Engagement Leadership

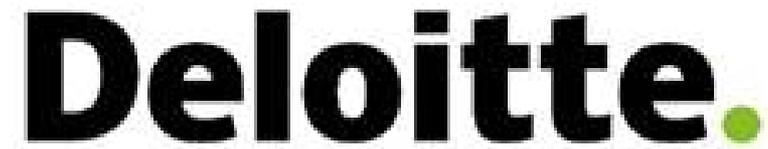

Mark Giguere

*Consultant
Advisory*

Subject Matter Expert

Mark has over 3 years of experience in the life sciences and health care industry, specifically in the areas of regulatory compliance and risk management. Mark is currently working on an IRO engagement with a large health system. Mark also supports Deloitte's Health Care Regulatory Leader advising clients on emerging health care policy. Prior to joining Deloitte, Mark consulted provider organizations on regulatory matters related to Medicare payments.

The Services will not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, we will not express an opinion or any other form of assurance as a result of performing the Services.

DRAFT
10/24/16

INDEPENDENT MONITORING PROCEDURES (per Docket Numbers 15-32032-CON and 15-32033-CON)

Condition	D&T Procedure
<p>Strategic Plan</p> <p><u>15-32033-CON Condition 4:</u> Within one hundred and eighty (180) days following the Closing Date of 9/8/16, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and YNHHS. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p> <p>NOTE 1: This applies only to Eastern Connecticut which has been defined in the Affiliation Agreement as Tolland, Windham and New London counties.</p> <p>Note 2: Refer to Condition #19 which addresses the same/similar requirements</p>	<p>D&T will obtain a copy of the Services Plan, verify timely submission, verify that it incorporates the required elements and that it meets the 3-5 year requirement.</p>
<p><u>15-32033-CON Condition 19:</u> L+M and YNHHS shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e. towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M service sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHHS affiliated facilities for specialized care not available locally. The strategic plan shall include but not be limited to the following components:</p> <ol style="list-style-type: none"> a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such 	<p>D&T will obtain the Plan and review the plan for inclusion of these required elements.</p>

Condition	D&T Procedure
<p>period. L+M shall demonstrate annual progress toward achieving these goals.</p> <p>b. YNHHS C and L+M shall abide by the resource commitments for clinical service programming as set forth in the Affiliation Agreement.</p> <p>NOTE 1: Refer to Condition #4 which addresses the same/similar requirements.</p>	
<p><u>15-32033-CON Condition 32b</u>: A narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS C’s Management Representation to OHCA that Condition 32 requirements a through e and g have been met.</p>
<p><u>15-32033-CON Condition 7</u>: Within one hundred and eighty (180) days following the Closing Date and thereafter until the capital commitment ¹is satisfied, YNHHS C shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in L+M and its affiliates from the \$300M Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:</p> <p>a. A list of the capital expenditures ²that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and</p> <p>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and</p>	<p>D&T will obtain the Plan (per 15-32033-CON Conditions #4 and #19). We will read the plan and verify that expenditures/investments made are in accordance with the Plan. D&T will confirm timely submissions of all required reports.</p>

¹ Per discussion with OHCA, we understand that “capital requirement” per this Order is intended to mean “resource commitment”. YNHHS C will describe the plan/resource commitment per Conditions #4 and #19 of this Order.

² See footnote 4.

Condition	D&T Procedure
<p>c. The funding source of the capital investment³ indicating whether it was drawn from operating revenue, capital contributions from YNHHS or another source and, if funding was drawn from another source, indicating the source.</p> <p>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 - September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th beginning, November 30, 2016. The reports shall be signed by L+MH's or L+M's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project.</p>	
<p><u>15-32033-CON Condition 5</u>: Until such time as the Services Plan is submitted⁴, YNHHS shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. NOTE 1: Cross-reference to Condition #18</p>	<p>D&T will confirm that notices of reallocation or relocation were submitted in a timely manner and published on the L+MH website within ten days.</p> <p>Per related 15-32033-CON Condition #18, D&T will confirm that any changes or reallocation of services are not in conflict with the requirements of 15-32033-CON Condition #18.</p>

³ Per discussion with OHCA, we understand that “capital investment” per this Order is intended to mean expenditures/investment made”.

⁴ The Services Plan is due 180 days after the closing date of September 8, 2016. Therefore this provision only applies until the Services Plan per Condition #4 is submitted.

Condition	D&T Procedure
<p><u>15-32033-CON Condition 18:</u> L+MH shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need.</p> <p>NOTE 1: See related Condition #1 which applies to the first 180 dates post-closing. Following that time, YNHHS C is bound by Condition #4 and the Services Plan created per Condition #4</p>	<p>D&T will confirm that these services are properly maintained by conducting site visits, and ongoing data analysis of unit and patient data.</p> <p>YNHHSC will provide a Management Attestation/Representation to OHCA that it is in compliance with 15-32033-CON Condition #18. D&T will obtain a copy of that Management Representation.</p>
<p><u>15-32033-CON Condition 32a:</u> Every six months (the "six month reports") until December 1, 2018 and each year thereafter (each an "annual report"), YNHHS C shall submit notarized reports to OHCA for the periods of January to June (due July 31") and July through December (due January 31' certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation of the continuation of all L+MH services as described herein.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS C's Management Representation to OHCA that 15-32033-CON Condition 32 requirements a through e and g have been met.</p>
Financial Reporting	
<p><u>15-32033-CON Condition 8:</u> For three (3) years following the Closing Date, YNHHS C shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report: (i) Operating performance to include operating margin, non-operating margin, and total margin; (ii) Liquidity to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) Leverage and capital structure to include long-term debt to equity, long-term debt to capitalization, unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) Additional Statistics to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and the elements</p>	<p>D&T will obtain the financial measurement report and read to confirm that the required elements are addressed in the report; we will confirm the timely submission of each report.</p>

Condition	D&T Procedure
<p>used in the calculation, unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings.</p>	
<p><u>15-32033-CON Condition 32f</u>: A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS's information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <ol style="list-style-type: none"> <li data-bbox="321 835 951 1003">i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities; <li data-bbox="321 1037 951 1604">ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories; <li data-bbox="321 1638 951 1871">iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and 	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six month reports. We will verify that the required elements are included in the report. We will confirm timely submission to OHCA.</p>

Condition	D&T Procedure
<p>iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.</p>	
<p><u>15-32032-CON Condition 7c</u>: Every six months (the "six month reports") until December 1, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of January to June (due July 31st) and July through December (due January 31st) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p>	<p>Refer to procedures for 15-32033-CON Condition #32f in the work plan above.</p>
<p><u>15-32033-CON Condition 6</u>: Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price⁵ per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period September 1, 2015-August 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the</p>	<p>D&T will obtain YNHHS's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information.</p> <p>D&T will confirm the timely submission of YNHHS's filings as required by this Order.</p> <p>* 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017</p>

⁵ Per guidance from OHCA, "total prices per unit of service" is meant to be the weighted average price across all payers per unit of service.

Condition	D&T Procedure
<p>proposed transfer of ownership does not adversely affect health care costs.</p>	<p>which is 11/30/17 and the 3rd filing is due 60 dates after the close of FY2018 which is 11/30/18.</p>
Cost and Market Impact Review	
<p><u>15-32033-CON Condition 22</u>: Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <ol style="list-style-type: none"> a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available. b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low 	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>

Condition

D&T Procedure

- margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.
- c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHSC, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHSC shall meet and confer for the purposes of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHSC is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.
 - d. The independent consultant shall report to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.
 - e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR

Condition	D&T Procedure
<p>and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.</p>	
<p><u>15-32032-CON Condition 3</u>: Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <ol style="list-style-type: none"> a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined in D. below) for L+MH and LMMG (the "annual CMIR update"). Yale New Haven shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available. b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 10a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant 	<p>Refer to procedures for 15-32033-CON Condition #22 above.</p>

Condition

D&T Procedure

to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.

- c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purpose of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.
- d. The independent consultant shall take direction from the Commissioner of the Department of Public Health. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.
- e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do so by law. The confidential information and documents shall not be public records and shall be exempt from disclosure under Connecticut General Statute Section 1-210.

Condition	D&T Procedure
<p><u>15-32033-CON Condition 23:</u> For purposes of determining the price per unit of service:</p> <ul style="list-style-type: none"> f. A "unit of service" for inpatient hospital services shall be a case categorized by an ICD-9-DM/ICD-10-DM diagnosis code or a Diagnosis-Related Group (DRG) code and identified by the Connecticut Department of insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently occurring acute care hospital inpatient primary diagnoses, the fifty most frequently provided acute care hospital inpatient principal procedures, and the twenty-five most frequent inpatient surgical procedures. g. A "unit of service" for outpatient hospital services shall be a procedure or service categorized by a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding (HCPC) code and identified by the Connecticut Department of Insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently provided outpatient procedures, the twenty-five most frequent outpatient surgical procedures and the twenty-five most frequent imaging procedures performed in the state. h. A "unit of service" for physician services shall be a work Relative Value Unit (wRVU). i. The baseline to be established as of the Date of Closing for L+M's total price per unit of service for physician services and inpatient and outpatient hospital services is inclusive of all administrative overhead, other ancillary fees including, but not limited to facility fees and the total price per unit shall reflect the total price of such service. j. All administrative costs for overhead, ancillary fees, facility fees or any other fees which are reflected in the total price per unit shall be determined by the independent consultant to be within any annual cap established. 	<p>D&T will obtain a copy of the CMIR performed by the Independent Consultant. D&T will meet annual with the Independent Consultant.</p> <p>D&T will not perform any additional procedures in the role of Monitor as it relates to 15-32033-CON Condition #23.</p>
<p><u>15-32032-CON Condition 4:</u> For purposes of determining the price per unit of service:</p> <ul style="list-style-type: none"> a. insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently occurring acute care hospital inpatient primary diagnoses, the fifty most frequently provided acute care hospital inpatient principal procedures, and the twenty-five most frequent inpatient surgical procedures.

- b. A "unit of service" for outpatient hospital services shall be a procedure or service categorized by a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding (HCPC) code and identified by the Connecticut Department of Insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently provided outpatient procedures, the twenty-five most frequent outpatient surgical procedures and the twenty-five most frequent imaging procedures performed in the state.
- c. A "unit of service" for physician services shall be a work Relative Value Unit (wRVU).
- d. The baseline to be established as of the Date of Closing for L+M's total price per unit of service for physician services and inpatient and outpatient hospital services is inclusive of all administrative overhead, other ancillary fees including, but not limited to facility fees and the total price per unit shall reflect the total price of such service.
- e. All administrative costs for overhead, ancillary fees, facility fees or any other fees which are reflected in the total price per unit shall be determined by the independent consultant to be within any annual cap established.

Condition	D&T Procedure
<p><u>15-32033-CON Condition 20a</u>: L+M and YNHHS shall maintain the current L+MH and Lawrence & Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p>	<p>D&T will evaluate and verify that contracts are maintained in accordance with this condition.</p>
<p><u>15-32033-CON Condition 32c</u>: Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of paragraphs (20), (21) and (22) above.</p>	<p>For 15-32033-CON Condition 32c, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32c requirements have been met.</p>
<p><u>15-32032-CON Condition 1</u>: Lawrence & Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p> <p>Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p>	<p>Refer to procedures for 15-32033-CON Condition #20 above.</p>

Condition	D&T Procedure
<p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to a cap determined through the process set forth in Paragraphs 3 and 4 below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	
<p><u>15-32032-CON Condition 7a</u>: Every six months (the "six month reports") until December 1, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of January to June (due July 31st) and July through December (due January 31st) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <ol style="list-style-type: none"> a. Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of paragraphs (20), (21) and (22) above. 	<p>Refer to procedures for 15-32033-CON Condition #32f.</p>
<p><u>15-32033-CON Condition 20b</u>: Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation and in addition as set forth in paragraph 25 herein. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p>	<p>D&T will obtain the Independent Consultant/CMIR Report which should address/provide analysis to confirm paragraphs 2 and 3 of 15-32033-CON Condition #20. D&T as the Monitor will not independently perform additional/separate procedures related to paragraphs 2 and 3 of 15-32033-CON Condition #20.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 21a:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph 20 above, i.e. physicians providing services through NEMG to L + M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>Refer to procedures related to 15-32033-CON Conditions #4 and #19 (the Services Plan). D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21a.</p>
<p><u>15-32032-CON Condition 2a:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph I above, i.e. physicians providing services through NEMG to L+M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>Refer to procedures for 15-32033-CON Condition #21a above.</p>
<p><u>15-32033-CON Condition 21b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 20: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 20.</p>	<p>D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21b.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 2b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>b. Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 1: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 1.</p>	<p>Refer to procedures for 15-32033-CON Condition #21 above.</p>
Independent Monitor	
<p><u>15-32033-CON Condition 15:</u> Within sixty (60) days after the Closing Date, YNHHS shall contract with an Independent Monitor who has experience in hospital administration and regulation. The Independent Monitor shall be retained at the sole expense of YNHHS. Representatives of OHCA and FLIS will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years⁶ following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the conditions set forth herein.</p>	<p>D&T and YNHHS will execute an Engagement Letter by the required date. A copy of this Engagement Letter will be provided to OHCA.</p>

⁶ The Monitor may be required for only 1 (one) year or up to five (5) years as determined in writing by OHCA.

Condition	D&T Procedure
<p>NOTE: See Condition #33a (appointment of Monitor requirement)</p>	
<p><u>15-32033-CON Condition 33</u>: In addition to the above, L+M and YNHHSC make the following commitment for a period of five years post-Closing:</p> <ol style="list-style-type: none"> a. L+M and YNHHSC shall appoint an independent monitor at their own cost (selected by YNHHSC and L+M and approved by OHCA) to serve as a post-transfer compliance monitor. b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. e. If the Independent Monitor determines that YNHHSC and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSC and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHSC and L+M for the purpose of determining compliance and any appropriate connective action plan. If YNHHSC and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material 	<p>For 15-32033-CON Condition #33a, refer to 15-32033-CON Condition #15.</p> <p>15-32033-CON Condition #33b – D&T will meet with CHNA/CHIP Steering Committee in March 2017 for an initial introduction and will meet with this group annually thereafter to present the annual Monitor report. Relative to (ii), Refer to the procedures performed per Conditions #11 and #31. Minutes will be maintained by D&T of these meetings and provided to OHCA upon request.</p> <p>With respect to 15-32033-CON #33d, D&T will confirm that YNHHSC has held a public forum including members of the CHIP (Community Health Improvement Program) group.</p> <p>With respect to 15-32033-CON #33e, D&T agrees to provide written notice of any deficiencies as required.</p>

Condition	D&T Procedure
<p>negative impact and what remedy is reasonably necessary to bring YNHHSC and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653. In addition, in the event OHCA determines YNHHSC and L+M are in material non-compliance, OHCA may order YNHHSC and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p><u>15-32032-CON Condition 8</u>: In addition to the above, L+M and YNHHSC make the following commitment for a period of five years post-Closing:</p> <ol style="list-style-type: none"> a. L+M and YNHHSC shall appoint an independent monitor at their own cost (selected by YNHHSC and L+M and approved by OHCA) to serve as a post-transfer compliance monitor. b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. e. If the Independent Monitor determines that YNHHSC and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSC and L+M in writing 	<p>Refer to procedures for 15-32033-CON Condition #33 a through e above.</p>

Condition	D&T Procedure
<p>regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHS and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHS and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHS and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653 In addition, in the event OHCA determines YNHHS and L+M are in material non-compliance, OHCA may order YNHHS and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p><u>15-32033-CON Condition 16</u>: The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis⁷ to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHS will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall di with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.</p>	<p>D&T will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHS, OHCA, and FLIS.</p> <p>Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.</p>

⁷ The semi-annual basis will be defined as six months post-closing and on the anniversary of the closing date to coincide with meetings with the community representatives per Conditions # 33b and 33d

Condition	D&T Procedure
<p data-bbox="180 359 428 390">Community Benefit</p> <p data-bbox="180 443 935 772"><u>15-32033-CON Condition 11:</u> The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years after the Closing Date consistent with L+MH's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as L+MH's current programs, and the Applicants shall apply no less than a 1% increase per year for the next three (3) years toward the L+MH's community building activities in terms of dollars spent.</p> <p data-bbox="180 810 932 1010">In determining L+MH's participation and investment in both community benefits and community building activities, the Applicants shall address the health needs identified by the applicable CHNA in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.</p> <p data-bbox="228 1047 948 1413">a. On an annual basis, YNHHSC shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing for three years and shall be posted on L+MH's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p data-bbox="967 443 1365 705">D&T will obtain L+MH's most recent Schedule H of IRS Form 990 to act as a baseline. We will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met.</p> <p data-bbox="967 726 1365 1056">D&T will also obtain the YNHHSC report/summary on the amounts and uses related to community benefits and community building per the categories identified in the CHNA. D&T will confirm that these documents are filed in a timely manner and posted to the L+MH website.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 31:</u> L+M and YNHHSC have agreed to maintain at least the same level of community benefit consistent with L+M's most recent Schedule H of IRS Form 990 and its Community Health Needs Assessment (CHNA). L+M and YNHHSC agree to conduct an updated Community Health Needs Assessment by no later than December 31, 2016, and provide services in accordance with implementation plan adopted as part of the updated CHNA process and provide OHCA with its updated CHNA within thirty days of its approval.</p>	<p>After obtaining L+M's baseline Schedule H of IRS Form 990, D&T will obtain and confirm that L+M and YNHHSC have increased community benefit by 1% per year for the first three (3) years of this agreement. Thereafter for years 4 and 5, we will confirm that the level of community benefit provided in year 3 was at least maintained (not required to increase in years 4 and 5).</p> <p>Cross-reference to 15-32033-CON Condition #11.</p>
<p><u>15-32033-CON Condition 32h:</u> A narrative description of L+M's community benefit commitments described herein, including without limitation the amounts spent and a description of such spending to support and invest in the communities that L+M serves.</p>	<p>Relative to 15-32033-CON Condition #32h, see procedures performed for 15-32033-CON Conditions #11 and #31.</p>
<p><u>15-32033-CON Condition 12:</u> The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHHSC shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population.</p>	<p>D&T will obtain and review interpreter services policies and contracts as applicable. Additionally, our team will obtain a cultural competency plan, training, as well as related policies. We will also obtain YNHHSC's report and supporting documents and confirm the timely filing of these materials.</p>

Condition	D&T Procedure
Charity Care Policies	
<p><u>15-32033-CON Condition 9</u>: Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law, OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>Deloitte will obtain copies of the relevant financial assistance policies and confirm that L+MH has adopted YNHHS's financial assistance policies (or policies at least as generous as these policies) using management approval of the policies as evidence. After verifying that this step has been properly completed, we will confirm that these policies are properly posted on L+MH's website.</p>
<p><u>15-32033-CON Condition 10</u>: For three (3) years following the Closing Date, YNHHS shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services policies of L+MH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>After obtaining original L+MH policies on charity care, indigent care, and community volunteer services, D&T will read and assess these policies on an annual basis for changes. When changes are made to these policies, we will confirm OHCA is notified (as required) and revised policies are posted to the L+MH website.</p>
<p><u>15-32033-CON Condition 32e</u>: Affirmation that L+M has adopted the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.</p>
Employment Conditions	
<p><u>15-32033-CON Condition 27</u>: L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place.</p>	<p>D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #27 has been met.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 32g</u>: Affirmation of the labor and employment commitments described herein, including but not limited to L+M's service sites continued honoring of collective bargaining agreements in place as of the date hereof.</p>	<p>See others below</p>
<p><u>15-32033-CON Condition 28</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHSC affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #28 has been met.</p>
<p><u>15-32032-CON Condition 6</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHSC affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>Refer to procedures for 15-32033-CON Condition #28.</p>
<p><u>15-32033-CON Condition 29</u>: L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #29 has been met.</p>
<p><u>15-32033-CON Condition 30</u>: L+M and YNHHSC shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #30 has been met.</p>
<p>Governance</p>	

Condition	D&T Procedure
<p><u>15-32033-CON Condition 14</u>: For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH' s Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>Verify that the designated Board member(s) meet this condition, as confirmed by OHCA.</p>
<p><u>15-32033-CON Condition 17</u>: For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHS Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm that notice of the public meetings is posted with proper notice.</p> <p>D&T will attend the public meetings as part of the Monitor role.</p>
<p><u>15-32033-CON Condition 26</u>: As described in the Affiliation Agreement, YNHHS is committed to maintaining local governance at L+M. The L+M Board of Directors shall continue as a fiduciary board composed of a majority of members who reside in the communities served by L+M with the only change in composition being the addition of the President/CEO of YNHHS (or his or her designee) serving as an ex-officio member. Each director of the L+M Board of Directors shall have an equal vote. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. Subject to certain reserved powers for YNHHS, the L+M Board of directors will have the right to approve any major new programs and clinical services, or the discontinuation or consolidation of any such programs.</p>	<p>D&T will obtain and evaluate the Board of Directors bylaws to confirm that L+M Board maintains rights and powers specified in the Order.</p>
<p>Licensure, Physician Office Conversion, Cost Savings Attainment</p>	
<p><u>15-32033-CON Condition 13</u>: The Applicants shall abide by all requirements of licensure that may be imposed by the Facility Licensing and Investigations Section ("FLIS") of the Department of Public Health ("DPH") in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA</p>	<p>D&T will obtain the survey/certification results as applicable (if surveys occur). We will confirm licensure via an</p>

Condition	D&T Procedure
<p>is imposing this Condition to ensure that quality health care services are provided to the patient population.</p>	<p>annual YNHHSC Management Representation.</p>
<p><u>15-32033-CON Condition 24</u>: L+M and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #24 has been met.</p>
<p><u>15-32033-CON Condition 32d</u>: Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #32d has been met.</p>
<p><u>15-32032-CON Condition 5</u>: L+MH and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #24 above.</p>
<p><u>15-32032-CON Condition 7b</u>: Every six months (the "six month reports") until December 1, 2018 and each year thereafter (each an "annual report"), YNHHSC shall submit notarized reports to OHCA for the periods of January to June (due July 31st) and July through December (due January 31st) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #32f above.</p>
<p><u>15-32033-CON Condition 25</u>: L+M shall attain cost savings as a result of the affiliation with YNHHSC as described in the CON application.</p>	<p>D&T will obtain and read YNHHSC's reporting created per 15-32033-CON condition #32f.</p>

Subject: OHCA Conditions Document for Docket Numbers: 15-32033-CON and 15-32032-CON

Kim,
Attached please find the document we discussed yesterday. Nancy and I attempted to document the discussions that we have had regarding integrating the conditions and providing a coordinated way of addressing them. Once you've had time to review it, we look forward to discussing it with you. You will receive Deloitte's qualifications and workplan early next week. Thank you very much for working with us on this.

Review of OHCA Conditions

Strategic Plan

15-32033-CON CONDITIONS 4 / 19 / 32b

Submit Strategic Plan by 3/7/2017
and report for 5 years

15-32033-CON CONDITION 7

Until Capital Commitment Is Satisfied
or 5 years

- YNHSC shall submit a strategic plan by March 7th, 2017 (180 days after Closing Date) demonstrating how health care services will be provided by L+MH for five years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the “Services Plan”). The strategic plan must include recruiting and retaining eight (8) additional PCPs and other providers to Eastern CT (New London, Windham and Tolland counties). The PCPs are defined as physicians in internal medicine, family practice, pediatrics, OB/GYN and geriatrics. The achievements attained in the strategic plan will be reported semi-annually for the 1st year (60 Days after March 31st and September 30th) and annually thereafter for a total of 5 years (Condition 32f), until March 31, 2021
- YNHSC shall submit to OHCA a narrative report on the resource investments (“Resource Investment Report”) it has made in L+M in semi-annually and its affiliates from the \$300M Commitment Amount. It must include list of expenditures, why the expenditure, and timeframe, and the funding source. The reports shall be signed by L+MH’s or L+M’s Chief Financial Officer. The first reporting period is through March 31st 2017 (Report due May 31st), the second reporting period is April 1, 2017 – September 30th, 2017 (report due November 30th, 2017). Semi-Annual reporting shall continue for 3 years ending September 30th, 2019 (Report due November 30, 2019).

15-32033-CON CONDITION 5

Until Services Plan Submitted

- YNHSC shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date.

15-32033-CON CONDITIONS 18 / 32a

5 Years

- L+M Hospital shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need. Affirmation that these services will continue for 5 years. Reporting periods will be 60 days after March 31, 2017 and September 30, 2017 (Reports due May 31 and November 30th 2017) and on an annual basis thereafter (60 days after September 30) each year thereafter for a total of 5 years. (Ending September 30th 2021)

Review of OHCA Conditions

Financial Reporting

15-32033-CON CONDITION 6 3 Years

- The Applicants shall file with OHCA the total price (weighted average price for all government and non-governmental payers) per unit of service for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. This will be reported at the end of each fiscal year for 3 years.

15-32033-CON CONDITIONS 8 3 Years

- YNHSC shall submit to OHCA a semi-annual financial measurement report. This report must show current month and year-to-date data and comparable prior year period data for L+MH and L+M. It includes various financial indicators related to margins, liquidity, leverage, and other statistics. The first reporting period is through March 31st 2017 (Report due May 31st), the second reporting period is April 1, 2017 – September 30th, 2017 (report due November 30th, 2017). Semi-Annual reporting shall continue for 3 years ending September 30th, 2019 (Report due November 30, 2019).

15-32033-CON CONDITIONS 32f 15-32032-CON CONDITION 7c 5 Years

- A five year synergy financial plan will be submitted by March 7, 2017. This plan will provide a 5 year projection of synergies expected broken down by fiscal year, resulting from non-clinical shared services opportunities such as L+M's integration of YNHSC Information Technology systems and platforms, supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital and L+M's participation in population health initiatives. Annually, YNHSC shall also submit reports 100,150,175 or successor reports. The first reporting period for all of the reports is through March 31st (Report due by May 31st). Reporting periods will be 60 days after March 31, 2017 and September 30, 2017 (Report due May 31 and November 30th 2017) and on an annual basis thereafter (60 days after September 30) each year thereafter for a total of 5 years. (Ending September 30th 2021)

Review of OHCA Conditions

Cost and Market Impact Review

Continued

15-32033-CON CONDITION 22

15-32032-CON CONDITION 3

5 Years,
Initiate by 12/7/2016

- YNHHS shall initiate a cost and market impact review, within 90 days (12/7/2016) of the Closing date to establish a baseline cost structure and total price per unit of service for L+MH and LMMG, and establish a cap on the annual increase in the total price per unit of service. YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline Cost and Market Impact Review ("CMIR") and annual updates and pay all costs associated with the CMIR. The report shall analyze factors relative to L+MH and LMMG and the Eastern CT market including: a) L+MH and LMMG's size and market share within their primary and secondary service areas; b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern CT; c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; d) availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; g) general market conditions for hospitals and medical foundations in the state and in Eastern CT; and h) other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern CT. If the review finds a likelihood of materially increased prices as a result of the affiliation, DPH and YNHHS must meet to create a performance improvement plan to address the conditions and the Commissioner of DPH will determine whether YNHHS is in compliance. Prior to the end of each fiscal year, the consultant will conduct the annual CMIR update and use the results to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. The consultant will report to DPH and provide reports to OHCA within 30 days of completion of the report, which shall be kept confidential. The consultant, in establishing the cap, shall take into consideration the cost reductions resulting from the affiliation and the annual cost of living of the primary service area of Eastern CT.

15-32033-CON CONDITION 23

15-32032-CON CONDITION 4

5 Years

- For purposes of determining the price per unit of service:
 - (a) A "unit of service" for inpatient hospital services shall be a case categorized by an ICD-9-DM/ICD-IO-DM diagnosis code or a Diagnosis-Related Group (DRG) code and identified by the Connecticut Department of Insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently occurring acute care hospital inpatient primary diagnoses, the fifty most frequently provided acute care hospital inpatient principal procedures, and the twenty-five most frequent inpatient surgical procedures.
 - (b) A "unit of service" for outpatient hospital services shall be a procedure or service categorized by a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding (HCPC) code and identified by the Connecticut Department of Insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently provided outpatient procedures, the twenty-five most frequent outpatient surgical procedures and the twenty-five most frequent imaging procedures performed in the state.
 - (c) A "unit of service" for physician services shall be a work Relative Value Unit (wRVU).
 - (d) The baseline to be established as of the Date of Closing for L+M's total price per unit of service for physician services and inpatient and outpatient hospital services is inclusive of all administrative overhead, other ancillary fees including, but not limited to facility fees and the total price per unit shall reflect the total price of such service.
 - (e) All administrative costs for overhead, ancillary fees, facility fees or any other fees which are reflected in the total price per unit shall be determined by the independent consultant to be within any annual cap established.

Review of OHCA Conditions

Cost and Market Impact Review

Continued

15-32033-CON CONDITIONS 20a / 32c

**15-32032-CON
CONDITIONS 1 / 7a**
Commercial plan contracts maintained until 12/31/2017, and no rate increase during this period. rate increase subject to price cap until 9/8/2021 for L+MH

- L+MH shall maintain the current L+M Hospital commercial health plan contracts and rates through 12/31/2017, although scheduled increases previously negotiated prior to the date of Closing (9/8/2016) may be maintained. Any L+MH commercial plan contract that expires prior to 12/31/2016 shall be extended to 12/31/2017 and any contracts without an expiration date shall be continued (as of Closing date 9/8/2016), under their current negotiated term, to 12/31/2017. No negotiations for price increases shall take place between 9/8/2016 and 12/31/2017. After 12/31/2017, L+MH shall negotiate new rates based on L+MH's post-Closing cost structure, taking into account price or cost reductions, i.e. efficiencies, achieved as a result of the affiliation. No single system-wide rates shall be imposed and negotiated rates should be reflective of the market conditions of hospitals in Eastern CT. Any annual increase in the total price per unit of service for L+MH shall be subject to a price cap determined through the process identified in OHCA Condition 22 (CMIR process). An annual price cap will remain in place until 9/8/2021 (5 years). Affirmation that commercial Health Plans are in place as of closing date are maintained new contracts and consistent with Conditions 20a, 21a and 22

15-32033-CON CONDITIONS 20b / 32C

**15-32032-CON
CONDITION 1**
Commercial plan contracts maintained until 12/31/2017, and no rate increase during this period. Rate increase subject to price cap until 1/8/2019 for LMMG.

- LMMG shall maintain the current LMMG commercial health plan contracts and rates through 12/31/2017, unless scheduled increases previously negotiated prior to the date of Closing (9/8/2016) shall be maintained. Any LMMG commercial plan contract that expires prior to 12/31/2016 shall be extended to 12/31/2017 and any contracts without an expiration date shall be continued as of 9/8/2016, under their current negotiated term, to 12/31/2017. No negotiations for price increases shall take place between 9/8/2016 and 12/31/2017. After 12/31/2017, LMMG shall negotiate new rates based on LMMG's post-Closing cost structure, taking into account and price or cost reductions, i.e. efficiencies, achieved as a result of the affiliation. Negotiated rates should be reflective of the market conditions of like medical foundations in Eastern CT. Any annual increase in the total price per unit of service for LMMG shall be subject to a price cap determined through the process identified in OHCA Condition 22 (CMIR process). The process to establish annual price cap will remain in effect from 12/31/2017 until 1/8/2019 (28 months). Affirmation that commercial health plans in place as of closing date are maintained and any new plans are consistent with Conditions 20b, 21b, 22

Review of OHCA Conditions

Cost and Market Impact Review

Continued

**15-32033-CON
CONDITION 21a**

**15-32032-CON
CONDITION 2a**
After Closing

- LMMG and NEMG will align by 1/1/2017. When NEMG is able to charge site specific prices for LMMG physicians and therefore abide by LMMG commercial health plan contracts and price caps, then LMMG and NEMG may merge. OHCA will be notified when the merger is completed.

**15-32033-CON
CONDITION 21b**

**15-32032-CON
CONDITION 2b**
28 Months until 1/8/2019.

- Physicians who are hired, recruited, or contracted by YNHHS to provide services in the primary service area (East Lyme, Lyme, Old Lyme, Groton, Ledyard, Montville, New London, North Stonington, Preston, Salem, Stonington and Waterford) in the following specialties: family medicine, general medicine, internal medicine, OBGYN, endocrinology, and psychiatry, shall be required to bill at the same rate as LMMG until 1/8/2019 (28 months).

Review of OHCA Conditions

Independent Monitor

15-32033-CON CONDITION 15 / 33

15-32032-CON CONDITION 8 By 11/7/16 and for 5 Years

- Within sixty (60) days after the Closing Date, YNHSC shall contract with an independent Monitor who has experience in hospital administration and regulation to serve as a post-transfer monitor. The Independent Monitor shall be retained at the sole expense of YNHSC. Representatives of OHCA and FLIS will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.
- The monitor shall meet with community representatives six months after the 9/8/2016 Closing date (March 7, 2017) and annually thereafter and shall report to OHCA: a) L+M's compliance with the CON Order and b) the level of community benefits and uncompensated care provided by L+M during the prior period. The Monitor will report to OHCA within 30 days of its on-site reviews and meet with OHCA and FLIS to discuss its written reports. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out his/her duties. L+MH shall hold a public forum in New London 180 days after the Closing date (March 7, 2017) and not less than annually thereafter during the five year monitoring period to provide public review and comment on the monitor's reports and findings. If the monitor determines that YNHHS and L+MH are substantially out of compliance with the CON conditions, the monitor shall issue a notice to YNHHS and L+MH regarding the deficiency(is). Within two weeks of receiving the notice, the monitor will convene a meeting with representatives of YNHHS and L+MH to determine an appropriate corrective plan of action. If the plan is not implemented by YNHHS and L+MH satisfactory to the monitor within thirty (30) days of the meeting, the monitor shall report the noncompliance and its impact on health care costs and accessibility to OHCA. OHCA will determine whether the non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHS and L+MH into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, and the right to impose and collect a civil penalty. In the event OHCA determines that YNHHS and L+MH are in material non-compliance, OHCA may order YNHHS and L+MH to provide additional community benefits as necessary to mitigate the impact.

15-32033-CON CONDITION 16 2 Years

- The Independent Monitor will report to both OHCA and FLIS, conduct on-site visits no less than a semi-annual basis, and report to OHCA within 30 days of the on-site review. As necessary, the Independent Monitor will meet with OHCA and FLIS to discuss its written reports. At a minimum, two years duration.

Review of OHCA Conditions

Community Benefit

15-32033-CON CONDITION 11 3 years

15-32033-CON CONDITION 31/32h 5 years

- The Applicants shall apply no less than a 1% increase per year, for the next 3 fiscal years, toward the L+MH's community building activities in terms of dollars spent, consistent with L+M's most recent Scheduled H of IRS Form 990 and its Community Health Needs Assessment (CHNA). . Annually, for 3 years (ending September 30, 2019), YNHSC shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within 30 days of the end of the fiscal year and shall be posted on L+MH's website. Condition 31 – submission to OHCA of the 2016 CHNA and CHIP has been completed.
- After the 3 years, and for the subsequent 2 years of the total 5 year period, L+M and YNHSC will be provide at least the same level of community benefit consistent with L+MH's most recent Schedule H with IRS Form 990 and its CHNA. The narrative should provide a description of L+MH's community benefit commitments in the communities L+M serves and amounts spent.

15-32033-CON CONDITION 12 3 Years

- The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHSC shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website.

Review of OHCA Conditions

Charity Care Policies

15-32033-CON CONDITION 9 Following Closing

- L+MH will adopt YNHSC's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies. Any new policies will be provided to OHCA once approved by the L+MH Board. Post to L+MH website.

15-32033-CON CONDITION 10 3 years

15-32033-CON CONDITION 32e 5 years

- For 3 years, YNHSC shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services policies of L+M Hospital within 30 days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. All adopted or amended policies are at least as generous as the YNHHS Charity and Free Care policies. Affirmation that L+M has adopted the financial assistance policies to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year).

Review of OHCA Conditions

Employment Conditions

15-32033-CON CONDITIONS 27 / 32g 5 Years

- L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place. Affirmation provided to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year).

15-32033-CON CONDITIONS 28 / 32g 15-32032-CON CONDITION 6 5 Years

- Employees of any L+M affiliate or LMMG shall not be required to reapply for their positions as a result of the affiliation. Affirmation provided to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year). To the extent that any L+M or LMMG employees leave their employment at L+M or LMMG service sites within ninety days following the Closing Date and obtain employment with a YNHSC affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service). Affidavit will be sent in after 12/7/16

15-32033-CON CONDITIONS 29 / 32g 5 Years

- L+MH shall maintain its current wage and salary structures for its non-bargaining or nonrepresented employees based on hospitals of similar scope, size and market conditions in Connecticut. Affirmation provided to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year).

15-32033-CON CONDITIONS 30 / 32g 5 Years

- L+M and YNHSC shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs. Affirmation provided to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year).

Review of OHCA Conditions

Governance

15-32033-CON CONDITION 14 3 Years

- For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA shall be notified of the Applicant's choice of the community representative to join the L+MH Board and provide background information.

15-32033-CON CONDITION 17 3 years

- Joint meeting of YNHHS and L+M Boards to be held at least twice annually for 3 years ending October 7, 2019. Meetings to be followed by a public meeting to which the public is invited in advance and the public is informed of L+MH's activities and may ask questions and comment. Affirmation will be sent to OHCA that these meetings have taken place.

15-32033-CON CONDITION 26 5 Years

- L+M Board continues as a fiduciary board composed of members who reside in the communities served by L+MH and an YNHHS representative. Serving as an ex-officio member. Each Director of the L+MH Board shall have an equal vote, and subject to certain reserved powers for YNHHS, will have the right to approve any new programs and clinical services, or the discontinuation or consolidation of programs. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. L&M's bylaws will be submitted to OHCA and any future modifications will be sent to OHCA. Affirmation provided annually for 5 years ending September 30th, 2021.

Review of OHCA Conditions

Licensure, Physician Office Conversion, Cost Savings Attainment

**15-32033-CON
CONDITION 13**
5 Years

- Abide by all requirements of licensure by FLIS and DPH. Affirmation provided annually, ending September 30th 2021.

**15-32033-CON
CONDITION 24 / 32d**
**15-32033-CON
CONDITIONS 5 / 7b**
5 Years

- L+M and YNHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status. Affirmation provided to OHCA on March 31 and September 30, 2016 and annually thereafter until September 30th 2021 (Report due November 30th each year).

**15-32033-CON
CONDITION 25**
5 Years

- L+M shall attain cost savings as a result of the affiliation with YNHSC as described in the CON application. Affirmation provided annually, ending September 30th 2021.

Kim and Karen,

For your review, attached please find the Engagement Letter between Yale New Haven Health System and Deloitte to act as Independent Monitor. In the Engagement Letter "Appendix A" is the monitoring plan which I sent to you yesterday.

I look forward to hearing from you regarding next steps.

Thank you.
Gayle

October 24, 2016

Bill Aseltyne
Senior Vice President & General Counsel
Yale-New Haven Hospital/Yale New Haven Health System
789 Howard Ave., CB 230
New Haven, CT 06519

Dear Bill,

This engagement letter is to confirm the engagement of Deloitte & Touche LLP (“D&T” or “we”), effective as of the date hereof, to provide Yale New Haven Health Services Corporation and its subsidiaries (collectively referred to as “YNHHSC” or the “Company”) the services described below (the “Services”).

Scope and Approach

We understand you are seeking an independent monitor related to the agreed settlement (“Agreement” or “Order”) between YNHHSC and State of Connecticut’s Office of Health Care Access (“OHCA”) to monitor the YNHHSC’s compliance with the Conditions of the Order in the transfer of ownership of Lawrence and Memorial Corporation and its subsidiaries to YNHHSC.

Specific anticipated activities we will assist YNHHSC with will include two work streams:

Workstream 1: Assist YNHHSC with the planning and preparing for monitoring reviews

- Hold kick-off with YNHHSC responsible persons to discuss the monitor requirements
- Meet with the Connecticut Office of Health Care Access (OHCA), as requested
- Review and agree upon with YNHHSC and OHCA, as applicable, the elements of monitor services as documented in the work plan in Appendix A.

Workstream 2: Assist YHHHS with the independent monitoring activities

- Refer to Appendix A for a detailed monitor work plan which describes the various required activities and activities associated with each condition of the Order.

We anticipate providing our services both off-site and on-site. Where possible we will perform analysis and preparation activities remotely. We anticipate providing these services for a period of approximately two years (as requested by YNHHSC based on requirements of OHCA).

Engagement Team

Kelly J. Sauders, Partner, Deloitte & Touche LLP, will serve as the lead engagement leader to provide oversight and direction. Ed Sullivan, Principal, Deloitte & Touche LLP will serve as the quality assurance partner, supporting Kelly and the team in the execution of the work. Kaitlin McCarthy, Manager, Deloitte & Touche LLP, will serve as the overall project manager. Additional support will be provided by other professionals from Deloitte & Touche LLP's Regulatory & Compliance practice, as needed, during the course of this engagement.

Deliverables

The following deliverables will be produced during the course of this engagement:

Workstream 1: Assist YNHHS with planning and preparing for monitoring reviews

1. D&T will create and maintain a written plan for fulfilling the duties set forth in the agreement.

Workstream 2: Assist YNHHS with independent monitoring activities

1. D&T will draft and submit a written report within thirty (30) days of the completion of each (semi-annual) on-site review on YNHHS compliance with the conditions of the Order, totaling two reports per reporting year.

Professional Fees and Timing

The total fees related to this engagement are estimated as follows:

Year 1: \$180,000 - \$190,000

Years 2 through 5 (as required)* \$150,000-\$160,000

We will bill for our services based on actual hours incurred at the following billing rates:

Resource Level	Hourly Rate
Partner	\$625
Senior Manager	\$550
Manager	\$510
Senior Consultant	\$445
Consultant	\$380

* Note that hourly rates will increase approximately 3% per year for years 3, 4 and 5.

This estimated fee and time estimate is based upon our current understanding of the project requirements, our proposed approach, our estimate of the level of effort required, our roles and responsibilities, any assumptions set forth herein, and active participation of Company's management and other personnel. We

plan to meet with you on no less than a quarterly basis to review time incurred and estimates to completion throughout the duration of this engagement.

Based on our experience, issues sometimes arise that require procedures beyond what was initially anticipated. If this should occur, we will discuss it with you promptly and early in the process before we perform any additional work.

We understand that you will reimburse us for all reasonable expenses incurred in performing the Services on this engagement (including, but not limited to, our reasonable travel, meal, lodging, and mileage expenses). Expenses will be noted separately on our invoices and segregated by expense type.

Fees for this engagement will be billed biweekly as the work progresses for fees accrued and expenses incurred by us since our last invoice in performing our Services.

Other Matters

YNHHSC is, among other things, a regulatory/compliance and merger & acquisition services client of D&T and/ or its affiliated and related entities. We do not believe that the proposed services impair the objectivity for D&T to perform the proposed services for YNHHSC. However, we are bringing this to your attention to avoid any misunderstanding.

Should a potential conflict come to the attention of the engagement leader with respect to potential future work being performed or to be performed by D&T or one of its affiliated or related entities for YNHHSC, D&T will advise YNHHSC promptly. YNHHSC will, at its option and in consultation with the Connecticut Office of Health Care Access as appropriate, promptly request, in writing, (1) such entity not to proceed with the proposed services or (2) such entity to proceed with the proposed services, provided that such entity agrees to proceed. If YNHHSC requests such entity to proceed with the proposed services, YNHHSC agrees that D&T and its affiliated and related entities' are able to perform the proposed services objectively. If appropriate, such entity will establish an ethical wall and confidentiality safeguards so that the services will be performed by different personnel on the various engagements.

Acknowledgements and Agreements

The Company specifically acknowledges and agrees to the following:

- Substantial and meaningful involvement of management of the Company is critical to the success of this engagement. The Company shall be responsible for ensuring that the identified Company personnel actively participate in both the planning and execution of this engagement.
- D&T will not make any management decisions, perform any management functions, or assume any management responsibilities.
- The Company agrees that any deliverables provided to the Company hereunder by D&T may be disclosed to the State of Connecticut's Office of Health Care Access ("OHCA") to the extent required by such regulator in connection with an investigation or examination of the Company. To the extent permitted by law, rule, regulation and applicable professional standards, YNHHSC shall be promptly notified in the event such deliverable(s) are provided by D&T to the OHCA.

- Company will limit sensitive information, such as PII, PHI, trade secrets and other information that it considers sensitive or highly confidential, it provides to D&T (or otherwise makes available to D&T to only that which is reasonably necessary to allow D&T to provide the Services. D&T will provide Company with a list of D&T personnel who are authorized to receive or have access to Company sensitive information. Such list may be updated as needed. Any disclosure of sensitive information by Company to D&T will utilize levels of information security and data encryption appropriate to maintain security of Company sensitive information being accessed by or transferred to D&T, and as required by applicable information protection laws.
- The Services will be performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants (“AICPA”). However, the Services will not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, we will not express an opinion or any other form of assurance as a result of performing the Services.
- We will not provide any legal advice regarding our Services nor will we provide any assurance regarding the outcome of any future audit or regulatory examination or other regulatory action; the responsibility for all legal issues with respect to these matters, such as reviewing all deliverables and work product for any legal implications to the Company, will be the Company’s.
- The Services may include advice and recommendations, but all decisions in connection with the implementation of such advice and recommendations shall be the responsibility of, and made by, the Company.

During the term of this engagement, the Company may request that D&T perform additional services that are not encompassed by this engagement letter. D&T may perform such additional services upon receipt of a separate signed engagement letter with terms and conditions that are acceptable to D&T and the Company. Our observations and recommendations will be based solely on the results of the assessment performed.

This engagement letter, together with the General Business Terms attached hereto as Appendix B and the Business Associate Addendum attached hereto as Appendix C and made a part hereof constitute the entire agreement between the Company and D&T with respect to this engagement, supersede all other oral and written representations, understandings, or agreements relating to this engagement, and may not be amended except by the mutual written agreement of the Company and D&T.

Please indicate your acceptance of this agreement by signing in the space below and returning a fully executed copy of this engagement letter to us. A duplicate of this engagement letter is provided for your records. We look forward to serving you. If you have any questions please contact Kelly Saunders at (212) 436-3180.

Very truly yours,

Dear Gayle and Nancy

Below please find two emails regarding the Yale-New Haven Hospital selection for Independent Monitor for the above noted Docket Numbers. With these two emails, both the Office of Health Care Access (OHCA) and the Health Care Quality and Safety/Facility Licensing and Inspections (FLIS) section of the Department of Public Health provide their approval of the Independent Monitor chosen by YNHSC, as required by the CON orders for these two CON orders. YNHSC may now proceed to finalize this contractual arrangement and should provide OHCA with a copy of documents for the CON public records. Thank you for your cooperation in this matter.

Sincerely,

Karen Roberts

Dear Kim:

Thank you very much for including the Department of Public Health Facility Licensing and Investigations Section (FLIS) in the conference call with Deloitte to assess their ability to act as the Independent Monitor (IM) for the Yale New Haven Hospital/Lawrence and Memorial Hospital acquisition. Pursuant to the information Deloitte provided regarding capacity to assess hospital systems and their availability to access clinicians, FLIS approves Deloitte as capable of serving in the capacity of the IM if the Office of Health Care Access is also in agreement.

Best,

Barbara

Bill Aselyne
Senior Vice President & General Counsel
Yale-New Haven Hospital/Yale New Haven Health System
789 Howard Ave., CB 230
New Haven, CT 06519

Dear Bill,

This engagement letter is to confirm the engagement of Deloitte & Touche LLP ("D&T" or "we"), effective as of the date hereof, to provide Yale New Haven Health Services Corporation and its subsidiaries (collectively referred to as "YNHHSC" or the "Company") the services described below (the "Services").

Scope and Approach

We understand you are seeking an independent monitor related to the agreed settlement ("Agreement" or "Order") between YNHHSC and State of Connecticut's Office of Health Care Access ("OHCA") to monitor the YNHHSC's compliance with the Conditions of the Order in the transfer of ownership of Lawrence + Memorial Corporation and its subsidiaries to YNHHSC.

Specific anticipated activities we will assist YNHHSC with will include two work streams:

Workstream 1: Assist YNHHSC with the planning and preparing for monitoring reviews

- Hold kick-off with YNHHSC responsible persons to discuss the monitor requirements
- Meet with the Connecticut Office of Health Care Access (OHCA), as requested
- Review and agree upon with YNHHSC and OHCA, as applicable, the elements of monitor services as documented in the work plan in Appendix A.

Workstream 2: Assist YHHHS with the independent monitoring activities

- Refer to Appendix A for a detailed monitor work plan which describes the various required activities and activities associated with each condition of the Order.

We anticipate providing our services both off-site and on-site. Where possible we will perform analysis and preparation activities remotely. We anticipate providing these services for a period of two to five years (as requested by YNHHSC based on requirements of OHCA).

Engagement Team

Kelly J. Saunders, Partner, Deloitte & Touche LLP, will serve as the lead engagement leader to provide oversight and direction. Ed Sullivan, Principal, Deloitte & Touche LLP will serve as the quality assurance partner, supporting Kelly and the team in the execution of the work. Kaitlin McCarthy, Manager, Deloitte & Touche LLP, will serve as the overall project manager. Additional support will be provided by other professionals from Deloitte & Touche LLP's Regulatory & Compliance practice, as needed, during the course of this engagement.

Deliverables

The following deliverables will be produced during the course of this engagement:

Workstream 1: Assist YNHHS with planning and preparing for monitoring reviews

1. D&T will create and maintain a written plan for fulfilling the duties set forth in the agreement.

Workstream 2: Assist YNHHS with independent monitoring activities

1. D&T will draft and submit a written report within thirty (30) days of the completion of each (semi-annual) on-site review on YNHHS compliance with the conditions of the Order, totaling two reports per reporting year.

Professional Fees and Timing

The total fees related to this engagement are estimated as follows:

Year 1: \$180,000 - \$190,000

Years 2 through 5 (as required)* \$150,000-\$160,000

We will bill for our services based on actual hours incurred at the following billing rates:

Resource Level	Hourly Rate
Partner	\$625
Senior Manager	\$550
Manager	\$510
Senior Consultant	\$445
Consultant	\$380

* Note that hourly rates will increase approximately 3% per year for years 3, 4 and 5.

This estimated fee and time estimate is based upon our current understanding of the project requirements, our proposed approach, our estimate of the level of effort required, our roles and responsibilities, any assumptions set forth herein, and active participation of Company's management and other personnel. We

plan to meet with you on no less than a quarterly basis to review time incurred and estimates to completion throughout the duration of this engagement.

Based on our experience, issues sometimes arise that require procedures beyond what was initially anticipated. If this should occur, we will discuss it with you promptly and early in the process before we perform any additional work.

We understand that you will reimburse us for all reasonable expenses incurred in performing the Services on this engagement (including, but not limited to, our reasonable travel, meal, lodging, and mileage expenses). Expenses will be noted separately on our invoices and segregated by expense type.

Fees for this engagement will be billed biweekly as the work progresses for fees accrued and expenses incurred by us since our last invoice in performing our Services.

Other Matters

YNHHSC is, among other things, a regulatory/compliance and merger & acquisition services client of D&T and/ or its affiliated and related entities. We do not believe that the proposed services impair the objectivity for D&T to perform the proposed services for YNHHSC. However, we are bringing this to your attention to avoid any misunderstanding.

Should a potential conflict come to the attention of the engagement leader with respect to potential future work being performed or to be performed by D&T or one of its affiliated or related entities for YNHHSC, D&T will advise YNHHSC promptly. YNHHSC will, at its option and in consultation with the Connecticut Office of Health Care Access as appropriate, promptly request, in writing, (1) such entity not to proceed with the proposed services or (2) such entity to proceed with the proposed services, provided that such entity agrees to proceed. If YNHHSC requests such entity to proceed with the proposed services, YNHHSC agrees that D&T and its affiliated and related entities' are able to perform the proposed services objectively. If appropriate, such entity will establish an ethical wall and confidentiality safeguards so that the services will be performed by different personnel on the various engagements.

Acknowledgements and Agreements

The Company specifically acknowledges and agrees to the following:

- Substantial and meaningful involvement of management of the Company is critical to the success of this engagement. The Company shall be responsible for ensuring that the identified Company personnel actively participate in both the planning and execution of this engagement.
- D&T will not make any management decisions, perform any management functions, or assume any management responsibilities.
- The Company agrees that any deliverables provided to the Company hereunder by D&T may be disclosed to the State of Connecticut's Office of Health Care Access ("OHCA") to the extent required by such regulator in connection with an investigation or examination of the Company. To the extent permitted by law, rule, regulation and applicable professional standards, YNHHSC shall be promptly notified in the event such deliverable(s) are provided by D&T to the OHCA.

- Company will limit sensitive information, such as PII, PHI, trade secrets and other information that it considers sensitive or highly confidential, it provides to D&T (or otherwise makes available to D&T) to only that which is reasonably necessary to allow D&T to provide the Services. D&T will provide Company with a list of D&T personnel who are authorized to receive or have access to Company sensitive information. Such list may be updated as needed. Any disclosure of sensitive information by Company to D&T will utilize levels of information security and data encryption appropriate to maintain security of Company sensitive information being accessed by or transferred to D&T, and as required by applicable information protection laws.
- The Services will be performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants ("AICPA"). However, the Services will not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, we will not express an opinion or any other form of assurance as a result of performing the Services.
- We will not provide any legal advice regarding our Services nor will we provide any assurance regarding the outcome of any future audit or regulatory examination or other regulatory action; the responsibility for all legal issues with respect to these matters, such as reviewing all deliverables and work product for any legal implications to the Company, will be the Company's.
- The Services may include advice and recommendations, but all decisions in connection with the implementation of such advice and recommendations shall be the responsibility of, and made by, the Company.

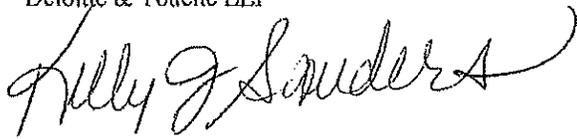

During the term of this engagement, the Company may request that D&T perform additional services that are not encompassed by this engagement letter. D&T may perform such additional services upon receipt of a separate signed engagement letter with terms and conditions that are acceptable to D&T and the Company. Our observations and recommendations will be based solely on the results of the assessment performed.

This engagement letter, together with the General Business Terms attached hereto as Appendix B and the Business Associate Addendum attached hereto as Appendix C and made a part hereof constitute the entire agreement between the Company and D&T with respect to this engagement, supersede all other oral and written representations, understandings, or agreements relating to this engagement, and may not be amended except by the mutual written agreement of the Company and D&T.

Please indicate your acceptance of this agreement by signing in the space below and returning a fully executed copy of this engagement letter to us. A duplicate of this engagement letter is provided for your records. We look forward to serving you. If you have any questions please contact Kelly Saunders at (212) 436-3180.

Date:

11/7/16

APPENDIX A. MONITORING PROCEDURES (per Docket Numbers 15-32032-CON and 15-32033-CON)

Condition	D&T Procedure
<p>Strategic Plan</p>	
<p><u>15-32033-CON Condition 4:</u> Within one hundred and eighty (180) days following the Closing Date of 9/8/16, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and YNHHS. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. NOTE 1: This applies only to Eastern Connecticut which has been defined in the Affiliation Agreement as Tolland, Windham and New London counties. Note 2: Refer to Condition #19 which addresses the same/similar requirements</p>	<p>D&T will obtain a copy of the Services Plan/Strategic Plan submitted for Condition #4 and #19, verify timely submission, verify that it incorporates the required elements (e.g. describing any planned consolidation, reduction, or elimination of existing services or introduction of new services) and that it meets the 3 year requirement.</p>
<p><u>15-32033-CON Condition 19:</u> L+M and YNHHS shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e. towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M service sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHHS affiliated facilities for specialized care not available locally. The strategic plan shall include but not be limited to the following components:</p> <p>a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such period. L+M shall demonstrate annual progress toward achieving these goals.</p>	<p>D&T will obtain the Services Plan/Strategic Plan submitted for Condition #4 and #19 and review the plan for inclusion of these required components (as compared to the needs described within the Community Needs Assessment and the resource commitments within the Affiliation Agreement).</p>

Condition	D&T Procedure
<p>b. YNHHS C and L+M shall abide by the resource commitments for clinical service programming as set forth in the Affiliation Agreement.</p> <p>NOTE 1: Refer to Condition #4 which addresses the same requirements.</p>	
<p><u>15-32033-CON Condition 32b</u>: A narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS C's Management Representation to OHCA that Condition 32 requirements a through e and g have been met including referencing specific locations of primary care physicians.</p>
<p><u>15-32033-CON Condition 7</u>: Within one hundred and eighty (180) days following the Closing Date and thereafter until the capital commitment ¹is satisfied, YNHHS C shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in L+M and its affiliates from the \$300M Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:</p> <p>a. A list of the capital expenditures ²that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and</p> <p>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including</p>	<p>D&T will obtain the Plan (per 15-32033-CON Conditions #4 and #19). We will read the plan and verify that expenditures/investments made are in accordance with the Plan. We will discuss any questions/need for clarification with Management to ensure the expenditures are verified.</p> <p>D&T will confirm detailed, full and timely submissions, with appropriate signatures of all required reports.</p>

¹ Per discussion with OHCA, we understand that "capital requirement" per this Order is intended to mean "resource commitment". YNHHS C will describe the plan/resource commitment per Conditions #4 and #19 of this Order.

² See footnote 4.

Condition	D&T Procedure
<p>estimated beginning, ending all startup/operation dates); and</p> <p>c. The funding source of the capital investment³ indicating whether it was drawn from operating revenue, capital contributions from YNHHS or another source and, if funding was drawn from another source, indicating the source.</p> <p>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 - September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th beginning May 31, 2017. The reports shall be signed by L+MH's or L+M's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project.</p>	
<p><u>15-32033-CON Condition 5</u>: Until such time as the Services Plan is submitted⁴, YNHHS shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p> <p>NOTE 1: Cross-reference to Condition #18</p>	<p>D&T will confirm that notices of reallocation or relocation were submitted in a timely manner and published on the L+MH website within ten days.</p> <p>Per related 15-32033-CON Condition #18, D&T will confirm that any changes or reallocation of services are not in conflict with the requirements of 15-32033-CON Condition #18.</p>

³ Per discussion with OHCA, we understand that “capital investment” per this Order is intended to mean expenditures/investment made”.

⁴ The Services Plan is due 180 days after the closing date of September 8, 2016. Therefore this provision only applies until the Services Plan per Condition #4 is submitted.

Condition	D&T Procedure
<p><u>15-32033-CON Condition 18</u>: L+MH shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need.</p> <p>NOTE 1: See related Condition #1 which applies to the first 180 dates post-closing. Following that time, YNHHS is bound by Condition #4 and the Services Plan created per Condition #4</p>	<p>D&T will confirm that these services are properly maintained by conducting site visits, and ongoing data analysis of unit and patient data (e.g. to see continuing patient volume/services).</p> <p>YNHHSC will provide a Management Attestation/Representation to OHCA that it is in compliance with 15-32033-CON Condition #18. D&T will obtain a copy of that Management Representation.</p>
<p><u>15-32033-CON Condition 32a</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 – September 30 with reports due November and May certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation of the continuation of all L+MH services as described herein.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's notarized Management Representation to OHCA that 15-32033-CON Condition 32 requirements a through e and g have been met.</p>
Financial Reporting	
<p><u>15-32033-CON Condition 8</u>: For three (3) years following the Closing Date, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period (fiscal year). Due dates are May 31st and November 30th, beginning May 2017. The following financial measurements/indicators should be addressed in the report: (i) Operating performance to include operating margin, non-operating margin, and total margin; (ii) Liquidity to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) Leverage and capital structure to include long-term debt to equity, long-term debt to capitalization,</p>	<p>D&T will obtain the financial measurement report and review work papers to ensure that they are consistent with financial reports being submitted to L+M Hospital Board and that the required elements and financial measurements are appropriately recorded in the report; we will confirm the timely submission of each report.</p>

Condition	D&T Procedure
<p>unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) Additional Statistics to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and the elements used in the calculation, unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings.</p>	
<p><u>15-32033-CON Condition 32f</u>: A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <ul style="list-style-type: none"> i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities; ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the 	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six month reports based on fiscal year. We will verify that the required elements are included in the report and are documented and supported by underlying information. We will confirm timely submission of all reports (OHCA's, HRS, Report 100, Report 150 and Report 175 and succession reports to OHCA.</p>

Condition	D&T Procedure
<p>specifics of the cost savings for each of these major expense categories;</p> <p>iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p> <p>iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.</p>	
<p><u>15-32032-CON Condition 7c</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, and Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p>	<p>Refer to procedures for 15-32033-CON Condition #32f in the work plan above.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 6:</u> Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price⁵ per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period October 1, 2015 – September 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.</p>	<p>D&T will obtain YNHHSCT's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information.</p> <p>D&T will review work papers to confirm information and timely filing.</p> <p>* 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017 which is 11/30/17 and the 3rd filing is due 60 days after the close of FY2018 which is 11/30/18.</p>
Cost and Market Impact Review	
<p><u>15-32033-CON Condition 22:</u> Within ninety days of the Date of Closing, YNHHSCT shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHSCT shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p>	<p>D&T will confirm that YNHHSCT initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>

⁵For purposes of this calculation, "total prices per unit of service" will be the weighted average price across all payers per unit of service.

Condition	D&T Procedure
<p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p>	
<p>c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purposes of determining further conditions as necessary to</p>	

Condition	D&T Procedure
<p>correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.</p> <p>d. The independent consultant shall report to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.</p> <p>e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.</p>	
<p><u>15-32032-CON Condition 3:</u> Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined in d. below)</p>	<p>Refer to procedures for 15-32033-CON Condition #22 above.</p>

Condition	D&F Procedure
<p>for L+MH and LMMG (the "annual CMIR update"). Yale New Haven shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p> <p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 10a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p> <p>c. Condition	D&T Procedure
<p><u>15-32033-CON Condition 20 Paragraph 1:</u> L+M and YNHHSC shall maintain the current L+MH and Lawrence + Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p>	<p>D&T will evaluate and verify that contracts are maintained in accordance with this condition. We will meet with YNHHSC Management to read the contracts and confirm that this condition is met.</p>
<p><u>15-32033-CON Condition 32c:</u> Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of Conditions (20), (21) and (22) above.</p>	<p>For 15-32033-CON Condition 32c, D&T will obtain a copy of YNHHSC's Management Representation to OHCA that Condition 32c requirements have been met. We will meet with YNHHSC Management to read the contracts and confirm that this condition is met.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 20 Paragraphs 2/3</u>: Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation and in addition as set forth in paragraph 25 herein. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to cap determined through the process set forth below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	<p>D&T will obtain the Independent Consultant/CMIR Report which should address/provide analysis to confirm paragraphs 2 and 3 of 15-32033-CON Condition #20. D&T as the Monitor will not independently perform additional/separate procedures related to paragraphs 2 and 3 of 15-32033-CON Condition #20.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 1:</u> Lawrence & Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p> <p>Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to a cap determined through the process set forth in Paragraphs 3 and 4 below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	<p>Refer to procedures for 15-32033-CON Condition #20 outlined here and 1532033-CON Condition 20a, 20b and 20c.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 7a</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHC shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of paragraphs (20), (21) and (22) above.</p>	<p>Refer to procedures for 15-32033-CON Condition #32c.</p>
<p><u>15-32033-CON Condition 21a</u>: With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph 20 above, i.e. physicians providing services through NEMG to L + M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>D&T will receive samples of payer submissions for LMMG physicians and obtain YNHHC's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21a.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 2a:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph I above, i.e. physicians providing services through NEMG to L+M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>Refer to procedures for 15-32033-CON Condition #21a above.</p>
<p><u>15-32033-CON Condition 21b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 20: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 20.</p>	<p>D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21b.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 2b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>b. Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 1: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 1.</p>	<p>Refer to procedures for 15-32033-CON Condition #21b above.</p>
Independent Monitor	
<p><u>15-32033-CON Condition 15:</u> Within sixty (60) days after the Closing Date, YNHHS shall contract with an Independent Monitor who has experience in hospital administration and regulation. The Independent Monitor shall be retained at the sole expense of YNHHS. Representatives of OHCA and FLIS will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years⁶ following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the</p>	<p>D&T and YNHHS will execute an Engagement Letter by the required date. A copy of this Engagement Letter will be provided to OHCA.</p>

⁶ The Monitor may be required for only 1 (one) year or up to five (5) years as determined in writing by OHCA.

Condition	D&T Procedure
<p>Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the conditions set forth herein.</p> <p>NOTE: See Condition #33a (appointment of Monitor requirement)</p>	
<p><u>15-32033-CON Condition 16:</u> The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis⁷ to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHSO will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.</p>	<p>D&T will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership and review of any documentation requested by D&T. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHSO, OHCA, and FLIS.</p> <p>Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.</p>
<p><u>15-32033-CON Condition 33:</u> In addition to the above, L+M and YNHHSO make the following commitment for a period of five years post-Closing:</p> <p>a. L+M and YNHHSO shall appoint an independent monitor at their own cost (selected by YNHHSO and L+M and approved by OHCA) to serve as a post-transfer compliance monitor.</p>	<p>For 15-32033-CON Condition #33a, refer to 15-32033-CON Condition #15.</p> <p>15-32033-CON Condition #33b – D&T will meet with CHNA/CHIP “participation</p>

⁷ The semi-annual basis will be defined as six months post-closing and on the anniversary of the closing date to coincide with meetings with the community representatives per Conditions # 33b and 33d

Condition	D&T Procedure
<p>b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period.</p>	<p>group⁸ in March 2017 for an initial introduction and will meet with this group annually thereafter to present the annual Monitor report. Relative to (ii), Refer to the procedures performed per Conditions #11 and #31. Minutes will be maintained by D&T of these meetings and provided to OHCA upon request.</p>
<p>c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties.</p>	
<p>d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings.</p>	<p>With respect to 15-32033-CON #33d, D&T will review the public notice and attend the public forum held by YNHHS and confirm that it includes members of the CHIP (Community Health Improvement Program) group.</p>
<p>e. If the Independent Monitor determines that YNHHS and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHS and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHS and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHS and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHS and L + M into compliance and shall have the right to enforce</p>	<p>With respect to 15-32033-CON #33e, D&T agrees to provide written notice of any deficiencies as required.</p>

⁸ See attached list.

Condition	D&T Procedure
<p>these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653. In addition, in the event OHCA determines YNHHS and L+M are in material non-compliance, OHCA may order YNHHS and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p><u>15-32032-CON Condition 8</u>: In addition to the above, L+M and YNHHS make the following commitment for a period of five years post-Closing:</p> <ol style="list-style-type: none"> a. L+M and YNHHS shall appoint an independent monitor at their own cost (selected by YNHHS and L+M and approved by OHCA) to serve as a post-transfer compliance monitor. b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. 	<p>Refer to procedures for 15-32033-CON Condition #33 a through e above.</p>

Condition	D&T Procedure
<p>e. If the Independent Monitor determines that YNHHSC and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSC and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHSC and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHSC and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHSC and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653 In addition, in the event OHCA determines YNHHSC and L+M are in material non-compliance, OHCA may order YNHHSC and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p>Community Benefit</p>	
<p><u>15-32033-CON Condition 11:</u> The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years after the Closing Date consistent with L+MH's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as L+MH's current programs, and the Applicants shall apply no less than a 1% increase per year for the next three (3) years toward the L+MH's community building activities in terms of dollars spent.</p>	<p>D&T will obtain L+MH's most recent Schedule H of IRS Form 990 to act as a baseline. We will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met.</p> <p>D&T will also obtain the YNHHSC report/summary on</p>

Condition	D&T Procedure
<p>In determining L+MH' s participation and investment in both community benefits and community building activities, the Applicants shall address the health needs identified by the applicable CHNA in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.</p> <p>a. On an annual basis, YNHHSC shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing for three years and shall be posted on L+MH's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>the amounts and uses related to community benefits and community building per the categories identified in the CHNA. D&T will evaluate these reports/summaries as compared to the CHNA and defined population health management objectives and will discuss any questions with YNHHSC Management. D&T will confirm that these documents are filed in a timely manner and posted to the L+MH website.</p>
<p><u>15-32033-CON Condition 31</u>: L+M and YNHHSC have agreed to maintain at least the same level of community benefit consistent with L+M's most recent Schedule H of IRS Form 990 and its Community Health Needs Assessment (CHNA). L+M and YNHHSC agree to conduct an updated Community Health Needs Assessment by no later than December 31, 2016, and provide services in accordance with implementation plan adopted as part of the updated CHNA process and provide OHCA with its updated CHNA within thirty days of its approval.</p>	<p>After obtaining L+M's baseline Schedule H of IRS Form 990, D&T will obtain and confirm that L+M and YNHHSC have increased community benefit by 1% per year for the first three (3) years of this agreement. Thereafter for years 4 and 5, we will confirm that the level of community benefit provided in year 3 was at least maintained (not required to increase in years 4 and 5).</p> <p>Cross-reference to 15-32033-CON Condition #11.</p>
<p><u>15-32033-CON Condition 32h</u>: A narrative description of L+M's community benefit commitments described herein, including without limitation the amounts spent and a description of such spending to support and invest in the communities that L+M serves.</p>	<p>Relative to 15-32033-CON Condition #32h, see procedures performed for 15-32033-CON Conditions #11 and #31.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 12</u>: The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHHS shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population.</p>	<p>D&T will obtain and review interpreter services policies and contracts as applicable. Additionally, our team will obtain the cultural competency plan, training and related policies. We will also obtain YNHHS's report and supporting documents and confirm the timely filing of these materials.</p>
Charity Care Policies	
<p><u>15-32033-CON Condition 9</u>: Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law, OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>D&T will obtain copies of the relevant financial assistance policies and confirm that L+MH has adopted YNHHS's financial assistance policies (or policies at least as generous as these policies) using L+M Hospital board resolutions. After verifying that this step has been properly completed, we will confirm that these policies are properly posted on L+MH's website.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 10</u>: For three (3) years following the Closing Date, YNHHSC shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services policies of L+MH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>After obtaining original L+MH policies on charity care, indigent care, and community volunteer services, D&T will read and assess these policies on an annual basis for changes. When changes are made to these policies, we will confirm OHCA is notified (as required) and revised policies are posted to the L+MH website.</p>
<p><u>15-32033-CON Condition 32e</u>: Affirmation that L+M has adopted the YNHHSC Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHSC Financial Assistance Program Policies currently in effect as of the date hereof.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHSC's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.</p>
<p>Employment Conditions</p>	
<p><u>15-32033-CON Condition 27</u>: L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #27 has been met.</p>
<p><u>15-32033-CON Condition 32g</u>: Affirmation of the labor and employment commitments described herein, including but not limited to L+M's service sites continued honoring of collective bargaining agreements in place as of the date hereof.</p>	<p>See others below</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 28</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #28 has been met.</p>
<p><u>15-32032-CON Condition 6</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>Refer to procedures for 15-32033-CON Condition #28.</p>
<p><u>15-32033-CON Condition 29</u>: L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.</p>	<p>D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #29 has been met.</p>
<p><u>15-32033-CON Condition 30</u>: L+M and YNHHS shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.</p>	<p>D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #30 has been met.</p>

Condition	D&T Procedure
Governance	
<p><u>15-32033-CON Condition 14:</u> For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>D&T will confirm the appointment of this individual (community representative) to the L+MH Board as evidenced by Board minutes. We will discuss the selection process with Management and document our understanding of the selection process/qualifications of the individual.</p>
<p><u>15-32033-CON Condition 17:</u> For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHSC Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm that notice of the public meetings is posted with proper notice.</p> <p>D&T will attend the public meetings as part of the Monitor role.</p>
<p><u>15-32033-CON Condition 26:</u> As described in the Affiliation Agreement, YNHHSC is committed to maintaining local governance at L+M. The L+M Board of Directors shall continue as a fiduciary board composed of a majority of members who reside in the communities served by L+M with the only change in composition being the addition of the President/CEO of YNHHSC (or his or her designee) serving as an ex-officio member. Each director of the L+M Board of Directors shall have an equal vote. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. Subject to certain reserved powers for YNHHSC, the L+M Board of directors will have the right to approve any major new programs and clinical services, or the discontinuation or consolidation of any such programs.</p>	<p>D&T will obtain and evaluate the Board of Directors bylaws to confirm that L+M Board maintains rights and powers specified in the Order.</p>

Condition	D&T Procedure
<p align="center">Licensure, Physician Office Conversion, Cost Savings Attainment</p>	
<p><u>15-32033-CON Condition 13:</u> The Applicants shall abide by all requirements of licensure that may be imposed by the Facility Licensing and Investigations Section ("FLIS") of the Department of Public Health ("DPH") in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this Condition to ensure that quality health care services are provided to the patient population.</p>	<p>D&T will, if necessary, work with DPH to ensure compliance with this Condition.</p>
<p><u>15-32033-CON Condition 24:</u> L+M and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #24 has been met.</p>
<p><u>15-32033-CON Condition 32d:</u> Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #32d has been met.</p>
<p><u>15-32032-CON Condition 5:</u> L+MH and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #24 above.</p>
<p><u>15-32032-CON Condition 7b:</u> Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHSC shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31st) and April 1 through September 30 (due November 30th) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #32f above.</p>
<p><u>15-32033-CON Condition 25:</u> L+M shall attain cost savings as a result of the affiliation with YNHHSC as described in the CON application.</p>	<p>D&T will obtain and read YNHHSC's reporting created per 15-32033-CON condition #32f.</p>

APPENDIX B: GENERAL BUSINESS TERMS

Client: Yale New Haven Health Services Corporation (“Yale New Haven Health” or the “System”)

1. **Services.** It is understood and agreed that the services provided by Deloitte & Touche LLP (Deloitte & Touche) (as defined in paragraph 13) (the “Services”) under the engagement letter to which these terms are attached (the “Engagement Letter”) may include advice and recommendations, but all decisions in connection with the implementation of such advice and recommendations shall be the responsibility of, and made by, the System. For purposes of these terms and the Engagement Letter, the “System” shall mean Yale New Haven Health Services Corporation and its subsidiaries. Yale New Haven Health Services Corporation represents and warrants that it has the power and authority to execute this agreement on behalf of, and to bind, itself and its subsidiaries.

2. **Exclusion.** Deloitte & Touche represents and warrants that neither Deloitte & Touche nor any of its employees providing the Services: (1) has ever been (A) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) excluded or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System and (2) shall notify System immediately in the event that the Consultant (A) is convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) is excluded or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) is otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System. System may terminate this Agreement immediately in the event that Deloitte & Touche or any of its employees (A) is convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) is excluded from or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) is otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System.

3. **Payment of Invoices.** Deloitte & Touche’s invoices are due upon presentation. Without limiting its rights or remedies, Deloitte & Touche shall have the right to halt or terminate the Services entirely if payment is not received within sixty (60) days of the invoice date. The System shall be responsible for all taxes imposed on the Services or on the transaction, other than Deloitte & Touche’s income taxes or tax imposed by employment withholding, and other than taxes imposed on Deloitte & Touche's property.

4. **Term.** Unless terminated sooner in accordance with its terms, this engagement shall terminate on the completion of the Services. This engagement may be terminated by either party at any time, with or without cause, by giving written notice to the other party not less than sixty (60) days before the effective date of termination, provided that, in the event of a termination for cause, the breaching party shall have the right to cure the breach within the notice period. Deloitte & Touche may terminate this engagement upon written notice to the System if it determines that (a) a governmental, regulatory, or professional entity (including, without limitation, the American Institute of Certified Public Accountants, the Public Company Accounting Oversight Board, or the Securities and Exchange Commission), or an entity having the force of law, has introduced a new, or modified an existing, law, rule, regulation, interpretation, or decision, the result of

which would render Deloitte & Touche's performance of any part of the engagement illegal or otherwise unlawful or in conflict with independence or professional rules; or (b) circumstances change (including, without limitation, changes in ownership of the System or any of its affiliates) such that Deloitte & Touche's performance of any part of the engagement would be illegal or otherwise unlawful or in conflict with independence or professional rules. Upon termination of the engagement, the System will compensate Deloitte & Touche under the terms of the Engagement Letter for the Services performed and expenses incurred through the effective date of termination.

