respond to the following:

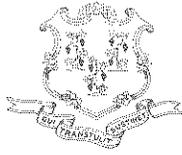

- a) Update the report with data through the year ending September 30, 2015.
- b) Provide the Moody’s credit rating for L+M and the L+MH.
- c) Submit the same document for YNHHSC which also includes all three major credit ratings.

39. What is the basis or the source for the Key Financial Metrics on page 316? Provide the calculation for the Operating Margin and the Days Cash on Hand.

40. Explain what is meant by “L+M is considering adopting retention bonuses for certain select individuals” as noted on page 344, what the expected costs of these bonuses will be and who is expected to receive the bonuses.

Subject: Responses to Completeness Questions (DN: 15-32033 & 15-32032)- YNHHS & L+M/NEMG & L&MPA

Good morning and Happy New Year Kim-

As per OHCA's completeness letter, I am sending responses to the completeness questions for the above referenced dockets via email. As requested, an Adobe Acrobat and MS Word File is included for each. A cover letter pertaining to each application is also included.

I would appreciate receiving an email confirmation that the documents have been received.

Thank you for your time and attention to this matter.

Sincerely, Karen

Re: Affiliation of Lawrence + Memorial Corporation with Yale New Haven Health Services Corporation (DN: 15-32033-CON)

Dear Ms. Martone:

Please find attached to this email communication, an MS Word and Adobe Acrobat file containing the responses to the completeness questions posed by the Office of Healthcare Access on November 9, 2015.

We appreciate OHCA's time and effort related to this critically important proposal. Please feel free to contact me at (203) 688-5721 with any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Nancy Rosenthal'. To the right of the signature is a circular stamp containing the initials 'NMG'.

Nancy Rosenthal
Vice President, Strategy and Regulatory Planning

Yale New Haven Health Services Corporation
Docket Number: 15-32033-CON

Responses to Completeness Questions

January 5, 2016

Please note that the applicant, Yale-New Haven Health Services Corporation, is the parent entity of a network of integrated health care providers and related service providers, known collectively as Yale New Haven Health System (YNHHS). Responses to completeness questions will reference YNHHS when referring to entities and providers.

1. Is this proposal being submitted due to the provision of the Federal Sherman Antitrust Act and/or Conn. Gen. Stat. §35-24 seq. statutes? Explain in detail.

Response

This proposal is not being submitted due to the provision of the Federal Sherman Antitrust Act and/or Conn. Gen. Stat §35-24 seq. statutes. As explained in the response to question 3a of the initial Supplemental Certificate of Need (CON) Application, the proposed affiliation CON is being submitted in accordance with OHCA’s CON requirements; however, the parties also intend to comply with all applicable federal and state antitrust laws and regulations. The transaction did require a Hart-Scott-Rodino filing with the Federal Trade Commission under 18 USC S. 18a, however, and that filing was made on August 7, 2015. The Connecticut Attorney General also received a courtesy copy of that filing on August 10, 2015. On September 8, 2015, the FTC informed Yale-New Haven Health Services Corporation (YNHHSC) and Lawrence + Memorial Corporation (L+M) that it would allow the waiting period outlined by the Hart-Scott-Rodino Antitrust Improvements Act to expire without further investigating the transaction.

2. Page 25 states some (but not all) of the benefits related to the proposed affiliation include enhanced access to clinical services, strengthened ability to retain and recruit talent, and access to population health expertise and infrastructure.
 - a) Explain what is meant by each of the items listed above.

Response

Enhanced access to clinical services

YNHHS is able to provide affiliated organizations with access to highly sophisticated clinical services and physicians through Yale New Haven Hospital (YNHH), the Yale Medical Group (YMG) and Northeast Medical Group (NEMG). As an affiliate of YNHHS, L+M will join a Health System with a reputation for clinical advances and cutting edge medicine. If approved, YNHHS will make investments in bolstering services in the areas of primary care; orthopedics; oncology; obstetrics; maternal-fetal medicine; vascular; neurology/stroke; bariatrics; and physiatry. The specific investments will be determined on further assessment of need and strategic planning processes to follow. Notwithstanding, and by way of example, it is expected that YNHHS will bring new therapeutic services to L+M’s service area such as infusions for neurology, electrophysiology services along with enhanced women’s health services.

Strengthened ability to retain and recruit talent

YNHHS brings the depth and breadth of clinical and administrative support that is unrivaled in the region. To address clinical recruitment and retention needs at L+M, YNHHS will work directly through NEMG and YMG to fill existing gaps or vacancies on a part-time or full-time basis. Although a majority of these gaps relate to clinicians, it has been YNHHS's experience that many executives, managers and staff are attracted to working for large academic health systems. Accordingly, the Applicants believe that the proposed affiliation will enhance recruitment of executives, managers and staff.

Unmet physician specialty service demand, in some instances, can be met with providers affiliated with NEMG or YMG who will practice in the L+M service area on a part-time (1-2x per week) basis. Other times a more permanent solution is required through recruitment into the area. Regardless of the need, YNHHS has made a significant investment in the infrastructure of NEMG, including persons dedicated to physician recruitment. The largest growth area for the YNHHS physician network has been primary care and that will continue to play a major role in the future. Additionally, providers from the L+M service area will be able to participate in YNHHS initiatives and develop experience in areas such as population health management, as a broad network of clinically integrated programs and services is developed.

YMG is focused on providing specialists to expand access to acute care and ambulatory services. Working in collaboration with NEMG and YMG, L+M can identify any additional clinical needs, and develop a recruitment plan specifically targeted to meet those needs.

Population health expertise and infrastructure

YNHHS has access to population health management expertise and infrastructure to proactively manage the care of defined populations of patients to improve health outcomes, to improve the experience of care, and to reduce health care costs. These processes include coordination of care across a continuum of settings, and clinical care transformation through the adoption of shared evidence-based best practices across providers to reduce unnecessary variation and waste. To be effective, these processes require the technology and infrastructure to support sharing patient information, analytics capabilities to identify patients and populations with the greatest need for care coordination, and multiple points of entry for patients to access the care and services they need.

YNHHS has been and continues to develop these resources over the past several years. This affiliation will provide greater access to the population health expertise and infrastructure noted above, which will expand the ability of YNHHS and L+M to proactively manage the care of a larger population, to improve outcomes and patient experience, while reducing the cost of care by providing access to the right type of care, in the most appropriate setting.

b) Provide specific examples.

Response

Enhanced access to clinical services

Please refer to the response to question 2(a). Patients who require subspecialty services (currently not available at L+M) will be better served after the affiliation with YNHHS because these services will be offered in a more coordinated, seamless and timely manner, within one coordinated and connected health system. Examples of subspecialty services not currently available at L+M that will be brought to the service area by YNHHS include: minimally invasive gastrointestinal surgery, bariatric surgery, thoracic surgery, surgical oncology, medical oncology, endocrinology/bone specialist, and neurosurgery. Please refer to the response to question 29(a) for additional clinical services that may be added to the L+M service area after being evaluated through a strategic planning process.

As an example of the ability to expand access to clinical services in the L+M service area, in January 2015, YMG and YNHHS executed an agreement to introduce a new pediatric hospitalist program at L+MH. This resulted in a reduction of 11 patient transports from the L+MH's Emergency Department to Yale New Haven Children's Hospital in the first month of operation.

Strengthened ability to retain and recruit talent

Please refer to the response to question 2(a). YNHHS brings financial stability, potential career paths, and recruiting resources to attract physicians to the area. With this affiliation, there are also opportunities to share subspecialist physicians between New Haven and New London if there is insufficient patient demand in the L+M service area.

If the proposed affiliation is approved, L+M believes that it will be more successful in attracting physicians who want to practice as part of a nationally recognized academic medical center and innovative healthcare system.

Population health expertise and infrastructure

YNHHS currently has the care management and technology infrastructure that allows its affiliated providers to connect on a shared platform to; (i) advance consistent clinical practice processes (e.g., currently focused on diabetes, cardiovascular disease, asthma, COPD, advanced and education care planning, transitions of care and geriatric care); (ii) promote patient management through medical homes and patient outreach/education; (iii) assist patients in navigating their healthcare needs to prevent avoidable hospitalizations and achieve improved outcomes; (iv) provide specialty telehealth services to L+M patients regardless of their location, and (v) provide data analytics for risk stratification, and quality metric reporting. All of these capabilities are currently in place, and will be available to L+M within the year should the proposed affiliation be approved. As

evidence of the effectiveness of these capabilities, YNHHS has reduced emergency room visits of its employees by 13% in one year and has experienced \$8.7 million in savings in healthcare costs using these tools.

- c) What is the current status for each of the items discussed?

Response

All items discussed currently exist within YNHHS. Please refer to the response to question 2(a) and 2(b).

- d) How will the proposed affiliation be a benefit to each of the items listed above? Please be specific.

Response

See above 2(a) and (b). The capital required to accomplish all of the above objectives is significant and difficult for community hospitals to afford on their own. However, if the capital costs are spread across a system, the capital expense associated with the establishment of the necessary infrastructure is more manageable. Patients within L+M's service area deserve access to the same world class clinicians as patients who utilize YNHHS's facilities.

3. How does this proposal benefit Lawrence + Memorial Hospital ("L+MH") service area residents? Provide specific examples that would be a direct result of becoming a member of the YNHHS.

Response

Residents of the L+M service area will benefit in the following ways:

- The enhanced financial stability of L+M will preserve health care access for L+M service area residents.
- Access to valuable administrative and clinical expertise will further enhance L+M operations and potentially preserve existing clinical programs that might otherwise need to be reduced or terminated.
- Access to more primary care physicians and specialists (e.g., invasive gastrointestinal surgery, bariatric surgery, neurology, thoracic surgery, surgical oncology, and medical oncology). NEMG and YMG are both very effective in attracting the best and brightest physicians.
- Improved care coordination, reducing unnecessary overutilization and hospitalizations through the YNHHS's population health infrastructure.
- Standardized protocols have been developed based on evidence-based best practices and data sharing occurs with all YNHHS hospitals to help achieve excellent patient outcomes.

4. Provide a list prioritizing the health issues identified in L+MH's Community Needs Health Assessment ("CHNA") (referenced on pages 32-33 and Exhibit VIII).

Response

In 2013¹, L+M's CHNA identified the following issues that were prioritized:

- Prevalent chronic conditions including heart disease, diabetes, and obesity
- Access to Care
- Cancer
- Sexual Health
- Mental and Behavioral Health
- Asthma

5. How will this proposal specifically address the identified health issues identified in the response to question 4 above? Provide specific examples before and after the proposal.

Response

Specific examples as to how L+M has (before the proposal) addressed the identified health issues as listed in response to question 4 are summarized below.

Prevalent chronic conditions including heart disease, diabetes, and obesity*Pediatric Weight Management Program (Kidz Fit Club)*

The program employs an integrated and multi-disciplinary approach to engaging children in positive, entertaining ways by addressing the complex components of obesity, including poor nutrition, lack of exercise, and psychological factors such as low self-esteem. The program underscores the necessity of educating family members and enlisting their support and participation. Children are encouraged to bring relatives and peers to the sessions that provide coordinated instruction on diet, nutrition, and exercise. Program staff offer personalized individual and group support for the entire family as well as extended follow-up support upon request.

Walk with a Doc

In collaboration with area Parks and Recreation Departments, this program provides an opportunity for area residents to hear a short talk by a physician, to have their blood pressure checked, and then walk a short course. "Walk with a Doc" creates another physical activity and community partnership option while incorporating an educational component.

Access to Care*Dispensary of Hope Project*

The Dispensary of Hope works with healthcare providers, clinics, and pharmaceutical companies nationwide to provide low-income and at-risk patients with needed medications at no cost to the patient. This is accomplished largely by distributing unused sample medications or medications which are nearing their expiration date to qualifying individuals without prescription coverage.

¹ The next CHNA is currently underway.

Cancer

CT Early Detection and Prevention Program

This program delivers integrated early detection and health screening services including breast and cervical cancer for women ages 21-64, with a focus on women rarely or never screened. Services are targeted to persons who are at or below 250% of the Federal Poverty Level, are uninsured or underinsured. The program, funded by the State of Connecticut Department of Public Health, was established to support greater community involvement and efficiency in cancer screenings and diagnostics and cardiovascular risk reduction.

Head and Neck Cancer Community Screenings

Free cancer screenings to promote education and awareness are organized through the Head and Neck Cancer Alliance. Participants receive a screening and education on risk factors.

Lung Cancer Screening

Based on smoking history, eligible patients may be screened for lung cancer using low-dose CT scan technology. This method has proven highly effective in detecting cancers in asymptomatic individuals.

Colorectal Cancer Screening Outreach

The L+M Cancer Center is engaged in a partnership with the Visiting Nurse Association of SE CT to distribute home testing kits through senior housing, health centers and other community locations.

Sexual Health

Community Partnerships

Due to significant efforts to address sexual health issues by other community providers and agencies, particularly sexually transmitted diseases and reducing teen births, L+MH's involvement is one of support through the provision of in-kind advisory staff.

Mental and Behavioral Health

Reconnecting the Homeless Program

L+MH's Reconnecting the Homeless Program (RHP) has reduced the utilization of emergency department services and dramatically improved the health status of some of the community's most vulnerable individuals by enrolling them in entitlement programs, connecting them to housing, health care, and social services and ultimately bringing greater stability to their lives. In partnership with many community agencies including, the Homeless Hospitality Center in New London, RHP provides a coordinated system of care for homeless individuals in the area. The RHP is managed by a full-time social worker, who is bi-lingual in Spanish and works primarily in the emergency department where she connects exclusively with homeless individuals or those at-risk for homelessness. The program also brings employment opportunities to clients as appropriate.

Asthma

100 Day Rapid Results Intervention on Asthma

Following a Rapid Results methodology, a collaborative team at L+M addressed gaps in optimal asthma control among a subset of students at an urban elementary school. Impetus for the program was the persistent health concern in southeastern Connecticut of asthma and

its impact on quality of life and use of healthcare services. Too many children and adults have poorly managed asthma resulting in missed days of school and work, high use of acute health care services, and a degraded quality of life. Children and adults with asthma, and their caregivers, possess gaps in knowledge around environmental triggers, asthma symptoms, and medication/inhaler/spacer use. The team takes a population-centered approach, including education and intensive case management to improve asthma control, and reduce school absences.

After the proposal, YNHHS agrees to sustain L+M's current commitment to community benefit programs (see Section 2.3 of the Affiliation Agreement at page 95 of the CON Application). Noted below are examples of YNHHS's efforts in similar areas. Following completion of L+M's next CHNA in 2016, programs and initiatives will be developed to address the priority health needs. As part of YNHHS, L+M will benefit from learning about other best practices which may help address and improve the health of L+M's community.

Listed below are examples of YNHHS's work in similar areas and possible future strategies after the close of the affiliation.

- Prevalent chronic conditions including heart disease, diabetes, and obesity
 - *Get Healthy CT*: YNHHS and its partners have created a community coalition to reduce obesity and chronic disease by enhancing access to healthy affordable foods and easy ways to be physically active called Get Healthy CT.
 - *Employee Wellness*: Employee wellness programs play an important role in the YNHHS health improvement plans. "Know Your Numbers" is an annual YNHHS system-wide employee wellness program to help employees heighten their health awareness. This includes a health screening that provides key health measurements – blood pressure, cholesterol, triglycerides and blood glucose; height, weight, and body mass index (BMI); and waist hip circumference (a pre-Diabetes indicator).
- Access
 - *Project Access*: YNHHS provides ongoing financial and in-kind support for Project Access-New Haven (PA-NH), which provides timely high quality specialty care for uninsured individuals who reside in the Greater New Haven area with the use of an intensive patient navigation model.
- Cancer
 - *Cancer Screening, Detection & Prevention Programs*: Smilow Cancer Center offers many screening, education, cancer detection and prevention programs to the community.
 - *Smilow Cancer Center- Closer to Free*: Local residents are encouraged to participate in the hugely successful "Closer to Free" cancer awareness bike ride that takes place every year.
- Mental Health
 - *Community Care Teams*: YNHHS's hospitals and their community partners have created Community Care Teams to perform community-wide case management for patients with mental health issues who are high emergency department utilizers.

- Asthma
 - *Clinical Integration Program*: YNHHS's Population Health Department has developed a Clinical Integration Program, which includes a pulmonary workgroup dedicated to COPD and Asthma (as well as workgroups dedicated to Diabetes and Heart Disease). This multidisciplinary workgroup is working collaboratively to develop a disease registry, clinical practice guidelines, and a core panel of quality metrics.
6. Is there or will there be a committee or board that will oversee the CHNA implementation plan to address the priorities? Provide a detailed explanation.

Response

The Board of Directors for L+MH oversees L+MH's role in the CHNA implementation plan. This will remain unchanged after the proposed affiliation and YNHHS is available to offer assistance with planning, sharing best practices and data analysis.

The L+MH's community health improvement partnership (CHIP) was developed by teams specific to each of the prioritized community health needs. Teams included subject matter experts, both internal and external to L+MH, and represented diverse perspectives and areas of intervention. Following completion of the 2016 CHNA, the development of the CHIP will follow a similar process but will be overseen and coordinated by the Southeastern CT Health Improvement Collaborative (the Collaborative) and chaired by L+MH and Ledge Light Health District, the local public health agency. The Collaborative has been convened to engage in the planning and implementation of the current CHNA process. A listing of participating individuals and their organizations is included in Attachment I.

The Collaborative has actively participated in outreach efforts for the WellBeing Survey as led by DataHaven, with whom L+M has partnered for collection of primary data in its service area. The Collaborative has also created supplemental primary data gathering strategies in order to reach constituencies that may be under-represented in the DataHaven Survey. Once all data are collected and analyzed, the Collaborative will engage in a prioritization process and will lead the planning toward development of the CHIP. Issue-specific sub-committees will develop strategies to address identified priorities ultimately contributing to the CHIP, the product being a community plan, not simply a plan for a single organization in isolation. Strategies will align with the State of CT Health Improvement Plan with a focus on the social determinants of health and health equity. All of these initiatives will continue should the proposed affiliation be approved by OHCA.

7. How has L+M involved other community providers as partners in the CHNA or in the CHNA implementation plan? Please explain.

Response

Please refer to the response to question #6.

8. Detail how this proposal will impact L+MH's negotiating position with vendors and/or payers. If an improved negotiating position is anticipated, quantify the tangible savings for the health of the consumer.

Response

With regard to payers, and as stated in response to question 4(f) of the Supplemental CON Application Form, there are no anticipated changes to existing payer contracts as a result of this proposal. YNHHS negotiates separate hospital payer agreements for each of its hospitals.

As stated in the response to question 4(m) in the Supplement of the original CON submission, it is expected that YNHHS's supply chain management department will be able to obtain volume discounts and reduce supply and other costs for L+M overall.

Any savings associated with supply chain savings will improve the health of the consumer via continuation of health care services in the L+M service area, and investment in developing clinical programs in the region. YNHHS and L+M believe that the affiliation, which will achieve a variety of benefits for L+M, will permit its continued operation and the continued provision of necessary health care services to residents of the L+M service area. Moreover, to the extent specialty services are more accessible on a local level; patients from L+M's service area will not have to incur the cost of traveling to distant locations for specialty care. In addition to the challenges associated with health care reform, reimbursement reductions, particularly those from the State of Connecticut, have led hospitals such as L+MH to look to larger health systems for cost efficiencies and service enhancements in order to remain viable. L+MH is facing a projected FY 2016 operating budget loss of \$9 million due to the state hospital tax and rescinded supplemental Medicaid payments. The proposed affiliation will help L+M address this loss through growth and cost savings initiatives associated with the affiliation.

9. Please reconcile the primary service area ("PSA") provided on page 27, with the following table.

L+M Hospital Primary Service Area*: FY 2014

Patient Town	L+M Discharges	Total Discharges	%Share of Town Discharges	%Share of Hospital Discharges	Cumulative % Share of Hospital Discharges
Groton	3,733	4,747	79%	26%	26%
New London	3,019	3,766	80%	21%	48%
Waterford	1,797	2,421	74%	13%	60%
East Lyme	1,291	1,875	69%	9%	70%
Ledyard	911	1,530	60%	6%	76%
Other**	3,404	386,066	1%	24%	100%
Total	14,155	400,405	4%	100%	

Source: CT DPH Office of Health Care Access Acute Care Hospital Inpatient Discharge Database

*Based on top 75% of discharges.

**Includes 90 in and out of state towns that individually account for less than 5% of the hospital's discharges.

Response

Page 27 of the original CON submission contains the service area for L+M, including Westerly Hospital. The table noted above by OHCA pertains to L+MH only and therefore will not be consistent with Page 27. It should be noted, however, that L+MH defines its PSA service area using two methodologies. For physician recruitment and other requirements, L+MH defines its PSA as the lowest number of continuous zip codes or towns from which the hospital draws 75% of its inpatients (reflected above in the table provided by OHCA). However, for service line marketing and planning purposes, L+MH takes a more regional approach to its PSA service area definition. This regional strategy is best reflected in L+MH’s community health needs assessments, which considers the broader market outlined on page 28 of the original CON application. As one of only two acute care providers in New London County, L+MH believes that a more expansive service area definition enables the organization to better identify community needs, strategize site of service placements, and plan for programmatic initiatives that meet the health care requirements of all residents of southeastern Connecticut.

An error was noted in Table 2 in the original CON submission and has been revised as noted below.

**TABLE 2 (Revised)
SERVICE AREA TOWNS**

List the official name of town* and provide the reason for inclusion.

Town*	Reason for Inclusion
<p>Primary Service Area includes: East Lyme, CT Groton, CT Ledyard, CT Lyme, CT Montville, CT New London, CT North Stonington, CT Old Lyme, CT Stonington, CT Waterford, CT</p> <p>Secondary Service Area includes: Bozrah, CT Colchester, CT Franklin, CT Griswold+Lisbon, CT Norwich, CT Old Saybrook, CT Preston, CT Salem, CT Voluntown, CT Westerly, RI</p>	<p>For towns of East Lyme, Groton, Ledyard, New London, and Waterford, the basis for inclusion of these towns is that L+M currently services this town to fulfill its mission in serving the community’s healthcare needs, these towns are part of the service area that L+M has represented to OHCA for years during the CON process, and these towns collectively fit the definition of “Primary Service Area” as set forth in the Statewide Facilities and Services Report published in 2012 (“that geographic area (by town), for the service location in the application, consisting of the lowest number of contiguous zip codes from which the applicant draws at least 75% of its patients for this service at such location”).</p> <p>For remaining towns, the basis for inclusion is that L+M currently services these towns to fulfill its mission in serving the community’s healthcare needs and these towns are part of the service area that L+M has represented to OHCA for years during the CON process.</p>

* Village or place names are not acceptable.

10. Describe how this proposal will impact quality of care at L+MH.

Response

Please see the responses to Questions 2 and 3. The Applicants strongly believe that the proposed affiliation will positively impact the quality of care delivered to residents of L+M's service area long into the future. Although L+MH has a long history of providing high quality care to its patients, the proposed affiliation is expected to offer additional resources, and clinical expertise to ensure high quality services are available in these financially challenging times. More specifically, the proposed affiliation will also ensure that certain infrastructure investments are implemented to maintain and improve the facilities. With greater access to locally available specialists and cutting-edge clinical developments such as an electronically monitored intensive care units, and evidence-based best practices, L+M will be able to offer the patients in its service area more sophisticated care due to its association with YNHHS and its physicians.

11. Provide comment on both YNHHS and L+MH's performance under the following CMS quality improvement programs. Compare to national, state and local performance standards as well as YNHHS's current affiliated hospitals (Bridgeport and Greenwich Hospitals) and L+MH's current performance statistics:

- a.) Hospital Inpatient Quality Reporting Program;
- b.) Hospital Outpatient Quality Reporting Program;
- c.) Hospital Value-Based Purchasing Program; and
- d.) Hospital Readmissions Reduction Program.

Response

Performance in CMS quality improvement programs is measured at the individual hospital level. Bridgeport Hospital (BH), Greenwich Hospital (GH) and L+MH generally have performed well in comparison to national and state averages. CMS does not provide local data, only state and national averages. Recent results for each of the programs above have been reviewed and a summary of GH, BH and L+MH's performance is provided in Attachment II.

Copies of the most recent reports from CMS for the first three programs listed above are also included in Attachment III.

12. Describe how this proposal will lower the cost of delivering the health care services at L+MH.

Response

It is important to acknowledge that health care costs are likely to continue to increase statewide with the aging population, more people with chronic health conditions, and new technology and medications. However, the Applicants believe that the proposed affiliation will contribute to slowing the trend of increasing health care costs. Slowing this trend is

essential to the future survival of health care organizations. Medicaid reimbursement covers only a portion of every dollar of cost and along with the state hospital tax, L+M will not be able to sustain its services without reductions in costs wherever possible.

The proposed affiliation will allow L+M and its physicians to participate in more shared savings arrangements. For example, NEMG physicians have been successful in meeting shared savings targets in risk contracts with several payors. These savings were generated as a result of NEMG's population health management infrastructure. Systems are in place to provide physicians with critical data on health care utilization, patients at risk for hospitalization or readmission, and best practices to manage chronic health conditions. All of these efforts help to avoid unnecessary health care services or interventions which increase costs.

With this affiliation, L+M will be positioned to access the necessary performance tools needed to perform in an environment that requires access to data, seamless care coordination and volume based discounts for supply chain management.

13. How will this proposal impact the diversity of health care providers and patient choice in the geographic region?

Response

The proposal will not hinder diversity or patient choice, but may in fact enhance the diversity of providers and patient choice by introducing more specialists in areas of need into the L+M service area. Currently, the geographic region is and will continue to be served by two acute care hospitals (L+MH and Backus Hospital, an affiliate of Hartford HealthCare), various outpatient satellite locations, and by a multitude of physicians employed by L&MPA, NEMG, or in private practice as part of a physician group unaffiliated with L&MPA or YNHHS (please refer to Attachment IV for a listing of physicians currently practicing in the community).

14. Regarding the "formation of new models such as accountable care organizations," has either YNHHS or L+M already established an ACO(s)? If so, provide information on such operational ACOs.

Response

L+M has not established an ACO because it lacks the scale, experience, and resources needed to invest in developing sophisticated clinical integration expertise and patient management tools. YNHHS, through its physician foundation, NEMG, has a Medicare Shared Savings Program ACO. This program has been in place since January 2015 and includes approximately 23,600 covered lives. NEMG also has a number of shared savings agreements in place with commercial payers for commercially insured and Medicare Advantage plans. These are not formally labeled "ACOs" but the principles are basically the same. Some of these plans have been in place since 2013 with more added in 2014 and 2015 and include approximately 69,000 covered lives.

Success achieved to date by NEMG through its participation in shared savings contracts is summarized in the table below.

Metric	% Improvement	Measurement Period
All Cause Readmission Rate	2.4% Decrease in Readmissions Rate	CYTD through June 30, 2015 vs. CY2014
ED Utilization	3.6% Decrease in ED Utilization	CYTD through June 30, 2015 vs. CY2014
Acute ALOS	25% Decrease in Acute ALOS	CYTD through June 30, 2015 vs. CY2014
Breast Cancer Screening	2% Increase	CYTD through June 30, 2015 vs. CY2014

In addition, NEMG has demonstrated over \$4 million in savings in one of the commercial shared savings contracts.

Further, YNHHS is a founding member of Total Health. Total Health is a Connecticut-based network of physicians, hospitals and other providers working together to improve value in healthcare. Total Health seeks to recognize high-value care, efficiency, effective coordination of care with other providers and improved patient outcomes. Total Health is a voluntary and non-exclusive provider network with physician-driven governance. Total Health members benefit from a state-wide provider network for coverage and access, availability of all levels of care, including tertiary and quaternary, extensive primary care representation, adoption of clinical standards to enhance patient care and outcomes while reducing costs, and access to a state-of-the-art data repository, data analytics and a care management platform with a successful track record for population health management (Conifer Value-Based Care Suite).

