November 22, 2021

TRAINING OFFICER AND RECRUIT,

You are registered to attend the 374th Training Session of the Police Officer Standards and Training Council Academy. The Session will commence with fitness testing on Thursday January 20th, and then begin in earnest on FRIDAY, JANUARY 21ST, 2022 as a commuter academy class. While not residential the academy is still a congregate setting therefor it is required that recruits adhere to the Governors executive orders regarding vaccinations or weekly testing.

Recruits must report to the rear entrance of the Connecticut Police Academy no later than 0800 on THURSDAY JANUARY 20TH, 2022 to complete their entrance physical fitness testing. Recruits shall arrive dressed in their police academy approved physical training blue shorts or sweatpants and grey t-shirt and sweatshirt. After completion of the physical fitness testing the recruits will then be released for the day to their agencies. Recruits must then report to the rear of the Connecticut Police Academy no later than 0700 hours on FRIDAY, JANUARY 21ST, 2022 for a full day of orientation. Recruits shall arrive dressed in proper business attire (e.g. jacket, tie, blouse, dress slacks).

You must also provide a short writing sample of at least 300 words, in the form of a memo, covering the following topics:

1. Why do you want to become a law enforcement officer?
2. What have you done to prepare to be a police officer?
3. Why did you choose the department you were hired by?
4. What is an issue facing law enforcement and how do you plan to address it?

This memo may be in long-hand or printed but **cannot** be done on a typewriter or computer. These writing samples will be collected on orientation day.

Classes are held Monday through Friday from 0800 - 1700 hours. You will be required to be prepared and ready for 08:00 hours each day and will not be permitted to leave the Academy grounds until the end of classroom exercises. The Academy will provide you with lunch each day and recruits are responsible for you own breakfast and dinner.

Classes will **NOT** be held on the following dates:

Friday February 11th, 2022 – Lincoln's Birthday
Monday February 21st, 2022 – Washington's Birthday
Friday April 15th, 2022 – Good Friday
Monday May 30th, 2022 – Memorial Day
Monday July 4th, 2022 – Independence Day

On FRIDAY JANUARY 21ST, 2022, Recruits will be engaged in Police Academy Orientation and Information Training. Recruits will then report to the Academy on MONDAY JANUARY 24TH, 2022, no later than 06:00 hours dressed in business attire. LEAVE ALL REQUIRED TEXTBOOKS IN YOUR MOTOR VEHICLE. They will be retrieved at a later time.

Recruits will be responsible for having the following items as part of their training sessions

You will be given a copy of the Rules and Regulations of the Academy during your orientation. Your Session Coordinator will go over the Rules and Regulations with you, at which time you will be given an opportunity to ask any questions relative to the Rules and Regulations. You will then be required to sign and turn in a form acknowledging that you have read and understand the Rules and Regulations.

THERE ARE CURRENTLY ELEVEN (11) STANDARDS IN EFFECT THAT EVERY CANDIDATE FOR THE BASIC POLICE OFFICER TRAINING MUST MEET PRIOR TO ADMISSION INTO A COUNCIL AUTHORIZED BASIC TRAINING PROGRAM. THE ENCLOSED SIGN-OFF SHEET LISTS THE 11 STANDARDS. THIS SIGN-OFF SHEET MUST BE SUBMITTED TO THE BASIC TRAINING DIVISION WITH THE COMPLETION OF EACH AND EVERY STANDARD ACKNOWLEDGED BY BOTH THE CHIEF/ DESIGNEE AND THE RECRUIT ENTERING THE PROGRAM. FAILURE TO HAVE THE COMPLETED SIGN-OFF SHEET SUBMITTED TO THE BASIC TRAINING DIVISION ON OR BEFORE THE START OF THE ACADEMY SESSION WILL RESULT IN THE RECRUIT BEING EXCLUDED FROM ATTENDING THE PROGRAM.