5. Deliverables.

- a) Deloitte & Touche has created, acquired, or otherwise has rights in, and may, in connection with the performance of the Services, employ, provide, modify, create, acquire, or otherwise obtain rights in, works of authorship, materials, information, and other intellectual property (collectively, the "Deloitte & Touche Technology").
- b) Except as provided below, upon full and final payment to Deloitte & Touche hereunder, the tangible items specified as deliverables or work product in the Engagement Letter (the "Deliverables") shall become the property of the System. To the extent that any Deloitte & Touche Technology is contained in any of the Deliverables, Deloitte & Touche hereby grants the System, upon full and final payment to Deloitte & Touche hereunder, a royalty-free, fully paid-up, worldwide, nonexclusive license to use such Deloitte & Touche Technology in connection with the Deliverables.
- c) To the extent that Deloitte & Touche utilizes any of its property (including, without limitation, the Deloitte & Touche Technology or any hardware or software of Deloitte & Touche) in connection with the performance of the Services, such property shall remain the property of Deloitte & Touche and, except for the license expressly granted in the preceding paragraph, the System shall acquire no right or interest in such property. Notwithstanding anything herein to the contrary, the parties acknowledge and agree that (1) Deloitte & Touche shall own all right, title, and interest, including, without limitation, all rights under all copyright, patent, and other intellectual property laws, in and to the Deloitte & Touche Technology and (2) Deloitte & Touche may employ, modify, disclose, and otherwise exploit the Deloitte & Touche Technology (including, without limitation, providing services or creating programming or materials for other clients). Deloitte & Touche does not agree to any terms that may be construed as precluding or limiting in any way its right to (1) provide consulting or other services of any kind or nature whatsoever to any person or entity as Deloitte & Touche in its sole discretion deems appropriate or (2) develop for itself, or for others, materials that are competitive with or similar to those produced as a result of the Services, irrespective of their similarity to the Deliverables.
- d) To the extent any Deloitte & Touche Technology provided to the System hereunder is a product (to the extent it constitutes merchandise within the meaning of section 471 of the Internal Revenue Code), such Deloitte & Touche Technology is licensed to the System by Deloitte & Touche as agent for Deloitte & Touche Products Company LLC on the terms and conditions herein. The assignment and license grant in this paragraph 5 do not apply to any works of authorship, materials, information, or other intellectual property (including any modifications or enhancements thereto or derivative works based thereon) that is subject to a separate license agreement between the System and a third party, including without limitation, Deloitte & Touche Products Company LLC.

6. Limitation on Warranties. THIS IS A SERVICES ENGAGEMENT. DELOITTE & TOUCHE WARRANTS THAT IT SHALL PERFORM THE SERVICES IN GOOD FAITH AND WITH DUE PROFESSIONAL CARE. DELOITTE & TOUCHE DISCLAIMS ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7. Limitation on Damages and Indemnification.

a) The System agrees that Deloitte & Touche, its subcontractors, and their respective personnel shall not be liable to the System for any claims, liabilities, or expenses relating to this engagement (“Claims”) for an aggregate amount in excess of two (2) times the fees paid by the System to Deloitte & Touche pursuant to this engagement, except to the extent finally judicially determined to have resulted primarily from the bad faith, or intentional misconduct of Deloitte & Touche or its subcontractors.

b) Except with respect to Claims for which a party has an indemnification obligation hereunder, in no event shall either party, its subcontractors, or their respective personnel be liable for any loss of use, data, goodwill, revenues, or profits (whether or not deemed to constitute a direct Claim), or any consequential, special, indirect, incidental, punitive, or exemplary loss, damage, or expense relating to this engagement.

c) Except for those claims for which Deloitte & Touche has agreed to indemnify the System pursuant to paragraph 7(d) and, 7(e), the System shall indemnify and hold harmless Deloitte & Touche, its subcontractors, and their respective personnel from all Claims of third parties arising from the use or disclosure of the Services or the Deliverables, except to the extent finally judicially determined to have resulted primarily from the recklessness, bad faith, or intentional misconduct of Deloitte & Touche or its subcontractors.

d) Deloitte & Touche shall indemnify, defend and hold harmless the System, its directors, officers, employees and agents from and against any and all Claims, including reasonable attorneys' fees, in each case solely for bodily injury, death or physical damage to real or tangible personal property, to the extent such Claims are caused by Deloitte & Touche's negligent acts, negligent errors or negligent omissions. In the event such Claims are caused by the joint or concurrent negligence of the parties, they shall be borne by each party in proportion to such party's negligence.

e) Deloitte & Touche agrees to defend the System, its officers and employees from and against any and all claims and pay any settlement costs or any final judgments, including reasonable defense costs and reasonable legal fees, arising out of infringement by the Deliverables of any U.S. patent known to Deloitte & Touche or copyright or any unauthorized use of any trade secret or trademark, except to the extent that such infringement or unauthorized use arises from (i) the System's modification of the Deliverables or use thereof in a manner not contemplated by this engagement, (ii) the failure of the System to use any corrections or modifications made available by Deloitte & Touche, (iii) information, materials, instructions or specifications provided by or on behalf of the System, (iv) the System's distribution, marketing or use for the benefit of third parties of the Deliverables, or (v) the use of the Deliverable in combination with any product or data not provided by Deloitte & Touche whether or not with Deloitte & Touche's consent. If any such Deliverable, or any portion thereof, becomes, or in Deloitte & Touche's reasonable judgment, is likely to become the subject of a claim based upon infringement or unauthorized use, or if any such Deliverable or

any portion thereof, is found by final, non-appealable order of a court of competent jurisdiction to be such an infringement or unauthorized use, Deloitte & Touche, at its option and expense, shall have the right to (x) procure for the System the continued use of such Deliverable, (y) replace or modify such Deliverable provided that the replacement or modified Deliverable is reasonably capable of performing substantially the same function, or (z) require the System to cease use of such Deliverable and refund an appropriate portion of the fee paid with respect to the affected Deliverable. The foregoing provisions of this Paragraph constitute the sole and exclusive remedy of the System, and the sole and exclusive obligation of Deloitte & Touche, relating to a claim that a Deliverable infringes any patent, copyright or other intellectual property right of a third party.

8. Client Responsibilities. The System shall cooperate with Deloitte & Touche in the performance by Deloitte & Touche of the Services, including, without limitation, providing Deloitte & Touche with reasonable facilities and timely access to data, information, and personnel of the System. The System shall be responsible for the performance of its personnel and agents and for the accuracy and completeness of all data and information provided to Deloitte & Touche for purposes of the performance by Deloitte & Touche of the Services. The System acknowledges and agrees that Deloitte & Touche's performance is dependent upon the timely and effective satisfaction of the System's responsibilities hereunder and timely decisions and approvals of the System in connection with the Services. Deloitte & Touche shall be entitled to rely on all decisions and approvals of the System. The System shall be solely responsible for, among other things (a) making all management decisions and performing all management functions, (b) designating a competent management member to oversee the Services, (c) evaluating the adequacy and results of the Services, (d) accepting responsibility for the results of the Services, and (e) establishing and maintaining internal controls, including, without limitation, monitoring ongoing activities.

9. Force Majeure. Neither party shall be liable for any delays or nonperformance directly or indirectly resulting from circumstances or causes beyond its reasonable control, including, without limitation, acts or omissions or the failure to cooperate by the other party (including, without limitation, entities or individuals under its control, or any of their respective officers, directors, employees, other personnel and agents), acts or omissions or the failure to cooperate by any third party, fire, epidemic or other casualty, act of God, strike or labor dispute, war or other violence, or any law, order, or requirement of any governmental agency or authority.

10. [Reserved]

11. Independent Contractor.

(a) Deloitte & Touche and System acknowledge and agree that Deloitte & Touche is being retained as an independent contractor, and that Deloitte & Touche shall be responsible for determining the manner and means by which Deloitte & Touche performs the Services. Nothing herein shall be construed to make Deloitte & Touche an employee or agent of System, to entitle Deloitte & Touche to receive the benefits of any employee benefit plan of System, or to create a joint venture or partnership or fiduciary relationship between the parties. Neither party shall not make an unauthorized representation or warranty concerning the products or services of the other party or commit the other party to any agreement or obligation.

(b) No payroll or employment taxes of any kind shall be withheld or paid with respect to payments to Deloitte & Touche hereunder. Deloitte & Touche agrees to indemnify System against, and to defend and hold System harmless from, any liabilities, claims, costs or expenses (including reasonable attorneys' fees) which may be made against System, or incurred by System, in respect of any such payroll or employment taxes.

(c) No workers' compensation insurance has been or will be obtained by System on account of Deloitte & Touche.

12. Confidentiality and Internal Use.

a) The System agrees that all Services and Deliverables shall be solely for the System's informational purposes and internal use, and are not intended to be, and should not be, used by any person or entity other than the System. Except as otherwise specifically provided in the Engagement Letter, the System further agrees that such Services and Deliverables shall not be circulated, quoted, disclosed, or distributed to, nor shall reference to such Services or Deliverables be made to, any person or entity other than the System and other contractors of the System to whom the System may disclose the Deliverables solely for the purpose of such contractors providing services to the System relating to the subject matter of this engagement, provided that the System shall ensure that such contractors do not further circulate, quote, disclose, or distribute such Deliverables, or make reference to such Deliverables, to any person or entity other than the System. Notwithstanding the foregoing, the System shall not be prohibited from creating its own materials based on the content of such Services and Deliverables and using and disclosing such System-created materials for external purposes, provided that the System does not, expressly or by implication, in any manner whatsoever, attribute such materials to Deloitte & Touche or otherwise refer to or identify Deloitte & Touche in connection with such materials.

b) To the extent that, in connection with this engagement, either party (each, the "receiving party") comes into possession of any trade secrets or other proprietary or confidential information of the other (the "disclosing party"), it will not disclose such information to any third party without the disclosing party's consent. The disclosing party hereby consents to the receiving party disclosing such information (1) to subcontractors, whether located within or outside of the United States, that are providing services in connection with this engagement and that have agreed to be bound by confidentiality obligations similar to those in this paragraph 12(b); (2) as may be required by law, regulation, judicial or administrative process, or in accordance with applicable professional standards or rules, or in connection with litigation or arbitration pertaining hereto; or (3) to the extent such information (i) shall have otherwise become publicly available (including, without limitation, any information filed with any governmental agency and available to the public) other than as the result of a disclosure in breach hereof, (ii) becomes available to the receiving party on a nonconfidential basis from a source other than the disclosing party that the receiving party believes is not prohibited from disclosing such information to the receiving party by obligation to the disclosing party, (iii) is known by the receiving party prior to its receipt from the disclosing party without any obligation of confidentiality with respect thereto, or (iv) is developed by the receiving party independently of any disclosures made by the disclosing party to the receiving party of such information. In satisfying its obligations under this paragraph 12(b), each party shall maintain the other's trade secrets and proprietary or

confidential information in confidence using at least the same degree of care as it employs in maintaining in confidence its own trade secrets and proprietary or confidential information, but in no event less than a reasonable degree of care. Nothing in this paragraph 12(b) shall alter the System's obligations under paragraph 12(a). Notwithstanding anything to the contrary herein, the System acknowledges that Deloitte & Touche, in connection with performing the Services, may develop or acquire experience, skills, knowledge, and ideas that are retained in the unaided memory of its personnel. The System acknowledges and agrees that Deloitte & Touche may use and disclose such experience, skills, knowledge, and ideas.

13. Survival and Interpretation. All paragraphs herein relating to payment of invoices, deliverables, limitation on warranties, limitation on damages and indemnification, limitation on actions, confidentiality and internal use, survival and interpretation, assignment, nonexclusivity, waiver of jury trial and governing law shall survive the expiration or termination of this engagement. For purposes of these terms, "Deloitte & Touche" shall mean Deloitte & Touche LLP and, for purposes of paragraph 7, shall also mean Deloitte & Touche Products Company LLC, one of its subsidiaries. The System acknowledges and agrees that no affiliated or related entity of Deloitte & Touche, whether or not acting as a subcontractor, or such entity's personnel shall have any liability hereunder to the System or any other person and the System will not bring any action against any such affiliated or related entity or such entity's personnel in connection with this engagement. Without limiting the foregoing, affiliated and related entities of Deloitte & Touche are intended third-party beneficiaries of these terms, including, without limitation, the limitation on liability and indemnification provisions of paragraph 7, and the agreements and undertakings of the System contained in the Engagement Letter. Any affiliated or related entity of Deloitte & Touche may in its own right enforce such terms, agreements, and undertakings. **The provisions of paragraphs 7, 13, 15, and 18 hereof shall apply to the fullest extent of the law, whether in contract, statute, tort (such as negligence), or otherwise, notwithstanding the failure of the essential purpose of any remedy.**

14. Assignment and Subcontracting. Except as provided below, neither party may assign, transfer, or delegate any of its rights or obligations hereunder (including, without limitation, interests or Claims) without the prior written consent of the other party. The System hereby consents to Deloitte & Touche subcontracting any of Deloitte & Touche's rights or obligations hereunder to (a) any affiliate or related entity, whether located within or outside of the United States. Services performed hereunder by Deloitte & Touche's subcontractors shall be invoiced as professional fees on the same basis as Services performed by Deloitte & Touche's personnel, unless otherwise agreed.

15. Waiver of Jury Trial. THE PARTIES HEREBY IRREVOCABLY WAIVE, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING, OR COUNTERCLAIM RELATING TO THIS ENGAGEMENT.

16. Nonsolicitation. During the term of this engagement and for a period of one (1) year thereafter, each party agrees that its personnel (in their capacity as such) who had direct and substantive contact in the course of this engagement with personnel of the other party shall not, without the other party's consent, directly or indirectly employ, solicit, engage, or retain the services of such personnel of the other party. In the event a party breaches this provision, the breaching party shall be liable to the aggrieved party for an amount equal to thirty percent (30%) of the annual base compensation of the relevant personnel in his or her new position. Although such payment shall be the aggrieved party's exclusive means of monetary recovery from the breaching party for breach of this provision, the aggrieved party shall be entitled to seek injunctive or other

equitable relief. This provision shall not restrict the right of either party to solicit or recruit generally in the media.

17. Entire Agreement, Amendment, and Notices. These terms, and the Engagement Letter, including exhibits, constitute the entire agreement between the parties with respect to this engagement; supersede all other oral and written representations, understandings, or agreements relating to this engagement; and may not be amended except by written agreement signed by the parties. In the event of any conflict, ambiguity, or inconsistency between these terms and the Engagement Letter, these terms shall govern and control. All notices, requests, demands and other communications hereunder shall be in writing and shall be deemed to have been duly given when either personally served or mailed by certified or registered mail, return receipt requested to the addresses first set forth above.

18. Governing Law, Jurisdiction and Venue, and Severability. These terms, the Engagement Letter, including exhibits and all matters relating to this engagement shall be governed by, and construed in accordance with, the laws of the State of Connecticut (without giving effect to the choice of law principles thereof). Any action based on or arising out of this engagement or the Services provided or to be provided hereunder shall be brought and maintained exclusively in any court of the State of Connecticut or any federal court of the United States, in each case located in the State of Connecticut. Each of the parties hereby expressly and irrevocably submits to the jurisdiction of such courts for the purposes of any such action and expressly and irrevocably waives, to the fullest extent permitted by law, any objection which it may have or hereafter may have to the laying of venue of any such action brought in any such court and any claim that any such action has been brought in an inconvenient forum. If any provision of these terms or the Engagement Letter is found by a court of competent jurisdiction to be unenforceable, such provision shall not affect the other provisions, but such unenforceable provision shall be deemed modified to the extent necessary to render it enforceable, preserving to the fullest extent permissible the intent of the parties set forth herein.

19. Non-Use of YNHHS Name. Deloitte & Touche shall not use YNHHS name or logo, or the name of any YNHHS facility, in any way other than in connection with the Services, including in any advertising or promotional media as a customer or client of Deloitte & Touche, without obtaining the prior written consent of System.

20. False Claims. Deloitte & Touche acknowledges that System has provided it with access to its policy on False Claims and Payment Fraud Prevention (the "Policy") located on its internet site at www.ynhhs.org/FalseClaims.pdf. The False Claims Act imposes civil penalties on people and companies who knowingly submit a false claim or statement to a federally funded program, or otherwise conspire to defraud the government, in order to receive payment. It also protects people who report suspected fraud.

21. Personal Inducements. Deloitte & Touche represents and warrants that no cash, equity interest, merchandise, equipment, services or other forms of remuneration have been offered, shall be offered or will be paid or distributed by or on behalf of Deloitte & Touche to YNHHS and/or the employees, officers, or directors of YNHHS or its member hospitals, or to any other person, party or entity affiliated with YNHHS or its member hospitals, as an inducement to purchase or to influence the purchase of services by YNHHS or its member hospitals from Deloitte & Touche.

22. No Undisclosed Relationships. Deloitte & Touche represents and warrants to the System that, except for those relationships (if any) Deloitte & Touche has disclosed to the System in writing, as of the date of this Agreement the Deloitte & Touche and Deloitte FAS personnel that provide services under this Agreement: (i) do not have a financial relationship with any of the System's trustees, officers, employees, or medical staff members, (ii) will not establish or otherwise create any such relationship after the Effective Date without disclosing such relationship to the System in writing, and (iii) Deloitte & Touche will promptly notify the System in writing if its Engagement Partner for the Services becomes aware of the existence of any such relationship during the course of the services provided under this Agreement. Notwithstanding any other provision of this Agreement or any other agreement between the System and Deloitte & Touche, the System may terminate this Agreement upon written notice to Deloitte & Touche in the event the System becomes aware of any such relationship (through disclosure by Deloitte & Touche or otherwise).

23. General Compliance. Deloitte & Touche shall comply with all applicable standards, statutes, rules, regulations, acts and orders of the United States, its departments, agencies, and bureaus, and of any applicable state or political subdivision thereof, including without limitation, laws and regulations pertaining to labor, wages, hours, conditions of employment, environmental protection, hazardous and infectious materials, identity theft, as applicable to Deloitte & Touche in its performance of the Services hereunder.

24. Equal Employment Opportunities. Deloitte LLP (the parent company of Deloitte & Touche) and its subsidiaries (together, referred to as "Deloitte" for purposes of this Section 24) are equal opportunity employers. Deloitte recruits, employs, trains, compensates, and promotes without regard to race, religion, creed, color, citizenship, national origin, age, gender, gender identity/expression, sexual orientation, marital status, disability, veteran status, or any other legally protected basis, in accordance with applicable federal, state, or local law. Deloitte makes reasonable attempts to accommodate the expression of religious beliefs, as long as that expression does not harass or intimidate coworkers or place an undue hardship on its business.

As a federal contractor, Deloitte also provides an affirmative action program for minorities, women, disabled and Vietnam-era veterans, and persons with disabilities.

In response to a request from a qualified individual with a disability, Deloitte will make a reasonable accommodation that would allow that individual to perform the essential functions of his or her job, unless doing so would create undue hardship on its business.

25. Access to Records. In the event that the Engagement Letter provides for services to be performed by Vendor worth \$10,000 or more over a 12-month period, Deloitte & Touche agrees, until the expiration of four years after the termination of the Arrangement, to make available to the Secretary, U.S. Department of Health and Human Services, and the U.S. Comptroller General and their representatives, pursuant to a proper request, the Agreement, if any, and all books, documents and records necessary to certify the nature and extent of the cost of those services. If Deloitte & Touche carries out any of the duties described herein through a subcontract worth \$10,000 or more over a 12-month period with a related organization, the subcontract will also contain an access clause to permit access by the Secretary, Comptroller General and their representatives pursuant to a proper request to the related organization's books, documents and records necessary to certify the nature and extent of the cost of those services. In the event Deloitte & Touche receives a request for access, Deloitte & Touche agrees to notify YNHHS immediately and to consult with YNHHS regarding the response to the request.

26. Security and Access. Deloitte & Touche shall comply with all YNHHS policies and procedures pertaining to visitation, confidentiality, security and vendor identification as are provided to it in writing prior to execution of the Engagement Letter. YNHHS may issue non-employee identification badges under certain conditions; in the event that any non-employee identification badge is issued to an employee of Deloitte & Touche, Deloitte & Touche agrees to cause such employee to prominently display such badge at all times while on YNHHS premises. All badges must be surrendered by Deloitte & Touche when requested by YNHHS. Non-compliance with any of the above policies shall be deemed a breach of the Engagement Letter.

APPENDIX C: Business Associate Addendum

This Appendix (“Appendix C”) is part of the attached engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”), Yale-New Haven Health System (“YNHH”). If and to the extent, and so long as, required by HIPAA or HITECH (each as defined below), and not otherwise, D&T and YNHH hereby agree to the following in connection with D&T’s performance of services under the engagement letter to which this Business Associate Appendix is attached (such engagement letter, the “Engagement Letter,” together with this Business Associate Appendix and all other attachments, appendices, and exhibits to the Engagement Letter, this “Agreement”). D&T agrees that for purposes of this Appendix C, D&T is a business associate of YNHH to the extent that, in performance of the Services, D&T qualifies as a “business associate” as that term is defined at 45 C.F.R §160.103.

(A) Unless otherwise specified in this Business Associate Appendix, all capitalized terms used in this Business Associate Appendix shall have the meanings established for purposes of HIPAA or HITECH, as applicable. Specific statutory or regulatory citations used in this Business Associate Appendix shall mean such citations as amended and in effect from time to time.

1. “Compliance Date” shall mean, with respect to any applicable provision in this Business Associate Appendix, the later of the date by which compliance with such provision is required under HITECH and the effective date of this Agreement.
2. “Electronic Protected Health Information” shall mean Protected Health Information that is transmitted or maintained in electronic media.
3. “HIPAA” shall mean the Health Insurance Portability and Accountability Act, 42 U.S.C. §§ 1320d through 1320d-8, as amended from time to time, and all associated existing and future implementing regulations, when effective and as amended from time to time.
4. “HITECH” shall mean Subtitle D of the Health Information Technology for Economic and Clinical Health Act provisions of the American Recovery and Reinvestment Act of 2009, 42 U.S.C. §§ 17921-17954, as amended from time to time, and all associated existing and future implementing regulations, when effective and as amended from time to time.
5. “Protected Health Information” shall mean the term as defined in 45 C.F.R. § 160.103, and is limited to the Protected Health Information received from, or received or created on behalf of, the Client by D&T pursuant to performance of the Services.
6. “Privacy Rule” shall mean the federal privacy regulations issued pursuant to HIPAA, as amended from time to time, codified at 45 C.F.R. Part 164 (Subparts A and E).
7. “Security Rule” shall mean the federal security regulations issued pursuant to HIPAA, as amended from time to time, codified at 45 C.F.R. Part 164 (Subparts A and C).
8. “Services” shall have the meaning set forth in the attached engagement letter, and, if not therein defined, shall mean the services described in the Engagement Letter to be performed by D&T for the Client.
9. “Unsecured Protected Health Information” shall mean Protected Health Information that is not rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a

technology or methodology specified by the Secretary in the regulations or guidance issued pursuant to 42 U.S.C. § 17932(h)(2).

(B) With regard to D&T's use and disclosure of Protected Health Information:

1. D&T may use and disclose Protected Health Information as reasonably required or contemplated in connection with the performance of the Services, excluding the use or further disclosure of Protected Health Information in a manner that would violate the requirements of the Privacy Rule, if done by the Client. Notwithstanding the foregoing, D&T may use and disclose Protected Health Information for the proper management and administration of D&T as provided in 45 C.F.R. § 164.504(e)(4).
2. D&T will not use or further disclose Protected Health Information other than as permitted or required by this Business Associate Appendix, and in compliance with each applicable requirement of 45 C.F.R. § 164.504(e), or as otherwise Required by Law.
3. D&T will implement and use appropriate administrative, physical, and technical safeguards to (1) prevent use or disclosure of Protected Health Information other than as permitted or required by this Business Associate Appendix; (2) reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that D&T creates, receives, maintains, or transmits on behalf of the Client; and (3) as of the Compliance Date of 42 U.S.C. § 17931, comply with the Security Rule requirements set forth in 45 C.F.R. §§ 164.308, 164.310, 164.312, and 164.316.
4. D&T will, without unreasonable delay report to the Client (1) any use or disclosure of Protected Health Information not provided for by this Business Associate Appendix of which it becomes aware in accordance with 45 C.F.R. § 164.504(e) (2) (ii) (C); and/or (2) any Security Incident affecting Electronic Protected Health Information of which D&T becomes aware in accordance with 45 C.F.R. § 164.314(a) (2) (C).
5. D&T will, without unreasonable delay, and in any event no later than ten (10) business days after Discovery, notify the Client of any Breach of Unsecured Protected Health Information. The notification shall include, to the extent possible (and subsequently as the information becomes available), the identification of all individuals whose Unsecured Protected Health Information is reasonably believed by D&T to have been Breached along with any other available information that is required to be included in the notification to the Individual, the Secretary, and/or the media, all in accordance with the data breach notification requirements set forth in 42 U.S.C. § 17932 and 45 C.F.R. Parts 160 and 164 (Subparts A, D, and E), as of their respective Compliance Dates.
6. D&T will ensure that any subcontractors or agents to whom D&T provides Protected Health Information agree to the same restrictions and conditions that apply to D&T with respect to such Protected Health Information. To the extent that D&T provides Electronic Protected Health Information to a subcontractor or agent, it will require the subcontractor or agent to implement reasonable and appropriate safeguards to protect the Electronic Protected Health Information consistent with the requirements of this Business Associate Appendix.

7. D&T will, to the extent that Protected Health Information in D&T's possession constitutes a Designated Record Set, make available such Protected Health Information in accordance with 45 C.F.R. § 164.524.
8. In the event that D&T, in connection with the Services, uses or maintains an Electronic Health Record of Protected Health Information of or about an Individual, D&T will provide an electronic copy of such Protected Health Information in accordance with 42 U.S.C. § 17935(e) as of its Compliance Date.
9. D&T will, to the extent that Protected Health Information in D&T's possession constitutes a Designated Record Set, make available such Protected Health Information for amendment and incorporate any amendments to such information as directed by the Client, all in accordance with 45 C.F.R. § 164.526.
10. D&T will document and make available the information required to provide an accounting of disclosures of Protected Health Information, in accordance with 45 C.F.R. § 164.528.
11. In the event that D&T, in connection with the Services, uses or maintains an Electronic Health Record of Protected Health Information of or about an Individual, D&T will make an accounting of disclosures of such Protected Health Information in accordance with the requirements for accounting of disclosures made through an Electronic Health Record in 42 U.S.C. § 17935(c), as of its Compliance Date.
12. D&T will make its internal practices, books, and records relating to the use and disclosure of Protected Health Information available to the Secretary for purposes of determining the Client's compliance with the Privacy Rule.
13. D&T will, as of the Compliance Date of 42 U.S.C. § 17935(b), limit any request, use, or disclosure by D&T of Protected Health Information, to the extent practicable, to the Limited Data Set of such Protected Health Information (as defined in 45 C.F.R. § 164.514(e)(2)), or, if the request, use, or disclosure by D&T of Protected Health Information, not in a Limited Data Set, is necessary for D&T's performance of the Services, D&T will limit the amount of such Protected Health Information requested, used, or disclosed by D&T to the minimum necessary to accomplish the intended purpose of such request, use, or disclosure, respectively; provided, however, that the requirements set forth above in this subsection (13) shall be superseded and replaced by the requirements of the "minimum necessary" regulations or guidance to be issued by the Secretary (pursuant to 42 U.S.C. § 17935(b)(1)(B)) on and after its Compliance Date.
14. D&T will not directly or indirectly receive remuneration in exchange for any Protected Health Information as prohibited by 42 U.S.C. § 17935(d) as of its Compliance Date.
15. D&T will not make or cause to be made any communication about a product or service that is prohibited by 42 U.S.C. § 17936(a) as of its Compliance Date.
16. D&T will not make or cause to be made any written fundraising communication that is prohibited by 42 U.S.C. § 17936(b) as of its Compliance Date.

(C) In addition to any other obligation set forth in this Agreement, including this Business Associate Appendix, the Client agrees that it will: (1) not make any disclosure of Protected Health Information to

D&T if such disclosure would violate HIPAA, HITECH, or any applicable federal or state law or regulation; (2) not request D&T to use or make any disclosure of Protected Health Information in any manner that would not be permissible under HIPAA, HITECH, or any applicable federal or state law or regulation if such use or disclosure were done by the Client; and (3) limit any disclosure of Protected Health Information to D&T, to the extent practicable, to the Limited Data Set of such Protected Health Information, or, if the disclosure of Protected Health Information that is not in a Limited Data Set is necessary for D&T's performance of the Services, to limit the disclosure of such Protected Health Information to the minimum necessary to accomplish the intended purpose of such disclosure, provided, however, that the requirements set forth above in this part (3) shall be superseded and replaced by the requirements of the "minimum necessary" regulations or guidance to be issued by the Secretary (pursuant to 42 U.S.C. § 17935(b)(1)(B)) on and after its Compliance Date.

(D) If either the Client or D&T knows of either a violation of a material term of this Business Associate Appendix by the other party or a pattern of activity or practice of the other party that constitutes a material breach or violation of this Business Associate Appendix, the non-breaching party will provide written notice of the breach or violation to the other party that specifies the nature of the breach or violation. In the event that the breaching party does not cure the breach or end the violation on or before thirty (30) days after receipt of the written notice, the non-breaching party may do the following:

- (i) if feasible, terminate this Agreement; or
- (ii) if termination of this Agreement is infeasible, report the issue to the Secretary.

(E) D&T will, at termination of this Agreement, if feasible, return or destroy all Protected Health Information that D&T still maintains in any form and retain no copies of Protected Health Information or, if such return or destruction is not feasible (such as in the event that the retention of Protected Health Information is required for archival purposes to evidence the Services), D&T may retain such Protected Health Information and shall thereupon extend the protections of this Business Associate Appendix to such Protected Health Information and limit further uses and disclosures to those purposes that make the return or destruction of such Protected Health Information infeasible.

(F) Any other provision of this Agreement that is directly contradictory to one or more terms of this Business Associate Appendix shall be superseded by the terms of this Business Associate Appendix to the extent and only to the extent of the contradiction and only for the purpose of the Client's and D&T's compliance with HIPAA and HITECH. The terms of this Business Associate Appendix, to the extent they are unclear, shall be construed to allow for compliance by the Client and D&T with HIPAA and HITECH.

In addition, the Client agrees to compensate D&T for any time and expenses that we may incur in responding to requests for documents or information under HIPAA, HITECH, or any regulations promulgated under HIPAA or HITECH.

Nothing contained in this Business Associate Appendix is intended to confer upon any person (other than the parties hereto) any rights, benefits, or remedies of any kind or character whatsoever, whether in contract, statute, tort (such as negligence), or otherwise, and no person shall be deemed a third-party beneficiary under or by reason of this Business Associate Appendix.

Subject: Compliance reporting element in Docket # 15-32033-CON

Hi Nancy and Gayle – as mentioned in the meeting yesterday, we were going to look to see if **Bad Debts** really need to be reported as a Cost Saving element.

Stipulation #32 (f) of the decision says

Every six months (the “six month reports”) until December 1, 2018 and each year thereafter (each an “annual report”), YNHSC shall submit notarized reports to OHCA for the periods of January to June (due July 31st) and July through December (due January 31st) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:A detailed and comprehensive document showing a five-year plan (the “plan”) to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M’s integration with and adoption of YNHSC information technology systems and platforms, YNHSC’s supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M’s reduced cost of capital, and L+M’s participation in YNHSC population health initiatives. Subsequent to submission of the plan in its six month report, YNHSC shall include the following additional information in its annual report.

Part ii of Stipulation #32 says:

ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the **following Operating Expense Categories**: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, **Bad Debts**, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the **OHCA Hospital Reporting System (“HRS”) Report 175** or successor report. YNHSC shall also file a narrative describing the specifics of the cost savings for each of these major expense categories;

Note that Bad Debt is no longer treated as an expense on HRS Report 175 and will not have to be treated as an expense for this compliance reporting submission. Hope that clarifies that and we will include this email in the record for 15-32033-CON. Thanks.

Subject: RE: DT-YNHHS Independent Monitor - slightly updated contract for your records

Dear Kim - per OHCA's approval of Deloitte as the Independent Monitor for Docket numbers 15-32032-CON and 15-32033-CON, please see the attached updated engagement letter which corrects for a few minor edits (to correct the parties to the BAA and update the Appendix of community groups to reflect the appropriate parties/groups). There are no other changes – just wanted to make sure OHCA has the latest/final copy.

Please feel free to call me directly with any questions.

Thanks,
Kelly

November 7, 2016

Bill Aseltyne
Senior Vice President & General Counsel
Yale-New Haven Hospital/Yale New Haven Health System
789 Howard Ave., CB 230
New Haven, CT 06519

Dear Bill,

This engagement letter is to confirm the engagement of Deloitte & Touche LLP (“D&T” or “we”), effective as of the date hereof, to provide Yale New Haven Health Services Corporation and its subsidiaries (collectively referred to as “YNHHSC” or the “Company”) the services described below (the “Services”).

Scope and Approach

We understand you are seeking an independent monitor related to the agreed settlement (“Agreement” or “Order”) between YNHHSC and State of Connecticut’s Office of Health Care Access (“OHCA”) to monitor the YNHHSC’s compliance with the Conditions of the Order in the transfer of ownership of Lawrence + Memorial Corporation and its subsidiaries to YNHHSC.

Specific anticipated activities we will assist YNHHSC with will include two work streams:

Workstream 1: Assist YNHHSC with the planning and preparing for monitoring reviews

- Hold kick-off with YNHHSC responsible persons to discuss the monitor requirements
- Meet with the Connecticut Office of Health Care Access (OHCA), as requested
- Review and agree upon with YNHHSC and OHCA, as applicable, the elements of monitor services as documented in the work plan in Appendix A.

Workstream 2: Assist YHHHS with the independent monitoring activities

- Refer to Appendix A for a detailed monitor work plan which describes the various required activities and activities associated with each condition of the Order.

We anticipate providing our services both off-site and on-site. Where possible we will perform analysis and preparation activities remotely. We anticipate providing these services for a period of two to five years (as requested by YNHHSC based on requirements of OHCA).

Engagement Team

Kelly J. Sauders, Partner, Deloitte & Touche LLP, will serve as the lead engagement leader to provide oversight and direction. Ed Sullivan, Principal, Deloitte & Touche LLP will serve as the quality assurance partner, supporting Kelly and the team in the execution of the work. Kaitlin McCarthy, Manager, Deloitte & Touche LLP, will serve as the overall project manager. Additional support will be provided by other professionals from Deloitte & Touche LLP's Regulatory & Compliance practice, as needed, during the course of this engagement.

Deliverables

The following deliverables will be produced during the course of this engagement:

Workstream 1: Assist YNHHS with planning and preparing for monitoring reviews

1. D&T will create and maintain a written plan for fulfilling the duties set forth in the agreement.

Workstream 2: Assist YNHHS with independent monitoring activities

1. D&T will draft and submit a written report within thirty (30) days of the completion of each (semi-annual) on-site review on YNHHS compliance with the conditions of the Order, totaling two reports per reporting year.

Professional Fees and Timing

The total fees related to this engagement are estimated as follows:

Year 1: \$180,000 - \$190,000

Years 2 through 5 (as required)* \$150,000-\$160,000

We will bill for our services based on actual hours incurred at the following billing rates:

Resource Level	Hourly Rate
Partner	\$625
Senior Manager	\$550
Manager	\$510
Senior Consultant	\$445
Consultant	\$380

* Note that hourly rates will increase approximately 3% per year for years 3, 4 and 5.

This estimated fee and time estimate is based upon our current understanding of the project requirements, our proposed approach, our estimate of the level of effort required, our roles and responsibilities, any assumptions set forth herein, and active participation of Company's management and other personnel. We

plan to meet with you on no less than a quarterly basis to review time incurred and estimates to completion throughout the duration of this engagement.

Based on our experience, issues sometimes arise that require procedures beyond what was initially anticipated. If this should occur, we will discuss it with you promptly and early in the process before we perform any additional work.

We understand that you will reimburse us for all reasonable expenses incurred in performing the Services on this engagement (including, but not limited to, our reasonable travel, meal, lodging, and mileage expenses). Expenses will be noted separately on our invoices and segregated by expense type.

Fees for this engagement will be billed biweekly as the work progresses for fees accrued and expenses incurred by us since our last invoice in performing our Services.

Other Matters

YNHHSC is, among other things, a regulatory/compliance and merger & acquisition services client of D&T and/ or its affiliated and related entities. We do not believe that the proposed services impair the objectivity for D&T to perform the proposed services for YNHHSC. However, we are bringing this to your attention to avoid any misunderstanding.

Should a potential conflict come to the attention of the engagement leader with respect to potential future work being performed or to be performed by D&T or one of its affiliated or related entities for YNHHSC, D&T will advise YNHHSC promptly. YNHHSC will, at its option and in consultation with the Connecticut Office of Health Care Access as appropriate, promptly request, in writing, (1) such entity not to proceed with the proposed services or (2) such entity to proceed with the proposed services, provided that such entity agrees to proceed. If YNHHSC requests such entity to proceed with the proposed services, YNHHSC agrees that D&T and its affiliated and related entities' are able to perform the proposed services objectively. If appropriate, such entity will establish an ethical wall and confidentiality safeguards so that the services will be performed by different personnel on the various engagements.

Acknowledgements and Agreements

The Company specifically acknowledges and agrees to the following:

- Substantial and meaningful involvement of management of the Company is critical to the success of this engagement. The Company shall be responsible for ensuring that the identified Company personnel actively participate in both the planning and execution of this engagement.
- D&T will not make any management decisions, perform any management functions, or assume any management responsibilities.
- The Company agrees that any deliverables provided to the Company hereunder by D&T may be disclosed to the State of Connecticut's Office of Health Care Access ("OHCA") to the extent required by such regulator in connection with an investigation or examination of the Company. To the extent permitted by law, rule, regulation and applicable professional standards, YNHHSC shall be promptly notified in the event such deliverable(s) are provided by D&T to the OHCA.

- Company will limit sensitive information, such as PII, PHI, trade secrets and other information that it considers sensitive or highly confidential, it provides to D&T (or otherwise makes available to D&T) to only that which is reasonably necessary to allow D&T to provide the Services. D&T will provide Company with a list of D&T personnel who are authorized to receive or have access to Company sensitive information. Such list may be updated as needed. Any disclosure of sensitive information by Company to D&T will utilize levels of information security and data encryption appropriate to maintain security of Company sensitive information being accessed by or transferred to D&T, and as required by applicable information protection laws.
- The Services will be performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants (“AICPA”). However, the Services will not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, we will not express an opinion or any other form of assurance as a result of performing the Services.
- We will not provide any legal advice regarding our Services nor will we provide any assurance regarding the outcome of any future audit or regulatory examination or other regulatory action; the responsibility for all legal issues with respect to these matters, such as reviewing all deliverables and work product for any legal implications to the Company, will be the Company’s.
- The Services may include advice and recommendations, but all decisions in connection with the implementation of such advice and recommendations shall be the responsibility of, and made by, the Company.

During the term of this engagement, the Company may request that D&T perform additional services that are not encompassed by this engagement letter. D&T may perform such additional services upon receipt of a separate signed engagement letter with terms and conditions that are acceptable to D&T and the Company. Our observations and recommendations will be based solely on the results of the assessment performed.

This engagement letter, together with the General Business Terms attached hereto as Appendix B and the Business Associate Addendum attached hereto as Appendix C and made a part hereof constitute the entire agreement between the Company and D&T with respect to this engagement, supersede all other oral and written representations, understandings, or agreements relating to this engagement, and may not be amended except by the mutual written agreement of the Company and D&T.

Please indicate your acceptance of this agreement by signing in the space below and returning a fully executed copy of this engagement letter to us. A duplicate of this engagement letter is provided for your records. We look forward to serving you. If you have any questions please contact Kelly Saunders at (212) 436-3180.

Very truly yours,

Deloitte & Touche LLP

Executive VP / Chief Strategy Officer

Date:

11/7/16

APPENDIX A. MONITORING PROCEDURES (per Docket Numbers 15-32032-CON and 15-32033-CON)

Condition	D&T Procedure
<p>Strategic Plan</p> <p><u>15-32033-CON Condition 4:</u> Within one hundred and eighty (180) days following the Closing Date of 9/8/16, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and YNHHS. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p> <p>NOTE 1: This applies only to Eastern Connecticut which has been defined in the Affiliation Agreement as Tolland, Windham and New London counties.</p> <p>Note 2: Refer to Condition #19 which addresses the same/similar requirements</p>	<p>D&T will obtain a copy of the Services Plan/Strategic Plan submitted for Condition #4 and #19, verify timely submission, verify that it incorporates the required elements (e.g. describing any planned consolidation, reduction, or elimination of existing services or introduction of new services) and that it meets the 3 year requirement.</p>
<p><u>15-32033-CON Condition 19:</u> L+M and YNHHS shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e. towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M service sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHHS affiliated facilities for specialized care not available locally. The strategic plan shall include but not be limited to the following components:</p> <p>a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such period. L+M shall demonstrate annual progress toward achieving these goals.</p>	<p>D&T will obtain the Services Plan/Strategic Plan submitted for Condition #4 and #19 and review the plan for inclusion of these required components (as compared to the needs described within the Community Needs Assessment and the resource commitments within the Affiliation Agreement).</p>

Condition	D&T Procedure
<p>b. YNHHS C and L+M shall abide by the resource commitments for clinical service programming as set forth in the Affiliation Agreement.</p> <p>NOTE 1: Refer to Condition #4 which addresses the same requirements.</p>	
<p><u>15-32033-CON Condition 32b</u>: A narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS C’s Management Representation to OHCA that Condition 32 requirements a through e and g have been met including referencing specific locations of primary care physicians.</p>
<p><u>15-32033-CON Condition 7</u>: Within one hundred and eighty (180) days following the Closing Date and thereafter until the capital commitment ¹is satisfied, YNHHS C shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in L+M and its affiliates from the \$300M Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:</p> <p>a. A list of the capital expenditures ²that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and</p> <p>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including</p>	<p>D&T will obtain the Plan (per 15-32033-CON Conditions #4 and #19). We will read the plan and verify that expenditures/investments made are in accordance with the Plan. We will discuss any questions/need for clarification with Management to ensure the expenditures are verified. D&T will confirm detailed, full and timely submissions, with appropriate signatures of all required reports.</p>

¹ Per discussion with OHCA, we understand that “capital requirement” per this Order is intended to mean “resource commitment”. YNHHS C will describe the plan/resource commitment per Conditions #4 and #19 of this Order.

² See footnote 4.

Condition	D&T Procedure
<p>estimated beginning, ending a 11d startup/operation dates); and</p> <p>c. The funding source of the capital investment³ indicating whether it was drawn from operating revenue, capital contributions from YNHHSO or another source and, if funding was drawn from another source, indicating the source.</p> <p>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 - September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th beginning May 31, 2017. The reports shall be signed by L+MH's or L+M's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project.</p>	
<p><u>15-32033-CON Condition 5</u>: Until such time as the Services Plan is submitted⁴, YNHHSO shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. NOTE 1: Cross-reference to Condition #18</p>	<p>D&T will confirm that notices of reallocation or relocation were submitted in a timely manner and published on the L+MH website within ten days. Per related 15-32033-CON Condition #18, D&T will confirm that any changes or reallocation of services are not in conflict with the requirements of 15-32033-CON Condition #18.</p>

³ Per discussion with OHCA, we understand that “capital investment” per this Order is intended to mean expenditures/investment made”.

⁴ The Services Plan is due 180 days after the closing date of September 8, 2016. Therefore this provision only applies until the Services Plan per Condition #4 is submitted.

Condition	D&T Procedure
<p><u>15-32033-CON Condition 18</u>: L+MH shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need.</p> <p>NOTE 1: See related Condition #1 which applies to the first 180 dates post-closing. Following that time, YNHHS is bound by Condition #4 and the Services Plan created per Condition #4</p>	<p>D&T will confirm that these services are properly maintained by conducting site visits, and ongoing data analysis of unit and patient data (e.g. to see continuing patient volume/services).</p> <p>YNHHS will provide a Management Attestation/Representation to OHCA that it is in compliance with 15-32033-CON Condition #18. D&T will obtain a copy of that Management Representation.</p>
<p><u>15-32033-CON Condition 32a</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 – September 30 with reports due November and May certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation of the continuation of all L+MH services as described herein.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's notarized Management Representation to OHCA that 15-32033-CON Condition 32 requirements a through e and g have been met.</p>
<p>Financial Reporting</p>	
<p><u>15-32033-CON Condition 8</u>: For three (3) years following the Closing Date, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period (fiscal year). Due dates are May 31st and November 30th, beginning May 2017. The following financial measurements/indicators should be addressed in the report: (i) Operating performance to include operating margin, non-operating margin, and total margin; (ii) Liquidity to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) Leverage and capital structure to include long-term debt to equity, long-term debt to capitalization,</p>	<p>D&T will obtain the financial measurement report and review work papers to ensure that they are consistent with financial reports being submitted to L+M Hospital Board and that the required elements and financial measurements are appropriately recorded in the report; we will confirm the timely submission of each report.</p>

Condition	D&T Procedure
<p>unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) Additional Statistics to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and the elements used in the calculation, unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings.</p>	
<p><u>15-32033-CON Condition 32f</u>: A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <ol style="list-style-type: none"> <li data-bbox="375 1104 922 1304">i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities; <li data-bbox="375 1339 922 1902">ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the 	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six month reports based on fiscal year. We will verify that the required elements are included in the report and are documented and supported by underlying information. We will confirm timely submission of all reports (OHCA's, HRS, Report 100, Report 150 and Report 175 and succession reports to OHCA.</p>

Condition	D&T Procedure
<p>specifics of the cost savings for each of these major expense categories;</p> <p>iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p> <p>iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.</p>	
<p><u>15-32032-CON Condition 7c</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, and Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p>	<p>Refer to procedures for 15-32033-CON Condition #32f in the work plan above.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 6:</u> Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price⁵ per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period October 1, 2015 – September 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.</p>	<p>D&T will obtain YNHHS's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information.</p> <p>D&T will review work papers to confirm information and timely filing.</p> <p>* 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017 which is 11/30/17 and the 3rd filing is due 60 dates after the close of FY2018 which is 11/30/18.</p>
Cost and Market Impact Review	
<p><u>15-32033-CON Condition 22:</u> Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p>	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>

⁵For purposes of this calculation, "total prices per unit of service" will be the weighted average price across all payers per unit of service.

Condition	D&T Procedure
<p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p>	
<p>c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHSC, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHSC shall meet and confer for the purposes of determining further conditions as necessary to</p>	

Condition	D&T Procedure
<p>correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.</p> <p>d. The independent consultant shall report to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.</p> <p>e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.</p>	
<p><u>15-32032-CON Condition 3:</u> Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined in d. below)</p>	<p>Refer to procedures for 15-32033-CON Condition #22 above.</p>

Condition	D&T Procedure
<p>for L+MH and LMMG (the "annual CMIR update"). Yale New Haven shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p> <p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 10a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p> <p>c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in</p>	

Condition	D&T Procedure
<p>the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purpose of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.</p> <p>d. The independent consultant shall take direction from the Commissioner of the Department of Public Health. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.</p> <p>e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do so by law. The confidential information and documents shall not be public records and shall be exempt from disclosure under Connecticut General Statute Section 1-210.</p>	

Condition	D&T Procedure
<p><u>15-32033-CON Condition 23:</u> For purposes of determining the price per unit of service:</p> <ul style="list-style-type: none"> f. A "unit of service" for inpatient hospital services shall be a case categorized by an ICD-9-DM/ICD-10-DM diagnosis code or a Diagnosis-Related Group (DRG) code and identified by the Connecticut Department of insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently occurring acute care hospital inpatient primary diagnoses, the fifty most frequently provided acute care hospital inpatient principal procedures, and the twenty-five most frequent inpatient surgical procedures. g. A "unit of service" for outpatient hospital services shall be a procedure or service categorized by a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding (HCPC) code and identified by the Connecticut Department of Insurance pursuant to P.A. 15-146 Section 2 as among the fifty most frequently provided outpatient procedures, the twenty-five most frequent outpatient surgical procedures and the twenty-five most frequent imaging procedures performed in the state. h. A "unit of service" for physician services shall be a work Relative Value Unit (wRVU). i. The baseline to be established as of the Date of Closing for L+M's total price per unit of service for physician services and inpatient and outpatient hospital services is inclusive of all administrative overhead, other ancillary fees including, but not limited to facility fees and the total price per unit shall reflect the total price of such service. j. All administrative costs for overhead, ancillary fees, facility fees or any other fees which are reflected in the total price per unit shall be determined by the independent consultant to be within any annual cap established. 	<p>D&T will obtain a copy of the CMIR performed by the Independent Consultant. D&T will meet annually with the Independent Consultant.</p> <p>D&T will not perform any additional procedures in the role of Monitor as it relates to 15-32033-CON Condition #23.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 20 Paragraph 1</u>: L+M and YNHHSC shall maintain the current L+MH and Lawrence + Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p>	<p>D&T will evaluate and verify that contracts are maintained in accordance with this condition. We will meet with YNHHSC Management to read the contracts and confirm that this condition is met.</p>
<p><u>15-32033-CON Condition 32c</u>: Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of Conditions (20), (21) and (22) above.</p>	<p>For 15-32033-CON Condition 32c, D&T will obtain a copy of YNHHSC's Management Representation to OHCA that Condition 32c requirements have been met. We will meet with YNHHSC Management to read the contracts and confirm that this condition is met.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 20 Paragraphs 2/3</u>: Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation and in addition as set forth in paragraph 25 herein. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to cap determined through the process set forth below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	<p>D&T will obtain the Independent Consultant/CMIR Report which should address/provide analysis to confirm paragraphs 2 and 3 of 15-32033-CON Condition #20. D&T as the Monitor will not independently perform additional/separate procedures related to paragraphs 2 and 3 of 15-32033-CON Condition #20.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 1</u>: Lawrence & Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p> <p>Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to a cap determined through the process set forth in Paragraphs 3 and 4 below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	<p>Refer to procedures for 15-32033-CON Condition #20 outlined here and 1532033-CON Condition 20a, 20b and 20c.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 7a</u>: Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of paragraphs (20), (21) and (22) above.</p>	<p>Refer to procedures for 15-32033-CON Condition #32c.</p>
<p><u>15-32033-CON Condition 21a</u>: With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph 20 above, i.e. physicians providing services through NEMG to L + M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>D&T will receive samples of payer submissions for LMMG physicians and obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21a.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 2a:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph I above, i.e. physicians providing services through NEMG to L+M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.</p>	<p>Refer to procedures for 15-32033-CON Condition #21a above.</p>
<p><u>15-32033-CON Condition 21b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 20: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 20.</p>	<p>D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21b.</p>

Condition	D&T Procedure
<p><u>15-32032-CON Condition 2b:</u> With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>b. Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 1: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 1.</p>	<p>Refer to procedures for 15-32033-CON Condition #21b above.</p>
Independent Monitor	
<p><u>15-32033-CON Condition 15:</u> Within sixty (60) days after the Closing Date, YNHHS shall contract with an Independent Monitor who has experience in hospital administration and regulation. The Independent Monitor shall be retained at the sole expense of YNHHS. Representatives of OHCA and FLIS will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years⁶ following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the</p>	<p>D&T and YNHHS will execute an Engagement Letter by the required date. A copy of this Engagement Letter will be provided to OHCA.</p>

⁶ The Monitor may be required for only 1 (one) year or up to five (5) years as determined in writing by OHCA.

Condition	D&T Procedure
<p>Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the conditions set forth herein.</p> <p>NOTE: See Condition #33a (appointment of Monitor requirement)</p>	
<p><u>15-32033-CON Condition 16:</u> The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis⁷ to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHSO will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.</p>	<p>D&T will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership and review of any documentation requested by D&T. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHSO, OHCA, and FLIS.</p> <p>Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.</p>
<p><u>15-32033-CON Condition 33:</u> In addition to the above, L+M and YNHHSO make the following commitment for a period of five years post-Closing:</p> <p>a. L+M and YNHHSO shall appoint an independent monitor at their own cost (selected by YNHHSO and L+M and approved by OHCA) to serve as a post-transfer compliance monitor.</p>	<p>For 15-32033-CON Condition #33a, refer to 15-32033-CON Condition #15.</p> <p>15-32033-CON Condition #33b – D&T will meet with CHNA/CHIP “participation</p>

⁷ The semi-annual basis will be defined as six months post-closing and on the anniversary of the closing date to coincide with meetings with the community representatives per Conditions # 33b and 33d

Condition	D&T Procedure
<p>b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period.</p>	<p>group⁸ in March 2017 for an initial introduction and will meet with this group annually thereafter to present the annual Monitor report. Relative to (ii), Refer to the procedures performed per Conditions #11 and #31. Minutes will be maintained by D&T of these meetings and provided to OHCA upon request.</p>
<p>c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties.</p>	<p>With respect to 15-32033-CON #33d, D&T will review the public notice and attend the public forum held by YNHHSC and confirm that it includes members of the CHIP (Community Health Improvement Program) group.</p>
<p>d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings.</p>	<p>With respect to 15-32033-CON #33e, D&T agrees to provide written notice of any deficiencies as required.</p>
<p>e. If the Independent Monitor determines that YNHHSC and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSC and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHSC and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHSC and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHSC and L + M into compliance and shall have the right to enforce</p>	

⁸ See attached list.

Condition	D&T Procedure
<p>these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653. In addition, in the event OHCA determines YNHHSC and L+M are in material non-compliance, OHCA may order YNHHSC and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p><u>15-32032-CON Condition 8</u>: In addition to the above, L+M and YNHHSC make the following commitment for a period of five years post-Closing:</p> <ol style="list-style-type: none"> a. L+M and YNHHSC shall appoint an independent monitor at their own cost (selected by YNHHSC and L+M and approved by OHCA) to serve as a post-transfer compliance monitor. b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. 	<p>Refer to procedures for 15-32033-CON Condition #33 a through e above.</p>

Condition	D&T Procedure
<p>e. If the Independent Monitor determines that YNHHSC and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSC and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHSC and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHSC and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHSC and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653 In addition, in the event OHCA determines YNHHSC and L+M are in material non-compliance, OHCA may order YNHHSC and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.</p>	
<p>Community Benefit</p>	
<p><u>15-32033-CON Condition 11</u>: The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years after the Closing Date consistent with L+MH's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as L+MH's current programs, and the Applicants shall apply no less than a 1% increase per year for the next three (3) years toward the L+MH's community building activities in terms of dollars spent.</p>	<p>D&T will obtain L+MH's most recent Schedule H of IRS Form 990 to act as a baseline. We will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met.</p> <p>D&T will also obtain the YNHHSC report/summary on</p>

Condition	D&T Procedure
<p>In determining L+MH' s participation and investment in both community benefits and community building activities, the Applicants shall address the health needs identified by the applicable CHNA in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.</p> <p>a. On an annual basis, YNHHSC shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing for three years and shall be posted on L+MH's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>the amounts and uses related to community benefits and community building per the categories identified in the CHNA. D&T will evaluate these reports/summaries as compared to the CHNA and defined population health management objectives and will discuss any questions with YNHHSC Management. D&T will confirm that these documents are filed in a timely manner and posted to the L+MH website.</p>
<p><u>15-32033-CON Condition 31</u>: L+M and YNHHSC have agreed to maintain at least the same level of community benefit consistent with L+M's most recent Schedule H of IRS Form 990 and its Community Health Needs Assessment (CHNA). L+M and YNHHSC agree to conduct an updated Community Health Needs Assessment by no later than December 31, 2016, and provide services in accordance with implementation plan adopted as part of the updated CHNA process and provide OHCA with its updated CHNA within thirty days of its approval.</p>	<p>After obtaining L+M's baseline Schedule H of IRS Form 990, D&T will obtain and confirm that L+M and YNHHSC have increased community benefit by 1% per year for the first three (3) years of this agreement. Thereafter for years 4 and 5, we will confirm that the level of community benefit provided in year 3 was at least maintained (not required to increase in years 4 and 5).</p> <p>Cross-reference to 15-32033-CON Condition #11.</p>
<p><u>15-32033-CON Condition 32h</u>: A narrative description of L+M's community benefit commitments described herein, including without limitation the amounts spent and a description of such spending to support and invest in the communities that L+M serves.</p>	<p>Relative to 15-32033-CON Condition #32h, see procedures performed for 15-32033-CON Conditions #11 and #31.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 12</u>: The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHHSC shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population.</p>	<p>D&T will obtain and review interpreter services policies and contracts as applicable. Additionally, our team will obtain the cultural competency plan, training and related policies. We will also obtain YNHHSC's report and supporting documents and confirm the timely filing of these materials.</p>
Charity Care Policies	
<p><u>15-32033-CON Condition 9</u>: Following the Closing Date, L+MH will adopt YNHHSC's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law, OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>D&T will obtain copies of the relevant financial assistance policies and confirm that L+MH has adopted YNHHSC's financial assistance policies (or policies at least as generous as these policies) using L+M Hospital board resolutions. After verifying that this step has been properly completed, we will confirm that these policies are properly posted on L+MH's website.</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 10</u>: For three (3) years following the Closing Date, YNHHSC shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services policies of L+MH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>After obtaining original L+MH policies on charity care, indigent care, and community volunteer services, D&T will read and assess these policies on an annual basis for changes. When changes are made to these policies, we will confirm OHCA is notified (as required) and revised policies are posted to the L+MH website.</p>
<p><u>15-32033-CON Condition 32e</u>: Affirmation that L+M has adopted the YNHHSC Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHSC Financial Assistance Program Policies currently in effect as of the date hereof.</p>	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHSC's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.</p>
Employment Conditions	
<p><u>15-32033-CON Condition 27</u>: L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #27 has been met.</p>
<p><u>15-32033-CON Condition 32g</u>: Affirmation of the labor and employment commitments described herein, including but not limited to L+M's service sites continued honoring of collective bargaining agreements in place as of the date hereof.</p>	<p>See others below</p>

Condition	D&T Procedure
<p><u>15-32033-CON Condition 28</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS C affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>D&T will obtain a copy of YNHHS C's Management Representation to OHCA that 15-32033-CON Condition #28 has been met.</p>
<p><u>15-32032-CON Condition 6</u>: Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS C affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).</p>	<p>Refer to procedures for 15-32033-CON Condition #28.</p>
<p><u>15-32033-CON Condition 29</u>: L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.</p>	<p>D&T will obtain a copy of YNHHS C's Management Representation to OHCA that 15-32033-CON Condition #29 has been met.</p>
<p><u>15-32033-CON Condition 30</u>: L+M and YNHHS C shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.</p>	<p>D&T will obtain a copy of YNHHS C's Management Representation to OHCA that 15-32033-CON Condition #30 has been met.</p>

Condition	D&T Procedure
Governance	
<p><u>15-32033-CON Condition 14:</u> For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>D&T will confirm the appointment of this individual (community representative) to the L+MH Board as evidenced by Board minutes. We will discuss the selection process with Management and document our understanding of the selection process/qualifications of the individual.</p>
<p><u>15-32033-CON Condition 17:</u> For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHSC Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	<p>To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm that notice of the public meetings is posted with proper notice.</p> <p>D&T will attend the public meetings as part of the Monitor role.</p>
<p><u>15-32033-CON Condition 26:</u> As described in the Affiliation Agreement, YNHHSC is committed to maintaining local governance at L+M. The L+M Board of Directors shall continue as a fiduciary board composed of a majority of members who reside in the communities served by L+M with the only change in composition being the addition of the President/CEO of YNHHSC (or his or her designee) serving as an ex-officio member. Each director of the L+M Board of Directors shall have an equal vote. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. Subject to certain reserved powers for YNHHSC, the L+M Board of directors will have the right to approve any major new programs and clinical services, or the discontinuation or consolidation of any such programs.</p>	<p>D&T will obtain and evaluate the Board of Directors bylaws to confirm that L+M Board maintains rights and powers specified in the Order.</p>

Condition	D&T Procedure
<p align="center">Licensure, Physician Office Conversion, Cost Savings Attainment</p>	
<p><u>15-32033-CON Condition 13:</u> The Applicants shall abide by all requirements of licensure that may be imposed by the Facility Licensing and Investigations Section ("FLIS") of the Department of Public Health ("DPH") in any Pre-Licensing Consent Order or similar agreement that FLIS may enter with these parties. OHCA is imposing this Condition to ensure that quality health care services are provided to the patient population.</p>	<p>D&T will, if necessary, work with DPH to ensure compliance with this Condition.</p>
<p><u>15-32033-CON Condition 24:</u> L+M and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #24 has been met.</p>
<p><u>15-32033-CON Condition 32d:</u> Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>D&T will obtain a copy of YNHHSC's Management Representation to OHCA that 15-32033-CON Condition #32d has been met.</p>
<p><u>15-32032-CON Condition 5:</u> L+MH and YNHHSC shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #24 above.</p>
<p><u>15-32032-CON Condition 7b:</u> Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHSC shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31st) and April 1 through September 30 (due November 30th) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>Affirmation that no L+M physician office has been converted to hospital-based status.</p>	<p>Refer to procedures for 15-32033-CON Condition #32f above.</p>
<p><u>15-32033-CON Condition 25:</u> L+M shall attain cost savings as a result of the affiliation with YNHHSC as described in the CON application.</p>	<p>D&T will obtain and read YNHHSC's reporting created per 15-32033-CON condition #32f.</p>

APPENDIX B: GENERAL BUSINESS TERMS

Client: Yale New Haven Health Services Corporation (“Yale New Haven Health” or the “System”)

1. Services. It is understood and agreed that the services provided by Deloitte & Touche LLP (Deloitte & Touche) (as defined in paragraph 13) (the “Services”) under the engagement letter to which these terms are attached (the “Engagement Letter”) may include advice and recommendations, but all decisions in connection with the implementation of such advice and recommendations shall be the responsibility of, and made by, the System. For purposes of these terms and the Engagement Letter, the “System” shall mean Yale New Haven Health Services Corporation and its subsidiaries. Yale New Haven Health Services Corporation represents and warrants that it has the power and authority to execute this agreement on behalf of, and to bind, itself and its subsidiaries.

2. Exclusion. Deloitte & Touche represents and warrants that neither Deloitte & Touche nor any of its employees providing the Services: (1) has ever been (A) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) excluded or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System and (2) shall notify System immediately in the event that the Consultant (A) is convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) is excluded or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) is otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System. System may terminate this Agreement immediately in the event that Deloitte & Touche or any of its employees (A) is convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid or another federal health care program; (B) is excluded from or debarred from participation in any federal health care program, including Medicare and Medicaid; or (C) is otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System.

3. Payment of Invoices. Deloitte & Touche’s invoices are due upon presentation. Without limiting its rights or remedies, Deloitte & Touche shall have the right to halt or terminate the Services entirely if payment is not received within sixty (60) days of the invoice date. The System shall be responsible for all taxes imposed on the Services or on the transaction, other than Deloitte & Touche’s income taxes or tax imposed by employment withholding, and other than taxes imposed on Deloitte & Touche’s property.

4. Term. Unless terminated sooner in accordance with its terms, this engagement shall terminate on the completion of the Services. This engagement may be terminated by either party at any time, with or without cause, by giving written notice to the other party not less than sixty (60) days before the effective date of termination, provided that, in the event of a termination for cause, the breaching party shall have the right to cure the breach within the notice period. Deloitte & Touche may terminate this engagement upon written notice to the System if it determines that (a) a governmental, regulatory, or professional entity (including, without limitation, the American Institute of Certified Public Accountants, the Public Company Accounting Oversight Board, or the Securities and Exchange Commission), or an entity having the force of law, has introduced a new, or modified an existing, law, rule, regulation, interpretation, or decision, the result of

which would render Deloitte & Touche's performance of any part of the engagement illegal or otherwise unlawful or in conflict with independence or professional rules; or (b) circumstances change (including, without limitation, changes in ownership of the System or any of its affiliates) such that Deloitte & Touche's performance of any part of the engagement would be illegal or otherwise unlawful or in conflict with independence or professional rules. Upon termination of the engagement, the System will compensate Deloitte & Touche under the terms of the Engagement Letter for the Services performed and expenses incurred through the effective date of termination.

5. Deliverables.

a) Deloitte & Touche has created, acquired, or otherwise has rights in, and may, in connection with the performance of the Services, employ, provide, modify, create, acquire, or otherwise obtain rights in, works of authorship, materials, information, and other intellectual property (collectively, the "Deloitte & Touche Technology").

b) Except as provided below, upon full and final payment to Deloitte & Touche hereunder, the tangible items specified as deliverables or work product in the Engagement Letter (the "Deliverables") shall become the property of the System. To the extent that any Deloitte & Touche Technology is contained in any of the Deliverables, Deloitte & Touche hereby grants the System, upon full and final payment to Deloitte & Touche hereunder, a royalty-free, fully paid-up, worldwide, nonexclusive license to use such Deloitte & Touche Technology in connection with the Deliverables.

c) To the extent that Deloitte & Touche utilizes any of its property (including, without limitation, the Deloitte & Touche Technology or any hardware or software of Deloitte & Touche) in connection with the performance of the Services, such property shall remain the property of Deloitte & Touche and, except for the license expressly granted in the preceding paragraph, the System shall acquire no right or interest in such property. Notwithstanding anything herein to the contrary, the parties acknowledge and agree that (1) Deloitte & Touche shall own all right, title, and interest, including, without limitation, all rights under all copyright, patent, and other intellectual property laws, in and to the Deloitte & Touche Technology and (2) Deloitte & Touche may employ, modify, disclose, and otherwise exploit the Deloitte & Touche Technology (including, without limitation, providing services or creating programming or materials for other clients). Deloitte & Touche does not agree to any terms that may be construed as precluding or limiting in any way its right to (1) provide consulting or other services of any kind or nature whatsoever to any person or entity as Deloitte & Touche in its sole discretion deems appropriate or (2) develop for itself, or for others, materials that are competitive with or similar to those produced as a result of the Services, irrespective of their similarity to the Deliverables.

d) To the extent any Deloitte & Touche Technology provided to the System hereunder is a product (to the extent it constitutes merchandise within the meaning of section 471 of the Internal Revenue Code), such Deloitte & Touche Technology is licensed to the System by Deloitte & Touche as agent for Deloitte & Touche Products Company LLC on the terms and conditions herein. The assignment and license grant in this paragraph 5 do not apply to any works of authorship, materials, information, or other intellectual property (including any modifications or enhancements thereto or derivative works based thereon) that is subject to a separate license agreement between the System and a third party, including without limitation, Deloitte & Touche Products Company LLC.

6. Limitation on Warranties. THIS IS A SERVICES ENGAGEMENT. DELOITTE & TOUCHE WARRANTS THAT IT SHALL PERFORM THE SERVICES IN GOOD FAITH AND WITH DUE PROFESSIONAL CARE. DELOITTE & TOUCHE DISCLAIMS ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7. Limitation on Damages and Indemnification.

a) The System agrees that Deloitte & Touche, its subcontractors, and their respective personnel shall not be liable to the System for any claims, liabilities, or expenses relating to this engagement (“Claims”) for an aggregate amount in excess of two (2) times the fees paid by the System to Deloitte & Touche pursuant to this engagement, except to the extent finally judicially determined to have resulted primarily from the bad faith, or intentional misconduct of Deloitte & Touche or its subcontractors.

b) Except with respect to Claims for which a party has an indemnification obligation hereunder, in no event shall either party, its subcontractors, or their respective personnel be liable for any loss of use, data, goodwill, revenues, or profits (whether or not deemed to constitute a direct Claim), or any consequential, special, indirect, incidental, punitive, or exemplary loss, damage, or expense relating to this engagement.

c) Except for those claims for which Deloitte & Touche has agreed to indemnify the System pursuant to paragraph 7(d) and, 7(e), the System shall indemnify and hold harmless Deloitte & Touche, its subcontractors, and their respective personnel from all Claims of third parties arising from the use or disclosure of the Services or the Deliverables, except to the extent finally judicially determined to have resulted primarily from the recklessness, bad faith, or intentional misconduct of Deloitte & Touche or its subcontractors.

d) Deloitte & Touche shall indemnify, defend and hold harmless the System, its directors, officers, employees and agents from and against any and all Claims, including reasonable attorneys' fees, in each case solely for bodily injury, death or physical damage to real or tangible personal property, to the extent such Claims are caused by Deloitte & Touche's negligent acts, negligent errors or negligent omissions. In the event such Claims are caused by the joint or concurrent negligence of the parties, they shall be borne by each party in proportion to such party's negligence.

e) Deloitte & Touche agrees to defend the System, its officers and employees from and against any and all claims and pay any settlement costs or any final judgments, including reasonable defense costs and reasonable legal fees, arising out of infringement by the Deliverables of any U.S. patent known to Deloitte & Touche or copyright or any unauthorized use of any trade secret or trademark, except to the extent that such infringement or unauthorized use arises from (i) the System's modification of the Deliverables or use thereof in a manner not contemplated by this engagement, (ii) the failure of the System to use any corrections or modifications made available by Deloitte & Touche, (iii) information, materials, instructions or specifications provided by or on behalf of the System, (iv) the System's distribution, marketing or use for the benefit of third parties of the Deliverables, or (v) the use of the Deliverable in combination with any product or data not provided by Deloitte & Touche whether or not with Deloitte & Touche's consent. If any such Deliverable, or any portion thereof, becomes, or in Deloitte & Touche's reasonable judgment, is likely to become the subject of a claim based upon infringement or unauthorized use, or if any such Deliverable or

any portion thereof, is found by final, non-appealable order of a court of competent jurisdiction to be such an infringement or unauthorized use, Deloitte & Touche, at its option and expense, shall have the right to (x) procure for the System the continued use of such Deliverable, (y) replace or modify such Deliverable provided that the replacement or modified Deliverable is reasonably capable of performing substantially the same function, or (z) require the System to cease use of such Deliverable and refund an appropriate portion of the fee paid with respect to the affected Deliverable. The foregoing provisions of this Paragraph constitute the sole and exclusive remedy of the System, and the sole and exclusive obligation of Deloitte & Touche, relating to a claim that a Deliverable infringes any patent, copyright or other intellectual property right of a third party.

8. Client Responsibilities. The System shall cooperate with Deloitte & Touche in the performance by Deloitte & Touche of the Services, including, without limitation, providing Deloitte & Touche with reasonable facilities and timely access to data, information, and personnel of the System. The System shall be responsible for the performance of its personnel and agents and for the accuracy and completeness of all data and information provided to Deloitte & Touche for purposes of the performance by Deloitte & Touche of the Services. The System acknowledges and agrees that Deloitte & Touche's performance is dependent upon the timely and effective satisfaction of the System's responsibilities hereunder and timely decisions and approvals of the System in connection with the Services. Deloitte & Touche shall be entitled to rely on all decisions and approvals of the System. The System shall be solely responsible for, among other things (a) making all management decisions and performing all management functions, (b) designating a competent management member to oversee the Services, (c) evaluating the adequacy and results of the Services, (d) accepting responsibility for the results of the Services, and (e) establishing and maintaining internal controls, including, without limitation, monitoring ongoing activities.

9. Force Majeure. Neither party shall be liable for any delays or nonperformance directly or indirectly resulting from circumstances or causes beyond its reasonable control, including, without limitation, acts or omissions or the failure to cooperate by the other party (including, without limitation, entities or individuals under its control, or any of their respective officers, directors, employees, other personnel and agents), acts or omissions or the failure to cooperate by any third party, fire, epidemic or other casualty, act of God, strike or labor dispute, war or other violence, or any law, order, or requirement of any governmental agency or authority.

10. [Reserved]

11. Independent Contractor.

(a) Deloitte & Touche and System acknowledge and agree that Deloitte & Touche is being retained as an independent contractor, and that Deloitte & Touche shall be responsible for determining the manner and means by which Deloitte & Touche performs the Services. Nothing herein shall be construed to make Deloitte & Touche an employee or agent of System, to entitle Deloitte & Touche to receive the benefits of any employee benefit plan of System, or to create a joint venture or partnership or fiduciary relationship between the parties. Neither party shall not make an unauthorized representation or warranty concerning the products or services of the other party or commit the other party to any agreement or obligation.

(b) No payroll or employment taxes of any kind shall be withheld or paid with respect to payments to Deloitte & Touche hereunder. Deloitte & Touche agrees to indemnify System against, and to defend and hold System harmless from, any liabilities, claims, costs or expenses (including reasonable attorneys' fees) which may be made against System, or incurred by System, in respect of any such payroll or employment taxes.

(c) No workers' compensation insurance has been or will be obtained by System on account of Deloitte & Touche.

12. Confidentiality and Internal Use.

a) The System agrees that all Services and Deliverables shall be solely for the System's informational purposes and internal use, and are not intended to be, and should not be, used by any person or entity other than the System. Except as otherwise specifically provided in the Engagement Letter, the System further agrees that such Services and Deliverables shall not be circulated, quoted, disclosed, or distributed to, nor shall reference to such Services or Deliverables be made to, any person or entity other than the System and other contractors of the System to whom the System may disclose the Deliverables solely for the purpose of such contractors providing services to the System relating to the subject matter of this engagement, provided that the System shall ensure that such contractors do not further circulate, quote, disclose, or distribute such Deliverables, or make reference to such Deliverables, to any person or entity other than the System. Notwithstanding the foregoing, the System shall not be prohibited from creating its own materials based on the content of such Services and Deliverables and using and disclosing such System-created materials for external purposes, provided that the System does not, expressly or by implication, in any manner whatsoever, attribute such materials to Deloitte & Touche or otherwise refer to or identify Deloitte & Touche in connection with such materials.

b) To the extent that, in connection with this engagement, either party (each, the "receiving party") comes into possession of any trade secrets or other proprietary or confidential information of the other (the "disclosing party"), it will not disclose such information to any third party without the disclosing party's consent. The disclosing party hereby consents to the receiving party disclosing such information (1) to subcontractors, whether located within or outside of the United States, that are providing services in connection with this engagement and that have agreed to be bound by confidentiality obligations similar to those in this paragraph 12(b); (2) as may be required by law, regulation, judicial or administrative process, or in accordance with applicable professional standards or rules, or in connection with litigation or arbitration pertaining hereto; or (3) to the extent such information (i) shall have otherwise become publicly available (including, without limitation, any information filed with any governmental agency and available to the public) other than as the result of a disclosure in breach hereof, (ii) becomes available to the receiving party on a nonconfidential basis from a source other than the disclosing party that the receiving party believes is not prohibited from disclosing such information to the receiving party by obligation to the disclosing party, (iii) is known by the receiving party prior to its receipt from the disclosing party without any obligation of confidentiality with respect thereto, or (iv) is developed by the receiving party independently of any disclosures made by the disclosing party to the receiving party of such information. In satisfying its obligations under this paragraph 12(b), each party shall maintain the other's trade secrets and proprietary or

confidential information in confidence using at least the same degree of care as it employs in maintaining in confidence its own trade secrets and proprietary or confidential information, but in no event less than a reasonable degree of care. Nothing in this paragraph 12(b) shall alter the System's obligations under paragraph 12(a). Notwithstanding anything to the contrary herein, the System acknowledges that Deloitte & Touche, in connection with performing the Services, may develop or acquire experience, skills, knowledge, and ideas that are retained in the unaided memory of its personnel. The System acknowledges and agrees that Deloitte & Touche may use and disclose such experience, skills, knowledge, and ideas.

13. Survival and Interpretation. All paragraphs herein relating to payment of invoices, deliverables, limitation on warranties, limitation on damages and indemnification, limitation on actions, confidentiality and internal use, survival and interpretation, assignment, nonexclusivity, waiver of jury trial and governing law shall survive the expiration or termination of this engagement. For purposes of these terms, "Deloitte & Touche" shall mean Deloitte & Touche LLP and, for purposes of paragraph 7, shall also mean Deloitte & Touche Products Company LLC, one of its subsidiaries. The System acknowledges and agrees that no affiliated or related entity of Deloitte & Touche, whether or not acting as a subcontractor, or such entity's personnel shall have any liability hereunder to the System or any other person and the System will not bring any action against any such affiliated or related entity or such entity's personnel in connection with this engagement. Without limiting the foregoing, affiliated and related entities of Deloitte & Touche are intended third-party beneficiaries of these terms, including, without limitation, the limitation on liability and indemnification provisions of paragraph 7, and the agreements and undertakings of the System contained in the Engagement Letter. Any affiliated or related entity of Deloitte & Touche may in its own right enforce such terms, agreements, and undertakings. **The provisions of paragraphs 7, 13, 15, and 18 hereof shall apply to the fullest extent of the law, whether in contract, statute, tort (such as negligence), or otherwise, notwithstanding the failure of the essential purpose of any remedy.**

14. Assignment and Subcontracting. Except as provided below, neither party may assign, transfer, or delegate any of its rights or obligations hereunder (including, without limitation, interests or Claims) without the prior written consent of the other party. The System hereby consents to Deloitte & Touche subcontracting any of Deloitte & Touche's rights or obligations hereunder to (a) any affiliate or related entity, whether located within or outside of the United States. Services performed hereunder by Deloitte & Touche's subcontractors shall be invoiced as professional fees on the same basis as Services performed by Deloitte & Touche's personnel, unless otherwise agreed.

15. Waiver of Jury Trial. THE PARTIES HEREBY IRREVOCABLY WAIVE, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING, OR COUNTERCLAIM RELATING TO THIS ENGAGEMENT.