15. What is L+M's current access to and capabilities for "population health expertise and infrastructure?"

Response

Currently, L+M has extremely limited access to and capabilities for "population health expertise and infrastructure." There are a few care coordinator/navigators positions in place. L&MPA's primary care offices have obtained recognition by NCQA as Patient Centered Medical Homes. However, none of the extensive infrastructure that is required to be successful in population health is in place, nor could L+M afford to purchase what is required.

16. Identify any significant differences between the L+MH's and the YNHHS's existing charity care policies. What specific benefits will be realized for L+MH's patient population under the YNHHS policy vs. the existing L+MH policy?

Response

A review of L+MH's and YNHHS existing charity care policies was undertaken. Both policies provide a significant amount of financial assistance.

Differences between the policies are noted below:

	YNHHS Policy	L+MH's Policy
Sliding scale cap	None	400% federal poverty guidelines
Requests for Assistance – time limit	None	2 years after date of service
Payroll stub requirement	2; also allow patients and/or employer to provide written verification of income	3; only employer can provide written verification of income
Period of free care eligibility	6 months plus discounted care eligibility for 1 year	6 months
Monthly payment plan – # months and minimum payment amount	48 months; \$50 minimum payment	18 months; \$25 minimum payment
Asset test requirement	No	Yes

If the affiliation is approved, L+MH would adopt the YNHHS financial assistance policy (over time). L+MH's patient population also will have, by way of example, access to the additional benefits listed below:

- Patients who qualify for a partial charity care adjustment who may have been required to leave a deposit equivalent to 20% of charges will no longer have to do so; and
- Self pay patients who previously received a 25% discount if payment was made within 30 days will now receive a 55% discount at the time of the first bill; regardless of when/if payment is made.

17. Identify the source of the assumption that some patients “are traveling to more expensive, distant and out-of-state medical centers for their care” as indicated on page 34.

Response

A review of inpatient market data from the Connecticut Hospital Association (CHA), State of Massachusetts, Rhode Island Department of Health (RI DOH), and the New York's Statewide Planning and Research Cooperative System (SPARCS) revealed that there were 1,931 discharges from L+MH's Connecticut service area towns that were attributed to hospitals in Rhode Island, Massachusetts and New York (see the table below).

Outmigration from L&M Hospital CT PSA/SSA Towns to Hospitals in RI, MA, & NY	NY FY14, RI FY14, MA FY13
Massachusetts Hospitals	349
New York Hospitals	153
Rhode Island Hospitals	1429
TOTAL	1931

Approximately 50% of these discharges were from Westerly Hospital, which is part of L+M. However, there were still more than 350 discharges from hospitals in Massachusetts and New York Hospitals, the majority of which are large academic hospitals (shaded pink), as shown in the table below.

Outmigration from L&M Hospital CT PSA/SSA Towns to Hospitals in MA, & NY	NY FY14, MA FY13
Brigham and Women's (Boston, MA)	88
Massachusetts General Hospital (Boston, MA)	72
Boston Children's Hospital (Boston, MA)	44
Beth Israel Deaconess Medical Center (Boston, MA)	29
Hospital for Special Surgery (New York City, NY)	24
Memorial Sloan-Kettering (New York City, NY)	23
UMass Memorial Medical Center (Worcester, MA)	21
NYP-Columbia (New York City, NY)	15
Lahey Clinic-Burlington (Burlington, MA)	14
NYP-Cornell (New York City, NY)	12
Tufts Medical Center (Boston, MA)	8
Mount Sinai Medical Center (New York City, NY)	8
Subtotal	358

The Applicants believe that with YNHHS's clinical and programmatic support, a significant portion of this outmigration can be reversed. As an efficient, low-cost provider, patients stand to benefit from receiving their care locally whenever possible. As outlined in the original CON application, and other sections of this response, a key intent of the L+M affiliation with YNHHS is to bolster health care resources to allow residents to stay local to their community hospital, thus reducing the need for patients to seek care at higher cost institutions both in- and out-of-state.

18. Explain how this proposal will specifically allow for the “avoidance of duplication of services between the applicants” as noted on page 36. In addition, explain how this proposal will specifically allow for the “coordination and implementation of clinical programs.”

Response

As has been described throughout the CON application and responses to several completeness questions, obtaining the majority of routine health care locally is the most convenient, preferred, and cost-effective option for residents of L+M's service area.

YNHHS will provide specialty providers in the local L+M service area to improve access to these services for L+M patients. Tertiary and quaternary procedures and treatments that may be required will likely not be offered locally and in these cases patients will have to travel. But, for more routine care and access to specialty physician consultations and follow-up care, the affiliation will facilitate the local establishment of specialty providers.

This proposal will allow for the coordination and implementation of clinical programs via a strategic planning process that will be the responsibility of both local (L+M) and YNHHS system-wide leadership to ensure that community needs are being met in the most cost effective way. This process will begin following the close of the affiliation where specific programs and services will be identified for implementation. Most importantly, through enhanced care coordination, patients within the YNHHS will not undergo duplicate diagnostic testing and have medically unnecessary procedures because of lack of care coordination and access to real time patient information. This proposal will allow leadership from both organizations to coordinate and implement clinical programs by fully understanding the strengths and needs of both organizations and the community to improve healthcare in the region.

19. What 2015 program initiatives took place in the cardiac, oncology and surgical programs as indicated on page 54 of the application?

Response

With respect to cardiac services, L&MPA had an unanticipated loss of a key cardiologist who performed electrophysiology (EP) procedures at L+MH. In order to maintain local access and continuity of care for service area residents, L+MH and L&MPA contracted with YMG to provide local, part-time coverage of EP services with fellowship-trained YMG EP physicians. L+MH and YNHHS share a long history of collaboration in the heart and vascular arena, dating back to the approval of L+MH's emergent angioplasty program in 2005. This new initiative builds upon an already collaborative partnership and utilizes YNHHS's strong physician base to meet the needs of the local community.

Supplemental to cardiac services, but within the surgical service line has been an investment in the expansion and enhancement of peripheral vascular procedures (open and endovascular) locally through a clinical partnership with YNHHS and YMG to retain patients locally. Market demand in the L+MH service area for these vascular services is not high enough to justify a full-time physician. Therefore, in this partnership, YMG physicians provide services to the L+M service area on a part-time basis so residents can stay local and not have to travel to New Haven or other locations for procedural and follow-up care.

Lastly, L+MH's most recent Community Health Needs Assessment (CNHA), which can be found in Attachment VIII of the original CON submission, highlights oncology and breast cancer specifically as significant health issues due to higher incidence and mortality rates compared to statewide and national statistics. To address this area, L+MH and its key clinical stakeholders have worked to improve assessment, coordination and preventative care for breast cancer and high-risk patients. These efforts culminated in the accreditation of

L+MH's breast health program by the National Accreditation Program for Breast Centers (NAPBC) in December 2014. Through this programmatic investment, L+MH patients can choose to stay in the local community for their oncologic and surgical care.

20. Please provide additional detail and explain further how the proposal relates to (or is submitted due to the provisions of) the Patient Protection and Affordable Care Act (PPACA).

Response

The United States' health care industry has been transforming at an accelerated pace, especially since the enactment of the PPACA. With greater emphasis and demand for improved outcomes along with lower levels of reimbursement, community hospitals typically do not have access to the necessary resources and capital to meet the challenges of health care reform. More specifically, with an increased emphasis on payment being linked to performance, providers must have the infrastructure (i.e., information systems, data analytics, care management tools, and disease management expertise) to achieve improved outcomes with less reimbursement. In addition, providers are being asked to assume some or all of the financial risk for the health care needs of their patients. To successfully manage such risk, providers must invest in comprehensive integrated provider networks, sophisticated technology and patient care protocols to manage patient populations. L+MH will benefit by being part of YNHHS's larger system so that, in association with pay for performance, the cost and risk can be spread across the system.

The proposed affiliation with YNHHS will provide L+MH with this necessary infrastructure and support, in terms of technology, human resource expertise and clinical care processes, to succeed in the new health care payment models of today and those expected in the near future. In this way, the proposal relates to PPACA.

21. The Applicants state there are no changes planned for L+MH's chargemaster. Will the savings realized from improved position in group purchasing, etc. translate directly to savings for the patients/payers? Please explain.

Response

Please refer to the response to question #8. In addition, it should be noted that a significant percentage of L+MH's revenue is dictated by state and federal reimbursement (49%) rates and negotiated commercial payer contracts (38%) and has little to no relationship to the chargemaster. Please refer to the response to question #31. Savings will be achieved from volume discounts associated with group purchasing and these savings will offset the reductions in state and federal payer reimbursement that L+M is currently experiencing.

22. Explain why the net community benefit expense for research is not estimated to increase (p. 60) if Educational and Research Opportunities will improve as a result of the proposal (p. 94).

Response

The Affiliation Agreement (page 94) indicates that after the closing L+M and YNHHS will “jointly explore education and research opportunities at the L+M Affiliates in light of their respective academic strengths and mission commitments.” Until this review occurs, it is not known what impact the affiliation will have on educational and research opportunities. Until the affiliation closes, there are legal restrictions on the amount of information that can be shared and the degree of planning that can be done between YNHHS and L+M. Therefore, the projected amount on page 60 was assumed to remain the same. Notwithstanding, by being affiliated with an academic medical center and having access to clinicians who are regularly involved in research, it is expected that L+M clinicians and patients will have greater access to clinical research opportunities.

23. Explain why the Other Community Benefits, such as Community Health Improvement and Subsidized Health Services are not projected to increase if L+M “may dedicate and commit at least \$11,000,000 to support community benefit programs and reinvestments (p 95).” Provide a table with expected expenditures for this money and explain what will happen with this commitment after the 5 year period is over.

Response

It should be emphasized that YNHHS has been and will continue to be fully committed to providing significant support for community benefit and community building activities. In FY 2014, YNHHS’s hospitals provided over \$569.2 million (at cost) in community benefit and community-building activities. Community benefits also include costs associated with health professions-related education, uncompensated and under-compensated care. YNHHS will continue to support L+M making community investments at the same level it is currently making (see Section 2.3 of the Affiliation Agreement on page 95 of the CON application).

The \$11 million figure represents an approximate 5-year total of the non-insurance shortfall related community benefit typically provided by L+M (approximately \$2.2 million annually) at the time the Affiliation Agreement was executed. The statement in the Affiliation Agreement was never intended to reflect “new” community investment but rather to reflect YNHHS’s support of at least L+M’s current level of investment. The reference to the \$11 million figure does not set any specifics around future community benefit expenses other than to acknowledge that each party affirmed its commitment to providing community benefit. The expected expenditures after the 5-year period is over are not known at this time.

24. Will this affiliation end the L+M relationship with Dana-Farber Cancer Institute?

Response

Dana-Farber Cancer Center and L+M Hospital have mutually agreed to terminate their existing clinical relationship as of December 31, 2015. To avoid any interruption in services, L+M Hospital is planning on entering into an agreement with Yale School of Medicine (YSM) for the provision of professional medical oncology services and YNHHS for some

administrative support on or around January 1, 2016. This agreement will expand on the current radiation oncology relationship between Smilow Cancer Center and L+MH.

25. Exhibit B to the revised Bylaws for L+M and L+MH, outlines “Direct Authority Retained by YNHHSC, separate from the Actions Requiring Approval of the Member and YNHHSC.”

- a) Is this exact same YNHHSC authority set forth in Bridgeport and Greenwich Hospitals’ Bylaws?

Response

Exhibit B to the proposed revised bylaws for L+M is identical to Exhibit B to the Bridgeport Hospital bylaws, and sets forth the exact same authority that YNHHSC retains and may assert on behalf of Bridgeport Hospital. Greenwich Hospital has not yet adopted the common revised bylaws, and so the reserve powers held by YNHHSC over Greenwich Hospital currently are marginally different. It is anticipated that within the next few years, Greenwich Hospital will adopt revised bylaws that grant YNHHSC the same direct authority as are currently set forth in the Bridgeport and proposed L+M revised bylaws.

- b) This exhibit provides control over “major activities.” Provide examples of what this would include.

Response

The YNHHSC Board of Trustees has not yet voted to declare any particular activities to be “major activities” as set forth in Exhibit B to the Bridgeport Hospital and L+M bylaws, therefore examples cannot be provided at this time.

26. Respond to the following questions related to the L+M chart of organization from page 592 of the application:

- a) What do the dotted lines represent between L&M Systems/L&M Home Care and between L&M Home Care and Davita Healthcare of New London?

Response

The dotted line between L&M Systems and L&M Home Care on the organizational chart is an error as L&M Systems is the sole shareholder of L&M Home Care. The line shown should be solid as it would reflect a controlling interest in L&M Home Care, and has been corrected on the updated organizational chart included in Attachment V. The dotted line between L&M Home Care and Davita Healthcare of New London indicates that L&M Home Care does not hold a controlling interest in Davita Healthcare.

- b) Why are certain entities, indicated on page 322 as being subsidiaries of either L+M, LMH or one of their immediate subsidiaries, excluded from the organization chart on page 592?

Response

The L+M organizational chart on page 592 of the application has been updated to include Westerly Hospital Auxiliary and Westerly Hospital Energy as subsidiaries of Westerly Hospital (see previously referenced Attachment V). The chart does not include Southeastern Connecticut Imaging Center, LLC which is a non-operating LLC whose sole member is Lawrence + Memorial Hospital as it is anticipated that such entity will be dissolved by the end of 2015. It also does not include L+M Home Medical Equipment, LLC which is a non-operating joint venture entity domiciled in Delaware which is also in the process of being dissolved in the near future. The information provided on Page 322 of the Application is a schedule to the Affiliation Agreement and the level of detail provided was required to be in compliance with the terms of the Affiliation Agreement to which it refers, but is more detailed than L+M would typically maintain for its operating entity organizational charts.

- c) The chart indicates that L&M Systems and Davita Healthcare of New London are the only two for-profit entities affiliated with L+M, while page 322 indicates an additional 4 for-profit entities (L&M Healthcare, L&M Indemnity, LMW Physicians and Southeast CT Health Partners). Please update the chart on page 592 or explain the discrepancies between the chart and page 322 of the application.

Response

L&M Health Care, Inc., LMW Physicians, Inc. and Southeastern Connecticut Health Partners, Inc. are all organized as non-stock corporations, and are not for-profit entities. The list shown on Page 322 of the Application reflects a schedule to the Affiliation Agreement between the parties that specifically identified those entities that are *tax-exempt*, so did not include other non-stock corporations if they had not also received tax-exempt status from the IRS. Please note that L&M Health Care, Inc. should have been identified on that schedule as a tax-exempt entity, which was inadvertently omitted in the final draft of the Affiliation Agreement.

LMW Physicians, Inc. and Southeastern Connecticut Health Partners, Inc. have never commenced any operations. SCHP was dissolved on December 21, 2015, and LMW Physicians is also slated to be dissolved in the near future. L&M Indemnity Company, Ltd. is organized as a stock corporation and the L+M organizational chart on page 592 of the Application has been updated to reflect this change.

27. With respect to YNHHS's commitment of \$300 million, respond to or provide the following:

- a) Is the \$300 million amount an all cash commitment or is part of the commitment in some other form?

Response

The \$300 million is not an all cash commitment. The commitment is dependent on the performance of YNHHS and L+M, as well as community need, YNHHS's strategic plan and mutually agreed upon business plans that achieve a positive return on investment. Sources for the \$300 million will include L+M base operating cash flows (e.g., \$163 million), incremental cash flows from L+M as a result of synergies and efficiencies (e.g., \$68 million) and an additional \$85 million from YNHHS.

- b) Will a set portion of the \$300 million amount be spent in each of the five years?

Response

Forty-one million of the \$85 million will be made available by YNHHS to L+M based upon the strategic plan (please see breakdown identified in response to question #28 below). An additional \$44 million from YNHHS will be made available for specific clinical and operational initiatives that will occur in years 2 through 5 post-closing. This amount is dependent on mutually agreed upon business plans that show a positive return on investment and performance of YNHHS and L+M. These expenditures will be the result of an ongoing, deliberate and collaborative strategic planning process to enhance the quality and breadth of YNHHS's clinical services, and to be responsive to the identified needs of the L+M community in eastern Connecticut.

- c) What is YNHHS's expected source of funding for the \$300 million?

Response

The anticipated funding source for the investments to be made to L+M is anticipated to come from two primary areas: operating cash flows and cash reserves at YNHHS and L+M. There is no current plan for a debt offering at this time relating to these commitments.

- d) If Yale-New Haven Hospital experiences an operating loss, will YNHHS or any affiliated entity need to borrow a portion of the \$300 million?

Response

In the event that any market forces result in an operating loss at YNHHS, multiple options will be assessed in order to continue to advance investments for L+M. These options could include an L+M debt offering or funding from existing YNHHS cash. Any of these decisions depend entirely on the nature of the operating loss at YNHHS and the revised multiyear financial forecast that incorporates that loss. Given that there are several other options available in the event of an operating loss, YNHHS is not likely to need to borrow in order to meet the \$300 million

commitment. Please see 2.11 (d) of the Affiliation Agreement on page 99 of the CON application.

- e) A preliminary capital and operating plan and timeline for the \$300 million commitment by YNHHSC.

Response

Given the competitive nature of the affiliation, YNHHSC and L+M have only been able to have preliminary discussions regarding the investment of the \$300 million, but post affiliation it is anticipated that the Applicants will work together to develop a more detailed strategic plan. The timelines and dollar amounts shown below represent anticipated spending based upon preliminary discussions.

Capital Investments (Equipment and Facilities)

Over the course of the next 5 years significant investments will be needed to maintain and improve the equipment and facilities at L+M. The table shown below outlines a preliminary estimate of the capital spending plan to be funded from the \$300 million.

	Year 1	Year 2	Year 3	Year 4	Year 5
Capital Infrastructure	\$46M	\$27M	\$28M	\$30M	\$32M

Upon the completion of a detailed assessment these amounts and allocations could change to meet the needs and performance of L+M and YNHHSC.

Epic Implementation

L+M will commit \$20 million to implement Epic. An additional investment of \$14M will be made post-closing for full clinical integration of Epic, upgrade and enhancement of other clinical systems in the operating rooms and other treatment areas and to bring L+M, in the first year, onto contemporary Financial and Enterprise Resource Planning (ERP) solutions that support a modern health care enterprise. These funding levels will ensure project completion and include needed investment in core information technology network and infrastructure, cybersecurity, and remaining software license costs.

Rebranding

The rebranding initiative at L+M is anticipated to cost \$2 million of capital expenditures and is expected to be spent within the first year of the affiliation.

Development of clinical programs and services

Fifteen million dollars will be made available at the time of closing to be spent on clinical program development. Of this amount it is expected that approximately \$2 million will be utilized for capital expenditures to support these programs. The rate of spending for this investment will be dependent on physician and staff recruitment and the strategic and business plans.

Population Health Infrastructure

Ten million dollars of the investment is associated with population health infrastructure. In the past several years, YNHHS has made significant strides in developing a clinically integrated network to support the population health payment environment. As part of the system, L+M will be able to utilize these resources, and will avoid an estimated \$10M operating/capital cost.

Remaining Investment

The remainder of the \$300 million will be allocated to specific areas following a more detailed assessment to be performed post-closing as described in the Affiliation Agreement on pages 99 and 100 of the CON application.

28. Regarding the \$41 million in resources that will be available for updating IT platforms, branding and access to the YNHHS population health infrastructure, provide the following:

- a) A table that breaks down how the \$41 million will be made available with a description of each amount.

Response

The table below provides a break-down of how the \$41 million will be made available with a brief description of each amount.

Break-down of \$41 Million	Description
\$14 million	Epic installation and other IT investments
\$10 million	Population health infrastructure and related services
\$15 million	Development of clinical programs and services for eastern CT and western Rhode Island
\$2 million	Rebranding and communication initiatives

- b) A cost comparison of the implementation of Epic by L+M as a stand-alone entity and as an YNHHS affiliate.

Response

Epic is not available to L+M for purchase as a stand-alone entity. Epic only sells its EMR to large health systems, academic medical centers or children's hospitals. L+M can purchase Epic through YNHHS via the Community Connect option which affords L+M cost savings as compared with stand-alone purchase and installation of an enterprise wide EMR. L+M is currently pursuing this option, however, L+M's costs for this option are higher than the costs they will incur as an affiliate of YNHHS. The table below provides a comparison of the Community Connect costs and the costs as an YNHHS affiliate. If the affiliation is approved, L+M will be able to reduce its costs to implement Epic by \$13.8M as shown in the table below.

Description	Costs via Community Connect	Costs via YNHHS Affiliate
Epic systems licenses	\$8.9M	\$6.5M
Epic system maintenance	\$1.875M	\$1.0M
Application support team	\$467,000	\$312,000
Integration to clinical and financial systems	\$800,000	\$395,000
Hardware & infrastructure	\$17.5M	\$7.5M
TOTAL	\$29.5	\$15.7
Difference		\$13.8M

It should also be emphasized that if L+M had to pursue an EMR implementation completely on their own, the expense would likely be \$40M.

- c) An explanation of the \$10 million amount for “value represented by participation in and access to YNHHS population health infrastructure.”

Response

As part of the system, L+M will be able to utilize the resources associated with YNHHS’s population health infrastructure and avoid an estimated \$10M operating/capital cost. This infrastructure will support high risk patient identification and management, payer program management, clinical integration among providers, case management and community based patient education programs.

29. Regarding the \$215 million in new services to be located at L+M, provide the following information in a table:

- a) Which projects will be given the highest priority over the first three years; and

Response

Projects that will be given the highest priority over the first three years will be determined through a comprehensive strategic planning process that L+M and YNHHS will undertake. Areas to be considered include:

- Behavioral Health;
- Emergency/Urgent Care;
- Heart and Vascular Services;
- Medicine Services;
- Musculoskeletal Services;
- Oncology;
- Pediatrics;
- Primary Care;
- Surgery/Ambulatory Surgery; and
- Women’s Health.

b) What are the expected costs of those projects?

Response

Detailed costs for these projects have not yet been developed and will be addressed during the strategic planning process following the closing. Strategic planning will allow the Applicants to determine the precise scope of the identified clinical needs and thus, determine more accurate capital costs associated with the programs.

30. Regarding the \$44 million in resources that will be available to support the new clinical programs and services indicated above, provide a detailed breakdown to show how the \$44 million may be spent, using tables if necessary to explain this statement further.

Response

As noted above, detailed breakdowns are not yet developed and will be pursued during the strategic planning process post-closing. At this time, the applicants expect that about half of the funds will be directed to funding new physician recruitment. As noted below, the remaining 50% will be targeted towards staff, office/faculty development and equipment.

- Launch funding for new physician recruits 50%
- Other, such as staff augmentation and clinical support 50%

31. Provide a table with estimated cost savings amounts for each of the categories (IT, finance, insurance, equipment and supplies, and other administrative services) expected to realize savings as a result of economies of scale as noted on page 37 for the first three years of the affiliation. Be sure that the amounts agree with the incremental column of Financial Worksheet and if the amounts are not in agreement, explain the differences.

Response

The table below depicts the anticipated savings for the proposed combined Health System in the above categories for the next three fiscal years:

Projected Savings: Categories (\$ in millions)	FY 2016	FY 2017	FY 2018
IT	(\$0.42)	\$1.38	\$1.51
Finance & Corporate Services	0.50	2.16	2.97
Insurance	0.00	0.00	0.00
Equipment and Supplies	0.84	1.68	1.68
Other Administrative	0.25	1.08	1.48
Total	\$1.17	\$6.29	\$7.65

When looking at the Financial Attachment A's incremental amounts for L+M or YNHHSC, these figures will not match for the associated years. These amounts will not be consistent with the incremental columns of the financial worksheets for L+M or YNHHSC for the reasons discussed below:

- The financial worksheet for L+M post affiliation does not include L&MPA because it will be merged into NEMG. Therefore, the salaries and benefits of those individuals are subtracted from the total incremental column in addition to the anticipated savings above;
- Cost savings were reduced due to additional fringe benefit rates associated with the merger of L&MPA into NEMG which offers a richer fringe benefit package; and
- Cost savings were reduced by the costs for incremental staff and supplies that are required to meet anticipated incremental volume due to the affiliation. The incremental staffing and supply expenses are incorporated into the incremental column in addition to the anticipated savings above.

32. Provide the FY 2015 Balance Sheet, Statement of Operations and Statement of Cash Flows for L+MH (which excludes Associated Specialists of Connecticut), L+M and YNHHS. The internal financials may be provided if audited financials aren't completed at the time responses are submitted.

Response

FY 2015 audited financial statements for L+M, L+MH and YNHHS are included in Attachment VI. Please note that audited financials for L+M and L+MH are marked "draft". Once received, a final version will be provided to OHCA if required. All figures are final.

33. Respond to the following questions regarding the Financial Worksheets on pages 583-585 for L+MH, L+M and YNHHS:

- a) Update the spreadsheets to include actual results for FY 2015 even if the amounts are internal and unaudited.

Response

Spreadsheets that include actual results for FY 2015 have been included in Attachment VII.

- b) Provide a detailed breakdown thoroughly explaining how all of the financial amounts, volume statistics and FTEs were derived, expanding on the assumptions provided on pages 587 and 588. In the response, be specific and also include a narrative to explain the figures provided in the incremental columns, indicating months included for FY 2016 data provided.

Response

In order to develop Financial Worksheet A for the CON application, YNHHS utilized several approaches to provide the most accurate and updated results.

These approaches are outlined below.

- **Multiyear Forecast Presented to the Board** – YNHHS developed a multiyear financial forecast that was presented to the Board of Trustees in conjunction with obtaining approval of the Affiliation Agreement. This forecast provided a high level overview of revenues and expenses.
- **YNHHS Updated Multiyear Forecast** – A more detailed multiyear projection was updated between the time of the Affiliation Agreement and the submission of the CON. This model included more detail for projected revenues and expenses for each delivery network in YNHHS. Based on additional reimbursement reductions from Medicaid, adjustments to revenue and expenses were necessary.
- **FY 2016 Board Approved Budget** – After the development of the updated Multiyear Forecast and prior to the submission of the CON, YNHHS finalized the FY 2016 proposed budget for both revenue and expense which were subsequently approved.

These three approaches were the source for the four year plan submitted in the CON in Financial Attachment A.

Revenue and Expense Assumptions:

The table below summarizes the assumptions included in Financial Worksheet A in terms of revenues, expenses and FTEs based on the process described above.

Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
Revenues	<p>Annual increase of 1% assumed from baseline.</p> <p>Revenues were adjusted down for the hospital tax paid by YNHHS and is shown in the revenue category labeled “Other” of the Governmental payer category.</p> <p>The state hospital tax was updated to the new \$182M figure in the “Other Governmental Category” which encompassed both the previous tax and the addition that will be required. That amount was then allocated out to the various governmental and commercial payers based on the payor mix provided.</p> <p>An adjustment was made to FY 17 to account for an expected decrease in inpatient volume as</p>	<p>Revenues without the CON for YNHHS were increased in accordance with L+M’s projected revenues with the affiliation. Growth assumptions as outlined in Tables C and D in the original CON submission (see Applicant pages 53 and 54) are associated with the various clinical investments and were incorporated. (Please refer to discharge and outpatient visit increases included in L+M’s Financial Attachment A).</p>

Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
	the trend of short stay inpatient cases continue to move to outpatient or observation. Beyond FY 17 this is expected to stabilize.	
Expenses	<p>Annual increase of 3% assumed for all expense categories.</p> <p>Adjustments were made to the multiyear forecast to account for anticipated savings activities that are aimed at decreasing operating expense. A small portion of these savings which have been identified are included within the various expense categories while the majority of the targeted savings are in other “operating expense” line as a credit.</p>	<p>Expenses without the CON for YNHHS were increased in accordance with L+M’s projected expenses with the affiliation. (Please refer to projected expenses included in L+M’s Financial Attachment A).</p> <p>Additions were made to the expenses to account for fringe benefit changes associated with the integration of LMPA with NEMG, and staff and supplies needed to support the incremental volume growth mentioned above.</p> <p>Expenses also include savings projected in the following areas: corporate services consolidation, IT systems integration, and supply chain savings.</p>
FTEs	Small increases in FTEs without the CON correspond to minimal volume growth	Incremental FTEs represent the FTEs from L+M that will be incorporated into YNHHS (Please refer to projected FTEs included in L+M’s Financial Attachment A).

