ITEM 14 CONT.

REASON FOR REQUEST:

These funds are requested to finance various transportation related improvements and other related costs, in accordance with the provisions of the Act and the thirty-third year of the Transportation Infrastructure Program.

The scope of work will depend upon the project's design and final costs will be based upon bids received. However, the Department of Transportation is requesting the flexibility to revise or modify projects, if required, within specific subsections of the Act. The projects in the thirty-second year of the plan would be revised or modified, as necessary, due to such occurrences as delays in any phase of project development, actual costs being revised based on final design or bids received, emergency work, or unforeseen/unanticipated projects. Project revision or substitution would occur only within that subsection of the Act and not between subsections.

In accordance with Section 13b-79a C.G.S., the Commissioner of Transportation, not later than October 1, 1984 and annually thereafter, shall report to the joint standing committees having cognizance of matters relating to finance, revenue, and bonding and appropriations and the budgets of state agencies on the status and progress of the transportation program authorized.

The release of these funds will be controlled through the allotment process: 1) subject to the filing of all reports and statements required to be filed with the Secretary of the State Bond Commission and any revisions, modifications or further project definition to the thirty-third year of the plan; and 2) under the program contingency and/or for projects to be determined these will be controlled through the allotment process subject to detailed definition by the Department.