16. Nonsolicitation. During the term of this engagement and for a period of one (1) year thereafter, each party agrees that its personnel (in their capacity as such) who had direct and substantive contact in the course of this engagement with personnel of the other party shall not, without the other party's consent, directly or indirectly employ, solicit, engage, or retain the services of such personnel of the other party. In the event a party breaches this provision, the breaching party shall be liable to the aggrieved party for an amount equal to thirty percent (30%) of the annual base compensation of the relevant personnel in his or her new position. Although such payment shall be the aggrieved party's exclusive means of monetary recovery from the breaching party for breach of this provision, the aggrieved party shall be entitled to seek injunctive or other

equitable relief. This provision shall not restrict the right of either party to solicit or recruit generally in the media.

17. Entire Agreement, Amendment, and Notices. These terms, and the Engagement Letter, including exhibits, constitute the entire agreement between the parties with respect to this engagement; supersede all other oral and written representations, understandings, or agreements relating to this engagement; and may not be amended except by written agreement signed by the parties. In the event of any conflict, ambiguity, or inconsistency between these terms and the Engagement Letter, these terms shall govern and control. All notices, requests, demands and other communications hereunder shall be in writing and shall be deemed to have been duly given when either personally served or mailed by certified or registered mail, return receipt requested to the addresses first set forth above.

18. Governing Law, Jurisdiction and Venue, and Severability. These terms, the Engagement Letter, including exhibits and all matters relating to this engagement shall be governed by, and construed in accordance with, the laws of the State of Connecticut (without giving effect to the choice of law principles thereof). Any action based on or arising out of this engagement or the Services provided or to be provided hereunder shall be brought and maintained exclusively in any court of the State of Connecticut or any federal court of the United States, in each case located in the State of Connecticut. Each of the parties hereby expressly and irrevocably submits to the jurisdiction of such courts for the purposes of any such action and expressly and irrevocably waives, to the fullest extent permitted by law, any objection which it may have or hereafter may have to the laying of venue of any such action brought in any such court and any claim that any such action has been brought in an inconvenient forum. If any provision of these terms or the Engagement Letter is found by a court of competent jurisdiction to be unenforceable, such provision shall not affect the other provisions, but such unenforceable provision shall be deemed modified to the extent necessary to render it enforceable, preserving to the fullest extent permissible the intent of the parties set forth herein.

19. Non-Use of YNHHS Name. Deloitte & Touche shall not use YNHHS name or logo, or the name of any YNHHS facility, in any way other than in connection with the Services, including in any advertising or promotional media as a customer or client of Deloitte & Touche, without obtaining the prior written consent of System.

20. False Claims. Deloitte & Touche acknowledges that System has provided it with access to its policy on False Claims and Payment Fraud Prevention (the "Policy") located on its internet site at www.ynhhs.org/FalseClaims.pdf. The False Claims Act imposes civil penalties on people and companies who knowingly submit a false claim or statement to a federally funded program, or otherwise conspire to defraud the government, in order to receive payment. It also protects people who report suspected fraud.

21. Personal Inducements. Deloitte & Touche represents and warrants that no cash, equity interest, merchandise, equipment, services or other forms of remuneration have been offered, shall be offered or will be paid or distributed by or on behalf of Deloitte & Touche to YNHHS and/or the employees, officers, or directors of YNHHS or its member hospitals, or to any other person, party or entity affiliated with YNHHS or its member hospitals, as an inducement to purchase or to influence the purchase of services by YNHHS or its member hospitals from Deloitte & Touche.

22. No Undisclosed Relationships. Deloitte & Touche represents and warrants to the System that, except for those relationships (if any) Deloitte & Touche has disclosed to the System in writing, as of the date of this Agreement the Deloitte & Touche and Deloitte FAS personnel that provide services under this Agreement: (i) do not have a financial relationship with any of the System's trustees, officers, employees, or medical staff members, (ii) will not establish or otherwise create any such relationship after the Effective Date without disclosing such relationship to the System in writing, and (iii) Deloitte & Touche will promptly notify the System in writing if its Engagement Partner for the Services becomes aware of the existence of any such relationship during the course of the services provided under this Agreement. Notwithstanding any other provision of this Agreement or any other agreement between the System and Deloitte & Touche, the System may terminate this Agreement upon written notice to Deloitte & Touche in the event the System becomes aware of any such relationship (through disclosure by Deloitte & Touche or otherwise).

23. General Compliance. Deloitte & Touche shall comply with all applicable standards, statutes, rules, regulations, acts and orders of the United States, its departments, agencies, and bureaus, and of any applicable state or political subdivision thereof, including without limitation, laws and regulations pertaining to labor, wages, hours, conditions of employment, environmental protection, hazardous and infectious materials, identity theft, as applicable to Deloitte & Touche in its performance of the Services hereunder.

24. Equal Employment Opportunities. Deloitte LLP (the parent company of Deloitte & Touche) and its subsidiaries (together, referred to as "Deloitte" for purposes of this Section 24) are equal opportunity employers. Deloitte recruits, employs, trains, compensates, and promotes without regard to race, religion, creed, color, citizenship, national origin, age, gender, gender identity/expression, sexual orientation, marital status, disability, veteran status, or any other legally protected basis, in accordance with applicable federal, state, or local law. Deloitte makes reasonable attempts to accommodate the expression of religious beliefs, as long as that expression does not harass or intimidate coworkers or place an undue hardship on its business.

As a federal contractor, Deloitte also provides an affirmative action program for minorities, women, disabled and Vietnam-era veterans, and persons with disabilities.

In response to a request from a qualified individual with a disability, Deloitte will make a reasonable accommodation that would allow that individual to perform the essential functions of his or her job, unless doing so would create undue hardship on its business.

25. Access to Records. In the event that the Engagement Letter provides for services to be performed by Vendor worth \$10,000 or more over a 12-month period, Deloitte & Touche agrees, until the expiration of four years after the termination of the Arrangement, to make available to the Secretary, U.S. Department of Health and Human Services, and the U.S. Comptroller General and their representatives, pursuant to a proper request, the Agreement, if any, and all books, documents and records necessary to certify the nature and extent of the cost of those services. If Deloitte & Touche carries out any of the duties described herein through a subcontract worth \$10,000 or more over a 12-month period with a related organization, the subcontract will also contain an access clause to permit access by the Secretary, Comptroller General and their representatives pursuant to a proper request to the related organization's books, documents and records necessary to certify the nature and extent of the cost of those services. In the event Deloitte & Touche receives a request for access, Deloitte & Touche agrees to notify YNHHS immediately and to consult with YNHHS regarding the response to the request.

26. Security and Access. Deloitte & Touche shall comply with all YNHHS policies and procedures pertaining to visitation, confidentiality, security and vendor identification as are provided to it in writing prior to execution of the Engagement Letter. YNHHS may issue non-employee identification badges under certain conditions; in the event that any non-employee identification badge is issued to an employee of Deloitte & Touche, Deloitte & Touche agrees to cause such employee to prominently display such badge at all times while on YNHHS premises. All badges must be surrendered by Deloitte & Touche when requested by YNHHS. Non-compliance with any of the above policies shall be deemed a breach of the Engagement Letter.

APPENDIX C: Business Associate Addendum

This Appendix (“Appendix C”) is part of the attached engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”) and Yale New Haven Health Services Corporation and its subsidiaries (“YNHH”). If and to the extent, and so long as, required by HIPAA or HITECH (each as defined below), and not otherwise, D&T and YNHH hereby agree to the following in connection with D&T’s performance of services under the engagement letter to which this Business Associate Appendix is attached (such engagement letter, the “Engagement Letter,” together with this Business Associate Appendix and all other attachments, appendices, and exhibits to the Engagement Letter, this “Agreement”). D&T agrees that for purposes of this Appendix C, D&T is a business associate of YNHH to the extent that, in performance of the Services, D&T qualifies as a “business associate” as that term is defined at 45 C.F.R §160.103.

- (A) Unless otherwise specified in this Business Associate Appendix, all capitalized terms used in this Business Associate Appendix shall have the meanings established for purposes of HIPAA or HITECH, as applicable. Specific statutory or regulatory citations used in this Business Associate Appendix shall mean such citations as amended and in effect from time to time.
1. “Compliance Date” shall mean, with respect to any applicable provision in this Business Associate Appendix, the later of the date by which compliance with such provision is required under HITECH and the effective date of this Agreement.
 2. “Electronic Protected Health Information” shall mean Protected Health Information that is transmitted or maintained in electronic media.
 3. “HIPAA” shall mean the Health Insurance Portability and Accountability Act, 42 U.S.C. §§ 1320d through 1320d-8, as amended from time to time, and all associated existing and future implementing regulations, when effective and as amended from time to time.
 4. “HITECH” shall mean Subtitle D of the Health Information Technology for Economic and Clinical Health Act provisions of the American Recovery and Reinvestment Act of 2009, 42 U.S.C. §§ 17921-17954, as amended from time to time, and all associated existing and future implementing regulations, when effective and as amended from time to time.
 5. “Protected Health Information” shall mean the term as defined in 45 C.F.R. § 160.103, and is limited to the Protected Health Information received from, or received or created on behalf of, the Client by D&T pursuant to performance of the Services.
 6. “Privacy Rule” shall mean the federal privacy regulations issued pursuant to HIPAA, as amended from time to time, codified at 45 C.F.R. Part 164 (Subparts A and E).
 7. “Security Rule” shall mean the federal security regulations issued pursuant to HIPAA, as amended from time to time, codified at 45 C.F.R. Part 164 (Subparts A and C).
 8. “Services” shall have the meaning set forth in the attached engagement letter, and, if not therein defined, shall mean the services described in the Engagement Letter to be performed by D&T for the Client.
 9. “Unsecured Protected Health Information” shall mean Protected Health Information that is not rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a

technology or methodology specified by the Secretary in the regulations or guidance issued pursuant to 42 U.S.C. § 17932(h)(2).

(B) With regard to D&T's use and disclosure of Protected Health Information:

1. D&T may use and disclose Protected Health Information as reasonably required or contemplated in connection with the performance of the Services, excluding the use or further disclosure of Protected Health Information in a manner that would violate the requirements of the Privacy Rule, if done by the Client. Notwithstanding the foregoing, D&T may use and disclose Protected Health Information for the proper management and administration of D&T as provided in 45 C.F.R. § 164.504(e)(4).
2. D&T will not use or further disclose Protected Health Information other than as permitted or required by this Business Associate Appendix, and in compliance with each applicable requirement of 45 C.F.R. § 164.504(e), or as otherwise Required by Law.
3. D&T will implement and use appropriate administrative, physical, and technical safeguards to (1) prevent use or disclosure of Protected Health Information other than as permitted or required by this Business Associate Appendix; (2) reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that D&T creates, receives, maintains, or transmits on behalf of the Client; and (3) as of the Compliance Date of 42 U.S.C. § 17931, comply with the Security Rule requirements set forth in 45 C.F.R. §§ 164.308, 164.310, 164.312, and 164.316.
4. D&T will, without unreasonable delay report to the Client (1) any use or disclosure of Protected Health Information not provided for by this Business Associate Appendix of which it becomes aware in accordance with 45 C.F.R. § 164.504(e) (2) (ii) (C); and/or (2) any Security Incident affecting Electronic Protected Health Information of which D&T becomes aware in accordance with 45 C.F.R. § 164.314(a) (2) (C).
5. D&T will, without unreasonable delay, and in any event no later than ten (10) business days after Discovery, notify the Client of any Breach of Unsecured Protected Health Information. The notification shall include, to the extent possible (and subsequently as the information becomes available), the identification of all individuals whose Unsecured Protected Health Information is reasonably believed by D&T to have been Breached along with any other available information that is required to be included in the notification to the Individual, the Secretary, and/or the media, all in accordance with the data breach notification requirements set forth in 42 U.S.C. § 17932 and 45 C.F.R. Parts 160 and 164 (Subparts A, D, and E), as of their respective Compliance Dates.
6. D&T will ensure that any subcontractors or agents to whom D&T provides Protected Health Information agree to the same restrictions and conditions that apply to D&T with respect to such Protected Health Information. To the extent that D&T provides Electronic Protected Health Information to a subcontractor or agent, it will require the subcontractor or agent to implement reasonable and appropriate safeguards to protect the Electronic Protected Health Information consistent with the requirements of this Business Associate Appendix.

7. D&T will, to the extent that Protected Health Information in D&T's possession constitutes a Designated Record Set, make available such Protected Health Information in accordance with 45 C.F.R. § 164.524.
8. In the event that D&T, in connection with the Services, uses or maintains an Electronic Health Record of Protected Health Information of or about an Individual, D&T will provide an electronic copy of such Protected Health Information in accordance with 42 U.S.C. § 17935(e) as of its Compliance Date.
9. D&T will, to the extent that Protected Health Information in D&T's possession constitutes a Designated Record Set, make available such Protected Health Information for amendment and incorporate any amendments to such information as directed by the Client, all in accordance with 45 C.F.R. § 164.526.
10. D&T will document and make available the information required to provide an accounting of disclosures of Protected Health Information, in accordance with 45 C.F.R. § 164.528.
11. In the event that D&T, in connection with the Services, uses or maintains an Electronic Health Record of Protected Health Information of or about an Individual, D&T will make an accounting of disclosures of such Protected Health Information in accordance with the requirements for accounting of disclosures made through an Electronic Health Record in 42 U.S.C. § 17935(c), as of its Compliance Date.
12. D&T will make its internal practices, books, and records relating to the use and disclosure of Protected Health Information available to the Secretary for purposes of determining the Client's compliance with the Privacy Rule.
13. D&T will, as of the Compliance Date of 42 U.S.C. § 17935(b), limit any request, use, or disclosure by D&T of Protected Health Information, to the extent practicable, to the Limited Data Set of such Protected Health Information (as defined in 45 C.F.R. § 164.514(e)(2)), or, if the request, use, or disclosure by D&T of Protected Health Information, not in a Limited Data Set, is necessary for D&T's performance of the Services, D&T will limit the amount of such Protected Health Information requested, used, or disclosed by D&T to the minimum necessary to accomplish the intended purpose of such request, use, or disclosure, respectively; provided, however, that the requirements set forth above in this subsection (13) shall be superseded and replaced by the requirements of the "minimum necessary" regulations or guidance to be issued by the Secretary (pursuant to 42 U.S.C. § 17935(b)(1)(B)) on and after its Compliance Date.
14. D&T will not directly or indirectly receive remuneration in exchange for any Protected Health Information as prohibited by 42 U.S.C. § 17935(d) as of its Compliance Date.
15. D&T will not make or cause to be made any communication about a product or service that is prohibited by 42 U.S.C. § 17936(a) as of its Compliance Date.
16. D&T will not make or cause to be made any written fundraising communication that is prohibited by 42 U.S.C. § 17936(b) as of its Compliance Date.

(C) In addition to any other obligation set forth in this Agreement, including this Business Associate Appendix, the Client agrees that it will: (1) not make any disclosure of Protected Health Information to

D&T if such disclosure would violate HIPAA, HITECH, or any applicable federal or state law or regulation; (2) not request D&T to use or make any disclosure of Protected Health Information in any manner that would not be permissible under HIPAA, HITECH, or any applicable federal or state law or regulation if such use or disclosure were done by the Client; and (3) limit any disclosure of Protected Health Information to D&T, to the extent practicable, to the Limited Data Set of such Protected Health Information, or, if the disclosure of Protected Health Information that is not in a Limited Data Set is necessary for D&T's performance of the Services, to limit the disclosure of such Protected Health Information to the minimum necessary to accomplish the intended purpose of such disclosure, provided, however, that the requirements set forth above in this part (3) shall be superseded and replaced by the requirements of the "minimum necessary" regulations or guidance to be issued by the Secretary (pursuant to 42 U.S.C. § 17935(b)(1)(B)) on and after its Compliance Date.

- (D) If either the Client or D&T knows of either a violation of a material term of this Business Associate Appendix by the other party or a pattern of activity or practice of the other party that constitutes a material breach or violation of this Business Associate Appendix, the non-breaching party will provide written notice of the breach or violation to the other party that specifies the nature of the breach or violation. In the event that the breaching party does not cure the breach or end the violation on or before thirty (30) days after receipt of the written notice, the non-breaching party may do the following:
 - (i) if feasible, terminate this Agreement; or
 - (ii) if termination of this Agreement is infeasible, report the issue to the Secretary.
- (E) D&T will, at termination of this Agreement, if feasible, return or destroy all Protected Health Information that D&T still maintains in any form and retain no copies of Protected Health Information or, if such return or destruction is not feasible (such as in the event that the retention of Protected Health Information is required for archival purposes to evidence the Services), D&T may retain such Protected Health Information and shall thereupon extend the protections of this Business Associate Appendix to such Protected Health Information and limit further uses and disclosures to those purposes that make the return or destruction of such Protected Health Information infeasible.
- (F) Any other provision of this Agreement that is directly contradictory to one or more terms of this Business Associate Appendix shall be superseded by the terms of this Business Associate Appendix to the extent and only to the extent of the contradiction and only for the purpose of the Client's and D&T's compliance with HIPAA and HITECH. The terms of this Business Associate Appendix, to the extent they are unclear, shall be construed to allow for compliance by the Client and D&T with HIPAA and HITECH.

In addition, the Client agrees to compensate D&T for any time and expenses that we may incur in responding to requests for documents or information under HIPAA, HITECH, or any regulations promulgated under HIPAA or HITECH.

Nothing contained in this Business Associate Appendix is intended to confer upon any person (other than the parties hereto) any rights, benefits, or remedies of any kind or character whatsoever, whether in contract, statute, tort (such as negligence), or otherwise, and no person shall be deemed a third-party beneficiary under or by reason of this Business Associate Appendix.

Gayle, please see the attached letter from multiple organizations and individuals objecting to the approval of Deloitte and Touche as the Independent Monitor for the Yale-New Haven Hospital System settlement agreement. Please address all allegations in full detail with supporting documentation as needed. As I advised when we met on November 15th, I do feel it is important for you and/or your community representative to meet with these organizations and individuals to inform them of such decisions as this acquisition moves forward. In light of the assertions made in the attached letter, I am hereby restating my request and ask that your discussions include the points outlined in the letter. Further, OHCA reserves the right to reverse its approval of the monitor based on your response to the attached letter.

Honorable Raul Pino
Commissioner of Public Health
State of Connecticut
410 Capitol Ave.
PO Box 340308
Hartford CT 06134

Dear Commissioner Pino:

The undersigned organizations and individuals write to express our strong objection to your approval of Deloitte & Touche as the Independent Monitor for the Yale New Haven Hospital System settlement agreement.

We are local and statewide community leaders and organizations, committed to ensuring quality, affordable health care services continue to be provided in this region. We believe the appointment of Deloitte & Touche undermines this essential objective. Deloitte & Touch have been one of Yale-New Haven Health's top five outside contractors for each of the past 10 years, earning \$30 million over that time. Last year the Securities and Exchange Commission charged these consultants with violating auditor independence rules — charges that Deloitte agreed to settle by paying the federal agency more than \$1 million. We do not believe these are the appropriate credentials for the important task of overseeing the transformation of our region's health care.

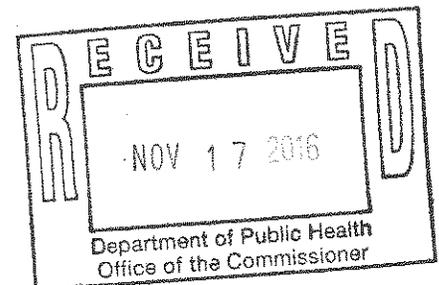

The Independent Monitor and Independent Consultant required by the Agreement must act with, and be perceived to act with unimpeachable integrity. The enforcement burdens on the Independent Monitor and Consultant are extremely heavy – the Agreement contains unprecedented consumer protections, and as the first in the history of the state, the Cost and Market Impact Review will establish the standard for future analyses under the statute. Financial or other conflicts of interest between Yale New Haven Health and the Independent Monitor and Consultant will create powerful incentives to weaken the protections. Even the appearance of conflict will severely damage public confidence in the Office of Health Care Access, the statute and the integrity of Yale New Haven Health Services Corporation.

We urge you, Commissioner Pino, to reject Yale's proposal to assign any consultant with such a clear conflict of interest or a record of violating independent auditing rules

Please feel free to contact us with any questions.

Thank you in advance for your consideration of our request.

Role of Community Representative
OHCA CT Docket #15-32033-CON Condition 14

Condition 14 states: For three years following the Closing Date the applicant shall allow for one community representative to serve as a voting member of L+M Hospital's Board of Directors with rights and obligations consistent with other voting members under L+M Hospital's Board of Directors bylaws. The applicants shall select a community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interest of the community served by L+M Hospital. OHCA is imposing this Condition to ensure continued access to healthcare services for the patient population.

The underlying purpose of the "community representative," even though the vast majority of L+M Hospital's Trustees are independent Trustees from the community, is to ensure that community interests are voiced at Board meetings as the Board makes decisions.

The definition of community is the population being served by L+M Hospital. It is not restricted to particular advocacy, interest or organized groups, specific demographics, programs or organizations. L+M has a history of working with the community and regularly completes its Community Needs Analysis and has developed a community health improvement plan, which has input from more than 50 community representatives. The community is also represented by schools, government and other non-profits. The community representative will consider a broad and inclusive definition of community. The Condition requires that the community representative will be "an unbiased individual who will fairly represent the interests of the community served by Lawrence + Memorial Hospital."

The Condition does not detail the role for the "community representative." However, the community representative should be actively engaged and reach out to any and all community groups to discuss the advancements YNHHS/L+M Hospital is making, receive input regarding issues and concerns that the community may have in order to provide information to the L+M Hospital Board.

The Independent Monitor is required to meet with community representatives within six months following the transaction and annually thereafter for up to five years. The Independent Monitor is also required to hold a public forum within six months following the transaction and not less than annually thereafter for five years to provide public review and comment on the Monitor's report and findings and information on what is happening at L+M. In addition, for the next three years, Yale New Haven Health System and L+M Hospital Boards will meet together twice per year and following these meetings a public meeting will be held to update the public on what is happening at the Hospital. The "community representative" should be actively engaged in all of these meetings.

CONSULTING SERVICES AGREEMENT

This Consulting Services Agreement (this "*Agreement*") is entered into as of this 28th day of November, 2016 (the "*Effective Date*") by and between Yale New Haven Health Services Corporation with a principal place of business at 789 Howard Avenue, New Haven, CT ("*Customer*") and Milliman, Inc., a Washington corporation with a place of business at One Pennsylvania Plaza, 38th Floor, New York, NY 10119 ("*Contractor*").

1. Scope of Services.

(a) Statement of Work. Contractor shall furnish the services (the "*Services*") described and further specified in the Statement of Work or proposal (whether or not separately executed) attached hereto as Exhibit A ("*SOW*"). If either party reasonably believes the performance of additional services not described in any applicable SOW are advisable or desirable, then such party shall request a written change order, in a form mutually agreed upon, that describes the services requested to be performed and the terms upon which such services shall be performed. Any such change order, if executed by both parties, shall be incorporated into the SOW. In the event of conflict between a provision in the SOW (or change order) and a provision in this Agreement, the provision in this Agreement prevails, unless the SOW (or change order) expressly refers to the provision in this Agreement and states the parties' intention to supersede such provision.

(b) Performance of Services. The Services shall be performed in a professional manner by personnel of Contractor having a level of skill in the area commensurate with the requirements of the scope of work to be performed. Contractor and any personnel engaged to perform the Services shall at all times maintain any and all licenses, certifications, and/or other qualifications required under applicable federal, state or local laws or rules to perform the Services.

2. Compensation. Customer shall pay Contractor the fees for the Services specified in the applicable SOW. Unless otherwise specified in the SOW, Contractor shall invoice Customer on a monthly basis, and payment on all uncontested invoices shall be made by Customer within sixty (60) days of receipt of a complete invoice.

3. Term and Termination.

(a) Term. This Agreement shall commence on the Effective Date and shall continue in full force and effect until the later of: (i) the expiration or termination of the last SOW or (ii) [one year] following the Effective Date, unless earlier terminated pursuant to this Section 3.

(b) Termination for Non-Performance. Customer may terminate this Agreement at its option, in the event Contractor ceases providing services hereunder for any reason whatsoever, immediately upon notice to Contractor to that effect

(c) Termination by Customer. Customer may terminate this Agreement at any time for any or no reason by providing the Contractor thirty (30) days' prior written notice of termination, provided that such termination is consistent with the terms of the Agreed Settlement with the Connecticut Office of Health Care Access (OHCA) under Docket Number 15-32033-CON (the "*Order*").

(d) Termination for Cause. Either party may terminate this Agreement, if the other party is in material breach of this Agreement and the breaching party has not cured such breach to the non-breaching party's reasonable satisfaction within thirty (30) days after the non-breaching party's

notice of the breach to the breaching party. Customer reserves the right to stop all work if any bill goes unpaid for 90 days. In the event of such termination, Contractor shall be entitled to collect the outstanding balance, as well as charges for all services and expenses incurred up to the date of termination.

(e) Effects of Termination. Upon termination or expiration of this Agreement, all rights and obligations of the parties hereunder shall terminate; provided, that, Sections 3(d), 4, 5, 6, 8, 9, 10, 11, 12, 13, 14 and 15 shall survive any such expiration or termination. Notwithstanding anything herein to the contrary, expiration or termination of this Agreement shall not relieve either party of any obligations that may have accrued prior to such termination or expiration.

4. Ownership.

(a) Work Made For Hire. Contractor is performing the Services for Customer on a work-for-hire basis. Except as otherwise set forth herein, Customer shall be the sole owner of all rights (including copyright and any other intellectual property and proprietary rights) in all final deliverables created by Contractor during its performance of the Services and provided to Customer as set forth in Exhibit A (the "*Work Product*"). To the extent any Work Product does not qualify as a work made for hire, to transfer all rights in the Work Product to Customer, Contractor hereby irrevocably assigns to Customer all rights (including copyright and any other intellectual property and proprietary rights) in all such Work Product.

(b) Contractor Tools. Contractor shall retain all rights, title and interest (including, without limitation, all copyrights, patents, service marks, trademarks, trade secret and other intellectual property rights) in and to all technical or internal designs, methods, ideas, concepts, know-how, techniques, generic documents and templates that have been previously developed by Contractor or developed during the course of the provision of the Services ("Contractor Tools") provided such Contractor Tools do not contain any Customer Confidential Information or proprietary data. Rights and ownership by Contractor of Contractor Tools shall not extend to or include all or any part of Customer's proprietary data or Customer Confidential Information. To the extent that Contractor may include in the Work Product any Contractor Tools, Contractor agrees that Customer shall be deemed to have a fully paid up license to make copies of the Contractor Tools as part of its use of the Work Product for its internal business purposes and provided that such Contractor Tools cannot be modified or distributed outside Customer without the written permission of Contractor or as otherwise permitted herein.

(c) Third Party Distribution. Work Product is prepared solely for the internal business use of Customer and for purposes of Customer's compliance with the terms of the Order. Work Product may not be provided to third parties without Contractor's prior written consent, which consent may be conditioned on execution by the third party of Contractor's standard Third Party Release Agreement; provided, however, Customer may share Contractor's work with its parent or affiliates, but only if either (a) the Customer has the full power and authority to bind such parent or affiliate to the terms of this agreement and does bind such affiliate to the terms, or (b) the parent or affiliate acknowledges in writing that the work of Contractor is subject to certain limitations and restrictions contained in this Agreement and that the parent or affiliate acquires no greater rights than are possessed by Customer under this Agreement. Contractor does not intend to benefit any third party recipient of Work Product, even if Contractor consents to the release of Work Product to such third party. Notwithstanding anything herein to the contrary, Contractor agrees that Customer may provide Work Product to OHCA and to the independent monitor retained by Customer pursuant to, and consistent with, the terms of the Order.

5. Indemnification. Customer agrees to indemnify and hold Contractor, its officers, directors, agents and employees, harmless from and against all loss, damages, liability, and Expense, with respect to the work in question where such loss, damages, liability or Expense was incurred by reason of any claims, actions, suits or governmental investigations or proceedings, brought by any third party against or involving Contractor, its officers, directors, agents and employees, which relate to or arise out of the engagement of Contractor by Customer. Provided, however, that Customer shall not be required to indemnify Contractor, its officers, directors, agents and employees, for any damages determined by a court or an arbitration panel to have resulted from Contractor's intentional fraud or willful misconduct. For purposes of this paragraph, "Expense" shall include: all legal expenses incurred by Contractor in the investigation, defense or settlement of any claim, action, suit or proceeding, and all other reasonable costs and expenses, including the services of Contractor based on normal hourly rates, together with its out-of-pocket expenses, incurred in the investigation, defense or settlement of same.

6. Confidentiality. Each party shall be bound by the confidentiality and non-disclosure obligations in Section 3 of the Compliance Addendum (as defined in Section 7 hereof).

7. Compliance Addendum. If required by Customer, Contractor shall each execute and deliver a mutually agreeable Compliance Addendum contemporaneous with the execution of this Agreement (the "*Compliance Addendum*").

8. Notices. Any notice required or permitted under this Agreement or required by law shall be made in writing and shall be: delivered in person; sent by first class registered mail; sent by overnight air courier; or sent by telefax or e-mail with a confirmation copy sent by one of the foregoing methods within twenty-four (24) hours of transmission, in each case to the appropriate address as set forth in this Agreement or as notified by the other party from time to time. Notices shall be deemed given at the time of actual delivery in person, by telefax or e-mail; three (3) business days after deposit in the mail; or one (1) day after delivery to an overnight air courier service.

9. Governing Law and Dispute Resolution. This Agreement shall be interpreted and construed in accordance with the laws of the State of Connecticut, without regard to its conflict of laws principles. In the event of any dispute arising out of or relating to the engagement of Contractor by Customer, the parties agree that the dispute will be resolved by final and binding arbitration under the Commercial Arbitration Rules of the American Arbitration Association. The arbitration shall take place before a panel of three arbitrators. Within 30 days of the commencement of the arbitration, each party shall designate in writing a single neutral and independent arbitrator. The two arbitrators designated by the parties shall then select a third arbitrator. The arbitrators shall have a background in either insurance, actuarial science or law. The arbitrators shall have the authority to permit limited discovery, including depositions, prior to the arbitration hearing, and such discovery shall be conducted consistent with the Federal Rules of Civil Procedure. The arbitrators shall have no power or authority to award punitive or exemplary damages. The arbitrators may, in their discretion, award the cost of the arbitration, including reasonable attorney fees, to the prevailing party. Any award made may be confirmed in any court having jurisdiction. Any arbitration shall be confidential, and except as required by law, neither party may disclose the content or results of any arbitration hereunder without the prior written consent of the other parties, except that disclosure is permitted to a party's auditors and legal advisors.

10. Assignment. Neither party may assign its rights or obligations pursuant to this Agreement without the other party's prior written consent; except that either party may, upon notice to the

other party, assign its rights and obligations to any of its affiliates or subsidiaries. Any attempted transfer or assignment contrary to the terms of this Section 10 shall be void and of no effect.

11. Entire Agreement. This Agreement, including any SOWs or other exhibits hereto, and the Compliance Addendum shall contain the entire agreement between the parties in respect of the subject matter hereof. No amendments or modifications to this Agreement shall be effective unless made in writing and signed by authorized representatives of both parties.

12. Waiver. The failure of either Party hereto to enforce at any time, or for any period of time, any provision of this Agreement shall not be construed as a waiver of such provision or of the right of such Party thereafter to enforce each and every provision. Any waiver by a Party of any of its rights under this Agreement in one or more instances shall be made in a writing signed by such Party and shall not be construed as constituting a continuing waiver or as a waiver in other instances.

13. Independent Contractors.

(a) The Contractor and Customer acknowledge and agree that the Contractor is being retained as an independent contractor, and that the Contractor shall be responsible for determining the manner and means by which the Contractor performs the duties and responsibilities assigned to the Contractor under this Agreement. Nothing in this Agreement shall be construed to make the Contractor an employee or agent of Customer, to entitle the Contractor to receive the benefits of any employee benefit plan of Contractor, or to create a joint venture or partnership between the parties. The Contractor shall not make an unauthorized representation or warranty concerning the products or services of Customer or commit Customer to any agreement or obligation without the express authorization of an authorized officer of Customer.

(b) No payroll or employment taxes of any kind shall be withheld or paid with respect to payments to the Contractor. The Contractor shall be responsible for the payment of all taxes, including but not limited to any income, sales or use tax, levied with respect to the services provided hereunder by the Contractor. The Contractor agrees to indemnify Customer against, and to defend and hold Customer harmless from, any liabilities, claims, costs or expenses (including reasonable attorneys' fees) which may be made against Customer, or incurred by Customer, in respect to any such payroll or employment taxes.

(c) No workers' compensation insurance has been or will be obtained by Customer on account of the Contractor.

14. Limitation of Liability. In the event of any claim arising from services provided by Contractor at any time, the total liability of Contractor, its officers, directors, agents and employees to Customer shall not exceed three million dollars (\$3,000,000). This limit applies regardless of the theory of law under which a claim is brought, including negligence, tort, contract or otherwise. In no event shall Contractor be liable for lost profits of Customer or any other type of incidental or consequential damages. The foregoing limitations shall not apply in the event of the intentional fraud or willful misconduct of Contractor.

15. Use of Name. Customer agrees that it shall not use Contractor's name, trademarks or service marks, or refer to Contractor directly or indirectly in any media release, public announcement or public disclosure, including in any promotional or marketing materials, customer lists, referral lists, websites or business presentations without Contractor's prior written consent for each such use or release, which consent shall be given in Contractor's sole discretion. Contractor shall not use or

permit the use of Customer's name, logo or likeness, or that of any Customer facility, in any way, including, without limitation, advertising or promotional media identifying Customer as a customer or client of Contractor, without obtaining the prior written consent of Customer.

16. **Counterparts.** This Agreement may be executed in multiple counterparts, each of which shall be deemed an original but all of which, when taken together shall constitute one and the same agreement. Delivery of a signature page to this Agreement via facsimile or other electronic image transmission is legal, valid and binding execution and delivery for all purposes.

[Signature Page follows.]

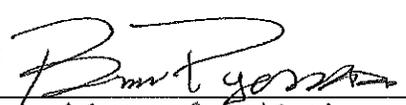

IN WITNESS WHEREOF, the duly authorized representative of each party has executed this Agreement as of the Effective Date.

Lawrence+Memorial Cost and Market Impact Review Statement of Work

TERM: The services set forth in this Statement of Work shall begin as of December 7, 2016 and shall be completed by December 31, 2020.

SERVICES:

Milliman will serve as an independent consultant, as required under YNHHS's Agreed Settlement with the Connecticut Office of Health Care Access (OHCA), evaluate the non-governmental fee levels of services provided by L+MC's Lawrence + Memorial Hospital (L+MH) and Lawrence & Memorial Medical Group (LMMG), and annually set maximum fee increases, for 5 years for L+MH and 28 months for LMMG. Milliman's work will be summarized in Cost and Market Impact Review (CMIR) reports. The services are further described in Milliman's Proposal "Lawrence+Memorial Cost and Market Impact Review" dated November 28, 2016.

PAYMENTS:

Milliman bills for time and travel expenses. Time is tracked by professional on a quarter-hour basis and billed monthly. We estimate the following prices by deliverable.

Phase	Deliverables	Estimated Price
Baseline CMIR: L+MH	Report to OHCA	\$200,000
Baseline CMIR: LMMG	Report to OHCA	\$100,000
3 annual updates: L+MH*	Report to OHCA	\$120,000 each

The estimates are based on the following hourly rates and budgeted hours.

2016 Hourly Billing Rates

Professional	Role	Hourly Billing Rate for 2016
Bruce Pyenson, FSA, MAAA Principal and Consulting Actuary	Project oversight and communications	\$650
Rong Yi, PhD Principal and Consultant	Analytics manager	\$460
Tia Sawhney, DrPH, FSA, MAAA Healthcare Consultant and Actuary	Policy, technical and design	\$385
Maggie Alston Manager, Data Analysis	Project manager	\$260
Feng Han, MS Data Scientist	Statistical methods and analysis	\$225
Other Consultants	As needed	\$280-\$650
Analysts	SAS data extraction and Excel modeling	\$160-\$280

Budgeted Hours

CMIR	Staff	Hours	Avg. Hourly Rate	Cost
Baseline LM+H	Consultant	202	\$500	\$101,000
	Analyst	450	\$220	\$99,000
	Total	652		\$200,000
Baseline LMMG	Consultant	101	\$500	\$50,500
	Analyst	225	\$220	\$49,500
	Total	326		\$100,000
LM+H Update	Consultant	100	\$500	\$50,000
	Analyst	318	\$220	\$69,960
	Total	418		\$119,960

Substantial revisions and work outside the proposal will be billed at Milliman's usual hourly rates plus travel expenses at price.

The duly authorized representatives of each party hereby agree to the terms of this Statement of Work.

E. Data Sources	7
F. Price	9
G. Timing	9
H. Consulting Services Agreement	9

A. BACKGROUND

In early September 2016, The Connecticut Office of Health Care Access (OHCA) granted Yale New Haven Health Services Corporation (YNHHS) approval to acquire Lawrence + Memorial Corporation (L+MC). The "Agreed Settlement" had a number of terms, including requiring YNHHS to engage an independent consultant to evaluate the non-governmental fee levels of services provided by L+MC's Lawrence + Memorial Hospital (L+MH) and Lawrence & Memorial Medical Group (LMMG) and to annually set maximum fee increases, for 5 years for L+MH and 28 months for LMMG. This proposal sets out the Milliman proposal to serve as the independent consultant.

B. ABOUT MILLIMAN

Milliman is, by a large margin, the dominant source of health actuarial expertise with more qualified health actuaries than any other organization in the world. We have active health practices across the globe (including Europe, Japan and Brazil). With almost 3000 employees, 2015 revenue of close to \$1 billion, and a focus on professional services, we have the expertise and resources to support the biggest challenges.

We have been pioneers in the pricing of ACA exchange products, Medicare Part D, Medicare Advantage, and managed care strategies. We have been leaders in actuarial consulting to provider organization including ACOs; in particular, we are supporting hundreds of provider organizations in their bundled payment and risk contracts. We have contributed significant leadership to the Actuarial profession, including presidents plus many officers of all professional actuarial bodies. Milliman provides more MA-PD and PDP bids than any other consulting firm, and we have certified hundreds of Exchange bids.

To support our consulting work, we have accumulated and organized huge datasets and developed detailed price, utilization and bid development tools. We also have normative actuarial models that contain detailed utilization and cost figures, along with models that allow actuaries to calculate the impact of benefit designs, utilization management, area factors, delivery systems, and demographics. These tools are part of our *Health Cost Guidelines* suite, which are licensed to over 100 health plans for use by actuaries. For more details, see <http://www.milliman.com/expertise/healthcare/products-tools/health-cost-guidelines/>.

Our proposed team has worked with numerous insurers, ACOs, and state agencies and has the expertise and stature to provide independent, objective, and authoritative analytic reports. The team, from the New York City office of Milliman, is led by the following individuals:

Bruce Pyenson, FSA, MAAA, Principal and Consulting Actuary. Bruce has consulted across the healthcare spectrum. His publications include monographs on provider risk sharing (published by the American Hospital Association), columns on scientific method for the Society of Actuaries health newsletter, and over 30 peer-reviewed publications. This is Bruce's 30th year at Milliman. He was recently appointed to serve on the Medicare Payment

Advisory Commission (MedPAC), which advises Congress on policy. Bruce will advise and guide the project and communications.

Tia Goss Sawhney, DrPH, FSA, MAAA, Healthcare Consultant and Actuary. Tia is dual credentialed as a doctor of public health and an actuary. Before joining Milliman 2 years ago she was a member of the executive leadership team of Illinois Medicaid. Her diverse background includes using medical claims databases to identify treatment patterns and cost drivers and due diligence reviews in healthcare. Tia frequently writes and speaks on policy issues. Tia will lead the policy and technical design portions of the project.

Rong Yi, PhD, Principal and Healthcare Consultant. Rong is a national expert on risk adjustment, predictive modeling and other quantitative methods. She led the development of the Massachusetts Connector's risk adjustment methodology and is instrumental in its on-going operations, working with several state agencies, the carriers and other stakeholders in Massachusetts. She is also leading several projects for the Minnesota Department of Health, using the MN all-payer claims database for purposes of rate review, risk adjustment and understanding market dynamics. Rong has been at Milliman for 7 years and will lead the data analytics portion of the project.

Bruce, Tia, and Rong will be supported by the Milliman New York City office's highly-experienced team of healthcare analysts.

Milliman, with about 3,000 employees, serves as an objective, analytically focused, independent advisor to a myriad of organizations in healthcare and insurance. We establish fire-walls to preserve the independence and confidentiality of particular projects and to avoid the appearance of conflicts of interest. The above team has no conflicts in performing this project and we will maintain the independence of our team throughout the project.

c. HIGH LEVEL SUMMARY OF RELEVANT SECTIONS OF AGREED SETTLEMENT

Detailed settlement conditions are spelled out in the Order section of the Agreed Settlement. Below, we summarize conditions that directly relate to our potential work as independent consultant. (This summary is for general informational purposes and context and is neither a legal interpretation nor intended to be a complete description.)

Condition 22:

- a. Describes the role of the independent consultant that YNHHS must hire to conduct a baseline Cost and Market Impact Review (CMIR) for each of L+MH and LMMG. It acknowledges that there may be initial data limitations.
- b. Describes the baseline and updated CMIRs and the basis for establishing maximum market price increases, including the various factors that the independent consultant should consider.
- c. Describes the development of maximum price increases, the monitoring of price increases, and possible corrective actions.
- d. Describes the role of the independent consultant, including that the consultant will report to and take direction from the DPH Commissioner.
- e. Describes CMIR distribution and confidentiality: OHCA shall keep all nonpublic information obtained as part of the CMIR and the CMIR report confidential and not release without the consent of YNHHS and L+MC, unless required to do so by law.

Only our final report will be public. Our analysis will rely on non-public data, data that we will describe and reference in our final report, including summary data tables.

Condition 23:

Defines key terms for the CMIR analysis described in Section 22, including the units of service for inpatient hospital, outpatient hospital, and physician services

Condition 20:

Maintains L+MH and LMMG pre-affiliation commercial health plan negotiated contracts as of the date of closing through December 31, 2017. Caps fee increases for a period of five years from the date of closing in the case of L+MH and twenty-eight months from the date of closing in the case of LMMG. (The date of closing was September 8, 2016.)

D. ANALYSIS METHODOLOGY

This section details our analysis methodology. The methodology aligns with Sections 22 and 23 of the Agreed Settlement and may change somewhat based on the limitations of the data and direction from OHCA.

Calculation of Pre-Affiliation Fee Ratios

1. For inpatient hospital, outpatient hospital, and physician services we will define a basket of services.
 - a. IP: Using the Department of Insurance (DOI) service lists as prescribed by the Agreed Settlement,¹ we will map the top inpatient primary diagnoses, top procedures, and top surgical DRGs to a basket of DRG codes.
 - b. OP: Using the DOI service lists as prescribed by the Agreed Settlement,² we will map the top outpatient procedures to a basket of HCPCS codes.
 - c. Physicians: Using Milliman data, we will create a basket of the 50 most frequent physician service procedure codes and the wRVU for the services.
2. For the most recent pre-affiliation period that we have data, we will calculate the average market fee for each basket as a weighted average across payers and among the services in the basket.
 - a. IP: Fee per average admission.
 - b. OP: Fee per average service.
 - c. Physicians: Fee per average wRVU.
3. For the pre-affiliation period we will calculate the average L+M fee for each basket as a weighted average across payers and among the services in the basket.
4. For the pre-affiliation period we will calculate the ratio of the average L+M fee for each basket to other providers in the market. We will calculate the maximum commercial fee increase that will maintain (not exceed) this ratio.

Calculation of Maximum Commercial Fee Increase for CY 2018 (First CMIR Year)

1. For each payer within each basket we will project market fee increases from the pre-affiliation period through 2018 and any anticipated shifts between payers. We will then calculate a 2018 average market fee.
2. For each non-commercial payer within each basket we will project L+M fee increases from the pre-affiliation period through 2018 and any anticipated shifts among payers. We will then calculate the L+M maximum fee increase for the pre-affiliation period through 2018 that will produce a L+M average market fee that maintains the pre-affiliation ratio.

¹ Connecticut Acute Care Hospital and Outpatient Surgical Facility Data: FY2015, August 1, 2016.

² Ibid.

3. We will reduce the maximum fee increase, as necessary, to reflect any increases that L+M has already received or will receive after the pre-affiliation period and before 2018.

Calculation of Maximum Commercial Fee Increase for CY's 2019+ (Subsequent CMIR Years)

1. For the most recent period that we have data (update period) we will calculate the average market fee for each basket as a weighted average across payers and among the services in the basket.
2. For the update period, we will calculate the average L+M fee for each basket as a weighted average across payers and among the services in the basket.
3. For each payer within each basket we will project market fee increases from the update period through the CMIR year and any observed or anticipated shifts between payers. We will then calculate a CMIR year average market fee.
4. For each non-commercial payer within each basket we will project L+M fee increases from the update period through the CMIR year and any observed or anticipated shifts between payers. We will then calculate the L+M maximum fee increase for the update period through CMIR year that will produce a L+M average market fee that maintains the pre-affiliation ratio.
5. We will reduce the maximum fee increase, as necessary, to reflect any increases that L+M has already received or will receive after the update period and before the CMIR year.

Note: The CMIR methodology is inherently self-correcting. If L+M provides less Medicaid or uninsured care than anticipated in a period, their average fee for that period will increase, reducing their next year's maximum commercial fee increase.

Note: The above CMIR methodology is aligned with the Agreed Settlement and, where required by the Agreed Settlement, with Connecticut General Statute Section 19a-639f. It is therefore different than the methodologies for Massachusetts CMIRs, which are aligned with Massachusetts regulation³ and law,⁴ and which are completed prior to affiliation. We will, however, examine Massachusetts CMIRs for potential learnings and practices.⁵

³ Massachusetts Health Policy Commission, Technical Bulletin for 958 CMR 7.00: Notices of Material Change and Cost and Market Impact Reviews.

⁴ Massachusetts General Laws, Part I, Title II, Chapter 6D, Section 13.

⁵ Mass.gov, Administration and Finance, Material Change Notices/Cost and Market Impact Reviews.

E. DATA SOURCES

While Section 22.a of the Agreed Settlement acknowledges that there may be limitations in data available to the independent consultant, we believe there are a number of potential data sources and these limitation can be overcome. We will spend substantial time early in the project identifying potential data sources and assessing their reliability, usability, appropriateness, and timeliness.

Market prices are central to our analysis. Prices are assigned to services and paid by payers as claims; claims data therefore is ideal for understanding market prices. Other data sources, such as the hospital discharge dataset, can illuminate payer mix, uncompensated care, and the volume of select services in the market.

Potential data sources and their potential uses include:

Potential Data Source	Potential Use of the Data
1. Pricing and other data provided by L+MH and LMMG*	L+MH and LMMG prices; payer mix; uncompensated care; service mix
2. CMS Medicare 5% sample and 100% data* and fee schedules	Prices for Medicare; market share and service mix for Medicare
3. CT Medicaid fee schedules	Prices for Medicaid
4. Truven Health Analytics MarketScan claims database as licensed by Milliman*	Provider prices for multiple payers
5. Milliman's proprietary Consolidated Health Cost Guidelines Sources Database (CHSD), a "MarketScan-like" claims database*	Provider prices for multiple payers
6. Connecticut hospital discharge dataset*	Hospital size and market share; payer mix; uncompensated care; service mix
7. Connecticut hospital reports submitted to OHCA and Medicare Cost Reports	Hospital size and market share; payer mix; uncompensated care
8. Connecticut All Payer Claims Database (APCD)*	Prices for all payers; market share; payer mix; uncompensated care; service mix
9. Connecticut employee health benefits program claims database*	Prices for payers covering state employees; market share and service mix for employee population
10. Other data submitted to OHCA or other Connecticut state agencies by Connecticut healthcare providers or payers**	TBD

* Non-public data. Non-public = restricted to certain users and/or uses.

** May include non-public data.

While the APCD (#8 above) and employee health claims database (#9 above) would be excellent data sources, if they are not available or insufficiently populated we can proceed without them.

Milliman has, for about two decades, licensed the Truven MarketScan commercial database and predecessor databases, and has developed routine processing to speed its use, improve its accuracy, and increase its utility. In recent years, this data source has included claims for about 50 million lives. Milliman also has a similar, non-overlapping, database (CHSD) with about 20 million lives of data from Milliman client data contributors across the U.S.

We will review data sources annually for relevant changes, including the possibility of incorporating new data sources into our analysis.

F. PRICE

Milliman bills for time and travel expenses. Time is tracked by professional on a quarter-hour basis and billed monthly.

Phase	Deliverables	Estimated Price
Baseline CMIR: L+MH	Report to OHCA	\$200,000
Baseline CMIR: LMMG	Report to OHCA	\$100,000
3 annual updates: L+MH*	Report to OHCA	\$120,000 each

* The L+MH fee monitoring period is 5 years from September, 2016. L+MH pre-affiliation negotiated contracts are maintained through December 31, 2017. The baseline L+MH CMIR is applicable to fee increases for calendar year 2018 and updates are applicable for 2019, 2020, and 2021 through August.

The LMMG fee monitoring period is 28 months from September, 2016. LMMG pre-affiliation negotiated contracts are maintained through December 31, 2017. The Baseline LMG CMIR is applicable to fee increases for calendar year 2018. There will be no updates.

Substantial revisions and work outside the above will be billed at Milliman's usual hourly rates plus travel expenses at price.

G. TIMING

We will deliver the CMIRs by June each year, with the first CMIR delivered in June 2017.

H. CONSULTING SERVICES AGREEMENT

This work will be subject to the terms of a Milliman – YNHHSO consulting services agreement.

COMPLIANCE ADDENDUM

COMPLIANCE ADDENDUM

THIS COMPLIANCE ADDENDUM (this “Addendum”) is made as of November 28, 2016 (the “**Effective Date**”), by and between Yale-New Haven Health Services Corporation, Inc., acting on behalf of Bridgeport Hospital, Greenwich Hospital, Yale-New Haven Hospital, Inc. and/or Northeast Medical Group, Inc. (“**YNHHS**”) and Milliman, Inc., having offices at One Pennsylvania Plaza, 38th Floor, New York, NY 10119 (“**Vendor**”).

YNHHS and Vendor have entered into an agreement for November 28th, 2016, dated as of the Effective Date (“**Agreement**”), pursuant to which the Vendor will provide certain goods and/or services to YNHHS.

YNHHS and Vendor understand that the Agreement is subject to numerous requirements imposed by federal law, state law, and accreditation agencies, and YNHHS and Vendor desire to perform their respective obligations under the Agreement in full compliance with those requirements.

Therefore, the parties agree as follows:

1. **Exclusion.** Vendor agrees as follows:

(a) Vendor represents and warrants that neither it nor any of its employees or representatives performing services under the Agreement has ever been: (1) convicted of a criminal offense related to health care or related to the provision of services paid for by Medicare, Medicaid or another federal health care program (“**Government Health Care Programs**”); (2) excluded or debarred from participation in any Government Health Care Program; or (3) otherwise sanctioned by the federal government, including being listed on the General Services Administration’s Excluded Party Listing System or Office of Foreign Assets Control (OFAC) list of Specially Designated Nationals and Blocked Persons List.

(b) Vendor shall notify YNHHS immediately if any representation or warranty in paragraph (a) above is or becomes untrue at any time during the term of the Agreement.

(c) If any representation or warranty in paragraph (a) above is or becomes untrue at any time during the term of the Agreement, YNHHS may, in its sole discretion, either terminate the Agreement or require Vendor to replace any employee or representative causing the breach of warranty with another appropriate employee or representative acceptable to YNHHS.

2. **Access to Records.** If the Agreement provides for services to be performed by Vendor worth \$10,000 or more over a 12-month period, Vendor will, until the expiration of four years after the termination of the Agreement, make available to the Secretary, U.S. Department of Health and Human Services, and the U.S. Comptroller General and their representatives, the Agreement and all books, documents and records necessary to certify the nature and extent of the cost of those services. If Vendor carries out any of the duties described herein through a subcontract worth \$10,000 or more over a 12-month period with a related organization, the subcontract must also

contain an access clause to permit access by the Secretary, Comptroller General and their representatives to the related organization's books, documents and records. In the event Vendor receives a request for access, Vendor will notify YNHHS immediately and consult with YNHHS regarding the response to the request.

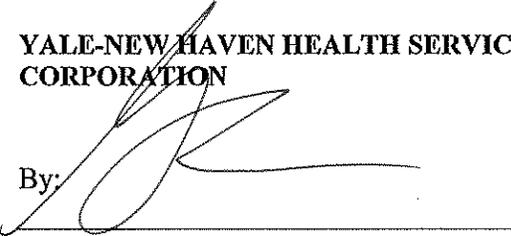

3. **Confidentiality.** Each party expressly undertakes to retain in confidence all information and know-how transmitted to it by the disclosing party that the disclosing party has identified as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential ("Confidential Information") and will make no use of such information and know-how except under the terms and during the existence of the Agreement. The parties' obligations under this Section shall survive termination or expiration of the Agreement. Confidential Information shall include, by way of example and not limitation, any and all information regarding a party's finances, practices, employees, or management. Confidential Information shall not include information which (i) at the time of disclosure was, is or thereafter becomes disclosed or available to or known by the public (other than as a result of a disclosure in violation of any of obligations hereunder), (ii) was or is or thereafter becomes available on a non-confidential basis from a source that is not and was not prohibited from disclosing such information by a contractual, legal or fiduciary obligation, or (iii) has been or thereafter becomes independently acquired or developed without access to any of the information provided by the disclosing party. Notwithstanding anything herein to the contrary, or any prior understanding or agreement between the parties, YNHHS shall have the right to disclose all pricing and other terms stated in or relating to the Agreement to any of YNHHS' attorneys, accountants, Consultants (including members of the medical staff and physicians members of clinical evaluation committees or other committees evaluating purchases), group purchasing organizations, and other third parties retained by YNHHS in the ordinary course, on a need-to-know basis (that is, their duties, requirements or contract for services require such disclosure), and, with the exception of group purchasing organizations, agree to take appropriate action by instruction or agreement with such individuals permitted access to the Confidential Information to satisfy the obligations under this Section. Unauthorized use of Confidential Information is a material breach of the Agreement resulting in irreparable harm for which the payment of money damages is inadequate. It is agreed that the non-breaching party, upon adequate proof of unauthorized use, may immediately obtain injunctive relief in any court of competent jurisdiction enjoining any continuing or further breaches and may obtain entry of judgment for injunctive relief. Nothing in the Agreement shall be construed to limit remedies at law or equity in the event of a breach.

4. **Security.** If Vendor personnel will be on YNHHS's premises, Vendor and Vendor personnel must comply with all YNHHS policies and procedures pertaining to visitation, confidentiality, security and vendor identification. YNHHS may issue non-employee identification badges under certain conditions. If YNHHS provides an identification badge, Vendor will require its personnel to prominently display such badge at all times while on YNHHS premises. Vendor shall surrender any badge immediately upon request by YNHHS. Vendor's or Vendor Personnel's non-compliance with any of the policies described in this Section is to be construed as a breach of the Agreement.

5. **Relationship to Agreement.** To the extent there is any conflict between the terms and conditions of this Addendum and the Agreement, the terms and conditions of this Addendum shall control. All other terms and conditions of the Agreement shall remain in full force and effect.

IN WITNESS WHEREOF, each of the parties has caused this Addendum to be executed as of the date set forth above.

Subject: Yale and L&M acquisition

Gayle, please see the attached letter from multiple organizations and individuals objecting to the approval of Deloitte and Touche as the Independent Monitor for the Yale-New Haven Hospital System settlement agreement. Please address all allegations in full detail with supporting documentation as needed. As I advised when we met on November 15th, I do feel it is important for you and/or your community representative to meet with these organizations and individuals to inform them of such decisions as this acquisition moves forward. In light of the assertions made in the attached letter, I am hereby restating my request and ask that your discussions include the points outlined in the letter. Further, OHCA reserves the right to reverse its approval of the monitor based on your response to the attached letter.

November 30, 2016

Ms. Kimberly Martone
Office of Healthcare Access
State of Connecticut
410 Capitol Avenue
P.O. Box 340308
Hartford, CT 06134

Dear Ms. Martone:

I am writing in response to concerns raised by a group of former intervenors regarding the selection of Deloitte and Touche as the Independent Monitor for the affiliation of Lawrence + Memorial Healthcare with Yale New Haven Health System. As you know, the appointment of the Monitor was made in compliance with the detailed conditions set forth in the Agreed Settlement which approved the affiliation on September 8, 2016.

Deloitte and Touche was recommended for this role because of its unique and comprehensive set of skills and knowledge of the healthcare environment. Deloitte and Touche has been engaged by healthcare organizations throughout the United States, including the State of Connecticut Health Exchange, for its expertise and broad perspective on changes affecting the delivery of healthcare. Deloitte has worked for 10 out of the 11 largest non-profit healthcare systems in the nation, 75 percent of all honor roll hospitals and more than 90 percent of the Fortune 500 life sciences and healthcare companies. Deloitte also has been a national leader in transaction monitoring and has thoroughly reviewed its ability to fulfill the responsibilities of the Independent Monitor to ensure that there are no conflicts of interest.

The group of former intervenors has cited work that Deloitte has done in the past for Yale New Haven Health as disqualifying the firm from serving as the Independent Monitor. They cite \$30 million in billings over the past decade-plus. To put this number in perspective, during that time, Yale New Haven Health grew from a \$1.5 billion system to more than \$4 billion. The System spent more than \$340 million on professional fees during that period of which approximately \$30 million was paid to Deloitte, which is less than .0815% of its 2016 U.S. revenue of \$36.8 billion.

Deloitte has been engaged by Yale New Haven Health for the following matters. From 2005 through 2015, Deloitte provided internal audit services, averaging approximately \$1.7 million annually – nearly half the amount cited in the letter. In this capacity, Deloitte reported directly to the Audit Committee of the Board to preserve independence from management. In 2015, Yale New Haven Health selected Ernst & Young to replace Deloitte in this role.

In 2012, Deloitte provided consulting services in connection with Yale New Haven Hospital's integration with the former Hospital of Saint Raphael. This role included identifying opportunities for economic efficiencies while preserving access to care and jobs. The Saint Raphael transaction was subject to OHCA approval and post-approval monitoring, and by all accounts, the integration has been successful. In 2015, Deloitte provided similar services in pre-closing discussions with Lawrence and Memorial regarding potential synergies.

In 2013, Deloitte was selected from a competitive bidding process to provide consultation as Yale New Haven Health implemented a new, System-wide electronic health record. That same year, Deloitte also provided transitional support for the Chief Information and Chief Compliance Officer roles.

We firmly believe that none of this past work would interfere with the proposed role for Deloitte as the Independent Monitor. Further, it is our understanding that Deloitte's internal conflict assessment review would have resulted in their withdrawing from this engagement if a conflict was identified.

Finally, unrelated to this work, the former intervenors cite a \$1 million fine that Deloitte received from the Securities Exchange Commission back in 2015. It is important to note that this isolated event was self-disclosed by Deloitte and was part of a series of cases reviewed by regulators at the time, including a \$4 million fine against Ernst & Young and an \$8.2 million fine against KPMG.

While the organizations that have raised concerns about Deloitte uniformly opposed the affiliation during the approval process, we are committed to listening to their perspectives, along with those of community leaders throughout southeastern Connecticut. Our goal is simple. We want this affiliation to succeed. To do so we intend to demonstrate that we will keep the commitments we made to the State, just as we did in 2012 during the integration with the Hospital of Saint Raphael. In fact, just two months into our formal affiliation with Lawrence + Memorial Healthcare, we have already made important investments and recruitments to support access to cost-effective healthcare services in the communities served by Lawrence + Memorial Healthcare.

We hope this provides helpful context by the concerns raised by the former intervenors. We stand ready to continue to work with OHCA to ensure that this affiliation achieves the lofty goals we have jointly set for it in the years to come.

Sincerely,

Gayle Capozzalo
Chief Strategy Officer

RE: Docket #15-32033-CON (L+M)

Dear Ms. Martone:

In compliance with Condition 14 allowing for one (1) community representative to serve as a voting member of Lawrence + Memorial Hospital, we have identified Catherine Zall as the Community Representative. Accordingly, Ms. Zall will be appointed to a three-year term on the Lawrence + Memorial Hospital Board.

Ms. Zall brings a perspective that uniquely qualifies her for this important position. She has a deep and thorough understanding of the rapidly evolving healthcare landscape from her service as a member of the L+M Corporation Board and understands the roles that different providers play in this environment.

Ms. Zall is a widely respected member of the New London community and has served as the Executive Director of the New London Homeless Hospitality Center since 2007. She additionally serves as a Pastor of the First Congregational Church of New London. Her expansive experience is outlined in the attached CV, and includes experience as a project manager for the Connecticut Department of Social Services and as a program director for the Connecticut Child Care Assistance Program. Prior to that Ms. Zall served for nearly a decade as the Deputy Commissioner of the New York City Department of Social Services.

Ms. Zall's impressive academic background features a master of Divinity degree from Yale University, an MBA from New York University and a bachelor's degree from Brown University. Her CV is attached.

The process to vet her appointment was thorough and comprehensive. Representatives from Lawrence + Memorial and Yale New Haven Health reached out to a multitude of

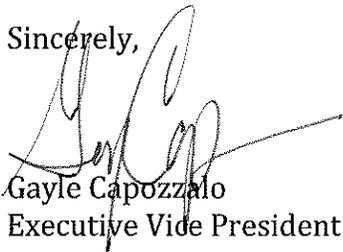

789 Howard Avenue

New Haven, CT 06519
Phone: 203-688-2605
Fax: 203-688-3472

ynhhs.org

community non-profits, social service organizations, healthcare providers and business interests. Ms. Zall received wide acclaim for her community commitment and her passion for the provision of high quality healthcare in the region. A description of the role she will assume is Attachment 2.

She has been described by those we reached out to as a wonderful choice, someone who is thoughtful and does great work in the community. Even those who did not know her well had heard great things about her. She brings a true passion to her work and a strong commitment to serving the community.

Sincerely,

Gayle Capozzalo
Executive Vice President / Chief Strategy Officer

Catherine Zall

Experience

2007-Present *Executive Director*
New London Homeless Hospitality Center

Responsible for the overall management of the overnight shelter and day time hospitality center with a special emphasis on fundraising, public outreach, coordination with other providers, procedure development, strategic planning, high priority project management and staff development.

Direct multiple health related initiatives to help improve health outcomes for individuals experiencing homelessness.

- Established partnership with local VNA to provide nursing services to emergency shelter guests.
- Designed and implemented special respite section of the emergency shelter designed to support recuperation and linkage to ongoing community based services for individuals facing both homelessness and illness.
- Facilitated the creation of an on-site clinic in the shelter staffed by medical personnel from the Community Health Center.
- Established a community care team that brings together providers from various sectors to coordinate care for individuals with complex medical and/or social needs.
- Manage one site of a demonstration project funded by the President's Social Innovation Fund testing the impact of housing on health outcomes and costs for individuals with annual Medicaid costs over \$50,000.

2007-Present *Pastor*
First Congregational Church of New London

Serve as part-time pastor to downtown church.

2002-2007 *Associate Minister*
First Congregational Church of Old Lyme

Responsible for religious education programs for children and adults—including Sunday school, adult bible study, retreats, family programs and small groups. Participate in the pastoral care and worship ministry of the church. Provide administrative supervision for selected church staff.

Catherine Zall
Page 2 of 3
1998-1999

Project Manager
Connecticut Department of Social Services

Developed comprehensive new regulations for the state's \$150 million child care subsidy program. Prepared request for proposals for the acquisition of a new automated childcare information system.

1997 *Local Program Director*
Connecticut Child Care Assistance Program

Directed the state funded, but privately operated, program to administer childcare subsidies payments to over 18,000 low-income Connecticut residents. Responsibilities included staff supervision, training, procedure development and public outreach.

1995-1997 *Chief Financial Officer*
Telesis Medical Management

Managed corporate finance and management information systems for a private sector start-up company assisting primary care physicians with managed care contracting.

1986-1995 *Deputy Commissioner, Office of Employment Services*
New York City Department of Social Services

Directed 650 city staff and 50 not-for-profit contracted service providers in efforts to help recipients of public assistance secure unsubsidized employment. Programs included job search, education, skills training and work experience. Job placements and program participation levels increased dramatically while maintaining existing staffing levels.

1982-1986 *Director, Office of Administration*
Division of School Buildings, NYC Board of Education

Directed finance, capacity planning, competitive bidding, leasing, data processing and personnel for a division responsible for the maintenance of over 1,000 school buildings and management of a \$200 million capital budget.

1980-1982 *Deputy Assistant Commissioner*
New York City Department of Employment

Supervised monitoring of federally funded job training contractors.

Role of Community Representative
OHCA CT Docket #15-32033-CON Condition 14

Condition 14 states: For three years following the Closing Date the applicant shall allow for one community representative to serve as a voting member of L+M Hospital's Board of Directors with rights and obligations consistent with other voting members under L+M Hospital's Board of Directors bylaws. The applicants shall select a community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interest of the community served by L+M Hospital. OHCA is imposing this Condition to ensure continued access to healthcare services for the patient population.

The underlying purpose of the "community representative," even though the vast majority of L+M Hospital's Trustees are independent Trustees from the community, is to ensure that community interests are voiced at Board meetings as the Board makes decisions.

The definition of community is the population being served by L+M Hospital. It is not restricted to particular advocacy, interest or organized groups, specific demographics, programs or organizations. L+M has a history of working with the community and regularly completes its Community Needs Analysis and has developed a community health improvement plan, which has input from more than 50 community representatives. The community is also represented by schools, government and other non-profits. The community representative will consider a broad and inclusive definition of community. The Condition requires that the community representative will be "an unbiased individual who will fairly represent the interests of the community served by Lawrence + Memorial Hospital."

The Condition does not detail the role for the "community representative." However, the community representative should be accessible to any and all community groups to discuss the advancements YNHHS/L+M Hospital is making, receive input regarding issues and concerns that the community may have in order to provide information to the L+M Hospital Board.

The Independent Monitor is required to meet with community representatives within six months following the transaction and annually thereafter for up to five years. The Independent Monitor is also required to hold a public forum within six months following the transaction and not less than annually thereafter for five years to provide public review and comment on the Monitor's report and findings and information on what is happening at L+M. In addition, for the next three years, Yale New Haven Health System and L+M Hospital Boards will meet together twice per year and following these meetings a public meeting will be held to update the public on what is happening at the Hospital. The "community representative" should be actively engaged in all of these meetings.

Greer, Leslie

Subject: RE: L+M New London Community Leaders invitation - January 24th @5pm - please see below

Dear Community Leaders:

As you may be aware, the formal affiliation between Yale New Haven Health Services Corporation ("YNHHSC") and Lawrence + Memorial Corporation ("L+M") was finalized on September 8, 2016. As part of the conditions for State approval for this affiliation, YNHHSC and L+M entered into a Settlement Agreement (Docket Number 15-32033-CON). In accordance with Condition 15 of the Settlement Agreement, YNHHSC contracted with Deloitte & Touche LLP on November 7, 2016 to serve as the Independent Monitor. As the Independent Monitor, Deloitte & Touche LLP is responsible for monitoring YNHHSC's compliance with the Conditions of the Settlement Agreement. Per Condition 33(b), the Independent Monitor is required to meet with representatives of the L+M Community to address L+M's compliance with the Settlement and to provide an update regarding community benefits and uncompensated care.

As the Partner from Deloitte & Touche LLP serving as the Independent Monitor for L+M and YNHHSC, I would like to invite you to join me on Tuesday, January 24th for the first Community Representatives meeting. As community leaders, you serve a valuable role in helping identify and meet the health care needs of those within the New London area. The objective of this meeting is to represent a wide range of perspectives and constituencies in the community, even extending beyond New London, and as such you have been identified as a valuable participant in this process.

The objectives of this meeting will include the following:

- Formal introduction of Catherine Zall, the designated Community Representative/voting member for L+M's Board of Directors
- Overview of the Independent Monitor roles and responsibilities, including a description of activities to be conducted by the Independent Monitor
- Overview of YNHHSC and L+M's Community Health Needs Assessment implementation plan and strategies relative to Community Benefit and Community Building activities

This meeting will be held at the Holiday Inn, 35 Governor Winthrop Blvd, New London, CT. Check-in will begin promptly at 5:00 p.m. and dinner will be served. We anticipate the meeting will end no later than 8:00 p.m. We are scheduling ample time for this initial meeting to allow time for questions and discussion.

As the leader of your organization, I ask that you make every effort to personally attend. If you are unable to do so, please send a representative in your place. I respectfully ask that you not forward this invitation. If there is anyone you believe should be included, please contact me so that I may extend a personal invitation. In later February or early March, we will be holding a public forum where anyone interested in learning about the Monitor role and hearing a report of initial activities relative to the YNHHSCL+M affiliation can attend.

Please RSVP to this meeting via email to my colleague, Kelly Mitchell, at kellmitchell@deloitte.com. If you need to reach me directly, I am available via phone at (212) 436-3180 or via email ksauders@deloitte.com.

Sincerely,

Kelly

Subject: FW: Clarification of the timing of submissions

1/12/17

Gayle,

Regarding the Independent Monitor's request from OHCA related to timeframes for submission of a number of conditions under Docket Number 15-32033-CON. After reviewing the conditions, OHCA staff has prepared the following to clarify the timing of condition submissions, which I am in agreement with. The yellow highlights show where the words "following the Closing Date" appear in the conditions. OHCA's clarifying statements appear in Red/Bold. Please let me know if you need anything else in order to clarify the Hospital's and Independent Monitor's filing obligations.

-
1. Within twenty (20) days following the Closing Date of the transfer of ownership authorized by this Order, YNHHS shall submit schedules to OHCA setting forth L+MH's inpatient bed allocation and the location and hours of operation. **N/A - THIS MATERIAL WAS FILED AND IS UNDER REVIEW**
 2. Within twenty (20) days following the Closing Date of the transfer of ownership authorized by this Order, YNHHS shall notify OHCA of the Closing, in writing, and shall supply final execution copies...:
 - a. the Affiliation Agreement, including any and all schedules and exhibits; and
 - b. Bylaws or similar governance documents for L+M as well as for L+MH. ...**N/A - THIS MATERIAL WAS FILED AND IS UNDER REVIEW**
 3. Following the completion of L+MH's 2016 Community Health Needs Assessment (CHNA), YNHHS shall participate with L+MH, and the key community stakeholders and health organizations, in conducting future CHNAs and shall provide a copy of the 2016 CHNA and its Implementation Strategy to OHCA within thirty (30) days of completion In the event that L+MH has already substantially completed its

2016 Implementation Strategy at the time of the signing of this Order, it may submit the information requested in the 6/18 initiative as an addendum **within six (6) months of the Closing Date**. The CHNA and the Implementation Strategy shall be published on the website of L+MH... ***THIS REFERENCE TO SIX MONTHS OF THE CLOSING DATE REMAINS APPLICABLE.***

4. Within one hundred and eighty (180) days **following the Closing Date**, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH ***THE FILING MAY BE MADE 180 DAYS FOLLOWING THE END OF THE FISCAL YEAR INSTEAD OF THE CLOSING DATE.***
6. Within one hundred and eighty (180) days **following the Closing Date**, the Applicants shall file with OHCA the total price per “unit of service” for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. **The first filing shall be for the period September 1, 2015-August 30, 2016.** The Applicants shall provide the same information for **three (3) full fiscal years thereafter**, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. ***THE INITIAL FILING FOR THE DATA FOR THE PRE-CLOSING PERIOD (9/1/2015 – 8/30/2016) MAY BE FILED 180 DAYS FOLLOWING THE END OF THE FISCAL YEAR INSTEAD OF THE CLOSING DATE. THE SUBSEQUENT ANNUAL FILINGS ARE ALREADY BASED ON A FISCAL YEAR AND MAY BE FILED 60 DAYS FOLLOWING THE FY END AS INDICATED (WHICH IS NOVEMBER 30TH).***
7. Within one hundred and eighty (180) days **following the Closing Date** and thereafter until the capital commitment is satisfied, YNHHS shall submit to OHCA a report on the capital investments (“Capital Investment Report”) it has made in L+M and its affiliates from the \$300M Commitment Amount.For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016.... ***THE INITIAL FILING MAY BE MADE 180 DAYS FOLLOWING THE END OF THE FISCAL YEAR INSTEAD OF THE CLOSING DATE. ANY UPDATES WILL BE FILED ON THE SEMI-ANNUAL SCHEDULE ALREADY NOTED IN THE STIPULATION. THE NOVEMBER 30, 2016 REFERENCE FOR THIS INITIAL FILING IS INCORRECT.***
8. For three (3) years **following the Closing Date**, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The following financial measurements/indicators should be addressed in the report: ...

Financial Measurement/Indicators

THIS IS A SEMI-ANNUAL FINANCIAL REPORT IS BASED ON THE FISCAL YEAR AND IS DUE MAY 31ST AND NOVEMBER 30TH. THE NOVEMBER 30, 2016 REFERENCE FOR THIS INITIAL FILING IS INCORRECT.

11. The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years **after the Closing Date** consistent with L+MH’s most recent Schedule H of IRS Form 990 ...
 - c. On an annual basis, YNHHS shall identify the amounts and uses related to community benefits and community building Such reporting shall be filed within **thirty (30) days of the anniversary date of the Closing for three years** and shall be posted on L+MH’s website. ... ***THIS ANNUAL REPORT MAY INSTEAD BE FILED ON NOVEMBER 30TH FOR THE THREE YEAR. THIS IS IN KEEPING WITH THE OTHER FINANCIAL INFORMATION THAT WILL BE FILED EACH NOVEMBER 30TH AND IS 60 DAYS AFTER THE CLOSE OF THE FISCAL YEAR.***

12. The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. ... For three (3) years following the Closing Date, YNHSC shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. ***THIS ANNUAL REPORT MAY INSTEAD BE FILED ON NOVEMBER 30TH FOR THE THREE YEAR. THIS IS IN KEEPING WITH THE OTHER FINANCIAL INFORMATION FILED EACH NOVEMBER 30TH AND IS 60 DAYS AFTER THE CLOSE OF THE FISCAL YEAR.***
32. Every six months (the "six month reports") until December 1, 2018 and each year thereafter (each an "annual report"), YNHSC shall submit notarized reports to OHCA for the periods of January to June (due July 31st) and July through December (due January 31st) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail: ***THIS NOTARIZED REPORT INCLUDING THE FINANCIAL INFORMATION OUTLINED IN 32(f) MAY INSTEAD BE FILED ON THE SAME SEMI-ANNUAL FISCAL YEAR PERIOD. SO AT THE SAME TIME AS THE FINANCIAL REPORTS (DUE MAY 31ST AND NOVEMBER 30TH) UNTIL THE REFERENCED DECEMBER 1, 2018 DATE.***

**YNHHS/L+M Services and Strategy Plan for Eastern CT
FY 2017 – FY 2021**

OHCA Condition 4 reads:

“Within one hundred and eighty (180) days following the Closing Date, YNHSC shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or infrastructure of new services (the “Services Plan”).”

OHCA Condition 19 reads:

“L+M and YNHSC shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e., towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M services sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHSC affiliated facilities for specialized care not available locally.”

**Templates for Reporting on YNHHS/L+M Services and
Strategy Plan for Eastern CT and Western RI
Docket #15-32033-CON: Condition 7 / 32b
FY 2017-FY 2021**

OHCA will receive a narrative of strategy plan accomplishments per Condition 32b semi-annually for FY 2017 and then annually for FY 2018 - FY 2021. In addition, OHCA will receive a semi-annual report each fiscal year through the end of FY 2019 providing the information requested regarding the allocation of \$300 M resources to support the strategic plan, per Condition 7. Templates for these submissions are attached.

Condition 7: Within one hundred and eighty (180) days following the Closing Date and thereafter until the capital commitment is satisfied, YNHHS shall submit to OHCA a report on the capital investments (“Capital Investment Report”) it has made in L+M and its affiliates from the \$300M Commitment Amount.

Condition 32b: A narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.

Minutes

Meeting: L+M New London Community Leaders Meeting

Held on: January 24, 2017 at 5:00 pm

Location: Holiday Inn, New London, CT

Present: Kelly Sauders, Kelly Mitchell, Bill Stanley, Vin Petrini, Gayle Capozzalo, Laurel Holmes, Cathy Zall, Alejandro Melendez-Cooper, Chris Soto, Janet Steinmayer, Jean Jordan, Jeanne Milstein, Jennifer Granger, Jerry Fischer, Jerry Lokken, Jim Haslam, Kathy Greene, Kelly Thompson, Lisa D'Abrosca, Megan Brown, Nancy Cowser, Ocean Pellett, Peter Davis, Regina Moller, Russ Melmed, Stephen Smith, MD, Tony Sheridan, Tracee Reiser, Victor Villagra, MD, Virginia Mason, Yvette Highsmith-Francis, Shirley Gillis, Harry Rodriguez, Jay Levin, Dina Sears-Graves, Mary Ellen Masciale

Introduction The meeting began at 5:30pm EST.