The table below outlines more details on the assumptions used to complete Financial Worksheet A for L+M and L+MH.

L+M: Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
Revenues	<p>Annual increase of 1% assumed from baseline.</p> <p>Revenues were adjusted down for the hospital tax paid by</p>	Revenues without the CON were increased in accordance with L+M’s projected revenues with the affiliation. Growth assumptions as outlined in

L+M: Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
	<p>L+M is shown in the revenue category labeled “Other” of the Governmental payer category.</p> <p>The state hospital tax was updated to the new \$18M figure in the “Other Deductions” which encompassed both the previous tax and the addition that will be required.</p> <p>Adjustments were made to the out years for expected payer reimbursement.</p>	<p>Tables C and D in the original CON submission (see Applicant pages 53 and 54) are associated with the various clinical investments and were incorporated. (Please refer to discharge and outpatient visit increases included in L+M’s Financial Attachment A). They were further decreased by the reclassification of LMPA to NEMG.</p>
Expenses	<p>Annual increase of 2% assumed for salaries, fringe benefits, outside services, supplies and 1% assumed for other operating expenses in addition to other initiatives expected for these categories.</p> <p>Adjustments were made to the multiyear forecast to account for anticipated savings activities that are aimed at decreasing operating expense. These changes are necessary to generate a positive margin to have a sustainable bottom line for the L+M.</p>	<p>Expenses without the CON were increased in accordance with L+M’s projected expenses with the affiliation. (Please refer to projected expenses included in L+M’s Financial Attachment A).</p> <p>Additions were made to the expenses to account for fringe benefit changes associated with the integration of LMPA with NEMG, and staff and supplies needed to support the incremental volume growth mentioned above.</p> <p>Expenses also include savings projected in the following areas: corporate services consolidation, IT systems integration, and supply chain savings.</p> <p>Expenses also include contracted service fee for YNHHS System support fee.</p>

L+M: Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
		All expense categories were decreased by the reclassification of LMPA to NEMG.
FTEs	Decreases in FTEs without the CON correspond to adjustments to decrease operating expenses.	Incremental FTEs represent the FTEs from L+M that will be incorporated as well as reclassification of LMPA to NEMG. (Please refer to projected FTEs included in L+MC's Financial Attachment A).

L+MH: Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
Revenues	<p>Annual increase of 1% assumed from baseline.</p> <p>Revenues were adjusted down for the hospital tax paid by L+M and is shown in the revenue category labeled "Other" of the Governmental payer category.</p> <p>The state hospital tax was updated to the new \$18M figure in the "Other Deductions" which encompassed both the previous tax and the addition that will be required.</p> <p>Adjustments were made to the out years for expected payer reimbursement.</p>	Revenues without the CON were increased in accordance with L+M's projected revenues with the affiliation. Growth assumptions as outlined in Tables C and D in the original CON submission (see Applicant pages 53 and 54) are associated with the various clinical investments and were incorporated. (Please refer to discharge and outpatient visit increases included in L+M's Financial Attachment A).
Expenses	Annual increase of 2% assumed for salaries, fringe benefits, outside services,	Expenses without the CON were increased in accordance with L+M's projected expenses with

L+MH: Financial Assumptions	Without the CON	With the CON- Assumed 4/1/16 start date
	<p>supplies and 1% assumed for other operating expenses in addition to other initiatives expected for these categories.</p> <p>Adjustments were made to the multiyear forecast to account for anticipated savings activities that are aimed at decreasing operating expense. These changes are necessary to generate a positive margin to have a sustainable bottom line for the L+MH.</p>	<p>the affiliation. (Please refer to projected expenses included in L+M's Financial Attachment A).</p> <p>Additions were made to the expenses to account for fringe benefit changes associated with the integration of LMPA with NEMG, and staff and supplies needed to support the incremental volume growth mentioned above.</p> <p>Expenses also include savings projected in the following areas: corporate services consolidation, IT systems integration, and supply chain savings.</p> <p>Expenses also include contracted service fee for YNHHS System support fee.</p>
FTEs	Decreases in FTEs without the CON correspond to adjustments to decrease operating expenses.	Incremental FTEs represent the FTEs from L+M that will be incorporated (Please refer to projected FTEs included in L+M's Financial Attachment A).

- c) Explain why Other Deductions remain the same in FY's 2016-2019 for all three financial worksheets. Explain why Other Operating Revenue doesn't change in these same years for both L+M and L+MH.

Response

Other deductions refer to current tax amounts to the State of Connecticut. At this time these amounts have been kept constant based on current available information.

Other operating revenue includes cafeteria and grant funds. These revenues are not expected to materially change in the future and have therefore been held constant.

- d) How have the volumes, revenues and expenses related to the expected programmatic growth in musculoskeletal, neurosurgery/spine, cardiovascular, general surgery, maternity and children's services noted on page 41 been reflected in the financial projections?

Response

As referenced in response to question #31, incremental salary and fringe benefit expenses, which are projected to be necessary to manage programmatic growth due to the affiliation, are incorporated into all the models. Additionally, there are revenue and non-salary expenses incorporated that are projected to match the anticipated volume increases. These amounts are incorporated into all components of the revenue, expense, and FTE assumptions on the multi-year plans.

- e) How are the "assessed fees" to YNHHS from L+M Affiliates reflected in the incremental projected expenses?

Response

The fee paid by L+M to YNHHS is accounted for in the "Physician Fees" category on Financial Worksheet A given there is no other relevant category on the form. This category represents all third-party contractual related fees.

34. In reference to the Financial Worksheet submitted for L+MH, address the following:

- a) Provide a new Financial Worksheet A with amounts for L+MH which exclude the activity of Associated Specialists of Connecticut, the medical group consolidated with the Hospital.

Response

As requested, Financial Worksheet A for L+MH without the activity of Associated Specialists of Connecticut has been included in Attachment VIII.

It should be noted that Associated Specialists of Connecticut includes physician revenues and expenses associated with L&MPA's cancer center and wound care services. Following the affiliation, the physician revenues associated with the wound center will become part of NEMG.

- b) Explain why there are no incremental amounts provided for Uninsured Net Patient Revenue, Other Operating Revenue, Net Assets Released from Restrictions, Bad Debts-Other, Interest expense, Malpractice, Lease expense and Other Operating Expense.

Response

All incremental costs have been allocated to the appropriate cost category. Projections do not assume any incremental Uninsured Net Patient Revenue as any

additional volume in this category is offset by bad debt. In addition, no incremental amounts are projected for Other Operating Revenue (see #33c) or Net Assets Released from Restrictions as a result of the proposed affiliation.

The Bad Debts-Other category has not been identified in any base figures or projections in that no additional debt is expected by virtue of the proposed affiliation. Lease and Other Operating expenses are projected to remain flat with no change in the future. Please refer to 34c for reference to Malpractice costs.

- c) Detail why the amounts for Malpractice Insurance and Lease expense remain the same in FY's 2016-2019 without the project.

Response

L+MH will obtain malpractice insurance through YNHHS's program. L+MH has had a very mature self-insured malpractice program and, more recently, an insurance captive (L+M Indemnity) which together have provided over twenty years of experience. The expense has remained fairly consistent from year to year. YNHHS's malpractice insurer will be conducting underwriting due diligence in the first quarter of CY 2016 and the premium for L+MH will be set after that point. Given L+M's stable experience over the last 20 years with its own malpractice insurance program, it has projected no change in the premium.

- d) The FTE amounts provided on Financial Worksheet A don't agree with the FTE amounts given on page 588, which provides assumptions. Revise as appropriate and explain why additional FTEs are needed in each of the first 3 years of the proposal and the types of positions they represent.

Response

An assumption page for L+MH was inadvertently omitted from the original CON application. Please refer to Attachment IX for these assumptions. The FTE amounts provided on page 588 pertain to YNHHS.

35. With respect to the Financial Worksheet for L+M, address the following:

- a) Provide details of the \$72,000 incremental loss in FY 2016.

Response

FY 2016 financials assume 6 months of the affiliation. Projected volume and revenue increases have minimal impact in the first year. There are some incremental expenses related to the proposed affiliation which are not yet offset by incremental revenue and therefore a small incremental loss is projected.

- b) Explain why there are no amounts provided for Uninsured Net Patient Revenue projections, Net Assets Released from Restrictions, Bad Debts-Other and Interest expense.

Response

Projections do not assume any incremental Uninsured Net Patient Revenue as any additional volume in this category is offset by Bad Debt. In addition, no incremental amounts are projected for Net Assets Released from Restrictions, Bad Debts-Other and Interest expense as a result of the affiliation.

- c) Detail why the amounts for Malpractice Insurance and Lease expense remain the same in FY's 2016-2019 without the project.

Response

Please refer to the response to question #34c. L+M and L+MH have a very mature self-insured malpractice program that has existed for over twenty years. This expense has remained fairly consistent from year to year and therefore was assumed to remain the same in the financial attachments.

- d) Explain why physician fees decreased from \$55 million in FY 2014 to \$36 million in FY 2016 and just over \$29 million in FY's 2017-2019 without the project.

Response

This expense line item as explained above is utilized for all purchased third-party services. In FY 2014, L+M experienced a strike which required a non-recurring expense in excess of \$14 million for replacement workers and incurred \$5 million in consulting fees. The "Physician Fee" category captures all contracted fees. These expenses are not applicable to future time frames and therefore explain the declining trend.

- e) Verify that the amounts in the incremental column exclude any activity related to the integration of NEMG and L&MPA or revise the amounts as applicable.

Response

The amounts in the incremental column exclude any activity related to the integration of NEMG and L&MPA.

36. In reference to the Financial Worksheet for YNHHSC, address the following:

- a) Provide details of the \$699,000 incremental loss in FY 2016.

Response

There will be costs associated with implementation of the proposed affiliation and any of the benefits are not fully realized in the six months of the proposed affiliation in FY 2016. The incremental loss in the first year of the affiliation at YNHHSC takes into account a number of factors. L+M inclusive of L&MPA, projects an estimated \$8.7 million loss in FY 2016 (see the CON application on page 584) which, without any realized benefits from the affiliation, would

translate to a loss of roughly \$4.4 million on the YNHHSC's incremental forecast. The projected first year cost savings from the categories of Supply Chain, Finance & Corporate Services, information technology, etc. help to mitigate this loss. In addition to the cost savings, the initial incremental volume impact at L+M, due to the work done during the initial phase of the proposed affiliation, will help to further reduce the loss (please refer to the CON Application on page 47).

- b) Explain why there are no amounts provided for Uninsured Net Patient Revenue projections, Net Assets Released from Restrictions and Bad Debts-Other.

Response

There are no amounts in these categories due to their inclusion in other line items or due to the fact that they are not forecasted. Specifically, Uninsured Net Patient Revenue is included in the "Self Pay" category. Net Assets Released from Restrictions is not a category that is forecasted and is only reported retrospectively. Bad Debts-Other are grouped in a single "Bad Debt" category.

- c) Explain why the revenue, expense and FTE amounts in the "Projected Incremental" column do not agree with the amounts shown in the "Projected with CON" column of the L+M Financial Worksheet.

Response

There are a number of reasons for this discrepancy. The proposed affiliation of YNHHSC and L+M has significant financial benefits for L+M as the entity exists today, but there are also financial impacts to YNHHSC that are not accounted for in the L+M financial assumptions. An example of this is the assessed fees referenced in question 33(e). Within the L+M financial assumptions, the system support fee paid to YNHHSC is shown on the physician support fee expense line (which is inclusive of all third-party contractual expense). When comparing this to the YNHHSC five year plan, this fee is both paid and received by the YNHHSC because it now includes L+M.

Another primary reason for the discrepancy has to do with the L+M's exclusion of L&MPA in the financial forecasts in the column "with the CON." The proposed affiliation model includes the merger of L&MPA with and into NEMG. Therefore, when modeling projected financials with CON approval, revenue, expense, and FTEs associated with L+M do not include any amounts for L&MPA.

Additionally, the projected first year of YNHHSC's financial forecasts only includes 6 months of the affiliation whereas the L+M figures include a full year.

- d) Detail why Other Operating Expense decreases from over \$285 million in FY 2016 to slightly above \$150 million in FY 2019 without the project.

Response

Included in the YNHHS multiyear plan is the projected results of a project called “Cost and Value.” This project’s primary goal is to improve care while at the same time reducing cost. The significant reduction in expense seen in the Other Expense category is a result of this project. Targets are developed and cost savings projected, however, it is currently not clear which line item expense will be impacted. Therefore the reduction in Other Operating Expense reflects projected savings from this initiative.

- e) Related to the statement on page 45 that “Incremental revenue and expenses are negative values due to the removal of L&MPA which will be merged into NEMG,” explain if the incremental column for YNHHS includes the additional revenue, expenses and FTEs of L&MPA. If the medical group amounts are not part of the YNHHS amounts, the Financial Worksheet A should be revised.

Response

The figures included in this model incorporate the projected financials associated with the proposed L&MPA/NEMG integration.

The incremental column for YNHHS does include the additional revenue, expenses and FTEs of L&MPA.

37. After the affiliation, it is expected that L+M will become part of the YNHHS Obligated Group. Regarding the obligated group respond to the following:

- a) Which YNHHS entities are currently part of the obligated group?

Response

Currently, the following entities are part of the obligated group:

- (i) Yale-New Haven Health Services Corporation;
- (ii) Yale-New Haven Hospital Inc.;
- (iii) Bridgeport Hospital;
- (iv) Bridgeport Hospital Foundation, Inc.;
- (v) Northeast Medical Group, Inc.; and
- (vi) Yale-New Haven Care Continuum Corporation.

- b) Do the YNHHS Obligated Group members ever change?

Response

Members of the Obligated Group do not leave the Obligated Group once they join. Since the implementation of the YNHHS Obligated Group, the members have remained the same although the expectation has been that members would be added over time. The legal documents supporting the YNHHS Obligated Group allow for both entrance to and withdrawal from provided certain tests are met.

- c) Provide further details why YNHHSO would include L+M as part of the System's obligated group considering the increasing operating losses over the last several years for both L+M and the Hospital.

Response

As previously stated, there are no immediate plans to include L+M in the YNHHSO Obligated Group given L+M's current debt obligations. At the appropriate time, L+M will join the Obligated Group. Participation in the YNHHSO Obligated Group affords members with many benefits, not the least of which are a lower cost of capital and superior terms than non-obligated group members might be able to obtain when issuing indebtedness on their own credit ratings. L+M will be able to take advantage of these benefits when it can be incorporated into the Obligated Group.

- d) Will the Obligated Group attempt to refinance any of L+M's existing long term debt commitments or pension deficiencies? Explain in detail.

Response

L+M is not expected to join the YNHHSO Obligated Group upon consummation of the transaction due to potential refinancing costs related to its outstanding indebtedness.

- e) In FY 2014, YNHHSO changed its corporate structure so that Yale-New Haven Hospital and Bridgeport Hospital are now wholly owned directly by YNHHSO "in connection with the formation of an Obligated Group" (per the system's audited financial statements). Is it intended for this to also occur for L+M in the short term?

Response

As previously stated, in the short term, L+M will not join the Obligated Group and therefore the corporate changes made in connection with forming the Obligated Group are not relevant to the proposed corporate structure which will result from the proposed affiliation. In the event L+M changes its overall corporate structure after the affiliation for reasons other than joining the Obligated Group, it will notify OHCA to the extent required by applicable law.

38. Regarding the monthly financial reports submitted on page 602, respond to the following:

- a) Update the report with data through the year ending September 30, 2015.

Response

The monthly financial report submitted on page 602 has been updated to include data through the year ending September 30, 2015. Please refer to Attachment X.

- b) Provide the Moody's credit rating for L+M and the L+MH.

Response

L+M and L+MH are not rated by Moody's. Ratings are only provided by Fitch and S&P and are provided below.

Rating Agency	L+M Rating
S&P	A- with Negative
Fitch	A with Stable

- c) Submit the same document for YNHHS C which also includes all three major credit ratings.

Response

The monthly financial report (as submitted on page 602 of the Application) has been provided for YNHHS C and is included in Attachment XI. Credit ratings for all three major rating agencies are provided below.

Rating Agency	YNHHS C Rating
Moody's	Aa3 with Stable
S&P	A+ with Positive
Fitch	AA- with Stable

39. What is the basis or the source for the Key Financial Metrics on page 316? Provide the calculation for the Operating Margin and the Days Cash on Hand.

Response

The basis for the Key Financial Metrics is the preliminary financial forecasts prepared in conjunction with the proposed affiliation.

The calculation for Operating Margin and the Days Cash on Hand is provided below:

- $\text{Cash plus Investments} / (\text{Total Operating Expenses minus Depreciation}) / \text{Days in Period}$

Note: This calculation is only L+MH and L+M Corporation as they are the only L+M Obligated Group members.

40. Explain what is meant by "L+M is considering adopting retention bonuses for certain select individuals" as noted on page 344, what the expected costs of these bonuses will be and who is expected to receive the bonuses.

Response

The statement referenced in the completeness question is taken from a schedule to the Affiliation Agreement between L+M and YNHHS C dated as of July 17, 2015 that relates to a set of representations and warranties otherwise made in Section 3.17 of the Affiliation

Agreement concerning L+M's benefit plans. The effect of placing that statement on the schedule at the time the Affiliation Agreement was executed to preserve L+M's right to adopt retention bonuses for certain employees if determined to be necessary or desirable for maintaining business operations during the course of the transaction and remain in compliance with the terms of the Affiliation Agreement. At this juncture, L+M anticipates that retention bonuses will be limited to certain personnel within the Information Services and Finance Departments in order to ensure continued business operations through the anticipated installation of a new EMR system and closing of the proposed affiliation transaction. However, decisions have not yet been finalized and expected costs cannot yet be determined.

CMS QUALITY IMPROVEMENT PROGRAM –

SUMMARY OF RESULTS

CMS Program	L+MH Executive Summary	GH Executive Summary	BH Executive Summary
<p>Hospital IP Quality Reporting Program - 2Q14-15</p> <p>This report outlines performance for the specified time period across all clinical process of care measures for Inpatient Quality Reporting, HCAHPS measures, Mortality, Readmissions, Risk Standardized Complication measures, 30 day condition-specific payment measures, select AHRQ PSIs, and Hospital Acquired Infection Measures.</p>	<p>Lawrence + Memorial Hospital performed as well or better than others on most of the measures. In comparison to the state and national performance data opportunities for improvement exist in: AMI, Heart Failure, Stroke 1,3,5; VTE 1,2,5; PN-6; SCIP Inf-1,2, SCIP Card-2; most HCAHPS and PAYM-30-PN.</p>	<p>Greenwich Hospital performed as well or better than others on most of the measures. In comparison to the state and national performance data opportunities for improvement exist in SCIP-Inf-9, SCIP-Card 2and IMM-2, AMI and COPD readmissions .</p>	<p>Bridgeport Hospital was no different than the national or state rate on many measures. There are several opportunities for improvement in comparison to the state and national performance. These include some in stroke care, VTE-1, VTE6, SCIP prophylactic antibiotics, hospital cleanliness, ED arrival time to admission, IMM-2,PC-01 elective deliveries, hospital cleanliness, complications for Hip/Knee , PSI-12 DVD/PE and C.diff.</p>
<p>Hospital OP Quality Reporting Program - 2Q14-1Q 15</p> <p>This report outlines performance for the specified time period across measures for Outpatient Quality Reporting including Healthcare Personnel Influenza Vaccination, AMI Cardiac Care Measures, Outpatient Imaging Efficiency measures, ED throughput, Pain Management, and Stroke Care.</p>	<p>Lawrence + Memorial Hospital performed better than the State and National Performance in: the ED measures; OP-21 Median time to pain management for long bone fracture; OP-27 Influenza Vaccination Coverage among Healthcare Personnel, most AMI Cardiac Care and most of the Outpatient Imaging Efficiency Measures. Opportunity areas, in comparison to state and national performance, include: OP-4 Aspirin on Arrival; OP-5 Median Time to ECG; OP-8 MRI Lumbar Spine for Low Back pain; OP-13 Cardiac Imaging for preoperative risk assessment for non-cardiac low-risk surgery and OP-23 Head CT Scan for Stroke patients who received head CT or MRI interpretation within 45 min of ED arrival.</p>	<p>Greenwich Hospital performed well in AMI Cardiac Care, most of the Outpatient Imaging Efficiency Measures and the ED measures. Opportunity areas, in comparison to state and national performance, include: OP-27 Influenza Vaccination Coverage among Healthcare Personnel, OP-10 - the use of contrast in Abdomen CTs and OP-13 - cardiac imaging for preoperative risk assessment for non-cardiac low-risk surgery and OP-21, median time to pain management for long bone fracture.</p>	<p>Bridgeport Hospital has room for improvement on OP-27, influenza vaccination among healthcare workers, had mixed results on the outpatient imaging efficiency measures and needs improvement on OP-20 median time from arrival to provider contact.</p>
<p>Hospital Value-Based Purchasing Program – Value-Based Percentage Payment Summary Report</p> <p>This report outlines the Hospital Value-Based Purchasing Program Payment Summary report for the FY 2016 Value-Based Purchasing Period.</p>	<p>Lawrence + Memorial Hospital received 1.37% (of the possible 1.75%) base operating DRG payment withheld, resulting in a final payment reduction of 0.38% The total score of 28.18 is lower (higher is better) than the state and national performance score of 35.19 and 40.47 respectively.</p>	<p>Greenwich Hospital received 1.63% (of the possible 1.75%) base operating DRG payment withheld, resulting in a final payment reduction of .12% The total score of 33.57 is lower (higher is better) than the state and national performance score of 35.19 and 40.47 respectively.</p>	<p>Bridgeport Hospital received 1.58% of the base operating DRG payment withheld, resulting in a reduction of .17%. The total score of 32.50 was lower than (higher is better) than the state and national performance score of 35.19 and 40.47 respectively.</p>
<p>Hospital Readmissions Reduction Program FY'16</p> <p>This report outlines the Hospital Readmission Reduction Program Results for FY 2016, which summarizes the condition specific readmission ratios for AMI, HF, COPD, HIP/KNEE, and PN.</p>	<p>Target performance is a readmission ratio ≤ 1.0. Lawrence + Memorial achieved that ratio for Hip/knee, AMI and Heart failure, but has opportunities for improvement in pneumonia and COPD.</p>	<p>Target performance is a readmission ratio ≤ 1.0. Greenwich achieved that ratio for hip/knee and pneumonia, but has opportunities for improvement in AMI, HF and COPD.</p>	<p>Target performance is a readmission ratio ≤ 1.0. Opportunities for improvement exist for AMI, HF, COPD and PN. Hip/Knee is the only readmission area performing <1.</p>

Independent Auditor's Report

To the Board of Trustees of
Lawrence + Memorial Hospital

We have audited the accompanying consolidated financial statements of Lawrence + Memorial Hospital and its subsidiary (a subsidiary of Lawrence + Memorial Corporation, the "Hospital"), which comprise the consolidated balance sheets as of September 30, 2015 and 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Hospital at September 30, 2015 and September 30, 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual organizations and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual organizations.

Construction in process included in accounts payable	<u>\$ 914,729</u>	<u>\$ 1,673,118</u>
Contributed securities	<u>\$ 493,535</u>	<u>\$ 725,796</u>

The accompanying notes are an integral part of these consolidated financial statements.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

1. Significant Accounting Policies and Organization

Organization

Lawrence + Memorial Hospital (the "Hospital"), a non-profit organization incorporated under the General Statutes of the State of Connecticut, is a wholly owned subsidiary of Lawrence + Memorial Corporation (the "Corporation"). The Board of the Corporation elects a Board of Directors who manages the property and affairs of the Hospital.

Principles of Consolidation

The consolidated financial statements include the accounts of the Hospital and its wholly owned subsidiary, Associated Specialists of Southeastern Connecticut, Inc. ("Associated Specialists"). All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital's significant estimates include the collectability of patient accounts receivable, useful lives of fixed assets, estimated settlements due to third party payors, valuation of certain investments, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Regulatory Matters

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access ("OHCA").

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and its subsidiary in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents

The Hospital and its subsidiary consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Investments

Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices where available or net asset values provided by investment managers. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements

Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Hospital for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets in active markets, quoted prices in markets that are not active, or can be corroborated by observable market data for substantially the same term of the assets.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others

The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates. In 2015 a significant remainder trust payment of \$4 million was received from the estate of a donor in accordance with the terms of

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

the trust document. At the time of the trust termination, the trust was recorded at \$3.2 million and based on the value of the trust received; \$.8 million was recorded as a change in value of irrevocable trusts in the Hospital's change in temporarily restricted net assets. The release from restriction of the \$4 million for use on operations was recorded on the Corporation's Statement of Operations as all gifts and development activity is recorded at the Corporation.

Assets Limited as to Use

Assets limited as to use include assets set aside by the Board of Directors and contribution receivables for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, the Hospital's interest in externally managed trusts, and unexpended bond proceeds for construction purposes are also included therein.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, or, if received as a donation, at the fair value on the date received. The Hospital provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Non operating Gains and Losses

Activities other than in connection with providing health care services are considered to be non operating.

Excess of Revenues Over Expenses

The consolidated statement of operations includes excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments

Certain investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Hospital for debt of the same remaining maturities.

Medical Malpractice Self-Insurance

The Hospital purchases claims made-based professional and general liability insurance to cover medical malpractice claims from L + M Indemnity, Ltd., a wholly owned subsidiary of the Hospital's parent. The Hospital has adopted the policy of self-insuring the tail coverage portion of its malpractice insurance coverage. Management has accrued the estimate of losses anticipated to be incurred.

Income Taxes

The Hospital and its wholly owned subsidiary, Associated Specialists, are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c) (3) of the Internal Revenue Code.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Inventories

Inventory consists of supplies, both medical and general, pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets

Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay

Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. This payout is only upon termination of employment.

Labor action update

The Hospital's negotiations with two of its three unions, AFT Healthcare, AFT-CT, AFT, AFL-CIO, Local 5049 (registered nurses) and AFT Healthcare, AFT-CT, AFLCIO, Local 5051 (licensed practical nurses and technicians) for a new contract resulted in a 4-day strike that commenced on November 27, 2013. The Hospital brought in temporary replacement workers, and, in order to provide ongoing patient care given the threat of additional, intermittent strikes, had a lockout of employees through December 18, 2013. The lockout was lifted and employees returned to work without a contract being reached. A contract was reached and ratified and the workforce had a three year contract that was signed in February 2014. The Hospital monitored the negative impact of the strike and lockout on both revenues and expenses. This impact consisted of a reduction in net revenue of approximately \$1,900,000 (unaudited) and \$12,300,000 (unaudited) of replacement workers, security and reduced salary costs during 2014.

Subsequent Events

The Hospital has performed an evaluation of subsequent events through December ____, 2015, which is the date the financial statements were issued.

