Executive Summary

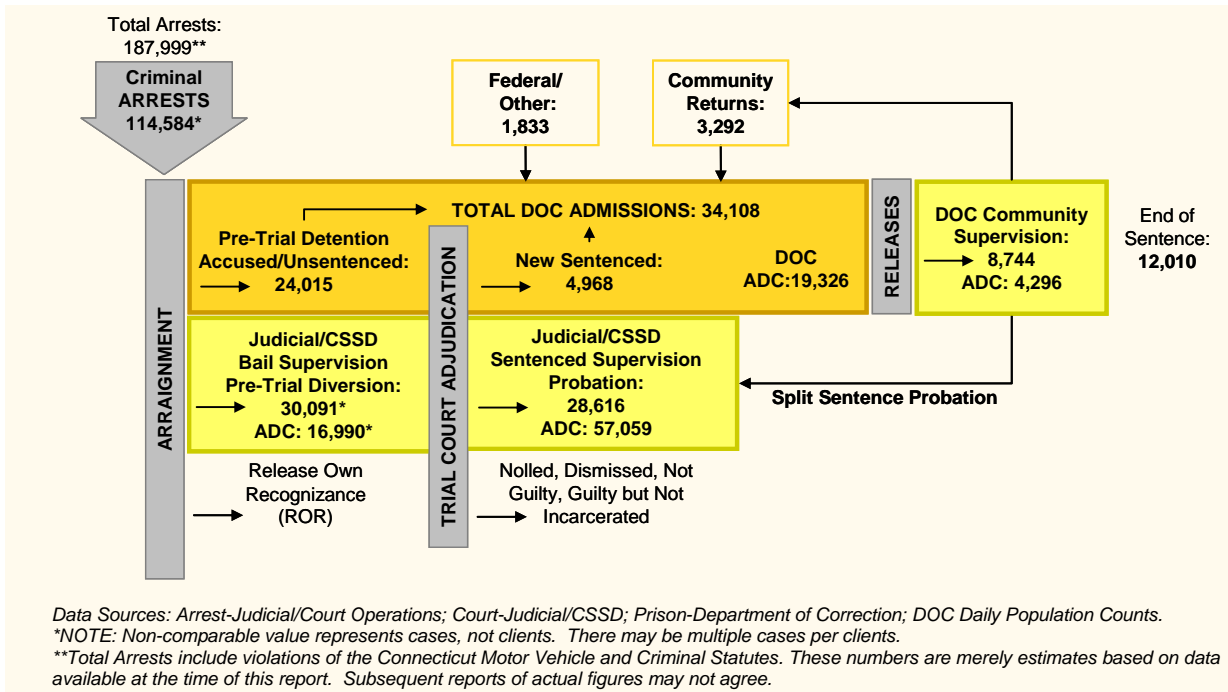

- On May 1, 2008, the total prison population was 19,656 offenders, which is a 3.6% increase over May 1, 2007 (18,973).
- Community returns to DOC custody increased again in April (243) but is still the sixth lowest number of returns for this 12-month period.
- DOC releases to community supervision increased from March (722) to April (782), and total non-end of sentence (non-EOS) releases now represent approximately 42% of total releases for this 12-month period.
- In April, releases to Transitional Supervision reached an all time high of 383 offenders.
- End of sentence (EOS) releases increased from 975 in March to 1,020 in April, and total EOS is now approximately 58% of total releases for this 12-month period.
- Starting this month, transfer parole numbers are now included in the Board of Pardons and Paroles' statistics on page 7 of this report. In April, there were a total of 180 paroles granted; 37 by full panel hearings, 128 by administrative reviews, and 15 by transfer parole reviews.
- The parole granting rates for April are: 82% for full panel hearing; 84% for administrative review; and 32% for transfer parole reviews.
- Total probation referrals decreased slightly from 1,758 to 1,744; referrals to outpatient services (721) was 3.6% lower, while referrals to community services (970) was only 0.4% lower, but referrals to inpatient/residential treatment programs (53) was 47% higher than last month.
- The six-month forecast projects that the prison population will decrease by approximately 2.9% from May to November 2008, and that the November 2008 prison population will be 19,093 offenders.

This projection is based on the following facts: (1) the total DOC supervised population has remained stable (2) the unsentenced/accused population has declined, and (3) PA 08-1 has provided funding for additional re-entry/diversionary beds. This projection is also based on: (1) the expectation that transitional supervision placements will increase and (2) that parole supervision placements should return to pre-July 2007 levels.

Historical perspectives, supportive data and additional analysis pertaining to these statutorily required correctional population indicators will be available at www.ct.gov/opm/criminaljustice/research.

Judicial Branch’s Court Support Services Division

The Court Support Services Division (CSSD) was established within Connecticut’s Judicial Branch, in February 1999. It was formed to respond to the changing needs of judges, attorneys, litigants, defendants, and communities, while providing on-going public safety. William H. Carbone is the Executive Director.

The CSSD combines the resources and expertise of the former: Office of the Bail Commissioner, Family Services Division, Juvenile Detention Services, Office of Juvenile Probation, Office of Adult Probation, and the Office of Alternative Sanctions. The merger created a single entity with staff representation and services in each Judicial District. Judges now have all available pre-trial services, family services, offender sentencing and supervision options for adults and juveniles, as well as juvenile detention services, coordinated through the single CSSD division and managed from a central office.

The main court support functions for adults and juveniles includes: Intake/Assessment/Referral (IAR) - a single, comprehensive pre-trial evaluation and referral process; Supervision - a unit that focuses only on effective supervision of clients involved with the court system; and Administration - an alternative sanctions continuum of treatment and support services for pre-trial and sentenced adults and juveniles purchased under contract by CSSD with community based providers comprising a statewide network that serves each judicial district. The CSSD also incorporates Family Civil Services and Family Criminal Court Services.

For more information on CSSD please visit their web site at www.jud.ct.gov/CSSD.

Department of Correction (DOC)

The Commissioner of the Department of Correction, Theresa C. Lantz, by direction of the courts, confines and controls approximately 18,600 accused and sentenced offenders in 14 correctional institutions, 4 correctional centers and various units; and by statute administers medical, mental health, rehabilitative, and community based service programs. DOC mission is to protect the public and staff while ensuring the secure, safe and humane supervision of offenders with opportunities that support successful community reintegration. The DOC’s *Division of Parole and Community Services* represents the consolidated community supervision and enforcement functions of the Department of Correction and the Board of Pardons and Paroles, which were combined in the fall of 2004 at the direction of the General Assembly.

For more information on the Department of Correction please visit their web site at www.ct.gov/doc.

Board of Pardons and Paroles (BOPP)

The Connecticut Board of Pardons and Paroles, under the direction of Robert Farr, Chairman, is committed to protecting the public by making responsible panel and staff decisions regarding when and under what circumstances eligible persons may be granted a Pardon or Parole. BOPP is an autonomous panel with administrative support provided by the Department of Correction. The Board possesses discretionary authority to grant pardons for criminal convictions and to place appropriate offenders in the community under parole supervision as a means of supporting their successful reintegration into law abiding society. A full-time Victim Services Coordinator is responsible for assisting those victims of crimes who choose to participate in the decision-making processes of the Board.

For more information on the Board of Pardons and Paroles please visit the DOC web site at www.ct.gov/doc and click on “Board of Pardons and Paroles.”