Vin Petrini provided a brief introduction to the group. He shared a few early accomplishments of the affiliation including the recent EPIC go-live. He then introduced Cathy Zall as Community Representative and Kelly Sauders as Independent Monitor.

Bill Stanley made a few remarks about the affiliation and introduced Chris Soto, State Representative as a guest for the meeting.

Kelly Sauders provided a brief overview of her background and that of Deloitte related to this type of role. She then introduced Cathy Zall, Community Representative.

Community Representative Cathy Zall stated that the partnership between the community and health system is a key that will help make incredible process and that she hopes to do what she can to make this partnership effective.

Kelly Sauders took several questions from the audience regarding the process of selecting the Community Representative. The questions/concern were about process, not about the ultimate selection. Kelly Sauders confirmed that OHCA had the opportunity to review Cathy Zall's bio prior to appointment and were comfortable with her appointment as the Community Representative.

Overview of Independent Monitor Kelly noted that the Independent Monitor is an extension of OHCA. It is Deloitte's role to verify that all parties are abiding by the requirements of the Affiliation Agreement and Settlement Order. Kelly clarified the difference between the Independent Monitor and Independent Consultant (Milliman) roles.

There was a question about what benchmarks Milliman will use. Kelly Sauders stated that Milliman will study the relative market conditions and pricing and noted the process is complex and challenging. Kelly stated that active discussions are underway between Milliman

and the State to assess what data may be available for this study. She then explained the reporting process and described Deloitte's direct line of reporting to OHCA. Kelly stated that there is little to report at this point but there will be more activity and reporting in March/April of this year. She also noted that as information is filed, it will be available on the OHCA website.

There was a discussion regarding the interpretation of the conditions. Kelly clarified that it is not Deloitte's role to provide interpretation. If there is any ambiguity or conflict within the Order, she will reach out to OHCA to obtain formal guidance. Kelly also noted that this forum is meant to be an initial meeting and there will also be a public forum in late February/early March.

**Community
Benefit &
Community
Building**

Kelly provided an overview of the conditions regarding Community Benefit and Community Building. A question was raised regarding examples of community benefit programs, which was answered by Laurel Holmes. There was additional discussion from the attendees regarding favorable places to allocate funds for Community Benefit and Community Building and the hope that there were more funds for these purposes. Kelly stated that the baseline/minimum is what is outlined in the Affiliation Agreement and Order.

There was discussion surrounding who will make these financial decisions. Kelly noted that the Board provides oversight but it is ultimately leadership who makes management decisions. Further clarification will be provided on the role of the board and reserve powers.

There was a question regarding the Independent Monitor and if a change can be made for future periods. Kelly responded that OHCA absolutely can make a change. She also provided an overview of the process by which Deloitte was chosen as Independent Monitor.

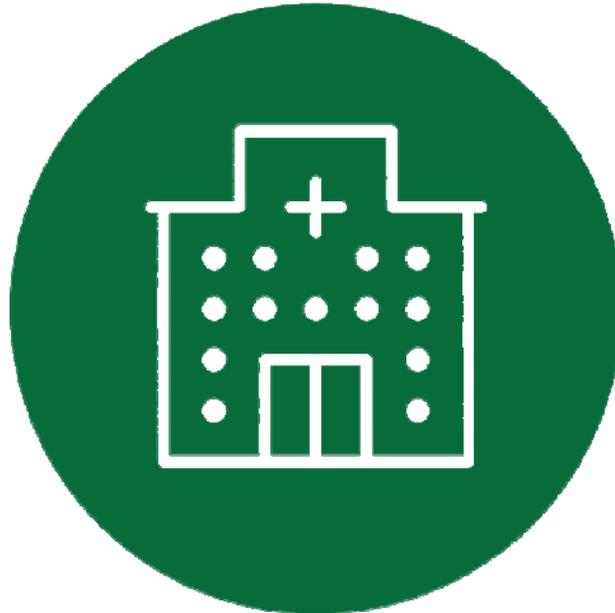

Cathy Zall reminded the group that the community leaders should focus on the big picture of the affiliation rather than overly focusing on the Monitor role, which is one piece only.

Closing

Kelly closed the meeting by stating her hope is that the affiliation is successful for all and that she will carry out the Monitor role to the best of her ability. She also shared her contact information and stated that individuals are welcome to reach out with any questions or concerns.

The meeting was adjourned at 7:20pm EST.

Deloitte.

YNHHSC/L+MH Independent Monitor
Community Representatives Meeting

January 24, 2017

Meeting Agenda

Meeting Agenda
Formal Introduction of the Designated Community Representative to the L+MH Board of Directors
Overview of the Independent Monitor Roles & Responsibilities
Overview of Monitoring Procedures
Overview of YNHHSC and L+MH's Community Benefit/Community Building
Questions

Formal Introduction: Designated Community Representative to the L+MH Board of Directors

15-32033-CON Condition 14

For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as a voting member of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. Office of Health Care Access is imposing this Condition to ensure continued access to health care services for the patient population.

Designated Community Representative: Cathy Zall

Experience:

Executive Director of the New London Homeless Hospitality Center since 2007

Pastor of the First Congregational Church of New London

Project Manager for the Connecticut Department of Social Services

Program Director for the Connecticut Child Care Assistance Program

Deputy Commissioner of the New York City Department of Social Services

Academic Background:

Master of Divinity degree from Yale University

MBA from New York University

Bachelor's Degree from Brown University

Independent Monitor Roles & Responsibilities

15-32033-
CON
CONDITIONS
15/33

Within sixty (60) days after the Closing Date, YNHSC shall contract with an Independent Monitor who has experience in hospital administration and regulation. The Independent Monitor shall be retained at the sole expense of YNHSC. Representatives of Office of Health Care Access and Facilities Licensing and Inspection Section will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing, which may be extended for another year at Office of Health Care Access and/or Facilities Licensing and Inspection Section's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. Office of Health Care Access is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.

In addition to the above, L+M and YNHSC make the following commitment for a period of five years post Closing: L+M and YNHSC shall appoint an independent monitor at their own cost (selected by YNHSC and L+M and approved by Office of Health Care Access) to serve as a post-transfer compliance monitor. Such monitor shall, at a minimum meet with representatives of the L+M community at 6 months after the Date of Closing and annually and shall report to Office of Health Care Access in accordance with Section 19a-639(e) of the general statutes and specifically address (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. L+MH shall hold a public forum in New London 6 months after the Closing date and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. If the Independent Monitor determines that YNHHS and L+MH are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHS and L+MH in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHS and L+MH for the purpose of determining compliance and any appropriate corrective action plan. If YNHSC and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to Office of Health Care Access. Office of Health Care Access shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHSC and L+M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653. In addition, in the event Office of Health Care Access determines YNHSC and L+M are in material non-compliance, Office of Health Care Access may order YNHSC and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.

Independent Monitor Roles & Responsibilities

15-32032- CON CONDITION 8

L+M and YNHHSO make the following commitment for a period of five years post-Closing: L+M and YNHHSO shall appoint an independent monitor at their own cost (selected by YNHHSO and L+M and approved by Office of Health Care Access) to serve as a post-transfer compliance monitor. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to Office of Health Care Access in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings. If the Independent Monitor determines that YNHHSO and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHSO and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHSO and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHSO and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to Office of Health Care Access. Office of Health Care Access shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHSO and L+M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn Gen. Stat. 19a-653. In addition, in the event Office of Health Care Access determines YNHHSO and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.

Independent Monitor Roles & Responsibilities

15-32033-CON CONDITION 16

The Independent Monitor will report to both Office of Health Care Access and Facilities Licensing and Inspection Section. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to Office of Health Care Access and Facilities Licensing and Inspection Section within 30 days of the completion of each on-site review. YNHSC will have the opportunity to review and provide written responses to the report. As Office of Health Care Access deems necessary, the Independent Monitor shall meet with Office of Health Care Access and Facilities Licensing and Inspection Section personnel to discuss the written report and will perform additional periodic reviews. Office of Health Care Access is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.

Monitor Procedures

Ongoing oversight and Analysis:

- Office of Health Care Access is imposing conditions in an effort to ensure continued access to health care services for the patient population and to monitor compliance with the conditions set forth herein.
- As the Independent Monitor, D&T will be responsible for monitoring YNHHS's compliance with the conditions set forth in the Order. Additional monitoring activities include:
 - Meet regularly with YNHHS leadership team.
 - Set deadlines for YNHHS prior to Office of Health Care Access submission due dates in an effort to ensure timeliness.

Reporting:

- D&T will obtain and evaluate documentation for accuracy and completeness prior to submission to Office of Health Care Access.
- D&T will report to both Office of Health Care Access and Facilities Licensing and Inspection Section and will conduct on-site visits of L+MH.
- D&T shall furnish a written report of an assessment to Office of Health Care Access and Facilities Licensing and Inspection Section within 30 days of the on-site review.
- YNHHS will have the opportunity to review and provide written responses to the report.
- As Office of Health Care Access deems necessary, D&T shall meet with Office of Health Care Access and Facilities Licensing and Inspection Section personnel to discuss the written report.

Monitoring Procedures: Meetings

Meeting	Frequency
Independent Monitor Meeting with Community Representatives	<p><u>Annual</u>: Such monitor shall, at a minimum meet with representatives of the L+MH community at six months after the Date of Closing (by March 7, 2017) and annually and shall report to Office of Health Care Access in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+MH's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+MH during the prior period.</p>
Independent Monitor Public Forum	<p><u>Annual</u>: L+MH shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings.</p>
Joint Meeting of YNHHSB and L+MH Boards with additional public meeting	<p><u>Semi-annual</u>: For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHSB Board and L+MH Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. Office of Health Care Access is imposing this Condition to ensure continued access to health care services for the patient population.</p>

YNHHSC & L+MH: Community Building/Community Benefit

15-32033-CON CONDITION 11

The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years after the Closing Date consistent with L+MH's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as L+MH's current programs, and the Applicants shall apply no less than a 1 % increase per year for the next three (3) years toward the L+MH's community building activities in terms of dollars spent. In determining L+MH's participation and investment in both community benefits and community building activities, the Applicants shall address the health needs identified by the applicable CHNA in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy. On an annual basis, YNHHSC shall identify the amounts and uses related to community benefits and community building and shall discuss how such Investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing for three years and shall be posted on L+MH's website. Office of Health Care Access is imposing this Condition to ensure continued access to health care services for the patient population.

15-32033-CON CONDITION 31

L+M and YNHHSC have agreed to maintain at least the same level of community benefit consistent with L+M's most recent Schedule H of IRS Form 990 and its Community Health Needs Assessment (CHNA). L+M and YNHHSC agree to conduct an updated Community Health Needs Assessment by no later than December 31, 2016, and provide services in accordance with implementation plan adopted as part of the updated CHNA process and provide Office of Health Care Access with its updated CHNA within thirty days of its approval.

YNHHSC & L+MH: Community Building/Community Benefit

15-32033-CON CONDITION 12

The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act. Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHHSC shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. Office of Health Care Access is imposing this Condition so as to ensure continued access to health care services for the patient population.

YNHHSC & L+MH: Community Building/Community Benefit

SCHEDULE H (Form 990) Hospitals OMB No. 1545-0047
 2014 Open to Public Inspection

Department of the Treasury Internal Revenue Service
 Complete if the organization answered "Yes" to Form 990, Part IV, question 20. Attach to Form 990.
 Information about Schedule H (Form 990) and its instructions is at www.irs.gov/form990.

Name of the organization: LAWRENCE & MEMORIAL HOSPITAL
 Employer identification number: 06-0646704

Part I Financial Assistance and Certain Other Community Benefits at Cost

1a Did the organization have a financial assistance policy during the tax year? If "No," skip to question 6a. **1a** X

b If "Yes," was it a written policy? **1b** X

2 If the organization had multiple hospital facilities, indicate which of the following best describes application of the financial assistance policy to its various hospital facilities during the tax year.
 Applied uniformly to all hospital facilities Applied uniformly to most hospital facilities
 Generally tailored to individual hospital facilities

3 Answer the following based on the financial assistance eligibility criteria that applied to the largest number of the organization's patients during the tax year.
 a Did the organization use Federal Poverty Guidelines (FPG) as a factor in determining eligibility for providing free care? If "Yes," indicate which of the following was the FPG family income limit for eligibility for free care:
 100% 150% 200% Other 250.0000 % **3a** X
 b Did the organization use FPG as a factor in determining eligibility for providing discounted care? If "Yes," indicate which of the following was the family income limit for eligibility for discounted care:
 200% 250% 300% 400% Other _____ % **3b** X
 c If the organization used factors other than FPG in determining eligibility, describe in Part VI the criteria used for determining eligibility for free or discounted care. Include in the description whether the organization used an asset test or other threshold, regardless of income, as a factor in determining eligibility for free or discounted care.

4 Did the organization's financial assistance policy that applied to the largest number of its patients during the tax year provide for free or discounted care to the "medically indigent"? **4** X

5a Did the organization budget amounts for free or discounted care provided under its financial assistance policy during the tax year? **5a** X
 b If "Yes," did the organization's financial assistance expenses exceed the budgeted amount? **5b** X
 c If "Yes" to line 5b, as a result of budget considerations, was the organization unable to provide free or discounted care to a patient who was eligible for free or discounted care? **5c** X
 6a Did the organization prepare a community benefit report during the tax year? **6a** X
 b If "Yes," did the organization make it available to the public? **6b** X

Complete the following table using the worksheets provided in the Schedule H instructions. Do not submit these worksheets with the Schedule H.

7 Financial Assistance and Certain Other Community Benefits at Cost

Docket #15-32033-CON: Condition 3

Integration of the CDC 6|18 Initiative in the Health Improvement Collaborative of Southeastern CT Community Health Improvement Plan

Condition 3:

Following completion of L+MH's 2016 Community Health Needs Assessment (CHNA), YNHHSCT shall participate with L+MH, and the key community stakeholders and health organizations, in conducting future CHNAs and shall provide a copy of the 2016 CHNA and its Implementation Strategy to OHCA within thirty (30) days of completion. YNHHSCT and the participants shall utilize Healthy Connecticut State Health Improvement Plan data and priorities as the starting point for the new CHNA (available at http://www.ct.gov/dph/lib/dph/state_health_planning/sha-ship/hct2020/hct2020_state_hlth_impv_032514.pdf), as well as any applicable community health improvement plan issues by any local health department in the Service Area. The Implementation Strategy shall also adopt the evidence-based interventions identified in the Centers for Disease Control 6/18 initiative (available at <http://www.cdc.gov/sixteen>) to the extent the health priorities identified in the CHNA correlate to the health conditions identified by the CDC and provide information on how any patient outcomes related to the Implementation Strategy will be measured and reported to the community. In the event that L+MH has already substantially completed its 2016 Implementation Strategy at the time of the signing of this Order, it may submit the information requested in the 6/18 initiative as an addendum within six (6) months of the Closing Date. The CHNA and the Implementation Strategy shall be published on the website of L+MH. Until such time as the CHNA and Implementation Strategy are submitted to OHCA, YNHHSCT shall continue to support and implement L+MH's current CHNA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.

Response

The CDC 6|18 Initiative identifies six high-burden health conditions and eighteen evidence-based prevention interventions with the desired outcomes of improving health and reducing healthcare related costs; diabetes is one of the six high-burden areas. In the 2016 Community Health Improvement Plan ("Implementation Strategy" or CHIP) of the multi-sector Health Improvement Collaborative of Southeastern CT, healthy lifestyles was identified as a priority area for intervention. Specifically, due to significant disparities by income, race and education as it relates to diabetes prevalence, the group is focusing on reducing diabetes risk factors in four targeted populations: low income, African American, Hispanic and pre-diabetics.

Both 6|18 Initiative evidence-based interventions on diabetes have been incorporated into the CHIP as strategies (as noted in the excerpt from the CHIP below) because of the alignment of these interventions and the CHIP priority area. As is the case for each of the strategies in the CHIP, process and outcome measures will be tracked and publicly reported in the form of a dashboard to be developed by the Health Improvement Collaborative of SE CT.

Docket #15-32033-CON: Condition 3
Integration of the CDC 6 | 18 Initiative in the Health Improvement Collaborative of Southeastern CT Community Health Improvement Plan

Excerpt from the CDC 6 /18 Strategies:

CONTROL AND PREVENT DIABETES

- + Expand access to the National Diabetes Prevention Program, a lifestyle change program for preventing type 2 diabetes.
- + Promote screening for abnormal blood glucose in those who are overweight or obese as part of a cardiovascular risk assessment.

Diabetes Goal from the Health Improvement Collaborative of SE CT/L+M Hospital Community Health Improvement Plan 2016

Priority Area: Support and nurture healthy lifestyles to reduce contributing factors to diabetes, particularly among persons with low-incomes and African Americans

Goal: Increase healthy food consumption and physical activity and improve the system of care for diabetes

Objectives	Strategies (Programs, Services, Partnerships)	Target Populations	Tactics (Specific Action Steps)	Anticipated Impact	Measures (P=process, O=outcome)
By January 2018, identify gaps in the system of care for people with pre-diabetes and create strategies to address those gaps. Submission to Comply with Docket #15-32033-CON: Condition 9

Condition 9 reads:

Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.

Title: Financial Assistance Programs Policy		
Date Approved: 09/20/2013	Approved by: Boards of Trustees Senior Vice President, Finance	
Date Effective: 09/20/2013 1/1/2017 Lawrence + Memorial Hospital and Westerly Hospital	Date Reviewed/Revised: 01/21//2015, 09/30/2016, 12/16/2016	
Distribution: MCN Policy Manager	Policy Type (I or II): Type I	
Supersedes: Yale New Haven Hospital Financial Assistance Programs for Hospital Services (NC:F-4) Bridgeport Hospital Financial Assistance Programs for Hospital Services (9-13) Greenwich Hospital Overview of Financial Assistance Programs for Hospital Services Lawrence + Memorial Hospital and Westerly Hospital Charity Care, Financial Assistance, Free Bed Fund Policy		

PURPOSE

Yale New Haven Health System (“YNHHS”) recognizes that patients may not be able to pay for medically necessary health care without financial assistance. Consistent with its mission, YNHHS is committed to assuring that the ability to pay will be considered carefully when setting amounts due for emergency and other medically necessary hospital services.

In furtherance of its mission, YNHHS has established the Financial Assistance Programs (“FAP”) to assist individuals with paying for emergency and other medically necessary care. The objectives of the FAP are to:

- (i) Specify all financial assistance available under the FAP;
- (ii) Provide clear information regarding eligibility criteria, application requirements and the method for applying for financial assistance;
- (iii) Describe the basis for calculating amounts charged to FAP-eligible patients for emergency or other medically necessary care; and
- (iv) Describe the steps YNHHS hospitals take to widely publicize this FAP within the communities served by YNHHS.

Financial Assistance Programs Policy

APPLICABILITY

This policy applies to each licensed hospital affiliated with YNHHS, including Bridgeport Hospital (“BH”), Greenwich Hospital (“GH”), Lawrence + Memorial Hospital (“LMH”), Yale-New Haven Hospital (“YNHH”) and Westerly Hospital (“WH”) (each a “Hospital”).

POLICY

I. Scope and Provider List

- A. **Emergency and Other Medically Necessary Care.** The FAP apply to emergency and other medically necessary care, including inpatient and outpatient services, billed by a Hospital. The FAP exclude: (a) private room or private duty nurses; (b) services that are not medically necessary, such as elective cosmetic surgery; (c) other elective convenience fees, such as television or telephone charges, and (d) other discounts or reductions in charges not expressly described in this policy.
- B. **Provider List.** A list of providers who provide emergency and other medically necessary care at a Hospital can be found here:

https://www.ynhh.org/~media/files/ynhhs/forms/financial/011117/ynhh_fap_policy_list_2017.pdf

The list indicates if the provider is covered under the FAP. If the provider is not covered under this FAP, patients should contact the provider’s office to determine if the provider offers financial assistance and if so what the provider’s financial assistance policy covers.

II. Financial Assistance Programs and Eligibility

Financial assistance is available to individuals who are residents of the United States of America, or citizens of the United States residing abroad, who complete the required financial assistance application and meet the additional eligibility requirements described below.

- A. **Free Care.** The Free Care program provides care at no cost to Hospital patients with gross annual family income less than or equal to 250% of the Federal Poverty Guidelines (*see* Attachment 1), and who have applied and been approved or receive a valid denial for State medical assistance, within the last six months.

In addition, YNHHS on behalf of BH, GH, and YNHH uses a third party screening tool to assist in identifying individuals with self-pay balances who have not applied for financial assistance, but whose income is less than or equal to 250% of the Federal Poverty Level (*i.e.*, eligible for free care). If a patient is identified through this process outstanding hospital balances may be adjusted to charity (free) care.

- B. **Discounted Care.** If a Hospital patient does not have insurance and his or her gross annual family income is more than 250% of the Federal Poverty Level the Hospital will discount care to the Hospital’s AGB (as defined in Section III below and on Attachment 1 hereto).

Financial Assistance Programs Policy

- C. **Restricted Bed Funds.** You may be eligible to receive restricted bed funds, which are funds that have been donated to the Hospital to provide free or discounted care to individuals who meet the individual fund criteria. There are no specific income limits for receipt of restricted bed funds. Eligibility is determined on a case-by-case basis by the fund nominators based on financial hardship. All patients who fill out the requisite financial assistance application will automatically be considered for restricted bed funds.
- D. **Other Hospital-Specific Financial Assistance programs.**
- (i) **Yale New Haven Hospital Me & My Baby Program.** This program is available to Yale New Haven Hospital patients. It provides prenatal, labor and delivery services, and some post-partum care free of charge. You may be eligible if you live in New Haven County, do not have any type of health insurance and your family earns less than 2 ½ times the Federal Poverty Level. For more information or to request an application see our representatives at the Yale New Haven Hospital Women’s Center or call 203-688-5470.
 - (ii) **Greenwich Hospital Outpatient Clinic** serves patients insured by Medicare, Medicaid, or insurances offered through Access Health CT and whose family income is less than 4 times the Federal Poverty Level. Further, the clinic provides discounted care to individuals who are not eligible for insurance and who reside in Greenwich and have family income less than 4 times the Federal Poverty Level. For more information or to obtain an application please call 203-863-3334.

III. Limitation on Charges - Amounts Billed to FAP-Eligible Patients

Where there is an award of financial assistance that does not cover 100% of YNHHS charges for the service, the amounts charged to patients eligible for financial assistance under this Policy will not be more than the amount a Hospital generally bills patients who have insurance coverage for such care (“AGB”). YNHHS calculates AGB annually by Hospital using the “look back method” and based on Medicare fee-for-service rates, including Medicare beneficiary cost-sharing amounts and all private health insurers that pay claims to each Hospital facility for the prior fiscal year. YNHHS may apply the percentage discount by Hospital, or may elect to use the percentage discount most favorable to YNHHS patients. AGB is set forth on Attachment 1 hereto.

As used herein, the “amount generally billed” and “look back method” have the meanings set forth in Internal Revenue Code §501(r)(5) and 1.501(r)-5.

IV. Method of Applying for Assistance

To be eligible for financial assistance, the patient must complete the requisite application for financial assistance (“Application”). The Application sets forth (i) FAP available programs and eligibility requirements, (ii) the documentation requirements for determinations of eligibility, and (iii) the contact information for FAP assistance. The Application also specifies that (i) the Hospital will respond to each Application in writing, (ii) patients may re-apply for financial assistance under the FAP at any time, and (iii) additional free bed funds become available every year. Hospitals may not

Financial Assistance Programs Policy

deny financial assistance under the FAP based on failure to provide information or documents that the FAP or the Application do not require as part of the Application.

YNHHS Hospitals will make reasonable efforts to determine eligibility and document any determinations of financial assistance eligibility in the applicable patient accounts. Once Hospital identifies a patient is FAP-eligible, Hospital shall:

- (i) Provide a billing statement indicating amount the individual owes as a FAP-eligible patient, including how the amount was determined and states, or describes, how the individual can get information regarding the AGB for the care;
- (ii) Refund to the individual any amount he or she has paid for the care that exceeds the amount he or she is determined to be personally responsible for paying as a FAP-eligible individual, unless such excess amount is less than \$5, or such other amount set by the IRS; and
- (iii) Take reasonable measures to reverse any extraordinary collection actions.

V. Non-Payment – Legal Action

A Hospital (and any collection agency or other party to which it has referred debt) shall not engage in any extraordinary collection action (“ECA”) before making reasonable efforts to determine if a patient or any other individual having financial responsibility for a self-pay account (Responsible Individual(s)) eligible for financial assistance under this FAP. Any ECA must be approved by the Vice President of Corporate Business Services or his designee(s), prior to the initiation of any ECA.

The Hospital will follow its A/R billing cycle in accordance with internal operational processes and practices. As part of such processes and practices, the Hospital will, at a minimum, notify patients about its FAP from the date care is provided and throughout the A/R billing cycle (or during such period as is required by law, whichever is longer) by:

1. All patients will be offered a plain language summary and an application form for financial assistance under the FAP as part of the discharge or intake process from a Hospital.
2. At least three separate statements for collection of self-pay accounts will be mailed or emailed to the last known address of the patient and any other Responsible Individual(s); provided, however, that no additional statements need be sent after a Responsible Individual(s) submits a complete application for financial assistance under the FAP or has paid in-full. At least 60 days shall have elapsed between the first and last of the required three mailings. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made. All single patient account statements of self-pay accounts will include but not limited to:
 - a. An accurate summary of the hospital services covered by the statement;
 - b. The charges for such services;

Financial Assistance Programs Policy

- c. The amount required to be paid by the Responsible Individual(s) (or, if such amount is not known, a good faith estimate of such amount as of the date of the initial statement); and
 - d. A conspicuous written notice that notifies and informs the Responsible Individual(s) about the availability of financial assistance under the FAP including the telephone number of the department and direct website address where copies of documents may be obtained.
3. At least one of the statements mailed or emailed will include written notice that informs the Responsible Individual(s) about the ECAs that are intended to be taken if the Responsible Individual(s) does not apply for financial assistance under the FAP or pay the amount due by the billing deadline. Such statement must be provided to the Responsible Individual(s) at least 30 days before the deadline specified in the statement. A plain language summary will accompany this statement. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made.
4. Prior to initiation of any ECA, an oral attempt will be made to contact Responsible Individual(s) by telephone at the last known telephone number, if any, at least once during the series of mailed or emailed statements if the account remains unpaid. During all conversations, the patient or Responsible Individual(s) will be informed about the financial assistance that may be available under the FAP.
5. Subject to compliance with the provisions of this policy, a YNHHS Hospital may take the ECA listed on Attachment 2 of this Policy to obtain payment for medical services provided.

VI. Policy Availability

Copies of the FAP, a plain language summary of the FAP and FAP application are available at <https://www.ynhhs.org/billing-insurance.aspx>.

Each Hospital makes available copies of the FAP, a plain language summary of the FAP and FAP application on request, free of charge, by mail or in the Hospital Emergency Department and at all points of registration in paper form in English and the primary language of any population with limited English proficiency that constitutes 5% or more of the population the Hospital serves. See Attachment 3 for a list of languages.

Contact Corporate Business Services toll free at (855) 547-4584 for information regarding eligibility or the programs that may be available to you, to request a copy of the FAP, plain language summary of the FAP, FAP application form, or Billing and Collection Policy to be mailed to you, or if you need a copy of the FAP, plain language summary, or FAP application form translated to a language other than English. Further, patients may ask Patient Registration, Patient Financial Services and Social Work/Case Management about initiating the FAP application process.

Financial Assistance Programs Policy

Further efforts to widely publicize the FAP include publishing notices in newspapers of general circulation; providing written notice of FAP in billing statements; providing notice of FAP in oral communications with patients regarding the amount due; and holding open houses and other informational sessions.

VII. Management Oversight Committee

The FAP will be overseen by a management oversight committee chaired by a Senior Vice President, YNHHS and comprised of representatives from Corporate Business Services, patient financial services, patient relations, finance, and the medical staff, as necessary. This committee will meet on a monthly basis.

VIII. Compliance with State Law

Each Hospital shall comply with relevant State laws, including, without limitation, Connecticut General Statutes governing Collections by Hospitals from Uninsured Patients and Rhode Island *Statewide Standard for the Provision of Charity Care* set forth in Section 11.3 of the Rhode Island Department of Health Rules and Regulations Pertaining to Hospital Conversions (the “RI Regulations”) and the *Statewide Standard for the Provision of Uncompensated Care* set forth in Section 11.4 of the RI Regulations.

EXTRAORDINARY COLLECTION ACTIONS

Property Liens

Liens on personal residences are permitted only if:

- a) The patient has had an opportunity to apply for free bed funds and has either failed to respond, refused, or been found ineligible for such funds;
- b) The patient has not applied or qualified for other financial assistance under the Hospital's Financial Assistance Policy, to assist in the payment of his/her debt, or has qualified, in part, but has not paid his/her responsible part;
- c) The patient has not attempted to make or agreed to a payment arrangement, or is not complying with payment arrangements that have been agreed to by the Hospital and patient;
- d) The aggregate of account balances is over \$10,000 and the property(ies) to be made subject to the lien are at least \$300,000 in assessed value; and
- e) The lien will not result in a foreclosure on a personal residence.

Yale New Haven Health System (YNHHS)
Financial Assistance Policy - Provider List

All physicians and providers employed by Bridgeport Hospital (BH), Greenwich Hospital (GH), Lawrence and Memorial Hospital (LMH), Westerly Hospital (WH), and Yale New Haven Hospital (YNHH) are covered under the YNHHS Financial Assistance Policy (FAP).

The following is a list of providers rendering care in YNHHS hospitals that are **not** covered under the YNHHS FAP. If the provider is not covered under the YNHHS FAP, patients should contact the provider's office to determine if the provider offers financial assistance and if so, how to become eligible, and for what services the provider's financial assistance policy covers.

While the YNHHS FAP does not apply to Northeast Medical Group (NEMG), NEMG providers that practice in the Hospital subdivision will honor the charity care, including but not limit to Free Care and Discounted Care, granted by YNHHS Hospital's Corporate Business Services.

This listing is effective as of 01/03/17, and is updated quarterly. If you do not see a physician or provider listed here and want to verify whether that person is currently covered under the YNHHS FAP, please call Patient Financial and Admitting Services at 855-547-4584.

Summary of Financial Assistance Policy

Yale New Haven Health understands that it can be difficult for some patients to afford paying their hospital bills. That is why we have a variety of financial assistance programs designed to help. Patients are required to complete a financial assistance application and provide requested documents to verify financial need.

To learn more, obtain a free copy of our Financial Assistance Policy and application, or for help completing an application contact Patient Financial and Admitting Services at 855-547-4584, go to ynhhs.patientsimple.com or visit us in our Admitting offices at: **Bridgeport Hospital** 267 Grant Street, Bridgeport, CT; **Greenwich Hospital**, 5 Perryridge Road, Greenwich, CT; **Lawrence + Memorial Hospital** 365 Montauk Avenue, New London, CT; **Westerly Hospital** 25 Wells Street, Westerly, RI; or **Yale New Haven Hospital** 20 York Street, New Haven, CT.

Free care

You may be eligible for free care if:

- Your family earns less than or equal to 2½ times the Federal Poverty Level (the maximum income amounts are listed on the table below)
- You apply for State Assistance (Medicaid) and receive a valid written decision from the State within the last 6 months; and
- You complete a financial assistance application

Family size:	Maximum Income:
1	\$29,700
2	\$40,050
3	\$50,400
4	\$60,750
5	\$71,100
6	\$81,450

**Add \$10,400 for each additional family member*

Discounted care

You may be eligible for discounted care if you are uninsured and you complete an application for financial assistance.

Restricted bed funds

You may be eligible to receive restricted bed funds, funds that have been donated to provide free or discounted care to individuals who meet individual fund criteria, to reduce or eliminate your hospital bill if you have a demonstrated financial need as determined by a fund's nominator; and you meet all eligibility criteria to receive funds (each fund has unique criteria). There are no specific income limits for receipt of restricted bed funds. Eligibility is determined on a case-by-case basis by the fund nominators based on financial hardship. All patients who fill out the financial assistance application will automatically be considered for restricted bed funds.

Yale New Haven Hospital “Me & My Baby” Program

This program is applicable to Yale New Haven Hospital patients. It provides prenatal care, labor and delivery services, and some post-partum care free of charge to those who qualify. You may be eligible if you live in New Haven County; do not have any type of health insurance; your family earns less than 2½ times the Federal Poverty Level (see maximum income chart above); you apply for State Assistance (Medicaid) and receive a valid written decision from the State. For more information or to request an application for the Yale New Haven Hospital Me & My Baby Program, see our representatives at the Women’s Center or call **203-688-5470**.

Greenwich Hospital Outpatient Clinic

The Greenwich Hospital Outpatient Clinic provides free or discounted care to individuals who apply for and are approved for clinic membership. If you do not have insurance, and are not eligible for State Assistance (Medicaid), you may be eligible if you are a Greenwich resident and have family income less than 4 times the Federal Poverty Level. For more information or to obtain an application please call **203-863-3334**.

A note about the programs

You must be a citizen or resident of the United States to be eligible for financial assistance. These programs cover emergency or other medically necessary care. They cover ONLY Yale New Haven Health member hospital bills. A link to the list of providers who provide such care and whether they do or do not follow the FAP can be found in the FAP. Patients eligible for financial assistance will not be charged more than the amount generally billed to patients with insurance for emergency or other medically necessary care. Yale New Haven Health will respond to each application in writing. If your application is denied, you can re-apply at any time. Additional free bed funds become available every year. Translations of our Financial Assistance Policy, Summary of Financial Assistance Policy and Application are available for certain groups with limited English proficiency.

Please call 1-855-547-4584 for help.

A note about the Free Care program

In order to be considered for Free Care, you MUST apply for Medical Assistance (Medicaid) in the state where you live and receive a valid, written decision on your application within the last 6 months. Please submit this decision with your application. If you are applying for Discounted Care, you must not presently have any type of health insurance. Discounted care applications do not require an attached state decision letter.

How do I apply for financial assistance?

To make the process easy for patients, Bridgeport Hospital, Greenwich Hospital, Lawrence + Memorial Hospital, Westerly Hospital and Yale New Haven Hospital use one application form for most financial assistance programs. If you are a Yale New Haven Hospital patient and wish to apply for the Me & My Baby Program, please contact our Women's Center representatives at 203-688-5470. If you are a Greenwich Hospital patient and wish to apply for the Outpatient clinic, please contact at 203-863-3334.

Note: You must have current hospital bills or a scheduled appointment at the hospital to qualify for our financial assistance programs.

Free Care Program: Follow steps 1, 2, 3 and 4.

Discounted Care Program: Follow steps 2, 3 and 4.

Step 1: Apply for State Medical Assistance.

To be eligible for Free Care, you MUST apply for Medical Assistance (Medicaid) in the state where you live and receive a valid, written decision on your application. A denial is not "valid" if it was issued because you did not provide information or cooperate.

You can apply for Medicaid at your local Department of Social Services (DSS) office. CT residents call 1-800-842-1508 to find the DSS office nearest to you or apply online at www.accesshealthct.com. The hospital also has staff that can help you fill out the applications. If you need assistance, call us at 1-855-547-4584.

Once you receive a written decision from DSS, you may apply for Free Care. We cannot accept decision letters that are greater than 6 months old.

Step 2: Complete the Application.

Please answer ALL questions and sign and date the application. If a question does not apply to your family, please write "N/A" (not applicable) in the space provided.

Step 3: Attach proof of income to your application.

Proof of income is a document that shows how much income your family earns at the time you fill out the application. See the table on right for the types of documents that may be used.

Step 4: Mail the application. Include: 1) The decision letter from DSS about your eligibility for State Assistance; 2) The completed, signed and dated application; and 3) Proof of income to:

Yale New Haven Health
SBO, Attn: Financial Assistance
PO BOX 1403
New Haven, CT 06505

The following documents may be used as proof of income:

<p>If your family's income is from ...</p>	<p>You may attach copies of these documents as proof of income: (These documents must not be more than six months old, except for your most recent Federal Tax Return, which may be older.)</p>
<p>Wages (If you earn a salary or get paid by the hour for a job)</p>	<ul style="list-style-type: none"> - Two (2) of the most recent pay stubs, OR - A letter from your employer on company letterhead stating how many hours you work and how much you earn per hour (before taxes)
<p>Self-employed income (If you work for yourself)</p>	<ul style="list-style-type: none"> - Most recent Federal Income Tax Return (must be signed by you)
<p>Benefits (Social Security, Veteran's, Worker's Compensation, Unemployment, Pensions, Retirement funds, SSI, alimony)</p>	<ul style="list-style-type: none"> - Most recent benefits award letter, OR - Benefits Statement, OR - Check stubs
<p>Rental Income</p>	<ul style="list-style-type: none"> - Copy of lease or written agreement showing amount of rent, OR - A letter written by you, indicating the amount of rent you receive per year
<p>Interest, Dividends, or Annuity Payments</p>	<ul style="list-style-type: none"> - Most recent Federal Income Tax Return, OR - Statement from financial institution stating the amount and the frequency of payments and the amount paid this year to date
<p>If you have no income</p>	<ul style="list-style-type: none"> - A letter from the person who supports you, OR - If you do not have a person who supports you, send a signed and dated letter explaining your current financial situation

Application for Financial Assistance Programs

Bridgeport Hospital, Greenwich Hospital, Lawrence + Memorial Hospital, Westerly Hospital and Yale New Haven Hospital use one application form for most financial assistance programs. By completing this application you will be considered for our Free Care, Discounted Care, and Bed Fund programs. For instructions on how to apply for financial assistance, please refer to page 2. Any questions about this application, please call 1-855-547-4584.

1. Patient Information:

Last Name	First Name	Social Security Number
Street Address		Date of Birth
City	State	Zip Code
If you are pregnant, what is your due date? _____		Medical Record Number (if available)
Legal status: <input type="checkbox"/> U.S. Citizen <input type="checkbox"/> U.S. Resident (attach identification) <input type="checkbox"/> Visa (student, work, visitor) <input type="checkbox"/> Non U.S. Citizen		

2. Family Information:

List your spouse and/or any dependent children living in your household. Do not include non-married partners. If more space is necessary, please attach a separate document.

Name of family member	Social Security Number	Relationship to applicant	Date of Birth

3. Income Information:

Income information for you and your spouse must be provided. Include all sources of income. Sources of income may include but are not limited to: wages/salary, alimony, social security, unemployment, rental income, worker's compensation, and child support. If you have no income, attach a letter of support to your application. (See instructions on Page 2)

Name of family member	Source of income	Amount earned before tax (circle)
		\$ _____ week/bi-week/month/year
		\$ _____ week/bi-week/month/year
		\$ _____ week/bi-week/month/year

4. Health Insurance:

Are you covered under any health insurance policy, including Medicare or Medicaid or coverage from a foreign country? YES NO

If **yes**, please attach a copy of the front and back of your insurance card to this application OR enter the following:

Policy Holder:	Insurer:	Policy No.:
Policy Holder:	Insurer:	Policy No.:

5. Restricted bed funds: Please select any that apply. If you have a financial hardship that you would like us to consider when reviewing your application, please attach a letter describing your situation.

- A person who lives in Shelton
- A person who lives in Hamden
- A person who lives in Southington
- A person who lives in Greenwich
- A child who lives in Guilford or North Branford
- A women in financial need
- A person of German heritage
- A child in financial need
- A person with throat or lung disease
- A veteran of World War II
- A child at the Children's Center in Hamden

6. Please read carefully before signing:

By signing below, I certify that everything I have stated on this application and any attachment is true.

- I understand that any incorrect, incomplete, or false information on this form could result in rejection of my application for financial assistance.
- I give Yale New Haven Health permission to verify any and all information.
- I give Yale New Haven Health permission to request my credit report.
- I agree to repay the full amount of my financial assistance award if I receive payment of any kind, including awards from a lawsuit, for the services covered by this application.
- I agree to inform Yale New Haven Health of any changes that could change my eligibility for financial assistance.
- I understand that in connection with my application for financial assistance, Yale New Haven Health may need to disclose Protected Health Information (as that term is defined in the HIPAA Privacy Rule, 42 CFR Parts 160 through 164) about me in order to determine my eligibility.
- I understand that any such disclosure will be for payment purposes, as defined in the HIPAA Privacy Rule.

Signature of person applying or legal guardian

Date

Printed name of the person applying or legal guardian

Please remember to attach a valid written decision of your Medicaid Assistance (Medicaid) application from the state in which you live and proof of income OR a letter of support to your application if applicable.

Mail the completed application to:

 New Haven, CT 06505

LAWRENCE + MEMORIAL CORPORATION

BOARD OF TRUSTEES

RESOLUTIONS RELATING TO THE FINANCIAL ASSISTANCE POLICY

January 23, 2017

WHEREAS, Lawrence + Memorial Corporation ("LMC") is the sole member of Lawrence + Memorial Hospital and Westerly Hospital and is part of the nonprofit integrated delivery system known as Yale New Haven Health; and

WHEREAS, Yale New Haven Health member hospitals provide financial assistance to patients to help pay for emergency and other medically necessary hospital care as more fully described in the Yale New Haven Health Financial Assistance Programs Policy ("FAP"); and

WHEREAS, management has recommended and implemented certain changes to the FAP, including, without limitation, changes necessary to comply with law and, further, to include Lawrence + Memorial Hospital and Westerly Hospital, which hospitals joined Yale New Haven Health in September 2016; and

WHEREAS, the Board of Trustees has determined that the foregoing resolutions are in the best interest of LMC.

NOW, THEREFORE, BE IT RESOLVED, as follows:

Section 1. The Board of Trustees hereby ratifies, confirms and approves the FAP attached hereto as *Exhibit A*.

Section 2. The Board of Trustees hereby authorizes and directs the Yale New Haven Health Senior Vice President, Finance and the Senior Vice President and General Counsel, or their designees, to make such changes to the FAP as are required by law, or as they deem necessary or appropriate to effectuate or carry out fully the purpose and intent of the foregoing resolutions.

Section 3. Any and all actions previously taken by the officers or employees of LMC in connection with the foregoing resolutions are hereby ratified, approved and confirmed in all respects.

CERTIFICATION

The undersigned assistant secretary of Lawrence + Memorial Corporation hereby certifies that the foregoing resolution was duly adopted by the Board of Trustees on January 23, 2017 and remains in full force and effect without amendment as of the date hereof.

Maureen J. Anderson, Assistant Secretary

Supersedes: Yale New Haven Hospital Financial Assistance Programs for Hospital Services (NC:F-4) Bridgeport Hospital Financial Assistance Programs for Hospital Services (9-13) Greenwich Hospital Overview of Financial Assistance Programs for Hospital Services Lawrence + Memorial Hospital and Westerly Hospital Charity Care, Financial Assistance, Free Bed Fund Policy		

PURPOSE

Yale New Haven Health System (“YNHHS”) recognizes that patients may not be able to pay for medically necessary health care without financial assistance. Consistent with its mission, YNHHS is committed to assuring that the ability to pay will be considered carefully when setting amounts due for emergency and other medically necessary hospital services.

In furtherance of its mission, YNHHS has established the Financial Assistance Programs (“FAP”) to assist individuals with paying for emergency and other medically necessary care. The objectives of the FAP are to:

- (i) Specify all financial assistance available under the FAP;
- (ii) Provide clear information regarding eligibility criteria, application requirements and the method for applying for financial assistance;
- (iii) Describe the basis for calculating amounts charged to FAP-eligible patients for emergency or other medically necessary care; and
- (iv) Describe the steps YNHHS hospitals take to widely publicize this FAP within the communities served by YNHHS.

Financial Assistance Programs Policy

APPLICABILITY

This policy applies to each licensed hospital affiliated with YNHHS, including Bridgeport Hospital (“BH”), Greenwich Hospital (“GH”), Lawrence + Memorial Hospital (“LMH”), Yale-New Haven Hospital (“YNHH”) and Westerly Hospital (“WH”) (each a “Hospital”).

POLICY

I. Scope and Provider List

- A. **Emergency and Other Medically Necessary Care.** The FAP apply to emergency and other medically necessary care, including inpatient and outpatient services, billed by a Hospital. The FAP exclude: (a) private room or private duty nurses; (b) services that are not medically necessary, such as elective cosmetic surgery; (c) other elective convenience fees, such as television or telephone charges, and (d) other discounts or reductions in charges not expressly described in this policy.
- B. **Provider List.** A list of providers who provide emergency and other medically necessary care at a Hospital can be found here: <https://www.ynhhs.org/patient-care/billing-insurance/financial-assistance.aspx>. The list indicates if the provider is covered under the FAP. If the provider is not covered under this FAP, patients should contact the provider’s office to determine if the provider offers financial assistance and if so what the provider’s financial assistance policy covers.

II. Financial Assistance Programs and Eligibility

Financial assistance is available to individuals who are residents of the United States of America, or citizens of the United States residing abroad, who complete the required financial assistance application and meet the additional eligibility requirements described below.

- A. **Free Care.** The Free Care program provides care at no cost to Hospital patients with gross annual family income less than or equal to 250% of the Federal Poverty Guidelines (*see* Attachment 1), and who have applied and been approved or receive a valid denial for State medical assistance, within the last six months.

In addition, YNHHS on behalf of BH, GH, and YNHH uses a third party screening tool to assist in identifying individuals with self-pay balances who have not applied for financial assistance, but whose income is less than or equal to 250% of the Federal Poverty Level (*i.e.*, eligible for free care). If a patient is identified through this process outstanding hospital balances may be adjusted to charity (free) care.

- B. **Discounted Care.** If a Hospital patient does not have insurance and his or her gross annual family income is more than 250% of the Federal Poverty Level the Hospital will discount care to the Hospital’s AGB (as defined in Section III below and on Attachment 1 hereto).

Financial Assistance Programs Policy

- C. **Restricted Bed Funds.** You may be eligible to receive restricted bed funds, which are funds that have been donated to the Hospital to provide free or discounted care to individuals who meet the individual fund criteria. There are no specific income limits for receipt of restricted bed funds. Eligibility is determined on a case-by-case basis by the fund nominators based on financial hardship. All patients who fill out the requisite financial assistance application will automatically be considered for restricted bed funds.
- D. **Other Hospital-Specific Financial Assistance programs.**
- (i) **Yale New Haven Hospital Me & My Baby Program.** This program is available to Yale New Haven Hospital patients. It provides prenatal, labor and delivery services, and some post-partum care free of charge. You may be eligible if you live in New Haven County, do not have any type of health insurance and your family earns less than 2 ½ times the Federal Poverty Level. For more information or to request an application see our representatives at the Yale New Haven Hospital Women’s Center or call 203-688-5470.
 - (ii) **Greenwich Hospital Outpatient Clinic** serves patients insured by Medicare, Medicaid, or insurances offered through Access Health CT and whose family income is less than 4 times the Federal Poverty Level. Further, the clinic provides discounted care to individuals who are not eligible for insurance and who reside in Greenwich and have family income less than 4 times the Federal Poverty Level. For more information or to obtain an application please call 203-863-3334.

III. Limitation on Charges - Amounts Billed to FAP-Eligible Patients

Where there is an award of financial assistance that does not cover 100% of YNHHS charges for the service, the amounts charged to patients eligible for financial assistance under this Policy will not be more than the amount a Hospital generally bills patients who have insurance coverage for such care (“AGB”). YNHHS calculates AGB annually by Hospital using the “look back method” and based on Medicare fee-for-service rates, including Medicare beneficiary cost-sharing amounts and all private health insurers that pay claims to each Hospital facility for the prior fiscal year. YNHHS may apply the percentage discount by Hospital, or may elect to use the percentage discount most favorable to YNHHS patients. AGB is set forth on Attachment 1 hereto.

As used herein, the “amount generally billed” and “look back method” have the meanings set forth in Internal Revenue Code §501(r)(5) and 1.501(r)-5.

IV. Method of Applying for Assistance

To be eligible for financial assistance, the patient must complete the requisite application for financial assistance (“Application”). The Application sets forth (i) FAP available programs and eligibility requirements, (ii) the documentation requirements for determinations of eligibility, and (iii) the contact information for FAP assistance. The Application also specifies that (i) the Hospital will respond to each Application in writing, (ii) patients may re-apply for financial assistance under the FAP at any time, and (iii) additional free bed funds become available every year. Hospitals may

Financial Assistance Programs Policy

not deny financial assistance under the FAP based on failure to provide information or documents that the FAP or the Application do not require as part of the Application.

YNHHS Hospitals will make reasonable efforts to determine eligibility and document any determinations of financial assistance eligibility in the applicable patient accounts. Once Hospital identifies a patient is FAP-eligible, Hospital shall:

- (i) Provide a billing statement indicating amount the individual owes as a FAP-eligible patient, including how the amount was determined and states, or describes, how the individual can get information regarding the AGB for the care;
- (ii) Refund to the individual any amount he or she has paid for the care that exceeds the amount he or she is determined to be personally responsible for paying as a FAP-eligible individual, unless such excess amount is less than \$5, or such other amount set by the IRS; and
- (iii) Take reasonable measures to reverse any extraordinary collection actions.

V. Non-Payment – Legal Action

A Hospital (and any collection agency or other party to which it has referred debt) shall not engage in any extraordinary collection action (“ECA”) before making reasonable efforts to determine if a patient or any other individual having financial responsibility for a self-pay account (Responsible Individual(s)) eligible for financial assistance under this FAP. Any ECA must be approved by the Vice President of Corporate Business Services or his designee(s), prior to the initiation of any ECA.

The Hospital will follow its A/R billing cycle in accordance with internal operational processes and practices. As part of such processes and practices, the Hospital will, at a minimum, notify patients about its FAP from the date care is provided and throughout the A/R billing cycle (or during such period as is required by law, whichever is longer) by:

1. All patients will be offered a plain language summary and an application form for financial assistance under the FAP as part of the discharge or intake process from a Hospital.
2. At least three separate statements for collection of self-pay accounts will be mailed or emailed to the last known address of the patient and any other Responsible Individual(s); provided, however, that no additional statements need be sent after a Responsible Individual(s) submits a complete application for financial assistance under the FAP or has paid in-full. At least 60 days shall have elapsed between the first and last of the required three mailings. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made. All single patient account statements of self-pay accounts will include but not limited to:
 - a. An accurate summary of the hospital services covered by the statement;
 - b. The charges for such services;

Financial Assistance Programs Policy

- c. The amount required to be paid by the Responsible Individual(s) (or, if such amount is not known, a good faith estimate of such amount as of the date of the initial statement); and
 - d. A conspicuous written notice that notifies and informs the Responsible Individual(s) about the availability of financial assistance under the FAP including the telephone number of the department and direct website address where copies of documents may be obtained.
3. At least one of the statements mailed or emailed will include written notice that informs the Responsible Individual(s) about the ECAs that are intended to be taken if the Responsible Individual(s) does not apply for financial assistance under the FAP or pay the amount due by the billing deadline. Such statement must be provided to the Responsible Individual(s) at least 30 days before the deadline specified in the statement. A plain language summary will accompany this statement. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made.
 4. Prior to initiation of any ECA, an oral attempt will be made to contact Responsible Individual(s) by telephone at the last known telephone number, if any, at least once during the series of mailed or emailed statements if the account remains unpaid. During all conversations, the patient or Responsible Individual(s) will be informed about the financial assistance that may be available under the FAP.
 5. Subject to compliance with the provisions of this policy, a YNHHS Hospital may take the ECA listed on Attachment 2 of this Policy to obtain payment for medical services provided.

VI. Policy Availability

Copies of the FAP, a plain language summary of the FAP and FAP application are available at <https://www.ynhhs.org/billing-insurance.aspx>.

Each Hospital makes available copies of the FAP, a plain language summary of the FAP and FAP application on request, free of charge, by mail or in the Hospital Emergency Department and at all points of registration in paper form in English and the primary language of any population with limited English proficiency that constitutes 5% or more of the population the Hospital serves. See Attachment 3 for a list of languages.

Contact Corporate Business Services toll free at (855) 547-4584 for information regarding eligibility or the programs that may be available to you, to request a copy of the FAP, plain language summary of the FAP, FAP application form, or Billing and Collection Policy to be mailed to you, or if you need a copy of the FAP, plain language summary, or FAP application form translated to a language other than English. Further, patients may ask Patient Registration, Patient Financial Services and Social Work/Case Management about initiating the FAP application process.

Financial Assistance Programs Policy

Further efforts to widely publicize the FAP include publishing notices in newspapers of general circulation; providing written notice of FAP in billing statements; providing notice of FAP in oral communications with patients regarding the amount due; and holding open houses and other informational sessions.

VII. Management Oversight Committee

The FAP will be overseen by a management oversight committee chaired by a Senior Vice President, YNHHS and comprised of representatives from Corporate Business Services, patient financial services, patient relations, finance, and the medical staff, as necessary. This committee will meet on a monthly basis.

VIII. Compliance with State Law

Each Hospital shall comply with relevant State laws, including, without limitation, Connecticut General Statutes governing Collections by Hospitals from Uninsured Patients and Rhode Island *Statewide Standard for the Provision of Charity Care* set forth in Section 11.3 of the Rhode Island Department of Health Rules and Regulations Pertaining to Hospital Conversions (the “RI Regulations”) and the *Statewide Standard for the Provision of Uncompensated Care* set forth in Section 11.4 of the RI Regulations.

LAWRENCE + MEMORIAL HOSPITAL

BOARD OF TRUSTEES

RESOLUTIONS RELATING TO THE FINANCIAL ASSISTANCE POLICY

January 23, 2017

WHEREAS, Lawrence + Memorial Hospital (“*LMH*”) is part of the nonprofit integrated delivery system known as Yale New Haven Health; and

WHEREAS, Yale New Haven Health member hospitals provide financial assistance to patients to help pay for emergency and other medically necessary hospital care as more fully described in the Yale New Haven Health Financial Assistance Programs Policy (“*FAP*”); and

WHEREAS, management has recommended and implemented certain changes to the FAP, including, without limitation, changes necessary to comply with law and, further, to include Lawrence + Memorial Hospital and Westerly Hospital, which hospitals joined Yale New Haven Health in September 2016; and

WHEREAS, the Board of Trustees has determined that the foregoing resolutions are in the best interest of LMH.

NOW, THEREFORE, BE IT RESOLVED, as follows:

Section 1. The Board of Trustees hereby ratifies, confirms and approves the FAP attached hereto as *Exhibit A*.

Section 2. The Board of Trustees hereby authorizes and directs the Yale New Haven Health Senior Vice President, Finance and the Senior Vice President and General Counsel, or their designees, to make such changes to the FAP as are required by law, or as they deem necessary or appropriate to effectuate or carry out fully the purpose and intent of the foregoing resolutions.

Section 3. Any and all actions previously taken by the officers or employees of LMH in connection with the foregoing resolutions are hereby ratified, approved and confirmed in all respects.

CERTIFICATION

The undersigned assistant secretary of Lawrence + Memorial Hospital hereby certifies that the foregoing resolution was duly adopted by the Board of Trustees on January 23, 2017 and remains in full force and effect without amendment as of the date hereof.

Maureen J. Anderson, Assistant Secretary

Supersedes: Yale New Haven Hospital Financial Assistance Programs for Hospital Services (NC:F-4) Bridgeport Hospital Financial Assistance Programs for Hospital Services (9-13) Greenwich Hospital Overview of Financial Assistance Programs for Hospital Services Lawrence + Memorial Hospital and Westerly Hospital Charity Care, Financial Assistance, Free Bed Fund Policy		

PURPOSE

Yale New Haven Health System (“YNHHS”) recognizes that patients may not be able to pay for medically necessary health care without financial assistance. Consistent with its mission, YNHHS is committed to assuring that the ability to pay will be considered carefully when setting amounts due for emergency and other medically necessary hospital services.

In furtherance of its mission, YNHHS has established the Financial Assistance Programs (“FAP”) to assist individuals with paying for emergency and other medically necessary care. The objectives of the FAP are to:

- (i) Specify all financial assistance available under the FAP;
- (ii) Provide clear information regarding eligibility criteria, application requirements and the method for applying for financial assistance;
- (iii) Describe the basis for calculating amounts charged to FAP-eligible patients for emergency or other medically necessary care; and
- (iv) Describe the steps YNHHS hospitals take to widely publicize this FAP within the communities served by YNHHS.

Financial Assistance Programs Policy

APPLICABILITY

This policy applies to each licensed hospital affiliated with YNHHS, including Bridgeport Hospital (“BH”), Greenwich Hospital (“GH”), Lawrence + Memorial Hospital (“LMH”), Yale-New Haven Hospital (“YNHH”) and Westerly Hospital (“WH”) (each a “Hospital”).

POLICY

I. Scope and Provider List

- A. **Emergency and Other Medically Necessary Care.** The FAP apply to emergency and other medically necessary care, including inpatient and outpatient services, billed by a Hospital. The FAP exclude: (a) private room or private duty nurses; (b) services that are not medically necessary, such as elective cosmetic surgery; (c) other elective convenience fees, such as television or telephone charges, and (d) other discounts or reductions in charges not expressly described in this policy.
- B. **Provider List.** A list of providers who provide emergency and other medically necessary care at a Hospital can be found here: <https://www.ynhhs.org/patient-care/billing-insurance/financial-assistance.aspx>. The list indicates if the provider is covered under the FAP. If the provider is not covered under this FAP, patients should contact the provider’s office to determine if the provider offers financial assistance and if so what the provider’s financial assistance policy covers.

II. Financial Assistance Programs and Eligibility

Financial assistance is available to individuals who are residents of the United States of America, or citizens of the United States residing abroad, who complete the required financial assistance application and meet the additional eligibility requirements described below.

- A. **Free Care.** The Free Care program provides care at no cost to Hospital patients with gross annual family income less than or equal to 250% of the Federal Poverty Guidelines (*see* Attachment 1), and who have applied and been approved or receive a valid denial for State medical assistance, within the last six months.

In addition, YNHHS on behalf of BH, GH, and YNHH uses a third party screening tool to assist in identifying individuals with self-pay balances who have not applied for financial assistance, but whose income is less than or equal to 250% of the Federal Poverty Level (*i.e.*, eligible for free care). If a patient is identified through this process outstanding hospital balances may be adjusted to charity (free) care.

- B. **Discounted Care.** If a Hospital patient does not have insurance and his or her gross annual family income is more than 250% of the Federal Poverty Level the Hospital will discount care to the Hospital’s AGB (as defined in Section III below and on Attachment 1 hereto).

Financial Assistance Programs Policy

C. **Restricted Bed Funds.** You may be eligible to receive restricted bed funds, which are funds that have been donated to the Hospital to provide free or discounted care to individuals who meet the individual fund criteria. There are no specific income limits for receipt of restricted bed funds. Eligibility is determined on a case-by-case basis by the fund nominators based on financial hardship. All patients who fill out the requisite financial assistance application will automatically be considered for restricted bed funds.

D. **Other Hospital-Specific Financial Assistance programs.**

- (i) **Yale New Haven Hospital Me & My Baby Program.** This program is available to Yale New Haven Hospital patients. It provides prenatal, labor and delivery services, and some post-partum care free of charge. You may be eligible if you live in New Haven County, do not have any type of health insurance and your family earns less than 2 ½ times the Federal Poverty Level. For more information or to request an application see our representatives at the Yale New Haven Hospital Women's Center or call 203-688-5470.
- (ii) **Greenwich Hospital Outpatient Clinic** serves patients insured by Medicare, Medicaid, or insurances offered through Access Health CT and whose family income is less than 4 times the Federal Poverty Level. Further, the clinic provides discounted care to individuals who are not eligible for insurance and who reside in Greenwich and have family income less than 4 times the Federal Poverty Level. For more information or to obtain an application please call 203-863-3334.

III. Limitation on Charges - Amounts Billed to FAP-Eligible Patients

Where there is an award of financial assistance that does not cover 100% of YNHHS charges for the service, the amounts charged to patients eligible for financial assistance under this Policy will not be more than the amount a Hospital generally bills patients who have insurance coverage for such care ("AGB"). YNHHS calculates AGB annually by Hospital using the "look back method" and based on Medicare fee-for-service rates, including Medicare beneficiary cost-sharing amounts and all private health insurers that pay claims to each Hospital facility for the prior fiscal year. YNHHS may apply the percentage discount by Hospital, or may elect to use the percentage discount most favorable to YNHHS patients. AGB is set forth on Attachment 1 hereto.

As used herein, the "amount generally billed" and "look back method" have the meanings set forth in Internal Revenue Code §501(r)(5) and 1.501(r)-5.

IV. Method of Applying for Assistance

To be eligible for financial assistance, the patient must complete the requisite application for financial assistance ("Application"). The Application sets forth (i) FAP available programs and eligibility requirements, (ii) the documentation requirements for determinations of eligibility, and (iii) the contact information for FAP assistance. The Application also specifies that (i) the Hospital will respond to each Application in writing, (ii) patients may re-apply for financial assistance under the FAP at any time, and (iii) additional free bed funds become available every year. Hospitals may

Financial Assistance Programs Policy

not deny financial assistance under the FAP based on failure to provide information or documents that the FAP or the Application do not require as part of the Application.

YNHHS Hospitals will make reasonable efforts to determine eligibility and document any determinations of financial assistance eligibility in the applicable patient accounts. Once Hospital identifies a patient is FAP-eligible, Hospital shall:

- (i) Provide a billing statement indicating amount the individual owes as a FAP-eligible patient, including how the amount was determined and states, or describes, how the individual can get information regarding the AGB for the care;
- (ii) Refund to the individual any amount he or she has paid for the care that exceeds the amount he or she is determined to be personally responsible for paying as a FAP-eligible individual, unless such excess amount is less than \$5, or such other amount set by the IRS; and
- (iii) Take reasonable measures to reverse any extraordinary collection actions.

V. Non-Payment – Legal Action

A Hospital (and any collection agency or other party to which it has referred debt) shall not engage in any extraordinary collection action (“ECA”) before making reasonable efforts to determine if a patient or any other individual having financial responsibility for a self-pay account (Responsible Individual(s)) eligible for financial assistance under this FAP. Any ECA must be approved by the Vice President of Corporate Business Services or his designee(s), prior to the initiation of any ECA.

The Hospital will follow its A/R billing cycle in accordance with internal operational processes and practices. As part of such processes and practices, the Hospital will, at a minimum, notify patients about its FAP from the date care is provided and throughout the A/R billing cycle (or during such period as is required by law, whichever is longer) by:

1. All patients will be offered a plain language summary and an application form for financial assistance under the FAP as part of the discharge or intake process from a Hospital.
2. At least three separate statements for collection of self-pay accounts will be mailed or emailed to the last known address of the patient and any other Responsible Individual(s); provided, however, that no additional statements need be sent after a Responsible Individual(s) submits a complete application for financial assistance under the FAP or has paid in-full. At least 60 days shall have elapsed between the first and last of the required three mailings. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made. All single patient account statements of self-pay accounts will include but not limited to:
 - a. An accurate summary of the hospital services covered by the statement;
 - b. The charges for such services;

Financial Assistance Programs Policy

- c. The amount required to be paid by the Responsible Individual(s) (or, if such amount is not known, a good faith estimate of such amount as of the date of the initial statement); and
 - d. A conspicuous written notice that notifies and informs the Responsible Individual(s) about the availability of financial assistance under the FAP including the telephone number of the department and direct website address where copies of documents may be obtained.
3. At least one of the statements mailed or emailed will include written notice that informs the Responsible Individual(s) about the ECAs that are intended to be taken if the Responsible Individual(s) does not apply for financial assistance under the FAP or pay the amount due by the billing deadline. Such statement must be provided to the Responsible Individual(s) at least 30 days before the deadline specified in the statement. A plain language summary will accompany this statement. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made.
4. Prior to initiation of any ECA, an oral attempt will be made to contact Responsible Individual(s) by telephone at the last known telephone number, if any, at least once during the series of mailed or emailed statements if the account remains unpaid. During all conversations, the patient or Responsible Individual(s) will be informed about the financial assistance that may be available under the FAP.
5. Subject to compliance with the provisions of this policy, a YNHHS Hospital may take the ECA listed on Attachment 2 of this Policy to obtain payment for medical services provided.

VI. Policy Availability

Copies of the FAP, a plain language summary of the FAP and FAP application are available at <https://www.ynhhs.org/billing-insurance.aspx>.

Each Hospital makes available copies of the FAP, a plain language summary of the FAP and FAP application on request, free of charge, by mail or in the Hospital Emergency Department and at all points of registration in paper form in English and the primary language of any population with limited English proficiency that constitutes 5% or more of the population the Hospital serves. See Attachment 3 for a list of languages.

Contact Corporate Business Services toll free at (855) 547-4584 for information regarding eligibility or the programs that may be available to you, to request a copy of the FAP, plain language summary of the FAP, FAP application form, or Billing and Collection Policy to be mailed to you, or if you need a copy of the FAP, plain language summary, or FAP application form translated to a language other than English. Further, patients may ask Patient Registration, Patient Financial Services and Social Work/Case Management about initiating the FAP application process.

Financial Assistance Programs Policy

Further efforts to widely publicize the FAP include publishing notices in newspapers of general circulation; providing written notice of FAP in billing statements; providing notice of FAP in oral communications with patients regarding the amount due; and holding open houses and other informational sessions.

VII. Management Oversight Committee

The FAP will be overseen by a management oversight committee chaired by a Senior Vice President, YNHHS and comprised of representatives from Corporate Business Services, patient financial services, patient relations, finance, and the medical staff, as necessary. This committee will meet on a monthly basis.

VIII. Compliance with State Law

Each Hospital shall comply with relevant State laws, including, without limitation, Connecticut General Statutes governing Collections by Hospitals from Uninsured Patients and Rhode Island *Statewide Standard for the Provision of Charity Care* set forth in Section 11.3 of the Rhode Island Department of Health Rules and Regulations Pertaining to Hospital Conversions (the “RI Regulations”) and the *Statewide Standard for the Provision of Uncompensated Care* set forth in Section 11.4 of the RI Regulations.

**Templates for Reporting on L+MH Top 25 Most Frequently Utilized Services
MS-DRGs (Inpatient) and CPT (Outpatient)
Docket #15-32033-CON: Condition 6**

OHCA will receive an annual report of the total price per "unit of service" for MS-DRG and CPT codes each fiscal year through the end of FY 2019.

Condition 6: Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period September 1, 2015 - August 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.

Templates for Reporting on YNHHS/L+M Five-Year Synergy Financial Plan
Docket #15-32033-CON: Condition 32f and Docket #15-32032-CON: Condition 7c
FY 2017 - FY 2021

Condition 32

FY 2017 - FY 2018 and each fiscal year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October-March (due May 31st) and April-September (due November 30th) certifying the achievement of each and every commitment described herein:

Condition 32f (L+M Healthcare and L+M Hospital)

A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.

- i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities
- ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories
- iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports (no template)
- iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report (no template)

Condition 7c (LMMG/NEMG) (reported as part of 32f)

A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports (no template for balance sheet or statement of operations of NEMG/LMMG)

Hi Kim and Karen-

Please see the attached presentation, meeting minutes and sign-in sheet from the YNHH/L+MH Public Forum held in New London on March 1st. This meeting was hosted by Yale New Haven Health and Deloitte representatives attended per the Monitoring role.

Feel free to contact me if you have any questions. I would appreciate it if you would confirm that you have received this information.

Regards,
Kelly

Minutes

Meeting: L+MH New London Public Forum

Held on: March 1, 2017 at 6:00 pm

Location: Holiday Inn, New London, CT

Introduction The meeting began at 6:00pm EST.

Vin Petrini provided an introduction and opening remarks. He emphasized YNHHS's excitement about the affiliation and stated there have been several signs of progress over the first five months.

Mr. Petrini provided an overview of the agenda for the evening and introduced Kelly Sauders from Deloitte and Cathy Zall, Board member.

Presentation Mr. Petrini provided an overview of the rationale for the YNHHS affiliation with L+MH. Examples included enhancing access to comprehensive care in eastern CT and western RI, fortifying the physician network to support population health, increasing access to YNHHS specialty services in local communities, developing scale to realize cost savings and identifying efficiencies to enhance financial viability of L+MH.

Mr. Petrini described opportunities to provide value, such as brand identification, expanded clinical offerings in eastern CT, IT integration to enhance care, employed physician integration to create one standard of care and reduced administrative costs, corporate services integration, and furthering the population health network.

Kelly Sauders provided an overview of the Office of Healthcare Access (OHCA) conditions for which both YNHHS and L+MH must comply and described the independent monitor role with regard to oversight and analysis as well as reporting. Ms. Sauders also described Cathy Zall's role as community representative. Finally, Ms. Sauders provided the group with some of the observations from her site visit to L+MH earlier in the day.

Mr. Petrini reviewed several key investments that have been made in the first five months, including the ~\$4.3M investment for Epic, capital investments, clinical investments and marketing efforts. He provided examples of positive clinical statistics.

Mr. Petrini concluded with a timeline of key milestones since the start of the affiliation and opened up the meeting for questions.

Questions and Answers

1. Question to Vin Petrini: What are your plans for recruitment from specialties? There are problems with patients being able to find someone able to take new patients.
A: Vin Petrini responded: We are assessing overall needs: one is primary care and we have a plan to recruit primary care, looking at all areas, and we are also tracking who is leaving to identify new opportunities/needs.
-

-
2. Question to Kelly Sauders: I have a hard time believing your visit to L+MH was “all rosy” and wonder if you talked to the staff. There are problems with Epic and folks that used to be treated at L+MH are now being sent to Yale. What diagnoses are no longer being treated at L+MH that used to be?
A: Vin Petrini responded: If it is a very difficult procedure that cannot be done at L+MH it is a situation where the patient would be sent to Yale New Haven.
 3. Question: How was tonight’s meeting advertised? With regard to community health assessment and implementation, is there a plan to improve resources available in critical priorities?
A: Vin Petrini responded: He listed where tonight’s event was advertised including the L+MH website and local paper.
A: Vin Petrini responded: A \$5,000 investment viewed as supporting critical priorities was recently made to a local organization to support sober houses.
 4. Question about community benefits: A participant commented about how community needs assessment was great, identified diabetes, but asked about the specific strategies and expressed concern about the implementation.
A: Vin Petrini responded: We do not disagree with the community health needs assessment whatsoever. Our primary goal is to bring L+MH to full fruition. As we make investments in this community and this hospital, our community investments will follow. The environment is changing so rapidly. This affiliation will bring stability. We are confident we will be able to exceed the commitments made.
 5. Comment suggesting Yale New Haven Health System spends too much money on advertising and referenced a commercial aired during the Super Bowl. Concern was that money should be focused in the community.
A: Vin Petrini responded: It is our complete focus to reach out to community. We need to grow so we can drive down costs and deliver care at the bedside at a lower cost. We want this to succeed so we can create and grow access.
 6. Question about fluctuating margin and request to discuss what the plan is?
A: Vin Petrini responded: Strategic plan is posted online on OHCA. L+MH is an extraordinary organization that was challenged by factors including declining reimbursement. CT hospitals have also seen increases in taxes. We need to work together if we are concerned about driving access to care in the long run. It is critical to address these issues.
 7. Cathy Zall commented that we are in a period of transition and there is focus and attention on trying to deal with the financial losses. She stated (to the audience) that we have the opportunity to build mutually beneficial partnerships going forward. She noted that she herself was learning so much more about the community health needs assessment and processes and looks forward to partnering going forward.
 8. Another question about margin and concern about corporate structure of L+MH e.g. hospital vs. medical group, and if earnings be reinvested into L+MH?
A: Vin Petrini responded: Other hospitals may have a much more centralized perspective. We look at investment overall in the system because we cannot get to a position of wellness without partnering with physicians. We continue to see fewer independent physicians practicing. As we recruit new physicians there will be losses associated but it is crucial for our patients to have them. We focus on the overall investment.
-

9. Question: Should we provide all of our contact information so we can be notified of the next meeting?

A: Yes

10. Question: The OHCA website had ambiguous information about continued clinical services. Does L+MH plan to continue to offer pediatric services?

A: Yes.

11. Question about Medicaid block grants (general).

A: Vin Petrini responded: Block grants would give state a pool of dollars and flexibility to do with it whatever they want. Noted some concern over this and that there are other possible solutions.

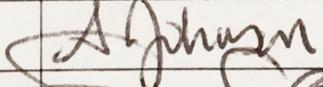

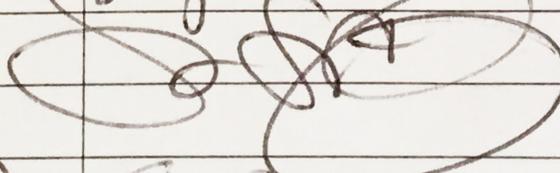

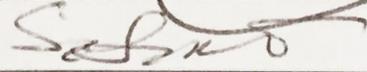

Closing

Mr. Petrini closed the meeting by thanking everyone for attending and confirmed there will be another public meeting likely in May.

The meeting was adjourned at 7:10pm EST.