2. Revenues from Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2015	2014
Gross charges from services to patients	\$ 843,024,228	\$ 795,287,303
Less: Charity care	5,427,817	5,449,069
Charges from services to patients, net of charity care	<u>837,596,411</u>	<u>789,838,234</u>
Deductions		
Allowances	485,513,042	450,251,022
State of Connecticut uncompensated care system	12,801,007	2,458,020
Total deductions	<u>498,314,049</u>	<u>452,709,042</u>
Net revenues from services to patients	<u>\$ 339,282,362</u>	<u>\$ 337,129,192</u>

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Hospital, and these differences are accounted for as allowances. The State of Connecticut has reduced Uncompensated Care Payments to all hospitals beginning July 2013 for a three year period. In 2014 and 2015, the Corporation paid cash into the State of Connecticut Uncompensated Care Pool that exceeded the amount was received from the State.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately \$4,119,679 in 2015 and decreased the Hospital's revenues by approximately \$1,584,575 in 2014.

During 2015 and 2014, approximately 36% and 35%, respectively, of net patient service revenue was received under the Medicare program, and 12% and 11%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Noncompliance could result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines.

Lawrence + Memorial Hospital

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Fair value for Level 1 is based upon quoted prices in active markets that the Hospital has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Hospital does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Hospital's ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Hospital believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Hospital within Level 3 of the fair value hierarchy defined above:

	Beginning October 1, 2014	Investment Income	Realized Gains	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2015
Investment pool								
Hedge funds	\$ 54,309,686	\$ 386,194	\$ 822,070	\$ (5,276,131)	\$ (238,953)	\$ 15,395,580	\$ (187,009)	\$ 65,211,437
Private equities	4,404,281	667	319,946	463,808	(108,941)	1,799,667	(504,953)	6,374,475
Funds held in trust	6,985,614	-	-	599,490	-	-	(4,000,986)	3,584,118
Total	\$ 65,699,581	\$ 386,861	\$ 1,142,016	\$ (4,212,833)	\$ (347,894)	\$ 17,195,247	\$ (4,692,948)	\$ 75,170,030

	Beginning October 1, 2013	Investment Income	Realized Gains	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2014

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

There were no significant transfers between levels of assets for the fiscal year ended September 30, 2015.

A summary of the investment return is presented below:

	2015	2014
Investment income	\$ 1,862,864	\$ 1,936,104
Realized and unrealized (losses) gains	(9,218,819)	8,085,342
Management fees and other costs	<u>(439,538)</u>	<u>(680,378)</u>
Total return on endowment investments	<u>\$ (7,795,493)</u>	<u>\$ 9,341,068</u>

Following is additional information related to funds whose fair value is not readily determinable as of September 30, 2015.

	Strategy	Fair Value	# of Investments	Timing to Draw Down Commitments	Redemption Terms	Redemption Restrictions
Equity securities	Global developed and emerging market equity	\$ 25,921,894	2	No remaining commitments	Monthly with 10 day's notice	None
Absolute return	Long/short and long-biased equity and credit hedge funds	15,477,269	7	No remaining commitments	Annual with 90 day's notice	lock up provision of 12 months from the purchase date
Directional hedge	Long/short and long-biased equity and credit hedge funds	20,779,531	1	No remaining commitments	Quarterly with 60 day's notice	lock up provision of 25 months from the purchase date
Commodities	Commodity index	3,032,743	1	No remaining commitments	Monthly with 5 day's notice	None
Private equity	Private equity	6,374,475	9	Long term 5 years	Illiquid	Long Term 5-10 years
		<u>\$ 71,585,912</u>				

None of the funds invested in are finite lived. Unfunded commitments at September 30, 2015 total approximately \$5.4 million and relate to private equity funds. There are no liquidity restrictions in place at September 30, 2015.

4. Endowment

The Hospital's endowment consists of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The Hospital understands net asset classification guidance requires that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Hospital classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Hospital considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Hospital and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Hospital.
- The investment policies of the Hospital.

Changes in endowment net assets for year ended September 30:

	2015			
	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets at beginning of year	\$ -	\$ 16,369,375	\$ 2,839,683	\$ 19,209,058
Investment return				
Investment income		45,381		45,381
Net realized and unrealized gains		(1,237,769)		(1,237,769)
Total investment return	-	(1,192,388)	-	(1,192,388)
Income distribution		(140,748)		(140,748)
Endowment net assets at end of year	\$ -	\$ 15,036,239	\$ 2,839,683	\$ 17,875,922
	2014			
	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets at beginning of year	\$ -	\$ 15,304,434	\$ 2,839,683	\$ 18,144,117
Investment return				
Investment income	-	107,295	-	107,295
Net realized and unrealized gains	-	1,097,006	-	1,097,006

Income distribution	-	(139,360)	-	(139,360)
Endowment net assets at end of year	\$ -	\$ 16,369,375	\$ 2,839,683	\$ 19,209,058

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The portion of the endowment retained either by explicit donor stipulation or by net asset classification guidance is summarized as follows:

	2015	2014
Temporarily restricted net assets		
Unspent income and appreciation on permanently restricted endowments for purchase of equipment and healthcare services	\$ 15,036,239	\$ 16,369,376
Total endowment funds classified as temporarily restricted net assets	<u>\$ 15,036,239</u>	<u>\$ 16,369,376</u>
Permanently restricted net assets		
Corpus of permanently restricted contributions for which income is to be used for purchase of equipment and healthcare services	\$ 2,839,683	\$ 2,839,683
Total endowment funds classified as permanently restricted net assets	<u>\$ 2,839,683</u>	<u>\$ 2,839,683</u>

Endowment Funds with Deficits

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets.

Endowment Investment Return Objectives and Risk Parameters

The Hospital has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Strategies Employed for Achieving Endowment Investment Objectives

To achieve its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term objectives within prudent Hospital risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives

Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment and operating funds.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

5. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2015 and 2014:

	2015	2014
Funds held in trust by others	\$ 482,010	\$ 3,799,127
Contributions receivable	20,366	20,366
Free beds and plant replacement and expansion	15,036,239	16,369,376
Specific purpose reserves	<u>3,421,427</u>	<u>3,243,159</u>
	<u>\$ 18,960,042</u>	<u>\$ 23,432,028</u>

Permanently restricted net assets at September 30 are restricted to:

	2015	2014
Funds held in trust by others	\$ 3,123,914	\$ 3,208,292
Donor restricted endowment funds	<u>2,839,683</u>	<u>2,839,683</u>
	<u>\$ 5,963,597</u>	<u>\$ 6,047,975</u>

6. Property, Plant and Equipment

Property, plant and equipment consist of the following:

	2015	2014
Land and land improvements	\$ 8,904,363	\$ 8,846,232
Buildings	152,295,547	150,910,346
Equipment	<u>270,848,642</u>	<u>265,024,485</u>
	432,048,552	424,781,063
Less: Accumulated depreciation	<u>(283,857,352)</u>	<u>(265,615,130)</u>
	148,191,200	159,165,933
Construction in progress	<u>2,785,773</u>	<u>1,691,863</u>
	<u>\$ 150,976,973</u>	<u>\$ 160,857,796</u>

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

7. Long-Term Debt

	2015	2014
CHEFA Series F Revenue Bonds		
Various rate bonds, due 2016 to 2026	\$ 28,065,000	\$ 30,900,000
5.0% Term Bonds, due 2027 to 2031	8,705,000	8,705,000
5.0% Term Bonds, due 2032 to 2036	11,100,000	11,100,000
CHEFA Series G revenue bonds		
3.2% Term Bonds, due 2016 to 2023, option to extend with a maturity date of 2038	28,375,000	29,200,000
CHEFA H revenue bonds		
variable rate bonds, due 2023 to 2034	21,405,000	21,405,000
Tax exempt lease	8,302,654	9,963,984
Capital lease obligation	53,360	112,009
Total debt outstanding	<u>106,006,014</u>	<u>111,385,993</u>
Less: Amounts classified as current	5,495,740	5,342,305
Add: Bond premium	2,428,473	2,544,115
Total long-term portion of long-term debt	<u>\$ 102,938,747</u>	<u>\$ 108,587,803</u>

On September 15, 2011 the Connecticut Health and Education Facilities Authority (“CHEFA”) issued \$58,940,000 of Series F Bonds (the “Series F Bonds”) on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the “Obligated Group” under the Series F Bond agreements). The Series F Bonds are structured with a term bonds due at various dates through July 1, 2036, with annual sinking fund payments due each July 1st. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 which began on January 1, 2012.

The tax exempt lease was obtained on June 27, 2013 in the principal amount of \$12,000,000. This is a seven year equipment lease on specific capital purchases that is administered through CHEFA and Bank of America-Merrill Lynch. This lease obligations will be amortized monthly through June 27, 2020 at a nominal annual interest rate of 1.759%.

On October 10, 2013 Series G was issued in a private placement offering with Bank of America-Merrill Lynch and CHEFA in the amount of \$29,200,000 with an interest rate of 3.20% until October 1, 2023 with an option to extend at a negotiated rate with a maturity date of July 1, 2038.

On November 5, 2013, Series H was issued by CHEFA to refinance Series E. Series H was issued in the amount of \$21,405,000 with a variable rate and a maturity date of July 1, 2034. This bond has a letter of credit guaranteed by T.D. Bank. Interest on the Series H Bonds accrues at the weekly rate and is payable on the first business day of each month commencing January 1, 2014.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Under the terms of the trust indenture for the Series F, G and H Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts sufficient to enable the Authority to pay principal and interest on the Series F, G and H Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

The Series H Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. The Hospital maintains a letter of credit in the amount of \$21,405,000 which expires on November 5, 2016. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are monthly installments. The Series H Bonds have been successfully remarketed in the past and there have been no draws on the letter of credit.

The fair value of the outstanding bonds is \$101,550,368 and \$106,215,296 at September 30, 2015 and, 2014, respectively.

Principal repayments on the outstanding long term debt are as follows:

Years	Annual Principal Repayment
2016	\$ 5,495,740
2017	5,730,772
2018	5,916,285
2019	6,142,340
2020 and thereafter	82,720,877
	<u>\$ 106,006,014</u>

The Hospital made cash interest payments of \$3,495,549 and \$3,566,051 in fiscal year 2015 and 2014, respectively. No interest was capitalized during 2015 or 2014.

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the plan. The plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment.

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pension as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The following table sets forth the Plans' funded status and amounts recognized in the consolidated balance sheet at September 30, 2015 and 2014 (measurement date of September 30):

	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Change in benefit obligation				
Benefit obligation at beginning of year	\$ 156,674,809	\$ 145,789,789	\$ 837,437	\$ 1,000,744
Service cost	2,141,301	2,402,724	-	-
Interest cost	6,195,482	6,417,121	24,077	29,884
Employee contributions	41,451	69,839	-	-
Benefits paid	(7,608,334)	(7,015,362)	(91,218)	(95,403)
Actuarial loss (gain)	4,414,165	9,010,698	(15,972)	(97,788)
Benefit obligation at end of year	<u>161,858,874</u>	<u>156,674,809</u>	<u>754,324</u>	<u>837,437</u>
Change in plan assets				
Fair value of plan assets at beginning of year	115,176,724	105,860,348	-	-
Actual return on plan assets	(4,147,965)	9,861,899	-	-
Employee contributions	41,451	69,839	-	-
Employer contributions	7,400,000	6,400,000	95,403	95,403
Benefits paid	(7,608,334)	(7,015,362)	(95,403)	(95,403)
Fair value of plan assets at end of year	<u>110,861,876</u>	<u>115,176,724</u>	<u>-</u>	<u>-</u>
Funded status of the plan	(50,996,998)	(41,498,085)	(754,324)	(837,437)
Unrecognized net loss (gain) from past experience different from that assumed and effects of changes in assumptions	55,236,126	41,399,294	(443,280)	(488,085)
	<u>4,050</u>	<u>79,157</u>		<u>-</u>
Accrued benefit costs recognized in the consolidated balance sheet	<u>\$ 4,243,178</u>	<u>\$ (19,634)</u>	<u>\$ (1,197,604)</u>	<u>\$ (1,325,522)</u>
Components of net periodic benefit costs				
Service cost	\$ 2,141,301	\$ 2,402,724	\$ -	\$ -
Interest cost	6,195,482	6,417,121	24,077	29,884
Expected return on plan assets	(8,603,526)	(7,920,200)	-	-
Amortization of net loss/(gain)	3,328,824	2,676,330	(60,777)	(66,454)
Net amortization and deferral	<u>75,107</u>	<u>111,153</u>	<u>-</u>	<u>-</u>
Benefit cost	<u>\$ 3,137,188</u>	<u>\$ 3,687,128</u>	<u>\$ (36,700)</u>	<u>\$ (36,570)</u>

The net actuarial loss of approximately \$4.4 million is due to a loss of approximately \$7.5 million due to a change in mortality table offset by gains due to decrease in discount rate and other changes in assumptions.

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

	2015	2014
Discount rate	4.05 %	4.51 %
Average rate of compensation increases	2.50 %	2.50 %
Expected return on assets	7.50 %	7.50 %

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2015	2014
Discount rate	4.10 %	4.05 %
Average rate of compensation increases	2.50 %	2.50 %

The Plan's asset allocations as of September 30 are as follows:

Asset Category	2015	2014
Cash	2 %	2 %
Bonds	32	24
Mutual funds	26	45
Hedge funds	40	29
Total	100 %	100 %

The expected rate of return on assets is calculated based on past experience.

Expected benefits to be paid under the plans are as follows:

Fiscal Years Beginning October 1,	Expected Benefits
2015	\$ 7,940,500
2016	8,280,197
2017	8,395,891
2018	8,784,310
2019	9,069,440
Expected aggregate for 5 fiscal years beginning 2020	49,712,011

Annual employer contributions are determined by the Hospital based upon calculations prepared by the plan's actuary. Expected contributions to the plans for 2016 are approximately (unaudited):

Pension	\$ 7,940,000
Retiree health	89,642

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 8% in 2015 reducing to 5.0% by the year 2020 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated post-retirement benefit obligation and service cost plus interest cost by approximately \$49,000 and \$56,000, respectively, at September 30, 2015 and 2014. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately \$45,000 and \$51,000, respectively, at September 30, 2015 and 2014.

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2015:

	Level 1	Level 2	Level 3	2015
Investments, at fair value				
Cash	\$ 2,345,782	\$ -	\$ -	\$ 2,345,782
Bonds	35,027,573	-	-	35,027,573
Mutual funds	24,119,636	4,946,910	-	29,066,546
Hedge funds	-	-	44,421,975	44,421,975
Total investments, at fair value	<u>\$ 61,492,991</u>	<u>\$ 4,946,910</u>	<u>\$ 44,421,975</u>	<u>\$ 110,861,876</u>

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2014:

	Level 1	Level 2	Level 3	2014
Investments, at fair value				
Cash	\$ 2,417,830	\$ -	\$ -	\$ 2,417,830
Bonds	27,571,791	-	-	27,571,791
Mutual funds	46,557,396	5,171,869	-	51,729,265
Hedge funds	-	-	33,457,838	33,457,838
Total investments, at fair value	<u>\$ 76,547,017</u>	<u>\$ 5,171,869</u>	<u>\$ 33,457,838</u>	<u>\$ 115,176,724</u>

There were transfers between levels during 2015 and no transfers during 2014.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The table below represents the change in fair value measurements for Level 3 investments held by the plan for the years ended September 30:

	2015	2014
Beginning balances	\$ 33,457,838	\$ 31,893,958
Realized gains	554,617	4,588,368
Fees	(204,757)	(79,614)
Unrealized losses	(3,485,723)	(2,944,874)
Purchases	14,100,000	-
Sales	-	-
Ending balances	<u>\$ 44,421,975</u>	<u>\$ 33,457,838</u>

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations combine tested theory and informed market judgment to balance investment risks with the need for high returns.

The Hospital's 401(k) plan covers eligible employees who elect to participate. Eligible employees may contribute a percentage of their salary. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Contributions charged to operations were approximately \$3,416,963 and \$3,296,282 for 2015 and 2014, respectively.

9. Functional Expenses

The Hospital provides general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2015	2014
Health care services	\$ 249,259,940	\$ 258,736,071
General and administrative	104,066,639	95,094,590
	<u>\$ 353,326,579</u>	<u>\$ 353,830,661</u>

10. Contingencies

The Hospital is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Hospital's financial position, results of operations, changes in net assets or cash flows.

DRAFT

Independent Auditor's Report

To the Board of Trustees of
Lawrence + Memorial Corporation

We have audited the accompanying consolidated financial statements of Lawrence + Memorial Corporation (the "Corporation") and its subsidiaries, which comprise the consolidated balance sheets as of September 30, 2015 and 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We did not audit the financial statements of Visiting Nurse Association of Southeastern Connecticut, Inc., a wholly owned subsidiary, which statements reflect total assets of \$22,422,239 and \$20,659,633 as of September 30, 2015 and September 30, 2014, respectively, and total revenues of \$17,255,595 and \$16,156,841 for the years then ended. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for Visiting Nurse Association of Southeastern Connecticut, Inc., is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Corporation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lawrence + Memorial Corporation (the "Corporation") and its subsidiaries at September 30, 2015 and September 30, 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual organizations and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations, and changes in net assets of the individual organizations.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

1. Significant Accounting Policies and Organization

Organization

Lawrence + Memorial Corporation (the "Corporation") is a not-for-profit organization incorporated under the Nonstock Corporation Act of the State of Connecticut. The Corporation is organized exclusively for public welfare, charitable, scientific, literary and education purposes, including the furtherance of the welfare, programs and activities of Lawrence + Memorial Hospital (the "Hospital"), a nonprofit organization incorporated under the General Statutes of the State of Connecticut.

Yale New Haven Health System Affiliation

On July 17, 2015, the Corporation and Yale New Haven Health System ("YNHHS") announced they have approved a definitive agreement to affiliate, pending regulatory approvals. The definitive agreement, approved by both Boards of Directors, is based on the mutual belief that an affiliation would enhance healthcare quality, access and efficiency. Under the agreement, the Corporation will become a corporate member of YNHHS, joining Bridgeport, Greenwich and Yale-New Haven Hospitals as a full member of YNHHS. The affiliation will require review and approval by Connecticut and Rhode Island state agencies. The process is expected to be completed by Summer 2016. The Corporation incurred approximately \$1.5 million in legal and other professional expenses in connection with due diligence as a result of this agreement which has been recorded as nonoperating expenses within the Consolidated Statement of Operations.

The following entities are subsidiaries of the Corporation: Lawrence + Memorial Hospital ("L+M"), L& M Physician Association Inc., L&M Systems, Inc., VNA of Southeastern Connecticut, L&M Healthcare, L&M Indemnity Ltd, VNA of Southeastern Connecticut Inc. and LMW Healthcare Inc. (Westerly Hospital).

Acquisition of Westerly Hospital

On June 1, 2013, the Corporation and its subsidiary, LMW Healthcare, Inc. ("LMW") completed the acquisition of certain assets and liabilities of Westerly Hospital, a 125-bed general acute care hospital located in Westerly, Rhode Island on a 10.6 acre campus. The acquisition was the culmination of a process that included the appointment of W. Mark Russo, Esq. as the special master (the "Special Master") for Westerly Hospital and its affiliates by the Rhode Island Superior Court for the County of Washington (the "RI Court") in December 2011, due to the deteriorating financial condition of Westerly Hospital. The Special Master was granted authority by the RI Court to negotiate the sale of the assets of Westerly Hospital and its affiliates.

The Corporation formed LMW as a Rhode Island nonprofit corporation, and in June 2012, LMW entered into an Asset Purchase Agreement (the "Purchase Agreement") with the Special Master for Westerly Hospital and its affiliates, which was approved by the RI Court in September 2012. The Corporation guaranteed LMW's commitments under the Purchase Agreement. Pursuant to the Purchase Agreement and upon the successful completion of regulatory review by various Rhode Island agencies, the Corporation acquired certain assets and liabilities of Westerly Hospital and its affiliates, in order to expand its care and operations to the Westerly, Rhode Island community. The acquisition of the Westerly Hospital furthers the Corporation and Lawrence + Memorial Hospital's strategy of improving the depth and breadth of services available to all residents in the eastern Connecticut and western Rhode Island regions, without regard to ability to pay. Lawrence + Memorial Hospital expects to reduce unnecessary duplication of effort and costs with Westerly Hospital, while maintaining community access to essential services in the Westerly service area.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The purchase price of \$16,098,758 was paid in cash. The transaction resulted in an inherent contribution of \$12,011,469 which has been appropriately allocated to the three net asset classes within the statement of changes in net assets in 2013. The inherent contribution is a result of the value of net assets being acquired exceeding the purchase price. The purchase price allocation was preliminary and has been adjusted as additional information was obtained in 2014. An additional \$5.3 million in inherent contribution was recorded in 2014, principally due to \$3.1 million better experience on accounts receivable collections and \$1.8 million in favorable final settlement of assumed accounts payable liabilities.

L&M Healthcare has an affiliation agreement effective January 31, 1999 (the "Agreement") with the Hospice of Southeastern Connecticut, Inc. (the "Hospice"). The Agreement gives L&M Healthcare a membership of the Hospice with one other not-for-profit healthcare organization. L&M Healthcare does not have an equity investment in the Hospice because the affiliation agreement does not require L&M Healthcare to provide capital to the Hospice and L&M Healthcare is not entitled to any of the net assets of the Hospice should the relationship terminate or the Hospice dissolve. The Corporation and its subsidiaries have never given capital to the Hospice and the Hospice has never made capital distributions to the Corporation or its subsidiaries.

L & M Physician Association, Inc. ("LMPA") was formed exclusively for the charitable purpose of benefiting, supporting, and furthering the charitable activities of Lawrence + Memorial Hospital by engaging physicians to provide physician services to the Hospital, organizations affiliated with the Hospital and communities they serve for purpose of practicing medicine and health care services.

Principles of Consolidation

The consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Corporation's significant estimates include the collectability of patient accounts receivable, useful lives of fixed assets, settlements due to third party payors, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Corporation has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Corporation and its subsidiaries in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents

The Corporation and its subsidiaries consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Investments

Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices where available or net asset values provided by investment managers. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets. Under accounting principles generally accepted in the United States of America, an "other than temporary impairment" is recognized if the Corporation does not expect the fair value of a security to recover above cost or amortized cost. Once an "other than temporary impairment" charge has been recorded, a new cost basis is established.

The Corporation continues to review its securities for appropriate valuation on an ongoing basis. The Corporation determined that none of their investments were impaired as of September 30, 2015 or 2014.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Corporation's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements

Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Corporation for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 Quoted prices in active markets for identical assets.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets in active markets, quoted prices in markets that are not active, or can be corroborated by observable market data for substantially the same term of the assets.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others

The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates to discount amounts. In 2015 a significant remainder trust payment of \$4 million was received from the estate of a donor in accordance with the terms of the trust documents. At the time of the trust termination, the trust was recorded at \$3.2 million and based on the value of the trust received; \$.8 million was recorded as a change in value of irrevocable trusts on the Hospital's change in temporarily restricted net assets. The release from restriction of the \$4 million for use on operations was recorded on the Corporation's Statement of Operations as all gifts and development activity is recorded at the Corporation.

Assets Limited as to Use

Assets limited as to use include assets set aside by the Board of Directors, contribution receivables and for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, the Corporation's interest in externally managed trusts, unexpended bond proceeds for construction purposes, and assets held by trustees are also included therein.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, or if received as a donation, at the fair value on the date received. The Corporation provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their estimated useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and a 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Nonoperating Gains and Losses

Activities other than in connection with providing health care services are considered to be nonoperating.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Excess of Revenues over Expenses

The consolidated statements of operations include nonoperating expenses in connection with the affiliation with Yale New Haven Health Systems in excess of revenues over expenses. Changes in unrestricted net assets which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments

Investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Corporation and its Subsidiaries for debt of the same remaining maturities.

Medical Malpractice Self-Insurance

The Corporation purchases claims made professional and general liability insurance to cover medical malpractice claims from L&M Indemnity Ltd, a wholly owned subsidiary of the Corporation. The Hospitals, LMPA and VNA have adopted the policy of self-insuring the tail portion of its malpractice insurance coverage. Management accrues its best estimate of losses as incidents which give rise to potential losses occur.

Income Taxes

The Corporation and its subsidiaries are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c)(3) of the Internal Revenue Code, except for L&M Systems. L&M Systems provides for taxes based on current taxable income and the future tax consequences of temporary differences between financial and income tax reporting. Such amounts are not material to the consolidated financial statements.

Inventories

Inventory consists of supplies, both medical and general, pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets

Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay

Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. The payout is only upon termination of employment.

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Labor Action Update

The Hospital's negotiations with two of its three unions, AFT Healthcare, AFT-CT, AFT, AFL-CIO, Local 5049 (registered nurses) and AFT Healthcare, AFT-CT, AFLCIO, Local 5051 (licensed practical nurses and technicians) for a new contract resulted in a 4-day strike that commenced on November 27, 2013. The Hospital brought in temporary replacement workers, and, in order to provide ongoing patient care given the threat of additional, intermittent strikes, had a lockout of employees through December 18, 2013. The lockout was lifted and employees returned to work without a contract being reached. A contract was reached and ratified and the workforce had a three year contract that was signed in February 2014. The Hospital monitored the negative impact of the strike and lockout on both revenues and expenses. This impact consisted of a reduction in net revenue of approximately \$1,900,000 (unaudited) and \$12,300,000 (unaudited) of replacement workers, security and reduced salary costs during 2014.

Subsequent Events

The Corporation has performed an evaluation of subsequent events through December __, 2015, which is the date the financial statements were issued.

2. Revenues From Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2015	2014
Gross charges from services to patients	\$ 1,138,758,476	\$ 1,078,626,933
Less: Charity care	6,124,509	6,782,933
Charges from services to patients, net of charity care	<u>1,132,633,967</u>	<u>1,071,844,000</u>
Deductions		
Allowances	664,069,131	615,856,880
State of Connecticut uncompensated care system	<u>12,801,007</u>	<u>2,458,020</u>
Total deductions	<u>676,870,138</u>	<u>618,314,900</u>
Net revenues from services to patients	<u>\$ 455,763,829</u>	<u>\$ 453,529,100</u>

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Corporation, and these differences are accounted for as allowances. The State of Connecticut has reduced Uncompensated Care Payments to all hospitals beginning July 2013 for a three year period. In 2014 and 2015, the Corporation paid cash into the State of Connecticut Uncompensated Care Pool that exceeded the amount was received from the State.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately \$4,119,679 in 2015 and decreased the Hospital's revenue by approximately \$1,584,575 in 2014.

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

During 2015 and 2014, approximately 36% and 35%, respectively, of net patient service revenue was received under the Medicare program, and 12% and 11%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Non compliance could result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines.