In addition, you must receive a medical clearance, on or before your arrival at the Academy, and submit the **original** fully executed Medical Approval Form **signed by the examining physician**.

Each recruit must be supplied with the following equipment by the **Second Monday** that they are in the Police Academy:

Duty gun belt, duty holster, keepers, six dummy rounds, department issued baton, baton holder, handcuffs, handcuff case/holder, handcuff key, bullet proof vest and RED/BLUE "training handgun".

Chemical/O.C. agents shall not be brought to the Academy until you are instructed to do so by the POST Firearms Instructor or the Defensive Tactics instructor. A specific day will be designated for intake of weapons, ammunition, and chemical agents.

P.O.S.T. Firearms instructors will advise recruits of the date by which they must have their sidearm at the academy. ONLY the sidearm issued from your department will be permitted at the Academy. Prior to bringing your weapon to the Academy, **WE REQUIRE THAT YOUR DEPARTMENT ARMORER VERIFY THAT THE WEAPON IS IN GOOD WORKING ORDER.** Failure to complete this requirement may result in your non-qualification in Firearms.

AMMUNITION

Sidearm - At least one week prior to the range practicum the department or recruit should have, in the Academy arsenal, 2000 rounds of practice ammo. The Academy is requesting that the ammo be "lead free" or "frangible". This requirement is to meet or exceed Health and Environmental standards. All major manufacturers produce "lead free" or "frangible" ammunition.

NOTE: At least 200 rounds **MUST** be Lead Free/Frangible so your recruit may satisfy the new curriculum requirement for "low light firearms".

ALL WEAPONS BROUGHT TO THE ACADEMY WILL REMAIN HERE UNTIL THE "END OF THE SESSION" UNLESS BEING USED DURING FIELD TRAINING WEEKS

Fifty (50) rounds of department issued duty ammo is also required for the range. This is to familiarize the recruit with any differences which may be experienced after using practice ammo. Also, please supply five training rounds.

YOU ARE ALSO REQUIRED TO BRING A DEPARTMENT ISSUED GUN CLEANING KIT TO THE ACADEMY

Shotgun	Requirements:	Department Shotgun (one week prior to practical) 5 rounds slug 15 rounds 00 buck
----------------	---------------	--

Rifle	Requirements:	The class is cut in half. Check with your recruit which day they will be attending class. Department Rifle
--------------	---------------	--

(one week prior to practical) 250 rounds of ammunition for that rifle.

*If your department does not have one of the above weapons, one will be supplied by the academy. Your agency will still be required to supply ammunition as requested. **If you are not supplying a rifle, then .223 ammunition must be supplied.***

Simunitions Requirements: The class is cut in half. Check with your recruit which day they will be attending class. Simunitions weapon or conversion kit if available.

50 rounds of simunition marking cartridges

Use of Force or Firearms Instructor with safety gear.

Minimally long pants and shirt

**If your agency does not have simunitions equipment the academy will supply a weapon and safety gear as appropriate. Your agency will still be required to supply the marking cartridges as requested.*

All ammunition is to be securely packaged with the recruit's "**NAME AND DEPARTMENT**" clearly marked on the outside. You will be instructed as to when to bring the above listed ammunition to the Academy.

Transportation to and from the Academy and for specialized training off-site is your responsibility and/or the sponsoring department.

Our Academy program is academically demanding; therefore, all efforts should be made by your department to avoid disrupting your course of instruction. Court cases, case work, etc., should be postponed until after graduation. Sponsoring departments should, whenever possible, refrain from requiring you to work on weekends during the training period.

Sincerely,

Marc Fasano, Director
Basic Training Division

POLICE OFFICER STANDARDS AND TRAINING COUNCIL CONNECTICUT POLICE ACADEMY

POST ACADEMY OBJECTIVE, VISION AND VALUES

OBJECTIVE

The objective of the Connecticut Police Officer Standards and Training (POST) Academy is to consistently provide state-of-the-art training to Connecticut law enforcement personnel. Every effort is made to ensure the training is legally viable and content valid in terms of currently accepted practices and procedures of the judicial system and law enforcement community.

