Schedule H (Form 990) 2012

Part VI Supplemental Information

Complete this part to provide the following information.

- 1 **Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II; Part III, lines 4, 8, and 9b; Part V, Section A; and Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.
- 2 **Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B.
- 3 **Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.
- 8 **Facility reporting group(s).** If applicable, for each hospital facility in a facility reporting group provide the descriptions required for Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

Part I, Line 3c: Hartford Hospital used Federal Poverty Guidelines to determine eligibility.

Part I, Line 7: The organization utilized an overall cost to charge ratio, (RCC), developed from the Medicare Cost Report. Total expense was adjusted for: medicaid provider taxes, directly identified community benefit expense and community building expenses. This cost to charge ratio was used to calculate costs for Part I lines 7a, b, & g. The costs associated with the activities reported on Part I, Line 7e were captured using actual time multiplied by an average salary rate. The costs associated with Line 7h, were the actual costs reported in the organization's general ledger less any industry funded studies. These costs were removed from the calculations above to avoid duplication. Costs reported in Part III, Section B6, were calculated from the Medicare cost report and reduced for Medicare costs previously reported on Part I Lines 7f and g.

Part I, Line 7g: No physician clinic costs were included in the

Part VI Supplemental Information

subsidized Health Services cost calculations.

Part II: Hartford Hospital recognizes the impact that the social determinants of health have on the wellness of the community it serves. The Hospital spent in excess of \$300,000 on community building activities during fiscal year 2013. The Hospital has addressed quality of life issues affecting residents in our community, who are predominantly minorities. Examples of these efforts to affect job opportunities and poverty; quality of housing; neighborhood safety; and education can be found in the following Community Building activities.

Advocacy for Community Health Improvement - Since the community the Hospital serves is predominantly minorities, senior management provides expertise and resources to organizations in order to address social inequities and civil rights issues. Among these organizations are the Connecticut Coalition for Environmental Justice, Community Partners in Action (to assist people in the criminal justice system), Community Solutions (to provide alternatives to incarceration programs), and the Anti Defamation League.

Coalition Building - Hartford Hospital provides senior management support and resources to affect the allocation decisions and fundraising efforts by local organizations such as the United Way, Hartford Foundation for Giving, and the Connecticut Council for Philanthropy to ensure programs to improve the wellness of local residents. These organizations make financial contributions to local agencies to provide free social services to our underprivileged population.

Part VI Supplemental Information

Community Support - To address the personal safety for participants at evening activities, as well as to prevent vandalism and break-ins, Hartford Hospital provides security patrols around the Girl Scout campus 24/7. Management participates on the boards of local homeless and domestic violence shelters and supports periodic employee activities to provide personal care and food items to those in need. The Hospital has donated funds to provide free ice skating at Bushnell Park during the winter season to allow underprivileged children and their families an opportunity to exercise outdoors in a safe environment.

Economic Development - Hartford Hospital is active in the marketing efforts to promote Hartford by the following organizations in order to bring more jobs and commerce to the city: Greater Hartford Visitors Convention Bureau; Metro Hartford Alliance; The Children's Museum, Connecticut Center for Advanced Technology; and Chambers of Commerce for towns in the Hospital's service area.

Housing - Hartford Hospital is a member of the Southside Institutions Neighborhood Alliance (SINA), a collaborative effort of Hartford Hospital, Connecticut Children's Medical Center and Trinity College. The City of Hartford has one of the lowest percentages of home ownership in the country. Renters are often exposed to lead paint, a potentially dangerous toxin to children. SINA has endeavored to address the need for safe, clean housing and provide commitment to and pride for the neighborhood and community by promoting homeownership. In the past year, SINA completed construction of 10 single family homes, which were all sold to first time home buyers with incomes less than 80% of area median income. Hartford Hospital directly provided a significant portion of the funds that made

Schedule H (Form 990)

Part VI Supplemental Information

this project a success. Additionally, SINA began construction of four two family homes and one single family home which also will be sold to first time home buyers with incomes less than 80% of area median income.

Mentoring Programs - Hartford Hospital provides support to programs such as Our Piece of the Pie for social and personal growth of urban youth; spelling bees; Hartford Public Schools city-wide Science Fair; and college scholarships through Capital Community College and Southside Institutions Neighborhood Alliance.

Part III, Line 4: Please see the text of the footnote that describes bad debt expense beginning on page 19 of the Audited Financial Statement.