3. Investments

Investments included in current assets consist of the following:

	2015	2014
Investments		
Cash and cash equivalents	\$ 4,347,663	\$ 6,293,794
Bonds	37,080,980	40,097,819
Mutual funds	39,711,437	72,596,528
Hedge funds	70,852,615	57,360,354
Private equities	6,682,428	4,535,516
Marketable equities	3,603,520	3,542,028
Total investments	<u>\$ 162,278,643</u>	<u>\$ 184,426,039</u>
Funds held in trust by others		
Investments held in trust by others	<u>7,633,141</u>	<u>11,348,610</u>
Total funds held in trust by others	<u>7,633,141</u>	<u>11,348,610</u>
Endowment investments		
Cash and cash equivalents	\$ 4,410,185	\$ 4,307,512
Bonds	5,312,210	5,061,901
Mutual funds	11,438,208	14,191,010
Hedge funds	7,603,385	6,263,387
Private equities	288,434	209,627
Marketable equities	6,406,279	6,607,991
Total endowment investments	<u>35,458,701</u>	<u>36,641,428</u>
Total investments at fair value	<u>\$ 205,370,485</u>	<u>\$ 232,416,077</u>

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The Corporation's financial instrument categorization is based upon the lowest level of input that is significant to the fair value measurement within the valuation hierarchy. The following table presents the financial instruments carried at fair value using the by the fair value guidance valuation hierarchy defined above:

	2015			Total Fair Value
	Level 1	Level 2	Level 3	
Investments				
Cash and cash equivalents	\$ 4,347,663	\$ -	\$ -	\$ 4,347,663

Total Investments at fair value	<u>\$ 142,445,817</u>	<u>\$ 8,362,617</u>	<u>\$ 81,607,643</u>	<u>\$ 232,416,077</u>

Fair value for Level 1 is based upon quoted prices in active markets that the Corporation has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Corporation does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Corporations ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement and investments in for-profit companies.

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Corporation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Corporation within Level 3 of the fair value hierarchy defined above:

	Beginning October 1, 2014	Investment Income	Realized Gains	Unrealized (Losses)/gains	Investment Fees	Purchases	Sales	Ending September 30, 2015
Investment pool								
Hedge funds	\$ 65,555,889	\$ 458,045	\$ 966,260	\$ (6,421,508)	\$ (295,818)	\$ 20,216,000	\$ (187,009)	\$ 80,291,859
Private equities	4,703,144	667	330,143	534,090	(116,790)	1,821,362	(509,753)	6,762,863
Funds held in trust	11,348,610	102,675	393,314	(22,441)	(51,916)	41,181	(4,178,282)	7,633,141
	<u>\$ 81,607,643</u>	<u>\$ 561,387</u>	<u>\$ 1,689,717</u>	<u>\$ (5,909,859)</u>	<u>\$ (464,524)</u>	<u>\$ 22,078,543</u>	<u>\$ (4,875,044)</u>	<u>\$ 94,687,863</u>

	Beginning October 1, 2013	Investment Income	Realized Gains/(losses)	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2014
Investment pool								
Hedge funds	\$ 62,386,880	\$ 624,650	\$ 270,868	\$ 2,318,323	\$ (158,389)	\$ 381,586	\$ (268,029)	\$ 65,555,889
Private equities	1,996,835	-	387,382	311,627	(86,266)	2,169,982	(76,416)	4,703,144
Funds held in trust	10,956,429	141,409	(38,835)	344,380	(51,515)	-	(3,258)	11,348,610
	<u>\$ 75,340,144</u>	<u>\$ 766,059</u>	<u>\$ 619,415</u>	<u>\$ 2,974,330</u>	<u>\$ (296,170)</u>	<u>\$ 2,551,568</u>	<u>\$ (347,703)</u>	<u>\$ 81,607,643</u>

There were no significant transfers of assets between levels for the year ended September 30, 2015.

A summary of the investment return is presented below:

	2015	2014
Investment income	\$ 3,232,345	\$ 3,138,334
Realized and unrealized (losses) gains	(12,237,230)	10,268,410
Management fees and other costs	(671,327)	(754,021)
Total return on investments	<u>\$ (9,676,212)</u>	<u>\$ 12,652,723</u>

Following is additional information related to funds whose fair value is not readily determinable as of September 30, 2015.

	Strategy	Fair Value	Number of Investments	Timing to Draw Down Commitments	Redemption Terms	Redemption Restrictions
Equity securities	Global developed and emerging market equity	\$ 32,433,821	2	No remaining commitments	Monthly with 10 day's notice	None
Absolute return	Long/short and long-biased equity and credit hedge funds	18,245,530	2	No remaining commitments	Annual with 90 day's notice	lock up provision of 12 months from the purchase date
Directional hedge	Long/short and long-biased equity and credit hedge funds	25,691,083	1	No remaining commitments	Quarterly with 60 day's notice	lock up provision of 25 months from the purchase date
Commodities	Commodity index	3,713,426	1	No remaining commitments	Monthly with 5 day's notice	None

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

None of the funds invested in are finite lived. Unfunded commitments at September 30, 2015 total approximately \$5.5 million and relate to private equity funds. There are no liquidity restrictions in place at September 30, 2015.

4. Endowments

The Corporation's endowments consist of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

The Corporation understands net asset classification guidance to require that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Corporation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Corporation considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Corporation and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Corporation.
- The investment policies of the Corporation.

Changes in endowment net assets for the year ended September 30:

	2015			Total
	Unrestricted	Temporarily Restricted	Permanently Restricted	
Endowment net assets at beginning of year	\$ 10,480,208	\$ 17,497,079	\$ 7,382,529	\$ 35,359,816
Investment return				
Investment income	382,283	105,090	17,103	504,476
Net realized and unrealized gains (losses)	151,631	(1,268,480)	(66,441)	(1,183,290)
Contributions	87,352	-	77,827	165,179
Total investment return	621,266	(1,163,390)	28,489	(513,635)
Income distribution	-	(140,748)	-	(140,748)
Endowment net assets at end of year	\$ 11,101,474	\$ 16,192,941	\$ 7,411,018	\$ 34,705,433

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

	2014			Total
	Unrestricted	Temporarily Restricted	Permanently Restricted	
Endowment net assets at beginning of year	\$ 9,257,584	\$ 16,178,222	\$ 7,249,055	\$ 32,684,861
Addition of Westerly Hospital Endowment Net Assets	18,975	-	-	18,975
Investment return				
Investment income	304,778	170,106	20,569	495,453
Net realized and unrealized gains	715,724	1,288,111	32,832	2,036,667
Contributions	183,147	-	80,073	263,220
Total investment return	1,203,649	1,458,217	133,474	2,795,340
Income distribution	-	(139,360)	-	(139,360)
Endowment net assets at end of year	\$ 10,480,208	\$ 17,497,079	\$ 7,382,529	\$ 35,359,816

Endowment funds classified as permanently and temporarily restricted net assets:

The portion of the endowment retained either by explicit donor stipulation or by net asset classification guidance is summarized as follows:

	2015	2014
Temporarily restricted net assets		
Unspent income and appreciation on permanently restricted endowments for purchase of equipment and healthcare services	\$ 16,192,941	\$ 17,497,079
Total endowment funds classified as temporarily restricted net assets	<u>\$ 16,192,941</u>	<u>\$ 17,497,079</u>
Permanently restricted net assets		
Corpus of permanently restricted contributions for which income is to be used for purchase of equipment and healthcare services	\$ 7,411,018	\$ 7,382,529
Total endowment funds classified as permanently restricted net assets	<u>\$ 7,411,018</u>	<u>\$ 7,382,529</u>

Endowment Funds With Deficits

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets. The Corporation analyzed the endowments and notes there are no deficits as of September 30, 2015 and 2014.

Endowment Investment Return Objectives and Risk Parameters

The Corporation has adopted endowment investment and spending policies that attempt to provide predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Strategies Employed for Achieving Endowment Investment Objectives

To achieve its long-term rate of return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Corporation targets a diversified asset allocation to achieve its long-term objectives within prudent Corporation risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives

Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment, and operating funds.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

5. Temporary and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2015 and 2014:

	2015	2014
Temporarily restricted net assets		
Funds held in trust by others	\$ 482,010	\$ 3,799,127
Contributions receivable	20,366	20,366
Free beds and plant replacement and expansion	15,036,239	16,369,376
Specific purpose reserves	4,747,982	4,581,818
	<u>\$ 20,286,597</u>	<u>\$ 24,770,687</u>

Permanently restricted net assets at September 30, 2015 and 2014 are restricted to:

	2015	2014
Permanently restricted net assets		
Funds held in trust by others	\$ 7,172,936	\$ 7,571,288
Donor restricted endowment funds	8,161,020	8,132,530
	<u>\$ 15,333,956</u>	<u>\$ 15,703,818</u>

6. Property, Plant and Equipment

Property, plant and equipment consists of the following:

	2015	2014
Land and land improvements	\$ 23,444,067	\$ 23,323,273
Buildings	173,682,838	171,045,151
Equipment	293,448,847	284,414,885
	<u>490,575,752</u>	<u>478,783,309</u>
Less: Accumulated depreciation	<u>(297,167,005)</u>	<u>(274,060,791)</u>
	193,408,747	204,722,518
Construction in progress		
	<u>2,879,995</u>	<u>2,127,781</u>
	<u>\$ 196,288,742</u>	<u>\$ 206,850,299</u>

7. Long-Term Debt

	2015	2014
CHEFA Series F Revenue Bonds		
Various rate bonds, due 2016 to 2026	\$ 28,065,000	\$ 30,900,000
5.0% Term Bonds, due 2027 to 2031	8,705,000	8,705,000
5.0% Term Bonds, due 2032 to 2036	11,100,000	11,100,000
CHEFA Series G revenue bonds		
3.2% Term Bonds, due 2016 to 2023, option to extend 2038	28,375,000	29,200,000
CHEFA Series H revenue bonds		
Variable rate bonds, due 2023-2034	21,405,000	21,405,000
Tax exempt lease	8,302,654	9,963,984
Capital lease obligation	53,360	246,684
Total debt outstanding	<u>106,006,014</u>	<u>111,520,668</u>
Less: Amounts classified as current	5,495,740	5,476,980
Add: Bond premium	<u>2,428,473</u>	<u>2,544,114</u>
Total long-term portion of long-term debt	<u>\$ 102,938,747</u>	<u>\$ 108,587,802</u>

On September 15, 2011 the Connecticut Health and Education Facilities Authority ("CHEFA") issued \$58,940,000 of Series F Bonds (the "Series F Bonds") on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the "Obligated Group" under the Series F Bond agreements). The Series F Bonds are structured with a term bonds due at various dates through July 1, 2036, with annual sinking fund payments due each July 1st. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 which began on January 1, 2012.

The tax exempt lease was obtained on June 27, 2013 in the principal amount of \$12,000,000. This is a seven year equipment lease on specific capital purchases that is administered through CHEFA and Bank of America-Merrill Lynch. This lease obligation will be amortized monthly through June 27, 2020 at a nominal annual interest rate of 1.759%.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

On October 10, 2013 Series G was issued in a private placement offering with Bank of America-Merrill Lynch and CHEFA in the amount of \$29,200,000 with an interest rate of 3.20% until October 1, 2023 with an option to extend at a negotiated rate with a maturity date of July 1, 2038.

On November 5, 2013, Series H was issued by CHEFA to refinance Series E. Series H was issued in the amount of \$21,405,000 with a variable rate and a maturity date of July 1, 2034. This bond has a letter of credit guaranteed by T.D. Bank. Interest on the Series H Bonds accrues at the weekly rate and is payable on the first business day of each month commencing January 1, 2014.

Under the terms of the trust indenture for the Series F, G and H Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts sufficient to enable the Authority to pay principal and interest on the Series F, G and H Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

The Series H Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. The Hospital maintains a letter of credit in the amount of \$21,405,000 which expires on November 5, 2016. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are monthly installments. The Series H Bonds have been successfully remarketed in the past and there have been no draws on the letter of credit.

The Corporation had a line of credit with Bank of America-Merrill Lynch for \$13,802,758. This was taken as a bridge loan prior to issuance of Series G private Placement. The proceeds of Series G were used to pay off this line of credit on October 10, 2013. LMW Healthcare had a line of credit with Washington Trust for \$4,860,642. This line was reissued at time of closing but was paid off in November 2013.

The fair value of the outstanding bonds is \$101,550,368 and \$106,215,296 at September 30, 2015 and September 30, 2014, respectively.

Principal repayments on the outstanding long term debt are as follows:

Years	Annual Principal Repayment
2016	\$ 5,495,740
2017	5,730,772
2018	5,916,285
2019	6,142,340
2020 and thereafter	82,720,877
	<u>\$ 106,006,014</u>

Cash interest payments of \$3,495,549 and \$3,566,051 were made in fiscal year 2015 and 2014, respectively. No interest was capitalized during 2015 and 2014.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the Plan. The Plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment.

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pensions as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

The following table sets forth the Hospital's plans' funded status and amounts recognized in the consolidated balance sheet at September 30, 2015 and 2014 (measurement date of September 30):

	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Change in benefit obligation				
Benefit obligation at beginning of year	\$ 156,674,809	\$ 145,789,789	\$ 837,437	\$ 1,000,744
Service cost	2,141,301	2,402,724	-	-
Interest cost	6,195,482	6,417,121	24,077	29,884
Employee contributions	41,451	69,839	-	-
Benefits paid	(7,608,334)	(7,015,362)	(91,218)	(95,403)
Actuarial (gain) loss	4,414,165	9,010,698	(15,972)	(97,788)
Benefit obligation at end of year	<u>161,858,874</u>	<u>156,674,809</u>	<u>754,324</u>	<u>837,437</u>
Change in plan assets				
Fair value of plan assets at beginning of year	115,176,724	105,860,348	-	-
Actual return on plan assets	(4,147,965)	9,861,899	-	-
Employee contributions	41,451	69,839	-	-
Employer contributions	7,400,000	6,400,000	91,218	95,403
Benefits paid	(7,608,334)	(7,015,362)	(91,218)	(95,403)
Fair value of plan assets at end of year	<u>110,861,876</u>	<u>115,176,724</u>	<u>-</u>	<u>-</u>
Funded status of the plan	(50,996,998)	(41,498,085)	(754,324)	(837,437)
Unrecognized net loss (gain) from past experience different from that assumed and effects of changes in assumptions	55,236,126	41,399,294	(443,280)	(488,085)
Unrecognized prior service cost	4,050	79,157	-	-
Accrued benefit costs recognized in the statements of operations	<u>\$ 4,243,178</u>	<u>\$ (19,634)</u>	<u>\$ (1,197,604)</u>	<u>\$ (1,325,522)</u>
Components of net periodic benefit costs				
Service cost	\$ 2,141,301	\$ 2,402,724	\$ -	\$ -
Interest cost	6,195,482	6,417,121	24,077	29,884
Expected return on plan assets	(8,603,526)	(7,920,200)	-	-
Amortization of net loss (gain)	3,328,824	2,676,330	(60,777)	(66,454)
Net amortization and deferral	75,107	111,153	-	-
Benefit cost	<u>\$ 3,137,188</u>	<u>\$ 3,687,128</u>	<u>\$ (36,700)</u>	<u>\$ (36,570)</u>

The net actuarial loss of approximately \$4.4 million is due to a loss of approximately \$7.5 million due to a change in mortality table offset by gains due to decrease in discount rate and other changes in assumptions.

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

	2015	2014
Discount rate	4.05 %	4.51 %
Average rate of compensation increases	2.50 %	2.50 %
Expected return on assets	7.50 %	7.50 %

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2015	2014
Discount rate	4.10 %	4.05 %
Average rate of compensation increases	2.50 %	2.50 %

The Plan's asset allocations as of September 30 are as follows:

Asset Category	2015	2014
Cash	2 %	2 %
Bonds	32	24
Mutual funds	26	45
Hedge funds	40	29
	<u>100 %</u>	<u>100 %</u>

The expected rate of return on plan assets is calculated based on past experience.

Expected benefits to be paid under the Hospital's plans are as follows:

Fiscal Years Beginning October 1,	Expected Benefits
2015	\$ 7,940,500
2016	8,280,197
2017	8,395,891
2018	8,784,310
2019	9,069,440
Expected aggregate for 5 fiscal years beginning 2020	49,712,011

Annual employer contributions are determined by the Hospital based upon calculations prepared by the plan's actuary. Expected contributions to the plans for 2016 are approximately (unaudited):

Pension	\$ 7,940,000
Retiree health	89,642

Lawrence + Memorial Corporation and Subsidiaries
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 8.0% in 2015 reducing to 5.0% by the year 2020 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated postretirement benefit obligation and service cost plus interest cost by approximately \$49,000 and \$56,000, respectively, at September 30, 2015 and 2014. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately \$45,000 and \$51,000, respectively, at September 30, 2015 and 2014.

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2015:

	Level 1	Level 2	Level 3	2015
Investments, at fair value				
Cash	\$ 2,345,782	\$ -	\$ -	\$ 2,345,782
Bonds	35,027,573	-	-	35,027,573
Mutual funds	24,119,636	4,946,910	-	29,066,546
Hedge funds	-	-	44,421,975	44,421,975
Total investments, at fair value	<u>\$ 61,492,991</u>	<u>\$ 4,946,910</u>	<u>\$ 44,421,975</u>	<u>\$ 110,861,876</u>

The following table summarizes the fair values of investments by major type held by the staff pension health plan at September 30, 2014:

	Level 1	Level 2	Level 3	2014
Investments, at fair value				
Cash	\$ 2,417,830	\$ -	\$ -	\$ 2,417,830
Bonds	27,571,791	-	-	27,571,791
Mutual funds	46,557,396	5,171,869	-	51,729,265
Hedge funds	-	-	33,457,838	33,457,838
Total investments, at fair value	<u>\$ 76,547,017</u>	<u>\$ 5,171,869</u>	<u>\$ 33,457,838</u>	<u>\$ 115,176,724</u>

There were transfers between levels during 2015 but no transfers in 2014.

Lawrence + Memorial Corporation and Subsidiaries

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The table below represents the change in fair value measurements for Level 3 investments held by the plans for the years ended September 30.

	2015	2014
Beginning balances	\$ 33,457,838	\$ 31,893,958
Realized gains	554,617	4,588,368
Fees	(204,757)	(79,614)
Unrealized losses	(3,485,723)	(2,944,874)
Purchases	14,100,000	-
Ending balances	<u>\$ 44,421,975</u>	<u>\$ 33,457,838</u>

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations combine tested theory and informed market judgment to balance investment risks with the need for high returns.

The Hospital's 401(k) plan covers eligible employees who elected to participate. Eligible employees may contribute a percentage of their salary. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Plan contributions charged to operations were approximately \$4,764,785 and \$4,584,389 for 2015 and 2014, respectively.

The VNA has a defined contribution pension plan which covers substantially all of its employees who have met specified age and length of service requirements. Contributions to the Plan are based on 5% of eligible salaries and totaled approximately \$504,943 and \$463,475 for the years ended September 30, 2015 and 2014, respectively.

9. Functional Expenses

The Corporation and its subsidiaries provide general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2015	2014
Health care services	\$ 347,731,294	\$ 348,719,365
General and administrative	122,555,118	124,868,311
	<u>\$ 470,286,412</u>	<u>\$ 473,587,676</u>

10. Commitments and Contingencies

The Corporation and its subsidiaries are parties to various lawsuits incidental to their business. Management believes that the lawsuits will not have a material adverse effect on their financial position, results of operations, and changes in net assets or cash flows.

Independent Auditors' Report

The Board of Trustees

Yale-New Haven Health Services Corporation
d/b/a Yale New Haven Health System and Subsidiaries:

We have audited the accompanying consolidated financial statements of Yale-New Haven Health Services Corporation, d/b/a Yale New Haven Health System and Subsidiaries, which comprise the consolidated balance sheet as of September 30, 2015, and the related consolidated statements of operations and changes in net assets, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the 2015 consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Yale-New Haven Health Services Corporation as of September 30, 2015, and the consolidated results of their operations and their cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

The accompanying consolidated financial statements of Yale-New Haven Health Services Corporation as of September 30, 2014 and for the year then ended were audited by other auditors whose report thereon dated December 23, 2014, expressed an unmodified opinion on those consolidated financial statements.

Our audit was performed for the purpose of forming an opinion on the 2015 consolidated financial statements as a whole. The accompanying consolidating balance sheet and consolidating statement of operations and changes in net assets are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statement as a whole.

See accompanying notes to consolidated financial statements.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(1) Organization and Significant Accounting Policies

Yale-New Haven Health Services Corporation (Y-NHHSC), formed in 1983, was incorporated under the Connecticut Nonstock Corporation Act to coordinate the activities of the members of the Yale-New Haven Health Services Corporation, d/b/a Yale New Haven Health System and Subsidiaries (collectively, the System), and is an integrated regional health care delivery system. The System currently includes the following entities:

Y-NHHSC is the parent company of Yale-New Haven Hospital and Subsidiaries (Y-NHH), Bridgeport Hospital and Subsidiaries (BH), Greenwich Health Care Service, Inc. (GHCS), Northeast Medical Group, Inc. (NEMG), and Y-NHH-MSO, Inc. (MSO).

Y-NHHSC is the sole member of Yale-New Haven Hospital, Inc. Y-NHH and its subsidiaries operate autonomously with a separate board, management, and medical staff. Y-NHHSC must approve the strategic plans, operating budgets, capital budgets and board appointments of Y-NHH. Y-NHH is the parent of:

Yale-New Haven Care Continuum Corporation (YNHCCC), a Connecticut nonstock corporation, is a wholly owned subsidiary of Y-NHH. YNHCCC provides long-term care for those unable to live independently and short-term rehabilitation for patients who have experienced elective surgery, an injury or a traumatic major illness. Its services include respite care for family members and caregivers, recovery for victims of strokes, orthopedic recovery services, medications and diagnostic services (such as radiological services).

Yale-New Haven Ambulatory Services Corporation and Subsidiaries (ASC), a Connecticut nonstock, taxable corporation, is a wholly owned subsidiary of Y-NHH, and is 51% owner of Shoreline Surgery Center, LLC (SSC) and SSC II, LLC.

York Enterprises, Inc. and Subsidiaries (York) is a Connecticut corporation formed for the purpose of initiating or acquiring business entities. Currently, York has two subsidiaries: Medical Center Pharmacy and Home Care, Inc. (MCP) and Medical Center Realty, Inc. (MCR). MCP is a Connecticut stock, for-profit company, which operated a retail pharmacy with multiple locations until February 2011. MCR is a Connecticut stock, for-profit company, which owns or holds leases on the System's affiliated commercial space. York is the sole shareholder of MCP and MCR.

Caritas Insurance Company, Ltd. (Caritas) is a Vermont-domiciled, captive insurance company licensed under Chapter 141 of Title 8 of the Vermont Statutes Annotated. Caritas is a tax-exempt supporting organization having Y-NHH as its sole shareholder. Caritas provides excess professional liability coverage and general liability coverage. Prior to the 2012 acquisition of the stock of Caritas by Y-NHH from the Hospital of Saint Raphael (HSR), Caritas was a wholly owned subsidiary of HSR. Caritas was dissolved on December 15, 2014 and the insurance liabilities were transferred to Medical Centre Insurance Company, Ltd (see note 10).

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Lukan Indemnity Company, Ltd. (Lukan) is a Bermuda-domiciled captive insurance company that provides primary professional liability coverage. Prior to the 2012 acquisition of the stock of Lukan by Y-NHH from HSR, Lukan was a wholly owned subsidiary of HSR. Lukan was dissolved on March 31, 2015 and the insurance liabilities were transferred to Medical Centre Insurance Company, Ltd (see note 10).

Y-NHHSC is the sole member of Bridgeport Hospital. BH and its subsidiaries operate autonomously with a separate board management, and medical staff. Y-NHHSC must approve the strategic plans, operating budgets, capital budgets and board appointments of BH. BH is the sole member of the following not-for-profit, nonstock corporations:

Bridgeport Hospital Foundation, Inc. (the Foundation) solicits contributions for the benefit of BH and all other tax-exempt health care organizations associated with BH.

Southern Connecticut Health System Properties, Inc. (Properties) is a real estate holding company, which sold primarily all of its assets to BH during 1998.

NEMG is a tax-exempt medical foundation that provides physician-related services to Bridgeport, Greenwich, and Yale-New Haven Hospitals and their surrounding communities. NEMG operates autonomously with a separate board, management, and medical staff. Y-NHHSC must approve the strategic plans, operating budgets, capital budgets, and board appointments of NEMG.

Concurrent with the issuance of the Connecticut Health and Educational Facilities Authority (CHEFA) Revenue Bonds, Yale-New Haven Health Obligated Group Issue, Series A, B, C, D and E dated May 20, 2014, six members of the System were combined to form an Obligated Group. The Obligated Group comprises of Y-NHHSC, Y-NHH, YNHCCC, BH, the Foundation and NEMG. The members of the Obligated Group have adopted certain governance provisions in their certificates of incorporation and by-laws pursuant to which Y-NHHSC retains the authority to directly take certain actions on behalf of each Obligated Group member without the approval of the board of trustees of the applicable Obligated Group member, including the incurrence of indebtedness on behalf of each Obligated Group member, the management and control of the liquid assets of each, and the appointment of the president and chief executive officer of each Obligated Group member. GHCS and its subsidiaries are part of the System, but they are not members of the Obligated Group.

GHCS is the parent corporation of a group of wholly owned subsidiaries, including Greenwich Hospital, The Perryridge Corporation Greenwich Health Care Services, Inc. (GHSD), the Greenwich Hospital Endowment Fund, Inc., and Greenwich Ambulatory Surgery Center, LLC (GASC). GHCS and its subsidiaries are Section 501(c)(3) not-for-profit organizations, and are exempt from federal income taxes under Section 501(a) of the Code. Greenwich Hospital, a nonstock Connecticut corporation, is a wholly owned subsidiary of GHCS (the sole member), providing health care services to the lower Fairfield County and Westchester County, New York communities. GHCS and its subsidiaries have continued to operate autonomously with a separate board, management and medical staff. Y-NHHSC must approve the strategic plans, operating budgets, capital budgets and board appointments of GHCS. GHCS dissolved its wholly owned subsidiary, Greenwich Health Services, Inc., a Connecticut business corporation during fiscal 2015. The activity and eliminations

YALE-NEW HAVEN HEALTH SERVICES CORPORATION

(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

for Greenwich Pathology Associates, LLC, Greenwich Clinical Pathology Associates, LLC, Greenwich Fertility and IVF center, P.C., Occupational Health of New Jersey and Occupational Health of New York are now reported as part of Greenwich Hospital.

Y-NHHSC must approve the strategic plans, operating budgets, capital budgets, any transfer of assets, and Board of Director appointments of GHCS and its subsidiaries.

MSO, a for-profit stock corporation, was formed to manage physician practices and provide third-party administration services on certain managed care contracts. The capital stock of MSO consists of 20,000 shares of common stock, par value of one one-hundredth of a dollar per share. The Board of Directors of MSO is appointed by Y-NHHSC, the sole shareholder, who controls MSO's operations.

(a) Acquisition

On June 1, 2014, NEMG and Y-NHHSC acquired certain assets of PriMed, LLC (PriMed), a physician practice for approximately \$54.2 million. Y-NHHSC contributed the entire purchase price. PriMed is a multi-specialty group of approximately 120 providers in 36 locations across Fairfield County and New Haven County, Connecticut. PriMed also is the sole member of a gastroenterology surgery center, the Fairfield County Endoscopy Center, and offers a number of ancillary services, such as a sleep laboratory, cardiac diagnostic testing, physical therapy and nutritional counseling. Under the terms of the transaction, NEMG and Y-NHHSC acquired substantially all the assets of PriMed and a 40% interest in the gastroenterology surgery center. Y-NHHSC deposited \$5.5 million into escrow to fund the purchase of the remaining 60% membership interest in the gastroenterology surgery center. This purchase was completed in May 2015. Also at acquisition, Y-NHHSC recorded a liability of \$5 million for the amounts to be paid to PriMed physicians contingent on their continued service in the three years following the acquisition closing date as per the agreement.

(b) Principles of Consolidation

The accompanying consolidated financial statements present the accounts and transactions of the System and its subsidiaries. All significant intercompany revenue and expenses and inter-company balance sheet accounts have been eliminated in consolidation.

(c) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated collectibles for accounts receivable for services to patients, and liabilities, including estimated net settlements with third-party payors and professional liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the amounts of revenue and expenses reported during the reporting period. Actual results could differ from those estimates.

