# Office of the State Comptroller Financial Advisory Committee (FAC) Transfer Request for FY 2021 General Fund June 3, 2021

The Office of the State Comptroller is (OSC) is requesting to transfer funds within the Miscellaneous Fringe Benefit Accounts due to deficiencies in the following General Fund accounts:

Judges and Compensation Commissioners Retirement	\$ 3,371,353
Social Security Tax- Employers	\$ 1,800,000
SERS Defined Contribution Match- Tier IV	<u>\$ 2,000,000</u>
Total Deficiencies	\$ 7,171,353

OSC requests to transfer from the following General Fund account:

Higher Education Alternate Retirement	(\$7,171,353)
---------------------------------------	---------------

Judges and Compensation Commissioners Retirement has a deficiency due to an updated actuarial valuation as of June 30, 2020, which increased the employer contribution for FY 2021. Normally this increase would have been addressed through mid-term budget adjustments for the second year of the biennium, but that was not possible during the 2020 legislative session.

Similarly, the Social Security Tax deficiency is primarily the result of there not being any mid-term budget adjustments for the second year of the biennium.

The SERS Defined Contribution Match - Tier IV has a deficiency due to the increased costs in the Tier IV account. New employees enrolled in SERS retirement are assigned to the Tier IV plan, therefore expenditures in this account have increased steadily through the year. The appropriation for FY 2021 is lower than the actual expenditures for FY 2020 since the original amount was based on older actuarial projections.

The Higher Education Alternate Retirement (ARP) Appropriation has a surplus due to the change in accounting method from net budgeting to gross budgeting. Again, this appropriation adjustment was not captured for FY 2021 because there were no mid-term budget adjustments for the second year of the biennium.

# Office of the State Comptroller Financial Advisory Committee (FAC) Transfer Request for FY 2021 Special Transportation Fund (STF) June 3, 2021

The Office of the State Comptroller is (OSC) is requesting to transfer funds within the Miscellaneous Fringe Benefit Accounts due to deficiencies in the following Transportation Fund accounts:

Group life Insurance	\$ 30,000
Other Post-Employment Benefits	\$ 425,000
SERS Defined Contribution Match - Tier IV	<u>\$ 45,000</u>
Total Deficiencies	\$ 500,000

OSC requests to transfer from the following Transportation Fund account:

State Employees Active Health Services Cost	(\$500,000)
---	-------------

Group Life Insurance has a deficit due to a rate increase that was not planned when the original biennial budget was enacted.

The Other Post Employment Benefits Account has a deficit primarily due to the FY 2021 Appropriation being lower than the FY 2020 actual costs. There were not any mid-term budget adjustments for the second year of the biennium to make an adjustment to the appropriation.

The SERS Defined Contribution Match - Tier IV has a deficiency due to the increased costs in the Tier IV account. New employees enrolled in SERS retirement are assigned to the Tier IV plan, therefore expenditures in this account have increased steadily through the year. The appropriation for FY 2021 is lower than the actual expenditures for FY 2020 since the original amount was based on older actuarial projections.

The State Employees Health Services Cost account has a surplus due to lower than anticipated costs primarily due vacancies in the DOT personal services account, which resulted in fewer covered employees.

processes.

TO: Kosta Diamantis, Deputy Secretary, Office of Policy & Management

FROM: Tony Guerrera, Deputy Commissioner, Department of Motor Vehicles

SUBJECT: June 2021 Finance Advisory Commission Request

The Department of Motor Vehicles is requesting the transfer of \$5 million dollars from the State Transportation Fund Personal Services Account (12001-10010) to the DMV Modernization Fund (12001-12067). These funds will provide the resources to continue DMV's modernization efforts to upgrade our system capabilities and provide convenient options for Connecticut residents. These solutions will improve efficiency through the use of modern technologies and simplified

# **Explanation of Surplus:**

The DMV's Personal Services budget has been based on full staffing without consideration for vacancies and time to hire. Due to this, the DMV has had Personal Service lapses exceeding \$5M in each fiscal year since FY18. The current fiscal year will be the last budget cycle that this surplus will occur, as the agency's FY22/23 budgets have been reduced by \$3.2M to reflect current hiring practices.

# **Modernization Funding Request:**

This funding will be utilized to position the agency to be able to proceed with additional Modernization projects as they are evaluated and prioritized. We have had success with our online license renewal and change-of-address transactions, and we are actively researching how to continue this effort. The DMV has contracted with Deloitte to analyze and upgrade additional transactions to be completed online. These upgrades will expand the convenient online options available to our residents to conduct business with the agency.

