to schedule your free consultation today.

The Financial Planning Association® (FPA) CT Chapters in partnership with the Office of the State Treasurer established a *pro bono* network of financial planners that will provide assistance to individuals and families struggling to make sense of their finances.

A CERTIFIED FINANCIAL PLANNER™ will provide a free half hour session and work on an individual basis with you to find answers to your most pressing financial issues.

The program is provided free of charge, with no sales or promotion of any products or services ... just unbiased financial advice.

What is financial planning?

Many people think financial planning is something for the wealthy or for active investors, but it is much more than that. Financial planning is about how to manage your financial resources, set goals and determine how to achieve them. It is about taking control of your money and your life.