During the years ended September 30, 2015 and 2014 the System recorded a favorable change in estimate of approximately \$29.8 million and \$11.9 million, respectively. Included in the change are amounts related to third-party payor settlements.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(d) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose, and appreciation on permanently restricted net assets. Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity. The System is a partial beneficiary to various perpetual trust agreements. Assets recorded under these agreements are recognized at fair value. The investment income generated from the trusts is unrestricted, and the assets are classified as permanently restricted by the donor.

Certain restricted funds investments are pooled with certain unrestricted investments to facilitate their management. Investment income is allocated to both restricted and unrestricted funds participating in the investment pool on pro rata basis based on the market value of the fund. The Board of Trustees approves spending for certain pooled funds based on the spending policy. Realized gains and losses from the sale of securities are computed using the average cost method and the first-in, first-out method.

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized until the conditions on which they depend are substantially met. Contributions receivable to be received after one year are discounted at a discount rate commensurate with the risks involved. Amortization of the discount is recognized as revenue, and is classified as either unrestricted or temporarily restricted in accordance with donor-imposed restrictions, if any, on the contributions.

(e) Capital Campaign and Pledges Receivable

Contributions and pledges receivable, included in other current assets and other assets in the accompanying consolidated balance sheets at September 30, 2015 and 2014, are expected to be received as follows (in thousands):

	September 30	
	2015	2014
Less than one year	\$ 4,379	5,164
One to five years	3,415	4,298
Thereafter	60	—
	7,854	9,462
Less unamortized discount on contributions receivable (0.01% to 4.2%)	(232)	(208)
	7,622	9,254
Allowance for uncollectible contributions	(229)	(277)
Contributions receivable, net	\$ 7,393	8,977

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Excluded from contributions receivable are certain items, primarily letters of intent, which are not legally binding and gifts conditional on events that have not yet occurred.

(f) Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

(g) Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, which are not classified as assets limited as to use, and which are not maintained in the short-term or long-term investment portfolios.

Cash and cash equivalents are maintained with domestic financial institutions with deposits which exceed federally insured limits. It is the System's policy to monitor the financial strength of these institutions.

(h) Accounts Receivable

Patient accounts receivable result from the health care services provided by the System. Additions to the allowance for uncollectible accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for uncollectible accounts.

The amount of the allowance for uncollectible accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage, and other collection indicators. Management periodically assesses the adequacy of this allowance based upon historical collection and write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible patient accounts receivable. After satisfaction of amounts due from insurance, The System follows established guidelines for placing certain patient balances with collection agencies, subject to certain restrictions on collection efforts as determined by the System policy. See note 2 for additional information relative to third-party payor programs.

Net patient accounts receivable has been adjusted to the estimated amounts expected to be collected. These estimated amounts are subject to further adjustments upon review by third-party payors. Such receivables do not bear interest.

(i) Loan Receivable

On September 2014, Y-NHH entered into a term loan agreement as part of a transaction with a health care provider more fully described in note 11. The term loan agreement has a term that coincides with an agreement for Y-NHH to lease an Inpatient Rehabilitation Unit (IRU). The term of

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

the IRU Lease Agreement is five years and provides Y-NHH with two five-year renewal options at the end of each term.

The term loan bears interest of 6.5% annually that is payable monthly. The loan is collateralized by certain property owned by a subsidiary of the health care provider.

(j) Investments

The System has designated its investment portfolio as trading. Investment income or loss (including realized gains and losses on investments, interest, and dividends) and the change in net unrealized gains and losses are included in the excess of revenue over expenses unless the income or loss is restricted by donor or law.

Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value (quoted market prices) in the accompanying consolidated balance sheets.

Certain alternative investments (nontraditional, not-readily-marketable assets) are structured such that the System holds limited partnership interests or pooled units and are accounted for utilizing net asset value per unit for measurement of the units' fair value. Individual investment holdings within the alternative investments may, in turn, include investments in both nonmarketable and market-traded securities. Fund of funds investments are primarily based on financial data supplied by the underlying investee funds. Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment. The investments may indirectly expose the System to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts and other derivative products. While these financial instruments may contain varying degrees of risk, the System's risk with respect to such transactions is limited to its capital balance in each investment. The financial statements of the investees are audited annually by independent auditors. Future funding commitments for alternative investments aggregated approximately \$6.4 million at September 30, 2015.

The System maintains the Yale New Haven Health System Investment Trust (the Trust), a unitized Delaware Investment Trust created to pool assets for investment by the Health System nonprofit entities. The Trust is comprised of two pools: the Long-Term Investment Pool (L-TIP) and the Intermediate-Term Investment Pool (I-TIP). Governance of the Trust is performed by the Yale New Haven Health System Investment Committee.

Under the terms of the investment management agreement with the Trust, withdrawals of investments in the L-TIP can be made annually by each Hospital on July 1. Amounts withdrawn are subject to a schedule that allows larger withdrawals with longer notice periods. As of September 30, 2015, each Hospital can withdrawal 100% of its investment in the L-TIP on July 1, 2016. Withdrawals of investments in the I-TIP in any amount can be made quarterly with 30 days advance notice.

The Trust has entered into an agreement with Yale University (the University). The University's investment office (the Investment Management Agreement) which allows the University to manage a

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

portion of the Trust's investments as part of the University's Endowment Pool (the Pool). The Trust transferred approximately \$50.0 million and \$100.0 million to the University in exchange for units in the Pool for years ended September 30, 2015 and 2014, respectively. The Trust's interest in the Pool is reported at fair value based on the net asset value per units held. The Pool invests in domestic equity, foreign equity, absolute return, private equity, real assets, fixed income, and cash.

Under the terms of the investment management agreement with the University, withdrawals of the Trust's investment in the Pool can be made annually by the Trust on July 1. For withdrawals of amounts less than \$150.0 million, or 75% of the Trust's investment in the Pool, \$100.0 million, or 50% of the Trust's investment in the Pool, and \$50.0 million, or 25% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 180 days, 90 days, and 30 days, respectively, prior to the University's fiscal year ending June 30. For withdrawals greater than \$150.0 million or more than 75% of the Trust's investment in the Pool, the advance notice period is set to a maximum of 270 days prior to the University's fiscal year end of June 30.

In March 2006, Y-NHH entered into an arrangement with the University, whereby the University will manage certain Board-designated assets of Y-NHH. These Board-designated assets are commingled in the University's endowment pool. As of September 30, 2015 and 2014, the carrying value of assets managed by the University under this agreement was approximately \$10.6 million and \$10.4 million, respectively. Because of the limitations on their use, the assets are separately classified from assets invested under the Investment Management Agreement.

In 2011, the investment management agreement between the Trust and the University was modified to allow the Trust to obtain a cash advance, up to a maximum of \$75 million, on a monthly basis. For these advances, interest of U.S. Prime rate, plus 2% will be paid by the Trust. Repayments on the advances are made by the Trust by way of redemptions of a sufficient number of Trust's units in the Endowment using the June 30th unit valuation. No advances have been requested or taken by the Trust.

Short-term investments represent those securities that are available for the System's operations, and can be converted to cash within one year.

(k) Inventories

Inventories (included in other current assets) are stated at the lower of cost or market. The System values its inventories using the first-in, first-out method, with the exception of Y-NHH's pharmacy inventories, which are valued at average cost.

(l) Assets Limited as to Use

Assets so classified represent assets held by trustees under indenture agreements, beneficial interest in perpetual trusts. Amounts required to meet current liabilities are reported as current assets. These funds consist primarily of U.S. government securities, equities, debt securities, mutual funds and money market funds.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(m) Perpetual Trusts

The System is the beneficiary of certain perpetual trusts held and administered by others. The present values of the estimated future cash receipts, which are measured based on the fair value of the assets held by the trust, are recognized as assets and contribution revenue at the dates the trusts are established. Beneficial interest in perpetual trusts is recorded as permanently restricted net assets and is adjusted for any changes in the fair value of the trusts. Income distributions received from the trusts are recorded as temporarily restricted contributions when received.

(n) Interest Rate Swap Agreements

The System utilizes interest rate swap agreements to reduce risks associated with changes in interest rates. Interest rate swap agreements are reported at fair value. The System is exposed to credit loss in the event of nonperformance by the counterparties to its interest rate swap agreements. The System is also exposed to the risk that the swap receipts may not offset its variable rate debt service. To the extent these variable rate payments do not equal variable interest payments on the bonds, there will be a net loss or net benefit to the System.

(o) Benefits and Insurance

The System is effectively self-insured for medical, dental, hospitalization, and prescription drug benefits provided to employees and has a stop loss arrangement to limit exposure for these self-insured benefits. Y-NHH and Y-NHHSC make annual contributions to the Y-NHHSC Voluntary Employee Beneficiary Association (VEBA) plan to fund medical, dental, hospitalization, group term life insurance and prescription drug benefits. Annually, premiums are set to reflect the estimated cost of benefits. During the years ended September 30, 2015 and 2014, Y-NHH and Y-NHHSC made actuarially determined contributions, net of premium adjustments, to the VEBA plan of approximately \$179.7 million and \$172.6 million, respectively.

(p) Professional Liability Insurance

The System is effectively self-insured for workers' compensation claims. The System has a stop loss arrangement to limit exposure for workers' compensation claims. Estimated amounts are accrued for claims, including claims incurred but not reported (IBNR). At September 30, 2015 and 2014, the estimated discounted liabilities for self-insured workers' compensation claims and IBNR aggregated approximately \$31.4 million and \$29.4 million, respectively, discounted at 2.0% and 2.5%, respectively, and are included in other long-term liabilities in the accompanying consolidated balance sheets.

The System records the actuarially determined liabilities for IBNR professional and general liabilities (see note 10).

(q) Property, Plant and Equipment

Property, plant and equipment purchased are carried at cost, and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

of, and any resulting gain or loss is included in income from operations. Depreciation of property, plant and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives, ranging from 3 to 50 years. The cost of additions and improvements are capitalized, and expenditures for repairs and maintenance, including the cost of replacing minor items not considered substantial enhancements, are expensed as incurred.

Leases are classified as capital leases or operating leases in accordance with the terms of the underlying lease agreements. Lease payments under operating leases are charged directly to rental expense, and are included in supplies and other expenses in the accompanying consolidated statements of operations.

(r) Goodwill

Goodwill is not amortized but instead tested at least annually for impairment or more frequently when events or changes in circumstances indicate that the assets might be impaired. This impairment test is performed at the reporting unit level. The System evaluates goodwill at the entity level as management has determined that the System's operation comprise a single reporting entity. Goodwill is considered to be impaired if the carrying value of the reporting unit, including goodwill, exceeds the reporting unit's fair value. Reporting unit fair value is estimated using both income (discounted cash flows) and market approaches.

The discounted cash flow approach requires the use of assumptions and judgments, including estimates of future cash flows and the selection of discount rates. The market approach relies on comparisons to publicly traded stocks or to sales of similar companies. The System has determined that no goodwill impairment exists at September 30, 2015 or 2014.

(s) Deferred Revenue

Deferred revenue includes amounts which have been received that relate to future years. Amounts will be reduced as revenue is earned.

(t) Derivative Contracts

In the normal course of business, the System procures fuel and has entered into forward delivery agreements and commodity contracts. Substantially all of the System's contracts to procure fuel are designated as, and qualify as, normal purchases; accordingly, such contracts are not accounted for as derivative contracts.

(u) Excess of Revenue Over Expenses

In the accompanying consolidated statements of operations and changes in net assets, excess of revenue over expenses is the performance indicator. Peripheral or incidental transactions are included in excess of revenue over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue; other gains and losses are classified as nonoperating.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Contributions of, or restricted to, property, plant and equipment, and pension and other postretirement related changes other than net periodic benefit cost are excluded from the performance indicator, but are included in the change in net assets.

(v) *Income Taxes*

Most entities within the System are not-for-profit corporations as described in Section 501(c)(3) of the Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Provisions for income taxes and deferred taxes, which are not material to the consolidated financial statements, have been made for the taxable entities listed above under the description of the System.

There are certain transactions that could be deemed “Unrelated Business Income” and would result in a tax liability. Management reviews transactions to estimate potential tax liabilities using a threshold of more likely than not that the position will be sustainable based on the merits of the position. It is management’s estimation that there are no material tax liabilities that need to be recorded.

(w) *Operating Expenses*

Y-NHH records amounts received from the University, area hospitals, and other local health care providers for costs incurred on behalf of those organizations as reductions to expenses. These costs consist mainly of salaries and benefits. For the years ended September 30, 2015 and 2014, Y-NHH recorded approximately \$55.0 million and \$60.5 million, respectively, as reductions to expenses.

(x) *Deferred Financing Costs*

The System capitalizes costs incurred in connection with the issuance of long-term debt, and amortizes these costs over the life of the respective obligations using the effective interest method (note 8). The accumulated amortization of deferred financing costs was approximately \$1.1 million and \$0.6 million for September 30, 2015 and 2014, respectively. See note 8 for additional information relative to debt-related matters.

(y) *Impairment of Assets*

The System reviews property, plant, and equipment, and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If such impairment indicators are present, the System recognizes a loss on the basis of whether these amounts are fully recoverable. There was no impairment recognized in 2015 and 2014.

(z) *Reclassifications*

Certain reclassifications have been made to the year ended September 30, 2014, balances previously reported in the consolidated financial statements in order to conform with the year ended September 30, 2015, presentation.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(aa) New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Reporting entities will be required to disclose the amount of investments measured at net asset value (or its equivalent) using the practical expedient to reconcile total investments in the fair value hierarchy to total investments measured at fair value. ASU 2015-07 is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The effective date for all other entities is fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted. Management has adopted and applied ASU 2015-07 retrospectively to all periods presented.

In April, 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. ASU No. 2015-03 is intended to simplify the presentation of debt issuance costs, requiring them to be presented as a direct reduction from the carrying value of the related debt liability. This guidance is effective for fiscal years beginning after December 15, 2015 and management is currently evaluating the effect of this guidance on its consolidated financial statements.

(2) Accounts Receivable for Services to Patients and Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges, and per diem payments. Net patient service revenue is affected by the State of Connecticut Disproportionate Share program and is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, and includes estimated retroactive revenue adjustments due to future audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such audits, reviews, and investigation.

Third-party payor receivables included in other receivables were \$5.0 million and \$8.0 million at September 30, 2015 and 2014, respectively. Third-party payor liabilities included in other current liabilities were \$76.2 million and \$47.4 million at September 30, 2015 and 2014, respectively. Third-party payor liabilities include in other long-term liabilities were \$70.5 million and \$76.9 million at September 30, 2015 and 2014, respectively.

The System has established estimates, based on information presently available, of amounts due to or from Medicare, Medicaid, and third-party payors for adjustments to current and prior year payment rates, based

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

on System-specific data. Such amounts are included in the accompanying consolidated balance sheets. Additionally, certain payors' payment rates for various years have been appealed by the System. If the appeals are successful, additional income applicable to those years might be realized.

Revenue from Medicare and Medicaid programs accounted for approximately 29% and 11%, respectively, of the System's consolidated net patient service revenue for the years ended September 30, 2015, and approximately 32% and 11%, respectively, of the System's consolidated net patient service revenue for the years ended September 30, 2014. Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 36% and 27%, respectively for the year ended September 30, 2015 and 37% and 27%, respectively, for the year ended September 30, 2014. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term.

The System believes that it is in compliance with all applicable laws and regulations, and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing, except as disclosed in note 11. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the System. Cost reports for the System's hospitals, which serve as the basis for final settlement with government payors have been settled by final settlement for various years ranging through 2012 for Medicare and through 2013 for Medicaid. Other years remain open for settlement.

The significant concentrations of accounts receivable for services to patients include 36% from Medicare, 16% from Medicaid, and 48% from nongovernmental payors at September 30, 2015 and 37% from Medicare, 13% from Medicaid, and 50% from nongovernmental payors at September 30, 2014.

Patient service revenue for the years ended September 30, 2015 and 2014, net of contractual allowances and discounts (but before the provision for bad debts), recognized from these major payor sources based on primary insurance designation, is as follows:

	<u>2015</u>	<u>2014</u>
	<u>(In thousands)</u>	
Third-party	\$ 3,465,982	3,276,256
Self-pay	108,231	135,179
Total all payors	<u>\$ 3,574,213</u>	<u>3,411,435</u>

Deductibles and copayments under third-party payment programs within the third-party payor amount above are the patient's responsibility and the System considers these amounts in its determination of the provision for bad debts based on collection experience. Accounts receivable are also reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts. Management regularly

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for uncollectible accounts.

The System's allowance for doubtful accounts totaled approximately \$313.9 million and \$272.7 million at September 30, 2015 and 2014, respectively. The allowance for doubtful accounts for self-pay patients was approximately 66.0% and 81.8% of self-pay accounts receivable as of September 30, 2015 and 2014, respectively. Substantially all write-offs are related to self-pay patients.

(3) Uncompensated Care and Community Benefit Expense

The System's commitment to community service is evidenced by services provided to the poor and benefits provided to the broader community. Services provided to the poor include services provided to persons who cannot afford health care because of inadequate resources, and/or who are uninsured or underinsured.

The System makes available free care programs for qualifying patients. In accordance with the established policies of the System, during the registration, billing, and collection process, a patient's eligibility for free care funds is determined. For patients who were determined by the System to have the ability to pay but did not, the uncollected amounts are the provision for bad debts. For patients who do not avail themselves of any free care program, and whose ability to pay cannot be determined by the System, care given but not paid for is classified as charity care. During the year ended September 30, 2014, the System amended its Charity Care policy. Based upon the policy change, the System experienced increased charity care write offs during the years ended September 30, 2015 and 2014.

Together, charity care and provision for bad debts represent uncompensated care. The estimated cost of total uncompensated care is approximately \$154.7 million and \$184.9 million for the years ended September 30, 2015 and 2014, respectively. The estimated cost of uncompensated care is based on the ratio of cost to charges, as determined by claims activity.

The estimated cost of charity care provided was \$108.4 million and \$115.8 million for the years ended September 30, 2015 and 2014, respectively. The estimated cost of charity care is based on the ratio of cost to charges. The allocation between bad debt and charity care is determined based on management's analysis on the previous 12 months of hospital data. This analysis calculates the actual percentage of accounts written off or designated as bad debt versus charity care while taking into account the total costs incurred by the System for each account analyzed.

For the years ended September 30, 2015 and 2014, provision for bad debts, at charges, was \$81.5 million and \$123.7 million, respectively. For the years ended September 30, 2015 and 2014, provision for bad debt at cost was approximately \$46.3 million and \$69.1 million, respectively. The provision for bad debts is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above.

The Connecticut Disproportionate Share Hospital Program (CDSHP) was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by an assessment on hospital net patient service revenue. During the years ended September 30, 2015 and 2014, the System received \$14.6 million and \$42.2 million, respectively, in CDSHP distributions, of which approximately

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

\$10.4 million and \$27.8 million was related to charity care. The System made payments into the CDSHP of \$122.4 million and \$102.5 million for the years ended September 30, 2015 and 2014, respectively, for the assessment.

The State of Connecticut implemented changes to the hospital funding levels for the CDSHP in their fiscal 2016 biennium budget. As a result of these budget changes, the funding for this program was reduced effective July 1, 2015. The reduction in funding was approximately \$13.2 million for the period July 1, 2015 to September 30, 2015 and the funding has been eliminated for the state fiscal year 2016 in the amount of \$52.8 million.

Additionally, the System provides benefits for the broader community which includes services provided to other needy populations that may not qualify as poor but need special services and support. Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings and medical research. The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children and various community support groups. The System voluntarily assists with the direct funding of several City of New Haven programs, including an economic development program and a youth initiative program.

In addition to the quantifiable services defined above, the System provides additional benefits to the community through its advocacy of community service by employees. The System's employees serve numerous organizations through board representation, membership in associations and other related activities. The System also solicits the assistance of other health care professionals to provide their services at no charge through participation in various community seminars and training programs.

^(a) Investments with external international equity and bond managers that are domiciled in the United States. Investment managers may invest in American or Global Depository Receipts (ADR, GDR) or in direct foreign securities.

^(b) Investments with external commodities futures manager.

^(c) Investment with external multi-strategy fund of funds manager investing in publicly traded equity and credit holdings which may be long or short positions.

^(d) Investment with an external long-short equity fund of funds manager with underlying portfolio investments consisting of publicly traded equity positions.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

- (e) Investments with external direct real estate managers and fund of funds managers. Investment vehicles include both closed end Real Estate Investment Trusts (REITs) and limited partnerships.
- (f) Yale University Endowment Pool maintains a diversified investment portfolio, through the use of external investment managers operating in a variety of investment vehicles, including separate accounts, limited partnerships, and commingled funds. The pool combines an orientation to equity investments with an allocation to nontraditional asset classes such as an absolute return, private equity, and real assets.
- (g) Investments consist of several domestic and international equity and fixed income mutual funds, REITs, commodities and money market funds. There is also an investment in a hedge fund of funds.

(5) Property, Plant and Equipment

Property, plant and equipment is as follows (in thousands):

	September 30	
	2015	2014
Land, buildings and improvements	\$ 1,617,826	1,562,723
Equipment	1,264,862	1,267,165
Assets recorded under capital leases	57,345	70,262
	<u>2,940,033</u>	<u>2,900,150</u>
Less accumulated depreciation and amortization	1,551,286	1,444,576
Property, plant, and equipment, net	1,388,747	1,455,574
Construction in progress (note 8 (n))	157,101	66,043
	<u>\$ 1,545,848</u>	<u>1,521,617</u>

(6) Endowment

The System's endowment includes donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The System has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (CUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the System classifies as permanently restricted net assets: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment related to the System's beneficial interest in perpetual trusts made in accordance with the direction of the applicable donor gift instrument at the time of the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence prescribed by CUPMIFA. In accordance with CUPMIFA, the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the System and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the System; and (7) the investment and spending policies of the System.

Changes in endowment net assets for the year ended September 30, 2015, are as follows (in thousands):

	<u>Unrestricted</u>	<u>Temporarily restricted</u>	<u>Permanently restricted</u>	<u>Total</u>
Endowment net assets at beginning of year	\$ 47,947	73,543	80,856	202,346

Total endowment funds classified as temporarily restricted net assets	\$ <u>75,276</u>	<u>73,543</u>

(a) Return Objectives and Risk Parameters

The System has adopted investment and spending policies for endowed assets that attempt to provide a predictable stream of funding to programs supported by its endowment. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity. Under these policies, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that over time provide a rate of return that meets the spending policy objectives adjusted for inflation. Actual returns in any given year may vary from this amount.

(b) Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the System relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

current yield (interest and dividends) The System targets a diversified asset allocation that place greater emphasis on equity-based investments to achieve its long-term rate of return objectives within prudent risk constraints.

(c) Spending Policy and How the Investment Objectives Relate to Spending Policy

BH and Y-NHH have a policy of appropriating for distribution each year based on a combination of the weighted average of the prior year spending adjusted for inflation and the amount that would have been spent using a predetermined percentage (5.25% for Y-NHH and 5.0% for BH) of the current market value of the endowment fund. In establishing this policy, BH and Y-NHH have considered the long-term expected return on its endowment.

GHCS has a policy of appropriating funds for distribution each year based on the greater of \$800,000 or 5% of the average market value of its investments for the prior 12 quarters. In establishing this policy, GHCS considered the long-term expected return on its endowment.

From time to time, the fair value of assets associated with permanently restricted endowment funds may fall below the level determined under Connecticut UPMIFA.

(7) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes (in thousands):

	September 30	
	2015	2014
Specific hospital operations, teaching, research, indigent and free care, and training	\$ 125,467	123,058
Plant improvement and expansion	22,101	18,654
	<u>\$ 147,568</u>	<u>141,712</u>

Permanently restricted net assets of approximately \$93.4 million and \$80.9 million at September 30, 2015 and 2014, respectively, consist of donor restricted endowment principal and beneficial interests in perpetual trusts. The income generated from permanently restricted funds is expendable for purposes designated by donors, including research, free care, health care, and other services.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

	\$ 1,013,309	988,109

- a) On May 6, 2008, CHEFA issued \$53.6 million of its Revenue Bonds on behalf of GH, Series C, consisting of variable rate demand bonds. The proceeds were utilized for the refunding of outstanding revenue bonds. Principal amounts related to the Series C revenue bonds mature annually

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

each July 1 through fiscal 2026. The Series C bonds are required to be supported by a letter of credit, which has been executed with Bank of America. The letter of credit is scheduled to expire in May 2018.

- b) In May 2012, the BH Series D tax-exempt revenue bonds were issued through CHEFA under a Master Trust Indenture for approximately \$36.4 million, with coupons ranging from 2.0% to 5.0%, and a final maturity of July 2025. The proceeds, including a premium of approximately \$4.1 million, were held in an escrow account and used for the retirement of the outstanding tax-exempt revenue bonds and to pay for certain bond issuance costs of approximately \$0.8 million. The bond premium is being amortized using the effective interest method and is included in interest expense in the accompanying consolidated statement of operations and changes in net assets.
- c) In June 2014, the Obligated Group issued Series E revenue bonds totaling approximately \$80.9 million. The Series E revenue bonds were issued as fixed rate bonds with an effective interest rate of 3.47%. The proceeds included a premium of approximately \$10.1 million. The proceeds were used to finance costs for the installation of machinery and equipment and various renovations and improvements to the infrastructures at BH and Y-NHH. The premium is being amortized and included in capitalized interest. Upon completion of these projects, the bond premium will be amortized as interest expense in the accompanying consolidated statement of operations and changes in net assets.
- d) In January 2013, Y-NHH issued Series N and Series O revenue bonds totaling approximately \$100.0 million. The Series N revenue bonds were issued as fixed rate bonds with an effective interest rate of 4.27%. The Series O revenue bonds were issued as VRDBs with an effective interest rate of 2.84% at September 30, 2013. The proceeds, including a premium of approximately \$5.2 million for the Series N revenue bonds, were used to refinance a line of credit. The bond premium is being amortized as interest expense in the accompanying consolidated statements of operations and changes in net assets.
- e) In June 2014, the Obligated Group issued Series A revenue bonds totaling approximately \$102.3 million and Series B revenue bonds totaling approximately \$168.3 million. The Series A revenue bonds were issued as fixed rate bonds with an effective interest rate of 3.77%. The Series B revenue bonds were issued as floating rate notes with an effective interest rate of 2.30%. The proceeds from the Series A revenue bonds, including a premium of approximately \$14.8 million, and the proceeds from the Series B revenue bonds, were used to defease certain Y-NHH revenue bonds. The bond premium is being amortized as interest expense using the effective interest method in the consolidated statements of operations and changes in net assets.
- f) In June 2014, the Obligated Group issued Series C revenue bonds totaling approximately \$83.6 million and Series D revenue bonds totaling approximately \$108.3 million. The Series C revenue bonds were issued as VRDBs with an effective interest rate of 3.11%. The proceeds from the Series C issuance were used to refund certain Y-NHH revenue bonds. The Series D revenue bonds were issued as VRDBs with an effective interest rate of 3.68%. The proceeds from the Series D issuance were used to refund certain Y-NHH revenue bonds.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

As a result of the above transactions, Y-NHH incurred a loss on extinguishment of debt totaling approximately \$32.6 million during the fiscal year ended September 30, 2014.