2021	11000	DOI	37500	10020	2021		\$141,000.00	Other	Expenses
					TOTALS	\$141,000.00	\$141,000.00		
<b>REASON F</b>	OR ADJUST	MENT							

Expenditures for Fringe Benefits are projected to be lower than the appropriated amount due to a combination of retirements during FY 2021 and the actual fringe rate running lower than budgeted. The Insurance Department can use the projected surplus to purchase necessary IT equipment for continued telework and video conferencing. The large conference room which hosts many hearings for the department has equipment that has reached end of life status and needs to be replaced. Also, the agency has an increase in need for telework equipment for staff which includes laptops and necessary peripherals and security devices.

# PROPOSED ITEMS FOR APPROVAL BY THE FINANCE ADVISORY COMMITTEE June 3, 2021

The Department of Mental Health and Addiction Services requests approval of a transfer totaling \$2.2 million to cover a projected shortfall in the Workers' Compensation Claims account:

The anticipated shortfall in the Workers' Compensation Claims account is the result of the carryforward of \$1.2 million in costs from FY 2020 into this year and claims trending higher than budgeted amounts.

The Personal Services account is currently projected to lapse an additional \$2.2 million which is primarily attributed to delays in filling open positions and a reduction of overtime to date. The agency has struggled to recruit and retain skilled healthcare professionals like psychiatrists, psychologists and nurses, therefore increasing the need for contracted services in the Professional Services account.

This FAC will address the remaining shortfalls and allow the agency to come off the Deficiency bill.

16077 Aid to the Disabled	(\$1,600,000)		
Total Sources	(\$9,420,000)		

Funds are being transferred to the Connecticut Children's Medical Center and Community Residential Services accounts to meet year-end requirements. Funds are being transferred from the Medicaid and the State Supplement accounts.

# **Connecticut Children's Medical Center**

Funds are being transferred to the Connecticut Children's Medical Center (CCMC) account to provide financial relief for CCMC to help address additional financial losses that the hospital has been experiencing. This transfer will be used to provide a one-time payment of \$7.5 million in additional disproportionate share hospital (DSH) payments to CCMC during SFY 2021. It should be noted that this payment will be subject to 56.2% federal reimbursement.

# **Community Residential Services**

Funds are being transferred to the Community Residential Services account to meet yearend needs. This adjustment reallocates funding from the State Supplement accounts to the Community Residential Services account to reflect the shift of funding for Community Companion Home (CCH) provider room and board payments.

The Department of Developmental Services (DDS) offers the CCH program as a comprehensive residential option for individuals with intellectual disability to encourage an inclusive and integrated community setting that provides continuous 24-hour supports in a private family home licensed by the agency. An IRS audit indicated that State Supplement payments to CCHs should be considered income for federal tax purposes whereas they have traditionally been treated as exempt. To address this issue and in order to retain quality licensees and increase the participation of individuals served, the payment mechanism was restructured to remove CCHs from the room and board payment process under DSS, effective January 1, 2020. Payments made under the difficulty of care payment through DDS, the new funding source for CCHs, are not considered income for tax purposes.

# **Surplus Accounts**

# Medicaid

Funds in the amount of \$7.5 million are available for transfer from the Medicaid account. The Department is projecting a surplus in the account as a result of a downward trend in utilization of non emergent medical services resulting from the public health emergency. Additionally, the Families First Coronavirus Relief Act (FFCRA) increased the Federal Medical Assistance Percentage (FMAP) by 6.2% throughout SFY 2021. This increase in FMAP has shifted funds from the state share of Medicaid to the federal share of Medicaid. These factors allow the Department to make additional funds available to support financial relief payments to CCMC.

# State Supplement for the Aged, Blind and Disabled

Funds in the amount of \$1,920,000 are available for transfer from the Old Age Assistance (\$300,000), Aid to the Blind (\$20,000) and Aid to the Disabled (\$1,600,000) accounts. The Department is projecting a surplus in these accounts partially resulting from the shift of Community Companion Home (CCH) provider room and board payments from the State Supplement accounts to the Community Residential Services account. Additionally, average monthly expenditures have been running under budgeted levels.

