What Is Apex Learning and How Can It Be Used? (Length: 45 min)

Participants learn how Apex Courses accelerate credit accumulation, review features for differentiating support for all learners, and leave able to identify support contacts, resources, and key next steps.

July 25th 1pm, Aug 8th 9am, Aug 15th 3pm

Program Implementation with Apex Learning (Length: 60 min)

Participants identify or review their goals and vision for learning, identify evaluation metrics, establish start and end dates, review program settings, determine eligibility requirements and student selection processes, and determine scheduling, registration, and enrollment procedures.

July 26th 9am, Aug 9th 3pm, Aug 16th 1pm

Best Practices with Apex Learning (Length: 90 min)

Participants receive a curriculum overview and learn to use the learning management system. Best practices for instruction, assessment, classroom management, student motivation, learning goals, feedback, progress monitoring, intervening while maintaining a high level of rigor, and communication options are explored with an emphasis on credit recovery and accumulation.