- g) In January 2013, Y-NHH issued Series 2013 taxable bonds totaling approximately \$132.0 million. The Series 2013 taxable bonds were issued as fixed rate bonds with an effective interest rate of 4.13%. The proceeds were used to finance and refinance the costs of certain projects and activities in furtherance of Y-NHH's tax exempt purpose, including the refinancing of certain existing indebtedness.
- h) In June 2014, the Obligated Group issued Series 2014 taxable bonds totaling approximately \$50.7 million. The Series 2014 taxable bonds were issued as fixed rate bonds with an effective interest rate of 4.37%. The proceeds were used to finance the costs of certain projects and activities in furtherance of the System's tax-exempt purpose.
- i) In connection with the May 2015 purchase of a parcel of real estate, Y-NHH assumed a note payable with an effective interest rate of 5.46%. The note payable has a term of three years and matures in May 2017.
- j) In November 2010, BH obtained a \$6.6 million term loan from the CHEFA. The proceeds of the loan are to be used for the purchase and installation of energy savings equipment and various renovations and improvements to the infrastructure of BH. The loan is to be paid in monthly installments over ten years at a fixed interest rate of 3.22%.
- k) In June 2012, BH obtained a \$5.5 million term loan from CHEFA. The loan is to be paid in monthly installments over five years at a fixed rate of 1.66% with the proceeds to be used for medical and cafeteria equipment. The loan is secured by the equipment purchased with the proceeds of the loan.
- l) In December 2012, in connection with the purchase of a radiology practice, BH entered into a note payable with the seller in the amount of \$15.1 million. The note is to be repaid in monthly installments over five years.
- m) Y-NHH entered into a contract to lease space in a building adjacent to Y-NHH. Y-NHH's rental obligation commenced in December 2009. This capital lease has a term of 20 years from the commencement date with the option to extend the lease for four successive terms of ten years. Rental payments increase by 5% every five years. Y-NHH is also subject to additional rent for its share of expenses, as defined in the contract. Y-NHH has the option to purchase the property at the end of the fifth, tenth, or twentieth year or at the end of each of the first three ten-year extension periods.
- n) BH entered into an arrangement with a developer to construct a 120,000 square foot medical office building and adjacent garage in Fairfield County, CT. The arrangement contains provisions for BH to begin leasing the property for a 25-year period beginning in April 2016. Management has evaluated the terms of the arrangement and will be recording the project as a capital lease. Upon completion, the total estimated capital lease obligation will approximate \$102.0 million. At September 30, 2015 and 2014, construction costs totaled approximately \$60.8 million and \$20.2 million, respectively, and are included in construction in process in the accompanying consolidated balance sheet.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Required monthly payments on the revenue bonds by the System to a trustee are in amounts sufficient to provide for the payments of principal, interest, and sinking fund installments, as well as required payments to certain reserve funds held by the trustee, in accordance with the terms of the agreements, and certain other annual costs of CHEFA.

Arbitrage rules apply to tax-exempt debt issued after August 31, 1986. The rules require that, in specified circumstances, earnings from the investment of tax-exempt bond proceeds which exceed the yield on the bonds must be remitted to the Federal government.

The GH Series C, Y-NHH Series C, Y-NHH Series D and Y-NHH Series O VRDBs are required to be supported by letter of credit facilities (LOCs) which have been executed with three financial institutions. These LOCs are scheduled to expire on May 7, 2018, December 31, 2017, June 23, 2017, and February 14, 2018, respectively.

The Hospitals maintain the bank letters of credit to ensure the availability of funds to purchase any bonds tendered by bondholders that the remarketing agents are unable to remarket to new bondholders. Draws related to such tenders under the letters of credit will become Bank Bonds. As Bank Bonds, they can still be remarketed by the remarketing agents. If not remarketed successfully as Bank Bonds, the Hospitals will have the opportunity to refinance them, depending upon which bond series, during a period of from 90 to 367 days from initial draw date. If the Bank Bonds are not refunded and remain outstanding exceeding such period from initial draw date, GH will be required to make monthly payments over three years and Y-NHH will be required to make quarterly payments over five years. There were no draws under the letters of credit as of September 30, 2015.

The terms of the various financing arrangements between CHEFA and the System, the financial institutions providing the LOCs and the System, and the bank and the System provide for financial covenants regarding the System's debt service coverage ratio, liquidity ratio, and debt to capitalization ratio, among others.

Assets recorded under the capital lease obligations totaled approximately \$118.1 million and \$90.4 million as of September 30, 2015 and 2014, respectively. Accumulated depreciation for the capital lease obligations totaled approximately \$10.1 million and \$19.3 million at September 30, 2015 and 2014, respectively.

Capitalized interest at September 30, 2015 and 2014 totaled approximately \$30.9 million and \$29.9 million, respectively.

For the years ended September 30, 2015 and 2014, the System paid approximately \$23.4 million and \$25.5 million, respectively, for interest related to long-term debt and capital lease obligations.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Scheduled principal payments on all long-term debt, including capital lease obligations, are as follows (in thousands):

	<u>Debt</u>	<u>Capital lease obligations</u>
Year ending September 30:		
2016	\$ 16,472	8,633
2017	25,897	13,052
2018	15,829	13,052
2019	17,601	13,053
2020	18,290	13,235
Thereafter	<u>799,193</u>	<u>177,133</u>
	\$ <u>893,282</u>	238,158
Less interest		<u>(128,949)</u>
		\$ <u>109,209</u>

The following table summarizes the System's interest rate swap agreements (in thousands):

<u>Swap type</u>	<u>Expiration date</u>	<u>System receives</u>	<u>System pays</u>	<u>Notional amount at</u>	
				<u>September 30</u>	
				<u>2015</u>	<u>2014</u>
Series O – fixed to floating	July 1, 2053	67% of LIBOR	2.84%	\$ 50,000	50,000
Series B – fixed to floating	July 1, 2049	67% of LIBOR	2.31%	100,965	100,965
Series B – fixed to floating	July 1, 2049	LIBOR	2.29%	67,310	67,310
Series C – fixed to floating (Y-NHH)	July 1, 2025	LIBOR	3.11%	51,592	55,861
Series D – fixed to floating	July 1, 2036	LIBOR	3.68%	44,505	44,505
Series C – fixed to floating (Greenwich Hospital)	July 1, 2026	LIBOR	3.10%	<u>24,000</u>	<u>25,700</u>
				\$ <u>338,372</u>	<u>344,341</u>

The swap agreements fix the interest rate at a level viewed as desirable by the System. Such agreements expose the System to credit risk in the event of nonperformance by the counterparties, some of which is collateralized. At September 30, 2015 and 2014, the fair value of the swap agreements based on current interest rates was approximately \$54.7 million and \$36.1 million, respectively, representing a payable to the counterparties (recorded in other long-term liabilities).

For the Y-NHH Series O swap, there was an unfavorable change in fair value of \$0.7 million and \$0.6 million for the years ended September 30, 2015 and 2014, respectively, which was recorded in excess of revenue over expenses. No collateral was required under the Series O swap agreement for the years ended September 30, 2015 and 2014.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

In June 2014, Y-NHHSC, on behalf of the Obligated Group, entered into LIBOR swap rate locks with two counter parties (the Series B swaps). For the Series B swaps, there was an unfavorable change in fair value of approximately \$13.2 million and \$7.1 for the years ended September 30, 2015 and 2014, respectively, which was recorded in excess of revenue over expenses. No collateral was required under the Series B swap agreements for the years ended September 30, 2015 and 2014.

For the Y-NHH Series C swap, there was a favorable change in fair value of approximately \$0.5 million and \$1.0 million, respectively, for the years ended September 30, 2015 and 2014 which was recorded in excess of revenue over expenses. No collateral was required under the Y- NHH Series C swap agreement for the years ended September 30, 2015 and 2014.

For the Y-NHH Series D swap, there was an unfavorable change in fair value of approximately \$4.2 million and \$2.2 million for the years ended September 30, 2015 and 2014, respectively, which was recorded in excess of revenue over expenses. No collateral was required under the Series D swap agreement for the years ended September 30, 2015 and 2014.

In connection with its Series C revenue bonds, GH entered into an interest rate swap agreement (the GH swap) with a financial institution. Under the terms of the GH swap, GH will receive variable interest payments and pay fixed interest payments on a notional value of approximately \$24.0 million.

For the GH swap, there was a favorable change in fair value of approximately \$0.3 million for the years ended September 30, 2015 and 2014 which was recorded in excess of revenue over expenses. The terms of the swap agreement have not required GH to collateralize funds to be held by the financial institution as of September 30, 2015 and 2014.

(9) Pensions and Postretirement Benefits

The System has qualified and nonqualified defined benefit pension plans covering substantially all employees and executives. The benefits provided are based on age, years of service, and compensation. The System's policy is to fund the pension benefits with at least the minimum amounts required by the Employee Retirement Income Security Act of 1974.

The System also sponsors contributory 403(b) plans and 401(k) plans covering substantially all employees. Employer contributions for certain 403(b), made to a matching 401(a) plan, and 401(k) plans are determined based on employee contributions and years of service. The System contributed approximately \$62.0 million and \$51.3 million for the years ended September 30, 2015 and 2014, respectively. Amounts due to the defined contribution plans amounted to \$28.7 million and \$21.7 million at September 30, 2015 and 2014, respectively, and is included in accrued expenses in the accompanying balance sheets.

Y-NHH maintains a Section 457 Nonqualified deferred compensation plan. Contributions are made on a pre-tax basis. The balances recorded at September 30, 2015 and 2014 in other assets and other long-term liabilities were approximately \$34.4 million and \$32.5 million, respectively.

On June 30, 2006, BH froze its defined benefit plan. On October 1, 2006, BH instituted a defined contribution plan.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Effective as of December 31, 2006, GH amended its defined benefit pension plan to freeze benefits for employees who were under age 50 with less than five years of service. Effective January 1, 2007, GH began providing a matching contribution and a length of service contribution, in addition to its incentive contribution, for its defined contribution plan for all employees no longer accruing benefits under the defined benefit plan. Employees who were age 50 or older with five years of service continue to accumulate benefits under the defined benefit plan, and do not participate in the defined contribution plan.

Effective September 30, 2013, the Y-NHH qualified defined benefit pension plan and the 401(a) plan were amended to reduce the percentage of compensation contributed by Y-NHH to the qualified defined benefit pension plan and to increase the percentage of compensation contributed by Y-NHH to the 401(a) plan for the plan years commencing after December 1, 2013.

Y-NHH and GH also provide certain health care and life insurance benefits upon retirement to substantially all their employees. Y-NHH's and GH's policy is to fund these annual costs as they are incurred from the general assets of Y-NHH and GH. The estimated cost of these postretirement benefits is actuarially determined and accrued over the employees' service periods.

Included in unrestricted net assets at September 30, 2015 and 2014 are the following amounts that have not yet been recognized in net periodic pension cost: unrecognized prior service credit of approximately \$20.4 million and \$22.4 million, respectively, and unrecognized actuarial losses of approximately \$350.1 million and \$308.0 million, respectively. The prior service credit and actuarial loss included in unrestricted net assets and expected to be recognized in net periodic pension cost during the year ending September 30, 2016 are approximately \$2.0 million and \$17.5 million, respectively.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The following table sets forth the change in benefit obligations, change in the plans' assets, and the reconciliation of underfunded status of the System's defined benefit plans as of September 30, 2015 and 2014 (in thousands):

	Defined benefit pension plans		Postretirement benefits plan	
	2015	2014	2015	2014
Change in benefit obligation:				
Benefit obligation at prior measurement date	\$ 908,910	804,718	78,136	67,904
Service cost	23,106	24,830	3,789	3,617
Interest cost	37,775	38,108	3,393	3,270
Plan amendments	—	—	—	(577)
Actuarial (gain) loss	(5,176)	79,636	(14,067)	5,413
Benefits paid	(42,326)	(38,382)	(1,670)	(1,491)
Benefit obligation at current measurement date	922,289	908,910	69,581	78,136
Change in plans' assets:				
Fair value of assets at prior measurement date	663,472	605,715	—	—
Actual return on plans' assets	(28,974)	45,364	—	—
Employer contributions	57,663	50,775	1,670	1,491
Benefits paid	(42,326)	(38,382)	(1,670)	(1,491)
Fair value of plans' assets at current measurement date	649,835	663,472	—	—
Accrued benefit cost	\$ (272,454)	(245,438)	(69,581)	(78,136)

The actuarial loss in 2015 primarily relates to changes in the discount rate and mortality table used to measure the benefit obligation and the actuarial gain in 2014 primarily relates to changes in the discount rate.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The accrued benefit cost included in the consolidated balance sheets includes the following (in thousands):

	Accrued pension and postretirement obligations		Fair value of plans' assets	
	2015	2014	2015	2014
Y-NHH and Subsidiaries – accrued pension and postretirement obligations	\$ (230,944)	(233,609)	340,669	347,238
Bridgeport Hospital – accrued pension and postretirement obligations	(68,304)	(58,281)	142,986	145,156
Greenwich Hospital – accrued pension and postretirement obligations	(42,787)	(31,684)	166,180	171,078
	<u>\$ (342,035)</u>	<u>(323,574)</u>	<u>649,835</u>	<u>663,472</u>

Benefit Obligation and Assumptions

The projected benefit obligation, accumulated benefit obligation, and fair value of the plans' assets were as follows (in thousands):

	September 30	
	2015	2014
Projected benefit obligation	\$ (922,289)	(908,910)
Accumulated benefit obligation	(919,111)	(829,877)
Fair value of plans' assets	649,835	663,472

As of September 30, 2015 and 2014, the underfunded status of the qualified defined benefit pension plans was approximately \$222.2 million and \$197.6 million, respectively, and that of the nonqualified defined benefit pension plan was approximately \$50.2 million and \$47.9 million, respectively. Additionally, there are assets limited as to use of approximately \$78.8 million and \$77.9 million, which are available to satisfy the obligations of the nonqualified defined benefit pension plan at September 30, 2015 and 2014, respectively.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The net periodic benefit cost for the years ended September 30, 2015 and 2014 is as follows (in thousands):

	Defined benefit pension plans		Postretirement benefits plan	
	2015	2014	2015	2014
Service cost	\$ 23,106	24,830	3,789	3,617
Interest cost	37,775	38,108	3,392	3,270
Expected return on plan assets	(50,700)	(46,357)	—	—
Amortization of prior service cost	(1,951)	(2,029)	(37)	86
Recognized net actuarial loss	18,306	12,147	—	—
Net periodic benefit cost	\$ 26,536	26,699	7,144	6,973

Weighted average assumptions used to determine benefit obligations at September 30, 2015 and 2014 are as follows:

	Defined benefit pension plans		Postretirement benefits plan	
	2015	2014	2015	2014
Discount rate for determining benefit obligations at year-end, qualified plan	4.3–4.4%	4.2–4.3%	4.5%	4.4%
Discount rate for determining benefit obligations at year-end, nonqualified plan	4.3%	4.4%	—	—
Rate of compensation increase	2.5–4.0%	2.5–5.0%	—	—

Weighted average assumptions used to determine net periodic benefit cost for the years ended September 30, 2015 and 2014 are as follows:

	Defined benefit pension plans		Postretirement benefits plan	
	2015	2014	2015	2014
Discount rate for determining net periodic benefit cost at year-end, qualified plan	4.2–4.3%	4.8–4.9%	4.4%	4.9%
Discount rate for determining net periodic benefit cost at year-end, nonqualified plan	4.3–4.4%	4.9%	—	—
Expected rate of return on plan assets	6.75–7.75	6.75–7.75	—	—
Rate of compensation increase	2.5–5.0%	3.5–5.0%	—	—

For measurement purposes relating to the postretirement benefits plan, a 4.0% and 5.0% annual rate of increase in the per capita cost of covered health care benefits was assumed for fiscal 2015 and fiscal 2014, respectively. Rates are assumed to decline to 4.5% through fiscal 2016.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Assumed health care cost trend rate assumptions have a significant effect on the amounts reported. A 1% change in the assumed health care cost trend rate would have the following effects (in thousands):

		<u>1% increase</u>	<u>1% decrease</u>
Effect on total of service and interest cost components	\$	50	(59)
Effect on postretirement benefit obligations		335	(381)

The asset allocation of the System's pension plans at September 30, 2015 and 2014, on a combined basis, was as follows:

<u>Asset category</u>	<u>Target allocation</u>	<u>Percentage of assets</u>	
	<u>2016</u>	<u>2015</u>	<u>2014</u>
Equity securities	42-46	46%	44%
Debt securities	17-21	22	22
All other assets	33-41	32	34
		<u>100%</u>	<u>100%</u>

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Financial assets carried at fair value, as of September 30, 2015, are classified in the following tables (see note 15 for description) (in thousands):

	Investments measured at NAV	Investments classified in the fair value hierarchy Level 1	Total
Money market funds	\$ —	30,477	30,477
U.S. equity securities	75,363	68,016	143,379

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Financial assets carried at fair value, as of September 30, 2014, are classified in the following tables (see note 15 for description) (in thousands):

	Investments measured at NAV	Investments classified in the fair value hierarchy Level 1	Total
Money market funds	\$ —	21,854	21,854
U.S. equity securities	56,742	87,735	144,477
International equity securities	61,143	77,642	138,785
Fixed income:			
U.S. government	42,800	17,018	59,818
Corporate debt	—	50,530	50,530
International government	9,489	32,038	41,527
Commodities	27,993	—	27,993
Private equity	15,267	—	15,267
Hedge funds:			
Absolute return	30,083	—	30,083
Multi strategy/other	104,755	—	104,755
Long/short equity	5,450	—	5,450
Real estate	19,444	3,489	22,933
Total investments	\$ <u>373,166</u>	<u>290,306</u>	<u>663,472</u>

There are no pension investments that are measured at fair value based on Level 2 and Level 3 inputs at September 30, 2015 or 2014.

The System's investment strategy for its pension assets balances the liquidity needs of the pension plans with the long-term return goals necessary to satisfy future pension obligations. The target asset allocation seeks to capture the equity premium granted by the capital markets over the long-term while ensuring security of principal to meet near term expenses and obligations through the fixed income allocation. The allocation of the investment pool to various sectors of the markets is designed to reduce volatility in the portfolio.

The System's pension portfolios return assumption of 7.75% is based on the targeted weighted- average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension expenses.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The future cash flows of the System relative to retirement benefits are expected to be as follows (in thousands):

	<u>Defined benefit pension plans</u>	<u>Postretirement benefit plan</u>
Estimated benefit payments related to years ending September 30:		
2016	\$ 43,852	2,131
2017	46,301	2,399
2018	49,597	2,606
2019	52,417	2,835
2020	56,199	3,073
2021 to 2025	319,889	20,305

The System expects to make contributions of approximately \$51.7 million for pension benefits and approximately \$2.1 million for postretirement benefits in fiscal 2016.

(10) Professional Liability Insurance

In 1978, Y-NHH and a number of other academic medical centers formed The Medical Centre Insurance Company Ltd. (the Captive) to insure for professional and comprehensive general liability risks. In 1997, the Captive formed MCIC Vermont, Inc. (MCIC) to write direct insurance for the professional and general liability risks of the shareholders. Since 1997, the Captive has acted as a reinsurer for varying levels of per claim limit exposure. MCIC has reinsurance coverage from outside reinsurers for amounts above the per claim limits. Premiums are based on claims made coverage, and are actuarially determined based on actual experience of the System, the Captive, and MCIC.

Y-NHH controls less than 20% of the Class A stock of MCIC; however, for accounting purposes the investment in the insurance companies is recorded on the equity method because of contractual agreements.

The System entities participate in the Y-NHH insurance program as additional insureds. All System entities initially pay premiums to Y-NHHSC. Y-NHHSC generally assumes the responsibility for ensuring that all the System members pay all premiums owed by them to MCIC. Y-NHHSC manages MCIC's operations for all other System members.

MCIC's policy is to establish retrospective-related premiums for its shareholders equivalent to estimated losses and general and administrative expenses, less estimated investment income, so that its results of operations are breakeven each year. The System accrues premiums as incurred.

The estimate for claims-made professional liabilities and the estimate for incidents that have been incurred but not reported aggregated approximately \$180.4 million and \$179.4 million at September 30, 2015 and 2014, respectively for the System. The undiscounted estimate for incidents that have been incurred but not reported aggregated approximately \$69.1 million and \$64.0 million for the System at September 30, 2015

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

and 2014, respectively, and is included in professional insurance liabilities in the accompanying consolidated balance sheets at the actuarially determined present value of approximately \$63.0 million and \$57.6 million, respectively, based on a discount rate of 2.0% and 2.50% for the years ended September 30, 2015 and 2014, respectively.

The System has recorded related insurance recoveries receivable of approximately \$117.6 million and \$121.9 million at September 30, 2015 and 2014, respectively, in consideration of the expected insurance recoveries for the total discounted claims-made insurance. The current portion of professional liabilities and the related insurance receivable represents an estimate of expected settlements and insurance recoveries over the next 12 months.

Lukan, the Y-NHH sponsored professional liability program, continues to manage all incidents and claims reported to Lukan prior to the acquisition of HSR, as well as extending professional liability coverage for post-acquisition risks to certain affiliated community clinicians.

Prior to the 2012 acquisition of HSR, Caritas provided excess professional liability and general liability insurance to HSR and their employed clinicians. Caritas continued to manage all incidents and claims reported prior to the acquisition of HSR and are included in the amounts above.

Caritas and Lukan have recorded the undiscounted estimate for claims-made professional liabilities, and the estimate for incidents that have been incurred but not reported aggregated approximately \$29.6 million at September 30, 2014, respectively, and are included in professional liabilities in the accompanying consolidated statements of financial position.

In October 2014, Y-NHH disposed of its interest in Caritas and Lukan (the Captives) through a novation agreement with Medical Centre Insurance Company, Ltd (MCIC) for a total price of approximately \$40.2 million. The novation agreement assigns and transfers all of the Captives' past, present and future rights, risks, liabilities and obligations, and transfers substantially all of the assets of the Captives to MCIC. Y-NHH dissolved the Captives in the fiscal year ended September 30, 2015.

The System's estimates for professional insurance liabilities are based upon complex actuarial calculations which utilize factors such as historical claims experience for the System and related industry factors, trending models, estimates for the payment patterns of future claims and present value discount factors. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Revisions to estimated amounts resulting from actual experience differing from projected expectations are recorded in the period the information becomes known or when changes are anticipated.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(11) Commitments and Contingencies

(a) Leases

The System leases various equipment and properties under several noncancelable operating leases that range in terms. The System is responsible for operating expenses, as defined, during the lease terms. Future minimum lease payments under these leases are as follows (in thousands):

2016	\$	43,537
2017		37,894
2018		32,653
2019		30,510
2020		14,611
Thereafter		137,229
	\$	<u>296,434</u>

The System incurred rent expense under these leases of approximately \$51.3 million and \$33.0 million for the years ended September 30, 2015 and 2014, respectively.

(b) Cancer Hospital

Y-NHH has a shared facilities and services agreement with the University in connection with the Cancer Hospital which is recorded as deferred revenue. Deferred revenue, from this agreement, at September 30, 2015 and 2014 was approximately \$42.7 million and \$44.0 million, respectively.

(c) Inpatient Rehabilitation Unit Agreement

During September 2014, Y-NHH entered into an agreement with another health care provider to provide a framework for implementing programs in a manner that is consistent with the charitable mission of each organization and the communities they serve. Under the terms of the agreement, Y-NHH will utilize beds at the health care provider's location under a lease arrangement to provide inpatient rehabilitation services to its patients. In addition, Y-NHH will furnish an \$8.0 million term loan to the health care provider.

(d) Litigation

Various lawsuits and claims arising in the normal course of operations are pending, or are in progress against the System. Such lawsuits and claims are either specifically covered by insurance as explained in note 10, or are deemed immaterial. While the outcomes of the lawsuits and claims cannot be determined at this time, management believes that any loss which may arise from these actions will not have a material adverse effect on the consolidated financial position or changes in net assets of the System.

The System has received requests for information from certain governmental agencies relating to, among other things, patient billings. These requests cover several prior years relating to compliance with certain laws and regulations. Management is cooperating with those governmental agencies in their information requests and ongoing investigations. The ultimate results of those investigations, including the impact on the System, cannot be determined at this time.

(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

(e) Affiliation Agreement

In July 2015, YNHHS entered into an affiliation agreement with Lawrence + Memorial Corporation and Subsidiaries (L+M) and its medical foundation. Under the affiliation agreement, L+M and Westerly Hospital would each continue to operate as separate Hospitals under YNHHS with YNHHS committing to make investments for various clinical specialties, primary care, and other strategic investments. During the regulatory approval process, the Connecticut Office of Health Care Access (OHCA), and the Office of the Attorney General, along with the State of Rhode Island and the Federal Trade Commission will review the proposed transaction. Upon completion of the regulatory review process, and upon receipt of the required regulatory approvals, the proposed transaction will be completed.

(12) Functional Expenses

The System provides general acute health care services to residents within its geographic areas. Net expenses related to providing these services are as follows (in thousands):

	Year ended September 30	
	2015	2014
Health care services	\$ 2,589,819	2,374,449
General and administrative	852,805	850,125
	<u>\$ 3,442,624</u>	<u>3,224,574</u>

(13) Other Revenue

Other revenue consisted of the following (in thousands):

	Year ended September 30	
	2015	2014
Cafeteria and vending	\$ 14,673	13,676
Contributions	3,406	5,495
Parking income	9,241	7,902
Net assets released from restrictions for operations	21,196	13,178
Net assets released from restrictions for free care	596	613
Net assets released from restrictions for medical research and clinical programs	881	5,269
Grants	20,168	19,533
Rental income	3,304	3,896
Electronic health records incentive payment	3,973	9,231
Foundation distributed income	2,820	2,532
Other	29,337	25,669
	<u>\$ 109,595</u>	<u>106,994</u>

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2012 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments. Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal fiscal year 2015.

The System uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized when the System is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received. Medicare EHR incentive payment revenue was approximately \$4.0 million and \$7.4 million for the years ended September 30, 2015 and 2014, respectively, and Medicaid EHR incentive payment revenue was approximately \$1.8 million for the year ended September 30, 2014. EHR incentive payment revenue is included in other revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were calculated. Additionally, the System's attestation of compliance with the meaningful use criteria is subject to audit by the federal government.

(14) Non-operating Gains and Losses, Net

Nonoperating gains and losses consisted of the following (in thousands):

	<u>Year ended September 30</u>	
	<u>2015</u>	<u>2014</u>
Income from investments, donations and other, net	\$ 5,099	3,103
Income attributable to noncontrolling interest	(5,522)	(5,992)
Change in unrealized gains and losses on investments	14,536	86,913
Change in fair value of swap, including counterparty payments	(29,678)	(17,204)
Loss on refunding of long-term debt	—	(32,631)
	<u>\$ (15,565)</u>	<u>34,189</u>

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Contributions received consisted of the following (in thousands):

	<u>2015</u>	<u>2014</u>
Unrestricted contributions	\$ 4,360	3,966
Temporarily restricted contributions	28,157	24,185
Permanently restricted contributions	<u>15,176</u>	<u>5,372</u>
Total contributions	47,693	33,523
Less fundraising costs	<u>(9,402)</u>	<u>(9,473)</u>
	<u>\$ 38,291</u>	<u>24,050</u>

During 2015, the Attorney General approved the transfer of certain philanthropic funds to Y-NHH from the Hospital of Saint Raphael and its Foundation related to Y-NHH's acquisition of the Hospital of Saint Raphael in FY 2012. The funds approved for transfer are included as contributions to temporarily restricted net assets and permanently restricted net assets totaling \$8.8 million and \$11.5 million, respectively, for the year ended September 30, 2015.

(15) Fair Values of Financial Instruments

In determining fair value, the System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The System also considers nonperformance risk in the overall assessment of fair value

ASC No. 820-10 establishes a three-tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.

Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The inputs are assigned the lowest priority.

