

STATE OF CONNECTICUT

OFFICE OF POLICY AND MANAGEMENT

September 20, 2018

The Honorable Kevin Lembo State Comptroller 55 Elm Street Hartford, Connecticut 06106

Dear Comptroller Lembo:

Section 4-66 of the General Statutes requires that my office provide information on the state's General Fund for Fiscal Year 2019. An analysis of the Special Transportation Fund is also provided here due to the significance of this fund.

General Fund

We are projecting an operating surplus of \$169.7 million, an improvement of \$31.8 million from last month. Most of the change is related to favorable expenditure trends, as discussed further below.

Revenues

Projected revenues are up by \$7.6 million compared to last month. The enacted budget assumed a decline in the Estimates and Finals portion of the Personal Income Tax. We have revised our estimate upward by \$200.0 million to reflect collections that are running ahead of FY 2018, as well as favorable economic conditions. Even with this change, our projection does not reflect an increase in collections over last year's levels. The increase in Estimates and Finals collections will, however, boost the anticipated transfer to the Budget Reserve Fund (BRF) pursuant to the statutory volatility cap by a like amount. The only other change is \$7.6 million increase in revenue from interest income, which has been revised upward due to better performance in Connecticut's short term investment fund (STIF) rate and further anticipated interest rate hikes by the Federal Reserve. It should be noted that the state has begun receiving payments under the new Pass-through Entity Tax; collections thus far are on target to achieve the budgeted amount of \$600 million. The volatility cap statute requires that any revenue from the Pass-through Entity Tax and the Estimates and Finals portion of the Personal Income Tax that in total exceed the threshold amount of \$3,196.8 million be deposited in the Budget Reserve Fund. We estimate the deposit will be \$648 million in FY 2019, which, when combined with the projected surplus from FY 2019 operations, will increase the state's reserves to over \$2.0 billion by fiscal year end.

	(in millions)				
Projected BRF Ending Balance - FY 2018	\$	1,203.3			
Projected Operating Surplus - FY 2019 (9/20 Est.)		169.7			
Volatility Cap Deposit - FY 2019 (9/20 Est.)		648.0			
Estimated BRF Total - FY 2019	\$	2,021.0			

Expenditures

We are projecting net expenditures will in aggregate exceed the budget plan by \$11.3 million, an improvement of \$24.2 million from last month's estimate. An explanation of lapses and deficiencies follows.

Deficiencies. Shortfalls are forecast in the following agencies:

- <u>Office of the Chief Medical Examiner</u>. A \$600,000 deficiency is expected in Personal Services. The appropriation for FY 2019 is less than FY 2018, and expenditures are impacted by overtime, use of per diem physicians to regain accreditation, and unbudgeted salary increases approved by the Commission on Medicolegal Investigations for the Chief Medical Examiner and the Deputy Chief Medical Examiner.
- <u>Department of Correction</u>. A \$26.5 million shortfall is projected. Personal Services is anticipated to have a \$15.0 million deficiency, as the revised FY 2019 appropriation for Personal Services is \$20 million less than projected expenditures for FY 2018. The Other Expenses account will be \$500,000 over budget, and the Inmate Medical account faces a projected shortfall of \$11.0 million. It should be noted that the enacted budget assumes saving \$8 million immediately through an RFP process for inmate medical services. While many of these services have been brought in-house to DOC, some are being put out to bid via RFP. The transition from UConn to DOC will take some time and may entail costs, making achievement of overall savings unlikely before the next biennium.
- <u>Department of Children and Families</u>. A net deficiency of \$8.4 million is projected across a variety of accounts. This shortfall is due to two factors: 1.) the lack of funding in the revised FY 2019 budget to honor the state's commitment to the 2017 Revised Juan F. Exit Plan, which requires adequate social worker staffing to oversee abused and neglected children as well as support for community-based programming and to address service needs in order to implement the Exit Plan's outcome measures; and 2.) the legislature did not concur with the Governor's recommendation to restore to DCF a portion of Juvenile Justice Outreach Services funding that was moved to the Judicial Branch in the biennial budget. DCF is committed to maintaining important clinical interventions and other services utilized by non-delinquent youth, and this programming further enables the department to meet Juan F. requirements.

Additionally, we project \$15.0 million in expenditures for Adjudicated Claims. Of this amount, \$6.5 million is for a settlement that was delayed from late FY 2018 into FY 2019, and the remainder is for payment of other claims. Existing law identifies the resources of the General Fund as the source for payments.

Lapses. Our projections reflect the amounts currently withheld from agencies to achieve budgeted lapse targets. Additionally, the following amounts are estimated to remain unspent this fiscal year:

- <u>Office of Policy and Management</u>. A total of \$3.3 million will lapse, with \$900,000 in the State-Owned PILOT account and \$2.4 million in the Municipal Transition account after all required payments have been made.
- <u>Department of Social Services</u>. A net total of \$32.5 million is projected to lapse. Given favorable expenditure trends, the Medicaid program is expected to end the year \$25.0 million under budget, the Connecticut Home Care Program is projected to lapse \$5.0 million, and the Temporary Family Assistance program is expected to lapse \$2.5 million.
- <u>State Comptroller Fringe Benefits</u>. A net lapse of \$6.0 million is anticipated and is attributable mainly to recoveries in the Higher Education Alternative Retirement System that exceed the appropriation.

Special Transportation Fund

The adopted budget anticipates a \$3.2 million balance from operations. We estimate a \$60.0 million surplus, unchanged from last month's estimate. Projected revenues continue to reflect the improved revenue collection trends, especially in the Oil Companies tax, that we recognized last month. On the expenditure side, a \$5.5 million lapse in the Treasurer's debt service account is anticipated due to updated interest rate

assumptions and will partially satisfy the \$12.0 million unallocated lapse included in the enacted budget. We project the Transportation Fund balance on June 30, 2019, to be \$305.7 million.

Other Appropriated Funds

While Sec. 4-66, CGS, does not require that we provide analyses of other appropriated funds, it is worth noting that several industry-funded agencies face potential shortfalls totaling nearly \$2.2 million because the General Assembly did not make technical adjustments to fringe benefit and indirect overhead appropriations to match the recovery rates promulgated by your office. As a result the following deficiencies are expected:

- In the Banking Fund, the <u>Department of Banking</u> is underfunded by \$262,995 (\$112,572 in Fringe Benefits, and \$150,423 in Indirect Overhead);
- In the Insurance Fund, the <u>Department of Insurance</u> is underfunded by a net total of \$178,911 (\$373,812 short in Fringe Benefits, offset by \$194,901 over-budgeted in Indirect Overhead);
- In the Consumer Counsel and Public Utility Control Fund, the <u>Office of the Consumer Counsel</u> is underfunded by \$67,563 in Indirect Overhead; and
- In the Workers' Compensation Fund, the <u>Workers' Compensation Commission</u> will have a total deficiency of \$1,684,657 (\$1,536,000 in Fringe Benefits, and \$148,657 in Indirect Overhead).

If the enacted budget had included appropriation adjustments reflective of the revised recovery rates, the annual industry assessments in these funds would have reflected the expected costs of oversight and regulatory functions of the affected agencies. Because of the various statutory provisions applicable to the process and timing of industry assessments, it is unlikely that deficiency appropriations in FY 2019 could be offset via adjusted assessments late in the fiscal year; appropriations unmatched by revenue will therefore affect the cumulative balances of these funds.

As the year progresses, the estimates offered by my office will continue to be revised to reflect the impact of changes in the economy, expenditure patterns, and/or other factors.

Sincerely,

Denjam tims

Benjamin Barnes Secretary
