</tbody>
</table>

1 The number of residents with confirmed COVID-19 obtained from data reported by individual nursing homes to the Connecticut Department of Public Health Facility Licensing & Investigations Section via a web-based COVID-19 daily reporting system.

2 The number of deaths among nursing home residents is based upon data reported by the Office of the Chief Medical Examiner. Confirmed deaths include those among nursing home residents with a laboratory test positive for COVID-19. Probable deaths include those determined by the Office of the Chief Medical Examiner to be related to COVID-19 but for whom a positive laboratory result is not available.
