MESSAGE FROM THE OPM SECRETARY

Public Act No. 05-249 established a new Criminal Justice Policy and Planning Division (CJPPD) within the Office of Policy and Management (OPM). The division is charged with developing a plan to promote a more effective and cohesive state criminal justice system. As part of the planning process the division has begun gathering information from the appropriate agencies and branches to meet the monthly reporting requirements as outlined by the enabling legislation. We have found that agencies have different uses for their own data to support their day to day operations and are not necessarily research friendly. Many of these systems require significant programming to extract the data elements requested by this legislation. In addition, the information may not align with data housed in other agency systems. However, given the information and systems available, these monthly reports are intended to advise and inform the Governor and General Assembly of current trends and outcomes to assess the long-range needs of the criminal justice system.

This report presents the current correctional population indicators for Connecticut as of June 2007 and includes six month population projections for the correctional system to December 2007. The Criminal Justice Policy and Planning Division, working with the Criminal Justice Policy Advisory Commission, will analyze this and subsequent data, and present planning options in future reports.

What's New:

- *More Current and Comparable Data*
Continued efforts to incorporate both the most current and comparable data with better consistency.
- The information presented in this report is current as of June 2007 and/or the most current data available as of this date.

This being our eighth report, we continue to incorporate updates and refinements to meet the needs of our customers. We welcome your comments and feedback to further improve this document and to assist in achieving our mutual objectives.

Robert L. Genuario
Secretary
Office of Policy and Management

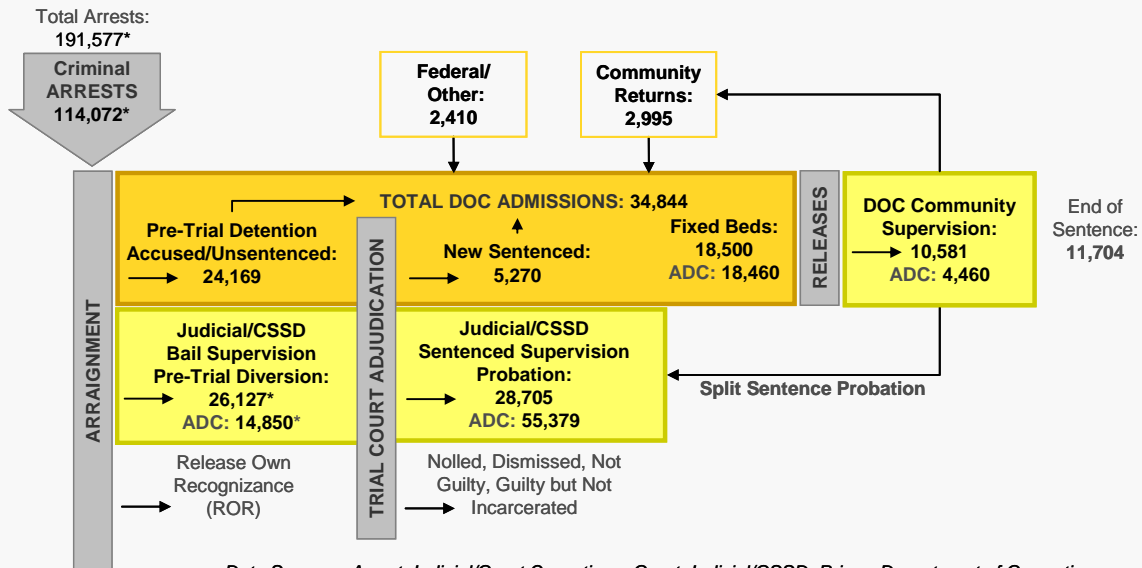

OVERVIEW OF THE CONNECTICUT CRIMINAL JUSTICE SYSTEM

The following flowchart provides a summary of the Connecticut criminal justice system. Unlike many states that have county governments, the majority of agencies within the criminal justice system are State agencies. The one exception is law enforcement, where there are over 90 local police departments in addition to the Connecticut State Police. See APPENDIX I for a detailed description of the agencies and the various types of community supervision in Connecticut.

- The December 2007 prison population will be **19,091** inmates

CHART 6B

Judicial/CSSD Bail Supervision and Pre-Trial Diversion: Arrestees can be released from jail prior to their trial under specific conditions (e.g., drug treatment, mental health assessment, community service, etc). These individuals are supervised by CSSD pre-trial staff.

Counting Rule: Number cases with a pre-trial condition or cases referred to a pre-trial diversion program who were being supervised by CSSD pre-trial staff. This number represents different occurrences per arrestee. That is, individuals who were under pre-trial supervision on three separate occasions and would be counted three times.

