Connecticut Code of Professional Responsibility

For School Administrators

Regulations of Connecticut State Agencies
Section 10-145d-400b

PREAMBLE

Subsection (a)

This code of professional responsibility for school administrators reaffirms and codifies the principles and standards that have guided the school administrator profession over the years. The principles set forth in this code are intended to guide the conduct and assist in the appraisal of conduct for the members of the profession and the public they serve. The code cannot, and does not address every situation in which choices and decisions must be made. The code recognizes the ability of the members of the profession to make administrative decisions that are in the best interest of the students and all individuals associated with the school district in which the members serve.

The code adheres to the fundamental belief that the student is the foremost reason for the existence of the profession. Administrators must focus the energies of schools on student learning above all else. In addition, the code recognizes the responsibility of administrators to the public, their colleagues and all staff members to foster high standards for professional educators, provide leadership, encourage diversity in curriculum and staff, and promote a quality educational program. By setting forth a code of professional responsibility for school administrators separate from the code applicable to teachers, there is a recognition of the similar but different responsibilities that the two groups have to the students they serve. Both codes seek to codify standards for the education profession to promote a quality system of education for the students in our state. The additional responsibility an administrator accepts in the performance of his or her duties is reflected in this code.
