

APAI Survey Results

Q: Does your releasing authority employ a risk assessment instrument to assist in making those release decisions?

Level of Service Inventory-Revised (LSI-R) [12] – CO, ID, ME, ND, NJ, PA, SD, UT, VT, WA, WV, WY

COMPAS [4] – MA (in process), MI, RI, WY

Criminal Sentiments Scale (CSS) [2] – PA, WV

Static-99 [17] – AZ, FL, ID, MD, ME, MO, ND, NJ, OH, PA, RI, SD, TX, UT, VT, WA, WY

Salient Factor Score [6] – CT, FL, GA, MO, TN, TX

In-house developed instrument [18] – AK, AR, DE, FL, GA, KY, MD, MI, MT, NE, NV, OH, OK, RI, SD, TX, VT, WV

Other – [9] AL, CO, CT, IA, ID, KY, LA, PA, SD

Explanations for “other:”

AL - Instrument developed by NIC

CO - Colorado Actuarial Risk Assessment Scale (CARAS)

CT - Utilize contracted service evaluations from providers for Sex Offenders and Mental Health Offenders. They utilize the Static 99, V.R.A.G., and several other instruments to conduct their evaluations for the Board.

IA - The Iowa Risk assessment Model developed by Dr. Darryl Fisher

ID - GAIN Substance Abuse Instrument

KY - Parole Guidelines Risk Assessment developed by James Austin Specialist for Kentucky.

LA - Louisiana Risk Needs Assessment II (Jim Austin's)

PA - Static 99, TCU

SD - ABLE and MSOST, Corrective Thinking, TABE, PScan, PREA