Release on Recognizance: The court releases the defendant on a signed agreement that he or she will appear in court as required. This category also includes citation releases in which arrestees are

released pending their first court appearance on a written order issued by law enforcement or pre-trial staff. This type of release is also known as a Written Promise to Appear.

Trial Court Adjudication: The trial stage of the court process where a verdict is made regarding accused individuals' guilt.

Judicial/CSSD Sentenced Supervision Probation: A court sentence where convicted offenders are supervised in the community rather than placed in prison. Requires offenders to abide by certain rules and conditions set by the judge and probation officer.

Counting Rules: Number of convicted offenders given a probation sentence from January 1st to the end of the monthly reporting period.

Nolled: A disposition of a criminal or motor vehicle case where the prosecutor agrees to drop the case against the defendant but keeps the right to reopen the case and prosecute at any time during the next thirteen months. The nolle is entered on the court record and the defendant is released from custody. If the defendant stays out of trouble during the thirteen months, the case is removed from the official court records.

Dismissed: Decision made by prosecutors or judges to drop the charges brought against an accused individual.

Not Guilty: Judge or jury finding that the accused individual did not commit the crime for which charges were brought forward.

Guilty but Not Incarcerated: Accused individual is guilty of the charges but the judicial sentence does not include jail or prison time.

Releases: Inmates who are released from DOC facilities.

DOC Community Supervision: DOC releases certain inmates to a variety of community programs prior to the end of their prison sentence. These programs primarily consist of parole, transitional supervision, halfway houses, and re-entry furloughs.

Counting Rules: Number of inmates released to a DOC community program between January 1st to the end of the monthly reporting period.

End of Sentence: Sentenced offenders who complete their sentence and are no longer in the custody of the Connecticut DOC.

Counting Rules: Number of sentenced offenders who completed their sentence and left DOC supervision. This includes inmates and individuals in DOC community programs.

Split Sentence Probation: A judicial sentence that requires convicted offenders to serve a set amount of time in DOC custody followed by a set amount of time on probation.

Chart 1A and Table 1A: DOC Admissions by Type

Accused: Arrested individuals who cannot pay the bond amount and are held in jail prior to their trial.

Counting Rule: Number of arrestees in jail by month. This number represents the number of different occurrences per arrestee. That is, individuals who were arrested on three separate occasions and placed in jail prior to trial would be counted three times.

New Sentence: Convicted offenders who were admitted to a DOC facility only after being convicted and sentenced to prison.

Counting Rule: The number of convicted offenders admitted to a DOC facility. This number does not include offenders who were in jail/prison during the pre-trial process and were subsequently convicted and sentenced to jail.

Federal/Other: Inmates who have been sentenced to a Federal prison and are being housed in a Connecticut DOC facility.

Counting Rule: The number of Federal inmates in Connecticut DOC facilities.

Chart 1B.1 and Table 1B.1: Prison Re-Admissions from DOC Community Supervision

Parole: Program available to certain inmates serving sentences of greater than two years. By statute, offenders convicted of non-violent crimes are eligible for parole after serving 50 percent of their sentence. Those offenders convicted of violent crimes must serve 85 percent of their sentence.

TS (Transitional Supervision): Eligible inmates must serve at least 50 percent of a sentence of two years or less. The facility Warden is the designated release authority and the DOC provides supervision and case management, through its Parole and Community Services Unit for offenders on TS status.

HWH (Halfway House): Utilized to provide assistance for those offenders who require greater support and supervision in the community. Offenders who are within eighteen months of release date or have been voted to parole may participate in these structured programs.

Re-Entry Furlough: The release of an inmate to an approved residence for up to 30 days in the final portion of their sentence for the purpose of re-entry support into the community.

Counting Rules: The number of inmates placed in each program during each particular month. Parolees who were placed in Halfway Houses were counted only as parolees. The same rule was applied for individuals in Transitional Supervision.

Chart 1B.2 and Table 1B.2: Prison Re-Admissions from DOC Community Supervision

Chart 2 and Table 2: DOC Releases/Discharges by Type

Chart 3A: Parole Approval (Number Granted), Chart 3B and Table 3B: Parole Approval (Granting) Rate

Full Panel Hearings: An official parole board hearing that consists of three Board of Parole members. The Board of Parole members review the inmates' case file and discuss the possibility of parole with the inmate. After which, they vote on whether the inmate should be granted parole.

Administrative Reviews: A less formal process that is often used for less serious offenders. A hearing officer interviews the offender and makes a recommendation to the Board of Parole. The Board of Parole members vote on whether the inmate should be granted parole.

Counting Rules: The granting rate was calculated by dividing the number of paroles granted by the total number of parole hearings.