STATE OF CONNECTICUT JUDICIAL BRANCH

CHAMBERS OF PATRICK L. CARROLL III CHIEF COURT ADMINISTRATOR

231 CAPITOL AVENUE HARTFORD, CT 06106

April 16, 2021

Melissa McCaw, Secretary Office of Policy & Management 450 Capitol Avenue Hartford, CT 06106

Dear Secretary McCaw,

I am writing in accordance with C.G.S. 4-87 to request a transfer of funds between specific appropriations in order to meet necessary expenditures.

The Judicial Branch was appropriated \$6,042,106 in Fiscal Year 2021 for Workers' Compensation Claims (SID 12235). Projected expenditures through June 30, 2021 will result in a \$1.1 million deficit that is primarily due to the ongoing impact of the transfer of responsibility for all juvenile justice delinquency matters to the Branch in 2018. The Branch's appropriation for workers' compensation remained level at the time of the transfer despite the more complex behavioral and mental health needs of many in the new population that required longer periods of secure confinement. Workers' compensation claims increased following the transfer.

The Branch continues to pay expenses associated with long standing cases, and has incurred significant costs associated with a major incident that occurred in fiscal year 2020. In addition, the Branch has paid \$150,000 this fiscal year in negotiated settlement agreements.

To address this deficit, it is requested that \$1,149,202 be transferred from Personal Services (SID 10010) to Workers' Compensation (SID 12235). Funds are available in Personal Services due to delays in hiring and the reduction in overtime. Currently there are 735 vacancies in the Judicial Branch.

I have enclosed the necessary form to process this budget adjustment request through the Finance Advisory Committee. Thank you for your attention to this matter. Please contact Elizabeth Graham, Executive Director for Administrative Services, at 860-757-2100 if you have any questions or need any additional information.

Sincerely,

Court Spannelf.

Patrick L. Carroll III Chief Court Administrator

# FAC Item 2021-28

Pursuant to Connecticut General Statutes, Section 4-60u, the Department of Emergency Services and Public Protection (DESPP) respectfully requests the Finance Advisory Committee (FAC) approve vendor fees for payment processing extending currently approved services for Long Term Care Health Facilities' (LTC) requests to all requestors for services at the Department of Emergency Services and Public Protection that includes individual, state and local agencies, and other organizations that request services through DESPP.

The vendor will charge a 3% fee for each DESPP service transaction processed through eGovernment vendor services.

In exchange for its 3% fee, the vendor will provide an electronic, online secure payment processing system allowing individual, state and local agencies, and other organizations to pay for DESPP services via credit card or ACH payments. The payment processing service will allow the ability to setup a payment account in advance and select their preferred method of payment. The payment processing system will interface with the state's systems delivering DESPP service requests. After receiving its 3% fee, the balance of the funds will be processed by the vendor and transferred and deposited into the appropriate DESPP accounts.

# Background

Public Act 12-2 of the June 2014 special session added language to C.G.S. Section 4-60u that allows the Secretary of Office of Policy and Management (OPM) to "authorize any state agency to enter into agreements with private and nonprofit entities to facilitate the public's utilization of government services and programs electronically." This language authorizes self-funding models to improve government programs and services through information technology advancements. Under this authority, OPM authorized the Department of Administrative Services to enter into a competitive bidding process for a vendor to provide eGovernment services to the executive branch.

Under the self-funded model, which is used by more than 25 states to fund eGovernment programs, a vendor derives revenues through the collection of administrative fees assessed on certain high-volume transactions conducted on a state's web portal aimed primarily at business users who are willing to pay a small additional fee for expedited and enhanced online customer service.

DAS/BEST	FAC	Connecticut Interactive, LLC
55 Farmington Avenue	DESPP Fees	One Constitution Plaza, 8 <sup>th</sup> Floor
Hartford, CT 06105	5/11/2021	Hartford, CT 06103

FAC approval of the 3% service fee proposed herein will allow the vendor to create an electronic payment service to facilitate eGovernment services to Connecticut, including customer service support with respect to LTC payments for background checks required under Connecticut General Statutes, Section 19a-491c.

It is anticipated that the vendor's electronic payment portal DESPP services will result in significant efficiencies in such transactions. In the absence of an electronic payment portal, Requestors of DESPP services would either require individuals to personally pay for such preemployment background checks or require that requestors provide applicants with business checks (or cash) to submit at the time of request or when requests are mailed. The daily audit requirements and deposit activities required by the acceptance of cash and checks can be reduced significantly through the acceptance of credit card and ACH transaction online and in person.