Independent Monitor
Public Forum

March 1, 2017

Agenda

Opening and Introductions

Rationale for YNHHS Affiliation with L+MH

Office of Healthcare Access (OHCA) Affiliation Conditions

Role of the Independent Monitor

YNHHS Investments to Date

Questions

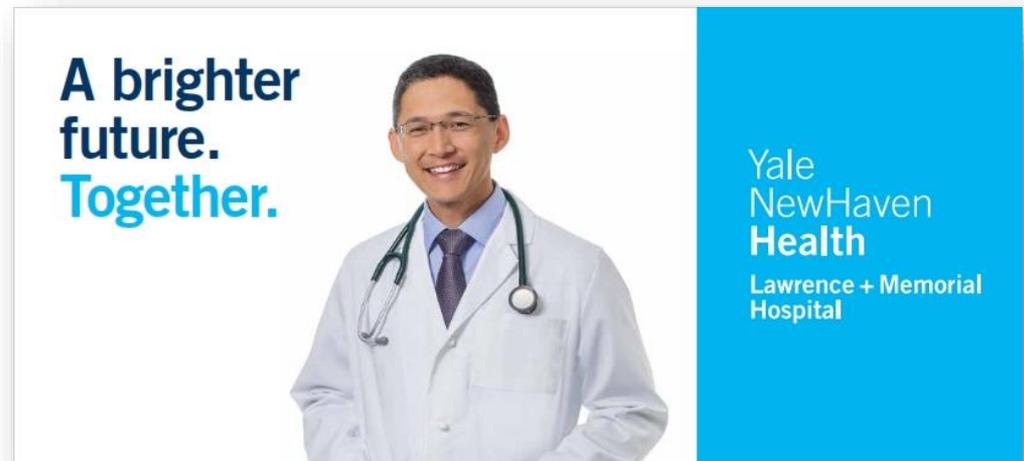

Why Yale New Haven Health System Affiliated with L+M Healthcare

- Enhance access to comprehensive care in eastern Connecticut and western Rhode Island with strong healthcare provider
- Fortify physician network to support population health strategy
- Increase access to YNHHS specialty services in local communities
- Develop scale to realize cost savings and efficiencies to enhance financial viability of L+M Healthcare
- Support Yale New Haven Health highly specialized services

Lawrence + Memorial Healthcare Opportunities to Provide Value

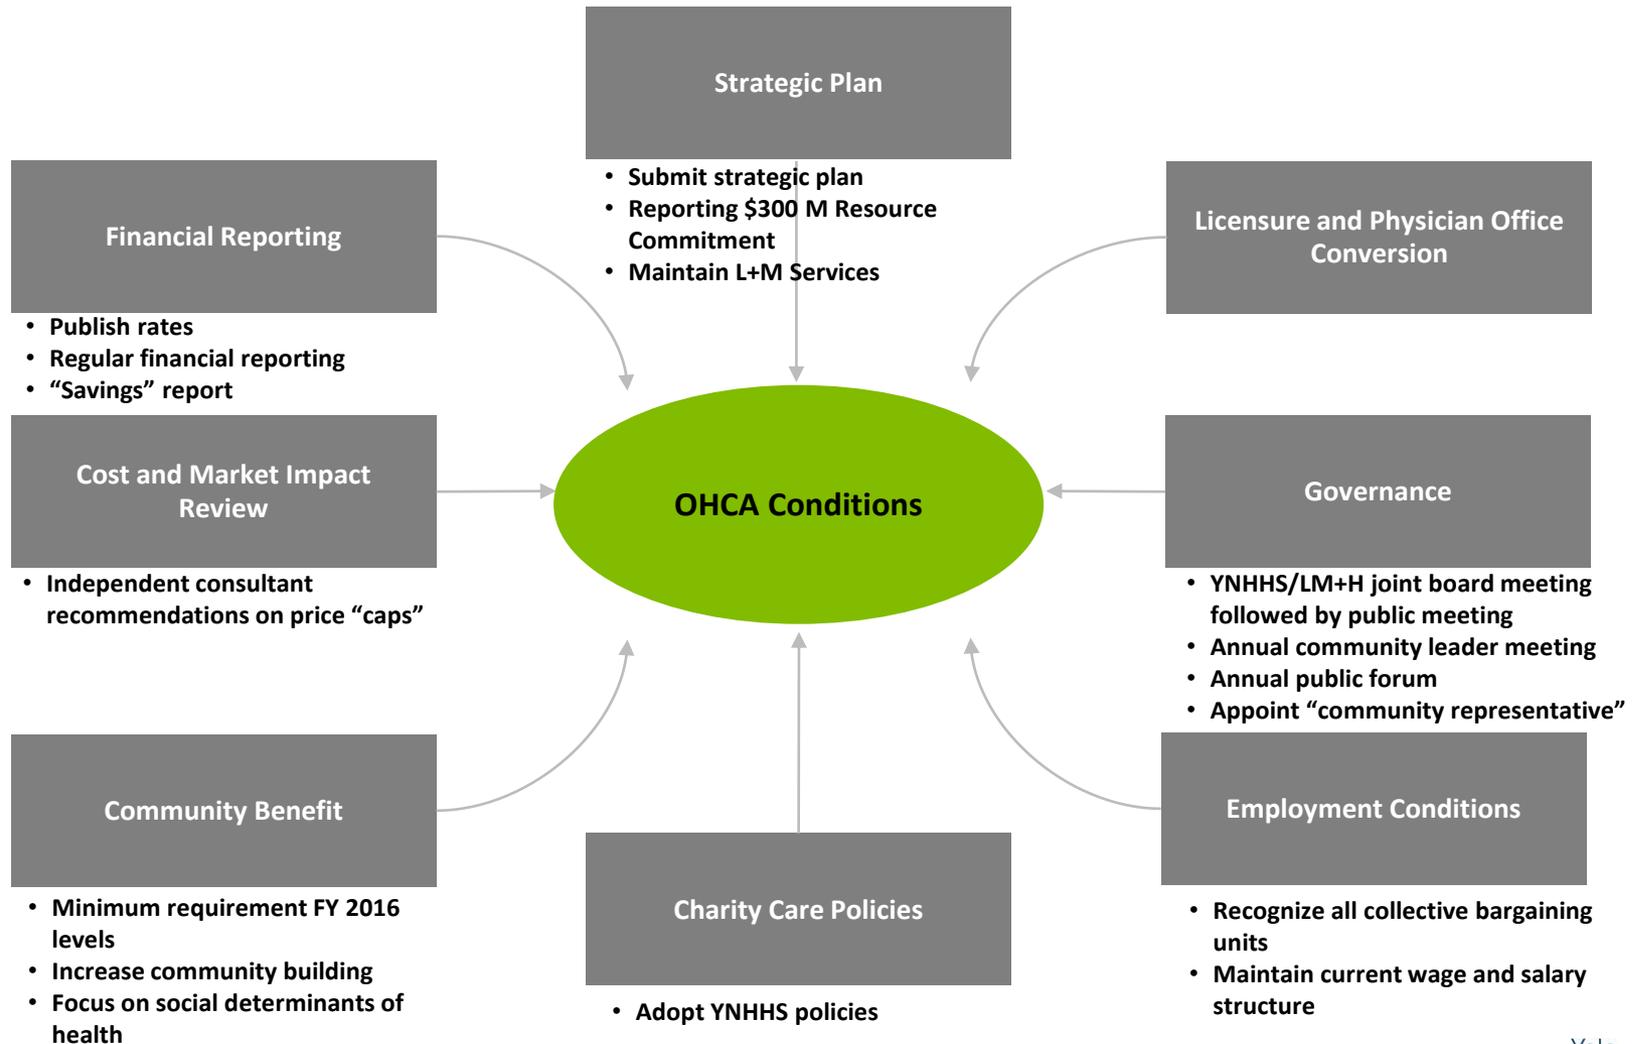

- Brand identification
- Expand clinical offerings in Eastern Connecticut
- IT integration to enhance care
- Employed physician integration to create one standard of care and reduce administrative costs
- Corporate services integration
- Population health network

Office of Healthcare Access (OHCA) Conditions

- The affiliation of L+M Healthcare with Yale New Haven Health was fully approved by the State of Connecticut's Office of Healthcare Access (OHCA) in September 2016
- OHCA has set forth conditions to which both YNHHS and L+M must comply
- OHCA appointed an Independent Monitor, Deloitte & Touche (D&T), to ensure the OHCA conditions are met.
- Independent Monitor reports to OHCA

OHCA Conditions

Independent Monitor Role

Ongoing Oversight and Analysis

- As the Independent Monitor, D&T is responsible for monitoring YNHHS compliance with the conditions set forth in the Order. Additional monitoring activities include:
 - Meet annually with Community Representative
 - Meet regularly with YNHHSC leadership team
 - Hold annual Public Forum

Reporting

- D&T will obtain and evaluate documentation for accuracy and completeness prior to submission to OHCA
- D&T will report to DPH and will conduct on-site visits of L+MH
- D&T shall furnish a written report of an assessment to DPH within 30 days of the on-site review
- YNHHSC will have the opportunity to review and provide written responses to the report
- As OHCA deems necessary, D&T shall meet with DPH personnel to discuss the written report

OHCA Appointed “Community Representative” Board Member: Cathy Zall

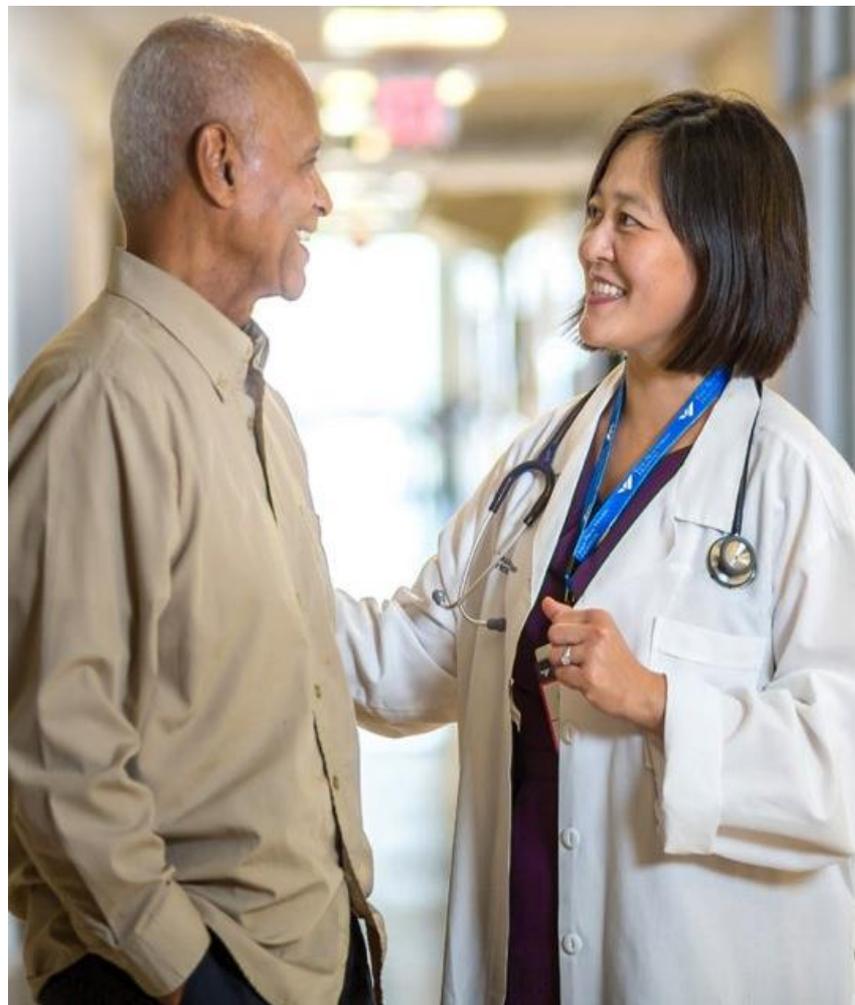

Cathy’s Experience

- Executive Director of the New London Homeless Hospitality Center since 2007
- Pastor of the First Congregational Church of New London
- Project Manager for the Connecticut Department of Social Services
- Program Director for the Connecticut Child Care Assistance Program
- Deputy Commissioner of the New York City Department of Social Services
- Master of Divinity degree from Yale University
- MBA from New York University
- Bachelor’s Degree from Brown University

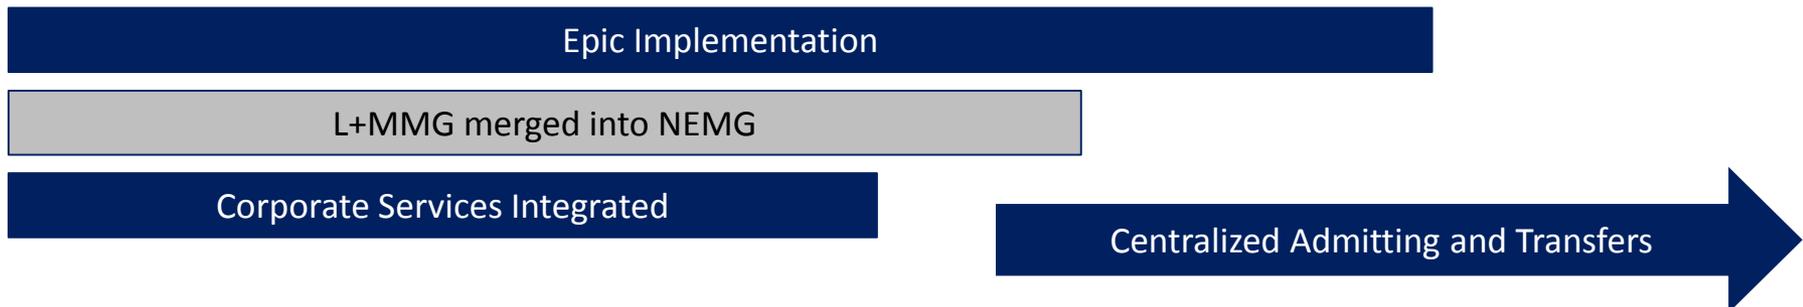

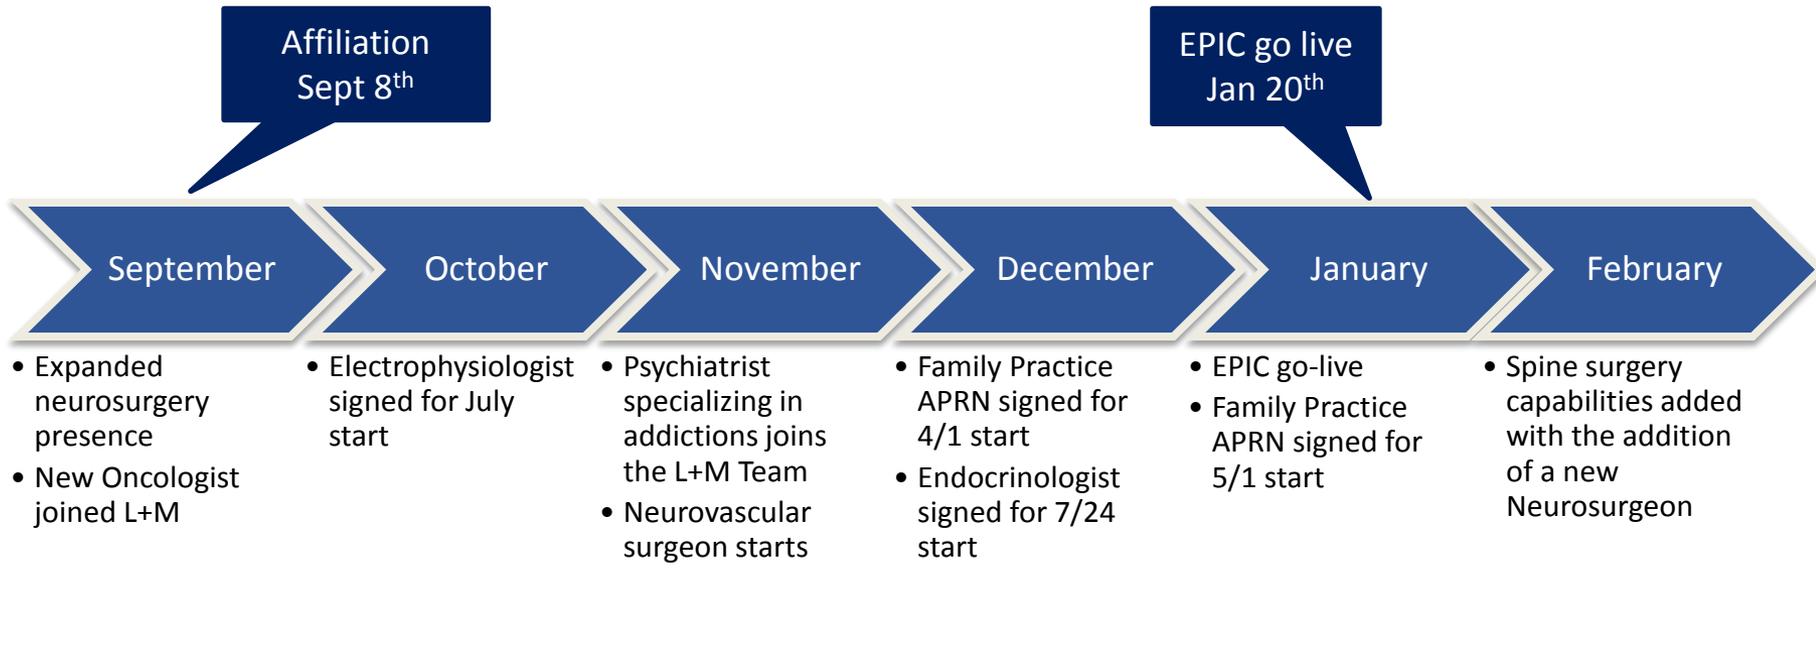

Key Investments and Clinical Statistics

Key Facts Since Affiliation:

- ~\$4.3M has been invested by YNHHS for the successful Epic electronic health record implementation
- Capital investments of more than \$8 million
- Clinical Investments to date total ~\$1.15M including:
 - Psychiatric Services
 - Neurosurgical Services
 - Oncology Services
 - Heart and Vascular Services
- Signage/marketing efforts
- The average daily census has been trending up since the onset of affiliation
- Patients from the community who presented to the YNHHS Shoreline ED have been triaged back to L+M for admission since the Epic Go-Live
- L+M has had over 100,000 outpatient encounters
- Investments in tele-consult services will give patients access to Yale's world class clinical care without leaving the community

L+M Timeline of Milestones Since Affiliation

Subject: Compliance and monitoring for DNs 15-32032-CON and 32033-CON

Hi Kelly – the timeframe you set forth in your email below appears reasonable for the submission of the initial Independent Monitor report for both of these docket numbers. The timeframe will encompass the transaction date of 9/8/2016 until the end of this calendar quarter, which is March 31st. We will expect the report 7-10 days after the end of the calendar quarter then. In your submission, please identify both docket numbers and the number of any related conditions in the agreed settlements that the filing if being made in accordance with.

Sincerely,

Karen Roberts

Subject: RE: Question - YNHH/L+MH Monitor - Deloitte 6-month report due date?

Hi Kim and Karen – I have one point I'd like to clarify. We are reading/interpreting the "due date" of our six month report to be in early April. It would seem that we are reporting out on a first full 6-months of activity up through and including items due March 31, 2017. That would mean we can finalize and issue our report within 7-10 days after.

Is this a correct interpretation? Please let me know.

Thanks,
Kelly

Templates for Reporting on YNHHS/L+M Five-Year Synergy Financial Plan
Docket #15-32033-CON: Condition 32f and Docket #15-32032-CON: Condition 7c
FY 2017 - FY 2021

Condition 32

FY 2017 - FY 2018 and each fiscal year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October-March (due May 31st) and April-September (due November 30th) certifying the achievement of each and every commitment described herein:

Condition 32f (L+M Healthcare and L+M Hospital)

A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.

- i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities
- ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories
- iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports (no template)
- iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report (no template)

Condition 7c (LMMG/NEMG) (reported as part of 32f)

A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports (no template for balance sheet or statement of operations of NEMG/LMMG)

YNHHSC Independent Monitor Review
Report for Six Month Reporting Period
Ending March 31, 2017

April 7, 2017

This document was created pursuant to the engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”) and Yale New Haven Health Services Corporation and its subsidiaries, and D&T understands that this document will be shared with the Connecticut Office of Health Care Access (“OHCA”) in its capacity as regulator. This document is not intended to be and should not be relied on by any other person or entity. D&T and its affiliated and related entities shall not be responsible for any loss sustained by any person or entity that relies on this document.

April 7, 2017

Ms. Gayle Capozzalo
Executive Vice President and Chief Strategy Officer
Yale New Haven Health
789 Howard Avenue
New Haven, CT 06519

Dear Ms. Capozzalo,

Re: Deloitte & Touche LLP Six-Month Report as Independent Monitor per Docket Numbers 15-32032-CON and 15-32033-CON

In accordance with our engagement letter dated November 7, 2016 (“Engagement Letter”), the attached report summarizes the findings from the work steps performed by Deloitte & Touche LLP (“D&T”), as requested by Yale New Haven Health (“YNHHSC”), with respect to the Independent Monitor role for the 6-month reporting period ending March 31, 2017.

Pursuant to the Engagement Letter, YNHHSC agrees that any deliverables provided to YNHHSC by D&T may be disclosed to the State of Connecticut’s Office of Health Care Access (“OHCA”) to the extent required by such regulator in connection with their regulatory oversight.

The services were performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants (“AICPA”). The services did not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, D&T does not express an opinion or any other form of assurance as a result of performing the services.

Sincerely,

Deloitte & Touche LLP

CONFIDENTIAL– DO NOT DISCLOSE

I. Detailed Observations Table

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 4	<p>Within one hundred and eighty (180) days following the Closing Date of 9/8/16, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and YNHHS. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p> <p>NOTE 1: This applies only to Eastern Connecticut which has been defined in the Affiliation Agreement as Tolland, Windham and New London counties.</p> <p>Note 2: Refer to Condition #19 which addresses the same/similar requirements</p>	3/7/2017	D&T will obtain a copy of the Services Plan/Strategic Plan submitted for Condition #4 and #19, verify timely submission, verify that it incorporates the required elements (e.g. describing any planned consolidation, reduction, or elimination of existing services or introduction of new services) and that it meets the 3-year requirement.	YNHHS submitted Services and Strategy Plan to OHCA in accordance with Conditions 4 and 19 on 1/19/2017.	Pg. 478 (submission email) Pg. 479 – 482 (documentation)
15-32033-CON Condition 19	<p>L+M and YNHHS shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e. towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M service sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHHS affiliated facilities for specialized care not available locally. The strategic plan shall include but not be limited to the following components:</p> <p>a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such period. L+M shall demonstrate annual progress toward achieving these goals.</p> <p>b. YNHHS and L+M shall abide by the resource commitments for clinical service programming as set forth in the Affiliation Agreement.</p> <p>NOTE 1: Refer to Condition #4 which addresses the same requirements.</p>	3/7/2017	D&T will obtain the Services Plan/Strategic Plan submitted for Condition #4 and #19 and review the plan for inclusion of these required components (as compared to the needs described within the Community Needs Assessment and the resource commitments within the Affiliation Agreement).	YNHHS submitted Services and Strategy Plan to OHCA in accordance with Conditions 4 and 19 on 1/19/2017.	Pg. 478 (submission email) Pg. 479 – 482 (documentation)

15-32033-CON Condition 5	Until such time as the Services Plan is submitted , YNHHS shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. NOTE 1: Cross-reference to Condition #18	1/19/2017	D&T will confirm that notices of reallocation or relocation were submitted in a timely manner and published on the L+MH website within ten days. Per related 15-32033-CON Condition #18, D&T will confirm that any changes or reallocation of services are not in conflict with the requirements of 15-32033-CON Condition #18.	Confirmed with YNHHS that through the submission of the Services Plan on 1/19/2017, no reallocation or relocation of inpatient beds or outpatient services was performed.	N/A

15-32033-CON Condition 32f	<p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <p>i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities;</p> <p>ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories;</p> <p>iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p> <p>iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.</p>	3/7/2017	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six month reports based on fiscal year. We will verify that the required elements are included in the report and are documented and supported by underlying information. We will confirm timely submission of all reports (OHCA's, HRS, Report 100, Report 150 and Report 175 and succession reports to OHCA.</p>	<p>YNHHS submitted Five-Year Plan to OHCA in accordance with Condition 32f on 3/7/2017.</p> <p>The milestone date for the six month report is 5/31/2017 for 15-32033-CON Condition 32f and 15-32032-CON Condition 7c.</p>	<p>Pg. 734 (submission email) Pg. 736 – 737 (documentation)</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 6	Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period October 1, 2015 – September 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.	3/7/2017	D&T will obtain YNHHS's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information. D&T will review work papers to confirm information and timely filing. * 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017 which is 11/30/17 and the 3rd filing is due 60 dates after the close of FY2018 which is 11/30/18.	YNHHS submitted analysis to OHCA in accordance with Condition 6 on 3/7/2017.	Pg. 734 (submission email) Pg. 735 and 738 (documentation)

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 22	<p>Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p> <p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p>	12/7/2016	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>	<p>YNHHS submitted documentation to OHCA supporting engagement of Independent Consultant, Milliman, in accordance with Condition on 11/29/2016.</p> <p>The Independent Monitor and Independent Consultant currently meet via conference call on a monthly basis.</p>	<p>Pg. 430 (submission email) Pg. 431-454 (documentation)</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
<p>15-32033- CON Condition 22 (continued)</p>	<p>c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purposes of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.</p> <p>d. The independent consultant shall report to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.</p> <p>e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.</p>	<p>12/7/2016</p>	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>	<p>No noted instances of non-compliance.</p>	<p>Pg. 430 (submission email) Pg. 431-454 (documentation)</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32032-CON Condition 3	<p>Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined in d. below) for L+MH and LMMG (the "annual CMIR update"). Yale New Haven shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p> <p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 10a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p>	12/7/2016	Refer to procedures for 15-32033-CON Condition #22 above.	<p>YNHHS submitted documentation to OHCA supporting engagement of Independent Consultant, Milliman, in accordance with Condition on 11/29/2016.</p> <p>The Independent Monitor and Independent Consultant currently meet via conference call on a monthly basis.</p>	<p>Pg. 430 (submission email) Pg. 431-454 (documentation)</p>

15-32033-CON Condition 21a	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph 20 above, i.e. physicians providing services through NEMG to L + M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.	12/7/2016	D&T will receive samples of payer submissions for LMMG physicians and obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21a.	YNHHS submitted a Management Representation in accordance with engaging an Independent Consultant to assess Condition 21a to OHCA on 11/29/2016.	Pg. 430 (submission email) Pg. 431-454 (documentation)
15-32032-CON Condition 2a	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph I above, i.e. physicians providing services through NEMG to L+M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.	12/7/2016	Refer to procedures for 15-32033-CON Condition #21a above.	YNHHS submitted a Management Representation in accordance with engaging an Independent Consultant to assess Condition 2a to OHCA on 11/29/2016.	Pg. 430 (submission email) Pg. 431-454 (documentation)
15-32033-CON Condition 21b	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 20: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 20.	12/7/2016	D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21b.	YNHHS submitted a Management Representation in accordance with engaging an Independent Consultant to assess Condition 21b to OHCA on 11/29/2016. 15-32032- CON Condition 2b	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): b. Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 1: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 1.	12/7/2016	Refer to procedures for 15-32033-CON Condition #21b above.	YNHHS submitted a Management Representation in accordance with engaging an Independent Consultant to assess Condition 21b to OHCA on 11/29/2016.	Pg. 430 (submission email) Pg. 431-454 (documentation)
15-32033- CON Condition 15	Within sixty (60) days after the Closing Date, YNHHS shall contract with an Independent Monitor who has experience in hospital administration and regulation. The Independent Monitor shall be retained at the sole expense of YNHHS. Representatives of OHCA and FLIS will approve the Independent Monitor's appointment. The Independent Monitor shall be engaged for a minimum period of two (2) years following the Closing, which may be extended for another year at OHCA's and/or FLIS's discretion. The Independent Monitor will be responsible for monitoring the Applicants' compliance with the Conditions set forth in this Order. The Applicants shall provide the Independent Monitor with appropriate access to L+MH and its applicable records in order to enable the Independent Monitor to fulfill its functions hereunder. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the conditions set forth herein. NOTE: See Condition #33a (appointment of Monitor requirement)	11/7/2016	D&T and YNHHS will execute an Engagement Letter by the required date. A copy of this Engagement Letter will be provided to OHCA.	Engagement Letter signed and submitted to OHCA on 11/7/2016.	Pg. 322-324 (submission email) Pg. 325-372 (documentation)

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 16	The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHS will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.	2 per year; report due 30 days after visit	D&T will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership and review of any documentation requested by D&T. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHS, OHCA, and FLIS. Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.	The first semi-annual site visit was completed on 3/1/2017. A brief report summarizing the site visit was submitted in accordance with Condition 16 on 3/23/2017. D&T submitted report summarizing YNHHS activities to fulfill Conditions from the prior six month period on 04/07/2017.	Pg. 739 (submission email) Pg. 740-754 (documentation)

15-32033-CON Condition 9	Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law, OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Following closing	D&T will obtain copies of the relevant financial assistance policies and confirm that L+MH has adopted YNHHS's financial assistance policies (or policies at least as generous as these policies) using L+M Hospital board resolutions. After verifying that this step has been properly completed, we will confirm that these policies are properly posted on L+MH's website.	YNHHS submitted documentation to OHCA in accordance with Condition 9 including financial assistance policies on 2/21/2017.	Pg. 514 (submission email) Pg. 515-733 (documentation)
15-32033-CON Condition 32e	Affirmation that L+M has adopted the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof.	5/31/2017	For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.	YNHHS submitted documentation to OHCA in accordance with Condition 9 including financial assistance policies on 2/21/2017. If future changes to policies are made, Independent Monitor will obtain YNHHS management representation that such policies are at least as generous as the YNHHS Financial Assistance Program Policies currently in effect.	Pg. 514 (submission email) Pg. 515-733 (documentation)

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 14	For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Following closing	D&T will confirm the appointment of this individual (community representative) to the L+MH Board as evidenced by Board minutes. We will discuss the selection process with Management and document our understanding of the selection process/qualifications of the individual.	Cathy Zall appointed as community representative as a voting member of the L+MH's Board of Directors on 12/8/2016.	Pg. 465 (submission email) Pg. 466-473 (documentation)
15-32033-CON Condition 17	For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHS Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Twice a year	To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm notice of the public meetings is posted with proper notice. D&T will attend the public meetings as part of the Monitor role.	The first Joint Board Meeting of the YNHHS Board and L+MH Board is scheduled for May 18-19, 2017.	N/A
15-32033-CON Condition 26	As described in the Affiliation Agreement, YNHHS is committed to maintaining local governance at L+M. The L+M Board of Directors shall continue as a fiduciary board composed of a majority of members who reside in the communities served by L+M with the only change in composition being the addition of the President/CEO of YNHHS (or his or her designee) serving as an ex-officio member. Each director of the L+M Board of Directors shall have an equal vote. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. Subject to certain reserved powers for YNHHS, the L+M Board of directors will have the right to approve any major new programs and clinical services, or the discontinuation or consolidation of any such programs.	9/28/2016	D&T will obtain and evaluate the Board of Directors bylaws to confirm that L+M Board maintains rights and powers specified in the Order.	YNHHS provided Board of Directors bylaws to OHCA on 9/28/2016.	Pg. 1 (submission email) Pg. 55-66 (documentation)
15-32033-CON Condition 25	L+M shall attain cost savings as a result of the affiliation with YNHHS as described in the CON application.	3/31/2017	D&T will obtain and read YNHHS's reporting created per 15-32033-CON condition #32f.	YNHHS provided reporting to OHCA in accordance with Condition 25 on 3/29/2017.	Pg. 757-758 (submission email) Pg. 759-760 (documentation)

Subject: Docket #15-32033-CON: Condition 21a (or 2a of Docket #15-32032-CON)

In accordance with 15-32033-CON Condition 21a and 15-32032-CON Condition 2a, LMMG and NEMG merged on April 1, 2017. The purpose of this email is to confirm compliance with the above referenced conditions. Further, related to 15-32033-CON Condition 20 and 15-32032-CON Condition 1, L+M and YNHHS agree to maintain the current LMMG commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017.

If you have any questions, please feel free to contact me.

Thank you,
Shraddha

Subject: RE: Agenda for call tomorrow per your request

Hi Karen and Carmen – here is a list of the questions I have/agenda I'd like to cover:

1. With respect to the article Carmen sent on March 24th re: Community Health Needs Assessment and Community Benefits, I wanted to further clarify what procedures you expect the Monitor to perform? Per 15-23022-CON Condition 11, D&T is performing some procedures relative to looking at the CHNA in comparison to Community Benefit and Community Building activities. As you likely know, there are far more needs identified in the CHNA and not all of those are funded each year. I wanted to discuss expectations and make sure that as the Monitor we are thinking about this requirement in the same manner as you/clarify your expectations.
2. With respect to meeting minutes (in general) from public forums – I wanted to clarify with you the level of detail expected/what you are comfortable seeing. In looking at other public forums, I realize the minutes from the community leaders meeting on 1/24 and the public forum (see example as condition 33d) may be more detailed. I am not sure that this level of detail is required or appropriate and wanted some feedback from you so that as the Monitor we handle this appropriately going forward.
3. I wanted to see if you have any questions or comments about the 6-month report submitted on April 7th
4. I wanted to see if you have any questions or comments relative to the Site Visit summary (conditions 16 and 18) that we submitted.

These are the areas I hoped we could cover. Just want to make sure we are handling these various areas in a way that is meeting OHCA's expectations as this is new for all of us.

Thanks,
Kelly

Hi Kim and Karen – hope all is well. I have a few minor questions I'd like to run by you relative to our ongoing Monitor work for YNHHSCL+M. Would you have time Friday morning or perhaps early next week for a 20 – 30 minute call? It's nothing urgent but just a few things I wanted to clarify.

Thanks,
Kelly

ksauders@deloitte.com

Hi Kelly,

Please see below, highlighted in yellow, our responses to your question in reference to Conditions 7, 8, 25, 32.f and 7.c, Docket Numbers 15-32033 and 15-32032.

As you could see, for some of them, we still need further clarification from the Applicants.

Conditions from 15-32033 (hospital level affiliation)

7. ... YNHHSCL+M shall submit to OHCA a report on the capital investments (“Capital Investment Report”) it has made in L+M and its affiliates from the \$300M Commitment Amount... For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 – September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016. The reports shall be signed by L+MH’s or L+M’s Chief Financial Officer.
This report should include any and all capital investments YNHHSCL+M made in the L+M system, including out of state services/entities.
8. ... YNHHSCL+M shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th, beginning November 30, 2016....
Would this information be able to be provided for both L+MH and L+M with two columns, one as a total (total L+MH and total L+M) and a column without any out of state locations (L+MH in Connecticut and L+M in Connecticut)
25. L+M shall attain cost savings as a result of the affiliation with YNHHSCL+M as described in the CON application. **N/A in terms of the question.**

- 32.f. A detailed and comprehensive document showing a five-year plan (the “plan”) to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M’s integration with and adoption of YNHHS information technology systems and platforms, YNHHS’s supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M’s reduced cost of capital, and L+M’s participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.
- i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities;
N/A – this is a general narrative about progress of implementation
 - ii. A report identifying L+M and L+MH cost saving totals since the Closing Date ... YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories;
 - iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA’s HRS Report 100 and Report 150 or successor reports; and
 - iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA’s HRS Report 175 or successor report.
As with #8, would this information be able to be provided for both L+MH and L+M with two columns, one as a total (total L+MH and total L+M) and a column without any out of state locations (L+MH in Connecticut and L+M in Connecticut)/

Conditions from 15-32032 (physician level affiliation)

- 7.c. A detailed and comprehensive document showing a five-year plan (the “plan”) to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M’s integration with and adoption of YNHHS information technology systems and platforms, YNHHS’s supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M’s reduced cost of capital, and L+M’s participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA’s HRS Report 100 and Report 150 or successor reports; and
Would this information be able to be provided for these providers, as a total and with just Connecticut service locations?

Thanks,
Carmen

Subject: RE: Time sensitive question - YNHSC/L+M Monitor - 6 month report
Importance: High

Good morning Kim, Karen and Carmen-

In working with YNHSC to review their upcoming submissions, a question has come up.

Question: for reporting due from YNHHS on 5/31/2017 (the six month report elements represented, as appropriate, by 15-32033-CON Condition 32f, 15-32032-CON Condition 7c, 15-32033-CON Condition 25, 15-32033-CON Condition 8, 15-32033-CON Condition 7), does data reported for L+M and LMMG need only represent financial information **from services and entities residing in Connecticut?**

If you could please confirm by Thursday, 5/18, that would support YNHHS's completed progress on their May submission.

Thanks,
Kelly

Attached please find documents submitted to comply with Conditions of Docket #15-32033-CON: "Transfer of Ownership of Lawrence + Memorial Corporation to Yale New Haven Health Services Corporation" and Docket #15-32032-CON: "Transfer of Ownership of Group Practice by the Merger of L+M Physician Association into Northeast Medical Group" for the 6-month reporting period ending March 31, 2017.

In the first six months of the affiliation between L+M Corporation (L+M) and Yale New Haven Health System (YNHHS), L+M has seen a tremendous improvement in financial performance. Leading up to the affiliation, L+M experienced declining financial performance, culminating in a \$26 million loss in FY 2016. Because of the affiliation with YNHHS, L+M has benefited from numerous cost savings initiatives, clinical, strategy and operational investment, and efficiency process improvements. L+M is in a position to reduce its operating loss in FY 2017. This enhanced financial performance will support additional clinical investments in the region to produce greater depth and breadth of services to the people of Eastern Connecticut and Western Rhode Island.

The compliance documents attached address the following Conditions for Docket #15-32033-CON and Docket #15-32032-CON as noted:

- Condition 8 – Financial Measurement Report
- Conditions 7/32b – Investments Report
- Conditions 25, 32f (i and ii) (or 7c of Docket #15-32032-CON) – Savings Report
- Condition 32f (iii and iv) (or 7c of Docket #15-32032-CON) – Financial Statements
- Conditions 18/32a – Affirmation regarding retention of Services
- Conditions 20a/32c (or 1/7a of Docket #15-32032-CON) – Affirmation regarding Payer Contracts – Hospital
- Conditions 20b/32c (or 1 of Docket #15-32032-CON) – Affirmation regarding Payer Contracts – Foundation
- Conditions 27, 28, 29, 30, 32g (or 6 of Docket #15-32032-CON) – Affirmations regarding HR policies
- Conditions 24/32d (or 5/7b of Docket #15-32032-CON) – Affirmation regarding Physician Offices
- Condition 32e – Affirmation regarding Charity Care Policies

Submitted to Comply with Docket # 15-32033-CON: Condition 8

**Financial Measurements/Indicators
Semi-Annual Period: 10/1/16 – 3/31/17**

OHCA Condition is as follows:

8. For 3 years following the Closing Date, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than 2 months after the end of each semi-annual period. Due dates are May 31st and November 30th. The following financial measurements/indicators should be addressed in the report:

- A. Operating performance
 - 1. Operating margin
 - 2. Non-operating margin
 - 3. Total margin
- B. Liquidity
 - 1. Current ratio
 - 2. Days cash on hand
 - 3. Days in net accounts receivables
 - 4. Average payment period
- C. Leverage and capital structure
 - 1. Long-term debt to equity
 - 2. Long-term debt to capitalization
 - 3. Unrestricted cash to debt
 - 4. Times interest earned ratio
 - 5. Debt service coverage ratio
 - 6. Equity financing ratio
- D. Additional statistics
 - 1. Income from operations
 - 2. Revenue over/(under) expense
 - 3. Cash from operations
 - 4. Cash and cash equivalents
 - 5. Net working capital
 - 6. Free cash flow (and the elements used in the calculation)
 - 7. Unrestricted net assets/retained earnings
 - 8. Bad debt as % of gross revenue
 - 9. Credit ratings (S&P, Fitch, or Moody's)

Narrative for Condition 8

L+M Corporation and Subsidiaries (L+M) is a healthcare system that provides a wide array of services throughout the region. The Corporation includes Lawrence + Memorial Hospital (L+MH), L&M Physician Association Inc., L&M Systems, Inc., VNA of Southeastern Connecticut, L+M Healthcare, L+M Indemnity Ltd, and LMW Healthcare Inc. (Westerly Hospital).

The Financial Measurements/Indicators Report has been submitted for L+M Corporation and for L+MH. Financial reporting and statistics included in this submission are based on mid-year information updated through March 31, 2017. All information is subject to audit.

As illustrated in the Financial Measurements/Indicators Report provided for the month ended March 31, 2017 and for the year-to-date periods ended March 31, 2017 and 2016, the affiliation of L+M with YNHHS has resulted in a positive financial outcome. A considerable number of the financial measurements / indicators for both the Corporation and L+MH have improved over the past six months since the affiliation. Specifically, total margin has turned profitable and income from operations has improved significantly. Additionally, it should be noted that these positive results for L+M were achieved while still including the operations of the Lawrence + Memorial Physician Association, which was not merged into the Northeast Medical Group (NEMG) until April 1, 2017.

FINANCIAL MEASUREMENTS/INDICATORS REPORT FOR LAWRENCE + MEMORIAL HEALTHCARE*

Docket # 15-32033-CON: Condition 8

Financial Measurement / Indicators	Month Ended 3/31/17	6 Months Ended 3/31/17	6 Months Ended 3/31/16
A. Operating Performance			
1. Operating Margin	2.58%	-2.28%	-5.80%

6. Free Cash Flow (and the elements used in the calculation)	\$ 88,067,276	\$ 79,064,668	N/A**
7. Unrestricted Net Assets/Retained Earnings	76.72%	76.72%	78.21%
8. Bad Debt as % of Gross Revenue	4.53%	4.05%	2.91%
9. Credit Ratings (S&P, Fitch or Moody's)	S&P BBB+/Developing	S&P BBB+/Developing	S&P BBB+/Developing

This data has been derived from internally generated (unaudited) financial statements that are prepared and presented, in all material aspects, in accordance with the annual audited financial statements.

* The statistics presented above represent data for Lawrence + Memorial Hospital only.

** Current month Cash from Operations is not a statistic that can be calculated. Data for 6 months ended 3/31/16 is not available because it was not L+M's practice to prepare a stand-alone balance sheet for the Hospital except at year-end during the audit process.

Reporting periods: 10/1/16-3/31/17; 4/1/17-9/30/17; 10/1/17-3/31/18; 4/1/18-9/30/18; 10/1/18-3/31/19; 4/1/19-9/30/19

Report due to OHCA 5/31 and 11/30 each year. Due internally to Regulatory 30 days before.

Submitted to Comply with Docket # 15-32033-CON: Conditions 25, 32f(i), and 32f(ii) and Docket # 15-32032-CON: Condition 7c

**Synergy Savings Report
Semi-Annual Period: 10/1/16 – 3/31/17**

OHCA Conditions are as follows for Docket # 15-32033-CON:

25. L+M shall attain cost savings as a result of the affiliation with YNHHS as described in the CON application.

32f(i). L+M and YNHHS shall provide a narrative update on the progress of the implementation of the five-year plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives.

32f(ii). L+M and YNHHS shall provide a report identifying L+M and L+MH cost savings totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, F, G, H, I, J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these expense categories.

OHCA Condition is as follows for Docket # 15-32032-CON:

7c. YNHHS and L+M shall submit a detailed and comprehensive document showing the five-year-plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices cross LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

Narrative for Docket # 15-32033-CON: Conditions 25, 32f(i), and 32f(ii) and Docket # 15-32032-CON: Condition 7c

As outlined in the CON document for Docket # 15-32033-CON, L+M and YNHHS anticipated extensive cost savings as a result of the affiliation stemming from supply chain discounts and efficiencies, and economies of scale related to IT, finance, insurance, equipment, supplies, and other administrative services.

In the March 7, 2017 filing with OHCA, L+M and YNHHS projected \$4,138,484 in savings for FY 2017, which translates to a six month saving estimate of \$2,069,242. Actual cost savings achieved in the first six months of FY 2017 are provided in the table below according to the major expense categories outlined by OHCA and Report 175.

Categories	Projected Savings for the Period*	Actual Savings for the Period*	Variance
Wages	\$800,700	\$1,103,133	\$302,433
Fringe Benefits	\$141,840	\$330,536	\$188,696
Contractual Labor Fees	-	-	-
Medical Supplies and Pharmaceuticals	\$670,000	\$679,868	\$9,868
Depreciation/Amortization	-	-	-
Interest Expense	-	-	-
Malpractice Expense	-	-	-
Utilities	-	\$157,054	\$157,054
Business Expense	\$456,702	\$805,446	\$348,745
Other Operating Expense	-	-	-
Total Synergies	\$2,069,242	\$3,076,037	\$1,006,795

*note: semi-annual reporting period: 10/1/16 – 3/31/17

L+M's actual savings have surpassed those projected for the first six months of FY 2017 by over \$1 million. Actual savings exceeded projected in every major expense category where savings were anticipated. Below includes a brief narrative for the relevant major expense categories with additional detail provided in the Tables that follow.

1. Wages and Fringe Benefits

Corporate services integration in IT, finance, and other administrative areas were anticipated to be the primary driver of savings in the wages and fringe benefit expense category.

Through 3/31/17, savings in these areas have been lower than expected due to slower than anticipated integration in some areas, and post-affiliation operational decisions to maintain, in-house, select business units. However, in the first six months of FY 2017, L+M was able to exceed projected savings in wages and fringe benefits overall by nearly \$500,000 through savings in other areas. Management of vacancies and attrition to achieve efficiencies was a key focus for L+M and OHCA, as outlined in the Conditions in the Agreed Settlement. A YNHHS vacancy review process and management program newly instituted at L+M has resulted in significant savings for L+MH. LMMG also experienced savings through provider attrition.

2. *Medical and Supplies Expense*

Actual savings within the medical supplies and pharmaceutical expense category were in-line with those projected. As anticipated, much of the savings were due to L+M becoming part of the system-wide group purchasing organization (GPO) since the affiliation and receiving reduced pricing under system contracts. The impact was experienced in a number of areas including surgical services, pharmacy, ancillary services, and cardiology/interventional radiology. L+M was also able to save on medical equipment service contracts through system pricing.

3. *Utilities*

Although unanticipated, L+M achieved energy savings since coming into the YNHHS system by renewing its utilities contract to reduce spending on electricity.

4. *Business Expense*

Within the business expense category, L+M and YNHHS anticipated savings as a result of reduced consulting fees and expenses from outside purchases services. Since the affiliation, L+M has been able to use system resources and save in these areas through a reduction in outside legal contract services, marketing agency services, and physician recruitment agency services. In addition, other opportunities have emerged and L+M has experienced savings due to a reduction in travel expenses by personnel; GPO pricing in IT, non-clinical functions, and facilities; better insurance and treasury options that reduced cost, yet improved coverage; and reduced bank fees through adoption of system bank fee arrangements.

L+M and YNHHS continue to explore opportunities for additional savings in the above major expense categories and other areas.

Detailed Narrative Update on the Implementation Progress of the Synergy Savings Plan
Docket #15-32033-CON: Condition 25, 32f(i), and 32f(ii) and Docket #15-32032: Condition 7c
Semi-Annual Reporting Period: 10/1/16 - 3/31/17

COST SAVINGS INVESTMENT	DESCRIPTION OF AND RATIONALE FOR PROJECT	SAVINGS AMOUNT	APPLICABLE EXPENSE CATEGORY
Supply Chain / Information Technology Services (ITS) Savings			
Supply Chain Savings (including ITS)	Since the affiliation, L+M has become part of the system-wide GPO (group purchasing organization) and began receiving more optimal pricing under the YNHHS contracts or through combined volume tiers. Supply chain savings were experienced in a number of areas including ITS, surgical services, pharmacy, ancillary services, and cardiology/interventional radiology. L+M was also able to achieve savings on medical equipment service contracts through system pricing.	\$895,853	Medical and Supplies Expense and Business Expense
Clinical and Business Practices Integration Across LMC/YNHHS and LMMG/NEMG			
Labor - Attrition, Integration Synergies, and Vacancy Management	To increase savings, FTEs that remained open during the entire prior 12 month period were not filled - the goal being to accomplish labor savings without impacting currently employed staff. LMMG also achieved savings through provider attrition. In addition, a number of positions within Corporate Services were realigned to better employ existing staff and capabilities across the company while aligning functions and removing redundancies. Also, after the affiliation, the standard practice of "Vacancy Review" employed at YNHHS (i.e., review by a committee of senior HR and operational leadership of all vacant positions before posting for hire) was implemented at L+M. This process enabled L+M to successfully redesign and better manage the staffing and types of labor in various areas to achieve savings without impacting currently employed staff.	\$1,433,668	Wages and Fringe Benefits
Legal Services	As part of the affiliation, YNHHS was able to absorb work previously completed by outside legal firms for both L+M and LMMG utilizing the YNHHS in-house legal team. This resulted in costs savings for L+M.	\$281,239	Business Expense
Banking, Insurance, Treasury Services	As a result of the affiliation, L+M was able to use YNHHS's existing banking, insurance, and treasury options to negotiate better arrangements that combined to improve coverage, reduce costs and increase operational efficiency.	\$207,545	Business Expense
Marketing Services	Prior to the affiliation, L+MH used the services of an outside creative agency for advertising and marketing services. Since the affiliation, this work has been incorporated into work already being completed at the YNHHS system level.	\$38,396	Business Expense
Travel Expense	An initiative at L+M to create more visibility and to target reduction of traveling expense incurred by personnel resulted in decreases in cost.	\$52,738	Business Expense
Provider Recruitment Expense	As part of the affiliation with NEMG, LMMG was able to reduce contractual service expenses used for provider recruitment.	\$9,544	Business Expense

**Investment Report
Semi-Annual Period: 10/1/16 – 3/31/17**

OHCA Conditions are as follows:

7. Within 180 days following the Closing Date and thereafter until the capital commitment is satisfied, YNHHSC shall submit to OHCA a report on the capital investments it has made in L+M and its affiliates from the \$300M commitment amount. The investment report shall include the following in a format to be agreed upon:

- a. A list of the capital expenditures that have been made in the prior 180 days with descriptions of each associated project; and
- b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and
- c. The funding source of the capital investment indicating whether it was drawn from operating revenue, capital contributions from YNHHSC or another source and, if funding was drawn from another source, indicating the source.

32b. L+M and YNHHSC shall provide a narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.

Narrative for Conditions 7 and 32b

L+M and YNHHS have pledged to make total commitments of \$300 million in eastern Connecticut and western Rhode Island over 5 years. Anticipated resource commitments highlighted in the L+M/YNHHS Affiliation Agreement and strategic plan submitted to OHCA in January 2017 included investments in: primary care clinical services, specialty clinical services, ambulatory services, post-acute services, infrastructure within L+M facilities, information technology, population health, branding, operational improvements, and community need/community building. In the first six months of FY 2017, L+M and YNHHS have made or committed-to investments totaling \$23,678,984 across these categories. Below includes a brief narrative for each strategic investment area with additional detail provided in the Tables that follow.

1. Primary Care Clinical Services

Recruitment of primary care providers is a priority for L+M to ensure adequate access and meet demand. A number of providers have been recruited in the first six months of FY 2017, with start dates after 3/31/17.

2. Specialty Clinical Services

L+M and YNHHS have made a solid commitment to enhance clinical services in the communities served by L+M to increase quality and improve access. The strategic plan highlighted a number of specialty areas that are a recruitment focus for L+M. In the first six months of FY 2017, L+M and YNHHS expanded clinical services in neurosurgery, spine surgery, oncology, and psychiatry, all areas required per the strategic plan, and noted in the Affiliation Agreement. In addition, providers were added in general surgery, cardiology, obstetrics, and crisis intervention.

3. Ambulatory Services

There were no investments in ambulatory services in the first six months of FY 2017. L+M is currently executing in this area against the plan.

4. Post-Acute Services

There were no investments in post-acute services in the first six months of FY 2017. L+M is currently executing in this area against the plan.

5. Infrastructure within L+M Facilities

The affiliation with YNHHS has allowed L+M to undertake much-needed facilities and infrastructure projects that were delayed due to the financial pressures experienced at L+MH, L+MMG, and Westerly Hospital and the need to preserve liquidity and conserve cash. With a stronger financial foothold resulting from the affiliation, L+M has been able to move forward with several delayed projects including purchase of new beds, security systems, HVAC renovations, and other minor and major facility improvements.

6. Information Technology

The build and implementation of the Epic EMR system throughout L+M facilities has been a major investment for L+M to improve quality of care, increase access to patient data, and

increase coordination of systems (e.g., supply chain, finance, HR) to effectively manage operations. In addition to Epic, capital has also been expended on access control initiatives for enhanced employee and patient safety, interfaces, and radiology systems.

7. *Population Health*

Population health infrastructure and development of risk-contracting capabilities were key investments outlined in the strategic plan and Affiliation Agreement. Work is in-process to improve physician engagement and initiate clinical practice guidelines.

8. *Branding*

YNHHS has committed to rebranding L+M and its entities to enhance the identity of the organizations with Yale New Haven Health. A considerable investment has been made in website design to better connect patients across the system and improve communication regarding services/physicians and locations. Advertising the affiliation through print, digital, and radio ads has enhanced communication to patients and physicians regarding the health care resources available in the eastern Connecticut and western Rhode Island regions. In addition, signage has been updated with new logos that better reflect the affiliation.

9. *Operational Improvements*

L+M and YNHHS have undertaken a number of operational improvement initiatives in structures and processes in an effort to effectively provide high-quality, safe patient care. Such investments include:

Clinical Technologies

L+M has committed to enhancing and improving the quality of care provided to L+M patients. The latest technology including tomosynthesis units for breast cancer early detection is planned for five L+M sites. Also, the L+M Cancer Center in Waterford, CT has renovated its pharmacy to adhere to current and upcoming regulatory requirements and ensure the safety of patients. Other clinical investments included new equipment in radiology, anesthesia, and inpatient units.

Other

Since the affiliation, YNHHS personnel in corporate services departments (e.g., internal consulting group, IT, finance) have spent a significant amount of time and effort integrating L+M with YNHHS and identifying and achieving savings, standardizing processes, implementing process improvement initiatives, and merging systems. This work was imperative to achieve the savings and complete the resource investments to-date.

10. *Community Need/Community Building*

L+MH has enhanced its investment in community needs/community building initiatives focusing on the priorities identified in the most recent community health needs assessment (CHNA). There are two new projects underway. In accordance with the strategic plan, the first addresses behavioral health and substance use abuse whereby L+MH is funding certification programs for local recovery providers so they may be educated on and meet national standards for quality and safety. The second investment addresses social

determinants of health in the City of New London. Proposed interventions to address social determinants will be generated for two distressed communities leveraging residents' input.

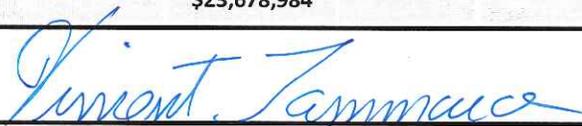

L+M and YNHHS continue to make progress towards achieving the commitments outlined in the Affiliation Agreement and strategic plan.

SUMMARY of Resource Commitment and Strategic Plan Accomplishments: Docket # 15-32033-CON, Condition 7/32b

Resource Commitment Summary Made to Strategic Investments		Expenditure Amounts						Total
		10/1/16- 3/31/17	4/1/17- 9/30/17	10/1/17- 3/31/18	4/1/18- 9/30/18	10/1/18- 3/31/19	4/1/19- 9/30/19	
1. Primary Care Clinical Services: Expansion of primary care network focusing on geriatric, general internal medicine, including the recruitment of 8 primary care physicians in Eastern CT. The primary care sites will ensure primary care availability as the population ages and physicians retire. Many sites will be established as medical neighborhoods, allowing easy access to part-time and full-time specialists.	Eastern CT	\$0					\$0	
	Western RI	\$0					\$0	
2. Specialty Clinical Services: Increased access to specialists within Eastern CT, including pediatrics; multi-disciplinary muscular-skeletal services, including orthopedics, neurosurgery, spine, physiatry; behavioral health, including psychiatrists, psychologists, etc.; vascular and cardiac services; enhanced obstetrics and maternal fetal medicine; expanded oncology services; neuromuscular and stroke programs; endocrinology/thyroid services; general surgery and specialized internal medicine. These part-time and full-time specialty services will be increased, taking advantage of primary care referrals and using technology to ensure access throughout the region. In addition, telestroke, tele-ICU and tele-ED coverage will be continued at L+M.	Eastern CT	\$1,625,688					\$1,625,688	
	Western RI	\$0					\$0	
3. Ambulatory Services: Expansion of laboratory, diagnostic, urgent care, ambulatory surgery centers to enhance access to ancillary services in the region.	Eastern CT	\$0					\$0	
	Western RI	\$0					\$0	
4. Post Acute Services: Creation of an integrated network of post-acute services to manage care across the continuum in order to reduce the total cost of care for community residents.	Eastern CT	\$0					\$0	
	Western RI	\$0					\$0	
5. Infrastructure within LMHC Facilities: Renovations and infrastructure repair to hospital.	Eastern CT	\$874,585					\$874,585	
	Western RI	\$1,086,849					\$1,086,849	

SUMMARY of Resource Commitment and Strategic Plan Accomplishments: Docket # 15-32033-CON, Condition 7/32b

Resource Commitment Summary Made to Strategic Investments		Expenditure Amounts						Total
		10/1/16-3/31/17	4/1/17-9/30/17	10/1/17-3/31/18	4/1/18-9/30/18	10/1/18-3/31/19	4/1/19-9/30/19	
6. Information Technology: Investment in Epic throughout L+M facilities, LMMG and independent physicians. In addition, the business systems will be replaced and fully integrated with Yale New Haven Health. Telehealth services will help reduce travel to YNHH.	Eastern CT	\$9,934,718						\$9,934,718
	Western RI	\$1,569,119						\$1,569,119
7. Population Health: Development of risk contracting capabilities and participation in the YNHHS Population Health infrastructure and Clinically Integrated Network.	Eastern CT	\$204,896						\$204,896
	Western RI	\$44,408						\$44,408
8. Branding: Re-branding of all facilities and services as Yale New Haven Health to enhance the identity of the organizations with Yale New Haven Health.	Eastern CT	\$412,301						\$412,301
	Western RI	\$412,301						\$412,301
9. Operational Improvements: Operational improvements in structures and processes to effectively provide high quality, safe patient care.	Eastern CT	\$5,433,462						\$5,433,462

Primary Care Clinical Services									
Primary Care Network Expansion	Recruitment of primary care physicians is a priority for L+M to ensure adequate access and meet demand. Several primary care providers have been recruited to-date (with start dates after 3/31/17).	n/a							
Specialty Clinical Services									
Specialty Services Access	Recruitments within neurosurgery, oncology and psychiatry were made to increase access to these services in the L+M service area. Additions in general surgery, cardiology, and obstetrics/midwifery were also made to replenish the medical staff.	\$1,625,688	10/01/16	03/31/17	n/a	YNHHS or Baseline Cash Flow	\$1,250,946	\$0	\$374,742
Ambulatory Services									
n/a	There were no investments made in ambulatory services in the first six months of FY 2017. L+M is currently executing in this area against the plan.	n/a							
Post Acute Services									
n/a	There were no investments made in ambulatory services in the first six months of FY 2017. L+M is currently executing in this area against the plan.	n/a							
Infrastructure within LMHC Facilities									
Investments in Infrastructure	Prior to the affiliation with YNHHS, L+MH and Westerly Hospitals (WH) were under growing financial pressure, and capital spending during that time was severely limited. Following the affiliation, significant catch-up was required to replenish aging and end-of-life equipment as well as perform necessary facility renovations. Capital expenditures for infrastructure during the time of the reporting period were made for new beds, repairs to parking garage, rebuild of elevators, security systems, and HVAC systems. In addition, the LMMG General Surgery practice was relocated to the L+MH main campus to enhance availability and improve timeliness of services for patients and physicians.	\$1,961,434	10/01/16	03/31/17	n/a	L+M Baseline Cash Flow	\$650,457	\$1,086,849	\$224,128

Information Technology									
Epic System - Build and Installation	Capital investment related to the development and build of the Epic EMR system that went live at L+M and WH on 1/20/17 included software licenses; customization and development of interfaces to ensure integration with other 3rd party software; training time (prior to go-live) for clinicians and other personnel on using the new system; support during the actual go-live from Epic consultants; and hardware, including new servers. Replacing the older EMR systems and moving to the fully-integrated Epic system, had the advantage of improving quality of care by providing best practice protocols and enhancing patient engagement via patient portals, "MyChart", and other patient and physician-friendly features. By moving to Epic as part of a large System, L+M was able to mitigate risk by relying on the invaluable experience and expertise that YNHHS brought to the installation.	\$10,808,478	10/01/16	03/31/17	n/a	YNHHS or Baseline Cash Flow	\$9,398,203	\$1,405,457	\$4,818
Infor (ERP) Project	Investments were made at L+M for development, customization and installation of a new ERP (Enterprise Resource Planning) system to replace its legacy system. Incorporating Supply Chain, General Finance, and Human Resources functions within a single system (that also includes budgeting, decision support, and management reporting) is fundamental to effectively running the business. YNHHS has a long track record of leading the industry in these areas by innovatively leveraging these reporting capabilities to drive quality, patient engagement and physician efficiencies. While L+M is still in the building stages, progress toward full integration across the system is underway and remains a key corporate objective.	\$355,649	10/01/16	03/31/17	n/a	YNHHS	\$296,046	\$59,603	\$0
Other Information Technology Projects	Capital investments for other IT projects at L+M included Access Control Plan Implementation; Laboratory EMR Results Interfaces; and RIS/PACS Implementation, among other items. These systems - specifically integrating critical patient tests, imaging, and other diagnostics with the broader medical record system - were on the front line of improving access, optimizing care delivery, and coordinating patient care across the continuum.	\$339,710	10/01/16	03/31/17	n/a	L+M Baseline Cash Flow	\$216,085	\$104,059	\$19,566
Population Health									
Population Health Initiatives	As a result of the affiliation, L+M is able to move forward and participate in the YNHHS Population Health infrastructure and clinically integrated network. Work is in-process to improve physician engagement and initiate clinical practice guidelines.	\$249,304	10/01/16	03/31/17	n/a	YNHHS	\$204,896	\$44,408	\$0
Branding									
Advertising, Signage, Website	Investments were made in converting existing external and internal signage throughout L+M to formally recognize the affiliation and rebrand all facilities and services as Yale New Haven Health. A considerable investment was made in the website design to better connect patients across the system and improve communication regarding services, physicians and locations. Advertising the affiliation through print, digital, and radio ads has enhanced communication to patients and physicians regarding the health care resources available in the region.	\$824,603	03/31/17	02/28/17	n/a	YNHHS	\$412,301	\$412,301	\$0

DETAILED Strategic Plan Accomplishments and Resource Investment Narrative: Docket # 15-32033-CON, Condition 7/32b

Operational Improvements									
Corporate Services Support	Significant resources have been provided to L+M by YNHHS Corporate services departments (i.e., Internal Consulting Group, IT, Finance, etc.) over the past 6 months. As an integral part of the underlying value of the affiliation, Corporate Services personnel continue to assist L+M in identifying synergies, achieving savings, standardizing methodologies, introducing procedures, implementing Epic and other IT systems, and generally integrating L+M into the System.	\$3,079,509	01/01/17	03/31/17	n/a	YNHHS	\$2,530,967	\$548,542	\$0
Clinical Technology Investments	Investments in clinical technology were made at L+M to drive operational improvements including new diagnostic equipment (Tomosynthesis) for early breast cancer detection; state-of-the-art pharmacy at the L+M Cancer Center to adhere to regulatory requirements and enhance patient safety; new equipment on inpatient units to assure patient care quality; and other improvements in structures and processes to effectively provide high-quality, safe patient care.	\$4,379,712	01/01/17	03/31/17	n/a	L+M Baseline Cash Flow	\$2,902,495	\$1,477,217	\$0
Community Need / Community Building									
Recovery House Volunteer Certification Program in the City of New London	L+MH's expenditure to Community Speaks Out (a non-profit organization) supports a training program for New London sober houses who volunteer to meet national standards for quality and safety identified by the National Association of Recovery Residences. The rationale for this project is to ensure consistent quality at recovery residencies and all aspects of operations including health, safety, ethics, administrative practices, maintenance of a recovery support environment, and good neighbor practices. There is a demonstrated need for well-managed recovery housing in the City of New London.	\$4,898	2/17/17	n/a	n/a	L+M Baseline Cash Flow	\$4,898	\$0	\$0
City of New London Neighborhood Development	L+MH's expenditure supports neighborhood development strategies in two distressed areas of the city of New London. The neighborhoods will be identified through mapping of poverty and low educational attainment. Residents will then be engaged to generate input as to social determinant needs as well as proposed interventions. The rationale for this project is to address the health needs identified by the most recent CHNA and 2016 Community Health Improvement Plan (CHIP), including social determinants of health.	\$50,000	3/27/17	n/a	n/a	L+M Baseline Cash Flow	\$50,000	\$0	\$0

* Financial information is based on unaudited financial statements.
 ** Based on % personnel time estimated by HSC department directors multiplied by YTD March 2017 departmental expense; gathering of statistics is still in process.
 Detailed narrative due to OHCA with summary page semi-annually 60 days following 3/31/17; 9/30/17; 3/31/18; 9/30/18; 3/31/19; 9/30/19 (3 years) and annually until end of FY 2021 (9/30/21)
 Due internally to Regulatory 30 days prior to OHCA due date.

Submitted to Comply with Docket # 15-32033-CON: Conditions 32f(iii) and 32f(iv) and Docket # 15-32032-CON: Condition 7c

**Financial Statements
Semi-Annual Period: 10/1/16 – 3/31/17**

OHCA Conditions are as follows for Docket # 15-32033-CON:

32f(iii). YNHHS and L+M shall submit a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

32f(iv). YNHHS and L+M shall submit, for L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.

OHCA Condition is as follows for Docket # 15-32032-CON:

7c. YNHHS and L+M shall submit a detailed and comprehensive document showing the five-year-plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices cross LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

Narrative for Docket # 15-32033-CON: Conditions 32f(iii) and 32f(iv) and Docket # 15-32032-CON: Condition 7c

In the first six months of the affiliation between L+M Corporation (L+M) and Yale New Haven Health System (YNHHS), L+M has seen an improvement in financial performance. L+M is on-track to improve its operation margin and total margin compared to FY 2016 and its balance sheet has remained stable.

Lawrence + Memorial Corporation and Subsidiaries *
Statement of Cash Flows

For the Six Months Ended
March 31, 2017

Cash flows from operating activities		
Change in net assets	\$	3,443,153
Adjustments to reconcile change in net assets to net cash provided by operating activities:		
Depreciation & amortization		15,576,047
(Increase) decrease in funds held in trust by others		79,370
Decrease (increase) in contributions receivable		979,118
Net unreal & real (gain) loss on investments		8,100,170
Provision for bad debts		8,483,765
Changes in operating accounts:		
Patient accounts receivable, net		(13,907,344)
Other receivables		6,490,991
Inventories		(22,083)
Prepaid expenses		299,262
Accounts payable		(6,237,205)
Accrued vacation & sick pay		(851,038)
Salaries, wages, payroll taxes		(491,061)
Due to affiliates		(3,050,261)
Due to third parties		(5,896,803)
Due to MCIC		(16,122,688)
Other liabilities		(15,045,681)
Net cash used in operating activities		(18,172,288)
 Cash flows from investing activities		
Debt service fund		(2,632,652)
Purchase of property, plant and equipment, net		(9,370,111)
(Increase)/decrease in investment		34,027,728
Net cash provided by investing activities		22,024,965
 Cash flows from financing activities:		
Principal payments on long term debt		(857,900)
 Net increase in cash and cash equivalents		2,994,777
 Cash at beginning of year		18,792,715
 Cash at end of year	\$	21,787,492

* The statistics presented above represent data for Lawrence + Memorial Corporation and Subsidiaries (L+M). L+M is a healthcare system that provides a wide array of services throughout the region, and includes: Lawrence + Memorial Hospital; L&M Physician Association, Inc.; L&M Systems, Inc.; VNA of Southeastern Connecticut; L+M Healthcare; L+M indemnity Ltd; and LMW Healthcare Inc. (Westerly Hospital).

This data has been derived from internally generated (unaudited) financial statements that are prepared and presented, in all material aspects, in accordance with the annual audited financial statements.

Note: Six month data for FY 2017 provided as requested per applicable Condition

Subject: RE: Yale New Haven Health and Lawrence + Memorial Hospital - Invitation to July 6th public meeting

As part of Yale New Haven Health and Lawrence + Memorial Hospital's ongoing commitment to the community and in accordance with the conditions of regulatory approvals, Yale New Haven Health and Lawrence + Memorial Hospital will be hosting an open public meeting on July 6, 2017 at 6:00 pm at the Holiday Inn in New London.

At this meeting, Yale New Haven Health and Lawrence + Memorial Hospital will be sharing information about the progress of the affiliation over the course of the last nine months. Your input and feedback is welcome. Notice of this meeting has been published and will also be available on L+MH's website.

Please let me know if you have any questions. There is no need to RSVP.

Regards,

Kelly Sauders

Subject: FW: Six-Month Independent Monitor Report for docket numbers 15-32032-CON and 32033-CON
Attachments: Deloitte Independent Monitor Year 1 Six Month Report 04 07 2017.pdf

Hi Kelly – I have a question for you to look into regarding the submission of material in response to **Condition #6** of Docket Number 15-32033-CON. In your report filed on 4/7th, you indicate that the first filing for Condition #6 was filed on 3/7/2017, which is correct, that is the date it was submitted (Total Price by Top 25 most frequently utilized services table). However, subsequent to the filing on 3/7th we spoke in a conference call that this table is incorrect as it reflects a Fiscal Year (10/1/2015 to 9/30/2016) which is not in compliance with the condition as written. We indicated in the conference call that the first (baseline) filing is prior to the affiliation date and says in the Condition, September 1, 2015 – August 30, 2016. I don't see a refiling of this material in any of the subsequent emails for this docket number. Can you look into that and have it filed with OHCA using the correct dates at the earliest convenience.

Thank you. Karen

Sincerely,

Karen Roberts

YNHHSC Independent Monitor Review
Report for Six Month Reporting Period
Ending March 31, 2017

April 7, 2017

This document was created pursuant to the engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”) and Yale New Haven Health Services Corporation and its subsidiaries, and D&T understands that this document will be shared with the Connecticut Office of Health Care Access (“OHCA”) in its capacity as regulator. This document is not intended to be and should not be relied on by any other person or entity. D&T and its affiliated and related entities shall not be responsible for any loss sustained by any person or entity that relies on this document.

April 7, 2017

Ms. Gayle Capozzalo
Executive Vice President and Chief Strategy Officer
Yale New Haven Health
789 Howard Avenue
New Haven, CT 06519

Dear Ms. Capozzalo,

Re: Deloitte & Touche LLP Six-Month Report as Independent Monitor per Docket Numbers 15-32032-CON and 15-32033-CON

In accordance with our engagement letter dated November 7, 2016 (“Engagement Letter”), the attached report summarizes the findings from the work steps performed by Deloitte & Touche LLP (“D&T”), as requested by Yale New Haven Health (“YNHHSC”), with respect to the Independent Monitor role for the 6-month reporting period ending March 31, 2017.

Pursuant to the Engagement Letter, YNHHSC agrees that any deliverables provided to YNHHSC by D&T may be disclosed to the State of Connecticut’s Office of Health Care Access (“OHCA”) to the extent required by such regulator in connection with their regulatory oversight.

The services were performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants (“AICPA”). The services did not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, D&T does not express an opinion or any other form of assurance as a result of performing the services.

Sincerely,

Deloitte & Touche LLP

I. Detailed Observations Table

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 4	<p>Within one hundred and eighty (180) days following the Closing Date of 9/8/16, YNHHS shall submit a plan demonstrating how health care services will be provided by L+MH for the first three years following the Transfer Agreement, including any consolidation, reduction, or elimination of existing services or introduction of new services (the "Services Plan"). The Services Plan will be provided in a format mutually agreed upon by OHCA and YNHHS. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p> <p>NOTE 1: This applies only to Eastern Connecticut which has been defined in the Affiliation Agreement as Tolland, Windham and New London counties.</p> <p>Note 2: Refer to Condition #19 which addresses the same/similar requirements</p>	3/7/2017	D&T will obtain a copy of the Services Plan/Strategic Plan submitted for Condition #4 and #19, verify timely submission, verify that it incorporates the required elements (e.g. describing any planned consolidation, reduction, or elimination of existing services or introduction of new services) and that it meets the 3-year requirement.	YNHHS submitted Services and Strategy Plan to OHCA in accordance with Conditions 4 and 19 on 1/19/2017.	Pg. 478 (submission email) Pg. 479 – 482 (documentation)
15-32033-CON Condition 19	<p>L+M and YNHHS shall develop a strategic plan to focus on the retention and enhancement of healthcare services in the primary service area, i.e. towns served by L+M, which assures patient affordability and is consistent with appropriate standards of care, quality, and accessibility. Such plan shall seek to minimize travel for patients requiring clinical services that can be provided appropriately at L+M service sites, and to support the return of patients back to L+M and its medical staff for care should patients be referred to other YNHHS affiliated facilities for specialized care not available locally. The strategic plan shall include but not be limited to the following components:</p> <p>a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such period. L+M shall demonstrate annual progress toward achieving these goals.</p> <p>b. YNHHS and L+M shall abide by the resource commitments for clinical service programming as set forth in the Affiliation Agreement.</p> <p>NOTE 1: Refer to Condition #4 which addresses the same requirements.</p>	3/7/2017	D&T will obtain the Services Plan/Strategic Plan submitted for Condition #4 and #19 and review the plan for inclusion of these required components (as compared to the needs described within the Community Needs Assessment and the resource commitments within the Affiliation Agreement).	YNHHS submitted Services and Strategy Plan to OHCA in accordance with Conditions 4 and 19 on 1/19/2017.	Pg. 478 (submission email) Pg. 479 – 482 (documentation)

15-32033-CON Condition 5	Until such time as the Services Plan is submitted , YNHHS shall provide OHCA with notice of any reallocation of inpatient beds and relocation of outpatient services for L+MH specific to those services that existed at L+MH as of the Decision Date. Such notice shall be provided within ten (10) days of any such reallocation or relocation and published on the website pages of L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. NOTE 1: Cross-reference to Condition #18	1/19/2017	D&T will confirm that notices of reallocation or relocation were submitted in a timely manner and published on the L+MH website within ten days. Per related 15-32033-CON Condition #18, D&T will confirm that any changes or reallocation of services are not in conflict with the requirements of 15-32033-CON Condition #18.	Confirmed with YNHHS that through the submission of the Services Plan on 1/19/2017, no reallocation or relocation of inpatient beds or outpatient services was performed.	N/A

15-32033-CON Condition 32f	<p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <p>i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities;</p> <p>ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories;</p> <p>iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p> <p>iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.</p>	3/7/2017	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six month reports based on fiscal year. We will verify that the required elements are included in the report and are documented and supported by underlying information. We will confirm timely submission of all reports (OHCA's, HRS, Report 100, Report 150 and Report 175 and succession reports to OHCA.</p>	<p>YNHHS submitted Five-Year Plan to OHCA in accordance with Condition 32f on 3/7/2017.</p> <p>The milestone date for the six month report is 5/31/2017 for 15-32033-CON Condition 32f and 15-32032-CON Condition 7c.</p>	<p>Pg. 734 (submission email) Pg. 736 – 737 (documentation)</p>

15-32033-CON Condition 6	Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period October 1, 2015 – September 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.	3/7/2017	D&T will obtain YNHHS's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information. D&T will review work papers to confirm information and timely filing. * 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017 which is 11/30/17 and the 3rd filing is due 60 dates after the close of FY2018 which is 11/30/18.	YNHHS submitted analysis to OHCA in accordance with Condition 6 on 3/7/2017.	Pg. 734 (submission email) Pg. 735 and 738 (documentation)

15-32033-CON Condition 22	<p>Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <p>a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.</p> <p>b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.</p>	12/7/2016	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant.</p> <p>D&T will meet annually with the Independent Consultant.</p>	<p>YNHHS submitted documentation to OHCA supporting engagement of Independent Consultant, Milliman, in accordance with Condition on 11/29/2016.</p> <p>The Independent Monitor and Independent Consultant currently meet via conference call on a monthly basis.</p>	<p>Pg. 430 (submission email) Pg. 431-454 (documentation)</p>

15-32033-CON Condition 33	<p>In addition to the above, L+M and YNHHSO make the following commitment for a period of five years post-Closing:</p> <p>a. L+M and YNHHSO shall appoint an independent monitor at their own cost (selected by YNHHSO and L+M and approved by OHCA) to serve as a post-transfer compliance monitor.</p> <p>b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period.</p> <p>c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties.</p> <p>d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings.</p>	3/31/2017	<p>For 15-32033-CON Condition #33a, refer to 15-32033-CON Condition #15.</p> <p>15-32033-CON Condition #33b – D&T will meet with CHNA/CHIP “participation group” in March 2017 for an initial introduction and will meet with this group annually thereafter to present the annual Monitor report. Relative to (ii), Refer to the procedures performed per Conditions #11 and #31. Minutes will be maintained by D&T of these meetings and provided to OHCA upon request.</p> <p>With respect to 15-32033-CON #33d, D&T will review the public notice and attend the public forum held by YNHHSO and confirm that it includes members of the CHIP (Community Health Improvement Program) group.</p>	<p>Engagement Letter signed and submitted to OHCA on 11/7/2016.</p> <p>Community Forum with “participation group” completed on 1/24/2017. Minutes were submitted to OHCA to summarize the Community Forum on 1/27/2017.</p> <p>D&T reviewed the public notice and attended the public forum on 3/1/2017 and submitted Public Forum minutes to OHCA on 3/23/2017.</p>	<p>Engagement Letter Pg. 322-324 (submission email) Pg. 325-372 (documentation)</p> <p>Community Forum Pg. 488 (submission email) Pg. 488-506 (documentation)</p> <p>Public Forum Pg. 739 (submission email) Pg. 740-754 (documentation)</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 33 (continued)	e. If the Independent Monitor determines that YNHHS and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHS and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHS and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHS and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial non-compliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHS and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653. In addition, in the event OHCA determines YNHHS and L+M are in material non-compliance, OHCA may order YNHHS and L+M to provide additional community benefits as necessary to mitigate the impact of such non-compliance.	3/31/2017	With respect to 15-32033-CON #33e, D&T agrees to provide written notice of any deficiencies as required.	No noted instances of non-compliance.	N/A

Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653 In addition, in the event OHCA determines YNHHS and L+M are in material non-compliance, OHCA may order YNHHS and L+M to provide additional community benefits as necessary to mitigate the impact of such noncompliance.	Ongoing	Refer to procedures for 15-32033-CON Condition #33 a through e above.	No noted instances of non-compliance.	N/A
15-32033-CON Condition 31	L+M and YNHHS have agreed to maintain at least the same level of community benefit consistent with L+M's most recent Schedule H of IRS Form 990 and its Community Health Needs Assessment (CHNA). L+M and YNHHS agree to conduct an updated Community Health Needs Assessment by no later than December 31, 2016, and provide services in accordance with implementation plan adopted as part of the updated CHNA process and provide OHCA with its updated CHNA within thirty days of its approval.	12/31/2016	After obtaining L+M's baseline Schedule H of IRS Form 990, D&T will obtain and confirm that L+M and YNHHS have increased community benefit by 1% per year for the first three (3) years of this agreement. Thereafter for years 4 and 5, we will confirm that the level of community benefit provided in year 3 was at least maintained (not required to increase in years 4 and 5). Cross-reference to 15-32033-CON Condition #11.	Schedule H of 2015 IRS Form 990 was obtained on 1/6/2017. Page references refer to submission letter for Condition 21 and CHNA.	Pg. 161 (submission letter) Pg. 162-262 (documentation)

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 9	Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least as generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law, OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Following closing	D&T will obtain copies of the relevant financial assistance policies and confirm that L+MH has adopted YNHHS's financial assistance policies (or policies at least as generous as these policies) using L+M Hospital board resolutions. After verifying that this step has been properly completed, we will confirm that these policies are properly posted on L+MH's website.	YNHHS submitted documentation to OHCA in accordance with Condition 9 including financial assistance policies on 2/21/2017.	Pg. 514 (submission email) Pg. 515-733 (documentation)
15-32033-CON Condition 32e	Affirmation that L+M has adopted the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof.	5/31/2017	For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.	YNHHS submitted documentation to OHCA in accordance with Condition 9 including financial assistance policies on 2/21/2017. If future changes to policies are made, Independent Monitor will obtain YNHHS management representation that such policies are at least as generous as the YNHHS Financial Assistance Program Policies currently in effect.	Pg. 514 (submission email) Pg. 515-733 (documentation)

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations	OHCA Document Page Reference
15-32033-CON Condition 14	For three (3) years following the Closing Date, the Applicants shall allow for one (1) community representative to serve as voting members of L+MH's Board of Directors with rights and obligations consistent with other voting members under L+MH's Board of Director Bylaws. The Applicants shall select the community representative in a manner that ensures the appointment of an unbiased individual who will fairly represent the interests of the communities served by L+MH. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Following closing	D&T will confirm the appointment of this individual (community representative) to the L+MH Board as evidenced by Board minutes. We will discuss the selection process with Management and document our understanding of the selection process/qualifications of the individual.	Cathy Zall appointed as community representative as a voting member of the L+MH's Board of Directors on 12/8/2016.	Pg. 465 (submission email) Pg. 466-473 (documentation)
15-32033-CON Condition 17	For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHS Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Twice a year	To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm notice of the public meetings is posted with proper notice. D&T will attend the public meetings as part of the Monitor role.	The first Joint Board Meeting of the YNHHS Board and L+MH Board is scheduled for May 18-19, 2017.	N/A
15-32033-CON Condition 26	As described in the Affiliation Agreement, YNHHS is committed to maintaining local governance at L+M. The L+M Board of Directors shall continue as a fiduciary board composed of a majority of members who reside in the communities served by L+M with the only change in composition being the addition of the President/CEO of YNHHS (or his or her designee) serving as an ex-officio member. Each director of the L+M Board of Directors shall have an equal vote. The L+M Board shall be empowered and supported to oversee local performance and to create and sustain connections with the community. Subject to certain reserved powers for YNHHS, the L+M Board of directors will have the right to approve any major new programs and clinical services, or the discontinuation or consolidation of any such programs.	9/28/2016	D&T will obtain and evaluate the Board of Directors bylaws to confirm that L+M Board maintains rights and powers specified in the Order.	YNHHS provided Board of Directors bylaws to OHCA on 9/28/2016.	Pg. 1 (submission email) Pg. 55-66 (documentation)
15-32033-CON Condition 25	L+M shall attain cost savings as a result of the affiliation with YNHHS as described in the CON application.	3/31/2017	D&T will obtain and read YNHHS's reporting created per 15-32033-CON condition #32f.	YNHHS provided reporting to OHCA in accordance with Condition 25 on 3/29/2017.	Pg. 757-758 (submission email) Pg. 759-760 (documentation)

Hi Kelly – I have a question for you to look into regarding the submission of material in response to **Condition #6** of Docket Number 15-32033-CON. In your report filed on 4/7th, you indicate that the first filing for Condition #6 was filed on 3/7/2017, which is correct, that is the date it was submitted (Total Price by Top 25 most frequently utilized services table). However, subsequent to the filing on 3/7th we spoke in a conference call that this table is incorrect as it reflects a Fiscal Year (10/1/2015 to 9/30/2016) which is not in compliance with the condition as written. We indicated in the conference call that the first (baseline) filing is prior to the affiliation date and says in the Condition, September 1, 2015 – August 30, 2016. I don't see a refiling of this material in any of the subsequent emails for this docket number. Can you look into that and have it filed with OHCA using the correct dates at the earliest convenience.