The POST Academy is the main law enforcement training facility approved by the POST Council. Every person employed as a full-time law enforcement officer must meet compulsory minimum training standards. Individuals must first be hired by a supporting agency as a probationary candidate before coming to the Academy for training or attending a POST Council certified satellite academy.

The basic training curriculum is designed to orient new officers to the diverse day-to-day challenges experienced by law enforcement personnel. Many of the essential building blocks of a successful law enforcement career begin with basic law enforcement training. The Academy's position is that viable, progressive police training is as important to each new recruit as it is to a 10-year veteran.

After meeting Basic Training requirements, every state certified law enforcement officer must adhere to compulsory in-service training requirements. State required in-service training hours are 60 hours triennially in selected subjects mandated by Connecticut General Statutes and the POST Council. Annual firearms training and qualification is mandated by Connecticut General Statutes and POST Council and is part of the statutory triennial training.

OUR VISION

The POST Academy is dedicated to earning the public trust by advancing competence and professionalism in law enforcement.

OUR VALUES

These values guide the decisions and actions of the staff at the Connecticut Police Officer Standards and Training Council Academy.

CHARACTER

We are disciplined and conscientious and guide our conduct by a high standard of ethics.

EXCELLENCE

We provide exceptional staffing and facilities, good judgement, quality resources and are dedicated to the law enforcement profession.

ACCOUNTABILITY

We manage our resources effectively and efficiently and promote open communication among ourselves and our students.

COOPERATION

We strive to work as a team and maintain professional relationships with our law enforcement colleagues.

OUR PROMISE

These values are the cornerstone upon which the POST Academy's policies are formulated, our goals are set and our training is delivered. These values guide us in our mission as we seek to fulfill our vision.

I. SPECIFICATIONS AND STANDARDS FOR FITNESS TESTING

The POSTC Fitness Test is a scientifically valid test, consisting of four separate test components, conducted during a one to two hour window of time.

Test 1. The One-Minute Sit-Up Test. This is a measure of the muscular endurance of the abdominal muscles and core area. Sit ups are done with bent legs and hands alongside the ears. The score is the number of correctly performed sit-ups in one minute.

Test 2. The 300-Meter Run. This is a measure of the anaerobic power and sprinting ability. The test is conducted on a suitable running surface/track. The score is measured in the number of seconds necessary to complete the 300-meter distance.

Test 3. The One-Minute Push-up Test. This is a measure of absolute strength of the muscles of the upper body. Pushups start in the up position (flat back and arms fully extended). The candidate lowers their body to approximately four inches from the ground without touching/bending their knees. Without touching knees, the candidate then fully extends arms into the up position. The score is the number of correctly performed pushups in one minute.

Test 4. The 1.5-Mile Run. This is a measure of the cardiovascular capability of the runner. The test is conducted on a suitable oval running track. The score is the minutes and seconds necessary to complete the 1.5-mile distance.

II. DEFENSIVE TACTICS TRAINING PROGRAM

The Academy's Defensive Tactics program includes high impact "take down" techniques such as the "leg sweep," etc. All high impact techniques are trained at one-half speed, three quarter speed and "full speed." In addition, various handcuffing procedures are practiced. These techniques involve the manipulation of the wrists, shoulders, elbows, ankles, knees and hip joints.