Part III, Line 3: In 2012 a pre-bad debt financial assistance screening was put in place to identify patients that may be eligible for financial assistance. Pre-bad debt accounts that are identified as meeting the requirements are adjusted prior to being sent to bad debt. Therefore, any bad debt expense that could have been attributable to charity care at the end of FY 2013 would be immaterial.

Part III, Line 8: Providing for those in need, including Medicare patients and serving all patients regardless of their ability to pay is an essential part of the organization's mission. The hospital serves all patients without regard to any payment shortfall. The organization Medicare Cost Report was used to accumulate actual costs related to Part III, Section B, Line 6.

Part III, Line 9b: The Financial Assistance Policy states: In the event

Schedule H (Form 990)

Part VI Supplemental Information

a patient fails to qualify for Financial Assistance or fails to pay their portion of discounted charges pursuant to this Policy, and the patient does not pay timely their obligations to Hartford Hospital, the Hospital reserves the right to begin collection actions, including but not limited to, imposing wage garnishments or liens on primary residences, instituting legal action and reporting the matter to one or more credit rating agencies. For those patients that qualify for Financial Assistance and who are cooperating in good faith to resolve the Hospital's outstanding accounts, the Hospital may offer extended payment plans to eligible patients, will not impose wage garnishments or liens on primary residences, will not send unpaid bills to outside collection agencies and will cease all collection efforts.

Hartford Hospital:

Part V, Section B, Line 3: Input was solicited from leading health care and social services providers, not for profit business leaders, and local residents. Specifically input was received in the following ways:

1. Key Informant Interviews: Each partner identified 5 to 10 people in management or leadership positions with various community organizations including health and human services, religious organizations, and government agencies, 85 in all. Respondents were asked, via phone interview, to critically evaluate health needs pertinent to the community through their experience. Survey questions focused on underserved populations and access to care issues in the City of Hartford. In total, 59 interviews were conducted. See appendix for complete list of participants.

Part VI Supplemental Information

2. Harford Survey Project: In order to better understand Hartford's human service needs and barriers to receiving services, a face to face survey by Urban Alliance, a local non profit organization, was conducted. 402 resident surveys were completed at 12 locations throughout the city to promote geographical and ethnic diversity among respondents; these locations include grocery stores, pharmacies, and community events and programs. Respondents were asked to indentify if they would benefit from any of 12 service areas, the possible barriers to obtaining these services, and which three areas of the 12 have a need for additional services. In addition they were asked to rank the top tree service areas in Hartford that they believed were in most need. Of the total respondents 57% were female and 43% were male. The ethnicity breakdown was 39% African American, 37% Latino, 9% White, and 8% West Indian. Age categories for respondents were 27% between 18 and 29 years old, 42% between 30 and 49, 2% between 50 and 64 and 6% were 65 and older.

Hartford Hospital:

Part V, Section B, Line 4: Hartford Hospital conducted the needs assessment with two other hospital facilities: Saint Francis Hospital and Connecticut Children's Medical Center.

Hartford Hospital:

Part V, Section B, Line 5c: The needs assessment was published in March 2012 and is available on the hospital's website. In addition, copies were distributed to local non-profit organizations, colleges, churches, and state and local government representatives. These reports are also made

Part VI Supplemental Information

available in waiting areas of the various departments within the hospital.

Hartford Hospital:

Part V, Section B, Line 7: At a meeting in April 2012, the hospitals, Hartford's Department of Health and Humans Services, and local partners met to prioritize the health issues determined by the needs assessment. Participants engaged in a ranking exercise and rated each issue on a 5 point likert Scale based on the following criteria: scope & severity, ability to impact and gaps in services. The higher the average, the greater perceived significance of the issue. Access to Care, Obesity, Diabetes, Cardiovascular disease, and Mental and Behavioral health rose to the top. Sexually Transmitted Diseases, Infant Mortality, Oral Health, Environmental Health, Asthma, and Cancer were at the bottom of the list. Participants came to the consensus that all the health issues identified in the needs assessment were important, but they noted the need to focus resources and efforts toward specific health issues such as the five identified. However, they stressed the importance of adopting broad reaching system changes that would improve coordination of care for individuals living in the City of Hartford.

Hartford Hospital:

Part V, Section B, Line 14g: A public notice regarding financial assistance and availability of free beds funds are posted at all of the admission sites, including admitting and emergency department. Patients are also encouraged to call service center if they need financial assistance.