Thank you. Karen

Sincerely,

Karen Roberts

Hi Kelly,

Please provide us with the status of our request below for missing information related to Condition#6, Docket #15-32033-CON.

Our records do not show the receipt of the information.

Thank you,
Carmen

Subject: FW: Six-Month Independent Monitor Report for docket numbers 15-32032-CON and 32033-CON

Hi Kelly – I have a question for you to look into regarding the submission of material in response to **Condition #6** of Docket Number 15-32033-CON. In your report filed on 4/7th, you indicate that the first filing for Condition #6 was filed on 3/7/2017, which is correct, that is the date it was submitted (Total Price by Top 25 most frequently utilized services table). However, subsequent to the filing on 3/7th we spoke in a conference call that this table is incorrect as it reflects a Fiscal Year (10/1/2015 to 9/30/2016) which is not in compliance with the condition as written. We indicated in the conference call that the first (baseline) filing is prior to the affiliation date and says in the Condition, September 1, 2015 – August 30, 2016. I don't see a refiling of this material in any of the subsequent emails for this docket number. Can you look into that and have it filed with OHCA using the correct dates at the earliest convenience.

Thank you. Karen

Sincerely,

Karen Roberts

Minutes

Meeting: L+MH New London Public Forum

Held on: July 6, 2017 at 6:00 pm

Location: Holiday Inn, New London, CT

Attendees Patrick Green, Cathy Zall, Gayle Capozzalo, Vin Petrini, Kelly Sauders, Ryan DeMerlis, Martha Judd, Andrew Orefice, Naomi Rackleft, Barbara Sadowski, Jeanne Wehl, Dr. Steven Smith, Anita Dagan, Stephanie Johnson, Mirriam Thorbue, Christine Hammond, Julia Kushigan, Lynda McLAughlan, Representative Chris, Soto, Brad McCallister, Representative Kathleen McCarty, Ann Burbinski, Dale Cunnigh, Vicky Long, Rob Burick, Debbie Wyzatck, Brian Cole, Paul Read, Scott Martin, Janet Buckling, Rich Buckling, Diane Smith, William Schmaucker, Kelly Thomson, Mary Jackson, Donna Epps, Jeanne Milstein, Representative Holly Cheeseman, Mildred Devine, Bryl Hobart, George Shaw, Anna Shaw, Laurel Holmes, Kyle Ballou, El Parry, Steve Sigel, Jackie Blaice, Terry Mitchell, Ed Cramer, Jenny Cramer, Loch Spitz, Kristen Powers, Red Korecki, Harry Rodriguez, Neal Bobruff, Jackssan Bobruff, Paul Spirit, Lisa Dabroski, Alyssa Hammond, Ann Pratt, Frank Maclaughlin, Mayor Michael Passero, Andy Russell

Introduction The meeting began at 6:00pm EST.

Gayle Capozzalo (Executive Vice President, Strategy and System Development and Chief Strategy Officer) provided a brief introduction to the group. She shared a few accomplishments of the affiliation and concluded by introducing Patrick Green (President and CEO, L+MH), Cathy Zall (Community Representative to the Board) and Vin Petrini (Senior Vice President, Public Affairs, YNHHS). She then provided the agenda for the evening.

Agenda:

Introductions
Welcome from Patrick Green
Report to Community by Cathy Zall
Affiliation Progress by Vin Petrini
Questions & Answers

Welcome Patrick Green provided a brief introduction and overview of his background. He stated that his focus is to continue to partner with YNHHS and the community to secure services in the New London community. Mr. Green briefly highlighted accomplishments of that partnership from the past nine months, which included the stabilization of L+MH's financials (reducing loss from \$26m to \$9m), promoting cost savings and operational improvements, creating new jobs / preserving existing jobs in New London, and issuing a \$50,000 grant to the New London Community.

Report to the Community Cathy Zall provided a series of brief remarks to provide a report to the community. She indicated that L+MH and YNHHS were progressing in prioritizing stabilizing the financials of

L+MH. She stated that she believes that there has already been a commitment demonstrated from YNHHS and L+MH to a community partnership for better health.

Jeannie Milstein, Director of Human Services for the City of New London, provided an overview of partnerships and initiatives with the community, which included a \$5,000 donation to launch the first Sober House certification, a \$50,000 grant to the community to improve health outcomes, and other initiatives that foster coordination, communication, collaboration between hospital and community partners. One such example highlighted was establishing a system with first responders and hospitals to understand how best to triage transports to the hospital for those frequently hospitalized.

**Affiliation
Progress and
Q&A**

Vin Petrini reinforced that the relationship between YNHHS and L+MH was the beginning of an important relationship with not only L+MH but also with the community of New London and the region. He provided a few remarks about the healthcare environment at the federal and state levels.

Mr. Petrini outlined affiliation initiatives and progress for first six months. Those included:

- Clinical Services Recruitment – highlighted mental health recruitment activities
- Infrastructure – messaged the success of the EPIC implementation
- Clinical Technology – outlined that there were two new units, 3D imaging, pharmacy renovation, and other technology to refresh the hospital.
- Community Need – stated that through the affiliation, they were working to build population health infrastructure to both reduce cost and improve early access to patients to improve detection.
- Group Purchasing – highlighted the benefits of purchasing supplies and goods at reduced costs, promoting efficiency.
- Employment – looking at effective ways to improve on structure while adding jobs where possible, including creating 40 new jobs in New London.

Mr. Petrini responded to several questions from the audience about various aspects of the financials, community benefit and ongoing affiliation activities.

Closing

Mr. Petrini closed the meeting by thanking everyone for attending and confirmed there will be another public meeting, likely in the Fall.

The meeting was adjourned at 6:50pm EST.

v.E.1

Docket #15-32033-CON: Conditions 16 and 18

July 6, 2017

Condition 16:

The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis¹ to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHSC will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.

Condition 18:

L+MH shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need.

NOTE 1: See related Condition #1 which applies to the first 180 dates post-closing. Following that time, YNHSC is bound by Condition #4 and the Services Plan created per Condition #4

Response:

Deloitte & Touche Independent Monitor Kelly Sauders and Ryan DeMerlis visited Lawrence + Memorial Hospital (L+MH) on July 6, 2017. The site visit included a meeting with Victoria Vickers, Director of Accreditation, Safety and Regulatory Affairs, and Oliver Mayorga, MD, Chief Medical Officer. This meeting included a discussion about recent Centers for Medicare and Medicaid (CMS) and/or Department of Public Health (DPH) matters and L+MH's response, as well as the upcoming Public Forum. It was noted that there had been no decrease in services or unit closures since the last site visit. This includes maintaining emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services.²

¹ The semi-annual basis will be defined as six months post-closing and on the anniversary of the closing date to coincide with meetings with the community representatives per Conditions # 33b and 33d

² In support of this, the May 31, 2017 submission to OHCA on contained a management attestation to Condition 18.

**Templates for Reporting on L+MH Top 25 Most Frequently Utilized Services
MS-DRGs (Inpatient) and CPT (Outpatient)
Docket #15-32033-CON: Condition 6**

OHCA will receive an annual report of the total price per "unit of service" for MS-DRG and CPT codes each fiscal year through the end of FY 2019.

Condition 6: Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period September 1, 2015 - August 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.

Subject: Docket 15-32033-CON Affiliation of Lawrence + Memorial Corporation with Yale New Haven Health Services Corporation and Docket 15-32032-CON Merger of L&M Physician Association, Inc. and Northeast Medical Group

Dear Kim,

Please find YNHHS's response to the L+M CMIR submitted by Milliman to comply with requirements of the agreed settlement between Yale New Haven Health Services Corporation and the Connecticut Department of Public Health (i.e., Condition 22 of Docket 15-32033-CON and Condition 3 of Docket 15-32032-CON). We request that this document be posted on OHCA's website and accompany Milliman's CMIR.

Thank you,

Gayle

RE: 15-32033-CON Affiliation of
Lawrence + Memorial Corporation
with Yale New Haven Health
Services Corporation

15-32032-CON Merger of L&M
Physician Association, Inc. and
Northeast Medical Group

Dear Ms. Martone,

As part of the approval of the affiliation of Lawrence + Memorial with Yale New Haven Health, an independent consultant reporting directly to the State Office of Health Care Access (OHCA) has delivered its conclusions regarding costs and pricing in the eastern Connecticut market and establishing caps on any increases Lawrence + Memorial Hospital and Northeast Medical Group can seek to negotiate with third party payers.

These conclusions are based upon a broad assessment of the eastern Connecticut market in high frequency inpatient, outpatient and physician services and comparisons between L+M's market basket fees and those of the rest of the defined market, inclusive of government payers. The report anticipates expected Medicare decreases for inpatient and outpatient services in January 2018 and declining reimbursements from the State's funding of inpatient and outpatient services covered by Medicaid. Medicare and Medicaid services represent 65 percent of L+M's discharges.

It is clear from this independent assessment that the impacts of Medicaid and Medicare cuts have seriously eroded L+M's financial position over time. While the impact of the state tax on hospitals was not directly factored into the report, it is equally clear that the provider tax on hospitals also had a direct and damaging impact on the financial viability of hospitals across the state, including Lawrence + Memorial Hospital.

Gayle Capozzalo,
Chief Strategy Officer

Fax: 203-688-3472

Gayle.Capozzalo@ynhh.org
ynhhs.org

These issues are complicated by the evolution of healthcare policy at the national level. With great concern about potential Medicaid cuts in the vicinity of \$750-800 billion over the next ten years, the situation could grow more complicated and more serious. This is especially true since Connecticut was one of the first expansion states under the Affordable Care Act and is particularly vulnerable to eligibility restrictions and funding over time. These risk factors are not accounted for in the report and its conclusions.

As a result of its full review of the current market conditions in eastern Connecticut, Milliman, the independent consultant, has concluded that Lawrence + Memorial Hospital trails its counterparts in reimbursement and would be able to sustain increases capped at the amounts set forth in the report for inpatient, outpatient and physician services without exceeding the market price for similar services in the region.

However, it is important to note that these rate increase caps are not simply applied. Instead, any rate increases are the result of vigorous negotiations with third party payers who have a defined interest in keeping costs low. As a result, the likelihood of achieving overall rate increases of this magnitude is remote. Additionally, Yale New Haven Health will work to ensure costs are controlled and will develop a collaborative approach with insurance companies and third party payers to ensure any rate increases are reasonable and sustainable in the region.

Sincerely,

Gayle Capozzalo

KEY TERMS

The following key terms are referenced in the report.

Key Term	Acronym	Definition
Agreed Settlement		Document detailing terms of the agreement between YNHHS and DPH authorizing the transfer of ownership of L+MC and its subsidiaries to YNHHS
Ambulatory Payment Classification	APC	Unit used to determine reimbursement for outpatient services; an ambulatory payment classification is defined by a particular set of outpatient services
Calendar Year	CY	The year ending December 31 of a given year
Case Mix Adjusted Discharge	CMAD	Discharge with a relative weight of 1.00; see definition of relative weight below
Centers for Medicare and Medicaid Services	CMS	Federal agency responsible for Medicare and the partner with states for Medicaid
Charge		The total amount billed for a service, often has little relationship to price
Commercial Fee Cap		The limit on increases in total price per unit of service paid by commercial insurers
Commissioner		Commissioner of the Department of Public Health
Compound Annual Growth Rate	CAGR	Geometric average of the growth rate over a period of time, stated as percent growth per annum
Conversion Factor		Converts relative value units into payment rates; see definition of relative value units below
Cost Based Statistical Area	CBSA	Areas to which Medicare assigns wage indices
Cost and Market Impact Review	CMIR	A review required by Condition 22 of the Agreed Settlement
Department of Public Health	DPH	Connecticut department with hospital oversight responsibility; parent department of OHCA
Department of Social Services	DSS	Connecticut department responsible for Medicaid
Eastern Connecticut	E-CT	Tolland, Windham, and New London counties (includes Lawrence + Memorial Hospital)
Fee		Price per unit of service; see definition of price below
Fee Ratio		The ratio of L+MH average all payer fee to the market average all payer fee. Fee caps are set so that the ratio does not increase during the Agreed Settlement monitoring period
Fiscal Year	FY	The year ending September 30 of a given year, as defined by CT Hospital Financial Review Regulations for CT hospital reporting ¹
Freedom of Information Act	FOIA	An act that enables the requires the government to respond to public requests for information
Geographic Practice Cost Index	GPCI	GPCIs reflect the costs of intensity, practice expense, and malpractice insurance in an area compared to the national average costs
Hospital Fees		Hospital net revenue divided by the total MS-DRG relative weights for the hospital's discharges
Lawrence & Memorial Medical Group	LMMG	The physician group of Lawrence + Memorial Corporation

¹ State of Connecticut. Office of Health Care Access. *Hospital Financial Review Regulations*. N.p., n.d. Web. 4 May 2017. http://www.ct.gov/dph/lib/dph/ohca/hospitalfillings/2017/hospital_financial_review_regulations.pdf.

Key Term	Acronym	Definition
Lawrence + Memorial Corporation	L+MC or L+M	The parent organization of Lawrence + Memorial Hospital and Lawrence & Memorial Medical Group
Lawrence + Memorial Hospital	L+MH	The hospital organization of Lawrence + Memorial Corporation
Market		All CT providers, both in and outside eastern CT, serving eastern CT patients
Medicare Severity Diagnosis Related Group	MS-DRG	Unit used to determine reimbursement for inpatient services; a Medicare Severity Diagnosis Related Groups is defined by a particular set of patient attributes, which include principal diagnosis, specific secondary diagnoses, procedures, sex and discharge status ²
MS-DRG Relative Weight	RW	A weight assigned to a MS-DRG that reflects the expected relative cost to a hospital to provide that MS-DRG; <i>relative weights do not average to 1.00</i>
Net Revenue		Total price, after adjustments, as reported in hospital financial statements
Non-Eastern CT	Non-E-CT	All CT counties excluding eastern CT (Tolland, Windham, and New London counties); excludes out of state counties
Office of Health Care Access	OHCA	An office of Connecticut's Department of Public Health
Payer		Medicare, Medicaid, commercial insurers, and other third parties that cover the cost of care
Price		The total amount paid for a service, inclusive of patient cost-sharing
Relative Value Unit	RVU	RVUs account for the relative resources used in furnishing a service
Unit of Service		For inpatient care: a MS-DRG relative weight of 1.00; for outpatient care: an APC with a relative weight of 1.00
Yale New Haven Health Services Corporation	YNHHSC Or YNH	The organization acquiring Lawrence + Memorial Corporation

² Centers for Medicare and Medicaid Services (CMS). *Defining the Medicare Severity Diagnosis Related Groups (MS-DRGs), Version 34.0*. N.p., n.d. Web. 4 May 2017. COST AND MARKET IMPACT REVIEW

In early September 2016, the Connecticut (CT) Office of Health Care Access (OHCA) granted Yale New Haven Health Services Corporation (YNHHSC) approval to acquire Lawrence + Memorial Corporation (L+MC). The Agreed Settlement between YNHHSC and the CT Department of Public Health authorized the transfer of ownership of L+MC and its subsidiaries to YNHHSC. The Agreed Settlement had a number of terms, including requiring YNHHSC to engage an independent consultant to prepare a Cost and Market Impact Review (CMIR), evaluate the non-governmental price per unit service (fees) of services provided by L+MC's Lawrence + Memorial Hospital (L+MH) and Lawrence & Memorial Medical Group (LMMG), and annually set maximum fee increases (for 5 years for L+MH and for 28 months for LMMG). With OHCA approval, YNHHSC engaged Milliman as the independent consultant.

As the independent consultant Milliman must satisfy the requirements of the Agreed Settlement and report to and take direction from the Commissioner. Milliman is a global actuarial and financial services consulting firm that has been serving clients as an independent consultant for over 70 years. We serve a diverse client base, representing virtually all types of private, non-profit, and public sector enterprises in healthcare, employee benefits, investment consulting, life insurance, financial services, and property and casualty insurance. We have no agenda other than high quality work.

This document is Milliman's 2017 report to OHCA and YNHHSC, which is intended to satisfy requirements of the Agreed Settlement. It may not be suitable for other purposes.

CMIR REQUIREMENTS

The Agreed Settlement's Condition 22 describes the information to be included in the CMIR. This report provides certain information specified in Conditions 22b, 22c, 22d, and 22e of the Agreed Settlement. Condition 22 is reproduced below (boldface added to highlight the role of the independent consultant).

22. *Within ninety days of the Date of Closing, YNHHSC shall initiate a cost and market impact review, which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:*
- a. *Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHSC shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.*
 - b. *In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the **independent consultant determines** to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.*
 - c. *In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially*

increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purposes of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the **independent consultant shall conduct** the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the **independent consultant from considering and recommending** any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.

- d. The **independent consultant shall report** to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.
- e. The **independent consultant shall provide** the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.

METHODOLOGY SUMMARY

Our commercial fee cap methodology, as approved by OHCA:

1. Establishes market baskets of high frequency services for inpatient and outpatient hospital services and physician services.
2. Estimates the fiscal year 2016 (FY2016) average fee per market basket service across all payers for services provided by L+M and all hospitals and physicians serving E-CT patients (aka “the market”), and calculates the FY2016 ratio of L+M fees to market fees.
3. Projects the market basket fee changes and service changes, other than L+M commercial fee changes, from FY2016 to calendar year 2018 (CY2018).
4. Estimates the L+M commercial fee change from FY2016 to CY2018 that will allow L+M to maintain the FY2016 ratio of L+M fees across all payers to market fees across all payers and establishes that change as the commercial fee cap.

Following the expectations of the Agreed Settlement, we also review the Eastern Connecticut (E-CT) healthcare market and make non-fee cap recommendations.

Fiscal years (FYs) for Connecticut hospitals end in September and calendar years (CYs) end in December.

FY2016 is the year October 2015 through September 2016 and CY2018 is the year January 2018 through December 2018. Under the Agreed Settlement L+MC must maintain commercial fee contracts from the end of FY2016 to the beginning of CY2018 and may negotiate fee increases, subject to the fee cap, for CY2018 onward. Hence, for establishing the fee cap, FY2016 is our base period and CY2018 is the period for which we establish the fee cap. Next year we will establish inpatient and outpatient hospital fee caps for CY2019.

Medicare and Medicaid fees impact the commercial fee cap. The estimated average fees per market basket service and fee ratios are inclusive of all payers. Therefore, any Medicare or Medicaid fee change that differentially affects L+M relative to other hospitals serving E-CT patients will impact the calculation of L+M’s commercial fee cap. The differential impact may be the result of L+M having a different fee change than the other hospitals or it may be due to L+M providing a disproportionate share (more or less) of Medicare or Medicaid market basket services relative to the other hospitals.

MARKET REVIEW

Our review of the Eastern Connecticut (E-CT) healthcare market yielded the following observations:

Hospital Inpatient Care

1. **E-CT patients had about 51,000 discharges in FY2016.** About 25,000 or about 50% of the discharges were for market basket MS-DRGs. Of these about 25,000 market basket MS-DRGs, 27% were from L+MH (see Exhibit 1).
2. **E-CT hospitals lost market share between FY2014 and FY2016.** The percent of E-CT patients discharged from E-CT hospitals, inclusive of L+MH, declined from 67.0% to 62.3% of discharges – a -6.9% change³. In FY2016, nearly 40% of E-CT patient discharges were from non-E-CT hospitals (see Exhibit 1).
3. **E-CT patients with commercial insurance are disproportionately cared for outside of E-CT relative to Medicare patients.** In FY2016 46.6% of commercial market basket MS-DRG discharges were from non-E-CT hospitals vs. 32.9% for Medicare discharges and 19.0% for Medicaid discharges (see Exhibit 2A).
4. **Patient volume for government payers grew from FY2014 to FY2016.** In FY2016 35.8% of market basket MS-DRG discharges were paid for by commercial payers (see Exhibit 2B). From FY2014 to FY2016, E-CT patient market basket MS-DRG discharges declined for commercial payers (-4.3%) and grew for Medicaid (+5.5%) and Medicare (+2.1%) payers (see Exhibit 2B).
5. **In FY2016, non-E-CT hospitals, on average, provide more high intensity care than E-CT hospitals.** In FY2016, non-E-CT market basket MS-DRG discharges had an average case mix per discharge of 1.42, while E-CT hospitals had an average case mix of 1.25 (see Exhibit 3).
6. **In FY2016, government payers paid much less than commercial payers did.** In FY2016, Medicare fees were \$7,717, Medicaid fees were \$5,359, and commercial payers fees \$12,467 per case mix adjusted discharge (CMAD), inclusive of patient cost sharing. Commercial payer fees more than double Medicaid fees (see Exhibit 4A).
7. **From FY2014 to FY2016, commercial fees per CMAD for hospitals serving E-CT patients increased by +4.3% per annum** (see Exhibit 4A).
8. **In FY2016, L+MH fees per CMAD were similar to other E-CT hospitals.** In FY2016, L+MH fees per CMAD were somewhat higher than that of other E-CT hospitals: +5.2% for Medicare, +3.5% for Medicaid, and +0.7% for commercial (see Exhibit 4B).
9. **Non-E-CT fees per CMAD were much higher than E-CT fees per CMAD across all payers.** In FY2016, fees per CMAD for non-E-CT hospitals were higher than that of E-CT hospitals: +9.2% for Medicare, +25.6% for Medicaid, and +22.6% for commercial (see Exhibit 4B).
10. **CT Medicaid has planned changes to fees that will disproportionately reduce fees for L+MH.** Medicaid has planned fee changes per CMAD between FY2016 and CY2018 of -12.8% for L+MH, -8.4% for other E-CT hospitals, and -6.8% for non-E-CT hospitals (see Exhibit 5A).
11. **L+MH's Medicare fees are expected to decrease significantly in January 2018 due to a change in L+MH's hospital geographic assignment while the fees for other E-CT and non-E-CT hospitals increase modestly.** January 2018 Medicare fees are expected to change -7.4% for L+MH, +1.9% for other E-CT hospitals, and +1.2% for non-E-CT hospitals (see Exhibit 5B).

Medicare payments are based on statistical area assignments. Medicare outpatient and inpatient payments are adjusted for local wage levels, using the wage indices that Medicare publishes for cost based statistical areas (CBSAs). CBSAs are typically metropolitan statistical areas (MSAs), and hospitals are generally assigned to the CBSA corresponding to their physical location. Medicare has, however, historically assigned L+MH to the Nassau County-Suffolk County, NY CBSA – a CBSA with a higher wage index than the New Haven-Milford, CT CBSA. Under the proposed Medicare rules for 2018, L+MH will be assigned to the CT CBSA – a CBSA with the same wage index as the New Haven-Milford, CT CBSA. L+MH is the only E-CT hospital that is currently assigned outside of its geographic CBSA.

³ Changes in market share cited in this analysis are relative to the first period market share. For example if a hospital has a 20% market share that declines to 18%, then the hospital has lost 10% of its market share.

Hospital Outpatient Care

1. **Outpatient care is a significant portion of hospital net revenue, particularly for E-CT hospitals.** Outpatient care represented 60.4% of FY2015 hospital net revenue for E-CT hospitals, and 42.8% of FY2015 hospital net revenue for non-E-CT hospitals providing services to E-CT patients (see Exhibit 6).
2. **Medicaid and Medicare represent a significant portion of outpatient net revenue for hospitals serving E-CT patients.** Medicare and Medicaid represent 38.1% of outpatient net revenue for L+MH, 38.0% of outpatient net revenue for other E-CT hospitals, and 36.3% of outpatient net revenue for non-E-CT hospitals (see Exhibit 6).
3. **E-CT patients receive a higher portion of their outpatient surgical care than ED care at non-E-CT hospitals.** According to CHIME, 35.5% of FY2016 outpatient hospital surgery discharges⁴ for E-CT patients were from non-E-CT hospitals and 11.9% of ED discharges were from non-E-CT hospitals (see Exhibit 7).
4. **E-CT patients with Medicare or commercial insurance receive a higher portion of their outpatient surgical and ED care at non-E-CT hospitals than E-CT patients with Medicaid.** According to CHIME, 35.4% of Medicare and 37.9% of commercial FY2016 outpatient hospital surgery discharges for E-CT patients were from non-E-CT hospitals, whereas 29.3% of Medicaid discharges were from non-E-CT hospitals. Similarly, 10.7% of Medicare and 17.0% of commercial FY2016 ED market basket services for E-CT patients were from non-E-CT hospitals, whereas 8.1% of Medicaid ED market basket services were from non-E-CT hospitals (see Exhibit 7).
5. **CT outpatient hospital Medicaid Modernization, which was a significant change in outpatient hospital methodology, disproportionately reduced fees for L+MH.** In July 2016, CT Medicaid introduced an APC payment methodology. Medicaid outpatient fees increased somewhat (1.4%) for all hospitals serving E-CT patients, whereas fees decreased significantly (-11.0%) for L+MH (see Exhibit 8).

CT hospital outpatient Medicaid Modernization. Prior to July 2016, CT Medicaid hospital outpatient fees (for most services) were set at a hospital-specific percentage of the hospital's charges. The percentage was based on the hospital's cost to charge ratio. In July 2016, CT Medicaid implemented a Medicare-like payment system where most fees are paid using Medicare's APC methodology. Many individual hospitals saw significant outpatient fees change as a result of Medicaid Modernization, with some receiving higher fees while other received lower fees.

Under the modernized payment system, CT Medicaid uses Medicare's APC assignment rules, relative weights, and wage indices but sets its own APC fee per relative weight unit. CT Medicaid adjusts for labor costs through a wage index based on each hospital's CBSA corresponding to their physical location. Wage indices for a given CBSA can "bounce" somewhat from year to year. L+MH's January 2017 fee change relative to some other hospitals is due to a decline in the New Haven-Milford, CT wage index relative to other CT CBSAs.

6. **The January 2017 CT Medicaid fee update also reduced fees for L+MH.** Routine updating of Medicaid APC fees, effective January 2017, resulted in 0.0% change for all hospitals serving E-CT patients, but a -1.2% change for L+MH (see Exhibit 8).
7. **L+MH's outpatient hospital Medicare fees are expected to decrease significantly in January 2018 due to a change in L+MH's hospital geographic assignment.** January 2018 Medicare APC fees are expected to change -7.7% for L+MH, +1.4% for other E-CT hospitals, and +0.8% for non-E-CT hospitals (see Exhibit 9).

Physician Care

1. **LMMG provided a consistent volume and payer-mix of market basket services in FY2015 and FY2016.** In FY2015, 43.6% LMMG's services were for E-CT patients with Medicare, 13.9% were for E-CT patients with Medicaid, and 41.5% were for E-CT patients with commercial insurance (see Exhibit 10). In FY2016, 44.1% LMMG's services were for E-CT patients with Medicare, 14.3% were for E-CT patients with Medicaid, and 40.8% were for E-CT patients with commercial insurance (see Exhibit 10).
2. **E-CT patients with Medicaid and Medicare receive the majority of their care in E-CT.** In CY2016, E-CT patients with Medicaid received 67.8% of their physician services from E-CT physicians and 32.2% from non-E-CT physicians

⁴ "Discharges" is CHIME's term for an outpatient surgery procedure or an emergency room visit.

(see Exhibit 11). In CY2014, E-CT patients with Medicare received 66.5% of their physician services from E-CT physicians and 33.5% from non-E-CT physicians (see Exhibit 11).

3. **Medicare fees for all Medicare physicians in Connecticut have changed very modestly from CY2015 to CY2017.** Medicare fees changed -0.3% from CY2015 to CY2017 (see Exhibit 12).
4. **Medicaid fees for all Medicaid physicians in Connecticut have remained flat since September 2015 (beginning of FY2016).**
5. **In FY2015, LMMG's average Medicaid fees were about 85% of what Medicare fees would have been for the same services.**
6. **There are no announcements that indicate that Medicaid and Medicare fees will significantly change between now and CY2018.**

FEE CAPS AND RECOMMENDATIONS

Overview

In this section, in our role as an independent consultant, working to satisfy requirements of the Agreed Settlement, we estimate the fee caps for L+MC's average commercial fees for hospital inpatient, hospital outpatient, and physician care. According to the Agreed Settlement, fee caps are the highest permitted aggregate increase in L+MC or LMMG fees for CY 2018 relative to FY2016 — a span of 2.25 years from midpoint to midpoint. Fee increases for a particular commercial health plan may be more or less than the cap.

Commercial fee increases within maintained health plan contracts are included in the fee cap. Condition 20 of the Agreed Settlement requires L+MC to maintain health plan contracts that were in effect as of the date of closing (September 8, 2016) through December 31, 2017. Until January 1, 2018, L+MC commercial fees can increase only if there were fee increases already incorporated within these maintained contracts. L+MC must consider these previously negotiated fee increases when setting fees for CY 2018. According to the Agreed Settlement, the total commercial fee increase, including fee increases within maintained contracts, must not exceed the cumulative fee cap for inpatient, outpatient or physician services.

Hospital Inpatient Fee Cap

We estimate that L+MH could increase its commercial inpatient fees per market basket service +9.6% per annum or +22.9% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +22.9%.⁵

The fee cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including
 - i. Shifting of the distribution of E-CT hospital discharge market share to non-E-CT hospitals
 - ii. Annual growth in the average case mix per market basket discharge between FY2016 and CY2018
 - iii. Expected decrease in L+MH's Medicare fees in January 2018 due to a change in L+MH's hospital geographic assignment while the fees for other E-CT and non-E-CT hospitals increase modestly (see Exhibit 5B).
 - iv. Planned changes to CT Medicaid fees that will disproportionately reduce fees for L+MH (see Exhibit 5A).
- b. A 2.25 year span between FY2016 and CY2018.
- c. No shifts in the distribution of inpatient service mix by payer between FY2016 and CY2018
- d. Commercial fee increase of +4.0% for hospitals other than L+MH. The increase is consistent with the increase FY2014 to FY2016 by payer, rounded down (see Exhibit 4A).

Note: The three key determinates of the 5.6% per annum spread between L+MH's capped commercial fee increase (+9.6%) and the expected non-L+MH fee increase (+4.0%) are 1) the expected Medicare fee decrease in January 2018, 2) the planned CT Medicaid fee reductions, and 3) Medicare and Medicaid fee reductions on 65% of L+MH's discharges need to be balanced by commercial fee increases that are applicable to the other 35% of L+MH's discharges.

Hospital Outpatient Fee Cap

We estimate that L+MH could increase its commercial outpatient fees per market basket service +5.8% per annum or +13.5% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +13.5%.

The fee cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including

⁵ Fee changes are to be measured by comparing the average commercial fee in CY2018 to the average commercial fees in FY2016.

- i. The significant decline in L+MH's Medicaid outpatient fees in July 2016 due to hospital outpatient Medicaid Modernization
- ii. L+MH's anticipated Medicare outpatient fee decrease as of January 2018
- b. A 2.25 year span between FY2016 and CY2018
- c. No shifts in the distribution of outpatient services or service mix by payer or by hospital between FY2016 and CY2018
- d. Assumptions for annual growth in fees
 - i. Commercial – for hospitals other than L+MH: +4.0% from CY2015 to CY2018
 - ii. Medicare – fee per APC relative weight unit: +0.5% from CY2017 to CY2018
 - iii. Medicaid – fee per APC relative weight unit: 0.0% from CY2017 to CY2018

Note: Only one-quarter of the impact of outpatient Medicaid Modernization is reflected L+MHs FY2016 fees and Medicare fees will in January 2018. Therefore, L+MH needs a significant above-market commercial outpatient fee increase to bring its CY2018 fee ratio (average all-payer fees relative to the market) to FY2016 levels.

Physician Fee Cap

We estimate that LMMG could increase its commercial physician fees per market basket service +3.5% per annum or +8.0% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +8.0%.

The cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including
 - i. No change in Medicaid and Medicare fee levels. There are no announcements that indicate that Medicaid and Medicare fees will significantly change between now and CY2018
- b. A 2.25 year span between FY2016 and CY2018
- c. No shifts in the distribution of physician services or service mix by payer between FY2016 and CY2018
- d. Assumptions for annual growth in fees
 - i. Commercial – for market and LMMG: +3.5% per annum from CY2015 to CY2016 based on various consultant reports
 - ii. Medicare – fee per service: flat from FY2016 to CY2018
 - iii. Medicaid – fee per service: flat from FY2016 to CY2018

Non-Fee Cap Recommendation

1. **We recommend that OHCA consider not making this CMIR public.** There is a risk that if other hospitals serving E-CT patients know that L+MH is seeking commercial fee increases, these other hospitals will request increases themselves, potentially creating a multi-year upward spiral of fee increases.

DATA AND METHODOLOGY

HOSPITAL INPATIENT CARE

Overview

As described in our methodology below, we created a market basket of hospital inpatient discharges for the top MS-DRGs associated with CT's top inpatient primary diagnoses, principal procedures, surgical procedures, and surgical MS-DRGs. We then used Medicare MS-DRG relative weight factors to adjust for the case mix of the market basket discharges⁶, defining a case mix adjusted discharge (CMAD) as a discharge with a relative weight factor of 1.00. CMAD is our "unit of analysis" for purposes of recommending a fee cap.

For all payers, we estimated the fee per CMAD of a group of hospitals as the sum of its net revenue divided by the sum of its MS-DRG relative weight factors, where the sum of the MS-DRG relative weight factors is the sum of the product of the case mix index and number of discharges by hospital. The calculation for an individual hospital is the same, except without the summations.

$$\text{Fee per CMAD}_{\text{group of hospitals}} = \frac{\sum(\text{Net Revenue})_{\text{hospital}}}{\sum(\text{MS} - \text{DRG Relative Weight Factor})_{\text{hospital}}}$$

$$\text{Where } (\text{MS} - \text{DRG Relative Weight Factor})_{\text{hospital}} = (\text{Case Mix})_{\text{hospital}} * (\text{Unweighted Discharges})_{\text{hospital}}$$

The fee per CMAD calculation relies upon:

1. CT Hospital Information Management Exchange (CHIME) data to identify which hospitals provide the market basket MS-DRG discharges.
2. "Twelve Month Actual Filing" data filed with OHCA to estimate market basket inpatient discharge fees.

We describe hospital discharges and fees for FY2014 – FY2016. We project hospital discharges and their case mixes from FY2016 to CY2018, estimate Medicaid and Medicare fee changes from FY2016 to CY2018, and calculate the fee increase as the maximum commercial fee increase from FY2016 to CY2018 that will maintain L+MH's average fee relative to the market.

Data

We relied upon the following data sources for our inpatient analysis:

- CT Department of Insurance most common inpatient hospital service lists⁷.
- CT hospital discharge data from the CHIME⁸ database as provided to us under a data use agreement by YNHHS, for the period 10/2013 through 9/2016.
- CT hospital "Twelve Month Actual Filing"⁹ operational and financial data filed with OHCA, for FY2014, FY2015, and FY2016. Tabs within the Filing are referred to as "Reports" and have a number, such as Report 165.
 - FY2016 annual reports have not been reviewed by OHCA.

⁶ Medicare MS-DRG relative weight factors are used by Medicare and other payers to compensate hospitals for more and less costly hospital discharges.

Methodology

Summarize Historical Discharges

Step 1: Create set of inpatient market basket MS-DRGs.

- a. **Identify relevant discharges:** Identify the CHIME FY2014-FY2015 statewide discharges related to one or more of the top inpatient primary diagnoses, principal procedures, surgical procedures, and surgical MS-DRGs as listed in the Department of Insurance (DOI) service lists.
- b. **Create market-basket MS-DRG list** (see Table 1). Count the FY2015 statewide discharges for each MS-DRG identified in Step 1a. Create list of the 50 MS-DRGs with the most discharges – the “market basket MS-DRGs.” Note: we used FY2014-FY2015 as the market basket years. Due to the October 2015 conversion to ICD-10, FY2015 was the last year that the ICD-9 codes corresponding to the DOI lists were available within CHIME.

Step 2: Identify hospitals providing inpatient services to E-CT patients.

- a. **Identify E-CT zip codes** (see Table 2).
- b. **Identify E-CT patient discharges.** Using patient residence zip codes, identify the CHIME FY2014-FY2015 statewide discharges for patients residing in E-CT.
- c. **Create a list of hospitals caring for E-CT patients.** Create a list of the hospitals responsible for 99%+ of the E-CT patient discharges for FY2014 and FY2015. This list contains 13 hospitals (see Table 3).
- d. **Group hospitals by region.** Group the 13 hospitals as L+M (1), other E-CT hospitals (5), non-E-CT hospitals (7) (see Table 3).

Step 3: Assign payer categories and service weights to FY2014 to FY2016 CHIME discharges.

- a. **Assign payer categories.** Map CHIME payers to payer categories (see Table 4A).
- b. **Assign relative weights.** Assign MS-DRG relative weights to each discharge.

Step 4: Summarize the number of CHIME discharges and service weights from E-CT patient hospitals for market basket MS-DRG discharges by FY, facility, payer category, region.

Calculate Historical Fees

Step 5: Collect data for the 13 hospitals from the “Twelve Month Actual Filings”. Specifically:

- a. **Report 165:** Inpatient Net Revenue (by payer).
- b. **Report 185:** Discharges (by payer) and Case Mix Index (by payer).
- c. **Confirm that case mix index as reported in Twelve Month Actual Filings are average Medicare MS-DRG relative weights.**

Step 6: Calculate average net revenue per case mix adjusted discharge and average case mix by hospital and payer.

- a. **Map “Twelve Month Actual Filings” payers** to Medicare, Medicaid, commercial, uninsured, and other (see Table 4B).
- b. **Calculate average net revenue per case mix adjusted discharge by hospital and mapped payer.**

Summarize Historical Discharges and Fees

Step 7: Summarize historical discharges and fees.

- a. Count market basket and non-market basket DRG discharges by fiscal year and hospital region and calculate the market basket percentage of total discharges (see Exhibit 1).
- b. For market basket DRG discharges, quantify discharges by year, hospital region, and payer (see Exhibit 2A & Exhibit 2B).

- c. For market basket DRG discharges, calculate average case mix by year, hospital region, and payer, where totals across regions and payers are weighted by market basket discharges (see Exhibit 3).
- d. For market basket DRG discharges, calculate average fees per CMAD, where totals across regions and payers are weighted by the product of market basket discharges and relative weight factors (see Exhibit 4A & Exhibit 4B).

Project Future Discharges, Case Mix, and Fees

Step 8: Calculate scheduled Medicaid fee changes per CMAD from FY2016 to CY2018, where totals across regions and payers are weighted by the 2016 product of market basket MS-DRG discharges and average case mix.

Note: CT Medicaid has/is implementing two inpatient fee changes. One was an all hospital 5% fee reduction as of January 2017 to adjust for unexpected high inpatient intensity after the implementation of hospital inpatient Medicaid Modernization in 2015. The other is 4-year adjustment of hospital-specific base fees, starting January 2017. While the 4-year adjustment is neutral across the state, hospitals serving E-CT patients will (on average) receive fee decreases and the fee decreases will be (on average) larger for E-CT hospitals than non-E-CT hospitals. Between FY2016 and CY2018, hospital basket weighted Medicaid fee decrease will be -12.8% for L+H, -8.4% for other E-CT hospitals, and -6.8% for non-E-CT hospitals (see Exhibit 5A).

Step 9: Calculate scheduled Medicare fee changes per CMAD from FY2016 to CY2018, where totals across regions and payers are weighted by the product of the estimated market basket MS-DRG discharges and average case mix (see Exhibit 5B).

Step 10: Assign other values

- a. A 2.25 year span between FY2016 and CY2018.
- b. No shifts in the distribution of inpatient service mix by payer between FY2016 and CY2018
- c. Assumptions for annual growth in fees per CMAD between FY2016 and CY2018:
 - i. Medicare, where L+MH's fees will increase modestly from FY2016 through CY2017, and then decrease in CY2018 due to a change in their geographic assignment. The rest of the market continues to increase modestly over FY2016 – CY2018. The figures below annualized and inclusive of all fee changes from FY2016 – CY2018(see Exhibit 5B)
 - 1. -2.8% L+MH
 - 2. +1.0% other E-CT
 - 3. +1.0% non-E-CT
 - ii. Medicaid, where L+MH's fees have decreased more than the market (see Exhibit 5A)
 - 1. -5.9% L+MH
 - 2. -3.8% other E-CT
 - 3. -3.1% non-E-CT
 - iii. Commercial fee increase of +4.0% for hospitals other than L+MH. The increase is consistent with the increase FY2014 to FY2016 by payer, rounded down (see Exhibit 4A).

Step 11: Find the L+MH commercial fee increase that maintains the FY2016 ratio of L+MH all-payer fees per CMAD to total all-payer market fees per CMAD.

HOSPITAL OUTPATIENT CARE

Overview

Hospital outpatient departments provide a variety of services, including emergency services, surgeries, diagnostic and screening tests, laboratory services, and imaging. A given outpatient visit, particularly an emergency or surgery visit, can result in a bill with a long list of service-line charges. Medicare pays for many, but not all, outpatient services using the Ambulatory Payment Classification (APC) system, a system that often groups the charges from a visit into a single payment – much like MS-DRGs are used to make a single payment for an inpatient admission. Some services, such as mammograms, are not grouped but paid as stand-alone services. On July 1, 2016, CT Medicaid implemented an outpatient payment system that is Medicare-like, including the use of APCs. Prior to July 2016, CT Medicaid paid for outpatient services using a cost-to-charge methodology.

Commercial payers are not required to use an APC methodology. If commercial payers do use an APC methodology, they may not use it consistently for all providers or all services. Furthermore, commercial fee levels vary dramatically among payers and providers paid by the same payer²⁰.

As described below, we created a market basket of APCs and stand-alone services associated with CT's top outpatient services. 95%+ of the market basket services are APCs; the remainder are mammogram services. We grouped L+MH and market commercial-payer claims data into APCs to calculate APC commercial fees for market basket services, whether or not the payer used an APC methodology.

Data

We relied upon the following data sources for our outpatient analysis:

- CT Department of Insurance most common outpatient hospital service lists²¹.
- Medicare rules for assigning outpatient services to payment methodologies and within the APC methodology to specific APCs²².
- CT hospital discharge data from the CT Hospital Information Management Exchange (CHIME)²³ database as provided to us under a data use agreement by YNHHS, for FY2016.
- CT hospital "Twelve Month Actual Filing" data filed with OHCA, for FY2015²⁴. Tabs within the Filing are referred to as "Reports" and have a number, such as Report 165.
- CT Medicaid fee schedules and hospital outpatient Medicaid Modernization impact analysis by hospital from the DSS website²⁵.
- CT Medicaid freedom of information act (FOIA) request for counts of outpatient market basket services provided July-December 2016 to E-CT Medicaid patients by hospital. Data was requested for the second half of 2016 as

- Medicare APC payment per relative weight units CY2015 to CY2017²⁹.
- Truven MarketScan and Milliman Consolidated Health Cost Guidelines Sources Database claims data for E-CT CY2014 and CY2015³⁰.
- L+MH hospital outpatient service billing and payment (claims) data CY2016.
- Other
 - County to zip code mapping provided by YNH and checked for reasonableness.
 - Data from various sources for commercial outpatient hospital fee trends³¹.

Methodology

Summarize Outpatient Services

Step 1: Create set of outpatient market basket services.

- a. **Identify the payment methodology for top procedures.** Identify the Medicare (and CT Medicaid July 2016+) payment methodology associated with the top outpatient procedures, outpatient surgical procedures, and outpatient imaging procedures listed in the Department of Insurance (DOI) service lists.
- b. **Eliminate HCPCS codes that do not result in a distinct payment.** Eliminate HCPCS codes that are packaged into various APCs and are never or only sometimes distinctly paid and services are not eligible for payment.
- c. **Create a market basket list of APCs and HCPCS codes** (see Table 5).

Step 2: Estimate the distribution of market basket outpatient services by hospital for E-CT patients.

- a. **Identify E-CT (all-payer) CHIME patient emergency department and outpatient surgical discharges.** Using patient residence zip codes, identify the CHIME FY2016 statewide discharges for patients residing in E-CT.
- b. **Identify E-CT Medicaid market basket services.** Using data from a FOIA request, identify the statewide hospitals providing Medicaid market basket services for patients residing in E-CT.
- c. **Identify E-CT Medicare market basket services.** Using the Medicare 5% sample, identify the statewide hospitals providing Medicare market basket services for patient residing in the three counties of E-CT.
- d. **Estimate the distribution by hospital of market basket outpatient services for residents of E-CT for Medicaid, Medicare, and commercial payers by hospital area** (see Exhibit 7).

Calculate Historical and Current Fees

Step 3: Track Medicare average APC fees from CY2015 to CY2017.

- a. **Develop hospital fees** using each hospital's geographic assignment, the wage factor for the geography, and the national fee per APC relative weight unit.
- b. **Weight across hospitals** using each hospitals' proportion of Medicare market basket services, developed from the CY2015 Medicare 5% sample.

Step 4: Track Medicaid average APC fees from July 2015 to CY2017.

- c. **Develop hospital fees** using APC fee data and the hospital outpatient Medicaid Modernization impact analysis from the CT Medicaid website.
- d. **Weight across hospitals** using each hospitals' proportion of Medicaid market basket services, developed using data from the FOIA request.

Step 5: Estimate commercial E-CT fee levels for FY2015 using Truven MarketScan and Milliman Consolidated Health Cost Guidelines Sources Database claims data.

Step 6: Estimate commercial E-CT fee trends from FY2015 to FY2016 using various public sources.

Step 7: Estimate L+MH's commercial hospital outpatient fees levels for FY2016 using billing and payment data provided by L+MH.

Estimate Payer Distribution

Step 8: Estimate the service distribution by payer for the hospitals serving E-CT patients.

- a. **Sum outpatient hospital net revenue by payer for the 13 hospitals.**
- b. **Adjust the distribution from Step 8a for differences in relative fees and impute the service distribution by payer** using the relative fee levels by payer calculated from Steps 4, 5, and 7.

Project Future Fees

Step 9: Project CY2018 Medicare fees by hospital using Medicare proposed wage indices and proposed CBSA assignments. Assume 0.5% increase in APC fee per relative weight unit.

Step 10: Project CY2018 Medicaid fees by hospital using Medicaid proposed wage indices and geographical CBSA assignments. Assume no change in APC fee per relative weight unit.

Step 11: Project CY2018 commercial fees (in total for non-L+MH hospitals). Assume a 4% non-L+MH trend continues for the 2.25 year span between FY2016 and CY2018

Step 12: Find the L+MH FY2018 commercial fee that maintains the FY2016 ratio of L+MH fees to total market fee using the CY2016 historical fees and the projected CY2018 fees. Weight across hospitals using results from Step 3. Weight across payers (same weight for all hospitals) using result of Step 9.

PHYSICIAN CARE

Overview

Physician groups provide services including office visits, surgical procedures, anesthesia services, laboratory services, and other diagnostic and therapeutic services. Physician groups provide these services in several settings including offices, hospitals, skilled nursing facilities, and others. A physician may bill one or several services for a single patient interaction.

Medicare pays for most physician services using a formula that incorporates time and intensity of the service (work), costs of maintaining a practice (practice expense or PE), and costs of malpractice insurance (MP). Each component is quantified using relative value units (RVU) adjusted for geographic variations using geographic practice cost indices (GPCI). Medicare uses a different approach to set fees for laboratory services. The sum of these pieces is then multiplied by a conversion factor to generate the payment for a given service. This is described in the following formula:

$$\begin{aligned} \text{Physician Fee} = & (\text{Work RVU} \times \text{CT Work GPCI}) \\ & + (\text{PE RVU} \times \text{CT PE GPCI}) \\ & + (\text{MP RVU} \times \text{CT MP GPCI}) \end{aligned}$$

CT Medicaid pays for physician services using a fee schedule available on the DSS website. Commercial fee levels vary between payers and between various providers paid by the same payer.

As described below, we created a market basket of HCPCS associated with LMMG's top physician services.

Data

We relied upon the following data sources for our physician analysis:

- LMMG physician billing data for physician services provided from October 2014 – June 2016.
- CT Medicaid fee schedules from the DSS website³².
- CT Medicaid freedom of information act (FOIA) request for counts of market basket physician services provided CY2016 to E-CT patients by LMMG physicians and other physicians by geographical area.
- Medicare 5% sample of Medicare fee for service claims CY2014³³.
- Medicare conversion factors from CY2015 to CY2016³⁴ and for CY2017³⁵.
- Medicare geographic practice cost indices for CY2015³⁶ and from CY2016 to CY2017³⁷.

- Medicare HCPCS payment per relative weight units for CY2015³⁸ and from CY2016 to CY2017³⁹.
- NPI registry data⁴⁰.
- Other
 - County to zip code mapping provided by YNH and checked for reasonableness.
 - Data from various sources for commercial physician fee trends⁴¹.

Methodology

Summarize Physician Services

Step 1: Create set of physician market basket services.

- a. **Rank order by frequency of procedure codes for physician services provided by LMMG.** Count the number of procedures performed at LMMG in June 2016 by HCPCS code and select the most common procedures.
- b. **Eliminate procedure codes that are not for payment purposes or are invalid.**
- c. **Create a market basket list of 25 HCPCS codes** (see Table 6).

Step 2: Calculate the distribution of market basket physician services by payer for services performed at LMMG.

- a. **Map “financial class” that appears in LMMG data to Medicare, Medicaid, commercial, or other** (see Table 7).
- b. **Map each location in LMMG data as “facility” or “non-facility”.** Each location is first mapped to a CMS Location Type using a table provided by LMMG (see Table 8). The CMS Location Type is used to determine if the location is considered “Non-Facility” or “Facility”.
- c. **Calculate the distribution of market basket physician services by payer for E-CT patients for FY2015 and FY2016** (see Exhibit 10). The LMMG data contains all 12 months of FY2015, but only the first 8.5 months of FY2016, because L+MH switched accounting systems mid-June 2016. October 2015 – May 2016 services were annualized to estimate the total services provided in FY2016.
- d. **Calculate Medicaid allowed as a percent of Medicare allowed for market basket physician services.** For market basket services provided to Medicaid patients, calculate the Medicare allowed amounts using the 2017 Medicare fee schedule.

Step 3: Calculate the percent of market basket services provided by LMMG, other E-CT physicians, and non-E-CT physicians.

- a. **Calculate the percent of Medicaid market basket physician services provided by LMMG, other E-CT physicians, and non-E-CT physicians** using data provided by CT Medicaid via a FOIA request.
- b. **Calculate the percent of Medicare market basket services provided by LMMG, other E-CT physicians, and non-E-CT physicians.**
 - i. **Identify E-CT zip codes** (see Table 2).
 - ii. **Identify the E-CT and non-E-CT market basket services by HCPCS code and physician NPI and listed zip code with the Medicare 5% sample.**

³⁸ "CMS-1612-FC." Centers for Medicare and Medicaid Services (CMS). N.p., 13 Nov. 2014. Web. 3 June 2017. <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/PFS-Federal-Regulation-Notices-Items/CMS-1612-FC.html>.

³⁹ "CMS-1654-F." Centers for Medicare and Medicaid Services (CMS). N.p., 19 Jan. 2017. Web. 5 June 2017. <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/PFS-Federal-Regulation-Notices-Items/CMS-1654-F.html>.

⁴⁰ "DataDissemination." CMS.gov Centers for Medicare & Medicaid Services. N.p., 04 Aug. 2016. Web. 22 June 2017. <https://www.cms.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProidentStand/DataDissemination.html>.

⁴¹ List of sources available upon request.

- iii. **Estimate the total volume of E-CT and non-E-CT Medicare market basket services.** “Gross up” the 5% sample of fee-for-service Medicare services to 100% of total Medicare services (fee-for-service and Medicare Advantage).
- iv. **Divide E-CT market basket services between LMMG and other E-CT physicians** using LMMG’s data for LMMG’s portion.

Calculate Historical and Current Fees

Step 4: Develop Medicare fees for CY2015 to CY2017.

- a. **Develop Medicare fees by service, year, and location of service for market basket services paid using work, practice expense (PE), and malpractice (MP) RVUs** from Medicare fee data.
- b. **List Medicare fees by service and year for market basket laboratory services** using Medicare fee data.

Step 5: Calculate Medicare trends. Weight the fees developed in Step 4 by LMMG’s distribution of market basket services across all time periods in the LMMG billing data.

Step 6: Develop Medicaid fees for FY2016 to now using Medicaid fee data. Note: the data shows that there have been no changes since the beginning of FY2016.

Step 7: Compare Medicaid fees to Medicare fees. “Reprice” LMMG’s market basket Medicaid services using CY2017 Medicare fees. Calculate the ratio of Medicaid fees to Medicare fees.

Project Future Fees

Step 8: Project CY2018 Medicaid fees for LMMG. Medicaid fees have remained flat since September 2015. There are no announcements that indicate that Medicaid fees will significantly change between now and CY2018.

Step 9: Project CY2018 Medicare fees for LMMG. Medicare fees have changed very modestly from CY2015 to CY2017. There are no announcements that indicate that Medicare fees will significantly change between now and CY2018.

Step 10: Project CY2018 commercial fee increase for the market. Based on a review of recent trends and trend predictions, assume a 4% non-L+MH trend continues for the 2.25 year span between FY2016 and CY2018

Step 11: Find the LMMG FY2018 commercial fee that maintains the FY2016 ratio of LMMG fees to total market fees. Unless there are changes in Medicaid and Medicare fee levels or changes in payer mix, LMMG will be able to maintain its fee ratio to the market if its commercial fee increases are the same as the market’s commercial fee increases.

ESTIMATION CHALLENGES

In order to prepare the Cost and Market Impact Review, the independent consultant must estimate current and future prices for L+MC and for the eastern CT market (Tolland, Windham, and New London counties). Here we note important challenges inherent in the estimation process. Because of these challenges, actual current or future prices may vary from our estimates.

Lack of Publicly Available Data

Healthcare prices paid by private payers are generally not publicly available. By contrast, charges defined by hospital “charge masters” are available on the OHCA website⁴². Virtually no payer, however, pays the charges in these reports. Payers, including Medicare, Medicaid, and commercial insurance companies, declare or negotiate their prices. These negotiated prices often have little relationship to the reported charges, and may vary substantially from payer to payer. While prices (inclusive of patient cost sharing) are the “true cost” of care, hospitals and physician groups are not required to reveal the actual prices for the care that they provide. Therefore, we estimated historical prices from various public and non-public data sources. Connecticut has been working on developing an all payer claims database (APCD) for some time. We confirmed that at the time of this project, APCD data was not available⁴³. Complete APCD data, if available in future years, will provide additional precision to our estimates of commercial prices.

Recent and Future Price Increases are Unknown

The goal of assuring that L+MC’s future price increases per unit service (fees) do not exceed the market fee increases requires knowledge of recent and future fee increases in the market. Future fee increases are often unknown and may be subject to disruptive changes, such as a significant change in a government fee schedule. Furthermore, for commercial insurance, it may take months to years for public and non-public data sources to become available for the estimation of recent fee increases. We have made estimates of recent and future changes and will adjust them as further data becomes available.

Reliance on Data from Financial Reports

For hospital inpatient discharges, we estimate FY2016 prices using hospital net revenue as reported by the hospitals. The reported net revenue is the most recent (through September 2016), comprehensive (all patients and payers), and consistent (all CT hospitals) data source for estimating hospital prices. Reported net revenue, however, is subject to accounting adjustments that are not necessarily related to services rendered in the reporting period and the prices for the reporting period services. For example, there may be an adjustment for an over- or under-estimate of the prior year’s net revenue. We have implicitly assumed that the adjustments are minor and/or “cancel-out” (negatives offset positives) across the hospitals within a region.

Changes in Payer Mix

Because different payers may pay different fees, changes in payer mix can affect a provider’s fee across all payers, aside from any individual fee changes by payer. Therefore, the calculation of an allowed fee increase requires estimates of payer mix by hospital or group of hospitals. For example, Medicaid typically has the lowest fee and therefore a hospital that decreases Medicaid patient volume will collect higher average fees per patient without any fee increase. Conversely, a hospital that increases its Medicaid patient volume will need to increase its commercial fees in order to maintain its average fees level. We have made estimates of changes in payer mix.

Changes in Provider Mix

Because different providers may charge different fees, changes in provider mix can affect the market’s fee, aside from any individual fee changes by provider. Therefore, the calculation of market fee increases requires estimates of the past and future provider mix for the market. For example, if patients shift to a hospital or group of hospitals with higher fees, then the

⁴² “Hospital Pricemaster Filings” *Department of Public Health*. State of Connecticut, n.d. Web. 4 May 2017. <http://www.ct.gov/dph/cwp/view.asp?a=3902&q=526224>.

⁴³ E-mail from Robert Blundo, acting Director of Access Health, 4 Apr 2017.

hospital fee for the market will increase without any hospital-level fee increases. We have made estimates of changes in provider mix.

LIMITATIONS AND CAVEATS

In performing our analysis, we relied on data and information as described above. We have not audited or verified this data and other information. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. The rate cap estimates are based on assumptions which we have summarized in our report. Our estimates should be viewed as best estimates. For some of the assumptions, there are reasonable alternative assumptions which would result in higher and lower estimates for the rate caps.

This work product was prepared to satisfy Conditions 22 b, c, d, and e of the Agreed Settlement between YNHHS and the Commissioner of the Department of Public Health. It may be inappropriate to rely upon it for any other purpose. We were required to follow the terms of the Agreed Settlement, including reporting to and taking additional direction from the Commissioner. We believe we have satisfied the terms in the Agreed Settlement.

As required by the Agreed Settlement, YNHHS engaged Milliman as an independent consultant. Milliman agrees that the work product may be provided to OHCA and the independent monitor that monitors YNHYS's compliance with the Agreed Settlement. Milliman does not intend to benefit any third party recipient of work product, even when Milliman consents to the release of work product to such third party.

The American Academy of Actuaries requires its members to identify their qualifications in communications. Tia Goss Sawhney and Bruce Pyenson are actuaries employed by Milliman and meet the Academy's qualifications to issue this communication.

Dear Kim,

As copied below, we submitted a CMIR for Lawrence + Memorial Corporation Cost and Market Impact Review. The CMIR was dated August 10, 2017.

As documented in multiple portions of the CMIR, our calculations relied upon Medicare's proposed 2018 rules. Under the proposed 2018 rules, L+M Hospital was being assigned a Connecticut wage index instead of the higher Nassau/Suffolk County (NY) wage index that it has been assigned in recent years. The reassignment would have reduced L+M Hospital's 2018 Medicare fees. But, under the final rules and the correction notice recently released by Medicare, L+M Hospital will continue to be assigned to Nassau/Suffolk County for 2018.

We are therefore revising the CMIR and L+M's 2018 commercial fee caps. Since there is no longer a need for commercial fees to offset Medicare fee reductions, the revised 2018 commercial fee cap will be lower than the fee cap in the August 10 CMIR.

We plan to have the revised CMIR ready for our Wednesday meeting with you. In the interim, can you remove the August 10 CMIR from your website or mark it "pending revision"?

Thank you,
Tia

Cc: Bruce Pyenson <bruce.pyenson@milliman.com>
Subject: RE: L+M CMIR question

Dear Karen,

As you have highlighted below, our fee caps are for the cumulative commercial fee increase between FY2016 and FY2018, a 2.25 year period. Specifically, the fee caps for the 2.25 year period are 16.5% for hospital inpatient, 11.6% for hospital outpatient, and 8.0% for physician services. We provide the equivalent annual fee increases in order to facilitate comparisons to annual market and national fee increases. The cumulative fee cap allows LM+C the *potential* to regain market fee position lost during the October 2015 to December 2017 contract freeze period.

I realize now that the “no change” entries in the table below (from the October 11 revised CMIR that is pending further revision) do not make it entirely clear that the revised values are “no change” from the original fee cap and not a fee cap of 0%. I will make the next iteration of the CMIR more clear.

Also, I have attached a memo with the further information that you requested concerning commercial fees.

Tia

Subject: L+M CMIR question

Hi Tia – I’ve been asked to have you provide a clarifying email regarding what can be considered the Bottom Line in the L+M CMIR report draft from OHCA’s perspective. In the report (original and draft) the following wording is included (noting that the #s changed in the draft version):

On page (i) of the Redraft

October 11, 2017 Revision

Prior to this report, we submitted a Cost and Market Impact Review dated August 10, 2017 which relied on the best available data as of late July 2017. As of that time, Medicare had proposed changing Lawrence and Memorial Hospital’s geographic wage index assignment for 2018. The change would have reduced Lawrence and Memorial’s inpatient and outpatient fees for 2018.

More recently, Medicare released final and corrected rules for 2018 which keeps Lawrence and Memorial Hospital’s geographic wage index assignment the same as for 2017 and also changes the assignment for Backus Hospital – another hospital in the eastern Connecticut market. As a result, Lawrence and Memorial’s inpatient and outpatient 2018 Medicare fees are increasing modestly and Backus Hospital’s Medicare fees are increasing more substantially.

Lawrence and Memorial Hospital inpatient and outpatient 2018 commercial fee caps decline as a net result of these changes. The following table summarizes the original and revised fee caps.

Commercial Fee Caps

Service Line	Per Annum FY2016 to CY 2018		Cumulative FY2016 to CY 2018	
	Original	Revised	Original	Revised
Hospital Inpatient	9.6%	7.0%	22.9%	16.5%
Hospital Outpatient	5.8%	5.0%	13.5%	11.6%
Physician	3.5%	No Change	8.0%	No Change

On pages 6-7 of the Redraft

FEE CAPS AND RECOMMENDATIONS

Overview

In this section, in our role as an independent consultant, working to satisfy requirements of the Agreed Settlement, we estimate the fee caps for L+MC’s average commercial fees for hospital inpatient, hospital outpatient, and physician care. According to the Agreed Settlement, fee caps are the highest permitted aggregate increase in L+MC or LMMG fees for CY 2018 relative to FY2016 — a span of 2.25 years from midpoint to midpoint. Fee increases for a particular commercial health plan may be more or less than the cap.

Commercial fee increases within maintained health plan contracts are included in the fee cap. Condition 20 of the Agreed Settlement requires L+MC to maintain health plan contracts that were in effect as of the date of closing (September 8, 2016) through December 31, 2017. Until January 1, 2018, L+MC commercial fees can increase only if there were fee increases already incorporated within these maintained contracts. L+MC must consider these previously negotiated fee increases when setting fees for CY 2018. **According to the Agreed Settlement, the total commercial fee increase, including fee increases within maintained contracts, must not exceed the cumulative fee cap for inpatient, outpatient or physician services**

Hospital Inpatient Fee Cap

We estimate that L+MH could increase its commercial inpatient fees per market basket service +7.0% per annum or +16.5% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +16.5%.^[1]

Hospital Outpatient Fee Cap

We estimate that L+MH could increase its commercial outpatient fees per market basket service +5.0% per annum or +11.6% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +11.6%.

Physician Fee Cap

We estimate that LMMG could increase its commercial physician fees per market basket service +3.5% per annum or +8.0% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the **cumulative fee change cap for the period between FY2016 and CY2018 is +8.0%.**

Tia - As I indicated on our WebEx call, I think there has been some differing take-aways for what the Bottom Line is and we'd like to have cleared up both in a response Email and ultimately in the revised draft to be submitted.

From the highlighted wording above (from your report draft), is it a correct statement to say that, based on the report calculations and assumptions, L+M/LMMG can negotiated prices that can go no higher than the **cumulative cap** (16.5% for inpatient for example) for the upcoming CY 2018 timeframe. Or is it correct to say instead that just for this coming year (CY 2018) they can negotiate only up to 7% for inpatient. Please clarify this as soon as possible. Thanks. Karen

Sincerely,

Karen Roberts

Milliman (we) are serving as the independent consultant under the Agreed Settlement between Yale New Haven Health Services Corporation and the CT Department of Public Health for the transfer of ownership L+MC. We recently calculated the maximum commercial fee increases LM+C could receive for calendar year (CY) 2018 compared to fiscal year (FY) 2016 so as to maintain LM+C's average price per unit of service (fee), relative to the fees of all providers serving eastern Connecticut patients. We reported the maximum commercial fee increases in the CMIR, last revised October 9, 2017.

In my presentation at OHCA on October 11, I demonstrated that Lawrence + Memorial Corporation (L+M) will maintain the ratio of its average fees¹ relative to the average market fees (fee ratios) for inpatient facility, outpatient facility, and physician market basket services if its average fees increases match the market average fee increases – irrespective of L+MC's initial FY2016 fee ratios. For example, *if LM+C fees are 90% of market fees and both LM+C and market fees increase 5%, then LM+C fees will still be 90% of market fees. Likewise, if LM+C fees are 110% of market fees and LM+C and market fees each increase 7% the LM+C fees will still be 110% of market fees.*

After reviewing the CMIR, the OHCA team requested more information on L+M's FY2016 fee ratios and how we developed them.

For inpatient fee ratios, we relied upon public reports that each Connecticut hospital files with OHCA. The OCHA reports provide the data necessary to calculate the case mix adjusted discharge average fee per discharge by payer for each hospital serving patients in eastern Connecticut. For the average market fee, we weighted case-mix adjusted average fee per discharge across hospitals and payers according the percentage of total market basket discharges each payer and hospital provides to eastern Connecticut patients using CHIME data, another public data source. The inpatient fee ratio was then calculated as L+MC's average fee divided by the average market fee.

¹ Unless specified as commercial, Medicare, or Medicaid, "average fees" refer to fees for market basket services provided to eastern Connecticut patients across all payers (commercial, Medicare, and Medicaid) and Connecticut providers.

Medicare and Medicaid outpatient and physician fees are public and followed a methodology similar to that for inpatient. Our development of commercial outpatient and physician FY2016 fee ratios, however, is different due to the lack of public data..

While the OHCA inpatient reports contain fee information for all hospital discharges in Connecticut, no such database exists for commercial outpatient and physician fees. The Connecticut All Payer Claims Database (APCD) may be such a source in the future, but we were informed by Robert Blundo, acting Director of Access Health (by email April 2, 2017) that APCD data would not be available this year. Consequently, we used other sources that are not comprehensive. If the Connecticut APCD data becomes available in future years, we may incorporate it into our CMIR updates.

For the 2017 CMIR, we used non-comprehensive market fee sources as described in this paragraph. For L+MC's commercial fees we obtained proprietary 2016 data from L+MC's hospital and physician billing system health insurance claims data. For commercial market fees we examined two, non-duplicative Milliman-licensed datasets, Truven MarketScan and the Milliman Consolidated Health Cost Guidelines Sources Database (CHSD). The L+MC data was comprehensive for L+MC services, and it is proprietary to L+MC because it consists of L+MC negotiated fees. The Milliman licensed data is for services provided in CY2015 to a substantial population of commercially insured eastern Connecticut patients and allows us to credibly estimate FY2016 commercial market rates for eastern Connecticut patients. However, the population underlying the data, about 300,000 people, may not be perfectly representative of the entire eastern Connecticut commercial population. Sources of potential imperfect representation include the inclusion of some people from outside eastern Connecticut² and uncertainty as to whether all commercial payers were proportionately represented. Additionally, there was somewhat of a time mismatch as 2015 was the most recent data available for the market and we needed to apply trend estimates to convert the CY2015 fees to FY2016 fees.

Fortunately, as we presented to OHCA, the key to maintaining a fee ratio overtime is assuring that LM+C fee increases do not exceed the market fee increases. The fee cap calculations do not require an exact estimate of the initial FY2016 commercial market fees or the resulting commercial market fee ratio. We tested this principle, by inserting a range of FY2016 commercial market fee values, centered on our commercial market fee estimate, into our fee cap calculation. A 20% change in the outpatient market fees for FY2016 (a big change) changes the cumulative fee cap by approximately 0.2% -- approximately 0.1% per annum. If we were to release our estimate of the commercial market fees, we would release them in the form of a range.

Public Disclosure

L+M commercial outpatient and physician market basket fees originate from proprietary data from L+M's billing system, which represent negotiated fees, and are non-public information. Therefore, per paragraph 22e of the Agreed Settlement, we consider the commercial fees and fee ratios to be confidential and non-disclosable without the consent of YNHHS and L+M.

² Due to HIPAA de-identification requirements, data for eastern Connecticut patients overlaps with data for central Connecticut and western Massachusetts patients.

Likewise, we consider the all-payer outpatient and physician fee ratios to be confidential as the all-payer fee ratios and the (public) Medicare and Medicaid ratios, a reader to “back into” the commercial fee ratios.

Caveats

Further information is available in our Lawrence + Memorial Corporation Cost and Market Impact Review, most recently revised October 11, 2017.

The American Academy of Actuaries requires its members to identify their qualifications in communications. I am an actuary, employed by Milliman, and meet the Academy's qualifications to issue this communication.

Subject: RE: L+M Monitor Requirement - Six Month Report - plan and question

Dear Kim –

I wanted to send across a note to inform you of our plan to fulfill our requirements related to our bi-annual reporting of YNHHS's Conditions under their Affiliation Agreement with Lawrence + Memorial. 15-32033-CON Condition 16 speaks to D&T's bi-annual written report summarizing activities from the prior six month period. In order to capture YNHHS's filings due November 30 and completing the first reporting period of the agreement, we intend to complete a site-visit and file our report on December 4, 2017. In doing so, we will monitor the reporting that YNHHS must adhere to for the first reporting period.

Please feel free to reach out to me with any questions. I have included a quick explanation of the Condition below, for your reference.

*Thanks,
Kelly*

<p>15-32033-CON Condition 16: The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall</p>	<p>D&T will plan, at a minimum, two site visits per year. The site visits</p>
--	---

<p>conduct on-site visits of L+MH on no less than a semi-annual basis^[1] to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHSO will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.</p>	<p>will include meetings with Administration/Leadership and review of any documentation requested by D&T. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHSO, OHCA, and FLIS. Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.</p>

Submitted to Comply with Docket # 15-32033-CON: Conditions 25, 32f(i), and 32f(ii) and Docket # 15-32032-CON: Condition 7c

**Synergy Savings Report
Semi-Annual Period: April 1, 2017 to September 30, 2017**

OHCA Conditions are as follows for Docket # 15-32033-CON:

25. L+M shall attain cost savings as a result of the affiliation with YNHHS as described in the CON application.

32f(i). L+M and YNHHS shall provide a narrative update on the progress of the implementation of the five-year plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives.

32f(ii). L+M and YNHHS shall provide a report identifying L+M and L+MH cost savings totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A, B, C, D, E, F, G, H, I, J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these expense categories.

OHCA Condition is as follows for Docket # 15-32032-CON:

7c. YNHHS and L+M shall submit a detailed and comprehensive document showing the five-year-plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices cross LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

Narrative for Docket # 15-32033-CON: Conditions 25, 32f(i), and 32f(ii) and Docket # 15-32032-CON: Condition 7c

As outlined in the CON document for Docket # 15-32033-CON, L+M and YNHHS anticipated extensive cost savings as a result of the affiliation stemming from supply chain discounts and efficiencies, and economies of scale related to IT, finance, insurance, equipment, supplies, and other administrative services.

In the March 7, 2017 filing with OHCA, L+M and YNHHS projected \$4,138,484 in savings for FY 2017. Actual cost savings achieved in the full year FY 2017 as well as the second six months of the year are provided in the table below according to the major expense categories outlined by OHCA and Report 175.

Categories	Semi-Annual Reporting Period: 4/1/17-9/30/17			Fiscal Year 2017: 10/1/16-9/30/17		
	Projected Savings	Actual Savings	Variance	Projected Savings	Actual Savings	Variance
Wages	\$800,700	\$3,390,908	\$2,590,208	\$1,601,400	\$4,494,042	\$2,892,641
Fringe Benefits	\$141,840	\$963,807	\$821,967	\$283,680	\$1,294,343	\$1,010,662
Contractual Labor Fees	\$0	\$0	\$0	\$0	\$0	\$0
Medical Supplies and Pharmaceutica	\$670,000	\$1,186,367	\$516,367	\$1,340,000	\$1,866,236	\$526,236
Depreciation/Amortization	\$0	\$0	\$0	\$0	\$0	\$0
Interest Expense	\$0	\$0	\$0	\$0	\$0	\$0
Malpractice Expense	\$0	\$0	\$0	\$0	\$0	\$0
Utilities	\$0	(\$52,492)	(\$52,492)	\$0	\$104,562	\$104,562
Business Expense	\$456,702	\$910,039	\$453,337	\$913,403	\$1,715,485	\$802,082
Other Operating Expense	\$0	\$0	\$0	\$0	\$0	\$0
Total Synergies	\$2,069,242	\$6,398,630	\$4,329,388	\$4,138,484	\$9,474,667	\$5,336,183

Note: Results for the second six months of FY 2017 (the period 4/1/17-9/30/17) were calculated by taking full year results and subtracting results presented previously for the period 10/1/16-3/31/17. (Any changes that may have affected results previously reported for the period 10/1/16-3/31/17 are incorporated into the full year results. Such changes would have been due to updates to financial information received after submission of the previous report.)

L+M's actual savings of \$9,474,667 for FY2017 have surpassed those projected by \$5,336,183. Actual savings exceeded projected in every major expense category where savings were anticipated. Below includes a brief narrative for the relevant major expense categories with additional detail provided in the Tables that follow.