Liabilities:				
Interest rate swaps	\$ —	—	(36,134)	(36,134)

The amounts reported in the tables as detailed above do not include assets invested in the System's defined benefit pension plan. The beneficial interest in remainder trust listed in the above tables are included in other assets. The interest rate swaps listed above are classified in the accompanying consolidated balance sheets as "other long-term liabilities" at September 30, 2015 and 2014. There are no assets or liabilities that are measured at fair value based on Level 3 inputs at September 30, 2015 or 2014.

YALE-NEW HAVEN HEALTH SERVICES CORPORATION
(d/b/a Yale New Haven Health System and Subsidiaries)

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The following is a summary of total investments as of September 30, 2015, with restrictions to redeem the investments at the measurement date, any unfunded capital commitments and investment strategies of the investees (in thousands):

<u>Description of investment</u>	<u>Carrying value</u>	<u>Unfunded commitments</u>	<u>Redemption frequency</u>	<u>Notice period</u>	<u>Funds availability</u>
Private equity	\$ 7,489	\$ 4,150	N/A	N/A	N/A
Global equity	33,887	N/A	30 days	2 years	N/A
Hedge funds:					
Absolute return	11,494	N/A	N/A	N/A	N/A

State of Connecticut
GENERAL ASSEMBLY

PUBLIC HEALTH COMMITTEE
LEGISLATIVE OFFICE BUILDING, ROOM 3000
HARTFORD, CONNECTICUT 06106-1591

December 21, 2015

Dr. Raul Pino, Acting Commissioner
Department of Public Health
410 Capitol Avenue
Hartford, CT 06106

Kimberly Martone, Director of Operations
Office of Health Care Access
410 Capitol Avenue
Hartford, CT 06106

Dear Commissioner Pino and Director Martone,

In reviewing the application of the Yale-New Haven Health Services to acquire Lawrence + Memorial Hospital, a major obstacle has emerged: none of the records which would cast light on the past actions of Yale-New Haven Health System (in acquiring Bridgeport and Greenwich Hospitals) are available. These records were not maintained beyond the seven year retention period and, as a consequence, are unavailable to both the public and to your Office and staff.

We respectfully request that, prior to any determination of "completeness" of this application (or the companion application of Yale-New Haven Health Services Corporation's Northeast Medical Group, Inc. to acquire Lawrence + Memorial Physician Association, Inc.) this gap be remedied. Specifically, in your final orders (dated June 13, 1996 for Bridgeport Hospital, December 17, 1997 for Greenwich Hospital), you requested the applicant (Yale-New Haven Health System) to fill in "Attachment 11" as evidence of compliance with your Order. Our suggestion is that the original application and the attachments to your Orders *be produced by the applicants* (since OHCA and its predecessor agencies will otherwise be unable to evaluate the current applications).

Our most accurate guide to the future (whether applicants before your agency will live up to their promises) is the past (whether they have in the past). We do not see how you could responsibly review the application before you, especially given its significant potential consequence to the consumer of health services in Connecticut, without having this evidence available. Moreover, we do not believe that the public could adequately evaluate these applications without your Office making this information

available: "What was the position of Greenwich and Bridgeport Hospitals prior to their acquisition by YNHHS, what was proposed in the applications for those acquisitions/affiliations, and what has been the result since approval of those applications?"

Very truly yours,

Terry Gerratana

January 5, 2016

The Honorable Dr. Raul Pino
Acting Commissioner of Public Health
410 Capitol Ave., P.O. Box 340308
Hartford, CT 06134

Dear Commissioner Pino:

I am writing to join a number of my colleagues in the legislature in urging your agency to analyze fully the potential impact of Yale-New Haven Health Services' proposed acquisition of Lawrence and Memorial Health's operations on health care costs, prices, access and provider diversity. This transaction will lead to a further consolidation of Connecticut's hospital and health care market. Proceeding without a full understanding of the impact this consolidation will have on health care prices in the region and access to affordable care could result in irreversible harm to patients and payers.

A report released by a coalition of consumer, health care advocacy and labor organizations supports my concern. The report, entitled *Hospital Consolidation in Connecticut: The Impact of Yale-New Haven Health System's Expansion*, describes patterns in hospital acute care inpatient discharge data that suggest that Connecticut's hospital markets are already highly concentrated and that the purchase of L+M by the Yale New Haven Health System will deepen that market concentration along the shoreline, where Yale-New Haven Health System is already a dominant actor.

The concerns raised in this report were recently validated, when the National Bureau of Economic Research released the largest study of hospital pricing for privately insured patients in history. Based on 88 million individual records, the study shows definitively that "hospital prices are positively associated with indicators of hospital market power. Even after conditioning on many demand and cost factors, hospital prices in monopoly markets are 15.3% higher than those in markets with four or more hospitals."

As co-author of Public Acts 14-168 and 15-146, let me state clearly that OHCA has both the legal authority and the obligation to request and analyze relevant cost, pricing and market data. Indeed, such

The Honorable Dr. Raul Pino

Page 2

an analysis is necessary in order meet OHCA's existing statutory duty to ensure that the proposed transaction *"will improve quality, accessibility and cost effectiveness of health care delivery in the region"* and will not *"negatively impact the diversity of health care providers and patient choice in the geographic region"* or result in market consolidation that *"adversely affects health care costs or accessibility to health care."* Thus, while the more detailed legal requirements of the formal "Cost and Market Impact Review" contained in P.A. 15-146 do not apply to this transaction, OHCA nevertheless has the power and duty to conduct a thorough review of the cost, pricing, access and provider diversity implications of the transaction in order to fulfill its obligation to preserve access to affordable, quality health care.

To fulfill this duty, in addition to any other relevant data, I urge you to request and analyze data from the applicants on prices charged by the Hospital of St. Raphael before and after its acquisition by Yale-New Haven Hospital, and similar comparative data between current risk-adjusted prices at L+M and the Yale-New Haven Health System hospitals in Bridgeport, Greenwich and New Haven. This information is necessary in order to understand the likely impact this transaction will have on regional health care costs and the prices charged at L+M post transaction. Patients and payers in southeast Connecticut, who rely on L+M services, have a right to know what impact the proposed consolidation will have on their health care costs and access to affordable, quality services.

While the Attorney General has the authority and responsibility to enforce the Connecticut Anti Trust Act in the hospital and health care market, it is increasingly clear that Anti Trust laws alone cannot protect patients and consumers from the negative impacts of health care consolidation. Health care is a unique commodity. Access to affordable, quality care close to home is a necessity. Patients often have little choice in where they are sent for care, no understanding of the true cost of care, no negotiating power and little ability to comparison shop. These are the very factors that give large integrated health systems disproportionate power to control where care is provided and the price charged for that care. This is exactly why the legislature charged OHCA with the power and duty to conduct a policy based analysis of large health care transactions to ensure that consolidation does not lead to higher costs, less consumer choice and provider diversity, and reduced access to care.

Thank you for your time and attention. I appreciate your agency's diligence in this matter.

Sincerely,

Len Fasano
Senate Minority Leader

Independent Auditor's Report

To the Board of Trustees of
Lawrence + Memorial Hospital

We have audited the accompanying consolidated financial statements of Lawrence + Memorial Hospital and its subsidiary (a subsidiary of Lawrence + Memorial Corporation, the "Hospital"), which comprise the consolidated balance sheets as of September 30, 2015 and 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Hospital at September 30, 2015 and September 30, 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual organizations and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual organizations.

The accompanying notes are an integral part of these consolidated financial statements.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

1. Significant Accounting Policies and Organization

Organization

Lawrence + Memorial Hospital (the "Hospital"), a non-profit organization incorporated under the General Statutes of the State of Connecticut, is a wholly owned subsidiary of Lawrence + Memorial Corporation (the "Corporation"). The Board of the Corporation elects a Board of Directors who manages the property and affairs of the Hospital.

Principles of Consolidation

The consolidated financial statements include the accounts of the Hospital and its wholly owned subsidiary, Associated Specialists of Southeastern Connecticut, Inc. ("Associated Specialists"). All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital's significant estimates include the collectability of patient accounts receivable, useful lives of fixed assets, estimated settlements due to third party payors, valuation of certain investments, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Regulatory Matters

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access ("OHCA").

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and its subsidiary in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents

The Hospital and its subsidiary consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Investments

Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices where available or net asset values provided by investment managers. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements

Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Hospital for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 – Quoted prices in active markets for identical assets.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets in active markets, quoted prices in markets that are not active, or can be corroborated by observable market data for substantially the same term of the assets.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others

The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates. In 2015 a significant remainder trust payment of \$4 million was received from the estate of a donor in accordance with the terms of

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

the trust document. At the time of the trust termination, the trust was recorded at \$3.2 million and based on the value of the trust received; \$.8 million was recorded as a change in value of irrevocable trusts in the Hospital's change in temporarily restricted net assets. The release from restriction of the \$4 million for use on operations was recorded on the Corporation's Statement of Operations as all gifts and development activity is recorded at the Corporation.

Assets Limited as to Use

Assets limited as to use include assets set aside by the Board of Directors and contribution receivables for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, the Hospital's interest in externally managed trusts, and unexpended bond proceeds for construction purposes are also included therein.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, or, if received as a donation, at the fair value on the date received. The Hospital provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Nonoperating Gains and Losses

Activities other than in connection with providing health care services are considered to be nonoperating.

Excess of Revenues Over Expenses

The consolidated statement of operations includes excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments

Certain investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Hospital for debt of the same remaining maturities.

Medical Malpractice Self-Insurance

The Hospital purchases claims made-based professional and general liability insurance to cover medical malpractice claims from L + M Indemnity, Ltd., a wholly owned subsidiary of the Hospital's parent. The Hospital has adopted the policy of self-insuring the tail coverage portion of its malpractice insurance coverage. Management has accrued the estimate of losses anticipated to be incurred.

Income Taxes

The Hospital and its wholly owned subsidiary, Associated Specialists, are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c) (3) of the Internal Revenue Code.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Inventories

Inventory consists of supplies, both medical and general, pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets

Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay

Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. This payout is only upon termination of employment.

Labor action update

The Hospital's negotiations with two of its three unions, AFT Healthcare, AFT-CT, AFT, AFL-CIO, Local 5049 (registered nurses) and AFT Healthcare, AFT-CT, AFLCIO, Local 5051 (licensed practical nurses and technicians) for a new contract resulted in a 4-day strike that commenced on November 27, 2013. The Hospital brought in temporary replacement workers, and, in order to provide ongoing patient care given the threat of additional, intermittent strikes, had a lockout of employees through December 18, 2013. The lockout was lifted and employees returned to work without a contract being reached. A contract was reached and ratified and the workforce had a three year contract that was signed in February 2014. The Hospital monitored the negative impact of the strike and lockout on both revenues and expenses. This impact consisted of a reduction in net revenue of approximately \$1,900,000 (unaudited) and \$12,300,000 (unaudited) of replacement workers, security and reduced salary costs during 2014.

Subsequent Events

The Hospital has performed an evaluation of subsequent events through January 5, 2016, which is the date the financial statements were issued.

2. Revenues from Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2015	2014
Gross charges from services to patients	\$ 843,024,228	\$ 795,287,303
Less: Charity care	5,427,817	5,449,069
Charges from services to patients, net of charity care	<u>837,596,411</u>	<u>789,838,234</u>
Deductions		
Allowances	485,513,042	450,251,022
State of Connecticut uncompensated care system	12,801,007	2,458,020
Total deductions	<u>498,314,049</u>	<u>452,709,042</u>
Net revenues from services to patients	<u>\$ 339,282,362</u>	<u>\$ 337,129,192</u>

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Hospital, and these differences are accounted for as allowances. The State of Connecticut has reduced Uncompensated Care Payments to all hospitals beginning July 2013 for a three year period. In 2014 and 2015, the Corporation paid cash into the State of Connecticut Uncompensated Care Pool that exceeded the amount was received from the State.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately \$4,119,679 in 2015 and decreased the Hospital's revenues by approximately \$1,584,575 in 2014.

During 2015 and 2014, approximately 36% and 35%, respectively, of net patient service revenue was received under the Medicare program, and 12% and 11%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Noncompliance could result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

Fair value for Level 1 is based upon quoted prices in active markets that the Hospital has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Hospital does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Hospital's ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Hospital believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Hospital within Level 3 of the fair value hierarchy defined above:

	Beginning October 1, 2014	Investment Income	Realized Gains	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2015
Investment pool								
Hedge funds	\$ 54,309,686	\$ 386,194	\$ 822,070	\$ (5,276,131)	\$ (238,953)	\$ 15,395,580	\$ (187,009)	\$ 65,211,437
Private equities	4,404,281	667	319,946	463,808	(108,941)	1,799,667	(504,953)	6,374,475
Funds held in trust	6,985,614	-	-	599,490	-	-	(4,000,986)	3,584,118
	<u>\$ 65,699,581</u>	<u>\$ 386,861</u>	<u>\$ 1,142,016</u>	<u>\$ (4,212,833)</u>	<u>\$ (347,894)</u>	<u>\$ 17,195,247</u>	<u>\$ (4,692,948)</u>	<u>\$ 75,170,030</u>

	Beginning October 1, 2013	Investment Income	Realized Gains	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2014
Investment pool								
Hedge funds	\$ 51,695,126	\$ 526,509	\$ 242,582	\$ 1,907,402	\$ (133,494)	\$ 339,590	\$ (268,029)	\$ 54,309,686
Private equities	1,862,538	-	386,731	262,436	(78,224)	2,047,216	(76,416)	4,404,281

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

There were no significant transfers between levels of assets for the fiscal year ended September 30, 2015.

A summary of the investment return is presented below:

	2015	2014
Investment income	\$ 1,862,864	\$ 1,936,104
Realized and unrealized (losses) gains	(9,218,819)	8,085,342
Management fees and other costs	<u>(439,538)</u>	<u>(680,378)</u>
Total return on endowment investments	<u>\$ (7,795,493)</u>	<u>\$ 9,341,068</u>

Following is additional information related to funds whose fair value is not readily determinable as of September 30, 2015.

	Strategy	Fair Value	# of Investments	Timing to Draw Down Commitments	Redemption Terms	Redemption Restrictions
Equity securities	Global developed and emerging market equity	\$ 25,921,894	2	No remaining commitments	Monthly with 10 day's notice	None
Absolute return	Long/short and long-biased equity and credit hedge funds	15,477,269	7	No remaining commitments	Annual with 90 day's notice	lock up provision of 12 months from the purchase date
Directional hedge	Long/short and long-biased equity and credit hedge funds	20,779,531	1	No remaining commitments	Quarterly with 60 day's notice	lock up provision of 25 months from the purchase date
Commodities	Commodity index	3,032,743	1	No remaining commitments	Monthly with 5 day's notice	None
Private equity	Private equity	6,374,475	9	Long term 5 years	Illiquid	Long Term 5-10 years
		<u>\$ 71,585,912</u>				

None of the funds invested in are finite lived. Unfunded commitments at September 30, 2015 total approximately \$5.4 million and relate to private equity funds. There are no liquidity restrictions in place at September 30, 2015.

4. Endowment

The Hospital's endowment consists of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The Hospital understands net asset classification guidance requires that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Hospital classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Hospital considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Hospital and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Hospital.
- The investment policies of the Hospital.

Changes in endowment net assets for year ended September 30:

	2015			Total
	Unrestricted	Temporarily Restricted	Permanently Restricted	
Endowment net assets at beginning of year	\$ -	\$ 16,369,375	\$ 2,839,683	\$ 19,209,058
Investment return				
Investment income		45,381		45,381
Net realized and unrealized gains		(1,237,769)		(1,237,769)
Total investment return	-	(1,192,388)	-	(1,192,388)
Income distribution		(140,748)		(140,748)
Endowment net assets at end of year	\$ -	\$ 15,036,239	\$ 2,839,683	\$ 17,875,922

	2014			Total
	Unrestricted	Temporarily Restricted	Permanently Restricted	
Endowment net assets at beginning of year	\$ -	\$ 15,304,434	\$ 2,839,683	\$ 18,144,117
Investment return				
Investment income	-	107,295	-	107,295

Endowment net assets at end of year	\$ -	\$ 16,369,375	\$ 2,839,683	\$ 19,209,058

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The portion of the endowment retained either by explicit donor stipulation or by net asset classification guidance is summarized as follows:

	2015	2014
Temporarily restricted net assets		
Unspent income and appreciation on permanently restricted endowments for purchase of equipment and healthcare services	<u>\$ 15,036,239</u>	<u>\$ 16,369,376</u>
Total endowment funds classified as temporarily restricted net assets	<u>\$ 15,036,239</u>	<u>\$ 16,369,376</u>
Permanently restricted net assets		
Corpus of permanently restricted contributions for which income is to be used for purchase of equipment and healthcare services	<u>\$ 2,839,683</u>	<u>\$ 2,839,683</u>
Total endowment funds classified as permanently restricted net assets	<u>\$ 2,839,683</u>	<u>\$ 2,839,683</u>

Endowment Funds With Deficits

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets.

Endowment Investment Return Objectives and Risk Parameters

The Hospital has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Strategies Employed for Achieving Endowment Investment Objectives

To achieve its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term objectives within prudent Hospital risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives

Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment and operating funds.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

5. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2015 and 2014:

	2015	2014
Funds held in trust by others	\$ 482,010	\$ 3,799,127
Contributions receivable	20,366	20,366
Free beds and plant replacement and expansion	15,036,239	16,369,376
Specific purpose reserves	<u>3,421,427</u>	<u>3,243,159</u>
	<u>\$ 18,960,042</u>	<u>\$ 23,432,028</u>

Permanently restricted net assets at September 30 are restricted to:

	2015	2014
Funds held in trust by others	\$ 3,123,914	\$ 3,208,292
Donor restricted endowment funds	<u>2,839,683</u>	<u>2,839,683</u>
	<u>\$ 5,963,597</u>	<u>\$ 6,047,975</u>

6. Property, Plant and Equipment

Property, plant and equipment consist of the following:

	2015	2014
Land and land improvements	\$ 8,904,363	\$ 8,846,232
Buildings	152,295,547	150,910,346
Equipment	<u>270,848,642</u>	<u>265,024,485</u>
	432,048,552	424,781,063
Less: Accumulated depreciation	<u>(283,857,352)</u>	<u>(265,615,130)</u>
	148,191,200	159,165,933
Construction in progress	<u>2,785,773</u>	<u>1,691,863</u>
	<u>\$ 150,976,973</u>	<u>\$ 160,857,796</u>

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

7. Long-Term Debt

	2015	2014
CHEFA Series F Revenue Bonds		
Various rate bonds, due 2016 to 2026	\$ 28,065,000	\$ 30,900,000
5.0% Term Bonds, due 2027 to 2031	8,705,000	8,705,000
5.0% Term Bonds, due 2032 to 2036	11,100,000	11,100,000
CHEFA Series G revenue bonds		
3.2% Term Bonds, due 2016 to 2023, option to extend with a maturity date of 2038	28,375,000	29,200,000
CHEFA H revenue bonds		
Variable rate bonds, due 2023 to 2034	21,405,000	21,405,000
Tax exempt lease	8,302,654	9,963,984
Capital lease obligation	53,360	112,009
Total debt outstanding	<u>106,006,014</u>	<u>111,385,993</u>
Less: Amounts classified as current	5,495,740	5,342,305
Add: Bond premium	2,428,473	2,544,115
Total long-term portion of long-term debt	<u>\$ 102,938,747</u>	<u>\$ 108,587,803</u>

On September 15, 2011 the Connecticut Health and Education Facilities Authority (“CHEFA”) issued \$58,940,000 of Series F Bonds (the “Series F Bonds”) on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the “Obligated Group” under the Series F Bond agreements). The Series F Bonds are structured with a term bonds due at various dates through July 1, 2036, with annual sinking fund payments due each July 1st. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 which began on January 1, 2012.

The tax exempt lease was obtained on June 27, 2013 in the principal amount of \$12,000,000. This is a seven year equipment lease on specific capital purchases that is administered through CHEFA and Bank of America-Merrill Lynch. This lease obligations will be amortized monthly through June 27, 2020 at a nominal annual interest rate of 1.759%.

On October 10, 2013 Series G was issued in a private placement offering with Bank of America-Merrill Lynch and CHEFA in the amount of \$29,200,000 with an interest rate of 3.20% until October 1, 2023 with an option to extend at a negotiated rate with a maturity date of July 1, 2038.

On November 5, 2013, Series H was issued by CHEFA to refinance Series E. Series H was issued in the amount of \$21,405,000 with a variable rate and a maturity date of July 1, 2034. This bond has a letter of credit guaranteed by T.D. Bank. Interest on the Series H Bonds accrues at the weekly rate and is payable on the first business day of each month commencing January 1, 2014.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Under the terms of the trust indenture for the Series F, G and H Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts sufficient to enable the Authority to pay principal and interest on the Series F, G and H Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

The Series H Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. The Hospital maintains a letter of credit in the amount of \$21,405,000 which expires on November 5, 2016. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are monthly installments. The Series H Bonds have been successfully remarketed in the past and there have been no draws on the letter of credit.

The fair value of the outstanding bonds is \$101,550,368 and \$106,215,296 at September 30, 2015 and, 2014, respectively.

Principal repayments on the outstanding long term debt are as follows:

Years	Annual Principal Repayment
2016	\$ 5,495,740
2017	5,730,772
2018	5,916,285
2019	6,142,340
2020 and thereafter	<u>82,720,877</u>
	<u>\$ 106,006,014</u>

The Hospital made cash interest payments of \$3,495,549 and \$3,566,051 in fiscal year 2015 and 2014, respectively. No interest was capitalized during 2015 or 2014.

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the plan. The plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment.

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pension as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The following table sets forth the Plans' funded status and amounts recognized in the consolidated balance sheet at September 30, 2015 and 2014 (measurement date of September 30):

	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
Change in benefit obligation				
Benefit obligation at beginning of year	\$ 156,674,809	\$ 145,789,789	\$ 837,437	\$ 1,000,744
Service cost	2,141,301	2,402,724	-	-
Interest cost	6,195,482	6,417,121	24,077	29,884
Employee contributions	41,451	69,839	-	-
Benefits paid	(7,608,334)	(7,015,362)	(91,218)	(95,403)
Actuarial loss (gain)	4,414,165	9,010,698	(15,972)	(97,788)
Benefit obligation at end of year	<u>161,858,874</u>	<u>156,674,809</u>	<u>754,324</u>	<u>837,437</u>
Change in plan assets				
Fair value of plan assets at beginning of year	115,176,724	105,860,348	-	-
Actual return on plan assets	(4,147,965)	9,861,899	-	-
Employee contributions	41,451	69,839	-	-
Employer contributions	7,400,000	6,400,000	95,403	95,403
Benefits paid	(7,608,334)	(7,015,362)	(95,403)	(95,403)
Fair value of plan assets at end of year	<u>110,861,876</u>	<u>115,176,724</u>	<u>-</u>	<u>-</u>
Funded status of the plan	(50,996,998)	(41,498,085)	(754,324)	(837,437)
Unrecognized net loss (gain) from past experience different from that assumed and effects of changes in assumptions	55,236,126	41,399,294	(443,280)	(488,085)
	4,050	79,157	-	-
Accrued benefit costs recognized in the consolidated balance sheet	<u>\$ 4,243,178</u>	<u>\$ (19,634)</u>	<u>\$ (1,197,604)</u>	<u>\$ (1,325,522)</u>
Components of net periodic benefit costs				
Service cost	\$ 2,141,301	\$ 2,402,724	\$ -	\$ -
Interest cost	6,195,482	6,417,121	24,077	29,884
Expected return on plan assets	(8,603,526)	(7,920,200)	-	-
Amortization of net loss (gain)	3,328,824	2,676,330	(60,777)	(66,454)
Net amortization and deferral	75,107	111,153	-	-
Benefit cost	<u>\$ 3,137,188</u>	<u>\$ 3,687,128</u>	<u>\$ (36,700)</u>	<u>\$ (36,570)</u>

The net actuarial loss of approximately \$4.4 million is due to a loss of approximately \$7.5 million due to a change in mortality table offset by gains due to decrease in discount rate and other changes in assumptions.

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

	2015	2014
Discount rate	4.05 %	4.51 %
Average rate of compensation increases	2.50 %	2.50 %
Expected return on assets	7.50 %	7.50 %

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2015	2014
Discount rate	4.10 %	4.05 %
Average rate of compensation increases	2.50 %	2.50 %

The Plan's asset allocations as of September 30 are as follows:

Asset Category	2015	2014
Cash	2 %	2 %
Bonds	32	24
Mutual funds	26	45
Hedge funds	40	29
	<u>100 %</u>	<u>100 %</u>

The expected rate of return on assets is calculated based on past experience.

Expected benefits to be paid under the plans are as follows:

Fiscal Years Beginning October 1,	Expected Benefits
2015	\$ 7,940,500
2016	8,280,197
2017	8,395,891
2018	8,784,310
2019	9,069,440
Expected aggregate for 5 fiscal years beginning 2020	49,712,011

Annual employer contributions are determined by the Hospital based upon calculations prepared by the plan's actuary. Expected contributions to the plans for 2016 are approximately (unaudited):

Pension	\$ 7,940,000
Retiree health	89,642

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 8% in 2015 reducing to 5.0% by the year 2020 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated post-retirement benefit obligation and service cost plus interest cost by approximately \$49,000 and \$56,000, respectively, at September 30, 2015 and 2014. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately \$45,000 and \$51,000, respectively, at September 30, 2015 and 2014.

Lawrence + Memorial Hospital
Notes to Consolidated Financial Statements
September 30, 2015 and 2014

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2015:

	Level 1	Level 2	Level 3	2015
Investments, at fair value				
Cash	\$ 2,345,782	\$ -	\$ -	\$ 2,345,782
Bonds	35,027,573	-	-	35,027,573
Mutual funds	24,119,636	4,946,910	-	29,066,546
Hedge funds	-	-	44,421,975	44,421,975
Total investments, at fair value	<u>\$ 61,492,991</u>	<u>\$ 4,946,910</u>	<u>\$ 44,421,975</u>	<u>\$ 110,861,876</u>

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2014:

	Level 1	Level 2	Level 3	2014
Investments, at fair value				
Cash	\$ 2,417,830	\$ -	\$ -	\$ 2,417,830
Bonds	27,571,791	-	-	27,571,791
Mutual funds	46,557,396	5,171,869	-	51,729,265
Hedge funds	-	-	33,457,838	33,457,838
Total investments, at fair value	<u>\$ 76,547,017</u>	<u>\$ 5,171,869</u>	<u>\$ 33,457,838</u>	<u>\$ 115,176,724</u>

There were transfers between levels during 2015 and no transfers during 2014.

The table below represents the change in fair value measurements for Level 3 investments held by the plan for the years ended September 30:

	2015	2014
Beginning balances	\$ 33,457,838	\$ 31,893,958
Realized gains	554,617	4,588,368
Fees	(204,757)	(79,614)
Unrealized losses	(3,485,723)	(2,944,874)
Purchases	14,100,000	-
Sales	-	-
Ending balances	<u>\$ 44,421,975</u>	<u>\$ 33,457,838</u>

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations combine tested theory and informed market judgment to balance investment risks with the need for high returns.

Lawrence + Memorial Hospital

Notes to Consolidated Financial Statements

September 30, 2015 and 2014

The Hospital's 401(k) plan covers eligible employees who elect to participate. Eligible employees may contribute a percentage of their salary. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Contributions charged to operations were approximately \$3,416,963 and \$3,296,282 for 2015 and 2014, respectively.

9. Functional Expenses

The Hospital provides general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2015	2014
Health care services	\$ 249,259,940	\$ 258,736,071
General and administrative	104,066,639	95,094,590
	<u>\$ 353,326,579</u>	<u>\$ 353,830,661</u>

10. Contingencies

The Hospital is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Hospital's financial position, results of operations, changes in net assets or cash flows.