Other activities in the Defensive Tactics Program include:

- Punching, blocking and kicking on a stuffed dummy (bag-man) while a second recruit holds the bag-man. (This is done at full speed/strength.)
- Participate in wrestling/grappling exercise where the heart rate is elevated to 180- 200 beats per minute.
- Apply twelve pressure points to other recruits.
- Execute a leg-trap control hold, which involves manipulation of and twisting/torquing of the ankle joint. Recruits will also have this applied to them. Participate in ground-defense counter measures, which involve neck compression and arm-lock control holds in which recruits take each other from standing to a prone position.
- Perform, blocking and striking techniques with a police baton against a bag-man and against each other while dressed in protective padded gear.
- Extricate a resistive operator out of a motor vehicle using their baton as a torquing lever control tool. (Recruits must play both parts.)
- Same as above only removing the operator by use of a bar-arm and inside body takedown.
- After removing or being removed as above, handcuffs will be applied to the "controlled" subject by the rear handcuff method.
- Use empty-hand, baton and firearm countermeasures on a simulated knife attacker and complete the technique with a handcuffing procedure.
- Execute a handgun retention technique, which requires them to quickly pivot 360 degrees.
- Recruits will be compelled to apply and to extricate themselves from a strangle/choke hold.
- Engage in foot pursuit with weapon in hand for approximately 25 yards at full speed, place the suspect in a prone position and apply a handcuffing technique. (Recruits also play the part of the suspect.)

Within the Physical Wellness Program, necessary warm-up and cool-down exercises are conducted.

III. CHEMICAL AGENTS TRAINING

The physical aspect of the chemical agents training consists of two exercises. In the first exercise recruits are full face sprayed with their agency's Oleoresin Capsicum (Pepper spray) - (O.C.) that may be composed of Oleoresin Capsicum pepper, Isopropyl alcohol, and Isobutane/propane as a propellant. During this spray event, the recruits are directed to have their eyes and mouth shut.

Subjects sprayed with this mixture can experience uncontrollable coughing, involuntary closing of the eyelids, loss of body motor control, intense burning sensation of the skin and respiratory distress.

In the second exercise, recruits are required to walk through a cloud of either Chloroacetophenone "CN" or Ortho-chloro-benzylidene-malononitrile "CS" tear gas. These gases can produce irritation, burning, and pain in the eyes, nose, throat, and respiratory tract. Effects in the air passages and lungs cause coughing, sneezing, a feeling of suffocation and respiratory distress.

During this training, emergency medical personnel are present. Decontamination procedures consist of washing the recruit's face and skin with water and milk, as well as the application of a baking soda paste.

IV. FIREARMS TRAINING PROGRAM

The firearms program consists of five (5) eight (8) hour days during which time recruits are required to be outside and on their feet for up to 6-7 hours per day regardless of the weather conditions. Recruits must also wear a fully equipped gun (duty) belt that weighs between 12 and 20 pounds. They will carry steel target frames that weight between 27 to 39 pounds for a distance of approximately sixty yards. They must fire between 700 to 1,000 rounds of ammunition from both standing and kneeling positions.

During the "Stress Firing Course," recruits are required to run at % speed to full speed approximately 1,000 feet down a hill and immediately engage multiple targets from positions of cover and/or concealment. This is done in a crouched or kneeling position. The recruit then immediately re-holsters and runs to a second position and again engages multiple targets.

Recruits are also required to fire 20 rounds from a shotgun both standing and kneeling from the shoulder and the hip.

V. PHYSICAL WELLNESS PROGRAM

Physical Education Specialists administer the Physical Wellness Program. The quantity and quality of activity adheres to the guidelines established by the American College of Sports Medicine and the Cooper Institute for Aerobics Research. All recruits engage in three to five hours of physical activity per week. Activities include aerobics, weight training, running, stretching and flexibility. Each activity session encompasses the necessary warm-up and cool-down phases.