Part VI Supplemental Information

Hartford Hospital:

Part V, Section B, Line 20d: Hartford Hospital is in the process of adopting proposed 501r regulations. Once the regulations are final the hospital will be in compliance.

Part VI, Line 2: Hartford Hospital conducted a Community Health Needs Assessment in collaboration with the Hartford Department of Health and Human Services, St. Francis Hospital and the Connecticut Children's Medical Center. The Health Needs Assessment was completed in March, 2012. The consortium hired a national consulting firm to conduct Key Respondent interviews with local social service, health, government and community leaders. In addition, the results from a survey of over 400 Hartford residents by the Urban Alliance were incorporated into the findings. To be in compliance with IRS regulations, the Hospital will conduct a Needs Assessment at least once in every three years, and adopt an implementation strategy to meet the community health needs identified through such assessment.

Part VI, Line 3: Hartford Hospital disseminates information about its Financial Assistance Policy as follows: (i) provide signage regarding this Policy and written summary information describing the Policy along with financial assistance contact information in the Emergency Department, Labor and Delivery areas and all other Hospital patient registration areas: (ii) directly provide to each patient written summary information describing the Policy along with financial assistance contact information

Schedule H (Form 990)

Part VI Supplemental Information

in admissions, patient registration discharge, billing and collection written communications; (iii) post the Policy on the Hospital's Home page; (iv) educate all admission and registration personnel regarding the Policy so that they can serve as an informational resource to patients regarding the Policy.

Part VI, Line 4: Hartford Hospital is located in the capital of the State of Connecticut, which is one of the poorest cities in the nation with 31.9% of all of its residents and 38.3% of its families with children under the age of 18 living below the poverty line (US Census 2010). According to the CHNA just completed, the City of Hartford's population of 124,775+/- remains overwhelmingly minority and is comprised of 42% Hispanic, 37% Black. White and other groups make up the rest of the population. The median age of Hartford residents is 31 (CERC, 2011). This compares with Hartford County's median age of 40. In 2010, the median income per household within the City of Hartford was \$26,055 (CERC, 2011). This compares with Hartford County's median household income of \$60,177 (CERC, 2011). According to the Connecticut Department of Labor, the unemployment rate in the City of Hartford was estimated to be 15.4% in October, 2011 versus a statewide rate of 8.2%.

There is one other acute care hospital in Hartford proper and two smaller acute care hospitals in nearby suburbs.

Part VI, Line 5: The majority of Hartford Hospital's governing board is comprised of persons who either reside or work in its primary service area, and they are neither employees nor contractors of the Hospital.

Part VI Supplemental Information

Hartford Hospital extends medical staff privileges to all qualified physicians in its community. The Hospital has partnered with the City of Hartford Department of Health and Human Services and the Hispanic Health Center to provide health services to the underserved in the community. In addition, the Hospital participates in research projects with the Hispanic Health Council to improve community health and well-being.

The Hospital has contracted to use the services of an organization to assist its patients in determining eligibility and applying for state and federal means-tested programs, as well as for the Hospital's Financial Assistance Program.

As a tertiary academic medical center, teaching hospital and Level 1 Trauma Center, Hartford Hospital provides specialized services not available at other hospitals. These services are provided regardless of a patient's ability to pay.

Hartford Hospital is the Center for Emergency Medical Preparedness for the Connecticut Department of Emergency Management and Homeland Security for Regions 3 and 4. These regions include 15 hospitals. Hartford Hospital has responsibility for planning and training activities that service all of these hospitals.

The hospital uses its surplus funds to provide additional benefits to its patients and the community it serves as detailed in Sch O.

designed to deliver the necessary health services needed by the community. Hartford HealthCare Strategic Planning and Community Benefit Planning Committee of the HHC Board of Directors ensures the oversight for these services by each hospital community. In addition, HHC continues to take important steps toward achieving its vision of being "nationally respected for excellence in patient care and most trusted for personalized, coordinated care."

HHC affiliation creates a strong, integrated health care delivery system with a full continuum of care across a broader geographic area. This allows the small communities easy and expedient access to the more extensive and specialized services the larger hospitals are able to offer. This includes continuing education of health care professionals at all the affiliated institutions through the Center of Education, Simulation and Innovation located at Hartford Hospital, the flagship tertiary medical center of the system hospitals.

The affiliation further enhances the hospitals' abilities to support their missions, identity, and respective community roles. This is achieved through integrated planning and communication to meet the changing needs of the region. This includes responsible decision making and appropriate sharing of services, resources and technologies, as well as cost containment strategies.