1. Wages and Fringe Benefits

Corporate services integration in IT, finance, and other administrative areas were anticipated to be the primary driver of savings in the wages and fringe benefit expense category. During the second half the year, savings in wages and fringe benefits surpassed expectations due to successful integration efforts in several select business units. Management of vacancies and attrition to achieve efficiencies was a key focus for L+M and OHCA, as outlined in the Conditions in the Agreed Settlement. A YNHHS vacancy review process and management

program newly instituted at L+M has resulted in significant savings for L+MH. LMMG also experienced savings through provider attrition.

2. *Medical and Supplies Expense*

Actual savings within the medical supplies and pharmaceutical expense category were in-line with those projected. As anticipated, much of the savings were due to L+M becoming part of the system-wide group purchasing organization (GPO) since the affiliation and receiving reduced pricing under system contracts. The impact was experienced in a number of areas including surgical services, pharmacy, ancillary services, and cardiology/interventional radiology. L+M was also able to save on medical equipment service contracts through system pricing.

3. *Utilities*

Although unanticipated, L+M achieved energy savings since coming into the YNHHS system by renewing its utilities contract to reduce spending on electricity.

4. *Business Expense*

Within the business expense category, L+M and YNHHS anticipated savings as a result of reduced consulting fees and expenses from outside purchases services. Since the affiliation, L+M has been able to use system resources and save in these areas through a reduction in outside legal contract services, marketing agency services, and physician recruitment agency services. In addition, other opportunities have emerged and L+M has experienced savings due to a reduction in travel expenses by personnel; GPO pricing in IT, non-clinical functions, and facilities; better insurance and treasury options that reduced cost, yet improved coverage; and reduced bank fees through adoption of system bank fee arrangements.

L+M and YNHHS continue to explore opportunities for additional savings in the above major expense categories and other areas.

Lawrence + Memorial Healthcare (including L+M Hospital and LMMG)

Semi-Annual Reporting Period: 4/1/17-9/30/17 and Full Fiscal Year 2017

COST SAVINGS INVESTMENT	DESCRIPTION OF AND RATIONALE FOR PROJECT	SAVINGS AMOUNT 4/1/17 - 9/30/17	SAVINGS AMOUNT 10/1/16 - 9/30/17	APPLICABLE EXPENSE CATEGORY
Supply Chain Savings / Information Technology Services (ITS) Savings				
Supply Chain Savings (including ITS)	Since the affiliation, L+M has become part of the system-wide GPO (group purchasing organization) and began receiving more optimal pricing under the YNHHS contracts or through combined volume tiers. Supply chain savings were experienced in a number of areas including ITS, surgical services, pharmacy, ancillary services, and cardiology/interventional radiology. L+M was also able to achieve savings on medical equipment service contracts through system pricing.	\$1,732,110	\$2,627,963	Medical Supplies and Pharmaceuticals and Business Expense
Clinical and Business Practices Integration Across LMC/YNHHS and LMMG/NEMG				
Labor - Attrition, Integration Synergies, and Vacancy Management	To increase savings, FTEs that remained open during the entire prior 12 month period were not filled - the goal being to accomplish labor savings without impacting currently employed staff. LMMG also achieved savings through provider attrition. In addition, a number of positions within Corporate Services were realigned to better employ existing staff and capabilities across the company while aligning functions and removing redundancies. Also, after the affiliation, the standard practice of "Vacancy Review" employed at YNHHS (i.e., review by a committee of senior HR and operational leadership of all vacant positions before posting for hire) was implemented at L+M. This process enabled L+M to successfully redesign and better manage the staffing and types of labor in various areas to achieve savings without impacting currently employed staff.	\$4,354,715	\$5,788,384	Wages and Fringe Benefits
Legal Services	As part of the affiliation, YNHHS was able to absorb work previously completed by outside legal firms for both L+M and LMMG utilizing the YNHHS in-house legal team. This resulted in costs savings for L+M.	\$0	\$281,239	Business Expense
Banking, Insurance, Treasury Services	As a result of the affiliation, L+M was able to use YNHHS's existing banking, insurance, and treasury options to negotiate better arrangements that combined to improve coverage, reduce costs and increase operational efficiency.	\$207,545	\$415,089	Business Expense
Consulting	As part of the affiliation with NEMG, LMMG was able to reduce outside consulting services expenses.	\$142,639	\$142,639	Business Expense
Marketing Services	Prior to the affiliation, L+MH used the services of an outside creative agency for advertising and marketing services. Since the affiliation, this work has been incorporated into work already being completed at the YNHHS system level.	\$46,500	\$84,896	Business Expense
Travel Expense	An initiative at L+M to create more visibility and to target reduction of traveling expense incurred by personnel resulted in decreases in annual cost.	(\$43,943)	\$8,795	Business Expense

Detailed narrative due to OHCA with summary page 60 days following reporting period. Due to Regulatory 30 days prior.

Submitted to Comply with Docket # 15-32033-CON: Condition 10

Notice of Amendment to Policy

OHCA condition is as follows:

10. For three (3) years following the Closing Date, YNHHS shall provide written notice to OHCA of any modifications, amendment or revision to the charity care, indigent care and community volunteer services policies of L+MH with thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population. *Legal and Factual Basis: Stat. §§ 19a-613(b), 10a-639(a)(5),(6) & (11); FF 26*

Narrative for Condition 10:

The YNNHS Financial Assistance (charity and free care) policy was adopted by L+MH in January, 2017 as specified in Condition 9 of Docket # 15-32033 which states:

Following the Closing Date, L+MH will adopt YNHHS's financial assistance (charity and free care) policies or adopt other policies that are at least generous and benevolent to the community as L+MH's current policies, consistent with state and federal law. These policies shall be posted on the website pages of L+MH and as additionally required by applicable law. OHCA is imposing this Condition to ensure continued access to healthcare services for the patient population.

The policy was posted on the L+MH website, and a copy of the new policy accompanied the notification to OHCA on February 17, 2017.

The YNHHS Financial Assistance (charity and free care) policy was amended in June, 2017, and the amended policy covered all YNHHS hospitals, including L+M Hospital. The amended policy was posted on the L+MH website at that time. The YNHHS Financial Assistance policy continues to be at least as generous and benevolent to the community as L+MH policies in effect at the Closing Date. The amendment further defined the eligibility for discounted care, clarified terminology regarding hospital bed funds, and updated the Federal Poverty Guidelines to the 2017 standards.

The updated policy is included as an attachment to provide OHCA with written notice of this amendment to the L+MH Financial Assistance policy.

Date Effective: 09/20/2013 1/1/2017 Lawrence + Memorial Hospital and Westerly Hospital	Date Reviewed/Revised: 01/21//2015, 09/30/2016, 12/16/2016, 6/1/2017	
Distribution: MCN Policy Manager	Policy Type (I or II): Type I	
Supersedes: Yale New Haven Hospital Financial Assistance Programs for Hospital Services (NC:F-4) Bridgeport Hospital Financial Assistance Programs for Hospital Services (9-13) Greenwich Hospital Overview of Financial Assistance Programs for Hospital Services Lawrence + Memorial Hospital and Westerly Hospital Charity Care, Financial Assistance, Free Bed Fund Policy		

PURPOSE

Yale New Haven Health System (“YNHHS”) recognizes that patients may not be able to pay for medically necessary health care without financial assistance. Consistent with its mission, YNHHS is committed to assuring that the ability to pay will be considered carefully when setting amounts due for emergency and other medically necessary hospital services.

In furtherance of its mission, YNHHS has established the Financial Assistance Programs (“FAP”) to assist individuals with paying for emergency and other medically necessary care. The objectives of the FAP are to:

- (i) Specify all financial assistance available under the FAP;
- (ii) Provide clear information regarding eligibility criteria, application requirements and the method for applying for financial assistance;
- (iii) Describe the basis for calculating amounts charged to FAP-eligible patients for emergency or other medically necessary care; and
- (iv) Describe the steps YNHHS hospitals take to widely publicize this FAP within the communities served by YNHHS.

Financial Assistance Programs Policy

APPLICABILITY

This policy applies to each licensed hospital affiliated with YNHHS, including Bridgeport Hospital (“BH”), Greenwich Hospital (“GH”), Lawrence + Memorial Hospital (“LMH”), Yale New Haven Hospital (“YNHH”) and Westerly Hospital (“WH”) (each a “Hospital”).

POLICY

I. Scope and Provider List

A. **Emergency and Other Medically Necessary Care.** The FAP apply to emergency and other medically necessary care, including inpatient and outpatient services, billed by a Hospital. The FAP exclude: (a) private room or private duty nurses; (b) services that are not medically necessary, such as elective cosmetic surgery; (c) other elective convenience fees, such as television or telephone charges, and (d) other discounts or reductions in charges not expressly described in this policy.

B. **Provider List.** A list of providers who provide emergency and other medically necessary care at a Hospital can be found here:
https://www.ynhh.org/~media/files/ynhhs/forms/financial/011117/ynhh_fap_policy_list_2017.pdf

The list indicates if the provider is covered under the FAP. If the provider is not covered under this FAP, patients should contact the provider’s office to determine if the provider offers financial assistance and if so what the provider’s financial assistance policy covers.

II. Financial Assistance Programs and Eligibility

Financial assistance is available to U.S. citizens and residents who complete the required financial assistance application and meet the additional eligibility requirements described below.

A. **Free Care.** The Free Care program provides care at no cost to Hospital patients with gross annual family income less than or equal to 250% of the Federal Poverty Guidelines (*see Attachment 1*). Any patient that may in the Hospital’s discretion qualify for State medical assistance will be required to have a determination by the State, within the last six months.

In addition, YNHHS on behalf of BH, GH, and YNHH uses a third party screening tool to assist in identifying individuals with self-pay balances who have not applied for financial assistance, but whose income is less than or equal to 250% of the Federal Poverty Level (*i.e.*, eligible for free care). If a patient is identified through this process outstanding hospital balances may be adjusted to charity (free) care.

B. **Discounted Care.** If a Hospital patient does not have insurance and his or her gross annual family income is between 251% - 550% of the Federal Poverty Level the Hospital will discount care to the Hospital’s AGB (as defined in Section III below and on *Attachment 1*).

Financial Assistance Programs Policy

- C. **Hospital Bed Funds.** You may be eligible to receive financial assistance from hospital bed funds, which are funds that have been donated to the Hospital to provide medical care to patients at a hospital. There are no specific income limits for receipt of hospital bed funds. Eligibility is determined on a case-by-case basis by the fund nominators based on financial hardship. All patients who fill out the requisite financial assistance application will automatically be considered for hospital bed funds.
- D. **Other Hospital-Specific Financial Assistance programs.**
- (i) **Yale New Haven Hospital Me & My Baby Program.** This program is available to Yale New Haven Hospital patients. It provides prenatal, labor and delivery services, and some post-partum care free of charge. You may be eligible if you live in New Haven County, do not have any type of health insurance and your family earns less than 2 ½ times the Federal Poverty Level. For more information or to request an application see our representatives at the Yale New Haven Hospital Women’s Center or call 203-688-5470.
 - (ii) **Greenwich Hospital Outpatient Clinic** serves patients insured by Medicare, Medicaid, or insurances offered through Access Health CT and whose family income is less than 4 times the Federal Poverty Level. Further, the clinic provides discounted care to individuals who are not eligible for insurance and who reside in Greenwich and have family income less than 4 times the Federal Poverty Level. For more information or to obtain an application please call 203-863-3334.

III. Limitation on Charges - Amounts Billed to FAP-Eligible Patients

Where there is an award of financial assistance that does not cover 100% of YNHHS charges for the service, the amounts charged to patients eligible for financial assistance under this Policy will not be more than the amount a Hospital generally bills patients who have insurance coverage for such care (“AGB”). YNHHS calculates AGB annually by Hospital using the “look back method” and based on Medicare fee-for-service rates, including Medicare beneficiary cost-sharing amounts and all private health insurers that pay claims to each Hospital facility for the prior fiscal year. YNHHS may apply the percentage discount by Hospital, or may elect to use the percentage discount most favorable to YNHHS patients. AGB is set forth on Attachment 1 hereto.

As used herein, the “amount generally billed” and “look back method” have the meanings set forth in Internal Revenue Code §501(r)(5) and 1.501(r)-5.

IV. Method of Applying for Assistance

To be eligible for financial assistance, the patient must complete the requisite application for financial assistance (“Application”). The Application sets forth (i) FAP available programs and eligibility requirements, (ii) the documentation requirements for determinations of eligibility, and (iii) the contact information for FAP assistance. The Application also specifies that (i) the Hospital will respond to each Application in writing, (ii) patients may re-apply for financial assistance under the FAP at any time, and (iii) additional free bed funds become available every year. Hospitals may not

Financial Assistance Programs Policy

deny financial assistance under the FAP based on failure to provide information or documents that the FAP or the Application do not require as part of the Application.

YNHHS Hospitals will make reasonable efforts to determine eligibility and document any determinations of financial assistance eligibility in the applicable patient accounts. Once Hospital identifies a patient is FAP-eligible, Hospital shall:

- (i) Provide a billing statement indicating amount the individual owes as a FAP-eligible patient, including how the amount was determined and states, or describes, how the individual can get information regarding the AGB for the care;
- (ii) Refund to the individual any amount he or she has paid for the care that exceeds the amount he or she is determined to be personally responsible for paying as a FAP-eligible individual, unless such excess amount is less than \$5, or such other amount set by the IRS; and
- (iii) Take reasonable measures to reverse any extraordinary collection actions.

V. Non-Payment – Legal Action

A Hospital (and any collection agency or other party to which it has referred debt) will not engage in any extraordinary collection action (“ECA”) before making reasonable efforts to determine if a patient or any other individual having financial responsibility for a self-pay account (Responsible Individual(s)) is eligible for financial assistance under this FAP. Any ECA must be approved by the Vice President of Corporate Business Services or his designee(s), prior to the initiation of any ECA.

The Hospital will follow its A/R billing cycle in accordance with internal operational processes and practices. As part of such processes and practices, the Hospital will, at a minimum, notify patients about its FAP from the date care is provided and throughout the A/R billing cycle (or during such period as is required by law, whichever is longer) by:

1. All patients will be offered a plain language summary and an application form for financial assistance under the FAP as part of the discharge or intake process from a Hospital.
2. At least three separate statements for collection of self-pay accounts will be mailed or emailed to the last known address of the patient and any other Responsible Individual(s); provided, however, that no additional statements need be sent after a Responsible Individual(s) submits a complete application for financial assistance under the FAP or has paid in-full. At least 60 days shall have elapsed between the first and last of the required three mailings. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made. All single patient account statements of self-pay accounts will include but not limited to:
 - a. An accurate summary of the hospital services covered by the statement;
 - b. The charges for such services;

Financial Assistance Programs Policy

- c. The amount required to be paid by the Responsible Individual(s) (or, if such amount is not known, a good faith estimate of such amount as of the date of the initial statement); and
 - d. A conspicuous written notice that notifies and informs the Responsible Individual(s) about the availability of financial assistance under the FAP including the telephone number of the department and direct website address where copies of documents may be obtained.
3. At least one of the statements mailed or emailed will include written notice that informs the Responsible Individual(s) about the ECAs that are intended to be taken if the Responsible Individual(s) does not apply for financial assistance under the FAP or pay the amount due by the billing deadline. Such statement must be provided to the Responsible Individual(s) at least 30 days before the deadline specified in the statement. A plain language summary will accompany this statement. It is the Responsible Individual(s) obligation to provide a correct mailing address at the time of service or upon moving. If an account does not have a valid address, the determination for "Reasonable Effort" will have been made.
 4. Prior to initiation of any ECA, an oral attempt will be made to contact Responsible Individual(s) by telephone at the last known telephone number, if any, at least once during the series of mailed or emailed statements if the account remains unpaid. During all conversations, the patient or Responsible Individual(s) will be informed about the financial assistance that may be available under the FAP.
 5. Subject to compliance with the provisions of this policy, a YNHHS Hospital may take the ECA listed on Attachment 2 of this Policy to obtain payment for medical services provided.

VI. Policy Availability

Copies of the FAP, a plain language summary of the FAP and FAP application are available at <https://www.ynhhs.org/billing-insurance.aspx>.

Each Hospital makes available copies of the FAP, a plain language summary of the FAP and FAP application on request, free of charge, by mail or in the Hospital Emergency Department and at all points of registration in paper form in English and the primary language of any population with limited English proficiency that constitutes 5% or more of the population the Hospital serves. See Attachment 3 for a list of languages.

Contact Corporate Business Services toll free at (855) 547-4584 for information regarding eligibility or the programs that may be available to you, to request a copy of the FAP, plain language summary of the FAP, FAP application form, or Billing and Collection Policy to be mailed to you, or if you need a copy of the FAP, plain language summary, or FAP application form translated to a language other than English. Further, patients may ask Patient Registration, Patient Financial Services and Social Work/Case Management about initiating the FAP application process.

Financial Assistance Programs Policy

Further efforts to widely publicize the FAP include publishing notices in newspapers of general circulation; providing written notice of FAP in billing statements; providing notice of FAP in oral communications with patients regarding the amount due; and holding open houses and other informational sessions.

VII. Management Oversight Committee

The FAP will be overseen by a management oversight committee chaired by a Senior Vice President, YNHHS and comprised of representatives from Corporate Business Services, patient financial services, patient relations, finance, and the medical staff, as necessary. This committee will meet at least quarterly.

VIII. Compliance with State Law

Each Hospital shall comply with relevant State laws, including, without limitation, Connecticut General Statutes governing Collections by Hospitals from Uninsured Patients and Rhode Island *Statewide Standard for the Provision of Charity Care* set forth in Section 11.3 of the Rhode Island Department of Health Rules and Regulations Pertaining to Hospital Conversions (the “RI Regulations”) and the *Statewide Standard for the Provision of Uncompensated Care* set forth in Section 11.4 of the RI Regulations.

EXTRAORDINARY COLLECTION ACTIONS

Property Liens

Liens on personal residences are permitted only if:

- a) The patient has had an opportunity to apply for free bed funds and has either failed to respond, refused, or been found ineligible for such funds;
- b) The patient has not applied or qualified for other financial assistance under the Hospital's Financial Assistance Policy, to assist in the payment of his/her debt, or has qualified, in part, but has not paid his/her responsible part;
- c) The patient has not attempted to make or agreed to a payment arrangement, or is not complying with payment arrangements that have been agreed to by the Hospital and patient;
- d) The aggregate of account balances is over \$10,000 and the property(ies) to be made subject to the lien are at least \$300,000 in assessed value; and
- e) The lien will not result in a foreclosure on a personal residence.

Submitted to Comply with Docket # 15-32033-CON: Condition 6

**Top Most Frequent MS-DRG and CPT Codes for L+MH
Annual Period: October 1, 2016 to September 30, 2017**

OHCA will receive an annual report of the total price per “unit of service” for MS-DRG and CPT codes each fiscal year through the end of FY 2019.

Condition 6. Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per “unit of service” for each of the top 25 most frequent MS-DRGs (inpatient) and the top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period September 1, 2015 – August 30, 2016. The Applicant shall provide the same information for three (3) full fiscal years thereafter within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.

**Submitted to Comply with Affirmations in Docket # 15-32033-CON and
Docket # 15-32032-CON**

**Affirmations
Semi-Annual Period: 10/1/16 – 3/31/17**

OHCA Conditions are as follows:

Docket # 15-32033 Condition 20a/20b/32c	L+MH and LMMG commercial health plan contracts in place as of the Closing are/were maintained through the remainder of their terms, and any new contracts are consistent with the commitments of paragraphs 20, 21 and 22 of the Agreed Settlement.
Docket # 15-32032 Condition 1/7a	
Docket # 15-32033 Condition 32e	L+M has adopted the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof.
Docket # 15-32033 Condition 18/32a	L+M shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need. All L+MH services have been continued as required by the terms of the Agreed Settlement.
Docket # 15-32033 Condition 24/32d	No L+M physician office has been converted to hospital-based status.
Docket # 15-32032 Condition 5/7b	
Docket # 15-32033 Condition 32g	All labor and employment commitments described in the Agreed Settlement continue to be satisfied.
Docket # 15-32033 Condition 27	L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place.
Docket # 15-32033 Condition 28	Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).
Docket # 15-32032 Condition 6	
Docket # 15-32033 Condition 29	L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.
Docket # 15-32033 Condition 30	L+M and YNHHS shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.
Docket # 15-32033 Condition 10	The YNHHS Financial Assistance Program was amended in June 2017, as described in the Condition 10 narrative, and such amended Financial Assistance Program applies to L+M Hospital.

<input checked="" type="checkbox"/>	Docket # 15-32033 Condition 28 Docket # 15-32032 Condition 6	Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHSC affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).
<input checked="" type="checkbox"/>	Docket # 15-32033 Condition 29	L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.
<input checked="" type="checkbox"/>	Docket # 15-32033 Condition 30	L+M and YNHHSC shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.

Submitted to Comply with Docket # 15-32033-CON: Conditions 32f(iii) and 32f(iv) and Docket # 15-32032-CON: Condition 7c

**Financial Statements
Semi-Annual Period: April 1, 2017 to September 30, 2017**

OHCA Conditions are as follows for Docket # 15-32033-CON:

32f(iii). YNHHS and L+M shall submit a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

32f(iv). YNHHS and L+M shall submit, for L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report.

OHCA Condition is as follows for Docket # 15-32032-CON:

7c. YNHHS and L+M shall submit a detailed and comprehensive document showing the five-year-plan to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices cross LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports.

Narrative for Docket # 15-32033-CON: Conditions 32f(iii) and 32f(iv) and Docket # 15-32032-CON: Condition 7c

In the full first year of the affiliation between L+M Corporation (L+M) and Yale New Haven Health System (YNHHS), L+M has seen an improvement in financial performance. L+MH is on track to improve its operation margin and total margin compared to FY 2016 and its balance sheet has remained stable.

As of April 1, 2017, Lawrence and Memorial Physician Association (LMPA) was dissolved and operations merged into the Northeast Medical Group (NEMG).

It should be noted that the 12 months FY2017 statements are draft preliminary numbers. Final audited statements were not available at the time of this submission. Final audited financial statements are expected in March 2018.

Cash at end of year	\$	(50,002)

* The statistics presented above represent data for Lawrence+Memorial Physician Association, Inc. (LMPA) only. On April 1, 2017, LMPA was dissolved and its operations merged into Northeast Medical Group.

This data has been derived from internally generated (unaudited) financial statements that are prepared and presented, in all material aspects, in accordance with the annual audited financial statements.

Submitted to Comply with Docket # 15-32033-CON: Condition 8

**Financial Measurements/Indicators
Semi-Annual Period: April 1, 2017 to September 30, 2017**

OHCA Condition is as follows:

8. For 3 years following the Closing Date, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than 2 months after the end of each semi-annual period. Due dates are May 31st and November 30th. The following financial measurements/indicators should be addressed in the report:

- A. Operating performance
 - 1. Operating margin
 - 2. Non-operating margin
 - 3. Total margin
- B. Liquidity
 - 1. Current ratio
 - 2. Days cash on hand
 - 3. Days in net accounts receivables
 - 4. Average payment period
- C. Leverage and capital structure
 - 1. Long-term debt to equity
 - 2. Long-term debt to capitalization
 - 3. Unrestricted cash to debt
 - 4. Times interest earned ratio
 - 5. Debt service coverage ratio
 - 6. Equity financing ratio
- D. Additional statistics
 - 1. Income from operations
 - 2. Revenue over/(under) expense
 - 3. Cash from operations
 - 4. Cash and cash equivalents
 - 5. Net working capital
 - 6. Free cash flow (and the elements used in the calculation)
 - 7. Unrestricted net assets/retained earnings
 - 8. Bad debt as % of gross revenue
 - 9. Credit ratings (S&P, Fitch, or Moody's)

Narrative for Condition 8

L+M Corporation and Subsidiaries (L+M) is a healthcare system that provides a wide array of services throughout the region. The Corporation includes Lawrence + Memorial Hospital (L+MH), L&M Physician Association Inc., L&M Systems, Inc., VNA of Southeastern Connecticut, L+M Healthcare, L+M Indemnity Ltd, and LMW Healthcare Inc. (Westerly Hospital).

The Financial Measurements/Indicators Report has been submitted for L+M Corporation and for L+MH. Financial reporting and statistics included in this submission are based on information updated through September 30, 2017. Note: this is a draft filing and numbers are preliminary. Final audited numbers were not available at the time of this submission.

As illustrated in the Financial Measurements/Indicators Report provided for the month ended September 30, 2017 and for the year-to-date periods ended September 30, 2017 and 2016, the affiliation of L+M with YNHHS has resulted in a positive financial outcome. A considerable number of the financial measurements / indicators for both the Corporation and L+MH have improved over the past twelve months since the affiliation. Specifically, total margin has turned profitable and income from operations has improved significantly. Additionally, it should be noted that these positive results for L+M were achieved while still including the operations of the Lawrence + Memorial Physician Association (LMPA) through the first six months of the fiscal year. LMPA was dissolved and operations merged into the Northeast Medical Group (NEMG) on April 1, 2017.

Re: Docket Number 15-32032-CON Transfer of Ownership of Group Practice by the Merger of L&M Physician Association into Northeast Medical Group
Docket Number 15-32033-CON Transfer of Ownership of Lawrence + Memorial Corporation to Yale New Haven Health Services Corporation

Dear Ms. Martone:

Attached please find documents submitted to comply with Conditions of Docket #15-32033-CON: "Transfer of Ownership of Lawrence + Memorial Corporation to Yale New Haven Health Services Corporation" and Docket #15-32032-CON: "Transfer of Ownership of Group Practice by the Merger of L+M Physician Association into Northeast Medical Group" for the 6-month reporting period ending September 30, 2017.

In the first year of the affiliation between L+M Corporation (L+M) and Yale New Haven Health System (YNHHS), L+M has continued to see tremendous improvement in financial performance. Because of the affiliation with YNHHS, L+M has benefited from numerous cost savings initiatives, clinical, strategy, and operational investment, and efficiency process improvements. This enhanced financial performance has supported additional clinical and community investments in the region to produce greater depth and breadth of services to the people of Eastern Connecticut and Western Rhode Island.

The compliance documents attached address the following Conditions for Docket #15-32033-CON and Docket #15-32032-CON as noted:

- Condition 6 – Top Most Frequent MSDRG-and CPT Codes for LM+H
- Conditions 7/19a/32b – Investments Report
- Condition 8 – Financial Measurement Report
- Condition 10 – Revision to Charity Care Policy

Submitted to Comply with Docket # 15-32033-CON: Conditions 17, 33b and 33d

**Joint Board Meetings
Public Forums & Independent Monitor Community Meetings
Annual Period: 10/1/16 – 9/30/17**

OHCA Conditions are as follows:

17. For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHS Board and L+M Board (“Joint Board Meetings”) at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH’s activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.

33b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statues and specifically address: (i) L+M’s compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period.

33c. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor’s reports and findings.

Narrative for Conditions 17, 33b and 33d

Independent Monitor Community Meetings

Community meetings were held on January 24 and March 1 by the Independent Monitor, Deloitte & Touche, who were on-site at L+MH and toured the facility. The Independent Monitor participated in the July 6, 2017 Public Forum, and a second Public Forum is scheduled for December 4, 2017, which will again be a joint meeting with the Independent Monitor onsite.

Joint Board Meetings and Public Forum

The YNHHS Board and the L+M Board held a Joint Board Meeting on May 18, 2017. Subsequent to the Joint Board meeting, a Public Forum was held on July 6, 2017. The agenda for this Public Forum is shown below:

Agenda

Introductions

Welcome – Patrick Green, President & CEO Lawrence & Memorial Hospital, EVP YNHHS

Report to Community – Cathy Zall, L+MH Board Member

Affiliation Progress – Vin Petrini, Senior VP, Public Affairs YNHHS

Questions & Answers

The second Joint Board Meeting is scheduled for November 28, 2017. A second Public Forum is scheduled for December 4, 2017.

**Resource Investment Report
Semi-Annual Period: April 1, 2017 to September 30, 2017**

OHCA Conditions are as follows:

7. Within 180 days following the Closing Date and thereafter until the capital commitment is satisfied, YNHHS shall submit to OHCA a report on the capital investments it has made in L+M and its affiliates from the \$300M commitment amount. The investment report shall include the following in a format to be agreed upon:

- a. A list of the capital expenditures that have been made in the prior 180 days with descriptions of each associated project; and
- b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and
- c. The funding source of the capital investment indicating whether it was drawn from operating revenue, capital contributions from YNHHS or another source and, if funding was drawn from another source, indicating the source.

19a. L+M shall enhance access to primary care physician services in the Eastern Connecticut region by recruiting and retaining eight additional primary care providers and other providers required to respond to local community need, in accordance with the community needs assessment in paragraph 31 herein and shall accommodate improvements to delivery models including value based care during such period. L+M shall demonstrate annual progress toward achieving these goals.

32b. L+M and YNHHS shall provide a narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.

Narrative for Conditions 7, 19a and 32b

L+M and YNHHS have pledged to make total commitments of \$300 million in eastern Connecticut and western Rhode Island over 5 years. Anticipated resource commitments highlighted in the L+M/YNHHS Affiliation Agreement and strategic plan submitted to OHCA in January 2017 included investments in: primary care clinical services, specialty clinical services, ambulatory services, post-acute services, infrastructure within L+M facilities, information technology, population health, branding, operational improvements, and community need/community building. In the second six months of FY 2017, L+M and YNHHS have made or committed to investments totaling \$23,725,851 across these categories for a total of \$47,404,835 for the full fiscal year. Below includes a brief narrative for each strategic investment area with additional detail provided in the Tables that follow.

1. *Primary Care Clinical Services*

Recruitment of primary care providers is a priority for L+M to ensure adequate access and meet demand. Two additional physician providers have been recruited in the second half of FY 2017.

2. *Specialty Clinical Services*

L+M and YNHHS have made a solid commitment to enhance clinical services in the communities served by L+M to increase quality and improve access. The strategic plan highlighted a number of specialty areas that are a recruitment focus for L+M. L+M and YNHHS continues to expand its clinical services in neurosurgery, spine surgery, oncology, psychiatry, vascular and electrophysiology, all areas required per the strategic plan, and noted in the Affiliation Agreement. In addition, providers were added in general surgery, cardiology, obstetrics, and crisis intervention.

3. *Ambulatory Services*

There were no investments in ambulatory services in FY 2017. L+M is currently executing in this area against the plan.

4. *Post-Acute Services*

There were no investments in post-acute services in FY 2017. L+M is currently executing in this area against the plan.

5. *Infrastructure within L+M Facilities*

The affiliation with YNHHS has allowed L+M to undertake much-needed facilities and infrastructure projects that were delayed due to the financial pressures experienced at L+MH, LMMG, and Westerly Hospital and the need to preserve liquidity and conserve cash. With a stronger financial foothold resulting from the affiliation, L+M has been able to move forward with several delayed projects including purchase of new beds, security systems, HVAC, elevator and parking garage renovations, and other minor and major facility improvements.

6. *Information Technology*

The build and implementation of the Epic EMR system throughout L+M facilities has been a major investment for L+M to improve quality of care, increase access to patient data, and

increase coordination of systems (e.g., supply chain, finance, HR) to effectively manage operations. In addition to Epic, capital has also been expended on access control initiatives for enhanced employee and patient safety, interfaces, and radiology systems.

7. *Population Health*

Population health infrastructure and development of risk-contracting capabilities were key investments outlined in the strategic plan and Affiliation Agreement. Work is in-process to improve physician engagement and initiate clinical practice guidelines.

8. *Branding*

YNHHS has committed to rebranding L+M and its entities to enhance the identity of the organizations with Yale New Haven Health. A considerable investment has been made in website design to better connect patients across the system and improve communication regarding services/physicians and locations. Advertising the affiliation through print, digital, and radio ads has enhanced communication to patients and physicians regarding the health care resources available in the eastern Connecticut and western Rhode Island regions. In addition, signage has been updated with new logos that better reflect the affiliation.

9. *Operational Improvements*

L+M and YNHHS have undertaken a number of operational improvement initiatives in structures and processes in an effort to effectively provide high-quality, safe patient care. Such investments include:

Clinical Technologies

L+M has committed to enhancing and improving the quality of care provided to L+M patients. The latest technology including tomosynthesis units for breast cancer early detection is planned for five L+M sites. Also, the L+M Cancer Center in Waterford, CT has renovated its pharmacy to adhere to current and upcoming regulatory requirements and ensure the safety of patients. Other clinical investments included new equipment in radiology, anesthesia, and inpatient units.

Other

Since the affiliation, YNHHS personnel in corporate services departments (e.g., internal consulting group, IT, finance) have spent a significant amount of time and effort integrating L+M with YNHHS and identifying and achieving savings, standardizing processes, implementing process improvement initiatives, and merging systems. This work was imperative to achieve the savings and complete the resource investments to-date.

10. *Community Need/Community Building*

L+MH has enhanced its investment in community needs/community building initiatives focusing on the priorities identified in the most recent community health needs assessment (CHNA). In accordance with the strategic plan, behavioral health and substance use abuse continues to be a focus. L+MH funded certification programs for local recovery providers so they may be educated on and meet national standards for quality and safety. Other investments addresses social determinants of health in the City of New London. Proposed

interventions to address economic development will be generated for two distressed communities leveraging residents' input.

L+M and YNHHS continue to make progress towards achieving the commitments outlined in the Affiliation Agreement and strategic plan.

SUMMARY of Resource Commitment and Strategic Plan Accomplishments: Docket # 15-3203-CON, Condition 7/32b

Resource Commitment Summary Made to Strategic Investments	Expenditure Amounts						
	10/1/16-3/31/17	4/1/17-9/30/17	10/1/17-3/31/18	4/1/18-9/30/18	10/1/18-3/31/19	4/1/19-9/30/19	Total
<p>1. Primary Care Clinical Services: Expansion of primary care network focusing on geriatric, general internal medicine, including the recruitment of 8 primary care physicians in Eastern CT. The primary care sites will ensure primary care availability as the population ages and physicians retire. Many sites will be established as medical neighborhoods, allowing easy access to part-time and full-time specialists.</p>	Eastern CT \$0	\$136,725					\$136,725
Western RI \$0	\$106,001						\$106,001
<p>2. Specialty Clinical Services: Increased access to specialists within Eastern CT, including pediatric, multidisciplinary, musculoskeletal services, including orthopedics, neurosurgery, spine, psychiatry, behavioral health, including psychiatrists, psychologists, etc., vascular and cardiac services, enhanced obstetrics and maternal fetal medicine, expanded oncology services, neuromuscular and stroke programs, endocrinology/hypothyroid services, general surgery and specialized internal medicine. These part-time and full-time specialty services will be increased, taking advantage of primary care referrals and using technology to ensure access throughout the region. In addition, telestroke, tele-ICU and tele-ED coverage will be continued at LHM.</p>	Eastern CT \$1,457,485	\$1,513,180					\$2,970,665
Western RI \$168,203	\$230,587						\$398,790
<p>3. Ambulatory Services: Expansion of laboratory, diagnostic, urgent care, ambulatory surgery centers to enhance access to ambulatory services in the region.</p>	Eastern CT \$0	\$0					\$0
Western RI \$0	\$0						\$0
<p>4. Post-Acute Services: Creation of an integrated network of post-acute services to manage care across the continuum in order to reduce the total cost of care for community residents.</p>	Eastern CT \$0	\$0					\$0
Western RI \$0	\$0						\$0
<p>5. Infrastructure within LMHC Facilities: Renovations and infrastructure repair to hospital</p>	Eastern CT \$874,585	\$3,803,474					\$4,678,059

VNA and Other Post-Acute Services	Planning around VNA Services are in process and expected to be initiated in the next fiscal year. Discussions about other post-acute services are under way as well.	n/a	n/a											
Infrastructure within LMMH Facilities														
Investments in Infrastructure	Prior to the affiliation with YNHHS, L+MH and Westerly Hospital (WH) were under growing financial pressure, and capital spending during that time was severely limited. Following the affiliation, significant catch-up was required to replenish aging and end-of-life equipment as well as perform necessary facility renovations. Capital expenditures for infrastructure during the time of the reporting period were made for new beds, repairs to parking garages, rebuild of elevators, security systems, and HVAC systems. In addition, the LMMG General Surgery practice was relocated to the L+MH main campus to enhance availability and improve timeliness of services for patients and physicians.	\$4,562,218	\$6,523,652	10/01/16	09/30/17	n/a	L+M Baseline Cash Flow	\$3,444,419	\$758,744	\$399,055	\$4,094,676	\$1,845,593	\$	583,183

Information Technology													
Epic system - build and installation	Capital investment related to the development and build of the Epic EMR system that went live at L+M and WH on 1/20/17 included software licenses, customization and development of interfaces to ensure integration with other 3rd party software; training time (prior to go-live) for clinicians and other personnel on using the new system; support during the actual go-live from Epic consultants; and hardware, including new servers. Replacing the older EMR systems and moving to the fully-integrated Epic system, had the advantage of improving quality of care by providing best practice protocols and enhancing patient engagement via patient portals, "MyChart", and other patient and physician-friendly features. By moving to Epic as part of a large system, L+M was able to mitigate risk by relying on the invaluable experience and expertise that YNHHS brought to the installation.	\$3,235,507	\$14,043,985	10/01/16	09/30/17	n/a	YNHHS or L+M Baseline Cash Flow	\$2,647,611	\$87,896	\$0	\$12,045,814	\$1,993,333	\$4,818
Infor (ERP) Project	Investments were made at L+M for development, customization and installation of a new ERP (Enterprise Resource Planning) system to replace its legacy system, incorporating Supply Chain, General Finance, and Human Resources functions within a single system (that also includes budgeting, decision support, and management reporting) is fundamental to effectively running the business. YNHHS has a long track record of leading the industry in these areas by innovatively leveraging these reporting capabilities to drive quality, patient engagement, and physician efficiencies. While L+M is still in the building stages, progress toward full integration across the system is underway and remains a key corporate objective.	\$392,095	\$747,744	10/01/16	09/30/17	n/a	YNHHS	\$326,384	\$55,711	-	\$622,431	\$125,314	-
Other Information Technology Projects	Capital investments for other IT projects at L+M included Access Control Plan Implementation, Laboratory EMR Results Interfaces, and RIS/PACS implementation, among other items. These systems - specifically integrating critical patient tests, imaging, and other diagnostics with the broader medical record system - were on the front line of improving access, optimizing care delivery, and coordinating patient care across the continuum.	\$2,311,409	\$2,651,119	10/01/16	09/30/17	n/a	L+M Baseline Cash Flow	\$2,220,635	\$64,904	\$15,870	\$2,446,720	\$168,963	\$35,436
Population Health													
Population Health Initiatives **	As a result of the affiliation, L+M is able to move forward and participate in the YNHHS Population Health infrastructure and clinically integrated network. As part of the system, L+M will be able to utilize YNHHS resources and will avoid an estimated \$10 million in operating/capital costs. \$10 million (\$2 million per year over the course of 5 years) was identified in the CON as the investment associated with population health infrastructure.	\$1,750,696	\$2,000,000	10/01/16	09/30/17	n/a	YNHHS	\$1,438,851	\$311,846	-	\$1,649,747	\$336,254	-

Branding															
Advertising, Signage, Website	Investments were made in converting existing external and internal signage throughout LHM to formally recognize the affiliation and rebrand all facilities and services as Yale New Haven Health. A considerable investment was made in the website design to better connect patients across the system and improve communication regarding services, physicians and locations. Advertising the affiliation through print, digital, and radio ads has enhanced communication to patients and physicians regarding the health care resources available in the region.	\$1,338,705	\$2,163,307	03/31/17	09/30/17	n/a	YNHHS	\$900,562	\$438,142	-	\$1,312,884	\$850,444	-		

Operational Improvements															
Corporate Services Support ***	Significant resources have been provided to LHM by YNHHS Corporate services departments (i.e., Internal Consulting Group, IT, Finance, etc.) over the past 6 months. As an integral part of the underlying value of the affiliation, Corporate Services personnel continue to assist LHM in identifying synergies, achieving savings, standardizing methodologies, introducing procedures, implementing Epic and other IT systems, and generally integrating LHM into the system.	\$5,855,994	\$8,935,503	01/01/17	09/30/17	n/a	YNHHS	\$4,812,886	\$1,043,108	-	\$7,243,853	\$1,591,650	-		
Clinical Technology Investments	Investments in clinical technology were made at LHM to drive operational improvements including new diagnostic equipment (Tomosynthesis) for early breast cancer detection; state-of-the-art pharmacy at the LHM Cancer Center to adhere to regulatory requirements and enhance patient safety; new equipment on inpatient units to assure patient care quality; and other improvements in structures and processes to effectively provide high-quality, safe patient care.	\$2,225,297	\$6,605,009	01/01/17	09/30/17	n/a	LHM Baseline Cash Flow	\$1,542,889	\$682,408	-	\$4,445,384	\$2,159,625	-

Community Need / Community Building													
Support for Physical Improvements and Housing	Community involvement and financial support for partner organizations' physical improvement and housing related activities. Partner organizations include Community Speak Out, the Homeless Hospitality Center, and the Jewish Federation. Includes support for transitional and shelter housing, sober house certification training, air conditioners for vulnerable residents, and other support. L+M Hospital is increasingly aware of how social determinants impact the health of individuals and communities. A person's health and chances of becoming sick and dying early are greatly influenced by powerful social factors such as education, income, nutrition, housing and neighborhoods. During Fiscal Year 2017, L+M Hospital invested in community building efforts that promote thriving and healthy communities in our region.	\$6,302	\$11,200	2/17/17	n/a	n/a	L+M Baseline Cash Flow	\$6,302	-	-	\$11,200	-	-
Social Determinants of Health	Community involvement and support for partner organizations' work to address social determinants of health not specific to the other categories. Includes support for education, youth development and neighborhood development strategies in distressed New London neighborhoods. The rationale for these investments is to address the health needs identified by the most recent CHNA and 2016 Community Health Improvement Plan (CHIP), including social determinants of health.	\$46,055	\$96,055	2/17/17	n/a	n/a	L+M Baseline Cash Flow	\$46,055	-	-	\$96,055	-	-
Support for Economic Development	Community involvement and financial support for partner organizations' economic development activities. Economic development supports a regional infrastructure that includes sufficient employment opportunities providing a living wage. In addition to income, such employment provides healthcare, retirement and other benefits. Being under- or unemployed is strongly correlated with poor health outcomes.	\$15,080	\$15,080	3/27/17	n/a	n/a	L+M Baseline Cash Flow	\$15,080	-	-	\$15,080	-	-

Submitted to Comply with Docket # 15-32033-CON: Conditions 11 and 12

**Annual Community Benefit Report
Annual Cultural and Linguistically Appropriate Services Report**

OHCA Conditions are as follows:

11. The Applicants shall maintain community benefit programs and community building activities for L+MH, and the Applicants shall apply no less than a 1% increase per year toward the L+MH's community building activities in terms of dollars spent. YNHHS shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives.

12. The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations, insurance navigator and cultural competency training.

Narrative for Condition 11:

Community Benefit

In 2016, Lawrence & Memorial Hospital ("L+MH") community benefit totaled \$38,686,420 and in fiscal year (FY) 2017, community benefits are on track to exceed that amount (current estimate is \$38,767,485 with data reporting and analysis not yet complete). The community building investment increased by 134%, from \$52,237 in FY 2016 to an estimated \$122,335 in FY 2017.

Following the analysis of data collected through the Community Health Needs Assessment, the Southeastern CT Health Improvement Collaborative ("Collaborative"), under the leadership of L+MH and Ledge Light Health District, engaged in a process to prioritize issues and develop strategies to improve health and well-being in the region. The Community Health Improvement Plan, developed by the Collaborative, is a dynamic document that serves as a roadmap for interventions going forward. Recognizing the significant contribution of social determinants to overall health and wellness, particular attention was paid in the assessment and plan development to the interaction between socioeconomic and environmental conditions as well as to health disparities.

Priority areas selected were:

1. Improve the conditions that support mental wellbeing and reduce substance use.
Indicators: Opioid use and anxiety/depression rates among minorities
2. Support and nurture healthy lifestyles.
Indicator: Contributing factors to diabetes.
3. Ensure access to care.
Indicators: Prenatal care and related birth outcomes.
Access to care for the low-income population.

Over 65 individuals, representing a broad range of community perspectives, participated in the prioritization work. In partnership with other organizations, all of the areas prioritized are being addressed. In addition, L+MH has continued existing programs, services and initiatives in the areas of

asthma, HIV outreach, maternal and child health, and breast and cervical cancer early detection and cardiovascular disease prevention. In addition to enhanced investment in community needs initiatives supporting the priorities identified in the 2016 CHNA, L+MH has continued its ongoing and community benefit support with a wide range of programs, services and in-kind support including: Breathe Well – Respira Bien Asthma Intervention (\$66,136); support for the Homeless Hospitality Center Respite program (\$47,168); a dedicated social worker for the homeless population (\$154,580); and in-kind support for implementation of the Community Health Improvement Plan (\$27,260).

A driving philosophy of L+MH's community benefit efforts is to build on existing community resources, programs and services in order to avoid duplication. As such, in examining each of the prioritized community health needs, existing community assets were identified before considering any new strategies that L+MH might initiate. Where there are existing community-based programs addressing any of the prioritized needs, L+MH will provide resources to support and build capacity of those programs rather than creating a new program, maximizing resources and avoiding duplication.

L+MH's community benefit programs and services support the organizational mission "To Improve the Health of the Region" and align with the principles as set forth in the organization's community benefit policy. Those principles include:

1. Emphasis on programs to meet a significant unmet health need including efforts to identify and include vulnerable populations or those most at-risk as determined by risk factors which predispose those populations toward a higher incidence of disease and/or barriers to obtaining appropriate healthcare.
2. Emphasis on primary prevention and including at least one of three primary prevention strategies: health promotion, disease prevention, and health protection. Health promotion entails encouraging healthy lifestyles; disease prevention focuses on individuals identified as at-risk for health problems; health protection activities influence the environment to support healthy behaviors.
3. Programs should develop evidence-based links between clinical services and health improvement activities delivered both inside and outside the hospital.
4. Programs should focus on targeting charitable resources that mobilize and build capacity within existing community assets while minimizing duplication of effort.
5. Programs should emphasize collaboration with community stakeholders.

As evidenced by the wide range of community benefit programs and services offered, L+MH is engaged in meeting the identified health needs of the communities we serve. There is an organizational history of collecting data to determine how best to direct our resources and how to make the greatest impact in promoting community health. Our annual community benefit report publication describes a sampling of programs and the amount of investment that L+MH makes in carrying out these programs.

Community Building

L+MH is increasingly aware of how social determinants impact the health of individuals and communities. An individual's health status and odds of developing chronic disease and/or premature death are greatly influenced by powerful social factors such as education, income, nutrition, housing and

neighborhoods. During Fiscal Year 2017, L+MH invested an estimated \$122,335 in community building efforts that promote thriving and healthy communities in our region:

- Support for economic development: \$15,080. Community involvement and financial support for partner organizations' economic development activities to support a regional infrastructure that includes sufficient employment opportunities providing a living wage.
- Support for physical improvements and housing: \$11,200. Community involvement and financial support for partner organizations' physical improvement and housing related activities. Partner organizations include Community Speak Out, the Homeless Hospitality Center, and the Jewish Federation and includes support for transitional and shelter housing, sober house certification training, air conditioners for vulnerable residents, and other support.
- Community involvement and financial support for partner organizations' work to address social determinants of health not specific to the other categories: \$96,055. Includes support for education, youth development and neighborhood development strategies in distressed New London neighborhoods with health needs identified by the most recent Community Health Needs Assessment and the 2016 Community Health Improvement Plan.

Narrative for Condition 12:

Culturally and Linguistically Appropriate Services

All patients and visitors at Yale New Haven Health and its member organizations (including L+MH) have the right to receive information in a language they understand, free of charge. Yale New Haven Health System ("YNHHS") complies with the Department of Health and Human Services' Section 1557 rule of the Affordable Care Act — which sets guidelines about language assistance for people with limited English proficiency or those who are deaf or hard-of-hearing — and takes reasonable steps to provide meaningful access to people with limited English proficiency who may require assistance within the health system.

Yale New Haven Health and its member organizations:

- Provide free aids and services to people with disabilities to enable effective communication with care providers, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provide free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages
- Post notices of nondiscrimination and taglines in Connecticut's fifteen most commonly used non-English languages, advising patients and visitors that language services are available free of charge.

Staff complete annual education on cultural competency to increase cultural awareness and sensitivity. Mandatory courses include: Diversity in the Workplace and Patient Rights. Classroom instruction is offered to all employees on cultural competency, and on-line courses are provided across YNHHS and are now available to employees at L+MH on:

- Cultural Competence: Background and Benefits,
- Cultural Competence: Providing Culturally Competent Care, and
- YNHHS's Language Assistance.

New employees are given information in New Employee Orientation about language services available via telephone and on-line.

Financial Assistance Programs

YNHHS recognizes that patients may not be able to pay for medically necessary health care without financial assistance. Consistent with its mission, YNHHS is committed to assuring that the ability to pay will be considered carefully when setting amounts due for emergency and other medically necessary hospital services.

In recognition of its role to help those in need of financial assistance, YNHHS has established Financial Assistance Programs ("FAP") across the system to assist with emergency and other medically necessary care. The FAP apply to emergency and medically necessary inpatient and outpatient services billed by the hospitals to patients without insurance. In addition, help in completing financial assistance applications is available at Patient Financial and Admitting Services office located at L+MH.

Certified financial counseling resources are available to aid patients in navigating insurance issues on a scheduled and walk-in basis, and assist patients with the following:

1. Medicaid/Husky applications
2. Exchange applications
3. Free care applications
4. General/basic questions on bills, charges, estimates and payments

The L+MH website features a link for Financial Assistance Information for Non-English Speaking Patients: <https://www.lmhospital.org/patients-visitors/patients/billing-insurance/financial-assistance.aspx>

The Financial Assistance Policy and Financial Assistance Summary and Applications are available in twenty-four languages, including Spanish, Chinese and Tagalog, the top three languages other than English spoken in the Greater New London area.

MEMO

November 30, 2017

To: Kim Martone and Karen Roberts,
Connecticut Office of Healthcare Access (OHCA)
From: Tia Goss Sawhney
Subject: Submission of Final CMIR

One Pennsylvania Plaza,
38th Floor
New York, NY 10119
Tel +1 646 473.3000
Fax +1 646 473.3199
www.milliman.com

Milliman (we) are serving as the independent consultant under the Agreed Settlement between Yale New Haven Health Services Corporation and the CT Department of Public Health for the transfer of ownership Lawrence and Memorial Corporation (L+MC). Per your request we have revised the Cost and Market Impact Review (CMIR) that we last submitted October 12, 2017 in order to provide more analysis supporting the expectations of Condition 22b of the Agreed Settlement. We have marked the revised CMIR as Final.

The substantive changes to the CMIR since the last draft are:

1. A new section: Monitoring and Future CMIRs (pg. 8)
2. A new exhibit: Exhibit 2C (pg. 24)
3. An expanded exhibit: Exhibit 7 (pg. 29)
4. Rewording: Fee Caps (pgs. 6-7)

We made these changes to better align the CMIR with the requirements of the Agreed Settlement and to better communicate the fee caps. The fee cap values did not change.

Also at your request, we have prepared Table 1 of this memo as a map between the subsections of the Condition 22b of the Agreed Settlement and the Final CMIR content.

Table 1: Mapping Between Condition 22b and the Final CMIR

Condition 22b	Final CMIR
<i>Condition 22b: The cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically:</i>	
<i>(a) L+MH and LMMG's size and market share within their primary and secondary service areas</i>	We provide extensive data regarding L+MH's size and market share for services relative to other providers in Eastern Connecticut (L+MC's primary service area) and providers outside of Eastern Connecticut. Data was not available to support a similar analysis for LMMG.
<i>(b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut</i>	The CMIR fee cap setting process examines L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services for Eastern

Condition 22b	Final CMIR
	Connecticut and non-Eastern Connecticut providers serving Eastern Connecticut patients
<i>(c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide</i>	The CMIR fee cap setting process examines L+MH and LMMG cost and cost trends in comparison to hospital and physician healthcare expenditures statewide for providers serving Eastern Connecticut patients
<i>(d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas</i>	Throughout the CMIR we distinguish between services provided to Eastern Connecticut patients by L+MH and LMMG, other providers in Eastern Connecticut (L+MC's primary service area) and providers outside of Eastern Connecticut.
<i>(e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas</i>	Throughout the CMIR we distinguish between services provided to patients with government payer insurance (Medicare and Medicaid) and services to patients with commercial insurance. Exhibits 2C and 7 specifically examine L+MH behavioral health (mental illness and substance abuse) services. We also consider people in need of emergency care to be at-risk. Exhibit 7 examines L+MHs provision of emergency services. The section "Monitoring and Future CMIRs" describes how we will assess L+MH's continued provision of services to these vulnerable populations.
<i>(f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas</i>	Emergency care services, services to government payer populations, and services to patients with substance use and mental health disorders are generally considered low and negative margin hospital services. Therefore this expectation overlaps with 22b(e). Please see our response to 22b(e).
<i>(g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular</i>	The CMIR and the CMIR fee cap setting process examines the market conditions for Eastern Connecticut and other hospitals serving Eastern Connecticut patients.
<i>(h) and other conditions that the independent consultant determines to be relevant</i>	We have included other relevant information in the CMIR. For example, we document that an increasing number of Eastern Connecticut patients are obtaining care outside of Eastern Connecticut.

Lawrence + Memorial Corporation

Cost and Market Impact Review

Final

November 30, 2017

Prepared for:

Yale New Haven Health Services Corporation
under the Auspices of the Connecticut Office of Health Care Access

To Comply with Requirements of the Agreed Settlement between
Yale New Haven Health Services Corporation
And the Connecticut Department of Public Health

KEY TERMS

The following key terms are referenced in the report.

Key Term	Acronym	Definition
Agreed Settlement		Document detailing terms of the agreement between YNHHS and DPH authorizing the transfer of ownership of L+MC and its subsidiaries to YNHHS
Ambulatory Payment Classification	APC	Unit used to determine reimbursement for outpatient services; an ambulatory payment classification is defined by a particular set of outpatient services
Calendar Year	CY	The year ending December 31 of a given year
Case Mix Adjusted Discharge	CMAD	Discharge with a relative weight of 1.00; see definition of relative weight below
Centers for Medicare and Medicaid Services	CMS	Federal agency responsible for Medicare and the partner with states for Medicaid
Charge		The total amount billed for a service, often has little relationship to price
Commercial Fee Cap		The limit on increases in total price per unit of service paid by commercial insurers
Commissioner		Commissioner of the Department of Public Health
Compound Annual Growth Rate	CAGR	Geometric average of the growth rate over a period of time, stated as percent growth per annum
Conversion Factor		Converts relative value units into payment rates; see definition of relative value units below
Cost Based Statistical Area	CBSA	Areas to which Medicare assigns wage indices
Cost and Market Impact Review	CMIR	A review required by Condition 22 of the Agreed Settlement
Department of Public Health	DPH	Connecticut department with hospital oversight responsibility; parent department of OHCA
Department of Social Services	DSS	Connecticut department responsible for Medicaid
Eastern Connecticut	E-CT	Tolland, Windham, and New London counties (includes Lawrence + Memorial Hospital)
Fee		Price per unit of service; see definition of price below
Fee Ratio		The ratio of L+MH average all payer fee to the market average all payer fee. Fee caps are set so that the ratio does not increase during the Agreed Settlement monitoring period
Fiscal Year	FY	The year ending September 30 of a given year, as defined by CT Hospital Financial Review Regulations for CT hospital reporting ¹
Freedom of Information Act	FOIA	An act that enables the requires the government to respond to public requests for information
Geographic Practice Cost Index	GPCI	GPCIs reflect the costs of intensity, practice expense, and malpractice insurance in an area compared to the national average costs
Hospital Fees		Hospital net revenue divided by the total MS-DRG relative weights for the hospital's discharges
Lawrence & Memorial Medical Group	LMMG	The physician group of Lawrence + Memorial Corporation

¹ State of Connecticut. Office of Health Care Access. *Hospital Financial Review Regulations*. N.p., n.d. Web. 4 May 2017. http://www.ct.gov/dph/lib/dph/ohca/hospitalfillings/2017/hospital_financial_review_regulations.pdf.

Key Term	Acronym	Definition
Lawrence + Memorial Corporation	L+MC or L+M	The parent organization of Lawrence + Memorial Hospital and Lawrence & Memorial Medical Group
Lawrence + Memorial Hospital	L+MH	The hospital organization of Lawrence + Memorial Corporation
Market		All CT providers, both in and outside eastern CT, serving eastern CT patients
Medicare Severity Diagnosis Related Group	MS-DRG	Unit used to determine reimbursement for inpatient services; a Medicare Severity Diagnosis Related Groups is defined by a particular set of patient attributes, which include principal diagnosis, specific secondary diagnoses, procedures, sex and discharge status ²
MS-DRG Relative Weight	RW	A weight assigned to a MS-DRG that reflects the expected relative cost to a hospital to provide that MS-DRG; <i>relative weights do not average to 1.00</i>
Net Revenue		Total price, after adjustments, as reported in hospital financial statements
Non-Eastern CT	Non-E-CT	All CT counties excluding eastern CT (Tolland, Windham, and New London counties); excludes out of state counties
Office of Health Care Access	OHCA	An office of Connecticut's Department of Public Health
Payer		Medicare, Medicaid, commercial insurers, and other third parties that cover the cost of care
Price		The total amount paid for a service, inclusive of patient cost-sharing
Relative Value Unit	RVU	RVUs account for the relative resources used in furnishing a service
Unit of Service		For inpatient care: a MS-DRG relative weight of 1.00; for outpatient care: an APC with a relative weight of 1.00
Yale New Haven Health Services Corporation	YNHHSC Or YNH	The organization acquiring Lawrence + Memorial Corporation

COST AND MARKET IMPACT REVIEW

In early September 2016, the Connecticut (CT) Office of Health Care Access (OHCA) granted Yale New Haven Health Services Corporation (YNHHSC) approval to acquire Lawrence + Memorial Corporation (L+MC). The Agreed Settlement between YNHHSC and the CT Department of Public Health authorized the transfer of ownership of L+MC and its subsidiaries to YNHHSC. The Agreed Settlement had a number of terms, including requiring YNHHSC to engage an independent consultant to prepare a Cost and Market Impact Review (CMIR), evaluate the non-governmental price per unit service (fees) of services provided by L+MC's Lawrence + Memorial Hospital (L+MH) and Lawrence & Memorial Medical Group (LMMG), and annually set maximum fee increases (for 5 years for L+MH and for 28 months for LMMG). With OHCA approval, YNHHSC engaged Milliman as the independent consultant.

As the independent consultant Milliman must satisfy the requirements of the Agreed Settlement and report to and take direction from the Commissioner. Milliman is a global actuarial and financial services consulting firm that has been serving clients as an independent consultant for over 70 years. We serve a diverse client base, representing virtually all types of private, non-profit, and public sector enterprises in healthcare, employee benefits, investment consulting, life insurance, financial services, and property and casualty insurance. We have no agenda other than high quality work.

This document is Milliman's 2017 report to OHCA and YNHHSC, which is intended to satisfy requirements of the Agreed Settlement. It may not be suitable for other purposes.

CMIR REQUIREMENTS

The Agreed Settlement's Condition 22 describes the information to be included in the CMIR. This report provides certain information specified in Conditions 22b, 22c, 22d, and 22e of the Agreed Settlement. Condition 22 is reproduced below (boldface added to highlight the role of the independent consultant).

22. *Within ninety days of the Date of Closing, YNHHSC shall initiate a cost and market impact review, which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:*
- a. *Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHSC shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available.*
 - b. *In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the **independent consultant determines** to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut.*
 - c. *In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially*

increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purposes of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the **independent consultant shall conduct** the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the **independent consultant from considering and recommending** any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.

- d. The **independent consultant shall report** to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.
- e. The **independent consultant shall provide** the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.

METHODOLOGY SUMMARY

Our commercial fee cap methodology, as approved by OHCA:

1. Establishes market baskets of high frequency services for inpatient and outpatient hospital services and physician services.
2. Estimates the fiscal year 2016 (FY2016) average fee per market basket service across all payers for services provided by L+M and all hospitals and physicians serving E-CT patients (aka “the market”), and calculates the FY2016 ratio of L+M fees to market fees.
3. Projects the market basket fee changes and service changes, other than L+M commercial fee changes, from FY2016 to calendar year 2018 (CY2018).
4. Estimates the L+M commercial fee change from FY2016 to CY2018 that will allow L+M to maintain the FY2016 ratio of L+M fees across all payers to market fees across all payers and establishes that change as the commercial fee cap.

Following the expectations of the Agreed Settlement, we also review the Eastern Connecticut (E-CT) healthcare market and make non-fee cap recommendations.

Fiscal years (FYs) for Connecticut hospitals end in September and calendar years (CYs) end in December. FY2016 is the year October 2015 through September 2016 and CY2018 is the year January 2018 through December 2018. Under the Agreed Settlement L+MC must maintain commercial fee contracts from the end of FY2016 to the beginning of CY2018 and may negotiate fee increases, subject to the fee cap, for CY2018 onward. Hence, for establishing the fee cap, FY2016 is our base period and CY2018 is the period for which we establish the fee cap. Next year we will establish inpatient and outpatient hospital fee caps for CY2019.

Medicare and Medicaid fees impact the commercial fee cap. The estimated average fees per market basket service and fee ratios are inclusive of all payers. Therefore, any Medicare or Medicaid fee change that differentially affects L+M relative to other hospitals serving E-CT patients will impact the calculation of L+M’s commercial fee cap. The differential impact may be the result of L+M having a different fee change than the other hospitals or it may be due to L+M providing a disproportionate share (more or less) of Medicare or Medicaid market basket services relative to the other hospitals.

MARKET REVIEW

Our review of the Eastern Connecticut (E-CT) healthcare market yielded the following observations:

Hospital Inpatient Care

1. **E-CT patients had about 51,000 discharges in FY2016.** About 25,000 or about 50% of the discharges were for market basket MS-DRGs. Of these about 25,000 market basket MS-DRGs, 27% were from L+MH (see Exhibit 1).
2. **E-CT hospitals lost market share between FY2014 and FY2016.** The percent of E-CT patients discharged from E-CT hospitals, inclusive of L+MH, declined from 67.0% to 62.3% of discharges – a -6.9% change³. In FY2016, nearly 40% of E-CT patient discharges were from non-E-CT hospitals (see Exhibit 1).
3. **E-CT patients with commercial insurance are disproportionately cared for outside of E-CT relative to Medicare patients.** In FY2016 46.6% of commercial market basket MS-DRG discharges were from non-E-CT hospitals vs. 32.9% for Medicare discharges and 19.0% for Medicaid discharges (see Exhibit 2A).
4. **Patient volume for government payers grew from FY2014 to FY2016.** In FY2016 35.8% of market basket MS-DRG discharges were paid for by commercial payers (see Exhibit 2B). From FY2014 to FY2016, E-CT patient market basket MS-DRG discharges declined for commercial payers (-4.3%) and grew for Medicaid (+5.5%) and Medicare (+2.1%) payers (see Exhibit 2B).
5. **In each of FY's 2014-2016 L+MH provided more than a 1/5 of the inpatient behavioral health discharges for E-CT patients.** The percentage ranged from 21.4% in FY2015 to 22.1% in FY2016. Behavioral health discharges includes mental illness and substance abuse MS-DRGs (see Exhibit 2C).
6. **In FY2016, non-E-CT hospitals, on average, provide more high intensity care than E-CT hospitals.** In FY2016, non-E-CT market basket MS-DRG discharges had an average case mix per discharge of 1.42, while E-CT hospitals had an average case mix of 1.25 (see Exhibit 3).
7. **In FY2016, government payers paid much less than commercial payers did.** In FY2016, Medicare fees were \$7,717, Medicaid fees were \$5,359, and commercial payers fees \$12,467 per case mix adjusted discharge (CMAD), inclusive of patient cost sharing. Commercial payer fees more than double Medicaid fees (see Exhibit 4A).
8. **From FY2014 to FY2016, commercial fees per CMAD for hospitals serving E-CT patients increased by +4.3% per annum** (see Exhibit 4A).
9. **In FY2016, L+MH fees per CMAD were similar to other E-CT hospitals.** In FY2016, L+MH fees per CMAD were somewhat higher than that of other E-CT hospitals: +5.2% for Medicare, +3.5% for Medicaid, and +0.7% for commercial (see Exhibit 4B).
10. **Non-E-CT fees per CMAD were much higher than E-CT fees per CMAD across all payers.** In FY2016, fees per CMAD for non-E-CT hospitals were higher than that of E-CT hospitals: +9.2% for Medicare, +25.6% for Medicaid, and +22.6% for commercial (see Exhibit 4B).
11. **CT Medicaid has planned changes to fees that will disproportionately reduce fees for L+MH.** Medicaid has planned fee changes per CMAD between FY2016 and CY2018 of -12.8% for L+MH, -8.4% for other E-CT hospitals, and -6.8% for non-E-CT hospitals (see Exhibit 5A).
12. **L+MH and non-E-CT hospital Medicare fees are expected to increase modestly in January 2018, while the fees for other E-CT hospitals are expected to have a larger increase due to changes in the geographic assignment for some hospitals.** January 2018 Medicare fees are expected to change +0.6% for L+MH, +0.4% for non-E-CT hospitals, and +2.8% for other E-CT hospitals (see Exhibit 5B).

Medicare payments are based on statistical area assignments. Medicare outpatient and inpatient payments are adjusted for local wage levels, using the wage indices that Medicare publishes for cost based statistical areas (CBSAs). CBSAs are typically metropolitan statistical areas (MSAs), and hospitals are generally assigned to the CBSA corresponding to their physical location. Medicare can, however, assign hospitals to CBSAs that do not correspond to their physical location. L+MH has been assigned to the Nassau County-Suffolk County, NY CBSA – a CBSA with a higher

³ Changes in market share cited in this analysis are relative to the first period market share. For example if a hospital has a 20% market share that declines to 18%, then the hospital has lost 10% of its market share.

wage index than the New Haven-Milford, CT CBSA for several years. Another E-CT hospital, Backus Hospital, will be assigned to the Nassau County-Suffolk County, NY CBSA as of January 2018.

Hospital Outpatient Care

1. **Outpatient care is a significant portion of hospital net revenue, particularly for E-CT hospitals.** Outpatient care represented 60.4% of FY2015 hospital net revenue for E-CT hospitals, and 42.8% of FY2015 hospital net revenue for non-E-CT hospitals providing services to E-CT patients (see Exhibit 6).
2. **Medicaid and Medicare represent a significant portion of outpatient net revenue for hospitals serving E-CT patients.** Medicare and Medicaid represent 38.1% of outpatient net revenue for L+MH, 38.0% of outpatient net revenue for other E-CT hospitals, and 36.3% of outpatient net revenue for non-E-CT hospitals (see Exhibit 6).
3. **E-CT patients receive a higher portion of their outpatient surgical care than ED care at non-E-CT hospitals.** According to CHIME, 35.5% of FY2016 outpatient hospital surgery discharges⁴ for E-CT patients were from non-E-CT hospitals and 11.9% of ED discharges were from non-E-CT hospitals (see Exhibit 7).
4. **E-CT patients with Medicare or commercial insurance receive a higher portion of their outpatient surgical and ED care at non-E-CT hospitals than E-CT patients with Medicaid.** According to CHIME, 35.4% of Medicare and 37.9% of commercial FY2016 outpatient hospital surgery discharges for E-CT patients were from non-E-CT hospitals, whereas 29.3% of Medicaid discharges were from non-E-CT hospitals. Similarly, 10.7% of Medicare and 17.0% of commercial FY2016 ED market basket services for E-CT patients were from non-E-CT hospitals, whereas 8.1% of Medicaid ED market basket services were from non-E-CT hospitals (see Exhibit 7).
5. **In FY2016 L+MH emergency department served the same proportion of E-CT patients with behavioral health primary diagnoses as patients with any diagnosis.** In FY2016 L+H provided 29.6% of emergency room discharges for E-CT patients with a behavioral health primary diagnosis (mental illness or substance abuse) and 29.5% of total emergency room discharges for E-CT patients (see Exhibit 7).
6. **CT outpatient hospital Medicaid Modernization, which was a significant change in outpatient hospital methodology, disproportionately reduced fees for L+MH.** In July 2016, CT Medicaid introduced an APC payment methodology. Medicaid outpatient fees increased somewhat (1.4%) for all hospitals serving E-CT patients, whereas fees decreased significantly (-11.0%) for L+MH (see Exhibit 8).

CT hospital outpatient Medicaid Modernization. Prior to July 2016, CT Medicaid hospital outpatient fees (for most services) were set at a hospital-specific percentage of the hospital's charges. The percentage was based on the hospital's cost to charge ratio. In July 2016, CT Medicaid implemented a Medicare-like payment system where most fees are paid using Medicare's APC methodology. Many individual hospitals saw significant outpatient fees change as a result of Medicaid Modernization, with some receiving higher fees while other received lower fees.

Under the modernized payment system, CT Medicaid uses Medicare's APC assignment rules, relative weights, and wage indices but sets its own APC fee per relative weight unit. CT Medicaid adjusts for labor costs through a wage index based on each hospital's CBSA corresponding to their physical location. Wage indices for a given CBSA can "bounce" somewhat from year to year. L+MH's January 2017 fee change relative to some other hospitals is due to a decline in the New Haven-Milford, CT wage index relative to other CT CBSAs.

7. **The January 2017 CT Medicaid fee update also reduced fees for L+MH.** Routine updating of Medicaid APC fees, effective January 2017, resulted in 0.0% change for all hospitals serving E-CT patients, but a -1.2% change for L+MH (see Exhibit 8).
8. **L+MH's outpatient hospital Medicare fees are expected to decrease modestly in January 2018, while the fees for other E-CT are expected to have increase due to changes in the geographic assignment for some hospitals.** January 2018 Medicare APC fees are expected to change -0.2% for L+MH, +3.6% for other E-CT hospitals, and -0.5% for non-E-CT hospitals (see Exhibit 9).

⁴ "Discharges" is CHIME's term for an outpatient surgery procedure or an emergency room visit.

Physician Care

1. **LMMG provided a consistent volume and payer-mix of market basket services in FY2015 and FY2016.** In FY2015, 43.6% LMMG's services were for E-CT patients with Medicare, 13.9% were for E-CT patients with Medicaid, and 41.5% were for E-CT patients with commercial insurance (see Exhibit 10). In FY2016, 44.1% LMMG's services were for E-CT patients with Medicare, 14.3% were for E-CT patients with Medicaid, and 40.8% were for E-CT patients with commercial insurance (see Exhibit 10).
2. **E-CT patients with Medicaid and Medicare receive the majority of their care in E-CT.** In CY2016, E-CT patients with Medicaid received 67.8% of their physician services from E-CT physicians and 32.2% from non-E-CT physicians (see Exhibit 11). In CY2014, E-CT patients with Medicare received 66.5% of their physician services from E-CT physicians and 33.5% from non-E-CT physicians (see Exhibit 11).
3. **Medicare fees for all Medicare physicians in Connecticut have changed very modestly from CY2015 to CY2017.** Medicare fees changed -0.3% from CY2015 to CY2017 (see Exhibit 12).
4. **Medicaid fees for all Medicaid physicians in Connecticut have remained flat since September 2015 (beginning of FY2016).**
5. **In FY2015, LMMG's average Medicaid fees were about 85% of what Medicare fees would have been for the same services.**
6. **There are no announcements that indicate that Medicaid and Medicare fees will significantly change between now and CY2018.**

FEE CAPS AND RECOMMENDATIONS

Overview

In this section, in our role as an independent consultant, working to satisfy requirements of the Agreed Settlement, we estimate the fee caps for L+MC's average commercial fees for hospital inpatient, hospital outpatient, and physician care. According to the Agreed Settlement, fee caps are the highest permitted aggregate increase in L+MC or LMMG fees for CY 2018 relative to FY2016 — a span of 2.25 years from midpoint to midpoint. Fee increases for a particular commercial health plan may be more or less than the cap.

Commercial fee increases within maintained health plan contracts are included in the fee cap. Condition 20 of the Agreed Settlement requires L+MC to maintain health plan contracts that were in effect as of the date of closing (September 8, 2016) through December 31, 2017. Until January 1, 2018, L+MC commercial fees can increase only if there were fee increases already incorporated within these maintained contracts. L+MC must consider these previously negotiated fee increases when setting fees for CY 2018. According to the Agreed Settlement, the total commercial fee increase, including fee increases within maintained contracts, must not exceed the cumulative fee cap for inpatient, outpatient or physician services.

Hospital Inpatient Fee Cap

We estimate that L+MH could increase its commercial inpatient fees per market basket service 16.5% cumulative for the period between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +16.5%.⁵ The +16.5% fee change for a 2.25 year period is the equivalent of +7.0% fee change per annum. The cumulative fee increase allows L+MC to attempt to regain the annual increases it may have lost during the maintained contract period.

The fee cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including
 - i. Shifting of the distribution of E-CT hospital discharge market share to non-E-CT hospitals
 - ii. Annual growth in the average case mix per market basket discharge between FY2016 and CY2018
 - iii. Modest growth in L+MH's Medicare fees in January 2018 relative to larger increases in Medicare fees for Other E-CT hospitals (see Exhibit 5B).
 - iv. Planned changes to CT Medicaid fees that will disproportionately reduce fees for L+MH (see Exhibit 5A).
- b. A 2.25 year span between FY2016 and CY2018.
- c. No shifts in the distribution of inpatient service mix by payer between FY2016 and CY2018
- d. Commercial fee increase of +4.0% for hospitals other than L+MH. The increase is consistent with the increase FY2014 to FY2016 by payer, rounded down (see Exhibit 4A).

Note: The two key determinates of the 3.0% per annum spread between L+MH's capped commercial fee increase (+7.0%) and the expected non-L+MH fee increase (+4.0%) are 1) the modest January 2018 Medicare fee increase for L+MH relative to larger fee increases for other E-CT hospitals and 2) the planned CT Medicaid fee reductions. The impact of these fee changes on 65% of L+MH's discharges needs to be balanced by commercial fee increases that are applicable to the other 35% of L+MH's discharges.

Hospital Outpatient Fee Cap

We estimate that L+MH could increase its commercial outpatient fees per market basket service 11.6% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +11.6%. The +11.6% fee change for a 2.25 year period is the equivalent of +5.0% fee change per annum. The cumulative fee increase allows L+MC to attempt to regain the annual increases it may have lost during the maintained contract period.

⁵ Fee changes are to be measured by comparing the average commercial fee in CY2018 to the average commercial fees in FY2016.

The fee cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including
 - i. The significant decline in L+MH's Medicaid outpatient fees in July 2016 due to hospital outpatient Medicaid Modernization
 - ii. L+MH's anticipated Medicare outpatient fee decrease as of January 2018
- b. A 2.25 year span between FY2016 and CY2018
- c. No shifts in the distribution of outpatient services or service mix by payer or by hospital between FY2016 and CY2018
- d. Assumptions for annual growth in fees
 - i. Commercial – for hospitals other than L+MH: +4.0% from CY2015 to CY2018
 - ii. Medicare – fee per APC relative weight unit: +0.5% from CY2017 to CY2018
 - iii. Medicaid – fee per APC relative weight unit: 0.0% from CY2017 to CY2018

Note: Only one-quarter of the impact of outpatient Medicaid Modernization is reflected L+MHs FY2016 fees and Medicare fees will in January 2018. Therefore, L+MH needs a significant above-market commercial outpatient fee increase to bring its CY2018 fee ratio (average all-payer fees relative to the market) to FY2016 levels.

Physician Fee Cap

We estimate that LMMG could increase its commercial physician fees per market basket service 8.0% cumulative between FY2016 and CY2018 and maintain the same fee ratio as FY2016. Therefore, the cumulative fee change cap for the period between FY2016 and CY2018 is +8.0%. The +8.0% fee change for a 2.25 year period is the equivalent of +3.5% fee change per annum. The cumulative fee increase allows L+MC to attempt to regain the annual increases it may have lost during the maintained contract period.

The cap is based upon the following considerations:

- a. The facts outlined in the Market Review section, including
 - i. No change in Medicaid and Medicare fee levels. There are no announcements that indicate that Medicaid and Medicare fees will significantly change between now and CY2018
- b. A 2.25 year span between FY2016 and CY2018
- c. No shifts in the distribution of physician services or service mix by payer between FY2016 and CY2018
- d. Assumptions for annual growth in fees
 - i. Commercial – for market and LMMG: +3.5% per annum from CY2015 to CY2016 based on various consultant reports
 - ii. Medicare – fee per service: flat from FY2016 to CY2018
 - iii. Medicaid – fee per service: flat from FY2016 to CY2018

Non-Fee Cap Recommendation

1. **We recommend that OHCA consider not making this CMIR public.** There is a risk that if other hospitals serving E-CT patients know that L+MH is seeking commercial fee increases, these other hospitals will request increases themselves, potentially creating a multi-year upward spiral of fee increases.