VI. DRIVER TRAINING PROGRAM (Emergency Vehicle Operations Course)

The physical portion of the Driver Training Program requires recruits to be in a vehicle for 30-40 hours over a five day period engaged in various driving activities. Seatbelts will be utilized during all driving courses. As either a passenger or driver, the recruit may experience:

- Sudden and quick movements from side to side while traveling in several vehicle dynamic courses in the forward direction at speeds of 25 to 40 mph. (Evasive/Collision Avoidance)
- Vehicle skids on wet or dry surface depending on weather conditions at approximately 18-22 mph in a “skidcar”. This may also occur at higher vehicle speed in the pursuit course and cumulative course. If any driver error occurs in this type of skid, a secondary skid with equal to or greater intensity, throwing the vehicle violently in the opposite direction. (Skid Control Activity)
- Sudden forward movement when the brakes are applied on at speeds during a 40 mph braking course.
- Recruits will experience vehicle motion and dynamics at higher speeds (0-85mph) where the vehicle may be forced to steer suddenly, brake suddenly or drive through various cone courses. (Simulated Pursuit Activity)
- Driver must perform a timed driving stress course that will elevate the heart rate. (Cumulative Drive Courses or Simulated Pursuit Activity 3-7 minutes per run)
- Recruits may incur a foot chase or have to wrestle with a suspect. (Simulated Pursuits)
- Recruits will drive in reverse gear in a vehicle dynamics course, where they’re required to look only out the rear and side windows, which requires back and forth twisting of the upper torso and neck.
- Recruits may have to change tires on a vehicle

VII. WATER SAFETY TRAINING

Recruits are expected to remain in a swimming pool for up to three hours during which time they will perform the following activities:

- Tread water for one-minute using legs only.
- Dive to a 12 foot depth and recover an 11-pound dummy and a 25-pound dummy.
- Throw a two to three pound life-ring approximately 25 feet and tow a fellow recruit 25 feet through the water.
- Assist and pull a fellow recruit out of the water.
- While swimming with one arm, tow a fellow recruit 30 feet through the water at least three times.
- Escape from an aggressive victim by wrestling the victim underwater and swim to safety.
- Swim 50 yards twice at sprint speed.
- Perform four (4) separate spinal-injury management techniques requiring holding/lifting a fellow recruit to the water's surface using arms only.

PHYSICIAN'S INITIALS: _____

**POLICE OFFICER STANDARDS AND TRAINING COUNCIL
CONNECTICUT POLICE ACADEMY**

Physical Wellness and Fitness

**Assumption of Risk Form for
Apparently Healthy Individuals**

I desire to participate voluntarily in a regularly scheduled health-related physical fitness program at the Connecticut Police Academy. I understand that the exercise sessions involve one or more of the following types of activities: warm-up exercises such as calisthenics, muscular endurance and strength activities, aerobic or endurance and strength activities, aerobic or endurance activities including walking, jogging, and the like. Aerobic exercises are designed to place gradually increasing demands on the cardiovascular system in an attempt to improve my functional capacity (aerobic fitness). I further understand that these sessions are not designed for individuals with known heart disease with or without functional impairment.

Although complications are rare, I understand that the reaction of the cardiovascular system to such activities cannot be predicted with complete accuracy. There exists the possibility of certain changes occurring during or following exercise. These include mild lightheadedness, fainting; abnormalities in blood pressure or heart rate, ineffective heart function, and, in rare instances, heart attack or cardiac arrest.

I understand that the Police Officer Standards and Training Council will attempt to minimize such changes and their effects by having instructors who are knowledgeable in emergency procedures and who will possess cardiopulmonary resuscitation (CPR) certification.

I further understand that the Academy's Defensive Tactics Training Program consists of HIGH IMPACT exercises, including the "hip roll" and "shoulder throw" techniques. All high impact exercises are conducted at one-half speed.

I further certify that I have received medical clearance from a licensed physician prior to embarking on this exercise program. Any testing of fitness parameters by the exercise staff is to be used in determining individual progress and should not be relied upon by me unless such tests and reports are requested, reviewed, and approved by a licensed physician.

Finally, I understand that the staff related to these exercise sessions are trained and qualified in varying degrees in the fields of physical fitness and conditioning, and exercise physiology, but are not qualified to render medical advice.

I have read the foregoing and understand it. Any questions which have arisen or occurred to me have been answered to my satisfaction.