MONITORING AND FUTURE CMIRS

In this CMIR, Milliman, sets fee caps and otherwise performs the tasks that the Agreed Settlement describes for the independent *consultant*. The Agreed Settlement assigns another entity, the independent *monitor*, with the task of monitoring fee L+MCs fee changes and assuring the changes do not exceed the fee caps.

Condition 20 of the Agreed Settlement subjects L+MH fees to annual caps for the five year period following the September 2016 closing – therefore through August 2021. Since this CMIR is for CY2018, there will be three future CMIRs for L+MH: CY2019, CY2020, and CY2021. There will be no future CMIRs for LMMG as Condition 20 specifies that LMMG's fee caps end 28 months from the date of the closing and the fee caps for this CMIR extend through December 2018.

Because the L+MH CMIRs are ongoing and the fee caps are cumulative, the fee caps are also self-adjusting. As contemplated in Condition 22a of the Agreed Settlement, if data that is not available at the time of a CMIR subsequently becomes available or unexpected events occur in the market (such as an unanticipated change in government payer fees), the new data and events will be incorporated into the next CMIR and the next year's fee cap. Likewise, should L+MH not be able to obtain the fee increases that allow it to retain its pre-transfer of ownership fee ratio, L+MH will be able to attempt to do so the next year.

The annual CMIRs will also allow us to assess whether L+MH is continuing to provide emergency care services, services to government payer populations, and substance use disorder and mental health services at L+MH's FY2016 (pre-Agreed Settlement) levels as contemplated by Conditions 22b(e) and 22b(f) of the Agreed Settlement.⁶ This CMIR establishes the baseline for the assessments.

⁶ 22b(f) specifically asks us to examine L+MH's provision of low and negative margin services. Emergency care services, services to government payer populations, and services to substance use disorder and mental health services are generally considered low and negative margin services. Similarly the people needing these services are generally considered to be "vulnerable populations" as specified by 22b(e). We do not have the data for further examination of vulnerable populations and low and negative margin services.

DATA AND METHODOLOGY

HOSPITAL INPATIENT CARE

Overview

As described in our methodology below, we created a market basket of hospital inpatient discharges for the top MS-DRGs associated with CT's top inpatient primary diagnoses, principal procedures, surgical procedures, and surgical MS-DRGs. We then used Medicare MS-DRG relative weight factors to adjust for the case mix of the market basket discharges⁷, defining a case mix adjusted discharge (CMAD) as a discharge with a relative weight factor of 1.00. CMAD is our "unit of analysis" for purposes of recommending a fee cap.

For all payers, we estimated the fee per CMAD of a group of hospitals as the sum of its net revenue divided by the sum of its MS-DRG relative weight factors, where the sum of the MS-DRG relative weight factors is the sum of the product of the case mix index and number of discharges by hospital. The calculation for an individual hospital is the same, except without the summations.

$$\text{Fee per CMAD}_{\text{group of hospitals}} = \frac{\sum(\text{Net Revenue})_{\text{hospital}}}{\sum(\text{MS} - \text{DRG Relative Weight Factor})_{\text{hospital}}}$$

$$\text{Where } (\text{MS} - \text{DRG Relative Weight Factor})_{\text{hospital}} = (\text{Case Mix})_{\text{hospital}} * (\text{Unweighted Discharges})_{\text{hospital}}$$

The fee per CMAD calculation relies upon:

1. CT Hospital Information Management Exchange (CHIME) data to identify which hospitals provide the market basket MS-DRG discharges.
2. "Twelve Month Actual Filing" data filed with OHCA to estimate market basket inpatient discharge fees.

We describe hospital discharges and fees for FY2014 – FY2016. We project hospital discharges and their case mixes from FY2016 to CY2018, estimate Medicaid and Medicare fee changes from FY2016 to CY2018, and calculate the fee increase as the maximum commercial fee increase from FY2016 to CY2018 that will maintain L+MH's average fee relative to the market.

Data

We relied upon the following data sources for our inpatient analysis:

- CT Department of Insurance most common inpatient hospital service lists⁸.
- CT hospital discharge data from the CHIME⁹ database as provided to us under a data use agreement by YNHHS, for the period 10/2013 through 9/2016.
- CT hospital "Twelve Month Actual Filing"¹⁰ operational and financial data filed with OHCA, for FY2014, FY2015, and FY2016. Tabs within the Filing are referred to as "Reports" and have a number, such as Report 165.
 - FY2016 annual reports have not been reviewed by OHCA.

⁷ Medicare MS-DRG relative weight factors are used by Medicare and other payers to compensate hospitals for more and less costly hospital discharges.

- Two hospitals, Manchester Memorial Hospital and Rockville General Hospital, have filing extensions, which means that FY2015 annual reports are the latest available. We assumed that their reported values are unchanged from FY2015.
 - If new or amended data becomes available, the fee and trend values cited in this report may change. The data, however, is unlikely to have a substantial impact on the conclusions.
- Medicare fee per CMAD developed from the corrected final rules for CY2015 to CY2018^{11,12,13,14,15}.
- CT Medicaid fee schedules and fee schedule changes and analysis of fee schedule change impact by hospital from the DSS website¹⁶.
- L+MH hospital outpatient claims and payment data.
- Other
 - County to zip code mapping provided by YNH and checked for reasonableness.
 - Medicare 2016 MS-DRG service weights^{1140,1244,17}.

Methodology

Summarize Historical Discharges

Step 1: Create a set of inpatient market basket MS-DRGs.

- a. **Identify relevant discharges:** Identify the CHIME FY2014-FY2015 statewide discharges related to one or more of the top inpatient primary diagnoses, principal procedures, surgical procedures, and surgical MS-DRGs as listed in the Department of Insurance (DOI) service lists.
- b. **Create market-basket MS-DRG list** (see Table 1). Count the FY2015 statewide discharges for each MS-DRG identified in Step 1a. Create list of the 50 MS-DRGs with the most discharges – the “market basket MS-DRGs.” Note: we used FY2014-FY2015 as the market basket years. Due to the October 2015 conversion to ICD-10, FY2015 was the last year that the ICD-9 codes corresponding to the DOI lists were available within CHIME.

Step 2: Identify hospitals providing inpatient services to E-CT patients.

- a. **Identify E-CT zip codes** (see Table 2).
- b. **Identify E-CT patient discharges.** Using patient residence zip codes, identify the CHIME FY2014-FY2015 statewide discharges for patients residing in E-CT.

¹⁶ "Hospital Rates: Inpatient Rates." *Department of Social Services*. State of Connecticut, 1 Jan. 2017. Web. 4 May 2017. <http://www.ct.gov/dss/cwp/view.asp?a=4598&q=540318>.

¹⁷ "FY 2014 Final Rule Data Files" *Centers for Medicare and Medicare Services (CMS)*. N.p., 28 Jan. 2014. Web. 4 May 2017. <https://www.cms.gov/medicare/medicare-fee-for-service-payment/acuteinpatientpps/fy-2014-ipp-ss-final-rule-home-page-items/fy-2014-ipp-ss-final-rule-cms-1599-f-data-files.html>.

- c. **Create a list of hospitals caring for E-CT patients.** Create a list of the hospitals responsible for 99%+ of the E-CT patient discharges for FY2014 and FY2015. This list contains 13 hospitals (see Table 3).
- d. **Group hospitals by region.** Group the 13 hospitals as L+M (1), other E-CT hospitals (5), non-E-CT hospitals (7) (see Table 3).

Step 3: Assign payer categories and service weights to FY2014 to FY2016 CHIME discharges.

- a. **Assign payer categories.** Map CHIME payers to payer categories (see Table 4A).
- b. **Assign relative weights.** Assign MS-DRG relative weights to each discharge.

Step 4A: Summarize the number of CHIME discharges and service weights from E-CT patient hospitals for market basket MS-DRG discharges by FY, facility, payer category, region.

Step 4B: Separately summarize CHIME discharges for mental illness and substance abuse MS-DRGs (MS-DRGs 880 to 897) by FY, facility, payer category, region.

Calculate Historical Fees

Step 5: Collect data for the 13 hospitals from the “**Twelve Month Actual Filings**”. Specifically:

- a. **Report 165:** Inpatient Net Revenue (by payer).
- b. **Report 185:** Discharges (by payer) and Case Mix Index (by payer).
- c. Confirm that case mix index as reported in Twelve Month Actual Filings are average Medicare MS-DRG relative weights.

Step 6: Calculate average net revenue per case mix adjusted discharge and average case mix by hospital and payer.

- a. **Map “Twelve Month Actual Filings” payers** to Medicare, Medicaid, commercial, uninsured, and other (see Table 4B).
- b. **Calculate average net revenue per case mix adjusted discharge by hospital and mapped payer.**

Summarize Historical Discharges and Fees

Step 7: Summarize historical discharges and fees.

- a. Count market basket and non-market basket DRG discharges by fiscal year and hospital region and calculate the market basket percentage of total discharges (see Exhibit 1).
- b. For market basket DRG discharges, quantify discharges by year, hospital region, and payer (see Exhibit 2A & Exhibit 2B). For mental illness and substance abuse DRGs, quantify discharges by year, hospital region, and payer (see Exhibit 2C).
- c. For market basket DRG discharges, calculate average case mix by year, hospital region, and payer, where totals across regions and payers are weighted by market basket discharges (see Exhibit 3).
- d. For market basket DRG discharges, calculate average fees per CMAD, where totals across regions and payers are weighted by the product of market basket discharges and relative weight factors (see Exhibit 4A & Exhibit 4B).

Project Future Discharges, Case Mix, and Fees

Step 8: Calculate scheduled Medicaid fee changes per CMAD from FY2016 to CY2018, where totals across regions and payers are weighted by the 2016 product of market basket MS-DRG discharges and average case mix.

Note: CT Medicaid has/is implementing two inpatient fee changes. One was an all hospital 5% fee reduction as of January 2017 to adjust for unexpected high inpatient intensity after the implementation of hospital inpatient Medicaid Modernization in 2015. The other is 4-year adjustment of hospital-specific base fees, starting January 2017. While the 4-year adjustment is neutral across the state, hospitals serving E-CT patients will (on average) receive fee decreases and the fee decreases will be (on average) larger for E-CT hospitals than non-E-CT hospitals. Between FY2016 and CY2018, hospital basket weighted Medicaid fee decrease will be -12.8% for L+H, -8.4% for other E-CT hospitals, and -6.8% for non-E-CT hospitals (see Exhibit 5A).

Step 9: Calculate scheduled Medicare fee changes per CMAD from FY2016 to CY2018, where totals across regions and payers are weighted by the product of the estimated market basket MS-DRG discharges and average case mix (see Exhibit 5B).

Note: In order to estimate the CY 2018 IP fee per CMAD, the CY 2017 IPPS corrected final rule was used, updated for the operating and capital base rates, wage indexes, and capital geographic adjustment factors from the CY 2018 corrected final rule.

Step 10: Assign other values

- a. A 2.25 year span between FY2016 and CY2018.
- b. No shifts in the distribution of inpatient service mix by payer between FY2016 and CY2018
- c. Assumptions for annual growth in fees per CMAD between FY2016 and CY2018:
 - i. Medicare, where L+MH's fees will increase modestly from FY2016 through CY2017, and then decrease in CY2018 due to a change in their geographic assignment. The rest of the market continues to increase modestly over FY2016 – CY2018. The figures below annualized and inclusive of all fee changes from FY2016 – CY2018(see Exhibit 5B)
 1. -2.8% L+MH
 2. +1.0% other E-CT
 3. +1.0% non-E-CT
 - ii. Medicaid, where L+MH's fees have decreased more than the market (see Exhibit 5A)
 1. -5.9% L+MH
 2. -3.8% other E-CT
 3. -3.1% non-E-CT
 - iii. Commercial fee increase of +4.0% for hospitals other than L+MH. The increase is consistent with the increase FY2014 to FY2016 by payer, rounded down (see Exhibit 4A).

Step 11: Find the L+MH commercial fee increase that maintains the FY2016 ratio of L+MH all-payer fees per CMAD to total all-payer market fees per CMAD.

HOSPITAL OUTPATIENT CARE

Overview

Hospital outpatient departments provide a variety of services, including emergency services, surgeries, diagnostic and screening tests, laboratory services, and imaging. A given outpatient visit, particularly an emergency or surgery visit, can result in a bill with a long list of service-line charges. Medicare pays for many, but not all, outpatient services using the Ambulatory Payment Classification (APC) system, a system that often groups the charges from a visit into a single payment – much like MS-DRGs are used to make a single payment for an inpatient admission. Some services, such as mammograms, are not grouped but paid as stand-alone services. On July 1, 2016, CT Medicaid implemented an outpatient payment system that is Medicare-like, including the use of APCs. Prior to July 2016, CT Medicaid paid for outpatient services using a cost-to-charge methodology.

Commercial payers are not required to use an APC methodology. If commercial payers do use an APC methodology, they may not use it consistently for all providers or all services. Furthermore, commercial fee levels vary dramatically among payers and providers paid by the same payer¹⁸.

As described below, we created a market basket of APCs and stand-alone services associated with CT's top outpatient services. 95%+ of the market basket services are APCs; the remainder are mammogram services. We grouped L+MH and market commercial-payer claims data into APCs to calculate APC commercial fees for market basket services, whether or not the payer used an APC methodology.

Data

We relied upon the following data sources for our outpatient analysis:

- CT Department of Insurance most common outpatient hospital service lists¹⁹.
- Medicare rules for assigning outpatient services to payment methodologies and within the APC methodology to specific APCs²⁰.
- CT hospital discharge data from the CT Hospital Information Management Exchange (CHIME)²¹ database as provided to us under a data use agreement by YNHHS, for FY2016.
- CT hospital "Twelve Month Actual Filing" data filed with OHCA, for FY2015²². Tabs within the Filing are referred to as "Reports" and have a number, such as Report 165.
- CT Medicaid fee schedules and hospital outpatient Medicaid Modernization impact analysis by hospital from the DSS website²³.
- CT Medicaid freedom of information act (FOIA) request for counts of outpatient market basket services provided July-December 2016 to E-CT Medicaid patients by hospital. Data was requested for the second half of 2016 as

¹⁸ New York State Health Foundation. *Why Are Hospital Prices Different? An Examination of New York Hospital Reimbursement*. Gorman Actuarial, Dec. 2016. Web. 4 May 2017. <http://nyshealthfoundation.org/resources-and-reports/resource/an-examination-of-new-york-hospital-reimbursement>.

the market basket services are mostly APC services and CT Medicaid did not use an APC payment methodology until the second half of 2016.

- Medicare 5% sample of Medicare fee for service claims CY2014.²⁴
- Medicare wage indices (known as “Table 2” and “Table 3”), from the corrected final rules for CY2015 to CY201^{1140,1244,1342,1443}
- Medicare APC payment per relative weight units CY2015 to CY2017²⁵.
- Truven MarketScan and Milliman Consolidated Health Cost Guidelines Sources Database claims data for E-CT CY2014 and CY2015²⁶.
- L+MH hospital outpatient service billing and payment (claims) data CY2016.
- Other
 - County to zip code mapping provided by YNH and checked for reasonableness.
 - Data from various sources for commercial outpatient hospital fee trends²⁷.

Methodology

Summarize Outpatient Services

Step 1: Create a set of outpatient market basket services.

- a. **Identify the payment methodology for top procedures.** Identify the Medicare (and CT Medicaid July 2016+) payment methodology associated with the top outpatient procedures, outpatient surgical procedures, and outpatient imaging procedures listed in the Department of Insurance (DOI) service lists.
- b. **Eliminate HCPCS codes that do not result in a distinct payment.** Eliminate HCPCS codes that are packaged into various APCs and are never or only sometimes distinctly paid and services are not eligible for payment.
- c. **Create a market basket list of APCs and HCPCS codes** (see Table 5).

Step 2A: Estimate the distribution of market basket outpatient services by hospital for E-CT patients.

- a. **Identify E-CT (all-payer) CHIME patient emergency department and outpatient surgical discharges.** Using patient residence zip codes, identify the CHIME FY2016 statewide discharges for patients residing in E-CT.
- b. **Identify E-CT Medicaid market basket services.** Using data from a FOIA request, identify the statewide hospitals providing Medicaid market basket services for patients residing in E-CT.
- c. **Identify E-CT Medicare market basket services.** Using the Medicare 5% sample, identify the statewide hospitals providing Medicare market basket services for patient residing in the three counties of E-CT.
- d. **Estimate the distribution by hospital of market basket outpatient services for residents of E-CT for Medicaid, Medicare, and commercial payers by hospital area** (see Exhibit 7A).

Step 2B: Summarize the distribution of emergency department discharges where the primary diagnosis is mental illness or substance abuse. From the emergency department discharges identified in Step 2A.a, identify all discharges where the primary ICD-10 diagnosis code starts with the letter F (F denotes mental illness or substance

²⁶ MarketScan® Research Databases. *Truven Health Analytics*. N.p., n.d. Web. 25 Apr. 2017. <http://truvenhealth.com/markets/life-sciences/products/data-tools/marketscan-databases>.

²⁷ List of sources available upon request.

abuse) and summarize the discharges for Medicaid, Medicare, and commercial payers by hospital area (see Exhibit 7B).

Calculate Historical and Current Fees

Step 3: Track Medicare average APC fees from CY2015 to CY2017.

- a. **Develop hospital fees** using each hospital's geographic assignment, the wage factor for the geography, and the national fee per APC relative weight unit.
- b. **Weight across hospitals** using each hospitals' proportion of Medicare market basket services, developed from the CY2015 Medicare 5% sample.

Step 4: Track Medicaid average APC fees from July 2015 to CY2017.

- c. **Develop hospital fees** using APC fee data and the hospital outpatient Medicaid Modernization impact analysis from the CT Medicaid website.
- d. **Weight across hospitals** using each hospitals' proportion of Medicaid market basket services, developed using data from the FOIA request.

Step 5: Estimate commercial E-CT fee levels for FY2015 using Truven MarketScan and Milliman Consolidated Health Cost Guidelines Sources Database claims data.

Step 6: Estimate commercial E-CT fee trends from FY2015 to FY2016 using various public sources.

Step 7: Estimate L+MH's commercial hospital outpatient fees levels for FY2016 using billing and payment data provided by L+MH.

Estimate Payer Distribution

Step 8: Estimate the service distribution by payer for the hospitals serving E-CT patients.

- a. **Sum outpatient hospital net revenue by payer for the 13 hospitals.**
- b. **Adjust the distribution from Step 8a for differences in relative fees and impute the service distribution by payer** using the relative fee levels by payer calculated from Steps 4, 5, and 7.

Project Future Fees

Step 9: Project CY2018 Medicare fees by hospital using Medicare final wage indices and final CBSA assignments. Assume 0.5% increase in APC fee per relative weight unit.

Step 10: Project CY2018 Medicaid fees by hospital using Medicaid final wage indices and final geographical CBSA assignments. Assume no change in APC fee per relative weight unit.

Step 11: Project CY2018 commercial fees (in total for non-L+MH hospitals). Assume a 4% non-L+MH trend continues for the 2.25 year span between FY2016 and CY2018

Step 12: Find the L+MH FY2018 commercial fee that maintains the FY2016 ratio of L+MH fees to total market fee using the CY2016 historical fees and the projected CY2018 fees. Weight across hospitals using results from Step 3. Weight across payers (same weight for all hospitals) using result of Step 9.

PHYSICIAN CARE

Overview

Physician groups provide services including office visits, surgical procedures, anesthesia services, laboratory services, and other diagnostic and therapeutic services. Physician groups provide these services in several settings including offices, hospitals, skilled nursing facilities, and others. A physician may bill one or several services for a single patient interaction.

Medicare pays for most physician services using a formula that incorporates time and intensity of the service (work), costs of maintaining a practice (practice expense or PE), and costs of malpractice insurance (MP). Each component is quantified using relative value units (RVU) adjusted for geographic variations using geographic practice cost indices (GPCI). Medicare uses a different approach to set fees for laboratory services. The sum of these pieces is then multiplied by a conversion factor to generate the payment for a given service. This is described in the following formula:

$$\begin{aligned} \text{Physician Fee} = & (\text{Work RVU} \times \text{CT Work GPCI}) \\ & + (\text{PE RVU} \times \text{CT PE GPCI}) \\ & + (\text{MP RVU} \times \text{CT MP GPCI}) \end{aligned}$$

CT Medicaid pays for physician services using a fee schedule available on the DSS website. Commercial fee levels vary between payers and between various providers paid by the same payer.

As described below, we created a market basket of HCPCS associated with LMMG's top physician services.

Data

We relied upon the following data sources for our physician analysis:

- LMMG physician billing data for physician services provided from October 2014 – June 2016.
- CT Medicaid fee schedules from the DSS website²⁸.
- CT Medicaid freedom of information act (FOIA) request for counts of market basket physician services provided CY2016 to E-CT patients by LMMG physicians and other physicians by geographical area.
- Medicare 5% sample of Medicare fee for service claims CY2014²⁹.
- Medicare conversion factors from CY2015 to CY2016³⁰ and for CY2017³¹.
- Medicare geographic practice cost indices for CY2015³² and from CY2016 to CY2017³³.

- Medicare HCPCS payment per relative weight units for CY2015³⁴ and from CY2016 to CY2017³⁵.
- NPI registry data³⁶.
- Other
 - County to zip code mapping provided by YNH and checked for reasonableness.
 - Data from various sources for commercial physician fee trends³⁷.

Methodology

Summarize Physician Services

Step 1: Create a set of physician market basket services.

- a. **Rank order by frequency of procedure codes for physician services provided by LMMG.** Count the number of procedures performed at LMMG in June 2016 by HCPCS code and select the most common procedures.
- b. **Eliminate procedure codes that are not for payment purposes or are invalid.**
- c. **Create a market basket list of 25 HCPCS codes** (see Table 6).

Step 2: Calculate the distribution of market basket physician services by payer for services performed at LMMG.

- a. **Map “financial class” that appears in LMMG data to Medicare, Medicaid, commercial, or other** (see Table 7).
- b. **Map each location in LMMG data as “facility” or “non-facility”.** Each location is first mapped to a CMS Location Type using a table provided by LMMG (see Table 8). The CMS Location Type is used to determine if the location is considered “Non-Facility” or “Facility”.
- c. **Calculate the distribution of market basket physician services by payer for E-CT patients for FY2015 and FY2016** (see Exhibit 10). The LMMG data contains all 12 months of FY2015, but only the first 8.5 months of FY2016, because L+MH switched accounting systems mid-June 2016. October 2015 – May 2016 services were annualized to estimate the total services provided in FY2016.
- d. **Calculate Medicaid allowed as a percent of Medicare allowed for market basket physician services.** For market basket services provided to Medicaid patients, calculate the Medicare allowed amounts using the 2017 Medicare fee schedule.

Step 3: Calculate the percent of market basket services provided by LMMG, other E-CT physicians, and non-E-CT physicians.

- a. **Calculate the percent of Medicaid market basket physician services provided by LMMG, other E-CT physicians, and non-E-CT physicians** using data provided by CT Medicaid via a FOIA request.
- b. **Calculate the percent of Medicare market basket services provided by LMMG, other E-CT physicians, and non-E-CT physicians.**
 - i. **Identify E-CT zip codes** (see Table 2).
 - ii. **Identify the E-CT and non-E-CT market basket services by HCPCS code and physician NPI and listed zip code with the Medicare 5% sample.**

³⁴ "CMS-1612-FC." Centers for Medicare and Medicaid Services (CMS). N.p., 13 Nov. 2014. Web. 3 June 2017. <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/PFS-Federal-Regulation-Notices-Items/CMS-1612-FC.html>.

³⁵ "CMS-1654-F." Centers for Medicare and Medicaid Services (CMS). N.p., 19 Jan. 2017. Web. 5 June 2017. <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/PFS-Federal-Regulation-Notices-Items/CMS-1654-F.html>.

³⁶ "DataDissemination." CMS.gov Centers for Medicare & Medicaid Services. N.p., 04 Aug. 2016. Web. 22 June 2017. <https://www.cms.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProidentStand/DataDissemination.html>.

³⁷ List of sources available upon request.

- iii. **Estimate the total volume of E-CT and non-E-CT Medicare market basket services.** “Gross up” the 5% sample of fee-for-service Medicare services to 100% of total Medicare services (fee-for-service and Medicare Advantage).
- iv. **Divide E-CT market basket services between LMMG and other E-CT physicians** using LMMG’s data for LMMG’s portion.

Calculate Historical and Current Fees

Step 4: Develop Medicare fees for CY2015 to CY2017.

- a. **Develop Medicare fees by service, year, and location of service for market basket services paid using work, practice expense (PE), and malpractice (MP) RVUs** from Medicare fee data.
- b. **List Medicare fees by service and year for market basket laboratory services** using Medicare fee data.

Step 5: Calculate Medicare trends. Weight the fees developed in Step 4 by LMMG’s distribution of market basket services across all time periods in the LMMG billing data.

Step 6: Develop Medicaid fees for FY2016 to now using Medicaid fee data. Note: the data shows that there have been no changes since the beginning of FY2016.

Step 7: Compare Medicaid fees to Medicare fees. “Reprice” LMMG’s market basket Medicaid services using CY2017 Medicare fees. Calculate the ratio of Medicaid fees to Medicare fees.

Project Future Fees

Step 8: Project CY2018 Medicaid fees for LMMG. Medicaid fees have remained flat since September 2015. There are no announcements that indicate that Medicaid fees will significantly change between now and CY2018.

Step 9: Project CY2018 Medicare fees for LMMG. Medicare fees have changed very modestly from CY2015 to CY2017. There are no announcements that indicate that Medicare fees will significantly change between now and CY2018.

Step 10: Project CY2018 commercial fee increase for the market. Based on a review of recent trends and trend predictions, assume a 4% non-L+MH trend continues for the 2.25 year span between FY2016 and CY2018

Step 11: Find the LMMG FY2018 commercial fee that maintains the FY2016 ratio of LMMG fees to total market fees. Unless there are changes in Medicaid and Medicare fee levels or changes in payer mix, LMMG will be able to maintain its fee ratio to the market if its commercial fee increases are the same as the market’s commercial fee increases.

ESTIMATION CHALLENGES

In order to prepare the Cost and Market Impact Review, the independent consultant must estimate current and future prices for L+MC and for the eastern CT market (Tolland, Windham, and New London counties). Here we note important challenges inherent in the estimation process. Because of these challenges, actual current or future prices may vary from our estimates.

Lack of Publicly Available Data

Healthcare prices paid by private payers are generally not publicly available. By contrast, charges defined by hospital “charge masters” are available on the OHCA website³⁸. Virtually no payer, however, pays the charges in these reports. Payers, including Medicare, Medicaid, and commercial insurance companies, declare or negotiate their prices. These negotiated prices often have little relationship to the reported charges, and may vary substantially from payer to payer. While prices (inclusive of patient cost sharing) are the “true cost” of care, hospitals and physician groups are not required to reveal the actual prices for the care that they provide. Therefore, we estimated historical prices from various public and non-public data sources. Connecticut has been working on developing an all payer claims database (APCD) for some time. We confirmed that at the time of this project, APCD data was not available³⁹. Complete APCD data, if available in future years, will provide additional precision to our estimates of commercial prices.

Recent and Future Price Increases are Unknown

The goal of assuring that L+MC’s future price increases per unit service (fees) do not exceed the market fee increases requires knowledge of recent and future fee increases in the market. Future fee increases are often unknown and may be subject to disruptive changes, such as a significant change in a government fee schedule. Furthermore, for commercial insurance, it may take months to years for public and non-public data sources to become available for the estimation of recent fee increases. We have made estimates of recent and future changes and will adjust them as further data becomes available.

Reliance on Data from Financial Reports

For hospital inpatient discharges, we estimate FY2016 prices using hospital net revenue as reported by the hospitals. The reported net revenue is the most recent (through September 2016), comprehensive (all patients and payers), and consistent (all CT hospitals) data source for estimating hospital prices. Reported net revenue, however, is subject to accounting adjustments that are not necessarily related to services rendered in the reporting period and the prices for the reporting period services. For example, there may be an adjustment for an over- or under-estimate of the prior year’s net revenue. We have implicitly assumed that the adjustments are minor and/or “cancel-out” (negatives offset positives) across the hospitals within a region.

Changes in Payer Mix

Because different payers may pay different fees, changes in payer mix can affect a provider’s fee across all payers, aside from any individual fee changes by payer. Therefore, the calculation of an allowed fee increase requires estimates of payer mix by hospital or group of hospitals. For example, Medicaid typically has the lowest fee and therefore a hospital that decreases Medicaid patient volume will collect higher average fees per patient without any fee increase. Conversely, a hospital that increases its Medicaid patient volume will need to increase its commercial fees in order to maintain its average fees level. We have made estimates of changes in payer mix.

Changes in Provider Mix

Because different providers may charge different fees, changes in provider mix can affect the market’s fee, aside from any individual fee changes by provider. Therefore, the calculation of market fee increases requires estimates of the past and future provider mix for the market. For example, if patients shift to a hospital or group of hospitals with higher fees, then the hospital fee for the market will increase without any hospital-level fee increases. We have made estimates of changes in provider mix.

³⁸ "Hospital Pricemaster Filings" *Department of Public Health*. State of Connecticut, n.d. Web. 4 May 2017. <http://www.ct.gov/dph/cwp/view.asp?a=3902&q=526224>.

LIMITATIONS AND CAVEATS

In performing our analysis, we relied on data and information as described above. We have not audited or verified this data and other information. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. The rate cap estimates are based on assumptions which we have summarized in our report. Our estimates should be viewed as best estimates. For some of the assumptions, there are reasonable alternative assumptions which would result in higher and lower estimates for the rate caps.

This work product was prepared to satisfy Conditions 22 b, c, d, and e of the Agreed Settlement between YNHSC and the Commissioner of the Department of Public Health. It may be inappropriate to rely upon it for any other purpose. We were required to follow the terms of the Agreed Settlement, including reporting to and taking additional direction from the Commissioner. We believe we have satisfied the terms in the Agreed Settlement.

As required by the Agreed Settlement, YNHSC engaged Milliman as an independent consultant. Milliman agrees that the work product may be provided to OHCA and the independent monitor that monitors YNHSC's compliance with the Agreed Settlement. Milliman does not intend to benefit any third party recipient of work product, even when Milliman consents to the release of work product to such third party.

The American Academy of Actuaries requires its members to identify their qualifications in communications. Tia Goss Sawhney and Bruce Pyenson are actuaries employed by Milliman and meet the Academy's qualifications to issue this communication.

Good afternoon Jeryl,

In reference to the documents listed on your email below dated November 30, 2017, please also provide us with the same documents in Excel format, as applicable. In particular, those related to capital commitment investment, cost savings and quarterly financial measures.

As you might already know, Excel format makes it easier to filter and analyzed data. It will be very helpful to us to receive them in this format.

Thank you in advance for your assistance.
Carmen

		4/1/17-9/30/17	10/1/16-9/30/17	Est. Beg. Date	Est. End Date	Est. Startup Date	EXPECTED FUNDING SOURCE*	L+MH	Westerly	LMMG	L+MH	Westerly	LMMG
Primary Care Clinical Services													
Family Medicine and Internal Medicine Recruitment	Recruitments in Family Practice and Internal Medicine to increase access to these services in the L+M service area were made during the second half of the fiscal year.	\$242,726	\$242,726	04/01/17	09/30/17	n/a	L+M Baseline Cash Flow	-	-	\$242,726	-	-	\$ 242,726
Specialty Clinical Services													
Specialty Services Access	Recruitments within neurosurgery, oncology, vascular, cardiology and psychiatry were made to increase access to these services in the L+M service area. Additions in endocrinology, general surgery, and obstetrics/midwifery were also made to replenish the medical staff.	\$1,743,767	\$3,369,454	10/01/16	09/30/17	n/a	YNHHS or L+M Baseline Cash Flow	\$1,137,572	-	\$606,195	\$2,388,518	-	\$980,937
Ambulatory Services													
Ambulatory Services	Several projects (including Outpatient Diagnostics, Urgent Care, and the Sleep Center, to name a few) are currently in the planning phase/pipeline. The expectation is that they will be initiated in the next fiscal year.	n/a	n/a										
Post Acute Services													
VNA and Other Post Acute Services	Planning around VNA Services are in process and expected to be initiated in the next fiscal year. Discussions about other post acute services are under way as well.	n/a	n/a										
Infrastructure within LMHC Facilities													
Investments in Infrastructure	Prior to the affiliation with YNHHS, L+MH and Westerly Hospitals (WH) were under growing financial pressure, and capital spending during that time was severely limited. Following the affiliation, significant catch-up was required to replenish aging and end-of-life equipment as well as perform necessary facility renovations. Capital expenditures for infrastructure during the time of the reporting period were made for new beds, repairs to parking garage, rebuild of elevators, security systems, and HVAC systems. In addition, the LMMG General Surgery practice was relocated to the L+MH main campus to enhance availability and improve timeliness of services for patients and physicians.	\$4,562,218	\$6,523,652	10/01/16	09/30/17	n/a	L+M Baseline Cash Flow	\$3,444,419	\$758,744	\$359,055	\$4,094,876	\$1,845,593	\$583,183

Information Technology													
Epic System - Build and Installation	Capital investment related to the development and build of the Epic EMR system that went live at L+M and WH on 1/20/17 included software licenses; customization and development of interfaces to ensure integration with other 3rd party software; training time (prior to go-live) for clinicians and other personnel on using the new system; support during the actual go-live from Epic consultants; and hardware, including new servers. Replacing the older EMR systems and moving to the fully-integrated Epic system, had the advantage of improving quality of care by providing best practice protocols and enhancing patient engagement via patient portals, "MyChart", and other patient and physician-friendly features. By moving to Epic as part of a large System, L+M was able to mitigate risk by relying on the invaluable experience and expertise that YNHHS brought to the installation.	\$3,235,507	\$14,043,985	10/01/16	09/30/17	n/a	YNHHS or L+M Baseline Cash Flow	\$2,647,611	\$587,896	\$0	\$12,045,814	\$1,993,353	\$4,818
Infor (ERP) Project	Investments were made at L+M for development, customization and installation of a new ERP (Enterprise Resource Planning) system to replace its legacy system. Incorporating Supply Chain, General Finance, and Human Resources functions within a single system (that also includes budgeting, decision support, and management reporting) is fundamental to effectively running the business. YNHHS has a long track record of leading the industry in these areas by innovatively leveraging these reporting capabilities to drive quality, patient engagement and physician efficiencies. While L+M is still in the building stages, progress toward full integration across the system is underway and remains a key corporate objective.	\$392,095	\$747,744	10/01/16	09/30/17	n/a	YNHHS	\$326,384	\$65,711	-	\$622,431	\$125,314	-
Other Information Technology Projects	Capital investments for other IT projects at L+M included Access Control Plan Implementation; Laboratory EMR Results Interfaces; and RIS/PACS Implementation, among other items. These systems - specifically integrating critical patient tests, imaging, and other diagnostics with the broader medical record system - were on the front line of improving access, optimizing care delivery, and coordinating patient care across the continuum.	\$2,311,409	\$2,651,119	10/01/16	09/30/17	n/a	L+M Baseline Cash Flow	\$2,230,635	\$64,904	\$15,870	\$2,446,720	\$168,963	\$35,436
Population Health													
Population Health Initiatives **	As a result of the affiliation, L+M is able to move forward and participate in the YNHHS Population Health infrastructure and clinically integrated network. As part of the system, L+M will be able to utilize YNHHS resources and will avoid an estimated \$10 million in operating/capital cost. \$10 million (\$2 million per year over the course of 5 years) was identified in the CON as the investment associated with population health infrastructure.	\$1,750,696	\$2,000,000	10/01/16	09/30/17	n/a	YNHHS	\$1,438,851	\$311,846	-	\$1,643,747	\$356,254	-

Branding													
Advertising, Signage, Website	Investments were made in converting existing external and internal signage throughout L+M to formally recognize the affiliation and rebrand all facilities and services as Yale New Haven Health. A considerable investment was made in the website design to better connect patients across the system and improve communication regarding services, physicians and locations. Advertising the affiliation through print, digital, and radio ads has enhanced communication to patients and physicians regarding the health care resources available in the region.	\$1,338,705	\$2,163,307	03/31/17	09/30/17	n/a	YNHHS	\$900,562	\$438,142	-	\$1,312,864	\$850,444	-
Operational Improvements													
Corporate Services Support ***	Significant resources have been provided to L+M by YNHHS Corporate services departments (i.e., Internal Consulting Group, IT, Finance, etc.) over the past 6 months. As an integral part of the underlying value of the affiliation, Corporate Services personnel continue to assist L+M in identifying synergies, achieving savings, standardizing methodologies, introducing procedures, implementing Epic and other IT systems, and generally integrating L+M into the System.	\$5,855,994	\$8,935,503	01/01/17	09/30/17	n/a	YNHHS	\$4,812,886	\$1,043,108	-	\$7,343,853	\$1,591,650	-
Clinical Technology Investments	Investments in clinical technology were made at L+M to drive operational improvements including new diagnostic equipment (Tomosynthesis) for early breast cancer detection; state-of-the-art pharmacy at the L+M Cancer Center to adhere to regulatory requirements and enhance patient safety; new equipment on inpatient units to assure patient care quality; and other improvements in structures and processes to effectively provide high-quality, safe patient care.	\$2,225,297	\$6,605,009	01/01/17	09/30/17	n/a	L+M Baseline Cash Flow	\$1,542,889	\$682,408	-	\$4,445,384	\$2,159,625	-

Community Need / Community Building													
Support for Physical Improvements and Housing	Community involvement and financial support for partner organizations' physical improvement and housing related activities. Partner organizations include Community Speak Out, the Homeless Hospitality Center, and the Jewish Federation. Includes support for transitional and shelter housing, sober house certification training, air conditioners for vulnerable residents, and other support. L+M Hospital is increasingly aware of how social determinants impact the health of individuals and communities. A person's health and chances of becoming sick and dying early are greatly influenced by powerful social factors such as education, income, nutrition, housing and neighborhoods. During Fiscal Year 2017, L+M Hospital invested in community building efforts that promote thriving and healthy communities in our region.	\$6,302	\$11,200	2/17/17	n/a	n/a	L+M Baseline Cash Flow	\$6,302	-	-	\$11,200	-	-
Social Determinants of Health	Community involvement and support for partner organizations' work to address social determinants of health not specific to the other categories. Includes support for education, youth development and neighborhood development strategies in distressed New London neighborhoods. The rationale for these investments is to address the health needs identified by the most recent CHNA and 2016 Community Health Improvement Plan (CHIP), including social determinants of health.	\$46,055	\$96,055	2/17/17	n/a	n/a	L+M Baseline Cash Flow	\$46,055	-	-	\$96,055	-	-
Support for Economic Development	Community involvement and financial support for partner organizations' economic development activities. Economic development supports a regional infrastructure that includes sufficient employment opportunities providing a living wage. In addition to income, such employment provides healthcare, retirement and other benefits. Being under- or unemployed is strongly correlated with poor health outcomes.	\$15,080	\$15,080	3/27/17	n/a	n/a	L+M Baseline Cash Flow	\$15,080	-	-	\$15,080	-	-

Good afternoon Jeryl,

In reference to the documents listed on your email below dated November 30, 2017, please also provide us with the same documents in Excel format, as applicable. In particular, those related to capital commitment investment, cost savings and quarterly financial measures.

As you might already know, Excel format makes it easier to filter and analyzed data. It will be very helpful to us to receive them in this format.

Thank you in advance for your assistance.

Subject: Docket Number 15-32033-CON Condition 11: Annual Community Benefit Report Narrative Clarification

After review of the documents submitted to comply with Conditions of Docket # 15-32033-CON: Transfer of Ownership of Lawrence + Memorial Corporation to Yale New Haven Health Services Corporation, the independent monitor requested an explanation of a discrepancy between the community benefit/community building numbers reported in the Narrative submitted to comply with Condition 11 and the IRS Form 990 report of community benefit for FY 16.

The first paragraph of the submitted narrative reads:

Narrative for Condition 11:

Community Benefit

In 2016, Lawrence & Memorial Hospital (“L+MH”) community benefit totaled \$38,686,420 and in fiscal year (FY) 2017, community benefits are on track to exceed that amount (current estimate is \$38,767,485 with data reporting and analysis not yet complete). The community building investment increased by 134%, from \$52,237 in FY 2016 to an estimated \$122,335 in FY 2017.

Explanation:

The community benefit total reported for FY 16 in the narrative includes both the community benefit figure reported in the IRS Form 990 (\$38, 625,033) plus the community building figure (\$61,387) reported in the IRS Form 990 added together for a total community benefit of \$38,686,420. This ties to the narrative figure. The community building figure reported in the narrative (\$52,237), however, was incorrect due to using the figure from an earlier draft. The correct community building figure is \$61,387 for FY 2016. The correct estimated FY 2017 community building investment increase is 99% over FY 2016.

Please contact me if you have any questions or require further explanation.

YNHHSC Independent Monitor Review Report for Six Month Reporting Period

December 11, 2017

This document was created pursuant to the engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”) and Yale New Haven Health Services Corporation and its subsidiaries, and D&T understands that this document will be shared with the Connecticut Office of Health Care Access (“OHCA”) in its capacity as regulator. This document is not intended to be and should not be relied on by any other person or entity. D&T and its affiliated and related entities shall not be responsible for any loss sustained by any person or entity that relies on this document.

December 11, 2017

Ms. Gayle Capozzalo
Executive Vice President and Chief Strategy Officer
Yale New Haven Health
789 Howard Avenue
New Haven, CT 06519

Dear Ms. Capozzalo,

Re: Deloitte & Touche LLP Six-Month Report as Independent Monitor per Docket Numbers 15-32032-CON and 15-32033-CON

In accordance with our engagement letter dated November 7, 2016 (“Engagement Letter”), the attached report summarizes the findings from the work steps performed by Deloitte & Touche LLP (“D&T”), as requested by Yale New Haven Health (“YNHHSC”), with respect to the Independent Monitor role for the 6-month reporting period.

Pursuant to the Engagement Letter, YNHHSC agrees that any deliverables provided to YNHHSC by D&T may be disclosed to the State of Connecticut’s Office of Health Care Access (“OHCA”) to the extent required by such regulator in connection with their regulatory oversight.

The services were performed in accordance with the Statement on Standards for Consulting Services that is issued by the American Institute of Certified Public Accountants (“AICPA”). The services did not constitute an engagement to provide audit, compilation, review, or attestation services as described in the pronouncements on professional standards issued by the AICPA, the Public Company Accounting Oversight Board, or other regulatory body and, therefore, D&T does not express an opinion or any other form of assurance as a result of performing the services.

Sincerely,

Deloitte & Touche LLP

I. Detailed Observations Table

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 32b	A narrative description of the achievement of the strategic plan components to retain and enhance healthcare services in the communities served by L+M, including with respect to physician recruitment and resource commitments for clinical service programming, whether the commitments described in the Affiliation Agreement were achieved, as well as the purposes, dates and amounts for which expenditures were made.	5/31/17 & 11/30/17	For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32 requirements a through e and g have been met including referencing specific locations of primary care physicians.	YNHHS submitted Management Representation to OHCA in accordance with Conditions 7, 19a and 32b on 5/31/17 and 11/30/17.
15-32033-CON Condition 7	<p>Within one hundred and eighty (180) days following the Closing Date and thereafter until the capital commitment is satisfied, YNHHS shall submit to OHCA a report on the capital investments ("Capital Investment Report") it has made in L+M and its affiliates from the \$300M Commitment Amount. The Capital Investment Report shall include the following in a format to be agreed upon:</p> <p>a. A list of the capital expenditures that have been made in the prior one hundred and eighty (180) days with descriptions of each associated project; and</p> <p>b. An explanation of why each expenditure was made and a timeframe for the roll out of the associated capital project (including estimated beginning, ending and startup/operation dates); and</p> <p>c. The funding source of the capital investment indicating whether it was drawn from operating revenue, capital contributions from YNHHS or another source and, if funding was drawn from another source, indicating the source.</p> <p>For purposes of this Order, semi-annual periods are October 1-March 31 and April 1 - September 30. The required information is due no later than two (2) months after the end of each semi-annual period. Due dates are May 31st and November 30th beginning May 31, 2017. The reports shall be signed by L+M's or L+M's Chief Financial Officer. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify the continued financial feasibility of the project.</p>	5/31/17 & 11/30/17	D&T will obtain the Plan (per 15-32033-CON Conditions #4 and #19). We will read the plan and verify that expenditures/investments made are in accordance with the Plan. We will discuss any questions/need for clarification with Management to ensure the expenditures are verified. D&T will confirm detailed, full and timely submissions, with appropriate signatures of all required reports.	YNHHS submitted reporting to OHCA in accordance with Conditions 7, 19a, and 32b on 5/31/17 and 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 18	<p>L+MH shall continue to maintain emergency room services, inpatient general medicine services, cardiology services (including emergency and elective PCI), inpatient obstetrics/gynecology services, inpatient behavioral health services, critical care unit services, and oncology services, which such services shall assure patient affordability and adhere to standards of care, quality, and accessibility and reflect local community need.</p> <p>NOTE 1: See related Condition #1 which applies to the first 180 dates post-closing. Following that time, YNHHS is bound by Condition #4 and the Services Plan created per Condition #4.</p>	5/31/17 & 11/30/17	<p>D&T will confirm that these services are properly maintained by conducting site visits, and ongoing data analysis of unit and patient data (e.g. to see continuing patient volume/services). YNHHS will provide a Management Attestation/Representation to OHCA that it is in compliance with 15-32033-CON Condition #18. D&T will obtain a copy of that Management Representation.</p>	<p>YNHHS submitted Management Representation to OHCA in accordance with Condition 18 on 5/31/17 and 11/30/17.</p> <p>The semi-annual site visits were completed on 3/1/17, 7/6/17, and 12/4/17.</p>
15-32033-CON Condition 32a	<p>Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 – September 30 with reports due November and May certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation of the continuation of all L+MH services as described herein.</p>	5/31/17 & 11/30/17	<p>For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's notarized Management Representation to OHCA that 15-32033-CON Condition 32 requirements a through e and g have been met.</p>	<p>YNHHS submitted reporting to OHCA in accordance with Condition 32a on 5/31/17 and 11/30/17.</p>
15-32033-CON Condition 8	<p>For three (3) years following the Closing Date, YNHHS shall submit to OHCA a financial measurement report. This report shall be submitted on a semi-annual basis and show current month and year-to-date data and comparable prior year period data for L+MH and L+M. The required information is due no later than two (2) months after the end of each semi-annual period (fiscal year). Due dates are May 31st and November 30th, beginning May 2017. The following financial measurements/indicators should be addressed in the report: (i) Operating performance to include operating margin, non-operating margin, and total margin; (ii) Liquidity to include current ratio, days cash on hand, days in net accounts receivables, and average payment period; (iii) Leverage and capital structure to include long-term debt to equity, long-term debt to capitalization, unrestricted cash to debt, times interest earned ratio, debt service coverage ratio, and equity financing ratio; and (iv) Additional Statistics to include income from operations, revenue over (under) expense, cash from operation, cash and cash equivalents, net working capital, free cash flow (and the elements used in the calculation, unrestricted net assets/retained earnings, bad debt as a percentage of gross revenue, and credit ratings.</p>	5/31/17 & 11/30/17	<p>D&T will obtain the financial measurement report and review work papers to ensure that they are consistent with financial reports being submitted to L+M Hospital Board and that the required elements and financial measurements are appropriately recorded in the report; we will confirm the timely submission of each report.</p>	<p>YNHHS submitted financial measurement reporting to OCHA in accordance with Condition 8 on 5/31/17 and 11/30/17.</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 32f	<p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include the following additional information in its annual report.</p> <ul style="list-style-type: none"> i. Narrative updates on the progress of implementation of the plan. These updates shall include the status of integration activities and adoption by L+MH and L+M of YNHHS non-clinical shared services opportunities; ii. A report identifying L+M and L+MH cost saving totals since the Closing Date for the following Operating Expense Categories: Salaries and Wages, Fringe Benefits, Contractual Labor Fees, Medical Supplies and Pharmaceutical Costs, Depreciation and Amortization, Bad Debts, Interest Expense, Malpractice Expense, Utilities, Business Expenses and Other Operating Expenses. The categories shall be consistent with the major operating expense categories (Categories A,B,C,D,E,F,G,H,I,J, and K) that are in use at the time of reporting in the OHCA Hospital Reporting System ("HRS") Report 175 or successor report. YNHHS shall also file a narrative describing the specifics of the cost savings for each of these major expense categories; iii. A completed Balance Sheet, Statement of Operations, Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and iv. For L+MH, a completed Hospital Operating Expenses by Expense Category and Department report. The format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 175 or successor report. 	5/31/17 & 11/30/17	<p>For 15-32033-CON Condition #32F, D&T will obtain the Five-Year Plan prepared by YNHHS and the ongoing six-month reports based on fiscal year. We will verify that the required elements are included in the report and are documented and supported by underlying information. We will confirm timely submission of all reports (OHCA's, HRS, Report 100, Report 150 and Report 175) and succession reports to OHCA.</p>	<p>YNHHS submitted reporting to OHCA in accordance with Condition 32f on 5/31/17 and 11/30/17.</p> <p>The milestone dates for the six-month report are 5/31/17 and 11/30/17 for 15-32033-CON Condition 32f and 15-32032-CON Condition 7c.</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32032-CON Condition 7c	<p>Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>A detailed and comprehensive document showing a five-year plan (the "plan") to generate and achieve efficiencies for L+M resulting from non-clinical shared services opportunities, L+M's integration with and adoption of YNHHS information technology systems and platforms, YNHHS's supply chain management services, integration of clinical and business practices across LMMG and NEMG, L+M's reduced cost of capital, and L+M's participation in YNHHS population health initiatives. Subsequent to submission of the plan in its six month report, YNHHS shall include a completed Balance Sheet, Statement of Operations, and Statement of Cash Flow for L+MH, L+M and LMMG (or of NEMG in the event of an NEMG-LMMG merger). For L+MH, the format shall be consistent with that which is in use at the time of reporting in OHCA's HRS Report 100 and Report 150 or successor reports; and</p>	5/31/17 & 11/30/17	Refer to procedures for 15-32033-CON Condition #32f in the work plan above.	<p>YNHHS submitted reporting to OHCA in accordance with Condition 32f on 5/31/17 and 11/30/17.</p> <p>The milestone dates for the six-month report are 5/31/17 and 11/30/17 for 15-32033-CON Condition 32f and 15-32032-CON Condition 7c.</p>
5-32033-CON Condition 6	<p>Within one hundred and eighty (180) days following the Closing Date, the Applicants shall file with OHCA the total price per "unit of service" for each of the top 25 most frequent MS-DRGs (inpatient) and top 25 most frequent CPT codes (outpatient) for L+MH services. The first filing shall be for the period October 1, 2015 – September 30, 2016. The Applicants shall provide the same information for three (3) full fiscal years thereafter, within sixty (60) days following the end of a fiscal year. OHCA shall provide the format for the filing. OHCA is imposing this condition to ensure that the proposed transfer of ownership does not adversely affect health care costs.</p>	5/31/17 & 11/30/17	<p>D&T will obtain YNHHS's analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information. D&T will review work papers to confirm information and timely filing. * 1st filing is due within 180 days (March 2017); 2nd filing is due 60 days after the close of FY2017 which is 11/30/17 and the 3rd filing is due 60 days after the close of FY2018 which is 11/30/18.</p>	<p>YNHHS submitted analysis of the top 25 most frequent MS-DRGs and CPT codes and related weighted average price information to OHCA in accordance with Condition 6 on 5/31/17 and 11/30/17.</p> <p>Modified semi-annual reporting for 5/31/17 was submitted to OHCA on 8/2/17.</p>

<p>15-32033- CON Condition 22</p>	<p>Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <ul style="list-style-type: none"> a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined below) for L+MH and LMMG (the "annual CMIR update"). YNHHS shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available. b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 19a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut. c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purposes of determining further conditions as necessary to correct 	<p>11/30/17</p>	<p>D&T will confirm that YNHHS initiated this review within 90 days of closing by obtaining a copy of the relevant contract/engagement letter as evidence. D&T will also confirm that the analysis addresses the required elements.</p> <p>D&T will obtain a copy of the CMIR performed by the Independent Consultant. D&T will meet annually with the Independent Consultant.</p>	<p>The Independent Consultant (Milliman) submitted the CMIR to OHCA on 12/1/17.</p> <p>The Independent Monitor and Independent Consultant currently meet via conference call on a regular basis.</p>

15-32033-CON Condition 22 (continued)	<p>such condition and to create a performance improvement plan to address the conditions. The Commissioner shall determine whether YNHHS is in compliance with such performance improvement plan. Prior to the end of each fiscal year, the independent consultant shall conduct the annual CMIR update and use the results of such annual CMIR update to establish a cap on any increase in the price per unit of service for the upcoming fiscal year. Nothing herein shall prohibit the independent consultant from considering and recommending any recommendations of the Certificate of Need Task Force on cost containment measures or a cap on annual cost or price increases.</p> <p>d. The independent consultant shall report to and take direction from the Commissioner. The independent consultant in establishing the cap shall take into consideration the cost reductions reflective of the efficiencies resulting from the affiliation and the annual cost of living of the primary service area or the Eastern Connecticut area.</p> <p>e. The independent consultant shall provide the baseline CMIR and the annual CMIR update to OHCA within thirty days of completion. OHCA shall keep confidential all nonpublic information and documents obtained as part of the baseline CMIR and the annual CMIR update and shall not disclose the information or documents to any person without the consent of YNHHS and L+M, unless required to do by law.</p>			

<p>15-32032- CON Condition 3</p>	<p>Within ninety days of the Date of Closing, YNHHS shall initiate a cost and market impact review which shall comply with Connecticut General Statute Section 19a-639f, which such analysis shall include and shall be utilized to establish the baseline cost structure set forth below:</p> <ul style="list-style-type: none"> a. Establishing a baseline cost structure and total price per unit of service (the "baseline CMIR") and establishing a cap on annual increases in total price per unit of service (as defined in d. below) for L+MH and LMMG (the "annual CMIR update"). Yale New Haven shall retain an independent consultant, subject to OHCA's approval, to conduct the baseline CMIR and the annual CMIR update and shall pay all costs associated with the cost and market review. To the extent that all data is not available to comply with the provisions of section 19a-639f the baseline CMIR shall be adjusted to reflect such information when it becomes available. b. In conducting the baseline CMIR and annual CMIR update, the cost and market impact review shall analyze the factors relative to L+MH and LMMG in accordance with subsection (d) of section 10a-639f of the general statutes and the Eastern Connecticut market more specifically: (a) L+MH and LMMG's size and market share within their primary and secondary service areas; (b) L+MH's and LMMG's prices for units of service, including its relative price compared to other providers for the same services in Eastern Connecticut; (c) L+MH and LMMG cost and cost trends in comparison to total healthcare expenditures statewide; (d) the availability and accessibility of services similar to those provided by L+MH and LMMG in their primary and secondary service areas; (e) the role of L+MH and LMMG in serving at-risk, underserved and government payer populations, including those with behavioral, substance use disorder and mental health conditions, within their primary and secondary service areas; (f) the role of L+MH and LMMG in providing low margin or negative margin services within their primary and secondary service areas; (g) general market conditions for hospitals and medical foundations in the state and in Eastern Connecticut in particular; and (h) and other conditions that the independent consultant determines to be relevant to ensuring that L+MH and LMMG prices do not exceed the market price for similar services in Eastern Connecticut. c. In recognition that the baseline CMIR pursuant to Connecticut General Statute Section 19a-639f shall be conducted after the Date of Closing, in the event that the baseline CMIR finds a likelihood of materially increased prices as a result of the L+M affiliation with YNHHS, notwithstanding these conditions, the Commissioner of Public Health (Commissioner) and YNHHS shall meet and confer for the purpose of determining further conditions as necessary to correct such condition and to create a performance improvement plan to address the 	<p>11/30/17</p>	<p>Refer to procedures for 15-32033-CON Condition #22 above.</p>	<p>The Independent Consultant (Milliman) submitted the CMIR to OHCA on 12/1/17.</p> <p>The Independent Monitor and Independent Consultant currently meet via conference call on a regular basis.</p>

15-32033-CON Condition 20 Paragraph 1	<p>L+M and YNHHS shall maintain the current L+MH and Lawrence + Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p>	5/31/17 & 11/30/17	<p>D&T will evaluate and verify that contracts are maintained in accordance with this condition. We will meet with YNHHS Management to read the contracts and confirm that this condition is met.</p>	<p>YNHHS submitted a Management Representation to OHCA in accordance with Condition 20 paragraph 1 on 5/31/17 and 11/30/17.</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 32c	Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of Conditions (20), (21) and (22) above.	5/31/17 & 11/30/17	For 15-32033-CON Condition 32c, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32c requirements have been met. We will meet with YNHHS Management to read the contracts and confirm that this condition is met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 32c on 5/31/17 and 11/30/17.
15-32033-CON Condition 20 Paragraphs 2/3	<p>Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation and in addition as set forth in paragraph 25 herein. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to cap determined through the process set forth below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	5/31/17 & 11/30/17	D&T will obtain the Independent Consultant/CMIR Report which should address/provide analysis to confirm paragraphs 2 and 3 of 15-32033-CON Condition #20. D&T as the Monitor will not independently perform additional/separate procedures related to paragraphs 2 and 3 of 15-32033-CON Condition #20.	YNHHS submitted the Independent Consultant/CMIR Report to OHCA in accordance with Condition 20 paragraphs 2/3 on 5/31/17 and 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32032-CON Condition 1	<p>Lawrence & Memorial Medical Group (LMMG) commercial health plan contracts in effect as of the Date of Closing for a period following the Date of Closing to December 31, 2017. Rates or scheduled increases in such previously negotiated rates that are in effect on the Date of Closing shall be maintained for a period ending December 31, 2017. Any L+M commercial health plan contracts that expire prior to December 31, 2017 shall be extended to December 31, 2017 and any contracts without expiration dates shall be continued under their current previously negotiated terms for a period from the Date of Closing to December 31, 2017. No increase in negotiated rate schedules shall be negotiated during the periods set forth in this paragraph.</p> <p>Upon the expiration of any such L+M commercial health plan contracts after such period, L+M and YNHHS shall negotiate new rates based on L+M's post-Closing cost structure, taking into account any cost or price reductions, i.e. efficiencies, achieved as a result of the affiliation. YNHHS shall not impose a single System-wide rate and shall, for L+MH and LMMG, maintain a negotiated rate structure reflective of the market conditions applicable generally to hospitals and medical foundations in Eastern Connecticut.</p> <p>For a period of five years from the Date of Closing in the case of L+MH, and twenty-eight months from the Date of Closing in the case of LMMG, any annual increase in the total price per unit of service (as defined below) for L+MH and LMMG shall be subject to a cap determined through the process set forth in Paragraphs 3 and 4 below. It is the intent of the parties that such cap shall serve as a cap for the purpose of assuring patient affordability for services delivered by L+MH and LMMG.</p>	5/31/17 & 11/30/17	Refer to procedures for 15-32033-CON Condition #20 outlined here and 1532033-CON Condition 20a, 20b and 20c.	YNHHS submitted Management Representations in accordance with Condition 20, referencing the requirements noted for Condition 1 on 5/31/17 and 11/30/17.
15-32032-CON Condition 7a	<p>Every six months (the "six month reports") until September 30, 2018 and each year thereafter (each an "annual report"), YNHHS shall submit notarized reports to OHCA for the periods of October 1 through March 31 (due May 31) and April 1 through September 30 (due November 30) certifying the achievement of each and every commitment described herein, including without limiting the foregoing the following specific detail:</p> <p>a. Affirmation that L+MH and LMMG commercial health plan contracts in place as of the Date of Closing are/were maintained through the remainder of their terms, and that any new contracts are consistent with the commitments of paragraphs (20), (21) and (22) above.</p>	5/31/17 & 11/30/17	Refer to procedures for 15-32033-CON Condition #32c.	YNHHS submitted reporting to OHCA in accordance with Condition 7a on 5/31/17 and 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 21a	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph 20 above, i.e. physicians providing services through NEMG to L + M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.	5/31/17 & 11/30/17	D&T obtained YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21a. ¹	YNHHS submitted a Management Representation to OHCA in accordance with paragraph 20, satisfying the requirements of Condition 21a on 5/31/17 and 11/30/17.
15-32032-CON Condition 2a	With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG): a. LMMG and NEMG will integrate as of the Closing Date, and when NEMG is able to abide by the commitment set forth in paragraph I above, i.e. physicians providing services through NEMG to L+M patients, that were not providing services as of the Date of Closing, shall charge prices for services (site specific charges) based upon LMMG commercial health plan contracts and total price per unit of service, LMMG and NEMG shall implement the statutory merger contemplated in the Certificate of Need Application.	5/31/17 & 11/30/17	Refer to procedures for 15-32033-CON Condition #21a above.	YNHHS submitted a Management Representation to OHCA in accordance with paragraph 1, satisfying the requirements of Condition 2a on 5/31/17 and 11/30/17.

¹ D&T did not test payer submissions as commercial health plan contracts were frozen through 12/31/17. Separate procedures will be applied to assess compliance with the CMIR requirements and contracted rates.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 21b	<p>With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 20: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. Current LMMG physicians providing services in the primary service area as of the Date of Closing in any specialties shall be subject to the provisions of paragraph 20.</p>	5/31/17 & 11/30/17	D&T will obtain YNHHS's Management Representation submitted to OHCA relative to compliance with 15-32033-CON Condition #21b.	YNHHS submitted a Management Representation in accordance with paragraph 20, satisfying Condition 21b to OHCA on 5/31/17 and 11/30/17.
15-32032-CON Condition 2b	<p>With respect to the proposed merger of LMMG and Northeast Medical Group (NEMG):</p> <p>b. Physicians who are hired, recruited or contracted by a YNHHS affiliate to provide professional services (other than in a licensed hospital department) in the primary service area (which may from time to time change), currently the communities of East Lyme, Groton, Ledyard, Lyme, Montville, New London, North Stonington, Old Lyme, Preston, Salem, Stonington and Waterford, and in the following specialties shall be billed at the LMMG commercial health plan negotiated rates subject to the provisions of paragraph 1: family medicine; general medicine; internal medicine; obstetrics and gynecology; endocrinology; and psychiatry. YNHHS submitted a Management Representation in accordance with paragraph 1, satisfying Condition 2b to OHCA on 5/31/17 and 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 16	<p>The Independent Monitor will report to both OHCA and FLIS. The Independent Monitor shall conduct on-site visits of L+MH on no less than a semi-annual basis to assess adherence to DPH's Consent Order. The Independent Monitor shall furnish a written report of his or her assessment to OHCA and FLIS within thirty (30) days of the completion of each on-site review. YNHHS will have the opportunity to review and provide written responses to the report. As OHCA deems necessary, the Independent Monitor shall meet with OHCA and FLIS personnel to discuss the written report and will perform additional periodic reviews. OHCA is imposing this Condition to ensure continued access to health care services for the patient population and to verify and monitor compliance with the Conditions set forth herein.</p>	2 per year; report due 30 days after visit	<p>D&T will plan, at a minimum, two site visits per year. The site visits will include meetings with Administration/Leadership and review of any documentation requested by D&T. D&T will provide a report that summarizes the activities from the prior six month period along with any recommendations or observations to YNHHS, OHCA, and FLIS. Procedures associated with 15-32033-CON Condition #16 are expected to coincide/satisfy 15-32033-CON Conditions 33b and 33d as well.</p>	<p>The semi-annual site visits were completed on 3/1/17, 7/6/17, and 12/4/17. A brief report summarizing the site visit were submitted in accordance with Condition 16 on 3/23/17 and 12/4/17.</p> <p>D&T submitted report summarizing YNHHS activities to address Conditions from the prior six-month period on 04/07/17 and 12/11/17.</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32032-CON Condition 8	<p>In addition to the above, L+M and YNHHS shall make the following commitment for a period of five years post-Closing: a. L+M and YNHHS shall appoint an independent monitor at their own cost (selected by YNHHS and L+M and approved by OHCA) to serve as a post-transfer compliance monitor.</p> <p>a. L+M and YNHHS shall appoint an independent monitor at their own cost (selected by YNHHS and L+M and approved by OHCA) to serve as a post-transfer compliance monitor.</p> <p>b. Such monitor shall, at a minimum meet with representatives of the L+M community at six months after the Date of Closing and annually and shall report to OHCA in accordance with Section 19a-639(e) of the general statutes and specifically address: (i) L+M's compliance with the Certificate of Need Order; and (ii) the level of community benefits and uncompensated care provided by L+M during the prior period.</p> <p>c. L+M shall provide the monitor with reasonable access to its public filings and facilities and all other financial information necessary for the purposes of carrying out the monitor's duties.</p> <p>d. L+M shall hold a public forum in New London at six months after the Date of Closing and not less than annually thereafter during the monitoring period to provide for public review and comment on the monitor's reports and findings.</p>	Ongoing	Refer to procedures for 15-32033-CON Condition #33 a through e above.	<p>YNHHS submitted minutes from Community Meetings with "participation group" to OCHA on 1/27/17 and 3/1/17.</p> <p>D&T reviewed the public notice and attended the community meetings and public forums on 1/24/17, 3/1/17, 7/6/17, and 12/4/17 and submitted Public Forum minutes to OHCA on 3/23/17. Minutes for the 12/4/17 meeting were submitted on 12/7/17.</p>

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32032-CON Condition 8 (continued)	e. If the Independent Monitor determines that YNHHS and L+M are substantially out of compliance with the conditions to the CON, the monitor shall notify YNHHS and L+M in writing regarding the deficiency. Within two weeks of such notice, the monitor shall convene a meeting with representatives from YNHHS and L+M for the purpose of determining compliance and any appropriate corrective action plan. If YNHHS and L+M fail to implement a plan of correction satisfactory to the monitor within thirty days of such meeting, the monitor shall report such substantial noncompliance and its impact on health care costs and accessibility to OHCA. OHCA shall determine whether such non-compliance has had a material negative impact and what remedy is reasonably necessary to bring YNHHS and L + M into compliance and shall have the right to enforce these conditions by all means and remedies available to it under law and equity, including but not limited to Conn. Gen. Stat. 19a-642 and the right to impose and collect a civil penalty under Conn. Gen. Stat. 19a-653 In addition, in the event OHCA determines YNHHS and L+M are in material non-compliance, OHCA may order YNHHS and L+M to provide additional community benefits as necessary to mitigate the impact of such noncompliance.	Ongoing	Refer to procedures for 15-32033-CON Condition #33 a through e above.	Per YNHHS submissions to OHCA, there are no noted instances of non-compliance with the requirements outlined in Condition 8.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033- CON Condition 11	<p>The Applicants shall maintain community benefit programs and community building activities for L+MH for three (3) years after the Closing Date consistent with L+MH's most recent Schedule H of IRS Form 990 or shall provide such other community benefit programs and community building activities that are at least as generous and benevolent to the community as L+MH's current programs, and the Applicants shall apply no less than a 1% increase per year for the next three (3) years toward the L+MH's community building activities in terms of dollars spent.</p> <p>In determining L+MH' s participation and investment in both community benefits and community building activities, the Applicants shall address the health needs identified by the applicable CHNA in effect at the time and the population health management objectives, including social determinants of health, contained in the related Implementation Strategy.</p> <p>a. On an annual basis, YNHHS shall identify the amounts and uses related to community benefits and community building and shall discuss how such investments and support are being applied toward the health needs identified in the CHNA and population health management objectives. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing for three years and shall be posted on L+MH's website. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	11/30/17	D&T will obtain L+MH's most recent Schedule H of IRS Form 990 to act as a baseline. We will then compare on an annual basis the results of that year to the baseline in order to verify that the 1 percent increase requirement has been met. D&T will also obtain the YNHHS report/summary on the amounts and uses related to community benefits and community building per the categories identified in the CHNA. D&T will evaluate these reports/summaries as compared to the CHNA and defined population health management objectives and will discuss any questions with YNHHS Management. D&T will confirm that these documents are filed in a timely manner and posted to the L+MH website.	<p>D&T obtained and reviewed Schedule H of 2016 IRS Form 990 and will review the 2017 990 when available.</p> <p>YNHHS submitted an estimate analysis to OHCA in accordance with Condition 11 on 11/30/17.²</p>

² YNHHS clarified their filing on 12/8/17 for Condition 11 and Condition 12 to correct FY16 Community Building and Community Benefit levels to match the FY16 990.
CONFIDENTIAL– DO NOT DISCLOSE *Note – documentation has been referenced per YNHHS's submissions to the Monitor mailbox, as OHCA compliance webpage does not include 5/31/17 or 11/30/17 submissions.* Pg. 23

15-32033- CON Condition 12	<p>The Applicants shall work toward making culturally and linguistically appropriate services available and integrated throughout L+MH's operations. Specifically, the Applicants shall ensure that L+MH shall take reasonable steps to provide meaningful access to each individual with limited English proficiency eligible to be served or likely to be encountered in its health programs and activities, in accordance with the implementing regulations of Section 1557 of the Patient Protection and Affordable Care Act.</p> <p>Additionally, the Applicants shall provide at L+MH, appropriate insurance navigator services for patients and, where appropriate, English as a second language and cultural competency training for employees. In complying with this Condition, the Applicants shall ensure that L+MH shall be guided by the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care published by the U.S. Department of Health and Human Services' Office of Minority Health. For three (3) years following the Closing Date, YNHHS shall submit a written report on its activities directed at meeting this Condition. Such reporting shall be filed within thirty (30) days of the anniversary date of the Closing and shall be posted on L+MH's website. OHCA is imposing this Condition so as to ensure continued access to health care services for the patient population.</p>	11/30/17	D&T will obtain and review interpreter services policies and contracts as applicable. Additionally, our team will obtain the cultural competency plan, training and related policies. We will also obtain YNHHS's report and supporting documents and confirm the timely filing of these materials.	YNHHS submitted documentation to OHCA in accordance with Condition 12 on 11/30/17.
15-32033- CON Condition 10	<p>For three (3) years following the Closing Date, YNHHS shall provide written notice to OHCA of any modification, amendment or revision to the charity care, indigent care and community volunteer services policies of L+MH within thirty (30) days of such change. The notice of these changes shall be accompanied by copies of any revised policies and the notice and revised policies shall be posted on the website of L+MH simultaneously with their submission to OHCA. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.</p>	11/30/17	After obtaining original L+MH policies on charity care, indigent care, and community volunteer services, D&T will read and assess these policies on an annual basis for changes. When changes are made to these policies, we will confirm OHCA is notified (as required) and revised policies are posted to the L+MH website.	YNHHS submitted notice of modifications to policies to OHCA in accordance with Condition 10 on 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 32e	Affirmation that L+M has adopted the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof, and that such Policies, if amended, provide assistance to patients that is at least as generous as the YNHHS Financial Assistance Program Policies currently in effect as of the date hereof.	5/31/17 & 11/30/17	For 15-32033-CON Condition 32 requirements a through e and g, D&T will obtain a copy of YNHHS's Management Representation to OHCA that Condition 32 requirements a through e and g have been met.	YNHHS submitted documentation to OHCA in accordance with Condition 32e including financial assistance policies on 5/31/17 and 11/30/17. If future changes to policies are made, Independent Monitor will obtain YNHHS management representation that such policies are at least as generous as the YNHHS Financial Assistance Program Policies currently in effect.
15-32033-CON Condition 27	L+M shall continue to recognize all collective bargaining units currently organized at an L+M affiliate, and honor the collective bargaining agreements currently in place.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #27 has been met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 27 on 5/31/17 and 11/30/17.
15-32033-CON Condition 32g	Affirmation of the labor and employment commitments described herein, including but not limited to L+M's service sites continued honoring of collective bargaining agreements in place as of the date hereof.	5/31/17 & 11/30/17	See others below	YNHHS submitted a Management Representation to OHCA in accordance with Condition 32g on 5/31/17 and 11/30/17.

CONFIDENTIAL— DO NOT DISCLOSE

Note – documentation has been referenced per YNHHS's submissions to the Monitor mailbox, as OHCA compliance webpage does not include 5/31/17 or 11/30/17 submissions.

This document was created pursuant to the engagement letter dated November 7, 2016 between Deloitte & Touche LLP (“D&T”) and Yale New Haven Health Services Corporation and its subsidiaries, and D&T understands that this document will be shared with the Connecticut Office of Health Care Access (“OHCA”) in its capacity as regulator. This document is not intended to be and should not be relied on by any other person or entity. D&T and its affiliated and related entities shall not be responsible for any loss sustained by any person or entity that relies on this document.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 28	Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #28 has been met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 28 on 5/31/17 and 11/30/17.
15-32032-CON Condition 6	Employees of any L+M affiliate shall not be required to reapply for their positions as a result of the affiliation. To the extent that any L+M employees leave their employment at L+M service sites within ninety days following the Closing Date and obtain employment with a YNHHS affiliate, such employees' seniority shall be preserved (e.g., eligibility for benefits consistent with total years of service).	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #28 has been met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 6 on 5/31/17 and 11/30/17.
15-32033-CON Condition 29	L+MH shall maintain its current wage and salary structures for its non-bargaining or non-represented employees based on hospitals of similar scope, size and market conditions in Connecticut.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #29 has been met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 29 on 5/31/17 and 11/30/17.
15-32033-CON Condition 30	L+M and YNHHS shall use their best efforts to achieve efficiencies through the management of vacancies and attrition and to minimize the elimination of individuals' jobs.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #30 has been met.	YNHHS submitted a Management Representation to OHCA in accordance with Condition 30 on 5/31/17 and 11/30/17.

Condition Number	Condition Description	Milestone Date	D&T Procedure	Independent Monitor Observations
15-32033-CON Condition 17	For three (3) years following the Closing Date, the Applicants shall hold a meeting of the YNHHS Board and L+M Board ("Joint Board Meetings") at least twice annually. Such Joint Board Meetings shall be followed by a meeting to which the public is invited in advance and at which the public is informed of L+MH's activities and afforded an opportunity to ask questions and make comments. OHCA is imposing this Condition to ensure continued access to health care services for the patient population.	Twice a year	To confirm compliance with this provision, D&T will obtain minutes from these Joint Board Meetings and confirm notice of the public meetings is posted with proper notice. D&T will attend the public meetings as part of the Monitor role.	D&T reviewed materials ³ from the Joint Board Meetings of the YNHHS Board and L+MH Board for meeting date 5/8/17 and 11/27/17, in accordance with Condition 17. The next Joint Board Meeting is scheduled for 2/26/18.
15-32033-CON Condition 24	L+M and YNHHS shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #24 has been met.	YNHHS submitted a Management Representation to OCHA in accordance with Condition 24 on 5/31/17 and 11/30/17.
15-32033-CON Condition 32d	Affirmation that no L+M physician office has been converted to hospital-based status.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #32d has been met.	YNHHS submitted a Management Representation to OCHA in accordance with Condition 32d on 5/31/17 and 11/30/17.
15-32032-CON Condition 5	L+M and YNHHS shall not convert any L+M physician offices (including those that will be merged into NEMG) to hospital-based status.	5/31/17 & 11/30/17	D&T will obtain a copy of YNHHS's Management Representation to OHCA that 15-32033-CON Condition #24 has been met.	YNHHS submitted a Management Representation to OCHA in accordance with Condition 5 on 5/31/17 and 11/30/17.

³ No minutes were created for the 5/8/17 Joint Board Meeting – Deloitte reviewed an agenda write up of topics discussed and Cathy Zall, the Community Representative to the Board, provided an update during the July 6, 2017 Public Forum. Minutes from the 11/27/17 meeting were reviewed in draft and subject to edit by YNHHS until finalized at the next Joint Board Meeting on 2/26/17.

This document was created pursuant to the engagement letter dated November 7, 2016 between Deloitte & Touche LLP ("D&T") and Yale New Haven Health Services Corporation and its subsidiaries, and D&T understands that this document will be shared with the Connecticut Office of Health Care Access ("OHCA") in its capacity as regulator. Subject: Yale/L&M Docket Numbers 15-32032 and 15-32033_Compliance Material Submission

Dear Kelly:

Please address the following in reference to Docket number 15-32032 and 15-32033:

- 1) OHCA is requesting that all compliance filings from the hospital staff, first go to you, as the Independent Monitor (“IM”), and then you file the material with OHCA. This will provide OHCA with verification that you have reviewed the material to determine compliance to the order prior to OHCA’s review of the material. The submission of compliance documents by the hospitals’ staff directly to OHCA and only copied to you does not allow OHCA to clearly identify the IM’s involvement in the process of reviewing and submitting the documents.

Please continue to reference the CON docket number in the subject line of the email when transmitting and submit your responses via electronic mail by using the OHCA general email inbox which is OHCA@ct.gov.

You may contact me at (860) 418-7039 or Karen Roberts, Principal Health Analyst at (860) 418-7041, if you have any questions regarding this request.

Sincerely,
Carmen

Carmen Cotto, MBA
